Shows Up the Divided Views of the Conservatives.

Ottawa, Feb. 3.-In a speech unparalleled for breadth of vision, masterful handling of the fundamental principles on which the Empire is founded, eloquence and effectiveness, Sir Wilfrid Laurier today turned a new page in Canadian history. He defined the policy of the Government looking to the creation of the Canadian navy in co-operation with the navy of the motherland in a twohours' address which will rank as a classic in the annals of the Canadian Parliament, and which at its conclusion was marked by the inspiring spectacle of the whole House rising and singing the National Anthem. Sir Wilfrid has seldom, if ever, been heard to better advantage in the House.

There are certain laws that apply to nental processes with which everyone is familiar. One of them relates to the danger of idleness and its used by an individual whose name is not mentioned in

polite society. There is no class of people so apt do foolish and imprudent things as the girls who have nothing to occupy their minds. The girl that has to work for a iving is really safer than the one who is under no such compulsion. Where a girl has no serious interests her future is largely dependent upon the discretion and

discernment of her parents or guardians. The Philadelphia girl who ran away with a hotel waiter, according to reports has been forgiven. From what is known to the public concerning the case, she should have been. But has she forgiven her guardians? She is not as much to blame as those who neglected to take care of her. If her life had been normal she would not have been seized by the notions that have drawn a cloud over her. -Newark News.

### THE CITY MAY DREDGE THE RIVER THAMES

Board of Works Asks for Grant of \$1.000 to Furnish

a Dredge.

The written opinion of City Solicitor Meredith that the city had no power to dredge the River Thames, was handed to the board of works last evening.

"If we have no power, who has, then?" asked Ald. Morgan. "We want gravel, and the citizens want a deeper channel. What can we do about it?"

He was of the opinion that the Government of the opinion that the Government. What can we do about it?"

He was of the opinion that the Government would offer little or no objection to the city dredging the river.

Ald. Morgan then outlined a plan for the city to buy a dredge, and do the work themselves. According to the information he received, the city could buy a dredge for \$1,000 for this purpose, and it would take the gravel out at 5 cents a cubic vard.

"If we do not own the gravel, what can we do?" asked Mayor Beattie.

Ald. Tancock though little or no trouble

would arise from this, and that the Gov-ernment would gladly give their con-"It would be a blessing for West London if the river were dredged," said the

THE TEARS IN BOOKS.

It is not hard to understand why when a book makes you laugh, you "I move that we file the request of the boat club, and that \$1,000 be placed in the estimates for dredging the river," said Ald. Saunders. "It appears that we have no power to make the contract with Mr. Baham, so we had better get the money and try some other way."

"We will have plenty of time to gettle that before the estimates are considered. Let us get the money."

The committee agreed to that, and it is likely that a scheme for a city-owned dredge may be the result.

City Engineer Graydon wrote declaring that the London Street Railway had few teams removing snow, and the streets were dangerous in consequence. He was instructed to write the company, giving them four days in which to remove the snow, and at the end of that time if it were not done, the city should do the work and charge it to the company.

The customary accounts were passed for payment. Those present were Ald. Tancoek (chairman), Ald. Saunders, Ald. Morgan, Ald. Pocock, City Engineer Graydon and Secretary Wright.

Want to read it and to read it over and over again. But it is rather puzling to find that one also enjoys reading and -re-reading books that make one want to cry. What can there be in us that likes to be made to feel unhappy? In real life we don't try to do things that will make us suffer—not at all! But there are books that you cannot think of, once you have read them, without tears coming to your eyes, and yet you will find that you cannot think of, once you have read them, without tears coming to you love those books perhaps more than any others.

