COUNTER ATTACKS RESULT IN FURTHER GAINS FOR ALLIES

French Recapture Positions West of Mont Kemmel

Further Advantages Gained by the Allies in Hangard-Villers-Bretonneux Sector; Severe Fighting on Lys Front and Enemy Advance is Held at all Points

By Courier Leased Wire London, April 27.—Continuing their counter-attacks on the front east of Amiens, the Allies have gained further advantages in the Hangard-Villers-Bretonneux sector, it is announced officially.

broken up last night, the War Office announces. Artillery fighting continues on the front between Villers-Bretonneux and Hangard.

ties in the British ranks reported this week totalled 18,369. The losses were divided as follows: Killed or died of wounds: Officers, 408; men, 2,661.

The French have recaptured positions from Locre to La Cysite, in Flanders, west of Mont Kemmel. The fighting on the Lys was very severe. The enemy advance was held at all points. Heavy losses were inflicted on the Germans.

Despite the heavy fighting for more than a month past the British casualties reported are only now beginning to approach the high figures for week after week of last year when the British were on the offensive on the western front.

A NATION ON THE THRESHOLD OF WAR. Germany has long cast covetous eyes at the Dutch coast and only one young life, Princess Juliana, stands between Germany and her object.

CAPTURE OF KEMMEL BY FOE COSTLY

Terrible Execution Wrought in German Ranks by Machine Guns

VALIANT RESISTANCE French Held the Hill for a Length of Time Now Unknown

By Courier Leased Wire With the British army in France, April 26. (By the Associated Press)—How long the French regiment was able to continue its dramatic resistance on the crest of Mont Kemmel yesterday may not be known until the German historians record it after the war.

UTMOST EFFORT REQUIRED

By Courier Leased Wire London, April 27.—Commanding the Flanders battle in serious tones, the morning newspapers contend that the situation imposed upon Great Britain the necessity of putting forth the utmost effort, especially of furnishing more men to supply the wastage in the ceaseless fighting.

despite the loss of Mont Kemmel, but the tenure would be costly and precarious. It hopes that it will be found possible to dislodge the enemy as at Villers-Bretonneux, otherwise, it says a further withdrawal of the Ypres line may be desirable. The Chronicle contends, however, that the present value of Ypres is only secondary.

SPEND LAST DOLLAR TO WIN WAR, SAYS BORDEN

Spirit of Canada is Patriotism Incarnate—Vast Majority of People of Quebec Accepting Conscription.

By Courier Leased Wire New York, April 27.—The New York Sun this morning publishes a lengthy interview with Sir Robert Borden, who arrived in this city yesterday. Sir Robert is quoted as saying that Canada will spend her last dollar to win the war and that every able-bodied man will be conscripted.

NATIONAL COUNCIL OF WOMEN TO MEET HERE IN JUNE NEXT

Invitation Extended by Women's Patriotic League is Accepted

A well attended meeting of the Women's Patriotic League in conjunction with the local Council of Women and Canadian Red Cross was held in the Y.M.C.A. on Friday afternoon, Mrs. Livingston presiding.

SUGAR BOUND FOR U.S. WAS CONFISCATED

Motorists Passing Through City Had Quantity in Their Possession

Motorists from American cities, passing through Brantford yesterday, were fined by W. Scruton of the local customs department, and several hundred pounds of sugar stored in the cars confiscated, under the authority of the order-in-council which prohibits the export of sugar from Canada to the United States.

EARN AND GIVE CAMPAIGN TO BE CONDUCTED

Two Hundred Brantford Boys Will Aid Red Triangle Fund

Thursday next starts a novel campaign in Canada, which promises to help the Red Triangle Fund of the Y.M.C.A. in no small degree. This will be called the Earn and Give Campaign, and is a movement by which the boys of Canada will make a vital contribution.

DELIBERATELY HARASS AND WORRY THE ENEMY

Canadians Raid Boche Lines Persistently; Sorties Are a Nightly Occurrence, and Often Executed Without Casualties to Our Men

By Courier Leased Wire Canadian army headquarters in the field, via London, April 27.—(By W. A. Willson, Canadian Press correspondent)—Carrying out a deliberate policy of harassing and worrying the enemy, the Canadians all along their front, are raiding the Boche lines persistently.

PROF. HUNT IS KILLED IN ACTION

PROF. A. HUNT.

IN DEBATE ON ALIENS.

H. S. Clements whose resolution regarding aliens in Canada was carried in the House Monday night, is shown in the upper left; P. C. McIntosh, Nanaimo, upper right, and R. F. Green West Kootenay, at the bottom. Both opposed Chinese labor in British Columbia.

