BROTHER AVENGES DEATH OF SISTER

Russian Execution Leads To Another Crime.

Brother of Mlle. Ragozinnikova Shoots Officer Who Refused To Ask For Her Pardon.

KRASNOY UPIMSKI, Russia, Jan. 20.—M. Sviridoff, president of the local Zemstvo, was shot to death yesterday by a brother of Mlle. Ragozinnikova, the murderer of General Maximoffsky, director of the department of prisons of the ministry of the interior, on October 28 last. It is supposed that the murder today was committed in revenge for the refusal of M. Sviridoff to make any move in behalf of Mlle. Ragozinnikova during her trial. Mlle. Ragozinnikova was the daughter of a teacher in the Imperial Conservatory of Music of Perm province. She presented herself at the execution of General Maximoffsky at St. Petersburg and remained quietly in the ante-room until it was her turn to enter the general's private office. When she was in his presence the woman drew a revolver and fired several shots at the general, killing him. She was arrested and taken to the police station, where a large amount of high explosive was found concealed under her carriage, sufficient to blow the entire building and its occupants to pieces. On October 31 Mlle. Ragozinnikova was hanged.

WHAT A REAL WINTER DOES IN GREAT BRITAIN

Terrible Distress Among the Workless in Manchester—Many Persons Drowned While Skating—Rivers and Canals Frozen.

(Manchester, England, Dispatch, Jan. 19.) After ten days' frost, during which the temperature has steadily lowered, there was a sudden change last night. Early this morning rain was falling in Manchester, and there was every indication that the recent cold snap was at an end.

The short skating season has brought its usual accompaniment of ice fatalities, and a long story of the frost's toll of death has to be recorded.

Although the weather became warmer last evening, the temperatures have been even lower than those of Friday night. The opening of the skating season on Tyne-side was unhappily attended by an accident, as the result of which three boys lost their lives on Saturday afternoon. A slender hybrid pond at Gateshead was resorted to by a large number of skaters, who for a time enjoyed themselves. About half-past two o'clock three of them went to a part of the ice which was found afterwards to be of lesser thickness than the remainder. They had joined hands in order to skate across the pond together when their combined weight broke the ice, and in a moment they had disappeared under the water. An alarm was raised, and William Seath, laborer, who lives close by, ran to the pond, dressed only in his shirt and stockings, and gallantly plunging into the bitter cold water succeeded in about ten minutes in finding the body of Fred Fry, and bringing it to the bank. He ventured into the water a second time, but was rescued by the old, and failed to cease his efforts. Meanwhile, Robert Lumsden, a well-known oarsman, arrived on the scene, and with the aid of a bookbinder succeeded in recovering the bodies of the other two lads, James Gates and James Haslop. When the accident occurred the water was ten feet deep. William Clough, 21, and Frank Derbyshire, 19, both of Wombourne Bridges, were skating yesterday when the ice gave way, and they were seen to fall. Their cries for help were heard, but owing to the ice no attempt at rescue could be made. The bodies were recovered by police officers during the afternoon, the ice being broken and a boat being taken to the spot. The drags reached the bodies at a depth of 12 feet. A profound sensation was caused yesterday amongst many hundreds of skaters and sightseers at Wolterhampton West Park, when a young man, named George Hamilton Gibson, suddenly fell while skating, striking the back of his head on the ice. He died within an hour.

HOLES IN THE ICE. A couple of ice accidents at Bolton resulted in the drowning of one man and the narrow escape of another.

On Saturday forenoon Robert Yates, 29, of Great North Street, was skating on the frozen canal at the corner of Cooker Lane, Chorley Old-road. He was skating on the ice on Friday night and disappeared. A large hole was found in the ice, and dragging operations were begun, with the result that the body was recovered.

William Thomas Caldwell, 24, electrical engineer, at Westhoughton, was in the afternoon on the ice covering Rumbold's lough when it gave way, and he was carried to the edge, and at a spot where the water varied from seven to eight yards in depth. He grasped the edge of the ice, but again broke. His cries for help attracted the attention of Mr. Samuel Hough, farmer, who ran from his house, 300 yards away, with a rope ladder. Mr. Hough's prompt action Caldwell would most probably have lost his life.

From 1884-85 he was given leave of absence and engaged in work in connection with the superannuation fund, rendering excellent service.

He resumed his pastoral work as follows: Hillsboro, N. B., 1888; Gibson, N. B., 1888; Hampton, N. B., 1890; West St. John, N. B., 1892.

