THE HOUSE OF ASSEMBLY,

1805.

PROCLAMATION.

BY HIS EXCELLENCY

SIR JOHN WENTWORTH, BARONET, L. L. D.

Lieutenant-Governor and Commander in Chief, in and over His Majesty's Province of Nova-Scotia, and its Dependencies, &c. &c.

HEREAS, the General Assembly of this Province, stands prorogued to Thursday the Fourteenth day of November next:

I have therefore thought fit, by and with the advice of His Majesty's Council, further to prorogue the said General Assembly, to Thursday the Twenty-eighth day of November next, then to meet for the Dispatch of Business: of which, all persons concerned, are hereby required to take notice and govern themselves accordingly.

GIVEN under my Hand and Seal at Arms, at Halifax, this 25th day of October, 1805, and in the 46th year of His Majesty's Reign

J. WENTWORTH:

By His Excellency's Command,

B. WENTWORTH.

GOD SAVE THE KING.

JOURNAL

AND

PROCEEDINGS

OFTHE

HOUSE OF ASSEMBLY,

Of the Province of Nova-Scotia, 28th November, 1805.

Thursday, 28th November, 1805.

HE following Members having affembled agreeably to his Excellency the Lieutenant-Governor's Proclamation hereunto annexed, viz.

Mr. Millidge, Mr. Robie, Mr. Lovet, Mr. Mortimer, Mr. Northup, Mr. Tonge, Mr. Morton, Mr. Cochran, Mr. Marshall, Mr. Pool, Mr. Barís, Mr. Sargent, Mr. Pyke, Mr. Fulton, Mr. Dimock, Mr. Morris, Mr. Campbell, Mr. Oxley, Mr. Allifon, Mr. M'Monagle, Mr. Wilkins, Mr. Crane, Mr. Monk, Mr. Lyon.

The Clerk acquainted the faid Members that he had received a letter from the Speaker, dated Halifax, the ninth day of November last, addressed to him; which letter the Clerk, by their direction, read, and is as follows:

"SIR,

"My private affairs requiring my presence in England, and Ireland, after an absence of so many years, I felt under the necessity to apply to the Lieutenant-Governor, for leave of absence, which he has been pleased to grant me, for six months.

- I feel great regret, that the time appointed for the meeting of the General Affembly, will put it out of my power to attend my duty on that occasion. The uniform favor that I have experienced from the House of Assembly, during the many years I have belonged to it, flatters me with the hope, that the House will view this temporary absence from duty, on my part, with the same kindness, that it has on all other occasions, excused the various errors and failings, that must have appeared, during the great length of time, which I have filled the high and honorable station, which the partiality of this as well as former Houses of Assembly, has induced them to place me in. I have taken the liberty through you to announce to the House, my departure from the Province, with his Excellency's permission, and my fixed determination, to return to the Province, and to refume the duties of my station, with the utmost expedition, and I most sincerely hope, that the House, when it considers, that I have never before been absent for a single day from my duty, during the numerous Sessions that I have attended, upwards of two and twenty years, that the House will excuse my absence the prefent Session, and will select, from amongst the great number of able and experienced Members, which at present belong to it, a proper person to discharge the high office of Speaker until my return. The only confolation I experience for the fincere regret with which I feel the unavoidable necessity of my absence, arises from the conviction, that the House will be able to supply my place, without inconvenience; and I beg you to affure the House, that however I feel the pressure of private concerns, should not have been absent on this occasion, if I had supposed that any serious inconvenience would have been felt by the House.

I hope the House is sufficiently satisfied, how extremely I feel interested in the affairs of this Province, to make it unnecessary for me to assure it, that my utmost exertions shall be made while I am at home, to forward and promote its best interests; and should the House deem it necessary, to honor me with any commands, I shall consider it my first duty to comply with its wishes, and by every act in my power, to convince the House, how highy I value its savor, and how grateful I feel the remembrance of its extraordinary kindness and savor towards me.