PROF. HUNT IS KILLED IN ACTION

While our infantry has been worrying the enemy so constantly and so successfully, securing identifications, bombing dugouts, rushing posts and penetrating the opposing lines, our artillery has been very active not only in supporting raids with intensive barrage fire, but in harassing the enemy.

In the midst of such activity comprehensive preparations are being made to observe Mother's Day, May 12. The chaplains are giving special services at parade services voluntarily, mid-week and Sunday evenings meetings, while the religious work committee of the Canadian Y.M.C.A. is conducting a movement aimed at having every man write home to his mother on that day.

Corn is now moving into Canada, and will be available for human consumption and for feed for live stock. A Matthews, a recruit in the military hospital at Wolseley, Barre, London, Ont., suffering from severe gas in his throat.

PROF. HUNT IS KILLED IN ACTION

Leader in Boy Knight Work Reverted in Rank to Reach Front

"Deeply regret to inform you your husband, Pte. Alfred Hunt, killed in action April 14."

Among the prisoners captured were several young officers, who gave their opinion of things in general with refreshing candor.

Canada's trade during the year ending with March increased by \$315,292,044, totalling its exports and imports \$2,564,462,215.

SUNDAY SCHOOL

Lesson 4—Second Quarter, April 28, 1918.

THE INTERNATIONAL SERIES

Text of Lesson, Mark 9:30-50—Memory Verse, 1 John 4:21—Golden Text, Mark 9:35—Commentary Prepared by Rev. D. M. Stearns.

Repeatedly Christ told them that he should suffer and be killed, and rise again the third day (vs. 30-32), but I know of no one who believed it except Mary of Bethany. They had other thoughts than his and therefore could not receive his words. This is no doubt the reason why so many today cannot receive the teaching concerning his coming again to set up his kingdom on this earth.

INTERMENT AT WOODHOUSE. The funeral of the late Daniel Matthews was held at 2 o'clock today. Rev. A. B. Farney, rector of Trinity Church, officiated. The service at the house and read the last ritual rites over the open grave. Interment took place at St. John's Cemetery, Woodhouse, where many of Norfolk's gifted citizens sleep their last sleep.

VISITED CLEVELAND. A Trip of Two-Fold Interest to Local Auto Owners. A trip to Cleveland last week by Mr. B. M. Smith, of the Willard Service Station, accompanied by Mr. Walter Wilson, of Guelph, would seem to have solved, to a great extent, the problem of shipping freight shipments without the delay, such as is experienced frequently these days.

THE REMAINING VERSES OF OUR LESSON CHAPTER (49-59) are among the most awful riches, and three times he mentions hell, and the few that never shall be quenched. He shows how what it means and he does not want us to know, for he is not willing that any should perish. It was not prepared for us, but for the devil and his angels (Matt. 25:41), but wherever it is and whatever it is, it must be a fearful real.

On the accompanying map the Wednesday gain made by the Germans is indicated.

Valuable Properties for Sale by Tender! S. G. Read & Son, Ltd. Offer for sale by tender, the following mentioned valuable properties. Tenders to be addressed to the undersigned up to and including Friday 26th April, 6 o'clock in the evening, for the purchase of:

Silver Stocks The fixing of silver metal price at \$1.00 means great prosperity for Cobalt properties. This price will remain for years to come. The purchase of \$350,000,000 ounces by the United States Government cannot be completed under five years, possibly ten. Buy now before the boom starts in Silver shares.

SIDELIGHTS ON OTTAWA
H. F. Gadsby's Weekly Letter From the Capital; Appreciation of Sir Thomas White, Canada's Indomitable Finance Minister

Ottawa, April 27.—The good news is that the Provisional Son has returned—that is to say that the Finance Minister, Sir Thomas White, will be back on the job by the end of the session or sooner.

These are anxious days in connection with the position of affairs on the Western front. The struggle is developing tremendous proportions even for this titanic conflict and the enemy is leaving no stone unturned calculated to attain a decision in his favor.

A RANK INJUSTICE. Elsewhere in this issue The Courier gives the Hansard report of the vigorous protest which W. F. Cockshutt, M.P., made in the House of Commons with reference to about as rank a piece of injustice as the public records of Canada contain.

During the debate the instance of North Oxford came up, where the name-only of Mr. Nesbitt had been called over although Col. Sutherland was also running there as a soldier candidate.

Dear Sir,—I am taking the liberty of writing you to say that I would like you to give me your support on election day, Monday the 17th, and get as many others of your neighbors to do so as you can.

