By Max Adeler "He was the awfulest liar I ever seen,"

said Cooley of O Leary, as we returned from the latter's funeral. "Why, he told ne once that he lived on a small island out in the Pacific ocean, on which there was a olcano. And he said that there was an ctive demand out in that region for waternelons, so he went into the business of raising them. And he said that one year his whole grop failed, except one melon, and that kept on growing at such fearful rate that it crowded him off of the lowland and up on the side of the volcano. And still it grew until at last it got so large that it sunk the island and let the water into the volcano, which generated steam and caused an explosion which blew the

whole concern to atoms and shot him 400 mile out to sea, where he was picked up by a whaler. He used to tell me that the one mistake of his life was that he didn't drive a plug in the crater of that volcano so's to make it water-tight, and then slice open the watermelon and come sailing home on the half shell.

"He would lie. He said that once he

was cast away on an iceberg, with no bag-gage but a pair of skates and a fishing-pole. But he skated around until he came across a dead whale, frozen into the ice. So he took off his shirt—it was night for six months in the year up there—tere it into strips for a wick, ran the strips through the bamboo fishing-rod, stuck the rod into the fat of the what and lit the other end. He said it burned applendidly, and the ice-the said it burned applendidly, and the ice-the said it burned applendidly are strongly that it berg reflected the light so strongly that it was bright as day for forty miles around, and one vessel ran into the berg, thinking it was a lighthouse. He said he sold the iceberg to the captain for \$15,000, and the

captain eplit it up and took it home, and made 200 per ceut. profit disposing of it to e ice companies.
"Lie? Well, sir, he beat any man I ever come across. Told me that once, out in Nevada, a mountain lion attacked him with its mouth wide open. He had presence of mind enough to grab it by the congue and to pull. The lion roared with pain, but he did his level best pulling, and pretty soon the tongue began to give and the tail to shorten, and directly out they ame, the tongue and the tail, in one long continuous string. He said he had em at home, and he showed 'em to me, but my

belief is they were only three or four cow-hides and a bull's tail, maybe, dovetailed ogether. "He was astonishing as a truth-crusher. Said he served on a gunboat during the war which was very small and light, while the mortar on the deck was very large and neavy, and he said the first time they tried of fire a fifteen inch shell, the shell remained stationary, while the recoil was so great that it fired the gunboat four miles up stream, and landed it in a tree. He vas a liar, but now he's dead I reckon he'll I think myself that Mr. O'Leary was very successful as a constructor of ener-

EARLY PISTOL PRACT

EXCITING SCENE ON THE ST

At 1 o'clock this morning Po

There was a formidable array of men in the police court yesterday we case against Wm. Dillon was called.

The board of the Industrial fair-regular meeting last night at their chair. A good deal of routine business of transacted. It was decided to place a 5% insurance on the "Little World building a quantity of belving will stored there. Py Herschelder requested that the prize for dian relies be awarded his exhibit. Them ter was referred to the manager. In remition of Park Commissioner Chambers vices to the association, a was decided to yent he will be something with a gold wate. It was stated Manager Hill that a proper cheek had yet been devised over the gate-keepers, board will probably make them honest at next fair.

One day last week a very forlorn-los man, with an old copy of the Mail stic out of his pocket, called upon a firm of known merchants in this city, intimating he was "all broke up;" that he was a m facturer, in fact a maker of hoslery; the had fully expected to find a great deman-the productions of his mill, but was lam ably disappointed. He had a "tall chium ought to be a sort of fitness in things), he notwithstanding all, run against the and been shipwrecked. He wanted an for his whole stock, comprising several sands of women's and children's stool. The merchants bid him half-price f stock, and the goods changed hands last seen of the poor man he was mental to the stock and t

all that we can learn he is very honest and all that we can learn he is very honest and very earnest in his desire to transplant to Ca-nada the street arabs of England. His very honesty and earnestness may render him more dangerous than the hollow humbugs with whom we have contrasted him. We never heard of the latter taking the trouble to add to our population by importation, for which they deserve our thanks. But Dr. Bernarde eans business, and we cannot help regr ting that he does. We are impressed with the belief that his energy would be more properly directed in inducing the millionaires of England to provide agencies and institutions for the rescue and the training of the unfortunates whose tem-poral and eternal welfare he has at heart. England teems with wealth. She expends millions annually for the conversion and education of Hindoos, Chinese, Hottentots, and even Frenchmen and Spaniards surely she can do as much for the heathen of her own heatering who is the market with a line with the second of the can do as much for the heathen of her own heatering who is the market was the second of the can do as much for the heathen of her own heatering who is the market was the second of the can do as much for the heathen of her own heatering who is the second of the can do as the c egetting, who in time might grow up to re ruit her army, man her navy, and push he cial enterprises to the ends of the earth formarcial enterprises to the enast in the cartin.

