### FLOOD WATERS ARE RECEDING

Conditions Improving On Restigouche—No Great Loss Expected.

The unprecedented flood conditions which have literally held the province in their grip for the past few days and which have wrought damage throughout New Brunswick estimated at several million dollars, are now abating and residents of the flooded areas are beginning to take stock of the loss occasioned.

On the North Shore.

This part of the province has so far escaped any serious loss through the sudden rise of the tides on the coast. Since the first of the week alarming rumors concerning the freshet on the Restigouche have been rampant and it was reported that where the log way in the lower part of the river probably two or three million logs would be swept out to sea and irretrievably lost. Latest reports, however, from those familiar with the situation greatly discount these rumors and state that there is no cause for alarm.

Since the first of the week the Matapedia river and the Upper Restigouche have been clear of ice and thousands of logs, belonging to the different lumber firms on the coast shore, have been running down stream. At Tide Head the ice, still lying in the river checked their progress and for a time it was feared that when the ice moved out of the river great quantities of lumber would run out to sea. The jam here has formed and the water is receding. The ice in the river opposite the town is now slowly breaking up and it is expected that most all logs escaping will be picked up between here and Dalhousie, according to information received from boom authorities here.

Owing to the jam at Tide Head the islands in the river there were flooded to a depth of six or seven feet. The small houses belonging to Restigouche Log Driving & Boom Co. and situated on McBeath's Island, were carried away. The different summer cottages on these islands, however, escaped any serious damage.

Two washouts occurred Monday on the Intercolonial Railway between Campbellton and St. Leonard. The high waters of the sudden freshet impaired a considerable distance of track near Grog Brook and temporarily obstructed all traffic at Grand River. The washouts were repaired but traffic has since been resumed. No great damage was occasioned in the flooded district.

Farther South.

Frederickton, N. B., May 2.—Residents of this city and the flood swept vicinity along the St. John river are commencing today to take stock of the loss occasioned by the record-breaking flood conditions of the last few days.

The flood, which reached its crest last evening, has commenced to subside very slowly. It will be days before an estimate of the damage can be obtained.

Fourteen highway bridges were included amongst the number which have been swept away or seriously damaged during the flood in central and southern New Brunswick, according to a survey made this morning.

Some of the Bridges.

Among the bridges carried away are the upper intercolonial bridge, above Milltown over the St. Croix river, known as the Baring bridge; the Meduxnekeg mouth bridge at Woodstock, and the Nashwaak, Durham and Penniac bridges over the Nashwaak river. In addition to these, the reports show serious damage to the Red Bank bridge over the Miramichi river, a seven span structure which was severely damaged by ice and is now impassable; Clinch's bridge at Musquash, an old wooden structure; River de Chaudiere bridge in Victoria county; the Johnson school bridge at Nappan, Northumberland county; the Marysville steel truss span, and two bridges over the Muskeg river in Victoria county. The Meduxnekeg bridge was the first of the large structures to be carried away following the breaking loose of the flood on the St. John river early Monday morning. The Penniac and Durham bridges followed during the course of the day, while the Nashwaak bridge was carried out Monday evening. The Malhe end of the intercolonial highway bridge at Baring was carried out yesterday while latest reports today said it the Malhe end of the bridge at U. Mills over the St. Croix river was carried away.

### LIQUOR INSPECTORS BECOME ACTIVE

Four Cases Brought Before Courts During Past Week—One Pending.

Apparently our post-liquor inspectors have "woken up." Just what influence or instrument played the role of the alarm clock and aroused their return to life is unknown, but at all events they have been fairly active for the last week and four liquor law violation cases have been brought before the courts.

At Forest River.

As a result of this activity George Wilson and his wife, alleged bootleg manufacturers of a backwoods settlement near Forest River appeared before Magistrate J. D. MacLellan on Saturday last. Wilson was convicted on an old charge, information for which was laid in May of last year. His fine amounted to \$60.00. This, it is understood, was paid by a friend of his wife.

The charge against Mrs. Wilson, was that of illegal manufacture of intoxicants. This emanated from a visit to the Wilson premises by Joseph Doucette, liquor inspector at Jacques River. There will also be some other matters to explain in connection with this case. Mrs. Wilson's guest, was that of Mr. Doucette when he called was not a very friendly one. According to the evidence the lady of the house acted a heavy stick and yielded it with a vengeance beating the inspector badly over the shoulders and arms, until he was forced to abandon his mission. Upon being notified of the occurrence inspectors Doyle and Smith went to Jacques River the following morning and visited the scene of the fracas accompanied by Mr. Doucette. After some little difficulty both the lady and her husband were taken before the magistrate, where Mrs. Wilson was committed for trial in July. Her husband stood bail.

At Forest River.

As a result of having intoxicating liquor on his premises, supposedly for sale, M. Delangue, proprietor of a tobacco and confectionery store here was fined \$50.00 and costs this week, information being laid by Inspector Wm. Smith. While searching the premises the inspectors discovered two bottles of gin which were concealed in a cleverly devised hiding place.

A case against J. I. Boudreau for "alleged selling without keeping the record required by law," has also been taken along with the case against Delangue. The case was set over until this morning as there appeared to be some slight technical objection over the jurisdiction point of law. This morning the hearing was adjourned until Tuesday, May 8th.

Juvenile Cases.

Information has also been laid in two cases of juvenile theft. The preliminary hearings of these cases began this afternoon.

Two drunks were arrested on Tuesday night. Both were strangers here, except to police officials, one being a resident of York County and the other belonging to Gaspé. Each was fined \$5.00 and costs.

Why should sugar indulge in such high jumps? Athletic season is not open yet.

They are mostly of wooden construction.

Marysville Structure.

At Marysville it is hoped to be able to replace the steel truss bridge over the Nashwaak there by the use of jacks. The bridge was shifted some six or eight feet out of position at one end. The water in the Nashwaak at noon today had dropped two feet following the crest of the flood which was reached yesterday afternoon.

Danger at Milltown.

St. Stephen, May 2.—The freshest situation along the St. Croix looks brighter this morning. The water has fallen about six inches and unless something new develops it is thought the worst is about over. Probably the most serious situation now is at the Main Central tracks at Milltown where it is feared that the water will undermine the roundhouse and machine shops. Large crews are at work at this point. No trains will move from here today, but it is hoped that there may be a train service to McAdam tomorrow.

Ham's a salesman a right to kick if the firm ruins his prospective sales? You will sympathize with Leo Wagner as the peppy, snappy salesman at the Opera House, Friday evening, May 11th.

### ANOTHER SUCCESS FOR LOCAL TALENT

"May Day in Inlington" Well Staged by Mrs. Ray Ferguson.

With the presentation of "May Day in Inlington" at the Opera House here on Tuesday night under the auspices of the Soldiers' Memorial Hospital Aid Mrs. Ray Ferguson added to her enviable reputation as a director of juvenile plays. The piece which represented a typical English May Day introduced Esthetic Dancing, Folk Dances, Minuettes and Moonlight Dances and was thoroughly enjoyed by the large audience present. The host of little folks in the cast showed admirable grace and skill in the execution of their various parts and won repeated showers of hearty applause. The costumes were unique and recalled to mind all the romantic innuendo of famous old English stories. The fine tone of the whole programme bore abundant evidence of Mrs. Ferguson's unusual ability and painstaking care in her work of training and coaching her players and she deserves congratulations on the success of her efforts.

The specialties and the music by the orchestra were equally well appreciated. The solo by Mr. Lyman Gilker was much enjoyed and the Russian Dance by Mrs. Ray Ferguson and Miss Nina McDonald was received with hearty demonstrations of applause. A very satisfactory sum was realized for the Soldiers' Memorial Hospital.

Mrs. Ferguson wishes to thank Mrs. Frank Matheson for her valuable services, also the members of the orchestra, Messrs. Romo, Arsenault, Gilman and McKinnon as well as the Lounsbury Co., for the free use of a gramophone.

### GERMANY'S LATEST REPARATIONS OFFER

Wants Total Sum Fixed At 30 Billion Marks—Suggests Two Plans.

Berlin, May 2.—Germany's latest reparations offer proposes that the sum total of her obligations in cash and kind under the Versailles treaty be fixed at thirty billion gold marks. The German Government in a note made public here today simultaneously with its receipt by the Entente and Washington Governments proposes that twenty billions of the total be raised before July 1, 1927, by a bond issue at normal rates of interest on the international money market. Five billions would be raised before July 1, 1929, in the same manner, and the remaining sum similarly before July 1, 1931.

Her Utmost Capacity.

The note asserts that Germany, in accordance with existing treaties, will also make payments in kind which are to be credited to her account. The note expressed the Government's conviction that the new proposal represents the utmost limit of Germany's capacity to pay and expresses grave doubt as to whether the offer does not exceed her ability in view of the heavy dislocation and weakening of the Reich economic organization caused by the Ruhr occupation.

In case the creditor Governments do not share Germany's belief that no unprejudiced party could arrive at a higher estimate in view of her general condition, the Berlin Government proposes that the whole reparations question be left to the decision of an international commission, free from any political influence.

First Issue Immediately.

The note proposes that the first twenty billion marks of the total of thirty billion be offered for subscription immediately. Interest on bonds up to July 1, 1927, would be taken out of the loans themselves and would be paid into a special fund under control of the reparations commission.

If twenty billion marks cannot be raised by means of a loan before July 1, 1927, interest at five per cent. would be paid on that sum from said date, in addition to one per cent. for amortization.

Fulfillment of Germany's obligation, the note continues, depends on the stabilization of her currency; therefore it is necessary, in connection with the regulation of the reparations problem to bring about a methodic and permanent stabilization in order to remove the apprehensions of other countries with respect to ruinous German competition. Strengthening of the currency will also enable Germany to restore her internal finances, the note points out.

In order to realize this programme and also to safeguard the interests of those who finance the loans, the German Government says it is essential that there be no more forcible seizures of securities, that no further sanctions be imposed, that Germany be freed from the unproductive expenses with which she is now burdened and that she also be liberated forthwith from all political and economic restrictions.

Third Alternative.

As the third alternative the note proposes a court of arbitration composed of a representative of the reparations commission and a representative of the German Government, together with a chairman whom the president of the U. S. would be requested to nominate in case the other 11th.

### DOMINION EXPRESS LOSE PRIVILEGE

Canadian Public Works Dept. Takes Over on C. N. R.

Montreal, April 30.—It was announced at the head office of the Canadian National Railways here today that effective June 1, the service of the Dominion Express Co. on that section of the C. N. R., formerly known as the International, would be discontinued and the express business in that territory operated by the C. N. R. Express. Some days ago Sir Henry Thornton notified the Dominion Express Co. that the privileges heretofore granted to that company would be withdrawn.

For some years there have been two express companies operating on the former Intercolonial, with a duplication of expense and a division of revenue. With the co-operation of the National system arrangements have been completed by the Canadian National Express department to handle the business hitherto done by the Dominion Express Company on the Intercolonial and Prince Edward Island and conferences are taking place between the officers of the two organizations for the purpose of effecting the transfer in such a manner as will work out to the satisfaction of all concerned.

Superfluous Cultivation.

The president of Yale sadly compares the amounts spent on education with those spent on cosmetics. A lot of people evidently believe the outside of their heads responded best to cultivation.

### SMOKING CAUSES MINE EXPLOSION

Chinese Miner and Thirty-two Others Perish in Fire Which Resulted.

Victoria, B. C., May 2.—Jung Low, a Chinese miner was responsible for the explosion in No. 4 mine of the Canadian Collieries at Cumberland, February 8 last, that cost the lives of Jung and thirty-two other miners. According to the report of an investigation of the disaster made by George Wilkinson, official investigator for the Government.

According to Mr. Wilkinson, evidence secured indicated that Jung while working in the mine attempted to light a cigarette, when the charged atmosphere exploded and burst into flames.

Dalhousie

We regret very much to hear that Amelia Letourneau who has been ill for the last ten months is not recovering very rapidly. Her many friends here wish to see her among them again.

Mr. Richard Lane of Campbellton was a visitor to town recently.

### ATTACK CIVIL SERVICE SYSTEMS

Two Deputy Heads, Testifying Before Committee, Argue Against Present Method.

Ottawa, May 2.—Two deputy heads, before the civil service committee of the House last night, attacked present methods of making civil service appointments.

