THE Watford branch of the Women's Institute will hold their annual meeting in the school room of the Congregational church on Monday, February 20th, at 2.30 o'clock p.m. Miss Campbell, of Brampton, will address the meeting. A joint meeting will be held in the evening in Taylor's hall. A good program is expected. Ladies are cordially invited to attend.

A NEW provincial milk act will shortly be introduced in the Legislature, being now in course of preparation. The basis of the bill will be authority granted to each municipality to trace all milk sold within its limits to the source of supply and to insist on certain standards of cleanliness in the stable and handling of milk before it reaches the consumer. Power will also be given to any municipal inspector to refuse admission of the milk until the regulations are complied with. The enforcement of the terms of the bill will be left to the municipalities.

THE Lambton County Directory for the year 1911 has just been issued and on looking it over it will be found to contain more than the usual amount of information. This is the 12th year of the publication of this valuable little summary of facts respecting the officials, courts, etc., of the county. His Honor Judge McWatt is entitled to the credit of causing this little book to be issued and each year a little addition has been made so that while the first issues were good it now has reached a much more excellent stage.

In connection with Mr. Tripp's bill for permitting municipalities if they so desire to tax improvements, in which are included business assessments, incomes, buildings, etc., at a lower rate than land values, there are 217 municipalities in Ontario in favor of it so far, 11 indifferent to it, and 19 with petitions opposing it. Practically all the influential newspapers in the province have editorially pronounced in favor of it, and 169 have signed petitions in favor of it—not one sending in a petition opposing it. There will be many more petitions sent in from municipalities before the Legislature finishes its labors.

THE regular meeting of the Women's Institute was held at the home of Mrs. Neil Douglas on Feb. 8th. It was a splendid meeting. The meetings are growing in interest. J. D. Brown gave a paper on "Character Building." The paper was instructive, edifying and a most worthy paper. The next meeting will be held at the home of Mrs. John Shirley on March 8th. Everyone come and see how the Institute women enjoy life.

HOCKEY.—An exciting double header was played on the local rink Wednesday night when the Watford Jrs. defeated the Petrolia Jrs. by a score of 8-3, after which Petrolia lost to Alvinston by a score resulting 4-0. In the first game the Petrolia boys lost on account of lack of combination, but in the second, they settled down and tried very hard to score, but the wee Alvinston lads were too much for the Petrolia giants, and the latter team suffered utter defeat.

LADIES' TAILORED SUITS, made to order, Swift's, styles correct.

THE East Lambton Farmer's Institute will hold two meetings in the Lyceum, Watford, on Tuesday next, 20th inst., at 2 and 8 p.m. Mr. Anson Groh, of Preston, will address the afternoon meeting on Farm Fertility and soil problems. Evening subjects: "The Struggle for Survival" and "Three Generations in Waterloo County." Mr. Groh is a most progressive farmer, and an exceptionally entertaining speaker. Everyone both from town and country should hear him. The Women's Institute will hold meetings at the same time in the Congregational Sunday school, when Miss Campbell, of Brampton, will address each meeting on subjects relating women and the home. Musical program at the evening meeting. Everybody welcome.

New designs and colorings in wall paper for Spring.—P. DODDS & SON.

AT last the question of street lighting seems to have assumed definite shape. At the council meeting on Monday night arrangements were made with Mr. Chambers to install a new system of lighting on the streets of the town, the new lights to be in order and ready for use by May 1st, 1911. The old arc lights will be done away with and in their place fifty-five 60 candle power tungsten lights will be installed. These smaller lights will be distributed over a larger area than the present system covers. One light will be placed at each street corner and one about the center of each block. It is expected that this arrangement will distribute the light so that all the present dark corners will be illuminated. The contract price for the new arrangement is \$750 a year, being about \$400 less than the town is now paying for the arc lights. One of the conditions of the new contract is that should Niagara or any other power be introduced into the town in competition with Mr. Chambers, and the council desire to make a change, the poles, wires, lamps and other fixtures will be purchased by the town at cost price, less 10 per cent, for each year said fixtures have been in use. The arrangement on the surface looks like a good one, but will be passed on by the town's solicitor before being finally signed, as doubt is expressed by some whether the present council has the power to bind a future council to buy the poles, wires and other fixtures in the event of competition in power becoming a reality.

St. John's church, Leamington, will have a vested choir after Easter.

The Firemen's Concert.

Defiance Fire Co. have always been noted for furnishing a good concert and the one last Thursday evening given for them by the Firth-Eaton Co. did not allow the reputation of the Fire Co. to get in any way tarnished. The program was one of the best that a Watford audience has had the pleasure of listening to at a Firemen's concert for many years. There was a fair sized audience present, and their demonstration of appreciation made up for what they lacked in members.

Miss Mazie Jackson has a voice of rare merit—clear, sweet and full. Her selections were excellent. In "Coming through the rye" which she sang by request, the applause was as possible more hearty than her other numbers. She answered every encore.

Mr. S. Homer Eaton is one of the best impersonators that has ever appeared on a Watford stage. His humor is infectious. "Ruben Ketchum in Jining Farms" was a gem and well worth hearing.

Mr. W. Francis Firth has appeared before a Watford audience on a previous occasion, and was as much appreciated Thursday night as on his former visit. His first number "The Bandolero" gave Mr. Firth an opportunity to show the remarkable compass of his melodious voice. He sang several old favorites and was heartily encored each time. The rendition of all his songs was perfect and his Irish and Scotch numbers touched the heart of many in the audience.

The closing duet from "Ernani" was exceedingly good. The entire concert was a delightful entertainment and those who were not present missed a treat. The Fire Co. will have about \$15.00 to the good from the entertainment.

Daughters of the Empire.

The February meeting of the Daughters of the Empire was held at the home of Mrs. Bennet, Mrs. S. Mitchell, assisting hostess. There were 13 members and 5 visitors present. The following officers were elected by ballot:—

Regent—Mrs. Brown.
1st vice Regent—Mrs. Chambers.
2nd vice Regent—Mrs. Harris.
Secretary—Mrs. S. Mitchell.
Treasurer—Mrs. N. B. Howden.
Standard Bearer—Miss Baird.
The ladies have decided to hold a concert on March 17th to raise money to help build a free cottage hospital at Weston for children affected with tuberculosis. A pleasing feature of the program was a piano duet by Miss Morgan, and Miss Hughes, Kerwood. Mrs. S. Mitchell gave an excellent paper on "Canadian Winter Sports." Miss Alfreda Mitchell gave a fine piano solo. Mrs. Brown gave a very interesting reading and Miss Hughes favored the ladies with a piano solo. Luncheon was served, and a most enjoyable meeting closed by singing the National Anthem. The next meeting was appointed for the home of Mrs. Lamont. Subject—"The Responsibility of Canadians to the Empire." Quotations, "Current Events."

CHEESE MEETING.

There was a large attendance at the annual meeting of the Watford and Walnut cheese factories Wednesday afternoon. A. E. Silverwood, of London, whose firm took over these two factories some time ago, presented a proposition to pay so much per 100 pounds for the milk; a flat rate all season, regardless of the ups and downs of the market.

This scheme, intended to replace the old co-operative system, is new at present, and the question of the cheese factory took occasion to discuss it very thoroughly. The Flavell-Silverwood people require large quantities of fresh butter for their own trade and will manufacture butter, and also caseine. They are prepared to give a guarantee as to the price to be paid, and of course find a market for the cheese, butter or caseine produced. The question of whether or not the whey would have the same value as before occupied some attention.

"It simmers down to a matter of five cents per hundred in the value of milk," Mr. Silverwood stated, afterward. "We are offering 95 cents for the factory, or 85 on the stand, which is an advance of five cents per hundred on our original offer. An expression of opinion was taken, and it was found that the great majority of those present were in favor of the new plan. However, it would, of course, require to be practically unanimous, and I left the proposition with them."

