OLD SCANDAL RECALLED

Chas. Rykert's Notorious Lumber Deal Again Brought Before the Public.

Medicine Hat, Oct. 28.—Wm. Rutherford yesterday said out the last of his mill property in the Cypress Hills and the clean up of wagons, livestock etc., was attended by hundreds of farmers and ranchers.

The dismantling of the mill will recall to many old timers the first mill erected in the Cypress Hill country, which involved an expenditure of about a quarter of a million dollars on the part of Louis Sands, the great Michigan lumberman, and gave rise to the notorious Rykert scandal.

It will be remembered that three sections and a quarter of timber lands were bought by Sands in 1882 from Rykert, after the latter had obtained them from the government of that day. Sands' confidential agent only got as far as Winnipeg to inspect the timber, and through circumstances which are still green in the memory of many, sent in from that point a most favorable report, resulting in the sale being made to Sands for \$200,000. Three additional sections were bought from the C.P.R. also, but they only cost \$10,000. Sands set up a mill on the property just this side of Elkwater lake, shipping the plant as far as Walsh, to which station the C.P.R. had been constructed. The plant was worth \$25,000, was 112 feet long, and had a capacity of 40,000 feet of lumber a day.

Logging roads were cut through the brush and camps erected, of which traces still exist. W. N. Adair's father came out to take charge in 1883, and after going over the limits thoroughly, advised that no more money be wasted on the proposition, the timber being entirely too young to repay the labor of cutting. The outfit, however, was operated at a loss for several years before being abandoned. In 1889 W. N. Adair made an arrangement to secure the mill for himself for the winter, but found that out of 100,000 feet which he cut, not 2,000 feet of the lumber attained a width of one foot. In 1892 the plant was shipped east.

It was about in '96 that William Swibert established the present mill, on top of the mountain, which a few years later was taken over by the Rutherford Bros., and was afterwards conducted by Wm. Rutherford, whose experience, however, was quite the reverse of that of the Sands people financially. Mr. Rutherford proposes moving his family to Calgary, and engaging in the lumber business of the north.

NEW INDUSTRY FOR REGINA

A Local Company Will Build Gasoline Tractors in This City.

A meeting was held Monday evening by a number of local men interested in the manufacture of gasoline tractors, and steps will be taken whereby a joint stock company will be formed at an early date. The following provisional directors will be appointed with full power to go ahead with the work, apply for a charter, etc., Messrs. W. Duff, Dr. Cowan, D. A. McDonald, A. Moore, John King, Mr. Weeks, and J. M. Wessel. The Wheelock Bros., from Minneapolis, are promoting the enterprise, as they think they have the plans for an engine that will fully meet the requirements of western conditions. These engines are proposed to be manufactured at a much reduced cost, and will sell for about \$2,500, or a saving of over \$1,000 on one engine. It is understood the plans are after the pattern of the famous Pioneer Tractor of the western States. Owing to the season being advanced, the manufacturing of the large casting will not begin this fall, but the parts of at least twenty-five engines will be procured at an early date, and set up after they arrive. The next meeting will be held on Wednesday when other business of interest will be taken up.

The coming of wild oats into the Indian Head district has changed the system of farming, says the Prairie Witness in a recent issue. One farmer is spending \$1,500 in fencing to keep a lot of sheep, and another is going to sow over 200 acres of barley next year.

GEO. E. FOSTER'S GREAT SPEECH

The Winnipeg Banquet the Best Ever Given in western Canada.

Winnipeg, Oct. 27.—When Hon. Geo. E. Foster leaves today for the east after a month's trip in the west, he will have the satisfaction of knowing that he has the confidence of the Conservatives of Winnipeg and of Manitoba, for a tribute was paid him last night such as few public men have received in Canada. Nearly a thousand people, representative of the best blood in the province, sat down to the banquet in his honor at the Royal Alexandra.

There were present nearly all the cabinet ministers, most of the provincial members, the Conservative representatives of the Dominion House, the leaders of the party in Winnipeg and nearly every constituency of Manitoba. It was an inspiring gathering and called forth Mr. Foster's best oratorical efforts. He was given a magnificent ovation, both at the introduction and conclusion of his thoughtful two hours' address.

Mr. Foster reviewed briefly the history of the Conservative party and showed that the great constructive policies have been due to the initiative of Sir John Macdonald. Looking to the future he outlined some questions which he thought the Conservative party would embody in their platform. One of the most important was the conservation of the natural resources of Canada, another was the wisest settlement of the land of the west, another was the restoration of the free ballot, and the raising of the standard of public competence. Something should be done to amend the senate, which he humorously described as at present being "a gilded almshouse." They should also adopt a broad policy to bind more closely together the whole empire. "There is a common danger, there should be a common defence."

The feature of the evening was the imperialistic tone of all the speeches and every reference to Canada and the empire aroused the wildest enthusiasm. Hon. Robert Rogers, who acted as chairman, touched the note in his opening remarks, and his reference to the intense loyalty of the west called forth prolonged cheers. The audience heartily agreed with him, when he remarked "the west is not bubbling over with confidence in the loyalty of Sir Wilfrid Laurier to the empire." Hon. R. P. Roblin also aroused the crowd to the highest pitch of enthusiasm by his imperialistic utterances and his reference to the naval question. Dr. Roche made an eloquent reply.

G. ENS, M.P.P., ARRIVES HOME

Believes that the Kaiser Wants War, But German People Oppose It.

The Kaiser wants war to demonstrate what magnificent fighting machines he has both on land and sea. This is the opinion of Gerhard Ens, M.P.P. for Rosthern in the Saskatchewan legislature, who returned from a trip to Europe last week. He said he thought the German people themselves were peacefully disposed, and he did not think the Reichstag would allow the emperor to go to war if it possible to prevent him. Mr. Ens was born in Ekaterinoslaw in the Crimea, Russia, but he is of German descent. He went to Europe to visit his friends and in connection with a scheme for the bringing out of large numbers of Germans for the settlement of the Great West. But he found the Russian and Germans opposed to emigration, they seem to require their people for their own plans. In the case of Russia this is easily understood, as that country has vast tracts of undeveloped land. But Germany is over-populated and if the government is antagonistic to its people coming to Canada it must be because it requires them for its own ambitious colonization schemes.

CHARGED WITH BIGAMY

A man named Kelderman was taken to Yorkton by Constable Walsh, R.N.W.M.P., Wednesday morning from Raising Lake, charged with bigamy. It is alleged he has a wife at Raising Lake, and another at Portland, Oregon. He elected to be tried by jury at the December sittings of the supreme court.

IMPORTANT Auction Sale

Registered Pure Bred Shorthorn Cattle

Favored with instructions from H. C. Graham, Esq., of Lea Park, Alberta, I will sell on

TUESDAY, November 9th

At my Mart, 1790 Broad Street, Cor. Eleventh Ave., Regina, 18 Head of Pure Bred Young Cows, Heifers, Bulls and Calves.

Mr. Graham is the breeder of Belyvedere Lily the Ninth, which took first at Regina Fat Stock Show in March, and is now owned by Geo. Kinnon, Esq., of Cottonwood, Sask. Her sire, Dan, 2 Full Sisters and a Full Brother, and a number of others closely related and of very superior quality. Also Vice-President of the same family as Credit Valley Jit, the heifer that sold at Toronto last Spring for \$2,500, the highest price ever paid for a female in Canada. All must be sold without reserve as Mr. Graham lost all his feed by fire. This will be one of the greatest opportunities ever offered in this district to secure some of the best blood in Western Canada for stock raising at your own price. The cattle will arrive on Saturday and can be seen at the New Waverly Stables, Broad St.

SALE AT 1.00 P.M. TERMS: CASH
Office and Mart: 1790 Broad St., Cor. Eleventh Ave.
Phone 496 **GEO. ROSS, Auctioneer.**

Sale of Horses

On or about Nov. 15

I will sell a shipment of Registered Shires just arriving from England and registered in Canadian Stud Book. Watch for definite date and particulars of this sale. Liberal terms will be given on these to parties entitled to same.

GEO. ROSS, Auctioneer.

Office and Mart: 1790 Broad Street, Corner 11th Avenue Phone 496.

HORSES

To Be Sold by

Public Auction

I have a consignment of First Class General Purpose Horses which I will sell at Public Auction on

Saturday, Nov. 13th

AT THE ARMOUR STOCK YARDS on Winnipeg Street, Regina.

The band is composed of 20 head ranging from 3 to 8 years; average weight about 1300 pounds. These horses, with the exception of three or four, have been raised on a ranch near the city. Although young, they are nearly all broken to all kinds of work. A few are only halter broken, but these are gentle and accustomed to stables. This is a rare opportunity to get good and useful general purpose horses that will do hard work and stand hard usage.

TERMS: Twelve months' credit will be given on approved joint lien notes with 8 per cent interest. A discount of 10 per cent will be allowed for cash in full or in part payment.

Sale at 2 p.m. sharp. Remember the day and place.

J. K. KENNIS, Farmers' Auctioneer.

PATENTS PROMPTLY SECURED

We solicit the business of Manufacturers, Engineers and others who realize the advantage of having their Patent business transacted by experts. Preliminary advice free. Confidential. Our Inventor's Advice is not to be given. Marion & Marston, Reg. Q., New York Life Bldg., Montreal and Washington, D.C.