"I believe patronage is the only democratic way of appointing to the civil service," declared Thomas Mulvey, under-secretary of state. "The present inflexible, rigid, mechanical, iron-bound system," said Sir Joseph Pope, under-secretary of state for external affairs, "destroys initiative, kills individual effort, is subversive of discipline and tends to the creation of a service the members of which rely more upon combination, intrigue, cabal among themselves to advance their interests than upon honest hard work."

Experience with war is likely to convince one that it is hate that makes the world go round.

Two members failed to agree as to the nomination.

If the lady of the house resorts to violent tears she is generally assured of gaining her point. Miss Gertrude Thompson as the wife in "A Pair of Sixes" finds the idea a capital one. At president of the U. S. would be requested to nominate in case the other 11th.

### OBITUARY

#### Robert Hudson Montgomery

Sincere sorrow and sense of personal loss is being expressed on every hand in the passing away of Robert Hudson Montgomery, Esq., of New Richmond, P. Q. Not only the community in which he lived, but the whole Bas de Chaleurs Country has suffered loss.

Mr. Montgomery was in his usual health till the week before his death. He passed peacefully away on April 20th, aged eighty-three years, nine months and twenty days. He was a man long and well known in the business world, being the head of the old firm of R. H. Montgomery Sons Co., Ltd., which for many years has carried on an extensive lumbering business in New Richmond.

Mr. Montgomery was a man of winning personality, acquainted with and interested in young and old. His interest was unflinching in everything which tended to promote the public welfare.

The Soldiers' Memorial Hospital in Campbellton had in him a firm friend, and he took keen delight in advancing and endorsing every effort made on its behalf. Mr. Montgomery was an honored and faithful member of the Presbyterian Church and a regular attendant at its services and every religious advancement gave him joy. The funeral on Sunday, the 22nd inst., was one of the largest in the history of New Richmond. The church was filled to the limit of its capacity, many finding standing room in the entry. People of all classes and creeds assembled to show their respect and sorrow for one who had taken so large a place in the life of the congregation.

The service was characterized by perfect attention, bearing testimony to the high esteem and reverence in which the deceased was held. He had been the benefactor of many, the friend of all. The service was conducted by the pastor, Rev. Alexander MacKay, who spoke from the words in Rev. 14:13, and Heb. 11:4.

The first thought to which Mr. MacKay drew attention was the fact that all die. People differ in many things, such as temperament, mental ability, age, accomplishments, mental and moral characteristics. Each age of men has its peculiarities, each country its peculiar tensions and type of civilization. Each class has its good and weak points, its elevating convictions, its unworthy prejudices. No two human characters are alike, we differ in many things, but one thing unites us all. There is one experience common to all, and that is death. The next thought emphasized was the blessedness of the dead who die in the Lord. The world's conception, blessed are the living contrasted with God's "Blessed are the dead," not all the dead, but those who die "in the Lord."

The meaning of the term "to die in the Lord" was next dwelt upon. Dying in the Lord implies a close and living personal union with Him. A Christian is a man who is in Christ, and who abides and remains in Him. A man must die in the Lord as we live in the Lord if we are to pronounce him blessed.

What causes this blessedness? It is some of the reasons for it: (a) First, there is the blessedness of contemplation; the Christian has a bright prospect.

(b) A second reason is "dying in the Lord" means the entrance into a more abundant life. Everywhere life is conformed by death. Every advance in life necessitates death. Nothing lives save as it draws nourishment from air, earth, water or from animal and vegetable tissues by a process which involves the decomposition of that upon which it feeds.

"Except a corn of wheat fall into the ground and die, it abideth alone, but if it die it bringeth forth much fruit."

"Life evermore is fed by death. In earth or sea or sky, And that a rose might have its life, Something must die."

So also the death of the believer means a more abundant life. (c) Another reason for this blessedness is "They rest from their labours." Observe the reading is not that they may rest from their work, but from their labours. Work is God's universal law. In its essence work is happiness. They rest from their labours, from the weariness of physical labour, the depressing reactions of intellectual pursuits, the strain of spiritual conflict, the cares, the worries, the anxieties, the burdens, the loads of life. There is rest therefore a rest for the people of God.

(d) Another reason is this: "Their good works, kind deeds performed in the name of a disciple follow them into heaven, where they shall be as stars for their eternal crown." But their good works follow them in another way. They follow them here. Their influence still lives. They bring dead yet speak to us by those good works or Christlike acts. Every man makes a long post-mortem speech eloquent with the

### CONTRACTOR IS ELATED OVER IT

Montreal Citizen Declares Tualac Restored SeSif, Wife and Father—Gains 17 lbs.

"Tualac has been of such great use to me that I can't speak too highly of it," said Jas. Desjarlais, well-known contractor, living at 235 Boyer St., Montreal, P. Q., a few days ago.

"For eight months my health was so wretched I could hardly keep on the job. I could scarcely eat anything, lost about thirteen pounds in weight, and felt exhausted all the time.

"My wife was also in a weak, rundown condition, extremely nervous and unable to sleep well.

"A friend got her to try Tualac and the treatment has strengthened her until her nerves are perfectly calm. I began taking the treatment at the same time, and for my part, I gained seventeen pounds. I feel better and work better.

"My father has taken several bottles of Tualac also and is just as highly pleased with it as I am."

Tualac is for sale by all good druggists or substitute. Over 37 million bottles sold.

### Archibald Settlement

We are glad to see the signs of spring approaching once more after the cold, rough winter. The roads in our locality are in a very poor condition at the present time.

We are very sorry to hear of Mr. Melvin Brunswick being seriously ill with the 'flu', he hopes are entertained for his recovery.

Mr. Charles Bernard has gone to spend a few days with his daughter in town.

The village club met at the home of Mr. and Mrs. Joe Merserall on Tuesday of last week, when a very enjoyable evening was spent in dancing.

Delicious refreshments were served. Those present were Mrs. Johnson, Stella Bernard, Eva Brunswick, Mrs. Willie Rosengren, Orville Rosengren, Nena Seal yand Messrs. Percy Firlotte, John Deplacy, Wilfrid Bernard, Jack Gallant, Stephen Firlotte, Pete Firlotte, Paul Bernard, Willie Lovell, Wesley Firlotte, Alden Bernard and Wilbur Bernard.

Mr. Robert Brunswick entertained a number of friends at a dance last evening. Those present were Mrs. Rhudolph Rosengren, Misses Muriel Deplacy, Edith Gallon, Neva Seal, Mary Mungwagwagalla and Messrs. Percy Firlotte, Wesley Firlotte, Wilbur Bernard, Joe Murphy, Paul Bernard, Charlie Firlotte, Howard Carmichael, Wilfred Dridge and Murphy.

Misses Sue Myles, Gladys Cook, Janie Dwyer accompanied by Mr. Miles Bernard were visitors to this place last week.

Mr. Willie Rosengren who has been seriously ill with 'flu', is on the mending side.

Miss Neva Seal of Canale is visiting friends here.

Mr. and Mrs. Robert Archibald and son Irvin have changed their residence to Doyleville for the summer months.

Mr. Alex. Archibald who has been seriously ill with 'flu', his many friends wish him a speedy recovery.

Deathless rhetoric of the benefactor or hideous with the hoarse, harsh raspings of the evil door going on, on the ever reverberating of the doors and down the sounding aisles of time.

The thoughts contained in the text were applied to the life of the late Mr. Montgomery. He died in the Lord. He rests from his abundant labours. A kind Providence enabled him to be actively engaged, and so lively interested until the last. His works do follow him. They follow him there; they follow him here. He, being dead yet speaks, and shall continue to speak to us.

Touching reference was made to the loss all have suffered by reason of his death from among us. The greatest loss is in the home. Many have a sense of personal loss. There is the loss of the community, and of the church. His place in the congregation worship was seldom empty. He also supported liberally the church's work at home and abroad. In him the Soldiers' Memorial Hospital had a sincere and liberal friend. He took great interest in the work of the British and Foreign Bible Society, being president for many years of the New Richmond Auxiliary. He was most enthusiastic in whatever he took in hand to do, fulfilling the injunction "whatsoever thy hand findeth to do, do it with thy might."

Among his many characteristics might be mentioned. He was a man of kindly disposition, a man of generous impulses, no one came to him seeking help in vain; he generously supported every good cause; he was a benefactor. His interest in others; he was a man of tolerance, respecting the opinions and beliefs of others; he was a man of tolerance, respecting entering into other people's trials, and sympathizing with a comforting and encouraging word. Verily, verily, his works follow him.

"Only remembered, only remember by What we have done."

Thus would we pass from the world and its tollings; Only remembered by what we have done."

Mr. Montgomery had a great fondness for the palms and parrots and the old family hymns, so the selections were: "The Lord's My Shepherd, I'll Not Want" (Pa. 23), "Nearer My God to Thee" (Hy. 223), "Forever With the Lord" (Hy. 8).

The choir sang very effectively "Shall We Meet Beyond the River?"

His kind words, his pleasant smile,

### THE TREND OF MODERN TIMES

Criticized by Archbishop Worrell—Sports Become a Business.

Halifax, N. S., May 1st.—"Sport is no longer a recreation—it is a business, and in close co-ordination with it have grown the gambling habits which have taken from it many of the blessings which once accompanied the games of cricket and football and other athletics," says Archbishop Worrell, in his charge to be delivered recently at the diocesan synod which began its forty-sixth annual session with a celebration of Holy Easterday in St. John's Cathedral this morning.

Continuing a discussion of the trend of modern times, the charge says: "The world to-day is entering through an experience which has a parallel in the various departments of life have been attended by corresponding advances in the opportunity for self-indulgence and pleasure, so that while men and women are feverishly engaged in all sorts of activity, the fruits of their toil are spent over-lavishly in the luxuries of life.

"We hear of unemployment and suffering; that there is no money for the ordinary needs; bankruptcy is prevalent; yet when we go down the streets we meet crowds thronging from the theatres, well fed and expensively dressed. The only place where it is not necessary to pick one's way through crowds is in front of the churches. I do not think too much can be done in the way of beautifying the service of the sanctuary. There is too much subjective religion and not enough objective."

On the subject of church union the charge says that no practical results have so far followed in the wake of this question, although some progress is evident.

Discussing college federation the charge refers to the readiness of King's College to federate and says that the question of carrying out the scheme piecemeal is the point to be decided. "It is quite understood," the charge continues, "that these institutions ready to federate lay down certain conditions upon which they are willing to move to Halifax and join with Dalhousie. If these conditions are accepted the Carnegie Foundation is willing to give its help to whatever colleges, however few, enter federations as a beginning. It would be a grievous error to call off the whole scheme. To wait until all the colleges are ready to join would mean postponement until the millennium."

His general welcome will greet us no more, but he has left behind the remembrance of a long, industrious life, of a kindly and Christian generosity.

Mr. Montgomery is survived by his wife, six sons, (Robert L. Miles and Arthur of New Richmond; Edgar of Kimberly, B. C.; Colin of Banff, Alberta and Dr. Lorne of Brooklyn, N. Y.), and one daughter, Mrs. Malcolm of the Bank of Nova Scotia, Charlottetown, P. E. I. and several grand children.

The sympathy of a large number of friends and acquaintances is extended to the family in their bereavement. The funeral services were many and beautiful.

Miss Flora MacCormack.

At the home of her brother Alexander, Miss Flora MacCormack passed peacefully away on Tuesday, April 24th after a lingering illness of some months. Deceased was seventy-seven years of age and leaves to mourn, two sisters, Mrs. William Miller of Bellefleur and Miss Elizabeth of Black Lands. The funeral service was conducted by Rev. G. F. MacLennan and interment took place in New Mills cemetery. The pall-bearers were Messrs. James A. Miles, John MacCormack, A. A. MacNair, George Murchie, John MacMillan and William Jamieson.

In Modern France.

"The big town," said Farmer Cornfossel, "is only 40 miles away."

"That ought to make it easier for you to market the products of your farm." "I want you to understand that this isn't no farm. This here is suburban real estate."

Prudent Maid.

"If you could have two wishes come true what would they be?" said Maude. "Well, I'd wish for a husband," replied her friend. "That's only one." "Yes, I think I'd save the other until I saw how he turned out."

