

BRITISH SHIPS CAN FLY NEUTRAL FLAG

Ruse Within Certain Limits is Legitimate Under International Law.

LUSITANIA'S ESCAPE

Stars and Stripes Hoisted by Liner Off Coast of Ireland.

(Continued From Page 1.) NO PROTEST EXPECTED.

Special Cable to The Toronto World. LONDON, Feb. 7.—The foreign office has made an announcement regarding the rights under international law of English merchantmen using neutral flags. It is held in official circles that the Lusitania's action was wholly justifiable, contravening no international law, and assumes importance only because of Germany's announced intention of being perfectly ruthless in operations against British shipping. It is not believed Washington will consider it necessary on general principles to make a protest regarding the Lusitania or the British policy regarding flags, but it is recognized that Washington may be apprehensive in this matter because of German intentions to torpedo, if possible, British merchantmen. If actuated by such apprehension, Washington protests to England, this government is ready to consider that Washington should approach Germany and demand abandonment of the announced plan of indiscriminate marine destruction. English international law books, particularly Oppenheim, show that while the American naval code forbids warships using neutral flags, it is a fact that during the Spanish war two American warships committed such an act.

One of Britain's strongest points is that the German prize law of 1909 specially states German warships may follow such tactics. So in British opinion does all international law, and it is agreed that if warships may use neutral ensigns for purposes of capture or escape or drawing the enemy into action, there can be no complaint about merchant ships doing likewise for purely protective purposes. As yet the foreign office has heard nothing from Washington.

Warned by Baltic. Canadian Press Despatch. LONDON, Feb. 7.—The British steamer Lusitania of the Cunard Line, which sailed from New York Jan. 20, and arrived at Liverpool Saturday afternoon, leaving the Atlantic coast at the time she passed Queenstown until she entered the Mersey. This is vouchered for by American passengers who crossed on her.

The Lusitania received a wireless message from the Baltic of the White Star line that the steamer was being sighted from that vessel.

The captain of the Lusitania, in reply to a questioner, declared he had the right to fly the flag of a neutral country for the

ence to a commission to collect the taxes that have evidently been evaded by the International Nickel Company. Whether Mr. Rowell will get any support from The Globe or not is doubtful. So far it has been very much against the idea of prohibiting the export of nickel. Mr. Rowell has the chance of his life if he refuses to go with The Globe and comes out for bold action all round.

Editor World: Remember the great power of this International Nickel Company which is the bottom of the whole trouble. The Ontario Government has a stupid system of collecting royalty. It should be on profit weighed daily at pit's mouth by a good government inspector, and not on profits by bookkeeping with fraudulent returns. If the prohibition could be had during the war, all right. Let us have a tax cents per pound export duty on the nickel ore and matte—in fact, a prohibition cent. Then the refineries will arise, true Canadian ones, and the International Nickel Company will have to refine in Canada or go out of business. Moreover, the Canadian Government would then have its hand on the nickel in one form, which it has not now. No compensation to any company for loss by prohibition. It is war time, and most business is languishing, so why should a foreign company be exempt from such loss.

OTTAWA, Ont., Feb. 7.—The weekly bulletin of the trade and commerce department, just issued, shows that Canada exported nickel matte during the year ending Nov. 30, 1914, valued at \$5,218,822, of which \$1,455,697 went to the United Kingdom, and \$3,763,125 worth to the United States.

How much went to Germany from the United States and how much went since the war began? We may have to find this out from Washington. Mr. Hearst ought to get busy on this matter of destination.

Editor World: The issues that have appeared in your paper recently on the nickel question are valuable and will serve to enlighten the people of the Dominion on the manner in which our nickel industry at Sudbury has been handled for the past fifteen years.

I am a citizen of Sudbury, and have been for some time, therefore I have been sizing up the movements of our American nickel operators in the past few years. In the first place, they have tried hard to make the people believe that nickel could not be refined in Canada economically. What a bluff! Then, in the second place, when any other concern or capitalist would enter the field with the intention of becoming an operator in the nickel industry, ready to turn out the finished product right here in Sudbury, they would, without a doubt, run up against many obstacles placed by our American nickel operators (in an indirect way) for the purpose of quashing their achievement, which would certainly unfold the curtain of mystery that has been shadowing nickel refining in Canada.