To feel deeply is one of the best things in life; and there, maybe, lifes the explanation of why we do love sad stories. They make us unhappy in a way, but they do not leave behind any bitternes want to read it and to read it over "I move that we file the request of the and over again. But it is rather puz-

### LONDON, FRIDAY, FEB. 4. MR. BORDEN'S SURRENDER.

Mr. Borden, in an evil hour for himself and his party, has surrendered to the extremists who have been seeking from the outset to convert the question of imperial defence into a race and par-

The seat of the conspiracy was not Ottawa, but Winnipeg. Ten months ago Mr. Borden and Mr. Foster took high ground, and the right line. Government and Opposition united in approving a resolution which pledged Parliament to a definite principle—the creation of a Canadian navy, under Canadian control. It looked as though the matter had permanently lifted above party controversy. The situation was accepted by the bulk of the Conservative press. Then came an ominous growl from Winnipeg. Before the Government's plans were even foreshadowed, for 38 battleships and 14 armored the Roblin-Rogers combination began to make mischief. Mr. Roblin and Mr. Rogers talked openly and contemptuously of Canada's "tin-pot" navy. ### WHERE CANADA LEADS.

Dr. Andrew D. White, an ex-presiient of Cornell University, and more recently United States ambassador to Germany and to Russia, declares that the Dominion is freer from murders than any other of the civilized countries. Basing his calculation on an average taken for eight years, Dr. White finds the number of felonious homicides per year per million of population for various countries to be: Canada, 3; Germany 4 to 5, England and Wales 10 to 11, France 10 to 15. Belgium 16, and the United States homicide is 43 times greater in the so good-naturedly tolerate imported United States than in Canada, and eight times greater than in Belgium, which has the worst record in Europe. Dr. White figures out, further, that in murderers is convicted.

The Advertiser rests its case on the statement that the German programme of naval construction "is known and fixed." But that is not a There fixed and definite about the German of naval construction. Last year the British first lord of admiralty publicly admitted that he had been misinformed with regard to naval construction in Germany, and that the German programme was being accelerated at a more rapid pace than he had been aware of. Armed with a bit of pasteboard, Steele was stopped as he was about to enter. A thunder of applause from within, indicating that the first act had come to an end, was followed by the usual egress of black and white figures, impatient for cigarettes, and light lobby gossip. "Divine, eh? The opera, I mean!" A

voice accosted John Steele, and, turning, he beheld a familiar face with black whiskers, that of Captain Forsythe, "This is somewhat different from the morning's environment?"

"Yes," said the other. "But your first question," with a smile. "I'm afraid I can't answer. I've just come; and, if I hadn't-well, I'm no judge of music." "Then you must look as if you were," laughed the captain frankly. Boxes shone with brave holders for that night at the opera, a hues; gems gleamed over-plentifully; here and there, accentuating the picture, the gorgeous colors of some eastern prince stood out like the brighter bits in a kaleidoscope. Stecle's glance swept over royalty, rank and condition. It took in persons who were more persons—personages; it passed over the impassive face of a dark imeer, who looked as if he might have stepped from one of the pages of "The Arabian Nights," and lingered on a box a little farther to one side. Here were seated Sir Charles and his wife and party; and among them he could discern the features of Jocelyn Wraynot plainly, she was so far away! Only her golden hair appeared distinct

The total business in force now amounts to \$124,772,856, the increase for the year being over \$4,000,000.

The income for the year was \$5,697,319.59, being larger by \$361,277.05 than that of The Income and Payments. 1908. The payments to policyholders totalled \$2,032,332.16. Notwithstanding the constantly increasing volume of business transacted, the expenses of management decreased in 1909, as compared with those of the previous year. A similar reduction in the expenses of management was reported a year ago, the decrease in each year being not only in percentage but in actual amount.

The total assets now stand at \$39,686,063.57, having increased in 1999 by \$2,972,948.33, The Assets. the greatest gain in any year in the Company's history. The assets of the Company arc acreasing at the rate of arly \$10,000.00 for each business day of the year, and the safe and profitable investment of these rapidly growing unds is a serious responsibility which receive the constant care of the Directors.

The increase in surplus reported a year ago of \$1,060,000 was up to that time the The Surplus. largest in the Company's history. The Directors are able to announce an even larger gain for 1909, the increase for the year being \$1,195,125, bringing the total Surplus over all liabilities up to \$3,322,764.65. Such a result could only be attained by a strict adherence to those principles of management which long experience has shown to be the essentials of success, namely, judicious economy in expenditures, prudent investment of funds and skilful selection of risks.