**LATE J. L. STEWART MRS. A. F. B. BURIED FRIDAY**  
 Lectures  
 Chatham Citizens Pay Last Tribute of Respect to Editor of "The World."

(Saturday's World).  
 Accompanied by his faithful old friend, Mr. Michael McDade, who was present at the funeral, Mr. Stewart arrived in Chatham at midnight Thursday and remained at the residence of Mr. Howard those days of Friday, Friday Street.  
 Besides Mr. McDade were Mr. and Mrs. F. S. Groves, the latter being a niece of the late editor; Mr. Isaac W. Stewart, a nephew, and Mr. J. Willard of Paris and Mr. South of St. John's, all of whom were when attended to pay their last respects.  
 Mr. Finlay, a brother Odd Fellow, kindly placed his residence at the disposal of the friends of the family and the funeral services were held there at 2 p.m.

Rev. Mr. Littlejohn read the committal, Rev. Mr. Harrison of Black River offered prayer and Rev. Mr. Anderson pronounced the benediction. The beautiful ritual of the Odd Fellows was recited by the officers of the local Lodge, those taking the part of N. G. Col. MacKenzie, P. G. and Garrison Archibald, P. G.  
 Many of the assembly were sorely reminded of the numerous occasions upon which the late editor, Mr. Stewart, had given his valuable aid in conducting similar services and were constrained to remember the transitory character of the experiences through which we all are passing.

The members of Chatham Lodge, No. 45 I. O. O. F., took charge of the last rites of the deceased, Mr. Stewart, which the local Lodges of both branches also bestowed an emblematic wreath of beautiful blooms.  
 The services at the house were conducted by Rev. F. H. Littlejohn and Rev. J. H. Anderson. The church rendered the following hymns: "Light of the World," "O God, the Father," and "Able Will We Be."  
 The members of Chatham Lodge, No. 45 I. O. O. F., took charge of the last rites of the deceased, Mr. Stewart, which the local Lodges of both branches also bestowed an emblematic wreath of beautiful blooms.

The general attendance at the last and office must have been very gratifying, it is gratifying to know that our late editor's memory appears to be held in very general respect, even by some of his most pronounced political opponents.  
 The good that man doeth is not always remembered with him.

## LATE I. L. STEWART BURIED FRIDAY

Chatham Citizens Pay Last Tribute of Respect to Editor of The World.

(Saturday's World). Accompanied by his faithful old-time friend, Mr. Michael McDade, who had been assistant in the "Melrose and Flinders" business, the funeral cortege left at 10:30 a.m. for the funeral home on Friday afternoon. The residence of Mr. Howard Fraser, Prince Street, was the place of the funeral. Present were Mr. and Mrs. F. S. Groves, the latter being the sister of the late editor; Mr. Isaac Stewart, a brother; Mr. Percy H. Stewart, a nephew, and Mr. J. Willard Smith of St. John's, a cousin all of whom attended to pay their last respects.

Mr. Fleiger, a brother of the late editor, kindly placed his residence at the disposal of the family and the funeral services were held there at 2 p.m.

Rev. Mr. Littlejohn read the eulogy. Rev. Harrison of Black River offered prayers and Rev. Mr. Anderson pronounced the benediction. The beautiful ritual of the Odd Fellows was recited by the officers of the local lodge, those taking the most prominent parts being George Bell, N. G. Col. MacKenzie, P. G. and Gardner Archibald, P. G.

Many in the assembly were forcibly reminded of the untimely occasion upon which the late Grand Master had given his valuable aid in conducting similar services and were constrained to remember the transitory character of the existence through which we all are passing.

Many floral offerings, tributes of affectionate regard, were received by the friends of the late editor, among them being a wreath brought by the prominent party being George Bell, N. G. Col. MacKenzie, P. G. and Gardner Archibald, P. G. The services at the house were conducted by Rev. F. H. Littlejohn and Rev. J. H. Anderson, assisted by the choir of St. Luke's Church who rendered the following hymns: "A Stealing and Effective Ministry," "The World's Redeemer," "The Day and 'Abide With Me'."

The members of Chatham Lodge, No. 45, I. O. O. F. took charge of the last indecently duties, headed by the Loggerville Band, the Odd Fellows in full regalia and in the number of seventy-five, representing Chatham and Loggerville, with a few from Douglastown and Millerton, preceded the hearse and the order designated clergy, funeral director, hearse, by Mr. Isaac Stewart, Mr. F. H. Stewart, Mr. F. S. Groves, Mr. J. Willard Smith, Mr. M. McDade, Mr. Geo. McDade, the School Trustees of the Town of Chatham, The North Shore Press Association, followed by the general public.

Floral offerings were as follows: Wreath—North Shore Publishers Association. Wreath—I. O. O. F., Chatham. Spray—Mr. and Mrs. F. S. Groves. Spray—Mrs. Charlotte McCracken, Calais, Me. Spray—William Noble Lodge, I. O. O. F., No. 114 Melrose, Moncton. Wreath—The World Staff. The pallbearers were Messrs. S. D. Heckbert, Charles Spurr, Harry Gray, Oswald Young, John Whyte and Col. MacKenzie.

The general attendance at the last office must have been very gratifying to the friends of the deceased gentleman, and in view of the short and uncertain notice and the hazardous travelling conditions it was much greater than was anticipated.

From the expressions of public sentiment which have already reached us through the press and otherwise it is not too much to expect that a very accurate estimate of the worth of our late editor has been applied.

Considering the life work of a journalist is such that conditions prevail which may make for certain necessities, it is gratifying to know that our late editor's memory appears to be held in very general respect, even by some of the most pronounced political opponents.

Some little activity is already seen along the water-front. Boats and wharves of all kinds are being repaired and put in readiness for the opening season.

## MRS. A. E. SMITH LECTURED HERE

Well-known Leader in Women's Work Held in Town Hall Last Friday.

(Saturday's World). Mrs. E. Atherton Smith's illustrated lecture in the Town Hall on Friday evening last attracted a large and appreciative audience. The subject was "The Women of the World." Mrs. Smith, a well-known leader in women's work, is a native of the United States and has spent much of her life in the study of the history and progress of the woman in the world.

Her lecture was a most interesting and instructive one, and was greatly enjoyed by all those present. She was thoroughly familiar with her subject and did many interesting incidents which have been overlooked by both the press and the general public. At times certain passages of her lecture were truly eloquent and her clear and carefully modulated voice held the tensely listening audience in its impressive sway.

Mrs. Smith's material was personally gathered on an extended tour of the battle fields and other places in France and Flanders two years ago, and her descriptions were graphic. She spoke in the highest terms of praise of the Canadian soldiers and laid stress upon several battles where they were particularly conspicuous. These include engagements at Ypres, the taking of Vimy Ridge, Hill 70, Passchendaele, Canal du Nord, the Amiens' Stos and others.

Mrs. Smith then on the screen interesting pictures of Vimy Ridge. The handling of the British Marines at Zeebrugge Mole was touched upon by the lecturer as one of the examples of the heroism shown in the war. In this engagement that obsolete British warships were sunk at the expense of the lives of many of the crew. During the course of her lecture she showed her audience from one battlefield to another and included such famous fights as Ypres, St. Julien, Cambrai, and others. The slides gave those who had never had an opportunity to see for themselves just how much devastation was wrought by present day warfare.

His Worship Mayor McKay presided and introduced the speaker with appropriate remarks. At the conclusion of the lecture his Honor Judge McLaughlin moved a hearty vote of thanks to Mrs. Smith and her splendid work.

Mr. A. A. Andrew heardly supported the motion with fitting remarks and Mrs. Smith responded with thanks and a touch of her characteristic humor. The motion was carried and the speaker in securing Mrs. Smith to give her famous travels here and it is the hope of many that in the long before this forceful speaker is again heard in Campbellton.

Grade VIII. Blanche de Ste. Croix, 88; Cissy Reid, 88; Betty Doughty, 88; Chalmers Reid, 88; Margaret Hamilton, 88; Ila Skene, 88; Billie Hamilton, 88; Violet McNeil, 88; Label Boston, 88.

Grade IX. Lillian Hamilton, 90; Jean Hornburg, 90; Percy Hamilton, 90; Henrietta Hamilton, 70; Thorburn Hamilton, 72.

Grade X. Anna McLean, 87; Whitford McLean, 84. J. G. TURNER, Principal.

Recumiac. We are glad to see signs of spring and prospect of once more having made it for travelling on the ice in the Bay still holds firm, and we can now safely yet speculate on the date of its going out.

## Noted English Doctor Tells How to Tame the Wife Beating Husband

Should Not be Fed Meat Condemns the Abominable British Breakfasts and Urges Use of Fruit instead of heavy foods

Many visitors to England have for long time suspected that some day from Dr. Joseph Oldfield of the Lady Margaret Foundation Hospital at St. Thomas, Kent, who wrote to the newspaper press that a Norwegian painter had been refused a restaurant because the proprietor found that the picture kept the patrons from eating.

"We no longer give our average ancestors" says Dr. Oldfield by way of interpreting the Norwegian omen "but we must dine in harmony with twentieth century ethics and twentieth century art. Flesh eating is essentially barbarous and an inartistic habit. Fruit eating is one of the artistic, cultured and humane."

An invention to postpone indefinitely the time when eggs begin to ripen is the contribution of a man who started by preserving flowers so they retain their freshness, smell and velvety softness for two years. After his success with flowers he tried fruit with equal success and finally he tried eggs which the scientists who examined turned from the West to his home.

Mr. and Mrs. Percy Billingsley have gone to North Hampton, Mass., where they intend making their future home. They were accompanied by Mr. Claude Renouf.

Mr. Ronald Billingsley who spent the winter with his son in Minn., has returned to his home in New Carlisle, N. S. Doctor Ross with his committee, we understand, have decided to build a girls school in New Carlisle. This being built to assist girls who are deserving of higher education. The Presbyterian Church is to be complimented on their venture for the poor of the Gaspe Coast.

The Rev. Mr. King, school inspector, accompanied by Mr. McBurney, chief inspector of the Department of Public Instruction, Quebec, paid a flying visit here recently.

Mr. Roland Billingsley is home again from the U. S. The Rt. Rev. Monsignor Ross, the newly consecrated Bishop of Gaspe has returned to his home in Montreal. He was accompanied by his sister Miss Cora Roussey who intends spending the summer in Campbellton. She was accompanied by her sister Miss Cora Roussey and her daughter and her daughter Miss Mary, who returned to their home after spending the winter in Montreal.

Mr. Charlie Chatterton has returned from the West to his home.

Mr. and Mrs. Percy Billingsley have gone to North Hampton, Mass., where they intend making their future home. They were accompanied by Mr. Claude Renouf.

## SOLVING THE CAR REGISTER NOW ON SHORTAGE PROBLEM GOING TO WOODS

Willing to Let Sir Henry Thomson Work Out Railway Problem. New Regulations in Force—Permits Can be Procured from Game License Vendors.

The following letter appeared in Saturday's Montreal Transcript: Editor Transcript: There seems to be some misapprehension in the minds of the public generally as to the car shortage problem in this province. I am a shipper of lumber and in the year of 1920 I had about 100 carloads ready to ship in the months of January, February and March, which were sold at a good price. I repeatedly discouraged the railway authorities to give me two cars per day, expecting to ship the lumber away by the first of April, or at least by the first of May. The following is a list of the cars I actually received: January, 3 cars; February, no cars; March, 3 cars; April, 15 cars; May, 9 cars; June, 17 cars; July, 19 cars; August, no cars; September, 5 cars and November 11 cars.

The result that I was forced to pile the lumber in the railway yard, along the public highway, in the fields or wherever I could find a place and leave the most of it exposed to fire and almost blocking the highway during the winter months of the summer. Prices fell from \$20 to \$25 per thousand. I was not able to make a settlement until early in 1921. That is the result of the present situation. Money was not available in time to carry on the next year's operation, the result of the present situation and the whole transaction was so disastrous that I quit the business completely discouraged.

This is an example of what happened to all the lumbermen in this province and the losses of the lumbermen and the losses of the accompanying Messrs. Chester Ross, Mansfield Assels, Angus Assels and Stewart Assels, who were in the business of the province was demolished.