Mr. Silverwood was accompanied by C. Johnston, of London, and Inspector Gracey, of Woodstock. Mr. Silverwood expresses the opinion that before six months has expired there will be a dozen concerns in this part of country engaged in the manufacture of caseine.

BROOKE.

Miss McLure is visiting her cousin, Mrs. John McLister, Bothwell. Miss Ella Beattie is attending the millinery openings in Toronto this week. Miss Alice Beattie returned to St. Thomas after spending a couple of weeks at her home on the 6th line.

Mrs. Wm. Taylor and Miss Pearl Taylor are spending a few weeks with relatives in London, St. Thomas and Kingsmill. Mr. John McPherson, Miss Sarah McPherson, Mr. Alex. McLean and Miss Rachel McLean, all of Allis Craig, attended the funeral of the late Roderick McLean on Monday last.

The death occurred on Saturday, Feb. 11th, 1911, of Roderick McLean, a well-known and much esteemed resident of the 12th line, at the early age of 46 years. The deceased had been confined to the house since about Christmas and his death was not unexpected. He was married about five years ago to Miss Nellie Pollock, of Brooke, who survives him. He also leaves an aged father.

PERSONAL.

Miss May Tanner, Sarnia, is visiting at Mr. E. D. Swift's.

Mr. J. McLaughlan, Chatham, spent Sunday at Dr. Kelly's.

Miss Agnes Williams is attending the millinery openings in Toronto.

Mr. Brough, Inspector for the Sterling Bank, spent Sunday in Watford.

Mr. B. McFadden, London, spent Sunday with his sister, Mrs. S. P. Irwin.

Mr. and Mrs. H. F. Aylesworth, Inwood, were Watford visitors Monday.

Miss LaMura Dodds is visiting in Sarnia and Miss Bernice Dodds visited in Petrolia this week.

Mrs. A. K. Wanless, Sarnia, who has been the guest of her sister, Mrs. C. A. Class for the past week, returned home on Wednesday.

Mr. G. C. Treleaven, Manager of the Sterling Bank at Kerwood, has been transferred to Toronto, Mr. Harvey, of Montreal, taking his place.

Mr. W. T. Fuller and his daughter, Miss Millie Fuller, who have been visiting friends and relatives in this vicinity for several weeks, leave for their home in Allen, Sask., on Saturday.

Mr. W. A. Wykesmith, of Sudbury, has been appointed Manager of the Sterling Bank here, and Mr. J. B. Wynne has been transferred to Thornhill, but has been granted several weeks' holiday before taking his new position.

E. L. Co. Orange Lodge.

The annual meeting of the County Orange Lodge of East Lambton, was held in the Orange Hall, Wainstead, on Feb. 7th. County Master Frank Sherk presided and addressed the meeting, giving a splendid account of his work during the past year. He also gave a good account of what took place at the Supreme and Provincial Grand Lodges. The County Secretary reported a large increase in membership during the past year. One new lodge was organized in the county and all the old lodges have made substantial gains. The following officers were installed by Past Co. Master A. E. Sutton:

County Master—James Rankin.
Deputy—George Maddock.
Chaplain—Rev. W. R. Haines.
Rec. Secretary—Ben Pike.
Fin.—F. Coleman.
Treasurer—A. Hawkins.
Director—T. Newell.
Lecturers—Bert Cope and Dan Freelle.

Mr. D. McLean and one brother, Lockie. The funeral was held from the family residence, lot 22, con. 13, on Monday. Service was held at the house at 12.30 by the Rev. Mr. Stewart, Presbyterian minister, of Napier, and interment was made in the Alvinston cemetery. The pall-bearers were John and George Pollock, Alex. McLean, Arch. McNeil, Peter Campbell, brother-in-law, and John McJ. Pherson, a cousin.

After a painful and lingering illness Joseph Miller, 12th line, passed away on Sunday last in his 53rd year. Deceased had been an invalid for nearly a year, and for several months previous to his death was confined to the house. He leaves a widow (nee Miss Isabel Spalding) and three young sons to mourn his demise, also one brother, William, of the 12th line, and four sisters, Mrs. Joseph Campbell, of Port Huron; Mrs. McTavish, Brown City, Mich.; Mrs. J. Haselacher, Ubyly, Mich.; and Mary Ann, who resided with him. The funeral took place from the family residence, lot 20, con. 13, on Tuesday at 2 o'clock, at St. James' Church, 6th line, where service was held conducted by Rev. S. P. Irwin, B.A., and notwithstanding the disagreeable state of the weather was largely attended. Interment was made in St. James' cemetery, the pall bearers being J. Steadman, R. Seanson, G. Bowie, F. Kingston, D. McDonald and P. Anderson.

Every community takes a certain pride in its self-made men, knowing that the qualities which brought about success insure good citizenship, and Brooke township is no exception to the rule. In the person of W. G. Willoughby, clerk of the township, business man and farmer, they have a striking example of what can be accomplished by steady adherence to duty. He was born in Montague township, Lanark County, Feb. 20, 1844, son of Thomas and Anne (Shirley) Willoughby, pioneers of Brooke township. Politically Mr. Willoughby has been identified with the Conservative party, and in 1868 he was appointed collector of Brooke township, serving one year. In 1870 he was appointed clerk of the township and has held that position ever since, a period of forty years, giving the people the best of service. Since 1892 Mr. Willoughby has been Secretary and Treasurer of the Farmers' Mutual Fire Insurance Company, and with its trusty directors and efficient agents has caused this insurance company to be patronized by two-thirds of the farmers in the county. Mr. Willoughby is a director and vice-president of the Industrial Mortgage and Savings Company, Sarnia. In every walk of life he has shown himself to be a sturdy, reliable and trustworthy man and public-spirited official.

Death of Mrs. Jas. Clark.

Mrs. Jas. Clark (Miss Flo Lett) died at the family residence, Main street, East End, Petrolia, on Tuesday, Jan. 17th, after only a few days illness, of heart failure. Her death was a great shock to the friends and community. She was well known and very highly respected by a wide circle of friends and acquaintances. She leaves a husband with a family of two girls and two boys to mourn her, also an aged father, four sisters and three brothers. The funeral took place on Thursday, Jan. 19th, to the family cemetery for interment. Rev. Mr. Garlot, Petrolia, conducted the service, assisted by the Rev. Mr. Ford, of Watford. Her five brothers-in-law and one nephew acted as pall bearers. The floral tributes were many and beautiful.

FEARFUL MISHAP TO LITTLE BOY.

Lad's Jaw Broken in Four Places and Face Cut.

Monday evening a frightful mishap occurred at the farm of Clarence Crockard, who resides on the plank road, near the second tollgate, by which his little seven year old son will doubtless be maimed for life. Mr. Crockard was attending to his duties in the stable, his little son who had accompanied him there, was playing about. The lad went into one of the stalls and was standing at the horse's head when the animal grabbed him. The horse bit the boy and broke the lad's lower jaw in three or four places, besides lacerating the flesh in a terrible manner. Three doctors were called and hastily proceeded to the home of the boy's parents. For over two hours they worked over the lad getting the broken jaw bone reset and wired and placed in a cast. The child's injuries are of a very serious nature, but at present he is doing as well as can be expected.

The Allis Craig Banner has changed hands.

Messrs. Croit & Wright being the new proprietors.

Mrs. B. Havens, a Leamington widow, has brought suit against the estate of John L. Wagner, a former Leamington implement dealer and bachelor, for a bill of \$180 for washings she said she had done for him, and for \$150 diamond ring which she said was purchased for her as an engagement ring. The ring was found on Wagner's person at the time he dropped dead about a year ago. Mrs. Havens says the ring was given to her to seal their engagement, but after fitting it to her finger it was found to be too large, and Mr. Wagner had taken the ring back intending to have the size altered.

