SAINT JOHN FACES HIGHER MILK COSTS

DEALERS AGREE TO PAY PRICE PRODUCERS ASK

City Supply Further Curtailed This Morning

MAY GO TO 14 CTS.

J. N. Riley Declares Retailers Unable to Do Business at Present Price

TODAY is likely to see the end of the milk strike, although there are still points to be settled this afternoon which may result in its continuance, it was learned this afternoon. The milk dealers agreed last night at a meeting here to accede to the milk producers' demands for an increased price, and a notification was sent them this morning to that effect. The representatives of the dealers and producers will meet here this afternoon. The milk supply coming into the city was still further curtailed this morning. A raise in the price of milk is practically certain to follow, J. N. Riley, president of the dealers' association, declared.

The Sussex train this morning brought the smallest shipment of milk since the strike was inaugurated. The Purly plant was the only one to receive an increase over yesterday's supply, while there was a large falling off in that received by the Pacific Dairies. All other dealers either received the same amount as yesterday or less.

32 CANS TODAY It was given out by a member of the producers' association this afternoon that the quantity reaching the city in the Sussex train was reduced from 32 cans yesterday to 28 cans today. J. N. Riley said that the dealers discussed the situation last night, and finally reached the decision to pay the producers' price, which is 20 cents for shipping point. He said that the dealers felt that it would be impossible to continue the business at the present price of 12 cents a quart and that there would have to be an increase. He declared that while no definite decision was made on the new price it was generally felt that 14 cents would have to be charged.

PRODUCERS' CASE A. Ren Smith, president of the Kings County Milk and Cream Producers' Association, said this afternoon that he had received notice that the dealers had agreed to the price. He said he and Heber Wilcox, of Norton, a former president of the association, was coming to the city to see the dealers, get them to sign contracts.

BOIVIN ANSWERS PATENAUE CHARGE Denies He Ever Favored Conspicuous or Sought Meighen Cabinet Post.

MAGOG, Que., Sept. 25.—Addressing a meeting here last evening in the interests of W. M. Baldwin, Liberal candidate in Stanstead county, Hon. G. H. Boivin, Minister of Customs, enlarged upon the reply that he had made earlier in the day to Ayres Cliff, that portion of Hon. E. L. Patenaude's address at St. Laurent, last Sunday, in which he (Mr. Boivin) had been specifically mentioned. The Minister of Customs denied that he had ever favored conspicuous, and denied also that he had sought to obtain a place in the cabinet of Mr. Meighen. With regard to his acceptance of the post of Deputy Speaker, he declared that he had taken the position only after seeking the counsel of Sir Wilfrid Laurier, and that he had done so in order to preserve the prerogatives of the French Canadian race.

League Council Session Ends In Uproar Over Mosul Area Question

C. P. R. OFFICIAL LOOKS FOR GOOD WINTER HERE

Big Manufacturers Order Use of Only Canadian Ports

BY A. M. BELDING Staff representative of the Telegraph-Journal and The Evening Times-Star, who is now on an active canvass of Canadian importers and exporters in behalf of the more general use of Canadian ports.

MONTREAL, Sept. 24.—I heard in Montreal today an echo of The Telegraph-Journal and Times-Star campaign of last winter. Mr. Brown, a Saint John man, by the way, now on the staff of the Australian and New Zealand Steamship Company, told me that in a tour through Ontario, he had met quite a number of manufacturers who had taken to heart the plea for Canadian ports. He mentioned one very large concern whose head had issued orders that only Canadian ports be used in their business hereafter.

Some further light on the flour export trade was thrown by Mr. Moore, for the Lake of the Woods Milling Company. They use our own ports as much as possible, but when an order is received and the period for delivery is restricted they must use the port having the largest number of sailings during that period. Hence a good deal of business is done through American ports. The like is true in the matter of ports not reached by Canadian lines. Mr. Moore said he was well informed as to the difficult situation in the Maritimes, as it is reflected in their business, and they would be only too glad to see our ports get more trade. Mr. Robb, of the Robin Hood Mills, said they used our own ports whenever possible, because they had better control of shipments, and they did not use any American port from choice. For some Scotch and European business, however, there was no satisfactory Canadian service.

MR. HAMPTON, of Edgar Allen & Co., said they did not use American ports at all, and added that if Canadians were as loyal to British houses as the British houses are to Canada both would fare better; but too many seemed disposed to follow the line of least resistance and patronize American concerns even when there was no difference in price or quality. Mr. Bowie, speaking for Glassford Bros. & Co., said their chief business was with Japan. They do some business through New York, and he said he would look into it and see if a change were possible.

Mr. Hopewell, for the A. R. Williams Machinery & Supply Co., declared they would not use American ports. They had now an order for some New York goods for Newfoundland and were bringing it to Montreal for shipment, instead of using an American port. In his view, a man was a poor Canadian who did not do all in his power to build up traffic through our own ports. "If I had my way," said Mr. Yarr of the Dominion Wire Rope Co., Ltd., "not a dollar's worth of our trade would go through American ports. We use Canadian ports only." Similar testimony was given by Mr. Gifford of Wilson, Patterson & Gifford.

Guy Tombs, of Guy Tombs Limited, said they used Canadian ports except in cases where there was no service, and he pointed out as others had done the difficulties in that regard. So far as the general principle of Canadian trade through Canadian ports is concerned, "I am heart and soul with you," said Mr. Tombs. Mr. Gysler, for Asbestos Mines, Ltd., said they used Canadian ports except where there was no service. Mr. Caron, for the General Import Company, said they used Canadian ports only. Mr. Willmot, for Mosses Limited, said they had used New York on two occasions for Egyptian business, but otherwise only Canadian ports.

IN seeking to learn about the large exports through American ports I find that grain and flour loom large, as well as merchandise to and from ports where there is not an adequate service via Canadian ports. So far as Montreal is concerned, the volume is evidently small compared with that from Ontario. Touching the matter of flour, I was told that from Port Collingwood mills there is a thirty-six-hour run to New York, compared with perhaps a week to Halifax. The C. P. R. does not touch that point. Where quick delivery is demanded, New York obviously has the advantage.

5 CHILDREN KILLED IN AUTO ACCIDENTS

Series of Auto Mishaps Take Toll in Niagara Falls, New York.

NIAGARA FALLS, N. Y., Sept. 25.—Five children were the victims of a series of automobile accidents here yesterday. Last night, Lucy Loveloch, of Silver Creek, five months old, was killed in a collision. Her five-year-old sister, Katrina, was injured. Joseph Fernandez, 4 years old, was hit by a taxicab. His skull was fractured, and death is probable. Norma Clambrone, 4 years old, and Helen Wilson, 10, were hit by machines, while crossing streets.

Snow Seen in Quebec; Rain Hampers Harvest

BROME, Que., Sept. 15.—Snow was seen on Sutton Mountain, near here, yesterday. The rain early this week has greatly hampered the farmers in their harvesting work, as they will not be able to get on the land for a number of days.

Leader Says Labor Move Is Climbing

HAMILTON, Ont., Sept. 25.—Harry G. Fester, member of the Ontario Minimum Wage Board and prominent labor leader here, has announced that he has agreed to stand for the Conservative party in the federal election fight. He will also direct the Conservative publicity campaign in this section, he said. "The labor movement is crumbling like a deck of cards," was Mr. Fester's comment on his action.

APPS PREDICTS BUSY SEASON IN GRAIN TRADE

Says September Railway Traffic Shows Big Increase

MORE SETTLERS Increased Influx Expected As Result of Campaign by Companies

"PROSPECTS are looking bright for very good business through the port of Saint John during the coming winter, especially in the grain trade," was the encouraging statement made by J. O. Apps, assistant in executive to President E. W. Beatty, of the C. P. R., who arrived here yesterday afternoon from Montreal.

Traffic over the railways, he said, had taken a decided increase since Sept. 1 and it was considerably above that of the same period last year. The ocean services maintained out of Saint John this winter would be practically the same as last.

One feature, however, which he expected would be noticeable within the next few months was the increase in the influx of settlers as a result of the new immigration campaign for immigrants by the railways in preferred countries in Europe.

The present trip of Mr. Apps is not connected with the coming winter season but is a consultation with the C. P. R. officials here on general lines of the business of the corporation. He will leave this afternoon for Montreal.

Mr. Apps succeeded to his position on the death of W. B. Howard, a former Saint John man, who had held that important post after a brilliant career in the employ of the corporation.

Entering the employ of the C. P. R. in the office of the general superintendent at Montreal in 1887, Mr. Apps advanced rapidly and in 1903 was placed in charge of the baggage and mail traffic and he remained in that department until July, 1915, when he received his present promotion.

WELL KNOWN HERE. He is well known here as he has been a frequent visitor in connection with his work during the last 20 years. This, however, is his first visit here since his well-earned promotion and he is receiving the congratulations of many friends in the city.

Herman was captured yesterday by a patrol boat and towed into port here. The schooner, registered out of Lunenburg, N. S., was loaded with 3,000 cases of liquor and alcohol, according to dry officials. Seven men, including Captain Audrey Haughton, were arrested and held in jail in default of bail.

SYDNEY JUDGE DIES IN HALIFAX HOTEL

Falls Dead in Room as Daughter Awaits Him in Car Outside.

HALIFAX, N. S., Sept. 25.—Judge Duncan Finlayson of Sydney was found dead in his room at a local hotel at 11.30 o'clock. The judge had arrived on the night train from Sydney, had breakfasted at the hotel, and was preparing to take a motor drive about the city with his daughter, who awaited him in a car outside the hotel. As a result of his continued non-appearance, his room was visited, and he was found lying on the floor. A doctor was summoned, but the judge had expired.

Germany To Join If Pact Is Negotiated

BERLIN, Sept. 25.—No date has yet been set for the place of assembly announced for the gathering of representatives of the Allied and German governments for the discussion of a security pact. At a cabinet meeting yesterday, presided over by President Von Hindenburg, Germany accepted the invitation to attend a conference to settle this question. It is assumed that if a pact is negotiated, Germany will immediately enter into a League of Nations membership.

PRESIDENT ENDS SESSION WHEN ROW IS STARTED

Charges and Counter Charges by British and Turk

ANSWER EVADED

Deportation of Christians Is Denied Again by Turkish Envoy

GENEVA, Sept. 25.—The Mosul muddle thickened last night, during a dramatic session of the council of the League, when M. Loucheur, as president, hastily adjourned after an outburst of disapproval from those present against the attitude of Ruzhdi Bey, head of the Turkish delegation on the question of the deportation of Christians.

The committee of the council had introduced a resolution, which was subsequently unanimously approved authorizing the despatch of a special League commissioner to the Mosul area to examine the British charges that Christian children were being ill-treated and expelled by the Turks, and Turkish counter charges that the British had occupied points held by Turkish, and in a general way, to keep the council advised of any instances likely to endanger peace.

MOSUL PROBE URGED. Colonel Amery, British secretary for the Dominions, insisted that the commissioner should not only have the right to pursue his investigation, south of the Taurus line, which is occupied by the British, but also in the narrow Mosul strip, north of that line, occupied by the Turks.

Ruzhdi Bey evaded a clear answer, whereupon Colonel Amery repeated his statement, saying, "I think Turkey should make perfectly clear its attitude on this important point." Ruzhdi Bey replied that anything north of the Brussels line was Turkish, hence, anything touching the treatment of the population there became a minority problem, which was not concerned with the main Mosul dispute.

Col. Amery put his question, demanding an unequivocal "yes" or "no" (Continued on page 5, column 2)

3-SIDED CONTESTS IN TWO RIDINGS

Farmer-Labor Bodies Not Satisfied With Selkirk and Springfield Meetings.

WINNIPEG, Sept. 25.—Farmer-Labor association candidates will be run in constituencies of Springfield and Selkirk, according to a decision reached at a meeting of the association executive here. Dissatisfaction with the conventions held by other parties in the constituencies was given as the reason for the decision, which means that there will be three-cornered fights in the constituencies.

In Selkirk, there is already a Liberal and a Conservative candidate in the field, while in Springfield, standard leaders of the Liberal and Progressive parties have been nominated.

DEALERS AGREE TO PAY PRICE PRODUCERS ASK

to pay 50 cents a bushel from Sept. 1 to May 1, the price to be retroactive to that date. The other point demanded is that the dealers maintain their supply from the Kings County farmers alone. In regard to this last point, Mr. Smith said that the producers were determined to have the demands accepted in full. Every dealer will have to sign the agreement, he added, or the strike will go on. SUPPLY DWINDLING. The supply has been dwindling daily, he pointed out, and within a short time they would shut off the supply entirely, he declared, except for a few cans. Twenty-one producers have contracts to ship milk for 40 cents until Dec. 1, and 13 of these had joined the union, he said, but added that they were only supporting the other members of the association and would carry out their contracts at the conclusion of the strike. A meeting of the producers is scheduled for tonight at Apohaqui and the result of the president's visit to the city will be discussed. If the terms of the producers are met, Mr. Smith said, the supply will be resumed at once after the signing of the contracts. The fully supply would probably not reach the city, however, before Monday, even if a satisfactory settlement is reached.

SAY F. PEACOCK IS LIKELY TO GET POST

Reported Choice For Vocational School Director at Meeting Today. At the meeting of the vocational committee for Saint John, this afternoon, it was expected that Fletcher Peacock, provincial director of vocational education, would be appointed as director of the new Saint John Vocational School. The committee had had about 50 applications from persons in all parts of Canada and some from the United States. It was felt by the members of the committee that if possible a New Brunswick man should get the appointment, and while Mr. Peacock did not put in an application, it was said he had assured members of the committee that if the appointment was offered he would accept it. It is understood the salary will be \$3,000 a year. One of the first duties of the new official will be to select a staff and organize the classes of the school.

Who Has Not a Chesterfield?

Not so long ago one could count the homes revelling in the luxurious looks and ease of a Chesterfield suite. Today it is far easier to count the homes that try to do without. They are mighty few.

In hundreds of years no furniture development compares with the Chesterfield as we know it. An absolute necessity if home is to be really what it should mean. The largest choice in the East is here—you see enough side by side to make a fair decision. All doubly guaranteed in every particular.