The state of the roads and welcome rain prevented many from attending daily service on Sunday last. Last week we had several dining alibis visitors here in the persons of the Rev. Dr. Ross, Chairman of the Presbyterian Committee Hotel, Halifax, N. S. Doctor Ross with his committee, we understand, have decided to build a girls school in New Carlisle. This being built to assist girls who are deserving of higher education. The Presbyterian Church is to be complimented on their venture for the poor of the Gaspe Coast.

The Rev. Mr. King, school inspector, accompanied by Mr. McBurney, chief inspector of the Department of Public Instruction, Quebec, paid a flying visit here recently.

Mr. Roland Billingsley is home again from the U. S. The Rt. Rev. Monsignor Ross, the newly consecrated Bishop of Gaspe has returned to his home in Montreal. He was accompanied by his sister Miss Cora Roussey who intends spending the summer in Campbellton. She was accompanied by her sister Miss Cora Roussey and her daughter and her daughter Miss Mary, who returned to their home after spending the winter in Montreal.

Mr. Charlie Chatterton has returned from the West to his home.

Mr. and Mrs. Percy Billingsley have gone to North Hampton, Mass., where they intend making their future home. They were accompanied by Mr. Claude Renouf.

Mr. Ronald Billingsley who spent the winter with his son in Minn., has returned to his home in New Carlisle, N. S. Doctor Ross with his committee, we understand, have decided to build a girls school in New Carlisle. This being built to assist girls who are deserving of higher education. The Presbyterian Church is to be complimented on their venture for the poor of the Gaspe Coast.

## REGISTER NOW ON GOING TO WOODS

Permits Can be Procured from Game License Vendors.

Fredericton, N. B. May 2.—Inauguration of the system of registration of all persons entering the forests in New Brunswick on and after May 1st until November 1st is expected to result in as many as 50,000 certificates, being issued during the six-month period.

The Department of Lands and Mines have had 100,000 copies of the certificates prepared and more than half of that number have already been sent out to 700 persons who are authorized to issue them to applicants. The certificates are being furnished with supplies of the blanks and when the system is inaugurated tomorrow the necessary machinery will have been provided.

A similar system of registrations has been in vogue since April 1st in the province of Quebec and reports which have been received by the provincial officials here indicate that already satisfactory results are being obtained in New Brunswick every effort has been made to have the new regulations thoroughly enforced and all persons who are in the woods on and after tomorrow without being in possession of certificates of registration will be liable to penalties from \$10 to \$100. The only persons exempted from provisions of the new regulations are licensees and owners of timber lands entered upon and their employees, fire wardens, fire fighters, land surveyors, holders of licenses for hunting, fishing and mining and registered guides and those accompanying them.

The new system was given a trial last year in several districts in the province and proved so satisfactory that it was determined to put it into general use throughout New Brunswick this year. In the Juniper district alone last year 1,200 persons registered in one month, including persons going on blue-berrying expeditions and everybody else going into the bush and the fact that each had to register served so effectively as a warning of the necessity of care in the protection of the forests that in that district there was almost complete freedom from fires.

Throughout New Brunswick's forest lands at the present time are vast quantities of dead standing timber which has been transformed from a deterrent factor in the event of fire into the worst possible kind of a menace. Thousands of acres of Crown lands and privately owned timber lands are now a virtual danger zone in which fires will soon become uncontrollable and jeopardize the entire forest resources of the province. Thus is that more stringent methods than ever before are being taken this year to bring about the greatest measure of protection possible without completely shutting off the vocational opportunities which the wilds of the province afford.

Scores of communications have been received at the Department of Lands and Mines from county, county and other public officials throughout New Brunswick seeking information as to the details of the new system of forest travel registration. One feature of most of these communications has been the evident disposition to co-operate in every possible way in a movement which has such a laudable object as its purpose.

Permy McMillan of Campbellton is the guest of her cousin, Miss Evelyn Downs this week. Mrs. Archie Downs was in Mann's Settlement on Thursday evening.

River Charlo. Mrs. David Sadler, Chatham, is spending a week with her mother, Mrs. Robt. Dickie, without completely forgetting her duties as a mother. Those from Charlo attending the lecture in Campbellton on Friday evening by Mrs. E. Atherton Smith and Mrs. J. E. Cook, Miss Florine Jamieson.

Mr. George Chalmers was in Campbellton on Saturday. Mr. Ian Hamilton was in Jacquet River Monday.

J. G. Turner was the guest of friends in Campbellton for the weekend. J. Tardiff, Government Seed Inspector, was called home to Ottawa by the death of his mother.

Mrs. Scott Hamilton and little daughter Irene, have returned from Bathurst, where Irene was having treatment from Dr. Coffyn for an injury to her eye. We are glad to know there is considerable improvement.

Peggy McMillan of Campbellton is with her grandmother, Mrs. James Cook for a short time.

Miss Melanville, Grace Wallace, Rosa Lovick, Sallie Harris, Frances Irvine.

Messrs. J. A. Anderson, Wesley Miles, Melvin Duncan, Rex Alford, James Alford, Lloyd Anderson, George Ferguson, D. Mann, Clarence Harris, Herbert Cooling, Howard Mann, Kirk Pollock, Hughie Harris and other guests from Matapedia, Glen Levit and Mann's Settlement.

Miss Beatrice Downs was visiting her aunt, Mrs. Barney Irvine in Tide Head last week.

Miss Blanche Irvine of Tide Head

## Jacquet River

The marriage of Miss Mary Audrey Doyle, daughter of the late Mr. and Mrs. Miles E. Doyle, to Mr. Henry Edgar Frenette, second son of Mr. and Mrs. Frank Frenette, took place in St. Gabriel's R. C. Church on Wednesday morning at eight o'clock. Rev. Father J. Berube performed the ceremony at special high mass. The church was beautifully decorated for the occasion with potted plants. Mr. A. Degras, the organist presided at the organ. The bride who was attended by her maid of honor, Mrs. Herman J. Uteian, and wore her travelling suit of navy blue tulle, with a bouquet of white and pink flowers, was escorted by her brother, Mr. Edgar Frenette, who was dressed in a suit of grey and white. The groom wore a tuxedo and carried a bouquet of white and pink flowers. The ceremony was a most beautiful one and was attended by a large number of guests.

Mr. and Mrs. Percy Billingsley have gone to North Hampton, Mass., where they intend making their future home. They were accompanied by Mr. Claude Renouf.

## Across Canada Via Continental Limited

Finest of Service by Fast Through Steel Trains of Canadian National Railways from Coast to Coast.

The fine all steel through trains of the Canadian National Railways afford the traveller the finest of service across Canada. From the Atlantic coast to the Pacific coast, the maximum of travel comfort via the "National Way." The famous Continental Limited, a train unsurpassed in the excellence of its modern equipment, leaves Bonaventure Station, Montreal, every evening at 8:00 p.m. for Ottawa, North Bay, Cochrane, Winnipeg, Saskatchewan, Edmonton and Vancouver.

From Montreal Province points the connections can be made by the Maritime Express and the Ocean Limited, the premier trains of the Canadian National Railways Atlantic region. Arriving in Montreal early in the evening the Maritime affords a close connection with the "Continental." The Ocean Limited arriving in Montreal in the morning gives the traveller the opportunity of spending a day in the Canadian metropolis. The gradient of the Canadian National Railways through the mountains of Alberta and British Columbia is the lowest of any of the Transcontinental routes. With the smooth road bed this means a most comfortable journey amid mountainous scenery indescribable grandeur.

Particulars of this fine through service apply to any ticket agent of the Canadian National Railways or write General Passenger Department, Moncton, N. B.

Flat Lands. A very pleasant evening was spent at the home of Mr. and Mrs. A. Downs on Wednesday. Dancing being the chief amusement. The guests included: Mr. and Mrs. H. Ward, Mr. and Mrs. J. Hausman, Misses Kathryn Ford, Verona McDavid, Violet Anderson, Amanda Cooling, Melissa O'Brien, Nellie McLaughlin, Grace Wallace, Rosa Lovick, Sallie Harris, Frances Irvine.

Messrs. J. A. Anderson, Wesley Miles, Melvin Duncan, Rex Alford, James Alford, Lloyd Anderson, George Ferguson, D. Mann, Clarence Harris, Herbert Cooling, Howard Mann, Kirk Pollock, Hughie Harris and other guests from Matapedia, Glen Levit and Mann's Settlement.

Miss Beatrice Downs was visiting her aunt, Mrs. Barney Irvine in Tide Head last week.

### Sporting News

#### Baseball Chatter

Holke, Parkinson, Sand and Rapp make up a likely looking infield for Art Fletcher's Phillies.

Home run clouting so far indicates that Babe Ruth will have a number of rivals for the honor of this season. The seating capacity of the Polo Grounds, New York, will be increased to 65,000 when the new stands are completed.

From the way the Cubs are clouting the ball they must be out to top the Cardinals' title as champion slugging team of the National League.

Jim Kerman, the former Yale catcher who was sent by the Giants to Little Rock, should benefit by the coaching of Manager Kid Elberfeld.

Anyway, the Washington Senators have the satisfaction of trimming the great Rommel, Connie Mack's ace, on his first time out this season.

"Jocks" Conlon is making good with the Braves. The former Harvard star pulls many sensational fielding stunts to the delight of the fans.

Baseball sharp predict a hot three-cornered fight among Brooklyn, Bos-

ton and Philadelphia to keep out of the National League cellar.

The Pittsburgh Buccaneers are another team who have found the going rougher, and rougher. Unsteady pitching seems to be the cause of Smoketown's trouble.

Both the Sox, Red and White, got away to a bad start, but both outfits have played good ball. Tough breaks of the game have caused most of their defeats.

#### Dempsey's Purse to

#### Be Fat One

New York, May 1.—Jack Dempsey and Tommy Gibbons are as good as matched to meet for the world's heavyweight championship in Shelby, Montana, on July 4, Jack Kearns, manager of the champion, admitted this morning.

The papers have not been signed but they will be "as soon as a few minor matters are straightened out," Kearns said.

While the champion's manager

would not give out the consideration for which Dempsey is to sign, it is understood that he is to get a certified cheque for \$100,000 as soon as the contract is signed, another for \$100,000 in June, and a final instalment of \$100,000, forty-eight hours before he enters the ring.

Kearns also has been offered the option of accepting a percentage of the gate receipts if he prefers it to a guarantee.

Mike Collins and Loy Mulumby the two promoters, are expected in New York tomorrow and the articles will be signed if the promoters will agree on the "few minor details" that Kearns wants "straightened out."

Eddie Kane, manager of Gibbons, has already signed for a reported purse of \$50,000.

#### Herscovitch Badly Beaten in New York

New York, May 1.—Marty Summers scored Moe Herscovitch three times in their 12-round bout here last night and easily gained the decision over the claimant of the Canadian welterweight title. Summers dealt Herscovitch a beating in a slugger match. The two fought a draw at the same club a month ago.

Benny Leonard king of lightweights, hopes to retire from the boxing game this year. He hopes to retire, not only as lightweight champ, but holder of the welterweight crown as well. That's the dream of one of the greatest fighters in the history of the ring. He will battle Lew Tendler and if successful push on to Mickey Walker. If Leonard succeeds in holding off Lew Tendler, the most formidable contender for the lightweight title and wins from Mickey Walker, holder of the welterweight crown, he will have established a unique record in ring history. Such a feat would rate Leonard the class of three divisions. Several years ago he came in at the lightweight limit and fought Johnny Kilbane, featherweight champ. Kilbane was not compelled to make weight and there wasn't much difference in the

#### Grand Cascapedia

The snow is fast disappearing since the rain and everything looks like spring. We are now enjoying some very fine weather, which is greatly appreciated, after our long cold and stormy winter.

Mrs. Ernest Robinson who spent some time here with her mother, Mrs. Helen Robertson, left on Saturday for her home in Shigawake.

Miss Thelma Barter spent the week-end in New Carlisle the guest of Miss Pearl Cook.

Miss Elsie Robinson, teacher, spent the week-end with her parents, Mr. and Mrs. B. Robinson, New Carlisle.

Miss P. Cook of New Carlisle, is visiting here the guest of Mrs. A. J. Barter.

Mr. Vincent Darter who spent several weeks at his old home here, returned Monday to Chicago, U. S. where he is employed in bridge work.

Mr. John Campbell of Bonaventure, is spending a few weeks here the guest of his niece, Mrs. Charlie MacWhirter.

Mr. S. B. Clapperton spent Sunday at his home in Maria, returning Monday to Cascapedia.

