THAW WAS SANE ENOUGH  
WHEN HE COMMITTED MURDER

Says Dr. Wagner in Cross-Examination — Battling Nelson Joins the Ranks of Celebrities in the Court Room

NEW YORK, March 6.—"Battling" Nelson, the pugilist, was the centre of attention in the court room when Harry K. Thaw is on trial for his life, occupying the entire attention of spectators up to the time the defendant was called to the bar and Justice Fitzgerald had taken his place on the bench. Nelson was accompanied by his manager, and the two occupied seats just behind the prisoner. Thaw once more came to court laden with letters, which continue to pour into the Tombs from all quarters of the globe. Practically all of the letters are in praise of the defendant, and he evidently takes great satisfaction in reading them. Dr. Charles G. Wagner of Binghamton who has been under cross-examination since Monday afternoon, was again called to the stand this morning, and the district attorney began to ply him with questions regarding Thaw's conduct. Dr. Wagner said he believed that when Thaw wrote the section of his will providing for a fund for the prosecution of any one who might take his life, he had enough intelligence to know that murder was prohibited by law. Dr. Wagner said that Thaw's mind was clouded at the time and did have as clear an idea of murder as a man would who was wholly sane, but it was clear enough for him to know the taking of human life was a crime. "Doctor, when this defendant stood up to be married on the same day that will was signed, did he know what he was doing?" asked Mr. Jerome. "I don't think his mind was entirely clear."

DOMINION COAL MEETING  
WILL BE A LIVELY ONE

No Changes in the Management Probable — Opponents of James Ross Will Protest Against His Policy

MONTREAL, March 6.—Interest in the Dominion Coal Company meeting tomorrow is at a high pitch, and the two camps that have been busy gathering proxies for some days past are ready to put up a big fight. Mr. Ross' friends claim they have proxies representing at least 100,000 shares of a total of 180,000, and the anti-Ross element state they will have in excess of 25,000. The latter, owing to their small voting power, will not insist on asking the meeting to adopt the plan for a holding company for both the coal and steel companies, but will, instead, confine their actions to entering a protest against the manner in which Mr. Ross has gone right ahead in his dealings with the Steel Company without even consulting with his board. Previous to the shareholders' meeting the old board will meet and carry out their plan of declaring a stock dividend on the common stock for the first quarter of 1907.

TWO HOCKEY PLAYERS  
LOST ON EYE EACH

Upper Canadians Who Will Long Regret Their Share in the Game.

(Special to the Star.)  
MONTREAL, March 6.—It was wrongly stated in a despatch from Cornwall Saturday morning that Baxter was one of two Shamrocks to fight on the Montreal line-up against Cornwall in the federal league game. As a matter of fact Baxter never recovered from the effects of the blow on the eye which he received in the Shamrock-Quebec match, and it is very doubtful whether he will ever handle a hockey stick again. The lens of one eye is broken and the sight is practically destroyed. This is one of two most unfortunate accidents which have befallen Shamrock players this season. Willie Ryan, one of the younger group of Shamrock players, went to Grand Mere to take a position there early in the winter. He was induced to go out to a hockey practice, and less than ten minutes after getting on the ice he was struck by a stick, and the eye was practically "taken out of his head." Ryan is back in Montreal now, and is, of course, without the sight of one eye, although the other is all right. Baxter, who played for Montagnard, is said to be from Three Rivers.

BOSTON STREET CARS IN  
A SERIOUS COLLISION

Two Persons Badly Hurt and a Dozen Others Bruised in Accident in East Boston Tunnel

BOSTON, March 5.—In a rear end collision between two electric cars in the East Boston tunnel this evening, two persons were so badly injured that they were taken to the relief hospital, while a dozen others, including former Governor John L. Bates, were shaken up or cut by flying glass, but went to their homes for treatment. Governor Bates escaped with only a few bruises. Those taken to the relief hospital were Matthew C. Corrick, motorist, right leg broken, and James H. Watts, passenger, cut by glass and badly bruised. It is expected that both will recover. The accident took place shortly before seven o'clock, at the Atlantic Avenue station of the tunnel. The station is situated on a down grade about half way between the Boston end of the tunnel and the level space under the harbor. An east bound car was stopping at the station when a Chelsea car approached down the grade. For some reason the brake refused to work on the Chelsea car and crashed into the rear end of the East Boston car. Both cars were quite well filled, and in the collision nearly every window in both cars were broken, and nearly all the passengers in the Chelsea car were thrown in a heap in the front end. After they had extricated themselves, Corrick and Watts were found helpless on the platform. They were sent to the relief hospital while the other passengers continue on through the tunnel to their homes in East Boston and Chelsea. When they emerged from the tunnel on the east Boston a number of passengers showed many cuts and bruises especially about the head, but none of them expressed themselves as seriously hurt. The accident is the most serious which has taken place in the tunnel since its opening about a year ago.

