The following is a continuation of the examination of Mr. Toothe by Mr.

Hellmuth: Witness remembered Pat Moore and Pat O'Hearn coming to see him once in the club. Witness looked up the voters' lists for them. Witness did not recollect Tracey and Moore coming to him subsequently, and it was absolutely untrue, as Moore had sworn, that witness had promised him money to vote, neither had witness authorized Tracey to give Moore any money. Witness denied Oliver Richardson's story that he had been introduced by Tracey to witness, and that witness had asked Richardson to "Give them a lift." Witness had given Richardson work, but never spoke to him about his vote. Witness denied that he had ever canvassed for Beattie with Tracey, as sworn to by a witness named Sherlock. Toothe said he met Tracey by accident on Cheapside street and also meeting Sherlock, canvassed him for his vote, but Tracey did not open his mouth. He had merey gone to Cheapside street for a walk. (Laughter.)

THE LAST OF THE ATTIC. Mr. Hellmuth said he had finished examining Mr. Toothe about the attic and would now proceed to the Detroit charges.

Mr. Hellmuth then asked Mr. Toothe about certain telegrams. Toothe had telegraphed to Wigmore that he had expressed a parcel to him. This was a parcel of Literature. (Much laugh-

Toothe's telegram to J. H. B. Toothe, Sandwich, telling him to come to Lon-don at once was produced. Witness said this telegram was private, and had nothing to do with the election. "DON'T TOUCH WHITE."

The next was witness' famous telegram to Graydon, Detroit, "Don't A.-I the touch 'White."

Witness explained that he had heard might induce White to come to London to vote, so I wired him to let him alone. I was afraid White might not vote right." (Much. laughter.) Another telegram, Toothe to Gray-

A long argument ensued between Mr. Osler and Mr. Robinson, the former objecting to the admission of Mr. Toothe's evidence, which was intended to contradict the witness Ryckman, who signed a document in Toothe's presence, but who claimed that Toothe read it so rapidly that he (Ryckman) hardly understood it.

MR. TOOTHE'S VIRTUOUS INDIG-NATION.

Mr. Hellmuth asked witness about the midnight pow-wow in witness' office, which Ryckman had described in court. Ryckman had sworn that Toothe drilled him in the story he was to tell the court about, the Lockington affair. Toothe denied he had told Ryckman to say "No, sir," so as to make an impression on the judges. "Those statements are malicious

falsehoods. They are beneath my de-nial," said Mr. Toothe, with a magnificent air of virtuous indignation. Witness also denied that he made the remark about the judges being "good Tories."

Will advance the price of their shares to 15 cents on January 11th, 1897, and a further advance to 20 cents will be made on January 31st.

This step is not only warranted by the intrinsic value of the properties under the control of this Company-WHICH ARE THE MOST IMPORTANT GROUP YET OFFERED UNDER ONE MANAGEMENT IN THE DOMINION—but also from the fact that we have just made arrangements for the placing of 500,000 shares of our treasury stock on the London, England, market. This has been done with a friend of Barney Barnato's and one of the great English promoters who has successfully floated many large concerns.

This insures us a good market and a much better price than we could secure here, as none of the shares will be offered there at less than two shillings per share.

THESE WILL BE THE FIRST FULL-PAID SHARES EVER OFFERED IN ENGLAND AT LESS THAN PAR, and the successful placing of this means more for British Columbia than any other event since gold was discovered, as a market for all other companies that must have means to properly develop their properties will be opened up.

Please notice that this Company, and the parent, the Colorado Gold Mining & Development Company, are at all times to be found in the van, and when seeking an investment, why not take the best?

Subscription books are now open at the office of Messrs. Lownsbrough & Co., Bankers and Brokers, 22 King Street East, where J. Although the Great Northern Mining Corporation received their charter less than one month ago they have already sold sufficient shares to insure the immediate object of the company, namely, to commence operations in developing their claims, and with the proceeds of sales now in bank have an ample fund to insure a full testing of their claims. They have commenced work on four claims, which are among the most promising, and have now regular gangs of men at work on the development. These are the Northern Light, the Partridge, the Mississauga and the Golden Egg. The intention is to at once begin development on all the claims which have shown fair surface assays, and it will be remarkable indeed if they do not make several rich finds. They have at present 60 claims under option, for none of which they have to pay a dollar, but merely to give the owners a small percentage of the net returns, whether worked by the company or sold to English investors.