HOT ROAST FOR MEMBERS

Baptist Preacher Says Parliament Should Be Divided Into Clean and Unclean.

Hamilton, Oct. 29.—Time has come when the old names of Liberal and Tory, so dear to our forefathers, ought to be obliterated because the principles involved in them in the past no longer are an issue before the country. It would be more in keeping with common sense to divide the House into the clean and unclean.

This was the striking passage in an address delivered to the Baptist convention of Ontario and Quebec last night by Rev. J. B. Kennedy on the attitude of church legislation. Mr. Kennedy thought the people of Canada might with advantage take a lesson from Pharo who believed it was better that a saint should be left alone for a sinner than sinners should legislate for Saints. He said they sent to parliament men who were known to the community as Sabbath desecrators, gamblers, blasphemers, drunkards and such like, and they passed resolutions asking those men to assist them by legislation. He did not mean to say that all their legislators were unrighteous but apparently there were tares among the wheat if they were to believe half of what the newspapers said, and he believed there were enough voters in Canada to root out all the tares, and bind them in bundles, not to be burned, but to be left to occupy other fields where their influence for evil would not be so potent.

It was agreed that the convention meet in Toronto next year. In this connection a delegate suggested that steps should be taken to organize in Montreal next summer a display of Protestants to offset the Eucharist congress which is to be held there.

SHEEP RAISING

A. E. Wilson, a successful Indian Head farmer, has decided to go extensively into sheep raising. He spent \$1,500 in fencing this summer for that purpose.

OFFICIALS CELEBRATE AT COUNTRY'S EXPENSE

Government Engineer Has Grand Time Every Evening on the Storm King--Canadian Cream for the United States--Eastern Liberal Papers Squabble--The World's Wheat--Grain Statistics.

Ottawa, Oct. 30.—Three estimates were published during the month of August of this year's total production of wheat, on August 31 by the Hungarian Ministry of Agriculture, and the other two on August 20 by Bernholm's Corn Trade List and the Dearbush Evening List. These estimates with comparative figures for previous years expressed in thousands of quarters of eight bushels each are as follows:

	1909	1908.
Hungarian	431,426	398,761
Bernholm	421,120	397,840
Dearbush	421,470	392,468

The deficit of wheat in the importing countries is estimated by the Hungarian Agricultural Department at 71,454,000 quarters, while the surplus available for export in the exporting countries is placed at 80,804,000 quarters. Of the world's other principal crops the Hungarian Department estimates the total production in thousands of quarters as follows:

	1909	1908.
Rye	220,000	215,645
Barley	212,645	187,389
Oats	538,288	460,061
Malze	511,820	475,067

The mid-September crop report of the board of agriculture states that hindrance to harvesting operations in Great Britain has been caused by wet weather, especially in the east and south. Wheat has somewhat fallen off particularly in the east and south, elsewhere it has upon the whole maintained or even a little improved its position. Barley quite maintains its high position of a month ago, and is now decidedly the grain crop of the year. Oats have somewhat improved, but still are not a good crop, except in Scotland where they seem over average. Potatoes have decidedly fallen off during the month, owing to the general spread of disease, which is prevalent. Roots have improved during the month, and promise to be much over average, although a general lack of sunshine is reported to have been a drawback, particularly in the case of mangolds. Summarizing the reports and representing an average yield by 100, the appearance of crops in mid-September indicated yields for Great Britain which may be represented by the following percentages: wheat, 104, barley 105, oats 96, potatoes 102, roots 105, hay and grass 95.

THE AMERICAN CROP
The crop reporting board of the United States Department of Agriculture estimates that the average condition of corn on Oct. 1 was 73.8 as compared with 74.6 last month, 77.8 on October 1, 1908 and 73.2 the ten year average on October 1. The preliminary estimate of the average yield of wheat is 15.9 bushels per acre of spring wheat with 18.2 bushels the final estimate in 1908 and 15.8 the average in the past 10 years. The quality is 90.5 against 88.2 in 1908 and 85.3 the average for the past ten years. The average quality of spring and winter wheat combined is 90.4 compared with 89.4 last year. An average yield per acre of oats of about 30.3 bushels is indicated as compared with 27.0 bushels finally estimated in 1908, and 29.4 the average of the past ten years. The quality is 91.4 against 81.4 last year and 85.9 the ten-year average. The indicated average yield per barley 26.1 bushels finally estimated in 1908 and 25.8 the average of the past ten years. The quality is 85.5 against 83.9 last year and 87.4 the ten year average.

The past month was slightly more favorable for maturing crops than is the average September. Generally crop conditions on Oct. 1 (including crop harvested before Oct. 1) were 1.5 per cent lower than on Oct. 1, 1908, and 2.4 per cent lower than the ten year average condition of Oct. 1. The lower condition than last year, however, is slightly more than counterbalanced by an increase in the amount of land under cultivation. The condition of important crops in comparison with the ten-year average condition on Oct. 1, which is represented by 100, was: Potatoes, 103.8; grapes, 103.5; flaxseed, 102; tobacco 97.8; buckwheat, 96.5; sweet potatoes 94.2; rice 93.2; sorghum 90.1; cotton 87.3; sugar cane, 86.3; apples 81.1. The yield per acre of crops which have been so reported compared with the ten-year average yields, were: winter wheat 115.5; spring wheat 117.8; oats 103.1; barley 92.6; hay 101.3; hay 98.8; hops 92.8.

The preliminary estimates of total production, compared with the final figures of 1908, are as follows:

	1909	1908.
Oats, bushels	983,681,000	807,156,000
Wheat, bush.	724,768,000	664,602,000
Barley, bush.	464,636,000	466,766,000
Rye, bushels	31,066,000	31,861,000
Hay, tons	64,166,000	70,798,000

A TARIFF SLIP

Writing in the Census and Statistics Monthly the Dairy Commission-

an epoch in the annals of the ultrachic society of this beautiful summer resort. Imagine the pleasure of these happy mortals of Tadoussac the recipients of special attentions from the favorites of authority. After a few more observations of this type, Le Progrès continues: "The government boat will finish the season as it began it, that is to say, to cruise the engineer to whom it is entrusted, and some privileged creature about him, who at the same time are in the good graces of the member."

These scandals must cease or we will demand at the proper time and in the proper place the reasons of this tolerance on the part of those who govern us. If the public is mocked we shall compel an enquiry on the voyages of this boat with the names of those who in three years have formed its primary and spurious clientele. We shall produce a list of those who have taken part in certain excursions between Chicoutimi and the North Shore, and in particular between Chicoutimi, Quebec and Montreal."

INTERESTING GRAIN STATISTICS have been collected by the branch of the department of trade and commerce maintained for that purpose. Up to Oct. 14th the grain of all kinds received at Fort William and Port Arthur was 31,276,000 bushels, as compared with 26,564,450 up to the same date in 1908. Of the total amount 25,375,300 bushels was wheat as against 17,363,850 in the same period last year.

On Oct. 8th the grain in terminal and eastern transfer elevators amounted to 19,472,136 bushels, of this 8,235,129 bushels were in terminal, and 2,237,018 in eastern transfer elevators. The total quantity of wheat was 3,261,178 bushels, divided into 6,435,697 in terminal and 1,807,497 in eastern transfer elevators. During September 37,365 cars of grain, containing 19,310,500 bushels, were inspected at Winnipeg and other western points. In September 1908, the record was 13,018 cars and 12,095,150 bushels. Of the total quantity in September 1909, 15,346 cars, and 16,008,300 bushels were wheat. Dividing among railways the record shows that the C.P.R. had 10,468 cars, the Canadian Northern 5,667, the Great Northern 963 and the G.T.P. 266.

During September 160 cars were graded No. 1 hard, 7,580, No. 1 Northern and 5,216 No. 2 Northern, and the remainder had a lower grading. During the first week in October the numbers were 23 cars No. 1 hard, 2,282 No. 1 Northern, 1,616 No. 2 Northern.

Value of Peat Bogs.

Ottawa, Oct. 31.—The immense potential value, both for industrial and domestic purposes of the 37,000 square miles of peat bogs which have already been located in the middle provinces of Canada, is pointed out in a report prepared by Dr. Eugene Haanel, director of the mines branch, concerning the work of the new government peat bog, and for testing plant recently established at Ottawa. Dr. Haanel points out that while both eastern and western Canada have immense coal areas, the middle provinces are practically dependent upon the United States for all fuel for domestic and industrial purposes. But while coal is absent from the middle provinces there is peat in abundance, over 37,000 square miles of peat bogs having already been located by the government surveys.

The reports shows that one square mile of bog, with an average depth of 6 feet, will after drainage, yield 774,000 tons of the air dried peat, equal in fuel value to 430,344 tons of ordinary bituminous coal, and that the utilization of this fuel asset is therefore, a matter of supreme commercial importance. In the attempts so far made to establish a peat fuel industry in Canada the Canadian peat manufacturers do not seem to have taken advantage of the experience and scientific knowledge gained in Sweden, Germany, Russia and other foreign countries, where the manufacture of peat fuel has been in progress for many years. The Canadian exploiters seem to have been doomed to failure, since they were designed and constructed on wrong principles.