The public concerns trusted to me, and of which, through you, I beg to give the House some information, consists of only two objects, the one the continuance of the correspondence with the Provincial Agent, which, since the last Session, has consisted merely of common intercourse, and formal communication, as the engagement of His Majesty's Ministers in the weighty concerns of the nation, had suspended any particular attention to Colonial Affairs; but I slatter myself with the hope that my being on the spot will give activity to measures so highly important to the interests of the Province: and, I beg the House to believe, that no pains or diligence shall be wanting on my part to convey to His Majesty's Ministers a just and impartial statement of the present situation of the British Colonies, and the absolute necessity there is for the eye of Government to be turned towards objects so very important.

The Publication of the Province Laws has been at length effected, and the work will be ready to lay before the Legislature at its next meeting: the difficulties I have experienced in perfecting a laborious undertaking of the greatest public importance, have been very great, but should it merit the approbation of the Legislature, and be of use to the Province, I shall consider myself amply rewarded."

A meffage from his Excellency the Lieutenant-Governor, by Mr. Gautier, the Deputy-Secretary, commanding the attendance of the Members in the Council Chamber:

Accordingly the Members went up to the Council Chamber, when the Prefident of His Majesty's Council said,

Gentleman of the Council, and Gentleman of the Affembly,

I am commissioned, by his Excellency the Lieutenant-Governor, to declare to this General Assembly that it is his Excellency's pleasure that this General Assembly be prorogued until Saturday next, then here to meet for the dispatch of business—and this General Assembly is accordingly prorogued until Saturday next.

Saturday, 30th November, 1805.

The following Members having affembled, agreeably to the Prorogation declared by the Prefident of His Majesty's Council on Saturday last, viz.

Mr. Millidge, Mr. Campbell, Mr. Dimock, Mr. Lyon, Mr. Northup, Mr. Fulton, Mr. Monk, Mr. Pool, Mr. Mortimer, Mr. Marshall, Mr. Oxley, Mr. Moody, Mr. Pyke, Mr. Crane, Mr. Cochran, Mr. Rutherford, Mr. Wilkins, Mr. Lovet, Mr. Sargent, Mr. Bolman, Mr. Robie, Mr. Morton; Mr. Morris, Mr. Wollenhaupt, Mr. Tonge, Mr. Barfs, Mr. M'Monagle, Mr. McCurdy.

Jacob Van Buskirk, Esq. returned, duly elected, as a Representative for the County of Shelburne, in the room of James Cox, Esq. deceased, took the usual Oaths prescribed by Law, and subscribed the usual declaration, in the presence of the Honorable John Butler Butler, one of His Majesty's Council, (the Master of the Rolls being ill, and unable to attend.)

After which a message was delivered from his Excellency the Lieutenant-Governor, by the Honorable John Butler Butler, desiring the House of Assembly would proceed to the choice of a Speaker in the room of Richard John Uniacke, Esq. who had gone to England

England on his private affairs, by his Excellency's leave, and to prefent the member chosen for his Excellency's approbation.

Mr. Millidge then proposed to the House, John George Pyke, Esq. member for the town of Halifax; and Mr. Morris proposed William Cottnam Tonge, Esq. His Majesty's Naval Officer, and member for Newport, for their Speaker: and the choice of the House having fallen upon William Cottnam Tonge, Esq. he stood up in his place, and, expressing the honor proposed to be conferred on him by the Honse, submitted himself to their choice, and he was taken out of his place by Charles Morris, and James Moody, Esquires, and conducted to, and placed in, the Chair accordingly, and thereupon Mr. Speaker elect addressed the members as follows:

GENTLEMEN,

I FEEL this to be the most honorable day of my life, the exalted station in which your favorable opinion has placed me, has long been an object, and I trust a laudable object, of my ambition, but to succeed, as I have done, without intrigue, without personal solicitation or the influence of party, by the voice of so great and respectable a majority, is highly gratifying to my feelings. Gentlemen, I am fully conscious of wanting numerous qualifications necessary for filling worthily the honorable seat you have given me, but I trust, my exertions to promote the honor of the House, and support its just rights, and my strictly impartial conduct, may prove me in some measure worthy of the distinguished mark of considence you have conferred on me, so that those who have favored me with their voices may not repent their choice, and those who have not, may be finally satisfied with that which is made.