In this year the conference extended the time at which ministers could remain at circuits for five years and Rev. Dr. Paisley stayed here till 1896 when he was appointed to the chair of church history of the New Testament at the University of Toronto. He received the degree of D. D. from Victoria College, Ontario.

He was president of the conference in 1888 having been secretary for several years previous. He was elected as a representative from this conference to the general conference of the Methodist church of Canada at Montreal in 1878 being one of the eight ministers selected at the time. He was again chosen for the general conference in Toronto in 1880 and at the conference at Montreal in 1882 being at each succeeding general conference.

Dr. Paisley was secretary of the board of examiners for the Methodist ministry.

Resolution of Condolence. At the meeting of the Methodist ministers this morning, the following resolution relative to the death of Rev. Dr. Paisley was adopted on motion of Rev. Dr. Sprague, seconded by Rev. S. Hovan.

"The St. John Preachers' meeting would record its deep sense of the loss, sustained by the New Brunswick and Prince Edward Island conference as a result of the death of Rev. Charles H. Paisley, D. D., dean of the theological faculty in the University of Mount Allison College, and also the tender and grateful memory which it regards with respect to the life and services of his Christian character, his consecrated life and his effective service."

"Converted in early days, educated to the utmost of educational facilities in this province made possible, and dedicated to the ministry of the Gospel from his youth, he served the church for twenty years in the pastorate and 12 in the theological school, with a fidelity that never faltered; spared no pains, could never be suspected of any selfish motive, and laid everything, talents, toil, time and life on the altar of Christian service. It may be confidently said of him, 'to live was Christ, to die is gain.'"

"We convey to Mrs. Paisley and her family our sincere sympathy in their sad and sore bereavement."

HE WANTED TO SEE WHAT IT WAS LIKE. NEW YORK, Jan. 20.—The American today says: "Winner of a debate on 'Capital punishment,' at a meeting of the debating club of his parish Saturday night, Seth Schuyler, 18 years old, Brooklyn, was found hanging dead in the bathroom of his home late yesterday. He had wound a silk muffle around his neck, and hanged himself to a gas bracket. The police theory is that the young scholar committed suicide in a fit of despondency. The grief-stricken members of his family refuse to accept this view and his boy friends are doing their best to discover the cause of his death in trying to discover experimentally the sensations of a victim of an execution by hanging himself."

Donaldson line steamer Tritonia, for Glasgow, which left here last Saturday, took away 220 United States cattle and 30 Canadian cattle.

BIG TRIUMPH FOR SIR W. VAN HORNE

Guatemalan Northern Ry. Was Opened Yesterday.

Sir Wm. Van Horne Built It and Finished Task That Many Others Had Abandoned.

GUATEMALA CITY, Guatemala, Jan. 20.—The Guatemalan Northern railway, the third line of rails within the Latin-American territory connecting the Atlantic and Pacific coasts, was opened yesterday with elaborate ceremonies. President Cabrera, with the high officials of the government, attended the ceremonies as did an American delegation, which included Major-General Geo. W. Davis, who specially represented the United States. The Guatemalan Northern Railway has been the dream and despair of engineers and presidents for half a generation. The first spike was driven in 1862. Sir William Van Horne, of the Canadian Pacific Railway, finally became interested in the Northern, and was joined by Minor C. Keith. They began construction more than three years ago and finished the task that others had abandoned. The Guatemalan Northern Railway, from Puerto Barrios, is 185 miles long. Some of the engineering features of it are remarkable. There are numerous tunnels, the longest being 2,000 feet, cut through solid rock. The longest stretch of straight track is less than a mile. In all seventy bridges were constructed.

OBITUARY. Matthew Russell. Newcastle, Jan. 18.—Matthew Russell, one of the most respected and prominent of Newcastle's business men, passed away last night. Deceased was born at Lower Newcastle on Feb. 28, 1833.

Mr. Russell married Miss Sarah A. Ingram, of Newcastle, who survives him and by whom he had eight children. The surviving sons and daughters are: John, Newcastle; Joseph, of Russell & Russell, lawyers, Vancouver (B. C.); Mrs. Robert Nicholson, Newcastle; Finlay R. McD., of Russell & Russell, Vancouver; Frank Bennett, Victoria (B. C.), and Chalmers, Newcastle.

Deceased was an ardent temperance advocate and was a charter member of Newcastle Division, S. of T., instituted more than fifty years ago. He was an active member of the Presbyterian church, in which he long held an important office. In politics he was a life-long Liberal and an enthusiastic supporter of the late Hon. Peter Mitchell.

