The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaît sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. THE GREAT SOUTH AMERICAN

# NERVINE TONIC

—AND—

## Stomach and Liver Cure

---

This new and valuable South American medicine possesses powers and qualities hitherto unknown to the medical profession. The discovery of this great Nervine Tonic is regarded by all who have observed its wonderful curative effects upon the diseased of our own country as one of the most valuable medical discoveries of the Nineteenth Century. This medicine has completely solved the problem of the cure of Indigestion, Dyspepsia, and diseases of the general Nervous System. It also cures all forms of failing health from whatever cause. It performs this by the Great Nervine Tonic qualities which it possesses, and by its great curative powers upon the digestive organs,—the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body and as a great renewer of a broken down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a universal preventive of this fell destroyer when used in the early stages of the malady. It is very important, however, to begin the use of the Nervine on the first intimation of weakness of the breast, loss of flesh or chronic cough. The way to cure Consumption is to prevent it becoming seated on the lungs, and this can be accomplished by the early and persistent use of this great Constitutional Restorative. It is a marvellous cure for nervousness and restlessness of children, of young ladies, and of females of all ages. Ladies who are approaching the critical period known as change in life should not fail to use this great Nervine Tonic almost constantly for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is also of incalculable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

## It is of the Greatest Importance

## Nervous Diseases.

As a cure for every class of Nervous Diseases no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nineteenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply

of nerve food in the blood a general state of debility of the nerves is the result. Starved nerves, like stars, when the right kind of food is supplied, and a thousand disappear as the nerves recover. As the nervous system is the power by which the vital forces of the body are carried for want of perfect nutrition. Ordinary food does not supply the kind of nutriment necessary to repair the living and labor imposes upon the nerves. For this reason a nerve food be supplied. This new and Great Nervine Tonic has filled the vacuum which has long been void of remedy to supply the blood with a nerve nutriment, the nervous system and the faculties of the mind become weakened as to be inadequate to carry on the forces and powers of the mind. The Nervine Tonic has been found to be the essential elements out of which nerve tissue is formed. It has the magic power to cure all forms of nervous derangement. Business Men, whose labor is principally mental, should have the Nervine Tonic as a Nerve Restorer. It will give them great force of mind and energy of the brain and nervous prostration.

## St. Vitus's Dance or

This is a disease of the nervous system characterized by irregular involuntary movements. In most cases almost the whole body is affected; in other mild cases only a few of the muscles of the face, of the mouth, or the tongue and larynx may be affected. It gives rise to unpleasant stammering in the speech.

Chorea is a most dangerous and distressing disease, but since the introduction of the American Nervine Tonic into this country all fear of the disease has vanished away, because not a case where it has been severingly given has resisted its great curative power. The Nervine Tonic exercises its wonderful power by its great nourishing and energizing effect upon the spinal marrow. It is very important, however, that it be used in the severest cases until several weeks after the disease has disappeared, and until the general health is completely restored. Medicine will never fail to make a perfect and permanent cure if used regularly and perseveringly for several months. The bottles will show great improvement in many of the worst cases.

CRAWFORDVILLE, Ind., May 12, 1887.

My daughter, twelve years, had been afflicted for several months with Chorea or St. Vitus's Dance. She was reduced to a skeleton, could not walk, could not talk, could not swallow anything but milk; I had to handle her like an infant. Doctors and neighbors gave her up. I commenced giving her the South American Nervine Tonic, the effects were very surprising. In three days she was rid of the nervousness, and rapidly improved. Four bottles cured her completely. I think the South American Nervine the grandest remedy ever discovered, and would recommend it to everyone. Mas. W. T. EMMERTON.

## The Great South American Nervine Tonic,

Which we now offer you, is the only absolutely unailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass this jewel of incalculable value who is affected by disease of the stomach, either great or small, because the experience and the testimony of multitudes go to prove this is the ONE, and the ONLY ONE, great cure in the world for the universal destroyer.