#### Cricket, England's time-honored national summer pastime, is making headway in Canada, and enthusiasts in the game predict that presently it will take its place among the foremost sports played in the Dominion.

Until recent years the playing of cricket was confined to a few clubs in the country, foremost among which the Toronto and Hamilton clubs, both of whom, until the war, depleted their ranks to such an extent that they were practically put out of business, tried conclusions annually for an unbroken period of fifty years. Today, however, cricketers may be found in every city from the Atlantic to the Pacific, and each season sees the formation of new clubs. This is not alone due to the fact that Old Countrymen coming to Canada as naturally anxious to participate in a game to which they have been to the "manor born," but also to the interest which has been taken by sport lovers who admire the clean, sportsmanlike attitude of those who engage in the game.

#### Here and There

An addition to the Canadian Pacific Montreal-Toronto train service is a nightly train each way, making six trains every night between the two cities. The increase was found necessary on account of the heavy tourist traffic to Montreal from the West.

The opinion of Hon. T. D. Pattullo, Minister of Lands of British Columbia, is that "Canada has about at least 300,000 people annually, and this number can come on indefinitely. There is no limit to the requirements of the country, as many as we can get are wanted.

Nova Scotia is endeavoring to arrange an "old home" month during July or August of 1923, and it is expected that many from distant parts of Canada and the United States will visit the towns of their origin during the festival period set apart.

Incomparable Lake Louise has achieved new fame. The makers of the Gray-Dort car have put out a model in a new color which they term "Lake Louise Blue." It is of a lovely green-blue, and it has caught anything of the glorious gleam of Canada's most beautiful mountain lake it should be a popular color for other than motor cars.

Big Bill, the last surviving buffalo at the Pinafore Park Zoo, St. Thomas, was recently shot. The animal had been suffering for some time from the same maddeningly carried off his mate a few months ago. Big Bill was said to have been the finest specimen of Buffalo east of the Government Park at Wainwright, Saskatchewan.

Albert Steedwell, Canadian Pacific Railway engineer at Fort William, has an albatross dog that is a wolf killer. Mr. Steedwell has a farm at Uxala, and while on his way to the farm the dog routed out a brush wolf and chased it. During the subsequent battle one cowardly fellow which was dog and which was wolf. Mr. Steedwell went to the assistance of his pet and together they finished the wolf.

T. W. McKenzie, Canadian Pacific Railway agent at Rosemary, Alberta, has received letters patent on a device for the purpose of locking automobiles. It is so constructed that when the switch is thrown off the car is automatically locked, thereby eliminating the possible chance of an owner leaving his car unprotected. The device cannot be operated nor the car started by an unauthorized person without causing an alarm.

The number of persons killed or injured while trespassing on railroad tracks were 50 per cent. less in 1922 than the average of the preceding fifteen years. The figures are 5,300 for the month of 1922 compared with 10,736, the average for the previous years, according to an announcement made by the Safety Section of the American Railroad Association. This reduction in casualties is believed to be due to the improved policing by the roads and to success of the Safety First movement.

Inclusive, the Canadian Pacific Railway has transported to Vancouver 7,244 tons of grain representing 11,668,338 bushels. Last year during the same period the movement amounted to 2,502 cars or 3,967,632 bushels. From the beginning of the crop season 13,671,520 bushels had been exported from Vancouver, of which 11,123,620 went to the United Kingdom, 2,242,300 to the Orient and 300,600 to South America. Last year during the same period export amounted to 5,000,000 bushels.

#### CHURCH OF ENGLAND

ST. ANDREW'S CHURCH  
NEW CARLISLE, QUE.  
Sunday, May 6th, 1923.  
Morning Prayer at 10.30 a.m.  
The preacher will be A. E. Bouillon, Esq. of Pasphebec.  
Assession Day.  
Thursday, May 10th.  
Evening Prayer and Address.

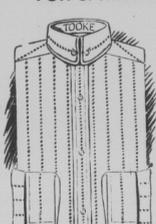

#### MIRAMICHI MILLS

Mr. Brockley announces that he will start the roasting mill on Monday next and the Douglasstown mill as soon as logs can be got to the boom. The Snowball mill is all ready for the season's saving and will start as soon as the rafts can be brought to it—World.

## Torrid or Frigid—It's All One to Prest-O-Lite!

**PREST-O-PLATES** make Prest-O-Lite the all-weather battery, just as they make it the long-lived battery. Heat cannot buckle them nor cold impair their efficiency. In construction, Prest-O-Plates are designed to withstand the abnormal conditions under which batteries are often expected to perform. Prest-O-Plates are found only in Prest-O-Lite Batteries.

The Prest-O-Lite Battery is 100% made in Canada—the product of the largest storage battery manufacturing plant in the British Empire. For that reason it can be sold at a price far lower than its quality would seem to warrant. There is a Prest-O-Lite Battery to suit your car, and a thousand Prest-O-Lite Service Stations in Canada to keep your battery up to full efficiency.

**PREST-O-LITE COMPANY OF CANADA, LIMITED**

## PLANT A TREE THIS SPRING

And Help Beautify Your Property and the Town—How to Plant.

How to Dig the Trees. When trees are carefully dug from the nursery rows or from the bush lands, as the case may be, and are subsequently well cared for, very few of them should die.

to sun and wind or frost for any length of time, say a few hours, will usually cause the death of the tree.

Pruning Before Planting. Newly planted trees die largely as a result of improper reduction of the crown or head, or of failure to reduce the same.

Time to Plant. In nearly every part of the Province of Ontario, except the northern and north-eastern, where at present the Provincial Highways exist, hardly shade trees may be planted during fall as well as in spring, and with confidence.

## RELIABILITY

The delicate flavour of "SALADA" never varies Every packet deliciously fresh

SOLD AT ALL GOOD GROCERS BROWN LABEL 75c PER LB.

A Whole Year's Shines. Get a "NUGGET" Omit—Brush, tin of polish and polishing pad—card-board boxes, 60c; metal boxes, 75c—and with three extra tins, 45c, you can have shine every day for a year.

**NUGGET Shoe Polish**

## Pile Potatoes Around It

If you've only a small cellar, I have the ideal heating system for you—the Gilson Pipeless Furnace. It has no pipes to clutter up the cellar and the outer casing is so cool that you can pile vegetables and fruit right alongside it.

The big outer casing cannot become heated—even at the bottom. Potatoes piled against it all winter will not sprout. The great current of cold air keeps it always cool.

I can sell you a Gilson at a very attractive price. I can install it in less than a day; no muck or fuss. No walls to rip up. I'll guarantee it to heat every room in your house perfectly. The fuel it will save will more than pay for itself.

**GILSON PIPELESS FURNACE**  
"Makes Many Warm Friends"

DEALER: ALEX. DAMBOISE, McDonald Bldg., O'Leary St., Phone 466, Campbellton, N. B.

Removal of Broken Roots. It is essential that all broken and badly injured roots be removed from the tree as they are planted, and also all excessively long ones such as protrude well beyond the general circumference of the mass of roots.

Planting the Trees. Care must be taken in the planting of trees. It may safely be said that success in the work will be in direct ratio to the amount of care expended.

Staking. Why is it necessary to stake trees? Because it is essential that once planted the root systems be not disturbed.

Home Production of Fruits and Vegetables. When money becomes scarce the best course to follow is to supply as many of the home needs as possible right on the farm.

More Eggs and Better Prices Anticipated. There are in Canada today about thirty million laying hens giving an annual return of nearly fifty million dollars worth of eggs.

After Every Meal. Chew your food well, then use WRIGLEY'S to aid digestion. It also keeps the teeth clean, breath sweet, appetite keen.

Healthy babies. mean good nations of the future. When mother's milk fails use Borden's EAGLE BRAND CONDENSED MILK.

## Exide BATTERIES

When the time comes to buy a new battery. A storage battery is one of those things that nobody ever wants to buy; you get a new one only because you have to.

When you install an Exide Battery in your car you are really taking out insurance against annoyance and repair bills and you are putting the day of reckoning far ahead that you are enjoying common-sense economy.

As for comfort, the willing power of an Exide, ready instantly to wind your engine or brighten your roads, is a satisfaction that you will appreciate as much as the thousands of other motorists who swear by, and not at, Exide Batteries.

An Exide Battery in your new car indicates that the manufacturer has taken every precaution to insure the life of your present battery wears.

**CANADA'S PROGRESS**  
 The Christian Science Monitor, the international daily published in Boston, takes Pro. Leacock to task for his gloomy picture of present day conditions in Canada, and the future outlook, recently drawn before the Canadian Club of New York. It says "What Pro. Leacock seems to have overlooked is the fact that, of all the countries directly engaged in World War, Canada has made the most rapid and sure recovery. This is in large part due to the character of the Canadian people; their willingness to work, and their fortitude in face of untoward conditions. Another factor is, of course, the great natural resources of the country; its

fertile farm lands, great timber (peat, mineral deposits, water powers, and highly productive fisheries. With these sources of wealth there would seem to be no reason why the progress made during the past four years should not continue, or that the tide of European immigration, to a considerable extent deflected by restrictions imposed on those entering the United States, should not flow northward.

We might almost feel grateful to the professor for his sombre tinted picture of Conditions in Canada for he has established a concrete example of the sort of spirit that our progressive dominion does not want. And the sooner it is brought into prominence the sooner it will be disposed of. If politicians and leaders in Canada entertained the same pessimistic views as Mr. Leacock this great country would suffer immeasurably. But they do not and the future prospects of the Dominion look more promising than ever before.

**AN ECONOMICAL REMEDY**  
 The recent severe shortage of water, which cost the town during the past fall and winter, thousands of dollars and which apparently makes a large expenditure of money necessary to prevent a similar occurrence in coming years, has opened up a line of thought that perhaps may find an economical way out of the difficulty.

The following letter to the Bathurst Northern Light:  
 "The writer should also like to point out the benefit of having water meters installed. Will say that the amount of water coming from an spigot dripping is 2500 gal. per year. From one same spigot of an opening there will be a consumption of 309,885 gal. per year. From the same size various Canadian towns which are not metered, that the consumption, per head per day is 248 gals., while in towns which are metered the consumption per head per day is only 52 gals. This in my opinion of itself would be

a very large financial return to the town.  
 By putting in meters it would show the leaky condition of fittings, would eliminate waste and reduce the consumption to a limited basis. Every consumer should pay for what he uses. Meters will save money for both user and the town. Equity is a basic of good business. Paying for what is actually used is good equity. Elimination of waste means less pumping, delays, the capital expenditure of costly waterworks equipment and distribution systems, and gives better and more efficient fire protection service. Rates based on the number of fittings—FLAT RATES—are inequitable. The reasonable consumer pays for the wastes of careless users. Selling by measure is practically universal in all commodities. Why not water?  
 It appears to the writer that if meters are not installed as suggested, ultimately the town will have to go to a considerable expense to provide a sufficient supply of water. On the other hand if the town adopts these suggestions I believe it will have a sufficient water supply to handle town three times its present size.

I remain  
 Yours very truly,  
 JOHN BALL

H. V. HENDERSON,  
 West Bathurst, N. B.

**Here and There**  
 The Swiss Government has appropriated 500,000 francs for the purpose of assisting the emigration of the unemployed, especially as farmers to Canada.

Saskatchewan now stands first in the world in regard to the number of rural telephones per capita, with a telephone for every nine of the population.

The Canadian Pacific Railway has a survey party in the Rosny goldfield, plotting a route in case it should be decided to push further northward the line now being built from Mattawa to Quins.

Construction work on a 39 mile extension of the Acme-Express line running from Drumheller to the Bull Pond will be commenced this year according to a statement made by D. C. Coleman, vice-president of the Canadian Pacific Railway.

Organization of the Okanagan fruit-growers' association has now been accomplished. Among the main difficulties which faced the co-operative advocates was the raising of adequate credit to finance the whole scheme. This has been overcome.

The United States bought Canadian produce during February to the value of \$28,719,205 in comparison with \$20,116,256, Canada's exports to the United States in 1922. Exports of Canadian produce to the United Kingdom were \$17,874,269 in February 1923, and \$15,316,265 in February 1922.