With a view to utilizing the potential heat energy lying in the Ontario and Quebec peat bogs, the Dominion government, through the mines branch, has, during the last couple of years made a complete investigation of the peat fuel industries of Europe, and has delimited and tested large areas of Canadian peat bogs recently. With a view to doing for the peat fuel manufacturer, what the department of the interior has done for the farmer, the government has purchased an extensive peat bog at Alfred, near Châteauguay, Quebec, and has established a modern fuel testing plant at Ottawa for experimental purposes. The chief object of this plant will be to practically demonstrate the feasibility of utilizing peat in the gas producer, and gas engine for the generation of power.

The peat bog at Alfred covers approximately 300 acres, has an average depth of 8 feet, and is a fair sample of the many peat bogs of Canada. During the past summer the bog has been levelled and sampled, and about five miles of ditches have been dug for the purpose of drainage.

The peat in the bog contains on an average some 85 per cent of moisture, which is reduced by the drying process in the Ottawa plant to about 25 per cent. In this condition the peat bricks are admirably adapted for the gas producer, as well as for domestic purposes. The plant when in full running order will have a daily output of about 30 tons, and the operating methods and machinery employed are similar to those now in use in many commercial plants of Europe. The estimated cost of one ton of air dried peat at the bog will be about \$1.75. This price together with the cost of transportation for short distance will make the total cost of peat, having a fuel value equivalent to good coal, considerably lower than that of coal.

FORGIVES
The editor of the Star extends his thanks to the board of trade and the town council of Carlyle for their generous and considerate invitation to be present at the very important ceremony of laying the C.N.R. steel into that town yesterday afternoon. He furthermore extends his congratulations to the people of that town on their good fortune in securing the crossing even against the good wishes and influences of the entire district of Canington. The obstacles that were placed in their way in securing the crossing that they coveted so much ought to make it doubly precious for them, and we all hope that they will make good use of such favors. The editor of the Star entertains not the slightest shade of ill will towards the Carlyle citizens on account of their success. He consistently advocated the placing of the road where it would be of service to the greater number of people, but he does not belong to the class of men who fall down because his opinions, right or wrong, are not adopted by the powers that be.—Atcola Star.

JUDICIAL SALE.
TAKE NOTICE that pursuant to the order of the Honorable Mr. Justice Johnstone, dated herein the 21st day of June, 1909 and made in the action of,
The Independent Lumber Company, Limited, Plaintiff,
and
Robert Fred Schrader, George D. Wood & Company, The Regina Lumber and Supply Company, Limited, and William Cowan, Defendants.

There will be offered for sale at the General store of James Slater, in the town of Bethune, at twelve o'clock noon standard time, on Saturday, the 13th day of November, 1909, the following lands, namely:
The South-east quarter of Section Twenty-four (24), in Township Twenty (20), in Range Twenty-four (24), West of the Second Meridian, in the Province of Saskatchewan, excepting therefrom the Right-of-way of the Qu'Appelle and Long Lake Railway and the Government Surveyed road.
Terms: Twenty-five per cent of the purchase money to be paid at the time of the sale and the balance upon delivery of the Transfer duly confirmed within one month after the sale, and subject to further conditions, full particulars of which may be obtained from the undersigned,

Ravages of Consump
ALL HER RELATIVES DIED OF CONSUMPTION
In the year 1890, 18 years ago, S. Cassel of Berlin, N.S., was afflicted with Consumption. All her relatives had consumption, and there was every chance that she was going the same way. At this point her husband suggested Psychine. The doctor who attended her was worthless; but it was a wonderful cure. Eighteen years later, having dated August 14, 1908, Cassel says, "I am better than I have been for years. My lungs have not returned since I took your treatment. My husband is well, and I recommend it to all suffering from Lung Trouble, or a Debility."
For sale by all Druggists, 50c. & 1.00.

WEDNESDAY, NOVEMBER 3, 1909

Regina's Need.

Regina is the great commercial centre of Saskatchewan, but to maintain its position there must be increased railway facilities with the south country. South of the C.P.R. main line is an immense territory, thickly settled, and this is inadequately served by railways leading to the province's commercial centre. Direct communication with this portion of the province would increase the city's trade to a great extent.

The West believes that this could be obtained by the building of three railways: From Stoughton to Beinfalt, from Regina to the International boundary line crossing the Soo line at Weyburn, and from Regina into the Wood Mountain country.

The first of these roads would give direct communication with the Roche Perce coal fields. In addition would give the people of the Estevan line an opportunity to do business here instead of in Winnipeg and Brandon. As it is, the immense trade from Estevan to Gainsboro is a preserve for the Manitoba cities.

A line from Regina to Weyburn and thence to the International boundary would tap the great Soo line country and divert to Regina the trade of an immense settled territory south of Weyburn and west of Estevan. At present freight reaches Weyburn from Winnipeg as quickly as from Regina, although the former point is four times the distance of the latter.

But it is the third road suggested that would be of the greatest benefit to this city. In that immense territory west of the Soo line and south of the C.P.R. will, in a few years be found the most densely populated portion of the province, a settler for each half section with a first indebtedness of only \$480. No portion of the west has received so many settlers with the necessary prairie experience for success. The greater number of them are the sons of western farmers or experienced settlers from the United States. Penetrating this immense territory the C.P.R. and C.N.R. are building lines with direct communication with Winnipeg, and the wholesale trade of this district is lost to this city, unless it is tapped by a railway from here.

The south country is prepared to join with the city in pressing their claims on the government and the railways. It is the duty of the Regina Board of Trade to act; action results in success, apathy spells failure.

In addition to urging the immediate construction of these railways, it is also the duty of the Board of Trade to carefully scrutinize all charters granted. They should insist on safeguards for immediate construction, and do their utmost to protect against charter mongering which would delay the realization of what is an essential necessity to the city's progress.

Borden's Naval Policy.

Speaking at Toronto on Monday evening Hon. R. L. Borden dealt with the naval question and discussed the resolution of the last session.

"The integrity of the Empire," said Mr. Borden, "can best be preserved by co-operation in defence and in trade. Canada cannot escape the first responsibility of nationhood, nor does she seek to escape it. It is said she is in no danger of attack, and therefore no preparation for co-operation is necessary. So long as we remain in the Empire, Canada cannot hold aloof in time of danger."

"Could the Dominion share in the benefits of British citizenship and yet evade responsibilities? It was inconceivable to believe such a thing, and he believed that the will of the people would affirm the declaration of Parliament that responsibility and co-operation in naval defence must be met and discharged. That responsibility involved two considerations.

(1) Canada's duty in the hour of emergency.
(2) Canada's duty in future permanent co-operation.

Referring to the discussion before the House of Commons last session, Mr. Borden explained the position in the matter as follows: "The resolution as proposed by the Prime Minister was modified at our instance in several important respects. In its original form, it declared against any money contribution to the Imperial treasury for naval defence. Its modified form permits, and, indeed, authorizes in time of emergency money contributions. This modifica-

tion we deemed necessary, because under present conditions the only immediate aid Canada could bring to the naval defence of the Empire in time of serious peril would be of this nature. Whether such peril is imminent must be known to the government, and upon them will be the heavy responsibility if disaster or humiliation should ensue through their default."

Change of Front.

During the last Dominion election of 1908 the Liberals declared that the Conservative party was wedded to high protection, and that people who desired free trade or a moderate tariff must vote for the Laurier government. Now that the election is over we find the Liberal press in Nova Scotia denouncing the Conservative party because it is in favor of tariff revision downwards. A fresh and rather amusing instance of this insincerity has just made its appearance. It has become part of the Liberal game to suggest that Mr. Borden's hold upon his followers is insecure; the inference being that his leadership is becoming formidable enough to make them wish that he would retire. In pursuance of this vein of unconscious compliment to Mr. Borden, it suited the Montreal Herald to detect in Premier McBride dissolving the British Columbia legislature an attempt to undermine Mr. Borden's leadership. Incidentally, the only ground on which it based its theory was the assertion that the British Columbia dissolution was taking place two years ahead of time; whereas the fact that three full sessions have been held and there could at most have been only one more. Apart from this slight misstatement, part of the story is that Mr. George E. Foster realizes that he would not find a place in any cabinet which Mr. Borden may form, and that he has set on foot this intrigue to obtain a leader who would be more friendly to him. When it is remembered that the whole campaign of the Liberal party of a year ago was based on the assertion that Mr. Foster would be the finance minister in a Borden cabinet, the cool effrontery of the whole thing becomes obvious. In October, 1908, the country was assured by the Liberals that Mr. Foster is so influential with Mr. Borden that he would inevitably dominate any cabinet which Mr. Borden may form, and electors were called upon to vote Liberal to save the country from such a calamity. In October, 1909, the country is accused by those same Liberals that the relations between these two men are such that Mr. Foster would not be allowed on any terms within the cabinet which Mr. Borden might form. It is a first class example of the two faced policy of fighting in which the Liberal party by steady practice is becoming remarkably efficient.

Editorial Notes.