If our American nickel operators have absolutely satisfied themselves that nickel cannot be refined in Canada economically, then, why should they worry? They know perfectly well, should our government or any other concern build a refinery in Canada, and it prove a failure, that this matter would soon adjust itself, and very much in favor of their argument, and the exporting of nickel matte would once again proceed; but this is not their game, what they want is to work our politicians so the government won't prohibit the export of nickel matte, and at the same time the United States Government have a duty of \$120 per ton on all refined nickel entering their Union, and this, of course, you will plainly understand, will allow the refining to be done in the United States, giving employment to the American laborer and mechanic, build up the American market for the nickel trust by millions each year, and all this is produced from one of the many natural resources of our fair Dominion.

Now, Mr. Editor, I appreciate the stand your paper is taking on behalf of our nickel industry, and I hope you will keep up the good work, and spread the intelligence to our loyal Canadians, who are so true to our empire at this particular time, and enlighten them as to how our nickel is handled, and its destination when refined. Unfold the curtain of mystery that is in the grip of a powerful machine, controlled at one end by the International Nickel Trust, and the other end by politicians.

Editor World: Your nickel campaign is overshadowing all other war news, and I can assure you that you have the best wishes of all loyal Canadians. After reading the nickel articles, the paper is passed along to others. Siskatop.

The Nickel Problem Grows More Serious

To the Canadian people the nickel question is second only in importance to the actual events in the battlefields of Europe in which our empire is engaged, and where Canadians and Australians and other of the dominions, not to forget India, have sent their sons. Canadians are still wondering why the Ottawa government refuses to prohibit the export of nickel. How serious the public are moved on this question can best be gauged by the following article, which we reprint in full.

From The Toronto Contract Record (Feb. 3).

However the interests of the government and the International Nickel Co. may be mixed up, to whatever extent one party may have committed itself to the other, and in spite of the stative statements that are forthcoming in regard to the exportation of nickel, it is becoming more and more apparent that the people of Canada want this question settled. The men who control the country's real backbone will not rest until Canada takes a definite step to retrieve her position in the eyes of the rest of the empire. They are not satisfied that the men who have become involved in the interests of the International Nickel Company are representative of true Canadian sentiment, which, to say the least, should not lag behind that of Australia, who cut off Germany's supply of wool by refusing to go to neutral countries without a definite guarantee that neither the wool nor the product thereof would find its way to the enemies of the British Empire. Australia's position, of course, is entirely different from Canada's. Australia's wool is controlled by Australia, Canada's nickel is in the hands of a German exporting company.

It is a strong statement, perhaps, but, in our opinion, the Canadian Government is prosecuting the interests of the empire and betraying every man, woman and child in that empire by not placing an immediate prohibition upon the export of nickel and maintaining it until the question is definitely settled as to how the nickel is to leave Canada and where it is to go.

History teaches us that upon such national questions the United States must be tied down beyond any possibility of wriggling, let alone escape. The point is well taken that the measure adopted by England in regard to rubber leaving the empire for the United States are directly opposed to those taken by Canada in regard to its supply of nickel. It is admitted that 90 per cent of the high-grade rubber used by United States manufacturers in tires and other goods is obtained from British East India. Rubber, like nickel, is a war commodity of great importance and England uses her whip hand with absolute effect. Canada allows herself to be duped into betrayal.

Apart from the aspect of the question as it regards the enemy, there is the question of our own industrial development. The cry of "Made in Canada" is heard on all sides. From selfish motives alone we should put this into practice, refining our nickel in Canada and producing the finished article. Here is a part of the Canadian Manufacturers' Association and an outlet for its activities.

Canada, so far, has made a big loyalty noise, but with the passing of the tumult and the shouting she finds nothing done. Australia has cut off the enemy's supply of wool and New Zealand his wheat, the whole Canadian produce is filling his belly as Canadian nickel is going into the manufacture of the main implements of war which he is enjoying for our destruction. There is not a man in Canada today—at least not a man possessed of real backbone and having British blood in his veins—who is not concerned with his responsibility in this vital question.