AFTER SUFFERING YEARS

Cured by Lydia E. Pinkham's Vegetable Compound

Fox Creek, N.B.—"I have always had pains in the loins and a weakness there, and often after my meals my food would distress me and cause soreness. Lydia E. Pinkham's Vegetable Compound has done me much good. I am stronger, digestion is better, and I can walk with ambition. I have encouraged many mothers of families to take it, as it is the best remedy in the world. You can publish this in the papers."—Mrs. WILLIAM BOURQUE, Fox Creek, N.B., Canada.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

Teachers Appreciate the Canadian Government Annuities Scheme.

The teachers in the public schools must as a rule, themselves provide against the day when their age or infirmities will demand their retirement from their profession, and many, it is understood are alive to this fact and are taking advantage of the provisions of the Government Annuities scheme to secure a competency for later years. The number doing so is perhaps small in proportion to the large number engaged in teaching, but it must be borne in mind that the Annuities idea is new, and that the attention of the school teachers has only been recently specially directed to it. Many might follow the example of a woman in one of our cities. She was 43 years of age, had no heirs, and her salary over and above her weekly expenditures was laid away to keep her in the days when the shadows began to lengthen. She had saved \$1,000. It was drawing 3 per cent. compound interest, or increasing at a little better than \$30 a year. She heard of the Government Annuities scheme, and she immediately transferred her \$1,000 to the Government on account of the purchase of an Annuity payable at age 60. Having no heirs she purchased on plan "B", and the Annuity which a payment of \$1,000 secured for her at 60 was \$222.60. But shortly after her \$1,000 had been paid to the Government she became an invalid and was totally incapacitated from performing her duty. Her case came under the provision of the Act which pro-

vides that if invalidity or disablement occurs a person, if he or she has paid in sufficient to secure an Annuity of not less than \$50, may draw the Annuity though then under 52 years of age. The payment which she had made gives her an Annuity of \$69.67 so long as she may live. If the period before she became disabled had been 5 years she would have had an Annuity of \$88.50, and at 55 she could have had her contract converted into an Immediate Annuity of \$147.50. It will, therefore, be seen that if she could avail herself of the provisions of the Act at any time after her \$1,000 had been paid, she would have had an income over twice as large as she would have received had she left the money in the Savings Bank. This illustrates the advantage of persons who have been laying up for their old age transferring their savings, or a portion of them, to the Government on account of the purchase of an Annuity.

Information may be had at the Post Office, or of the Superintendent of Annuities, Ottawa.

FALLING HAIR.

Mrs. Jas. Harris, of Wappella, Sask., says—
"I have found Parisian Sage to be the best hair tonic and dressing I have ever used. My hair had been coming out in comb falls and was very dry and brittle and the scalp was always itching and full of dandruff. I have used two bottles of Parisian Sage and it has stopped my hair from falling, the itching and dandruff have disappeared and my hair is fine and soft and glossy. I would not be without this fine hair tonic for many times the price."

For women, men, or children Parisian Sage is without any doubt the finest preparation for the hair. Delicately perfumed, it is free from stickiness and ought to be where every member of the family could use it daily. Large bottle 50c at all druggists or from the proprietors, The Giroux Mfg. Co., Ltd., Fort Erie, Ont., postpaid. The girl with the auburn hair is on every package. Sold and guaranteed by T. B. Taylor & Sons.

At Rideau Hall.

The coming of the Duke of Connaught to Rideau Hall must be regarded as a tribute to Canada's growing importance. The Crown being the chief link of Empire, and the King himself being fully employed in Great Britain, it seems only fitting that the only other available member of his family should represent the monarch in his chief over-sea dominion. The appointment is really a just recognition of Canadian autonomy. It stamps the Empire afresh as a series of equal States. As the London Morning Post puts it, fifty years hence Canada may be the wealthiest, most populous and most powerful division of the Empire, and then the King may reside at Ottawa and send governor-generals to Westminster. This is an aspect of the Duke's selection that should appeal to Canadians everywhere and fire their pride anew in the Imperial connection. As for the Duke himself he turned out to help defend Canada against the Fenians, and he is personally popular with the large numbers of Canadians who have come in contact with him. He is acceptable alike to English and French Canadians, and will be accorded a warm welcome when he reaches this country.

BURN CAUSED OPEN SORE.

Zam-Buk Worked a Wonderful Cure.

Sometimes a bad burn, a deep cut, or some similar injury, is in the form of an open discharging sore. In such cases Zam-Buk will be found of unequalled value.

Mr. J. Nixon, of 901 William Ave., a blacksmith at the C. P. R. shops, had his foot badly burned by some molten metal falling upon it. His doctor, who prescribed a preparation from the doctor, which seemed to stop the discharging and made me quite hopeful, but finally the wound became as bad as ever.

"I was then advised to try Zam-Buk, and from the first application the balm gave me relief. The inflammation was thoroughly checked and the poisonous matter cleared away in a very short time after beginning with Zam-Buk. Healing then began, and in less than two weeks the wound was thoroughly healed."

One of the main lessons of this case lies right here—try Zam-Buk first for any injury, sore, skin disease or wound. It is equally good for piles, blood-poisoning, festering wounds, chaps, cold sores, children's eruptions, scalp sores, varicose ulcers, chilblains, etc. All druggists and stores sell at 50c. a box or post free from Zam-Buk Co., upon receipt of price. You are warned against harmful substitutes and inferior preparations, which do a bigger margin of profit and are sometimes pushed as being "just as good." Nothing is just as good.

PLYMPTON COUNCIL

Plympton Council met February 4th at ten a. m. as a Court of Revision on the Fleming drain two appeals had been made and occupied the day till four p. m. hearing these appellants and their witness at 4 the court adjourned to Thursday the 9th. Minutes of last meeting read and adopted. The Auditors presented their report which was examined and accepted; The Local Option by Law had been approved of by the Electors on Jan. 2nd last was read a third time and finally passed.

What Has Dandruff Got To Do With Baldness?

You see the statement every day that the one cause of baldness is dandruff. But it is not.

True, dandruff often precedes the departure of the hair.

It is equally true that you know men with a shock of hair who have carried around a dandruff laden scalp as long as you have known them.

You have also seen men whose scalp was kept so clean as a baby's whose hair was surely departing.

That dandruff talk sounds well and convinces a good many of us, but let us not fool ourselves.

Of course dandruff isn't a good thing to carry around, but it is only an indication.

The same trouble that causes the hair to fall out usually causes dandruff, so if you get at the cause and arrest the loss of hair, you will stop dandruff too.

Those who use Nyal's Hirsutone find it the most satisfactory hair healer and hair dresser they have ever used.

It does stop the hair from falling out. It will also stop dandruff. Your Nyal Druggist cheerfully recommends it—\$1.00 and 50c in sprinkler bottles.

BLACK KNIGHT STOVE POLISH

Look how much "Black Knight" Stove Polish you get for 10c.

None of your stingy little tins of fine powder (that must be mixed with water) or a hard cake (that must be scraped)—but a big generous tin of coal black paste, that is easily applied, and bursts into a brilliant, lasting shine after a few rubs.

You certainly do get 10c. worth of the best stove polish, in the big 10c. cans of "Black Knight."

Send us 10c. for a large can postpaid if your dealer does not handle "Black Knight."

At a cost of only two-thirds of a cent a day per Animal, Royal Purple Stock Specific makes each Animal worth 25 per cent. more.
 You never heard of any other Specific, or "Stock Food," doing likewise.
 Royal Purple will permanently cure the Bots, Colic, Worms, Skin Diseases and Debility, and restore run-down Animals to plumpness and vigor.
 It will increase the milk-yield three to five pounds per cow a day inside of from two to three weeks. It makes the milk richer than ever before.

MR. ANDREW WEGRICH, of Wainflett, Ont., says: "This is to certify that I have tried your Royal Purple Stock Specific for two weeks, on one cow. On the 16th I weighed her milk as 17 pounds. I noticed a change after 5 or 6 days, as there was an extra weight of milk. On the 29th, I carefully weighed the milk, and she gave 22 pounds. I am giving an order for 5 boxes, as I consider it the best I have ever used."