GIRL CLEARED OF ACCUSATION IN BABY CASE

Margaret Colpitts Found Not Guilty; Jury Out 45 Minutes

IS FREED AT ONCE BY JUDGE BYRNE

Counsel and Judge Address Jury—Dr. J. V. Anglin Called

Margaret Colpitts, charged with the attempted murder of her daughter, Violet Colpitts, by throwing the baby into the river near the Reversing Falls on August 18, was acquitted yesterday afternoon after less than 45 minutes of deliberation by the jury.

G. Earle Logan, counsel for the defence, said he wished to call Dr. J. V. Anglin, head of the Provincial Hospital for Nervous Diseases, to testify as to a form of insanity under certain circumstances.

Judge Byrne said he thought the jury would have to be re-sworn to decide this issue.

Mr. Logan said he did not wish the jury re-sworn as he was not trying to prove that the girl was insane, but that he wished Dr. Anglin to say whether or not there was such a kind of insanity and to describe it.

FORM OF INSANITY. Mr. Anglin testified that a certain form of insanity did sometimes accompany childbirth, coming after the birth generally. It might take several forms. The mother might be temporarily dazed and not know her friends and she might try to do some injury to her child. It was more common in cases of illegitimate children than legitimate ones.

The judge declared that the jury would have to be re-sworn to try the issue. Mr. Logan objected on the grounds that it was unfair to the accused as she had not been examined at the time of the trial. The judge insisted that the jury be re-sworn, however, to decide, if they should believe her to have committed the crime, whether she was sane or insane at the time.

Mr. Logan, in his address to the jury, declared that he had not offered any evidence that the accused was insane.

CHARGE CHANGED. He wished to draw attention to the peculiar circumstances surrounding the case. The police magistrate had committed the girl for trial on a charge of murder and the crown prosecutor had changed the charge in the indictment to one of attempted murder in order to have the jury bring a verdict of guilty that was not supported by the evidence.

The girl had said when she made her statement to the doctor that she didn't know why she threw the child in the water; that she liked it and she didn't know why she had done it. When he asked her if she had thought of that kind of insanity of which Dr. Anglin had testified.

In regard to the confession, he said the jury had been told that the argument as to its admissibility as evidence. It was up to them to say how much weight should be attached to a charge of murder and the jury should take into account the circumstances surrounding it, the ride with the two detectives from Westfield, the fact she had been excited from that day, that she had been taken to a small office and that she was a child just 17 years of age who had shortly before given birth to an illegitimate child. An adult would probably not have been influenced by these conditions but they should remember that this was a young girl.

QUOTES EVIDENCE. It had been no crime for her to leave the Evansville Maternity Home without asking permission. None of the witnesses for the crown, with the exception of those from the Home and Mrs. Bennett, had identified her as the girl they had seen, one of them even saying the girl he had seen had been stouter.

The only evidence the crown had, he continued, was the alleged confession and that had been obtained under peculiar circumstances. It was up to the jury to decide what weight to attach to it.

MIRACULOUS ESCAPE FOR AUTO RACER

When Elmer Eitel, racing driver, crashed through the fence of the Tanforan track, San Francisco, his car turned over three times, but he escaped serious injury. Note the stretch of fence Eitel took with him.

been very zealous to bring a charge of murder against this girl. He had asked him why he did not charge the man in the case, the McLaughlin who had been brought to court but whose evidence the presiding judge had refused to take, with the crime of which he was guilty.

He was appealing to their manhood, he said, not to find the girl sane or insane, but to find her not guilty.

ASKED FOR A CHANCE. He suggested that there was no evidence to show her guilty. The crown had said nothing about attempts to find the child's body and there was no evidence to show whether it was alive or dead today.

He asked them to bring in a verdict of not guilty and to let the girl go home to her father and mother, not to her aunt's where she had been but back to a good home where her mistake would be forgotten and she would have a chance.

He didn't think they could fairly place the young girl in a position where the presiding judge could sentence her to life imprisonment.

CROWN PROSECUTOR. J. Starr Tait, crown prosecutor, said in his address to the jury that the defence counsel often did, tried to besmirch the intentions of the crown in this case in regard to the indictment for attempted murder, a less offence than the one on which she had been committed.

They had an unpleasant duty to perform in this case. His duty was unpleasant, the judge's was unpleasant and so was that of the jury. They must remember, however, that they had a duty to fulfill.

They represented the state, he said, and on the way in which they made their decision would rest the security of the law and government in the state. If they felt that she was guilty, and then allowed their sympathy to overbalance their sense of duty, where would civilization be, he asked.

The question for them to decide was whether or not the unfortunate girl had committed the crime and, if she had, whether or not she was insane at the time.

PROTECTS CHILDREN. He had a great deal of sympathy for the girl but he must remember that there had been a little child, five weeks old, taken to the bridge and thrown over. It had been an illegitimate child.

He thought that there were numbers of illegitimate children born in the city each year. Many of them were not wanted and it was only the fear of the law that saved their young lives and that gave them a chance to grow to men and women.

He reviewed the history of the case. The little girl had gone to the Evangeline Home on June 6. On July 14 a baby had been born and she had stayed there until Aug. 18 when she left. She had then gone to Douglas avenue and had called at the home of Miss McCarthy where she was given a fare and put on a car for Fairville.

While the motorman had not recognized him. He saw her get off at the west side of the bridge with the baby. She had next appeared at 9.30 at the home of Mrs. Bennett where she had done a day's work and had been paid a dollar.

STORY OF SEARCH. The next day the police had found her at Westfield picking berries and had asked her where the baby was. She had told them it was in a good home and had agreed to accompany them to the city to point it out. They had looked for the house and, on returning to the car, found her in tears.

How could she take the baby from the home, carry it to the station, then to Douglas avenue, then on the street car to the bridge and down a path overgrown with bushes for 130 yards if she had been suffering from temporary insanity, he queried.

SEEKS ANSWER. She had then thrown it into the water and thrown its hat and coat after it. What was her motive? If she had tried to place the baby and had failed he could understand it but there was no evidence that she had. It was for the jury to decide if she left the home with the intention of killing the baby. After working all day she had gone to Westfield, where the police had found her next day picking berries uncovered with bushes for 130 yards. He reminded them that they had nothing to do with the penalty, that was for the judge to decide on that. The court had a large discretion in this case. If the indictment had been murder and they had found her guilty, the judge's hands would have been tied as there was more than one penalty for that offence. He asked them to be fair to the girl, fair to the community and fair to their consciences.

He closed by reviewing the points of

Child Is Dead, Mother Hurt In Quebec Fire

MONTREAL, Sept. 24.—Laurette Legault, 2½ years old, was burned to death, and her mother is not expected to live as a result of burns received when a fire partly destroyed their home at Valleyfield late today. The fire originated through an explosion of coal oil that Mrs. Legault had poured into the stove.

QUESTION OF HOME LESSONS DISCUSSED

Much Difference of Opinion on Matter, Education Head Declares.

ST. STEPHEN, Sept. 24.—The thirty-fifth session of Charlotte county Teachers' Institute was opened today in the Gilbert Canon Memorial School with an enrollment of 114. President R. G. Mowatt presided. A large number of teachers was present and also Chief Superintendent Dr. W. Carter, Inspector G. J. Marr, and Acting Superintendent S. A. Worrell of Saint John.

After enrollment the members of the institute were addressed by Inspector Marr and Dr. Carter. Dr. Carter stated that he had not missed many Charlotte county institutes in more than thirty years. Flags should be seen flying on our school houses more frequently and school buildings should be kept in good condition, the chief superintendent said. They were not an index to the community.

URGES PROMOTION. Free school books were now furnished to certain grades, and he trusted that other grades might yet be equipped with them. The text book committee was asking the department in selecting books up to date. Dr. Carter strongly recommended advancement of the pupils that were doing good work. He would give the child a chance to go forward at any time.

Home lessons was a question that is receiving considerable attention today, said Dr. Carter. Some were of the opinion that too many home lessons were given, others, not enough, and still others thought they should be abolished. The prevailing opinion of the teachers was that home lessons were necessary, but they should be properly explained to the pupils. The time for home preparation was variously estimated at from one and a half to two and one half hours.

WATER, SMOKE BLAMED. HAMILTON, Ont., Sept. 24.—An interesting paper read before the convention of the Dominion Fire Chiefs' Association here, was that of J. J. Conway, Cincinnati, read by Chief James Armstrong, Kingston. It was stated that 70 per cent of fire waste was due to water and smoke.

the confession and of the evidence and declaring that they fitted closely. Judge Byrne, charging the jury, reminded them that when they had been empaneled they had sworn to give a verdict according to the evidence presented. The law left to them a question of fact and of inferences and conclusions to be deduced from the facts.

The burden of proving the guilt of the accused beyond reasonable doubt rested on the Crown. Reasonable doubt, he said, was a doubt arising from the evidence, not one conjured up in the mind with the purpose of escaping the duty imposed upon them or one conjured up out of sympathy, but one for which a reason could be given. The indictment was not for murder but for attempted murder. He reviewed and explained the law connected with the charge. Their duty would be easier to discharge if they knew the child was either alive or dead, he said. They had heard the request from the defence counsel for the quashing of the indictment and the re-indicting of the prisoner on a charge of murder. It was not the duty of this court to indict but to find upon the indictment presented.

In view of the fact that the defence counsel had called a witness in the matter of sanity, he had felt it incumbent on him to recall the jury. If they believed the girl guilty but believed that she had been insane at the time they could find that she was not guilty because of insanity.

If they found her guilty they had also the prerogative of bringing in a recommendation for clemency or any other recommendation they saw fit. The jury left the court room at 4.20 o'clock and returned at 5.03 o'clock to render the verdict of not guilty. Mr. Logan moved for the discharge of the prisoner and she was dismissed. In formally releasing her, Judge Byrne said he hoped her experience here would be of a deep and valuable assistance to her.

The girl heard the verdict with very little apparent emotion. She left the court room with her father and stepmother, who had been with her during the whole time of her trial.

C. N. EMPLOYEES BAR PARTY PATRONAGE

To Back Public Ownership Candidates—Resolution is Passed.

TORONTO, Sept. 24.—Employees of the Canadian National Railways unanimously expressed themselves as being opposed to political interference in any way with the management of the railways, at the convention of the Canadian Brotherhood of Railway Employees here this morning.

A resolution was passed without a dissenting vote, "That this brotherhood exercise its influence to have nominated and elected to the federal parliament such candidates as will pledge their support to a continuance of public ownership and operation of the Canadian National Railways free from political patronage."

ENJOY CORN BAKE

Staff of Scovil Brothers, Ltd., Drive to MacLaren's Beach For Good Time.

The members of the staff of Scovil Brothers, Ltd., had an enjoyable outing yesterday evening when they held a corn bake at MacLaren's Beach. Buses called at the store in King street at 8 o'clock and took the party, which numbered about 50, out to the beach. Much good fun and sandcastle building and cake with hot coffee rounded out a menu that proved entirely satisfactory. The party took out its own orchestra and dancing was one of the special pleasures of the evening. The buses brought the company back to the city shortly after 10.30. Everyone had thoroughly enjoyed the outing which had been carried out most successfully under the direction of Miss Smith, of the ladies' department.

\$5,000 Damage Done In Bathurst Blaze

BATHURST, Sept. 24.—Fire damage estimated at about \$5,000 was caused by a blaze yesterday which destroyed the house and contents and a half miles from Bathurst. The insurance on the property totalled about \$2,000. There, about two little could be done to check them after the flames had got a start.

Australian Customs Rule Affects American Goods Shipments

CANADIAN ROUTE IS FAVORED, NOTE SAYS

Tariff Commission Probes Discrimination; Ready to Report

By A. M. BELDING.

MONTREAL, Sept. 23.—The watchful care with which the United States Shipping Board guards the interests of American railroads and ships is made clear by the following letter from John Nicolson, of the Board to President Patrick E. Crowley, of the New York Central Railroad. It is dated at Washington, July 6, 1925, and is as follows:

AUSTRALIAN PRACTICE. "Some time ago we brought to your attention a practice which obtains in Australia, and which is prejudicial to both to American vessels and to American trans-continental rail lines. We refer to the Australian Customs regulation under which imports there whose origin is in the United States, have their value computed for assessment of customs duties, by adding to their normal ad valorem, the cost of operation of the railroads in the United States, and this is not done. That which is done can best be explained by illustration:

Assuming the shipment of two car-loads of the same commodity, say from St. Paul, to Australia, one car moving direct by American rail to Portland Ore, thence to Australia; the other car moving north into Canada, from St. Paul, thence to Vancouver by Canadian rail, trans-continental, to Australia. On arrival in Australia, this result as the practice of the assessment of customs duties the material moving via Portland has the cost of the rail-haul to Portland added; that moving via Vancouver has added the cost only of the mileage from St. Paul to the Canadian border—not to the Canadian port of export, thus creating a differential in favor of the Canadian route of a percentage equal to the tariff on the article imported—frequently 30 to 40 per cent—computed on that part of the value which represents the difference in the cost of the rail-haul.

The shipment from Vancouver, in practice, is by British vessel. The shipment from Portland would naturally be by American vessel. The interest of this board, officially, is because of the loss of the trade to American vessels; unofficially, it also regrets the loss of traffic resulting to our trunk line railroads. The use of St. Paul and Canada when they contain items similarly applies to other United States ports and points.

"Unfortunately our loss is not measured in terms solely of the trade destined to Australia, in practice it includes large volumes consigned to various points in the east, other than Australia. This result, as the practice that forwarding agents at interior points, grouping isolated shipments for the east into car-loads, route these lots via Canada when they contain items though but a small proportion of the whole, destined to Australia, that these

may have the benefit of the discriminating treatment. "We brought these facts to the attention of the Tariff Commission about two years ago, having in view the possible enforcement, if necessary, of the retaliatory clauses of our Tariff Act. Subsequently, that commission investigated the matter very fully and recently filed a report, with recommendations, with the President, which is now before the Department of State for consideration. "We hope the report of the Commission will be acted on by the President in the autumn. To the extent action by the Shipping Board may be practicable, it will, of course, be in favor of measures which will eliminate a practice prejudicial to our Merchant Marine, and also, as we have shown, prejudicial to the railroads of the United States. "May we request that you again give the matter your attention and ascertain to what extent the interests of your road are now involved, if at all. That there may be ample time for any investigation you may wish to have made, it will be agreeable to us if an answer is not received until Sept. 1, 1925."