WEDDING BELLS RING AT ETONIA
Olive Mae Fawcett Became Bride of Ambros L. Simon of Blue Lake

Paris, April 26.—(From our own correspondent) A wedding of more than passing interest to Parisians was solemnized yesterday afternoon at Etonia church, when Miss Olive Mae Fawcett, daughter of Mr. and Mrs. C. Fawcett, Princeton, was united to Ambrose L. Simon, second son of Mr. and Mrs. W. A. Fielding, who is a Finance Minister emeritus, has had enough of the toilsome honor to last the remainder of his days, but the Hon. Arthur Meighen is ambitious of an amount of hard work.

EMPIRE'S THIRD ARM. London, April 27.—King George sent the following message to Baron Rothemann, the Air Minister, who has since resigned, on the amalgamation the other day of the Royal Naval Air Service with that of the Royal Flying Corps.

Margaret Garrett's Husband

By JANE PHELPS

MOULDING A MAN. Chapter XL. Twice again that summer Bob remained in New York without letting me know his intentions in time to join him; and twice again I shut myself away from the others and moped until his return.

Take it all in all it was a very happy summer for all of us. Our boy, we had named him Donald, was a healthy good-natured baby, and mother declared no care at all, Bob had wanted to name him Kendall after John Kendall, but I wouldn't let him, I always loved and admired the name Donald, so, although I know no one of that name save Donald Payne, it was the one I gave my baby.

Bob gave all his evenings to play tennis until time for our late dinner, then after that was over we would sit on the porch until we were sleepy. I enjoyed those quiet evenings with Bob beside me and would tell him how much I loved him as I slipped my hand in his in the half darkness of the summer nights.

But I flattered myself that he was beginning to realize that I was right in my demands; that he had decided he had a duty toward me, for he scarcely ever went over to the club in the evening, even when his friends were down. Elsie Barton said it was because he was too tired after his long days on the links but I knew better—at least I thought I did.

One day Elsie and I were talking of a girl we both knew who was unhappily married. "One might know they would be unhappy!" Elsie said in her usual decided way, "they haven't a single thing in common. She is gay, loves life, wants to go and have a good time; while he wants to sit at home, read his paper, and go to bed."

"If he were a strong enough character he could make her see it was her duty to stay at home with him," I replied. "What's a home for?" "I don't know about that! perhaps it is his duty to go out with her. What's sauce for the goose, you know."

"No, I don't know! when people marry their duty is to make a home for each other; to be happy together in it." "People don't always do their duty, Margaret. And how I hate the word; it always conjures up something unpleasant!" "You're as bad as Bob! he hates to have me use the word, but I do just the same. It is good for him to be reminded that he has a duty toward me."

"Have you commenced to realize, Margaret, that Bob isn't the quiet, domestic man you declared he was when you married him?" "Bob is all right, it is his friends, he will not see much of them in the future; so I won't have that to annoy me."

"I wouldn't be so positive of that, Margaret, and I—" "I wanted a moment for her to finish, then as she seemed disposed to drop the subject, I asked: "Grace marry that Mrs. Black?" "Propinquity and some sort of physical attraction probably." "What's horrid!" "It is the reason nine out of ten couples marry."

ADVICE TO MOTORISTS

Not all car owners know that pure rain water is the best that can be used in the cooling system. This is because it is free from mineral substances, which are present in ordinary water and which are deposited

on the metal walls of the radiator, piping jackets, etc. to their detriment. When rain water is available, always use it.

Spark plugs are frequently injured while being carried in the tool box. An excellent method of guarding against this is to slip each plug into a section of rubber hose, closing each end up with a bit of waste, to prevent the plugs working out.

Pipeclay acts as a preservative of rubber and makes one of the best

mediums for treating the rubber mats used in automobiles. Oil and grease are rubber solvents and ruin the floor mats if they are allowed to remain on them. The mats should be wiped dry and then be pipeclayed. The pipeclay dries and sucks the oil out of the rubber.

In filling the radiator of the car, allow enough water to pass in to bring the level over the end of the vent pipe.

If this pipe is clear, as it always should be the fact will be indicated

by the overflowing of the water through it. If it is not clear, the water will overflow through the filler cap and not through the vent pipe, which should be attended to at once.

This is the time of year to renew the rubber hose connection of the cooling system. These connections deteriorate, after a season's use and sometimes the inside layer of fabric separates from the rest and impedes circulation, without the defect being apparent from the outside. No kinks should be allowed in such connections and the clamp fasteners should be properly secured. Where rubber hose has bends in it a good plan is to reinforce it by brass coils spring white inside.

This prevents any flattening at the bend and cracking, resulting eventually in a leak.