BANKS BUYS IMPORTANT  
SHIPPING FACILITIES

LONDON, March 6.—The Bank of England and the French branch of the Ottoman bank telegraphs the correspondent of the Daily Mail, at Constantinople, "have purchased jointly from the French owners the control of certain quays at Constantinople, the possession of which is of vital importance to the commerce of the near East."

ALEXIS ALADIN SAYS  
RUSSIANS WILL FIGHT

The Emperor Has Missed Another Great Opportunity — And by His Mistaken Policy is Arousing More Discontentment Than is the Revolutionary Party

NEW YORK, Mar. 6.—Alexis Aladin, delegate of the Russian revolutionists to the people of the United States, in an address to the City Club last night, said that he saw little hope for the Russian people in the present Douma. "Only a few hours have passed since the second Douma met," said Mr. Aladin, "and it seems unmistakable that once more a great opportunity has been missed by our government. If the crown had only uttered a single word of clemency, a single word of forgiveness, the people would have been satisfied. But instead the crown has followed the advice of the statesmen who surrounded it. "I tell you that the men about the emperor are stirring up more revolutionary feeling than the people of the empire, and they will report results." It was announced after the speech that Mr. Aladin would answer questions. "What is the programme of the present Douma?" was the first question. "Exactly the same as that of the last Douma," he replied. "The party of toll will still rule the house and no concessions will be made until Stolypin goes." "What will the Douma do if it is again disbanded?" was the next question. "In that event," replied Mr. Aladin, "it is a question of what the people will do, and the answer is—fight."

SAY THAT NICARAGUA IS  
ON A LIVELY CAMPAIGN

MOBILE Ala., March 5.—The steamer Mercator arrived today from Puerto Cortez, Spanish Honduras. According to statements of passengers, Nicaraguan forces on Honduras soil are making rapid advances. There is fear, according to the passengers, that General Leo Christian is hummed in, in the Olanche district. In Puerto Cortez preparations are being made to resist attacks which is feared from the Nicaraguan navy. "What Honduras now fears more than her war with Nicaragua," said a passenger of the Mercator, "is internal trouble. A revolution is threatened; in fact there are signs of revolt on every side. The government has an official band which parades the streets of Puerto Cortez and other Honduran towns. The buglers blow and the citizens stop and a cheer tells of the great success of the Honduran army against Nicaraguan forces. "Americans are prevented from leaving Honduras except by permission from the Minister of War."

PRESIDENT ELIOT IS  
STILL DOWN ON SPORT

He Again Denounces Football and Other Games — And Declares That It is High Time the Exaggeration of Athletics Should Be Done Away With

BOSTON, March 6.—President C. W. Eliot of Harvard University in his annual report which will be presented to the board of overseers this week, maintains that football, despite new rules, remains an undesirable game for gentlemen to play or multitudes of people to witness. President Eliot declares that football is properly described by the adjective "ferocious," and that no game in which there is recklessness, causing or receiving bodily injury, is fit for college use. Basketball and hockey are placed in the same class with football, and President Eliot advises that inter-collegiate contests in any one sport be limited to two games, all other games to be between teams made up at Harvard. The report concludes: "It is high time that the whole profession of teaching in school, college and university should protest against the present exaggeration of athletics during the period of education, and limit competitive sports between schools and colleges within reasonable bounds and assert the supremacy of intellectual and moral interests over physical interests in all institutions of education."

MR. GIBSON REPORTED

FREDERICTON, March 6.—Mr. Alex Gibson is reported today as not being so well, and it is feared that the well known lumber king is in a precarious condition. Heart weakness is causing the aged patient much trouble, and the prospects of recovery are not very bright.