It is understood this matter is in the hands of the United States government.

SAINT JOHN, N. B., SEPTEMBER 25, 1925.

SUPPORT FOR THE MARITIMES

In the interviews which Mr. A. M. Belding has had with shippers in Montreal there stands out in almost every instance the strongest endorsement of the Maritime contention that Canadian ports should be used for handling traffic of Canadian origin.

The analysis of the export business which is escaping us is not yet complete, but what has been ascertained already is illuminating. In the matter of grain and of flour the amount of diversion into American channels is enormous, and difficult though the question is, it becomes increasingly obvious that this universal desire in Canada to have our traffic carried over our own lines to our own ports requires government action, and probably more than one form of government action.

An immense percentage of Canadian grain is bought and sold by New York agencies, and once they have purchased the grain they control the routing, and because New York provides a great amount and variety of tonnage that port exercises a strong pulling power. But it should not be impossible for Canadians to do this buying and selling of their own grain, for it is a profitable business, and surely Canadian intelligence should be equal to it.

PREPARATION

It is unwise for labor organizations to threaten the public too much or too long. Proof of this is to be found in connection with the new disturbance in Great Britain in connection with the mining troubles. When the mining strike was prevented two months ago the Government agreed to subsidize the industry to the extent of £10,000,000 in order that the then existing wage scale might be continued for another nine months, pending the result of an investigation of the whole industry in order to obtain the basis for a permanent settlement.

ODDS AND ENDS

SOME WEIRD ANSWERS

(Montreal Gazette.) "Where ignorance is bliss, 'tis folly to be wise" must have been in the minds of the matriculation students who submitted the following answers in the June examinations: "The St. Lawrence River comes from the north of Canada, flows through the province of Quebec and then southward, emptying into the great lakes." Another wrote: "It flows between Ontario and the United States, then through New Brunswick, entering the Pacific Ocean by the Bay of Fundy."

OF COURSE CHICAGO

A Chicago paper carries a front page article on the possibility of the Prince of Wales marrying a Canadian girl. The story is to the effect that the Prince lost his heart to a Toronto maid six years ago; that he has been devoted to her ever since; that this account for the numerous trips to Canada; that that is why he is coming again (perhaps to Canada this fall); and that he is working hard at the job of removing the difficulties which lie between a maid who is neither royal nor even of aristocratic blood and the throne of England.

ZINOVIEFF LETTER TO FIGURE IN CLASH

Check For Extremists at Every Turn Planned By Organization

British United Press. LONDON, Sept. 23.—Wholesale support of Ramsay MacDonald in the election he took with regard to the Zinovieff letter on the eve of the last general election is predicted as a result of discussions at a meeting that will take place on September 29 at the annual conference of Socialists in Liverpool.

REPORT OPENS FIGHT

The report of the special investigating committee that made full inquiry into all the circumstances is being published today and it is the first gun to be fired in the fight between the Red element and Ramsay MacDonald and his colleagues who are in a position to meet the criticism of the report will maintain that the Labor Prime Minister was entirely justified in everything he did with regard to the letter and that no British Premier or Foreign Secretary could have done otherwise than authorize publication.

SUPPOSED BOGUS

It adds that when the letter fell into the possession of the Foreign Office, Ramsay MacDonald had no alternative but to believe in its genuineness, although it is said that evidence gathered since then goes to show that it may have been bogus. The official side of the Socialist organization plans to check the extremists at every turn throughout the conference and will not be caught napping by the Reds as was the case in the labor congress at Scarborough.

AN URGENT APPEAL

The Orphanage Fair committee are in need of one or two more ladies' committees to work at the rink during the fair. Young ladies preferred. The fair will open on the 30th and, if it is going to accomplish its purpose, must have a large patronage both in the way of attendance and in the voluntary contributions of all kinds—cash, farm, home, and factory products, in fact any kind or class of goods that you can supply voluntarily. It is impossible for us to reach you all on a personal canvas and further there is no earthly reason why we should, as this is a community effort, and every Protestant in the province should realize that his or her personal responsibility before God is co-equal with ours, and that it is their duty to give as the Lord has given unto them and rejoice that no child of theirs is in need of institutional care.

The St. Andrew's Rink is now open at night. Open night and day for receipt of goods beginning Monday, 28th. Please give this appeal your most serious consideration. Times are hard but many contributions, even if small, will aggregate a large amount. Orphanage Fair Committee, P. O. Box 12, Saint John, N. B.

NO FAIR IN THIS

MAMMOTH CAVE, Ky., Sept. 25.—Lost while searching for a moonshine still in the woods back of here, Sheriff Noah Reed and Deputy Duval wandered into another county. Officials of this county also were looking for the still. The two parties met each other and believed the other to be the moonshiners. Taking positions behind trees and rocks, they opened fire. Result: Reed's leg shot to pieces, and the back of one of the other sheriff's deputies' filled with shot.

Placing of Several Large Contracts Features Canadian Metal Market

C. P. R. Gives Rail Order—Saint John Firm's Action Brings Comment in Trade

TORONTO, Sept. 25.—In a summary of the iron, steel and machinery markets, the Canadian Machinery and Manufacturing News makes the following comment this week: The placing of several large contracts, coincident with a stiffening tendency in the metal markets featured the last week...

SAINT JOHN INDUSTRY.

The Canadian Pacific Railway has entered the market with a rail order of unknown tonnage reported sufficient to give the Algoma Steel Corporation's mill two months' work. Engineers who have examined the tenders for the superstructure of the Montreal bridge have recommended that the work be given to the Dominion Bridge Co. With reduced freight rates and workers' cooperation, the James Pender Co., a subsidiary of the British Empire Steel Corporation, is making a strong bid for wire nail business in Canada.

FOUNDRY IRON.

Advances of 50c. a ton on all grades of foundry iron made by producers in the Pittsburgh district, while giving sympathetic effect to markets in other localities, has developed no similar action in the Buffalo or Canadian districts. The trend is distinctly upward, both at Toronto and Montreal and advances will probably be made in the near future, but the fact that sales have shown little tendency to grow is helping to delay action. A report is heard of another attempt to dispose of Indian iron in the States, which draws attention to the fact that further representation is being made to the United States government to have the products of the Dominion Steel Co. placed on the "dumping" list. A subsidy will be continued to the company by the Indian Legislature.

SEAL HIGHER PRICES.

All cold-rolled steel and drawn bars are stiffening up and prices will be higher next quarter. The increase will not affect base prices to any material extent, but mills are going to apply quantity differential shown on their regular schedule of extras all over America, but which have not applied in Canada for a number of years. The change will affect prices of this material for warehouse shipment and all mill prices on L. C. L. shipments.

\$20,000 ALIMONY IS REFUSED BY WIFE

Charges Made by Max Reinhardt, Stage Producer, Are Denied by Spouse.

British United Press. VIENNA, Sept. 25.—Max Reinhardt's offer of annual alimony of \$20,000 has been spurned by his wife, Elsie, and she has demanded the right to confront him in court to answer charges which she declares were "framed" against her. The suit for divorce filed by the famous stage producer was heard Wednesday. The court postponed its decision until next month.

Lipstick Restores Old-Time Gallantry

CLEVELAND, Sept. 25.—Kissing the lady's hand, a gallant form of greeting belonging to the days of courtesy, is coming back. Authority for the announcement of its recurrence, Cleveland Health Commissioner Rockwell explained that the occasion had nothing to do with sanitation. The secret is the lipstick, which "Girls are getting tired of having to fix up their lips every time they are kissed," the commissioner pointed out. "Likewise their suits bear the betraying red imprints scattered over their faces. So the style now is for the fair lady to be kissed on the hand."

FREDERICTON, K. C.

Officers of Fredericton Council, No. 1942, Knights of Columbus, have been elected as follows: Grand Knight, J. F. McGuire; deputy grand knight, Frank Bourgeois; financial secretary, D. J. Shea; recorder, W. T. Shea; treasurer, L. L. Theriault; warden, Prof. T. LeJennet; inside guard, Cahoon; Doherty; trustee, Joseph A. Cpin; advocate, G. T. Feeney. The first degree was exemplified on Wednesday night.

NEW YORK, Sept. 24.—Maudie Adams is leaving shortly to visit Rudyard Kipling, with whom she will discuss the filming of "Kim."

Joins "Lawn Party Squad"

British United Press. NEW YORK, Sept. 25.—Babe Ruth may be a disorderly character in the mind of his manager, Miller Huggins, but he is one of the "finest" nevertheless. The Babe was inducted into the New York police force Thursday as a lieutenant of the Reserves, locally and disrespectfully known as the "Lawn Party Squad." He was given a badge, permitted to buy a uniform and assigned to the staff of Inspector General Charles McKinney, who will call the Babe for duty if and when the police become hard put to enforce the law.

PRESIDENT ENDS SESSION WHEN ROWS STARTED

"no," but again the Turkish delegate refused to answer, saying he could only repeat his previous statements.

VIOLENCE STARTS.

Murmurs of disapprobation arose from various parts of the hall, rapidly merging to a violent manifestation. M. Loucheur vigorously pounded the table, and called for order; immediately thereafter he announced that the debate was closed, and the resolution adopted.

TURKISH CHARGES.

One was that an Irak band after committing atrocities, had attacked a Turkish post north of the Brussels line. A second was that 50 persons of all ages and sexes escaping from the oppressive rule of the British forced occupation, had taken refuge in the Turkish zone. A third charged that a band of 600 young Assyrians, commanded by British officers, was preparing to attack the Turkish posts.

REGISTRATION FOR ELECTIONS IS ON

Officials Are Now Taking The Names to be Added to Voters Lists.

The registrars for Saint John are now receiving names to be added to the voters' list for the federal election on October 29. One registrar has been appointed for each ward and names can be handed to them until 9 p.m. on September 30.

PROVINCIAL LISTS.

Where there are provincial lists, the names of persons which appear on them will be transferred automatically by the urban registrars to the Dominion lists. The registrars are without discretion in this respect, and are obligated to transfer names even though they know that the persons referred to are dead, removed, or otherwise disqualified. There is, however, a very simple way of having such names removed. All that is necessary is for some one qualified to vote in the same registration district, to appear before the registrar and make before him an affidavit (which the registrar will prepare), stating his grounds for believing that name of the person in question should not appear upon the list.

NOTICE IS SENT.

Upon such an affidavit being made, the registrar will send to the voter objected to a registered notice calling upon him to attend before the revising officer about 10 days to two weeks later. The voter by whom the objection has been made need not further concern himself with the matter, since if the person objected to does not attend and convince the revising officer that he is qualified as a voter the name will be removed from the list without any further action on the part of the objector.

PLACES TO REGISTER.

The registrars in Saint John and the places where they are sitting are as follows: Kings ward—A. G. Hoar, 48 Hazen street. Wellington ward—J. F. Frauley, 217 Prince Edward street. Prince ward—C. A. Emery, 210 Union street. Queens ward—S. W. Palmer, 62 Princess street. Dukes ward—Annie S. Clifford, 140 Mecklenburg street. Sydney ward—S. Lang, 116 Brittain street. Guys ward—James T. Sharpe, 15 Rodney street. Brookes ward—David O'Keefe, 15 Rodney street. Lorne ward—J. P. Kiernan, 237 Main street. Lansdowne ward—G. E. Browning, 521 Main street. Dufferin ward—John Kinsella, 146 Mill street. Victoria ward—A. Bauer, 41 City road. Stanley ward—F. Kerr, 107 Millidge avenue.

Weddings

Hamilton-Green. One of the prettiest weddings of the season took place at the Mission Church of Saint John Baptist at 8 o'clock yesterday evening when Miss Kathleen Alice Green, daughter of Mrs. Alice and the late Henry Green, of Quidley, became the bride of Ernest Andrew Hamilton, son of Mrs. Mildred and the late George Henry Hamilton of this city. Rev. Father J. V. Young, priest-in-charge, officiating. The ceremony was witnessed by relatives and intimate friends of the contracting parties. The church was prettily decorated with flowers.

Murray-Norris.

The marriage of Mrs. Mary Norris and John Murray, both of Dipper Harbor, was solemnized at the church in the Church of the Assumption, West Saint John, on Tuesday morning when Rev. J. J. Ryan officiated. The bride was becomingly attired in a navy blue ensemble suit with grey hat, grey shoes and stockings and a grey fox fur which was the gift of the groom. She carried a white prayer book. The groom was supported by his father, Mr. Bernard Boyle, who wore a blue tuxedo with black picture hat. The groom was supported by his brother, Daniel Murray, and Mrs. Murray, 89 Winter street, Saint John. Both bride and groom are very popular and they received many gifts including silver, cut glass and linen. They will reside for the present in Union street, Saint John, and later will make their home in Dipper Harbor.

Hargrove-Kingston.

A quiet wedding was solemnized at the Methodist parsonage in West Saint John at 2 o'clock on Thursday afternoon, Sept. 24, when Rev. P. J. Brennan united in marriage Miss Olive Amelia Kingston, daughter of Mr. and Mrs. George Kingston, of Centerton, Kings county, and James William Hargrove, of Saint John. The bride, who was charming in a gown of pencil blue crepe trimmed with fur with hat to match, carried a shower bouquet of Ophelia roses. She was attended by Miss Eva Adams, who wore a dress of figured crepe in green with a white hat to match and carried an old-fashioned nosegay. The groom was supported by Mr. Roy Kingston, brother of the bride, and Mr. W. W. Cronk, uncle and aunt of the bride, where the dainty luncheon was served. Among the numerous gifts received by the bride and groom was silver service, dishes, from the teaching staff of LaTour School, of which the bride had been a member. Mr. and Mrs. Hargrove left for an automobile on the afternoon. The bride wore a brown traveling dress with brown hat. Upon their return they will make their home on Paradise Island, where the groom has a government position.

Erskine-Burshall.

QUEBEC, Que., Sept. 24.—The daughter of one of Quebec's best known families and one of the leading members of the British aristocracy were united in marriage when Miss Phyllis Burshell became the bride of Captain the Hon. Francis W. Erskine, former A. D. C. to Baron Byng of Vimy, Governor-General of Canada, this afternoon.

