

HAMILTON HAPPENINGS

HAMILTON ALDERMEN DEBATE COMPENSATION BYLAW, WHICH DID NOT PROVIDE FOR HOTELIERS PAYING MORE THAN OTHERS, WAS LAID OVER.

HAMILTON, Nov. 1.—(Special.)—Ald. Morris, representing the temperance people of the city, got after Controller Allan at a meeting of the council to-night, for the question of finding out exactly what he meant to do in his proposal re compensation to the hotelmen who might be cut off thru a reduction in the number of licenses. The matter came up in connection with the bylaw, which the controller is asking to have submitted to the ratepayers for their sanction, asking them from the legislation to compensate the hotelmen who might be cut off by next year's council.

Ald. Morris said that Controller Allan's organ, The Spectator, had stated editorially that what he meant was that the hotelmen who were allowed to continue in business should help to compensate those who were cut off. Ald. Morris asked Controller Allan if that was what he meant, explaining that, if he did, there would be no objection to the clause, but that if he meant that the ratepayers should compensate the hotelmen, there would be objections.

Controller Allan's reply was not direct. He said he had thought that the best way to compensate those cut off would be to make the other hotelmen pay for it, by raising the license fees. It came up in the discussion, however, that Controller Allan's clause did not provide for the hotelmen paying more of the compensation money than any other ratepayer. That was sufficient for Ald. Morris, and, at his request, the bylaw was left over for the time being.

The bylaw arranging the several matters in dispute between the city and the Cataract Power Co. was given its first reading, and the bylaw providing for the reduction of 20 per cent. on water rates for domestic purposes was adopted. Acting on the suggestion of the city solicitor, the council decided to take the case of Hurd v. City to the court of appeal.

Ald. Evans wanted the system of electing the controllers changed, but he was informed that the Municipal Act would not permit it. The council passed a clause in the street traffic by-law, preventing the running of foot races on the streets. Ald. Ellis drew attention to the fact that the city should prevent The Herald and Spectator rates, but, as City Solicitor Waddell stated that it might be necessary for the police to exert their authority in connection with road racing some time, and it was therefore advisable that they should have something on which to act, the bylaw was adopted.

While working on the International Harvester Co.'s wharf about 1 o'clock this afternoon, William Pell, Lead-street, fell into the water and was nearly drowned. Some of his fellow workmen rescued him after he had come down for the second time, and he was taken to the City Hospital. He will recover. Pell is 27 years of age.

Two boys of about 12 years of age were arrested to-night on charges of breaking into vacant houses last night.

GIVE YOUR STOMACH A NICE VACATION
Don't Do It by Starving It Either—Let a Substitute Do the Work.

The old adage, "All work and no play makes Jack a dull boy," applies just as well to the stomach, one of the most important organs of the human system, as it does to the man himself.

If your stomach is worn out and rebels against being further taxed beyond its limit, the only sensible thing you can do to give it a rest. Employ a substitute for a short time and see if it will not more than repay you in results.

Stuart's Dyspepsia Tablets are a willing and most efficient substitute. They themselves digest every bit of food in the stomach in just the same way that the stomach would, were it well. They contain all the essential elements that the gastric juice and other digestive fluids of the stomach contain and actually act just the same as do the natural fluids, were the stomach well and sound. They, therefore, relieve the stomach, just as one workman relieves another, and permit it to rest and recuperate and regain its normal health and strength.

This "vacation" idea was suggested by the letter of a prominent lawyer in Chicago. Ready with the most momentous undertaking in my life in bringing about the coalition of certain great interests that meant much to me as well as my clients. It was not the work of days, but of months; I was working night and day almost, when at a very critical time my stomach went clear back on me. The undue mental strain brought it about and hurried up what would have happened later on.

"What I ate I had to literally force down and that was a source of misery as I had a sour stomach much of the time. My head ached, I was sluggish and began to lose my ambition to carry out my undertaking. I looked pretty gloomy for me and I determined my plight to one of my clients. He had been cured by Stuart's Dyspepsia Tablets and at once went down to a drug store and brought a box up to the office.

Baby Nearly Died with Itching Rash

Mrs. M. C. Maitland, of Jasper, Ont., tells in the following letter of her child's remarkable cure by the Cuticura Remedies:

"When my boy was about three months old his head broke out with a rash which was very itchy and ran a watery fluid. We tried everything we could but he got worse all the time, till it spread to his arms, legs, and then to his entire body. He got so bad that he could not sleep. The rash would itch so that he would scratch till the blood ran, and a thin yellowish stuff would be all over his body. At the morning, I had to put mittens on his hands to prevent him tearing his skin. He was almost a skeleton and his little hands were thin like claws.

Cuticura

It had a cure for the itching rash.