MONCTON CURLERS AFTER  
THE MCLELLAN CUP

CATHOLIC BISHOP VISITS  
THE KING OF ITALY  
Bishop of Verona Who Opposed the Vatican Policy Has Been Forgiven

ROME, March 6.—Mgr. Bonomelli, Bishop of Verona, who recently issued a pastoral letter advocating the principle of the separation of the Church and State in France, has been pardoned for this indiscretion by the Pope, who is his intimate friend. Before he was a bishop, Monsignor Bonomelli, who is one of the leaders of the modern Catholics, who favors an understanding between the Vatican and the Quirinal was received by the Pope. On this occasion he said to the Pontiff: "King Victor Emmanuel has given \$1,000 towards my home for emigrants, and I would like to thank him for his gift and present my respects." To this the Pope made the reply: "Very well, I approve, go and see the King." Monsignor Bonomelli consequently called upon His Majesty and was received most cordially. The conversation was chiefly about immigration, and the best means to project alien immigrants. The government has forbidden the admission into Italy of foreign circulars urging the peasants to emigrate, especially to the United States.

Three Rinks Coming Here Saturday — Scott Act Offender Fined \$200 or Three Months Jail — Other Moncton News

MONCTON, N. B., March 6.—Chas. Payne, secretary to T. E. Henderson, superintendent of the I. C. R. service, is to be married at Campbellton today to Miss Etile Johnson, daughter of Jas. R. Johnson, former I. C. R. divisional master mechanic at Campbellton. James Rogers, of Berry's Mills, leaves today on his return to the Klondike, where he has been successfully working two claims. He has acquired some wealth in the gold fields. Chairman Grandin, of the police committee last night held a conference with police force in regard to various matters. No specific instructions were given so far as can be learned. Four rinks of Amateur curlers arrived here this morning to play the locals. Three rinks of Moncton curlers will probably go to St. John on Saturday to play for the McLeellan Cup. The rinks elected for that occasion are E. H. Allen, Geo. W. Maddison and W. N. Rippey. Magistrate Kay has made another departure from the beaten path in punishing Scott Act violators, when yesterday afternoon he sentenced Henry Arsenault, bar tender, to pay a fine of \$200 or spend three months in Dorchester. Heretofore one month in jail has been the usual fine imposed. The Scott Act case against Blair LeBlanc was dismissed. The basket ball team of the Aberdeen High School last night held a successful concert, the proceeds of which are to pay their expenses on a trip to Fredericton. The line-up on Saturday will be: McKean, centre; Cochrane and Sangster, forwards; Wood and Edlington, defence. F. W. Emmerison, high secretary for the Independent Order of Foresters, in New Brunswick, accompanied by High Chief Ranger Wood, have gone to Toronto to represent New Brunswick at the obsequies of the late Supreme Chief Ranger Oronhyatekha.

GROCCERS PROTEST AGAINST  
WHAT THEY CALL PERSECUTION

Wholesale Guild Urges the Appointments of a Commission to Study Trade Conditions

TORONTO, Ont., Mar. 5.—At the annual meeting of the Dominion Wholesale Grocers' Guild today the attention of the Dominion and Provincial Governments was drawn in frank language to the fact that no action has been taken as a result of the recent inquiry held in Hamilton. The resolution says the position of Ontario and the federal governments in connection with the prosecution of the wholesale grocery trade for alleged conspiracy and illegal combination, is most unjust and unwarranted. Notwithstanding repeated suggestions for the appointment of a commission to make a study of trade conditions, no action has been taken. Through the attitude of the government in permitting attorneys to carry on such prosecutions without evidence except difference of opinion as to the meaning of the word "unduly," trade has been put to expense in defending their rights to existence, and by reason of erroneous and false statements manufacturers have been threatened with extinction and merchants with fine and imprisonment for fair and reasonable efforts to protect investments. The resolution urges the Dominion Government to define the meaning of the word "unduly" if it is to be left in the criminal code, and to ask that the Ontario and Dominion Governments reimburse the wholesale grocers for the expenses that have been incurred through the action taken by consent of the crown. The elections resulted as follows: President of Dominion Guild, H. C. Beckett, Hamilton. Presidents of Provincial Guilds, Ontario, Thos. Kinnear, Toronto; Quebec, L. E. Geoffroy, Montreal; Manitoba, J. J. Codville, Winnipeg; New Brunswick, Geo. F. Harbour, St. John; Alberta, P. P. Colman, Lethbridge; British Columbia, H. J. Wilson, Victoria; Nova Scotia, R. N. Simmons; Prince Edward Island, W. H. Aitken.

