NO DEFINITE ASSURANCE IN GERMAN REPLY

WILLING TO NEGOTIATE

But Refuses To Entirely Give Up Submarine Attacks On Merchantmen.

[Special Cable to The Advertiser.]
By Carl W. Ackerman. Copyright, 1915, by United Press.

Berlin, via The Hague, June 25.—The preliminary draft of the German reply to the second American note, subject to change, I am authoritatively informed, contains the following representations:

First—That Germany is fighting for the freedom of the seas, but does not desire in any way to jeopardize the interests of neutrals.

Second—An expression of appreciation of the friendship of America.

Would Accept Mediation.

Third—The acceptance of President Wilson's suggestion of a willingness to mediate between Germany and Great Britain to obtain a modification of the British blockade in return for the modification of Germany's methods of submarine warfare.

Fourth—An indication that Germany probably was misinformed in her contention that the Lusitania was armed.

Won't Give Up Submarine War.

Fifth—An indication that Germany is willing to negotiate with America along the lines laid down by President Wilson in his "humanity" plea, without entirely giving up her submarine war on enemy merchantmen, which many regard as Germany's most effective sea weapon.

Sixth—An indication that any compromise to which Germany may agree regarding belligerent ships must secure to Germany the safety of her submarines from their attacks. It is claimed the death of Commander Otto Weddingen and the crew of the U-29, who are alleged to have lost their lives when a British tank steamer flying the Swedish flag rammed the submarine, probably will be cited.

The German reply in all probability will be completed by the end of next week.

OVERSEAS DOMINIONS HAVE SHOWED BRITAIN HOW STRONG LOVE IS

Walter Long Says This Is the Silver Lining To Cloud.

[Special Cable to The Advertiser.]

London, June 25.—As president of the local government board, Walter Long paid a generous tribute today to the work of the whole of the local bodies up and down the country in grappling with the new and unexpected problems arising from the war. As a consequence, he claimed, the suffering and inconvenience to which the country had been subjected had been reduced to a minimum.

Today, after ten months of war, Britain was stronger and better than she could ever have hoped to be, and suffering had been reduced to a minimum.

Matter in regard to which she could take no small pride was that almost immediately after war broke out, when it was doubtful how stable her resources would prove to be, her overseas dominions sent, in most generous manner, foods and gifts of all kinds.

He was sure that the House would wish to recognize that splendid generosity and if Britons were inclined to feel at some times more bitterly than at others the burden of the great trial with which the country was confronted, there was, even in sorrow, a very bright silver lining in the fact that there had revealed as it had never been revealed before the wonderful love of the overseas dominions for the mother country.

STRONGLY FORTIFIED HEIGHT TAKEN FROM ENEMY BY RUSSIANS

Austro-German Attacks Repulsed With "Enormous" Losses and Forces Hurled Back Over Dniester River—Three Important Victories For Czar's Troops.

[Canadian Press.]

Petrograd, June 24, via London, June 25.—Austro-German forces were repulsed with heavy losses at three points on the Dniester River by the Russians, according to an official statement under date of June 23, given out today at the headquarters of the general staff. In the Kosmierjine district the Russians carried by assault a strongly fortified height. "Enormous" losses are said to have been inflicted upon the Germans in the Kozany region.

Referring to operations near Lemberg the statement asserts that Russian counter-attacks were successful.

Enemy Failed.

The text of the communication follows: "There has been no important change on the Vindava and Dubysa Rivers.

"On the front of the Narew and Vistula there have been only small outpost affairs.

"Calm has prevailed on the Tanew front.

"In the direction of Zolkiew and Lvov (Lemberg) the evening of the 22nd and the whole of the 23rd were occupied by the enemy in attempts to renew their ulterior offensive, seeking with particular obstinacy to advance in the direction of the villages of Chijikouff and Dimitrovize, along the railroad between Lvov and Brzezany.

"Nevertheless, thanks to our troops' energetic counter-attahcks, these attempts failed.

Germans Driven Back.

"On the front of Journavo-Demeszkovitz there has been a fierce engagement, which thus far has developed under conditions favorable to us.

"Important German forces which on the morning of the 23rd crossed in the Kozany region to the left bank of the Dniester suffered enormous losses. Driven back to the river, they were forced to assume the offensive under very difficult conditions, some of their troops being crowded on islands in the river, and others clinging to the left bank.

"Near Martyrovo and our Rousedviany, the Austrians crossed the left bank of the Dniester, but by impetuous counter-strokes our troops threw them back to the river.

Garrison Bayonetted.

"Up until 10 o'clock the morning of the 23rd, the enemy lost about 40 officers and 1,700 men of various regiments, whom we took prisoners. The enemy is endeavoring to hold his ground in houses close to the river, and is offering desperate resistance. In these fights our heavy and light artillery gave us effective support.

"In the Kosmierjine district, on the Dniester, southeast of Nijniff, our troops are taking the offensive. Approaching Mount Dezymianna, occupied and strongly organized by the enemy, they entrenched themselves, and at dawn on the 23rd made a dashing assault on the mountain. The enemy, in the face of a bayonet attack, fell back in disorder to the second line of his works. Pressing close at his heels, our troops entered the works and put to the bayonet almost the entire garrison holding the hill. The remnants, consisting of two officers and 210 men, were made prisoners."

AUSTRIAN VERSION.

[Canadian Press.]

Austrian Press Headquarters, via London, June 25.—The results of the success achieved by Gen. Von Boehm-Ermolli's army in taking Lemberg and in the battles to the east of the Galician capital are making themselves felt also on the Dniester. Since taking Mikolalow, this army has been operating with Gen. Linsingen's army to the south, and has been pressing the Russians back irresistibly upon their positions north of the Dniester.

The Russians are offering a desperate resistance on the Dniester, especially in the centre, to permit their retreating armies to save themselves and their war material. The retreat of the Russians along the San and in the angle of the Vistula continues under conditions which are bringing successful results to the pursuing army of Archduke Joseph Ferdinand.

GERMAN ADMISSIONS.

[Canadian Press.]

Berlin, June 25—Via Wireless to Sayville.—German army headquarters today gave out a report on the progress of hostilities reading as follows:

"On the west front all attacks of the enemy yesterday were repulsed and German troops made local gains in several places.

"The village of Kopaczyska has been evacuated by the Germans.

"At a point to the west of Stegua, German troops have taken possession of a part of the enemy's line.

"The situation of Field Marshal Von Mackensen's army remains unchanged.

"That portion of Gen. Von Linsingen's army, which was northwest of Halicz, has been transferred to the south bank of the Dniester. Further up the river the German attacks are advancing. The left wing of the army is now near Chndorow."

PORTUGAL AFTER GERMANY'S SCALP

Will Seek Revenge For Damage in Africa—Sympathy For Allies.

[Canadian Press.]

Paris, June 25.—A Havas dispatch from Lisbon says:

The Ministerial declaration read in the Chamber yesterday afternoon renews manifestations of sympathy for the Allies, discloses the governmental decision to present to Parliament documents which throw light on the attitude assumed by Portugal in relation to the European war and in conclusion affirms the country's resolution to seek revenge for damage suffered in Africa.

"After the reading of the declaration, Alexandre Braga, leader of the Democrats, promised the Government the support of his party.

"Antonio Almeida, head of the revolutionists, declared he would fight the new Government and would attempt to obtain justice for Pimenta Castro, the former premier. Senhor Almeida's assertion aroused a great demonstration in the galleries reserved for the public. The session of the Chamber was suspended while he left the room followed by his friends."

KELLY TO APPEAR, SAYS COMMISSION

Counsel Objects To His Giving Evidence—Montague Hearing Private.

[Canadian Press.]

Winnipeg, June 25.—Counsel for Thomas Kelly appeared before the royal commission this morning to protest against the commission calling Mr. Kelly before it as a witness in the present investigation. He argued that the scope of the inquiry is so large that to examine Mr. Kelly would be to prejudice the latter's case in the civil courts.

After considerable argument, the commission finally ruled that Thomas Kelly and other members of his firm must be subpoenaed to give evidence and must produce records as ordered.

Edward Anderson, counsel for Kelly, then argued as to what power the commission had to compel the witness to attend. Chief Justice Mathers replied that the commission did not intend to send any man to jail on an arbitrary ruling, and that they would grant an opportunity for this point to be fully argued.

The commission then went to the Royal Alexandra Hotel, where further evidence of Hon. Dr. Montague was taken in the privacy of his apartment, with the general public excluded. Dr. Montague is still ill.

Wife of Corp. Aldersley, 18th Battalion, Is Notified of His Serious Condition Only a Few Hours Before Leaving Fo r England.

Only a few hours before she intended leaving London for the old land to visit her husband, Corp. A. C. Aldersley, of the 18th Battalion, his wife received official word from Ottawa today that he was seriously ill in the military hospital at Shorncliffe, England.

Last week Mrs. Loulsa Aldersley, who lives at 458 Quebec street, received word from her husband that he was ill, and asked her to book passage for the old land at once. This she did, and with her children was to have left this afternoon. She will leave anyway, but the cabled information of the militia department has come as an added blow to her worries.

Corp. Aldersley was a South African veteran, and enlisted in the 18th shortly after the organization of that battalion. With his wife and family he has been a resident of London for some time.

French Make Further Progress in Region North of Arras.

[Canadian Press.]

Paris, June 25.—The French war office this afternoon gave out a statement on the progress of the war which reads as follows:

"In the region to the north of Arras French troops last night delivered an attack between Angres and Souchez, and made further progress. In 'The Labyrinth' a German counter-attack has been repulsed. This engagement was followed by a violent bombardment of our trenches, to which our batteries made reply.

Mine Fighting.

"In the Champagne district, near Rheims, as well as in the region of Perthes, the enemy yesterday and during last night exploded two groups of mines, but did not deliver any infantry attack. They were not even able to occupy the excavations made by these mine explosions.

"In the Argonne and at Vaquois the fighting with mines continues, and there occurred several local engagements in which the throwing of bombs and of hand-grenades was a feature.

Gases and Fire.

"On the heights of the Meuse, at the Calonne trench, the Germans last evening delivered a very violent attack along our entire front, accompanied by the hurling of asphyxiating bombs and flaming liquids. After having succeeded in penetrating that portion of their former second line of defences which we occupied, they were thrown out of these positions by an energetic counter-attack on our part. At midnight the enemy attempted a further offensive return. The assailants found themselves under a fire from our batteries and they were dispersed with heavy losses.

Completely Repulsed.

"In Lorraine the enemy yesterday, on two different occasions, endeavored to retake the positions he had lost near Leintrey. He was completely repulsed.

"In the Vosges two German infantry attacks were checked by our artillery and infantry fire. They were delivered against our trenches at Reich Akerkopf under a violent artillery bombardment.

"A German aviator yesterday threw five bombs on the sanatorium at Zuydcoote, but without doing any real damage."

MORNING REPORT.

[Canadian Press.]

PARIS, June 24.—10:25 p.m.—The following official communication was issued by the war office tonight:

"In the region to the north of Arras there have been no infantry actions today. Our troops have organized themselves in the conquered positions. A lively cannonade occurred in the sector of Angres-Ecurie.

"The enemy last night and today very violently bombarded Berry-au-Bac and the neighborhood of Sapigneul. This bombardment caused us only insignificant losses.

"In the Argonne and on the heights of the Meuse there is nothing to report except artillery actions.

"In the Vosges, at Fontenelle, a German attack was repulsed. The Germans have bombarded the outskirts of Metzeral and the ridges to the east of the village, where our progress has continued to a slight degree."

ATTEMPT TO BLOW UP WALKERVILLE BUILDING DISCOVERED BY POLICE

Twenty Sticks of Dynamite Found At Rear of Factory Making Motors For Government—Big Cache Found in Ford City House—Arrests Expected.

(Canadian Press.)

Windsor, Ont., June 25.—A plot to blow up two more buildings, one of them a factory in Walkerville, was uncovered this morning by Provincial Policemen Nash and Smith. Twenty sticks of dynamite were found planted at the rear of the Gramm Motor Truck Company, which has been filling orders for the British Government. The explosive was found near the Pere Marquette tracks at the rear of the building, and from it was leading a wire.

At a house on Droillard road, Ford City, another dynamite cache was discovered. The building is a boarding-house, occupied by foreigners of many nationalities, and these men are now under surveillance. A false move on the part of any of them will mean immediate arrest. About forty sticks were discovered in the second plant. The police say they expect to uncover more, and possibly to arrest a couple of suspects within a few hours.

Since Monday morning, when told to devote their whole time to the explosion at Peabody's plant and the attempt to blow up the armories, the police have been working night and day, but as yet have no positive clue to the perpetrators.

"I Will, If I Can," Says President

[Canadian Press.]

Springfield, Mass., June 25.—"Keep us out of war, Mr. President."

"I will, if I can."

President Wilson was in Springfield for five minutes at 9 o'clock this morning, while on his way to his summer home in Cornish, N. H. Mr. Wilson did not speak to the crowd at the station, but when his car had been taken to the railroad yards he waved his hand and smiled at a group of railroad men. They called to him, and he came out and shook hands with them, and gave them the assurance quoted.

ALL THAT WERE LEFT OF WALKERVILLE BOYS SANG THE OLD REGIMENTAL SONG

Mere Dozen Answered Roll Call After Terrible Engagement —Lt.-Col. Becher Buried With Captains Robinson and Smith, and Lieute nants Pick and James.

[Special Cable to The Advertiser.]

London, June 25.—Further particulars received by us today of the engagement in which the Western Ontario regiment suffered so severely shows that Canadians, having taken three trenches, were unable to hold them. Nine officers fell, and an enemy's shell a little later hit the bomb grenade stores of the battalion. It was at this point that Col. Becher was killed. He was buried, with Capt. Smith, Capt. Robinson, Lieut. Pick and Lieut. James, in a small cemetery close to the firing line. The bodies of Lieuts. Gordon, Helliwell, McDonald and Tranter were not recovered.

The battalion, on June 16, went into reserve. After this last engagement only twelve out of the members of the 1st. battalion enlisting from Walkerville and Windsor answered the roll. It is related that this mere dozen sang the old regimental marching song, "We are Walkerville Boys" at roll call. One of the surviving officers, when they told him they could still sing, said: "Boys, you've got to show me." They did so, but as the officer said afterwards, it was not like the old way they sang it.

Austria Forced Italians to War

Habitually Disregarded Latter's Vital Interests in Balkans.

[Canadian Press.]

Paris, June 25.—Tomasso Tittoni, the Italian ambassador to France, speaking at a meeting of the Franco-Italian League yesterday, read, with the consent of Antonio Salandra, the Italian premier, the telegraphic foreign office correspondence between the ambassador and the Marquis di San Giuliano, then Italian foreign minister, in April, 1913, at the moment when Austria threatened to occupy Montenegro. The correspondence indicated that the Italian Government's conviction was that Austria's Balkan policy was in violation of the Triple Alliance.

Signor Tittoni, whose advice in the premises had been asked by the Marquis di San Giuliano, wired the former minister on April 30 that "the day Austria undertakes to disturb, in whatever fashion or extent, the equilibrium of the Adriatic, the Triple Alliance will cease to exist. . . . The Triple Alliance will have been torn up by the hands of Germany and Austria."

Signor Tittoni averred that Italy was compelled to take part in the present war because Austria, prior to the war, habitually disregarded Italy's vital interests in the Balkans, and began war against Servia in entire disregard of the rights of Italy as stipulated in the Triple Alliance.

INVESTIGATING HOTELS

License Commissioners Conduct Systematic Inquiry, But Make No Statement.

The three members of the Ontario License Board who came to the city last evening, Vice-Chairman Dingman and Commissioners Dane and Smith, today are conducting a systematic and thorough investigation of the hotels. The vice-chairman stated at noon that they had not and would not have anything to report until the result of their investigation had been communicated to the full board.

"Any expression of opinion now would be distinctly premature," he said, and added that the investigation was progressing satisfactorily. He was not prepared to say whether every hotel in the city would be visited, but stated that the commissioners would do as much as they could in the time at their disposal.

Oliver Wilkins Charged With Assault Will Appear July 2.

Beaman is in Victoria Hospital with concussion of the brain, and is slowly recovering. A slight attack of paralysis has set in, but it is believed that he will be sufficiently recovered in a week to attend the trial.

G. N. W. MESSAGES BURNED PURPOSELY TO PREVENT USE

Z. A. Lash, President, Says Step Was Decided On Deliberately.

"DECIDED TO DO DUTY"

Company Thought It Best To Burn Telegrams To Prevent Use.

[Special to The Advertiser.]

Toronto, June 25.—L. A. Lash, president of the G. N. W. Telegraph Company, today issued a statement explaining the burning of telegrams exchanged between the Roblin Government of Manitoba and others, which were wanted by the royal commission now inquiring into the scandal charges in that province.

After quoting law to show that messages must be kept secret, and emphasizing the duty of telegraph companies in this respect, Mr. Lash continues:

Bound By No Rules.

"There is now sitting in Winnipeg an inquisitorial tribunal or commission, without right or jurisdiction, to try or decide any question between individuals. Its jurisdiction is inquisitorial only. It is bound by no rules of evidence. Any question which may arise as to the extent of its powers is ruled upon by itself. It summonses witnesses, compels the production of papers, reads them whether private and confidential or otherwise, notwithstanding objections

CARRY HORSESHOES FOR "GOOD LUCK"

German Officers Issued With Tokens of Good Omen.

A GRUESOME SOUVENIR

London Soldier Sends Home Button of Canadian Blown To Pieces.

Now that even the demoniacal inventions of man have failed to break the British spirit, the Germans have recourse to superstition, and are issuing good luck horseshoes to their officers, according to a a letter sent to his parents here by Sergt. Fred Taggie of the Canadian Postal Corps in France.

"These horseshoes are about the size of half dollars, and made of copper," writes Sergt. Taggie. "They are given to the officer in command of each company. From prisoners the Canadian soldiers have learned that the German authorities hope that these same shoes will bring them better luck against the British soldiers.

"As the result of some American-made goods being found on dead German soldiers, many are of the opinion that these men enlisted as soon as war was declared, and had some way of getting over from the States in a hurry. I am sending a nail-clip I found on one."

A somewhat gruesome souvenir was sent home with the letter. It was a button from a Canadian soldier's tunic, and the sergeant says of its owner: "The soldier was hit by a Jack Johnson and was blown to atoms. I guess he will always be posted as 'missing,' for nobody around knew his regiment, his name or anything, and there was not enough of him left to identify him."

In conclusion, the sergeant writes that just prior to June 9 there had been a tremendous storm, and that at the time of writing the heat was terrible.

GRADUAL ADVANCE OF ITALIAN FORCES

Globna, North of Plava, On Bank of Isonzo, Is Occupied.

BOMBARD MALBORGETH

Projectiles Penetrate Cupola of Fort Helsel, Says Report.

Rome, June 24, via Paris, June 25.—A gradual advance along the Isonzo River, with the occupation of Globna, north of Plava, and the edge of the plateau between Sagrado and Monfalcone, are announced in an official statement issued tonight at the headquarters of the Italian general staff. The communication follows:

"In the Tyrol-Trentino region and in Cadorn there have been methodical artillery actions. At the same time we have been maintaining our activity along the front by means of reconnaissances by small detachments, and thus we have had successful encounters at Carcano and Valcismon, and toward the plateau of Vezzens.

"In Carnia we continued an intense artillery fire, particularly against Malborgeth. Our projectiles today penetrated the cupola of Fort Helsel.

Enemy's Vain Attacks.

"The night of the 22nd and 23rd the usual vain attacks of the enemy were repeated against our positions at Val Grande and Val Piccolo. In the region of Monte Nero we extended our occupation towards the north as far as the slopes of Javozecky and made 57 prisoners. In this region we began firing against the Bay of Plezzo.

"Along the Isonzo we are advancing rapidly, reinforcing ourselves in positions on the right bank of the river. We thus have occupied Globna, north of Plava, and on the lower Isonzo we have captured the edge of the plateau between Sagrada and Monfalcone.

MASSES WANT PEACE SAYS DR. LIEBKNECHT

Debate in Prussian Chamber of Deputies Rouses Interest—Herr Braun Declares Against Any Annexation of Territory and Wants Early Peace.

[Canadian Press.]

Berlin, via London, June 25.—The debate in the Prussian Chamber of Deputies yesterday, in which the attitude of the German people toward peace was discussed by Progressive and Socialist members, who were in turn answered by a Government official, the minister of the interior, is attracting considerable attention this morning.

Herr Braun, Herr Wiener and Dr. Karl Liebknecht took part in the exchanges. The morning newspapers report the proceedings substantially as follows:

"Herr Wiener, Progressive, cited with signs of approval from the members, an article by Hugo Heinemann, Socialist, to the effect that no German wants peace until Germany's enemies are willing to concede her the right to develop her economic and cultural powers.

Masses Want Peace.

"To this statement Dr. Karl Liebknecht, one of the Socialist leaders, interjected, "We have the masses with us, and the masses want peace."

"After this interruption Herr Wiener continued: "We are convinced that the co-operation of all parties and classes is essential, and that it means German victory. In this co-operation is found the guarantee that we will hold out, and that we will be spared

200 HALLS OPEN; FIRST DAY'S WORK

Munitions Bureaus Begin Operations in Great Britain.

APPEAL THROUGH PAPERS

Workmen Asked Also To Subscribe to Big War Issue.

[Canadian Press.]

LONDON, June 24—10:39 p.m.—The enrollment of war munitions volunteers is engaging more attention for the time being than the enlistment of recruits for the army. It is a striking proof of how David Lloyd George, the minister of munitions, has succeeded in awakening the country to the paramount necessity of concentrating on the production of shells and other war materials.

At 6 o'clock this evening munitions work bureaus were opened in nearly two hundred town halls in various parts of the country, of which fifty-three are in London alone, and in a large number of other buildings, to give British workmen an opportunity "to get into the factory line and supply the firing line."

