to delay the ringing of the

second gong until after the pro-

cession had passed. I had not

supposed it was to be so great

an affair. A large number of

elephants had passed before I

began to count, but I counted

110 as they passed along one by

one. I was told there was 170

in all the procession. One of the

largest wore trappings of the

brightest silver. The howdas

contained rice. All these were

decorated with green branches.

The procession was in honor of

the guardian spirits that preside

over the rice crop. Those that

could see the procession in its

whole length considered it the

most imposing one that has

passed for years.

**A "DEVILFISH" CAPTURED.**

[From the San Francisco Chron-

icle, June 17.]

An octopus, or "devilfish,"

was captured on Tuesday by

some Italian fishermen while

fishing near the Farallones, and

placed on exhibition in Centre

Market, where it was viewed by

hundreds of persons yesterday.

One of the fishermen came near

losing his life in attempting to

land the monster, which had

fouled in his lines, and on com-

ing to the surface fastened three

of its long tentacles around the

man's neck, and would have

drawn him overboard had not

one of his companions severed

the arm from the body. The

wraps of high ceremony for

summer wear.

Fans of bronze and maroon

velvet paper covered with gilt-

ed and flowered designs are

pretty novelties.

**A TRAIN STOPPED BY CAT-**

**TERPILLARS.**

Colonies and India quotes

from a New Zealand paper the

following story.—In the neigh-

borhood of Turakin an army of

caterpillars, hundreds of thou-

sands strong, was marching

across the railway line, bound

for a new field of oats, when a

train came along. Thousands

of the creeping vermin were

crushed by the wheels of the

engine, and suddenly the train

came to a dead stop. On exam-

ining it was found that the

wheels of the engine had be-

come so greasy that they kept

on revolving without advancing

—they could not grip the rails.

The guard and the engine driver

procured sand and strewed it

on the rails, and the train made

a fresh start, but it was found

that during the stoppage caterpillars

in thousands had crawled all

over the engine, and all over

the carriage inside and out.

Chatham, N. B.

The Purest and Best Medicine ever Made.

A combination of Hops, Buchu, Marsh-

mallo and Dandelion, with all the best and

most valuable properties of all other Bitters,

make the greatest Blood Purifier, Liver

Regulator, and Life and Health Restoring

Agent.

No disease, however long, exists where Hop

Bitters are used, and so varied and perfect are their

operations.

They give strength and vigor to the aged and infirm.

To all those who employ them as a tonic, or who re-

quire an Appetizer, Tonic and mild Stimulant,

Hop Bitters are the only medicine without inter-

fering.

No matter what your ailments or symptoms

are, what the disease or ailment is, Hop Bitters

will cure you, and you will feel better if you

only feel bad or miserable, use them at once.

It may be your liver is disordered, or your

stomach is weak, or you are suffering from

indigestion, or you are suffering from a

disorder of the bowels, or you are suffering

from a general debility, or you are suffering

</

TWO PICTURES.

This is what the great Edmund Burke says of the duty of a Representative. We want Mr. Snowball and his friends to read it:—

"It is the duty of your parliamentary representative to sacrifice his repose and his pleasures to yours, and above all, to prefer in all cases OUR INTEREST TO HIS OWN."

SIR HECTOR L. LANGEVIN.

As this distinguished gentleman is tomorrow to visit Chatham, our readers may not find a short sketch of his life uninteresting reading. Sir Hector is son of the late Jean Langevin, Esq., Assistant Civil Secretary to the Earl of Gosford, and Lord Sydenham, during the period these noblemen held the office of Governor-General of Canada, by the late Sophie Scholastique La Force, whose father was acting Commodore of the British fleet on Lake Ontario during the American revolutionary war; and brother of the Right Rev. J. Langevin, D. D. Bishop of St. Germain de Lévis.