The first general meeting of this company was held on Monday afternoon, at the office of Mr. G. N. Weekes. the company's solicitor, 98 Dundas street, London. The shareholders present were numerous and enthusiastic over the prospects of the company. The president, Dr. Roome, gave a short report, setting out in general terms the work done by the company in London, and the secretary reported the operations of the manager and engineer, Mr. Joseph Powell, in Ross-

The following are extracts from Mr. Greenless' report:
"Gentlemen,-In giving the report of matters pertaining to the company, I may say that our manager, Mr. Joseph Powell, has, up to this time, purchased on behalf of the company some fourteen claims. He made the first purchase on the 9th November, 1896, when the Rossiand Bene, the Ella S. The White Fawn, and one-half interest in the Landers, became the property of the company. These claims are located in the Rossland district, about twelve miles from the town of Rossland, on Sheep Creek. A slight development work was done on one claim, showing fine indications of good deposits of mineral ore. As assay on the Ella S., at 3 or 4 feet below the surface, showed \$3 gold, which our agent says is considered good for surface indications of this kind, which are the same as the Le Roi, which gave no gold assay until 25 feet depth was reached. "About Nov. 26 last our manager bought what is called the Finance

group, consisting of three claims, viz.: The Finance, Big Whale and Echo. These claims almost adjoin the group bought by some English experts a few days before Mr. Powell reached the district.

"Big Whale, our manager says, has a fine showing of quartz ledge, 28 feet wide, lying between two walls of syenite. The indications are good, the quartz is well mineralized, and if it develops as other similar quartz ledges it will be a monstrous ledge

"About the same time the Goline and Jim Dandy claims were purchased. They adjoin the Finance Group, and show excellent indications of turning out a good investment. They This is the second time Eright has won the Ross trochy.

THE COLLEGIATES WIN.

This is the second time Eright has ed by the Gooderham Syndicate.

"About Dec. 17 two more claims were purchased, viz., the Rico and Rand claims, in the Salmon River

country. "About the same time he purchased played last night at the Princess Rink the Daisy Elk, No. 2, in the south between the London Collegiate Instibelt, within sight of Rossland, also between the London Collegiate Institute hockey club and the Medical School, resulting in a victory for the Collegiate lads by a score of 6 to 1. Following were the teams:

On or about the 9th day of January. instant, another purchase was made comprising two claims, called the Arkwright and Alki. They are in the noted Toad Mountain district, near the great Silver King Mine, on the north branch of the Kootenay River, at the headwaters of Forty-nine Creek, and the claims are also close to the White Water Silver Mine, valued at \$12,000,-000. Our manager is enthusiastic over this deal, and considers it by far the best he has made yet. The sample of the ore was assayed at \$694 to the ton. "In regard to the Finance Group, our manager thought it advisable to form a new company in British Columbia, for the purpose of operating and de-

veloping this group, on these lines: Total number of shares of stock.1,000,000 Rossland promoters bought .. 135,000 Allotment to Seth H. Bryan .. 62,500 Allotment to another party .. Treasury stock ...... 250,000

"On the whole, we should judge that our manager is working in our interests with great zeal and energy, and that if the London Gold Mining and Development Company is not a decided success, it will not be owing to any lack of endeavor on his part. From the whole outlook we may conclude that the chances of the members of this company making handsome returns on their investments are exceedingly good, and equal to, if not much better, than those afforded by the majority of the mining companies now in course of flotation. Yours re-A. GREENLEES, spectfully,

"Secretary." The Company's charter of incorporation was exhibited and inspected with great interest by the shareholders present. It bears date Dec. 24,

Mr. Weekes then read the bylaws for the Government of the company, which had been drafted and revised by the executive committee, and they were with slight amendment adopted. Resolutions were passed adopting the contract made by the provisional distrect, London. rectors with the company's manager, and authorizing the directors to grant additional remuneration if they think proper to him, and a further resolu-tion authorizing and instructing the directors to continue the operations of the company in British Columbia.

The election of directors resulted in the re-election of the whole provisional board. At the directors' meeting, which followed, the provisional officers were re-elected for the ensuing year, and up to the first Monday

in February, 1898. The directors also authorized the executive committee, consisting of the officers of the company, to declare a proper, out of the cash profits derived from the sale of the Finance Group. This, it is understood, will be done in

a few days. The members of the company are very much elated over the success with which it has met so far, and the extraordinary prospects of profits in the near future. Great admiration was expressed fo

the shrewd and energetic manager, and engineer, Mr. Joseph Powell, and the highest appreciation of his ser-vices was voiced on every hand. The members present were Roome, Dr. Weekes, Dr. Lockhart, and Messrs. Greenlees, Spittal, Campbell, Burns, Millar, Nicholls, Butler, Coon, Daly, Burness, Sangster, Drewe, Dr. Woolverton and G. N. THE McMASTER WIND-UP.