DR. CARMAN AND DR. POTTS  
OBSERVED THE JUBILEE OF

TORONTO, Ont., March 5.—Fifty years in the Methodist ministry, applying to two of the most conspicuous and honored leaders of Canadian Methodism is an event that fittingly calls forth the notice. The jubilee of Rev. Dr. Carman and Rev. Dr. Potts were observed tonight. The Methodist Social Union of Toronto, tendered them a banquet in the school room of the Metropolitan church. H. H. Fudge, president and Chester D. Massey and Richard Brown spoke.

GURZON AND ROSEBERY FOR  
CHANCELLORSHIP OF OXFORD

LONDON, March 6.—An interesting contest is imminent between Lord Gurzon and Lord Rosebery for the vacant chancellorship of Oxford University. It has been supposed that Lord Gurzon, who was nominated to this office some days ago would be returned without opposition, but now Lord Rosebery has accepted a nomination and the matter will be decided on March 14th, when the election will be held.

UTE INDIANS ARE AGAIN  
BECOMING RESTLESS

STURGIS, S. D., March 5.—More excitement is reported from the Ute Indian camp near Fort Meade. Captain Hall has arrived from the Unalita reservation for the purpose of holding a pow wow to induce the Utes to return to Utah. When the Utes heard of the captain's arrival they became greatly aroused. Chief Appah is said to have sent word to Hall to hold the pow wow at Fort Meade and not to come to camp, fearing trouble if the young lumps saw him. Accordingly the pow wow was held at Fort Meade, only a few chiefs attending. The outcome is not known.

**A CHALLENGE FROM SUSSEX.**  
SUSSEX, N. B., March 5.—The Sussex Beavers challenge the St. John High School hockey team or any team in the city whose members are not over seventeen years of age, to a game of hockey to be played in the Sussex rink on any date that may be agreed on. All communications to be addressed to F. L. White, Sussex.

**THE FIRST GAME.**

The Marlboroughs will play the first game of the series which will decide who is to have possession of the N. B. Hockey League trophy, at Margville on Friday night. The arrangements were made yesterday by Manager Donald and a representative of the Margville team.

**DOUBLE HEADER TONIGHT.**

In the try league there will be a double header tonight. The Bankers will play the Beavers and the St. Josephs will meet the Marlboroughs.

**AT SACKVILLE.**

SACKVILLE, N. B., March 5.—In what was probably the best game of hockey seen here this winter, Amherst tied with Sackville tonight, the score being 3 to 3. The game was swift from start to finish and for the most part clean, though there were some objectionable features. In the first half, Amherst scored 2, Sackville 0. Twaddie and Currie doing the trick for the visitors. Knapp of Sackville went to the boards for three minutes for slashing, while Currie of Amherst got five minutes for a similar offense. In the second half, Ayer and Norman were slightly injured, causing some delay. The teams were very evenly matched, and the contest was strenuous at times. The Amherst men loomed up as regular giants alongside of the Sackville players. Sackville made some clever plays, scoring two to Amherst's one, within a minute of the conclusion of the game. It was decided not to play off. Fully seven hundred people witnessed the game and enthusiasm ran high. Fred Delahunt of Moncton refereed satisfactorily. Following was the line-up: Amherst, Position, Amherst, Corey, Rainnie, Point, C. Currie, Knapp, Cover point, C. Currie, Stuart, Right wing, H. Currie, Ayer, Left wing, Simpson, Phelan, Centre, McLean, Norman, Rover, Twaddie.

**TOMMY RYAN IN SYRACUSE.**

SYRACUSE, N. Y., March 5.—Tommy Ryan came to Syracuse today after his fight at Rochester last night with Hugo Kelly. Ryan said that he would accept the offer of the Tonopah A. C. of Tonopah, Nevada, to fight Joe Gans for a purse of \$25,000, on Labor Day, and will go into training as soon as the articles are signed.

**DOCKING HORSES' TAILS IS FORBIDDEN BY BILL**

Pennsylvania Humane Societies Prepare for Legislature, Law Preventing Practice.