TOPOGRAPHICAL SURVEY.

S. C. McLean, of the geological survey branch of the Federal Department of Mines, arrived in this city yesterday from the district between Saint John and St. Martins, where he has been engaged with others in making a general topographical map and also in mapping the geology of the district. The district about the city was surveyed more than ten years ago. Other parts of the province that have been mapped in this way are Moncton, Chipman and Miramichi. Mr. McLean is at the Admiral Beatty Hotel.

MUSICAL TREAT IS GIVEN PATIENTS

Singers' Programme at Saint John County Hospital Greatly Appreciated.

The patients of the Saint John County Hospital had an evening of very great enjoyment last night when a concert was given for their entertainment and the artists were Miss Estelle Fox and E. Clyde Parsons, soloists, and Miss Myrtle Fox, accompanist. The concert had been arranged by Frank McGarrigle, a former patient in the hospital, and no musicians ever had a more delighted audience.

Dr. H. A. Farris, superintendent of the hospital, said last night that the patients were specially appreciative of concert programmes at the present time as they can now have only a comparatively few motion picture entertainments. For some time F. G. Spencer very kindly provided an operator and the motion picture films and the patients enjoyed a motion picture entertainment each evening. When this had to be discontinued the hospital received motion picture films from the film exchanges free of charge and an operator's services were secured. Now the film exchanges are not permitted to give the use of their films

Mystery Race Planes To Enter U. S. Meet

LONDON, Sept. 25.—Secret tests of the two mystery racing airplanes with which the British hope to recapture the Schneider trophy cup from America are being made. The construction of the machines has been closely guarded and but few details regarding them have leaked out. It is understood that they are extremely diminutive in size, but powered with special Napier engines of 400-600 horsepower.

Deaths

Mrs. John Shaw. After an illness which extended over several years, Mrs. Grace Shaw, wife of John Shaw, of St. James street, passed peacefully away last evening at the residence of her daughter, Mrs. Andrew Heenan. Mrs. Shaw was an old-time resident of the South End and was held in the highest esteem by her friends and neighbors. A native of New Brunswick, being born at Public Landing, Mrs. Shaw, at an early age came to the city and had lived here continually up to the time of her death. The surviving members of her family are one son, Harry, and two daughters, Mrs. Fred L. Barrett and Mrs. Andrew Heenan. The funeral will be held on Saturday morning from Saint John Baptist church, with mass at 9 o'clock.

BACK TO COLLEGE.

Arthur Pickering, student preacher at Mace's Bay, Musquash, Lepreau and Little Lepreau, has returned to his studies at Bishop's College, Lennoxville, Que., and was in the city en route. Mr. Pickering made a fine impression upon the people of Lepreau parish while preaching there during his vacation. He had been recipient of a generous donation prior to his departure, the presentation being made in the pretty old Anglican church at Mace's Bay, by the members of the parish in Lepreau, Little Lepreau and Musquash.

VERY SUCCESSFUL

Supper and Sale Held in Rooms of The Fairville Baptist Church.

A successful supper and sale was held last evening in the rooms of the Fairville Baptist church, under the auspices of the Ladies' Aid and realized a satisfactory sum for church purposes. Mrs. A. E. Kierstead was general convener. The rooms and the supper tables were tastefully decorated with garden flowers. Mrs. Robert McMillan and Mrs. Harry Flecker had charge of the apron table. The salads were served by Mrs. C. Black, Mrs. C. T. Clark and Mrs. C. Cunningham. Those in charge of the tables were Mrs. George Currie, Mrs. Thomas Alcorn, Mrs. Harry McLaughlin, Mrs. Allan Thorne, Mrs. Robert Thorne, Mrs. Harry Gallant, Mrs. Charles Dykeman, Mrs. William Fox and Miss Ida Wayne. The tea and coffee were poured by Mrs. Harry Carr and Mrs. Harry Kierstead. The door tickets were taken by Mrs. W. J. Stevens and the supper tickets by Mrs. W. C. Ross. During the supper hour C. B. Black, on behalf of the Ladies' Aid, half a dozen cut glass goblets as a gift for their thirteenth wedding anniversary. Mr. Clark heartily thanked the donors.

MORE THAN 100 SCIENTIFIC EXPEDITIONS IN FIELD

By DAVID DIETZ

The pioneers on the last frontier, the research workers of science, carry their search to the distant stars with their giant telescopes and into the normally invisible world with their high-powered microscopes. But not all the work is carried on in sheltered observatories and laboratories. The four corners of the earth are being searched for the acts upon which the sciences of history, evolution, archeology, biology and others are based. Buried cities that tell the stories of lost civilizations, fossils of huge monsters that reveal the early days of the world, skulls of prehistoric men that disclose the path of evolution—these are some of the things sought by the scientific explorers. Others are going into the interior of Asia and Africa, and to the islands of the Pacific and the Atlantic, to make collections of the fast disappearing wild animal life so that when the day arrives that these creatures are extinct, future generations may visit museums and see what they once looked like. The American Museum of Natural History of New York has eight expeditions in the field. The Field Museum of Natural History of Chicago has 14. Other expeditions bring the grand total to more than 100. Though every part of the world is covered by them, the chief expeditions centre around 10 important regions. The first important centre is Asia. Three great expeditions are there. The first is the Third Asiatic Expedition under Roy Chapman Andrews, the discoverer of the dinosaur eggs. The second is the Smithsonian Institution expedition, headed by Dr. Ales Huxford, world famous authority on reptiles. Friedrichs is seeking the cradle of the human race. The third is the James Simpson-Roosevelt expedition, headed by Theodore Jr. and Kermit Roosevelt, seeking big game. The next two great centres are the

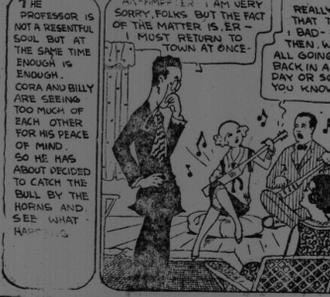

MAGNESIA BEST FOR YOUR INDIGESTION

Warns Against Doping Stomach With Artificial Digestants. Most people who suffer, either occasionally or chronically, from indigestion, have now discontinued disagreeable diet, eaten food and the use of harmful drugs, stomach tonics, medicines and artificial digestants. Instead, following the advice so often given in these columns, they take a teaspoonful or two tablets of Bisulphate of Magnesia in a little water after meals with the result that their stomachs no longer trouble them, they are able to eat as they please and they enjoy a much better health. Those who use Bisulphate of Magnesia never dread the stomach of acid and food corruption, which can be obtained from any food drug store. It instantly neutralizes the stomach acidity, even the most violent. It aids food fermentation, and without the slightest pain, but certain to get pure Bisulphate of Magnesia especially prepared for stomach use.

PLANS CONVENTION FOR YOUNG PEOPLE

Religious Education Committee of Presbytery Arranges All Day Gathering Oct. 12.

A convention for the young people of the Saint John Presbytery of the United Church of Canada will be held in St. Andrew's church, Saint John, on Oct. 12, in three sessions, commencing at 10 a. m., 2:30 p. m. and 7:30 p. m. The religious education committee of the Presbytery last night planned for the convention. It was decided to hold a banquet and to invite three delegates from each church in the Presbytery to attend.

THOUSAND ASKED TO ATTEND MEETING

Saint John Branch of Red Cross Announces Programme For Annual Session.

A special invitation to attend the annual meeting of the Saint John Branch of the Red Cross Society is being sent out to each of the 1,000 members of the society in the city. The annual meeting is to be held in the Church of England Institute on Monday evening, and a very interesting programme has been prepared. All phases of the work which the society has carried on in the city will be reported upon, and there will be a discussion of plans. Mrs. A. Morrison, as vice-president, will occupy the chair at the opening of the meeting, and prayer will be offered by Rev. C. J. Markham. R. F. Wright, treasurer, will be chairman for the general meeting. Reports will be presented by the secretary, Miss Alice Walker, and by Mr. Wright. Miss Ethel Hazen Jarvis will tell of the relief work which has been carried on by the Saint John branch.

WORK FOR SOLDIERS

Mrs. Margaret Lawrence will show slides and tell of the work for the soldiers which has been carried on locally. Miss S. A. Barrington will report on the home nursing classes that have been organized in the city and tell of what they have been the means of accomplishing. Mrs. F. Longley will report on the distribution of literature, which has been carried out systematically. Miss H. Mackay, superintendent of the Victorian Order of Nurses, will speak of the co-operation between the Red Cross and the V. O. N. A general discussion of the work of the local branch and its future activities will conclude the programme. The election of officers will follow.

THE kick pleat of last season is still with us, but in a slightly different form. The pleated inset is usually folded in several times, instead of once, so that it gives more fullness. Above is shown a most effective street frock for fall, of wool crepe. This is an ideal material for the early season, as it furnishes some warmth without being too heavy. Cream battle collar and cuffs, hand made, are used to finish the neck and cuffs. The belt is of tooled leather.

SOME FACTS ABOUT BIG BEN

"What do you think of Big Ben now, children?" asked Tick Tock, the clock fairy. "Isn't he big?" "Bigger than all the other clocks in the world put together, I guess," said Nick. "They were up in the clock tower of the Parliament Buildings in London, the Twins were. Big Ben was the name of the clock there. 'I'll try to tell you all I can remember," said Tick Tock. "Let me see, his face is twenty-four feet across and his minute hand fourteen feet long. It sticks out a little over the edge of the tower. Only they had to get a lighter hammer. The first hammer weighed seven hundred pounds. The new hammer weighs only four hundred pounds." "Are the bells heavy?" asked Nick. "Well, Big Ben, the biggest of all, weighs thirteen tons," said Tick Tock. "His little brothers weigh eight tons, three and one half tons, two and one half tons and two tons. Just babies, you might say." The Twins laughed. "My goodness, alive!" said Nancy. "This must be the biggest clock in the world!" "It is the biggest of its kind," said Tick Tock. "But there is a clock in Germany with a bigger face, or dial. But it has only one hand—the hour hand—and it is not so hard to keep going. It takes two men five hours to wind this fellow and he is wound twice or three times a week. 'Tis winter so much snow and ice get around the hands, that it is quite difficult to keep everything going properly. But his time is every thing. Only two or three days a year does Big Ben lose as much as three seconds. You children do not know how wonderful that is." "I'm still GO-ING, GO-ING, GO-ING!" struck Big Ben. "My oh! We've been here an hour," said Tick Tock. (To Be Continued.)

Montreal Bodies Oppose Rate Order

MONTREAL, Sept. 24—Criticism of the minority order of the Railway Commissioners, in regard to rates on grain and flour to Pacific ports, was heard yesterday at the meeting of the council of the Board of Trade, when a report was received therefrom from the transportation bureau of the board, and action of the Corn Exchange was also reported, the result of the council's deliberations being a decision to employ counsel to present the board's views to the Railway Commission.

Are Women 100 Per Cent Efficient?

How many women do you know who are one hundred per cent efficient? That means every nerve and every fibre of the body pulsating with life and health as nature intended. Do you not know more who are one hundred per cent efficient with aches, pains, nervous, irritable and despondent, making themselves miserable and every one around them? Women in this condition should let Lydia E. Pinkham's Vegetable Compound rebuild and restore them to a normal healthy condition which will make them one hundred per cent efficient and life in worth living. There are women in every section of this country who testify to its merits.

Injections To End Cholera Are Urged

MANILA, Sept. 24—Innoculations against cholera are being resorted to in an attempt to curb progress of the disease in the Philippines. With 11 new cases reported yesterday, the director of the Philippine Health Service issued a statement urging public co-operation in combating the epidemic. He advised inoculations against the disease and asked that anything appearing to be cholera be reported immediately.

Wrinkles Removed 'While You Wait'

It has been discovered that the mere application of a spoonful of powdered lemon juice, actually removes wrinkles and creases in fifteen minutes or less! There's no rubbing, no work, and no expense in trying—less than three cents! It is only necessary to take the mixture over the face, sit down before the mirror and watch those unwelcome wrinkles or worry lines disappear like magic. The effect is incomparably better than that produced by the most skillful massaging. The mixture, of course, is perfectly harmless. While on the face a pleasant soothing sensation is experienced. It is easily washed off. Aside from its remarkable effect on wrinkles, there's nothing better for bumpy cheeks or chin. No woman who purchases a package of powdered lemon juice from her druggist will regret having done so.

BOYS TESTED FOR CLASSES AT Y.M.C.A.

Doctors Put 66 Through Physical Examination and Have 100 to Try Out Today.

The medical examination of those who wish to enter the Y. M. C. A. gymnasium classes this season was commenced yesterday afternoon when Dr. O. Evans and Dr. Arthur S. Chesley made physical examinations of 66 boys and found that they measured up very well to the proper standard. The two doctors will have about 100 more boys to examine this afternoon and before their work is complete will have had a great number of boys pass through their hands. The medical examination is carried out at the beginning of each season to find out whether the gymnasium pupils are fitted to take the general class work. The record of the examination is kept on file and when a boy is entering the classes several years his yearly record at the examination is sent to his parents. H. T. C. Hutton, physical director of the association, said last night that already many new members had joined the class and he expected the physical department would have a better turn this year than last.

MANY FRIENDS ARE AT WEDDING

Knox Church Thronged as Dr. Hooper and Miss MacLaren Marry

Leave for Montreal, Then to Have Motor Trip and Residence in Ottawa

The marriage of Elsie Eleanor Talbot, daughter of Colonel Murray MacLaren, C. M. G., V. D., M. D., and Mrs. MacLaren, to Dr. George Hooper, of Ottawa, was solemnized yesterday afternoon at 5 o'clock in Knox Presbyterian church by Rev. R. Moorhead Legate. The church was thronged with invited guests and others who were admitted by special tickets. Those who lined the streets were rewarded by an excellent view of the bride, who has many friends and admirers in the city, where her family has stood for the best things in the community for many years.

While the choir of the church sang "The Voice that Breathed o'er Eden," the bride and party entered the church. Miss Kathleen Wilson, organist, played the wedding music. During the ceremony the chant "Deus Misericordiae" and "O Perfect Love" were also sung.

