War Office Dispatches Sketch the Work of Three Days-Three Fords and Five Boer Laagers Captured With Few Casualties.

Lord Kitchner Eminently Successful in His Arrangements for Transport-Auspicious Opening of the New Campaign-A Large British Force Within the Free State Border.

London, Thursday, Feb. 15, 4:20 a.m. on the north bank of the Riet, at Waterval Drift, and is moving to sup--The British army, for the first time since the war began, is inside the is here and will go on this afternoon.

Four officers and 53 men had to be sent last evening in the returning ox least 40,000 infantry, 7,000 cavairy and 150 guns, has turned the Magersfontein lines, before which the British forces have been encamped for six ed. weeks; and with half his corps he is already operating on Free State territory. French rode to the Modder River, a distance of 25 miles, and took three fords, with high ground beyond the river, and five Boer camps. He had a

few casualties in brushes with the Boer horse. CRONJE'S COMMUNICATIONS EN-

DANGERED. Gen. French has now fixed himself on Gen. Cronje's main line of communication with Bloemfontein, and 20,000 infantry, with 72 guns, pushed up to support him there. Lord Roberts' dispatches, which were wired from inside the Free State, and on the Riet River, left him Wednesday morn-His advance has not been oping. posed by the Boers in force. Their patrols melted away as the British moved forward. The British army is likely to be felt in a day or two, and a battle is consequently imminent. As to what forces Gen. Cronje has now at his disposal, and as to where he purposes making a stand against the invaders, no one here connected with

the war office knows anything. LORD ROBERTS' FORCE. The forces immediately at the disposal of Lord Roberts are placed at 50,-000 in a general way. These figures are included in the command mentioned in the dispatches as being added to the divisions known to be with Lord Methuen. Probably Lord Roberts has 10,000 or 20,000 more. It is now realized that the incidents at Rensburg have been out of all proportion. Merely skeleton lines were there, while troops were rapidly concentrating on the Modder

SUCCESSFUL TRANSPORT * AR-

RANGEMENTS. The facility with which 30,000 men have already been sent beyond the rail terminus shows that Lord Kitchener has been fully successful in organizing the transport. He is now supposed to be down the line, sending forward more troops, and getting together more transports. About five miles of ox and wagon trains are estimated for each division, so that Lord Kitchener has immense labors in hand. The London morning papers take rather sober views of the situation, but are greatly pleased and hopeful of what

THE OFFICIAL DISPATCHES. London, Feb. 14, 11:35 p. m. — The war office has issued the following message from Lord Roberts, received this

evening:
"Dekiel's Drift, Feb. 14, 8:10 a.m.—
Gen. French left this point at 11:30 yesterday morning with three brigades of cavalry, horse artillery and mounted infantry, including several colonial contingents, in order to seize a crossing of the Modder, about 25

miles distant. "He reports by dispatch, dated 5:35 p.m., that he has forced a passage at Clip Drift and occupied the hills north of the river, capturing three of the enemy's laagers, with their supplies, while Gen. Gordon, of the 15th Hussars, with his brigade, who had made a feint at Rondeval Drift, four miles west, has seized it, and a second drift between that and Clip Drift, to-

iven a proportionate advance. The dvance was entirely voluntary on the ompany's part, no demands having een made by the men.

Electric Turkish Baths

You cannot have good health with appurities in the blood, and the best ay to eliminate them is to take a bood Turkish bath, with massage, at 10 Dundas street. It will purify the

port the cavalry. The seventh division wagons to the railway line, prostrated by heat and exhaustion. Another report says the casualties were two troopers killed and Captain Majendie, of the Rifle Brigade, wound-He has since died. One trooper

was wounded. NEW CAMPAIGN. Mr. Spencer Wilkinson, in the Morning Post, today says: "There is good news today, for a new campaign has fought, but large tactical advantages begun. The movements of Lord Roberts are a practical illustration of concentration of action in time and Kimberley is within measurable space. The unexpected presence of the reach, and the way to Bloemfontein sixth division makes Lord Roberts had ventured to hope. Evidently he ordered Gen. Macdonald's reconnoissance to Koodoosberg in order to draw the enemy's attention westward,

cobsdal, one of the Boer suply bases.

On Monday Gen. French, with the cavalry division, seized the crossing of the River at Diekel's Drift, south yesterday, must have an interesting problem. He will be troubled whether the Boers, and opened the way for 20,- to hold on to his position at Jacobsdal and Magersfontein and to seize Kimberley, or to raise the siege, move off, and, if so, in what direction? Whether is it to be Bloemfontein or

northward across the Vaa!? These events form the brilliant opening of a new campaign, which is being marked by concentration of purpose, and by an energy and rapidity that augur well for the future. The public must wait patiently for the resuit of these operations, remembering that the distance to be covered is considerable and the heat great. Possibly enough there may be no general action | FEAR OF A BOER ATTACK ON

until Friday. TIMES' COMMENT The Times, in an editorial, commenting upon Lord Roberts' dexterous and brilliant movement, says: "The Boers have shown themselves too wary and too skillful for us to assume that the success of these operations must disconcept their scheme of defense or compel them to raise the siege of Kimberley without further struggle, but so far as it is possible to judge, in the absence of detailed information and maps, the operations should be followed by strategic measures of the greatest value. The presence of a large British force within the Free State borders and within relatively striking distance of the capital, must largely alter the whole aspect of the war to the Boers. Lord Roberts' first steps shows that he is executing, with all his old skill, a plan of operations carefully and ably thought out. The news his next movement will be awaited with interest. profound indeed, but full of hope."

BOER MOVEMENTS. graph has the following, dated Tues-day, from its special correspondent at situation as seen in London is put by London, Feb. 15 .- The Daily Tele-Frere: "On Sunday the Boers advanced down the Ladysmith road toward Potgieter's Drift. Three hundred men on horseback, with others, proceeded to a point where they began to construct new rows of trenches at right angles to the road. This was about two miles north of the drift. A party of Boers also passed the Tugela, now very low, about six miles from Potgieter's Drift, where they sniped the South African Light Horse, who repulsed them. Several other skirmishes have taken place, and the Boers are evidently anxious about their position. They have been throwing up fensive works from Trichard's Drift and the Spion Kop range, eastward to the Hlangwana and Monte Cristo hills, both on this side of the Tugela. They have also two, if not three, wooden bridges spanning the Tugela in the bend, and a wire rope apparatus for

the conveyance of food and ammunition across the river." A dispatch to the Morning Post from Chieveley, dated Tuesday, confirms the report that parties of Boers have occupied the old British camp on Spearman's farm. The correspondent, who identified the wounded Lieut. Churchill as the brother of Mr. Winston Churchill, says he was shot through the right leg. .

SLINGERSFONTEIN EVACUATED. Rensburg, Feb. 13.—Before dawn resterday the enemy opened an attack upon Slingersfontein, assaulting with musketry the hills on the northeast held by three companies of the Worcesters, under Capt. Hovel. The ar-tillery attack began at sunrise. The Boers approached in great numbers, estimated at 7 to 1. The British, under good cover, sustained the attack throughout the day. Meanwhile two big guns on the west opened upon the British at daylight and continued for (Continued on page 2.)

As a Result of Lord Roberts

Operations. Cronje, the Boer Commander, Has a Difficult Problem to Solve-Fears of

a Boer Attack on Zululand Allayed.

London, Feb. 15 .- Intense satisfaction continues dominant in consequence of Field Marshal Lord Roberts' plan of operations in South Africa, as revealed by the dispatches published this morning. There is no further news of the British advance into the Free State or of activity at the Modder River, but a feeling of quiet confidence prevails that the strong hands of "Bob Badahur" and the hero of Khartoum are shaping matters towards a much-need-

ed decisive victory. As the St. James' Gazette says: "Lord Roberts with his own line well guarded, and having little reason to fear only a defense which would deadly, viz., a counter-stroke attack ing his long line as it swings round, will be able to force the Boers to fight under very unfavorable conditions, or abandon their heavy guns and stores."

A special to the Times from Chievley, Natal, dated Tuesday, Feb. 13, says: Gen. Lyttleton has succeeded to the command of the second division during the illness of Gen. Clery, who is suffering from blood poisoning. Col. Northcott, of the Rifle Brigade, temporarily commands the fourth division.

ZULULAND ALLAYED. The fears regarding a Boer attack on Zululand are somewhat allayed by a special dispatch from Durpan, which says that a column of colonial scouts, after a forced march, has arrived at Eshowe. It is reported that they are in splendid fighting form. They were pursued several miles by Boers during the march, but succeeded in re-

pulsing them.