Mrs. John Phillips. Dalhousie, N. B., Jan. 18.—(Special)—Mrs. Phillips, relict of John Phillips, county of Westmorland, Restigouche county, in the legislative assembly of New Brunswick from 1870 till 1874, died on Wednesday, Jan. 18, at her residence, 100 St. John street, in the city of Dalhousie. She was the mother of the late Sheriff Phillips. The other members of the family are: Lizzy, wife of Hon. J. C. Barber; Mrs. John Bishop, of Bathurst; Mary Jane Katherine and Frederick, residing here. Deceased was well known in Restigouche, and was universally beloved by a large circle of friends. Her funeral took place this forenoon at the Roman Catholic cemetery, and was largely attended by people of all classes. The pall-bearers were Hon. C. H. Lablache, Thomas Murphy, Simon McFarlane, P. Bro. Troy, James Haquart, Alex. Chisholm.

Mrs. Fulton, a resident of Pokok, died in her home there on Saturday night at the ripe age of 89 years. The body will be taken to Chipman for burial on Tuesday.

Adolphus B. Pickett. The death of Adolphus B. Pickett, who was well known in this city and a brother of Ald. H. H. Pickett, deputy mayor, occurred yesterday at Andover, Victoria county. Mr. Pickett, when he resided in St. John, was a draughtsman in the office of H. H. Mott and O. Ernest Fawcett and later took a course in the school of practical science of Toronto University. After practicing for a short time he went to Montreal and until giving up work on account of ill health was engaged with James Acton & Co., of Toronto, and had charge of their business in the province of Quebec and the maritime provinces. While tobogganing Mr. Pickett received an injury from which blood poisoning resulted and he took a trip to the west. Later he was injured in a train accident between Calgary and Edmonton about two years ago. Coming east he spent many months in the Royal Victoria Hospital, Montreal, under treatment by the eminent surgeon, Dr. James Bell. Actinomyosis developed, however, which ultimately caused his death.

Mr. Pickett, who was thirty-three years of age and unmarried, is survived by his mother and three brothers—Ald. H. H. Pickett, of St. John, and D. Wetmore and C. Edward, at Andover; also two sisters—Miss M. Louise, at home, and Miss Sarah, in Camden (S. C.). He was a member of the I. O. F., and Orange order. The funeral will take place on Tuesday.

Mrs. Le Baron B. Sharp. Mrs. Sharp, wife of LeBaron B. Sharp, formerly clerk in the Royal Hotel, died in Brooklyn on Dec. 16. She was Miss Davidson, of Brooklyn, and had many friends here who will regret to hear of her death.

MONTREAL STOCKS. MONTREAL, Jan. 20.—(Special)—A dull stock market prevailed today. Rio which sold at 33 today, Dominion Steel sold at 15 3/4; Detroit at 39 5/8; Mackay at 38 3/4; Toronto Rly at 94 1/2 and Shawinigan at 60 3/4.

Mr. and Mrs. W. J. Parker wish to thank Mr. Barnes and his employes for showing so much kindness toward them during their sad bereavement; and they also wish to thank the Typographical Union for their kindness, and the members of No. 4 Engine House, for showing so much kindness toward them, and for their obliging members so willing to show sympathy with them; also, to their many friends for their kindness.

OTTAWA, Ont., Jan. 19.—(Special)—At Saturday's meeting of the cabinet, Hon. Jacques Bureau, Solicitor General, was made king's counsel.

CHRISTIAN SCIENTISTS

Origin and Growth of the Church in Manchester.

A Manchester, Eng., despatch of Jan. 6 says:—From 1,100 to 1,200 people attended on Saturday the dedication service in connection with the church erected by the Christian Scientists at Manchester, at Daisy Bank-road, Victoria Park. It was altogether a remarkable gathering, and attracted the fashionable and wealthy in their carriages and motor cars. The interest was not confined to the city alone, for representatives were present from London, Dublin, Rochdale, Leeds, Sheffield, Nottingham, Darlington, Brighton, Liverpool, Bradford, and other centres where the faith has taken root. From a historical sketch read by Mr. T. H. Lambert, it was learned that the building, which has cost £20,000, is free of debt, in accordance with a principle of the faith. Reference was made to the origin of Christian Science in Manchester. "In October, 1900, two ladies came from London to Manchester, in response to an urgent call from one who was beyond the reach of any earthly help. "Before many weeks had elapsed other cases that had been called incurable by material medicine were healed, some instantaneously, some gradually, until so much interest was aroused in and around Manchester that in January, 1901, Christian Science services were started in a warehouse in the heart of the city. "From this point the growth of the movement was carefully outlined until the present time, when, 'after seven years of healing and reforming work,' the new edifice was dedicated to stand as a monument to God's goodness.