If Dr. Bernardo came here as the agent of such a scheme Canadians would gladly give him their mite, but when he asks us to import the paupers of London we can only an-

swer that we have enough of our own.

Right here in Toronto there are children growing up in ignorance, squalor and vice.

Our first duty is to them. When we have faithfully and effectually performed that duty it will be time enough to the control of the contro duty, it will be time enough for us to go far afield in quest of other responsibilities.

This week's weather has not unfavorable prophet, whose marvellous success in pre-dicting the weather for all the fall fairs ha been a subject of general remark. His prediction of Sept. 27, published in The World was that the big days of this week's fair would be disappointing, owing to the rain or Wednesday and Thursday, The prediction was fulfilled, with bad financial results to Hamilton, Guelph and St. Thomas fairs. Of ents would be favorable, and favorable the looks for some days of rather warm weathe at once, and thinks that the fairs next weel will fare much better on their big days tha hose of the past fortnight.

se arrest and execution for high treason een repeatedly urged upon the governer eral, is still at large, and that he takes his is and draws his salary with a calmness that is shocking to see. Is this a spectacle to place before the eyes of our children, if we any, or our neighbors' children, if we none? When the editor of the Mail takes grandson upon her knee to teach him the ne, as well as the cor titution and the by ve, and the terrible infant points out that in like Mr. Ross are permitted to run at nem, what reply can she make? Only one and that is that Mr. Ross chews tobacco.

Southern papers report that strong drink is raging among the colored people of Louisiana, and as the men carry revolvers in their hip pockets and the women razors in their stockngs, a spree is apt to be followed by a san guinary fight. The astounding statement is made that one hundred and fifty negroes have been killed in that state during the last twelve ths by intoxicated compatriots. This has led the whites in many parishes to open a prohibition campaign. It has often been re-marked that the colored people of Canada are ong our soberest citizens.

A headline in The World of yesterday repre sented an extract under it taken from the Week as the opinion of Mr. Goldwin Smith on the This was unfair to Mr. Riordon papers. A member of the British association wh has been to the Rocky mountains tells a good story at the expense of one of his grumbling untrymen. The party had been delayed at Winnipeg by the hospitality of the people d the train for Port Arthur was a little late in starting. It was fortunate that the delay occurred, for in the interval word came up the line that a train had run off the track, and the train sent to its aid went down through a piece of trestle-work. The special with the tourists on board was thus delayed by an accident which would probably have happened to itself had it started on time. An Englishman on board was worrying the train nands with complaints and gloomy anticipa ions of missing the steamer, and at last the baggage man told him he ought to be thankful, for if it had not been for the delay they would all have been "sifting einders in hell" by that time. The grumbling at once ceased.

It is that if Gen. Gordon does not rewill be despatched egainst the Boers of South Africa, who are just now indulging in one of their annual ebullitions. Little wars and lots of them is Wolseley's luck. The South African Dutchmen are good fighters, but as Wolseley never moves until he has carte blanche for forces and supplies, the result will not be dubious should he take them in hand. Still he will find them foemen more worthy of his steel than the barbarians whom stofore encountered, the conquest of whom has afforded him but little genuine

The suggestion made by The World a few days since that the proposed testimonial to Sir John A. Macdonald should take the shape of a university endowment has been generally received as an eminently sensible and proper one. None but the most churlish of opponents would begrudge to such a man such a testimonial, in contributing to which no true liberal need feel that he is abnegating his principles or forfeiting his allegiance.