LOSSES AT RENSBURG. .The official list of the British casualties at Rensburg from Feb. 10 to Feb. 12 shows: Killed 4 officers and 8 men; wounded, 6 officers and 14 men; missing, 2 officers and 8 men. The officers killed were Col. Coningham, of the Worcestershire Regiment, and Major G. R. Eddy and Lieuts. J. Powell and C. Roberts, all Australians.

CRONJE CRAMPED.

New York, Feb. 15.—The specials from London to the New York papers printed this morning all tend to the idea that the English military critics believe Lord Roberts to have General Cronje's Boer forces in a tight place, and they look for a decisive battle bewords: Lord Roberts has begun his operations against the Boer army between the Modder River and Kimberley by initiating a flanking movement

which up to the present time has proved successful. The drifts referred to

Is Consumption hereditary? Well, even so, hereditary Consumption no longer means, of secessity, an early death—No! nor even a life of sickness and weakness, although it does mean a life of constant care, to prevent the ever ready disease from attacking the predisposed lung tissue and getting its grip upon the structure of the lungs. tion" to live a long, healthy and active life. This has been proven over and over again. Post Mortem examinations have shown that the cause of death to such people has been by disease entirely foreign to any affection of the lungs. For more than half a century Shiloh's Consumption Cure hasbeen peculiarly successful. It frees the system of Consumption germs, tones it, gives strength and vigor and builds up the flesh. It is an infallible remedy, guaranteed not to fail :- if, after using two thirds of the contents of a bottle the purchaser is dissatisfied with the results, the purchase money will be returned in full upon taking the remaining one third to the druggist from whom it was bought. There is no risk, financial or otherwise, in trying Shiloh's great cure. The following testimony from Miss Harriet Tempest, of Detroit, Mich., is encouraging and convincing:

S. C. WELLS CO., Toronto-For these last 25 or 30 years of life, I am indebted to Shiloh's Consumption Cure. Our family has always, so far as I can learn, been afflicted with the "scourge of Consumption." My Ancestors have all died young. An uncle and his family and myself have so far escaped. I, from using "Shiloh, and he, because he went when quite young to live in South Africa, the climate of which country seems to have saved him.

Of course I have always taken care of my general health, avoiding colds, etc., as much as possible and have steadily used your Consumption Cure, and here I am, close upon fifty years of age and as strong and healthy as most people and as likely to reach old age. I am very enthusiastic about Shiloh's Consumption Cure, can you wonder at it? Sold in Canada and the United States, 25c, 5oc and \$1.00, in England at 1s. 2d., 2s. 3d. and 4s. 3d.

half an hour, when the gun firing lyddite silenced them. Then another Boer gun to the north opened on the Royal as the riflemen had good cover. The shelling continued all day and last

With the Boers surrounding the British in overwhelming numbers and having artillery, it was evident that it would be impossible to retain Slingersfontein, which the British evacuated under cover of darkness, falling back upon Rensberg. The British casualties were lighter than might have been expected in the circumstances.

garrison could hold out until June. The Daily Chronicle publishes following dispatch from Mafeking, dated Jan. 29: "The Boers shelled the women's laager for two hours on Friday, Jan. 27. Boer women, warned by spies evidently, went into the trenches, clapped their hands and hurrahed when the shells fell near the English women. Lady Sarah Wilson was slightly wounded. Major Gould-Adams and Capt. Wilson received contusions from shell fragments."

COURT-MARTIALED.

A Ladysmith dispatch, dated Thursday, Feb. 8, says: Mr. H. C. Foss, a resident of Ladysmith, has been court-martialed and sentenced to a year's imprisonment at hard labor for circulating false reports calculated to discourage the troops, and for advising soldiers to desert. Mr. Foss, who is a native of Natal, resided for some great fear into the Boers, and a general holf set in. The Boers fired as time in the Free State. He had been garrison was on the eve of starvation and capture.

THE AUSTRALIANS.

'A dispatch from Cape Town says that the entire Australian infantry has been mounted. This was done because most of the men were fine horsemen. Only 15 per cent of the command needed coaching; the remaining 85 per cent were thoroughly at home on a horse.

A Pietermaritzburg dispatch of Feb. 13 says that Major Brasier-Creagh, sur-geon in charge of the ambulance train from Frere to Modder River, brought 95 wounded British soldiers there today.
Of this number, six were officers. He
also brought in three wounded Boers, all of whom had been shot in the thigh. On the way down the Boers talked freely to the surgeon. The wounded men stated there were only a few English, Irish or other foreigners fighting with the Boers in Natal. The Irish Transvaal Brigade, they said, was on the western border, probably with Gen. Cronje, at Modder River. The men said they had been in three British hospitals, and had been treat-ed with greatest kindness and consideration by officers and men. were especially grateful to the Brit-ish surgeons. One of the Boers said he had offered his guard £80 to allow him to escape, but the guard refused.

London Times' Account of the Affair in Which the Canadians Figured.

London, Feb. 15.-The part taken by the Canadian and Australian contingents at Sunnyside is thus described by a correspondent of the Times: On the day before Christmas Col. Pilcher, Lieut. Atkinson, who worked at Belmont, got wind of the assemblage Irish Rifles, but rather ineffectually, of a considerable Boer force at Sunnyside farm, 30 miles distant, and determined to try to attack it before the pounder in order to bomsoard the camp enemy got wind or his intention. 10 though they had been accustomed to of England and the United States were from the north. The enemy were found in a laager in a strong position, on some rather steep kopies, and it was evident that they were expecting strong reinforcements. Col. Pilcher at once extended his force so as to try and surround the kopjes. While this was going on Lieut. Aide, with four Queensland croopers, was sent to the far left of what was supposed to be the Boer position. His fit and thoroughly trained. orders were to give notice of any attempt at retreat on the part of the enemy. He did his work well. Getting close in to the kopje, he saw a number of the enemy sli king off, and at once challenged them. As he did so a dozen Boers darted out of the kopje, and Aide opened fire on them, which caused the Boers to fire a volley at with two bullets in his body. One went martial was that the sergeant Lieut. Aide fell from his horse through the fleshy part of his stomach, entering his body sidewise; the other went into his thigh. The Boers fired as twice warned for asserting that the they cleared, and if our fellows had been formed up in the style usual to the British army in action, we would have suffered heavily. But the Queenslander bushmen had dropped behind cover, and soom had complete possession of the kopjes.

Another trooper, named Victor Jones, was shot through the brain, and 14 others were more or less badly wounded. The Boers then surrendered. We took 40 prisoners, and found 14 Boers dead on the ground, besides a dozen wound-They were all Cape Dutch, no Transvaalers being found in the ranks. We secured 40,000 rounds of ammunition, 300 Martini-Henris and only one Mauser rifle, which was in the posses sion of a Boer commander. After securing all we took, we moved on and looked at some of the farms near by, as from documents found in camp it was certain that the whole district was a

563 perfect nest of rebellion. Quite a little store of arms and ammunition was discovered by this means, and the occupants of the farms transported to Belmont. Our fellows carried the little children and babies in their arms all the way, and marched into Belmont singing, with the little ones on their shoulders. Every respect was shown to the women, old and young, and to the old men, but the young fellows were closely guarded all the time. The Canadians did not lose a single man; neither did any of the others, ex-

cept the Queenslanders. The account of the same engagement, sent by the correspondent of the Reuter's Telegram Company, is in part as follows. "The Queenslanders did the scouting admirably, and we were able to advance within two and onehalf miles of the kopje. Here, just below a ridge occupied by our Queens-lander scouts, which hid us from any possible observant enemy, Col. Pilcher called another halt and made his plan of battle. He determined to give Maj. De Rougement command of what was practically an independent column, consisting of his two guns, under Lieut. Atkinson; the Toronto company of the Canadians, under Capt. was not given out until 11 o'clock last night, but even at that hour the telegraph boards at the clubs and hotels were quickly surrounded by crowds of men, who discussed the new advance, which was felt to be marked by a concentration of purpose, energy and rapidity that augur well for the

events that are to follow. The London Standard's military ex pert says: "Clip Drift appears to be just above David's Graaf. By holding this point Lord Roberts has PENETRATED THE BOER POSI-

TION, which extends from Magersfontein to Jacobsdal. Any Boer forces that may have been at Jacobsdal have been isolated from Cronje's main body. The British commander can develop his flank attack against the Boer and has, as a further point in his favor, that the line of retreat of the Boers to Bloemfontein is intercepted. Through the gap which French holds, with some 8,000 men, the sixth and seventh division will advance and move against the Boer flank."