A meffage was delivered from his Excellency the Lieutenant-Governor, by the Deputy Secretary, commanding the attendance of the House in the Council Chamber.

Accordingly, Mr. Speaker elect, with the House, went up to attend his Excellency in the Council Chamber, where Mr. Speaker elect was presented to his Excellency by Mr. Northup, upon which his Excellency approved of the choice the House had made.

The House being returned, and Mr. Speaker having taken the chair,

Mr. Speaker reported that the House had been in the Council Chamber, where his Excellency had been pleased to approve of the choice the House had made of him to be their Speaker, and that he had spoken to the following effect:

May it please your Excellency,

Your gracious approbation of the choice of the House, confers on me the highest honor, and demands my most grateful acknowledgements, which I humbly request your Excellency to accept.

Your Excellency having, at the first Session of this Assembly, consirmed to the House and its Members all their ancient and accustomed privileges, I have, at this moment,

nothing to ask in their behalf.

For myself, I have to solicit from your Excellency a large share of candid and indulgent consideration: deeply conscious of my desciency in those qualifications necessary for silling with dignity, and public advantage, the exalted station in which I am so honorably placed, I trust that my zealous and loyal attachment to my Sovereign and His Government, and the warm interest I have in the welfare of this my native country, may compensate, in part, for that desciency, and that in your Excellency's goodness I shall find excuse for the rest.

Relying on this, I expect, with humble confidence, a favorable confiruction of my conduct, that it may be attributed to those pure and upright motives which shall ever direct it, and that any errors I may fall into, may be confidered merely as such, and not as proofs of any design to do wrong.

Finally, I beg your Excellency to receive my folemn affurance, that in my present important office it will be my pride, as I feel it my duty, to promote, with the utmost of my ability, the honor of His Majesty's Government, the ease of your Excellency's

Administration,

Administration, the general welfare of this Province, and to advance and maintain that harmony which ever ought to exist between the different branches of the Legislature.

Amessage from his Excellency the Lieutenant-Governor, by Mr. Gautier, the Deputy-Secretary:

Mr. Speaker,

His Excellency commands this House to attend his Excellency immediately in the Council Chamber.

Acordingly, Mr. Speaker, and the House went up in the Council Chamber to attend his Excellency.

And being returned:

Mr. Speaker reported that the House had attended his Excellency in the Council Chamber, where his Excellency was pleased to make a Speech, of which Mr. Speaker said he had, to prevent mistakes, obtained a copy, which he read to the House, and is as follows:

GENTLEMEN OF HIS MAJESTY'S COUNCIL, AND OF THE HOUSE OF ASSEMBLY:

I HAVE deferred calling you together until this feason, in order to meet the general convenience of the Members, and from a consideration, that the Laws pass lat your last Sessions contemplated a recess until this time.

HAVING nothing, special, in command from His Majesty to lay before the Legislature, I have only to recommend your attention to the revival of such Laws as may be near expiring, and for making a suitable provision for the support of His Majesty's Government, and such public services as may be deemed necessary.

In all your discussions you will naturally recollect that the Legislature being deliberative Bodies, independant of each other, it is of the utmost importance to avoid every thing which may occasion irritation between them, and to exercise, towards each other, such moderation as may tend to conciliate harmony, and manifest a determination to unite together in promoting the public welfare, without which the business of the country must be retarded, and the end and object wished for often wholly defeated. On my part you may rely on a readiness to concur in every measure which shall appear to be conducive to the interest and honour of His Majesty's Government and People.

I SHALL direct the proper Officers to lay the public Accounts before you; and whatever special business may occur in the course of the Session for your consideration, shall be communicated by particular message.

I HAVE great satisfaction in congratulating you on the reports received from every part of the Province, of its general prosperity: For the blessings of health, and of a plentiful harvest, for the increase of the sisheries, and the manifest improvement of our agricultural concerns, we have abundant reason to be thankful to the Author of all good.

On motion, ordered, That Mr. Morris, Mr. Robie and Mr. Campbell, be a Committee to prepare an Address in answer to his Excellency's Speech.