The Directors are gratified to be able to announce that the surplus (included in the Allotment above) earned on quinquennial dividend policies issued prior to 1900 enables them to of Profits. declare a bonus upon such policies as follows:-

Upon life policies a reversionary bonus addition of 11/4 per cent. per annum upon the sum assured, amounting to \$62.50 per \$1,000.00 of assurance (or its equivalent value in cash or reduction of premiums to policyholders so electing); upon endowment assurances the bonus addition will be not less than \$50.00 for the quinquennium for each \$1,000.00 of assurance, payable at the end of the endowment period or prior death (or the equivalent of such bonus addition in cash or premium reduction to policyholders so electing).

The profits now declared on these policies are on a cash basis from 30 per cent. to 40 per cent. greater than at the previous quinquennial division in 1905, when over \$1,000,000.00 was allotted to such policies. As illustrating this, attention is drawn to the following actual examples from life policies, taken at random and showing the profits now declared, on a cash basis. The table also shows the large increase in profits now declared over those of the two previous quinquennial divisions :-

Basis for illustration in each case \$10,000. The Directors confidently anticipate that this announcement will be received with general satisfaction by the many persons who will share in the large amount of profits to be distributed on

these policies. Quinquennial dividend policies issued since 1900 receive their allotment of profits each five years from the date of issue, upon their premium due date in place of the fixed date (... at 31st December) for older policies. The premium rates and reserves for such policies are on a different basis from that for policies issued prior to 1900. For these more recent policies as well as deferred dividend policies a modified form of the Contribution System of allocation of profits has been adopted by the Company, and under this system the profits will vary with the plan of assurance and duration of the policy, as well as with the age of the assured.

The amount of surplus now to be allotted to quinquennial and maturing deferred divi-Lend policies will, it is expected, exceed \$2,000,000.

Our work is so well in hand that the Profit Certificates on all policies now entitled to participate will be mailed on this occasion at an earlier date than formerly.

The following Directors retire by rotation:-Kenneth MacKenzie, Esq., Frank Retirement Sanderson, LL.D., Hon. Robert Jaffray, Adam Brown, Esq., and E. R. Wood, Esq., the of Directors. first two representing the policyholders and the last three representing the shareholders, all of whom are eligible for re-election.

It is with pleasure that the Directors again record their appreciation of the efficiency and zeal with which the officers, staff and field representatives have performed their respective duties. GEO. A. COX, President. Toronto, January 31st, 1910.

of the propositions of the Govern-ment, not only embodied in this bill, but as embodied in the speech of the Premier. He told us on the first read-ing of this bill that Canada must be at war when the empire is at war. Any man who has the slightest acquaintance with international law knows that that is absolutely the case. Yet my right honorable friend has somewhat withdrawn from that opinion today because he has told us that under conceivable circumstances, the rest of the empire might be at war while Canada was at peace. Such a proposition is absolutely impossible. So long as Canada remains in the empire Canada is at war when the em-

pire is at war.
"In view of the fact that the Premier recedes from the position which he took on the first reading of the bill we must understand that some very strong compulsion has urged him to take that course, and that the difficulties within his own party have compelled him to recede from what was in the first place the true and correct declaration of the position of

this country.
"Let us look for a moment at the rosition of affairs today. The question we have to consider is organization of forces of the empire for defensive purposes in naval warfare. In the first place the Premier has referred to the resolution of March, 1909. I want to say that I understood the clear terms of that resolution to be that any pro-posal of this Government should folow suggestions of admiralty made in 1907, and I say without the slightest hesitation that in the most important respect of all, the control of the naval force of the empire in time of war, the bill of the Government absolutely departs from the suggestions of the admiralty, and, therefore, absolutely departs from the unanimous resolu ion of this House.

Continuing, Mr. Borden said that the idea of Lord Tweedmouth was that so ar as the naval forces are concerned there must be a unit of two fleets in time of war. It does not require experience or naval knowledge to under-stand that in time of war the whole integrity and future of the empire may depend upon the unity of command and control.

Mr. Borden quoted Lord Tweedmouth's declaration in full, and said that there could be nothing more specific or emphatic. Next Mr. Borden quoted the opinion of Mr. Mc-Kenna, first lord of the admiralty, as expressed at the naval defense conference to the effect that "successful action in time of war derends upon unity of command and direction."