Premier Hearst is to appoint a commission to investigate the whole question of nickel. We trust he means business and that he will see to it that every portion of this issue, find a way, notwithstanding any responsibility of the federal government, of stopping the export to the United States, where Germany has got all her nickel in the past. Mr. Hearst, however, seems to think that what he has to do is to find out whether nickel can be refined in Canada, and what tax should be collected from it by the province. He may learn that he will have to do much more than this; and whatever he does he will have to do quickly, not for one minute will the public stand any prolonged and unnecessary pursuit of detail.

A great deal will depend on the character of the commission and, if counsel is to be employed, on the character of the counsel. The public may count on the International Nickel Company having the very ablest help it can get, and if it pursues the policy of the past, it will try and make Canadians believe that nickel cannot be refined here, and if we order it to be done, that we will lose our nickel business in the United States. This argument is well answered by a Sudbury correspondent also in this column today.

There will Mr. Rowell, the leader of the opposition, be in this important matter? He will be able to throw some light on the subject, and perhaps he will refer to his way to force the government to proceed at once without any refer-

The Nickel Touchstone

Premier Hearst is still an unknown quantity, but the way in which he handles the nickel situation will settle his status for the rest of his career.

It is a big question and must be dealt with in a big way and without resort to the feeble devices of the back politician.

It is freely stated at the time of his appointment to his present office that he represented less the choice of his own party in the legislature than the interests of the party at Ottawa, and that his services were desired to keep Ontario in line for federal purposes.

During the course of this war no cases of typhoid were found among British troops up to the end of last year, although the disease is known to have been present in the German armies and among the civil population.

At Ottawa, where a hospital for dealing with typhoid cases was established, more than thirty cases a day were admitted in December, the patients being mostly Belgian refugees and wounded and unwounded German prisoners.

There have been so many disappointments in the results attained by commissions that we can only hope Premier Hearst's appointees will be men of prompt action as well as of experience and discretion.

Germany as "Liberator" Germany has been insisting with much apparent fervor that it is part of her divine mission to free neutral nations from the menace of British tyranny at sea.

Let us suppose that the United States was at war with Germany, as Canada is at war with Germany, it is conceivable, if the United States had a monopoly of nickel, that the Washington Government would permit any to be exported from the country?

Let us suppose that the United States was at war with Germany, as Canada is at war with Germany, it is conceivable, if the United States had a monopoly of nickel, that the Washington Government would permit any to be exported from the country?

tion by obstacles of one kind and another. The big men ignore obstacles and get things done.

Premier Hearst has the greatest opportunity that ever came to a man in Canadian politics. He could, in a day, become an imperial figure should he take the action that would be taken by a statesman in the United States in a similar position, or by any British statesman who had such a responsibility resting upon him.

We believe if Premier Hearst will appoint the right kind of commission it can report in a month or two, and be essential to a clear and comprehensive view of the whole situation and in plenty of time for the legislature to act.

Meanwhile the war goes on, prolonged by Germany, who is strengthened in all her arms by Canadian nickel. The commission to be appointed may achieve the same end by and by, but if Premier Hearst took the stand of one of the leaders and declared that not another ounce of Ontario nickel would leave the country except for Great Britain, not a man in Canada would dare say him nay.

Inoculation Against Typhoid

Side by side with the new and terrible weapons of destruction the war has called into action go the beneficent aids of science in the prevention of disease. In all previous wars more men have perished from epidemics—particularly typhoid—than were killed in battle or died of wounds.

It is just such jumping at conclusions that is causing some little bother just now Mr. P. V. G. Mitchell, the assistant manager of the White Star Dominion Line interests in Canada.

And because of the German twang to the names many passengers hesitate to book their passage by them, fearing the German taint and choosing a ship with a little British euphonism in the name.

Furthermore, both of these steamers are in the three X, top-notch class among the many famous trans-Atlantic liners that trade to New York—large and comfortable—they have borne out their excellent New York reputations since their transfer to the Canadian service.

