## ONTARIO'S FALL WHEAT.

A GOOD CROP IN THE RAST, BUT SMOIHERED IN THE WESC

From a perusal of the reports it will be seen that fall wheat in the western and

northern districts has been badly hurt by e snow, and the prospects are that the crop there will be between 25 and 50 per cent. less than the average. In Eastern Ontario, on the other hand, the prospects are very encouraging and more than an average crop is expected.

GUELPH—So far as I can learn the fall wheat in this district has not been injured to any extent, but the growth so far has not been sufficient to judge a certaint, but what has come on looks

Fall wheat in this section looks "sick." In any case there will not be an averagely good crop. Some will be ploughed up, though I prefer to let a half at two-third crop ripen rather than do so.

The fall wheat in this county is poor and winter-lifled. Clover and timothy look well.

A good deal of fall wheat has been smothered by the snow, and in some few instances fields of it have been ploughed up already. I should judge that there will be about two-thirds an average crop here.

HARRISTOR—About here' and north of here fall wheat is badly smothert d with the heavy snow. We hav't expect more than half a crop.

death sentence without emotion, and snounced himself ready. He walked calmly to the scanfold erected in the jail yard, displaying not a sign of fear or nervousness. At 8 o'clock he was placed under the beam and the tlack cap was promptly pulled down over his face. The signal was given and in a few seconds the murderer was swinging in the air. Death was from strangulation at the end of eight minutes, and a minute later the body was cut down. Hughes made no statement to-day, hav-

pla agow being plowed up and replaced by other grain.

Satimate the crop at about one-fourth less grain.

CLINTON— From the reports of the farmers around this section, i. agosars fall wheat is not going to be a very favorable "and wheat is not going to be a very favorable "and wheat is not going to be a fillure. A got. "a good of the farmers are plowing it up, and re-sown." "a plowed up will not yield fall wheat that is not be.

From the fall wheat of sandy and light loom land in the township of 72. Tr. Euphemia, Orford and Mosa looks very promising, but upon the clay or heavy lands it is greatly killed out. "In some instance," or many and severage will not be more than about 75 to 80 per cent of an average crop of fall wheat in this district. In some instance, on sandy soil, farmers are plowing it up and planting corn instead, but this is the exception. Seaforst—From personal observations and reports which I have heard the fall wheat has been considerably injured by the excessive snow of last winter. A good deal of the land will have to be plowed up and resown. I don't think the fall wheat will yield more than half a crop take it all through. St. CATHERINES—From all the information I can gether, and which I think is quite reliable, the fall wheat crop in this section will not be more than one-th," of a crop. Around St. Catharines and along the lake shore in the township of Niagara there is scarcely a good piece to be seen. In the township of Pelham there is, however, an eccasional good field to be seen.

STARYORD—The fall wheat in the north part of the county will be less than a half crop, say 12 to 15 bushels per acre. Many are plowing the fall wheat alone.

BUTH—Fall wheat has improved greatly on account of the last rain. We count the crop will be fair average.

MITCHELL—From all reports which I have been exercised.

Eastern Ontario.

Bywanville—There is no fall wheat grown in this district.

Writsy—I have made enquiries of so, ne of the millers and farmers in this neighborhood, and the general opinion is that fall wheat looks fa.vorable for a good crop. In some places it is winter-(illed, but most of the farmers say it never looked \(\frac{1}{2}\) etter at this season.

Comoung—Fall wheat alive and good clover alive. Milbrook—As to fall wheat it looks g.od in the siderict. I have seen it much further advanced at this date Very little winter-kiled. I think there is one third more average in this section than has been for the past three years.

I ame led to think fall wheat somewhat above average about here. Every one busy now putting in spring crop, which is late.

I have lately questioned several farmers as to fall wheat. All say the crip is of average sowing and looking well. I have just seen the main grain sealer here, who knows prospects. He confirms the above as to fall wheat.

Linday.—The fall wheat all through this section is excellent in every respect.

There was only a small quantity sown in this there was only a small quantity sown in this that there was look a very promising.

I have made enquires from pa ties living in all this of this riding with regards to the condition of the sound that inding the fall wheat. They one and all say that judging the fall wheat. They one and all say that judging the many present outlook there is going to be a fair that the same crop. There is very little of it winter the same crop.

been received from a large number of centres,
and below the result is summarized. The
gentlemen supplying the information are

PETERBORO', May 9 .- A horrible murder was committed at the Italian camp on the Ontario and Quebec railway, this morning between six and seven o'clock, about seven miles from Norwood. An altercation took place between the cook, Angelo Carminino, and Dominico Altairo, one of the gang of the camp, in which there are about twenty Italians, when the former seized a heavy sharpened pole and with one blow drove it into the body of his victim, in the vicinity of the heart. Altairo dropped dead instantly, and the murderer immediately took to the wood, and is yet at large. Telegrams have been sent to Port Hope, Belleville, and other places, giving a description of the murderer, and efforts are being made here to secure his arrest. The quarrel arose over some beef being cooked for breakfast. The murderer escaped with several hundred dollars in his possession.