Born in Quebec 25th August, 1826, and was educated at the Seminary of that city. Married 1854, Justine, eldest daughter of Chas. H. Tett, Esq.; was called to the Bar, Lower Canada, October, 1850. Created Q. C., March, 1864. Was editor of the *Melanges Religieux* (Montreal) from 1847 to 1849; subsequently of the *Journal d'Agriculture* (same city); and at a later period, of the *Courrier du Canada* (Quebec).

Sat as a member of the City Council, Quebec, for some years, and was chairman of the Water Works Committee. Was Secretary Treasurer of the North Shore Railway Company; Mayor of Quebec from 1857 to 1860, and during his incumbency visited England on matters affecting the city finances, &c.; President of the St. Jean Baptiste Society (Quebec), 1861-2 and of the *Institut Canadien* same city, 1863-4. Author of *Le Cano*, *see Institutions, &c.*, an essay, (Quebec 1855), and of *Droit Administratif ou Manuel de Paroisses et Fabrique* (Quebec 1862).

Was a member of the Executive Council, Canada, from March, 1864, until the Union; Solicitor General Lower Canada from March 1864, to November, 1866; and Postmaster General from latter date until the Union. Was sworn of the Privy Council and appointed Secretary of State of Canada, 1st July, 1867, in which office he remained until transferred to the Public Works, 9th December, 1869. Was, while at the State Department, *ex officio* Registrar-General of Canada, and Superintendent General of Indian Affairs; was acting Minister of Militia and Defence in 1872.

Created C. B., (civil) by Her Majesty, 1868. Created a *Chevalier Commandeur* of the Roman Order of Pope Gregory the Great, 1870 and a K. C. B., by Her Majesty the Queen in 1871. Was a delegate to the Charlottetown Union Conference, 1864, to that in Quebec, same year, to the London Colonial Conference, 1866-7, to complete terms of Union of British North America Provinces, and to British Columbia, 1871, on the occasion of the entrance of that colony into the Dominion. Introduced two measures in 1863, one fixing the rate of interest at eight per cent.; the other to cause capital punishment to be inflicted in jail-yards; both passed in Assembly, but were stopped in Upper House by dissolution of Parliament—the latter has since become law.

Sat for present seat in Canadian Assembly from general election, 1857 until the Union. Returned to Commons at general election, 1867 by acclamation; re-elected 1872. Represented Dorchester in Local House from general election, 1867, to general election, 1871, when returned for Quebec Centre by acclamation. Was defeated in 1873, and retired from public life.

On the defeat of the McKenzie Government in 1878 Sir Hector was called upon by Sir J. A. Macdonald to take a seat in the new Government, and has since been Postmaster General and is now Minister of Public Works. He is recognized as one of the ablest men in Canada.

THE OUTER BAR.

The steam Dredge *St. Lawrence* has nearly, if not altogether, completed her work of dredging the Horse Shoe Bar. We learn that there is now at low water a depth of 20 feet on the Horseshoe; not only has the channel been deepened, but it has been made straight and easy for navigation. This depth of water will enable vessels to go out in safety, and avoid the expensive delays so prevalent a few years ago.

But there yet remains a few weeks work on the outer Bar. This bar runs in a line almost parallel to Fox Island and at a considerable distance from it. In the channel inside, between the Bar and Fox Island, there is plenty of water, except at the lower or Southerly end, at a place called the Lump, and marked by a buoy called the Lump buoy. Here the channel is narrow and crooked, and deep vessels that pass over the Horse in safety experience much difficulty in getting over this part of the Bar. Being situated outside, it is a more dangerous place than the Horseshoe, and in order to make a complete job of the mouth of our harbor, the Dredge should be sent at once to deepen this part of the channel. The distance required to be dredged is not very great, and as the boat is now here, and it is yet early in the season, there is plenty of time for her to do the required work. We trust the Minister of Public Works will here give the necessary orders for completing the deepening of the channels at the mouth of the river.

FISHERY MATTERS.