On motion, ordered, That Mr. Crane, Mr. Chipman, Mr. Lyon, Mr. Mortimer and Mr. Wollenhaupt, be a Committee of this House, for the purpose of examining the Public Accounts jointly with a Committee of His Majesty's Council; and that the Clerk do acquaint the Council therewith.

On motion, ordered, That Mr. Monk, Mr. Pyke and Mr. Cochran, be a Committee to report what Laws are near expiring, and for preparing and bringing in a Bill for continuing the same.

Refolved, That no petition, of a private nature, be received after Thursday the twelsth day of December next.

Individually obliged, as many of us are, to your Excellency, for confulting our convenience in calling us together at this scason; yet we cannot but regret that an attention to our personal comfort should have caused the meeting of the House to be so long deferred, as the Revenue Laws were extended to an unusual time, in the full considence that an appropriation of the Monies raised by them would have taken place.

We beg leave to affure your Excellency, that we will take into our early confideration the Laws that are now near expiring; that we will not fail to make fuitable provision for the support of His Majesty's Government, and such services as may be deemed necessary: and that every means, in our power, shall be used to promote harmony, and a good understanding between the different Branches of the Legislature—being well convinced that nothing will tend so much to promote the public good, as a fair and dispassionate exercise of the deliberative powers with which each Branch of the Legislature is, by our excellent Constitution, invested.

When the Public Accounts are laid before us, your Excellency may be affured that we will give them our ferious confideration: that we will lose no time in bringing the business of the Session to an early conclusion; and that we shall, at all times, take great pleasure in attending to any message from your Excellency; and we rely, with confidence, upon your Excellency's assurance of your ready concurrence in every measure that may conduce to the honor of His Majesty's Government, and the happiness of His Majesty's Subjects in this Province.

The Chairman reported from the Committee, that they had gone through the business to them referred, and that the Committee had come to a Resolution thereupon, which the Committee had directed him to report to the House, and he read the Resolution in his place, and afterwards delivered it in at the Clerk's table, where it was read, and is as follows:

Refolved, That it is the opinion of this Committee, that a further conference should be held with His Majesty's Council by Committee, and that the Managers, on the part of the House, do deliver to the Committee of the Council, a written answer to the Paper received by them on the conference on Saturday last, in the words following, viz.—The Committee of the House of Assembly, appointed to confer with the Committee of His Majesty's Council, are directed to state, that in framing the Bill of Appropriation, now before the Council, the House of Assembly had no idea of taking for its basis the votes passed in the last Session, further than as they related to the remuneration of past services, and the payment of debts allowed to be due from the Province.

The House consider those votes which passed two branches of the Legislature, but were never assented to by the Governor, nor even authenticated by the signature of the President or Speaker, as the mere materials for an Appropriation Act for the Session in which they were passed.

The Househaving witnessed, with the greatest concern, theinjurious effects arising from the want of the usual Appropriation Act, by which, during the long recess of the General Assembly, the Servants of Government have remained unpaid, the Creditors of the Province unsatisfied, the most beneficial public services suspended, and the commercial interests of the community greatly injured by the operation of duties which constantly drew out of circulation the current specie of the country; and considering that the objections to part of the Appropriation Bill of last year might still subsist in sull force, or that new obstacles on similar principles might be suggested; determined at the commencement of the session to separate from every subject on which difference of opinion had existed, or might eventually arise, two grounds of appropriation, on which they conceived no disagreement could possibly occur, namely, the support of His Majesty's Government and the payment of the acknowledged debts of the Province; upon which principles only, the Bill before the Council is grounded; so, that, if unhappily, differences should still continue between the several branches of the Legislature; these essential objects might not be involved in their essential objects might not

Although the House do not consider themselves bound to assign any reasons for not making any appropriation of which they do not see the immediate expediency; yet willing to give His Majesty's Council the most convincing proofs of their conciliatory disposition, they state with candor their objections to the heads of general service suggested by His Majesty's Council as proper to be included in the present Appropriation Bill, as follows:

The vote for the Light Houses, was originally a part of the present Bill, and omitted, because the Ireasurer had shewn to the Committee of Public Accounts, that the amount of the Light-House contracts was already paid, and because there is a permanent law to warrant the appropriation.