**HARRISBURG, Pa., March 5.**—To prohibit all future docking of horses' tails and to enforce the registering of all docked horses, is the object of a bill which will be presented to the legislature next week at the instance of the Federated Humane Societies of Pennsylvania.  
For the last three days the Federation has been in session here. The title of the bill is drawn up as follows:  
"An act prohibiting the cutting of the bone or docking of horses' tails, or aiding, assisting or procuring the same to be done, requiring the registry of all cut or docked horses now in this Commonwealth; preventing the using of any unregistered cut or docked horse and providing a penalty for the violations of the provisions of this act; and authorizing policemen, constables or agents of any society for the prevention of cruelty to animals to take possession of any such horse after arrest by warrant of officers of any society for the prevention of cruelty to animals, and to sell the same, if a horse is found with a cut tail unhealed, it will be prima facie evidence that its owner has violated the law, and he will be liable to its penalties."  
Registration must be before a probatory and a fee of fifty cents charged. A full description of the horse must be given and a certificate will be issued.  
Driving an unregistered horse after ninety days will be a misdemeanor punishable by imprisonment not more than one year, and a fine not more than \$200, or less than \$100, payable to the borough city or county treasurer.

**PARENTS TAKE ELOPING SON HOME; BRIDE SUES**

Principal in Double Runaway Match Values Nubby's Love at \$20,000.

**CINCINNATI, March 5.**—Sue for \$20,000 alleged alienation of her husband's affections, was filed today by Mrs. Hazel Jacob, of Indianapolis, against Ferdinand and Papine Jacob of Cincinnati.  
Mrs. Hazel Jacob says that the defendants came to her home in Indianapolis and enticed her husband, F. Malvin Jacob, to leave her.  
The alienation suit is a sequel to a double elopement of Cincinnati couples to Indianapolis January 15, F. Malvin Jacob marrying Miss Hazel Hancock, 20 years old, a pretty stenographer he had met while living in Louisville.  
Two days later his parents appeared on the scene and caused the arrest of their son and his young bride. She is now living here, where it is said, her young husband frequently visits her, in spite of the opposition of others who caused him to file suit at Indianapolis for annulment of the marriage on the ground that he was under age at the time. Ferdinand Jacob, the father, is at the head of the Mutual Banking Company.

**GULLEN PROPERTY HAS BEEN SOLD**

The Gullen property adjoining the Royal Kennebecs Yacht Club, at Millidgewick, and which at one time appeared likely to become the property of the club, has been sold to Fred Heans, Geo. A. Kimball, Geo. B. Heans and Harry Robinson. These gentlemen are all active members of the R. K. Y. C., and it is rumored the land will eventually become the property of the club, as it will be needed as a room for the rapidly increasing number of yachts in the fleet. The present yard room is hardly sufficient for the yachts already comprising the fleet, so an extension will be needed shortly. The club house would probably be removed, in case the club obtained this property.  
In the meantime it is said the land will be used as a site for summer camps.

**RESOLUTION OF CONDOLENCE**

To the Officers and Members of all Courts and Companion Courts of The Independent Order of Foresters in New Brunswick:  
Moved by a deep sense of the great loss for our late distinguished chief, Dr. Oranhyatka, which has become essentially a part of the traditions and history of our Order, and profoundly animated by the grief which has followed the announcement of his death, and anticipating the desire to mark in some way, however inadequate it may be, appreciation of his self-denying and successful work now ended, it is recommended and requested that the Charter and Officers' Members of each Court in the jurisdiction of the High Court of New Brunswick be draped in suitable mourning for the term of three months—in addition to any further action which may be deemed desirable and fitting by the Courts respectively.  
Faithfully and fraternally yours,  
HARRY W. WOODS, H. C. R.

A horse owned and driven by Fred Carpenter ran away on City Road last evening. The sleigh was somewhat damaged, but Mr. Carpenter, who was thrown from it, escaped injury. The horse proceeded along City Road, up Stanley street, out Wright street and then past the horticultural gardens to the lake. Here it came in contact with a snowplough party. It soon became stuck in the deep snow, and the snowplough men were unable to capture it. They brought it back to the city, and it was returned to Mr. Carpenter.

At St. David's Church last evening a lecture on Korea was delivered by Rev. A. A. Graham. Lantern slides were used to illustrate the discourse. The lecture was originally prepared by Rev. Dr. Griston, at present laboring in the Korean mission field. It dealt with the political, commercial and social condition and possibilities of the Hermit Kingdom. Korea as a field for missionary effort was also discussed. The excellent views shown enabled the audience to present to better understanding the conditions described.