SCIENTIFIC STRATEGY. The London correspondent of the Tribune says of the operations: This entire movement, with its concentra-tion of nearly all the British battaiions outside Natal, and slender columns left under Gatacre and Clements, has been brought about by scientific stratesy, under a rigorous operation of the censorship, the utility of which has been demonstrated at last. The scenery and properties were the same a used in Daly's Theater, London, England, and they were exceedingly gor-geous. The company was large, tal-ented, and distinguished for personal beauty, the dances and grouping were graceful and varied, and the opera was a distinct musical success. Out of the multitude of pleasing sensations produced through eye and ear by the wealth of scenic embellishment, the elaborate costumes, personal charms of the performers, the tuneful and semusic, the catchy lyrics, the dialogue, and the mirth-provoking antics of the comedians, that which lingers most pronounced is probably the recollection of the male value. tion of the male voices. In no other recent great comic opera success has such prominence been given the tenor and baritone soloists. The tenor was Mr. Albert A. Parr, a native Canadian, and his singing was applauded with the utmost enthusiasm, repeated en-cores being demanded. Mr. Hugh Childers, baritone, was also heard appreciation. Of course, to Miss Dorothy Morton, the highest honors were due. Her rendition of the solo, "The Golden Isle," was exquisite, and the diden Isle," was exquisite, and the audience insisted on a recall. Miss Minnie Ashley, in a dainty soubrette part, captivated the audience by her winsome manner and graceful dancing. Kate Michelena, who had a leading part is an attractive hearty and

THE HIGHWAYMAN" TONIGHT.

"The Highwayman," by DeKoven and Smith, will be heard at the Grand tonight, with Katherine Germaine as the "star." It may be said that De-Koven and Smith's happiest efforts have been their pictures of the past. The very name of "The Highwayman" serves, in the mental eye, to turn the hour-glass backward to the time of stage coaches, country squires, topboots and the "gibbets and hulks," to a time when the shrill whistle of the locomotive was unknown. To a time when Paul Clifford, Gentleman Joe, Old Rags, Jack Ketch, and Mr. James Maclaine, in "laced clothes, hat and feathers," were displaying that lighthearted recklessness usually associat ed with the gentlemen of their pro fession.

SPECTACLE MATINEE AND NIGHT SATURDAY.

Dickson & Mustard's big scenic spectacle, "Humpty Dumpty," which is undoubtedly one of the successes of this season's amusements, will be seen here at the Opera House, mat-inee and night, Saturday. The organization presenting this, the most popular of Mother Goose's rhymes, is a mammoth one, comprising nearly half a hundred people, and the scenic embellishments are said to eclipse in magnificence any spectacle seen upon the stage in recent years. Nothing but praise is heard from every city where "Humpty Dumpty" has had his "fall and rise." The specialty features of the production are of a high order, and the laugh-provoking antics of "Humpty Dumpty" and his assoclates are sure to please the old and young alike.

JOHN E. YOUNG'S OPERA COM-PANY.

John E. Young and his merry opera company of 35 people will be at the Grand in repertoire comic opera all next week. Every citizen of London, who enjoys a good hearty laugh, and wishes to feast his eyes on the most gorgeous and finest musical presentation ever given on any stage in London, should see John E. Young and merry opera company in their brilliant opening performance Monday night at the Grand. Among the principals are Robert Dunbar, leading tenor, formerly with Thomas Seabrook and Lillian Russell; George Olnit, former leading baritone at Her Majesty's Theater, London, England, John E. Young and Thomas White, the celebrated comedians, whose team work is considered the best on the American stage. Mamie Scott and Laura Russell are operatic artists, whose culture has shone in metropolitan operatic productions. The petite little prima donna soprano, Minnie Jarbeau, will undoubtedly be-come a great favorite here, as she has everywhere the company has appeared. She has a marvelous voice, which never fails to arouse the utmost enthusiasm. The chorus is excellent, and the costumes are of dazzling splendor. This engagement bids fair to prove the best of the season.

TWENTY-FIFTH ANNUAL REPORT

The Canadian

Savings and Loan Company, London, Can.

The annual meeting of The Canadian Savings and Loan Company was held at their office, Richmond street, London, on the 14th inst., the President, Mr. Robert Fox, occupying the chair, and the Manager, Mr. M. H. Rowland, acting as secretary. Among those present were Messrs. J. W. Jones, Rev. James Little, John Christie, A. Durand, Robert Lewis, A. B. Cox, O. Baynes, A. Greenlees and Charles H. Elliott.

The following report and financial statement was read:

The Directors beg to submit their Twenty-fifth Report and Balance Sheet for the information and approval of the Shareholders, and to congratulate them upon the continued success of the business of the Company. This being the Quarter-Century Report of the Company, the Directors have thought it the Quarter-Century Report of the Company, the Directors have thought it advisable to append a Comparative Table, showing the growth of the Company during the last twenty-five years. Nearly every year has seen a substantial addition to the Reserve Fund, and the Assets have steadily increased, until they now reach the handsome sum of \$2,029,000, having increased \$200,000 during the last three years.

The result of the year's business is very satisfactory, the profits (including the amount brought forward from last year, \$3,980 51) after paying interest on deposits and debentures, expenses of management, taxes, commission, etc., amount of \$63,319 25. Out of this amount two half-yearly dividends of 3 per

amount of \$63,319 25. Out of this amount two half-yearly dividends of 3 per cent each, amounting to \$45,000, have been paid, \$2,000 written off the office building account, \$12,500 added to the Reserve-Fund, and the balance, \$3,819 25,

Although the current rate of interest on loans is lower than formerly, a lower rate has been paid upon borrowed capital, and the margin of profit has thus been maintained. The funds of the Company have been fully employed and representations. ployed, and repayments of interest have been satisfactory. The large increase in the debenture issue is a very gratifying feature of the year's business. The real estate on hand (other than the office building), including all properties unsold, which have come into the Company's hands under power of sale, or otherwise, consists of three properties, which aggregate in value \$2,900. The Reserve Fund, which now amounts to \$237,500, equals nearly 32 per cent of

the paid-up capital of the Company.

We regret that Mr. Thomas A. Browne, who has acted as auditor of the Company for the past ten years, found it necessary to resign his position on account of changes in his business. The vacancy thus caused has been sat-

isfactorily filled by the appointment of Mr. Andrew Ellis.

The accounts of the Company have received the usual monthly audit, and the auditors' certificate will be found appended.

All of which is respectfully submitted. ROBERT FOX, President.

The President, in moving the adoption of the report, said that the showing made this year is certainly a very good one. For many years we have had the pleasure of presenting very successful reports, but that this one was probably the best we have ever had, the addition of \$12,500 to the Reserve Fund bringing that fund up to \$237,500, is most satisfactory and gratifying to the shareholders and we feel that such a statement must be gratifying to the shareholders, and we feel that such a statement must be an assurance not only to the stockholders that the usual dividend will be maintained, but also to the depositors and debenture holders of their absolute security. The Directors, Manager and other officers have always worked for the best interests of the Company, and those doing business with them, and the result shown is in a great measure due to their care and energy. The Manager, besides attending to his office duties in a most satisfactory manner, has devoted considerable time to inspecting the securities in company with our valuators, who have stood loyal to The Canadian, giving

The second game was between the St. John's A. C. and the Crescents. The former won by a score of 2 to 1. The Crescents claim that they would have tied the score had not Kerrigan thrown himself at full length across the goal, and then picked the puck up in one hand and thrown it. A protest was handed to Secretary Woolley by the Crescents this morning. The teams: CRESCENTS. FT. JOHNS. A. Smith......Goal.

feated tonight by the Shamrocks in the second match for the Stanley cup, the second match for the stanley cup, the score, when time was called, standing 3 to 2 in Shamrocks' favor, but Winnipeg was defeated with honor. The Winnipegers put up a splendid game, and had there been a little more time they would no doubt little more time they would no doubt have evened things up. The rink was jammed with nearly 10,000 spectators. The spectators were treated to one of the finest hockey matches ever witnessed in Montreal. The score at half-time stood, Winnipeg 2, Sham-rocks 1. In the second half the Shamrocks played much better together, and owing to their combination play had an advantage. The final match

will be played on Friday night. Dundas, Ont., Feb. 14.—One of the roughest games of hockey ever played on the local ice took place here tonight between Hamilton Victorias and Dundas. The game was won by Dundas by a score of 10 to 2.

President Quinn said that there was
no intention on the part of the Athletic Association to enter the league. At least, nothing had been undertaken in this respect so far. However, if anybody wished to take the grounds and put a league team in the field, they could get the diamond for a very low rental.