According to a page advertisement in big type printed in all the important newspapers, these bureaus were opened in the evening, in order that the men might enlist for munitions work without losing time in their present situations.

Job for Every Worker.

"Every skilled worker, who is ready to go, will be put into his new job with the least possible delay," said H. E. Morgan, a well-known businessman, whom Mr. Lloyd George has impressed to help mobilize the new army of skilled workmen. "There will be no long period of waiting. The need is too urgent. The loyalty of the British workingman is such, we know, that he is prepared to make sacrifices to help his pals on the firing line."

The workingman of Great Britain was never before the object of so much consideration. Both on the firing line and in the factory line he is regarded as the savior of the country.

Appeal to Employers.

The papers credited with a large circulation among the wealthier classes print a big advertisement appealing to the employers of skilled workmen to "make it easy for them to enroll as munitions workers, and easy for them to get their old jobs back."

The chancellor of the exchequer, Reginald McKenna, in the meantime, appealing to the workmen to subscribe to the new war loan.

At the treasury today he received a deputation representing the principal trades unions and other organizations which exercise great influence on workingmen's savings, and urged upon them the necessity of their co-operation to make the loan a success.

Loan Must Succeed.

"There is no suggestion of compulsion in the matter," said the Chancellor. "We appeal to the workingmen on the ground of national need. We have tremendous financial resources, but there is no good in having that asset unless we use it, not only for ourselves but also for our allies. If we make the loan a success we shall win the war, and triumph."

"We will do our share towards getting the money," was the response of Charles W. Bowerman, an influential labor member of Parliament.

To enable the poorer classes to participate in the loan it was suggested that loan certificates as low as two shillings each be issued. Already it has been arranged to issue five-shilling certificates, and the Chancellor promised to consider the smaller sum.

NECHES IS DETAINED FOR SECOND TIME

Cargo of American Steamer Thrown Into Prize Court.

LONDON, June 24—6:06 p.m.—The American steamer Neches has been seized in the Downs and ordered to proceed to London to discharge her general cargo, which is to be thrown into prize court. The contention of the British Government that the cargo came from a country hostile to Great Britain is denied by the shippers.

The cargo of the Neches was loaded at Rotterdam and the steamer was on her way to New York when she was seized.

The shippers maintain that the cargo is of Belgian origin.

This is the second time that the Neches has been held up by the British authorities. Several weeks ago she was detained on a voyage from the United States to Holland with 3,000 tons of cotton. The cotton was released on the promise that the Netherlands Overseas Trust would take charge of it.

TO TAKE AN INVENTORY OF NATIONAL RESOURCES

Bill Will Be Introduced in British Commons.

LONDON, June 24—8:30 p.m.—Now that the agitation for munitions is at its height, England is going to take a stock of her resources. A bill providing for "the registration of national resources" is to be introduced in the House of Commons next week by Walter Hume Long, president of the local Government board, according to announcement made tonight by William Hayes Fisher, Unionist member for Fulham. Just what will be the scope of the inventory, and whether it will include men as well as supplies, has not been made known.

Dr. Alexander Gilray. It is expected that Mr. Cochrane will accept the call, although he stated this morning that at present he had no statement to make regarding the offer. He recently occupied the pulpit of College Street Church, but it is stated that he did not preach for a call.

Rev. Mr. Cochrane has been pastor of Knox Presbyterian Church here for eight years, and is most popular with all denominations in the city. His organization work in connection with the general assembly, which convened here a year ago, was greatly appreciated.

STATES TO RENEW ITS OLD PROTEST

Will Again Object To Principles of British Order-in-Council.

[Canadian Press.]

Washington, June 25.—United States Government officials today had under consideration, in connection with the new American note to Great Britain concerning delays to neutral commerce, the latest British memorandum on the subject.

The British note, which was published here and in London today, explained in detail measures taken by the British Government to minimize inconveniences to neutral commerce under the order-in-council. The claim is made, however, that American citizens have no just grounds for complaint on account of the treatment accorded their cargoes.

Will Renew Protest.

The United States in its communication now in course of preparation, will renew its protest of March 1 against the principles in the order-in-council. The British memorandum makes no attempt to answer the principles asserted in the note of that date.

The American note probably will refer to the British memorandum, but it was said today that the manner of enforcing the order-in-council would not be treated as relevant to the question at issue—whether there is any warrant in international law for the powers that Great Britain and her allies have assumed to exercise over the commerce of the world.

Points Out Favors.

In brief, the British memorandum emphasizes the various favors shown to the owners of cargoes sent abroad from the United States; says that British officials have acted with the utmost dispatch in showing in every case such consideration for neutrals as might be compatible with the object in view—to prevent vessels from carrying goods for or coming from the enemies' territory, and points out the earnest desire of Great Britain to remove all causes of unavoidable delay in dealing with American cargoes and vessels detained.

TO TAKE ISSUE.

[Special to The Advertiser.]
By John Edwin Nevin.

Washington, June 25.—Britain's denial that she has harmed American trade will not be accepted by the United States. Issue will be taken with the assertions in the British note.

In addition, it is stated here that the reply evades the main point. The right of neutral nations to carry on their trade with each other unmolested by any belligerent.

It is said that Secretary of State Lansing will begin preparing the reply note early next week.

Importers To Confer.

The present intention is to have the note ready for President Wilson when he returns from his vacation trip. The German reply will be here by that time, if it is satisfactory, as it is hoped, the President will turn his attention to matters in dispute with Britain and her Allies.

A delegation of New York importers is to confer with Secretary Lansing tomorrow. They will explain in detail how their business has been hampered by British and French warships, which have diverted practically all vessels from neutral nations into British seaports.

The Norwegian steamer Truma was built in 1896 and was of 1,557 gross tons. She was owned in Adeanal, Norway.

STORMY SCENE IN FRENCH DEPUTIES

Member Criticizes the Ministry of War—Blames Sanitary End.

BLAMES SANITARY END

Premier Brings Calm By Pointing to Necessity for United Action.

PARIS, June 24. — Animated scenes occurred in the Chamber of Deputies today, when M. Accambray, in discussing the war appropriation credit, criticised the ministry of war. He declared defects had been proved in shellmaking. Objections and protests from various parts of the chamber interrupted M. Accambray, and the President reminded the speaker that he should stick to the questions under discussion.

M. Accambray affirmed that the sanitary service of the army was responsible for the deaths of many soldiers. He regretted, he said, that the national resources were being extravagantly disbursed, and deplored the lack of foresight displayed in preparing for adequate supplies and munitions. The Minister of War, he declared, ought to possess technical training sufficient to fit him for general direction of the army's supply service.

Stormy Scene.

Protests from the right and centre frequently interrupted M. Accambray, while the left, largely Socialist, applauded. The feeling among members evidently rising high, the stormiest scene in Parliament since the war began resulted.

M. Accambray affirmed that he did not wish to criticise the leadership of the army, but solely the cabinet.

Premier Viviani admitted that the Government had made mistakes, but that it was always willing to correct them when a way to do so was pointed out. His statement that "not only members of committees, but every deputy has the right to come and go, and to observe the entire military organization," was received with great applause.

"That is the very spirit of the republic," cried M. Bedouce.

Premier Viviani continued, frequently interrupted by frantic applause, urging unity of action.

No Time for Pessimism.

"The present hour," he said, "is no time for words of pessimism. France will go to the very end. The task will be hard, and it may be long, but we shall go through. We have a valiant army, admirable leaders, and the nation possesses patience and confidence incomparable. Let every one be at his post, some to fight and some at home, whose duty it is to pronounce no word of discouragement."

The members of the chamber, who stood as they listened to the peroration, broke into uncontrollable applause and cheers as the Premier concluded, the deputies pressing forward to congratulate him.

M. Accambray sought the floor again, despite vociferous protest, deputies in all parts of the chamber, crying, "That's enough." He finally succeeded in shouting the words:

"The Government is a shame."

"Say It in Berlin."

"Go and say that in Berlin," called out a voice from the gallery.

Great disorder followed, which the president of the chamber calmed. The great majority of the deputies obviously were in disagreement with M. Accambray, and the hostile interruptions continued until he finally sat down.

Premier Viviani then arose and the House instantly became quiet. The Premier expressed his regret that M. Accambray had not interpellated the Government in the usual parliamentary manner.

McDonald.

POWELL DEALINGS NOW UNDER PROBE

Garland Is Mixed Up With Clerk's Appointment As Buying Agent.

RATING SHOWN AS HIGH

Witness Says Bank Letter Rated Clerk At Over $20,000.

[Canadian Press.]

Ottawa, June 25.—W. H. Tilley, K. C., of Toronto appeared as counsel for W. F. Garland, M. P., when the army contracts inquiry was resumed this morning. Under cross-examination by him, J. B. Donaldson, a militia department clerk, said he had gone to Garland's drug store and examined the prices on the Bauer & Black invoices for medical supplies in order to compare them with the prices the drug clerk Powell was charging the department. He was unable to say whether any large payment was made to Powell after this comparison.

Director of Contracts H. W. Brown, cross-examined by Mr. Tilley, said he understood the department was to get manufacturer's prices, plus 5 per cent, as he thought Powell was acting as their agent. He would not admit that before the payment of $11,863 to Powell he knew the department was not getting that rate.

"Rough Estimate."

Mr. Brown said the first estimate of the Powell contract was $20,380, "but it was a rough estimate," he said when asked if he knew that the goods were supplied at $20,747.

W. J. Shaver, Canadian representative for Bauer & Black of Chicago, told an interesting story of what transpired when he came to Ottawa to get business for his firm. He first interviewed Col. Jones, director of medical services, but "did not get an order in that office or anywhere else in the Government."

Mr. Garland, he said, then phoned him to see whether his firm could supply field dressings. He (Garland) said he was going after business in that line.

Garland's Suggestion.

"Did Garland not suggest the appointment of Powell as agent because the Carleton Drug Company (Garland's firm) could not handle the business?" asked Mr. Thompson.

"Yes," was the reply. "There is a certain amount of truth in that."

He then told of the appointment of Powell, whom he and Garland saw at the drug store. Save that a letter was produced from some bank rating Powell at between twenty and thirty thousand dollars, there were no formalities.

"I suppose Garland had discussed the matter with Powell before I went there," witness said.

Shaver was asked if he could produce the letter from the bank whose name he could not recall, but said he had destroyed it with the rest of the correspondence bearing on the contract after the parliamentary investigation.

MASSES WANT PEACE

from such dastardly attacks in the future."

Herr Braun, Socialist, was the next speaker. He said the Socialists did not deny that the German people must stand together against their innumerable enemies. He referred to the fact that certain persons are talking about continuing the war in order to realize "wild plans of annexation."

No Annexation.

A great majority of the German people wish imperatively that no opportunity for securing an early peace be lost, the speaker declared, and they emphatically reject annexation plans of all kinds, particularly such as have been advocated by one German ruler. Democracy is opposed to these objectionable projects, if only for the reason that they prolong wars and the consequent unheard of sacrifices and wasting of the strength of the people.

"The German people want no conquests," Herr Braun declared; "they want no annexation. They do want peace without bringing humiliation or subjection to other peoples."

Disapprove Speech.

Herr Delbrueck, Prussian minister of the interior, made answer to Herr Braun in part as follows:

"While we are involved in such a war as this we can have but one thought, namely, to terminate it in a way that will make a repetition impossible. That is the goal which the imperial chancellor and the allied governments have set themselves, and that is the goal you must strive for along with us."

These words from the minister were greeted with evidences of disapproval from the Socialist members present.

PLANNING OPENING

Committees Will Complete L. and P. S. R. Arrangements Tonight.

The secretary of the Hydro Radial Railway Union has intimated that the number of delegates who have promised to be present at the opening ceremony is so large that the accommodation available will probably be taxed to its utmost capacity.

Grand Rapids, Mich., was selected as the place for the study of welfare work among newsboys.

HEALTH OFFICER ON STAND.

SARNIA, June 24.—The investigation into the building of Sarnia's quarter-million-dollars waterworks was resumed [illegible] before Judge MasWatt.

[illegible] W. S. McCullough of the pro[illegible] board of health testified that [illegible] had given his consent to the city of Sarnia to move the waterworks plant to the lakeshore near Point Edward, but he had not said that the city would or would not be able to get the amount of water needed.

TAXPAYERS, CHEER UP! WORST IS YET TO COME

High Rate of Year Will Likely Be Exceeded in 1916.

The high tax bills of this year probably will not be the last reminder of the extravagance of the administrations of last year and the year before that. Next year a rate of at least nine mills will be needed to take care of the debenture debt, school expenditures will account for at least an equal amount, two mills will be needed for the hospital, and one and a half mills for the police department, while the library and parks will need another mill or so. If municipal expenditures are anything like so big as this year, when a rate of 11 mills has been necessary to take care of them, the total tax rate will be well up into the thirties.

Municipal expenditures increased enormously during the regime of the council of last year and that of 1913. The average annual increase has been in the neighborhood of $10,000 since 1910, but last year it jumped to $61,000. As a consequence it has been necessary to collect much larger taxes, and these have increased by no less than 77 per cent since 1910. In the same period school taxes have jumped 53 per cent.

ANOTHER TODDLER ESCAPED BY MIRACLE

Falls 25 Feet, But Bruises Are Her Only Hurt.

Surely some special Providence watches over children. For the second time within little more than a week death has been cheated by almost a miracle by a toddler of three years. The latest near victim was little Velma Levitt, the 3-year-old daughter of George Levitt, who occupies a flat over a store at the corner of Hamilton road and Rectory street.

The child yesterday was playing on the balcony in front of her home and in some way managed to scramble onto the railing. She overbalanced and fell some 25 feet to the ground below.

Dr. Spence was called immediately, and although he found the little one suffering from very extensive bruises he did not find any broken bones and apparently the child did not sustain any internal injury. She is still being kept in bed, but the parents hope she will be up and around none the worse for her experience within a few days.

G.N.W. MESSAGES

by those interested, decides for itself what to make part of the public record and what to return. The commission is assisted in its inquiries by counsel appointed by one of the political parties, and the procedure is to allow counsel to examine the documents and papers and express opinions as to their usefulness for the purposes in hand or contemplated.

Done Deliberately.

"The G. N. W. Telegraph Company believed that this tribunal would seek to examine at its discretion telegrams in the company's possession. These would doubtless include telegrams on public or private business not connected with the matters under inquiry. No subpoena or order had then been served. The company had to decide upon its course. The responsibility was upon it, and could not be shirked. The question was where its duty lay. Was it to adhere fearlessly to the principles lying at the very foundation of its business, and thus possible become subject to criticism and attack by irresponsible persons? Or was it to take the easier and less manly course, do nothing to preserve the confidence intrusted to it, and leave those who could not protect themselves without the protection which they had the right to rely on?

Decided to Burn.

"The company decided to do its duty, irrespective of inconvenience or unpleasantness to itself, to adhere to its principles, and, in so far as it could do so, to prevent itself from being made the means through which the confidence it was bound to protect might be disclosed. Its only course was to burn all telegrams which might be inspected, and this course was taken. The company knew nothing of the extent to which the inspection might go, and it feels confident that the independent and reasonable-minded people of Canada will approve of its decision, which was come to solely for the reasons given, and without regard to the interests or wishes of any party, person or company whatsoever.

WILL KNOW BY JULY 10

Some four hundred and ninety pupils of city schools who sat for the junior high school entrance examinations this week will be in suspense for probably nearly another two weeks before they learn whether they passed or failed. Principal Rogers, of the Collegiate Institute, who was chairman of the local entrance board, stated today that the results were not likely to be made known before about July 10.

County pupils who came into the city for the examinations, Mr. Rogers estimated, numbered about 120.

GLENCOE.

FRENCH PRISON CAMPS BAD, SAYS BERLIN

Sayville Gets Daily Wireless Budget of Enemy "News."

[Canadian Press.]

Berlin, via Wireless to Sayville, June 25.—The Overseas News Agency today gave out the following:

"Germany has requested the Swiss Government that it ask the Italian Government to fix, through a Swiss commission, damages sustained by Germans during the Milan riots at the time Italy was entering the war.

"A dispatch from Berne, Switzerland, says that Doctors Eugeter and Demarval have published reports of visits to French prison camps, in the majority of which they declare conditions were unsatisfactory in one way or another. Either the sanitary conditions were poor or the food poor, or the commanders or supervisors of the camp tactless, the doctors reported. Occasionally, they said, prisoners were compelled to work in the hot sun for 10 or 11 hours without suitable protection for the head, many who were unused to such work succumbing to the hardships.

Many camps, the doctors added, contained wounded prisoners who were in need of hospital treatment. Punishment for breaches of discipline, they declared, was very rigorous, the only exception being the prison ships at Bordeaux, the prisoners on board making no complaint of their treatment.

"A Vienna dispatch says that Baron Spigelfeld, delegate of the Austrian Red Cross, and Col. Subotisch, the Servian delegate, have met in Sofia and discussed the fate of the Austrian prisoners in Servia. It was finally agreed that Servia would permit the sending in of provisions and medicine.

Investigation of conditions by a neutral commission, consisting of the American minister at Bucharest, the Spanish military attache at Nish, and a Swiss surgeon resulted, it is said, in a declination of the Austrian proposal to the removal of all prisoners to a neutral country at Austria's cost.

Faith In Man Now All Gone

Annie Warren Loses Illusions When Husband-To-Be Fails to Pay Fine.

"My faith in men is gone; gone completely," declared Annie Warren to a jail official today. Annie is doing three months for keeping a disorderly house near the Roman Catholic Cemetery north of the city. The day after the police walked in and arrested her, she was to have been married to a soldier. Since then, Annie's hopes that her husband-to-be would show up at the jail, pay her $75 fine and marry her have waned and almost died.

"I guess I'm in for three months," Annie said.

HUGE APPLICATION FOR BRITISH LOAN

[Canadian Press.]

London, June 25.—The sum of £150,000,000 ($750,000,000) in rough numbers of the new war loan has been applied for at the London banks alone up to noon today, according to a statement published in the Evening Standard.

"The very large application, in other words the requests in the millions, are being held back until next week. The present flow of subscriptions is mostly for small or moderate amounts."

DEATHS AND FUNERALS

Died Aged 94 Years.

Mrs. Abbie Knight passed away in Sarnia Hospital Tuesday, aged 94 years. Mrs. Knight had lived near Wallaceburg for many years. KREUZ ZEITUNG VERY INDIGNANT

Attacks News Agency For Suggesting Let-Up By Submarines.

[Canadian Press.]

Berlin, June 25.—Via London.—The Kreuz Zeitung, in a long editorial today attacks the Lokal Correspondenz Agency because the latter ventured to question whether it might not politically be wise to grant the request of the United States that submarines refrain from attacking passenger vessels upon which Americans are passengers.

The Kreuz Zeitung says it could hardly believe its eyes when it read the offending article, and adds: "To give such a guarantee would simply permit the shipment of further war munitions under cover of a few American passengers."

The Kreuz Zeitung article is an elaboration of a stand formerly pressed by itself and by the Tages Zeitung and newspapers of a similar stripe.

MUNITIONS CAMPAIGN NOW IN FULL SWING

Loss of Officers Is Already Nearly As Great As in South Africa.

[Canadian Press.]

London, June 25.—Something in the nature of a lull in the fighting, as compared to the feverish activity of the past fortnight is enabling the military observers at both sides to take stock of the present situation and forecast future operations.

Petrograd claims that the Russian defensive positions are so secure that the Austro-Germans will not be able to withdraw many troops for use against the allies of Russia.

Warsaw Still Strong.

The Russians assert further that their present line before Warsaw is as strong as it ever was, and that their armies on the River Dniester will fall back only if the eastward drive of the Austro-Germans from Lemberg treatens to cut them off.

The authorities of the central empires are less communicative concerning their future intentions and movements, but it is believed that Warsaw again is their objective.

Britain Understands.

In Britain the campaign for munitions is in full swing, with the possibility of national registration to ascertain the "man power" of the nation. That Britain appreciates the need of adding to her fighting resources is significantly indicated by the publication in the London Times of tables showing that the casualties of officers during the past month come within a few hundred of the total officer casualties during the entire South African war. The total in South Africa was 2,752, while the lists since May 26 show that 2,440 officers have been killed or wounded, or reported missing.

PRAISE FOR INSTRUCTORS

Visitors Loud in Commendation of Progress Made By Overseas Volunteers.

Quite a number of visitors daily make a pilgrimage to the camp at Carling's Heights and witness the manoeuvres of the different units in training there. That the men should become so proficient in the use of arms and in drill in such a short period of time is considered remarkable by the greater majority of those who visit the camp, and words of high praise for the drill sergeants and others responsible for whipping the men into shape are heard on all sides.

There is a keen spirit of rivalry among the recruits to see who shall most quickly become proficient and the high spirits of the men find vent in this emulation. When they are dismissed from drill they play baseball, football and many other games.

Officers Gingery, Too.

The officers have as much ginger as the men, and the spirit of rivalry is as apparent among them. Officers of the 34th and 33rd Battalions have had two baseball games. Each battalion has won a victory, and the deciding game is to be played in the near future. Both sides claim they will be victorious, but that remains to be seen. There are some pretty fair baseballers among the officers, and they enjoy the sport greatly.

Rough and Tumble Jousts.

A game the men take a great deal of pleasure out of is a sort of horse and rider pastime. One man seats himself on the back of another man and then when two or three or half a dozen are ready rush together. The couple which stays up longest is victor. Some pretty hard bumps are given and received, but rarely is there any ill feeling shown in the game. The ones who go down come up laughing and are quite ready for another joust.

The men are great jokers. To hear some of them get a new man in tow and talk to him of what he does not know, is amusing, and if the butt shows the least spleen their efforts are redoubled and he is driven from the field in derision. But if he shows a like spirit and returns as good as he gets then its a different story to tell.

Well Pleased With Meals.