After the meeting, over a thousand people adjourned to the new building, where an orchestra was in attendance, and refreshments were served. Another meeting will be held to-morrow night, at which H. A. Callaghan of Montreal, international secretary, will be the speaker.

The Oshawa Y. M. C. A. occupies a unique position in Canada, in that it starts in with a building and equipment almost paid for, and a membership already almost a record one for towns of its size.

Specially Good Value in Women's Coats at \$7.50

Here's a good example of what rare good values are possible in this section—a well-made, stylish-looking coat, cut in the most popular style of the season and made of the most-asked-for fabrics, at 7.50, is a value that's most unusual, and one that should sufficiently interest many women. Six distinct styles to choose from; all full length; some finished in plain tailored effect, others have the straight military collar—the much wanted college ulster included. Splendid range of fabrics, diagonal coating cheviot, nobby tweed mixtures, wide wale coating and kerseys in the season's best shades, king's blue, navy, green, wood brown, grey, taupe and black. All sizes in the lot. One price 7.50

Women's High-Class Walking Skirts for \$4.98

Only a limited quantity, in a fine new imported material, called "pearl weave." It is the correct weight for a fall and winter skirt. The style is an exact copy of a late imported model; gored with circular fold, and pleats at side. Splendid range of colors, navy, electric, rose, green, black. Exceptional value 4.98

Women's Rep Dresses, \$2.50

Towards Sanitarium Funds—Deer Park Residents Want a Fire Station—City Hall Notes.

Another money bylaw is to be added to the list of those to be submitted to the people on the first of January, the board of control yesterday agreed to ask the ratepayers to provide \$200,000 towards the funds of the National Sanitarium Association and Toronto Free Hospital for Consumptives.

Dear Park Fire Station. After having lain dormant for some months following the city council's confessed inability to choose a fire station site in Deer Park, which residents did not vigorously oppose, the question came up before the city council yesterday afternoon.

Can't Get Power. Ald. McCausland said that he knew of several residents of the north-west section of the city, within the limits covered by the electric light company franchise, who wanted electric power for their houses, but couldn't get it because the city council declined to allow the company to erect any more poles.

Power Plant at Fair Grounds. At the meeting of the city council board yesterday afternoon, a resolution was passed as follows: "That, as it is advisable to own and control the supply of electric power at Exhibition, the city council be authorized to immediately arrange for the writing of the grounds and buildings according to plans herewith submitted, at an estimated cost of the grounds approximately \$30,000, and of the buildings approximately \$20,000. It is urged that this matter be proceeded with forthwith."

SIXTY-SECOND ANNUAL REPORT OF THE Consumers' Gas Comp'y OF TORONTO

Statement Showing Profit

REALIZED BY THE CONSUMERS' GAS COMPANY OF TORONTO FROM 1st OCTOBER, 1909, TO 30th SEPTEMBER, 1910.

Table with two columns: DR. and CR. listing various financial items like Coal, Anthracite, Gas, and Expenses.

Balance Sheet

Table with two columns: LIABILITIES and ASSETS, detailing the company's financial position as of 30th Sept. 1910.

President's Address

The President, having called to the Chair, presented the Annual Report and the Financial Statements, which were taken as read. In moving the adoption of the Report, the President said:

provided by the Gasholder now under construction. The daily output of gas has already reached nearly ten million cubic feet, and there is every probability that during the coming winter the maximum daily output will reach eleven million cubic feet.

The maintenance of a large manufacturing plant such as that employed by the Consumers' Gas Company's business, is at all times an important matter, but when it is realized that the plant must be kept working continuously 24 hours per day, during 365 days of the year, it speaks volumes for the officers in charge of this work that so little trouble is experienced in securing the continuous operation of the plant, and preventing the slightest interruption to the City's gas supply.

I venture to assert with confidence that the extensive plant of the Company, both at the old Gas Works and the new, was never in such admirable working order as now, nor under such skilful and competent heads of departments, which now far to account for a material reduction in working expenses, together with increased efficiency.

I am glad to be able to say that, if nothing now unforeseen arises, the Directors hope to be able to make a further reduction in the price of gas at an early date. When we are able to take off another five cents per thousand, making the net price of gas 70 cents per thousand feet, it cannot fail to afford great satisfaction to the consumers of gas, whether for illuminating, manufacturing, cooking or other purposes.

General Manager's Report

The President, having called upon him to address the Shareholders, the General Manager said:— I am indeed glad that the results of the year's operations have met with the approval of the Directors, who have honored me with the appointment of General Manager of the Company, and I trust that the Financial Statement may also be considered as satisfactory by the Shareholders.

There are many interesting phases of the Company's business which might be spoken of, but after the very complete statement presented by the President, it is not desirable that I should weary you with statistics. There is one Department, however, which is of very special interest to me, for the reason that it was not in existence until two years ago. I had much to do with its organization, and its success has been somewhat remarkable.