Mr. A. R. Haasard, K.C., will give an address to the members of the Irish Protestant Benevolent Society on "Bismarck and the Present War" in the Irish Protestant Benevolent Society Hall, 277 Church street, tonight at 8 o'clock.

Britain's maritime supremacy has been the protector, not the destroyer, of the rights of nations. The British navy for long years really acted as an international police, riding the seas of piracy and encouraging the widest and freest navigation.

Let us suppose that the United States was at war with Germany, as Canada is at war with Germany, it is conceivable, if the United States had a monopoly of nickel, that the Washington Government would permit any to be exported from the country?

WHO'S AFRID?

minion by force has ended in acts that have horrified and appalled the neutral states to which her war lords now appeal.

"VADERLAND" GERMAN? NIX.

This jumping at conclusions is a very human trait. But—sometimes it is all wrong.

Of course, anyone would swear that a person with a name like Murphy was Irish—or if the name was say Cortese that he was French—yet there are instances right in Montreal of persons with Irish names who speak nothing but French and others with French names to whom the words "parlez vous" might mean a new disease.

Each speaker endorsed the government's action in sending contingents from Canada to the front. Resolutions were passed expressing regret at the death of Sir James P. Whitney, and a resolution to sympathize with Whitney and family, also assuring his successor Hon. W. R. Hearst, of the confidence of the association in the Ontario Government, also declaring allegiance to the government of Sir Robert L. Borden and approval of the military and naval operations of the British Empire in the war.

The following officers were elected: Hon. president, Dr. O. A. Aguirre, M.P.; vice-president, J. G. Hawkins, Col. D. M. Robertson, D. A. McCraig, G. C. Smith and A. H. Birmingham, secretary of the Conservative Association of Ontario.

Rev. Dyson Hague Preaches to Men at Military Camp.

Toronto will have its first opportunity of seeing nearly all the members of the second contingent on the march this morning.

The parade will start from the Exhibition Park camp at 8:15 a.m., under command of Colonel Logie.

Rev. Dyson Hague, rector of the Church of the Epiphany, preached an inspiring sermon at the Sunday morning service in the transportation building.

Start Map Reading. Military map reading will be studied by officers of the contingent daily in the headquarters building, commencing today, at 5 p.m.

Six more men have been added to the strength of the 10th C.I.E.R. and six to the C.P.C. A number of men have also been struck off the contingent, five because of medical unfitness, four for homes of discipline and one for inefficiency.

It is stated by the authorities at the camp that the number of cases of influenza among the soldiers is now 145 men in the stationary hospital, the majority being mild, such as colds. Quite a number of the men are sick with mumps, and it is noted that the majority of these belong to the 19th battalion, which is composed of city soldiers.

Start Map Reading. Military map reading will be studied by officers of the contingent daily in the headquarters building, commencing today, at 5 p.m.

Six more men have been added to the strength of the 10th C.I.E.R. and six to the C.P.C. A number of men have also been struck off the contingent, five because of medical unfitness, four for homes of discipline and one for inefficiency.

It is stated by the authorities at the camp that the number of cases of influenza among the soldiers is now 145 men in the stationary hospital, the majority being mild, such as colds. Quite a number of the men are sick with mumps, and it is noted that the majority of these belong to the 19th battalion, which is composed of city soldiers.

Machines Gun Officers. The names of the officers of the Eaton machine gun unit have just been posted and are as follows: Captain, W. J. Morrison; adjutant, Lieut. H. W. Scardiffeld; lieutenant, J. Moss; sergeant, V. H. Williams; J. Fish; L. B. Scardiffeld; E. W. Farrow; honorary lieutenant, A. E. Jarvis, quartermaster.

YOUNG PEOPLE MEET.

The annual young people's day of the Salvation Army in Toronto was observed yesterday. Commissioner Richards, head of the Salvation Army in Canada, addressed 400 young people between the ages of 14 and 24, at the Victoria Hall, corner Queen and Bond streets. There were three sessions, commencing at 10 a.m., 2 p.m. and 8 p.m. The leading officers of the territorial headquarters staff were present, including Lieut. Col. Chandler, commanding the Toronto division; Lieut.-Col. Taylor, principal of the training college.