Different locations demand different types of gasket material, depending on whether they are to be subjected to the action of the water or the gas. Gaskets in the water line should generally be of graphited asbestos cut from a sheet and then spread with shellac. Care must be taken not to get too much shellac because where there is an excess some of the shellac may be squeezed into the water jacket and make trouble. For oil joints use paper and for gas joints copper covered asbestos.

Spark plugs are a source of much obscure ignition trouble that car owners have great difficulty in locating.

In many cases the insulating material used in the constructing of the plug is porous permitting electric leakage through the porcelain and also allowing absorption of the carbon formed with each explosion, until finally the insulation changes its properties entirely. In such cases the car owner having cleaned his plugs and finding the trouble still existent, assigns its source to some other part of the system. In these circumstances the car owner is recommended to consult the service of a spark manufacturer and get a plug equipment which is especially adapted to his car.

The most severe strain that can be placed on rear axle or driving gear is to try to get out of a mud hole by backing up a little and then plunging forward on low gear.

The Joy of Motoring

LET the Ford car introduce you to the beauties of Nature and the outside world. Let it take you into the country, or along the lakes where the air is fresh and sweet.

A Ford car will open up new fields of pleasant possibilities for you and your family and at the same time serve you faithfully in business.

No doubt you have felt the need of a car—your wife has often said, "I wish we had a car," so why not buy one now? There is no other car that gives such good value for the money invested as a Ford. This is why the Ford car is so popular everywhere.

The Ford is powerful, easy to drive, economical, enduring. It is the car you need.

Ford	Runabout - - \$475
	Touring - - \$495
	Coupe - - \$770

If You Have a Vegetable Garden Read This...

The Brantford Thrift League asks you to fill out the coupon below and deliver or mail same to its Secretary at the earliest possible moment. This coupon properly filled out will register you with the Thrift League and will entitle you to privileges which only members enjoy. It is not necessary that you work land allotted by the Thrift League—if you are gardening and growing vegetables, that is enough.

The Thrift League has arranged for a supply of Government tested seed potatoes at a special price—also a complete assortment of other seeds for garden planting at a special discount. Full information can be obtained from the Secretary.

Act Promptly - Register Now

CUT OUT AND MAIL TO-NIGHT

Mr. H. T. Watt, Secretary, Brantford Thrift League, Imperial Bank of Canada, Brantford, Ont.	Date.....
Dear Sir— Kindly register my name and address with the Gardening Section of the Brantford Thrift League. I am going to plant a vegetable garden this year occupying a space about.....feet x.....feet. size..... size..... Signed..... Name..... Street Address.....	

THE BRANTFORD THRIFT LEAGUE.

FARMERS' APPEAL TO GOVERNMENT

Ask That Young Men Be Left on Farms Till Other Help is Obtained

MAN POWER NEEDED

At a meeting of the Brant County Board of Agriculture the following resolutions were unanimously agreed upon.

Whereas the recent man power bill will, in our opinion, result in a most serious curtailment of farm production by taking away from agriculture a great many young men who have already secured exemption and who are vitally necessary to maintain production.

We, therefore, the Brant County Board of Agriculture hereby request that the Government leave this help upon the farms until steps have been taken to replace it with labor from the cities, in order that the plans, already made, for production may be carried out. Realizing the seriousness of the situation we are prepared to accept the Government decision to take drastic measures, but we think it will be disastrous to take more help from the farms, particularly at this season of the year until it can be replaced, and we suggest that extra help might be got in the following ways:

- (1) By securing the release of experienced farm labor from shops and factories.
- (2) By replacing male with female labor where possible, so that further man labor may be available for production.
- (3) By closing up or restricting unessential industries, reducing advertising, canvassing agents, etc., so that more labor may be available for the important industries.

Protects Cheque From Forger.

A cheque book cover provided with a protecting device which makes it impossible for a man to raise a cheque, has been placed on the market. Various amounts up to one thousand dollars are stamped on the cheque near the row of perforations where it is detached from the stub. The protector is permanently attached to the leather cover of the cheque book, and it can be quickly adjusted for any of the three columns of figures. A sliding straight-edge is moved either up or down to the correct figure. The protector is pressed fast and the cheque torn from its stub.—Popular Science Monthly.

Fish for the Clam With Dynamite.

A clam cannot come out of its shell. Its home is on the low sandstone ledges into which it bores by means of its sharp shell, to a depth of six or eight inches.

The little pholas or boring clam is a great delicacy on the Pacific coast. Its meat is juicy and tender and is excellent in chowder. Consequently, fishermen are not content to dislodge the clams slowly with pick and crowbar. They use dynamite, one blast of which dislodges hundreds of clams.—Popular Science Monthly.

Will Control Milk Sales.