A WAY TO BETTER BREAD. Good housekeepers, it is said, are known by the bread and pastry they provide for their homes. When we come to think of it, is there any one thing in which the housekeeper should excel—in which she should take more pride—than in her snowy delicious, wholesome home-made bread? Any woman can make white, light, nourishing bread. One of the commonest causes of failure in the baking is the use of poor flour. Flour, made of Ontario fall wheat, alone, though nutritious and faultless as to flavor, is not strong enough. Manitoba wheat, on the other hand, is deficient in strength.

A blend of the two has been found to give wonderful results. This does not mean that you can mix them at home—it is difficult to do that except with the finest and most delicate machinery. Many of the best millers are blending the rich Ontario fall wheat with the flinty Manitoba wheat, thus bringing out all the good qualities of both.

With this Ontario Blended Flour, you will have no trouble in making light, white bread—bread with that peculiarly sweet, wholesome taste which one naturally associates with home-made bread.

TWENTY-FOUR VICTIMS LIE IN ONE GRAVE

Unidentified Dead From Boyertown Theatre Fire Entered Yesterday.

BOYERTOWN, Pa., Jan. 20.—The bodies of 24 unidentified dead who lost their lives in the Rhoads Opera House fire, last Monday, were buried yesterday in Fairview Cemetery in this place. Upwards of 10,000 persons attended the services that marked the burial of the first of the victims, who were buried in one long circular-shaped trench. No obituary was delivered at the grave, the ceremonies being limited to the simple services of the church, with many denominations, read the plain burial service of their respective churches.

Each body was enclosed in a plain coffin, and they were separated in the ditch by brick walls. In time a monument, marked with the names of those reported missing since the fire, and who are supposed to have been buried in the trench, will be erected at the center of the circular mound, which marks the one big grave.

HOUSE BURNED AT SYDNEY. SYDNEY, N. S., Jan. 20.—(Special)—The house occupied by J. C. MacKeeley, superintendent of the blast furnaces, was burned last night. The house was situated in the central department about 12.30 this morning. All the apparatus in the house was destroyed, and a high wind prevailing it was difficult to do anything to stay the progress of the flames. The blaze lit up the sky and could be seen for a considerable distance.

The house stood alone in a field, and this fact had considerable to do with preventing the fire from spreading to other buildings. It was owned by the Dominion Iron and Steel Company, and was known as the old mill house. It was a two-story building, one and a half stories high, and was considered as all his personal belongings and furniture were stored there. The loss is more than \$300,000. There is a great distress among the poor.

FRANKLY MURDER. FRANKFORT, Ind., Jan. 20.—The body of Mrs. Samuel Dukes, aged 46 years, was found on the back pond from one of her tenement houses in which lived George Bengt. Bengt found the body. The woman was lying on her back, her head resting on her side. Three handkerchiefs were tied over her eyes. By her side was a revolver. When her dress was unbuttoned, a bullet hole was found over her breast. The dress had been buttoned again after the shot was fired. A boy saw Mrs. Dukes quarreling with a man on the corner Saturday night. Another boy saw two men hiding with something concealed, and looked like a body wrapped in a cloak.

LOOKING FOR ROWDIES. The Princess in securing from Pathe films for young men who have been going to St. John, daily, from points between here and St. John. It is alleged that they have been disturbing passengers and while it is felt that boyish enthusiasm was the cause of the trouble, the railway authorities have decided to put a stop to it. Mr. Tingley also made inquiries about a number of young men making use of the station house at night and creating disturbances, and asked the station authorities here to report all such cases to Montreal, where summonses would be issued against those involved. Mr. Tingley stated that he will proceed against loafers who frequent the station and has issued an ultimatum to the effect that the practice must cease at once or there will be trouble.—Sussex Record.

"UNWRITTEN LAW" WINS. SULPHUR, Okla., Jan. 20.—After pleading the "unwritten law," Dr. E. Dakan was acquitted of murder Saturday by a jury which deliberated only ten minutes. Dr. Dakan, six weeks ago, out the throat of John Mitchell, whom he found in Mrs. Dakan's room.