On the head of Roads and Bridges, the House observe, that many of the votes for that service which were ample at the last session, may, after the laste of eighteen months prove very insufficient for the repairs they were granted for, that as there will now be a much more considerable sum to be applied to that service, it would be highly inconvenient to have two separate distributions; and that it is indispensably necessary, that some system of regulation should be agreed on before any appropriation is made, as the House are averses from granting any monies, which they cannot before will be fully accounted for.

On the vote of eight hundred pounds for the contingent expences of the House of Assembly, the House desire to observe, that it is to be applied in the usual manner, in a daily allowance of ten shillings for the expences of the members, on the certificate of the Speaker; a previous estimate of which has never been thought necessary.

The House in the last session stated to His Majesty's Council, that the sum voted, was only sufficient for that purpose, and to discharge arrearages due on that service in former sessions.

The faid Report and Resolution, were read throughout a first and second time; and, upon the question severally put thereupon, agreed to by the House.

Then the House adjourned until To-morrow at Eleven of the Clock.

Saturday, 21st December, 1805.

PRAYERS.

The proceedings of yesterday being read; thereupon,

Mr. Monk moved, That every part of the Instructions to the Committee of Conference to be held with the Council, except the first clause, and those with respect to the Light-Houses, and the Contingent Expences of the House of Assembly, be struck out of those Instructions; which, being seconded and put, and the House dividing thereon, there appeared, for the motion, twelve; against it, sourteen.

So it passed in the negative:

On motion, ordered, that the Clerk do desire a further conference with His Majesty's Council, by Committee, on the subject matter of the last conference.

The Clerk reported that the Council had agreed to the conference as defired by this House, immediately in the Committee-Room of the Council.

Ordered, That the Managers who managed the last conference, do manage this conference; and, also, deliver to the Committee of Council a copy of the instructions reported yesterday.

The managers went to the conference accordingly.

And being returned,

Mr. M'Monagle reported, That the managers had been at the conference, and stated that they had delivered to the Committee of the Council a copy of the instructions given to them by the House.

A Bill to enable the Justices, in their Sessions, to provide for the payment of such Law Officer as may be appointed to prosecute the Pleas of the Crown before the Sessions, was read a second time; and, thereupon,

Mr. Roach moved that the faid Bill be dismissed, which, being seconded and put, passed in the affirmative.

A Bill for the further regulation of Surveyors of Highways, was read a second time. Refolved, That the Bill be committed to a Committee of the whole House.

A petition of William Sabatier, James Fraser, and others, a Committee of the Merchants, and other inhabitants, of Halisax, interested in the trade to the West-Indies, was presented by Mr. Lyon, and read, setting forth, That the Merchants of Halisax, and others, interested in the West-India Trade, sinding their business very much obstructed

by means of the free trade to the Islands, permitted to the citizens of the United States of America, contrary to the true principles of the Navigation Act, the real interests of the British Empire in general, and of this Province in particular, appointed the Petitioners, a Committee, to state their situation to His Majesty's Ministers, which they accordingly did, in a Petition, and Memorial, dated the twenty-third day of March, 1804.

That the Petitioners have, fince that time, received answers to their representations, which, with other circumstances, afford the most flattering prospect of success, in excluding the citizens of the United States from the Trade of the British West-India Islands; but they are concerned to be obliged to state that, from various causes, so great has been the emigration of Fishermen, and others, from this Province to the American States, that the customary offers of the Merchants, which is all they can possibly afford, have hitherto proved insufficient to draw them back again to this Province; on the contrary, during the last season, even a great many industrious families have gone to that country. This has been, in a great measure, occasioned by the encouragement by bounties held out by the Legislatures of those States, and, partly, by the burthens, expences, inconveniencies and depressions, to which this Trade is peculiarly subject in time of war: and which, during this last summer, have, in one instance, at least, increased beyond any former precedent.