"Stock Food" will not do this. Because "Stock Food" is nothing more or less than a mixture of the very things which you, yourself, grow on your own farm. It is not more food your Animals need. They must have something to help their bodies get all the nourishment from the food they are getting. So that they will fatten, and stay fat, all the year 'round. They need something to prevent disease, to cure disease, and to keep them in the best of health, all the time.

Not a Stock Food
 Royal Purple is not a "Stock Food," nor a "medicine." It is a Conditioner. It does not contain Grain, nor farm products. Nor does it contain "Dope," or any other injurious ingredient. Royal Purple does not merely temporarily bloot or inspire the Animal. It fattens and strengthens it, permanently.

No other Specific known adds flesh so quickly as Royal Purple. It makes 6-week-old Calves as large as ordinary-fed Calves are at 10 weeks.
 Royal Purple makes naturally-thin Animals fat

Free to Stock and Poultry Raisers

We will send, absolutely free, for the asking, postpaid, one of our large thirty-two-page booklets on the common diseases of stock and poultry. Tells you how to feed all kinds of heavy and light horses, colts and mares, milch cows, calves and fattening steers, also how to keep and feed poultry so that they will lay just as well in winter as in summer. No farmer should be without it.

and heavy. And it builds up the health and restores the former plumpness and vigor of run-down stock, in little or no time.

The very best time to use this Conditioner is NOW. It digests the hard food properly and prevents the animals getting indigestion or losing flesh.

50 per cent. Cheaper
 One 50-cent Package of Royal Purple will last one Animal 70 days. This figure a little over two-thirds of a cent per day.

Most "Stock Foods" in 50-cent Packages last but 50 days, and are given three times a day.
 But Royal Purple Specific is given only once a day, and lasts 50 per cent. longer. (A \$1.50 Pall, containing four times the amount of the 50-cent Package, lasts 280 days.)

So, you see, it is only necessary to give Royal Purple Specific once each day. Just think of making each Animal worth 25 per cent. over its cost! What will that mean to you, Mr. Stock Owner!

Royal Purple STOCK AND POULTRY SPECIFICS

Royal Purple creates an appetite for food, and helps nature to digest and turn it into flesh and muscle.
 As a Hog fatterer, Royal Purple has no equal.

Never Off Feed
 Dan McEwen, the horseman, says: "I have used Royal Purple Stock Specific persistently in feeding 'The Eel,' 2,024, largest winner of any pacer on Grand Circuit in 1908 and 1909, and 'Henry Winters,' 2,104, brother of 'Allen Winters,' winner of \$36,000 in trotting stakes in 1908."
 "These horses have never been off their feed since I started using Royal Purple Specific. I will always have it in my stables. Your Cough Powder works like magic."

For Poultry
 Royal Purple Poultry Specific is our other Specific. It is for Poultry—not for stock.

It makes the Hens lay Eggs in Winter as well as in the Summer.

MRS. WM. BURNHAM, Sanford, Ont., says: "Dear Sirs,—This is to certify that I have used two boxes of your Poultry Specific for my hens. They laid so well while feeding it to them. I wondered if you would mind sending me word how or where I could get some this winter. I bought it from your agent last winter. I had 32 hens, and some days I got two dozen eggs a day in February and March, while feeding them the Specific."

Royal Purple Poultry Specific prevents Fowls losing flesh at moulting time, and permanently cures every poultry disease. It makes their plumage bright and keeps them always in prime condition.

It makes your Poultry worth more than they could ever be without it.
 Yet one 50-cent Package will last 25 Hens 70 days. Or a \$1.50 Pall will do 25 Hens 280 days. This is four times more material at only three times the cost.

Make This Test
 Every ounce of Royal Purple Stock and Poultry Specific is guaranteed.

To prove that Royal Purple has no equal, we want you to make this test: Feed Royal Purple to any one of your Animals for four weeks. And at the same time feed any other preparation to any other Animal in the same condition.

If Royal Purple does not prove to you, by actual results, that it is the best you ever used, we'll return your money.
 And we'll ask no questions—make no excuses. You will be the judge—not us.
 This is an honest test, isn't it? We ask you to make it because we know that Royal Purple is the best Conditioner on the market.
 If you are not satisfied, after testing it, you don't lose anything, do you?

Centralls, Ont., Feb. 7, '10.
 The W. A. Jenkins Mfg. Co., London, Ont.:
 Gentlemen,—We have been using Royal Purple Poultry and Stock Specific for the last three weeks, and must say that results are remarkable. Am feeding the Stock Specific to two milking cows, and they have increased 80 per cent. in their milk. The Poultry results are even more marked than this. We have about 60 hens, laying age. When we commenced feeding, we were getting five and six eggs a day, and in the last five days the same flock of hens laid 150 eggs, almost an average of 31 each day, and those five days have been the coldest this winter.
 You can see results plainly in two of three days after the use of "Royal Purple," and the poultry have the same lustre and appearance now as in the summer time. With cows and poultry, and using exactly the same feed and care as before starting to feed "Royal Purple."
 When farmers and stockmen get acquainted with Royal Purple, it will have a greater demand than all other tonics and stock foods on the market combined.
 Yours truly,
 ANDREW HICKS.

 W. A. Jenkins Mfg. Co., London, Ont.:
 Gentlemen,—Last Fall we had in our stables a young mare belonging to Miss Clouston, of Montreal. We could not feed her any bran on account of causing violent scouring, consequently causing her to become weak and thin. We commenced using your Royal Purple Stock Specific, and the results were wonderful. After using it three weeks, we found we could feed the animal bran or any other soft feed without scouring her, and she actually took on in this time twenty-five pounds of flesh, we working her at the same time through the hunt. I can heartily recommend your Stock Specific.

RUBBING UP THE ARMS.

Said to Have Excellent Results in Cases of Fainting.
 When my wife faints, which is miserably often, says a writer in the London medical journal, the Lancet, I do not apply friction in the usual absurd way—rubbing backward and forward, which must alternately check and accelerate the passage of the blood—but, taking hold of one of her hands with my left hand, I place the thumb and finger of my right hand tight round her wrist and then pass them firmly up toward her elbow.
 Having brought them back loosely to the wrist, I pass them firmly up again, and when I have repeated the operation two or three times, sometimes on both arms, I have the pleasure of hearing the ejaculation, "I feel better now." When I first had recourse to this means of resuscitating my lady she exclaimed instinctively on two different occasions, without being at all aware that I had had any particular intention, "Oh, that is what I seem to want!"

From the invariable and immediate effect of this mode of friction I flatter myself that it is not unworthy the notice of the medical practitioner in the friction of cholera patients, a process which should be much oftener resorted to and more energetically persisted in than it generally is.

GERMAN RED TAPE.

A Lesson in Picking Up Things In the Streets of Berlin.
 Take care how you pick up a thing that is lost in Berlin. The other day one of our deputies going through the Prussian capital on his return from a convention at Frankfurt noticed a key at the edge of the sidewalk. He picked it up to hand it to a police agent. The representative of the city police refused to take it, saying, "You should take this key to the special bureau of things that are lost."
 "Very well. Where is it?"
 "The agent named the street."
 "Is it far from here?"

"A half hour, three-quarters of an hour if you don't walk rapidly."
 The deputy replaced the key on the pavement. "Some one else will pick it up," he said.

"Not at all," said the agent in a commanding tone. "You should have left it where it was, but now you are obliged to go to the bureau. If you don't I'll make a complaint against you and you'll be fined, perhaps given a day in prison. That's the law."
 The deputy was compelled to obey orders. Since that day he carries his hand in his pockets.—Cri de Paris.