The Arctic wouldn't be at home in a "dry" dock.

The Liberal party stands for liberal principles, judging by the liberal handouts to party heelers.

The author of the Leader's new serial, "In Slippery Places," is not as many supposed, a member of the Scott government.

"Adanac," the name of the Winnipeg Conservative Club is Canada backwards. We hope that the Winnipeg Conservatives are not retrogressive.

A search warrant will have to be issued to get a statement of the public accounts for the last fiscal year. Scott is trying to conceal his election expenditure.

The way the Regina Leader switched on the Winnipeg fair proposition was a fine exhibition of gymnastics. The fair question off at half-cock on the last went last spring, now it's sorry it spoke. Well—Saskatoon Phoenix. This is nothing to its accord.

NURSING MOTHERS show the beneficial effects of

Scott's Emulsion
in a very short time. It not only builds her up, but enriches the mother's milk and properly nourishes the child.

Nearly all mothers who nurse their children should take this splendid food- tonic, not only to keep up their own strength but to properly nourish their children.

batic performance on the lands question.

Winnipeg last night listened to Canada's foremost parliamentary critic, one of the few public men who ranks as a statesman, a man who never profited by public office, who has given to public service the best years of his life, and whose greatest political shortcoming is perhaps the fact that, like too many Canadians, he gives too much thought to party, sometimes mistaking it for the people when it does not represent the people.—Winnipeg Tribune on Geo. E. Foster.

SPRIT OF THE PRESS.

(Edmonton News)

The Conservatives of the Twin Cities did honor to Hon. George E. Foster on Wednesday night by banqueting him at the Castle hotel. Mr. Foster gave one of his well known fighting speeches which aroused no little enthusiasm. No one ever questioned the ex-finance minister's ability. His efforts both in and out of the House are about as masterly in their way as any that come from a Canadian parliamentarian. For a decade past he has not been a popular figure in the party ranks or with the general public. Recently, however, the very virulence of the attacks upon him have done not a little to rehabilitate him. Amid all the savage onslaught upon him, he has shown himself a good fighter, and a good fighter is bound to make friends. This probably explains the real cordiality of the greeting which he has received from his party associates on this western trip.

(Mail and Empire)

Litigation is an expensive luxury. A case in point comes from the county of Durham. A syndicate of farmers bought a threshing outfit. While threshing at Farmer Jerome's the engine set fire to the barn. Then it set fire to a shed at Farmer Noble's. Next it set fire to a load of corn. Then while on its way to Farmer South's, it set fire to a fence. When working at Farmer Brown's it set fire to a little girl's dress. Later on it was taken to Farmer Bigelow's, and there it burned the barn, all the grain, some hay and straw, a horse, several hogs, and a quantity of farm implements, the total loss being \$3,000. The last calamity has been the subject of a law suit to determine whether or not the machine shall pay damages \$1,300. The costs of the suit have been \$1,000 on one side, and a few hundred short of that on the other, and the Bonaventure Statesman says the appeals from the judgment will bring the law expenses up to \$6,000 on the part of the farmers who own the machine, and \$2,400 on the part of the plaintiff. This means that one person is paying \$2,400 to collect \$1,300, and that the other persons are paying \$6,000 to escape the claim.

(Calgary Herald)

The state of Minnesota is very proud this year because it has harvested "the largest wheat crop ever harvested in any state," 94,560,000 bushels, being an average per acre of 18.5 bushels. The Manitoba Free Press recently pointed out that the crop estimate of Saskatchewan, a province that "was a wilderness until yesterday," was 84,095,000 bushels or an average per acre of 19.44 bushels. The St. Paul Pioneer Press came back with the following nasty jibe: "It is very hard to get at the truth of statements printed in regard to the wheat product per acre in the Canadian west. A few exceptionally good yields on small tracts are advertised by the boomers of that region as showing the average of the

COOK IS NOT BELIEVED

Montana People Pass Resolution of Confidence in Barrill Who Was Cook's Guide.

Hamilton, Mont., Oct. 29.—After a stormy session lasting until about midnight, a meeting addressed by Dr. Frederick A. Cook last night adopted a resolution expressing confidence in the veracity of Barrill and Printz, the guides who made affidavits that Cook did not climb Mount McKinley. Attorney Critchfield, attorney for the guides, questioned Cook after his address, and then the excitement broke forth. Critchfield challenged Cook's statements. This brought on a discussion, the fellow townsmen of the guides taking sides. A member of the audience offered a resolution at this point asking that the meeting declare a lack of faith on the part of the entire people of Montana in all matters about which Dr. Cook made claim. Attorney Roland White, of San Francisco, who was in the audience rose, and as a citizen made a plea for fair play.

Senator Joseph M. Dickson, of Montana also took the floor and urged that fair play be accorded all parties to the controversy. Neither those who were opposed to Dr. Cook nor his friends would accept the resolution and it was withdrawn by its author.

Edward N. Barrill, the guide who accompanied Dr. Cook up Mount McKinley, was called on and taking the platform declared that Dr. Cook's statements that they reached the top of Mount McKinley were incorrect. Dr. Cook replied by announcing to Barrill's face that the latter's statements were false. The excitement at this point was intense. Barrill demanded to know why Cook did not make an affidavit to the effect that he had scaled Mount McKinley. The challenge had no sooner been issued than it was accepted by the doctor, and an affidavit was made by the explorer on the platform in the face of the audience. In it Dr. Cook declared that he had ascended Mount McKinley, that Barrill was with him at the time, and that records of his ascent were left at the summit of the peak.

The discussion then waxed warmer. Barrill's attorney and friends denouncing Cook's statements, while friends of the doctor contended for fair play.

Attorney Wagner then offered this resolution: "We, the people of Hamilton and Ravalli Counties assembled, after patiently listening to the charges and counter charges exchanged between Cook and Barrill, do declare our firm belief in the veracity of Edward N. Barrill and Frederick Printz."

This was carried by a large majority, and the meeting closed with great excitement. After the meeting Dr. Cook said he did not care to discuss the result.

Will Organize.

Toronto, Oct. 25.—The joint committee of federal and provincial Conservatives appointed for the purpose of organization has made public the following report: "The Conservative party of Ontario have arranged to celebrate the 94th anniversary of the birth of Sir John Macdonald by holding a convention for organization purposes in Toronto.

"The committee decided to hold the above mentioned convention to meet in the city hall on Tuesday, January 11, Mr. J. S. Carstairs, the secretary of the Conservative Association of Ontario, was instructed to invite the attendance of all Conservative, federal and provincial members, the Conservatives defeated and the Conservative members of the Senate in Ontario, and to request each Dominion riding association and each provincial riding association to appoint five delegates to represent them.

"The aims of the convention will be wholly for organization purposes."

Walt Mason's Philosophy.

If you help a busted pilgrim who's been out of luck a while, if you stake him with a dollar and a smile, and you see his haggard features light up with a glow of joy, and you hear him try to murmur that you are a bully boy, then you'll get a lot of pleasure from the life you're leading here, there are better things than boodle in this little whirling sphere. If you write a friendly letter to some fellow far away, who's so weary and so homesick that his hair is turning grey, he will feel a whole lot better, and the cheerup smile will come, and he'll sail into his duties in a way to make things hum; then you've done a thing to help you when St. Peter calls your name; there are better things than boodle in this little human game. If you see a man struggling to regain some ground he's lost, some one who's been up against it, knocked about the tangle of toms, and you turn around and help him to his place with other men, crying shame upon the knockers who would drag him down again, and you've shown that you're a crutcher of a princely strain of blood; there are better things than boodle on this little ball of mud.

VOTES FOR WOMEN

Lipton Would Give Votes to Women—Small Profit on Tea Prevents His Marriage.

New York, Oct. 28.—"If I were the prime minister of England the women would have the vote tomorrow morning."

So much for Sir Thomas Lipton and suffrage.

"If only the price of tea would go up I could afford to get married."

So much and a great deal more for Sir Thomas Lipton and marriage.

"If they'll give me half a chance to win I'll race a shamrock IV. in 0911 and prove the luck there is in a four-leaf clover."

So much for Sir Thomas and the America's cup.

And that's all about cup racing, for the newspaper men have gone into that subject very thoroughly already and Sir Thomas as an advocate of "votes for women" is more of a novelty.

It was the same Sir Thomas, long, lean, grizzled, with a twinkling blue eye and agile grace of manner and movement, that I had seen three years ago at the Waldorf. It was the same suite to which I was ushered by the same silent secretary, Mr. Westwood.

"You haven't got married—why haven't you?" accused Sir Thomas.

"Why haven't you?" I retorted.

"It's the price of tea; nothing else, I assure you," Sir Thomas answered.

"Why, there's no profit on it. I can't afford to marry. But seriously," he

added, "a woman should always get married. A man can travel around and do as he likes and there's no comment. With a woman 'tis different."

Sir Thomas also gave some very interesting views on the question of votes for women.

"I speak as a man in the street, for mind, and not as a politician, for I'm nothing of the sort," he said.

"But if I were prime minister of England, the women would get the vote tomorrow morning. Why should not they have it? They pay taxes. They're certainly as fit to vote as nine-tenths of the voters."