That the obstacles which the Petitioners have to encounter, are so great, and so numerous, that, in order to complete their share of those encouragements which the Merchants of this and the neighbouring Provinces have entered into with Government, and their fellow subjects in the West-Indies, every aid will be required: but, at the same time, so encouraging are their prospects, derived from the late measures of Government, and which have, though reluctantly, been adopted in the West-India Islands, that they are induced to proceed; well knowing the immense advantages which must necessarily result to every description of persons resident in this Province, if their efforts are finally successful; and, also, dreading the inevitable consequences of a failure, which, however unfairly used, will, assuredly, in adverse hands, surnish so unfailing an argument, as will destroy the means of every suture application on this interesting subject; and praying the House would take the premises into consideration, and, from its wonted zeal for the prosperity of the Province, afford the Petitioners, and their Constituents, such aid and encouragement as lies within their power to grant.

Mr. Lyon also delivered, to the House, several papers which accompanied the said petition; and, thereupon,

On motion, ordered, that the faid petition, and papers, be referred to Mr. Lyon, Mr. Mortimer, Mr. Barís, Mr. Pool and Mr. Rutherford, who are to examine into the subject matter thereof, and report their opinion thereon to the House.

Mr. Mortimer reported from the Committee to whom the petition of Edward Whitman, and others, was referred, and he read the report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

That it appears to the Committee that the evil therein complained of, exists, throughout the Province, to an alarming degree, Merchants and Farmers are not the only sufferers by being crampt in their respective pursuits, but in many recent instances property has been attached, and sold, for one fourth of its value: and it frequently happens at a Sherist's sale, that no person appears to offer, there being little or no circulating cash in the country, expences accumulate, and, in the end, the debtor is bereaved of a considerable property to liquidate a trisling debt.—The Committee are, therefore, of opinion that the adoption of a judicious system of paper credit would be of infinite service to the Province.

Ordered, That the Report do lie on the Table; and that the Committee above-mentioned do prepare, and bring in, a plan for carrying into effect the object they have recommended to the House.

On motion, refolved, that a Committee be appointed to wait on his Excellency the Lieutenant-Governor, to acquaint him that the House have yet received no satisfacti-

on on the subject of the balance stated to be in the hands of the Treasurer; that the business of the Session is materially impeded for want of this information, as the Committee of Public Accounts cannot report, and the House are unwilling to proceed to the appropriation of monies which, having been raised from the subject, have not yet been accounted for to their satisfaction.

Ordered, That the foregoing resolution be presented to his Excellency the Lieutenant Governor, by the Committee who waited on his Excellency with the resolution of this House of the 10th instant.

A petition of William Cutten, and others, inhabitants of Onflow, was presented by Mr. McCurdy, and read, setting forth, that they suffer much inconvenience from the time appointed by law for the sitting of the Supreme Court in the District of Colchester, and praying relief.

Ordered, That the Petition do lie on the table.

Then the House adjourned until Monday, at Eleven of the Clock.

Monday, 23d December, 1805.

PRAYERS.

Mr. Chipman reported from the Committee appointed to examine into the state and condition of the Old Government House, and he read the report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

That the Committee have examined into the state and condition of the said building, and find the same in a much better state than they expected, and are of opinion that it may be sitted up for the accommodation of the General Assembly, and the King's Courts: the south end of the said building to be appropriated for the use of the said Courts; the north end for the Assembly; and the south end, above stairs, for the Council.

On motion, refolved, that it appears the Old Government House can be made convenient for the accommodation of the General Assembly, and the King's Courts, and for other public purposes; and that it will not be necessary longer to hold the buildings leased from Messrs. Cochrans', and that it will be expedient to give notice to Messrs. Cochrans' that the Buildings aforesaid, will be surrendered up on the first day of July next, and that his Excellency the Lieutenant Governor be requested to cause such notice to be given, pursuant to the Act of the Province.

Ordered, That the Clerk do carry the foregoing Resolution to the Council, and desire their concurrence to the same.

A message from the Council, by Mr. Gautier:

Mr. Speaker,

The Council have agreed to the Bill, entitled, An Act for altering the time of holding the Courts of Common Pleas, and General Sellions of the Peace, in the Counties of Annapolis and King's County, without any amendment.

The Council have agreed to the Resolution of this House respecting the old Government House.