The entire day was given up to the spiritual advancement of the young people, and similar events will take place throughout the year at Hamilton, London, Winnipeg and Vancouver.

Commissioner Richards has just returned from an extensive tour in the maritime provinces. His report concerning the work of the Army there is most favorable.

MADE IN CANADA. Send the boy to school with bodily vigor and mental vim that will put him to the front in study or play. You can't build the boy out of sermons and books alone. Give him SHREDDED WHEAT. A hot, nourishing dish containing all the muscle-building, brain-making material in the whole wheat grain made digestible by steam-cooking, shredding and baking. Warm the Biscuit in oven and pour hot milk over it and you have a deliciously nourishing, warm breakfast. Shredded Wheat is made in two forms, BISCUIT and TRISCUIT—the Biscuit for breakfast with milk or cream, or with fruit; Triscuit, the wafer-crust, delicious for luncheon with butter or soft cheese, or for any meal as a substitute for white flour bread. Made at Niagara Falls, Ontario. Toronto Office: 49 Wellington Street East.

The Single Rink Draw

THE SINGLE RINKS START TOMORROW

Eight Games in Preliminary Round—Best Looking Contest in Opening Clashes.

Play starts tomorrow night at the four central city curling clubs for the single rink championship of Toronto with eight games in the preliminary round. A dose in the first round on the same night will leave sufficient ice to clear up the track and reduce the teams to an even six for the 22 games on Wednesday, and thereafter the survivors may be characterized as cracks. Several good looking games are billed for the initial clashes, the pick of the different rinks possibly being the following:—

At Green City on Tuesday—H. T. Wilson (Capt.) v. Alex. Keith's district cup champions. At Lakeview—H. H. Chisholm (Lakeview), former cup winner, v. Dr. Nelson (Tait) (Toronto), Ontario tankard champion. First Round: At Toronto—Dr. Wylie (Lakeview), loquacious skipper, v. T. Rennie (Granite), last year's winner. At Queen City—J. R. Code (Granite) v. S. H. Crony (Toronto). At Granite—Roy Dr. Wallace (Toronto), runner-up four years ago, v. Wally Booth (Aberdeen). At Lakeview—F. Gidding (Aberdeen) v. St. Armstrong (Granite). The following is the complete draw for tomorrow night up to the final with the dates that may, however, be changed for the weather:—

GERMANY TO BLUFF NEUTRAL COUNTRIES

Decree of Berlin Government Orders Destruction of Shipping and Lines.

NO RULES RECOGNIZED

Alleging Britain Has Done So, Kaiser Will Disregard Previous Conventions.

(Continued From Page 1.)

The neutral shipping that is found in this area of war, without its always being possible to avert the peril that thus threatens persons and cargoes.

Intimidation of Neutrals.

"Neutrals are therefore warned against further entrusting crews, passengers and cargo to such ships. Their attention is also called to the fact that it is advisable for their ships to avoid entering this area, for even the German naval forces have instructions to avoid violence to neutral ships, so far as they are recognizable in view of the misuse of neutral flags ordered by the British Government and the contingencies of naval warfare, and becoming victims of torpedoes directed against enemy ships cannot always be averted."

At the same time it is specifically noted that shipping north of the Shetland Islands, in the eastern area of the North Sea and in a strip of at least thirty sea miles in width along the Netherlands coast is not imperilled.

The neutrals to keep away.

"The German Government gives such early notice of such intentions that hostile as well as neutral ships may have time, accordingly, to adopt their plans for landing at ports in this area of war. It is to be expected that the neutral powers will show no less concern for the vital interests of Germany than for those of England and will aid in keeping their citizens and the property of the latter from this area. This is more to be expected as it must be to the interests of the neutral powers to see this danger removed as constantly as possible."

The declaration of London, to which the memorandum of the German Government refers, was never sanctioned by the British Parliament. At the beginning of the war, Great Britain decided to put it in force with modifications. This she was entitled to do under the clause governing contraband which the declaration itself recognized as constantly changing.