Toronto, Jan. 21.-McMaster & Co.'s financial statement shows that the two largest creditors are the Bank of Montreal and the Merchants' Bank, which rank each for \$28,000, fully secured. The Canada woolen mills, of Montreal, rank for \$15,000, and the Standard woolen mills, of Toronto, for \$5,700. There are numerous creditors in Montreal and through Ontario for amounts between \$1,500 and \$2,500. Inspectors have been appointed to wind up the state, Mr. MoMaster having declared his opinion that it was of no use to continue the business. A meeting of the creditors unanimously adopted a resolution expressing entire confidence in Mr. McMaster's business integrity, and greatly regret that unfortunate conditions, which were uncontrollable on his part, have brought about the present result.

### HANDS AND FEET GOT STIFF As Though Paralyzed,

A grateful young lady is Miss Annie Shepherd, of North Pelham, Ont., who writes as follows: I had two very bad spells of it and was obliged to call in the doctor. My hands and feet would get stiff as though I was paralyzed. I had to quit work and tried doctors' medicine, but did not get any help until I got Manley's Celeryve Compound. After taking five bottles am restored to health again, and can highly recommend it to anyone who may suffer as I did. I am gaining in flesh and at work now.

CHICAGO.

Chicago, Jan. 20.—The action of the St. Louis wheat market was the main factor in determining the course of prices for that grain here today. All day the market at the southwestern city was relatively stronger than here—a fact which deterred sellers from acting with too much enthusiasm. Liverpool declined but id, as against ic loss on this side yesterday, and comparative firmness thus shown in the English market helped prices here. Indefinite reports of the winter killing of from 2,000,000 to 3,000,000 acres of the Russian crop were heard, but not much confidence seemed to be placed in them. Closing Paris cables were higher for flour and unchanged for wheat. Antwerp was unchanged and Berlin slightly lower. May wheat opened from 794c to 792c, sold between 794c and 804c to 803c. closing at 804c to 804c—ic to it higher than yesterday. Cash wheat was irregular, closing ic higher. But Last Year Was Away Ahead of It.

The Late John Marshall Lovingly Remembered - All Branches of the Church Work Are Very Successful.

Unity of interest characterizes the operate heartily for her advancement. fact largely due to the enterprise of the Women's Association in adopting the happy scheme of an "extra cent per day fund." The merit of the plan was so evident that the congregation decided that the best scheme for the reduction of the debt on the church was to urge the male members of the congregation to become honorary members of the Women's Association and subscribe to their fund. Before the reports were presented an excel-lent tea provided by the ladies was greatly enjoyed.

On adjourning to the school room Rev. J. G. Stuart, B.A., the pastor, presided, and conducted devotional exercises. The twelfth annual statement of the session, which was adopted, shows that 28 members were added during the year; one was lost through death, and four by removal; total membership, 254. The number of families in connection with the congredemand for cattle, and in consequence gation was 152. The offerings for the Matilda Barthoulot, tightened, day by mission schemes of the church, by envelope, were \$398 10, being \$130 60 more than the preceding year. In ad- ed to sink within her body. The report of the flower committee caused many in the congregation to recall pleasant memories of the per sonal favors they had received from the members of this committee. When Col. Gartshore moved a vote of thanks to the ladies who had done so much good work on so little capi-tal, and shown such thoughtfulness in sending flowers to members of the church at times of illness, a number of gentlemen rose to second it. Among them were Messrs. Dewar, McEvoy, and Davidson. They each highly praised the work of the ladies. The conveners of the committee are Misses

The Women's Foreign Missionary Society made a capital showing. The balance on hand, \$151 40, to give to the general secretary, is an increase over last year. A mission band has been formed, with Miss J. Rowat, president. The membership of the W. F. M. S. is