THE BRIDE'S DRESS

The bride, who was given in marriage by her father, was stately in her rich wedding gown of white crepe back satin, with flounces of latest mode and embroidered with crystals and pearls. Her train was very long and lined with shell pink brocade. Her bridal veil of tulle was worn over her face and caught in a coronet of Duchess lace and orange blossoms. She carried a bouquet of orchids, lilies of the valley and maiden hair ferns, with long white ribbon streamers.

Attending the bride was Mrs. Douglas MacLaren, of Montreal, daughter of Sir Douglas and Lady Hazen, of Saint John, as matron of honor, and Miss Dorothy Hooper, of Ottawa, sister of the groom, Miss Margaret MacLaren, of the groom's home, as bridesmaid, and Miss Jean McAvity, cousin of the bride, as bridesmaid, all wearing powder blue gowns with hats of blue velvet and carrying pink roses, tied with powder blue tulle.

The groom was attended by Rev. Kenneth Taylor, of Montreal, a lifelong friend, who had for a boutonniere, lilies of the valley. The ushers were S. Allan Thomas, Cyrus F. Inches, Gerald G. Anglin and David MacLaren, brother of the bride, who came for the wedding from Kingston, Ont., where he is a cadet at Royal Military College. The boutonnières of the ushers were pink roses.

Autumn tints prevailed in the church with profusion of gladioli and phlox among palms and ferns. The guest pews were marked off with hydrangea and white ribbons.

After the ceremony the bride and groom and party of guests were served with refreshments at the home of the bride's parents, with the house a bower of beauty in its adornment of sweet peas and asters.

Going away the bride donned a travelling costume of reindeer brown, with brown coat and hat of velvet of the same shade. Dr. and Mrs. Hooper left on the evening train for Montreal, whence they will leave for a motor trip. On their return they will reside in Ottawa, where the bride has many friends.

TWINS BORN SEVENTEEN DAYS APART

Seventeen days after Mrs. A. J. Mayhugh of Toledo gave birth to a baby girl, a husky son was born to her. The girl (left) weighed five pounds and the boy eight.

tawa, where the bride has many friends.

Many lovely gifts were received from friends in Canada and from relatives in England and Scotland, among them several substantial checks and gifts of rare antiques, as well as modern appliances for home making. The gift of the groom to his bride was a handsome guard ring set all round with sapphires in platinum.

The bride was one of Saint John's most popular young women and was active in beneficent work through Knox church, of which she was a member, and in the Imperial Order of the Daughters of the Empire. The groom is a leading young surgeon in Ottawa.

BRILLIANT SCENE

The scene in the church was brilliant with glowing sunshine and beautiful gowns some of which were by the immediate relatives of the bride and groom were as follows:

Mrs. Hooper, mother of the groom, was stylishly gowned in black satin back crepe with chinchilla trimming and hat to match.

Mrs. James F. Robertson, aunt of the groom, wore a pretty navy blue flat crepe with blue lace and hat of the same becoming shade.

Miss Cynthia Hooper, aunt of the groom, was in a most becoming costume of black crepe satin with diamond embroidery and black hat.

Miss C. J. MacLaren, aunt of the bride, was in a handsome amethyst satin gown with large velvet hat and ermine scarf.

Miss S. R. MacLaren, aunt of the bride, was beautifully gowned in navy blue satin with black hat of velvet and ermine neck piece.

Mrs. W. L. Caldwell, cousin of the bride, was very chic in a gown of crepe back satin in sand color with hat to match.

Mrs. Laurence MacLaren, another cousin, wore a stylish brown satin gown with smart brown hat to match.

Mrs. Ian MacLaren, sister-in-law of the bride, was very pretty in a rosewood crepe back satin and black hat.

Among the many guests invited were Right Hon. Arthur Melghe, Senator Gideon D. PEACOCK ALLEY IS AGAIN RESTORED

Waldorf Hotel Reconstructs Famous Corridor Where Latest Fashions Seen.

NEW YORK, Sept. 25—Peacock Alley lives again.

The historic corridor of the Waldorf-Astoria, famed in fiction and real life romances of "little old New York," which recently vanished in the inexorable march of progress and prohibition, has been re-born.

The Waldorf management, forced to put in shops along its 34th street front because it is impossible that no hotel in New York can meet expenses nowadays without this expedient, has reconstructed the famous "alley"—renovated its stags, society and lookers-on.

As soon as the laths and plaster which accompanied the transition of the ground floor of the ancient hostelry were swept aside, New Yorkers found that Peacock Alley had been restored.

If something of its "pristine glory" was lost, the "alley" has blossomed nevertheless in new and equally comfortable plush sofas and chairs, whence one can observe the bearers and wearers of all that is newest in the world of fashion.

HERE THIS EVENING

Sir Fabian Ware Comes to Tell of Burial Places of War Heroes.

Major-General Sir Fabian Ware, K. C. V. O., K. B. E., C. B., C. M. G., vice-chairman of the Imperial War Graves Commission, who is to give an illustrated address on the "Cemeteries of France" in the Pythian Castle this evening, under the auspices of the Imperial Order Daughters of the Empire, will arrive in Saint John at 6.30 on the Halifax train, and will be accompanied by Colonel C. H. Osborne.

He will be in Saint John on Saturday, also, and will be taken by the morning to visit Fernhill, where the soldiers' plot has headstones supplied by the War Graves Commission, and will also have an automobile ride to points of interest in and about the city. He will be entertained at luncheon at the Admiral Pearty Hotel at 1.30 on Saturday, and will leave that evening on the Montreal train to continue his tour in Canada. He has already spoken in Quebec, Halifax and Charlottetown.

CLOCK PRESENTED TO MRS. E. WATTERS

Pleasing Incident Marks Meeting of Loyalist Temple of Pythian Sisters.

A handsome mahogany clock was presented to Mrs. Everett Watters, M. E. C. of Loyalist Temple, No. 13, Pythian Sisters, at the regular meeting of the Temple last night in Temple Hall, Main street, when she presided for the first time since her marriage. The presentation was made on behalf of the members of the Temple by Mrs. Phoebe Ellsworth, Grand Senior of the Maritime Domain of Pythian Sisters, who expressed the good wishes of the Temple to the Most Excellent Chief. Further arrangements were made for conducting the home cooking booth at the fair in aid of the New Brunswick Protestant Orphanage, which Mrs. Ellsworth gave an excellent report of the recent meeting of Grand Temple in Fredericton which she had attended as the representative of Loyalist Temple. The meeting last night was in the form of a social to honor Mrs. Watters and was very greatly enjoyed. Members of Moulton Temple, No. 14, were special guests. Refreshments were served.

TORY SUCCEEDS DOUGLAS AS N. S. LIEUT. GOVERNOR

Appointee Well Known in Political and Insurance Circles

ELECTED LEGISLATOR FROM GUYSBORO CO.

Was Minister Without Portfolio in 1923 Armstrong Government

OTTAWA, Sept. 24—His Honor James Robson Douglas, Lieutenant-Governor of the Province of Nova Scotia, has resigned, and his resignation has been accepted by the government. James Cranswick Tory, former minister without portfolio in the late administration of Premier Armstrong, former Premier of Nova Scotia, has been appointed Lieutenant-Governor in succession to former Lieutenant-Governor Douglas. Official announcement to this effect was made late this afternoon.

HON. JAMES R. DOUGLAS Former Lieutenant-Governor of Nova Scotia, who has resigned office. He is succeeded by James C. Tory.

Former Lieutenant-Governor Douglas was sworn in on January 22 last succeeding former Lieutenant-Governor MacCallum Grant. The newly appointed Lieutenant-Governor is a Liberal member in the Nova Scotia legislature for the constituency of Guysboro, and is well known in insurance circles in the Province and in Montreal.

BORN IN GUYSBORO.

HALIFAX, Sept. 24—Hon. James Cranswick Tory, was born at Port Shoreham, Guysboro county, on October 24, 1862, the son of Robert Kirk and Anorah (Ferguson) Tory. He was educated at the common school, Guysboro Academy, and at the Wesleyan Theological College, Montreal. After a commercial experience in Guysboro, he joined the staff of the Sun Life Assurance Company, going to the West Indies as a special representative in 1891, and the following year was appointed superintendent there. In 1896 he was appointed manager for Michigan, and returned to Canada in 1897 as superintendent of agencies with headquarters at Montreal. In 1901 he was promoted to be general manager of the Western Foreign Department of the company, and in 1915 was appointed to his present position, that of general manager of agencies, at the home office of the company in Montreal.

FIRST ELECTED IN 1911. He was first elected to the Nova Scotia legislature from Guysboro in 1911, and was re-elected in 1916 and 1920. He was appointed minister without portfolio in the Armstrong Government in 1923. He is also a member of the Montreal Board of Trade, a member of the Westmount Board of School Commissioners and a governor of Wesleyan Theological College.

MORE BOYS THAN GIRLS PARIS, Sept. 24.—Proof of the oft-repeated statement that nature tries to balance the sexes following war, with the birth of more boys than girls, is evidenced by the report of a maternity hospital here. The report shows that in 1913, 443 boys to 480 girls were born in the hospital, while in 1918 the figures were 776 boys to 667 girls.

MEIGHEN CONFIDENT OF VICTORY IN EAST

Tells Campbellton Throng That Liberals Won't Get a Seat in B. C.

CAMPBELLTON, Sept. 24.—Although the Maritime Provinces schedule of meetings to be addressed by Rt. Hon. Arthur Meighen was exhausted at Saint John last night the Conservative leader was not to cross the border into Quebec without making another speech.

When the train on which Mr. Meighen was traveling arrived here at 7.30 this evening a crowd was at the station to hear him. Although the shades of night were falling fast and it was raining, Mr. Meighen stepped from his car, mounted a convenient baggage truck and made a speech of some minutes' duration. He made optimistic reference to the probable result on October 29 and told his listeners that he had today received word from British Columbia to the effect that the Liberals would not win a seat in that province.

Mr. Meighen declared that if the government felt satisfied at conditions in the country he was equally so. He left the Maritimes with a feeling of confidence in the result of election in New Brunswick, Nova Scotia and Prince Edward Island.

FATHER IS HELD AS SLAYER OF GIRL

Indicted by Jury For Throwing Acid, Causing Death of Daughter.

Abraham Lepita, 48, of St. Albans, Staten Island, was indicted for murder in the first degree by the Queens Grand Jury for causing the death of his daughter, Mrs. Marion Pretz, 22 years old, by burning her with sulphuric acid. She died in the Jamaica Hospital on Sept. 17, after suffering for three weeks from burns.

On the day Mrs. Pretz died her father was discharged from the hospital, cured from burns caused when he spilled the acid on himself. District Attorney Richard S. Newcomb, learning of Mrs. Pretz's death, ordered an investigation and Lepita's arrest followed.

According to a statement by Mrs. Pretz before her death, her father and mother were divorced when she was young. She was placed with a family and was known as Marion Greenberg.

In 1923 Mrs. Pretz found her father in comfortable circumstances in Manhattan. She went with her father to live in St. Albans and after her marriage last May, he lived at her home. He is said to have thrown acid at her following a disagreement over breakfast.

BELIEVE ARRESTED MAN IS ANDERSON

Police Hold Prisoner in Florida Jail Awaiting Investigation.

WINTER HAVEN, Fla., Sept. 23.—A man, believed by police to be George (Dutch) Anderson, former accomplice of Gerald Chapman, but who gave his name as B. L. Bullman, former Mayor of Williamstown, W. Va., and once the head of an electric company at Marietta, Ohio, has been arrested here.

Police said they received a tip that the man believed to be Anderson was on his way to this city and his arrest followed. He was ordered held in jail pending identification.

The man, who was well dressed, had a number of Masonic cards and declared he was a Mason, but on being questioned by City Judge Walker and other Masons gave evasive and unsatisfactory answers and could not establish connection with a Masonic lodge. Fingerprinters of the prisoner were said to tally with those of Anderson. Telegrams were sent to federal officials in Atlanta.

U. S. Toy Industry Increases Rapidly

WASHINGTON, Sept. 23.—American children no longer have to depend on Germany for their toys for Uncle Sam's toy shops are turning out sufficient playthings for home use and export too, according to the Commerce Department.

The United States during the last fiscal year ended June 30 exported \$1,211,913 worth of toys while imports from all foreign countries totaled only \$1,160,178.

PORRIDGE LOSING FAVOR

GLASGOW, Scotland, Sept. 24.—Porridge, the famous old time Scottish food, seems to be passing. The amount consumed today is less than half that consumed 25 years ago, says a grocer's report. Porridge, as eaten in Scotland, is made from ground oats, stirred in boiling water with salt added. No sugar is eaten with it as in England. Fish, ham and eggs are taking porridge's place.

POLICE MUST SWIM

NEW YORK, Sept. 24.—Every city has its drawbacks, even to policemen. Just now New York is putting into effect an order requiring that all policemen must know how to swim. The reason, Commissioner Enright explains, is that the city is surrounded by great expanses of water, and to be a truly proficient policeman, one must be able to rescue persons, who accidentally, or otherwise, fall into the water.

PREFERENCE IS DOUBLED FOR CANADA GOODS

Logan Expects Maritime Trade With Indies to Grow Under Pact

POINTS TO INCREASE IN RECENT YEARS

Treaty Has Yet To Be Ratified by Federal Parliament

MONCTON, Sept. 24—The West Indies Treaty drafted after the trade conditions there had been considered for nearly a year practically doubled the preference on Canadian goods and in many instances was as high as 60 per cent.

ITS APPLICATION

"The preference applies to almost every product, either manufactured or grown in the Maritime Provinces, he said. It gives lumber, all fish products, boots and shoes, potatoes and many other farm products great preference. I say to that as commissioner to investigate the trade possibilities, because I was from the Maritime Provinces myself," Mr. Logan said.

New Wax Figures Pout and Frown

LONDON, Sept. 25—Wax figures as seen in the London shop windows are no longer all of the "beauty chorus" variety. Instead, some frown, some pout, some look downcast, some look peeved.

WAX Your Linoleum

YOUR linoleum will last longer, look better and clean easier if you polish it occasionally with Johnson's Paste or Liquid Wax. It prevents cracking—brings out the pattern and colour—protects linoleum from wear—and makes cleaning easy.