We have received several letters on fishery matters; and we shall state their contents in an early issue. We have endeavored to get at the bottom of the matter complained of, and to this end have acquired much from impartial and well-informed quarters. We think a real grievance exists on the one side; and shall make the matter plain, though fully recognizing how onerous and how perplexing are sometimes, the duty of our fishery officers.

CAPTAIN BROWNRIEGG.

We have not space in this issue for the comments in English papers on the heroism and humanity of Captain Brownrigg,—who is by the way a Newfoundlander—but we shall publish them in full in next; hoping that the Dominion Government will take cognizance of the same.

We have to thank our correspondent for the excellently written account he has given us of the drive to St. Louis, of the new church there, and of the ceremonies. It will be found on another page.

We close our report of the high school examination today. The teachers and the school are to be congratulated.

A delegation of some of the leading people of Alnwick will arrive here tomorrow morning, and present Sir Hector L. Langevin with an address in French.

Why should the Board of Health make fish of one and flesh of another?

Business houses, etc., still crowded out—besides a lot of editorial matter.

Mr. "Patrick Foley's" letter will appear in next.

President Garfield is recovering.

A TOUR TO ST. LOUIS.

On Tuesday morning of last week, the students were summoned to repair to the Bishop's Palace, and, to their unexpected pleasure and satisfaction, His Lordship told them they were respectfully invited to have a cruise to St. Louis. As many of them had not seen the place before, the invitation was certainly received with thanks. But what was to be done in St. Louis? And how long they were to remain there, and all in that line, was reserved from them, that the visit would surpass the anticipations of all concerned. However, they started, some at 10 o'clock, and more at 11 o'clock, a. m. A detachment of the travellers took dinner at Father Hilariou Douceti's dwelling, just about completed in St. Margaret's. Another detachment put up for dinner at the house of Mrs. Dicken's, St. Margaret's and others kept on their way till they arrived at M. Flanigans half-way house. The day was fine. The horses went pretty briskly, and everything that could add to comfort was at hand.

When we arrived at St. Louis we were struck with admiration at the scenery, or more properly the combination of scenery. The first thing in sight as you approach, is of course the steeple of St. Louis Church; but the first building of importance we meet is St. Louis's Commercial and Classical College, situated to the right of the road and on a hill overlooking the river. It is four stories high and in the shape of a T, is conducted by ecclesiastics. Father Richard the Parish Priest is director, but Rev. Father Birou is chief Professor. The other professors are respectively, Rev. Father Millet, lately ordained priest, Mr. Jardine, Mr. Dehn, professors Smith, Cameron, Desmond. During the first year there were about 85 boys attending this Institute.

Thence, after we cross the river, which is spanned by a firm and commodious bridge, we meet, turning to the right a scene so seldom seen by Americans. It is what is called the Grotto of Lourds on account of the miraculous fountain, and the likeness of the place to one of the same in France. Also on account of the many people who have been cured since it has been made known. There is a beautiful statue of the B.

Boat Race at Newcastle.

Boat racing is one of the most ancient of practices, and it ought not to be neglected as a physical exercise any more than it ought to be practised as a facility for gaming and blacklegging. The first boat ever built was the ark, but there is no account of Noah racing in this vessel. When the Argonauts under the command of Captain Jason, set out in search of the Golden Fleece, they encountered several Dolphins on the way, and ran races with them. Even in the wanderings of Æneas, if we are not mistaken, some exciting boat races were had; and what could be more grand a sight, or a better exercise than when two Roman galleys set out to row across to the shores of Carthage. But neither the Argonauts, nor the Romans, nor the Carthaginians ever degraded boat racing as calf Courtney and pompey Ross have done. These men would degrade the profession of boat racing if they indulged in it, to say nothing of boat racing. We hope to see in future many an exciting match between Chatham and Newcastle boys, but we never want to see them row for money. Let them row friendly races; or for the laurel bush, or for a cup, or for plate. Once rowing for money commences, then the evil has taken root.