The report of the board of managers, presented by Mr. John Macpherson, treasurer, stated that the year 1895, itself far in advance of any previous year, had been eclipsed. The revenue was increased from \$55 71 per Sabbath in 1895, to \$58 45, in 1896, and from \$16 75 per contributor to \$17 44. During 1896 there were 159 contributors, an increase of 9 over the year 1895. The increase in receipts was \$140. The salary of the organist, Mr. Fred L. Evans, was increased from \$300 to \$400 per year, and of the sexton, Mr. A. M. Sutherland, from \$150 to \$200. Feeling reference was made to the bequest of \$100 by the late John Mar-shall, for fitting up the choir left, and for music. Mr. McPherson pointed out that there were about \$200 extra expenses during the year. The statement of the current account showed receipts \$3,278 10, expenses \$2,939 21. it was at the end of 1894. Loving reference was made in the re-port to the late chairman of the board, Mr. John Marshall, to whose munifi-

cence they were largely owing for this satisfactory statement. Mr. J. M. McEvoy suggested that a suitable memorial be placed in the church in honor of Mr. Marshall. At the suggestion of Mr. Thompson, the matter was left to the board of managers and the session.

Then followed the election of managers. Mr. Macpherson explained that it was necessary to reorganize the Church, South London. The members Dewar, H. W. Givins and W. H. Weston, whose term has just expired, were re-elected, and Mr. Duncan Campbell was elected to the vacancy caused by This spirit was particularly evident at the death of Mr. Marshall. WROTE A LONG LETTER. Matilda took every precaution when she decided to end her life, and wrote destruction. After writing this she carefully knotted a bit of clothesline adjusted the noose, and then kicked to call a physician to attend her. The girl lived with her father, Chas. Barthoulot, an engraver, at No. 631 Park avenue, Williamsburg. He discovered her body, and cut it down. The ink of the explanatory letter was nearly dry.

This letter reads in part: "Can I ever forget the feelings when I had on that tight, fatal waist, and recover. my feeling of horror when my spine sank in?

"Yes, my beloved ones, I am in perfect misery, and I have not one minute's rest. I do look well, but that LANGUAGE LESSON. means nothing. Her mother, who has been insane for four years, was taken on March last to the Flatbush Asylum. Matilda thought her fate was to be the same, and she became morose and taciturn. It was out of the question for her to wear becoming dresses, and this wounded her vanity. She was 22 years old. She gave piano lessons until a few months but an injury received then compelled her to abandon teaching. Mr. Barthoulot and Annie, another daughter, went to walk at 1 o'clock yesterday. Matilda had asked to be eft at home. They returned about 4:30 'clock, and found the doors locked. A borrowed key soon opened them, and Mr. Barthoulot found Matilda hanging in her doorway. THE WEATHER TODAY Clearing and colder.

Wise planning is bringing just the result that might have been expected when the very best and up-to-date stocks of Ladies' and Home Goods are offered at splendid reductions. We planned to bring these opportunities on at the proper season, but the time seems all too short when they shall cease, as the articles offering are going out quickly. You may want some of them. You are sure of them today. Next week may see them all in other hands.

Our entire stock will be found interesting to intending purchasers. Each department has its attractions. We always offer extra value, but these days we are making special reductions on many lines of seasonable goods. An Eiderdown Quilt is a comfortable article to have-gives warmth without weight. Our \$8 50 sateen covered line we are clearing at \$6 50, and our \$11 satin covered line at \$7 75. We

call these reductions. Then again, we have a number of SOILED BLANKETS

-Just the same quality as those not soiled, but selling at greatly reduced prices. For instance: \$1 75 Blanket at \$1 25; \$2 25 Blanket at \$1 50; \$2 75 Blanket at \$2 25; \$3 75 Blanket at \$2 50; \$4 50 Blanket at \$3 65. These are genuine Blankets, and if it were not that they were slightly soiled would sell at regular prices easily.

# CLEARING COMFORTERS

Our comforters we are also clearing at very special prices-\$1 35 buys a \$1 75 Comforter; \$1 50 a \$2 one; \$1 85 a \$2 50 one; \$2 40 a \$3 one—and so on. These are regular goods, not job lots, as the low prices would seem to indicate.

Then to keep the ladies warm in home and out we reduced every Jacket in our superb stock to half the regular price. You can now buy a \$6 75 Jacket for \$3 38. Not a few odd lines, but every Jacket in the store. Thus we offer a great many chances.

KEEP 30c.

In the Footwear Department we have quite a number of pairs of 500 and 55c Rubbers. We are allowing customers to keep 30c off every 55c pair and 25c off every 50c pair. In other words you can buy a pair of either for 25c. A great many customers have done so. They know there'll be lots of slushy weather yet.

38c TWEEDS.

The ladies of London never before could buy such 75c Tweeds at 38c. They never had the chance—that's why. Now that they have it we expect they'll use it. Big value. Just the thing for this weather.