The men are well pleased with the meals they have been receiving lately. In the mornings eggs have been served quite often, and the men say they go mighty good. A rasher of bacon, bread and butter, jam and tea or coffee makes a petty fine meal to start the day with.

DRILL COMPETITION STIRS BATTALIONS

The Keenest Kind of Rivalry Exists Between 33rd and 34th Teams.

"C" Company special duel squad of the 33rd Battalion, under Lieut. Johnson, is practicing assiduously to be in shape to meet a like number of men from the 34th next Wednesday afternoon in a competition of drill, etc. Last Wednesday the 34th squad were victors over the 33rd, but, if constant practice can turn the tables the 33rd boys state they will have a different tale to tell by next Wednesday night.

In the meantime the 34th men are doing hard work, and a pretty exhibition is promised to all citizens who turn up at the camp to witness the work of the 100 ment next Wednesday afternoon at 3:30 o'clock. The bands of the 33rd and 34th will play during the competition.

INSURANCE OFFERS

Metropolitan's Offer To Insure Soldier's Up Today.

The Metropolitan Life Insurance Company, through its local agent, has submitted to the city clerk an offer to insure still more London soldiers who may be recruited for the third or future contingents. This will be submitted to the board of control this afternoon. Whether future insurance of soldiers will be accepted on the same terms as that already contracted for has not been stated by the company yet, but probably this phase of the question will be taken up with the board today.

LOSES FINGER IN SAW.

ST. THOMAS, June 24. — Stephen Rossiter, employed at Lewis & Smith's mill, had one of his fingers taken off this afternoon by a saw.

LEFT AS CAPTAIN.

[Special to The Advertiser.]

BRANTFORD, June 24.—Major M. A. Colquhoun moved up yet another step in military rank when he was recently promoted on the battlefield of France to command the 4th Battalion with Lieut. Percy Jones, now captain, as his right hand man. This promotion for Major Colquhoun takes with it the rank of brevet-colonel. When the newly appointed officer left Brantford with the 1st Battalion he held the rank of captain. The 30th Dufferin Rifles are proud of his record.

Voting on the bylaw will take place on Monday, July 19. DO NOT YET APPRECIATE WAR'S SERIOUSNESS

Officer Declares That He Has Not Lost Faith in Young Canadians.

The 34th Battalion needs 220 men yet before it attains its full strength. At present the battalion has 933 men on the roll and full strength requires 1,153. Yesterday but one man enlisted. He is Fred H. Aorn, and is a member of B Company.

"Recruiting is rather slow," stated the assistant adjutant this morning, but it will pick up soon we hope."

Nine men joined the 29th Battery, C. E. F., yesterday. These were D. N. Wood, Joseph Boisvert, James McBride, Walter Oughton, G. J. Moore, Windsor; S. T. Goff and H. Gordon, Sarnia; and H. J. White and H. B. Oliver, London. The men are not yet in uniform, as shoes and puttees are still required. It is expected that shoes will be issued today, but the puttees have not been sent on from Ottawa. An order for these last-named was sent to the capital this morning. More recruits are expected in the city on Monday. There are four recruiting stations for the 29th—Guelph, Sarnia, Windsor and London.

Five joined the 33rd yesterday. These were Frank Sherman, D. J. Shepherd and James Burne, who are in A Company, and W. Adams of B Company and Arthur H. Rowe.

The men who are joining, although comparatively few in number are fine specimens of manhood. They quickly adapt themselves to military life and make splendid soldiers. As one officer of the 33rd said this morning: "The youth of the country is awakening to the fact that there is an emergency and that men are needed. They are answering the call to arms, but not as speedily as we might wish. However, when others come to the conclusion that their country has real need of them they will come forward. I have not lost faith in the young men of Canada by a long way. They just don't appreciate the seriousness of the present conflict, but when they do will not be slow to do their duty."

THE DIARY OF MARS

Galicia and its borders continue to embrace the present main field of military activity. The Russians are fighting hard in the Galician territory that remained to them after the Teutonic drive to Lemberg and beyond, either to save that territory to themselves or to give their retreating armies a chance to retire in good order.

Desperate battles, according to the official reports, are continuing along the Dniester, where the Russians claim to have retained the advantage, despite their admission that Austro-German forces have pushed their way across the river in two places. In both cases the crossing forces were pushed back, and are clinging precariously to the left bank of the stream, the Russians assert. In the Kosmierjine district the Grand Duke Nicholas' forces are on the offensive and claim to have carried a strongly-fortified height by assault.

Accounts of conditions in Lemberg during the Russian occupation received in Berlin tell of hardships suffered by the families of officials displaced by the change from Austrian to Russian authority. Prominent men, reduced to penury, had to resort to wood-chopping for a living, while the women of their families went into their kitchens, baked bread and cakes and then travelled from house to house selling their product.

Activity along the front where Austrian and Italian armies are facing each other is still chiefly in the nature of artillery engagements, with occasional interludes of infantry activity. The Italians claim, however, to be gradually advancing along the Isonzo and to have repulsed Austrian attacks at several points.

The latest French reports show progress for that army only in the ridges to the east of Meizeral in the Vosges, and this only to slight degree.

Nothing has been heard from the Dardanelles.

GAS "DEFEATER" WORKS WELL AT KINGSTON

"Muzzle" Tried Out Here Subjected To Severe Trial By Officers.

That the respirator which Paul Newman of Toronto claims will defeat the fiendish chlorine gas operations of the Huns, and which was demonstrated here last week, is a contrivance of more than usual merit seems to be borne out by the recent test made in Kingston. A Toronto paper says this of the test:

"Paul Newman proceeded to the Kingston camp, where one of the offices in the administration building was placed at his disposal. Every crack in doors or walls was sealed, and chlorine gas generated from the black oxide of manganese and muriatic acid over a small oil stove. When the room was well filled with gas Mr. Newman went in wearing the respirator, and remained for sixteen minutes without discomfort. Major Prideaux, Major Burritt and Sergt.-Major Bailey also took a turn at the gas-filled room, the last-named leaning over the stove as it emitted its deadly greenish fumes. It is claimed that the respirator neutralizes the chlorine gas, and absolutely protects the wearer against the influences. Most of the officers from the entire Kingston camp witnessed the demonstration, the fact of which will probably be communicated to the British war office through the regular channels."

Mr. Newman made a trial of his respirator on the recent visit of Major-Gen. Sam Hughes here and the results then were very satisfactory.

Unofficial tests have also been made in Toronto and they are such as to cause military men to bring its consideration to the British war authorities.

DONEGAL GARDEN PARTY.

ATWOOD, June 24.—The garden party at Donegal Tuesday night proved a success, notwithstanding the cool weather. Supper was served in the church basement and the program was held in the auditorium. An excellent program of musical selections was rendered by the Listowel brass band and the quartet led by Miss Thompson, also of Listowel. After the program an extensive sale of ice cream, peanuts, strawberries, oranges, etc., was carried on. The proceeds amounted to about $80.

FREDERICK McCALLUM BURIED.

GLENCOE, June 24.—The funeral of Frederick G. McCallum, whose death took place at St. Joseph's Hospital, London, on Monday, was held on Wednesday. Mr. McCallum was found unconscious in his barn on the 25th of March last with a wound in his head. Apparently he had fallen in a faint. On May 12 he was taken to the hospital. Mr. McCallum was one of the prosperous and respected farmers of the township of Ekfrid, and was one of the younger members of a large family. His mother is living in Glencoe.

MEN SHARE CONTEMPT FOR ALL DESERTERS

Feel It As Keenly As Officers When French Leave Is Taken.

A uniform of a 33rd private was found tied up in a bundle on the Becher property in the north end of the city the other morning. A gardener discovered the clothing and turned it over to Major Becher, who brought it to Lieut.-Col. Wilson. An endeavor is being made to discover the identity of the owner, who has evidently skipped out, but so far his name has not been established. The clothing was thoroughly soaked with rain. In the pockets of the coat was found a BBB pipe and some tobacco, besides other personal effects which, however, contained no marks which would serve to show who the owner was.

There have been very few desertions lately, but the commander of the 33rd states that in future those caught after deserting will be dealt with to the extent of martial law. The other members of the battalion feel it very keenly when one of their number proves so recreant in duty to King and country, and they are quite in accord with the officers in thinking that examples should be made of all who prove derelict to duty and take French leave of their fellows.

GOSSIP OF THE CAMP

The cricket team of the London Hospital for the Insane will play the officers of the 34th Battalion tomorrow on the asylum "pitch."

The camp commandant has granted leave of absence as follows: Lieut. T. L. Towers, C Section, No. 2 Field Ambulance Depot; Capt. G. W. Sawtell, 34th Battalion; Major F. Y. Coghlan, 29th Overseas Battery, C. F. A.; Lieut.-Col. Alex. Wilson, 33rd Battalion; Capt. W. W. Muir, 33rd Battalion; Capt. J. N. MacRae, 34th Battalion; Capt. E. Fremlin, 34th Battalion.

The 33rd band was busy as usual practicing this morning, and its rendition of some of the favorite hymns caused nearly all the men who were off duty to gather near and listen to the music. The band was in need of seven players a few days ago. Since then two have been secured, and it is understood that a man from Linwood, and another from Wingham is expected in any day. The band is in pretty good shape now and when it comes to full strength will be a hard musical organization to beat.

Corp. Crawford of Ingersoll has secured leave of absence to visit his wife who is in a serious state of health in the hospital at Ingersoll.

WILL BE BURIED IN WOODSTOCK.

WOODSTOCK, June 24. — Word reached here today of the death in Toronto of Mrs. Yule, a former resident of Woodstock. She was a sister of President Bates, at one time principal of Woodstock College, and also of Dr. S. Bates, educational secretary of McMaster University Toronto. The funeral will take place on Friday from the G. T. R. station on arrival of 4:40 p.m. train from Toronto to Baptist Cemetery.

LAUNCHES MUST REPORT.

SARNIA, June 24.—Col. Ellis, collector of customs, has received instructions from the customs department that in future all motor launches and pleasure boats must report formally to the customs men when entering this port.

SCOW MEETS ROUGH WEATHER.

SARNIA, June 24.—The tug Padwell, towing a scow, arrived here this morning. The tug and scow left Georgian Bay with a cargo of 11,000 posts for the Laidlaw Lumber Company. Coming from Goderich, heavy weather was met and the scow's deck load was lost. The cargo loss was about 10,000 posts. The scow is here for repairs.

SUICIDE SECTIONS ARE WORKING HARD

Machine Gun Men Becoming Proficient in Use of Deadly Weapon.

DANGER IS NO DETERRENT

Despite Almost "Sure Death" in Action, Quick Firer Operators Like Tasks.

The machine guns sections at the camp are working hard every day, and that their endeavors are being productive of good results is seen in the celerity with which the men can get their gun into position, sight it and fire, and all within less than a minute. They are not supposed to be proficient until all this can be done within 40 seconds. The section have not attained to this proficiency as yet, but that they will before it is time to leave for the front is the hope of every single member of the various units.

"You men have a dangerous job," suggested the reporter to the crew instructor.

"It's the most dangerous at the front," stated the sergeant. "The average life of a member of a machine gun corps when in action is just seven hours."

This is easily believed when one sees the uncovered position the men must be in when manipulating a machine gun. There is no shield to protect them, and they are in the direct line of fire from every quarter. That they show such keen interest in their work and are so anxious to get to the front for a whack at the enemy speaks well for their patriotism.

34TH DETACHMENT ROYALLY WELCOMED IN THE ROYAL CITY

350 Soldiers Pay Visit to Guelph, Whence They Came.

[Special to The Advertiser.]

GUELPH, June 24. — One of the largest crowds that ever assembled on the main streets of Guelph, gathered tonight to bid a welcome to some three hundred and fifty men of the 34th Battalion, who came to Guelph on the occasion of a band concert given by the regimental band in aid of the Red Cross.

The affair might well be advertised on advance posters as "Big Military Night," as it certainly was a pleasant and familiar sight to once more see the 34th soldiers parade on the streets of the Royal City.

Shortly before seven o'clock the special train from the west pulled into the G.T.R. station and after the men had met their many friends, who were awaiting them, Major Head, who was in command, drew the soldiers into line in front of the city hall.

Headed by the regimental band, followed by the soldiers, members of the city council, officials and citizens, the parade proceeded to the Exhibition Park, where a splendid program was most successfully carried out. The feature of the program was an exhibition drill, given by fifty members of A company, the same boys who outclassed the 33rd Battalion in the contest at London a few days ago.

The speakers of the evening were: J. P. Downey, Orillia; Col. Hugh Clark Kincardine; Samuel Carter, M. P. P., Guelph; Mayor Mahoney, and R. L. Torrance.

The soldiers returned to London at 11:30 o'clock this evening and have the hearty thanks of the Red Cross Society of Guelph for their willingness to aid in replenishing the funds of the good work society.

PURSE OF GOLD IS GIVEN MAJOR MASSIE

Commander of A Company, 33rd, Honored By Friends in Stratford.

Major J. C. Massie, in command of A Company of the 33rd Battalion, was signally honored by friends in Stratford last night when he was read and presented with an address and made the recipient of a well-filled purse of gold.

The presentation was made by Judge Barron, who spoke highly of the major in the address he made. Mayor Barndale presided, and about 150 were present. Mr. Strudely was present, and represented the board of trade members. Lieut.-Col. Wilson, commander of the 33rd Battalion, also was present, and spoke highly of the worth of his major. The officer honored made a neat speech in reply to the presentation address.

COLD WEATHER AT RESORTS.

SARNIA, June 24.—The summer resorters along the shore of Lake Huron are complaining of the extremely wet season this year, which makes life at the lakeshore anything but agreeable.

Not only has there been a superabundance of wetness, but the wind hangs in the north most of the time, with the result that the weather is cold and the swimming even colder.

CITY HALL GETS "APPEARANCE."

SARNIA, June 24.—A number of painters are now at work striping the brick of the remodelled city hall, which was recently painted a creamy yellow. The work makes the job look much more pleasing to the eye and is being favorably viewed by the citizens.

The other work on the building is progressing rapidly and within a short time the building will be ready for the city servants to come back to their offices.

EVERYWHERE REPULSED.

[Canadian Press.]

Verona, Italy, June 24—Via Chiasso and Paris.—According to reliable information that has reached Verona, the Austrians have received such reinforcements as enables them to take the offensive throughout the front, but are constantly being repulsed everywhere with heavy losses.

The fundamental idea in the plan of campaign adopted by Lieut-Gen. Count Cadorna, chief of staff of the Italian army, is to cause the Austrians the greatest expenditure of men with the least damage to the Italians.

NOTHING BUT PRAISE FOR CITIZENS OF GUELPH

Soldiers of 34th Who Were in Royal City Pleased With Visit.

Members of the 34th Band and some 300 privates returned from Guelph last night after having given a band concert in that city and staged an assault-at-arms. The men speak in the highest terms of the citizens of Guelph. Their expenses were paid by the Guelph people.

They arrived in London at about 2 o'clock this morning and marched up Richmond street to Oxford street, and thence to the camp grounds. The band played merrily from the station to the Heights, and although some sleepers were disturbed in their slumbers they listened with enjoyment to the strains of music as brought forth by the brass and reed instruments.

Nearly all the men who made the trip were Guelph citizens previous to enlisting, and consequently had a fine time in meeting old friends and acquaintances. Another trip will be likely arranged for in the near future.

MINISTER WILLING TO ENLIST, HE DECLARES

Rev. McCrae Tells Masonic Gathering That Giving of Life But Small Sacrifice.

A magnificently patriotic address was given by Rev. Dr. D. L. McCrae, pastor of Hamilton Road Presbyterian Church at Nilestown, where he was present as a guest at the installation of officers of the Nilestown Masonic Lodge.

Declaring that Britain's part in the war was more than justified, he went on to urge young men to enlist for service against the Teutons. He said that, although he had preached peace all his life, he would volunteer without hesitation if he were not too old, and would consider the giving of his life a small sacrifice in such a cause as that for which Britain was fighting.

SAYS 18TH WILL GO TO DARDANELLES

Sergt. Taylor Writes To Son Here To That Effect.

Pte. Taylor of A Company, 33rd Battalion, is in receipt of a letter from his father, Sergt. Taylor, now with the 18th Battalion in England, which states that the members of the battalion have been told they will leave for the front in July and that with them will also go the 18th, 19th, 20th and 21st Battalions. The writer says the five battalions will not be sent to France, but are to see service in the Dardanelles fighting.

He states that the men are put through a rigorous course of training, and that every morning at 4 o'clock they are taken out on a route march in heavy marching order, and that from then until 3 o'clock in the afternoon they are given a taste of real soldiering. The food given them is not of the best, says Sergt. Taylor, who expresses the opinion that the men of the 33rd and 34th are in luck to get the meals they receive.

Owing to the fatigue of the long journey from the base hospital in France, he would say nothing of his experience.

15,000 ORANGEMEN COMING TO LONDON

That Many Are Expected To Celebrate July 12 Here.

MANY PRIZES OFFERED

Big Gathering, Parade and Celebration On Schedule of Events.

Final arrangements for what promises to be the biggest 12th of July celebration in the history of Western Ontario will be made tonight at a meeting of the local lodges. Every lodge in Elgin, Middlesex and Oxford counties will be represented, as well as parts of Norfolk, Brant, Waterloo, Perth, Huron, Lambton, Essex and Kent. Tillsonburg and Berlin had arranged for individual celebrations, but these have been called off, and the lodges affected will come to London. Dr. W. A. Wilson, the county master, expects that between 10,000 and 15,000 Orangemen will take part in the parade.

The parade itself will start from the Market Lane at 1:30 and go by way of King street, probably to William or some street even farther east to straighten out, and then return by way of Dundas to Tecumseh Park, where sports will be held and addresses given.

Members of the city council and board of control will head the parade, and some half dozen military bands, besides other musical organizations, are expected to take part. The Seventh Fusiliers and 1st Hussars' bands have been secured, and the bands of the Oxford Rifles and the 25th Regiment also are expected.

Prizes will be given for the best banners, for the lodge coming the longest distance, for the lodge with the best-appearing regalias, and for the various races and sports.

Langemarck, the new lodge inaugurated recently and named to perpetuate the memory of one of the most glorious achievements in the history of Canada, will be in line.

The speakers at the park will include Dr. J. J. Williams of Woodstock, grand master of Ontario West; E. T. Essery, K.C., Capt. H. D. Peacock, chaplain of the 33rd Battalion, and grand chaplain of Ontario West, Rev. Dr. Knowles of St. Thomas; John McFarlane, S. F. Glass, and Rev. S. E. McKegney, formerly of London and now of Brantford. The Minister of Militia also is expected to be present to give an address, but in view of the demands on his time just now, it is not quite certain that he will be able to come.

Want Soldiers in Line.

The commanding officers of the 33rd and 34th Battalions will be asked to allow the 400 or 500 Orangemen at the camp to appear in the parade.

DENMARK GETS COAL.

LONDON, June 24.—9:26 p.m.—An agreement has been reached between the Danish and British Governments relative to the supply of coal from the British Isles, according to the Copenhagen correspondent of the Exchange Telegraph. A special bureau, the correspondent says, will be established in Copenhagen to deal with coal coming from England and Scotland. Eight coal steamers arrived in Copenhagen today from London.

M. C. R. CONDUCTORS HURT.

ST. THOMAS, June 24. — Ex-Ald. T. G. Courtenay, conductor on the Michigan Central Railway, residing on Railway street, sustained painful injuries Wednesday night when he fell from his train while at Welland, his arms and one shoulder being badly bruised.

Wm. J. Bernath, M.C.R. conductor, 21 Locust street, was pitched against the door of the way car when his train broke in two near Shedden today, and suffered a bruised shoulder and had one of his arms badly cut in being pushed through the window of the car.

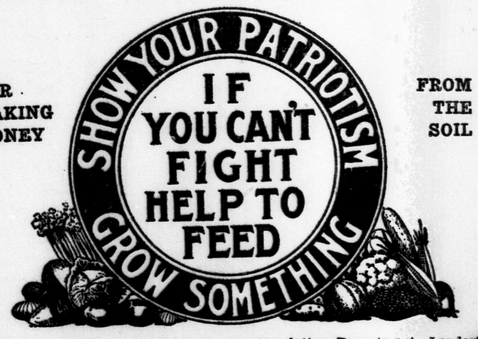

6,000 FISH IN ONE NET.

SARNIA, June 24.—One fisherman brought to Sarnia this morning about six thousand fish which he had taken from one net in Lake Huron near the Lake Huron Hotel. This net was close in to the shore and, as there has been a strong north wind for a couple of days, he got all the fish that could possibly get into the net.

Fishermen who had their nets farther out in the lake were not so fortunate, but the fish they did secure were larger.

WESTERN ONTARIO REGIMENT WAS ALMOST WIPED OUT WHEN COLONEL BECHER MET DEATH

Five Hundred of the Seven Hundred Men Who Engaged In Struggle at LaBassee Either Killed or Wounded—Commander Struck By a Bomb While On Parapet of Trench—Valor of Canadian Arms Upheld.

LONDON, June 24.—A report received today from the front shows that the first Western Ontario battalion, in action near La Bassee on the 15th instant, added further lustre to the Canadian arms.

They were selected to act in co-operation with British troops in attacking a German position. Three trenches were their objective. They came from the rear, having had a rest preparatory to the onslaught, which took place in the evening. The Germans apparently had an idea that a serious attack was to be attempted, and, as events proved, had made elaborate preparations for resistance.

Probably at no time had the Canadians so many bombs at their disposal as on this occasion. The first enemy trench was only 40 yards away from that occupied by the Western Ontario battalion. The mine had been laid, and its explosion was the signal for a forward movement on the part of the Canadians. The mine itself killed many Germans.

One who took part in the subsequent charge said the battalion rushed forward under terrible fire from machine guns and bursting high explosives, but the Canadians were fresh and had no fear.