JOHNSON'S Paste - Liquid - Powdered POLISHING WAX

Wax is the ideal finish and polish for all your floors. It will make them beautiful—easy to care for—they won't be slippery—and will not heel-print. And WAX is, by far, the most economical finish and polish for floors and linoleum. With waxed floors expensive refinishing is never necessary for walked-on places can be easily and quickly re-waxed as they appear without going over the entire floor.

The easy way to wax floors and linoleums is to use a Johnson Weighted Polishing Brush. It spreads the Wax evenly—polishes the Wax easily—and is an ideal floor duster.

A Perfect Furniture Polish

Johnson's Liquid Wax is the ideal furniture polish. It covers up surface marks and prevents checking. Forms a thin, protecting finish coat and takes all the drudgery from dusting. Johnson's Wax adds years to the life and beauty of varnish. It is easy to apply and polish.

Johnson's Polishing Wax is conveniently put up in three forms. Use the Paste Wax for all floors—wood, linoleum, tile, etc. We recommend the Liquid Wax for polishing furniture, photographs, woodwork, linoleum, leather and motor cars. Johnson's Powdered Wax will immediately put any floor in perfect condition for dancing.

DR. PIDGEON URGES UNION BE EXTENDED

Favored Ultimate Fusion With Other Evangelical Churches.

TORONTO, Sept. 24—Rev. Dr. George C. Pidgeon, Moderator of the United Church of Canada, at the Toronto conference of the United Church in St. James Square Church, declared that the ultimate place of the United Church was that of union with every other evangelical church in the Dominion of Canada.

In speaking from the words of the Apostle Paul, "All made one in Him," the moderator said the message it gave to the members of the Christian church was that the more they were in Christ, the more would they be in fellowship, one with the other. So there was no doubt sectarianism did hold barriers between the members of the church of Christ, and whatever separated them from their brethren separated them to that extent from God.

New Great Diamond Discovered in Brazil

RIO DE JANEIRO, Sept. 25—Telegrams received here from Uberabina, State of Minas Geraes, state that a diamond of rare beauty and size, reputed to be the most valuable so far known in the world, has been found on the River das Garças in that State. The stone was discovered by a miner in the employ of a large diamond mining company.

JAP PRINCE LEADS PREHISTORIC PROBE

Relics of Mesolithic Age Sought by Expedition to Iwate.

TOKIO, Sept. 25—Relics of the mesolithic age are being sought by a scientific expedition to Iwate prefecture in Japan, headed by Prince Kashiwa Oyama.

The Prince is a son of the late Field Marshal, Prince Iwano Oyama, who led the Japanese to victory in the Russo-Japanese war. Aside from being a captain in the Japanese army, the Prince is a scientist, being known as a leading archaeologist in Japan and as the author of scientific books.

He believes the present expedition may unearth relics that "may have an important bearing in determining the existence of the mesolithic age in the prehistoric period of this country. We have no evidence so far that Japan was inhabited in the 'meso' or middle stone age. I am eager to find something in the caves which might reveal something of this middle stone age."

CHARGES HOLD-UP IN CANADIAN WHEAT

LONDON, Sept. 24—Tonight's Star states that the supporters of the "Buy Empire Goods" campaign are gravely concerned over reports that the current stocks of Canadian wheat and Australian wool are to be held up for higher prices.

It is alleged that the present prices are to be forced up and then kept at higher levels by withholding from the market for a time considerable portions of the Canadian wheat harvest of the year and the Australian wool clip.

HEIRESS WHO JILTED DIPLOMAT WEDS

Nancy Sayles Married to New Yorker After Engagement With Italian Broken.

PAWTUCKET, R. I., Sept. 25—Miss Nancy Sayles, daughter of the late Frank A. Sayles, was married at noon today to Lee Garrett Day, a New York importer, by the Rev. Frederick S. Penfold, rector of St. Stephens Episcopal church of Providence, at her home, Saylesholm, in the presence of her mother and 15 relatives and close friends.

Miss Sayles, with her sister, is heiress to the estate of her father, one of the largest in New England. Six weeks ago the marriage of Miss Sayles to Lieut. Ernest Lardenell Becci, first assistant secretary of the Department of the Interior of Italy, was indefinitely postponed while Becci was on a steamship bound for his country. No explanation for breaking off the match was given.

Miss Sayles is a Protestant and Lieut. Becci a Catholic, and it is said two Catholic priests were engaged to officiate at the wedding.

NEW YORK, Sept. 25—Frank A. Sayles, textile manufacturer of New England, disposed of more than \$35,000,000 in his will, according to an appraisal of his New York estate, filed here. The bulk of his property went to his wife, Mary D. A. Sayles, and his daughter, Hope and Nancy Sayles, Martha F. Nicholson and Mary Bookner.

The transfer tax report says that Mr. Sayles had a personal estate of \$33,923,780 and in addition \$2,396,903 over which he held the power of disposition, passed under the terms of his will.

SERVICES AT MISSION. Father Daniel, O.F.M., one of the two Franciscan fathers from New York, who are giving a mission at Holy Trinity church, preached last evening. Father Samuel, O.F.M., took part in the service also. The Blessed Sacrament was exposed in the church all day yesterday. There was to be a public "Way of the Cross" this afternoon at 3:30. The men's mission will conclude on Sunday.

REPORT IS SAID TO BE UNTRUE

Commander Booth and Others Speak of Salvation Army Matters

Denied That Her Removal From United States Is Subject of Conference

NEW YORK, Sept. 25—Commander Evangeline Booth, head of the Salvation Army in the United States, denies reports that her brother, General Bramwell Booth, Salvationist chief, has sent two high officials here to arrange for her removal from the office she has held for nearly twenty-one years. Conferences with Commissioner Edward J. Higgins, chief of staff of the Salvation Army, and Commissioner David Lamb, both of London headquarters, with Commander Evangeline Booth, it was said were inter-army and not inter-family discussions, and had nothing to do with the rumored resentment of General Booth over his sister's popularity in this country. Miss Booth, who has become a naturalized American citizen, has raised the American branch's property wealth from \$1,000,000 to \$32,000,000 in twenty years.

"Commissioner Higgins is here, commissioned by the General to discuss with me important business affairs of both national and international nature," said Commander Booth. His visit has no bearing upon the question of my leaving the United States. The matter has not been raised. America knows me well enough to have every confidence that I shall do the right thing with respect to the country as well as the Salvation Army."

REMOVAL NOT DISCUSSED. Commissioner Higgins also denied he was here to inform Commander Booth that her brother wished to remove her from the American command. He, too, said the matter had not been discussed.

The unpleasant rumor that the American headquarters must contribute heavily to British headquarters has again appeared," said Colonel Griffin. "This is untrue. Outside of \$70,000 in annual self-denial week offerings, which really go to foreign missions, not a cent is sent abroad."

ENDS HIS LIFE AS AUDITORS ARRIVE

Harris Dodge, Town Treasurer of Charlton, Mass., Tried to Burn Books.

CHARLTON, Mass., Sept. 25 — Harris Dodge, town treasurer here for 35 years, moderator of the town meeting for a generation and one of the leading spirits of this little town, shot and killed himself, two hours after State auditors arrived to go over his town accounts.

Dodge's action followed an attempt to destroy the town records by burning them in the fireplace of his home. The burning books in the open fireplace showered the roof of his home with sparks and drew the attention of neighbors and the fire department. After the fire was extinguished, the elderly treasurer was found in his room, mortally wounded.

With his son, Arthur, he has conducted the village store, the most prosperous business enterprise of the community. Besides his wife, he is survived by two sons and two daughters. The townsfolk were almost unanimous in asserting that the State auditors would find no discrepancies or hidden speculations in the records of the veteran treasurer, basing their convictions on his enviable record of 25 years, during which time he has handled millions of dollars of the town's money.

Old Indian Supports Evolution For Whites

PERRY, Okla., Sept. 25—Belated observations of Chief Eagle of the Otse tribe throw additional light on the evolution controversy. "Put anything before Indian. All Indians come and divide," said the Chief. "Indians eat, drink, smoke, talk, have good time, go away happy. Indian come from spirit God. Put something before monkey he grab all of it. White man same way. White man must come from monkey."

Labor-Saving Devices Gain Rapidly in Japan

TOKYO, Sept. 25—Japan is turning toward the new labor saving devices of the West.

A radio and electric exhibition is planned to be held in Tokyo in October. At this exhibition all sorts of up-to-date equipment for the home is to be shown, including electrically operated washing machines and other appliances for domestic use. MORE ROOM FOR WORK REQUIRED

Manual Training and Domestic Science Work Declared Handicapped

Awards Made to Pupils in Showing at Exhibition Are Announced

In the manual training classes of the city schools there are about 1,100 pupils enrolled, and the problem of accommodation for the classes is one that is becoming more serious each year. As it is the High School annex is being used for a manual training class room and the High School needs that room for its own pupils.

NO SUPPLY TEACHER.

This branch of the school studies is also handicapped by the fact that there is no supply teacher and if one of the manual training teachers is ill it simply means that the class does not receive instruction but returns to the regular class room to carry on other work.

Mr. Gunter and Miss B. Holder teach the classes of manual training that meet in the two rooms of the manual training building in Waterloo street that have accommodation for 39. J. D. MacLean instructs classes in the High School annex, where there is accommodation for 24. C. H. Cochrane is the instructor for the classes in New Albert school and J. N. Dow teaches the classes in Lorne school. These last two rooms have accommodation for 20 pupils.

AT EXHIBITION.

At the Saint John Exhibition some articles made by the boys of the manual training classes were shown in a very attractive display and visitors to the Exhibition declared the manual training exhibit was the best that had yet been shown. A very high standard of craftsmanship was seen in the articles made by the boys and these were of many different kinds, varying from sets and a toboggan to a tea cart, drawing room tables, high grade upholstered furniture, clocks, lamp standards, coat trees, candlesticks and a great number of other articles.

Special "community" pieces displayed at the exhibition were a large dining room table in black walnut which had been made by the Lorne school and a teacher's desk in oak which had been made by the pupils in the same school for the school furnishings.

Many boys worked on these two pieces and as they worked the "community" spirit and school spirit were well fostered. The finished pieces are of good workmanship as any experienced cabinet maker could produce. If there are many handicaps to the manual training work in the city schools at present that work is always assured of the keen interest of the pupils and many of the boys devote much of their leisure time to working on some special piece in which they are particularly interested.

PRIZES GIVEN.

The Exhibition Association gave prizes for the various classes of work displayed in the manual training exhibit and these prizes of silver and bronze medals have just been handed over to Mr. Gunter to distribute. The winners of prizes and diplomas are as follows:

- Best collection of drawings, Grade VII.—First, Robert Ross, Winter street school; second, Herbert Jones, Winter street school.
Best collection of drawings, Grade VIII.—First, Ernest Clarke, St. Vincent's; second, Henry Darling, Winter street.
Best collection of models, Grade VII.—First, Herbert Jones, Winter street; second, John Cunningham, Holy Trinity school.
Best example of woodwork, Grade VII.—First, Edmund Lloyd, St. Peter's, a bookcase; second, Douglas Stammers, New Albert school, jardiniere stand.
Best example of woodwork, Grade VIII.—First, Donald Foster, Alexandra school; piano bench; second, Edwin Niles, New Albert school, library table.
Best example of carving—First, Herbert Purdy, Winter street; second, Lewis Thomson, New Albert.
Best example of wood finishing and turned pieces—First, Louis Barrett, St. Vincent's; second, Fred White, King Edward school.
Best example of wood finishing of flat pieces—First, Donald Foster, Alexandra school; second, Thomas McClelland, King Edward school.
Special prize, bronze medal, given to Norman Akerley of Lorne school opportunity class for a cedar chest made by himself.

DOMESTIC SCIENCE.

The matter of accommodation is an even more serious handicap to the domestic science departments than to the manual training work in the city schools and the pupils have to go long distances from one school to another to take domestic science instruction. There are just four class rooms where the girls receive this instruction, two in the manual training school, one in Lorne school and one in New Albert school. Miss Ida Northrup is the head of the domestic science department and other teachers are Miss Daisy E. Harrison, Miss Jessie Hartt and Miss Lillian D. Currie.
The domestic science exhibit at the exhibition occupied a corner of the manual training space and the visitors to the exhibition remarked upon the excellence of the work of

Pair Patch Up 22nd Split-up In Four Years

BIRMINGHAM, Eng., Sept. 24.—William A. Farnell and his wife left the Birmingham police court arm in arm, having patched up their twenty-second separation. "It is all due to my hot temper," Farnell explained in an interview. "I am no saint, and we have 'busted up' twenty-two times in four years. But this time we are going to live happily."

ENGLISH DRINKING STILL INCREASES

Beer is Favorite Beverage; Consumption Yearly 16.4 Gallons Per Capita.

LONDON, Sept. 25.—(United Press)—Drinking is on the increase in England.

Contravening the optimistic assertions of the Prohibitionists that England's days as an oasis for the thirsty are wanting comes the official report of the licensing bureau stating that there were 2.6 per cent more convictions for drunkenness in England and Wales during 1924 than during 1923.

The report contains other items calculated to stir the envy of the thirsty in arid America. For instance, SATURDAY WETTEST.

Saturday is the wettest day of the week, and contributes 83 per cent of the week's total of arrests for drunkenness.

Friday is the second best day, with 16 per cent.

Monday is third, with 13 per cent. Sunday, Tuesday, Wednesday and Thursday contribute between 9 and 10 per cent each.

There is one saloon to every 832 people.

The number of saloons decreased by 376 during the year; but the number of licensed clubs increased by 318.

Beer is far and away the favorite drink, with a consumption of 16.41 gallons during the year for every man, woman and child in the kingdom.

Whiskey, however, averaged only a little over a quart a year a head. Experts here draw the conclusion that because of unemployment and low wages the banner sales went to beer as offering more for the money than whiskey.

Arrests during the year total 79,082, an increase of 1,988 over the previous year.

Japan Experiments In Radio Telephony

TOKYO, Sept. 25.—The Japanese Government is conducting experiments to discover the feasibility of radio telephony in Japan, according to an announcement from the Department of Communications.

The proposed plan is to link radio apparatus throughout Japan with the existing network of telephone lines to perfect communications that could serve in times of emergencies, when the ordinary land lines might be out of commission. Experiments with the service are under way between Tokyo and Numada.