Mr. Borden also invited the attention of Sir Wilfrid to the statement by the first lord of the admiralty. "That it has been recognized by colonial governments that in time of war local naval forces should come under general direction of the admiralty." Mr. Borden proceeded to say that he thought the Premier would have done better had he spent more time on the clause which provides that, "subject to issue of an order-in-council, Canadian fleet may go to assistance of Great war we shall declare that we are not at war, and the fleet shall not take

just this to add, that when New York, Feb. 3.—More than a Great Britain, being at war, the govdental student at the same institution, and then fired a bullet into his own thousand employees of the big Smith ernor-in-council shall declare that our fleet shall take no part in it, and they inaction will amount to virtually declaration of independence.'

any part.

In a speech delivered at Sherbrooke in January, 1900, after he had reconwith its contents, was damaged to the sidered his attitude with regard to the participation of this country in the South African war, the Premier had

> "We believe it our duty as a British colony to respond to the will of the people." He would invite him today to respond to the will of the people and will of the country today, and these different proposals ought to be submitted to the people to pass upon before any permanent rolicy of this kind is engaged in.

"I think," said Mr. Borden, "that there is a great deal to be asked in favor of the course. I am as strong as any man in the country in the belief that it is the duty of Canada to participate upon a permanent basis in the defense of this empire, and to do our reasonable share in that regard. But I would say that to attempt to force a policy of this kind upon the people of the country without giving them an opportunity to say yea or nay in regard to it, would be one of the worst mistakes that could be made by any man who really favored that policy.
If my honorable friend was able in very short meter indeed, in 1899, to respond to the popular cry, there seems no reason why he should not today be equally ready to respond to the popular will upon this question." Mr. Borden was greeted with great applause from his followers as he declared for a referendum and for a gift of a Dreadnought.

Having regard to the coal consumed in the central Provinces of Canada being so largely obtained from the neighboring States, and to Canadian capital having to some extent been interested in those fields for years, the Sterling Coal Company has been formed, on a strong financial basis, with Canadians in its direction. The Company is acquiring certain mines of bituminous coal now operating in Ohio under capacity, and will further equip them and develop others, viz., two additional properties, one in Ohio, and the other in West Virginia. All of these properties are located upon lines of railroad, with favorable freight rates to convenient markets, viz., the Erie Railroad, the Pennsylvania Railroad, and the Baltimore & Ohio Railroad.

The properties have been fully investigated and reported upon by Mr. W. F. Tye, recently Chief Engineer of the Canadian Pacific Railway, and who had clarge of all construction on that railway from 1899 to 1906, and, in addition, all other engineering from 1904 to 1906. They have also been reported upon fully (except the Acadia) by Mr. Charles Fergie, formerly Vice-President and General Manager of the Intercolonial Coal Mining Company in Nova Scotia, and afterwards for several years Chief Engineer and Superintendent of Mines for the Dominion Coal Company, and since 1907 Consulting Engineer in Montreal. Mr. Fergie will act as Consulting Engineer of the Sterling Coal Company. These properties, other than the Acadia, were also visited by members of three of the firms now offering the securities. The Acadia (which is likely to prove a valuable property) is partially proven, and the Sterling Coal Company has about five months longer for testing by diamond drill before finally deciding as to its purchase.

Full prospectuses have been published in the newspapers, and copies, with subscription forms, may be had on application at our offices.

### CHARACTER OF SECURITY.

The bonds are 30-year 6% first mortgage bonds, with a sinking fund of 2% per annum on the amount of bonds issued, commencing January 1st, 1912. Bonds are redeemable at 105 at the company's option on any interest date. Bonds may be registered at the head office of the Company in Toronto.

PROFITS. Mr. Charles Fergie, one of the most experienced and highest authorities on coal operation on the continent, estimates that on completion of the company's programme the net profits will be over three times the amount of

Mr. W. F. Tye, the President, states that the net profits relating to the four mines now operating in the Hileman Group, which represents only one-third of the total purchase price, will within a few months, with additions to the equipment not costing more than \$70,000, provide for 6% interest on \$1,300,000 of the \$1,750,000 of

Mr. Tye estimates after long and careful consideration of the present position and prospects of the company, that the net revenue should reach such a basis as to warrant declaration of dividends at the rate of 6% per annum upon the stock of the company during the year 1912.

