# English Mammoth ate Red Clover

Imported Direct from London, England.

Just arrived, a shipment of this Best of all Clovers. Many farmers have asked us why we cannot procure the Old English Mammoth Clover that used to produce such large crops years ago. Well, we find it difficult to get a really good sample of the Genuine Mammoth variety. Two years ago we imported a nice lot that sold readily and gave excellent results; last year we could not get a pound of Choice Seed, as the English crop was very poor, and the Seed could not be recommended. A lot of Chilian Red Clover Seed has been sent to Canada in recent years and sold as English Clover. No farmer should sow this variety; it is not at all suitable for this country. A guarantee that we have the Genuine Old English Mammoth Late Red Clover Seed is that a sworn statement to that effect accompanies the shipment. The Seed is large, plump, and very free from Weed Seeds. It is the finest quality of this variety that we have ever seen. Costs a little more than the Canadian variety, but the cost of the Seed is small compared with the increased yield of nutritious Hay produced. Only a limited quantity to offer. Write us for samples and prices.

On holidays at the college, when most visitors arrive, Father Tabb will not come down to dinner. He dines in his room, and he sees no one save the students or the servants. He has been known to enter the refectory, and at sight of a visitor beat a hasty retreat to bis room.

# Good Cause For Alarm.

That there was real and serious prime minister and opposition leader sport. in the British house of commons a fortnight ago is now becoming apparent. Further facts regarding the cause of alarm on the part of British statesmen are now