You see, he kept my secret even while dying, and would not send me one of the fond messages of which I know his heart must have been full, for fear of betraying me. He said that I would take charge of the publishing of the manuscript, if I thought best to give it to the world, for the expenses of which he inclosed the Bank of England note. That, however, was only a blind, for the manuscript was in such a crude state it could not be published, and he had simply taken that way to send me, without exciting suspicion, the only existing proof of our marriage, and what little money

Of course, after that, there was no fear of discovery, even though I mourned with the bitterness of despair over my lost hopes. My mother's death was excuse enough for my grief, though people said I laid it to heart more than they imagined I could. For better than a mockery. Mine certainly thus far had been a miserable failure. My husband dead, my child lost to me forever-for, of course, I could never claim her now-what was there in the world for me to live for?

"After a time I grew bitter and reckless. I told myself if I could not have the blessings that usually crown a woman's life, I would make the most of that fortune that I still possessed; I would travel-I would see the worldagain. We went to England first, where I found my husband's grave, but did not dare even to mark it with an expression of my love. I made myself agreeable to you with that sole object in view. You know how well I succeeded, although you did not dream that I was scheming for that, and I did not experience a qualm, since I did not deceive you re garding the state of my heart toward ou; my acceptance of you was as frank as your proposal for my hand. Neither of us professed any love for the other. We simply decided that it would be a wise union, and that we could be a very comfortable couple. Lord's Day Alliance Appeals to the

Toronto, Jan. 21 .- A deputation representing the Lord's Day Alliance waited on the Ontario Government on Tuesday afternoon to urge legislation week in all shops throughout the

The members of the deputation were Messrs. J. K. Macdonald (president), A. E. O'Meara (secretary), John A. Paterson, D. J. O'Donoghue, N. W. Rowell, J. C. Copp, Rev. Dr. German, Rev. John Anderson, Rev. William

Frizzell. The members of the Government were Premier Hardy, Hon. G. W Ross, Hon. John Dryden, Hon. Richard Harcourt, Hon. E. J. Davis, Hon. Wilham Harty

Mr. J. K. Macdonald stated in a few words the object of the deputationto induce the Government to bring in a bill for the enactment of a half-holiday in every week for all persons engaged in shops, with a few exceptions in special cases.

SEVEN PROPOSALS. Mr. O'Meara submitted the proposals of the alliance for a weekly half-holiday and early closing on Saturday, These are seven in number, as fol-

1. All shops shall be closed in each week on the afternoon of one working day at the hour of 1 o'clock with such exceptions as are necessary in the public interest, such as the cases of drug stores and restaurants at all times, and butcher shops during the months of June, July, August and 2. In the absence of a municipal by-

law appointing another day, the clos-ing day shall be Saturday. 3. In each muncipality the municipal council shall have power by by-law to appoint another day instead of 4. All shop assistants in excepted shops shall have a half-holiday from

1 o'clock on some working day of the 5. When a public holiday occurs in any week it shall be sufficient to close shops on such holiday instead of the closing day.

6. All shops shall remain open on the afternoons of the working day next preceding Christmas Day, New Year's Day and other public holidays, although such working day may be the day appointed for closing.
7. All shops, except drug stores, shall be closed on Saturday evenings

In reply to Hon, Mr. Dryden, Mr. O'Donoghue said that Mr. Tait's bill referred to factories as well as shops. The present petition was confined to shops, large and small.

The Premier-Have you intrusted the bill to any private member? Mr. O'Donoghue-We have not. The chances of its passing would not be so strong with a private member as with the Government.

The Premier-Do the large firms, such as the Massey-Harris and the Gurneys, close on Saturday afternoon? Mr. O'Donoghue-Nearly all make ome arrangement, if not for a half-coliday, for some hours' less work on Saturdays. There is no large factory in Toronto that works the whole of Saturday afternoon. The men work extra during the week to compensate Hon. Mr. Dryden-You mean they get the same wages, the half-holiday being made up. Mr. O'Donoghue-We do not deal

with the question of wages in what we are asking today. We think you will have difficulty enough in dealing with the question of compulsory clos-ing without dealing with wages. Mr. Paterson pointed out another matter which should be considered. People, said he, come to church on Sunday morning, tired and wearied, and distressed through being compelled to work the long hours of Saturday. The good of the people, the good of the country, would be greatly advanced if everyone was compelled close his shop at 9 o'clock Saturday

The Premier again asked-Would you not put the matter in the hands of some private member? Mr. Paterson-We prefer that the Government deal with it.