The Council have agreed to the Bill, entitled, An Act to regulate the expenditure of public monies granted for the making, building or repairing, Roads and Bridges, throughout the Province, with several amendments, to which they desire the concurrence of this House.

And then the messenger withdrew.

A Message from the Council by Mr. Gautier:

Mr. Speaker,

The Council request a Conference by Committee on the subject matter of the last conference, immediately, in the Committee-Room of the Council.

And then the Messenger withdrew.

Resolved, That this House doth agree to the Conference, as desired by the Council, and that the Clerk do acquaint the Council therewith.

Ordered, That the Managers who managed the last conference do manage this conference, and that they do attend accordingly.

The Managers went to the conference.

And being returned,

Mr. Wilkins reported, That the Managers had been at the conference, and stated to the House, that they had received from the Committee of the Council a written paper, which he read, and is as follows:

The Committee of Council, in conferring with the Committee of the House of Assembly, are directed to say,

That the reason which the House of Assembly has assigned with regard to the sum of Five Hundred and Thirty Pounds, voted last session for the support of Light Houses, may be sufficient to prevent the money being drawn, but the vote is a pledge for the suture support of the Light Houses, and should so remain.

That the votes for granting money, which were agreed to by the Council and Assembly the last session, cannot be set aside or rescinded, without the violation of the faith of Government, and therefore it is as requisite that those for Roads and Bridges, amounting to Three Thousand Two Hundred and Seventy Pounds, as also, that for Two Thousand Five Hundred Pounds towards completing the new Government House, should be inserted in the present Appropriation Bill, as those for the support of Government, and the payment of acknowledged debts.

The Council have no hefitation in stating, as their opinion, That all the Resolves for money sent to the Council the last session, and agreed to, are separate appropriations and Legislative Acts of the two Houses, although only signed by the Clerks of both Houses; the Journals of the respective Houses being the proper evidence thereof; and that the Lieutenant Governor is fully warranted to daw on the Treasury for such parts, or the whole of them, as he may deem proper, although the Act of Appropriation did not pass.

As to the vote of Eight Hundred Pounds, for the Contingent Expences of the House of Assembly last sessions, the Council are fully disposed to concur in it, if the House will send up a particular Statement, to shew that the sum was necessary to pay the Members Ten Shillings per diem, for the attendance of each individual.

The Council forbear to reply to the injurious effects suggested by the House as resulting from the non-payment of the Oslicers of Government, the Public Creditors, &c. because the opinion of the House, industriously propagated at the close of the last Sessions, that grants for those services were materials only for an Appropriation Bill, and of no validity, unless it passed into a Law, sufficiently accounts for them.

On motion of Mr. Mortimer, refolved, that the confideration of the above written paper, from his Majesty's Council, be deferred to the next Session.

On motion, referred, that the Clerk do carry a copy of the foregoing Resolution to his Majesty's Council, and request that they send down the Appropriation Bill, now before them, agreed to, or disagreed to.

Mr. Wilkins, reported from the Committee appointed to wait on his Excellency the Lieutenant Governor, with the Resolution of this House of Saturday last, that they had

waited

waited on his Excellency accordingly, and presented the same to his Excellency, and that his Excellency had been pleased to deliver to the Committee a written paper, which he read in his place, and afterwards delivered the same in at the Clerk's Table, where it was read, and is as follows:

GENTLEMEN,

I have, in consequence of your address to me on the subject of the Treasurer's Accounts, made particular enquiry into the state of the Treasury, and have additional reasons to be satisfied with the conduct of that officer. Considering the Votes of the two Houses, passed in the isst Session, as appropriations of the monies granted therein, I have, since the 30th September last, drawn by warrants for Services, so voted, to nearly sive thousand pounds: The difference between that sum, and the balance stated by him, in his Account, to the 31st October, and sound correct by the Committee of Public Accounts, remains partly in cash, and partly in Securities received of the Merchants for Duties, with a view to their accommodation, and to obviate the inconvenience of taking money out of circulation not immediately wanted; a considerable part of which will be absorbed by the payment of the grants of last Sessions which yet remain unsatisfied.