Canadian exports of whiskey for the year ending March 31st, 1923, amounted to 230,181 gallons valued at \$2,698,377; for the previous year the quantity exported was 192,019 gallons valued at \$882,729. Ale and beer exported during the past year amounted to 1,454,471 gallons while for the previous twelve months the amount was only 421,800 gallons.

Making Canada Europe's best and quickest road to the Orient means much to this country and the Canadian Pacific Railway is rearranging its route from England or France to Japan so as to reduce the journey by four days, has made the route more than ever a serious competition of travel via the Suez Canal. About 10,000 miles in 21 days is better than even Jules Verne thought of.

A silver tag attached to the dorsal fin of a salmon before its release after the eggs have been removed at the Dominion Government hatcheries is one of the methods resorted to by the Fisheries Department for tracing the life history of the fish. A reward of \$1 is paid by the Department for the return of silver tags that are being attached to Atlantic salmon, together with scales from the side of the fish, and particulars regarding their length, weight and place of capture.

With a view to developing tourist resorts along its line in Central and Western Ontario, the Canadian Pacific Railway will erect Bungalow Camps after the style of those successfully operated in the Rockies. The first three will be built in the Nipigon, French River and Lake of the Woods districts, and should be ready for occupation by July 1st. The low cost of construction and maintenance will make it possible to charge much lower rates than the standard hotel, and the camps will prove a boon to those of moderate means who desire to spend a week or more or less in the outdoors.

In the largest telegraph and telephone company in the world the majority of stockholders are women.

### COUN. ST. ONGE DENIES STATEMENT

Declares Tribune Has Made Mistake or Has Deliberately Published Falsehood.

Editor The Graphic.  
 Dear Sir:—  
 In order that the citizens of Campbellton may not be misled through the statements of the Tribune I wish to contradict the statement made by the editor of your contemporary yesterday in regard to the Town Hall discussion which he has chosen to give considerable space. The Tribune states that I took objection to the suggestion that the W.C.T.U. and other temperance organizations be given the free use of the Council Chambers. This is not so, and I challenge Mr. Crockett to meet me at the next council meeting and prove his statements before the members of the council board and the citizens who were present at the last meeting. The Editor of the Tribune has either made a mistake or is deliberately publishing a contemptible falsehood.

Thanking you for space, I remain,  
 Yours truly,  
 (Sgd.) GEO. ST. ONGE.

With so many distractions in the present-day office who can blame the poor Office Boy if his eyes oft wander from his work. See a real office boy and be sure and note the distractions. These will be on view at the Opera House on Friday evening, May 11th.

## LOCAL ITEMS OF INTEREST

Navy Notes of Town and County. Gathered by Graphic Reporter.

Can a man serve two masters? Mr. J. Irvine answers that question at the Opera House Friday evening, Special price May 11th.

WINS SWEATER. The winner of the sweater for which tickets were sold two weeks ago is Mr. Harry Doull who had No. 27.

NOTICE. Dr. Brennan will be not shown from the 15th of May to the 4th of June. Office closed during this time.

TRUCKING. I am prepared to do all kinds of trucking. Special attention given to families moving. Work satisfactory done and under reasonable prices. MIKE O'CONNEL, King Street, Town. 1-wk.

SPRING ACTIVITY. Spring activity in herring and lobster fishing has begun at several points along the Gaspé Coast. The Chatham News, of New Carlisle, are preparing three hundred lobster traps for this season's fishing. They have also a number of new salmon and mackerel traps.

"TOO MUCH JOHNSON." All will regret that the comedy "Too Much Johnson" to have been put on in the Opera House here tomorrow evening by the Korking Comedy Company of Bathurst has had to be postponed on account of some of the members of the cast being ill. It is expected that within three weeks time this fine company will be able to come to Campbellton.

NOW ON WATER STREET. The proprietor of the Kosy Kafé has vacated his former stand in the Ellsworth building opposite the depot and is preparing to open up in the Moore's building on Water Street which was recently occupied by the Cumberland Piano Co. Out of town patrons as well as regular local customers are cordially invited to call at their new quarters.

MIRAMICHI ICE OUT. Most persons were surprised on Monday to see open water in the river where on Sunday only ice had been. It took an unexpected start after dark on Sunday night, and the river was free from heavy ice on Monday. A team crossed on Saturday and several people walked over the road on Sunday at noon. A great quantity of drift wood came down with the ice, giving people the impression that a large number of logs were being carried to sea, but we are informed by persons who know that less than half a million feet passed down, much of which will be recovered. A boom has been stretched across the North West bridge but owing to the abnormal freeze the South West could not be spanned. The Miramichi, owing to the favor in which its lumbermen are held by the Freshet Controller, was singularly blessed with small ice in comparison with other parts of the province.—Chatham World.

Spring wheat is now being sown in the Yukon.

The death of a daughter of Mr. McKenzie, been an ever gradually Christmas day evening, died here in half to mourn.

TWO ARRIVE Montreal, the detective night that made yesterday's man for the was shot dead. Details regarding the arrest night, but given out.

### LOCAL ITEMS OF INTEREST

Newspaper Notes of Town and Country Happenings  
Gathered by Graphic Reporters

**ONE MAN WERE TWO MASTERS?**  
J. Lyons answers that question at the Opera House Friday evening, May 11th.

**WINS SWEATER.**  
The winner of the sweater for which tickets were sold two weeks ago is Mr. Harry Doull who had No. 27.

**NOTICE.**  
Dr. Brennan will be out of town from the 15th of May to the 4th of June. Office closed during this time.

**TRUCKING.**  
I am prepared to do all kinds of trucking. Special attention given to families moving. Work satisfactorily done and rates reasonable. **MIKE CONNELL**, King Street, Town.

**SPRING ACTIVITY.**  
Spring activity in herring and lobster fishing has begun at several points along the Camps Coast. The Chatham Bros., of New Carlisle, are preparing three hundred lobster traps for this season's fishing. They have also a number of new salmon and mackerel nets.

**"TOO MUCH JOHNSON."**  
All will regret that the comedy "Too Much Johnson" to have been put on in the Opera House tomorrow evening by the Korking Comedy Company of Bathurst has had to be postponed on account of some of the members of the cast being ill. It is expected that within three weeks time this fine company will be able to come to Campbellton.

**NOW ON WATER STREET.**  
The proprietor of the Kory Kafe has vacated his former stand in the Ellsworth building opposite the depot and is preparing to open up in the Moore building on Water Street which was recently occupied by the Cumberland Piano Co. Out of town patrons as well as regular local customers are cordially invited to call at their new quarters.

**MIRAMICHI ICE OUT.**  
Most persons were surprised on Monday to see open water in the river where on Sunday only ice had been. It took an unexpected start after dark on Sunday night, and the river was free from heavy ice on Monday. A team crossed on Saturday and several people walked over the road on Sunday at noon. A great quantity of drift wood came down with the ice, giving people the impression that a large number of logs were being carried to sea, but we are informed by persons who know that less than half a million feet passed down, much of which will be recovered. A boom has been stretched across the North West bridge but owing to the abnormal freshet the South West could not be spanned. The Miramichi, owing to the favor in which the lumbermen are held by the Freshet Controller, was singularly blessed with small loss in comparison with other parts of the province.—Chatham World.

Spring wheat is now being sown in the Yukon.

### TEN LIVES LOST IN WRECK MONDAY

British Bark is Wrecked Near Guam, March 27th.

Manila, May 2.—Ten lives were lost when the British bark Amy Turner was wrecked near Guam, March 27th, according to a telegram received here today from the provincial commander of Surigao, Island of Mindanao, P. I.

**CONGOLEUM RUGS.**  
Sale week, May 6th to 12th. Special prices.

**RENAULT BROS. LTD.**

**SPECIAL VALUE THIS WEEK.**  
Sherry's Super-Kromb Ruffles, regular 65c selling this week at 25c per lb at the CAMPBELLTON GARB AND CARRY STORES.

**CARD OF THANKS.**  
Mr. and Mrs. George J. McKenzie of Campbellton wish to express their sincere thanks to all those who were so kind and sympathetic to them during their recent and bereavement.

**FIRE THIS MORNING.**  
A slight fire broke out in a dwelling on Adams Street near the skating rink about 6:30 this morning, but the fire brigade extinguished the blaze before it had made much headway. Mr. Alex. LaBlanc who occupied the house had his household effects packed preparatory to moving out. The fire, which originated from some unknown cause, started in some mattress. The total loss, it is estimated, from fire and water will not exceed \$100. The building is owned by Havelock Sansom.

**THANK THEIR PATRONS.**  
On having discontinued our business we wish to extend our thanks to our many customers both in Campbellton and throughout the surrounding country for their generous patronage during the time we were in business here. In all our dealings we have tried to merit the confidence of the general public and we thank our many friends for their expressions of goodwill. As we were forced to vacate our former premises on May 1st we have temporarily removed the sale of our stock to the store-room above the store of F. Gillman & Sons opposite McDonald's Drug Store on Water Street just a few doors east of our former stand. So far we have not made arrangements to resume business on a new site but in the interim, anyone wishing to see us on business will find us as above stated in the Gillman Building.

**GOODMAN & GLICKMAN.**

**BUYING HIDES AND FURS.**  
We buy old rubbers, hides, cat skins and furs. Paying highest cash prices.

**WHAT'S COMIN'?** Why the Greatest Show on the Screen today "IN THE DAYS OF BUFFALO BILL" Watch for Details!

**TWO ARRESTS IN MURDER CASE.**  
Montreal, May 2.—Chief Lepore of the detective bureau announced last night that another arrest had been made yesterday in connection with the murder of Jean Baptiste Roy, watchman for the Perrin-Kayser Co., who was shot dead early Monday morning. Details regarding the man under arrest are being withheld. A man was also arrested in the case late last night, but his name has not been given out.

**OBITUARY**  
Olive McKenzie.  
The death took place on Sunday evening, April 29th, of Olive, second daughter of Mr. and Mrs. George J. McKenzie. The little one who had been an invalid all her life, had been gradually failing in health since Christmas until death came on Sunday evening at seven o'clock. Her children have seven sisters and are left to mourn their loss.

**Public Health**  
CLEAN UP NOTICE

All owners or occupiers of premises in this town of Campbellton are hereby notified to clean up and remove on or before May 19th, 1923, all refuse or any material, of any kind that might prove to be or become injurious to the Health of the Public.

Sanitary Inspector, Mr. G. E. Asker will inspect all premises and any person or persons, who have not removed all filth etc. by May 19th, are liable to be prosecuted according to law.

By order,  
A. McE. McDONALD, Secy. Rest. Sub-Dist. Board of Health

What would you do if, after giving a firm an order valued at several thousands of dollars, the partners staged a futile combat over your person. Well, what Lonsdale will do at the Opera House, Friday, May 11th.

### OF INTEREST TO WOMEN

#### Easy Ways to Guard Your Complexion

By LUCREZIA BOEL

The Famous Spanish Prima Donna Although most of us look forward all winter to the first balmy spring days, when they finally begin to arrive we find that there's a fly in the ointment.

This is nothing more or less than the winds that presage warm weather. They must come before real spring is with us, and it seems they can't come without bringing ill-effects in their wake.

These ill-effects, of course, need not be tragic in their results, but they are unwelcome because they do impair our beauty to a certain extent.

The impairment comes in the form of chapped skin, chapped lips, straying locks and red hands. Before that long-for balmy weather which makes us all feel younger and full of life, we must go through this season which never helps any of us to appear at our best.

It's very trying on an early spring day to be out and have the wind loosen your hat till your hair streams down from it. In several unglorious ways, we must go through this season which never helps any of us to appear at our best.

Now, if you'll give these things a little forethought you can practically eliminate the effects which so mar your beauty.

In the first place, if you treat your skin to a good skin food, you'll keep it in such a smooth, well-oiled condition that rough winds won't find it nearly so easy to wrinkle and chap.

Here's an effective skin food which you may also use for a massage cream.

- Lanolin ..... 2 ounces
  - Paraffin ..... 1/2 ounce
  - Petrolatum ..... 6 ounces
  - Cocoa butter ..... 1 ounce
  - Rose-water ..... 4 ounces
  - Oil of rose ..... 4 drops
  - Alcohol ..... 1 teaspoonful
- Melt the first four oils together over a low burner, then when the mixture is quite cold add your four ounces of rose-water. While this first preparation is congealing, whip in your four drops of oil of rose and your teaspoonful of alcohol.
- Rub a thin layer of this into your skin at night when you go to bed.