Brantford Expositor: There is a very great probability that Brantford will have a place in the Canadian or International League this year. W. Kilmaster, manager of last year's city team, has received a letter from George Black, asking what the prospects are here, and inquiring as to the possibility of co-operation in case a man came here to manage the team. Black says here to manage the team. Black says that it is possible that he himself will come here. It is his opinion that Brant-ford should be a good baseball town, and he says the league this year will

AMERICAN ASSOCIATION. Chicago, Feb. 13.-The first action of the American Association magnates at their meeting this afternoon was to elect permanent officers for the new organization. Adrian C. Anson was chosen president, and Philip Peterson, of Baltimore, was elected secretary and treasurer. C. S. Havenor, Milwaukee; G. D. Schaefer, St. Louis, and W. J. Gilmore were elected directors. Boston will be given a representative on the board of directors. Rules and bylaws governing the organization bylaws governing the organization were then adopted. A committee was appointed to draw up a schedule, and this report will be delivered to President Anson as soon as completed. The adoption of the official ball was passed to the next meeting, which adjourned subject to the call of the president.

Ottawa, Feb. 14.-Your correspondent has for the past few days busied This leaves Harriston and Parkdale himself in collecting health statistics as regards leading citizens of the capital. He finds the Kidney Diseases are yet to the fore, causing by far the greater number of deaths during the past year. While there is a vast falling off in deaths from this cause owing, it is generally acknowledged, Total......42 to the widespread use of Dodd's Kidney Pills, yet there are still far too

In the statistics compiled by the health officer these deaths are put down to varying causes, such as Rheumatism, Heart Disease, Blood Poisoning, Paralysis, Lumbago, Female Diseases and Consumption, though Bright's Disease of the Kidneys and Diabetes figure to a large

When, however, it is considered that every single one of these disease is caused by impure blood, it will be seen that the health officer has not gone into the question to any depth.
Impure blood is caused by weakness on the part of the kidneys to filter it. Your correspondent therefore finds that all these deaths were caused by Kidney Disease, and could have been treated by Dodd's Kidney Pills, which have never yet failed to cure diseases

of the kidneys in this city.

Dodd's Kidney Pills are sold by all druggists at 50 cents a box, six boxes \$2 50, or will be sent, on receipt of price, by the Dodd's Medicine Company, Limited, Toronto.

TWINS WED TWINS.

Huntington, W. Va., Feb. 15.-In the little hamlet of Maplewood, in McDowell county, two pairs of twins were united in matrimony the other evening. The couples were Will and Wes-ley Thomas and Susie and Ellen Tyree. The honeymoon will be spent in the east. A notable feature of the wedding is the fact that the two pairs of twins were born the same day in 1878. They were born and reared near each other, but never met till two years ago.

GHASTLY FIND

covered in a Closet.

New York, Feb. 15 .- Plumbers working in an unoccupied house on Edg-comb avenue found in a closet the decomb avenue found in a closet the de-composed bodies of two boys. They were identified by their parents as Martin Loefler, aged 9, and Charles Byrnes, aged 11. They had been miss-ing since Aug. 3 last, when they left their homes near by, saying they were going to pick apples. The building in which the bodies were found is a flat house and has never been accupied. house, and has never been occupied. When it was completed it was locked up, and all that remained to be done on it was the plumbing.

When the plumbers entered the house almost overcome with a strong odor. They opened a closet built into the wall, and there found the bodies of the boys. The door has a spring lock and no knob inside, so that a person entering and closing the door

would be unable to get out. It is supposed the boys were playing hide-and-seek and went into the closet and closed the door. The closet is so built that a person shut in it could cry at the top of his voice and he would be as remote from aid as though he were buried a mile underground. Byrnes's forehead was bruised, as though in his frenzy he had dashed his head against

Red Cross Contributions.

To the Editor of The Advertiser: May I venture to ask you to let me a slight explanation in regard to what may be a little misleading to your readers in your item headed 'Warning''? Of course, the unfortunate discovery that some one has been base enough to make use, for personal gain, of the claims urged in the interests of our boys in South Africa, has caused much uneasiness, and steps are being taken to bring to light the names of the offenders; but meanwhile we feel that to give the warning alluded to its fullest and most literal interpretation, would be to close for us many safe and valuable avenues of future help, and would also make our committee appear ungrateful to the large number of friends without without whose assistance that wonderful consignment of 1,000 pounds weight could not have been dispatched, within 48 hours, to Halifax. There are so many of the workers for the Red Cross Society who are well-known citizens, that the restriction cannot be meant to apply to them, and I hope that none of them will be afraid, as I certainly shall not be, to take all risks, and to accept every copper which may be offered to them to help fill bale No. 2, which we hope to send off by the Monterey in about a fort-night's time. Thanking you for the space you so kindly accord us. I remain, Sir, faithfully yours, H. A. BOOMER,

Maddock and A. P. Ketchen, have given general satisfaction. They have treated agricultural subjects in a and those in attendance must certainly have been benefited by them. The institute work is gradually growing in favor throughout the rid-ing, and the meetings in each locality are looked forward to each year with increased interest. The numbers in attendance exceeded any former year by nearly 700, making a total of 3,620 persons, an average of 330 at each meeting. The largest meeting was at Coldstream, 575 being in attendance there, and Beechwood was second, with 500 in attendance. The largest membership at any meeting was 59, at Ailsa Craig, with Coldstream second, giving us 56 members. Sylvan and Clande-boye gave us the lowest membership, viz., 12 at each point. With good speakers as delegates, the continued success of North Middlesex Farmers' Institute is assured. S. P. Zavitz, secretary.

Changes in the Senate.

The introduction of several representative Liberals into the Dominion Senate to succeed Conservatives who ave recently died shows how fast he complexion of that House is danging. When the Liberals came into power in 1896, less than four years ago, there were just eight members of their party in the Chamber.

At the time of Confederation it was understood that the Senate would be kept largely a non-partisan body, and that new members would be chosen for their merits as citizens, and not as followers of a political leader. But that principle was at once departed from by the Conservative leader, who came into power then, and held it almost uninterruptedly until his death. And so the Senate became overwhelmingly Conservative.

Since 1896, however, the balance between the parties has been fast becoming adjusted, and today there are 29 members of the Liberal party in the Senate to 52 Conservatives. This gives the Conservatives a majority of 23, but in the course of a year or two, at the rate of change that has prevailed since 1896 the Liberals will have a majority. They now have a majority of the Senate representation from New Brunswick, but from no other Province. They divide Manitoba with their political opponents. Here is how the parties stand:

The Military Situation.

If the contents of a journal like the North American Review may be taken as an index the South African question is the most absorbing topic at present, as in the number for February it devotes more than half of its space to that subject.

We have, for instance, three articles on "The Military and Strategical Situation," one from a British standpoint, another as seen "Through German Spectacles," and a third "An American General's View." They are all, of course, historical and critical, but even in discussing the technical side of military operations men cannot disguise their personal sympatmes. Hence it comes to pass that the "German spectacles" have some magnifying power, and the strategist who wears them is doubtful whether Britain will ever successfully cope with the task that has been thrust upon her, while the British and American writers take a more hopeful view, and think that the British will gradually hem and effeetually crush the enemy.

But, after all, these military essays are not pure military discussions, but deal to some extent with the political situation. So far as the British line of action is concerned it has been weakened in several ways by political consideration, if the British Government meant, as the German writer asserts, to carry forward an offensive play, it was prevented by the public feeling at home from making adequate military preparations, and after the war was declared colonial considerations prevented the play of pure military strategy.

According to the German writer it is really the British who are conducting an offensive war, and their great mistake is that while their political policy was offensive they were not prepared with an offensive military policy. That, however, is not a view that would be accepted by the British Government. They would not admit that a request for the improvement of the political condition of the Outlanders was tantamount to a declaration of war. But for Kruger's ultimatum it is likely that the negotiations would be still pursuing their weary way.

There was no doubt about the meaning of the Boer ultimatum. It really meant a command to Britain to leave South Africa. It was made because the Boers felt they were ready for the great struggle. They had bought, thanks to British and other capitalists, the best that Europe could supply, both in skill and material.

The German who, of course, being a disciple of Moltke, knows all about military strategy, has so little to say in praise of British strength or capacity that we quite gladly take this one crumb of comfort. In the meantime England, by the incorporation of reserves, had mobilized three divisions of infantry and one of cavairy, and given to Gen. Buller the command of all forces in South Africa. The work of embarking and transporting this goodly mass of troops was accomplished between the 20th of October and the 20th of November; and, apart from the stranding of a solitary ship, without any noteworthy mishaps. The ports bears striking testimony to the military department; and in view of

from the outset of conducting the campaign on correct principles of strategy. But an unlucky star overhung even this first brilliant achievement from the moment an attempt was made to turn it to account."