"They're as intelligent as men. Some of the most beautiful things in the world have been written by women. A man can't understand this idea, that women can't take part in the government, as every hoodlum in the street is permitted to do."

"I'm not endorsing all their methods mind you. Fighting the police is all right—there spoke out Ireland—but this throwing of stones through windows and into automobiles is dangerous. A woman can get anything from a man she wants, but not with a stone in her fist."

"The influence of women is always for good. You're better than we are. We ought to look up to you and we do. Why, compared to you we are a lot of villains."

Lethbridge, Oct. 31.—The body of Mrs. Geo. Davis was found at noon today in her room with her throat cut and face burned with carbolic acid. The door was locked on the inside. The people of the house became alarmed, when she did not appear at noon, and informed the police, who forced the door. Mrs. Davis, as of a bright, cheerful disposition and no cause for the strange suicide can be found.

B. C. INDIANS ACQUITTED

Killed His Companion in Self-Defence, Was the Verdict of the Jury.

Nelson, B.C., Oct. 24.—Not guilty acquitted on the ground of self-defence, was the verdict Saturday in the case in which Frank Kootenay, the Indian, was accused of murdering another Indian named Antoine Baptiste last August at Grassy point. The prisoner went into the box to testify in his own defence and told a dramatic story of the tragic event. Baptiste had thrown stones at him and compelled him to struggle with him. He had also pointed a rifle at him and a fierce fight followed, in which the witness had secured possession of the rifle and Baptiste fell to the ground. He immediately sprang to his feet crying "I will kill you, I will kill you." Kootenay then struck him on the back of the head with the rifle and he dropped. Kootenay tried to revive him but was unsuccessful, and came to the conclusion that he was dead. He then got into his boat and sat for half an hour gazing at the body. Finally he decided to hide it. He tied a stone to the wrist and put it in his boat and threw it in the lake, but the body would not sink. He then slashed it with his knife. He found \$50 in the dead man's pocket. This he took intending to hand it over to Baptiste's family. The evidence showed that the Indians had been fast friends for years, that Baptiste was much the stronger, and that he was of a quarrelsome nature, when drunk, while Frank Kootenay was peaceable.

UNIONISTS GREAT VICTORY

Bermondsey Election Will Strengthen Tariff Reform Movement.

London, Oct. 28.—The Conservatives scored a substantial victory today in the bye-election in the Bermondsey division of Southwark, one of the parliamentary boroughs of London. John Humphreys, the Conservative candidate was elected, polling 4,378 votes; S. L. Hughes, the Radical candidate, stood next with 3,291; and the Socialist candidate, Dr. Salter, brought up the rear with 1,435.

The election was watched with much interest, as it was expected to afford a good test of the feeling in London and the country generally on the impending struggle in parliament. A strong fight over the budget and the question of tariff reform was waged in this constituency.

The Bermondsey bye-election today, the centre of the nation's political interest for the time being, was almost stopped by suffragettes. Two of the militant women entered polling booths and before they could be empowered, has smashed bottles of corrosive fluid over the boxes of ballots, as protests against the exclusion of women from the franchise. Both women were arrested with difficulty after great damage had been done to the ballots.

The Bermondsey bye-election is looked upon as likely to throw some light on the attitude of the artisan classes to the budget, and has aroused great interest. Throughout the campaign the suffragettes have been active, hampering the leaders of all parties except the Socialists.

The constant procession of house to house canvassers has kept this section of London on the jump, and the residents have been hiding in their homes, afraid to answer the bells. The carrying of suffragette tactics to the general public, and giving all a dose of the medicine hitherto reserved for the political leaders and office holders, is a new feature of the woman's fight. In one of the boxes in which Mrs. Chapin threw corrosive liquid many ballots were deposited, and several election officers were injured. How many ballots were affected could not be told. The affair was not the work of individuals, but was carefully planned by the women of the Freedom League.

"The time has come for decisive measures," the league's secretary, Mrs. Edith Martyn, says in a statement of the case today.

Mrs. Chapin was arraigned this afternoon and remained for a week. The other outrager, Miss McNeill, escaped capture. The election officials were unable to say whether the suffragette outrage would effect the election.

CHARGES FALL THROUGH

Beatty Fails in His Charges Against Prince Albert's Mayor and Clerk.

Prince Albert, Oct. 26.—Mayor McDonald and City Clerk Davidson appeared in the police court this morning, charged with perjury, and the case which has aroused great interest and has created a sensation in this city, was listened to by a crowded court room of citizens. The case opened at 10 o'clock, but not until four p.m. was it concluded. Police Magistrate Lindsay dismissed the charge against the mayor and H. L. Jordan as counsel for H. C. Beatty, immediately asked that the charge against the city clerk be withdrawn.

The evidence adduced was very unsatisfactory, and the magistrate was asked by City Solicitor Doak to censor Beatty for bringing the charge from malicious motives. Postmaster Stull and J. E. Bradshaw, M.P.P., gave evidence as to the procedure of the city council when they were mayor, and Alderman Coster testified, as to the delivering of a telegram, which was not recorded on the minutes of the council. The report of C. H. Mitchell was not read before the council, but had been taken up by special commission appointed to deal with it. It was filed. The magistrate claimed that the evidence did not show the least signs of concealment.

City Solicitor Doak apologized for taking up the time of the court on such a paltry charge. He said he would not go so far as to say that Beatty was insane, but stated that in his opinion, he had not the slightest doubt but that Beatty was not quite of sound mind. Alderman Holmes said that when the telegram was shown to him, he considered it was a piece of impertinence for Beatty to butt into civic affairs.

Beatty was severely censured on all sides and will likely be prosecuted.

QUICKSILVER DISCOVERY

Another Great Mineral Discovery in Northern Part of Province.

Winnipeg, Oct. 30.—Perhaps the most valuable metal discoveries that have been made in many days is that credited to Mr. Marlin Parker, one of the best known old timers in this country. Mr. Parker is a well known prospector and has been interested in many enterprises in this country during the last twenty-five years.

A year or two ago, Mr. Parker went north on an expedition of discovery. He was able to locate several valuable mines, but perhaps by far the best of all that of a find of pure quicksilver, which issues from the banks of the North Saskatchewan not a very great distance from Prince Albert. It was during his recent expedition that Mr. Parker got in touch with an Indian named Noah Walker, for whom he had done a good turn. The Indian by way of remembrance and reward, suggested to Mr. Parker that he had made a discovery some time ago that he believed of great value, and then showed Mr. Parker a phial full of quicksilver which he had taken from the banks of the Saskatchewan a year or two ago. Recognizing the value of such a deposit Mr. Parker organized a small expedition, and guided by Noah Walker, the Indian, they set out. The Indian without great difficulty, piloted the party to the place which he had marked, and sure enough, the quicksilver was found in the sand. Mr. Parker began operations to follow up the vein, but the spring came on and the water rose so rapidly as to make the pursuance of the operations impossible. They were, therefore, abandoned for the spring and summer.

Mr. Parker is, however, leaving with a small expedition to resume operations this winter as soon as the ice freezes. He is confident that he has a very valuable deposit. As soon as a claim there, there was a rush of others, who staked all about his claim. The public and especially Mr. Parker's friends, will watch the development with great interest.

JOHNSTOWN DISASTER

Explosion Kills Nearly Twenty Men in Coal Mine.

Johnstown, Pa., Oct. 31.—At least fifteen men lost their lives this afternoon, when mine gas exploded in the Franklin slope No. 2, of the Cambria Steel Co. at Franklin, a suburb of this city. The explosion occurred at five minutes past three o'clock at a time when the number of men in the mine was uncertain and variously estimated at from 15 to 25. It was caused by either a shot blowing out, or by the naked lamp of a miner, which will probably never be known positively, since every man in the room where the gas went off, room No. 10, on the left heading of No. 4, of parallel heading No. 10, was instantly killed, and burned so badly that identification was impossible.

The force of the explosion was terrific, the brattices in the mine being blown down for long distances, the tracks torn up and overhead wires blown out of place.

About ninety men are ordinarily employed on the day shift at this mine, but as it was Sunday, few miners were at work, the only men supposed to be in at the time being the tracklayers, repairmen and laborers.

Just how many of these were in the workings is not known at this hour, and will not be till early tomorrow morning, as the mine cannot be explored until the bratticing has been replaced, and air currents driven through all the headings to remove the deadly after damp.

The officials say that at 10 o'clock the last of the bodies were brought up, when two mine carts pushed by hand and bearing nine shockingly burned bodies arrived at the mine mouth. Miners, however, state their belief is that at least twenty men were in the mine, and tonight's search will bring the list of bodies recovered up to 35 or 40. Some of the men may have escaped through other openings, but this is hardly possible.

Owing to the fact that today was Sunday, and none of the haulage machinery was in motion, it was more than two hours before anyone outside of the mines had any knowledge of the accident. Then the Cambria Steel Co. at once rushed to the place its equipment, for rescue work—the most complete in the state. It was found that the deadly after damp, which always follows an explosion of gas, had drifted towards the mine mouth in such a way that the rescuers could only get into the workings a short way. Every effort was made to repair the air courses, the fans were put on double speed, and the men clothed in helmets and bearing tanks of oxygen took their lives in their hands and went in after their perishing comrades.

men overcome found two men in a heading about a mile from the entrance. Both had been overcome by gas, but not burned or otherwise injured. Evidently they had secured a little air somehow, for they were revived after reaching the hospital. These men were James Challoner and James McDonald. Both will get well.