The Hangman's Stone.
 There is a large boulder lying in a field near Foremark, England, which is known throughout Derbyshire as the "hangman's stone." The exposed portion of the boulder rises about six feet above the surface of the surrounding field and has a narrow ditch or indentation running across the top. The mark, so tradition says, was made in this way: A sheep thief in the dead of night, while leaning against the boulder to rest, placed his booty above on the flat surface of the stone. The man had the sheep tied with a rope, and in his effort to escape the creature slipped on the opposite side, and the rope, catching under the thief's chin, choked him to death. The indentation in the rock was made by the friction of the rope while the dying man was engaged in an effort to extricate himself.

A Good Loser.
 Arthur's, Almack's, Bottle's and White's were the chief clubs of the young men of fashion. There was play at all, and decayed noblemen and broken down senators flocked the unwary there. Charles Fox, a dreadful gambler, lost £200,000 at play. Gibbon tells of his playing twenty-two hours at a sitting and losing £500 an hour. That indomitable punster said that the greatest pleasure in life after winning was losing. What hours, what nights, what health did he waste over the devil's books! I was going to say what peace of mind, but he took his losses very philosophically. After an awful night's play he was found on a sofa tranquilly reading an eclogue of Virgil.—From Thackeray's "The Four Georges."

Alvin Maidment bought from J. W. Bryce a brood sow for the handsome sum of twenty-five dollars, which the former thought was a little too dear, but one week later she gave birth to seventeen pigs, which he sold for twenty-one dollars, thus leaving himself the old pig for four dollars. Alvin is not always asleep when making a deal.

Death came with startling suddenness into the home of Mr. and Mrs. John Anderson of Warwick township on Sunday last and took from them their only child, Marie, a sweet little girl of twelve years. She had only been sick a few days, death being due to brain fever.

Dr. Eckel of Adelaide, and Dr. Newell of Watford were called, and everything was done to alleviate her suffering, but God took her home to Himself. When it was known Marie was dead school was dismissed, the flag hung at half mast and the trustees, teacher and children all came in a body to show their sympathy and respect for one who was beloved by them all. The funeral took place on Tuesday, the remains being taken to the Adelaide church where High Mass was celebrated by Rev. Father Quinlan, interment being made in the R. C. cemetery in Adelaide Village. Mr. and Mrs. Anderson have the heartfelt sympathy of the whole community in their sad bereavement.

A rather sudden death occurred on the 4th line on Thursday night last, Feb. 9th, 1911, when Mr. Michael Burchill passed to the great beyond in his 72nd year. Although deceased had not been feeling well for several weeks he was able to be around as usual and on the day of his death was in Watford part of the afternoon and spent some time chatting with old friends. He was in the habit of remaining up a short time after the other members of the family had retired for the night, and did so on the night of his death. Just as he was about to retire he became suddenly ill and called his son, who reached him just as he collapsed, and in a few minutes the vital spark had fled. Mr. Burchill was born in the county of Grenville, Ont., on March 17th, 1839, and came to Warwick about forty years ago and settled on the farm on which he died. About 37 years ago he was married to Mrs. Cline, who survives him. Besides a widow he leaves to mourn his death, one son, Samuel, at home, and one daughter, Mrs. Ernest Crummer, of Chatham, and four step-children, Jacob Cline, Warwick; William Cline, Stratroy; Mrs. Dunkeld, near Toronto, and Mrs. W. J. Cowan, Detroit; also five brothers, namely, Thomas, Haliburton; Samuel and Arthur, Merrickville; John, Carlton Place, and Edward in the Northwest. Mr. Burchill was a man of quiet and unassuming disposition, well known and highly respected by all who knew him, and he always took a deep interest in public affairs. He was a Conservative in politics and a staunch member and liberal supporter of the Anglican church. The funeral took place from the family residence, lot 27, con. 5, on Sunday afternoon to the Watford cemetery and was very largely attended. The service was conducted by Rev. H. R. Diehl, rector of Grace church, 4th line, the pall bearers being Samuel, Arthur and John Burchill, brothers, Jacob and William Cline, stepsons, and Ernest Crummer, son-in-law.

W. H. Whitlock, a Mohawk Indian, was burned to death in the lock-up at Walpole Island on Thursday night. It is supposed that he upset the stove.

Catarrhal Deafness Successfully Treated By Catarrhazone

Deafness is not so common as blindness, yet thousands are more less afflicted by it, and their comfort seriously interfered with.

Catarrhal deafness manifests itself but slowly, yet it must be acknowledged that the great majority of those who become totally deaf might have averted this unfortunate condition if they had treated the catarrhal inflammation at its beginning.

The only remedy that can be safely employed for all forms of catarrhal deafness is Catarrhazone. You simply charge the air you breathe with this healing, soothing agent, and by forcing it gently through the ears destroy the germ life which keeps up the inflammation, and at the same time by the soothing, healing action it heals the inflamed surfaces of the middle ear.

CATARRHAZONE, to those who are just a little deaf, and are growing increasingly deaf, is an agent capable of affording the utmost satisfaction, and its use is attended without danger, and as the treatment can be carried on at home no person threatened with the affliction of deafness should postpone one moment in beginning its use.

From every part of the Dominion glowing accounts of the beneficial action it exerts upon catarrhal conditions of the middle ear have been sent in, and you will be resorting to the only method of cure, and the simplest method too, if you try Catarrhazone. Dealers everywhere sell it, 25c, 50c, and \$1.00. By mail from The Catarrhazone Co., Buffalo, N. Y., and Kingston, Ont.

Dr. Hamilton's Pills Cured

"I think it should be the duty of the schools to teach children how to keep well," writes Miss Nannie E. Naydon, a well-known and highly esteemed resident of Bristol. "Ignorance of the laws of health and the use of improper remedies destroyed my vigor, and led to the verge of invalidism. I was as a girl ruddy and strong. Nothing seemed to affect me until I was about thirty. Then gas began to form in the stomach. I suffered with bloating and a general failure in strength set in. If I went upstairs my breath hurt. My system was very irregular, and until I grew pretty bad I didn't pay much heed to my condition. Then I got blue, worried all the time, wakened in the night, and couldn't get to sleep again. None of the medicine I took helped me. One day I was reading of a very interesting case like mine cured by Dr. Hamilton's Pills. I took the same treatment. It was just right—didn't physic me to death, but took hold of the weak, sick parts of my system, and set things right. It seems as if Dr. Hamilton's Pills have made me young again, and all my color, spirits, vigor, and health of former days have returned to stay." Every girl and woman should use Dr. Hamilton's Pills regularly. They help a woman in many ways. Beware of the dealer who asks you to take an inferior pill on which his profit is larger than on Dr. Hamilton's. Sold in yellow boxes, 25c per box, all dealers or The Catarrhzone, Co., Kingston, Ont.

BABY'S OWN TABLETS FOR ALL BABIES.

Every mother of young children should keep a box of Baby's Own Tablets in the house. No other medicine has relieved so many little ones of the ailments that afflict them as have Baby's Own Tablets—no other medicine can be given baby with that absolute sureness of safety as can these Tablets. The mother has the guarantee of a Government analyst that they do not contain a particle of those harmful drugs that make those so-called "soothing" stuffs so dangerous to the life of the little one. The Tablets never fail to be of benefit. Concerning them Mrs. Jno. A. Albert, Carquet, N.B., writes:—"I am happy to state that I have used Baby's Own Tablets for constipation for my two children with great satisfaction." The Tablets are sold by medicine dealers or at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

FARMING UP TO DATE.

Institute Week in Watford.

If this week you see a farmer coming to the town, Brought his new wife in her newest gown? Do you query where they travel? The Institute's the charm Where wise professors tell them how They ought to run their farm. How to care for good old Tidy So she'll not go dry, How much corn fell cunning piggie Makes him meet to fry. Prove that smiles, however sunny, Ne'er will ripen wheat, But honest toil from dawn to dawn Bring all good things to eat. And earnest mothers study training Of their children dear, Or how to grow a fragrant flower Some invalid to cheer. Home return Joan and Darby. Nor covet fashions grand, Both very sure the sweetest life Is back upon the land.