On Saturday evening large numbers went up from here by the "Andover" and several likewise in the "St. Louis," in which was a large number of ladies. Blue and white bunting fluttered prettily from the little steamer, and white handkerchiefs were waved to persons here and there along the shore. Barrels were placed opposite the Lime kiln wharf at Newcastle, for here the different boats in the race had to turn. Four boats entered, two in each. Position was taken as follows: No. 1—W. A. Park and A. G. Scott, near the shore—colors red and black. No. 2—Dr. McLearn and Walter C. Miller—colors blue. No. 3—C. Benedict and J. R. Ambrose, Chatham—colors blue and white. No. 4—J. R. Malby and C. F. Brown—colors white. The Judges were R. R. Call and J. C. Miller. Referee—Charles Sargeant. Starter—D. G. Smith. At 7.30 the word "go" was given, each boat making a fair start, No. 1 having a slight advantage. No. 4 rowed by C. F. Brown and J. R. Malby soon got out of the race. They only pulled a couple of strokes when an oar broke, and they looked about as despairing as does a sea-gull after it gets one of its wings broken. They got ashore with the stump after repeated efforts. The other three went on, but it was soon evident that the laurels were for Chatham. The blue and white could be seen gradually creeping in advance, till the "distance" became assured. The objectionable attitudes and demonstrations of some objectionable persons at this fact kept the fine rowing of Chatham from receiving the approbation of the Shiretown. It is otherwise would have received. Blue and white held the lead all the way, turned the buoy in 5 minutes and had it their own way coming back. There was a nice contest between Nos. 1 and 2 for second place, No. 1 coming in a length and a half ahead of No. 2. We are glad to see Chatham taking the race, but at the same time it may be as well to say that they were better prepared for taking the race. Their boat rowed lighter than the others, because she had no coxswain which put the others by the stern; and No. 3 was provided with sliding seats, which gave much of an advantage over the others which had not sliding seats. We hope to see another race soon, and under conditions more equal as to equipment. Should Chatham then come in ahead, we shall on her behalf be more jubilant over the victory. Meanwhile we have to say, "well done Chatham."

Wednesday we witnessed a ceremony very uncommon. It was the dedication of this church and the celebrating therein of the first mass. The honored celebrant on this occasion was Rev. Father Pelletier assisted by Rev. Father Michaud as Deacon and Father Cormier as sub deacon, Rev. Father Jibend Sulpician, parish priest at Montreal delivered a sermon after the first gospel. The text was taken from the Psalm "Nisi Dominus." Present at this ceremony there were about three thousand persons, not half of whom could find room in the church. There were nearly twenty Catholic Clergymen including His Lordship Bishop Rogers, two Sulpicians from Montreal, one of whom, Pere Russell was Professor of Canon Law in the grand Seminary, and several from our own diocese. Afterwards the people repaired to the picnic grounds, which were for their accommodation for two days. At 8 o'clock on Wednesday the Benediction of the Blessed Sacrament was given. I may remark that the singing was really beautiful. The choir consists of fifty or sixty well trained masculine voices which are accompanied by an organ and a fine brass band. There was another High Mass which was succeeded by a grand procession to Notre Dame des Lourdes. The procession was grand, observing great order, and accompanied with beautiful singing. After this ceremony many priests took their leave, others postponed till the morrow, but none without feeling great satisfaction, and without being deeply impressed with the piety of the Louisiana, and the untiring zeal of their Director, Rev. Pere Richard. The amount realized net profits of the picnic was \$1,300.—Com.