The dead bodies brought to the surface presented a shocking appearance. They were burned so badly that the finger nails and flesh dropped off, and they had to be wrapped in canvas before they could be lifted on the mine cars. Owing to the destruction of the trolley wires, the cars containing the bodies had to be pushed two and a half miles by hand, a terrible task for the men who were weakened by the foul air.

At midnight the official statement of the death list puts the number at twelve with four missing. Mine foreman Vargin, is in charge of the rescue work, and has under him fully 200 men. The officials of the Cambria Steel Co.'s mining department are all on the ground, and the work of searching the rest of the workings is proceeding rapidly.

SERIOUS ACCIDENT

C. P. R. Engine Runs Into Wagon Driven by Robert Dougan and Seriously Injures Him—Wagon Broken to Splinters.

A serious accident occurred in the city on Tuesday afternoon, when a young man named Robert Dougan, with a team and wagon was run down by an engine while crossing the C.P.R. tracks at Albert street.

An engine with caboose attached, going west to Moose Jaw, came into sight as the team was going forward to the level crossing. Dougan whipped up his horses and started them at a trot across the track, but was not fast enough for the approaching engine, which was travelling fully 15 miles an hour. The engine caught the wagon near the hind wheels, the impetus jerked Dougan with considerable force out of the wagon, which was completely smashed, the wagon box being knocked off, and the hind wheels smashed into match wood.

The horses, once freed from the wagon, bolted, and with broken harness and whiffletree bumping behind continued their mad career along Albert street, in spite of the efforts of several pedestrians to bring them to a standstill.

Dougan had just called at the warehouse of the Cockshutt Plow Co., for some wagon bolts, and was on his way to his father's farm about a mile west of Cordis. D. J. Taylor and residents in the neighborhood, immediately the accident was noticed came to the assistance of the young man who was lying in a semi-conscious condition across the track. He had received a severe contusion over the right eye, and was bleeding from the right cheek.

On the arrival of an ambulance, which had been phoned for, he was conveyed to his father's residence at 1948 Albert street.

The C.P.R. engineer, who brought his engine to a standstill some yards west of the crossing, stated that before coming to the crossing he blew the whistle, but owing to a strong west wind, it is thought that Dougan may not have heard the warning.

Tupper Dissents.

Vancouver, B.C., Nov. 2.—Characterizing the bargain between the McBride government and the Canadian Northern Railway as "wild and unconsidered," Sir Charles Hibbard Tupper today declared that it was his intention to vote the entire Liberal ticket, provided the Liberal party is as wholly opposed to the railway policy of the government as he is.

This statement by Sir Charles followed an inquiry addressed to him as to the truth of the report persistently circulated in Liberal circles in Vancouver, that it was his intention to vote as an independent Conservative candidate either in Vancouver or Richmond.

"I am not in public life," remarked Sir Charles, "and I will not be a candidate. However, I am opposed to the railway policy of the government. After reading Mr. Bowser's speech I could not support the railway policy; I look upon the bargain made by the government with the railway company as wild and unconsidered, and I think that perhaps the government takes that view of it also, owing to the little time in which the railway company allowed the people to consider it."

"It is rumored, Sir Charles, that you may take the platform in opposition to the government; is there any truth in that?"

"That is a matter I have not considered," replied Sir Charles without hesitation.

GENERAL NEWS NOTES

Toronto, Oct. 31.—Judge Winchester on Saturday morning sentenced Henry Howarth to one year in the central prison. Geo. Bouch and F. Ward one year, each with 20 lashes. R. McArthur, two years less one day and 30 lashes. In each case the men were convicted of indecent assault on children. The judge expressed satisfaction that the government made it possible to apply the law in such cases. Howarth escaped this penalty as the doctors said he was too weak to stand it. Dr. Pollard, convicted of performing a criminal operation, was sentenced to five years.

Ottawa, Oct. 31.—Immigration into Canada for September was 15,343, an increase of 52 per cent. over Sept. 1908. The total immigration for the first six months of the present fiscal year was 120,932, as compared with 100,477 for the same period of last year, an increase of 20 per cent. Immigration from the United States for the six months shows an increase of 65 per cent. over the same period last year. Immigration via ocean ports decreased 3 per cent. The customs receipts for September were over a million dollars in excess of those of September last year.

London, Oct. 31.—It is generally known that Prime Minister Asquith thoroughly disapproves of Lloyd-George's budget, but is tied fast by party lines to the Chancellor of the Exchequer and Winston Churchill. At a banquet given recently at a private house, Mr. Asquith sat next to Lord Rosebery, who is fighting the budget. The premier aired his disapproval freely, and Lord Rosebery after listening to the denunciations, remarked smilingly: "Asquith you remind me of Jacobin in the French revolution, dejectedly following the procession, and explaining, 'I must follow them, I am their leader.'"

Calgary's city hall, which has become the civic joke of the west during the last year, is in a worse mess than ever. The incompleting building is standing as an eye sore to the public, and a petition is being circulated to have another bylaw passed to raise money for its completion. Now comes another knock from the Seattle firm of appraisers who have been valuing the work for the city, after the contractors were forbidden to go ahead with the work. The contractors have been paid \$105,000 and the appraisers say the value of the work done does not amount to \$85,000. Nobody is accused of graft, but there evidently been carelessness in certifying to work done as the building progressed.

Calgary, Alta., Oct. 28.—"Alberta Red" again secures premier honors at the Dry Farming Exposition and congress now in session at Billings, Montana. This is the second year in succession that "Alberta Red" has succeeded in securing the coveted prize. Although the parent seed of "Alberta Red" was secured in the United States, American farmers find it impossible to produce grain to compete in weight, color or value with the wheat grown in Southern Alberta. With the report of the triumph at Billings, comes the Canadian Pacific crop report that winter wheat is in excellent condition. Fall planting still continues and the Lamont district in the Bow River valley reports 18,000 acres prepared for next year's crop.

Toronto, Nov. 1.—Ninety-eight thousand of citizens of Canada will rejoice tomorrow over the receipt of cheques from the Liquidators of the defunct York Loan and Savings Co. The paper was sent out today by the National Trust Co., the assignees. The cheques sent out amount to approximately \$650,000. The dividend declared is 25 per cent. There are 114,000 shareholders, 10,000 of whom have not submitted their pass books and certificates. The other 4,000 were either in arrears or had borrowed from the company. Their arrears and share loans exceeded this dividend. It is expected that the next dividend will amount to 25 per cent. It will be declared when the rest of the property is sold. The company owns 52,300 feet frontage in Toronto, half of which has been sold.

St. John, N.B., Oct. 31.—The feature of the sessions of the Dominion W.C.T.U. was the biennial address of the president, Mrs. S. R. Wright, of London, Ont. After dealing with the social evil and laxity in enforcing the laws, the speaker, coming to the question of Mormon invasion, said it was necessary to sound a note of alarm in regard to the Mormon system, which was gaining such a foothold in the western provinces. Mormon missionaries were everywhere, and their converts were many. In Southern Alberta Mormonism was almost strong enough to hold the balance of power, its adherents today numbering more than 150,000. "That there is alarming need for instant action on the part of our organization to put forth some commensurate effort to stem if possible this growing menace to the highest life of our young nation is apparent," she said. "From the fact that from almost every one of our provinces have been drawn recruits in religion's name for the expansion of mormonism."

MINISTERS ORDAINED

Bishop of Qu'Appelle Ordains Candidates for the Priesthood and Diaconate—Coadjutor and Other Clergy Assist.

Moosomin, Oct. 30.—Thirteen candidates were in attendance for the ordination in St. Alban's church yesterday at 11 a.m. The services were conducted by His Lordship the Bishop of Qu'Appelle assisted by coadjutor Bishop Harding of Regina. About 25 of the clergy from different parts of the province were in attendance. A quiet day was spent yesterday by the candidates in preparation for the event, the Venerable Archdeacon Dobie preaching them a very thoughtful and instructive sermon on the life of prayer and penitence.

At the close the candidates were presented for the laying of the hands; ten for the priesthood and two for the diaconate.

Reverends H. D. Percival, T. T. Smith, H. P. Hitchcock, R. T. King, A. Calder, W. T. Hunter, R. G. Millidge, J. K. Irwin, and P. C. Jerrold for the priesthood, and Rev. A. W. Dunstan and D. M. B. Gasking for the diaconate.

The day began with a celebration of Holy Communion at 8 a.m., matins at 10 a.m.; the ordination service proper being at 11 a.m.

An eloquent and forceful sermon was preached by the Rev. Clement Williams, rector of Moosomin St. Alban's church; Rural Dean of Eastern Assiniboia, the text being taken from Acts 27 from the words: "Therefore Oh King Agrippa, I was not disobedient to the heavenly visions."

At the conclusion of the sermon the candidates for orders were presented by the venerable Archdeacon Dobie, the litany being ready by the Right Rev. Dr. Harding.