Trees Need Trimming.

Engineer Sifton was present, and arged the committee to appoint a tree rimmer as soon as possible. He pointed out that the city would lose \$9,125 a month if the city were not ready when power came to London.

Ald. Morgan insisted that a commission be appointed to do this work. He wanted three men selected, a representative from the board of works, one from the board of education, and one from the Horticultural Society. # TALKFEST FOR COUNCIL

Parks Commissioner and Contracts Certain to Cause Considerable Discussion.

City Hall matters are quiet these days, there being little of a startling in several cases where sickness and nature to be discussed. The council meeting of Monday next

will undoubtedly be a rather long affair, as there are some debatable questions coming up. The most important will be the

naming of a parks commissioner, and this will start quite an evening's talk. How it will end is hard to foretell, as there is undoubtedly much difference of opinion on the subject. It is probable that a week's delay will be given, over hard times, the wood-cutting so that the aldermen may be in a po-sition to decide on a man.

The allotment of the contracts for the firemen's uniforms may also cause some discussion, and there is a possibility of a somewhat sharp debate on this subject. The report of the investigating com-

mittee on city hall officials will not be dent, Rev. J. G. Inkster, occupied the ready for this meeting. A considerable amount of information has already been obtained, but a detailed report has not yet been prepared. That will be done later.

From what can be learned, it will contain nothing drastic unless more tangible information is received than has already been made public. The city engineer is busy preparing the estimates for the board of works and No. 3 committee. They will not be ready until March, when they will

Householders are requested to send all such applicants AT THE NEXT MEETING requested to send all such applicants to the society's office in the city hall, or to take their names and addresses and report to the society's officer. The various cases detailed in the monthly report submitted by the inspector were fully dealt with by the board. The inspector pointed out that times were much better than they were last year, and that there was not nearly so much distress. The society has, however, been giving assistance other causes had conduced to distress. It was also reported that there had not been nearly as much demand this winter for the work supplied by the society's wood-cutting scheme as there was last year. Up to date, however 115 cords had been cut and \$115 paid in wages to the men who had been very glad to get this work to do. Besides helping to tide deserving men acts as a test of character, and shows whether a man is willing to work. Orders had been given to ten men

who evidently did not want to work as they never returned. Other routine business was transacted at the meeting. The vice-presi-

TRAILED BY A WOMAN

Men. Arrested in Detroit, Charged With Fraud in Stocks.

Detroit, Mich., Feb. 4.-Justice Stein has issued a warrant here for Arthur W. Draper and Joseph A. Kuppenheimer, charging them with fraudulently issuing stocks. Victoria C. Day, of Toronto, who has been on the trail of the men for

months, is the complainant witness. She alleges she paid Draper and Kuppenheimer Oct. 10 last \$100 for 100 shares in a Canadian firm known as "Drapers Limited." She declares the stocks are of no value, because the firm is insolvent. Only 50 shares of authorized capital stock remained for sale when she bought 100 shares, according to the complainant. Draper and Kuppenheimer are lieved to be in New York.

SUDDEN DEATH AT LEAMINGTON. Leamington, Feb. 4.-John Wagner, well known for years throughout this part of the country as an agricultural implement dealer, died while sitting in a chair in the Deming House.

Ottawa, Feb. 4.—Canada will contribute \$50,000 to aid the sufferers by the recent floods in France. Hon. Mr. Fielding brought down in the House of Commons yesterday a supestimate providing for appropriation of the sum mentioned.

GENEROUS DONATION TO SANITORIUM

Committee Thanks Ladies of White Oak for Gift of Pillows. To the Editor of The Advertiser: Will you allow me through the columns of your paper to gratefully acknowledge the very generous donation of 20 pillows and 11 cushions from the ladies of White Oak, Ont., for the tuberculosis hospital? Those who have worked so hard for the linen supply greatly appreciate the substantial addition from the ladies outside the city. Signed on behalf of the committee, LILLIAN BECK, Secretary.