The Kingston News reminds us of A. Ward's kangaroo, it is such "an amusin' In criticism of 'The World's estimate of the relative merits of Gladstone and sfield the News says that "the muscle of Beaconsfield's little finger was greater than the muscle of Gladstone's arm." Now this is what we call fine writing, but it makes coarse

Is this a frontier town? When we read the ent that a walking match to comsharp after Sunday midnight will be preceded by a sacred concert, and a lecture against Satan, we begin to doubt our latitude and longitude. The Philadelphia Record has taken a prac-ical method of breaking up the city coal ring. It is supplying coal to consumers at seventy five cents per ton less than is charged by th retail dealers. The result is much indignation among the latter and great rejoicing amo the consumers. This is going to be a hard winter for the Philadelphia fuel sharks.

It says little for the ingenuity of the anti-Scott act managers that it has never occurred to them to quote Mathew Arnold's lecture pon "Numbers" in explanation of their de eat in Halton. The apostle of sweetness an light has demonstrated to his own satisfaction that it is the minorities who are right. they seem not to have saved much.

Why Give It Away? From the Aurora Borca Bailiff Crossley gave us a call last week. The Irrepressible Issue. From the Ottawa Sun.

The question as to whether chicke an be tied or not has not been decided. Mr. Frank Sanderson, finding it impossible to collect his bill for supplying ice and water to the late "temperance" camp meeting, has been compelled to sue its managers. The summons was issued yesterday.

From the Dundalk Herald.

Dog fights are the order of the day. This bad, but when it causes respectable citizens to so far forget themselves as to use language unbecoming to gentlemen, put themselves in puglistic positions, and even strike, it becomes a serious matter.

A Rumorous Heathen. From the Markdale Standard. R. H. Benson, of the original Belfast House wishes to inform the inhabitants of Markdal wishes to inform the inhabitants of Markdale and surrounding country that he has contracted for a sufficient quantity of Liquor to keep the mirth, of the public in general Humour during the next three years, or until the Common Sence of public opinion will rendera contrary verdict; but, Benson will have sold out his steck; and by that time his fortune will be made, at the enjoyment of the public and a decreased revenue to the dominion government.

—If a few grains of common sense could be infused into the thick noddles of those where the control of the country and alternately irrate and weak on their stomachs and bowels with drastipurgatives, they would use the highly accreticed and healthful laxative and tonic, Not throp & Lyman's Vegetable Discovery and Dyspeptic Cure, which causes "good digestion to wait on appetite and health on both."

To the Editor of The World. Can you inform your readers if the \$200,000 to be voted on for city hall is to be the whole cost, or whether it is in addition to other sums previously passed, and to what

—Mr. John Magwoo I, V ctoria Road, writes "No throp & Lyman's Vegetable Discovery and Dyspeptic Cure is a solendid medicine. My customers say they never used anything so effectual. Good results immediately follow its use. I know its value from personal experience, having been troubled for nine or ten years with Dyspepsia, and since using it digestion goes on without that depressed feeling so well known to dyspeptics. I have no heattation in recommending it in any case of Indigestion, Constipation, Heartburn or troubles arising from a disordered stomach."

Some Taffy for the Doctor.

To the Editor of the World. SIR: This is a day of great rejoicing to n and will be, I am sure to my friends in the cause. I am delighted that Dr. Wilson, whom ceply r spect, should have performed the most graceful act of his life in admitting women to the college. It would have been a great grief to me had Dr Wilson resigned at this juncture, because in the first place he is a gentleman, and as such is not likely by word or deed to snub, or otherwise offend the young women under his direction; and in the next, he believes the highest education a woman can get, quite consonant with the exercise of the simples domestic virtues. This Dr. Wilson told the deputation who waited on him with reference to the admission of women to University college, at the same time citing h's cousin, Mrs. Oliphant, with whose writings we are all familiar, as a living proof of it. Hoping that Dr. Wilson may live to rejoice in the act with which he has marked the opening of the session of 1884-5.

My sm was cured of a bad cold by the use of half a bottle. It goes like wild fire, and makes cures wherever it is used."

What He Would Do.