A fire, the origin of which seems a mystery, broke out in the home of James S. Whittaker, 34 Dorchester street, last night, shortly after eight o'clock. Mr. Whittaker's son, who was boxing with a friend upstairs, smelt smoke and rushed down to the next floor to find one of the bedrooms in flames. The alarm was rung in and the firemen were soon on the spot. The fire was confined practically to the room in which it started, although there will be considerable damage done by water. The contents of the bedroom were destroyed. The loss will probably be in the vicinity of \$200, which is covered by insurance.

**DISCUSSED LAWS WOULD NOT GIVE AND NEW TARIFF RUNNING RIGHTS**

**Duty on Refined Sugar Reduced 1-2 Cents Per Cwt. Moncton Board of Trade Opposes C. P. R. Application**

**Other Tariff Changes—Enforcement of Federal Laws Will Not be Transferred to the Dominion And Will Ask Other Boards to Support Strong Resolution Passed at Last Night's Meeting**

OTTAWA, Ont., March 5.—The commonsense talk of the enforcement of the laws and the new tariff. W. F. Maclean expressed the opinion that in respect to the alien labor law the power export law and the labor laws for settlement of disputes and many other similar provisions the provinces could not be expected to enforce them successfully.

He moved, "That the opinion of the house is that the government are responsible for the due enforcement of federal laws and that if any further legislation is necessary to secure such enforcement and punishment of violators thereof, it is the duty of the government to forthwith introduce such legislation."

Mr. Aylesworth said the British north America act required the provinces to enforce the laws and that the present system had been followed by the first minister of justice of Canada, John A. Macdonald, and had been followed ever since.

R. L. Borden sympathized with Mr. Maclean's object, but thought the resolution went too far, as it meant that the federal government would have to enforce all the criminal laws.

Mr. Monk wanted the Dominion to relieve the provinces of the expense of enforcing criminal prosecutions. Sir Wilfrid was opposed to the enforcement of federal laws being transferred to the Dominion.

Mr. Maclean said he had only offered the resolution for discussion, and it was declared lost on division. The house went into committee of ways and means on motion of Mr. Fielding.

Mr. Fielding announced that the tariff brought down in November had made a flux seed in all tariffs. The duty on flax seed was desirable.

The government had decided that the request was reasonable, and instead of being admitted free a duty would be placed on it of 7c a bushel, British preference, 10c intermediate and general tariff.

The duty on fresh tomatoes, which was brought down in November as 50, 65 and 75 cents a bushel, preference, intermediate and general.

The duty on plums under the general tariff is increased from 20 cents a bushel to 30 cents a bushel.

Re sugar duties, Mr. Fielding said there was no change in the duty on packages reduced the duty on refined about 1/2 cents a hundred.

The old duty British preference on raw sugar was 25 2/3. When the budget was brought down in November, the duty on raw sugar was increased to 44 cents a hundred.

MONCTON, N. B., March 5.—The Moncton Board of Trade tonight decided to vigorously oppose the application of the C. P. R. for running rights over the I. C. R., a strong resolution being unanimously passed at a largely attended meeting.

Several members also expressed themselves emphatically as being opposed to the proposal, and it was decided to communicate with the boards of trade of outside places, including St. John, Sussex, Amherst, Newcastle, Campbellton, and have them join in the movement to retain the railway. A resolution will be forwarded to the minister of railways, urging him to postpone consideration of the question until such time as other railways are in a position to apply for the same power.

The opinion was expressed that the present action of the C. P. R. was but an entering wedge, and if once granted running rights the company would ultimately secure control of the whole road.

One member stated that he had heard on good authority that the minister of railways was the authority for the statement that the board would never consent to giving the C. P. R. more rights than they have at the present time.

The board decided to recommend to the I. C. R. that a nine hour day be granted employees of the I. C. R. mechanical and other departments where advisable. The matter was brought to the attention of the board through circular letter sent from the Canadian Manufacturers' Association asking the board to oppose an eight hour day system, and the board expresses the opinion that while a ten hour day was too long an eight hour day was too short from the employer's point of view and therefore decided on a nine hour day.