We keep in Stock at LOWEST PRICES a complete assortment of General Hardware —AND— MILL SUPPLIES, Rubber and Leather Belting, Lacing Leather, Lubricating Oils, WROUGHT IRON PIPE for steam, gas or water and FITTINGS for same. Notice! The undersigned master of the barque "Peerless," beg to notify the consignees of my vessel, that I have arrived in port and am now ready to receive orders for loading. J. NOBLE, Master bark "Peerless," Chatham, Miramichi, July 12th, '81, if

Loss of Appetite in Children. From Chas. H. Colgate, Manufacturer of Flavoring Extracts, 21 Blackstone Street, Boston. "Last spring my little daughter, aged five years, became very much emaciated with loss of appetite and great prostration of strength, so much so that we were obliged to take her out of school. This continued through the summer and caused us much anxiety. After trying various remedies without deriving any benefit, our family physician recommended the use of PEPPERMINT SYRUP. After using it only a few days we saw a marked improvement in the child's condition, and in a month she was rapidly gaining in health and strength, her appetite being excellent. At this date she is perfectly well, with round plump cheeks and healthy color, and is again attending school regularly. I consider her restoration to health entirely due to the use of PEPPERMINT SYRUP, and feel that I cannot too highly recommend it as a tonic." Druggists sell PEPPERMINT SYRUP.

Grateful Women. None receive so much benefit, and none are so profoundly grateful and show such an interest in recommending Hop Bitters as a woman. It is the only remedy peculiarly adapted to the many ills the sex is almost universally subject to. Chills and fever, indigestion or deranged liver, constant or periodical sick headache, weakness in the back or kidneys, pain in the shoulders and different parts of the body's feeling of lassitude and despondency, are all really relieved by these Bitters.—CONTRACT.

Meanwhile we have to say, "well done Chatham."

On Saturday evening large numbers went up from here by the "Andover" and several likewise in the "St. Louis," in which was a large number of ladies. Blue and white bunting fluttered prettily from the little steamer, and white handkerchiefs were waved to persons here and there along the shore. Barrels were placed opposite the Lime kiln wharf at Newcastle, for here the different boats in the race had to turn. Four boats entered, two in each. Position was taken as follows: No. 1—W. A. Park and A. G. Scott, near the shore—colors red and black. No. 2—Dr. McLearn and Walter C. Miller—colors blue. No. 3—C. Benedict and J. R. Ambrose, Chatham—colors blue and white. No. 4—J. R. Malby and C. F. Brown—colors white. The Judges were R. R. Call and J. C. Miller. Referee—Charles Sargeant. Starter—D. G. Smith. At 7.30 the word "go" was given, each boat making a fair start, No. 1 having a slight advantage. No. 4 rowed by C. F. Brown and J. R. Malby soon got out of the race. They only pulled a couple of strokes when an oar broke, and they looked about as despairing as does a sea-gull after it gets one of its wings broken. They got ashore with the stump after repeated efforts. The other three went on, but it was soon evident that the laurels were for Chatham. The blue and white could be seen gradually creeping in advance, till the "distance" became assured. The objectionable attitudes and demonstrations of some objectionable persons at this fact kept the fine rowing of Chatham from receiving the approbation of the Shiretown. It is otherwise would have received. Blue and white held the lead all the way, turned the buoy in 5 minutes and had it their own way coming back. There was a nice contest between Nos. 1 and 2 for second place, No. 1 coming in a length and a half ahead of No. 2. We are glad to see Chatham taking the race, but at the same time it may be as well to say that they were better prepared for taking the race. Their boat rowed lighter than the others, because she had no coxswain which put the others by the stern; and No. 3 was provided with sliding seats, which gave much of an advantage over the others which had not sliding seats. We hope to see another race soon, and under conditions more equal as to equipment. Should Chatham then come in ahead, we shall on her behalf be more jubilant over the victory. Meanwhile we have to say, "well done Chatham."

## LOCAL MATTERS.

NOTICE. The public are hereby cautioned against paying subscriptions or amounts for advertisements to any person on behalf of the STAR, unless said person hold written authority from me to collect and receive the same.

J. E. COLLINS, Ed. "Star."

### Diphtheria.

A fine little boy of Mr. Patrick Connors died this morning of diphtheria.

### A New Ship.

A very fine new barque belonging to Mr. Geo. McLeod was towed around from Richibucto by the steam tug "Gladiator" yesterday.