To the Editor of The World. Sir: It pleases me to find Taxpayer's second letter less personal and less insinuative ond letter less personal and less insinuative than his first. But, even with this improvement, it remains sufficiently clear that he has no pleasure in presenting to our collegiate institute the distinctive prizes which it has so cleverly won. Taxpayer says that a school may be good "and yet do injustice to the girls." Now, just see how much it looks like the impossible that a school could place itself at the head of the list to which it belongs, by a system which does injustice to one-half its pupils! We are to'd also that a girl will not "undergo troub'e and expense without some good reason." But we all know that girls wi'l sometimes "undergo," and forego, and do go, and do not go, without any good reason at all. In fact, they are sometimes like a people spoken of by the prophet; "Taere is no judgment in their goings." What I mean is that girls, just as well as boys, need admonition and restraint: and, although the "rigid line of separation between the sexes" may give rise to different opinions, it will be admitted by a large majority that the rector ought to make a most excellent referee. As for myseif, if I were a school girls medical director, she cause I think pure fun the ne plus ultra of healthful remedies; but I regard it as rank poison when mixed up with the work of a school room. I have now only to say how I'd find the answer to the question: "Why do four Toronto girls leave home to attend the high school in Weston?" I'd go straight to any one of the four girls and ask her to give it me. than his first. But, even with this improve-Toronto, Oct. 1.

Mr. Wm. Boyd Hill, Cobourg, writes: "Having used Dr. Thomas' helec ric Oil for some years I have much pleasure in testifying to its efficacy in relieving pains in the back and shoulders. I have also used it in cases of croup in children, and have found it to be all that you claim it to be."

BIBLE COMPETITION

NO. 12, CLOSING NOV. 7th.

The Biggest List of Rewards

Yet Offered.

Having lost so much money by dish gents, the proprietor of TRUTH has decided o deal in future directly with the prople; that the money and premiums heretofore given to agents shall be distributed among his subscribers. In other words, he consti-utes himself a big club agent on a large scale. So instead of paying your money to agents send directly to S. Frank Wilson, Proprietor of Truth, Toronto, Canada. In this way he hepes to benefit his subscribers as well as elf. This plan has been tried now for early a year, and has been fairly successful hough not so much as the very liberal offers he makes would warrant. He aims lso to promote the study of the Bible by this plan, and thereby very greatly benefit l concerned. He frankly avows that this is really a secondary considera Bible questions, propounded by an eminent divine, without being greatly profited. Hun-dreds of our subscribers have testified to this

divine, without being greatly profited. Hundreds of our subscribers have testified to this during the past year, and many thousands of dollars worth of costly rewards have been given away. Nearly every issue of Truura contains many acknowledgements of the receipt of such magnificent rewards as planos, organs, sewing machines, gold and silver watches, silver tea services, etc., dewn to butch kinves, elegantly-bound volumes of poetry, etc., etc.; and you have only to invest one dollar for six months' subscription to Truura answer the Bible questions correctly, and if you do it promptly when you first see this you are almost sure of one of the First Rewards. If you don't happen to see it on its first appearance, you still have a good opportunity in the SECOND OR MIDDLE REWARDS; and, finally, there are the CONSOLATION REWARDS for the last ones received at Truura office. So you can compete even if you live almost on the other side of the world, for if your letter is postmarked where mailed on or before the closing day of this competition (that is, November 7th, you have a good opportunity of gaining something in these rewards, provided, of course, your answers are correct. Try it now. Nothing whatever is made out of this plan, but he looks for profit in your future patronage, as he is sure you will be so well pleased with Truura that you will become a life subscriber. Here are the Bible questions:

1. Is INFANT spoken of in the Bible?

2. Are BOYS referred to in the Bible?

3. Where is Man first made mention of in the Bible?

(One answer to each question will suffice.)

3. Where is MAN hirst made mention of ithe Bible? (One answer to each question will suffice.)
There can be no fraud or humbug in the matter, as in the next issue of TRUTH after the close of each competition a complete list of those gaining the rewards are given, together with their postoffice addresses, and street and number where possible. Everyone competing must send one dollar with their answers for six months' subscription to TRUTH. It is the best magazine published anywhere. The regular subscription price is two dollars per year. You can send one year's subscription if you prefer so do so, but six months' subscription is all that is required in order to comscription is all that is required in order to compete. Bear in mind, we don't guarantee that everyone will get a reward, but all the prizes enumerated below will certainly be given, and it is a matter of perfect indifference to us who gets them, only they must all go. Turn up your Bible, and if you are well acquainted with it you can answer those questions after a little study. Don't delay. In the ELEVEN BIBLE COMPETITIONS preceding this one there has been given away nearly ONE HUNDRED THOUSAND DOLLARS WORTH of useful and valuable articles. Herethen is the list of FIRST.REWARDS.