A scheme to advertise Moncton through the Maritime Merchant was approved of by the board. A communication was received from Campbellton saying the Board of Trade of that place had appointed a delegation to go to Fredericton with reference to the N. B. Telephone Company's legislation and the Moncton board appointed F. W. Sumner and City Clerk J. S. Magee as local representatives.

**INTERESTING FIGHT IN SYDNEY OVER CIVIC ELECTIONS**

HALIFAX, N. S., March 5.—A hot civic election in Sydney today resulted in the election of F. C. Kinler as mayor, or over Aid. Finlay Macdonald by a majority of 168. Aldermen elected were: Ward 1, V. Mullins, majority 113; ward 2, Dr. E. M. McDonald, majority 38; ward 3, A. D. Gunn, majority 48; ward 4, A. N. Fitzgerald, majority 70; ward 5, W. McEwen, majority 316.

The question of continuing or withdrawing of the grants at present enjoyed by the Sydney Catholic convents was made an issue and dominated the contest, to the practical exclusion of all the other questions. Decision recorded by the ratepayers is result of the deliberate thought and followed the campaign, during which the merits of the question were discussed by a number of the cleverest representatives of the opposing parties.

NEW YORK, March 5.—Mrs. Jacob Turbridge, wife of Major Turbridge, of Brooklyn, and said to be the daughter of Judge Waterbury of Waterbury, Conn., was run over by a street car on Brooklyn bridge today and instantly killed. Mrs. Turbridge was riding in an automobile in company with her husband and his father, Capt. Wm. Turbridge, proprietor of St. George hotel in Brooklyn. Mrs. Turbridge was frightened by the approach of a car and arose from her car. The automobile swerved, throwing her in front of the car, which crushed her to death. Walter Owens, the chauffeur was arrested.

Young Woman Found, Nailed to Sink  
Thinks She's Second Saviour

PITTSBURGH, March 5.—Miss Jean Mitchell, the 19 year old girl who was found nailed to a wooden sink in her apartments last November, with the spikes driven through her hands and feet, has been committed to the insane ward in Clearmont.

Ever since she was found, almost sane in other subjects, the ordeal through which she passed seems to have affected her mind on the subject of crucifixion. She looks as though she were an old woman.

**HEBREW WEDDING IN NEW SYNAGOGUE**

The new Hasen avenue temple was the scene of a very pretty wedding last evening, when Miss Rosa Ruben was married to Philip Goldstein. Rabbi Rabinowitz officiated at the ceremony.

The synagogue was tastefully decorated and presented a fine appearance. A large number of the friends of the young people were present. S. Hoffman and Abraham Burnstein acted on behalf of the groom and Mrs. Hoffman and Mrs. Burnstein officiated at the bride. Miss Blanche Rubens made a charming flower girl.

After the nuptial knot was tied the happy young couple and their friends were driven to the Orange Hall on Simons street, where a sumptuous repast had been prepared. After the dinner was concluded the party adjourned to the assembly room. Here dancing was indulged in until an early hour this morning.

Mr. and Mrs. Goldstein will reside in this city. During the day a number of congratulatory telegrams were received from New York, Boston, Halifax, Sydney and other parts of Canada. The young couple also received many presents as tributes to their popularity.

When leaving the synagogue Mrs. J. Mayer found a purse containing a considerable sum of money. The owner, who could not be found last evening, can have the property upon application.

**SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS**

Any numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 3 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situated.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

- (1) At least six months' residence upon and cultivation of the land in each year for three years.
- (2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.
- (3) If the settler has his permanent residence upon farming land owned by him in the vicinity of the homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

**BUSINESS MORTALITY.**

A series of paragraphs appearing recently in different financial journals deal interestingly with the effect of general prosperity on what is termed Business Mortality, and it is shown that the good times now prevailing have created unbounded confidence and have resulted in a marked decrease in the number of failures. It is set forth on the other hand that this over-confidence has led to recklessness, and has induced speculation in other than legitimate undertakings; that these speculations have in many instances ended disastrously, and that were only the ordinary lines of commerce and industry considered, the stability of the country would be more strongly set forth. Wall Street ventures, engaged in by persons not qualified for finance, have swelled the list of failures and these have led to a more conservative feeling in the granting of credit.

The London Financial Times argues that if the human death rate has been reduced by the spread of better medical knowledge and improvement in sanitary matters, it cannot be too much to claim that similar agencies of prevention and control now exerting their efforts on commercial life have surrounded the general transaction of business with healthier conditions that seem likely to endure.