The ladies who so kindly donated the linen are as follows: Mrs. Frank Anderson, Mrs. James Anderson, Mrs. Bodkin, Mrs. Blanchard, Mrs. John Krinklaw, Mrs. Jas. Krinklaw, Mrs.

Prevention of Tuberculosis. An address was given in the High Street Methodist Church on Thursday afternoon, having for its object the 344 prevention of tuberculosis. The an-4134 atomy of the lungs was described, showing clearly that pulmonary disease cannot be cured while the pa-tient is leading an indoor life. The ventilation of the body, together with the system of elimination, including regular bathing, was dwelt upon at some length. The lack of proper bathing facilities is responsible for the burden placed upon the lungs, said the speaker. Two very pitiful cases of tuberculosis in this locality, having come to the notice of many, had financial and commercial community. aroused interest. ### THE LAYMEN'S MOVEMENT

Individual Churches Busily Engaged in Work of Canvassing.

The aftermath of the Laymen's Missionary Conference is being felt in the city at present. The individual churches are busily engaged in the work of canvassing, which is to be completed by the fifteenth of the month. The reports so far received show a very substantial increase. People who have never contributed to the missionary work of the church are now contributing largely. One pastor reports that eight men whose united offering in years past has not amounted to \$25, have this year each contrib-

uted that amount. On Monday afternoon there will be a meeting in the Y. M. C. A. parlors from 5 to 6 o'clock for the purpose of bringing together the ministers and the members of the different church com-

The death occurred at Dorchester Station yesterday of Mrs. Sarah Neely, relict of the late Thomas Neely. Mrs. Neely was 74 years old. The funeral will be held on Saturday afternoon and interment will be made at Banner.

A Pleasant Evening.

A very pleasant time was spent at the home of Mr. and Mrs. George Thompson, of the Pipe Line road, on Wednesday evening, when about 190 guests enjoyed a splendid musical programme, followed by a dance. Music was supplied by the Byron orchestra. Library Report.

At last night's meeting of the library board the regular monthly reof Librarian Carson was submitted and showed that the daily average circulation was 467, with a total of 11,677 books. There are now 5,062 members and 565 second cards in use. Funeral of Harry Sare.

The funeral of Harry E. Sare, whose death occurred at Antigo, Wisconsin, recently, was held on Tuesday afternoon from the residence of his father, Mr. David Sare, Rose Villa, Evergreen avenue, and was largely attended. The services, which were of a most impressive nature, were conducted by Rev. Mr. Walker, of the South London Baptist Church. The pallbearers were Messrs. Wm. J. Wright, Roy Wright and David Wright, nephews of deceased; David and John Sare, brothers, and George McEwen. Sleighing Party Stalled.

A number of pleasure-seekers who hired a large band-sleigh last night, and started out with much hilarity for a sleigh drive in the country, were seen returning to the city this morning at o'clock, in a farmer's rig, with much of the enthusiasm evaporated. It seems that they got out some distance without much difficulty, but the return trip was not so easily managed, and they had finally to give it up and seek shelter at a near-by farmhouse, whose owner piloted them home in the early morning, a somewhat bedraggled though still cheerful crowd. Late Mrs. D. L. Graham.

Mrs. Susan (McDonald) Graham, a much esteemed resident of Lobo, passed away on Sunday at the family residence, "Maplehurst," near Ivan, after a month's illness. Mrs. Graham, who was 56 years old, was born in Ekfrid Township, and was the daughter of David and Margaret McDonald. She was married to Mr.Graham in 1879, and had since resided with him in Lobo Of her father's family there survive pointed general superintendent, Moun- her her aged mother, aged 81; one sister, Mrs. Annie McColl, and seven brothers, Alexander, John, Daniel, William, Archie, David, all of Ekfrid, and James V., of Strathroy. In her own family she is survived by her husband, one daughter, Ethel, at home, and three sons: Peter, at home; David, in the School of Practical Science, Toronto, and Duncan, M. D., now in London, continuing his medical studies. The funeral took place Tuesday afternoon at 2 o'clock to Ivan Cemetery, and was

argely attended. Closed, heated carriages for all occasions. Hueston's Livery.