### OF INTEREST TO WOMEN

#### Favorite Dishes of Foreign Nations

Unusual dishes are always of interest to the home cook who likes to have a few on her list to vary the family menu.

These dishes should include not only desserts, but those for the main courses as well.

Many of the homely dishes of foreign nations—those not too expensive to prepare—make a strong appeal for at least one trial, and in many cases the trial leads to their addition to the list of family favorites. The following are picked at random from a wide collection, and are novel enough to try:

#### Bohemian Cream Pie

Line a pie plate with a good short-pie-crust, being careful to prick it with a steel fork, so that it does not blister in the baking. Add a cupful of sugar to a cupful of heavy cream. Then fold in the stiffly beaten whites of three eggs and a teaspoonful of vanilla flavoring. Pour the cream into the crust and bake like a custard.

#### Bohemian Plum Dumplings

Mix a cupful and a half of flour with a teaspoonful of baking powder, two beaten eggs, a teaspoonful of sugar and enough milk to make a rolling dough. Roll on a floured board, cut in two-inch squares. Place a large plum in the centre of each, adding a teaspoonful of sugar and a tiny piece of butter. Then fold over the dough and place the dumplings on top of a sheet of buttered paper.

#### Pasani Salad

Boil and shell six eggs, cutting them lengthwise. Coat the inside of a damp mould with aspic jelly, and put in a thin layer of caviar, then a layer of eggs, then a layer of caviar, then more jelly, and set to harden. When ready to serve slice into lettuce leaves and put a teaspoonful of well-seasoned mayonnaise on top. Garnish with a little finely minced red pepper.

#### Mexican Rice

Fry in a cupful of oil a chopped onion, a pepper, two tomatoes and a sweet chili. When soft, add three cupfuls of boiled rice. Mix, season, and let steam and cook for a few minutes, and become injured through wear. Don't wash to prevent the mixture from burning. Some women line the afghans with silk. Others line them

### Old Fashioned Craft Are Being Revived

Reveries in the homely arts are seen on all sides today—in settlement houses, art centres and schools. Hooked rugs are made in a frame, the foundation of which is hursap, or new, potato-bagging. The foundation is stretched taut in the frame, and the worsted filling is drawn through with a small hook. When completed, the surface is filled with sharp shears, then the rug is lined. These rugs are very popular and bring good prices. In most sections where these rugs are made women take the pattern from natural scenes in their vicinity. The very coloring and character of these scenes show the country from which they were taken as clearly as a windmill scene immediately reminds one of Holland (although you may never have visited the country).

### EXCRUCIATING PAINS, CRAMPS Entirely Remedied by Lydia E. Pinkham's Vegetable Compound

Lydia E. Pinkham's Vegetable Compound is a medicine for ailments common to women. It has been used for such long years, and by so many women, that it is well known to all. It is a safe, reliable, and effective remedy for all the ills that afflict women. It is a true and honest medicine, and it is the only one that will cure you.

Lydia E. Pinkham's Vegetable Compound is a medicine for ailments common to women. It has been used for such long years, and by so many women, that it is well known to all. It is a safe, reliable, and effective remedy for all the ills that afflict women. It is a true and honest medicine, and it is the only one that will cure you.

### Easy Ways to Guard Your Complexion

It's very trying on an early spring day to be out and have the wind loosen your hat till your hair streams down from it. In several unglorious ways, we must go through this season which never helps any of us to appear at our best.

Now, if you'll give these things a little forethought you can practically eliminate the effects which so mar your beauty.

In the first place, if you treat your skin to a good skin food, you'll keep it in such a smooth, well-oiled condition that rough winds won't find it nearly so easy to wrinkle and chap.

Here's an effective skin food which you may also use for a massage cream.

- Lanolin ..... 2 ounces
  - Paraffin ..... 1/2 ounce
  - Petrolatum ..... 6 ounces
  - Cocoa butter ..... 1 ounce
  - Rose-water ..... 4 ounces
  - Oil of rose ..... 4 drops
  - Alcohol ..... 1 teaspoonful
- Melt the first four oils together over a low burner, then when the mixture is quite cold add your four ounces of rose-water. While this first preparation is congealing, whip in your four drops of oil of rose and your teaspoonful of alcohol.
- Rub a thin layer of this into your skin at night when you go to bed.

### EXCRUCIATING PAINS, CRAMPS

### F. E. DENNISON TELLS OF CONFERENCE

Big Improvement on the C. N. R. Under Present Management.

(Moncton Transcript)

Mr. F. E. Dennison, President of the Maritime Board of Trade, one of the members of the Maritime delegation that conferred in Montreal last Monday with Sir Henry Thornton regarding transportation matters affecting the Maritime provinces, returned home Thursday evening on the Ocean Limited express and when interviewed by the Transcript respecting his trip, stated:

"I can only reiterate what has already been said by different members of the delegation regarding the care and attention given the delegation by General Manager L. S. Brown and General Superintendent W. U. Appleton and their staff. Everything that was possible was done for our comfort."

"Regarding the conference itself this has been well covered by other members of the delegation and I can only comment on the splendid reception given us by Sir Henry Thornton and his apparent desire to do justice to the Maritime provinces. Sir Henry stated that Sir Henry Leup had been selected as the western terminus of the C. N. R. Atlantic region after due consideration had been given to the matter. It is an inflexible and above making mistakes. Possibly he added, a mistake has been made, and after looking carefully into the matter it is found that the western boundary of the Atlantic region is causing an injustice I shall be the first to change it."

"Regarding the report that the Western terminus of the Atlantic C. N. R. region was at first conceived with Brockville, Ontario, as the terminus, Sir Henry frankly told us that at one time this terminus was probably considered, but after taken into consideration, it was decided for the present at least, that Riviere du Loup should be the terminus."

Representative Gathering. "The delegation are to be congratulated," added Mr. Dennison, "upon the meeting which was held at Brockville. It was probably the most representative gathering that ever went outside of Maritime provinces for a conference. As has already been said, speech-making was done away with at the conference which averted itself from the subject of the conference. The proper way to have such a conference conducted. This talk was principally conducted by Captain Macdonald, who was assisted by Mr. A. Pomeroy of Charlottetown, Mr. John M. Lyons, Mr. J. E. McCullough, Hon. C. W. Robinson, Premier E. J. Veniot and others. In the few remarks which I made, I emphasized the fact that the Maritime provinces should be given a fair hearing, and that the delegation agreed with me, to leave the matter wholly in the hands of Sir Henry Thornton and his staff. It is a matter of course, provided that the politicians of Ontario and Quebec provinces keep their noses out of it. My own personal opinion at the present time is that after going into the matter carefully and having regard to the operating of the C. N. R. Atlantic region in the past, it is going to be a very short time before Sir Henry comes to the conclusion that Riviere du Loup and Monck are the proper western terminus of the Atlantic region. At the present time it is pretty hard to say where this western point should be, but I believe that the final analysis will have been made a point between Levis and Montreal will be chosen."

"While at Montreal I took the opportunity of running over to Ottawa and looking over the situation there with respect to the C. N. R. Atlantic region. I had the pleasure of meeting Mr. Hance J. Logan. He has just returned from the South where he was recuperating in health. He received several letters from the Maritime provinces during his stay in the South, and he has taken up with these ministers, who gave us a very cordial reception and seemed only too willing to grant us any reasonable request. The reception, I might add, was very striking in comparison to some past receptions. I had received with other delegations at the Capital, and I am firmly of the opinion that if we can be content and exercise enough patience to wait developments, we will see a return in a very short time of the good times which we had in this country during the last Liberal regime from 1896 to 1911."

"I regret to see such letters as the one appearing in the Moncton Times which were sent to me by a citizen trying to belittle the Hon. Mr. Robinson. I might say that I was present when Hon. Mr. Robinson gave his interview to the press, and what he said is absolutely correct and truthful. If the people of this country had exercised a little more common sense, they should have in the session of 1911 and had returned to the Western Canadian."

"Mr. F. O'Connell of Halifax spent the afternoon and evening in Douville West with his wife, Mr. and Mrs. Edward Mulhoney. Miss Edith Bourget of Gaspé Basin, spent last week-end here with her sister, Mrs. Hugh Dunn. Mr. Patrick Drouin will leave very soon for Lake St. John, Que., where he has obtained a contract for the construction of a dam for the Pries Brothers Limited. All wish him success in his new work."

Grazed Shins Lead to Crippling BLOOD-POISON.

**Zam-Buk**  
Saved My Legs!

MR. H. M. RYALL, First Mate, of the S.S. Boston, Yarmouth, N.S., writes: "After a fall, when I had my leg broken, both legs began to swell and pain badly. Doctor who said the wounds were poisoned, gave me a bad dose of medicine, but it did not help. My main fear was that the doctor would ultimately decide that it needed amputation to stop the poisoning."

"On a friend's urgent advice I began with Zam-Buk. Almost from the first application of this soothing, herbal balm, I felt the change taking place. As I continued to use Zam-Buk the wounds were cleared of all poisonous matter, then thoroughly healed with new skin. Nothing but this wonderful Zam-Buk could have saved my legs."

Wholesale and Retail Dealers Everywhere

Send for your free copy of the book "Zam-Buk" and you will see how it has saved many lives.

**CORNS**  
Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Frozone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with your fingers. Truly!

Your druggist sells a tiny bottle of "Frozone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without aches or irritation.

**Kedwick**

Mr. and Mrs. Andrew Savoy were visiting in Campbellton on Sunday. Miss Aurora Savoy paid a flying visit to St. Leonards and Van Buren last week.

Mr. Edmund Potter spent Sunday here at the Kedwick Hotel.

Prohibition Inspector Lawrence Hachez seized 12 gallons of pure White Whiskey on Saturday evening on the land of P. Ouellette.

The opening of the forty hours devotion was celebrated Sunday morning and was largely attended.

Mr. and Mrs. John Demulles of St. Quentin were attending the concert at Kedwick on Sunday last.

Mr. Bob Lynch of St. Quentin spent Sunday in Kedwick.

Mr. Alpha Harrison left on Saturday for a visit to Montreal.

Mr. Joseph Pelletier left on Thursday to visit his relatives of St. Anne des Monts, Que.

Mr. Gordon Fisher is visiting in Kedwick.

**MARBLE-ITE**  
The Hard-Drying, Long-Wearing Floor Finish

Nothing adds so much to the beauty of a home as floors that are properly cared for. On the other hand, floors that are not protected are unpleasant to look at, are hard to keep clean, and become injured through wear. Don't neglect your floors, beautify them and save them. Save the surface and you save all.

**MARBLE-ITE Floor Finish** is the perfect treatment for floors of all kinds. It is the one floor finish that has a money-back guarantee attached to every can.

In 24 hours MARBLE-ITE dries hard with a beautiful finish that will not show marks. It has a high gloss, yet is tough enough to stand any amount of wear without injury. It can be washed with soap and water and it will not mar or scratch white.

We invite you to call and discuss this method of beautifying and protecting your floors. We can give you full details regarding this or any other painting or varnishing problem. We have a complete line of all the best Paints and Varnishes. For every purpose—For every surface.

### MOTHER AND SON RECOVER HEALTH

Two Members of Well-known Family Praise Merits of Drees, the Famous Herbal Remedy—It Gave Them Relief Sought Vainly for Years.

April 27th, 1928  
Campbellton, N. B.  
To the Editor of the Graphic.  
Dear Sir:  
Your series of articles appearing in the Graphic from time to time, telling of "Old Times on the Intercolonial Rly." have been read with much interest, but naturally I have noticed an omission which you may perhaps pardon me for bringing to your attention. I refer to T. Milton Doherty.

The I. C. R. records in Moncton, I understand, state that Mr. Doherty entered the service of that road in June 1876, working in the shops for some years and then out firing. He fired for Ben Goodwin, and am not sure but think he also fired for Tom Quinn. He later drifted off onto other railroads including the Bay Chaleur, P. Q., the Richmond and Inverness in C. P., and for ten years ran the regular train on the Carleton and Gulf Shore Rly. Returning to Campbellton Mr. Doherty went to work for Mr. Malcolm on the construction of the International Rly, where he still pulls the throttle on the express, and though hale and hearty is rather up in years and may be classed among the veterans. I dare say he is one of the oldest, if not the oldest of your "Old-Timers" in active service today, and still "going strong."