THE INDUSTRIAL MORTGAGE & SAVINGS CO.

These are the days when SECURITY should weigh heavily with intending investors. All kind of inducements are now offered to draw your savings into speculative investments. Promises of higher rates of interest often result in the loss of all or part of the principal, with worry consequent on the thought that THE SAVINGS OF A LIFETIME HAVE BEEN WASTED IN A FEW MONTHS.

ADVANTAGES OF HOLDING AN INDUSTRIAL MORTGAGE & SAVINGS CO. 4% DEBENTURE.

1. There is no better security offered to you to-day in Canada.
2. Your money is invested in our own Province on farm lands and municipal debentures, with which you are thoroughly familiar.
3. You are saved all worry and unpleasantness consequent on loaning your money either on notes or mortgages.
4. Not a dollar is invested outside the Province of Ontario.
5. Debentures and deposits are the first claim on the entire assets of the Company which now amount to nearly two million dollars.

TULIP MADNESS.

The Craze That Raged in Holland in the Last Century.

During the tulip craze in Holland in the last century in one year the sales aggregated 10,000,000 florins. Holland went tulip mad. The bulbs were quoted on the Stock Exchange. Ownership in them was divided into shares. Speculators sold them short. At one time more tulips were sold than existed. At Lille a brewer sold his trade and good will in exchange for a bulb, which was thereafter known as the Brewery tulip. In Amsterdam a father gave one by way of dower with his child. Thereafter the variety was known as the Marriage of My Daughter. At Rotterdam a hungry sailor, happening on a few, mistook them for onions and ate them. The repast became as famous as Cleopatra's pearls and probably exceeded it in cost. At The Hague a poor fellow managed to raise a black tulip. The rumor of that vegetable marvel spread. Presently he was visited by a deputation from a syndicate. For that ewe lamb of his the deputation offered 1,000 florins, which he refused. He was offered 10,000 florins. Still he refused. Cascades of gold were poured before his resisting eyes. Finally, tormented and tempted, he succumbed. There and then the deputation trampled that tulip under their feet. Afterward it appeared that the syndicate had already grown a gem precisely similar and, unable to bear the idea that a rival existed, had authorized the deputation if needful to offer ten times the amount which it paid.

PICKED AN ODD NAME.

An Author's Long Search and a Subsequent Surprise.

When Albion W. Tourgee wrote "A Fool's Errand" he named one of his leading characters Theron Pardee. An early copy of the book fell into the hands of the Rev. Luther Pardee, an Episcopal clergyman of Chicago, whose father was named Theron Pardee. The name is such an unusual combination that in amazement the rector showed the book to his father, and they were both puzzled by the coincidence. They decided to write Judge Tourgee and ask him what had led him to use the name. He replied, in equal amazement, that he had not supposed there was such a man living as a Theron Pardee. Then he stated that he had a prolonged search for a suitable name for the character of his story—one that would express just what he imagined this character to be. In the course of the hunt an old copy of the curriculum of Union college had fallen into his hands. It was dated 1825, or something as far back, and among the names of the students was one Theron Pardee. The judge said it had impressed him as being one of the richest, most solid and most satisfying names he ever had heard, so he decided to adopt it for his character. The curriculum was so old that he had no hesitation in using the name, and he was astonished to learn that the rightful owner of it was living. His explanation was accepted and the resulting acquaintance was pleasing all around.—New York Press.

The Arab Plowman.

To see an Arab steering a yoke of oxen, one hand pressed upon the single stem of the plow and the other holding the long, slim goad, is to see a living illustration of how Elishah looked and moved when Elijah found him plowing and cast his cloak upon him in significant symbolism of his destiny. It has often been remarked that white-imperishable relics of Ro-

FREE PSYCHINE FOR THE SICK

Let us buy a 50c. bottle from your Druggist and give it to you to try. Here are our reasons:

For nearly the third of a century we have known what Psychine will do. We have known it to cure hundreds of thousands in that time, of some of the most desperate cases of disease known to medical science.

We have received thousands of unsolicited testimonials, which we will gladly let you look over should you desire.

Think of it, a third of a century's experience with one preparation, a third of a century's intimate knowledge of what extraordinary cures it has made—almost a lifetime!

Do you wonder then with that perfect knowledge of Psychine, that we are anxious to bring it to the notice of everyone in Canada suffering from disease?

Do you wonder that we want those to know who are using wrong methods of cure, who are not getting well, and who we know will be benefited by Psychine.

Do you wonder that we can buy hundreds of thousands of 50-cent bottles of Psychine from the druggists of Canada to give to those who wish to try it?

Psychine builds vitality. It strengthens and increases the white corpuscles of the blood—the phagocytes, the policemen or scavengers of the blood.

These white corpuscles of the blood, when strong enough, destroy every disease germ that gets into the body, keeps the body healthy.

If these white corpuscles are not in sufficient numbers or are not sufficiently strong, then these disease germs destroy them and disease holds the body. That's the cause of nearly every disease that afflicts the human race. For years, centuries, in fact, it has been recognized that herbs are the most effective treatment for disease.

It is only within recent times that we have been able to tell just why they were so effective.

Because certain of them increased and strengthened the white corpuscles or phagocytes.

These herbs are employed in compounding Psychine.

We go all over this world, to obtain these herbs. Arabia, South America, China and Japan all contribute.

And the result is a preparation that will restore health and build vitality as no other preparation will.

That has proven itself in nearly the third of a century's use as no other preparation has proven itself.

That is a most effective treatment for:

- La Grippe
- Bronchitis
- Hemorrhages
- Sore Throat
- Anaemia
- Female Weakness
- Indigestion
- Poor Appetite
- Chills and Fevers
- Sleeplessness and Nervous Troubles
- After-effects of Pleurisy, Pneumonia and La Grippe.
- Bronchial Coughs
- Weak Voice
- Spring Weakness
- Early Decline
- Catarrhal Affections
- Cataract of Stomach
- Night Sweats
- Obstinate Coughs
- Laryngitis and Dyspnea

Now we don't ask you to take our word for the tremendously beneficial effect of Psychine. Fill out the coupon

below, mail it to us and we'll give your druggist an order (for which we pay him the regular retail price) for a 50-cent bottle of Psychine to be given you free of cost.

We will undoubtedly buy and distribute in this manner hundreds of thousands of these 50-cent bottles of Psychine.

And we do that to show our entire confidence in this wonderful preparation.

A confidence that has been based on our 30 years' experience with this splendid preparation, with a full knowledge of the hundreds of thousands of cures it has made.

Her Secret

Why She Always Looked So Young

Everyone refers to her as one of the most attractive women in town. It wasn't her features, for while regular, they were not unusual. But the vigorous hair in the head of splendid, wavy curls that made a veritable crown. It had that peculiar lustre and the sun gave it an added brilliance—you couldn't look at her without unconsciously commenting on the beauty of her hair.

When asked how she kept it so beautiful she replied that it was no secret, simply proper shampooing, regular combing and the conscientious use of Hirsutone. She admitted it had not always been in that condition, but that she found Hirsutone the best thing she ever got for the hair. It feeling and the hair was so much easier to dress after its use.

There are plenty of heads that would be just as attractive for Hirsutone soon brings the hair and scalp into good condition.

Your Nearest Drug Store will cheerfully guarantee Hirsutone to do all that is claimed for it, and every woman owes it to herself to try it.

Ancient Spectacle Makers.

The ancient Guild of Spectacle Makers is numerically one of the strongest London companies. Its charter dates from the year 1629 and, though the exact date of its origin is lost, there is ample evidence that the calling of spectacle maker was extensively followed at a very early date. An old book of 1563 mentions the spectacle makers among other traders, and the biography of Carlo Zeno, an illustrious Venetian, who died in 1418, mentions that even at the age of eighty-four he needed no artificial aids to his sight. So presumably spectacles were common in Italy five centuries ago.—London Telegraph.

DROWNED THE MUSIC.