Winnipeg is planning to control milk sales. The citizens consume approximately 12,000 gallons of milk a day, of which 6,000 is pasteurized and 6,000 raw.

Object to German.

The Moose Jaw branch of the Great War Veterans' Association object to German being taught in Saskatchewan.

Suggestion is made as a temporary solution of the problem of operating the Toronto Eastern, a partly-constructed electric railway between the towns of Bowmanville, Oshawa and Whitby, of equipping automobiles with flanged wheels

The Thrift Car

There are five things to consider when you buy a motor car—

Appearance	Performance
Comfort	Service
Price	

Canadian owners who have bought the Overland Model 90 have not been worried about any of these things.

Remember this when you decide to buy your car.

HISTORIC HALIFAX.
A Former Stronghold of the Indian Tribesmen.

Long before the coming of the white man the site of Halifax, Nova Scotia, had been occupied by an Indian settlement. The spot was called Chobecto' ("greatest of havens") by the Indians because they recognized the almost impregnable position of the harbor and inner bay. It was first used as a base of supplies by the French admiral, Duke d'Anville, in 1745, when he attempted to recapture Louisburg, taken from the French by a band of New England colonists.

The real story of Halifax, however, begins in 1749, when it was settled by Earl Edward Cornwallis and 2,576 British soldier-colonists. The city was named in honor of the Earl of Halifax.

Cornwallis and his band cleared away part of the dense forest which extended to the water's edge, established block-houses for protection from the Indians and laid out the town in rigid, rectangular style. The soldiers who came with Cornwallis sent for their families and encouraged other settlers to cross the ocean. In 1750, one year after its birth, the place was made seat of the Government of Acadia. During the next forty years the population doubled, and in 1827 the colony had grown to 14,439. In 1881 there were 36,000 inhabitants. Another twenty years added 5,000, and the present population was estimated at 55,000 by the Halifax Board of Trade.

Situated, as it is, with one of the finest harbors in the world and with the remarkable advantage of being the seaport nearest England on the North American continent, the city from its founding was recognized as an important military factor.

As it grew the principal blockhouse was built on a hill, 255 feet above the sea, which came to a point a mile back from the water front and commanded the outer and inner harbors. From that day to this the height has been the base of fortresses. Recently a new stone citadel was finished on the site, equipped with powerful guns of the latest type to protect the harbor and city.

Halifax is on a triangular promontory which juts out into the Atlantic ocean in the exact middle of the Nova Scotia peninsula.

To the north is the harbor. Directly across from the centre of the city, which faces upon the harbor, the channel narrows suddenly and farther in widens again to form Bedford Basin. Until recently this basin was practically unused.

On the completion of new terminals and docks, part of a scheme of improvement which cost the city \$7,000,000, and which, it was estimated, would cost approximately \$25,000,000 more before it was finished, Bedford Basin and the town of Rockingham, on the west shore, became extremely important.

Because the harbor furnished better protection from submarine and warship attack than the outer harbor, Bedford Basin with its new railroad terminals was taken over by the Canadian Government for munition loading. Rockingham, within three years, became the home of thousands of laborers, who, in many cases, lived in hastily constructed homes bordering on the bay and extending to the city of Halifax.

NEWS NOTES

Wheat and wheat flour expressed as wheat in Canada is 77 million bushels, as compared with 128 million bushels last year, 197 million bushels in 1916, and 79 million bushels on February 8, 1915.

Danger of a strike on the Sandwich, Windsor and Amherstburg Railway is averted, the Board of Arbitration giving the men a substantial wage increase in addition to other important concessions.

Rev. H. A. Koukle, of Toronto, has accepted an invitation to become the temporary pastor of Chalmers Presbyterian Church Guelph, during the absence overseas of Rev. R. C. Little, who is in the chaplain service in England.

WILLARD STORAGE BATTERY SERVICE

Willard Threaded Rubber Insulation

Service that Prevents Battery Trouble

Don't wait till something goes wrong with your battery before you make my acquaintance.

The trouble-preventing side of Willard Service can give you, now, the knowledge which saves many a dollar in repairs.

My very first duty is to help you to a thorough understanding of your battery and its relation to the rest of the electrical system.

To show you:

How to easily avoid things that put unnecessary strain on your battery, that starve it, overfeed it, overwork it, overheat it or otherwise shorten its life.

How to do the two simple things, filling and testing, that keep it in top notch condition—or, if you like, to do them for you.

Service that Cures Battery Trouble

I hold my job as a Willard Service Station Man first, foremost and all the time as a qualified battery expert.

I have the knowledge and equipment to handle any battery work thoroughly and promptly.