The United States Government, under the pretext that it could not accept the changes proposed, went back to the conventions of international law long recognized between belligerents and neutrals. The convention of Paris, 1857, under the outcome of the arrangements made to govern maritime warfare during the Crimean war, was the declaration prohibited, among other things, privateering, and this convention Germany was the first to violate, for she equipped merchantmen with arms on the high seas without sending them to a German port to be officially taken over by the German authorities, and without publishing their names in the German naval list. It was contended by international lawyers at the time that Britain had a right to declare these methods piracy, and to declare all neutral vessels found with goods of the enemy on board prizes. Under the precedent set by the Napoleonic wars she could also prohibit trading by neutrals with the enemy.

German Bluffs Failed.

"The German Government has in vain called the attention of neutral powers to the fact that it must face the question of whether it can longer persevere in its hitherto strict observance of the rules of the London declaration, if Great Britain were to continue its course and the neutral powers were to continue to acquiesce in the detriment of Germany, which are irreconcilable with the freedom of the sea, in that they have obviously, under the pressure of England, hindered by export and transit embargoes, the transit of war for peaceful purposes to Germany."

Germany to Turn Pirate.

"Germany must now appeal to these same vital interests, to its regret. It therefore sees itself forced to take military measures against England in retaliation against English procedure. Just as England has designated the area between Scotland and Norway as an area of war, so Germany now declares all the waters surrounding Great Britain and Ireland, including the English Channel, as an area of war and thus will proceed against the shipping of the enemy. For this purpose, beginning Feb. 18, 1915, it will endeavor to destroy every enemy mer-

STOUT HEART WINS THE GEM HANDICAP

MEL BROCK STAR OF ST. KITT'S QUINTET

West End Basketball Team Secure Revenge for Former Defeat—Scores

Mel Brock and his cohorts came to town from St. Catharines at scheduled Saturday night, and the West Enders had revenge to the tune of 66-28 for the defeat but over on their last week.

The locals had the better of the play all night. The shooting of Hamm and Farrell was without fault and full of defence was wonderful. The St. Catharines team put up a good exhibition of fast basketball, but it was to their credit that as long as Manager Barber's men play the game they played Saturday night, they are unbeatable. It was just such an exhibition as the ones they put up last season when they defeated the West Enders in the City of Detroit at home.

West End—Farrell 10, Brunton (capt) 8, Hamm 20, Simpson 15, Cook 2, Tall 8, Robinson 2, Total 66. St. Catharines—Ireland 6, Gayder 4, Bradley 6, Wood 0, Pople 3, Brock (capt) 14, Morris 2, Total 28.

CENTRAL JUNIORS WIN

Unable to stop the terrific shooting of Keasche and Hunter, a basketball team from the West End was defeated down to defeat at the hands of the Central Junior Business Boys in a nice, lively game of ball at Central on Saturday evening. The game through was clean and well cut, and the score, 40 to 19, in favor of Central, does not at all indicate the relative strength of the different teams. Keasche and Hunter, backed up by the fine defense work of Greenberg and Factor, together with the good jumping of Goldstein, were able to pile up 24 points between them, Keasche having 22 of this number to his credit. The West End boys evidently were not used to the floor, but even at that, it is doubtful whether they could have beaten the Central boys. Keasche's center was the best. The pleasing feature of the evening was the fine spirit of clean sportsmanship displayed by the victors, which was greatly appreciated by Central's team. Summary: Greenberg, Gaynor, McMahon, Urquhart and Johnston, Central's Junior Business, 40—Goldstein, Hunter, Keasche, Factor and Greenberg, Officials—P. Fies, C. Dawson and W. V. Interbart.