Bomb Hits Col. Becher.

"I shall never forget looking round and seeing Col. Becher of London apparently standing on the parapet of a trench, leading his men by voice and gesture," he said. "The colonel fell, struck by a bomb, and was carried to the rear by the stretcher-bearers, but did not live long. He was a popular officer and a hero, but all our officers, likewise the men, fought bravely.

"I was at Ypres when the Germans followed the poisonous gases by tremendous gun fire, but that experience was not so terrible as this last.

"Conditions grew worse as the fight progressed. The Germans brought reinforcements from troops fighting the British, with whom we were linked. The second trench was about 60 yards beyond the first, which we captured, or about 100 yards from our starting point.

"The cost to ourselves of taking it was very great, but you don't think of the cost at such a time. It is only when you are in bed and reflecting how you escaped with only a wound that you realize it."

Capture Second Trench.

"Well, we took the second trench, and it was a hot position. We then went for the third trench, but the Germans, with reinforcements, concentrated a tremendous volume of fire upon us. I should think by this time considerably more than half our officers and men had been killed or wounded.

"Gradually the position became untenable, and it was necessary to relinquish the ground already won. We could not, with our depleted force, remain, so we moved back. The Germans then tried hard to shift us from our original position, but to no purpose.

Twenty Officers Lost.

"The battalion went into that action 600 to 700 strong. The killed and wounded numbered nearly 500, including 20 officers out of 23, twelve of whom were killed. The loss of Col. Becher was greatly mourned. He was very popular.

"Among the wounded brought to England is Capt. Delamere of Stratford, who was wounded in the back. He is in the nursing home, and is making good progress."

MONTENEGRINS OCCUPY HEIGHTS OF RENZI

Have Reached Eastern Gates of Scutari—Resistance Is Feeble.

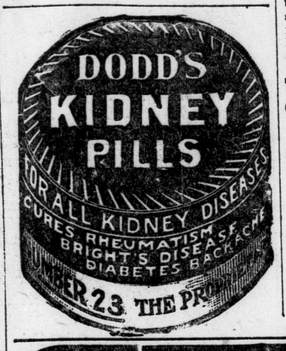

ROME, (via Paris), June 25.—12:57 a.m.—The Giornale d'Italie's Scutari, Albania, correspondent, says the Montenegrin army has reached the eastern gates of Scutari and are occupying the height of Renzi and the camp of Kiri. Feeble resistance was encountered.

An official note issued by the Montenegrin Government says that strategic and political reasons impelled the descent upon Albania, and the step was also taken because other powers have occupied portions of Albania.

ARE HAVING TROUBLE WITH THE ROSS RIFLE

Some Men of the Canadian Division Armed With the Lee-Enfield.

LONDON, June 24.—In the Commons tonight Sir Arthur Markham asked the under secretary for war if he had any information about the Ross rifle used by Canadians being unsatisfactory. Tennant replied that certain difficulties had arisen over the use of this rifle and the matter was being investigated, meanwhile some men of the division were armed with the Lee Enfield.

FEWER UNEMPLOYED IN FRANCE IN APRIL

Only Eleven Per Cent of Both Sexes, According to Ministry of Labor.

PARIS, June 24.—7 p.m. — The minister of labor has completed an inquiry into the effects of the war upon employment. In 27,610 industrial and commercial concerns with 1,097,000 employees in ordinary times, it was found that 65 per cent were fully employed in the month of April. The remaining 35 per cent does not represent the actual unemployment, because 24 per cent of the total number prior to the war is now with the colors; so that actually only 11 per cent, including both sexes, were unemployed during April, as compared with 17 per cent in January, 32 per cent in October, and 42 per cent in August.

These figures, together with statistics issued by other ministries, indicate continuous improvement in the industrial and commercial situation in France since the opening month of the war.

Five Germans Shot During Camp Mutiny

One Assaults Guard and Is Killed—Four Are Wounded.

AMHERST, N. S., June 24.—During an outbreak this morning at the alien enemy camp near Amherst, one of the prisoners, Fritz Kluz, a German, was shot dead and four others, all Germans, were seriously wounded. A rumor was abroad during the day that the shooting occurred when a squad of German prisoners attempted to escape. Few details are obtainable. All that can be learned is contained in the following version, obtained from a competent source:

"While the prisoners of war in the detention camp were being conducted to the compound for physical exercise, one of them, Fritz Kluz, assaulted one of the internment police, knocking him insensible. The camp police, with the guard, was called out to quell the mutiny, and in the meantime the originator of the trouble was shot dead and four or the other prisoners were seriously wounded."

There are about 500 prisoners in the camp, including more than 100 German sailors who were rescued from cruisers, after engagements in the Atlantic.

N. DORCHESTER RAISES OVER THOUSAND DOLLARS

Recent Campaign for Patriotic Purposes a Success.

DORCHESTER, June 24.—The result of the recent campaign conducted in the township of North Dorchester for patriotic purposes, was this week handed to the secretary, and amounted to $1,101.70. For Belgian relief fund, $203.25; for patriotic fund, $482.25; for Red Cross work, $416.20. Money collected in aid of Red Cross is to be divided among the three societies in the township, Dorchester to be given half, Crampton and Harrietsville each to be given one-quarter.

Yesterday afternoon another shipment was made to Hyman Hall by the Red Cross Society of Dorchester, consisting of 50 towels, 9 pairs of socks, 12 sheets, 8 hospital shirts, 4 rolls of bandages and 1 pneumonia jacket.

DR. DERNBURG HELD FOR NIGHT AT SCOTCH PORT

LONDON, June 24.—9:12 p.m.—Unknown to the British public, Dr. Bernhard Dernburg, whose propaganda in favor of Germany while he was on a visit to the United States created much comment, spent last night aboard the Norwegian steamship Bergensfjord, in the harbor of Kirkwall, Orkney Islands.

Tonight, however, Dr. Dernburg is proceeding to Sweden on his way to Germany, aboard the Bergensfjord, which was detained at Kirkwall yesterday, presumably on suspicion that she carried contraband. The steamer was released this afternoon.

The news that the Bergensfjord had been taken into Kirkwall did not become known until this afternoon, when the release of the vessel was announced. The predicament of Dr. Dernburg in being forced to spend the night in a Scottish port is considered here an amusing one. He was in no danger of being stopped by the British officials in view of the promise to give him free passage. He did not leave the steamship while the examination of her cargo was being made.

Berlin, through Swedish advices, learned of the detention of the Bergensfjord last night.

GERMANY SEEKING OVERSEAS LANDS

Wants Colonial Expansion Rather Than a Slice of Europe.

WHAT WILSON LEARNS

Diplomats Would Be Willing to Return to Status Quo.

[Canadian Press.]

NEW YORK, D.C., June 24.—President Wilson does not see any prospect for an early peace in Europe. Col. E. M. House, his close friend and unofficial envoy to Europe, gave the President today the results of his sojourn of several months in the principal capitals of Europe, where he talked intimately with the responsible officials of the British, French and German Governments, and the information he imparted in the long walks and talks which they enjoyed today reflected definitely the ideas held by both diplomatists and the military element in each of the countries at war.

He also disclosed the various beliefs and currents of public opinion in each country as to what might be the possible terms of peace and the trend of public opinion toward the different peace proposals that have been brought forward from time to time in informal discussions by the press and peace organizations.

The President has been guided largely by what Colonel House has reported to him by cable and letters in handling the delicate questions of renewing the efforts of the United States to bring about a general acceptance of mediation. Mr. Wilson himself said last Tuesday to the Washington correspondents that no new tenders of good offices had been made to any of the warring nations, but that all foreign governments well understood the willingness of the United States to be of any service in any way possible to pave the way for an approach to peace.

Public Not Prepared.

One of the fundamental things, the President has learned, which has affected the efforts of the United States to make peace is the unpreparedness of public opinion in some of the belligerent countries as to terms which they fear their adversaries might advance. Colonel House observed during his trip to Europe that public opinion in some of the countries was most insistent on terms which the Governments of those countries already had learned in various ways would not be acceptable to their opponents. In all countries he found that there had developed among the masses a desire for a settlement that would be commensurate with the sacrifice in blood and treasure that had been made by the people. If left to the diplomatists in Europe alone a return to the territorial status quo would perhaps not be difficult, some of information indicated.

Germany's Ambition.

In Germany, it seemed, according to reliable information given to the President, the object of the large and influential party was to prepare public opinion for a realization of the idea that Germany's best interests lie in colonial expansion and the incidental development of overseas commerce, rather than in territorial extension in Europe proper.

The question which, however, Col. House thinks likely to play a most important part in any peace negotiations is freedom of the seas.

Neither the President nor Colonel House would make any formal statement tonight on their conferences.

HESITATE TO PREPARE TO MAKE MUNITIONS

Toronto Manufacturers Say Contracts Have Been Let in Small Quantities.

TORONTO, June 24.—Toronto manufacturers, who have been making shells, in reply to the strictures of Lord Curzon regarding delivery, state that the contracts have been let in such small quantities, and the future of the industry is at present so indefinite, that they have hesitated to incur the heavy expenditure entailed in installing machinery until a more definite future is assured.

The harness makers claim that delay in delivery is due to the fact that the specifications have been changed.

STRONGEST LINIMENT IN 100 YEARS BEST FOR EITHER MAN OR BEAST

Nothing for Family Use Can Compare With It.

RUB ON NERVILINE

When you have been exposed to wet and cold and your muscles are full of pain, nerves are jumping with neuralgia, then you should have ready at hand a bottle of Nerviline. It robs pain of its terrors, gives relief to all suffering, brings ease and comfort wherever used.

No care or expense has been spared to secure for Nerviline the purest and best materials. It is prepared with a single aim; to restore the sick to health. This cannot be said of the preparation that an unscrupulous dealer may ask you to accept instead of Nerviline, so we warn you it is the extra profit made on inferior goods that tempts the substitutor. Of him beware.

Get Nerviline when you ask for it, then you are sure of a remedy that will cure all aches, strains, swellings, and the pains of rheumatism, neuralgia and lumbago.

In the last hundred years no liniment has been produced that can compare with Nerviline in strength, in penetrating power, or in curative ability.

For nearly forty years it has been Canada's household remedy, and mothers will do well to follow the advice of Mrs. Jessie Beggins, of Stella P. O., Ont., who says:

"Very frequently there are ailments in the family that can be cut short if Nerviline is handy. When my children come in from play, with a cough or a bad cold, I rub them well with Nerviline, and they are well almost at once. Nerviline is fine for earache, toothache, chest colds, lumbago, stiffness, rheumatism or neuralgia. In fact there is scarcely a pain or ache in man or beast it won't cure quickly.

The large, 50-cent family-size bottle is the most economical; trial size 25 cents; at all dealers, or the Catarrhozone Company, Kingston, Canada.

MR. BRYAN'S DREAM.

MR. BRYAN has announced his opinion that neutral governments should offer mediation, and keep on offering it. He suggests that each belligerent should be urged to state its aims, and that then a neutral mediator would be in a better position to study the whole situation and proffer terms of settlement that might be generally accepted. He thinks that the plan already embodied in his peace treaties will do for the embattled nations of Europe: investigate, report, confer and arbitrate.

There are, of course, some difficulties which the simple-minded enthusiasm of Mr. Bryan is apt to ignore, or even fail to see. He was once very sure about the 16-to-1 free sliver, a joke to any serious economist. There are some things in the present situation that need to be considered more attentively than a simple peace gospeller may be always willing to do.

In the first place it is hardly likely that at least some of the belligerents would be candid and confiding in letting Mr. Bryan know just what are their aims in the struggle. Secondly, France's aim to recover Strassburg and Lorraine, which few would doubt, can never be accepted except by a beaten Germany. Finally, disarmament, or a reduction of armaments, which Great Britain has offered Germany, and which Germany has contemptuously refused, is almost a sine qua non of a settled peace after the war, and can be secured perhaps only by the overthrow of Germany or of the frankly militarist government at Potsdam. We want no truce which will simply give the Kaiser's bandits time to breathe and get ready for an attack on our next generation as they have attacked us.

If, of course, Germany is ready to satisfy France in regard to Alsace-Lorraine, if the Dardanelles can be internationalized to satisfy Russia, if Servia gets her rights on the Adriatic, if Italy can come to terms with Austria, if Belgium is properly indemnified, and if the Teutons will agree to a general plan of armaments reduction and arbitration, if all that can be arranged by a mediator, in the name of humanity let the war stop. But can these primary requisites of peace be effected except by the conquest of Germany?

CANADA'S TRADE.

V.

GERMANY'S yearly exports amount to $2,400,000,000. If Canada aims at getting her share of this, she will have to reach out into all corners of the world. But it is interesting to note that a large part of this trade has been going to the various countries comprising the British Empire, and to the countries allied with Britain in the war. In fact, one-sixth of Germany's exports went to the United Kingdom; France, Russia and Japan took another sixth, while almost one-tenth went to Italy and Belgium combined. This means that a billion dollars a year which Germany has been receiving for products is awaiting other takers. It is a prize which should stimulate Canadian manufacturers to their utmost endeavors. It is not to be expected, however, that Canada can win her share of this in a day, but sentiment will help to open the field, and after that, "Made-in-Canada" must prove itself a trade mark representing the highest degree of workmanship, or it will fail to hold that which sentiment has thrown her way.

The imports of Great Britain alone from Germany amounted to over $340,000,000 in 1913, and they included many articles which Canada can give her in large quantities, as well as some which must be left to other countries until resources unknown here at present are uncovered. Britain paid Germany nearly $50,000,000 for metals and ores of various kinds, nearly $6,000,000 for oils, $7,000,000 for carriages and motors, $8,000,000 for chemicals, $10,000,000 for corn, grain, etc., nearly $35,000,000 for cotton manufactures, $10,000,000 for leather and leather manufactures, $2,000,000 more than this for machinery and parts, over $7,000,000 for paper and paper articles, $9,000,000 for skins and furs, over $30,000,000 for sugar and molasses, and $10,000,000 for woolens.

Germany's trade with the rest of the British Empire has been along the same lines as that with the United Kingdom and Canada, and it has been developed with notable aggressiveness during recent years. Much of the wealth which the German Empire is now spending in explosives and asphyxiating gases was contributed by those who are today the victims of her militarism. This in itself should induce Canadian manufacturers to develop their industries to the limit of their ability and keep within the Empire the money which in the past has gone to build munitions factories and Zeppelin airships. During the past two years an effort has been made to develop Canada's trade relations with the British West Indies, which can supply us with tropical products and whose people require what this country can produce. But our trade with Australia, New Zealand, British South Africa and India can also be developed.

In the six or seven years preceding the war, German exports to Australia and New Zealand increased over fifty per cent. The increase to British South Africa was greater than this, until in 1913 they were receiving as much money from that part of the British Empire as from Canada, and were exporting to that country four times as much as Canada was. As usual, however, these exports were such as Canada has not sought to advance to any great extent, machinery, textile goods, musical instruments, fancy articles, earthernware, leather goods, paper, rubber goods, drugs, chemicals, toys.

To the three countries mentioned, Germany exported cotton goods valued at two and three quarters million dollars in 1912, woolen goods worth $850,000 and silks worth nearly $400,000. Australia bought iron and steel goods worth $4,500,000 and South Africa almost half as much. Australia purchased German machinery worth nearly one million dollars; South Africa three-quarters as much and New Zealand one-quarter as much. Both Australia and South Africa bought vehicles of various kinds valued at one-quarter of a million.

All around the world Tipperary is being played on German musical instruments. In 1912 the three southernmost British countries spent over two million dollars for German pianos, cornets and other kinds of melody producers. Three-quarters of a million dollars was paid to the German Santa Claus; over one million dollars for earthenware and glassware, just about twice as much for rubber and leather goods and almost $700,000 for paper goods. In the same year, it may be noted, Canada sold these countries, chiefly New Zealand, $2,000,000 worth of paper and paper products. In drugs, dyes, chemicals, oils and hops imports from Germany were extensive.

India imported from Germany, in 1912, about $25,000,000 worth of goods similar to those going to other British countries, the chief item being iron and alloys. There were important imports of cotton, woolen and silk goods, and of machinery, paper, wine and spirits, for which India will be inclined to look elsewhere for some years.

THE FALL OF LEMBERG.

THE capture of Lemberg by the Teutons should not plunge us into gloom. Of course, there will be a feeling of disappointment that our brave Muscovite ally was unable to hold the Galician capital; on the other hand, it is heartening to know that the evacuation is due to the lack of munitions, not to panic or demoralization. From the very beginning of the German drive, the Grand Duke's armies have been retiring in perfect order, fighting rear-guard actions that for effectiveness and steadiness are unsurpassed in the history of warfare. It is a hollow triumph for the Kaiser, as the Austrians only get back what is theirs, and the enemy has withdrawn as full of fight as ever.

It should be remembered that the fighting is still in the territory of the enemy. The Russians as yet have lost no Russian territory, apart from the capture of Libau, and, what is of still greater importance, have not lost any armies. It is this last that the vast armies of the Teutons have been striving for in their drive through Galicia. A Russian Sedan is what the Kaiser wants more than anything else. It would cripple Russia for many months, and might prevent the entrance into the conflict of Bulgaria and Roumania as supporters of the Allies. But the strategy of the Russian commander and the morale of his men have foiled the Kaiser's intentions. The Kaiser has scored a triumph, but it is by no means a decisive one.

In the meantime along the eastern battle line from South Poland to the Baltic the Germans have made no progress. In the extreme north of the line their thrust at Riga was turned back, and they are no nearer Warsaw than six months ago. It may be that now the Teutons will make a drive at the other parts of the line, hoping to break through to the Polish capital, but so long as Russia's Galician army is intact and able to punish its pursuers as it is today, the Kaiser cannot afford to detach many troops from the heels of the Grand Duke. The latter may turn at any moment and seize the offensive. It's a way those Russians have.

At a comparatively small cost to himself, the Grand Duke for weeks has been inflicting great injury on his pursuers. Because he has left Lemberg to the enemy does not mean that he will be any less a thorn. And keeping the Germans busy day and night will prevent the latter adding much to the weight of their defence in the west and along the Italian frontier.

THE GERMAN CONVENTION.

SO THE German-Americans intend holding a convention in Detroit to protest against the shipment of munitions.

If the United States Government did anything to prevent its citizens from doing a lawful business it would be violating its own constitution and also putting itself in Germany's class as a breaker of international law. Such action would be a breach of neutrality. The United States has no more legal right to prohibit its citizens from exporting munitions than to prohibit the exportation of wheat, flour or machinery. Nor will the Washington Government interfere any more with its steel manufacturers' good business than with the business of its farmers. These German-Americans are roughs, trying to molest industrious citizens engaged in what Dr. Johnson called the most innocent of occupations, the making of money. The Government of the United States will know whether to assist them in breaking up industry and profits, and in disturbing peaceable relation with three-fourths of the civilized world.

As for the convention, it is not pleasant for Canada to have such an assemblage so close to our doorstep. There is a smell of Fenianism about it. For the United States the move might appear more sinister than for us. Such a convention, called together in no American spirit to ask the Government to do something against the interests of other citizens, against law and order, and against nations at peace with the United States, verges close upon a conspiracy of a nation within a nation. It may easily crystallize into a definite nationalist organization within the American people. It might be the first step towards something like armed Ulster in Ireland last year. The next thing there will be a secret arming, and then an open drilling and marshalling of men. The proposed convention is a menace to the United States, not only in itself, but in the precedent that would be set to other national and even non-English-speaking groups in the republic to organize themselves in like fashion.

Probably the rights of free meeting and free speech do not permit of any governmental interference with the Detroit meeting. Doubtless, the spirit of Americanism is extremely robust, perhaps able to fuse half a dozen nationalist organizations back into itself in any emergency of the republic. Still the meeting, if it comes off, will bear watching, and its transactions will be scrutinized for the touch of conspiracy or treason. It will be alertly watched from Windsor and from London, squatting, as it intends to do, on the edge of this region, the very heart of Canada. Some of the camp-followers of the convention may be particularly of interest to our police.

WILL HOLLAND FIGHT?

THERE is a feeling abroad that Holland may soon be a participant in the war as a supporter of the Allies. Already she has 300,000 men preparing to take the field at a moment's notice, and 300,000 others are being drilled and trained for service. Besides, as was the case with Italy, Holland ever since the war commenced has been piling up vast stores of war material and equipping her troops with the latest thing in every branch of the army.

With war on all sides of them it may be that these preparations are merely in the nature of precaution. On the other hand there has been no love lost between the Germans and the Dutch for many decades. Stout little nation as they are, the Dutch have always been in great fear of their mighty and ruthless neighbor. Germany has long wanted Holland, because of her coast line. With Holland added to the empire, the Kaiser would have an ideal base for an attack on the hated English. And Holland knows well that she long ago would have been treated with the same mercilessness as was Belgium, had Germany dared to plunge Europe in war. Nobody misunderstands why Germany at present is handling Holland with gloves. Holland acts as a block against a British invasion on Germany's flank, and is a source of supplies; but once let Germany triumph and Holland would be quickly ordered into the German Empire or crushed. Always before the Dutch is the experience of Belgium. That she should be thinking of joining with the Allies is not surprising.

EDITORIAL NOTES.

At the Dardanelles, too, they are doing some excellent nibbling.

Belgians have taken a German colony in Africa. But there won't be any wholesale butcherings of civilians.

Dandelions are a pest, says Luther Burbank. That's what the Germans say about the dandy lions in the British trenches.

Berlin is clamoring for the Kaiser to make another drive at Paris. But the War Lord will be shy of it, having been so badly burned last time he tried.

Marconi has invented an apparatus that permits one to see through brick walls. But as the majority of us live in "glass houses" it will be of little use.

During the last four months the sailings and arrivals at the ports of the United Kingdom numbered 26,000. The figures make Von Tirpitz's "blockade" look foolish.