Your battery may need only a prolonged charging or a tightening of connections. On the other hand it may need re-insulation, or, again it may be so old or so seriously injured that it's cheaper for you to buy a new one.

Don't let an amateur tinker with it—come to me and have the right thing done and done right.

And I'll supply you with a rental battery while yours is being fixed.

The Willard Service Station Man

Service that Begins in the Factory

I couldn't do my job so well, if you didn't have a thoroughly good battery to start with. So Willard Service really begins in the factory, with good plates—and proper insulation between those plates.

For years Willard Batteries have been used by the vast majority of car builders because of this excellence of material and construction.

Many times in the past Willard engineers have made notable contributions to battery improvement, and one of the greatest was announced in August, 1917, as the

Still Better Willard--with Threaded Rubber Insulation

This represents the first automobile starting and lighting battery in which it has been possible to get all the advantages of the well known insulating properties of rubber without either decreasing the voltage necessary for cold-weather starting or increasing the size and weight of the battery beyond ordinary limits.

It means still greater protection against battery troubles still further assurance of continuous operation, because battery insulation protects the source of life of the whole electrical system.

Two years' successful operation, which still continues, on 35,000 cars, preceded the announcement to the motoring public. The Still Better Willard has proved, and is proving itself even better than we expected, and is now on sale by car-dealers and all Willard Service Station and factory branches.

Come in and I will tell you more about Threaded Rubber Insulation and Willard battery service.

BEST VARIETIES OF VEGETABLES

The Time for Planting the Hardier Kinds is Now Here

SOME SEED SCARCITY
Choice of Varieties Offered So As to Fill All Needs

The gardener who has not selected his seed already cannot be considered as being early, in fact some of the more wide-awake backyard farmers have already done a considerable amount of sowing in the open ground and the plants in most hotbeds are well advanced by this time. One Toronto grower who has had splendid success with his vegetable garden in the past many years, considers the season so promising that he has already planted seed of parsnips, peas, asparagus and several other vegetables in the open. Yet, there are many who will wait as usual for real heat before doing much in the garden. Next a neighbor before starting. Next week, however, will no doubt see the planting business in full swing, and for those who have not yet procured seed the following list of desirable varieties, issued by the Experimental Farm authorities, may prove useful. Several varieties of almost equal merit of some kinds of vegetables are suggested so that it is not possible to get one, it may be possible to get the other.

Beets.—Crosby Egyptian, Detroit Dark Red and Early Model, Borecole or Kale.—Dwarf Green Curled Scotch, Brussels Sprouts.—Improved Dwarf, The Dwarf varieties have been found more satisfactory than the tall ones. Cabbage.—Early Jersey Wakefield, Copenhagen Market, early, Succession, medium, and Danish Bluehead and Drumhead Savoy, late; and Red Dutch, red Cauliflower.—Early Snowball and Early Dwarf Erfurt. Carrot.—Chantenay, Danvers Half Long Early Scarlet Horn for extra early. Celery.—Golden Self Blanching (Paris Golden Yellow) early, Winter Queen, Evans Triumph, and Perfection Heartleaf, late; White Plume for coolest parts. Corn.—(Extra early), Early Malcolin, Malakoff, and Peep O'Day; (early), Gold-a-Bantam; (medium) Early Evergreen or Black Mexican; (late) Country Gentleman and Stowell's Evergreen; Squaw for coolest parts. Cucumber.—Davis Perfect, White Spine and Chicago Pickling. Egg Plant.—New York Improved, Long Purple and Black Beauty, Iceberg, Giant Crystal Head, Improved Hanson, Salamander, All Heart and Crisp as Ice (head or cabbage). Melons, Musk (Nutmeg type) Long Island Beauty, Hackensack and Montreal Market (yellow flesh- ed); Emerald Gem, Hoodoo and Paul Rose. Melons, Water.—Cool Early, Ice Cream and Pinney Early. Onions.—Yellow Globe, Danvers and Early Red Wethersfield, Prize Taker, especially for transplanting. Early Flat Red and Australian Brown are good where the season is short. Dutch Sets ensure crop in a short season, when, if grown from seed, the onions may be mature. Parsley.—Double Curled. Parsnip.—Hollow Crown of a good strain is the best. Intermediate is also good. Pepper.—Early Neapolitan of the large varieties and Cayenne, Chili and Cardinal of the small ones. Peas.—(Extra early) Grosby Surprise; (early) Thos Laxton, Gradus, Nott Excelleur, American Wonder and Sutton Early Giant; (second early) Sutton Excelleur and Premium Gem; (medium to late) McLean Advancer, Heroine and Stratagem; (tall late sorts) Telephone, Champion of England and Quite Contes. Radish.—Scarlet White Tipped Turnip, Rosy Gem and White Icicle Salsify.—Long White, Sandwich Islands. Spinach.—Victoria Thickleafed, Vitelzy. Squash.—Long White Bush, Summer Crookneck; late, Delicious, Hubbard. Tomatoes.—(Extra early) Alacritly, Sparks Earliana; (early and main crop) Bonny Best, Chalk Early Jewel. Later good sorts are Matchless and Trophy (scarlet), and Livingstone Globe and Plentyful (purplish pink), Ignatum for canning. Sweet Turnips.—Champion Purple Top. Potatoes.—(Early) Irish Cobbler or Eureka Extra Early; (main crop) Green Mountain, Gold Coin, Wee MacGregor, Carman No. 1. Early Ohio is a good extra-early pink sort but is not very productive.