BARACAS INTERMEDIATES WIN

Baracas defeated West End Y.M.C.A. in their Intermediate O.B.A. fixture Saturday night by the score of 35 to 23. These teams were tied for the leadership in the local group, and judging by the manner in which the West Enders were looked upon as being by many, the Baracas' loss to the occasion and showed more in the way of team play and fast snappy ball than they have in the past. The West Enders were off in their shooting. As the score shows West End was not far behind them, and all their players gave a good exhibition. In the second half Bickie and Alder looked horns for the second time and Bickie was better. The Baracas shifted their line up a little. Dunn coming in and displacing the West Enders on resuming play. Line up: Baracas (36)—Smith 12 and Carrick 7 forwards; McDougall and Dunn centers; Hunter 4, Armour 4 and Bickie 2 guards. West End (32)—Alder 4 and Bickie 10 forwards; Campbell 6, centre; Montgomery 8 and Egles 6 guards. Referee—Ed Simpson. Playground Juniors defeated Bathurst Methodist in the preliminary.

PROHIBIT EXPORT OF NICKEL!

If in the interest of the defence of the empire you agree with the World in prohibiting the export of nickel, sign and get your friends to sign the petition below. If the sheet is not long enough paste a bit to it. When signed mail to your member, House of Commons P.O., Ottawa, and mark "Free."

TO THE HONORABLE THE HOUSE OF COMMONS OF THE DOMINION OF CANADA, IN PARLIAMENT ASSEMBLED

THE PETITION of the undersigned British subjects and citizens of Canada humbly sheweth: THAT large quantities of nickel in the shape of nickel ore and nickel matte are being exported from this Dominion to the United States of America for the purpose of being smelted, refined, sold and distributed in that country. Said nickel, after being so imported, ceases to be under the control of the Dominion or Imperial Governments and is liable to pass into the possession of the enemy; AND WHEREAS the nations now waging war against His Majesty cannot long continue the conflict unless they obtain fresh supplies of nickel, and such supplies are only available from neutral countries to which Canadian nickel is exported;

THEREFORE, we hereby humbly petition your honorable body to enact without delay legislation prohibiting the export of all nickel, nickel ore, nickel matte, ferro-nickel, nickel oxide or any combination or alloy of nickel during the continuance of the present war. AND your petitioners as in duty bound will ever pray.

STEEL STOCKS SHOW STRENGTH

Bethlehem Quoted at the Highest Price in Many Years.

CHEERFUL TRADE NEWS

Exchange on London Lowest in Eight Years—Bonds Irregular.

Canadian Press Despatch.

NEW YORK, Feb. 7.—The depressed condition of the steel market was again a factor of importance today, the stock market, reflecting further foreign liquidation. On the whole, however, the list made a good showing, even on some of the early gains were wiped out.

Canadian Pacific, which, with Reading and Canadian Pacific, was weakest of the railway shares in yesterday's session, opened with a gain of one point. At the higher level it met with further offerings, which soon recovered with some confusion and irregularity at the close.

Each relatively inactive shares on Chicago and Northwest and Norfolk and Western were weak, the former declining three points to its minimum of 12 1/2. Pennington shares, while the transcontinental group showed variable but unimportant changes.

Bethlehem steel overhauled all other industrials with its rise to 54 1/2, the best quotation in many years, and U. S. steel held well above 40, where it appeared to be in moderate demand. Inconspicuous industrials, the Baldwin Locomotive common and preferred, and American Lined preferred, were down from one to two points, but other specialties were dull, with little change.

Trade advices were of a cheerful tenor, even the expansion in merchandise lines shows no marked advance. The steel market, where the great increase in grain has contributed measurably to commercial betterment, showed change on London, with the lowest price since 1907, demand sterling being quoted at 85 1/2 to 85 3/4. Berlin cables reported the same advance, the amount being estimated at the same figure as the first offering, \$2,000,000 were taken by London bankers on a 5% per cent basis.

Bonds moved irregularly today, U. S. government bonds, \$1,250,000. Government bonds were unchanged on call during the week.

PRICE HIGHEST ON NORTHERN WHEAT Renewed Demand for Manitoba Spring Over Cable—Flour Firm.

Canadian Press Despatch. MANITOBA, Feb. 7.—The foreign demand for Manitoba spring wheat was made by London at 64 1/2 to 65 1/2, the latter price being the highest made on this crop so far. There was no further change in the condition of the local market for coarse grain, being firm with a fair trade being in car lots. The flour market is firm with a fair demand for local consumption. The demand was larger than the week before, but not so active.