The German submarines have sunk a fleet of seven drifters off the coast of Scotland. The drifter is a small fishing vessel not much larger than a good-sized rowboat. What a noble, splendid enemy is ours!

Canada, Australia, New Zealand and South Africa can be depended upon for large subscriptions to the new British war loan. The overseas Dominions, besides sending men, are a financial support to the United Kingdom such as Germany does not enjoy.

TOO REALISTIC.

"That was a wonderful rain scene in the play last night."

"Realistic, eh?"

"I should say it was. Why, when the rainstorm came up my corns began to hurt me."

SATAN'S ADVANTAGE.

"Satan never takes a vacation," thundered the evangelist.

"Well," retorted an unregenerate listener, "he's more used to heat than we are."

He—Sure, I know. And when he died he left her all kinds of money.

HIGHER MATHEMATICS.

"Waiter," he suggested mildly, "I want three eggs, and boil them four minutes."

But the cook, having only one in the place, boiled it twelve minutes.

Which proves the value of higher mathematics.

THE DOMINANT SEX.

By Edward Boltwood.

The girl shook her pretty head with marked vigor.

"Then it's 'no' again, is it?" observed the young man. "All right! I don't care."

"Well, of all the silly ways to take it!" she jeered, raising contemptuous eyebrows.

"How would you take it yourself?" he retorted indignantly. "How would you take it yourself if a most illogical person, for the seventh time, had refused to marry you? You'd jump off this pier among the jellyfish, I suppose, or do some other inspired thing."

"Anyhow, I wouldn't say that I didn't care!"

"My reason for saying that is childishly simple," he explained. "You see, I'm so positive that I'll be firing the same question at you tomorrow, or next week, or next year—whenever I get the chance—that past refusals don't bother me. I'm looking forward, not backward. That's the sort of progressive your Uncle Dudley is!"

She peeled a large sliver from the string-piece of the Cape Cod wharf on which they were sitting, and dropped it toward the sunlit water. It fell, however, on the toe of her dainty suede shoe. He watched with deep interest her vain efforts to dislodge it, and finally poked it off with his cane.

"You, progressive!" mocked the girl. "Why not, by George?" said he. "Didn't I subscribe to that Swedish woman's what's-its-name league last winter, when you asked me? Didn't I go with you to her mop-haired lecture at Cooper Union? Fine business, if I don't get credit for that!"

"But you never really do anything!" she emphasized. "Oh, you needn't tell me about your tiresome law-office! You may know a lot of law, but you don't know the real things, or do them."

"I don't know how to propose, for instance."

"Decidedly not," she asserted.

"I thought I did, this time," he said in a humble voice. "I rehearsed this proposal all last night in the sleeping-car. A drummer in the next bunk was quite peevish about it. But I'm wise to what the trouble is. You're drawing magazine illustrations for another novel by that Chicago chap!"

"No, I'm painting a picture. It's called 'Sunset from the Mill.' Voila!"

With her crimson parasol she pointed at the grey tower of an ancient and solitary windmill across the broad harbor.

"For another novel by the Chicago chap," he reiterated firmly. "You're daffy about the masterful type of man, with the salient jaw that sticks out over the building-line, and hands that need a shave—the primeval crook who gets a wife any old way, so that he gets her. Lugs her to church in spite of herself, like a cop!"

The young lady smiled, with the faintest suspicion of an alluring blush.

"But a man's got to be stronger than a girl," she said; "stronger and more clever, if she—if they—if he is going to be happy. A man's got to be able to dominate and outwit her, by fair means—"

"Or foul?" he interrupted.

"Perhaps she wouldn't mind."

"And if she outwits him?"

"Then she proves she belongs to the dominant sex. What nonsense we're talking!"

A motor-launch rounded the wharf, and she waved her parasol. The signal was answered by a flanneled youth at the wheel, and the boat floated toward the landing-steps. The girl on the wharf jumped up.

"Jack Rogers will ferry me over to the cottage," said she. "No, I can't ask you to luncheon, for I have to work all the afternoon. Besides, Mrs. Rogers has invited you to dine with us tonight, hasn't she? Good-bye! I hope you will like the hotel."

He did not take refuge immediately in the hotel. He stood still and glared mournfully at the gay awning of the departing launch. Then his despondent eyes shifted themselves to the green water beneath him.

"I'm a jellyfish!" he sighed.

His despondency was not enlivened by the midday dinner at the seaside inn. A haughty waitress, painfully compressed to the requirements of a cut-paper-pattern waist, offered him sugar for his salad. She wore an aerial pompadour; he found a portion of it in his coffee, and thought of other curls, and lamented inaudibly.

In a comfortless rocking-chair on the hotel piazza he smoked a distasteful pipe with grim and reflective industry, and when he observed certain symptoms of change in the western sky he descended the steps and accosted a hackdriver.

"I wish to walk to the old windmill; how should I go?"

"Walk," replied the driver promptly. The young man walked around the head of the harbor. It was three miles to the mill, and no habitation relieved the desert of sand on either side of the shell road. But the solitude did not seem to depress him. He slapped his cane against his leg as he turned into the fenced inclosure.

The old mill was a high tower, without a window, excepting one at the top. Behind this aperture he saw a dash of color. Was it a ray of the setting sun, or a crimson parasol?

A placard on the door informed him that the mill was owned by the local historical society, and that the custodian was Jason Nickerson, corner of Sperm and Mackerel streets, where the key was kept. But the keyless door at present was ajar. It was a stout, modern door, equipped with a modern spring-lock.

The young man examined the lock attentively. On the inner side there was no latch or lever to open it. He crossed the threshold and shut the door noiselessly and securely behind him. The lock held; he was imprisoned. Then he tiptoed up the winding and shadowy stairs.

"Hello!" he said, poking his head genially through the scuttle in the top floor.

"Hello!" said the girl. "For goodness' sake! I wish now that I hadn't found the door open, an hour ago, and climbed up here to read."

"But this is your paint-shop, isn't it?"

"Not up here, stupid! Down on the ground, under that pine-tree. You'd have seen my easel there if you had looked for it. Come on out and inspect the picture."

She laid aside her book and the young man grinned.

"Come on!" she urged impatiently. "The picture, you know, will give us something worth while to talk about."

"Oh, don't worry," said he. "We'll have plenty to talk about right here. Will you marry me?"

"Please don't begin that so soon after this morning. You usually let me have more of an intermission."

"But what do you say?"

"I say no!"

"Then," he announced, "I wouldn't be in your shoes for quite a bit."

"My shoes?" said she blankly. "If you ever touch my shoes, I'll—"

"Listen to me," he intruded. "Are you aware that Mrs. Rogers, your gabby hostess, runs the biggest gossip-delivery company on the Riverside Drive?"

"Of course, I am. Well?"

"Well, we happen to be locked up together in this windmill," he rejoined.

She stared at him with panic-stricken eyes.

"What do you mean?" she gasped.

"I mean," he said, "that I can't budge the lock of the door, that there's no key in it, and that we can't get out until somebody finds us—Mrs. Rogers, or somebody."

"I don't believe you!" cried the girl, and she fluttered down the stairs like a hobbled canary.

The young man picked up the crimson parasol, leaned on the window-sill and looked down. The sheer drop to the ground was one of forty feet or more. The roof of the nearest house was about a mile away. He tried to smile, and failed.

"But at least I'm no longer a jellyfish," he muttered.

Bending over the scuttle, he heard a faint sound, as of little hands beating desperately on woodwork.

"Oh, the dickens!" said he. "Hanged if I guessed it would be as bad as all this!"

The sound of beating hands ceased; it was replaced by that of tiny sobs. He bit his lip wrathfully and screwed the ferrule of the parasol into the floor.

"Are—are you going to leave me down—down here alone?" wailed the girl's broken voice from below.

"What do you think I am?" called the young man.

She was crouched on the last step of the stairs, a forlorn figure in the grey dusk.

"Try the lock again," she said tearfully.

"No use, I'm afraid," he replied, assaulting the immovable door with much activity. "No use; it's locked fast. I don't know what we can do, unless—"

"I know," she interrupted. "I remember a French novel I read at boarding-school. It was 'The Romance of a Poor'—something or other, and the hero jumped from a ruined tower to save the heroine's feelings."

"I'd be crushed like a bug," he objected. "What good would that be?"

"It was a lovely story, in a yellow cover," mused the girl.

The young man punched his shoulder against the heavy panel.

"Deuce take the thing!"

"Well, you needn't swear so," she advised. "There's no reason for profanity, just because I've got to marry you."

"Marry me?"

"Certainly! We shall have to tell Mrs. Rogers, when she finds us here, that we're engaged. That's the only way to stop her terrible tongue, isn't it?"

For answer the young man renewed his attack upon the door.

"The breeze closed it too tight," said the girl. "Besides, it's not complimentary to turn your back when a lady accepts you."

"The breeze had nothing to do with it," he blurted between his teeth. "I closed it myself, like a blooming idiot: I made this asinine and blackguardly play to outwit you—to dominate and win you, if not fairly, then in the other style. Marry me? I won't have you marrying a blackguard whom you can't forgive!"

"How do you know I can't?" she murmured, and wavered toward him in the darkness.

There was an ecstatic interval of a minute or two, during which no understandable word was spoken.

"I did succeed in dominating you, anyhow!" he exulted tenderly.

"I suppose," she whispered, "that it is a sample of the way you'll do it after we are married. Come now, we must really start for home."

"Start for home? How?"

"Why, out of that door, you precious silly!" said the girl. "I've got the key in my pocket."

A PAGE OF GENERAL INTEREST TO WOMEN READERS

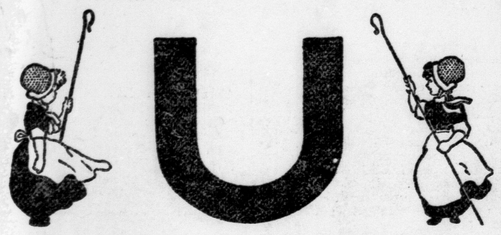

A story of Scotch honesty comes from Dundee. A small boy had taken the prize for an exceptionally well-drawn map. After the examination the teacher, a little doubtful, asked the lad: "Who helped you with this map, James?" "Nobody, sir." "Come, now tell me the truth. Didn't your brother help you?" "No, sir; he did it all."—Los Angeles Herald.

Cynthia Grey's Mail-Box

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn. No letter can be answered privately.]

Size of Springbank Park.

Dear Miss Grey,—1. Please give me a recipe for veal loaf.

2. How many acres are there in Victoria Park? In Springbank Park? Will be much obliged for this information.

AN ADVERTISER READER.

Ans.—1. Cut two pounds of lean veal into bits, add a quart of cold water, and simmer at the side of the range until the meat is tender. Add salt and pepper to taste and set aside until the grease forms on the top of the liquid. Skim, return the veal and liquor to the fire, add a half pound of minced ham. Stir all well together, and pour into a mold wet with cold water. Set in the ice chest for 24 hours, then turn this loaf out upon a cold platter, garnish with parsley or watercress, and slice with a sharp knife.

2. Victoria Park, 14 acres; Springbank Park, 272 acres.

The Heart That Counts.

My Dear Miss Grey,—As I read your page from time to time, I thought I would write you a few lines and ask a few questions for my own amusement. I hardly wait till the paper gets into the house before I read your page.

1. What is the meaning of the name Nellie?

2. I have brown hair and grey eyes; what kind of a complexion of a man should I marry?

3. What do you think of my writing? This is my first letter. I will close, wishing you all success. Hoping to see this in print soon, I am, yours sincerely,

CRON.

Ans.—Am certainly delighted to hear that anyone is so eager over this page. However, my dear, don't forget yourself so far as to stay out in the cold or wet; should never forgive myself if you did and caught cold!

1. Nellie is a form of the name Helen, which means light.

2. It is claimed that a fair maid should unite with a man of the dark type, and vice-versa, for wedded happiness, but between you and me, I should advise you to marry the man who loves you and whom you can love and trust in return. I don't think the color of his hair has much to do with it—it's what's inside of his head, and his heart, that matters!

3. Rather poor. Am not even sure if we puzzled out the right signature.

Plaids of the Clans.

Dear Miss Grey.—As I am an interested reader of your Mail-Box, I decided I would write and ask your kind advice about the following questions:

1. Where could I get a pattern for a little boy's Scotch suit, 3-year size, with a plaid skirt and velvet coat? Also, what would you trim the coat with?

2. What are the names of the different plaids, and could you explain the colors?

3. Could you also print the recipe for vanilla wafers?

4. I am 5 feet 11 inches tall and weigh 129 pounds. Do you think I weigh enough for my height, and how long should I wear my skirt?

Hoping to see this in the morning edition. SNOWFLAKE.

Ans.—1. If you cared to send me your address I would gladly try to secure the pattern for you. You could mail me stamps to cover the cost, if I was successful in getting what you wished.

2. Practically all the Scottish clans possess plaids and tartans of their own, but I fear it would be impossible to describe them to be in the least understood. One needs pictures, illustrating the different colors. About the only one I can explain is the Rob Roy, which is in black and red, even check. A very familiar plaid is the Black Watch, much used for women's and children's dresses. The colors are dark green, dark blue, and black. The McArthur plaid, a dark and light green, with striping of yellow, is handsome; also the McLeod, which differs from many of the others, having a yellow ground with black bars, and thin stripes of red. Other plaids are the Gordon, Graham, Macbeth, Macdonald, MacGregor, Stuart, most of which are varied arrangements of blue, red and yellow. Sorry, but I cannot be more definite without giving pictures, and these are impossible.

3. By "vanilla wafers" I think you refer to the dainty, rich, little morsels of the "shortbread" type, rather than ordinary vanilla cookies. Here is a formula you should be successful with. Use half the ingredients, if you prefer: One to two ounces flour, 4 ounces butter, 6 ounces lard, rub together till flaky; beat two eggs and ½-pound sugar together; mix with flour and shortening, add a pinch of soda, and vanilla flavoring to taste. Divide dough into three portions, roll out very thin, cut in fancy shapes, sprinkle with sugar, and bake.

4. Your weight is scarcely enough for your height. Would not advise your adopting the extremely short length of skirt, but rather wear yours ankle-length.

Some Geography Questions.

Dear Miss Grey,—This is the first time I have ever written to you and hope I shall not prove troublesome. I think we commenced taking The Advertiser, evening edition, just about the time "A Daughter of Albion" sent in her honey butter pudding, which was so good I hope she will contribute some more of her recipes. But not jams in January and plum puddings in July please, as so many people do. Now for the inevitable questions.

1. What is the population of Napanee, Ont., and how far is it from the water side?

2. Is it settled by English people and has it any industries?

3. In what part of Ontario are there settlements of Manx and Welsh people?

4. What is the climate of the Isle of Man? Is the winter as cold as ours with heavy snowfall, and are the summers as cool as the weather here during the past month when a fire every day seemed necessary?

Thanking you in anticipation. Believe me, yours sincerely. NONA.

Ans.—I think, Nona, that we escape the "misfit" recipes pretty well, on our page, and our readers evidently try to be up-to-date, or rather, seasonable, in what they send in; so you need not fear the plum pudding recipes in July. "Daughter of Albion" will be pleased with your praise.

1. Napanee possesses a population of about $4,000; the town is situated on the Napanee River, which is navigable to the Bay of Quinte; it is about six miles from the lake.

2. (a) This is more than I can say, presume so, however; (b) available information about Napanee, is as follows: The town possesses five churches, public school, collegiate institute, county municipal buildings, park, electric light, gas, water and sewerage systems, three banks. Industries include two flour mills, foundry and machine shop, cannery, two brick and the yards, sawmill, furniture factory, planing mill, motor boat and carriage works; is centre of good farming district.

3. This I do not know; perhaps readers belonging to these countries may be good enough to tell us. Should think that in Ontario the population had become so great as to absorb such settlements in the general mass.

4. This is a pretty steep question to propound to one who was never there, but I am glad to quote the best authority: "The island is subject to heavy gales from the southeast, but it is equally subject to the influence of the warm drift from the Atlantic, so that its winters are mild and summers cool. The temperature of the coldest month (January) is 41.5 degrees; of the warmest (August), only 58.5. The average temperatures are: In spring, 46; summer, 57.2; autumn, 50.9, and winter, 42. . . . An estimation of the mildness of the climate is in the fuschias, hydrangeas and other flowering plants that grow luxuriously in the open air. As to rainfall, statistics place the climate as rather more wet than dry, but this varies greatly in the different parts. Of sunshine the Isle of Man has a larger shore than any portion of the United Kingdom, except the south and southeast coasts of the channel islands." On the whole, therefore, Nona, I gather that you would not find the winters cold, with snow, there, but rather a mild dampness prevailing. The island is a favorite summer resort for holiday makers.

Recipe for Lulu B.

LULU B.—As you would notice, all your queries were answered in Tuesday's paper, the day you wrote the second letter.

A recipe for making cherry cheese is: Add enough water to keep the fruit from burning, place over the fire (without sugar), and boil until very soft; mash, strain, and add half pound sugar to each pound of pulp. Boil down until very thick, stirring continually; turn into a large square dish or small flat molds; it should turn out firmly, and may be cut in slices to serve with bread and butter.

To Remove Stains.

Dear Miss Grey.—Would you or some of your readers be kind enough to tell me how to remove stains from white nubuck shoes? Also how to polish after they are removed. Thanking you in advance, I remain,

JUST SIXTEEN.

Ans.—Do not the shoe stores sell a polish for buckskin shoes? I am sure they do. Usually the worst of the spots can be removed by rubbing with stale bread crumbs; to rub well with magnesia often takes grease spots out.

If readers have any hints to give, should be most grateful to receive the same.

An Italian Paper.

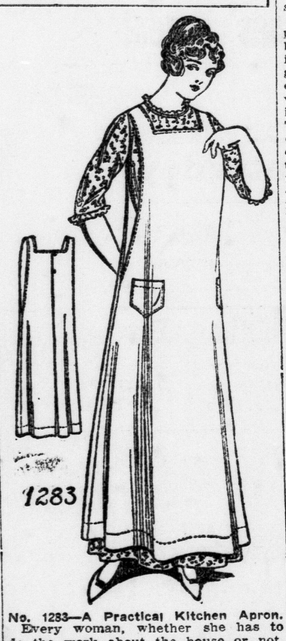

Dear Miss Grey.—Will you please answer this question: Where can we get an Italian paper? Yours truly,

CANADIAN.

Ans.—Your question is a bit indefinite. If you wish to obtain simply one copy of an Italian newspaper, I think I could secure one for you, and would mail it upon receipt of your address. Or is there some particular publication you wish to subscribe for?

The difficulty experienced sometimes in adjusting stretchers can be overcome by using a dry, soiled curtain first to get the right measurements. Then when the washed curtains are to be put on the stretchers are ready.

JUST THE THING FOR TAILORED GIRL

The hat is built up on the left side and is worn low on the forehead on the right. It is of grey green braid with brim lined with black velvet. A wreath of mignonettes and a black ostrich pompom at the side.

Just now the designers of hat trimmings are taxing their artistic tastes in making novel "stick-ups" out of ostrich feathers as all plumage of wild birds is interdicted by law.

MISS ARNOLDI GUEST OF HONOR TODAY —ADDRESSES WOMEN

Toronto Lady Returned From England Speaks In Cronyn Hall—"Linen Shower" Returns.

Lieut. Joan Arnoldi of Toronto, who comes here today to address the members of the Imperial Order, Daughters of the Empire, and any London women interested in patriotic work, has been in England almost since the beginning of the war. She has, in her official capacity there, handled thousands of articles for "soldiers' comforts," and had many vivid experiences both in England and at the front. Miss Arnoldi became so worn with her many and faithful efforts that she was granted a six weeks' leave of absence. She speaks to women today in Cronyn Hall at 4 o'clock, describing conditions as she has seen them, and will also tell of the coming needs of "Tommy" for the autumn months.

During her stay in London Miss Arnoldi will be the guest of Mrs. Ernest Smith, regent of the Lord Roberts Chapter, at "Tuellyn." She will be entertained to luncheon today at the Hunt Club by members of the order.

The "linen shower" being conducted by the I. O. D. E. is proving a gratifying success in every way. Yesterday members of the 7th Regiment Chapter were in charge, and the following donations received: Anonymous, old linen; anonymous, old linen; anonymous, old linen; anonymous, old linen; Mrs. Buttrey, old linen; Miss Beattie, 1 pair sheets, 6 bath towels; Mrs. G. WHAT TO DO WITH OLD SILK.

An old silk evening frock or pale silk petticoat that is partly worn will sometimes furnish a wealth of material for a pretty camisole. An old white silk blouse will often make a silk undervest, and leftover pieces of silk or dainty cotton material are frequently large enough for the fashioning of a boudoir cap. Dressing jackets can also be made from the old evening frock.

Three charming bits of lingerie were seen a short while ago, the boudoir cap, dressing jacket and a tucked-in petticoat. The charming cap of cream lace was simply made and trimmed with that latest note in boudoir caps —black velvet ribbon. Equally charming was the short dressing jacket of palest blue china silk, with its rippling cutaway effect. A black velvet ribbon emphasizes a high waist line and also relates the cap to the jacket.

Another corresponding note was the cream lace upon the sleeves. The lace upon the cap and jacket need not match in design or even in kind if "scraps" are being used, but the lace upon both articles should be of the same color. This matching can be obtained by dipping the too pale lace in tea or coffee. As cream and not ecru will probably be desired for these pieces of lingerie, the tea or coffee must be very weak. The black velvet ribbon belt is slipped through long buttonholed eyelets.

BUY MADE-IN-CANADA CORSETS.

NON RUSTABLE D & A CORSETS

Did you contribute to the $700,000.00 sent from Canada in 1913 to corset makers in the United States, and to the $245,000.00 paid in customs on them?

Keen Canadian Shoppers have for years bought the "D & A" and the "La Diva" Corsets in preference to the Imported, because they are better value.