## Dietetic Rules

### To be Observed whilst Using the Great South American Nervine Tonic and Stomach and Liver Cure.

It is very necessary that certain definite rules and regulations should be observed by those who are suffering from Dyspepsia, or from Chronic Indigestion, or even from a debilitated condition of the stomach, in order that medicinal agents may be used and exercise their curative effects unincumbered by unwholesome and irritating articles of diet. In order to obtain the best results from this important remedy, the dietetic rules herein laid down must be strictly obeyed and adhered to. Where the medicine is used perseveringly according to directions and the hygienic and dietetic rules are closely observed, there is no case of unmalignant disease of the stomach which will resist the wonderful curative powers of one-half dozen or dozen bottles of the South American Nervine Tonic. The stomach is originally or incidentally affected in nearly all the chronic and wasting diseases with which our race is afflicted; and when we consider the vast importance of a healthy stomach to our physical system, in view of the great labor it has to perform in elaborating and supplying the whole economy with nutriment adapted to its numerous and various organs and tissues, it is the part of wisdom if we desire life, health and happiness, to exercise judgment in the selection of both food and remedies which we design taking into the stomach.

The diet should consist of wheat bread and good fresh butter, potatoes, rice, cooked fruits, tomatoes (both raw and cooked), preserves and cream, molasses, milk and rice pudding, fresh beef steak, veal or mutton chops (broiled but not burned), stewed chicken, wild game and oysters. The drink should consist of black tea, milk or water; hot water with sugar and cream makes a very healthful beverage at meals. No pork or hog's lard, nor anything cooked in or with lard or pork, no cabbage, turnips, or radishes are to be eaten. Eggs in almost any form are hurtful, and hence cakes prepared with eggs are very injurious. Figs, raisins and nuts of all kinds should always be avoided. The body should be sponged twice a week with warm water; regular out-door exercise should be taken either on foot, on horseback, or in a carriage. Those who are suffering from almost any form of bad health, with wasting of the tissues of the body, by closely adhering to the above dietetic rules and the liberal use of the South American Nervine will find their vital energies will return, and a permanent cure will be the result.

This substantial cure is effected by the great strength imparted by the medicine directly to the stomach itself, and by the wonderful vitality it also imparts to the general nervous system.

The Nervine Tonic also cures Derangements of the Liver by its energizing and stimulating action upon that organ, thereby relieving it of congestion, and causing it to throw off large accumulations of dark and unhealthy bile, and thus qualifying it for the important function of eliminating from the blood those poisonous qualities which are known to prevail in it during the continuation of torpidity of the liver and a general bilious condition of the system. When you find yourself bilious and your liver torpid and inactive, you cannot do better than to use freely of this important Liver Cure.

## TESTIMONIALS.

CRAWFORDSVILLE, IND., Sept. 25, '86.

We, the undersigned, have used The Great South American Nervine Tonic ourselves in our families, and have found it to be a remedy of great value: W. H. Durham, Pres. 1st National Bk. E. C. CRAWFORDSVILLE, IND., Aug. 29, '86.  
To the Great South American Medicine Co.:

DEAR GENTS.—I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of, but nothing done me any appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using several bottles of it I must say that I am surprised at its wonderful powers to cure the stomach and the general nervous system. If every one knew the value of this remedy as I do you would not be able to supply the demand.

J. A. HARDRE,  
Ex-Treas. Montgomery Co.

Harriet E. Hall, of Waynetown, Ind., says: "I owe my life to The Great South American Nervine Tonic and Stomach and Liver Cure. I had been in bed for five months with a scrofulous tumor in my right side and suffered with indigestion and nervous prostration. Had given up all hopes of getting well. Had tried three doctors with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about and a few bottles cured me entirely. I believe it is the best medicine in the world. I cannot recommend it too highly."

Mrs. M. Russell, Crawfordsville, Ind., writes: "I have used several bottles of The Great South American Nervine Tonic and Stomach and Liver Cure

and will say I consider it the best medicine in the world. I believe it saved the lives of two of my children. They were down and nothing appeared to do them any good until I procured this remedy. It was very surprising how rapidly they both improved on its use. I don't allow myself to be without some of it in my house. I recommend the medicine to all my neighbors."

Mrs. Ella A. Bratton, of New Ross, Ind., says: "I cannot express how much I owe the Nervine Tonic. My system was completely shattered, appetite gone, was coughing and spitting up blood, am sure I was in first stage of consumption; an inheritance handed down through several generations. I began taking the Nervine Tonic and continued its use for about six months, and am entirely cured. It is the grandest remedy for the nerves, stomach and lungs I have ever seen."