I refer to the Commercial Department, or the Appliance Branch. Formerly the Company simply supplied gas to anyone who might require it; we are now supplying a complete service, and we are proving to the citizens of Toronto that they cannot afford to be without that service.

In commercial lighting, for instance, miles of territory, in which factories, wholesale warehouses and retail stores were located, had been lost to other systems of lighting. Our Commercial Department has now largely regained this business for the Gas Company, and we are daily recovering ground that had been lost because of the insufficiency of our efforts to hold it.

Our largest success has been with the introduction of Gas Arc Lamps. While these lamps could previously be purchased by consumers for results were anything but satisfactory. The lamps are now being installed by the Gas Company under contract with the consumer, the Company retaining the ownership of the Lamps, and assuming responsibility for their proper maintenance.

On these conditions, more than 6,000 lamps are now in service. Each Lamp is fitted with four incandescent burners, making a total of 24,000 burners, which with the 2,700 single burners of other types installed under similar contracts, makes in all 26,700 burners, and the annual consumption of gas by these burners alone is not far short of 200,000,000 cubic feet. We believe that fully 50 per cent. of this business was formerly in the hands of our competitors.

There are now employed with profit to the Company, in this Department, 106 persons, and as I have said, until two years ago the Department did not exist. There is good evidence to show that the extraordinary increase in the gas sales is largely attributable to the wholesale introduction of gas arc lamps.

We have recently introduced the sale, installation and maintenance of gas ranges and water heaters, and hope soon to add another feature— industrial appliances—which I believe in time will prove to be one of the very greatest outlets for the sale of our gas. With the low price prevailing in Toronto, it is possible for the manufacturing concerns to use gas for a great variety of purposes, for which coal and steam are being employed, and effecting thereby a saving in the cost, as compared with coal or steam.

The returns which the Shareholders may receive from their investment in this Company are fixed and limited by legislative enactment, but there is no limit to the benefits which the consumers of gas may enjoy. The efforts of the Directors and management to produce good gas at the lowest possible cost and to see that the Company's by-products are so marketed as to yield the highest returns are distinctly and absolutely for the benefit of the gas-consuming public.

In 1887 when the restrictive legislation was passed, the net price of gas was \$1.25 per 1,000 cubic feet. Reductions have been made from time to time until to-day gas is being sold at 75c. net per 1,000 cubic feet. The difference in the two prices, 50c. per 1,000, represents on the output of gas for the past year no less than \$1,300,000.00. I know of no company on the continent which has proved itself to be a public benefactor to the same extent as has this Company.

Further, there is no purpose for which gas is being used to-day in Toronto where the saving to the consumer is not at least 25 per cent., as compared with the cost of obtaining the same results by the use of any substitute.

85 CARS AT CITY YARDS TRADE WAS DEMORALIZED

Not Half the Cattle Sold—Prices Drop Again—Sheep and Lambs Lower—Hogs Easy at \$7.25.

The railways reported 96 carloads at the city market, containing 1813 cattle, 330 to 550 lbs. at \$7.25 to \$7.50, and 50 heifers at \$8 per cwt.

The quality of fat cattle was common to medium with a very few good lots among them.

The market at the Union Yards on Monday was bad, but to-day it was worse, not half of the cattle offered being sold at the close.

Trade was slow and irregular all day, in fact it was demoralized in many branches.

As usual the quality of fat cattle was common to medium with a very few good lots among them.

Foreign-Crop Conditions.
Broomhall's weekly crop summary is supplied by J. P. Bickell & Co. as follows: United Kingdom, France and Italy—The outlook for the wheat just seeded is favorable. Supplies of native wheat are rather tight, but the stocks of foreign wheat are very liberal. Spain and North Africa—Drought still prevails. Germany—Wheat already seeded is making good progress under favorable weather. Supplies of native wheat are largely plentiful. Hungary—Further rains have fallen, which are of much benefit for the wheat already seeded. An official report confirms delay to seedlings as a result of much vermin. Roumania—The outlook for the corn crop is excellent with quality good, but condition variable. Australia—Partial rains have fallen, which have been beneficial. Russia—According to a consensus of opinion, it is expressed that the stock of grain at the ports on the sea of Azoff will be carried thru the winter until reopening of navigation.

MARKET IN WAITING ATTITUDE. World Office. Tuesday Evening, Nov. 1. Canadian securities opened up dull after the holiday, and even manipulation which carried C. P. R. to a new high record failed to entice the other issues. The best that can be said is that domestic securities are in a waiting attitude. There is a disposition to await the market results of the elections in the States. The most favorable sign on the local exchange is the continued scarcity of offerings. In no one issue is there any evidence of pressure, but then again speculative enthusiasm is not intense enough to give prices more than a tentative strength. The Toronto Exchange is much too narrow for scalping at present, and it is therefore likely that most of the buying is either for investment or for a hold for a later upturn.