It is alleged that they have been disturbing passengers and while it is felt that boyish enthusiasm was the cause of the trouble, the railway authorities have decided to put a stop to it. Mr. Tingley also made inquiries about a number of young men making use of the station house at night and creating disturbances, and asked the station authorities here to report all such cases to Montreal, where summonses would be issued against those involved. Mr. Tingley stated that he will proceed against loafers who frequent the station and has issued an ultimatum to the effect that the practice must cease at once or there will be trouble.—Sussex Record.

"UNWRITTEN LAW" WINS. SULPHUR, Okla., Jan. 20.—After pleading the "unwritten law," Dr. E. Dakan was acquitted of murder Saturday by a jury which deliberated only ten minutes. Dr. Dakan, six weeks ago, out the throat of John Mitchell, whom he found in Mrs. Dakan's room.

ATTRACTIONS WHICH PAY. The enterprise of the management of the Metropolitan Theatre, which has been going on Saturday, was crowned as every performance and the pictures were voted the best ever seen collectively on any programme in St. John. Some surprising novelties and exciting dramas have been secured for the new bill which runs today and tomorrow. Particulars will be found in the advertising columns on page 8.

The St. John Evening Times is published at 57 and 59 Canterbury street, every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE EVENING TIMES, THE DAILY TELEGRAPH. New Brunswick's Independent newspapers. These newspapers advocate British connection. Honesty in public life. Measures for the material progress and moral advancement of our great Dominion. No graft! No deals! "The Thistle, Shamrock, Rose entwined, The Maple Leaf forever."

WEST INDIA SERVICE The interview with Mr. I. C. Stewart of Halifax, on the subject of the West India steamship service and the St. Lawrence route, which appears in today's Times, is the most illuminating discussion of the subject we have yet seen. Mr. Stewart puts the case clearly. The development of traffic with the West Indies is not a question of lower freight rates, and if it were the lower rates could not be secured via Montreal in summer. The freight rates are fixed by New York, which now has the bulk of West India trade. Again, if the fish and lumber cargo given to these steamers at Halifax and St. John were sent in some other way, it would make a material difference in the business of Montreal in summer. It is a trade that existed before the steamship line was established, and would be carried on through other channels if the steamers went in summer to Montreal. It is obvious that members of the Montreal board of trade have not fully informed themselves on the subject, or they would not assume that the mere talking of the steamers to Montreal would ensure either lower freight rates or larger cargoes. Mr. Stewart suggests a tariff preference as the best means of increasing trade with the islands. His remarks on the whole subject are worthy of the close attention of all who are at all interested in the development of trade with the West Indies.

THE SCOTT ACT The statement made by Bishop Richardson that in his view the Scott Act is a fairly good law, and only needs a proper public sentiment behind it, should be read in connection with the news from Moncton, which states that as a result of an aroused public sentiment five liquor sellers are behind the bars and five others are under sentence. It is obvious that if such a course as has been pursued in Moncton were continued it would soon make violation of the law so disreputable a course that men would think twice before engaging in the business. The explanations of any failure of the Scott Act, or local option or prohibitory laws is that so many people do not regard infractions of a liquor law as seriously as they do those of the law relating to theft, or assault, or even minor offences. Once made the violation of any law a dangerous and disreputable proceeding and the law will either be observed by the mass of the people or it will be repealed. This is what should be done in the case of the Scott Act. The machinery to enforce it should be provided, and what is done in Moncton should be done wherever the act is in force. Then, if the people did not really want the law they would have it repealed. Respect for law should be universal.

DEVELOP SHIP OWNING. The Times quoted on Saturday the remarks of a correspondent of the Halifax Chronicle on the subject of cancelling coasting privileges granted to Norwegian and other. In the same paper Capt. Joseph Reed of Summerside has a long letter of like import, in which he makes some observations regarding a Canadian mercantile navy that are worthy of general consideration. We quote: "The next thing the government should do is to bonus steel shipbuilding and otherwise encourage our people to rebuild our mercantile navy. This is the logical and necessary condition of things for these maritime provinces. Let us make the world tributary to us as we are now to Norway. So long as the Norwegians are allowed full coasting privileges no Canadian mercantile navy can exist, and let it be distinctly understood that maritime Canada can be better served by a large ship owning class than by any other industry. The sea power whether it be commercial or militant is the most important of all. It is the maritime people of the world who make it revolve commercially." One correspondent declares that "if our coasting trade was done by Canadian vessels, at least \$750,000 yearly in earnings would remain in Canada." Of course the shippers of coal from Cape Breton to the St. Lawrence will object to the course just taken by the government in cancelling the privileges granted to Norwegians (the same to take effect next year), but they have ample time to prepare for the change, and the government's course is a legitimate part of a reasonable policy of protection.