Justify our statement by comparing "D & A" and "La Diva" against foreign makes. It's only a few old style or prejudiced firms who do not sell these Made-in-Canada Corsets.

THIS CANADA OF OURS.

[James David Edgar.]

Sir James Edgar, speaker of the House of Commons, was born at Hatley, Quebec, August 10, 1841. He wrote "Canada and Its Capital" (prose), 1898, and a volume of poems, 1893. Died at Toronto, July 31, 1899.

Let other tongues in older lands
Loud vaunt their claim to glory,
And chant in triumph of the past,
Content to live in story.
Tho' boasting no baronial halls,
Nor ivy-crested towers,
What past can match thy glorious youth
Fair Canada of ours?
Fair Canada,
Dear Canada,
This Canada of ours.

We love those far-off ocean Isles,
Where Britain's monarch reigns,
We'll ne'er forget the good old blood
That courses through our veins;
Proud Scotia's fame, old Erin's name,
And haughty Albion's powers,
Reflect their matchless lustre on
This Canada of ours.
Fair Canada,
Dear Canada,
This Canada of ours!

May our Dominion flourish then,
A goodly land and free,
Where Celt and Saxon, hand in hand,
Hold sway from sea to sea;
Strong arms shall guard our cherished homes
When darkest danger lowers,
And with our life-blood we'll defend
This Canada of ours.
Fair Canada,
Dear Canada,
This Canada of ours!

Hints For the Kodak Fiend

The following amusing "hints to the amateur photographer" by Eleanor Church appear in the present issue of the Havergal College Magazine:

1. It is always best to hold the camera very low when taking a photograph, so that the head of the person posing will be cut off. However, this is a matter of taste, because some prefer tilting it very high, so that the feet are amputated.

2. The camera may also be turned toward the sun, so that there will be a white streak across the middle of the picture. One may interpret this as a German flag of truce or an aeroplane skimming through a forest.

3. If the day is dark, do not take a time exposure, because the picture will look as though taken from an armored motor car travelling at a rate of 50 miles an hour over a plowed field.

4. On a very bright day a picture which is very expressive may be taken. Make a time exposure and the result will be a battlefield (or anything else for that matter) at night.

5. If one wishes to make a picture which looks as though a bomb had struck it, take at least three pictures on one film. A somewhat Futurist effect is produced.

6. When taking a photograph of a gentleman, preferably in uniform, be sure to move at the instant of the exposure so that he will be mistaken for a German officer shivering at the artillery fire of the Canadians.

THE JUNE BRIDE'S BOUQUET.

The young man who marries undertakes to "strew his bride's way with flowers" and literally begins this arduous duty before the ring is safely on her finger. An item of the wedding expenses falls to the lot of the bridegroom —the item of flowers for bride and bridesmaids. He may also, if he is a thoughtful young man, send a big bunch of violets to the bride's mother and some roses to any other immediate female relative who will be at the wedding, though not in the bridal procession; but to the bride and her maids he must send the flowers they carry. This and the wedding fee to the officiating clergyman is the only expense in the wedding pageant that falls to his share. But immediately after the ceremony his turn occurs, beginning with the carriage in which he and his bride are whirled away.

A modern wedding bouquet costs the bridegroom at the very least the sum of $5. If the flowers are orchids it will cost more. There is a deal of skill in the making of a bride's bouquet. It may not be tossed carelessly together, neither may it be a stiff, rigid bunch of flowers. It must express utmost grace and must give the idea of loosely arranged blossoms together with a certain formality and elegance that will accord with the wedding gown. Most brides prefer lily-of-the-valley, the bride's own flower. This is mingled with maidenhair fern and shower loops of white ribbon tied with small sprays of the valley lily trail from the large bouquet. Sometimes white roses are combined with lily-of-the-valley. Few brides care for entire bouquets of white roses—their suggestion is too funereal. White azaleas, white gardenias, even white dogwood mingled with fern and lily-of-the-valley are most beautiful. The bridesmaids may carry conventional bouquets or airy tulle or they may have dainty little baskets of white wicker filled with sweet peas or hyacinths and with streamers of ribbon trailing from the handle.

TECUMSEHS BEAT GUELPH WHILE SOLDIERS LOOK ON

Pitcher Carney's Wildness and Errors By His Team-mates Help Locals to Pile Up Winning Margin In Scrappy Contest—Dillinger Was Never In Danger.

[BY BERT PERRY.]

THE Lee Leafs or the tea-leaves, or whatever they call that Guelph aggregation piloted by G. Naughty Lee were completely surrounded yesterday afternoon, over in Tecumseh Park, by a lot of gents in uniform. There were khaki uniforms and white uniforms with big black letters on them which translated into plain English spelled out LONDON. The white uniformed boys caused quite a bit of trouble for the Lee Leafs. They wrested a ball game from them and otherwise suppressed all their attempts to take part in the general festivities. It was quite an occasion, and the only place where G. Naughty and his hirelings figured was on the small end of a 5 to 2 score.

A Spectacular Gathering.

It was Military Day over in West London pastime parlor and the boys of the 33rd and 34th Battalions, 7th C. M. R., and other units of the Canadian overseas forces located here, were present to witness the downfall of Mr. Lee. Quite an impressive parade to the park was indulged in by the soldiers and when the game was started it was a spectacular and splendid gathering. The battalions occupied the side lines and filled the bleachers and the grandstand. The officers sat in the boxes and everybody joined in the rooting. Spurred on by all this military display, the London Tecumps, under command of Colonel "Doc." Reisling and supported by the left wing of Lee attack and gave a real good exhibition of scrappy ball playing.

Carney Was Wild.

Carney was on the mound for the visitors and the Tecumsehs did not make a plie of hits off him. He was a trifle wild and his support wobbled in places. London got a two run lead on the Leafs in the first paragraph and that advantage was never lessened. It was not until the sixth inning that Guelph could get a runner across and then it was partly due to a miscue by Eddie Lamy who mussed up a single that Charley Isaacs shot out to him.

Carney's wildness was felt by the London players. Cy. Reidy, Frank Eckstein and Handson Lusk made up the casualties. Lusk was hit on the head in the eighth and he took the count. He was unable to go on and Harry Myers was injected into the last chapter of the pastime in his place. Reidy and Eckstein were not severely dented.

Charities Helped Some.

Three bases on balls, two of which came in the fourth inning, also provided the London club with scoring opportunities. Both runners who were recipients of these gifts, later in the inning crossed the pan. In no one inning were the Reisling gents able to compile more than one bingle.

Dillinger Worked Well.

Dillinger was troubled with a bad arm in his elbow, but he pitched good ball and the early lead that London gave him looked to be all that was necessary. He only allowed three hits up to the eighth inning. Two of these came in the third, but he tightened up and retired this side without a run.

London's first two runs were largely due to an error by big Red Fisher. "Red" is playing baseball over on first base for the Guelph team now. In the first inning, with Lamy on third and Cy Reidy on second, Jack Schaffer drove a fast one down toward first base. Fisher tried to wrap his legs around the pill, but it wiggled through and out into right field, the two runners scoring.

Wildness Helps Again.

In the fourth inning some fast work by Frank Eckstein and the general wildness of Mr. Lee's team gave us a couple more counters. Eckstein was passed as a starter and Schaffer sacrificed him to second base. Eckstein kept right on for third when Fisher waited to touch Schaffer out, and Isaacs muffed "Red's" throw, Eckstein being safe. Whitcraft squeezed the run over on a nice bunt that he nearly beat out. Lusk was also passed, and when he stole second, Harkins' throw went to centre field, Lusk taking third. Merritt poled a single to right and Lusk counted.

Another Gift.

The only other run scored by London came in the seventh inning. More wildness on the part of Pitcher Carney was responsible for it. Lacroix was given a pass after Merritt had been suppressed on a grounder to Isaacs. Dillinger sacrificed and Lacroix took third a minute later when Carney uncorked a wild pitch. Lamy's infield hit, which bounced off Carney's glove, enabled Lacroix to register. Jack Schaffer got hold of one in the eighth and poled it to deep left for two sacks, but was left on the bases. Schaffer's hit was the longest of the afternoon and the only extra-base drive.

Guelph scored in the sixth on singles by O'Brien and Isaacs and Brown's sacrifice fly. Lamy fumbled Isaac's hit, letting it get past him, O'Brien going from first to third. Another sacrifice fly accounted for Guelph's second run. Merritt dropped Grieves' pop-fly and Harkins followed with a single to centre, Grieves going to third by some fast footwork. Carney's fly to Reidy gave him a chance to score, Cy's throw to the plate being a little wide.

Whitcraft Back.

The game was marked by some brilliant fielding, Eckstein, Lamy and Schaffer making nice catches. Whitcraft was back after nearly a week's absence and he played a fine game at short. Lusk looked better on third base and played well. He is clouting the ball hard and looks like a fixture.

Blow On Head Will Lay Up Lusk For A Couple of Days

Harry Myers Will Play Third Base for London This Afternoon.

The "Jinx" is stil pursuing the London club. Thirdbaseman Lusk, the latest addition to the team, will now be out of the game for a few days as a result of being hit in the head yesterday by a pitched ball. Lusk was batting in the eighth inning when one of Carney's slants struck him full on the side of the head. He was unable to continue in the game, and last night was pretty sick as a result of the blow. He is suffering from a violent headache and dizziness. Harry Myers, who was to have been released last night, will be carried for a few days longer until Lusk is again able to play.

Manager Reisling announced last night that Lusk will be out for a day or two at least, but not any longer. The former Chattanooga boy is playing good ball, despite his poor start here last week, and he is proving a valuable addition to the team. He is a good hitter and fielder, and his loss will be felt.

Reisling or Graham will pitch today against Kirley or Dorbeck.

Only one game will be played here Saturday with Guelph. Two games were supposed to have been scheduled, but Lee refused to play more than one, claiming that the schedule he received from President Fitzgerald only called for one. This was found to be correct, the revised schedule only having one game billed.

BRANTS COULD NOT DELIVER WHEN THE BASES WERE FULL

Twice in the Closing Session of Pastime They Had Great opportunity But Hit Was Not Forthcoming.

BRANTFORD, June 24.—Again the luck broke away from the Brants, the Saints getting away with the first of the series by the skin of their teeth with a score of 3 to 2. The rallway men got to Warner for a couple in the third, and the Brants tied the score in the fifth. Forgue got home in the eighth for a winning run. Twice, in the eighth and ninth, the locals were retired with the bases full. "Buster" Burrill was unlucky enough to see "Dad" Stewart pull in his lengthy pole when inches would have meant a homer with three camped on the bases. A final rally came to nought when Foran, the heavy hitter, went out weakly on the last chance with the bases full. Score:

YALE AND HARVARD CREWS MEET TODAY

Weather Fine and Conditions Favorable For Annual Boat Race Between the Big Universities.

New London, Conn., June 25. — Weather, wind and water conditions combined to give Harvard and Yale a perfect regatta day here for their annual inter-varsity crew races. Not a cloud marred the blue of the sky and the Thames course, over which the two and four-mile races were to be rowed, showed scarcely a ripple throughout its entire length. Following in the wake of the heavy northwest blow of the past few days, it lifted a weight from the minds of oarsmen and coaches and gave promise of a day ideal for boat races.

Cheered by conditions favorable for both spectators and crews, thousands began to gather along the course before the sun mounted to the first quarter mark of its course. Spectators came into town from every point of the compass, and by every form of transit, and long before the starting time of the junior eight's races, the principal streets, railroad stations and waterfront were scenes of indescribable confusion, color and clamor. Alumni and under classmen from the rival universities guided parties to points of vantage on shore, observation train and yacht decks, from which to watch the struggles of the junior and senior oarsmen in the three races of the day.

The colors of rival colleges were evident on every hand. Ticket speculators stood ready to supply observation car seats at prices ranging from $10 to $20, and did a hustling business.

Wagers of even money prevailed on the varsity four-mile race with Harvard a slight favorite in the junior and Yale in the freshmen contests. The coaches reported a quiet and uneventful night at the two camps, and the regatta officials stated that every detail for the holding of races had been completed.

Regatta Course, New London, June 25. —The freshman eight race was postponed until this afternoon. The crews were at the starting line when a wind sprang up, and it was decided to postpone until later in the day.

The varsity eight race will start at 4:30 o'clock this afternoon. The freshman eight race will be rowed after the big varsity eight four-mile race this afternoon. The regatta committee announced that the wind and water conditions, which became unfavorable, was the cause of the postponement of the freshman eight.

The crews of the second varsity eight arrived at the starting line at 10:12 a.m. for the two-mile race. The freshman eight race of two miles was to be rowed half an hour after the contest of the second varsity eights.

Regatta Course, New London, Conn., June 25.—Yale won the second varsity eight race by a third of a length. The official time of the second varsity eight contest was: Yale, 10:40; Harvard, 10:43.

LONDON THISTLE RINK WINS PREMIER SCOTCH DOUBLES CUP

Chapman and Allen Defeat Ba ckus and Brown of Thistles In Finals for Monarch Tro phy—Other Events Will Be Comple ted Today.

The London Thistle Club captured the Monarch trophy, the premier cup event in the Scotch doubles tournament, yesterday afternoon, the rink of Chapman and Fred Allen defeating Grant Backus and Fred Brown, also of the Thistles, in the finals, by five shots.

The tournament was not completed last night, the semi-finals and finals of the Free Press trophy and Ed Shea trophy events having yet to be played. These games will be run off this morning, and it is expected that they will be completed by noon.

The Monarch trophy finals attracted quite a large number of spectators. Chapman and Allan got off to a big lead at the start, making eleven points on the first three ends. The other rink played a much better game from then on, though. The score by ends was as follows:

Allen ..... 452 001 002 041 000—19
Brown ..... 000 110 210 200 322—14

In the Free Press semi-finals two Exeter rinks White and Heaman, and Snell and Creech, are left to battle two London rinks, Cox and McDougall, of the Rowing Club, and Langford and Gray, of the Thistles.

Yesterday's scores were as follows:

EIGHT KILLED IN HEAD-ON COLLISION

Trains Crash Together On Bridge Over Ravine in Pennsylvania.

[Canadian Press.]

Gettysburg, Pa., June 25.—Eight persons were known to have been killed and from twelve to fourteen were injured in a head-on collision between the Blue Mountain special—a train made up of six coaches—and a local train on the western Maryland Railroad last night.

The trains, which were going at high speed, met on a bridge spanning a deep ravine between Highfield and Thurmont, and it is feared that some of the passengers were thrown from the bridge. The place where the wreck occurred is isolated, and darkness prevented rapid search. Telegraph wires were carried down, and it was difficult to obtain information.

A misunderstanding of orders is believed to have been the cause of the wreck.

Dernburg Reaches Bergen in Safety

[Canadian Press.]

Christiania, via London, June 25.—The steamer Bergensfjord, on which Dr. Bernhard Dernburg was a passenger on his way from the United States to Germany, arrived last night at Bergen, after being detained at Kirkwall, Scotland, by the British authorities.

WIRES BERLIN.

Berlin, June 25.—Dr. Bernhard Dernburg, returning from the United States on the Norwegian steamer Bergensfjord, has sent a wireless message to relatives here saying that he expects to reach Berlin Saturday evening.

It has been learned upon good authority that Dr. Dernburg will immediately be called into conference concerning the forthcoming German answer to the second American note on the Lusitania incident.

Dr. Dernburg, who had been engaged in presenting to the United States the German side of the European war, sailed from New York on the Bergensfjord on June 12. He was granted a safe conduct by the Allies. A London dispatch dated June 20, but delayed by the censor until yesterday, made the first announcement that the Bergensfjord had been detained at Kirkwall.

TURKS' PLANS FAIL IN NORTHERN AFRICA

Italy Enabled to Withdraw Part of Her Force in Libya.

ROME, June 24, via Paris, 12:30 p.m. —Reports received by officials of the Government indicate that Turkey, with the support of her allies, planned to give assistance to the Senusi tribesmen in their uprising against the Italians in Libya.

The purpose of this movement is said to have been to compel Italy to keep a large number of troops engaged in northern Africa. This purpose was not achieved, however, the Italian Government having withdrawn its military posts in the interior. In consequence Italy now requires a smaller force than heretofore in Libya.

READY TO MAKE SHELLS BUT GET NO ORDERS

J. H. Plummer Sees Hope for Extension of Export Trade.

MONTREAL, June 24.—J. H. Plummer, president of the Dominion Steel Corporation, at the annual meeting of its shareholders today said he was hopeful—extremely hopeful—that before long the preferred dividend will be resumed. He said prospects of Canadian trade for the corporation's business was bad, but it was hoped that the export trade secured would be retained.

Mr. Plummer said many shops were equipped in Canada to manufacture shells, but had not yet received orders.

The shareholders re-elected the old board of directors.

MINERS LEARNING TO MAKE LACE CURTAINS

Maimed Soldiers Being Re-educated in France — Work Is Successful.

[Canadian Press.]

Bourges, France, June 25.—The school opened here for the re-education of maimed soldiers is operating with great success. The number of pupils enrolled already is 150, nearly all of whom will be unable to work at the trades by which they earned their living before the war, and must learn some new means of making a living.

A staff of eminent physicians is faithfully attending the unfortunates, preparing them for their changed future and helping lighten their tasks. Among the instructors are former teachers who are themselves cripples.

"In spite of their afflictions the students go about their work gaily. Men who before the war were grocers, plasterers, barbers and miners now are designing patterns for lace, while farm hands and butcher boys are taking courses in electricity and architecture. The course in stenography and accounting is the most popular, the pupils, including a former head waiter, a carpet layer and a gardener.

Mrs. Phillip Snowden a Delegate at San Francisco.

NEW YORK, June 24.—Mrs. Phillip Snowden, a non-militant suffragette, who is the wife of the senior member of Parliament for Blackburn, Lancashire, arrived here today on the SS. Adriatic from Liverpool.

Mrs. Snowden said she is going to San Francisco as a delegate to the international women's peace conference, which convenes July 4. She said that she will represent four organizations of England, the Independent Labor Party, the Women's Co-Operative Guild, the Union of Democratic Control, and the British Committee of the International Woman's Congress. These organizations, she added, have an aggregate membership of about 80,000.

NOTE TO GERMANY REGARDING THE FRYE

Washington Reiterates Stand—Wants No Prize Court Proceedings.

WASHINGTON, D. C., June 24.—The reply of the United States to the last German rate regarding the case of the American ship William P. Frye, sunk by the commerce raider Prinz Eitel Friedrich, was dispatched to Berlin today.

In substance the note reiterates the contention that the sinking of the Frye was in violation of international law and of the Prussian-American treaty of 1828, and asks for reparation without reference to prize court proceedings. Germany has agreed to make reparation under the treaty of 1828, but justifies the destruction of the Frye, and has referred the case to a prize court.

HURL 36 TONS OF EXPLOSIVE TWENTY MILES INTO DUNKIRK

Germans Bombard the French Town Fifteen Hours, Killing Some Civilians and Doi ng Material Damage—Military Points of Im portance Untouched.

[Canadian Press.]

DUNKIRK, France, June 23.—(Via Paris, June 24.—2:20 p.m.).—Thirty-six tons of explosives and metal were fired into Dunkirk yesterday from the German positions somewhere behind Dixmude. Several civilians were killed or wounded and considerable material damage was done, but not a single shell reached the port or any other point of military importance.

The impression on the inhabitants differed in no way from that made by preceding bombardments and the first trains out of the city today carried no more than the usual number of travelers.

The first shell struck in the city at the break of dawn and others followed at intervals of 25 minutes until a quarter past six in the evening. They came without warning, for, though Dunkirk constantly hears the guns of the Allies along the Belgian front no sound comes from the monster weapon that hurls these 16-inch sells from a spot more than twenty miles distant. The shriek of the shell gives no warning of the missile's coming, as the noise is heard only in the last two hundred yards of flight and almost simultaneously comes an explosion that makes the earth tremble.

People Hasten to Cellars.

Scarcely had the smoke of the first shell lifted when red-colored notices reading "refuge in case of alarm" began to appear on the fronts of buildings having cellars safe from the shell fire. Many people hastily clad, hurried to these shelters. Still more ran in the direction of the explosion, hoping to aid the victims.

Whenever one of these monster missiles falls, however, the work of rescuers is reduced to a minimum as the destruction the shell works in the immediate vicinity is nearly complete. The streets were strewn in many places with broken plate glass, crushed paving stones and other debris before the work of clearing away began.

Lasted Fifteen Hours.

In the intervals of this fifteen hour bombardment melancholy calm prevailed in the city. There was little excitement at any time and no panic whatever. When the fire was over the streets resumed their ordinary wartime aspect and among the throngs who went about their affairs in neither haste nor confusion, street arabs swarmed around stricken spots hunting fragments of shell to sell to passersby. The electric current was cut off in the city, but gas could be burned as usual.

Persons who had sought the cellar refuges came out before morning to the sound of violent cannonading from the Allies' front that had continued all night.

RUSSIANS ABLE TO HOLD THE GERMANS FROM WESTERN LINE

Petrograd Correspondent Says Their Fighting Power Is Unimpaired—Heavy Forces of the Enemy Are Concentrated On Dniester Front.

[Canadian Press]

LONDON, June 25.—3 a.m.—A dispatch to the Times from Petrograd says that owing to the unimpaired fighting power of the Russian army, the Austro-Germans will be unable to transfer troops either to the Warsaw or the western battle fronts.

"As yet," the correspondent adds, "the retirement from Lemberg has not affected the Dniester front, where modifications are likely to occur only if the Germans succeed in advancing eastward, thus threatening the Russian rear and flank. It is affirmed that the enemy has concentrated on the Russian front all the Austrian cavalry, some eleven divisions, and almost all the German cavalry, namely, four divisions, but that their activity is not very marked."