At the conclusion of the ordination the communion service was proceeded with, the bishop being the celebrant. The choir augmented by members of other church choirs in the town, rendered the musical portion of the service in a highly efficient manner. Visiting clergy present included Ven. Archdeacon Dobie, Regina; Rev. A. Carlton, Grenfell; D. P. Biggs, Broadview; J. F. Stewart, Wolesey; G. Freembrom, Wapella; J. Easten, Arcola; J. B. Linsell, Fleming; W. H. White, Nokomis and T. Tablin, Esterhazy. The offering in aid of the B. G. Anson Memorial fund for the endowment of St. Chad's Hostel, Regina, amounted to \$136.00.

Worry Over Judge.

The following resolution was passed by a joint meeting of the city council and board of trade of Battleford:

"Whereas it has come to our notice that charges of misbehavior have been made against his honor, Judge MacLean of the district court for the District of Battleford;

"And whereas we believe that the circumstances upon which the charge is based resulted from the illness of His Honor the Judge along with other unusual causes for worry;

"And whereas we have full confidence in and respect for his Honor the Judge, both as a judge and as a citizen of our town;

"It is therefore resolved by this meeting of the Municipal Council and the Town of Battleford that we have full confidence in his Honor Judge MacLean as a Judge of the District Court and entertain for him feelings of the highest respect as a citizen of our town, and it is hoped that no action will be taken which would result either in his dismissal from office or his removal from Battleford.

"It is further resolved that copies of this resolution be sent to the Honorable the Minister of Justice, and to His Honor, Judge MacLean."

BILLY OF ENNISKILLEN

The campaign has opened! The first gun was fired this week, in the issuing to the electors of Mr. John Hurst's election address, he being a candidate for the honor of first reeve for the newly created municipality of Enniskillen. It promises to be a whirlwind campaign, as the election will be held on December 14th, and in the meantime the ratepayers in the new municipality will hear what the candidates are going to do to improve things. As has been previously announced, William Noble, an active worker in the farming interests, is also a candidate, and he intends to hold meetings, to which he will invite other candidates that may happen to take the field. It is going to have all the airs of a federal election and a vision is already seen of 'Billy' bending forward in eagerness on the public platform, explaining the charge against him—not having stolen a timber limit—but having fenced the whole field in the river. This is to be the one of the issues of the campaign for Billy says the report to that effect was circulated with malicious intent, to damage his chances of becoming reeve. John Hurst says he is in the field, on his guarantee of word and honor, until the last vote is cast, and his address appears in another column. "So, gentlemen, the battle royal is about to commence." Who are you going to vote for, Hurst or Noble?—Oxbow Herald.

NEWS OF THE PROVINCE

Grenfell voted against incorporation as a town.

A Local Option League has been formed at Craik.

J. G. Turfitt has promised a post-office building for Weyburn.

LANDS SOLD

A sale of Indian lands at Balgonie last week resulted in prices of from \$7.50 to \$16.25 per acre. The American Land Co., and local farmers were the principal purchasers.

TYPHOID

Reports from various places in the province tell us that typhoid fever in an epidemic form prevails. Reports from the railroad camp near Broken Shell say that there are 27 violent cases. One thrashing gang in the same neighborhood has seven cases and one death. It is also reported that this dread disease is epidemic at Milestone.

A GREAT NIMROD

Mayor W. M. Grant, ex-M.L.A., is deserving some recognition as a sportsman. He has killed over sixty geese and eighteen turkeys to date, and the season is just opening, he says. On Thursday morning Mr. Grant brought in thirty-one, and loaded down a few of the travellers who were in town, chief among them being W. M. Martin, M.P., of Regina, —Rosthern Enterprise.

ORGANIZE

A meeting of the Sil line implement dealers was held in Weyburn last week and an association formed. The object of the association is the betterment of trade generally, for protection of the members against bad accounts and a united effort to compel wholesalers to transact business with the retail dealer in a more liberal manner and give a few concessions instead of forcing the retailer to take things as he finds them.

POTATOES PAY

Mr. Rolin of Balmoral, has a record yield of potatoes for this season. Six potatoes gave a total weight of 13 pounds and one potato weighed three pounds, while the yield per acre was 480 bushels. Even at the low price of potatoes this season, 27 cents per bushel, Mr. Rolin received the handsome return of \$129 per acre. In addition to potatoes Mr. Rolin had 400 acres in crop, much of which was wheat. His wheat averaged 39 bushels per acre, but even at a dollar a bushel for wheat the potatoes were decidedly the most profitable crop.

NARROW ESCAPE

Mrs. Frith, Jr., missed a serious accident last week by a small margin. She was at the well pumping water, when without warning, the well caved in, the surface earth falling sixty feet into the well. The well covering toppled and she slipped, but managed to catch the covering and hold on. She gradually drew herself up and out. A look into the yawning depth made her realize her serious plight. Fortunately the support which she grasped when the ground gave way was strong enough to resist the strain, or the consequences would have been serious.—Moosomin Spectator.

SLOGANS

It has recently become the fashion for cities to have slogans. Chicago started it with her "I will." Some other city—perhaps it is Pittsburgh—declares "I Can." Then there is "Forward Cleveland," not to mention "Boost for Buffalo," or "Baltimore for Business." In our opinion the town of Mott, N.D., has them beaten in respect of slogans. "Mott is the Spok. What?"—Chicago Record Herald. That's all right but how would "Yokton for Yields" do for our slogan? If you can improve on this one do so. We'll publish all the slogans our readers can invent.—Yorkton Enterprise.

FINED

The rural municipalities have had considerable trouble lately over their cement tile, a large number having been wilfully broken. A short time ago. Several small boys were fined for this offence and on Tuesday Fred Lafferty and Oscar Greenwood appeared before J. R. S. North and P. Amas, J.P.s, on the same charge. The court found them guilty and assessed them each in fine and damages \$10.70, or thirty days. The fine was paid. There are also informations laid against two other persons for this offence. The municipality is determined to put a stop to this thing.—Qu'Appelle Progress.

CELEBRATED

Carlyle, Oct. 28.—The arrival in town of the C.N.R. steel engine outfit of 125 men was this afternoon celebrated by the town in a most

SPECIAL NOTICE

BETTER THAN SPANKING.
Spanking does not cure children of bad habits. There is a constitutional cause for this trouble. Mrs. M. Summers, Box 98, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if your children trouble you in this way. Don't blame the child, the chances are it can't help. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

McClary's Sask-Alta

Saves a Lot of Fuel
Sask-Alta Steel Range is built to be very, very easy on fuel as well as a perfect baker and cooker. To describe in detail the various schemes which save fuel would be too long a story for this space, so we ask you to allow the McClary agent to tell you how the following features save fuel—

- Wide Fire Box—Double Duplex Grates—Asbestos Lined and Anti-Rust Coated Flues—
- Top and Bottom of Oven with Asbestos Lining—
- Heat Retainer at Back of Oven.

For Sale by Peart Bros. Hardware Company

50% Profit in Four Months

That is what we absolutely assure every purchaser of lots in

CHIN

The New Town in
"SUNNY SOUTHERN ALBERTA"
on the main line of the C. P. R.

The sale will start with a rush. Why? Because the folks living anywhere near the site realize the need of a live town to supply the needs of farmers who own from 160 acres upwards of the 200,000 acres for which there is no trading point nearer than 13 1/2 miles. Chin is situated right in the midst of this wonderfully rich community and has as promising a future as Sterling, Magrath, Grassy Lake, Bow Island and Taber, all of which have sprung out of the prairies within the last five years and are thriving little cities where real estate has doubled and tripled in value.

We put Warner on the map three years ago. It has made good several times over. We have sold more than 300,000 acres of farm land in this section of Alberta within the last four years, and every buyer is now prosperous or wealthy.

Chin is not the visionary scheme of professional town site boomers. It is a legitimate enterprise backed by one of the largest land companies in the Northwest. There is urgent need of a town at the site selected. A red blooded, wide awake man might drop out of a balloon onto any lot in Chin and be sure of making money.

Chin is not to be simply a good business town. We have planned to make it a comfortable place in which to live by donating sites for a School, Church, Parsonage, City Market and we are going to put in a city well. There are openings for many lines of business.

Three Lots Free
To stimulate immediate sales we are going to give away three lots. Every purchaser of a lot, regardless of price, will stand a chance of getting a present of a lot, by purchasing the nearest number of lots sold up to the time the fifty per cent increase takes place. The first purchaser to guess the exact number, or nearest to the exact number of lots sold will receive a \$500.00 lot, the second nearest in number will receive the \$300.00 and the third one the \$100.00 lot.

A Fifty Per Cent Increase Assured
Four months from the date of the first payment registered, the price of lots throughout the town of Chin will be advanced one half, regardless of any condition that may exist at that time. This fact assures every purchaser a profit of at least fifty per cent as he can at once re-sell his lots for sale by our company. There is no chance to lose and absolutely 50 per cent to gain and possibly considerably more.