What Capt. Reed says about further encouraging the development of our commercial marine is not less timely, and this question should engage the earnest attention of the parliament of Canada. REV. DR. PAISLEY Not only in Methodist circles but wherever he was known throughout the provinces there will be sincere and widespread sorrow at the news of the death of the Rev. Dr. Paisley. In the church of which he was so long an active minister he was greatly esteemed for his learning, his ability as a preacher, and his worth as a citizen. In the conference of the Methodist church he was heard with the respectful attention accorded to a man whose views were always well-founded, and always stated with clearness and force. He was one of a group of strong men who contributed largely to the growth of Methodism during the period when in these provinces the work of all the churches was passing through a series of developments which produced the strong and united forces of today. A scholarly man, Dr. Paisley was a strong friend of Mount Allison University, which owes him much. His name will be held in honored memory by his co-workers of these years and by generations who come after them.

NONE TOO SOON The long agitation against the provision under which foreign coasting vessels have taken away the business of Canadian vessel owners has resulted in its cancellation, to take effect next year. As an illustration of the growth of the trade of foreign vessels in our coasting business a writer in the Halifax Chronicle makes the following statement: "At present we have to meet the unfair competition of Norwegian and Swedish vessels, fitted out and manned by cheap crews and all but fresh provisions from Norway, not spending a penny in Canada they can possibly avoid, having free access to our coasting trade and killing any chance there might be for the employment of our sea-faring population and investment of their capital in coasting vessels. Under our present law a Norwegian vessel can be damaged in Canada and sent to United States for repairs, resuming her coasting voyage without being taxed a duty on her repairs. Not so the Canadian vessel—if she has to go to the United States for repairs she must pay a duty on those repairs, so that it pays better to be a Norwegian than a native. "Now we are forever crying 'Canada for Canadians,' but verily in our shipping trade the cry should be 'Canada for Norwegians.' The trade is growing as you can see by the government returns. In 1897 there were 390 foreign vessels of 43,721 tons, crews, 1,247 men, entered in our coasting trade; 9 years later, in 1906, there were 1,285 vessels of 1,096,199 tons, crews 17,983, entered in our trade—here is an increase in entries of 900 vessels and over a million tons. Now think of the earnings of this big fleet, all being drained from our country to build up a foreign commerce."

The despatches this morning record the death of Mr. Edmund Clarence Stedman, an American poet, critic and journalist, whose writings have adorned the literature of the United States for nearly half a century. They tell also of the death of a gifted Canadian composer, Mr. Henry H. Godfrey, the author of many patriotic songs. Still another who won distinction as a writer, and also in politics, whose death is announced, was Mr. Charles Emory Smith, former editor of the Philadelphia Press, ex-minister to Russia, and ex-postmaster general. The death list of former residents of St. John, who died abroad, is an exceptionally long one in today's papers.

There is an unusually large number of unemployed in St. John this winter. This is partly due to the curtailment of operations in the lumber woods, and partly to the influx of men from other places who were assured they could get plenty of work in St. John. Even the usual work of ice-cutting has been delayed by the open season, while there has been no snow-shovelling at all to do. It was thought there would be plenty of work on the G. T. P. or at the Queens county coal mines, but even this expectation has not been realized. Hence the number of the unemployed is at present greater than usual at this season.

The liquor war is to be waged in the British parliament. The distillers and dealers are uniting to fight the proposed temperance legislation. The agitation over this question extends throughout the Anglo-Saxon world, and in several of the countries of Europe.

There are still some persons who believe that at a certain time in the future, not very clearly defined, God will cease to be a God of love, or will cease to be omnipotent. Perhaps it is not well for fruits to be set bounds to the Infinite.

RESOLUTIONS FOR 1908 (Pittman's Weekly.) Ten resolutions standing in a line. One day he got mad and swore—Then there were nine. Nine resolutions, sober and sedate. Someone asked him in to drink—Then there were eight. Eight resolutions, pointing up to heaven. Someone gave him a cigar—Then there were seven. Seven resolutions, all as square as bricks. He stooped to drink—Then there were six. Six resolutions—how they do survive! He talked about himself—Then there were five. Five resolutions—would that there were more! He used a bit of slang—Then there were four. Four resolutions, cheerful as can be. He skipped his cash account—Then there were three. Three resolutions, so far tried and true. He got in an argument—Then there were two. Two resolutions, shining in the sun. He stooped to drink—Then there was one. One resolution, painful to see. He stayed at home from church—Oh! dear me!