France freed its negroes in 1848, more than a dozen years before the United States emancipation.

the pupils in sewing and cooking. In the judging of the exhibits for sewing from New Albert school, Ola Kelly came first and special mention was given Barbara Kelly and Geraldine Buckley. In Lorne school, sewing Phoebe Irwin was first and special mention was given Marlon MacFarlane and Alice Rourke. In Miss Harrison's class Lillian Jacobsen was first and special mention was given Marlon Hamilton and George McKay. In Miss Northrup's class Ethel Knodell was first and special mention was given Gladys Brown and Edith Wilson.

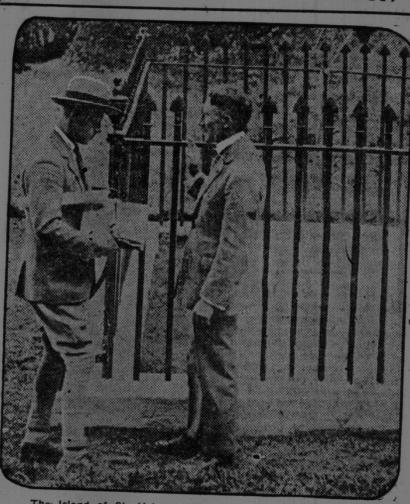

Two Movie Stars Are Sued For Back Taxes

LOS ANGELES, Sept. 25.—Income tax liens against Barbara La Marr and Lew Cody, motion picture stars, have been filed by the Collector of Internal Revenue. Miss La Marr is alleged to owe the Government \$927 for 1924 and Mr. Cody \$450.

Kobe Tying.—Kobe, Sept. 25.—Silk merchants here are working hard for the establishment of a national silk testing house here.

This, they state, will aid them greatly in the attempt now being made to make Kobe the foremost silk shipping port in Japan. Yokohama now holds the honor. Kobe's silk exports in 1924 are estimated at more than 100,000,000 yen, and the merchants say this year this will increase to 150,000,000 yen.

PAYING HOMAGE TO NAPOLEON

The island of St. Helena, where Napoleon died in exile, was one stop that the Prince of Wales insisted on making in his world tour. This exclusive picture shows him standing at the tomb where Napoleon's body was buried, "chatting with the French consul."

ANDERSON ASKING FUND OF \$45,000

Circulars to Dry Supporters Appeal For Money to Pay His Debts.

NEW YORK, Sept. 25.—William H. Anderson, former state superintendent of the Anti-Saloon League, is appealing personally to dry supporters throughout the country for \$45,000 with which to pay his debts.

This sum, according to circulars sent out this week, is required to free Mr. Anderson from personal burdens so he can give undivided attention to the dry Protestant fight which is yet to come.

The circulars ask subscriptions for the \$45,000 fund to be sent to "M. M. Odell, treasurer."

HIS STENOGRAPHER. The "M. M. Odell" so named is Mary A. Odell, Mr. Anderson's personal stenographer, who has been employed by him for 20. Miss Odell was a witness in his defence when he was tried and convicted of second degree forgery. For this offence Anderson was sentenced to one year in Sing Sing. He served nine months and was released on parole last Christmas eve.

The direct appeal for funds to discharge the indebtedness, which Anderson admits is hampering his activities, comes as a part of the campaign on behalf of Anderson's new "bone dry" structure, which he himself describes as a sort of "super anti-saloon league" and which is known as the "American Prohibition Protestant Patriotic Protective Alliance."

MORE PERMITS.

The number of school permits for new pupils entering the city schools that has been issued up to the present time this term is close to 100 in excess of the number issued up to the corresponding date last year. On Sept. 23, 1924, the number of permits that had been issued was 1,146 and on Sept. 23 this year it was 1,229.

MUSEUM GETS MORE SPECIMENS

Donations of Interest Come as Result of Exhibition Showing

Old Picture of King Street, Saint John, Among Added Treasures at N. H. S.

The Natural History Society has received a number of gifts during the last few days and in each case the gift has come from some one who saw the society's collections at the Saint John Exhibition and became interested in examining them. The visitors at the exhibition were reminded that they themselves possessed treasures which the society would be glad to receive and which would help to make more comprehensive the various collections at the museum, and their gifts have been gratefully received. The gifts include an old type of pistol, a picture of old Saint John, some shells and stones of special interest, a war map of Belgium and France and a number of official cards used by the Canadian troops overseas.

W. R. Lawton, 9 Pine street, has presented a pin-fire, six-chamber revolver of 32 calibre. The revolver is in good condition and is a splendid example of an old type of revolver which was not included in the museum collection of such arms.

AN OLD PICTURE. An anonymous donor has presented to the society a picture of old Saint John, showing King street with the old Coffee House in the foreground. The picture is dated 1840 and it fills in a gap in the pictorial history of the city which the curator of the museum,

Dr. William MacIntosh, is endeavoring to obtain. The pictures of old Saint John already in the possession of the society give a very good idea of how the city has developed in each succeeding decade and with each new picture added to the collection it becomes a more complete record.

Miss Villa Starke has presented to the society several old Saint John newspapers containing articles of special historical interest and has also donated some articles of jet and a number of other pieces of historic interest.

SHELLS AND STONES. Miss A. L. Hunt, of Hampton, is the donor of a collection of shells and several pieces of stone that have exceptional interest. Included in the pieces of stone are a fortification agate from the Hopewell Rocks and a bit of mosaic from the House of Apollo in Pompeii.

The war map and war souvenirs were presented to the society by R. C. Thomas. The map shows all of the wagon roads of a large section of the war area of Belgium and France and has evidently seen much service. The war souvenirs include a field service post card, leave of absence slips and passes, a card for admitting a wounded man to a hospital ship and a meal

MONTREAL TOLD OF LOYALTY IN MARITIMES

They Adhere to Confederation Despite Failure to Get Markets

BELDING TALKS TO THE KIWANIS CLUB

Says East Crippled by Freight Rates and Denied Immigrants

MONTREAL, Sept. 24—A. M. Belding addressed the Kiwanis Club today on the Maritime situation and was given a splendid reception. In his opening remarks he took pains to review the history of Confederation, which was not sought by the Maritimes, but by the people on the St. Lawrence and the Lakes. On this point he quoted Sir Leonard Tilley's words at Quebec: "The delegation of the Maritimes are not seeking this union," and in a reference to the Intercolonial he quoted Sir John Macdonald's declaration that it was a military necessity for the protection of central Canada as well as a national work for the benefit of the whole country.

STRUGGLE TAKEN UP.

Having established by the record that the Maritimes had not sought the union, but by uniting had saved the situation for the warring elements in what are now Quebec and Ontario, and stifled the movement in the latter toward annexation, Mr. Belding proceeded to show how the Maritime people loyally took up the struggle against geography and economic principles only to find in the end that they could not compete industrially with the Central Provinces, could not get markets for their natural products, were denied immigrants, were crippled by freight rates in violation of the spirit of the pact of Confederation, and therefore languished, in spite of their sea-board location and their rich resources of the forest, the farm, the mine and the sea.

LOYALTY PROVED.

Mr. Belding rapidly reviewed recent history with reference to the Moncton conference and that to be held in Charlottetown, leading up to the later national conference in Winnipeg, declaring that in thus endeavoring to secure a better understanding and a better economic policy the Maritime people are proving a loyalty which was first demonstrated when their forbears came out of the United States and again when they entered Confederation. With regard to pre-election pledges made by both political parties, Mr. Belding observed that these did not come with the shock of a great surprise.

LAUDS CANADIAN SPIRIT.

"We inherit the promises," he said. In closing, the speaker made an earnest plea for a better understanding and paid a warm tribute to the true Canadian spirit he had found everywhere on his present mission in Montreal in the interest of Canadian trade through Canadian ports.

Prolonged applause greeted him at the close, and he was assured that the story he had told would not be disregarded.

Mr. Belding was asked by a leading Kiwanian from Kingston if it would be possible for him to deliver the same address before the Associated Boards of Trade of Eastern Ontario in November.

INGLEWOOD CASE AGAIN POSTPONED

Ruling Given by Judge LeBlanc on Hydro Hearing Costs.

MONCTON, Sept. 24—Mr. Justice LeBlanc, in the Supreme Court Chambers today, decided that the costs in the case of the Record Foundry & Machine Company for damages caused by the New Brunswick Electric Power Commission should be paid by the latter. In the case of the New Brunswick Old Fields, Limited, Judge LeBlanc decided that the company should pay. In both instances the costs amounted to about \$800.

The Inglewood Pulp & Paper Company's claim for about \$800,000 damages was adjourned for hearing until November.

2 Fast Dixie Trains Crash; Nobody Hurt

ATLANTA, Sept. 24—The Dixie Flyer and the Dixie Limited, fast trains of the Nashville, Chattanooga and St. Louis Railroad, collided at Worley, ten miles from Chattanooga, Tenn., late today, the engines of the two trains going over an embankment, according to information received by the Chief Dispatcher of the railroad here. No one was reported killed or injured.

Dalhousie To Get New \$52,000 School

DALHOUSIE, Sept. 24—In the presence of the trustees, W. A. R. Craig, D. G. Stewart and C. McNeil, the tenders for the erection of a new public school building were opened today by J. B. Delaney, secretary-treasurer of the town school district. There were seven tenders, the lowest in the neighborhood of \$52,000, being from the firm of the Harquail Company, Campbellton. This was accepted.

VET'S BODY BURIED.

RICHMOND, Va., Sept. 24—At first unclaimed and removed to a medical college for dissection, the body of Frederick Kenneth Thomas, world war hero, formerly a captain in the British Royal Flying Corps, was claimed by the American Legion here, and was buried with military honors today.

ASBESTOS IS STRONG SPOT IN MONTREAL

Continues Advance After Sharp Recovery—Rest of List Quiet

WALL STREET MOVES TO HIGHER GROUND

Selling Pressure Off, Operations for Rise Continued With Confidence

MONTREAL, Sept. 25—Asbestos common was the strong spot during the early trading this morning on the local stock market, that issue, following the sharp recovery of the last two days, which brought the price up from 85-1/2, advancing a point to 91. The balance of the list was extremely quiet, with Brazilian again leading in activity, but sagging 1-4 to 72-1/4. Abitibi was also easier, being down 3-4 at 66-1/4. Canadian Cottons preferred was up 1-2 to 45-1/4, and Steamships preferred 3-8 to 55. The other changes were in Brompton, a small lot of which changed hands at 23, off 1-2, and Steel of Canada, down 1-4 at 92-1/4. Canadian Industrial Alcohol, Atlantic Sugar preferred and Montreal Power sold unchanged at 143-4, 89, and 210 respectively.

IN WALL STREET.

NEW YORK, Sept. 25—Subsidence of selling pressure, which has given recent sessions a reactionary appearance, characterized the opening of today's stock market, which resumed its march to higher ground. With the danger of an increase in the New York Federal Reserve discount rate removed for at least a week, and a return to easy money rates, assured, speculative operations for the day were conducted with confidence. Fleischman opened two points higher at 121-1/2, a new record top, and initial gains of a point or more, were recorded by Chrysler, Tobacco Products, Stewart Warner and General Electric.

CHARLOTTE, BELOW BRITAIN STREET

SPRINGHILL DETERMINED TO DEFEAT WATERMEN TOMORROW

NOVA SCOTIANS ARE DUE HERE THIS EVENING

Entertainment Will Be Arranged For Visiting Team

SPRINGHILL Miners, champions of Nova Scotia, are due here this evening at 10 o'clock and advance reports from the mining centre are to the effect they are coming fully determined to win against the Saint John Watermen here tomorrow on the East End grounds at 3 o'clock, and thereby force the Maritime semi-finals into a third and deciding game at Moncton next Wednesday.

A large band of rosters is accompanying the Nova Scotia champions. W. E. Stirling, vice-president of the M. P. B., announced this morning that Robert Atcheson would handle the game, which is expected to be attended by the greatest crowd of the year. In case the weather is not favorable the game probably will be played Monday afternoon here.

The game is expected to be bitterly fought as both teams are very evenly matched. Lloyd Stirling will be on the mound for the locals with Hannah and Gorman in reserve, while it is probable "Lefty" Albon will start for the visitors with Hatherly as second choice. Sparks will catch for the locals and "Jimmie" O'Rourke for the visitors. Arrangements for entertaining the visiting team are being completed today. Manager Snodgrass said. This will probably take the form of a banquet and dance.

Although Springhill is rated as a hard-hitting crew, the team batting mark in the championship with Westville was a little above the 300 mark. Here are the figures for that series:

Table with 3 columns: Player Name, Batting Average, Fielding Percentage. Includes players like Dunbar, Westville, O'Rourke, etc.

HANNAH'S GREAT WORK

A close analysis of the detailed score of the game reveals the remarkable fact that only one earned run was made off Ira Hannah's delivery. Gallagher scored in the first inning for the Springhill boys, but he got on previous through a bad muff of his fly to the outfield. The tone seemed silly came in the fifth when O'Rourke, the hard-hitting Springhill captain, counted the ball for two bases on the first up. Albon struck out and Lorimer's single sent O'Rourke to third, from where he

scored when Rushton grounded out to Snodgrass. The third run came in the next inning when Crawford singled and took second when the ball passed through the locals' centerfielder. Hannah got Burden at first, while Crawford was sliding into third. Crawford scored on Sparks' bad throw to Corrie.

"Goose" Goslin Stars As Senators Clinch Their Second Pennant

Along The Sport Trail

WHO WILL BE the star of the 1925 world series? Usually, it has been a player little heard of during the stress and drive of the summer campaigns, sometimes a substitute who rises at the critical moment of the entire series and swings the tide of victory one way or the other. Once in a while it is a star at the game but of little more than a name to the rank and file of the fans. Last year, Walter Johnson, the idol of America, floundered badly in two games while an unknown boy by the name of McNeely delivered the rap that won the series. In the series to date for the Maritime championship, the palm as the outstanding player must go to "Johnny" Corrigan, third sacker for the Watermen. The other boys are playing fine ball but to date Corrigan's batting has verged on the extraordinary. In the eight games played by the locals for the Maritime title, Corrigan has hit safely in every game. Out of 84 times at bat, he has secured 23 hits for the exceptionally fine mark of .676. Next to him is Charlie Gorman with a mark of .392. Corrigan bids fair to carry off the individual honors for the entire series. The timely batting of Hannah and Sparks has been another big feature of the locals' play.