Standard Sales. Wheat, 1,345,670; corn, 116,000; barley, 1,069,232; rye, 27,125; 37,000; buckwheat, 79,961; oats, 120,081; 10,290 sacks.

C. P. R. FOOTBALL IN WALL STREET

Stock was Buffeted About Severely Thruout the Past Week.

STILL GOOD INVESTMENT

Opinion of Market Followers—London and Montreal Sold Heavily.

NEW YORK, Feb. 7.—London and Montreal holders of Canadian Pacific were among the heavy sellers of its shares in the market during the last week. The decline in the stock was also aided by the attempt to blow up the railroad bridge, bears setting it as a sensational issue to depress the market.

On the down turn a number of weak bull holdings were shaken out, while those who bought before the recent advance were taking profits when the decline started. As a whole, nothing developed to account for the big decline in C. P. R. It had been stronger than almost any other stock before the recent general market weakness, however, and that might have made it a specially shining market for the week.

Followers of the market stated that even at the weakest period, there was a good investment demand for Canadian Pacific. The interview with Sir Thomas Shaughnessy in which he showed such supreme confidence in the great future property of Canada had a favorable influence on sentiment regarding Canadian Pacific shares, the latter being of service in starting a recovery at once. There are plenty of people in this market who believe that the present high prices for grain for Europe are two factors which will influence a great increase in earnings for railroads through the dominion.

Reports of Boycott. Reports of a boycott on goods from this country in Canada have been spread in the press here, but Canadian bankers in New York state that the business and financial men of the two countries say that they have to look to New York as about the only market for floating loans for the next few years, and that they have received a very good treatment. They admit that a boycott on goods from the United States would have the effect of disturbing friendly banking and financial relations here. Bankers point out the fact that when Canada buys heavy in this country owing to the inability of its merchants to get material supplies from abroad during the war.

WHEAT OPTIONS STRONG AT CLOSE Clearances for Europe Were Heavy Despite Germany's Blockade Threats.

CORN UNDER PRESSURE Oats Also Dropped on Heavy Liquidation—Provisions Are Lower.

Canadian Press Despatch. CHICAGO, Feb. 6.—Decided falling off in export call from Great Britain and France resulted here today in a sharp selling of wheat. The market, which had been steady at the close of the week, was 1-4 under last night. Other leading staples, too, all finished at net declines—corn 1/4 to 1/2c, oats 1/2c to 3/4c, and provisions 1/2 to 2/4c.

Wheat traders, uneasy in regard to the market effect of a threatened submarine blockade of British ports, were rendered still more anxious when despatches from Liverpool announced that a waiting policy was being favored today by English buyers. It was feared that stocks would quickly pile up at the American seaboard, despite predictions that the United States would supply the deficit on Monday would show a big decrease. In addition, country offerings were somewhat larger than has recently been the case.

Good Support on Break. On the export side there is a good many commission firms appearing to have orders to purchase. It was shown that clearances for Europe were heavy notwithstanding the blockade menace. Week-end evening up by shorts helped also to bring about comparative firmness in the last hour. Corn fell with wheat and suffered throughout the day as a result of the slowness of each country, domestic as well as foreign. Numerous reports from Illinois states said feeding of corn at present was unprofitable. Miscellaneous holders formed the rule in a weak market. Large receipts of hogs acted as a weight on provisions. Besides, the market was handicapped by the break in grain.

WINNIPEG GRAIN MARKET. WINNIPEG, Feb. 6.—Wheat futures opened 1/4 lower for both months, the market was comparatively quiet and fluctuations in narrow limits. May wheat sold at 1.00; 1914, 1.00; 1915, 1.00; 1916, 1.00; 1917, 1.00; 1918, 1.00; 1919, 1.00; 1920, 1.00; 1921, 1.00; 1922, 1.00; 1923, 1.00; 1924, 1.00; 1925, 1.00; 1926, 1.00; 1927, 1.00; 1928, 1.00;