### SOUTH AMERICAN NERVINE.

No remedy compares with SOUTH AMERICAN NERVINE as a cure for the Nerves. No remedy compares with South American Nervine as a wondrous cure for the stomach. No remedy compares with South American Nervine as a positive cure for the Lungs. No remedy will at all compare with South American Nervine as a cure for all forms of failing health. It never fails to cure Indigestion and Dyspepsia. It never fails to cure Chorea or St. Vitus's Dance. Its powers to build up the whole system are wonderful in the extreme. It cures the old, the young, and the middle aged. It is a great friend to the aged and infirm. It is a matchless cure for Palsy and Paralysis. Do not neglect to use this precious boon; if you do, you may neglect the only remedy which will ever restore you to health. South American Nervine is perfectly safe and very pleasant to the taste. Delicate ladies, young or old, do not fail to use this great cure, because it will put the bloom of freshness and beauty upon your lips and in your cheeks, and quickly drive away all your disabilities and weaknesses.

## CONSUMPTION

Why is it that consumption destroys its tens of thousands only because the friends of the patients do not procure remedy rich in qualities, such as are known to fill up and heal. The SOUTH AMERICAN NERVINE possesses these qualities in a medicine known to this generation. By its great invigorating and by the peculiar nutrient qualities which it possesses, it repairs plasma out of which new tissue is formed, and then by its great work of healing and filling up the ulcers and cavities which rapid under the inspiration which the whole economy has the great cure. Every person known to be tainted by this fell disease regular use of the South American Nervine. It is of the utmost use of the remedy be commenced at the very moment the appetite begins to lose flesh, for these are the first symptoms of the timely use of this astonishing remedy nearly all cases of Consumption, old or young, who is from any cause considered to be by all means use two or three dozen of the South American Nervine very little danger of Consumption ever returning.

## TAKE NO

### Very Important

A very serious mistake has often been made by persons who have used South American Nervine. They have used one or two bottles, and under a mistaken idea that they were entirely cured at the time the cure was only just commenced; such a proceeding is a great mistake. Every person needing treatment at all should use from half a dozen to three dozen of the South American Nervine. The strength of constitution thus obtained will stay with the individual for a long time, and is of far more value than the price of a few bottles of this great cure.

# CONSUMPTION!

Consumption destroys its tens of thousands of precious lives every year? It is of the patients do not procure and administer to them largely as such as are known to fill up and heal the broken tissues of the lungs. NERVINE possesses these qualities in far superior degree to any other preparation. By its great invigorating powers over the digestive organs, and the qualities which it possesses, it rapidly fills the blood with the vital principle, and then by its great vivifying powers over the nerves filling up the ulcers and cavities within the lungs becomes easy and in which the whole economy has thus derived from the force of this medicine known to be tainted by this fell destroyer should begin at once the South American Nervine. It is of the utmost importance, however, that the patient be commenced at the very moment the appetite begins to fail and the patient these are the first symptoms of the approach of the disease. By the use of this remedy nearly all cases of Consumption may be prevented. Every person who is from any cause considered to be in danger of Consumption should take three dozen of the South American Nervine, after which there will be no chance of Consumption ever returning.

## Directions for Using—English and French.

Prendre le remède avec de l'eau avant de le prendre, excepté dans les cas des jeunes enfants, où l'on doit accompagner chaque bouteille.

# TAKE NOTICE

## Very Important

Notice has often been made by persons who have begun the use of the Nervine. They have used one or two bottles of it and have received great benefit. The mistaken idea that they were entirely restored have stopped the use of it only just commenced; such a procedure is very unwise and dangerous. The remedy at all should use from half a dozen to one dozen bottles, and if two or three dozen should be taken before discontinuing its use, and the patient thus obtained will stay with the individual for years. Life and health are at the price of a few bottles of this great cure. Addressed to

This medicine has completely solved the problem of the cure of Indigestion, Dyspepsia, and diseases of the general Nervous System. It also cures all forms of failing health from whatever cause. It performs this by the Great Nervine Tonic qualities which it possesses, and by its great curative powers upon the digestive organs,—the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body and as a great renewer of a broken down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a universal preventive of this fell destroyer when used in the early stages of the malady. It is very important, however, to begin the use of the Nervine on the first intimation of weakness of the breast, loss of flesh or chronic cough. The way to cure Consumption is to prevent it becoming seated on the lungs, and this can be accomplished by the early and persistent use of this great Constitutional Restorative. It is a marvellous cure for nervousness and restlessness of children, of young ladies, and of females of all ages. Ladies who are approaching the critical period known as change in life should not fail to use this great Nervine Tonic almost constantly for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is also of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.