A peculiarity of this occupation is that the comers are chiefly from other parts of the United States, full 90 per cent of the present inhabitants being native Americans." How does this statement by our American contemporary agree with the allegation as to the many thousands of Canadians now settled in Dakota?

Senator O'Donohoe has shown proper public and patriotic spirit in urging upon organizations of Irishmen all over Canada the duty of doing what they can to mitigate the hardships which meet their poorer countrymen on their arrival here, and ere yet the immigrants have been placed and provided for. In this kind of work patriotic eeling cannot be carried too far, there being abundant opportunity for giving it effect by acts of kindness to those who need it.

> FRMALE SUFFRAGE To the Editor of the World.

SIR : Though it may be considered presumption on my part to cross swords, or rather quills, with so able a writer and controversialist as Mr. R. W. Phipps, I nevertheless desire to say a few words in reference to his article on female suffrage in your issue of the 9th inst.

Want of originality in treating this question can hardly be called a crime in Mr. Phipps, seeing it has been discussed so often as to leave little room for novelty. Mr. Phipps can but therefore re-assert, as he does, that "man has his sphere, and than a door-nail, politically and otherwise woman hers"-that old, stock argument of all who take the same view of the subject roads. Having set up his machine and got that the subject of tree-planting is being as he does and proceed to amplify upon what he supposes would be the results of changing or confusing the most people will believe that the alleged retirement of the two railway kings will be

However, it may astonish some people to

that this method of dealing with the question of female suffrage is a wrong one. The

This is not a prophecy of peace, but of war. Which of the two it is to be time will tell; but this much may be said now—that the railway developments of this present summer season are likely to be well worth watching.

By its vote of Monday night on the Island license question, the council wits was carried, it is declared that the council "is satisfied to leave the matter in Justice Wales and the canals, but among the trees, the attention thus drawn to their beautiful the salew in the act itself. Borneo. If he can't turn showman, notify H. P. by all means, so that the people can have a chance to see specimens of these rare and extraordinary animals.

From Country Grit's letter one is half inclined to think him a tory is disguise, or speaking facetiously. This indiscriminate cienunciation of one party and its leaders, and fulsome laudation of the other, disgusts sensible people with the very name of reform and makes them inclined to condone Sir John's offences and support him. The sconer reformers let up on the latter, at least the best for the party. Only for the Globe's insane abuse of Sir John he no doubt would have been long since deader than a door-nail, politically and otherwise

In sagacity, prescience and political genius and ability the world has probably never produced Sir John's superior, if equal, Had he been supported, as he should have been, so that he would have due to the grits and their late leader, Mr

George Brown, especially the latter.

ORIGIN OF ORANGEISM. To the Editor of The World.

SIR: What does your correspondent, C. M. D., mean by telling us that the orange

society dates back to the ome of King William the Third? Surely everyone of or dinary information on such matters knows that the orange society came into existence at the time of the United Irishmen less than at the time of the United Irishmen less than a century ago. It seems, however, that your correspondent is ignorant in this matter, so allow me to inform him that the first orange lodge that ever met in Ireland or anywhere else, met on Sept. 4, 1794, in the house of a man named draser, which house was situated near the village of Caledon, close to the boundary of county Tyrone and Armagh.

I agree with your correspondent, that orangeism is useful to the government of England in Ireland, at least when the tories are in authority, and 1 may also add that as in Canada, so in Ireland, the orangemen are alternately kicked and caressed by their tory mosters.

The Northern Chroqice of Inverness, speaking of the visit of the team, says: "The event will be of great interest, and it is pleasing to see that steps were taken yesterday, not only to give the Canadians a kind reception, but to lend an auspiciousness to the occasion by a public entertainment. My Dear Colonel Dyde: How can I sufficiently thank you for your great kindness in writing to me, It was an indescribable pleasure to get a letter from so oid a friend. I am delighted to think that you should still lead the rinks in such excellent fashion. Pray thank the members of the Canadian branch of the Royal Caledonian and affiliated curling clubs for their kind recollections of me. The Lacrosse Season.

It is by no means the intention of the lacrossists to allow themselves to rust while the stalwarts are in England. On the contrary, Messrs, E. T. Malone and R. B. (Saturday week) the club will open the ball with a match with the Maitlands of this city. On the 24th they will play the celebrated Cornwail Island Indians, who can probably produce the strongest team of any single tribe to be found in Canada. From Robert Roberts, Esq., of Oil Springs, Ont., under date of March 29th, 1883:—From my own personal experience in a case of bronchial catarrh, I would recommend your trestment to all who suffer from diseases of the respiratory organs. I was greatly annoyed, and sometimes distressed, for want of breath, and have no doubt sooner or later the disease would have gained the mastery over me. Immediately after commencing your remedies I felt a favorable change taking place, and in a month afterwards I could breathe as free as ever. I have no doubt but that my cure was chiefly due to your "Medicated Inhalations," but I must also add that the blood remedies you sent me seemed to be of the most powerful nature and greatly sided in the cure. Wishing you continued success in your useful career, I remain, very truly yours,