Just so, but it begins to look now as if the authorities had taken the measurement of the job cut out for them and the tide would soon turn, and indeed the fact that the British were able practically to postpone the war for two months, until they brought up fresh forces and remodeled their plan of campaign shows that the Boer campaign was, for offensive purposes, played out.

Briton and Boer.

In the North American Review for February we are again treated to three different statements concerning the rivalry of races in South Africa, and the result is such different and contradictory pictures that the ordinary reader is apt to get somewhat muddled. Questions of today and questions of a hundred years ago are all served up together, and all with

a great deal of special pleading. Mr. Henry Cust gives us a justification of England's course, while Dr. Voigt treats us to a statement as to why the Dutch are in the right, and Montague White expatiates upon the blunders of the British.

According to one writer the Boers have been treacherous and ungrateful, while the Boer advocate maintains that Britain has shown hardly anything except incapacity and cruelty for a century. The burden of Mr. White's plea is that the great criminals are Mr. Chamberlain and Sir Alfred Milner.

All this is, of course, very confusing, and a man would need to give his days and nights to the study of the history of diplomacy before he would be able to give an expert opinion on the cases. But we have not the time to do that now, and we are not in the mood to do it.

When British territories are being devastated by Boer soldiers, neither Boer nor Briton are able to take a dispassionate view of the case. It is a great pity that it has come to this. It does not reflect great credit on the statesmanship of either side; but it has come to this, and the affair is no longer in the hands of statesmen but of soldiers, and it is their duty to do the work as quickly and effectually as possible. Whatever other nations may think of Great Britain, every other nation would have been compelled to put forth all its military power if its territory had been ruthlessly invaded. If 50,000 well armed "mobile" Canadians had taken advantage over Uncle Sam's temporary weakness to take up strong we know what our neighbors would think of "friendly intervention to prevent further loss of life." Such a friendly offer would properly receive a very vigorous reply. Just as a proposal to intervene on behalf of the Filipinos would now receive similar attention. Yet that is the way that some Americans would settle the Boer and Briton question. We believe that Britain will settle it in her own way, and that not a way of barbarous revenge, but of firm, even-handed jus-

A Prelude to Expansion.

Imitation is the sincerest flattery, and Russia is just now paying this tribute to the British Empire in the process she is adopting for the assimilation of Persia. She is preparing Persia for the ultimate absorption act by lending her money-and then, of course, by and bye, when Persia cannot pay, the mortgage will be duly foreclosed. The Persians are supposed to receive 22,500,-000 roubles from Russia. Of course they do not get this amount in gold, or even in paper currency. What they really do get is simply a few scratches of a pen in the bankers' books, transferring so much to their credit. In other words, the Persians pledge their credit for 22,500,000 roubles to the Russian capitalists, who advance them in exchange their (the Russians') credit for a like amount, less discounts, commissions, etc., on the understanding that the debtor pays a yearly interest on the deal, till repaid. Now, if Persia's credit is good enough for the Russians to accept, why isn't it good enough for them to bank on, and trade with, themselves? It is no doubt partly through her control of the money system of the world-based not on gold, but on credit-that England has been able to extend her empire.

A Washington woman has applied to be appointed a constable. She may have despaired of catching a man in any other way.

A Beeton, Ont., man has been fined \$10 and costs, in all \$20, for harboring and selling a stray cow without advertising it. It pays to advertise.

It may have been good policy on the part of the British Government to surrender to the United States without consideration all her interests in connection with the proposed Nicaraguan canal and to give up her claims in Samoa to the Germans and Americans. There is probably no advantage in maintaining more or less vague and shadowy "claims" and "interests," which are of no practical benefit and only tend to promote international punctual arrival of so many trans- wrangling and irritation, and distract ports in the appointed South African attention from really important matters. But supposing that a Liberal administrative ability of the English Government had been concerned, what a howl the jingo press would have this remarkable performance it stands raised? How the prints, "owned by to reason that with clearer vision, blackguards and editeed by ruffians," greater energy and truer measurement to use John Burns' phrase, would have of the enemy's resources, the English | raved themselves hoars over the poi-

leaders would have had a fair chance troonery and baseness of the surrender! But the politicians and press which vilified Gladstone and are now spitting on the grave of the noblest premier Britain ever had, have not a bit of condemnation for the "policy of scuttle" pursued by the Salisbury-Chamberlain outfit in order to buy German and American neutrality.

DOMINION

PARLIAMENT

Important Statements Made by the Minister of Public Works Regarding the Transportation Question.

Ottawa, Feb. 14.-In the house today Mr. Reid introduced his bill to regulate freight rates on railways, its object being to appoint a railway commission for the purpose. The bill was read a first time.

Mr. Charlton introduced a bill to amend the criminal code, the measure thrown out by the senate last session. The bill was given a first reading. A bill to amend the Dominion lands act was introduced by Mr. Sifton and

read a first time. Mr. Davin's bill to amend the mounted police act so as to make provision for promotion from the ranks, was also

read a first time.

A question by Mr. Marcotte elicited the information from Mr. Fielding that the amount paid for superannuaallowance in 1897-98 was \$340,185, and last year \$325,560. Mr. Foster was informed by the min-

ister of militia that the military force in the Yukon amounts to 88 and men-six of the Royal Canadian Dragoons, eighteen of the Royal Can adian Artillery, 62 of the R. C. R. Infantry, and two militia officers.

Dr. Borden stated that the govern-

ment's attention had been called to the matter of all defects in the Lee-Enfield. No formal complaint had been made, but the superintendent of the Dominion cartridge factory at Quebec had made a confidential report on the subject, which had been forwarded to the British authorities through the high commissioner.

A reply given by the minister of militia to Mr. Casey showed that in the fall of 1865, 500 men were called out to repel the Fenian invasion. On the 9th of March 1,000 men were called out, and in a few days the strength was increased to 14,000. In June, 1885, 14,000 were called out, and in a day or two there were fully 20,000 men under arms in Ontario and Quebec. The first de-putation to the minister of milita in conection with the issue of Fenian raid medals was in the fall of 1896. Steps were then taken by the minister to secure the medals. The sum of \$5,000 had been appropriated for the medals, and more would be required. About 10,000 applications for medals have been received to date.

TRANSPORTATION. Bennett moved his resolution expressing the opinion that the time had come for a settled policy on the transportation question. Mr. Bennett said it would be wiser for the government to buy up the Canada Atlantic and Parry Sound system than to spend \$5,000,000 at Port Colborne. He demned the deal with the Connors syndicate of Buffalo, and thought it strange a man like Mr. Harcourt, should be mixed up in it. Mr. Tarte said that so great was

the trade that there was work for all avenues of transportation by land and attractive. water. He believed in the Toronto-Collingwood air line, for instance, as one which at least deserved consideration. Larger cars and heavier rails had brought about such changed conditions of transportation. Then there was no reason why the C. P. R. and I. C. R. could not successfully carry grain to St. John in competition with Boston and New York. While it would take considerable money to deepen the ports of Collingwood, Owen Sound and Midland, he did not think it would cost more than \$1,500,000 to deepen and improve Port Colborne. It would be necessary to proceed expeditiously with the latter improvements, in order to accommodate the largest ships now building. One great advantage Port Colborn would possess was the possibility of getting return freights from Buffalo west. The lack of return freight was the great drawback to Georgian Bay, although he would give Mr. Booth credit for having accomplished what no other company had been able to accomplish, namely, to get return freights from American to American ports. As to the advantages of Montreal, compared with New York and Boston, the rates to Liverpool were cheaper by the American ports, unfortunately; but the cost would be reduced with the further improvements of the St. Lawrence channel and the extension of the telegraph line to Belle but a still greater improvement would result from making our canals

free of tolls, as is the Erie Canal, on the other side. He favored free canals, and while he was a friend of the railways, he would not consent to allow Mr. Britton, of Kingston, upheld the

Connors syndicate as an institution that was bound to enhance the grain trade of the St. Lawrence. Mr. Dobell remarked that upon the

opening of navigation next spring there would be 14 feet available draft from the lakes to the seaboard. An element that worked to the disadvantage of the St. Lawrence route, he said, was the discrimination in insurance rates, and in his opinion the only way to overcome this was for our insurance companies to form a Canadian Lloyds and take a portion of the risk.

The house adjourned at 6 o'clock.

A Blessing to the Homes of Canada

No invention of the century now coming to a close has done so much for the homes of Canada as the Diamond Dyes. These reliable and neverfailing dyes have saved more money for our Canadian families than all other combined agencies.