### Personal.

Inspector McMillan was in town Monday.

Mr. Blake and Mr. Huntington arrived in St. John yesterday.

Sir Hector Langevin will arrive here by the 5 a. m. train to-morrow. Two addresses will be given him, one from the county, and one in French from the Parish of Alnwick. Sir Hector and his son, and Secretary will be the guests of Hon. Senator Muirhead during part of their stay.

### Funeral.

The funeral of the late William Sadler on Sunday last, was largely attended. The Freemason Society of Chatham marched in procession; and the number was increased by several of the brotherhood from Newcastle lodge. There was a long procession of carriages, and persons on foot. Before the burial ritual ended, a violent storm came on, accompanied with suffocating dust squalls.

### The Judge Again Before Court.

Judge Steadman is again before the court for illegal fishing. The Judge and Messrs. Phair and Hanson have lately been on a fishing tour to the Miramichi, and fished off their own lands without license, claiming the right to do this as riparians. Mr. Robert Orr the efficient overseer at Fredericton, notified Mr. Venning of the fishing, and the two accompanied by the Deputy Minister of Justice of St. John, proceeded to the spot and found the parties fishing. The trio have been cited to appear before a country magistrate to answer the charge.

### A Tramp Caught.

Previous to Friday last, a tramp had been seeking ten-cent jobs from several people here. His object was to get a chance to "take something." On Friday night he got into the Montreal Bank building, alarming the inmates. Mr. Carmichael, one of the nearest residents, on being awakened went out and secured the prowler. He was taken to the lock up, and the following articles were found upon him:—1 coat belonging to Mr. Benedict; 1 handkerchief belonging to Mr. Ambrose; 1 bottle of whiskey, owner not stated. Some jet jewellery. On examination the tramp gave his name as Reine, and he was sent to the County jail to await trial.

### The Right Kind of Enterprise.

Last fall Dr. Baxter purchased a farm in Napan territory, containing 200 acres of first class land, a large portion of it cleared, and much of it covered with a second growth of trees. Since purchasing he has had mechanics employed in building, and there is now erected a first-class farm house, well laid out, and plastered; likewise a fine substantial and roomy barn, that is not equalled in the settlement. The barn is surmounted by a cupola and will have a vane on the top. When both the buildings are finished, they will be a credit to Napan, and to the well-directed enterprise of Dr. Baxter. It has cost not a little sum to put these buildings up, but is not money so expended to much better use than lying in the savings bank at 4 per cent, or frittered uselessly away. Dr. Baxter has a purpose in this outlay. He has a man on his farm, and this year has put in 12 or 15 acres of grain besides a large quantity of potatoes. The doctor proposes going further than mere farming. He will purchase a large number of chickens, ducks and geese, and will keep a couple of hundred each for propagation. He will have a man especially to attend to this; and will be able to supply at least a thousand birds to the markets during the year besides an immense quantity of eggs. He will have the best stocks, and will take care that the breeding is carried on in the best principles. Dr. Baxter's idea is we think a good one. We know of no more promising speculation and wonder a similar effort has not been made before.

### STAR BRIEFS

#### Kites.

"May" in next.

#### Diphtheria still lingers.

The board of health is immovable.

#### Captain Brown has large new potatoes.

The moonlight excursion Monday was large.

Monday was the hottest day of theseason, the thermometer being 93°.

Messrs. Anderson and Loggie shipped 24 boxes of fresh salmon to the American markets yesterday.

The excursion from here on the 12th was not large, but those who went had an enjoyable day.

