at four times the present rate their line will be declared an outlaw and the cur-rent will be cut off. This will mean a loss in the line and house these subscribers of over \$400 each.

Three of the stub-line subscribers are hotly indignant over this latest move and say that they will not only refus to sign a contract in which only one party guarantees anything, but that they will do without hydro rather than tie themselves up to a contract which states that an annual revision of rates may be expected.

F. E. Hughes, in charge of the hydro extension work in the township as far as Lambeth village, says the line is

going through.

"There are seventeen consumers outside of the village who receive their service over the village lines. This situation exists nowhere else in Western Ontario, and although these subscribers are not in my own territory ern Ontario, and although these sup-scribers are not in my own territory I know that nine farmers who have not previously received service have subscribed for it. There are only four of the present subscribers who are making a kick, and they are only using lights anyway, while the others are using the hydro for power as well. The line will be put through."

// of protection. The old Huron & Erie provides protection not for the lives of Canadians but for their savings.

One of the ambitions of the founders, quoted from the institution's Government Charter, dated 1864, reads:-

"To encourage the accumulation of capital by securing for depositors and investors remunerative rates of interest, free from anxiety or doubt as to the safety of their funds."

The Huron & Erie's Paid-up Capital and Reserve Fund total \$6,750,000. The institution is inspected by Dominion Government Officials. First mortgage security alone totals more than the amount deposited and invested by Canadians with the Corporation.

To open a savings account here is to become identified with an institution with a record of sixty-one years' reputable dealings with savers.

To the Editor

What the Act Says.

Editor of The Advertiser: Sir,-There is a point in connection with the recount in North Huron, whereby the seat went from Mr. King. who won it, to Mr. Spotton, who did not win it, that should not be over-It does not seem right that ballots should have been thrown out because the foils were left on them. The election act says on this point, sub-section 3, section 62

"Provided that where the deputy returning officer has inadvertently mitted to remove the counterfoil from the ballot paper before placing such ballot paper in the ballot box, he may, exercising care, however, that the number on each counterfoil be not seen by any person present, and without himself examining such number, re move and destroy such counterfoi the counting of the ballots; and the judge who may conduct any recount ceedings shall have the like inadvertence on the part of the deputy returning officer being, for the puroses of the recount, presumed. ballots, if otherwise in proper form, shall be counted as if the counterfoil had been at the proper time removed

Looks to me as though that exactly overs the case in North Huron, and for that reason we can't get over the idea that there is an injustice being done in naming as our representative man for whom the majority DISFRANCHISED. Huron County, Nov. 21.

The Ravages of Fire,

Editor of The Advertiser: Sir,-I happened to be in Parkhill today, where the fire destroyed Knapa ton's garage. I couldn't help thinking of the holes fire has made in that street; the old Hastings House on a corner farther down and about across from that store where Peter Lindsay carried on for so many years. Knapton's garage was formerly part of the carriage factory, and across the road was another, Hawkey's, making a similar line. Both these places used to be busy the days when carriages and wagons were in demand, and I don't suppose there's a Parkhill old boy in existence who will not recall at once both these

It seems to me that here are three places in a row, Thedford, Parkiill and Ailsa Craig, and all of them have been hit by fires in recent years. From re-ports I heard around the town today the fire brigade put up a great fight at Knapton's garage, and considering that it was a big frame building and g wind blowing at the time I worth mentioning that there's strong wind blowing at the ome fight left in the old town yet. Imperial Bank Annual Statement Reflects Better Business Conditions.

ASSETS GREATER

Canadian Press Despatch Toronto, Nov. 23 .- Very satisfactory progress is indicated in the 51st annual statement of the Imperial Bank of Canada, which was mailed to all shareholders today. The statement reflects a morked improvement in business conditions in the last four months, and places the profits for the year ending October 31, at \$1,162,148.73, an increase

The most notable feature in the statement is the large increase in deposits, which stand at \$95,934,168.29, as com-Nov. 23. - There was a large pared with those of last year of \$88,- cess of the amount carried forward last 123,096.90. of \$1,700.000. The bank not only main tained its liquid position, but during the last twelve months improved it considerably as liquid assets stand at \$66,-875,829.76, as against \$58,951,118.69 at the

lose of the previous year.

In fact, the bank's liquid assets are over 61 per cent of its liabilities to the ublic, says the statement. Cash on hand and kindred assets are placed at \$26,338,271.38, or over 24 per cent of the bank's liabilities to the pub-

During the year, the funds in the bank represented by dominion and pro-vinctal securities showed a considerable increase, and stand at \$15,317,561.11. Current loans at \$50,839,845.66, or a attlion and a half more than a year ago, are given as indicating gradual improvement in business conditions during the past few months.

Business Conditions Good. Further evidence of improved busiress conditions is given in the note circulation, which stands at \$10,678,152, as compared with a year ago, \$9,526,554. With profits for the year of \$1,162,148. 73, to which is added the amount carried forward from last year, \$1,039,223.19, the bank, after setting aside \$150,000 to resulted for dominion government tayes. provide for dominion government taxes, plctures, paid dividends at the rate of 12 per cent

Artificial Digestents.