Upward Movement in C.P.R. The Only Feature in New York

American Market Entirely Professional, With Values Creeping Gradually Higher—Dull Speculation Rules in Toronto Exchange. World Office. Tuesday Evening, Nov. 1. Eliminating the upward movement in C. P. R. there was absolutely nothing of interest in the local market today.

JUDGE GARY ON STEEL TRADE. NEW YORK, Nov. 1.—Judge Gary, chairman of U. S. Steel Corporation, gave the following interview today: "There has been sufficient improvement in steel conditions over last week's to warrant the statement that foundation has been laid for continued betterment. Sentiment has improved and confidence in the future has been strengthened. Present indications are that railroads will begin to buy rails and equipments in the near future. The steel industry is on solid basis. As a matter of fact it has not been beyond the control of manufacturers in several years, and outlook at present time is encouraging. Manufacturers are working for stable conditions in steel trade, and there are no signs of disturbance or unrest. The steel industry was never in better shape physically or financially."

WALL STREET POINTERS. London Stock Exchange closed. Western freight rate hearing almost completed. Paris and other continental bourses closed for All Saints' Day. Evening Fabrics of Distinction

Most Toronto women like to buy their evening wear fabrics at this store. The place where they're shown is as suitable as a drawing-room for seeing them; it is one floor above Queen street, away from all the noise and dust. We hold our distinctive fabrics so highly that the most charming setting would be none too good for them. Come and see the department we've built round them here. The fabrics we mention below will be specially displayed:

Rich Duchesse Mousseline and Satin Charmeuse. These silks have the advantage over other silks for the present styles on account of their double width; they will cut to the style without the necessity of a seam; the color assortment is most complete in every detail, showing all the light and soft shades of fashion, also the soft rich ivory for the bride's dress, 40 to 44 inches wide. Prices, per yard, \$1.50, \$2.00, \$2.50 and \$3.50.

French, Persian and Dresden. These are fashionable silks for evening and reception wear, cream and ivory grounds, with rich color combinations; they make up correct either of all silk or veiled with chiffon. Prices per yard, \$1.00, \$1.25 and \$1.50.

A choice collection of evening wear fabrics in our Dress Goods Section: New Sheer Fabrics, Silk Eoliennes, Silk Chiffon Voiles, Silk Crepes, Silk Damask Eoliennes, Silk and Wool Santoy. Fabrics, Silk Taffetas, Silk and Wool Cashmeres, Ninons and Silk Marquissettes. Every possible evening and street shade shown in the collection of every fabric.

A special offering of Silk and Wool Glorias, an ideal fabric for party and reception wear, in a full range of pastel shades, white, grey, cream and black, 42 inches wide, at 88c.

If we were asked to tell what attracted so many thousand of men to this store last week, to buy their Thanksgiving suits, we would mention two things that are known about

our men's store, near and far.

Honest Materials Conservative Styles

To men in general these virtues are like bright lamps that outshine a dozen lesser claims to popularity.

We knew there would be a run on our new Fall Suits for men, but we hardly thought that the size and pattern ranges of so many "best" suits would be so quickly shattered. We've collected all damaged ranges for a quick sale to-morrow morning, about one hundred and fifty altogether, eighteen, twenty and twenty-two dollar suits, in the latest three button single-breasted style, every suit perfect, but some sizes missing in every case. Thursday

\$10.95

Three Hundred Hats for Men

All Good Kinds, but Not All Sizes—59c.

300 Men's Soft Hats, odds and samples, popular styles and fine quality fur felt, Neglige, Trooper, Telescope, Crusher and Alpine shapes; colors fawn, grey, brown, navy and black; a good range of sizes, but not every size in each line. Regular \$1.50 and \$2.00 hats. Thursday, 59c.

(Old Wanless Building.)

What a Dollar Will Buy in Underwear

Men's Underwear at one dollar per garment is something we specialize on. We have always made a point of giving the best possible value at this figure, and we guarantee every garment we sell at a dollar unshrinkable. A few of the staple lines we carry, that grow more popular every year, are:

St. George Wool and Camel's Hair; Penman's Scotch Wool, with double body; Watson's Heavy Scotch Wool; Penman's Natural Wool, lambsdown fleece, guaranteed to be free from dirt or germs; St. George Scotch Wool and Simpson's Body Guard Brand. Although the price of wool has advanced considerably, our prices remain unchanged. Any of the above lines will be on the counters Thursday, \$1.00 garment.

The SIMPSON Company Limited