Dr. McDonald and other knights of the staff have almost denuded the waters of Bartibogue. The doctor brought home

## COMMUNICATIONS.

### MORE TAXATION.

To the Editor of the Star:— I notice that at the last meeting of Council, Mr. Goggin the Councillor was the means of putting an additional \$305 tax upon us. I thought we were taxed enough already, for all we derive out of the taxation. The sum mentioned is ordered to be assessed now to open a road to allow an engine to go through in case of fire. Why put on this extra tax when the road could have been opened without taxing the town? Why did not Mr. Goggin set his brains to work, if he has any, to sell that vacant lot of town land in rear of his own garden? The public know that some years ago when it was asked to open a road here, Mr. Goggin and others got three "impartial" men to say the road was not wanted. If Mr. Goggin cared for the interests of this town he would have seen that the squatters, Mr. Burbridge and Mr. Anderson bought the town lands on which they now live. Then there is the Sinclair lot. There years more, 21 years, this will revert to private hands unless the Council take the land. In Newcastle the squatters had to buy; why not here? Let Mr. Goggin a nice man for the "poor man!" These lands properly managed would have given the new road without a dollars taxation; and yet we have to pay \$305 for it.

### REVOLUTIONIST.

#### A FALSEHOOD.

To the Editor of the Star:— A local paper here states that the office of Quarantine doctor was terminated by the death of Dr. Lewin; and then it goes on to censure this Government for not making a new appointment. What the local paper says one way or the other is not of much account, but the above statement being a deliberate lie ought to be stamped as such. Dr. Lewin as you state in your last issue, was "dismissed," and that long before he "died." Every one here, who remembers Dr. Lewin, knows this, and there is no use in telling lies about it.

Yours,

READER.

### AN OGRE

she certainly is now. I passed the residence out of which she evicted her cousins on their father's death; it stands ruinously waste. They did not owe any rent. They sought for compensation for disturbance by law, got it, and left the country. Her first oppression of her people was forcibly transplanting them off their holdings on to unrequited land, because she wanted the holdings for grazing when that pursuit became profitable. She has refused entirely the privilege of bog, and the miserable tenants have had to six Irish miles to Major Page's, and pay £7 per acre for the cutlery when spread on the field to dry. It has been since the famine visitation that landowners began to charge specially for the rig of it bog; before that firing—that is, bog—was let with the holding. It is a great oppression. I drove through part of her land that lies entirely waste. The day I saw her the police had tramped out and escorted her in on the Sabbath evening on her way to Dublin for this last batch of ejected men. She had been shot at and slightly wounded. The day she was wounded driving home in a close carriage she drew her pistol before the start and told the driver that if he stopped on any account, if strap broke or buckle loosed, she would blow his brains out. She is a crack shot, a good jockey (she once jumped off her car in the streets of Ballina and took hold of a bally horse that declined to allow himself to be harnessed, boxed him with her fist between the eyes, backed him, subdued him, harnessed him with the helpless stable men and the admiring crowd looking on), and has the courage and morale of a Queen Elizabeth. There is scarcely a petty session but she appears as and spends money lavishly in law to get her own will carried out. When the police but was at her gates, after the shooting for her protection, the men had no milk for their tea; one of them ventured to request a little on a set day, but he was refused. For all the open disregard of public opinion in which these ladies live, they pride themselves very much on their high blood. They are far too high to sympathize with the conservators of the peace, their gallant defenders, as they drink their milkless tea. It is a great mercy to the world that these ladies are single, that no one will inherit name and fame, blood and breeding from them.

MISS GARDNER

had ejected a further batch of her unfortunate tenants. She is a determined, resolute woman, and the Commons of England may legislate as they please, but in the meantime I shall be her own executive and render the famous Land Bill abortive as far as her property is concerned. The heads of the four evicted families were three widow women and a lame man. They were in bed. The widow Loftus was carried out on a sheet.