A dispatch to Reuter's Telegram Company from Petrograd says:

"Although the buildings in Lemberg were left intact, the engineers effectively destroyed the roads behind the retiring Russians. The rear guard corps were brilliantly handled and gained invaluable time by delaying the Austro-Germans four miles northwest of Lemberg and also to the west and southwest of the city. The new Russian front which was referred to in Wednesday's official communication as the point on which the Russians were retiring, in on Galician territory.

"The Retch says it thinks the Russian army accomplished everything that was possible with its available resources."

RUSSIANS HOLDING BANK OF DNIESTER

Fight Stubbornly Against Enemies' Attempts at Capture.

BERLIN (via London), June 24.—A further victory for the Austro-German forces in Galicia was announced today at army headquarters. The army of General Von Linsingen, which has been meeting with stubborn opposition from the Russians along the Dniester River front, has succeeded in crossing the river. The statement says:

"Northeast of Kurszany the Russians left more than 100 prisoners in our hands after an attack which we repulsed. On the Omulew River (Russian Poland) the German advance resulted in the capture of the village of Kopaczyska. South of the Vistula in Poland several enemy attacks were frustrated.

"Southeastern theatre of war:

"The army under general Von Linsingen crossed the Dniester between Malicz, which is still being held by our enemies and Zurawno. This army engaged in a fierce battle on the northern bank.

"In the neighborhood of Lemberg and Zolkiew the pursuit continues. Between Rawa Ruska and the San as far as Ulanow, nothing of importance has occurred. In the angle between the San and the Vistula the Russians have retreated behind a branch of the San; also on the left bank of the Vistula, south of liza, they are retreating towards the north."

VIENNA'S REPORT.

VIENNA (via London), June 24.—11:20 p.m.—The following official communication was issued by the war office today:

"The general situation in Eastern Galicia is unchanged. To the east and northeast of Lemberg, battles with strong Russian rear guards are still proceeding.

"On the Upper Dniester, Mikolaiow and Zydaczow have been captured. Down the river from Zydaczow the allied troops are advancing from several quarters.

"On the northern bank of the Dniester, between the Vistula and the San, the enemy continues to retreat. North of the Vistula the Russian rear guards were driven beyond the Kamienka River. Our troops occupied Ostrowiec and Sandomierz."

TROUBLE OVER THE REGENCY IN TURKEY

Princes Select Sultan's Eldest Son, But Committee Objects.

[Canadian Press.]

Paris, June 25.—Information has been received from Constantinople, says a Havas dispatch from Athens, to the effect that after it became apparent last week that the illness of the Sultan was of a serious nature, the royal princes met and decided that Yussof Izzedin, eldest son of the late Sultan Abdul Hamid, should assume the regency. This proposal was vigorously opposed by the committee on union and progress, resulting in a deadlock, the solution of which has not yet been found.

An operation for the removal of a stone in the bladder has been performed upon the sultan by Professor Israel, the German specialist, who has been at the Sultan's bedside for several days, according to a Constantinople dispatch received at London last night by the Reuter Telegram Company.

PEOPLE OFTEN SAY

"How Are We To Know When the Kidneys Are Out of Order?"

Easiest Thing in the World!

The location of the kidneys, close to the small of the back, renders the detection of kidney trouble a simple matter. The note of warning comes from the back. The kidneys become overtaxed and fail to do their work at nature's call.

Backache is the signal sent out by the kidneys the minute they become overtaxed. Those who heed the warning when it first comes, usually have but little trouble.

The danger lies in delay. Doan's Kidney Pills stimulate the action of the kidneys, and enable them to perform their duty perfectly.

Mrs. Greig Murphy, Lower Ship Harbor Eeast, N. S., writes: "I have used Doan's Kidney Pills in my family with great success, and don't think there is a better pill for the kidneys. I was very miserable with my back, and could hardly get about. I got a box, and tried them, and found that they were really good, so I took in all about six boxes, and soon found my back cured, and my kidneys as well as ever."

Doan's Kidney Pills are 50c per box, 3 boxes for $1.25; for sale at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

BY POPULAR VOTE PERTH GOES DRY; MAJORITY IS 201

Canada Temperance Act Will Cut All Licenses Save Stratford's.

31 HOTEL BARS TO CLOSE

Milverton a Surprise; Verdict, Instead of Adverse, Is Favorable.

[Special to The Advertiser.]

STRATFORD, June 24.—Perth has spoken and by quite a substantial majority declared itself in favor of no license.

The Canada Temperance Act, submitted today, carried by a majority, which official figures placed at 2?1.

As a result of today's vote some 31 hotels and a half dozen shops will be closed throughout the county within a year. The vote was heavy in all districts as was expected.

South Easthope, Logan and Ellice went almost solid against the measure and among them rolled up a vote only 201 less than the other municipalities.

The majority against the measure in Ellice was 366, in Logan 223, in South Easthope 135

Fullerton, Downie and Blanchard, all of whom had been under no license, gave big majorities for the measure, while Elma, another local option township, also gave a fair, favorable majority.

Milverton, however, was a surprise. In place of a large marjority for the wets, as was expected, the temperance forces won by 29. Much credit for this is given Dr. J. L. Gordon, the Winnipeg orator, who recently conducted a campaign there. Stratford being a city, is not affected by today's vote but there is talk of bringing on a local option campaign in the city.

BOTH SIDES ORGANIZED.

[Special to The Advertiser.]

LISTOWEL, June 24. — With both sides organized to the highest point of efficiency and weather conditions ideal, the vote on the Canada Temperance Act was one of the largest ever polled in the county. Interest was at a high pitch. Motors and buggies scurried over the entire county and workers on both sides made use of every available minute. The temperance appeared confident and early in the day figured on a majority of from five hundred to fifteen hundred.

NO JUST GROUND FOR COMPLAINTS

Britain Informs United States in Note Relating To Cargoes.

SPECIAL CONCESSIONS

All British Officials Have Acted With the Utmost Dispatch.

[Canadian Press.]

WASHINGTON, June 24. — Great Britain, in a memorandum transmitted to the United States and made public here and in London tonight, recites at length its efforts to minimize inconvenience to neutral commerce resulting from the order-in-council against trade with Germany, Austria and Turkey, and asserts that American citizens have no just grounds for complaint on account of the treatment accorded to their cargoes.

No attempt is made to answer the principles asserted in the American note of March 1, protesting against the order-in-council and insisting upon the right of neutrals to carry on legitimate commerce with each other and to trade in non-contraband with civilians in belligerent countries.

In transmitting the memorandum, Ambassador Page said it was "merely an explanation of concrete cases and the regulations under which they are dealt with."

Another Note to Britain.

Another note to Great Britain is now in course of preparation at the State Department, and is expected to be dispatched as soon as the negotiations with Germany over submarine warfare have been cleared up. While this communication probably will make reference to the latest memorandum, it is understood that the manner of enforcing the order-in-council will not be treated as relevant to the question at issue—whether there is any warrant in international law for the powers that Great Britain and her allies have assumed to exercise over the commerce of the world.

In its memorandum, the foreign office emphasizes "the various special concessions made in favor of United States citizens" in setting forth that all British officials have "acted in every case with the utmost dispatch consistent with the object in view and of showing in every case such consideration for neutrals as might be compatible with the object, namely, to prevent vessels from carrying goods for, or coming from, the enemy's territory."

Consideration for Special Cases.

Arrangements for buying American cotton detained and for permitting the passage of goods bought in Germany by Americans before the date of the order-in-council are outlined, and the promise made that consideration will be given to special cases of this kind in the future.

According to a summary of ships detained, there are now 27 vessels which cleared from the United States, now held in ports in the United Kingdom. Of these, eight are said to be unloading cotton which Great Britain has agreed to purchase; seven will be allowed to depart, as items of their cargo placed in a prize court have been discharged, and the other twelve—three of them American ships—are the subject of investigations not yet completed.

Regarding the complaint that undue delay has occurred in the prize court, the memorandum points out that delay is frequently caused by the request for adjournment of cases by counsel for the claimants, and quotes from the records of the prize court one specific instance where the claimants, after pressing for an early hearing, and an early date having been fixed, came into court and asked for a six weeks' adjournment.

Shippers Ask Delay.

Other delays have been occasioned by efforts at amicable settlements out of court. When these failed, the American shippers then asked for adjournment in the prize court, despite the fact that the Crown was ready to proceed.

The memorandum concludes:

"His Majesty's Government are earnestly desirous of removing all causes of avoidable delay in dealing with American cargoes and vessels which may be detained, and any specific inquiries or representations which may be made by the United States Government in regard to particular cases will always receive the most careful consideration, and all information which can be afforded without prejudice to prize court proceedings will be readily communicated; but they can scarcely admit that on the basis of actual facts any substantial grievance on the part of American citizens is justified or can be sustained, and they, therefore, confidently appeal to the opinion of the United States Government as enlightened by this memorandum."

He had recovered far enough to be allowed out, but had to use crutches, and in walking through some grass he tripped and fell and broke the bone in his foot a second time and is now back in the hospital. KELLY MUST SHOW HIMSELF IN COURT

Royal Commission Has Power To Compel His Attendance.

CONTRACTOR MAY FIGHT

Dr. Montague Likely To Be Examined Further Today.

[Canadian Press.]

WINNIPEG, Man., June 24. — With its authority to compel the attendance of witnesses and the production of documents affirmed and ratified by an order-in-council, issued yesterday, the royal commission on the Parliament Buildings charges will at once have subpoenaes served upon Thomas Kelly and other members of the firm of Kelly & Sons, contractors.

This was made clear at the session this afternoon, C. P. Wilson, senior counsel for the Liberals, recalled the fact that early in May F. H. Phippen, K. C., on behalf of Kelly, questioned the right of the commission to compel the attendance of members. When Kelly withdrew from the commission, and refused to produce documents, the matter was temporarily allowed to rest. Since the powers of the commission have now been more thoroughly established, Mr. Wilson announced that he intended to at once request that subpoenaes be served on Kelly and some of his associates, Mr. Kelly has, on the advice of his lawyers, declared that he will resist the authority of the commission.

The examination of Hon. George R. Coldwell and Hon. J. H. Howden was concluded today, and it is expected that Hon. Dr. Montague will be examined further tomorrow. Through counsel for the late Government, Mr. Montague expressed his readiness to take the stand, but his physical condition is such that if he desires it he will be permitted to give his evidence in the privacy of his hotel apartment in half-day sessions.

Howden's Complete Denial.

Hon. J. H. Howden's evidence consisted in the main of a complete denial of all knowledge of wrongdoing, in connection with the Parliament Buildings. He testified that he did not help to raise the money to keep Salt away, and that he did not hear anything from Horwood about the alleged robbery of M. G. Hook, in Omaha. Mr. Howden told of carrying $1,500 from Dr. R. M. Simpson to a solicitor, who was not named, for the defence of V. W. Horwood. Mr. Howden said that Dr. Simpson had handed him the money at the Adanac Club, and the solicitor called at his office for it. Dr. Simpson, he said, was a personal friend of both Horwood and the solicitor.

Mr. Coldwell denied that he had any knowledge of any central campaign fund. In his campaign in Brandon, he said, he had no assistance from any such fund, if one existed.

It is expected that Sir Rodmond Roblin will take the stand after Dr. Montague has been heard.

FORMER OFFICIALS BEGGED FOR BREAD

German Paints Picture of Lemberg Under Rule of Russians.

SAYS PRICES VERY HIGH

Schools Remained Open and Pupils Were Taught the Russian Language.

[Canadian Press.]

Berlin, June 25—Via London.—The Berlin Tageblatt has received a dispatch from its correspondent at Lemberg, descriptive of the situation in that city, which reads as follows:

"Reviewing the nine months' rule of the Russians in Lemberg, it is found that among the chief sufferers in the Galician capital were certain former government officials, whose salaries could no longer be paid. Prominent families were reduced to begging in the streets and compelled to satisfy their hunger in the kitchens of other people. Well-known men of Lemberg chopped and sold wood, while their wives baked and peddled bread and cakes around the city.

Food Dear.

"The prices of food reached exorbitant figures. Butter cost six crowns ($1.20) per kilogram (2.20 pounds), or equivalent to 55c a pound. The city of Lemberg issued emergency two-crown notes, which, however, had a barter value of only one crown.

"Regular Russian policemen and Cossacks patrolled the city. The schools were permitted to stay open only with the express consent of the military governor. At least five hours every week had to be devoted to the study of the Russian language. Only text books approved for use in Russian schools were permitted in Lemberg.

Some Favored Russians.

"The Russian calendar was introduced. Certain prominent residents favorable to Russia assisted the invaders, and one of these, M. Gluszkiewicz, a well-known Ruthenian leader, was later rewarded by being named mayor of Przemysl.

"All men of military age were taken into custody by the Russian authorities, as were also all pensioned Austrian and Hungarian officers. These included Gen. Ryck, a veteran of Sebastopol, over 80 years of age.

The Russian municipal officials began leaving the city the latter part of May, and all had disappeared before Lemberg fell. Emperor Nicholas paid one visit to the Galician capital while it was under Russian control. Ruthenian books were destroyed by the Russian authorities, and the exchange of telegrams and letters in the Ruthenian language was prohibited.

HAND TORN BY SAW.

GODERICH, June 24.—Wm. Lumby, an employee of the Paget Grain Door afternoon while working on a double cut-off saw. The centre finger of his left hand was cut off at the second joint, and two other fingers were badly cut.

INGERSOLL POSTOFFICE SOON READY.

INGERSOLL, June 24. — The allotment of boxes for the new postoffice will take place on Saturday, Monday and Tuesday. There has been much speculation for some time as to when the new building would be occupied. The indications at present point to its occupancy at an early date.

NORTHCLIFFE IN PESSIMISTIC VEIN

Pleads That Nation Be "Told Truth About the War."

PROSPECTS VERY BLACK

Tries To Show Little Chance of Progress For Months.

[Canadian Press.]

London, June 25.—A demand that the nation be "told the truth about the war" is voiced by the Times in an editorial. The paper declares there is no immediate prospect of being able to compel the Germans to withdraw within their own frontiers; that it will take months to provide the British forces with the big guns, high explosives and machine guns which are necessary.

"The country has got to set its teeth," says the Times, "disregard confusing bulletins and face the probability of a prolonged and unprogressive campaign in the west, while Gen. Von Mackensen's successful march probably has postponed a resumption of the Russian offensive for several months, until they also are provided with guns and shells.

"To put it briefly, the Allies on both fronts are being held with no prospect of an early change. Moreover the outlook in the Dardanelles, of which the less said the better, long ago ceased to offer prospects of a swift and easy diversion in the middle east."

The London Times is one of Lord Northcliffe's papers, which has waged an energetic campaign for greater publicity in connection with the war. His attacks upon the British Government are credited with being largely responsible for the formation of the new coalition ministry, and the appointment of David Lloyd George as minister of munitions.

Here's the Book That Tells You How

LOOK IT OVER CAREFULLY—IF NOT SATISFIED, RETURN IT AND GET YOUR MONEY—$1.50—IT WILL SAVE YOU MANY TIMES ITS PRICE IN A SINGLE SEASON—THERE IS NO BOOK OF ITS KIND IN ALL THIS WORLD AT ANY PRICE SO COMPLETE.

To The London Advertiser Readers

Here is a thought for the man who is tired of the city's grind and the rattle and bang of things—the man who is nearing fifty and knows that his productive years as a "salary man" are coming to an end. To lose his position might mean going away off among strangers to hide the fight with poverty and old age. But why go "away off"? Take a ride on any of the suburban lines and see the hundreds and thousands of acres of idle land lying close in—held for speculation—not farmed—not used for anything—and all within a half hour's ride of your lifetime associates. What is the matter with a few cows that you can own? Ten acres which you can lease? What is the matter with a neat bungalow and garden; and, if necessary, a man to help you do the work? Ten cows are a living for a good-sized family and their own up-keep. Chickens thrive where cows thrive, and what with milk, butter, eggs, chickens and garden truck—all you can use and plenty to sell—the prospect of living just outside of the din is anything but disheartening. Our book tells you just what to do about these things.

DONALD G. FRENCH.

OVER 100 LIVES LOST WHEN PIER GIVES WAY

Disaster in European Russia Fatal To Many Holiday-Makers.

[Canadian Press.]

Petrograd, June 25, via London.—A dispatch received from Kazan, in European Russia, east of Moscow, says that upwards of 100 lives have been lost in the collapse of a river pier at one of the local pleasure gardens.

The last steamer returning to the city was scheduled to leave the island garden at midnight. A crowd of holiday-makers—men, women and children—were forcing their way in the darkness to the boat over the flimsy pier. The structure collapsed under their weight, and virtually everybody was thrown into the water. The members of the steamer crew did their best at rescue, but only a few persons were saved.

RUSSIA'S WHEAT YIELD PROMISES TO BE BIG

Total Crop May Be Less Than Last Year, With Fewer Acres.

[Canadian Press.]

Washington, June 25.—Russia's wheat yield this year probably will be 10 per cent greater than last, Henry D. Baker, American commercial attache at Petrograd, cables the department of commerce. The net yield is likely to be less, however, he said, because of the large reduction in acreage, due to labor shortage and war conditions.

HELP FOR POLES.

[Canadian Press.]

Chicago, Ill., June 25.—Three hundred thousand pounds of meat was shipped to the war sufferers in Poland today by the Polish Central Committee, an organization representing all Polish societies in America.

GARDENS BLACKENED BY UNTIMELY FROST

Walkerton and Harriston Districts Report Severe Damage.

[Special to The Advertiser.]

WALKERTON, June 26. — A heavy frost occurred here last night, and in many gardens all the tender vegetables were cut down. Potatoes were badly nipped.

The frost seemed to have gone in streaks. In some parts of the town where gardens were badly cut, gardens not 50 yards away would be entirely untouched.

In the country it is feared the fall wheat has been affected, as it is just heading out and in the milky state.

[Special to The Advertiser.]

HARRISTON, June 24.—Incalculable damage has been done by the severe frost in this locality last night. Gardens that were a pleasure to look upon yesterday are today a blackened, withered mass of leaves and stalks. Every vegetable of tender nature has been ruined. Potatoes, it is expected, will recover in time. Corn fields that were coming along in fine shape have also been badly cut.

Mr. Nicholls awoke to find the roof in flames, and aroused his two daughters, who were sleeping in the front part of the house, and they had barely time to escape.

FIVE THOUSAND ENJOYED PICNIC

Ideal Weather for Splendid Program of Sports and Games.

SCOTCH DANCES FEATURE

Patriotic Fund Will Get 50 Per Cent of the Proceeds.

[Special to The Advertiser.]

POPLAR HILL, June 24. — Ideal weather favored the patriotic union school picnic and Lobo Township Old Boys' Reunion, held in Campbell's Grove here this afternoon, and 5,000 people from all parts of the district had the time of their lives. There wasn't a dull moment in the proceedings from the time the grand parade started from the school house, right after dinner, until the last number of the grand concert closed late tonight. Fifty per cent of the proceeds will be given to the patriotic fund, and this will mean several hundred dollars.

Following a monster parade, headed by the Parkhill brass band and the school children, the annual flag-raising exercises took place, and then came a splendid program of races. There were events for young and old, and as every entry was well filled, competition was keen and the huge crowd kept at a high pitch of enthusiasm by the numerous exciting finishes. After the races, came baseball matches, a musical program by the Parkhill band, Scotch and Irish dances and fancy dancing by little girls, all of which was enjoyed to the limit. A ladies' driving contest was a feature of the afternoon and all the contestants showed themselves to be most skilful horsewomen. A most successful day came to a close by a grand concert in the hall. The building was packed to the doors and every number was greeted with rounds of applause.

The committee in charge of arrangements, John Campbell, chairman; A. D. Fletcher, treasurer, and A. E. McKay, secretary, were heartily congratulated upon the splendid success their efforts met with.

In the ladies' driving contest the following prizes were awarded: First, Miss Maggie Bond; second, Laida McCall; third, Myrtle Currie; fourth, Cecilia Campbell.

The prize for the oldest couple on the grounds was awarded to Mr. and Mrs. Theophilus McLean, aged 79 and 74 respectively.

The second game of baseball was played between Ivan and the Meadowlarks, the former team winning by the score of 4 to 3.

Captain of 2nd Battalion Finds Comfort in Thought.

[Special Cable to The Advertiser.]

London, June 25.—Capt. Lynn, 2nd Battalion, writing on June 18, says: "We have been relieved after seven days in the trenches. There are only five of the old company officers out of the twenty-two who landed in France. We have the satisfaction of knowing, however, we accounted for more Germans than they did of us."

Lieut. Geddes, Royal Scots Fusiliers, killed, spent five years in business in Winnipeg and British Columbia. He was the only surviving son of Alexander Geddes of Blairmore, Aberdeenshire.

CHEESE GOING UP; FLOUR GOING DOWN

Former Prices Advance After Reduction of Several Weeks Ago.

BIG BRITISH DEMAND

£78,080 Worth Imported During May—Wheat Affects Flour Prices.

In the Canadian Grocer of the current week appears an interesting article, in the weekly review, dealing with the upward tendency of cheese prices and the lower trend of those for flour. The article appears below:

Cheese prices are up half a cent again this week from last week. After the continuous advance for several months which cheese showed week by week, the lull in the storm which came a couple of weeks ago was thought to be permanent. The make of new cheese is now very large, as large as ever, in fact, but apparently the drop in prices last week of 2c to 3c was only a flash in the pan and we are still going to have high levels in cheese. Some further light is thrown on this by a corroboration of Canadian Grocer's opinion as to the export demand for cheese from Great Britain. Some statistics made public this morning show that during May of this year cheese to the value of £78,080 sterling was imported into Britain from Canada. During the corresponding month of last year the value of the cheese imported into Britain from Canada was only £23,709, the increase is therefore at the rate of something over 300 per cent. With such an abnormal demand from Great Britain for this product it is no wonder that, though the make is very large, we should not have enough cheese in the country to supply all domestic needs at easy, moderate and reasonable prices.