Most people who suffer, either occasionally or chronically from gas, sourness and indigestion have now discontinued disagreeable diets, patent foods and the use of harmful drugs, stomach tonics, medicines and artificial digestents, and instead, following the advice so often given in these columns, take a teaspoonful or two tablets of Bisurated Magnesia in a little water after meals with the result that their stomach no longer troubles them, they are able to eat as they please and they enjoy much better health. Those who use Bisurated Magnesia never dread the approach of meal time because they know this wonderful anti-acid and food corrective, which can be obtained from any good drug store, will instantly reutralize the stomach acidity, sweeten the stomach, prevent food fermentation, and without the slightest pain or disconting the property of the patenty of the patenty of the property of the best of Peter and he asked why Paddy was particularly interested in trees.

Fusilier, Sask.—"For two or three days every so often I would have such pains in my back and sides that I could not do anything — could not even lie quietly in bed, and my head ached, too. I was this way about three years, but was worse after I was married. I was on a farm with not a house nearer than five miles and there was not a person to advise me, as my folks lived in Manitoba. My sister-in-law told me about Lydia E. Pinkham's Vegetable Compound and told me to try it. I took her advice and have been thankful for it ever since. After taking the medicine for three months I can say it has helped me a lot and I am doing fine. It is too late for the two teams to play home and home games, and the O.R.F.U. and and home games, and the O.R.F.U. and the clubs both favor London as the spot for the deciding struggle.

Secretary McKee got into touch with Bill Friend yesterday, and members of the local committee are willing to undertake the rather difficult task of getting the field in shape again. The posts are down and lines have been washed out, and getting the field ready for a game will entail a good deal of work. The committee naturally is not anxious for the job, but as Bill Friend, who made his first appearance yesterday after an eleven-weeks' illness, seemed enthusiastic, the committee became infected too. enthusiastic, the committee became infected foo.

Addition of La Zerre Brings New Sheet in Base-

ball City.

By JOHN B. FOSTER.
Special to The Advertiser.

New York Nov. 22.—The New York Americans of 1926 will be the first team in baseball history to include in its lineup two home run kings—one Ruth in majors, and La Zerre, recently of the majors, and La Zerre recently of the minors.

La Zerre is coming east to show what he can lo as a shortstop in the majors. Some of his hits in 1925 were made on the diamond at Salt Lake City, where the altitude does favor long-distance swatting, but he made enough homers away from the home grounds to make it evident that circuit-sweeping clouting is strictly in his line.

Ruth is still the home run king of the majors, though in 1925 he made a higher average for some other things than batting. He is not likely to lead the American league in 1925, for all the care he takes of himself this winter. Old baseball men do not figure he is out as a ball player, but they do believe he is losing his punch.

This boy La Zerre gets hold of the ball, not as Ruth does with a long, swinging, golfing punch, but with the straight arm motion typical of the manner in which the big batters of the past landed on the ball.

La Zerre's record will be questioned by some because the Pacific Coast league plays more games than any other league in the country, giving its players more chances at the bat. Still, he is a comer, and the Yankee management seems to be paving the way to crown a new monarch of swat if the old one passes out.

LEGAL WAR IS RAGING IN SOUTH PERTH LOOP

Fullarton Club Ordered To Return Peter Smith Trophy Within Week.

Special to The Advertiser. Special to The Advertiser.

Stratford, Nov. 25.—Unless the Fullarton baseball club turns over the Peter Smith trophy to the executive of the South Perth baseball league before the end of this week, legal means will be resorted to by the league officials to regain possession of the trophy. This was the information received from James Nairn, league officer. Both sides have retained counsel, it is said. J. C. Makins, K.C., will in all probability act for the Fullarton team, while the league has not announced who will conduct its case.

has not announced who will conduct its case.

The controversy, which has raged since late last summer, has aroused interest in the county. According to Mr. Nairn, the Fullarton team won the first trophy in 1924. The outfit again headed the league at the conclusion of the regular schedule last season. The executive had made a ruling, however, that the first and second teams should meet in a sudden-death game for the championship on the annual field day.

This the Fullarton team refused to do. Consequently, the executive ordered the Salem and Boundary teams, which had finished second and third respectively, to compete for the championship. The Boundary sprang a surprise by defeating the Salem outfit.

Fullarton contends that the executive had no right to order the first and second teams to play off. The executive contends that it has the right to revise the playing rules or rules for cup competition. There the matter resta. It is highly probable that the dispute will be aired in court.

forced liquidation upset the market again on the New York stock exchange today.

General Motors went down to 197, United States Steel to 127½, Chrysler to 134, Mack Truck to 212½, American Can to 29%, and General Electric to 201½. These prices were the lowest established on the current decline, and represented over-night losses of a fraction to 5 points. They also showed some recessions from the high levels of the year prevailing three weeks ago of from 12 to 83 points.

Supporting orders caused a rally of points in Chrysler and 4½ perions in General Motors. General Electric, Dupont and Mack Truck.