The Audience Was Angry, and Theodore Thomas Was Obstinate.

Theodore Thomas once undertook to raise a subscription fund for a series of concerts in San Francisco, but only \$10,000 had been raised, and the enterprise hung fire. Then he announced that Emma Thursby would sing at each concert, and the guarantee fund promptly went up to \$50,000.

Thomas had a rule against encores for soloists. They were allowed to appear and bow in recognition of applause, but that was all. The San Franciscans held that as it was Miss Thursby's engagement which was responsible for the raising of the fund they were entitled to encores if they chose. Thomas, however, insisted stubbornly on his rule.

On the last night a determined effort was made to encores her. She appeared again and again, bowing her thanks, and each time the applause increased instead of diminishing. At last the audience began to shout its demands instead of merely applauding, and Miss Thursby turned to Thomas and said, "What shall I do?"

"Keep on bowing if you have to bow all night," snapped Thomas grimly.

And she went out and bowed again. This time Thomas directed the orchestra to go ahead with the final number. The audience, thoroughly indignant, shouted down the music, but Thomas was inflexible. The orchestra went on playing, utterly unheard, in a pandemonium of shouted protests. And it was probably the only time that a Thomas number fell on deaf ears.—Ladies' Home Journal.

A Venetian Fashion.

Fashions were no less eccentric four centuries ago than they are today. "Before the streets of Venice were paved (in the thirteenth century)," says Mr. William Bouling in "Woman in Italy," "ladies went though the mud and filth on pattens. The custom was retained, and in spite of sumptuary laws the patten became heightened until women of rank stood on false feet half a yard high in the sixteenth century. They were unable to walk without the support of one or two gentlemen or servants."

A curiosity in banquets is mentioned by the same writer. It was a wedding feast at Milan and consisted of fifteen courses, "each being introduced by living specimens of the animals that composed it."

Tale of a Snake.

"Before he went fishin'," said the town story teller, "he swallowed 'bout a pint an' half of snake bite remedy, an' of course you know what that is. Well, after the snake bit him the reptile cut all sorts of capers, kaze the remedy went straight to its head. Last thing it tried to do wuz to swallow its tail, an' it got itself in the form of a hoop, an' I'm a liar ef the children didn't roll it around all day!"—Atlanta Constitution.

FIRST SUBMARINE.

The American Turtle Was Tried Out at New York In 1776.

GAVE THE BRITISH A SCARE.

Her Attempt to Blow Up the English Frigate Asia Didn't Succeed, but the Enemy's Ships Fled in Terror—Her Second Escapade Sealed Her Fate.

The American Turtle deserved a better fate. It was the first submarine war vessel of the United States. It was tried out in 1776 in New York harbor. Its inventor and builder was David Bushnell of Connecticut, of whom little is known. The man who went under water with it and in New York bay tried to blow up the British frigate Asia, under General Washington's orders, was Colonel Ezra Lee.

The Turtle was built at Saybrook, Conn. After its vicissitudes of being captured, sunk and resting for years at the bottom of the East river it was raised and taken back to its birthplace. There, after more years, it was taken to pieces. Its metal went into grandfather's clocks, which are still ticking in the hallways of New York and New England homes. Its oaken, pitch-smearred timbers were put to structural uses and all trace of them lost. Bushnell did not get even a tardy reward for his inventiveness. The council of safety of Connecticut in 1777 directed that he be paid £200 for his services in "annoying ships," but there is no record that he ever got the money.

Here is the story of the American Turtle's first exploit as it is told in the quaint phraseology of the yellowing manuscript where it was set down long ago:

"When the British fleet lay in the North river, opposite the city of New York, and while General Washington had possession of the city he was very anxious to be rid of such neighbors. David Bushnell of Saybrook invented a submarine curiosity called the American Turtle, which received General Washington's approval for that purpose. A brother of the inventor was to operate the machine, but on trial he declined to hazard his service. Colonel Lee, distinguished for his courage and patriotism, volunteered his services, and after practicing with the machine to discover its powers a night was fixed upon for the attempt.

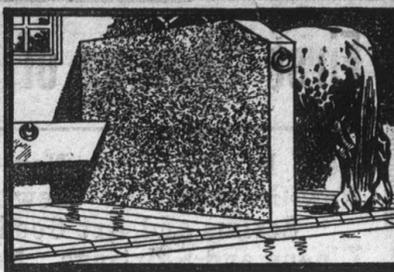

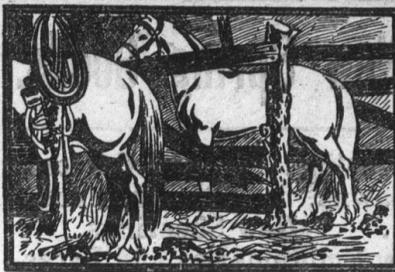

"General Washington and his associates in the secret took their stations upon the roof of a house on Broadway, anxiously awaiting the result. Morning came, but no intelligence of the bold navigator. While the anxious spectators were about to give him up as lost several barges were seen to start suddenly from Governors Island, then in possession of the British, and move toward some object near the Asia, ship of the line, and as suddenly they were seen to put about and steer for the island with springing oars. In two or three minutes an explosion took place from the surface of the water, resembling a waterspout, which aroused the whole city. The enemy's ships took the alarm, cut their cables and proceeded to the Hook with all possible dispatch, sweeping their bottoms with chains and with difficulty preventing their afflicted crews from leaping overboard.

"Colonel Lee, coming to the surface during this scene of consternation, was obliged again to descend to avoid the enemy's shot from the island. After forcing his machine against a strong current under water he landed safe at the Battery amid a great crowd, General Washington expressing himself as much pleased that the object was effected without the loss of life.

"Colonel Lee had been under the Asia more than two hours endeavoring to penetrate her bottom, which, being sheathed with copper, resisted all attempts to attach the magazine to the ship."

Apparently the American Turtle made one more attempt to "annoy the enemy's shipping" before she ended her career. Another old diary preserved by a Connecticut family mentions this incident. It seems that the Turtle, manned by some nameless hero, perhaps again by Colonel Lee, though the chronicler does not state, made an attempt to blow up a British ship in the East river. By this time the British appear to have discovered what nature of craft it was that had essayed to destroy the Asia and so were on the lookout for anything suspicious that disturbed the surface of the water. At any rate, the American submarine was discovered before she had made any progress on her second mission of destruction.

The British boats gave chase. Considering that the maximum speed of the Turtle was three miles an hour, the pursuit could not have been a very long one. At any rate, an American vessel, probably some small schooner,

Which of These Pictures Best Represents Your Stable?

If your Stable interior is of wood, you'll do well to tear down those old, unsightly stalls and mangers—and build new ones of Concrete.

In fact, the entire Stable—inside and out—should be built of Concrete.

This is the modern material—it has the merits of lightness, endurance, and economy—and is sanitary.

The farmer himself can, by its use, make many little improvements that, with any other material, would require the employment of skilled labor.

If you would know something of the possibilities of Concrete, fill out the coupon and send it to us. By return mail, we will send you a copy of our free 100-page book, "What the Farmer Can Do With Concrete."

In this book you'll find complete instructions for the construction of almost everything you can think of, in the way of farm buildings, floors, vats, troughs, etc., etc.

Nowadays, for a farmer not to know how to mix and use concrete, is to confess himself a way behind the times.

"What the Farmer Can Do With Concrete" will not only inform you—it will also interest you.

was waiting for the submarine, and the Turtle fled thither for protection. Hastily the odd looking craft was hoisted aboard, sail was set, and the American boat tried to show a clean pair of heels to her pursuer, but it was in vain. She was sunk by the English guns.

For a long time the Turtle lay in the submerged vessel's hold. After the war was over, however, the ship was raised and the Turtle was recovered and carried back to Saybrook. If every one else had forgotten her and her achievements by that time the people of her inventor's native town still held the Turtle in affectionate remembrance.—Thaddeus S. Dayton in Boston Post.