Further decline has been registered in the prices of flours, both Manitoba and Ontario winter wheat. The former has declined 20c more this week and the latter 40c—or thereabouts. These declines follow reductions last week of about 40c. Once more the reductions which are being made are solely due to the influence of the wheat market and its vagaries. The consistently good estimates of both the Canadian and American crops are proving a bearish factor and there is little inquiry or none from England for export just now. There is still no indication that flour prices have touched bottom, and we think that further declines will yet be registered. The market can stand these, however, in view of the fact of the remarkable way in which three months the flour market was soaring, rivalled only by the cheese market and the tea market. On the other hand mill feeds are firm and scarce. The fact that little flour is being ground means comparatively short supplies of feeds, and the colder weather has made a very dry pasture, so that there is a good demand on all hands for a short bran and middlings. Prices have not actually depreciated, but the market tone is distinctly strong on mill feeds.

BEGINNING SECOND "BATH-TUB" CASE

Trial of George J. Smith Continued At London, England.

[Canadian Press.]

London, June 25.—The trial of George Joseph Smith, indicted on the charge Joseph Smith, indicted on the charge of having murdered his three wives by drowning them in a bath tub, entered its second stage today, the evidence relating to the death of Beatrice Munday, one of the three victims, having been completed. The last witness in this connection was a Portsmouth banker, who testified that the prisoner had opened an account in the name of "Williams" from the sale of Beatrice Mundy's estate, according to testimony.

"We now begin the Alice Burnham story," remarked the trial judge, alluding to the second alleged victim

The first witness on this phase of the case was a Southsea insurance agent. The testimony ran on to show that it was in that place that Smith was introduced to Miss Burnham, who promptly took out $5,000 worth of life insurance, which he said was for the benefit of her mother.

"Next day," said the witness, "Smith married Miss Burnham."

DESPERADOES ASSAULT YOUNG WOMAN, THEN DISAPPEAR IN SWAMP

Posse on Track of Two Fiends North of Hartington.

[Canadian Press.]

Kingston, Ont., June 25.—County Constable Dowker of Harrowsmith heads a posse on the trail of two men who abused a young woman named Westbrook, two miles north of Hartington on Thursday. The victim of their attack was picking berries when the men grabbed her, blindfolded her and tied her with a rope. After abusing her, they released her and fled into a swamp nearby. The dog which was with the girl was also tied.

Constable Dowker and the others travelled after the desperadoes until dark. The chase was again resumed early this morning. A former farm hand in Hartington vicinity is suspected.

GRANDMOTHER AND BABIES DROWNED

Soldier's Children and Old Woman Fall Into Lachine Canal.

[Canadian Press.]

Montreal, June 25.—Mrs. George Wilkson of 89 Turgeon street and her two baby grandchildren, the children of a soldier now at the front, lost their lives in the Lachine Canal at the foot of Atwater avenue yesterday. It is believed by the police that Mrs. Wilkinson, who had taken the children out for an airing, left the carriage standing upon an incline and that it started to roll down toward the edge of the canal. It is supposed that in her effort to catch the carriage she overbalanced and fell in with it.

Live hogs have strengthened on the large markets, although few have been sold here lately. The price will be about $8 70 per cwt, dealers believe. Dressed hogs and other meats unchanged.

GRAIN.

Winnipeg, June 24.—Wheat prices, excepting the first 35 minutes of business, were fairly steady and slightly stronger than yesterday's close. Quite a sensational and unusual action took place in July prices on the local market in the first 35 minutes. During that time an advance of 9¾c occurred and a drop of 5c, leaving the price around $1.29, at which it was fairly steady for the greater part of the day.

A better tone was around. There was an inquiry for old Manitobas, but the irregular action in July values hindered business.

In the cash department there was a little inquiry for Nos. 1 and 2 grades of wheat, but nothing doing in No. 3 northern. In oats there was a limited inquiry, and there was nothing doing in barley or flax.

Total inspections on Wednesday were 86 cars, against 273 last year. In sight today were 130 cars. Cash quotations:

Wheat—No. 1 northern, $1.27¼; No. 2 northern, $1.24¼; No. 3 northern, $1.19¾.

Oats—No. 2 Canadian western, 53¼c; No. 3 Canadian western, 52c; extra No. 1 feed, 52c; No. 1 feed, 51c; No. 2 feed, 50c.

Flax—No. 1 N. W. C., $1.50; No. 2 Canadian western, $1.47.

Chicago, June 25.—Higher quotations from Liverpool gave some strength today to the wheat market here. Better harvest weather in the Southwest, however, acted as a considerable offset. Apart from the advance in cables, sentiment here was bearish. Opening prices, which varied from the same as last night to ¾c up, were followed by a moderate setback, then by a fresh rally.

WALL STREET.

New York, June 25—Wall Street, 10:30 a.m.—Renewal of liquidation in United States Rubber, which opened with a sale of 1,000 shares at 54 to 53, against yesterday's closing price of 54½, was the feature of today's early trading. This was followed by additional offerings which sent the stock down to 52⅝, after which it rallied a point. In other quarters the market was firm, with general recoveries from the weakness which marked the close of the preceding session. Canadian Pacific, Reading, war specialties and coppers made initial fractional gains, which soon were increasd to a point or more.

Noon.—Sales in the first hour barely approximated 100,000 shares, Rubber, Westinghouse and Steel supplying over 40 per cent of the whole. Stocks were offered on the rise, a large part of the early gains being lost. Later weakness in the southwestern group, including Missouri Pacific stock and convertible bonds, Rock Island and Missouri, Kansas and Texas issues, created renewed unsettlement. The usual rumors accompanied the fall in these stocks, coupled with adverse crop advices. Towards midday prices again improved under the lead of war shares, which rose 1 to 3 points. More "futures" sales at concessions was the feature of the bond market.

PARIS BOURSE.

Paris, June 25.—Prices were heavy on the bourse today. Three per cent rentes, 70 francs 75 centimes for cash; exchange on London, 26 francs 36 centimes.

LONDON STOCK EXCHANGE.

London, June 25.—Money conditions continue firm and bankers are discussing the question of raising deposit rates. The hardening of New York exchange is appreciated, but no weakening of discount rates is anticipated in view of yesterday's poor bank return.

Trading varied but little on the stock exchange. The old war loan was in active demand for the purpose of exchanging for the new issue, but the other stocks were weak and neglected. The American section was inactive, with the exception of a number of markings in Canadian Pacific and United States Steel. The close was easy.

ZAPATA'S FORCES PUTTING UP FIGHT

Delay Advance of Carranza Men on Mexico City.

Washington, June 25.—Zapata forces defending Mexico City have engaged the attacking Carranza army in a series of artillery duels and delayed its advance. No details were contained in the advices reaching here today, which were the first indications that the Carranza advance would be resisted.

BEAR CREEK POW WOW.

MELBOURNE, June 24.—The picnic which was given under the auspices of the Bear Creek School, Saturday, on the beautiful old Indian campmeeting grounds was the largest and most successful ever held in this district. Dinner was served from 12 to 1 p.m. to a large crowd. H. Janes of Delaware took the chair at 2 p.m. and several musical members were introduced.

The N. Timothy Company (Indian singers of Muncey, Ont.) entertained the crowds to some excellent selections and won well-merited applause for each number. Master C. Auld, the young "Harry Lauder," pleased everyone with his vocal renditions. The pupils of the Bear Creek School, Clifford Fisher and little Blanche Waddilove also delighted the crowds with musical selections. The Fife and Drum Band was one of the pleasures of the picnic and the Oneida Brass Band, which is always popular, rendered most excellent music during the afternoon. Rev. Mr. Stevens and Rev. Mr. McTavish gave interesting addresses.

The lacrosse match between Oneida picked teams was interesting and exciting, the score being 5—3, in favor of H. William's team. Baseball, races, swings, etc., were other pleasing features of the afternoon and the two large booths which were on the grounds were well patronized.

GALT LOSES ANOTHER TEACHER.

GALT, June 24.—J. S. Cameron, B. A., another member of the Galt Collegiate staff, today resigned his position to go to the Calgary Collegiate Institute. He was mathematical master at the local Collegiate and was considered a first-class teacher.

WINGHAM.

Wingham, June 25.—E. Nash, an employee of the Bell furniture factory here, met with a painful accident yesterday while working a buzz saw. The piece of wood he was working on slipped through his hand on the saw, which took off one finger.

Wingham and Wroxeter teams played a football match at Wroxeter. Wingham team was beaten 7 to 1.

At an early hour this morning there was no trace of the missing prisoner, Ed. Patey, who escaped from the custody of Provincial Constable Phippen.

Fishing here recently has been taken up in some of the spare moments of the anglers, one man pulling out a fine red fin sucker weighing 7 pounds 4 ounces.

EMPLOYEES LEAVING FRANKFORD ARSENAL

Private Firms Taking Skilled Men From Government Work by High Pay.

[Canadian Press.]

Philadelphia, Pa., June 25.—Scores of skilled workmen are leaving the employ of the Government arsenal at Frankford to accept positions with private concerns that are supplying orders for munitions of war for the European belligerents. For the first time in years the arsenal is suffering from a shortage of employees, and officials fear the situation may become serious. Twenty men in the machine shop and 25 in the fuse department resigned yesterday. A number of others gave up their positions last week, and it was said that nearly every department has been more or less affected. The defections have occurred not only among the workmen but among officials as well.

The men declare they have been given three-year contracts with the private firms at wages far in excess of those paid by the Government.

MISSIONARIES NO LONGER IN DANGER

[Canadian Press.]

Washington, June 25.—American missionaries and other foreigners in Urumiah, Persia, and vicinity, no longer are in danger, the Russian foreign office has advised Ambassador Marye at Petrograd.

RUMORS OF THREATS ON SARNIA FACTORY ARE GIVEN DENIAL

H. Mueller Company Received No Letters.

[Special to The Advertiser.]

SARNIA, June 24.—It was persistently rumored around the city that the management of the H. Mueller Manufacturing Company had yesterday received letters from unknown parties, in which threats were made to blow up the works, which at the present time are employed in the manufacturing of shells for the British Government.

Mr. Riggin, one of the officials, stated to The Advertiser today that they had heard the report, but that they had not received any letters. They were not taking any chances, however, and had just completed the building of a high fence around the plant, also the installation of electric lights, which would brighten all parts of the yard and buildings. Extra watchmen were also employed to patrol all parts of the yards.

HORSE AND WAGON ROLL INTO POND

Gladstone Man Jumps in Nick of Time to Save Himself.

[Special to The Advertiser.]

DORCHESTER, June 24. — While Richard Brunskil of Gladstone was returning from the village with a load of chop-stuff, and driving along the Mill road, opposite the pond, where a fence is lacking, his horse became unmanageable and unset the load. Mr. Brunskil leaped to one side just in time to see horse and wagon falling down the steep embankment into the pond, where the water is about eighteen feet deep. A rope was secured, and with the assistance of the mill hands they managed to lasso the animal just as he was drowning.

WOODSTOCK COMPANY GETS BIG MILITARY ORDER

Original Order for Shell Parts To Be Trebled in Size.

WOODSTOCK, June 24. — The George H. King Co., of this city, has received an order from the Militia Department for 25,000 wooden boxes to be used for shipping shells to Europe, the order amounting to about $24,000.

It is also stated that this company has been assured that its original order for shell parts is to be trebled in size.

DORCHESTER MAY GET GAS.

DORCHESTER, June 24.—A deputation of Dorchester citizens motored this week to Rodney, to investigate the use of natural gas, with the view of having it brought to the village. The company offers to pipe the gas through the main street, defraying all expenses, and to leave it optional with the residents whether they have it installed or not. An election will be called at an early date to pass upon the company's offer.

DR. T. V. HUTCHINSON SLOWLY RECOVERING

Former M. O. H.'s Condition Showing Improvement—In Hamilton Hospital.

Dr. T. V. Hutchinson, former medical officer of health of this city, who has been lying seriously ill in the general hospital at Hamilton with appendicitis for some days, is reported to be improving slowly.

Over the long-distance telephone the hospital authorities stated to The Advertiser that he was still too weak to be operated on, but that his condition was not considered dangerous.

Dr. Hutchinson was taken ill while aboard his yacht, when at anchor in Burlington Bay, during a cruise through Lake Erie and Lake Ontario.

Voice of the People

THE CITY TAXES.

Dear Sir—The question of taxation is being very much discussed by the people who are now receiving their tax notices. There are many of us who cannot understand why our taxes should be so high. Our assessment was raised about five million dollars last year, and now we find the rate has been raised as well. In looking over the items, as given on the notices, we find there are large increases in all departments, except the library, and according to the press reports the library board are not satisfied that they had not an increase in their expenditure. They appear to want to be in line with the others.

The school board gets an advance over last year of	$ 48,372.07
The parks are costing us more by	1,623.03
The hospital trust is getting their cost nearly doubled, adding to last year's expenditure	33,600.00
The police get an increase of	6,052.80
The board of health, although they have no head, needs more by	3,309.00
Then comes the debenture rate	50,536.62
And last, but by no means least, we have the biggest, but not the best, the other purposes, with an increase of	305,265.69
Making the total increase	$448,759.21

As one who helps to pay the amount levied against the property, we hope someone will be able to explain how it is that it costs nearly half a million more to carry on the city's business in 1915, than it did in 1914. None of the above includes the war tax nor garbage. Hoping you will publish the above queries. TAXPAYER.

Recommends Road Graders.

Dear Sir: I have a suggestion to make regarding the city streets, which is neither original nor new, but which may be of use. Why should not the city own one or more machines like the country townships have, known as road graders. The use of these machines costs very little, and would keep a great many of our streets in pretty good repair.

I noticed a short time ago that Police Magistrate Judd was complaining of the condition of the street over in his district, and I am familiar with some of those roads, and know that the use of a grader would make those roads quite good for all summer. It does not seem absolutely necessary to let the country townships use ALL the labor-saving appliances, while the city does its road work by hand, and ineffectively at that. Every person I have ever spoken to regarding the scraping of our streets, which is done in spring, has agreed that it is worse than useless. The tendency of a macadamized road is to get holes in it, and what it needs is not to have those holes scraped out as deep as possible, but to have them filled in, and a grader passing over the streets in spring would do this at a very trifling expense.

I commend the country practice to the consideration of our road makers.

LICENSE BOARD HERE FOR PROBE OF HOTEL BARS

Commission Will Go Over Entire Local Situation Today.

OTHER PLACES INVOLVED?

Cases Pending May Not Be Only Ones Hanging InBalance.

MEET "DRYS" SATURDAY

Probable That Four Licenses Will Go, Says Vice-Chairman Dingman.

Vice-Chairman Dingman of the Ontario License Commission and Commissioners Dane and Smith arrived in the city last evening, and today and tomorrow will conduct an investigation of the whole license situation here. The movement inaugurated by the liquor interests to have the commission revoke its decision with reference to three of the four hotels, the licenses of which they had decided to cut off, is responsible for the visit, but Commissioner Dingman intimated to The Advertiser last night that he and his colleagues would look over the situation generally.

It was probable, he said, that the commission's decision to cut off four licenses would be maintained, but the object of coming to London was to ascertain as far as possible from personal observation which licenses could be best spared.

Meet "Drys" on Saturday.

"We have made an appointment to meet representatives of the temperance forces at 11 o'clock on Saturday," he said, "but tomorrow we hope to be able to look around ourselves and to form an opinion of the situation, uninfluenced by any arguments from one side or the other. We probably shall return to Toronto on Saturday afternoon, and will report our findings to the commission. Until then, no decision will be given."

Mr. Dingman said the board already had considerable data in its hands which would facilitate the investigation, and it is believed that this material includes considerable evidence concerning the hotel accommodation in the city, with particular reference to its effect on the farmers coming in to the market.

It appears not at all improbable, although the commissioner would not commit himself on the subject, that some modifications may be made in the original decision of the commission. Under section 13 of the new license act, the provincial board has power to cancel a license already granted, if reasons are shown which it deems sufficient to justify it in taking action.

Co-operate With Perth Officials.

Mr. Dingman was asked how the commission would enforce the Canada temperance act in Perth County, where it was given a very large majority at the polls yesterday. He stated that the commission would work in co-operation with the county officials, giving them whatever assistance they could in enforcing the act.

He thought it likely that Perth probably would follow the lead of Huron and vote a grant to help pay the salaries of the license inspectors, who are under the direct jurisdiction of the Ontario commission. The inspectors, he said, would give assistance to the county authorities also in all other matters relating to licenses.

A THOROUGH INVESTIGATION.

TORONTO, June 24.—Something of the thoroughness with which the provincial board of license commissioners intends to deal with the London situation was manifested by the journey to London of Vice-Chairman Dingman and Commissioners Dane and Smith today.

"Their inquiry," said the chairman, J. D. Flavelle, "will not in any way be limited to the three hotels with which we have immediately to deal. It will be extended to cover the whole license situation in London. An effort will be made to personally visit and inspect all licensed premises in the city. Every hotel will be looked over. And upon their report we may be better able to deal with the whole London situation."

Both Mr. Flavelle and Mr. Dingman intimated that considerable data was already in the hands of the board, pro and con, some of it, it is now surmised, dealing with hotels other than those whose cases are pending. Representations have been made concerning the conduct of certain licensed places, and evidence has been submitted concerning the question of London's accommodation, more particularly as it affects the farming community on market days. "We have much material ready to aid us in our inspection and investigation," was the way in which Vice-Chairman Dingman expressed it.

Public Hearing Unlikely.

It is unlikely that the commissioners will hold any public hearing to take evidence while in London. They will personally inspect the hotels and surroundings, look into conditions affecting their operation, collect any data which may be handed in, and report in full to a meeting of the whole board, which will probably be held early next week for the purpose of judicially conferring upon the whole situation as it affects all licenses in London. None of the commissioners yesterday would even intimate what their present information was or what was the immediate purpose, or likely the result of the pending inspection of hotels. That the travelling commissioners propose to take two days or more, if necessary, in going over the situation with a fine-toothed comb, seems to indicate that significant developments are pending.

CHURCH ORGAN OPENING

Southern Congregational Church Has Fine New Instrument.

The opening of the Southern Congregational Church organ, recently installed, took place last night with George Lethbridge, organist of the First Presbyterian Church, playing the initial selections. A musical program was rendered by a talented list of singers. The church was well-filled, and the audience was justly appreciative of the program. Vocal selections were sung by George White, E. S. Crawford, who also sang duets; Miss F. Cullis and Miss McBride sang solos and duets.

Miss W. Short presented several readings which were well received. In a number of selections chosen to display the various attributes in tone quality and movements of the new organ, Mr. Lethbridge gave fine renditions.

MEETS DEATH WHEN WIRE IS TOUCHED

London Lineman, Working On Hydro At Welland, Dies After Shock.

THROWN FROM TOWER

Robt. Slaght, Son of Widowed Mother, Dies in Hospital —Body Brought Here.

Robert Slaght, 19-year-old son of Mrs. M. Slaght, 190 Clarence street, an employee of the hydro-electric power commission, died in the Welland Hospital yesterday, following a shock that threw him from one of the steel towers after coming in contact with a high-voltage wire carrying 50,000 volts.

Slaght, who was formerly an employee of the Jose Gaste Cigar Company, left this city some months ago for Hamilton, where he was employed by the hydro department as a lineman. When the line gang was recently moved to Welland, Slaght was transferred, and was employed in that place until he met his death.

A coroner's inquest was held yesterday, and a verdict of accidental death returned. No evidence could be obtained, however, that would show how Slaght came in contact with the high-voltage wire.

The young man's body arrived in the city today, and the funeral will take place on Saturday. He is survived by his widowed mother.

CARRANZA RECEIVES MUNITION SHIPMENT

Allowed To Cross Border After Manifest Had Been Made.

[Canadian Press.]

Douglas, Ariz., June 25.—A shipment of ammunition, clothing and shoes, which was reported to have been held up at the Mexican border by United States soldiers on Monday, because it had not been declared at the customs house, was allowed to cross the border, after a manifest had been made, it became known here today.

Contrary to general belief, the clothing and ammunition were not for Villa troops, but were being rushed to Carranza forces.

The food situation in Sonora is perplexing Red Cross officials.

AMERICAN TOURISTS WILL BENEFIT CANADA

Europe Is Taboo and This Continent Will Keep the Money.

[Canadian Press.]

Washington, June 25—Money heretofore expended by American tourists to Europe, estimated by Secretary Lane at $100,000,000 or more annually, is this year being spent in the United States and Canada, according to a statement issued by him today.

Secretary Lane's statement was based upon reports received at the interior department showing, it was said, an unprecedented public interest in the national parks of the west and the camping grounds in the north as indicated by the big increase in the number of visitors this year over previous years.

ANOTHER ATTEMPT TO SAVE BECKER'S LIFE

New Evidence Said To Be Available To Show "Frame-Up."

[Canadian Press.]

New York, June 25.—Counsel for Charles Becker considered today the advisability of an appeal to the United States Supreme Court to save Becker from execution in the week of July 12 for the murder of Herman Rosenthal. It was reported that either a writ of error or of habeas corpus might be requested on the ground of newly-discovered evidence. Either writ would automatically stay Becker's execution.

A letter written to Becker's counsel by a prisoner now in Sing Sing Prison, asserting that he overheard part of a plan by Jack Rose, Harry Vallon and "Bridgie" Webber to "frame" Becker, may be the basis of the proposed appeal.

NEW INSTRUCTIONS FOR ENGLISH CHANNEL TRAVEL

Washington, June 25.—Additional instructions for navigation in the English Channel issued by the British admiralty, direct ship captains proceeding through the straits of Dover from the north, to wait off Calais for a pilot. Vessels from the south are directed to await instructions off Boulogne. The admiralty warning was received at the state department today from Consul-General Skinner at London.