PEOPLE OF NOTE Mrs. Hetty Green. Hetty Howland Robinson Green, the most noted female financier in the world, and one of the world's richest women, was born at New Bedford, Mass., Nov. 21st, 1836. She was the daughter of Edward Mott Robinson and inherited a large fortune in 1863. Miss Robinson was educated with the greatest care in Boston and married Edward H. Green in 1867. For many years Hetty Green was close to that veteran financier, Russell Sage and was largely guided by his advice in investments. Her fortune at this time is far greater than when she inherited it. Mrs. Green's home is at Bellows Falls, Vt., but much of her time is spent in her office on Broadway, New York city, where she directs the investment of her money in person.

Farman and His Flying Machine

M. FARMAN FLYING NEAR ISSY LES-MOULINEAUX, FRANCE

PARIS, Jan. 17.--M. Henri Farman won the Grand Prix de l'Aviation of 50,000 francs (80,000 offered by M.M. Deutsch and Archdeacon) with his aeroplane at Issy-les-Moulineaux. He won it in the first attempt, gracefully and without apparent effort. There was no discussion. It was a clean out and out flight of more than one kilometre in a circle, far above the ground, and witnessed by the Aero Club committee and a host of people massed on the fortifications.

The weather was entirely in Mr. Farman's favor. There was scarcely any wind, and the bright sun chased away the early mist. The temperature toward ten o'clock was almost springlike.

At half-past nine, when the apparatus was removed from its shed, there were not half a dozen persons present. All the gates leading to the parade ground were guarded by police. The general public, collected on the fortifications, had a splendid view.

M. HENRI FARMAN (THE FLYING MACHINIST)

At ten o'clock the flags marking the circle to be accomplished had been placed

in position, and ten minutes later Mr. Farman, hasso, motor in motion. At twelve minutes past ten o'clock the machine rushed forward, rolling along the ground for a hundred metres or so, and then launching into the air with the greatest of ease it passed between two flags at three or four metres from the ground.

Travelling at the rate of about five-fifty kilometres per hour it bore to the turning point. Half way along in a straight line Mr. Farman slightly inclined his head piece, causing the apparatus to rise to a height of eight metres.

The turning movement was accomplished without difficulty. The plane shot around the flag almost on an even keel and commenced the voyage homeward as steadily as if it had been travelling along the ground.

It was an impressive sight, and as the circle gradually developed and became a definite one the crowd on the fortifications broke into enthusiastic cheers.

WHO WILL GET THE LESSER JOB IN FAIRBANKS' PLACE?

Little Heard of Candidates for U.S. Vice-Presidency ---Office Generally Regarded As a Joke.

(From our Regular Correspondent.)

WASHINGTON, D. C., Jan. 16.--In all that talk that has been going around as to the nomination for the presidency, there has been the usual reticence as to the nomination for the vice presidency. This nomination has been long regarded as rather a joke. The most that it seemed to require was a large income to meet the social requirements of the case and a retiring disposition that would not have any great craving for the spotlight. One of the most unkind suggestions that could be made about any of the presidential aspirants was to say that he would make a fine running mate on the ticket and this was enough to take any of them down. But there is a suggestion now that Tim Woodruff of New York is being seriously considered as a running mate for Taft in case he is nominated. There is no light thrown on this suggestion at the White House, but it is considered a possibility. It is not believed that the scheme would altogether meet with the approval of Mr. Woodruff. He is a strong administration man in New York to the extent of being a violent anti-Hughes man. He is a friend of Herbert Parsons and is with him in side-tracking the Hughes endorsement of the New York committee. But it is believed that he has his eye on Senator Platt's place from New York. It is between the two jobs, there is no question but that this would be much more desirable than the vice-presidency.

The story of a row between the president and the secretary of the treasury is going the rounds again, and it is said that Mr. Cortelyou is considering the presidency of the Knickerbocker Trust Company after he leaves the treasury. There is the possibility of truth in this, but it has not been officially confirmed by the secretary himself. It is a usual thing for treasury officials, especially the secretaries to graduate to the direction of big financial institutions in New York. The presidency of the re-organized Mercantile Bank of New York was offered to Comptroller Ridgely at the time of the Heinz Moros difficulties in New York, but it was declined. The Knickerbocker Trust was in trouble at the same time and has been since reorganized and given a clean bill of health. It would be a much better paying place than the treasury department and since the situation of Secretary Cortelyou in the cabinet appears to be a little anomalous, it is possible that he may step out into some such berth. At the same time it is possible that he may hold on in the treasury or in some other cabinet berth and be on hand for the nomination to the presidency in 1912.