Diamond Dyes, with their magical re-creating powers, give to faded and dingy looking dresses, skirts, waists, blouses, shawls, capes, jackets, coats, vests, pants and all fabrics, light or heavy, a second life-a condition of richness and beauty, in the majority of cases far ahead of the original colors and shades. It simply means that a new dress, coat, jacket or other article of wearing apparel is obtained at a cost of from ten to twenty cents. This work is now successfully carried on in tens of thousands of happy and prosperous homes

in our Dominion. If you have not yet tested the recreating and economizing powers of Diamond Dyes in your home, you are losing money every month.

UNUSED TO THE CLIMATE A Frenchman Finds Canadian Weather

Had a Bad Effect on His Health.

St. Eustache, Que., Feb. 12.-Auguste Dubois landed here from France, a perfect stranger to the weather conditions prevailing in this country. The food also differed to that to which he had been accustomed, and his heart being weak the change had a serious effect upon it. He went to a medical man who did him no good. He went to others with a similar result in each case.

"I had to go to Montreal," he says, "to work for the Grand Trunk, and in that city met a man who was suffering the same thing as myself, but had started to take Dodd's Kidney Pills. He told me they were doing him good. He was kind enough to give me a few of them. I took them. I felt myself much better. I procured a box, and in fifteen days felt like a different man."

At the battle of Hastings (A. D. 1066) the weapons being swords and battleaxes, 500 fell, fatally wounded, out of every 1,000 soldiers.

A DINNER PILL - Many persons suffer excruciating agony after par-taking of a hearty dinner. The food taking of a hearty dinner. The food partaken of is life a ball of lead upon the stomach, and instead of being a healing nutriment, it becomes a poison to the system. Dr. Parmelee's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions, and convey the food partaken of into healthy nutriment. They are just the medicine to take if troubled with indigestion.

STRATCONA HORSE

Arrival of the First Detachment at Ottawa.

[Special to The Advertiser per C.P.R.] Ottawa, Feb. 15 .- The first detachment of the Strathcona Horse reached here at 9 o'clock this morning. There was no formal reception at the depot. Two or three hundred people were in attendance at the station to give them a hearty welcome. The men presented a fine appearance. Their physique is excellent, and they are first-class shots and good horsemen. It took six large street cars to convey the soldiers from the depot to the exhibition grounds. Good quarters have been fixed up in the main building on the exhibition grounds for the men during their stay here. It will take from ten days to two weeks to have the contingent outfitted and equipped, ready for embarkation attendance at the station to give them and equipped, ready for embarkation at Halifax.

"FROM THE SKY"

Were These Men Andree and His Companion?

New York, Feb. 15 .- The following is printed here today under a London

A letter received in London from Bishop Newnham, of Mossinee, dated Oct. 1, Fort Churchill, Hudson's Bay, "Two Eskimos came here this summer, traveling from the far north, to tell that two white men had come down from the sky in a balloon, the remains of which they had seen, and had been murdered by some Eskimos there. I believe this is authentic, but have not had time to inquire. Sad, if this be the last of poor Andree and his

COUNTY COUNCIL.

The county council met this morning at 10 o'clock, Warden Hardy in the chair.

It was moved by H. Hardy and sec-J. R. McComb, of Lucan, tendered his resignation as high school trustee, having been elected a councilor in the

village. Filed. The first report of the finance com-mittee recommended that no action be taken in regard to the following communications: One from Dr. A. M. Roseburgh, asking a grant for the Prisoners' Aid Association, and one from Capt. A. D. Cartwright, asking a grant for the Ontario Rifle Association.

Grants were recommended as follows: Six hundred dollars to the 26th Battalion; \$10 to the Children's Aid Society, and \$200 to the Canadian Patriotic Fund Association.

The clerk will order copies of the Municipal World for each member.

It was recommended that \$1,500 be paid Victoria Hospital on account, pending the auditing of the accounts. A number of other accounts were recommended for payment.

The report was adopted. Bylaw No. 521, relating to the boundary between the townships of Adelaide and West Williams, was repealed.

James English was appointed trus-tee of Strathroy High School, and George M. Wedd was appointed trustee of Parkhill High School. The council adjourned till 2 p.m.

New York, Feb. 15.—Tom Sharkey today accepted Bob Fitzsimmons' chal-lenge to the heavyweights. Fitzsimmons was informed of Sharkey's acceptance, and said: "If Jeffries doesn't come to time within a week I will make a match with Sharkey without any delay. I am willing to make the side bet \$10,000, the winner to take everything.

A Rare Musical Treat.

The many music lovers in London have a rare treat in store next Monday evening, when Miss Jeanette Durno gives a recital in the Auditorium. Miss Durno was a pupil of the great Lescretizky in Vienna for several years, and while there took part in double piano work with Paderewski on several occasions. Miss Durno has been highly praised for her excellent work in such musical centers as Chicago, New York and Boston, critics placing her as the equal, if not superior to Ausderohe, one of the brightest stars in the musical world at the present time. The benefit derived by students from hearing such artists as Miss Durno is as valuable as many lessons, and much cheaper. Miss Durno visits London under the patronage of the Conservatory of Music, which is in itself a sufficient guarantee of excellence. The plan of seats opens at Heintzman & Co.'s piano rooms this morning.

A cable from Paris says that France has taken no action in regard to the Hay-Pauncefote treaty,

Spring Embroideries and White Goods.

The new, dainty edgings, insertions and all-overs from the wonderful Swiss town, St. Gall, are here now in as great

variety as we shall have them at any time during the year. New embroideries and new patterns will come in week by week, but this is the big full starting point, and you won't see better here or elsewhere. From the quarter-inch baby edging to the wide flouncing for women's and children's underwear, the embroideries shade from one pattern to another in almost perplexing variety. There are very many patternsmost of them our own. We went through piles and piles of new designs last May, until our eyes were almost tired of loveliness, and picked out the best. We invite you to see them if at all interested.

Just arrived and placed out for sale, advance stock of Galatea, for Skirting, Boys' Blouses, etc. A great range in light and dark blue, with white stripes on pure linen effect. Fast colors.

A Correction. To the Editor of The Advertiser:

Would you please allow me to correct a statement that appeared in the last issue of the Industrial Banner, which was to the effect that the Watson-Johnston Company had broken their agreement with the local tailors' union, which is not the case. The Trades and Labor Council find that the abovenamed firm did not "deliberately break" their agreement, as stated in the article, and regret that the error appeared in the columns of the Banner. Yours truly,

DEATH OF WILLIAM FLETCHER. William Fletcher, a zealous servant of the county of Middlesex, died suddenly at 7 o'clock this morning. Mr. Fletcher has been suffering for some time from tuberculosis, but was up and around till last night. For nearly 20 years he had been janitor of the court house and county buildings, and the manner in which he discharged his duties had gained for him the esteem of all. Born in Ireland 58 years ago, and coming to Canada when a mere lad, with his mother and sister, he lived for a short time in London township; then removed to Lobo, where he engaged in farming until his appointment to the position he held till his death. He married Miss Finch, of Lobo, who survives him, together with two daughters, Mrs. Pudney, of West London, and Mrs. Chas. H. Finch, who lives at home. His sister, now living in Minneapolis, also survives him. Mr. Fletcher was a lifelong Liberal, and a member of the Talbot Street Baptist Church. He was also a member of the K. O. T. M. The funeral will take place on Saturday morning to Woodland Cemetery. Service will be held at the residence (court house), at 10:30, and the funeral will leave at 11 a.m. The county council will attend in a body. FOR EMPLOYES' BENEFIT.

The 18th annual report of the Mc-Clary Manufacturing Company's Employes' Benefit Society evidences its continued prosperity. Besides doing a good work in aid of the sick among its members, the society is taking an active part in outside philanthropy. Recently a gran of \$25 was made to the patriotic fund. It is the intention also to pay the charge for the employes as a safeguard against consumption who use the rooms at Victoria Hospital, that were furnished by the company. The proceeds of the annual concert are devoted to special relief work. In 1899 the society's total receipts amornted to \$2,260 86. Of this sum there remains a balance of \$378 71. The proceeds of the concert amounted to \$318 36 is still on hand. boulders—Square, 12 to 14 lbs, dull, 34s.

A Quarter-Century Report.

The continued prosperity of the Canadian Savings and Loan Company during the past quarter of a century is eloquently set forth in the compara-tive financial statement given in another column. Each year has been marked by a substantial increase in reserve fund and assets. The latter in 1876 amounted to \$115,911; now they total \$2,029,055. They have increased steadily year by year, and week by week, evidencing not only ability, but eternal vigilance on the part of the manage-

INCREASED WAGES FOR YARD-MEN.