GERMANY HUSBANDS HER COAL SUPPLY

Change in System of Distribution; Customer Lists Are Established

(Associated Press) Amsterdam, April 27.—Dissatisfaction with the system of coal distribution which was employed in Berlin during the past winter has led to the adoption of an entirely new system which goes into effect during May. The chief feature of the new scheme is the establishment of "customer lists," which means that a retailer is bound to supply all who register with him with the amount of coal to which their tickets legally entitle them. The plan is intended to operate over a full year so that consumers can utilize their allotted fuel supply as they see fit.

There will be two coal tickets, one for coal for cooking purposes and the other for heating coal. The cooking coal ticket is graded into three kinds according to the number of persons in the household. A family of one or two persons will receive 1,200 pounds; three to six 1,500; seven to ten, 2,200. Coal for heating purposes is allotted according to the number of rooms in a house. The room is allowed 500 pounds; two rooms 1,000 pounds; and so on up to 6,000 pounds. Persons who use more than 6 tons for heating purposes last winter, will be allowed just half the amount they consumed then.

PRINCESS OF AGE

(Associated Press) London, April 27.—Princess Mary came of age on the twenty-sixth of this month when she commenced to take her allowance of £6,000 a year. She is a busy person and, having a good knowledge of typewriting and shorthand and accounts has given considerable assistance in the conduct of the King's household.

C. O.'S PUNISHED

(Associated Press) London, April 27.—A report on punishments inflicted on refractory conscientious objectors in Great Britain shows that 5,236 such cases have been dealt with during the period of the war, including 4,634 cases of court-martial for refusal to obey orders. Seventy-two objectors have served sentences of two years' hard labor.

Edwin Droad is still alive and his drug-crazed nephew, Jasper, only imagined that he killed his uncle, so Prof. Stephen B. Leacock asserts, in an article read by Rev. Dr. Herbert Symon at the meeting of the Dickens Fellowship at Montreal. Death occurred at Loretto Convent, Niagara Falls, Ont., of Sister Martina, aged 87, one of the oldest Roman Catholic Sisters in Canada. She was born in Ireland and came to Canada when a child, entering Loretto Convent in 1864.

IT'S YOUR LIVER! YOU'RE BILIOUS, HEADACHY, SICK!

Don't stay constipated with breath bad, stomach sour or a cold. Enjoy life! Live your liver and bowels to-night and feel fine.

"To-night, sure!" Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, breath offensive and stomach sour. Don't stay bilious, sick, headachy, constipated and full. Eat one before you go to bed. Why don't you get a box of Cascarets from the drug store now? Eat one or two to-night and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. You will wake up feeling fit and fine. Cascarets never gripe or bother you all the next day like calomel, salts and pills. They act gently but thoroughly. Mothers should give cross, sick, bilious or feverish children a whole Cascaret any time. They are harmless and children love them.

WOMEN MANAGE KITCHENS

(Associated Press) Amsterdam, April 27.—All Germany's public kitchens are now managed and staffed entirely by women. They buy and regulate all supplies, including fuel, and handle all the work of supervision, and accounting. The only male attendants are men appointed by the trade unions to keep order. No woman is employed who is not prepared to devote all her time to the work. Many are voluntary workers, but others are paid as much as \$30 to \$35 a month. Most of the kitchens are self-supporting, but a few require help from the local government. The largest kitchens have a staff of over 100 workers.

SWEETENER FOUND NUGGET

(Associated Press) Melbourne, April 27.—A street sweeper at Loxaine, Victoria, picked up a few days ago, a gold nugget from a pile of gravel which had been carted from a gravel-pit nearby. It weighed 17 ounces.

PAINT! CHEAPNESS IN PAINTS IS SUICIDAL

Any one who has used our RED LABEL Paint is impressed with the difference, and it is just that difference that has created and maintained the demand for our make of paint. Try it and see the difference.