Your chance is as good as the next man's
Call or write our nearest office for full particulars.

fitting manner, by the driving of a golden spike by Mayor Riddell; the breaking of a bottle of champagne; the playing of the town band, and the dispensing of liquid refreshments to the citizens and crew of the C.N.R. The rapid laying of the ties and steel, at the rate of over a rail the length per minute, was much enjoyed by the large crowd of spectators. A diamond was put in at the C.P.R. crossing this morning, and the track laying crew is now heading for Beinfalt, at the rate of from two to three miles per day.

SOLD CROP

Ernest Paradis was brought in from Torget on Saturday to answer a charge issued by Judge Lamont, that he did not restrain from cutting the crop when ordered to do so, on a quarter section. He disobeyed the order, drove the people off in charge and took the grain off and sold it. Campbell and Cameron of the Moose Mountain Co. owned the land. The objection was taken under section 165 of the criminal code where it reads: "Every one is guilty of an indictable offence and liable to one year's imprisonment, who without lawful excuse, other than for the payment of money, made by any court of justice, unless some penalty is imposed or other mode of proceeding is expressly provided by law." In the light of the above, the magistrate ruled that he had no jurisdiction and it is probable the case will be taken before the supreme court.

PECULIAR ACCIDENT

A peculiar accident happened to one of our farmers a short time ago

in which he had an interesting time with a team of horses and a fire. He was working on his farm after dark with a team and wagon. In order to have light he fastened his lantern to the front end of the wagon tongue, steadying it by a strap on either side from the bottom of the lantern to the ends of the neckyoke. All went well until the handle dropped off the lantern, which then turned upside down, and in this position the coal oil came in contact with the flame. This naturally caused excitement among the horses, which reared and jumped about, and with every move they made the lantern suspended by the straps scattered more oil in every direction over the horses and under them. It was an interesting time for horses and driver and both were singed considerably.—Heward Chronicle.

The sentence of Mrs. Robinson, the unfortunate woman sentenced to be hanged at Sudbury has been commuted.

If your wife is the best woman in the world, tell her so; it will keep her young and lengthen her life.

Local and General

The increase in custom receipts at Regina for October was \$12,169.

A. G. Cook intends erecting a skating rink in the city this winter.

Sergt. Burrows of the Regina Police Force, has been suspended for a month.

The date for the civic enquiry into the track site transactions has been fixed for Nov. 23.

New buildings to the value of over one million dollars have been erected in Regina this year.

The business of Regina Clearing House for October amounted to nearly four million dollars.

Forget Chapter is the name adopted by the newly organized Daughters of the Empire in Regina.

The C.N.R. will open a city ticket office in the Security Loan Building on Scarth street about Nov. 1.

W. J. Uren, who succeeds Supt. Taylor on this division of the C.P.R. assumed his duties on Monday.

Mr. Mantell of the Free Press staff, has taken a position in the Saskatchewan department of agriculture.

E. C. Tectonias left on Sunday for La Porte, Ind., where he joins the staff of the Rumley Threshing Co.

The old church near Gratton school has been torn down. It was one of the landmarks of the city. The property is owned by the Oblate Fathers.

A party of Regina Oddfellows visited Belle Plaine on Wednesday evening and exemplified the work of that order in the local lodge which was instituted recently.

Frank Robertson an employee on the government telephone department, attempted suicide on Sunday by shooting. The wound is not serious and he is at present in the hospital.

The Rumley Co., of La Porte, Indiana, will establish headquarters here for the three provinces. The office building 46 by 30 feet is being erected this year and next year the main building 230 by 90 feet will be built.

The Bank of Ottawa, through their solicitor, J. F. L. Embury, has purchased the remainder of the old city hall property on Scarth street and will erect a fine block on the site. The price paid was \$30,000.

The large electric smelter at Sturgeon Falls, Ont., was destroyed by fire on Monday evening with a loss of \$100,000. Alderman Wilkinson of this city was largely interested in the concern which had just been completed.

Mr. Woodward left last week to join his family at New Westminster. He is one of Regina's old timers, having settled north of the city in the spring of 1882. Few of the old settlers of that date remain in this district. Mr. Woodward will return in the spring.

The marriage took place in Winnipeg on Monday last of Miss McFadden, late of the staff of the department of agriculture here, to W. F. Windeatt, chief clerk of the department. Mr. Windeatt is well known here, having been connected with the government service for many years.

Jack Butler, a young Englishman, who has been threshing, committed suicide on Monday on the farm of Wm. Busby, Tregarva. The deceased had been drinking heavily. He quit work in the afternoon and went into the barn, where he blew his brains out with a shot gun. The coroner decided that an inquest was unnecessary.

While driving from Lang to Rough Bark on Monday, A. E. Whitmore, M.L.A. and wife met with what might have been a serious accident. The bolt holding the whiffletree broke allowing the tongue to fall and the team got beyond control of the driver. Mr. and Mrs. Whitmore were thrown out and considerably shaken up, but after a rest were able to continue their journey.

Mr. W. S. Loggie, M.P., and wife of Chatham, N.B., were in the city on Friday, visiting their son, Mr. H. Loggie, of Nicol & Loggie. Mr. Loggie, Sr., is member for Northumberland, N.B., and managing director for W. S. Loggie Co., Limited. He has also been mayor and alderman of the town of Chatham. He will visit the Pacific coast before returning. Mrs. Loggie will return from here to Winnipeg.

A member of the R.N.W.M.P. in the person of Corpl. Slater, left on Saturday for Hamilton, Ont., armed with a warrant to bring back to Regina, F. J. Veale, who is wanted on several alleged charges of forgery in Moose Jaw and district. The police for some time past have been on the lookout for this man. A warrant for Veal's arrest was issued by Magistrate Frant on Oct. 26, on a charge of obtaining \$200 by false pretences from Benjamin Marshall, a farmer south of the city.

The Regina Machine and Iron Works propose erecting a solid brick or reinforced concrete building here next spring in which to house their ever-increasing plant. They want the city to offer some little inducement in the way of a cut rate for lots 6 to 10, and 11 to 14 in block 14, and a fixed rate of assessment for a number of years. They also want a reduced power rate. They are willing to pay

\$2000 for the property. At present the plant employs 26 men steady, with the enlarged premises they will be very materially increased.

A meeting of the normal literary society was held in the assembly hall on Friday evening, Oct. 29. The program was as follows: Reading of the minutes by the secretary, after which a few items of business were transacted, the first was nominations for program committee for the following week were taken, Mr. Topliffe, Miss Kidd, Miss Cameron and Mr. Renmac, the first three were elected, the second item was the appointment of reporters for the papers for November, Miss O'Gorman, Miss Galbraith and Mr. Johnston were elected. Then Miss Hawkins and Miss Cox were nominated to take the educational review, Miss Hawkins was elected. The gentlemen gave the literary part of the program. The first number was a trio, "Break, Break, Break," by Messrs. James, Renmac and Craig, speech, School experience in the west by Mr. Sweeney; paper on the life of Dumas, by Mr. Topliffe; reading, "When the Day's Work was Done," by Mr. Johnston. A recitation by the president, Mr. Anderson, "Casey at the Bat," solo, "When the Ebb Tide Flows," by Mr. Craig; reading "Four Epochs," by Mr. O'Dair. Miss Galbraith gave the educational review. Mr. Fenwick acted as critic, and the meeting closed with the National Anthem.

Canadian Magazine.

The Canadian Magazine for November is very general in its interest. The first article is entitled, "The Drama of the Ward," by Augustus Bridle, being a sociological study of the development and revolution that has been taking place in the slum section of Toronto. There are five pen and ink illustrations by G. Greene. "Where Nature's Gas is King," by W. Lacey Amy, is a most entertaining account of the growth of natural gas has had in its development. It is splendidly illustrated. Miss Jean Graham contributes a most readable article entitled "In Delta Land," being an appreciation of Mr. E. F. B. Johnston's collection of deltaware. The account of the capture and transportation to Canada of the Montana herd of buffaloes is concluded by Nowron MacTavish. The illustrations for this article are even better than for the first. Isabel Ecclestone Mackay contributes a fine story, "New Lamps for Old," with illustrations by J. W. Beatty. Other articles are comedy and humor in "The Bible" by J. D. Logan; "A Literature of Warning," by W. D. McBride, with short stories and poems by Canadian writers.

CLEARING HOUSE RETURNS

The Regina Clearing House returns for the week ending yesterday totaled \$831,875, a good record in view of the fact that the intervention of Thanksgiving Day made the business week a day short. With the publication of this week's total, the clearings are now available for four full weeks, the time the clearing house has been in operation. The total for the four weeks is \$3,330,515, made up as follows:

U. S. ELECTIONS.

W. J. Gayner, Tammany candidate has been elected mayor of New York by a plurality of 75,000. All other offices were filled by anti-Tammany candidates.

The Republican machine carried Philadelphia. Tom Johnson's reign in Cleveland is over being defeated by a small majority as a candidate for fifth term as mayor.

Cincinnati stood by Boss Cox of the Republican party, despite the fact that President Taft wished his defeat.

Toledo re-elected Brand Whitlock as mayor. The Republicans carried Massachusetts. Nearly all New York state went Democratic.

Virginia and Kentucky went Democratic, New Jersey and Rhode Island Republican.