The Grand Trunk yardmen at the Don, Little York and Toronto yards have received an increase in wages amounting to 10 cents a day for foremen and helpers. Foremen will begin at \$1 80 per day, and each year up to the third they will receive 10 cents per day more. Helpers will start at \$1 60 per day, and will receive the same increase. A daily allowance of 10 cents will be made for night work.

This Weather Breeds Consumption

The Beginning Is a Cold or Cough That The death record of Toronto for the

past month was nearly double that of last year. Everywhere you hear people cough-

"Only slight colds," they say. But they are the colds that fill the graveyards and cemeteries. They are the colds that, if neglected, will become consumption, pneumonia, or some sort of lung trouble.

True, there are hosts of remedies for colds, so much the more important that you should select with care. Dr. Chase's Syrup of Linseed and Turpentine is the prescription which the famous recipe-book author found most successful in his large practice. It has proven its efficiency, and is not to be compared to the patent medicines and the mixtures which some druggists would have you buy.

Dr. Chase's Syrup of Linseed and Turpentine has become so universally used as a family remedy for coughs, colds, bronchitis, asthma, and croun that it has been found advisable put it up in family-sized bottles to sell at 60 cents. This large-sized bottle holds three times as much as the regular 25-cent size, and is for the convenience and economy of families who keep this great remedy in the home and pneumonia.

One thought of the remorse that must torment the mother of the dying consumptive, whose illness began with a neglected cold, is sufficient warning

Roberts' Great Flanking Movement Unexpected by the Critics.

London, Feb. 15-(Special to Toronto Globe).-The sixth division is Major-General Kelly-Kenny's, which has been reported to be co-operating with Gen. French and Gen. Gateacre for the clearance of the country south of the Orange River. His division is now officially reported on the Riet River, with the seventh division (Major-General Tucker's), which has been believed to be at Modder River. These two divisions, with Gen. French's cav-alry brigades, and a new infantry brigade made up from the battalions lin-ing the railway from De Aar Junction, are now co-operating with Gen. Methuen's army in a great flanking movement on the Riet and Modder Rivers. It is a concentration of British forces on a large scale, in an unexpected quarter, and the whole movement has been so cleverly concealed that no military writer in London has been able forecast the precise direction of | Lord Roberts' advance. What is more important is that the Boers themselves have apparently been misled, for they have weakened their forces in the quarter where the attack will be made, ish will remain on the defensive.

At the words of one who, a few moments before, they had supposed to be dead, an awe-struck stience fell; and the count, taking advantage of it,

Quick as thought the room was full of soldiers; but the rest of the order was easier said than obeyed. The robbers, knowing their doom was death, fought with the fury of desperation, and a short, wild and terrible conflict ensued. Foremost in the melee Sir Norman and the count; while Hubert, who had taken possession of the dwarf's sword, fought like a young tion. The shricks of the women were heartrending, as they all fled precipi-tately into the blue dining-room; and, crouching in corners, or flying distractedly about-true to their sex-made the air resound with the most lamentable cries. Some five or six, braver than the rest, alone remained; and more than one of these actually mixed in the affray, with a heroism worthy of a better cause. Miranda, still sitting erect, and supported in the arms of a kneeling and trembling sylph in white, watched the conflict with terribly exultant eyes, that blazed brighter and brighter with the lurid fires of vengeful joy at every robber that fell.

"Oh, that I were strong enough to wield a sword!" was her fierce aspiration every instant: "if I could only mix in that battle for five minutes, I could die with a happy heart!" Had she been able to wield a sword for five minutes, according to her wish,

she would probably have wielded it filen beginning to end of the battle; for it did not last much longer than that. The robbers fought with fury and ferocity; but they had been taken by surprise, and were overpowered by bers, and obliged to yield. The Crimson Court was indeed crim-

the city to die of the plague. Can you suggest nothing, Sir Norman?" Nothing, but to leave them here to take care of themselves, or let them go

"They would be a great addition to the court at Whitehall," suggested Hubert, in the prettiest tone, "and a thou-sand times handsomer than half the damsels therein. There, for instance, is one a dozen times more beautiful than Mistress Stuart herself."

Leaning, in his nonchalant way, on
the hilt of his sword, he pointed to Miranda, whose fiercely joyful eyes were fixed with a giance that made the three of them shudder, on the bloody floor and the heap of slain.
"Who is that?" asked the count curi-

"So she does; and she hates both her husband and her subjects with an intensity you cannot conceive."
"How very like royalty!" observed
Hubert, in parentheses. "If she were a

and my last words are in thanksgiving to you for having thus avenged me."

"Let us hope you have many days to live yet, fair lady," said Sir Norman with the same feeling of repulsion he had experienced in the dungeon. "I am sorry you have been obliged to witness this terrible scene."

ness this terrible scene "Sorry!" she cried fiercely." since the first hour I remember at all, I remember nothing that has given me such joy as what has passed now; my only regret is that I did not see them all die before my eyes. Sorry! I tell you I would not have missed it for ten

thousand worlds.' 'Madame, you must not talk like "Madame, you must not talk like this," said Sir Norman, almost sternly. "Heaven forbid there should exist a woman who could rejoice in bloodshed and death. You do not, I know. You wrong yourself and your own nature in saying so. Be calm, now; do not excite yourself. You shall come with us

and be properly cared for; and I feel certain you have a long and happy life before you yet." "Who are those men?" she said, not heeding him, "and who—ah, great hea-

ven, who is that?" In looking round she met Hubert face to face. She knew that that face was her own; and, with a horror stamped on every feature that no words can depict, she fell back with a terrible scream

and was dead! Sir Norman was so shocked by the suddenness of the last catastrophe that for some time he could not realize she had actually expired, until he bent over her and placed his ear to her lips. No breath was there; no pulse stirred in

that flerce heart—the Midnight Queen was indeed dead. "Oh, this is fearful," exclaimed Sir Norman, pale and horrified, "The sight of Hubert, and his wonderful resemblance to her, has completed what her

wound and this excitement began. Her last is breathed on earth."
"Peace be with her!" said the count, removing his hat, which up to the pre-sent he had worn. "And now, Sir Nor-man, if we are to keep our engage-ment at sunrise we had better be on the move, for, unless I am greatly mis-

taken, the sky is already gray with day-dawn."
"What are your commands?" asked Sir Norman, turning away, with a

from the beautiful form already stiffening in death. "That you come with me to seek out those affrighted fair ones, who are a great deal too lovely to share the fate of their male companions. I shall give them their liberty to go where they please, on condition that they do not enter the city. We have enough vile of their class there already."

Sir Norman silently followed him into the azure and silver saloon, where the crowd of duchesses and countesses ringing their "weeping and hands," and as white so many pretty ghosts. In a somewhat brief and forcible manner, considering his characteristic gallantry, the count made his proposal, which, with feelings of pleasure and relief, was at once acceded to; and the two gentlemen bowed themselves out and left the startled ladies.

On returning to the Crimson Court, he commanded a number of his soldiers to remain and bury the dead, and assist the wounded; and then, followed by remainder and the prisoners under their charge, passed out, and were soon from the heated atmosphere in the cool morning draught. The moon was cool morning draught. still serenely shining, but the stars that kept the earliest hours were setting, and the eastern sky was growing light with the hazy gray of coming morn. "I told you day-dawn was at hand." said the count as he sprung into his saddle. "and lo, in the sky it is gray already."

While engaged in the lumber business, about fourteen years ago. I was on top of a pile of lumber about 39 feet high, when it was upset and I was precipitated upon the ground. Some of the lumber fell on my ankle and sprained it worse than if it had been broken. It has troubled me more or less ever since. When getting in and out of my wagon I had to use my well foot entirely. I got a bottle of Doyle's Limment and after using two-thirds of a bottle, my ankle is as well as ever it was. Furthermore, my horse ran away. Being hitched too short the axletree hit her heels, and scraped the skin off. I used the Liniment and in a few days they were healed up. It is the best liniment I ever used. It has no equal on the market.

Moorhouse performed the ceremony. The bride was attended by Miss Mary Irwin, of this city, and Mr. Brandon McFadden, of Detroit, supported the groom. It was a very pretty wedding. The best wishes of a great many London friends will attend Rev. Mr. and Mrs. Irwin to their home in Dutton. MOTHERS' MEETING.