THE PIRATES have lost but five games this season to southpaws. That may or may not let "Dutch" Reuther and Zachary of the Washingtons out of it. They murder fast pitching. That MIGHT let Walter Johnson out of it.

WHAT'S WRONG with the boys going to Grade 9 and 10 at High School in not turning out in larger numbers at Rugby practice this year? We years 100 to 150 was no exception. For the numbers it can draw from, Saint John High School should mop up the ground with either Fredericton or Rothesay but annually these smaller schools soundly trounce the locals. The locals have a good ground on which to practice and there can be no excuse on this account. If the boys of Grade 9 and 10 are not going to turn out to help the old High to put a team in the field, for future fifteen depend on the material in these grades. Buck up, you boys, and take a little time off from parading the streets after school and get some healthy exercise in this manly game.

THE MORNING CHRONICLE, Halifax, speaking of "Bob" Atcheson's work in the big game last Saturday at Truro between Westville and Springhill says: "Atcheson handled the deciding game Saturday at Truro and showed lots of class." Doff your hat, Bob.

WORK HARD and eat little if you want to live to be a hundred" is the advice handed out by Jonathan Fouke, 108-year-old Los Angeles sprinter who recently beat a field of old-timers, none of whom were under 73. "The hard and eat little—that's the secret of living a long time," he explained.

Referring to this, the Halifax Chronicle's Springhill correspondent says: "Alfie Lefty" Albon was not in his usual good form, and was nicked for timely hits in the pinches, but for the left-handed thinking of the locals that spelled defeat today. Springhill collected just fourteen safe hits in nine innings, a tidy total in any game, but they scored just three runs, the result of poor base running and poorer baseball. In the pinches, where the miners usually start, they were 'not out' today, while the Saint Johner's breezed along merrily, taking advantage of everything, producing nice safe hits and netting the hit in the pinches.

"Four runs in the second inning, resulting off two safe hits, three passes and one error, a costly wild throw, gave the visitors the winning margin. Springhill tried many times to overtake that margin, and had enough chances to even pass the mark at which they were shooting, but threw away every chance.

"Hannah, pitching for Saint John, was bumped hard in all eight innings, but he received smart support from his mates in the pinches, and pulled out of several bad holes today.

Although he has shown as much as any other pitcher in the Maritime, the locals have not given up hope of capturing the Maritime title. The second game, which is scheduled for Saturday at Moncton, should be a much better exhibition of ball than today's poor display, and the locals, providing they are in form, have an even chance to win."

FRANSES MINERS. Speaking of the game on his return home yesterday, Manager Snodgrass declared that Hannah's pitching and Corrigan's hitting verged on the sensational. "Saint John fans," he said, "can bank on seeing a real team here tomorrow, the hardest bunch we have faced yet, but I am confident we will win. Their captain, O'Rourke, and a few others are natural hitters, and swing hard and they hit them hard. In addition they are a fast-fielding crew. We will have to step real lively to beat them, but playing on our home ground should help us. Springhill's coming here determined to win and I look for championship baseball, provided the weather man gives us an even break. There is one other matter that impressed at Springhill more than winning that game and that was the reception tendered us by Springhill. We have never been received better in any place. I can't make this too strong. They treated us very fair and very square."

NEW WORLD RECORD. OSLO, Norway, Sept. 23—Sweden won the triangular athletic competition here today with 31 points. Norway scored 25 and Denmark 14.

Lindstrom threw the javelin 67.31 meters (about 221 feet), but it is doubtful whether this record, which surpasses the world's record, will be admitted, as he was favored by a strong wind.

THE popular preference for Currie Quality Garters is influenced by their attractive appearance, as well as by the assurance of comfortable and satisfactory sock support throughout many months of service.

LEAGUE LEADERS CLASH SATURDAY AT SUNDERLAND

Much Interest Centres On Tottenham-Sunderland Meeting

LONDON, Sept. 25—The feature of English League football on Saturday will be the clash between the two league leaders, Tottenham Hotspur and Sunderland, in a contest that is scheduled for the ground of the latter-named team. The game will take on the character of a battle between the North and the South, and will go a long way toward deciding whether Sunderland, which until Monday had pursued a conquering career, will continue to be the "wonder team" of the league.

As it stimulates the rivalry between North and South, it is noted that on the same day that the Spurs travel towards the Cheviots, the most northerly club the league, Newcastle United, play their first call on the London teams. On Saturday the Northumbrians take the field at Upton Park against West Ham. The game will be scarcely less interesting than that at Sunderland. Until a week ago the Hammers gave great promise of accompanying their fellow-metropolitans a long way, but at Leeds they stumbled badly and came out at the short end of a 5-2 encounter. As if this were not sufficient humiliation they moved over to Highbury last Monday, and once more had a defeat chucked up against them at the hands of Arsenal. Following a series of four wins and a draw, these two reverses were disappointing to their fans, who are somewhat apprehensive for the day after tomorrow.

NEW YORK, Sept. 24—A field of 78 women golf stars will compete for the national championship at St. Louis, starting next Monday, according to the entry list and pairings made public today by the United States Golf Association.

Gene Tunney Meets Madden

MINNEAPOLIS, Sept. 25—Gene Tunney, United States light heavyweight champion, hopes to stamp himself as the outstanding contender for Dempsey's crown in his light here, tonight, with Bartley Madden, of New York. The fight is scheduled for 10 rounds. There will be no referee or judge's decision, only the usual newspaper verdict. Tunney hopes to do what no other heavyweight has done, knock out Madden, long the trial horse of the heavyweight division. Madden stayed fifteen rounds with Harry Wills, the negro heavyweight, losing the fight on points.

"Babe" Ruth Gets 21st Homer With the Bases Loaded

NEW YORK, Sept. 25—The American League pennant flew unchanged at the Washington masthead today, for the second consecutive season. Clarke Griffith's Senators made certain of meeting the Pirates in the world's series by sweeping both ends of a double-header against Cleveland yesterday, 4 to 3 and 6 to 2, while the Mackmen were succumbing to the Browns, in an 11-inning contest, 6 to 4. Nine games ahead, Washington can lose all its remaining games, and still take the flag. To "Goose" Goslin, slugging outfielder of the champions, goes a generous share of the glory for sewing up the titles after hitting a homer in the first game, he drove home the winning run in the second. Alex. Ferguson easily subdued the Indians in the second encounter.

Limiting the Tigers to four hits, Ruffing pitched shutout ball for the Red Sox yesterday, 5 to 0, reducing the chances of the Cobblers finishing better than fourth. The Tigers' defeat, coupled with the St. Louis victory over the Mackmen, put Detroit two and one-half games behind the third place Browns. Ruth beat the White Sox by a homer in the tenth with the bases filled, making the score 6 to 5. It was his 21st homer of the season.

Pittsburg, with the National pennant already won, could afford to suffer a shutout, 4 to 0, at the hands of the Giants, but New York had the satisfaction of clinching second place in spite of a 3 to 2 verdict scored by the Reds over Brooklyn in 11 innings. Bob McGraw, Brooklyn recruit from St. Paul, allowed only eight hits. Rixey won his own game with a single, which drove home the deciding tally.

F. W. STRINGER SAYS FAREWELL

Is Guest of Imperial Theatre Staff at Beatty Function

Goes to Scenes of Movie Making in California—Noted Work Done Here.

At the lunch hour today in the private dining suite of the Admiral Beatty Hotel the male members of the staff of the Imperial Theatre tendered a farewell luncheon to Frederick W. Stringer, staff artist, who is to leave soon for California with his family to take up residence there.

Manager W. H. Golding presided at the head of the table of twenty-five Keith-Albee employees. Chef Calame prepared a very appetizing repast and the rooms were prettily decorated with cut flowers and palms.

Mr. Golding's remarks were supplemented in similar vein by A. E. Jones, musical director; George Enos, chief electrician; M. L. Harrison, dean of the staff, and others.

Mr. Stringer's reply was a heartfelt one in which he expressed natural feelings of deep regret at leaving an association of nearly fifteen years with the Imperial staff, a period in which he had become quite thoroughly Canadianized and had been given every opportunity to develop his vocation.

Mr. Stringer has been the leading specialty art worker of the Maritime Provinces since his arrival from the Harrod Store, London, in 1910. In the great London establishment he was decorator and artist-wood carver for a number of years but could not withstand the Canadian lure.

Since arriving in this country he has been in the employ of the Keith-Albee theatres, where he had him to do work in some of their Upper Canadian theatres and in the State of Maine. Aside from his work in Imperial Theatre, with which Saint John people are familiar—stage settings, re-decorated auditorium, card-writing, patriotic displays, etc., he has re-decorated a chain of theatres for F. G. Spencer in the three provinces during the last few months.

He is the author of a remarkably fine example of ecclesiastical decorative art in the private sanctuary of Saint Peter's rectory, North End. Mr. Stringer also re-decorated L. R. Acker's Orpheus Theatre in Halifax last year; the new Convocation Hall of Acadia University, Wolfville, N. S., and at the time of the Prince of Wales' visit here his handwork and designing in welcoming arches, building displays and pictorial greetings created widespread comment and some of them were sent to the larger centres of Canada in anticipation of the Prince's visit there.

During the war Mr. Stringer was promoted to the position of Sergeant Major in the 18th Battalion, being retained as a trainer of new men in the English camps for a protracted period. Finally, chafing under delay, he volunteered himself in order to get to the battlefield but was again promoted quickly to his old position on the field. He was wounded at Passchendaele and invalided to the Island of Jersey.

Mr. and Mrs. Stringer take a family of ten children with them to California.

DEATH CLAIMS EDWD. PURCHASE

Passes Away at Torryburn Home After Few Days' Illness

Was Workers' Leader in Co-operative Plan at Pender Company Plant.

Edward Purchase, for years active in community work in Saint John, died at his home in Torryburn this morning after an illness of but a few days. Many friends will miss his kindly greeting and will mourn for a good friend.

He was stricken with acute indigestion a few days ago at the noon hour while at the plant of the James Pender Co., Ltd., where he had been a valued member of the staff for a long time. He was taken to the home of his sister, Mrs. Tracy, Carleton street, and on Wednesday evening was removed to his own residence in Torryburn. There, despite all that could be done for him, he passed away this morning.

The news was a shock to many as it circulated, and particularly among his fellow workers in the Pender employ, where he was highly thought of.

ONCE PHOTOGRAPHER. Mr. Purchase was a life-long resident of Saint John. He was born here in 1862. For a time he was engaged in the photography business but for about the last 30 years he has been with the Pender Company—at first in the wick mill and latterly in charge of the stock room. He was one of the most active of the staff in carrying out the co-operative plans of the company and employees, which have won so much prominence lately. He was at the head of the workers' committee and gave much time and thought to the duties devolving upon him in that regard. Similarly he was a leader in the social and other activities which have knit the employees there into one large family and he had won the high regard of his confederates and of the company. "He will be a great loss," said William F. Knoll, superintendent, this morning, in expressing his sorrow at the news of his death.

IN COMMUNITY WORK. Welfare work was a delight to Mr. Purchase. He had been engaged in it for years in the city and had done much in the interest of the boys. When he moved to Torryburn some five or six years ago he continued it there. He was possessed of kindly manner and genial disposition and friends were readily gathered about him and as readily dispersed.

In religion Mr. Purchase was an Anglican and formerly attended St. James' church. He is survived by his wife, Miss Margaret Boyd; by one son, Harry, of the General Electric Co. staff, Boston, and who also is carrying on his advanced studies in the city; and by one daughter, Miss Audrey, at home.

SUPPER DANCE AT BEATTY BRILLIANT

Many Attend Function in Georgian Ball Room of New Hotel.

At the Admiral Beatty Hotel last evening one of the most brilliant supper dances yet held there was enjoyed. By special request it was held last evening instead of this evening to accommodate the guests for the Hooper-MacLaren wedding. The Georgian ball room was resplendent with lighting artfully arranged.

Among those present were Mr. and Mrs. C. H. Peters, Mr. and Mrs. F. A. Godsoe, Mr. and Mrs. H. A. Peters, Mr. and Mrs. Ian MacLaren, Mrs. Douglas Macaulay, of Montreal, Miss Edith Cadell, of Montreal, Miss Doreen McAvity, Miss Olivia Gregory, Rev. Kenneth Taylor, of Montreal, Mr. and Mrs. Douglas V. White, Miss Florence Puddington, Miss Constance White, Miss Ruth Robinson, Miss Elizabeth Armstrong, Miss Jean Angus, Miss Leslie Skinner, Miss Viola McAvity, Miss Frances Gilbert, Miss Hortense Mather, Mr. and Mrs. Daryl Peters, Miss Eileen Wilkins, Miss Aileen Morrison, Mr. and Mrs. J. Robertson, Curry, Messrs. Fenwick Armstrong, P. Halliday, Arnold McAlpine, Dr. J. F. Edgercomb, Atwood Bridges, George D. Hudson, Murray Vaughan, Ralph Miller, Percival Streeter, Eric Thomson, Howard Beatty, P. Coombs, Elmer Puddington and Jack Holly.

Shower in Honor of Miss Dolly Leggett

Miss Dolly Leggett, daughter of Mrs. Catherine Leggett, 38 High street, was given a delightful novelty shower at her home, when 65 friends, including her associates in the New-Brunswick Telephone Co. service in the city and West Saint John, were donors of lovely gifts in china, linen and cut glass. Miss Leggett is to be married in October.

The house was tastefully decorated with roses and other cut flowers, and a committee served refreshments, con- vened by Miss Hallie Fingler, Miss Nell McKinnon and Miss Vivie McIntyre. Bridge was enjoyed, and the prizes-wonners were Miss Edna Dever and Miss May Kilpatrick.

During the evening the guest of honor was led beneath a wedding bell in the room, and there the gifts were presented. At the same time an old-fashioned nosegay sweetheart roses and sandalwood were presented, with an address expressing the wishes of the company for her welfare and happiness. The bride-elect made a pretty speech of thanks for the pleasure her friends had given her.