The Premier-This is a matter of interest to the shopkeepers and merchants, as well as to the general pub-There is no doubt that late hours of business on Saturday nights are a great hardship to everyone. We will discuss the matter amongst ourselves. It is a question of the rights of everyone. I do not care to express any further opinions. I thank you for your representations.

OPTIONS .- The management has secured the following interests in both British Columbia and Ontario: - Options on three promising locations near the famous "JUMBO" mine, Rossland, B.C., two properties in the Slocan District, B.C., one in the Whitewater Basin, being under option held by us, the

other in which an interest is being negotiated for at present.

A location in Boundary Creek District, B.C., which is well mineralized, and will be carefully ex-

amined in the spring by our experts in connection with contemplated purchase. Two locations in Rainy River District, one of which will be examined minutely as soon as transportation admits it in the spring, whilst the other is under negotiation.

Locations in Jackfish Bay, having an area of about 500 acres, as well as several other partially developed properties in the Lake of the Woods, Trail Creek, Slocan, and Boundary districts, which are receiving the attention of the management.

OBJECTS .- (1). The Company will secure by exploration, through its Mining Agents and employees, gold, silver and other mineral claims, and will sell the same, or partially develop and sell, to other persons or companies as will secure the best and quickest returns to its shareholders. There are scores of mining claims which show surface indications of gold or silver, or both, but unless and until they have been thoroughly tested by some expenditure in opening them up, they cannot be submitted to the examination of skilled Mining Engineers. This Company will start operations with options and contracts extending over the best mining fields in Canada, and will continue to secure more while developing those in hand. The extent to which expenditure will be made will depend on the advice of experts. Before offering any property for sale the Company will be ready to lay before intending purchasers the carefully-prepared reports of the best Mining Experts. The prices will vary with the stage of development and the nature of the reports. In this way no investor need be misled. They will know what they are getting so far as the best advice can guide them, and they will have the chances always before them of great gains, and a minimum chance of loss. The services of a practical and thoroughly reliable man, who has explored the Kootenay, have already been secured for the Company in British Columbia.

(2) The Company will also promote and form other Companies, both on this Continent and in Europe, for the purpose of acquiring and operating mines now secured, or to be secured, by this Company. (3) Will deal in mining shares, and act as Mining Brokers generally, and appoint Agents throughout Canada and elsewhere to represent the Company, and especially the Brokerage Department of the Company. (4) Will be a medium of information to its shareholders on all matters pertaining to mining and

mining stocks in Ontario, British Columbia, and elsewhere, enabling each shareholder to receive the very latest news from the Company's confidential Agents at the mining centres. (5) Having its private prospectors, good claims can be secured at first cost, of which every share-holder gets the profit and all the profit. Ordinary Mining Companies are often capitalized at tens of thousands of dollars beyond the first cost, thereby depriving the shareholder of the first, and frequently the largest, profit. Every prospector of this Company will be in the position of a private prospector and locator

for each shareholder. There will be no middle owners and no middle profits. Write or call for prospectus, or any other information desired will be given upon demand. A limited number of shares, first issue, are now offered to the public at 10 CENTS per share, in blocks of not less than 100 shares. Financial Statement and the manage?s' Report-Comment on the Deficit.

A representative meeting of St. Andrew's Church assembled last night to receive the 46th financial report and learn the condition of things. Rev. Robert Johnston occupied the chair, and R. A. Gray, as chairman of the board of managers, was seated beside him. The financial statement

was as follows: Expenditure, \$7,542 19, with a balance in the bank of \$34 91, in connection with the Oxford Street Mission.

MANAGERS' REPORT DISCUSSED. The managers' report was then read by Mr. J. Gordon McIntosh, who drew attention to the continued prosperity under their energetic pastor. The report spoke in feling terms of "(1) the death of the veteran secretarytreasurer, Mr. Alexander Meintosh, who had been identified with the congregation from its very inception, and

who had made many generous sac-rifices for it in its early struggling This raised inquiry as to the progress of the special committee appoint-ed to consider the advisability of having some memorial to the memory of the late Rev. Mr. Murray, and Rev. Dr. Scott. The question was discussed by Messrs. James Mills, Wm. Stevely, Geo. McGillivray, Geo. W. Armstrong, A. G. Chisholm, and others. Finally, Mr. Wm. Allan's motion to drop the matter was passed.

To do anything of the kind. Difficulty with volunteer singers was the same there as elsewhere, with regard to getting them out to practice.