Some of the first fruits of the fight between the administration and the Taft

THE WALL STREET MARKETS REVIEWED BY J. S. BACHE & CO.

NEW YORK, Jan. 16.--There have been during the week no new reorganizations or failures of importance, and the scale of prices in the main has shown either upward tendencies or strength, while not advancing. There are days during the recovery of a patient when it is impossible to say whether he is better or worse, and such days have characterized the latter part of the week in the stock market; with reactionary signs, prices nevertheless have held. Industrial conditions do not improve, but have not yet forced a reaction, and investors are buying on the slight declines that are occasionally manifest.

AMALGAMATED COPPER.

The expected cut in two in the Amalgamated dividend was announced Thursday, placing it on a 2 per cent per annum basis, reduced from 4 per cent. The copper metal market is doing better, but there is the absence of orders in any volume in this country and the target sales by the Amalgamated and other producers have been made to foreign buyers only evidently for holding. If this is the condition some reaction from the improvement in the metal may be expected previous to bona-fide buying for actual consumption. When this starts, it should go with a rush and one of the greatest copper booms we have ever had is predicted for that time, whenever it comes. In the

AT THE NICKEL

Eleven Numbers On Splendid New Programme Today.

The air of refinement and superiority that characterized Nickel performances all last week will be enhanced today and during the ensuing six days by programmes that will cater directly to the tastes of those who prefer something better than the ordinary class of five-cent show. Each of the three vocalists, Robert Seely, baritone; Miss Elsa, soprano, and Sydney Beckley, basso, will have excellent numbers, and the orchestral selections are to be delightfully good and new to St. John. Each show will be as follows: Programme: A Tragic Elopement. (Incidental music, The Jolly Robbers Overture, Supple). A Fake Start. (Incidental music, Electric Age March). Song: Love's Old Sweet Song (Molloy), Robert Seely. Housewarming Made Easy. (Incidental music, The Warbler's Serenade). Song: Star of My Life, Miss Elsa. Condensed To Marry. (Incidental music, Dance Characteristic--Jack In A Box). Song: Boys of the Old Brigade, Sydney Beckley, basso.

This afternoon Mr. Seely and Miss Elsa will sing, and at the evening performances all three vocalists will be heard. Tickets may be purchased during the day for night shows.

AT THE OPERA HOUSE

New Picture Show Opens Tomorrow Afternoon.

A splendid show of new moving pictures has been secured by The Pastime Picture Company for their opening in the Opera House on Tuesday afternoon. The programme will consist of a beautiful film entitled The Prodigal Son. This sacred film will be interspersed with sacred music and effects suitable for the picture. A Tale of the Sea is a descriptive picture new to St. John and is full of thrilling incidents and is expected to please everybody. Under False Colors, a comedy film full of fun and laughter, has made a hit wherever shown.

The company can prepare to give new films, new service and new effects. The illustrated songs will be catchy, bright and sung by the best imported vocalists.

L. C. R. DRIVERS HAVE THREE-DAY SESSION

Brotherhood Representatives From All Over Road Meet At Moncton.

Moncton, N. B., Jan. 19.--Several boards of adjustment of the Brotherhood of Locomotive Engineers, representing the entire system of the Intercolonial, concluded a three days' session here Saturday afternoon. Only business of routine matter, it is stated, was before the board. The representatives present were J. W. Nairn, Truro, chairman; A. Sutherland, Westville; Frank Probst, Moncton; W. E. Turner, Lewis; T. Beebe, River du Loup; Chas. Killam, Campbellton; A. McMullen, Sydney; James Ross, Halifax.

The engine on last night's Maritime express from Halifax ran off the track at Lakeside (N. S.), and the train was five hours late arriving here. No damage was done.

Dr. S. H. McDonald's condition is reported favorable. His brother, who has been in attendance, returned home to-night.

CORSICAN DUE TODAY

Allan Liner Sailed from Halifax for St. John at 5 p. m. Yesterday.

Halifax, Jan. 19.--(Special)--Allan line S. S. Corsican, chartered by the C. P. R. to take the place of one of the Express boats laid up for overhauling, arrived today with the mails after 96 exceptionally rough passages. She brought 300 passengers, of whom 140 landed here. Her cargo was 3,600 tons. The Corsican proceeded for St. John at 5 o'clock.