REPUBLICS IN GERMANY.

Three City States Whose Constitutions the Empire Respects.

Hamburg, Bremen and Lubec are theoretically three republics which have for the mutual convenience of themselves and the empire come under the rule of the kaiser in all but purely local affairs. As they had joined the north German confederation, which was formed after Prussia's victory in 1866, there was nothing left for them to do but to give their allegiance to its successor, the empire.

Each is represented in the bundesrath, or federal council, as well as in the reichstag, and each retains the republican principle in its local legislation. The Hamburg senate may have fallen from its highest estate, but it still lives and legislates concurrently with the house of burgesses. The burgo-master of Hamburg remains the great man in the estimate of the Hamburg people, the inheritor of the great traditions of the Hansa. Bremen and Lubec have constitutions in cousinship with Hamburg.

A wise empire respects the constitutions of these city states and refrains from any action hinting of the application of the steam roller in pursuit of harmony. The survivors of the Hansa have been more fortunate than some other republics of continental Europe. They have outlived several that had hopes of being left ignored in their republicanism.

Cracow was once a republic, but, being surrounded by Austrian possessions, was finally swallowed up in 1846. Since that time it has been a city of Austrian Poland.—Boston Transcript.

SURE SIGNS

Of Kidney Trouble.

If your back is constantly aching and if you experience dull shooting pains, your kidneys are out of order. If your urine is thick and cloudy or your passages frequent scanty and painful, your kidneys and bladder are out of order. Neglect quickly brings on rheumatism, diabetes, lumbago, sciatica, etc.

Mrs. John Wagner of 110, Hollis St., Halifax, N. S., says: "Dull shooting pains would catch me across the small part of the back and extend into my shoulders and neck, often causing me to suffer from severe spells of dizziness. Spots would dazzle before my eyes and everything would turn black. I would fall to the floor and be unable to get up again without assistance. A friend told me of Booth's Kidney Pills and I began their use. The first box gave me relief and I am now well and strong."

All druggists sell Booth's Kidney Pills at 50c. a box with a guarantee to relieve or your money back. They are the world's greatest specific for kidney and bladder trouble. Postpaid from the proprietors, The R. T. Booth Co., Ltd., Fort Erie. Sold and guaranteed by T. B. Taylor & Sons.

Doctors Condemn Oily Liniments

The Public are Warned to Be Careful of These Strong-Smelling Oily Liniments Containing Harmful Acids, Ammonia, Etc.

Many people have clung to the old-fashioned idea that a thick, greasy liniment is the best kind. Doctors say not—and they know. Recently a number of these white, oily liniments were analyzed, and they were found to contain an enormously high percentage of harmful acids, and such irritating chemicals as ammonia, etc. For the moment they may cause a warm sensation when first applied, but their continued use never cures rheumatism and only deteriorates the skin, sets up inflammation and causes endless trouble.

When a doctor warns you to quit using a white, oily liniment—do so. He knows that a thick liniment can't penetrate, can't sink through the pores and reach the seat of the pain. When asked his opinion a few days ago, Dr. Roberts stated that he considered a strong, penetrating, pain-subduing liniment such as "Nerviline," to be superior to any of the white, ammonia liniments. In his twenty-five years of practice he had witnessed cases of rheumatism, sciatica, and lumbago that simply would not respond to ordinary treatment—but Nerviline cured them. The same physician also spoke of the great advantages of keeping a preparation like Nerviline in the house always, because of cramps, diarrhoea, stomach disorders, earache, toothache, headache, and such minor ailments. Nerviline is a first-class cure. There is scarcely an ache or a pain, internal or external, that Nerviline won't cure. In thousands of homes no other pain-relieving medicine is used. Fifty years' continued success and the endorsement of the profession are proof that Nerviline is the liniment for the home.

 N. HERBERT, Clerk.

was a great draw-back and as fair-minded people, he asked the government to restore it. Under the old system the poor man's child could get a permit to teach for three years and earn enough to go on farther.
 People in his constituency were worked up over the assessment act. They wanted to be taxed for their land and not their improvements. The present method was designed to keep back improvements.
 Mr. McCormick hoped that the government would make a further grant of \$25,000 to the Fall Fair Association.
 Mr. McCormick does not believe in Mr. Johnson's idea of importing teachers. "Why, they'd want to teach their own language, Irish, Scotch, English and French, and we want nothing taught in public schools but the English language."
 (Applause from both sides of the house.)
 In Lambton the people felt pretty badly over the Farmer's Bank, an institution founded for the very purpose of robbing the farmer, and there should be a revision of the bank act.
 He favored increased railway taxation, and a more aggressive immigration policy.

LA GRIPPE RAVAGES

The Trouble Sweeping Over Canada is an Epidemic.
 WEAKENED AND BROKEN CONSTITUTIONS LEFT BEHIND—HOW TO REGAIN NEW HEALTH AND STRENGTH.

La grippe is one of the most dangerous diseases that annually sweeps over Canada. It starts with a sneeze—a slight cold—and ends with a complication of troubles. It lays the strong man on his back; it tortures him with fevers and chills, with headaches and backaches. Its victims are left low-spirited and depressed, and an easy prey to bronchitis, pneumonia, rheumatism, and often that most dreaded of all diseases—consumption. You can avoid la grippe entirely by keeping the blood rich and red by the occasional use of Dr. Williams' Pink Pills. The trouble takes as its victims those whose blood is in a poor condition, and its after-effects are more dangerous and more lasting than the trouble itself. For the after-effects of la grippe there is absolutely no other medicine can equal Dr. Williams' Pink Pills. Every dose helps to make rich, red blood that drives disease from the system, and makes weak, despondent men and women bright, cheerful and strong. If you have suffered in any way from the epidemic of la grippe that has been sweeping over Canada, give this great health-restoring medicine a trial, and it will not disappoint you. Here is proof of the wonderful power of Dr. Williams' Pink Pills over the after-effects of this disease. M. P. E. Paulin, collector of customs at Caraquez, N. B., writes: "A few winters ago I had a severe attack of la grippe, which completely broke me down. I had to take to my bed for several weeks, and although during that time I employed a doctor I did not seem to recover from the trouble. I was left terribly weak, did not sleep well, had night sweats, and little or no appetite. I was really a physical wreck. On a former occasion I had used Dr. Williams' Pink Pills for general debility with such great success that I decided to try them again. I sent for a half dozen boxes and began to take the Pills at once. When taking the second box I began to feel quite a change in my condition. I was able to walk about the house and my appetite was improving. From that on I gained strength every day and before the six boxes were done I was able to return to the office and attend to my work. I have since enjoyed the best of health, and think Dr. Williams' Pink Pills the best medicine for trouble of this kind."
 Dr. Williams' Pink Pills not only promptly cure the serious after-effects of la grippe, but they make well and strong all persons suffering from any form of debility or general weakness. These Pills have no laxative or purgative action; their mission is to make new, rich, red blood, and thus fortify and strengthen every organ and every part of the body. Dr. Williams' Pink Pills are sold by all medicine dealers, or sent by mail at 50 cents a box or six boxes for \$2.50 by addressing The Dr. Williams' Medicine Co., Brockville, Ont.

R. J. McCormick, M.P.P., Speaks on the Budget.

In the Legislature on Thursday last the Member for East Lambton gave his opinions on some of the matters occupying the attention of the people. We quote from the daily press as follows:—
 The veteran Liberal from East Lambton received two genuine ovations when he rose to express his opinions in the budget debate, and when he sat down. It made his Irish blood boil, he said, to hear the Tory members saying that the Liberals had done nothing. He felt very friendly towards the present government and he was willing to touch that the 18 members of the opposition were willing to do everything in their power to help the government to make good laws. He had taken a ride over the new railroad the government had built up north and it was a splendid thing.
 He could not, however, drop the model school issue. It was becoming harder for the poor man's children to become educated. The abolition of the model school