Call loans renewed at 4½ per cent.

POLITICAL CRISIS SENDS

FRENCH SECURITIES DOWN

Associated Press Despatch.
New York, Nov. 23.—The spectre of higher rediscount rates throughout the United States and the threat of another financial crisis in France were the two outstanding factors contributing to the weakness of today's bond market. Trading diminished in volume as selling orders gained predominance.
Heavy liquidation of French obligations followed the overthrow of the palnleve cabinet and the upset of its financial program. Losses of a point or more were registered by most of the government, railroad and municipal issues simultaneously with the break in French francs to the lowest price of the foreign liens yielding readily to selling pressure.
Convertible railroad and oil company issues were the hardest hit of the domestic bonds. Following reactions in the stock market Chesapeake & Ohio 5's and Skelly Oil 6's, which have been the leaders of their respective groups, declined sharply. Material recessions also included St. Faul Junior Liers, Seaboard Adjustment 5's, Hudson and Manhattan Kefunding 5's, International Paper 5's and Bethlehem Steel 5's of 1938.

Grain Markets WINNIPEG

Winnipeg, Nov. 23.—A natural reaction occured on the local wheat market today following record advances last week, and at the close prices were 2% ot 3 ½c lower, November closing at \$1.44 as compared with \$1.47½ on the following record advances markets lack of new export business, and heavy selling by "long" interests were factors to the decline. After a slightly higher opening, "longs" commenced selling and taking profits and finding only an ordinary de the session there were several periods when good buying was reported, but it was not sustained. Sentiment is still divided, with the "bulls" looking for \$1.50 a bushel for wheat and the "bears" predicting a break of 5c to 13c. Export sales on Saturday were estimated at 1,000,000 bushels, mostly Manitobas. The coarse grains and flax were fairly active, but with no urgency in the trade, prices declined in sympathy with wheat. Cash grains, both wheat and coarse grains, experienced a quiet day, and were without special feature.

Free State Member of Irish Boundary Commission Resigns Post.

Associated Press Despatch, in, Nov. 23.—The legal advisers of the Free State government are understood to hold the opinion that the resignation of Dr. MacNeill from the Irish boundary commission, on which he represented the Free State, makes report by the commission impos

sib's.
The Free State ministers consider that the matter is solely one between them and the British government, which they expect to fulfill its treaty obligations. Until the British have failed to do this, question of referring the matter to the League of Nations can arise.

KEEP ON BUILDING.

Associated Press Despatch. London, Nov. 23.—The British government does not contemplate any re duction in its naval construction pro-gram, W. C. Bridgeman, first lord of the admiralty, stated in the house of commons today. This was in reply to a question as to whether the reported reductions in the naval estimates of the Japanese government timates of the Japanese government hope of a curtailment of the British program.

The Essex representative reports that sugar beets in the northeast part of the county remain unpulled because of wet conditions and that corn is unhusked or left in piles on the wet ground as teams cannot enter the fields. Practically no plowing has been done in Prescott and Russell and other low lying parts of eastern Ontario; on the other hand, under more favorable conditions, many farmers have finished

ESSEX-While there are not large acreages of sugar beets in Essex county f the county, near Chatham, are prac steally all in the ground. The month's rain has prevented them from being oulled. The farmers are suffering large osses through unfavorable weather.
The corn crop of Essex, which was ne of the best in years, is seriously breatened by the wet weather. Farners annot get the corn husked, and in my cases the piles of ears are lying rown when husked. This will mean great deal of work with corn in the te winter and spring. There is also grave danger of too much moisture the corn, causing enormous losses seed corn through frost later on. is impossible to get on the fields th wagons when the weather is fair is the ground is so soft that no team in haul any load worth while.

FRONTENAC—To give an idea of he extent of shipping from this distriet during the fall it may be said that during October 1,143 head of catle were shipped out of the district ade up chiefly of butchers' cows, can-ers and feeders. HURON—The root crop has suffered

great deal from frost and bad weather. Mangels were in many cases frozen on the ground and are reported as not being worth harvesting. Pecsibly 20 per cent of the turnips are still in the field. While there is no report of serious injury to the turnips the soil is so soft from recent rains that it is almost impossible for the farmers to get on the fields to harvest them. If the present fine weather con-tinues this job should, of course, be inished within the next week or so. MIDDLESEX — So far this month about 15 carloads of beef cattle have been shipped out. The number of feed-ers brought in equals about 75 per ent of the cattle shipped out for the nouth of October and the first half of November. This shows that the farmers are staying with the beef in-

NORTHUMBERLAND-Many farmers still have buckwheat in the fields. The extremely unfavorable weather has practically ruined this crop, hundreds of acres being left in the county a

One of the favorable features of the agricultural situation in the county at present is the encouraging condition of the apple market, both from the point of prices quoted and also from incrossed interest evidenced by buyers mand during the past month for horses cattle and feeders. In the neighbor-hood of 120 horses have been shipped from one station in the county. A number of registered Holstein cattle have been shipped out and a number of lifeeders from outside the county have

been shipped in.