To get the maximum production you need good tools. WE HAVE THEM

W. S. STERNE 120 MARKET ST. BELL 1857.

COMBAT HEMORRHAGE

(Associated Press) Stockholm, March 27.—Discovery by Professor Rudolf Fischel of Prague of a new remedy for combatting hemorrhage is announced by the Journal of the Austrian Apothecaries' Association. The remedy is made from a hitherto unknown element in the lung-tissue of certain animals. It is a reddish brown powder which dissolves in water into a foaming substance.

After a series of experiments with animals, it has been employed on human beings. It is reported to stop quickly the most dangerous hemorrhages, such as those from the liver, kidneys and brain substance, and to be especially valuable in the case of the so-called hemophiles, persons whose blood is deficient in coagulable elements and for whom the slightest cut means serious and possibly fatal hemorrhage.

- (5) On the Western Front.—One of our latest tanks, waiting the order to advance, meanwhile some of the crew come out for a breath of fresh air.
- (6) A panoramic view of the City of Ypres as it is to-day.
- (7) His Majesty King George is interested in a Jutland Battle relic at E. O. W. McLachlan's yard.
- (8) Troops on their way to the battle area in barges.
- (9) The garden around the C. P. R. Station at Moose Jaw.
- (10) C. P. R. Station at Moose Jaw.
- (11) A familiar scene on the prairies.

The Story of Moose Jaw

Every city of Western Canada has its own interesting history and genesis, but none more so than Moose Jaw.

No other centre of population got its name in such a queer way. The story came from the Indians that over half a century ago a pioneer traveller, Lord Dunsmore, with his wife and child, camped on the banks of the stream now known as Thunder Creek. They were halted on their march because their Red River cart had broken down, the queer old vehicle, with only two wheels that are minus iron rims. Home-made were the carts, and many a record has been left of other travellers over the plains, who wrote of the creaking, springless wagon that was a torture to ride in over uneven prairie trails.

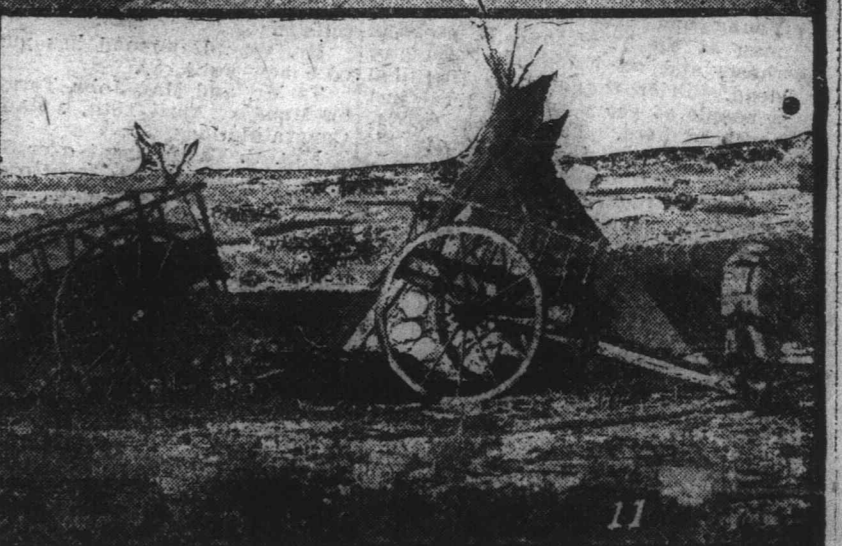

Well, the Dunsmore cart fell by the wayside because the creaky old wheel broke and there were no wagon repair shops within a hundred leagues. What was to be done? Someone had ingenuity and wit enough to pick up the jaw bone of a moose, lying among the bones that in those days strewed the plains.

With this the wheel was mended, and so the little settlement that thereafter sprang up on the spot was known as the place where the white man found the moose jaw, or at least that was the long title given to it by the red men.

Few cities have their origin so definitely suggested as Moose Jaw. It is interesting to make a comparison between the historic scene depicted in the illustration, when the little traveller fixed up the broken vehicle, and the Moose Jaw of to-day, and as the years go by the gulf between the two, perhaps, between the yesterday and to-day of Moose Jaw will become more and more marked.

Situated close to the heart of the Province of Saskatchewan Moose Jaw occupies a favorable commercial position. The city is built on one of the greatest wheat-growing belts in the world. It is developing rapidly, and has many fine buildings and twelve churches. The investment of the C. P. R. in terminals within the city is about \$6,000,000, the yards there having 52 miles trackage.