### MORE TAXATION.

To the Editor of the Star:— I notice that at the last meeting of Council, Mr. Goggin the Councillor was the means of putting an additional \$305 tax upon us. I thought we were taxed enough already, for all we derive out of the taxation. The sum mentioned is ordered to be assessed now to open a road to allow an engine to go through in case of fire. Why put on this extra tax when the road could have been opened without taxing the town? Why did not Mr. Goggin set his brains to work, if he has any, to sell that vacant lot of town land in rear of his own garden? The public know that some years ago when it was asked to open a road here, Mr. Goggin and others got three "impartial" men to say the road was not wanted. If Mr. Goggin cared for the interests of this town he would have seen that the squatters, Mr. Burbridge and Mr. Anderson bought the town lands on which they now live. Then there is the Sinclair lot. There years more, 21 years, this will revert to private hands unless the Council take the land. In Newcastle the squatters had to buy; why not here? Let Mr. Goggin a nice man for the "poor man!" These lands properly managed would have given the new road without a dollars taxation; and yet we have to pay \$305 for it.

### REVOLUTIONIST.

#### A FALSEHOOD.

To the Editor of the Star:— A local paper here states that the office of Quarantine doctor was terminated by the death of Dr. Lewin; and then it goes on to censure this Government for not making a new appointment. What the local paper says one way or the other is not of much account, but the above statement being a deliberate lie ought to be stamped as such. Dr. Lewin as you state in your last issue, was "dismissed," and that long before he "died." Every one here, who remembers Dr. Lewin, knows this, and there is no use in telling lies about it.

Yours,

READER.

### AN OGRE

she certainly is now. I passed the residence out of which she evicted her cousins on their father's death; it stands ruinously waste. They did not owe any rent. They sought for compensation for disturbance by law, got it, and left the country. Her first oppression of her people was forcibly transplanting them off their holdings on to unrequited land, because she wanted the holdings for grazing when that pursuit became profitable. She has refused entirely the privilege of bog, and the miserable tenants have had to six Irish miles to Major Page's, and pay £7 per acre for the cutlery when spread on the field to dry. It has been since the famine visitation that landowners began to charge specially for the rig of it bog; before that firing—that is, bog—was let with the holding. It is a great oppression. I drove through part of her land that lies entirely waste. The day I saw her the police had tramped out and escorted her in on the Sabbath evening on her way to Dublin for this last batch of ejected men. She had been shot at and slightly wounded. The day she was wounded driving home in a close carriage she drew her pistol before the start and told the driver that if he stopped on any account, if strap broke or buckle loosed, she would blow his brains out. She is a crack shot, a good jockey (she once jumped off her car in the streets of Ballina and took hold of a bally horse that declined to allow himself to be harnessed, boxed him with her fist between the eyes, backed him, subdued him, harnessed him with the helpless stable men and the admiring crowd looking on), and has the courage and morale of a Queen Elizabeth. There is scarcely a petty session but she appears as and spends money lavishly in law to get her own will carried out. When the police but was at her gates, after the shooting for her protection, the men had no milk for their tea; one of them ventured to request a little on a set day, but he was refused. For all the open disregard of public opinion in which these ladies live, they pride themselves very much on their high blood. They are far too high to sympathize with the conservators of the peace, their gallant defenders, as they drink their milkless tea. It is a great mercy to the world that these ladies are single, that no one will inherit name and fame, blood and breeding from them.

## NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tenders for Yamaska Works," will be received until FRIDAY, the 15th JULY next, inclusive, for the several works required for the improvement of the navigation of the river Yamaska Quebec, according to plan and specification to be seen on application to Michel Cardin, Esq., Village of St. Michel Yamaska, or at the Department of Public Works, Ottawa, where printed forms of Tender can be obtained from the 25th inst. Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied and signed with their actual signatures. Each tender must be accompanied by an accepted bank cheque, made payable to the order of the Honourable the Minister of Public Works, for the sum of Two Thousand Five Hundred Dollars, which will be forfeited if the party declines to enter into a contract when called upon to do so. If the tender is not accepted the cheque will be returned. If the tender is accepted, the party tendering will have to furnish security in cash to the extent of five per cent, of the amount of the tender. The Department will not be bound to accept the lowest or any tender. By order, F. H. ENNIS, Secretary. Department of Public Works, Ottawa, 23rd June, '81. Id } July 9