In his forty-seven years of almost unbroken railway service he has never had a serious accident nor been the cause of any injury to a passenger nor a fellow employee. But having been over the age of forty-five when the I. N. R. was absorbed by the Canadian National Rly., he will get no Government pension when he retires.

**ICE - ICE**

Get the genuine. 50c. and \$1.00 Bottles. In drug stores.

## MODERN EQUIPMENT FOR PHOTO WORK

Cliffords Pharmacy Has Latest and Best Equipment for Photographic Work.

Although comparatively few people know it, Cliffords Pharmacy in Dalhousie is fitted up with the latest and most complete photographic developing equipment of any establishment in this line on the north shore. This apparatus is, for the most part, a product of Mr. Clifford's inventive ability for he himself designed exactly what he wanted and then had it manufactured to his specifications.

Since its installation this equipment has given entire satisfaction. It is constructed on a vertical plan and its compactness and, incidentally, the small space it requires is one of its many good points which would recommend it to those in this business who have only a limited amount of space to devote to the work. In designing it to meet his own particular requirements, this was one point on which Mr. Clifford placed much importance and the result is an apparatus which, although fully as adaptable as the larger, more bulky type of equipment, is economic both from the standpoint of size and operation.

As this apparatus embodies all the latest improvements and advantages of larger equipment, it is suitable for all kinds of photographic work, including developing, printing and reducing or enlarging. Moreover, the quality of its finished work is practically unexcelled. In addition the proprietor frequently adds the natural colors to photographs when that is desired. Having taken up this art in the West some years ago under a photographer who had extensive experience in the business, he has acquired the necessary delicacy of touch and shading which are so important in a hand-colored picture.

Mr. Clifford has on hand some fine landscapes which offer abundant proof of his ability at this kind of work.

## ISSUE OF \$10,000 BONDS PASSED HERE FRIDAY

The matter of a proposed issue of debentures for \$10,000 for the maintenance of the water system here was voted upon by the ratepayers on Friday of last week and passed by a large majority. Doubtless most of those eligible to vote felt that in view of the obvious necessity for the issue, no one would oppose the proposition, and consequently a comparatively small percentage of the ratepayers appeared at the poll. Only fifty-eight votes were cast and of these fifty-seven were in favor of the proposal and only one against it.

## GIRLS DESERVE MORE ATTENTION

Dalhousie Should Have Some Girls' Organizations—Of Great Value.

After making extensive inquiries as to whether there were any girls' organizations of any kind in Dalhousie we were confronted with the evidence that the town cannot boast of a single girl's club, society or organization of any kind, so far as can be learned. We may be subconsciously inclined to favor the girls but it struck us that this was hardly fair. We believe, and we think the young men will agree with us, that the girls deserve more attention than they have been receiving.

It has always been conceded that organized work among the boys is vitally important and we feel sure that work of a similar nature among young girls is equally valuable. The boys, as they grow older, incline to baseball and other healthy sport for a pastime and are seldom at a loss to find some method of amusement. It seems to be the natural thing for them to form juvenile organizations of their own. But with the girls it is a rule social evolution is a slower process, possibly because of the natural backwardness and bashfulness which are intrinsic characteristics of her sex. Unless a girl has a particular club she is obliged to spend much of her time in solitude outside of school hours. She has her parents, but they are not usually very busy and often possess no aptitude to enter into the girlish games that appeal to her. What she needs is more frequent association with girls of her own age and an opportunity not only to play but to exchange and work out ideas on various subjects which would naturally form a part of the programme of a girls club or society.

Without any social or educational

## Social and Personal News

Mr. and Mrs. E. A. Flewelling of Hampton are visiting Mr. and Mrs. G. S. Grimmer.

Mr. and Mrs. Thomas G. Scott returned on Saturday from a pleasant month's visit to Amherst and Edmundton, where they were the guests of relatives.

Mrs. Stephen Nickerson, of Dalhousie Junction, entertained for Miss Keitha Atkinson on Friday, when a very pleasant evening was spent in music, games and dancing. Abundant and delicious refreshments were served. The guests included: Mrs. McIntosh, Mrs. G. A. Miller, Mrs. Gertrude Atkinson, Miss Mary Coleman, Miss Helen Ellinger and Messrs. Roland Atkinson, Lea Blaisdell, Victor Jamieson, Alonzo Louden and George E. Scott.

Mr. and Mrs. Albert Gallop are constructing on a vertical plan and its compactness and, incidentally, the small space it requires is one of its many good points which would recommend it to those in this business who have only a limited amount of space to devote to the work.

The funeral of Clarence Delaney, who recently passed away at the early age of twenty-six years, in the Hotel Dieu Hospital, Campbellton, was held on Sunday, when the Rev. Father Hart officiated. Much sympathy is expressed for his bereaved parents and brothers and sisters.

## DALHOUSIE HAD SIX NEWSPAPERS

Interesting Facts About Journalistic Enterprises in Shiretown Years Ago.

To the Editor, The Dalhousie Graphic, Campbellton, N. B.

Dear Sir:—

In the issue of the Graphic, dated Tuesday, April 15th, I received a letter written by that noble lady, Mrs. Kate Simpson Hayes, who, when she writes to the press, or to the public, never forgets to express such beautiful sentiments about her little native town Dalhousie. It is not in a spirit of criticism that I am referring to her very interesting letter, but merely with the view of doing justice to three talented girls, who in 1882 started the publication of a bright little newspaper called "The Comet". They were Miss Lena Haddow, daughter of the late George Haddow, Esq., M. P., for Restigouche County, Miss Minnie Caldwell, daughter of the late William Caldwell, Esq., M. P., and Miss Greta Jamieson, daughter of Mrs. James Jamieson, of Dalhousie. Miss Minnie Caldwell and Miss Greta Jamieson, who were associated with Miss Lena Haddow, at the beginning, dropped out later, and Miss Haddow carried on the work alone and "The Comet" was published regularly during the years 1882 and 1884.

Mrs. Kate Simpson Hayes referring to a correspondent, whose article appeared in the "Graphic" of March 18th, spoke of an item which she said was interesting but slightly incorrect. The item was headed "Dalhousie's Only Newspaper." "The Comet" which was published by John Bateman, a delighted to know that effort she and the amiable members of her family left Restigouche County for the West in 1885, there appeared two other small papers in Dalhousie, one was "The Dalhousie News" by Mr. (now the Rev. Thos. S. Russell), and the other "Rocket" by Miss Haddow's sister, Mrs. George Keith, now of the City of Toronto, assisted by a friend, Miss Madge McKenzie, who was visiting friends in Dalhousie. John Bateman, published a second paper in our town, it was called the "Chaleur Zephyr."

In next week's issue of the "Graphic" I hope to see appear on this page a story, entitled "A Visitor to Dalhousie" by a Tramp, which appeared in "The Dalhousie Comet" in its sixth number, and dated March 1885. The narrative will bring back to many readers of the "Graphic" many nice souvenirs of the good old days, when boys and girls who enjoyed them-

## Happenings of The Week

Teams were crossing from the Quebec side on Saturday although there was much water on the ice.

Many men have left town in preparation for steam-driving. Streams and brooks are high.

John Roy, William Rangette and John White, all of Richardsonville, are lodged in the county jail here to await their trial in a charge of stealing from the general store of the Richards Manufacturing Company at Richardsonville.

William McNeil has been appointed by the local government as revisor for the town of Dalhousie and Alexander McDonald has been appointed revisor for the parish of Dalhousie.

Frank Terriault's freehold property including a seven-roomed house, is for sale or to rent.

The shingle mill, which has been closed down for two years, re-opened on Monday morning. About thirty men are employed in its operation. The planning mill has been in operation for some weeks. The three other mills will begin the work as soon as the ice goes out of the river. It is hoped that the present high tides may be strong enough to take the ice away, but the general opinion is that with present weather conditions the ice will hold for about a week or ten days yet.

The Right Reverend Bishop Richardson, of Fredericton, administered the apostolic rite of Confirmation to sixteen candidates in St. Mary's Church on Monday evening. A reception of the auspices has been given by the W. A. in honor of the bishop, in the rectory after the service had been conducted. The Rev. A. B. Humphreys, of Campbellton, assisted in the service. Both the Bishop and Mr. Humphreys were guests at the rectory.

## NO BASEBALL FIELD AVAILABLE

Lack of Suitable Field Chief Obstacle to Sport in Shiretown.

As is at present the case in Campbellton, so it is in Shiretown. The lack of a suitable field. It is hoped however that as soon as the club has gone into the matter thoroughly, a solution of the difficulty will be speedily found. Last year the baseball club rented a field for games, paying a rental of \$75.00 and it is hoped that suitable ground may be obtained at a smaller cost this year, as the league is naturally obliged to finance their sport project as economically as possible.

One thing that sport leaders and the boys in general are thankful for is the splendid liberality of merchants and business men here. In former years when the boys have been appealed to for help one and all here responded most generously and this has not been forgotten by those active in sport here.

The Wrong Spirit.

So far there is only one instance on record of the wrong view being taken in regard to the promotion of good clean sport in Dalhousie, and that incident occurred this season.

A short time ago Mr. Henry Good gave permission to a number of boys to play in a certain field owned by him. While the boys were engaged in a street game Policeman Brown appeared on the scene and ordered the boys off the premises. It is also alleged that he employed some profane language which it is said he has a habit of using at times when he is engaged in the discharge of his official duties. Upon hearing of the incident Mr. Good was greatly angered and declared that if Brown again attempted to interfere with these boys while engaged in a harmless game of ball on his premises he would show him his place through the aid of the law.

It is hardly likely that such a step will be necessary however as doubtless Mr. Brown will show more sense than to go so far outside his jurisdiction. One thing may be said in all truthfulness however.

The device of an altitude is entirely the wrong spirit for anyone to adopt towards the boys, be it citizen or policeman. There is nothing ever gained by showing a spirit of repugnance or oppression towards young people, whether it is in business or in sport. It is a habit of mind which breeds trouble some at times but they have their place which cannot be filled by "old fashioned" methods. The only way to deal with the harmless and beneficial privileges which are theirs. The only wise course is co-operation and in any instance where it has been tried gratifying results have always resulted.

## NEW REFRIGERATOR PROVES SUCCESS

Device Invented by W. S. Montgomery Has Given Satisfaction to Users.

The new device for refrigeration invented by W. S. Montgomery promises to be a genuine success. An American firm in New York City holds an option on the United States patent but Mr. Montgomery had made no move to sell out the Canadian rights so far. Several of these new refrigerators have been made by W. A. Gallop here and a few are in use in different parts of the country. In every instance this system of refrigerator is giving entire satisfaction. One or two lumber companies in this part of the province have had large refrigerators built at Gallop's and each concern reports that they are well pleased with the results. The device, as designed by Mr. Montgomery, is much the same as the ordinary system, except that this new refrigerator is constructed with a double wall throughout. The space between these two walls is about one and one half inches in thickness and is filled with ice. The temperature within the refrigerator is conducted with a double wall throughout. The space between these two walls is about one and one half inches in thickness and is filled with ice. The temperature within the refrigerator is conducted with a double wall throughout. The space between these two walls is about one and one half inches in thickness and is filled with ice. The temperature within the refrigerator is conducted with a double wall throughout.

## A Great Book

BY A GREAT WRITER  
Life of Christ by Giovanni Papini.  
(Translated by Dorothy Canfield)

The remarkable thing about this book is that it is the confession of a man who after years of turbulence and atheism has turned to the simple faith of Christ. Giovanni Papini is the foremost man of letters in Italy; he has been called an A. D. master by Bergson, and was a friend and disciple of William James; he has written novels, poems, plays, essays and has studied all the systems of philosophy. "He was," says Henry James Forman in the Pictorial Review, "a later rather than a lover of his kind; a master of the negative, a smasher, a shaker and a shaker. And now he has written a book that is already recognized as being the best of its kind in any language, a book that turns the back upon all criticism or analysis, that has for its one aim and goal the calling back of the human soul to the religion of Love."

From the old story Papini gets away the layers of symbolism and ceremony with which literature, theological systems and skeptical critics have obscured the picture of Christ's life and times and he writes with a simplicity that makes the story clear to every mind and with a burning passion that brings it home to every heart.