A most successful mothers' meeting was held in Rectory street kindergarten by the Froebell Society, Tuesday afternoon. In spite of the stormy weather there was a very good attendance. After opening the meeting with the hymn, refreshments were teachers' served, and the more serious part of the programme was given. Miss Sale read a paper on the advantages of a compiete kindergarten course before entering the primary room. She said children should not start to read or write before the age of 7 years, as previous to that time their minds were not fitted for that study, and in the kindergarten they were so prepared that these studies became easy when they entered the primary room. Miss K. Laidlaw showed the origin of St. Valentine's Day, and gave a suitable story. She spoke of the harm done by allowing children to buy and send ugly and silly valentines. Miss Westervelt gave a musical selection that was very much enjoyed. Miss Carrie then gave a paper on the importance of beautiful sur-roundings. The meeting closed with the "National Anthem."

Princeton. The wedding took place at high noon, and was solemnized in the drawing-room of the residence of the bride's father. Rev. G. Carpenter was the officiating clergyman. The bride was charmingly gowned in white or-gandie over white silk, with fichu of mousseline de soie; flowers, lilies of the valley and maidenhair ferns. After the reception a charming dejeuner was served in the dining-room. The happy couple left on the east-bound train at 3:40. Among the guests from London were: Miss Logie (sister of the groom), Mrs. and the Misses Callander, Miss Read, Mr. Spencer, Mrs. F. T. and Miss Yelland, Mr. and Mrs. Wm. and Miss Anna Tytler and Miss Edith Johnston. Both Dr. Logie and his beide are well known in London, the doctor being an old London boy, having graduated from the Western Medical College in 1886, and practiced his profession for some time here. Their many London friends will join in best wishes for their future happiness.

LONDON'S FIRE DEPARTMENT

Annual Report of Chief Roe-The Men Have Done Their Work Well With the Means at Hand-Recommendations for Increasing the Brigade's Efficiency.

Chairman Plant, Mayor Rumball, Ald. Ross, Jenkins, Wray, Chief Roe, Market Clerk Wilson and Secretary Bell were present at the meeting held last night. Some time was taken up in discussing the fire department's annual report and its suggestions. In the matter of works involving large outlay the committee was chary of recommendations to the council. With the prospect of a high tax rate the members desired to cut down all expenditure.

FIRE CHIEF ROE'S REPORT. Chief John A. Roe submitted the fire department's 17th annual report,

which, summarized, is as follows: "The new hook and ladder truck and the chief's buggy have been finished and placed in service. They are both a credit to the members of the department who planned and built them, at a minimum cost to the cor-poration. The apparatus is all in a fair state of repair. Some of the hose wagons need repainting and new wheel rims and tires, which will put them in first-class condition. Two of the horses, one in No. 2 and one in No. 3 halls, should be sold and replaced by younger ones. An additional man should be appointed at tending the C. E. convention at Strat-ford: Mr. Wm. Jeffrey (chairman), Rev. Joseph Edge, Rev. John Morri-son, Rev. A. G. Harris, and Messrs. E. S. Hunt, S. R. Carrothers, J. J. Singleir, Migg. Page R. Friend, Miss. other places where boxes could be placed to advantage, if the city's finances would warrant the outlay. The working of the new fire alarm boxes has been very satisfactory and reliable. If the present gravity battery could be replaced by a storage battery, I am of opinion that the service would be still rurther improv-The initial cost of installing this battery would be pretty high, but the annual cost of keeping it in operation would be very much less than the present system I would recommend that necessary steps be taken to build and equip an up-to-date station in the northern portion of the

city. All the buildings are in a good state of repair except the roof of No. 1 hall, which leaks in several places, and some rainting required at each of the halls. The time lost for sickness aggregated 38 days, and from

accidents at fires, etc., 48 days.
"The members of the department have done their duty faithfully and well, as the small loss in comparison to the number of fires proves, and in this connection I desire to state that a petition from the members of the department will be presented, asking you for an increase of salary. I think the request is a fair and reasonable one, and should meet with your favorable consideration. I should also suggest a readjustment of the salaries of the de-

partment at the same time.
"We require 1,000 feet of new hose to keep our stock up to the standard of efficiency. I would recommend that your committee take action in reference to the removal of overhead wires from the central parts of the city, and having them placed under These wires are a great hindrance to the department in fighting fires in upper flats of buildings, and will undoubtedly cause loss of life some time through the delay caused in raising our ladders. I am very much pleased with the action taken by our city engineer in preventing the placing of seats in the aisles of public buildings. I hope the committee will strengthen his hands in every

possible manner. "There were 194 actual fires from which damage resulted; 31 chimney fires and 18 false alarms, causing no loss, and for which neither loss nor insurance are calculated in the following tables. The total number of alarms received was 243. an increase of 35 over 1898. The department attended 195 and worked at 136. An approximate estimate of the amount of water used is 1,032,760 gallons; ladders used, 1,348 feet; chemicals used, 328 gallons. Three fires were outside the city limits. We attended and worked at two of them. insurance on the buildings was \$397,-095; on contents, \$582,770; total insurance, \$977,865. The loss on buildings was \$19,743 28; on contents, \$39,790 44; total loss, \$59,533 72; or about one-sixteenth of the amount of insurance. The estimated value of the buildings was \$569,900, and contents \$767,-825; total, \$1,332,725, over twenty times the amount of the loss. Leaving out the chimney fires and false alarms, the average loss per fire was \$306 88. Compared with 1898 the number of alarms show an increase of 35; actual fires 67 more; chimney fires were 12 less and false alarms were 19 less. The losses were \$10,145 20 more, but the average loss per fire was \$91 less. Six buildings were destroyed, all old frame structures.

"Owing to the exceedingly close paring by No. 1 committee and the city council. the running expenses of the department slightly exceed the estimate for 1899. I beg to thank the mayor and council, as well as members of No. 3 committee of 1899, for favors received and courtesies tended to the department, and I also wish to thank the chief of police and his staff for the valuable assistance rendered. Respectfully submitted, "JOHN A. ROE,

"Chief of Department." RECOMMENDATIONS.

Tenders will be called for necessary repairs to hose wagons. The council will be recommended to purchase more horses and to appoint another man at No. 3 station. The suggestion that new fire alarm boxes be purchased was laid over pending preparation of the estimates; that storage batteries be installed in the present boxes, and that a new north end station be built were laid over for the chief to estimate, the probable cost. The council will be recommended to empower the committee to have the repairs about the stations attended to. The engineer will report upon the removal of overhead wires from the streets. The request

for increases and a readjustment of salaries was laid over. Engineer Graydon will prepare fuller estimates of the cost of lighting the municipal buildings from the electrical plant in Victoria Hospital.

Chairman Plant reported that he had seen Manager Carrick, of the Queen City Oil Company, in regard to its dispute with York street taxpayers. The company are willing to place a hydrant on the street, and a stand-pipe in their yard, but they absolutely refused to employ a night watchman, because, in their experience, more fires had been caused by watchmen than any other cause. The cary clerk will be instructed to communicate to the company the request of the committee that a night watchman be employed, and the mat-ter will rest in abeyance until their

written answer is received.

Market Clerk Wilson reported some repairs necessary in the market house. They will be attended to.

W. A. Howard's application for a position on the fire department staff was filed for reference. A number of petitions for electric lights and one for a fire alarm box were laid over until the estimates are Several accounts were prepared.

WEAK, FAINT FEELINGS. Serious Conditions that Milburn's Heart and Nerve Pills can

Readily Cure. One of the indications of serious heart trouble is the sensation of weakness or

faintness that comes on at times. Sometimes it is simply a dizzy feeling that passes off, or it may be a state of unconsciousness with hands and feet cold and countenance ghastly pale.

These symp. toms indicate a weakened heart. They are unmistakable evidences of the engine of life breaking down. Now there's

only one reliable

remedy for restoring strength and vitality to weakened hearts and relieving all the distressing symptoms. It is Milburn's Heart and Nerve Pills. The case of Mrs. A. Stratton, Frederic-

ton, N.B., amply proves this. Here is her statement:

"I suffered very much from an impoverished condition of the blood, coupled with extreme nervousness. A dizzy sensation on arising quickly or coming down stairs, often troubled me, and my breath was so short that I could not walk up stairs. The least exertion caused my heart to flutter and palpitate violently, and I sometimes felt a smothering sen-

sation on going to sleep. I doctored back and forth for my weakness, but I got no relief from any medicine until I tried Milburn's Heart and Nerve Pills, and I can say that they helped me wonderfully. Sometimes my face and arms would swell and puff, but all these troubles speedily yielded to the restoring influences of Milburn's Heart and Nerve Pills, and I am now strong and well. I did not use them long until I regained the blessing of healthful, refreshing sleep and it will always be a pleasure to me to

commend them to others."