The number of failures during 1906 was 5.9 per cent. less than in 1905, which latter year showed a decrease of 4.3 on 1904. The failures for 1906 were fewer proportionally than at any time within the past twenty years, and while the liabilities were somewhat larger than in 1905 this was due to the suspension of several financial concerns which had become involved in Wall Street speculations.

**LAST EVENING'S GATHERING.**

The newly formed Canadian Club is deserving of congratulations on the success which has attended its organization, and also on the large measure of enthusiasm marking the opening of its regular programme. The subject chosen by Dr. Parkin, whose remarks would at any time be listened to with deep interest, was especially happy in view of the nature and purpose of the gathering, Canada's Present and Future, dealt with by a man who by wide travel has learned to compare the institutions in different countries, affords a subject of almost inexhaustible interest. While its many phases could not be summed up in one limited address, the speaker succeeded in placing clearly before his audience those high ideals in nation building towards which he should strive. Dr. Parkin is not an idealist; he is a practical thinker with a practical grasp of Canada's possibilities and requirements; and last evening's address from such a man was in every sense inspiring. He made a plea for caution, for the submergence of personal and political prejudices, and for a unity of effort towards one desirable end. Speaking of the construction of the G. T. Pacific he quoted Mr. Hayes who had recently referred to the building of towns and cities along the line. Mr. Hayes thought there was no reason why such towns should be allowed to spring up and expand without any definite plan; that unless the best thought of the country, derived from the experiences of other cities, was expended, the best results would not be attained in these towns. The same should apply to the nation. Let the leaders in Canada endeavor to avoid the errors into which other countries have fallen, let them exercise to the utmost their intelligence in selecting only such institutions as have been beneficial elsewhere; and we need have no fear for our future. Dr. Parkin's remarks were hopeful, encouraging, and not unmixt with caution. In view of Canada's boundless possibilities it is better to build slowly and well, than to rush our work and do it in a careless manner.

A fire mist and a planet,  
A crystal and a cell,  
A jellyfish and a surian,  
A cave where the cave men dwell.  
Then a sense of law and beauty,  
A face turned from the cloud—  
Some call it evolution,  
And others call it God.

A haze on the fair horizon—  
The infinite tender sky,  
The rich ripe tint of the cornfields,  
And the wild geese sailing high.  
And all over upland and lowland,  
The sign of the goldenrod—  
Some of us call it Autumn,  
And others call it God.

Like tides on a crescent sea beach,  
When the moon is new and thin,  
Into our hearts high gleamings—  
Come welling and surging in—  
Come from the mystic ocean  
Whose rim no foot has trod—  
Some of us call it longing,  
And others call it God.

A picket frozen on duty—  
A mother starved for her brood—  
Socrates drinking the hemlock,  
And Jesus on the rood.  
And millions, who humble and nameless,  
The straight hard pathway trod,  
Some call it Consecration,  
And others call it God.

The old gentleman drew up quickly as the woman burst round the corner, and calmly surveyed her.

"Oh, sir," she began breathlessly, "will you come at once? There's two brutes 'o' men jumpin' on a poor grandmother."

"What sort of a man is he?" asked the old gentleman, unperturbed.

"Oh, sir, he's a poor man wot—"

"No, no! You don't understand me. Is he a big man or a little man?"

"Well, he ain't 'arf their size, anyhow," said the woman.

"Oh, well," he said, "I don't see that there's any need for me to come. If he's only a little fellow I dare say they can manage him between them."

It was ordered that the charter be placed in mourning for the period of three months.

**WHAT'S THE USE?**

To the Editor of the Star:  
Sir,—I am sure I don't know what any one wants to preserve that Old Chipman House for, it is anything but an ornament to the locality. It is that rotten it will soon come down of itself if not torn down and it would be an act of true charity to tear it down and give it to the poor. The king, himself, would approve of this with all his heart. The town that clings too much to old associations, will never get along in this world. The past is dead let it be buried. It has seen its day let it depart.

Yours,  
A RESIDENT OF 1854.

**PRESENTED AN ADDRESS TO GOVERNOR TWEEDIE**

Fredericton Gives Civic Business to Bank of Montreal

FREDERICTON, N. B., Mar. 5.—At the executive council chambers this afternoon at four o'clock Lieut. Governor Tweedie was presented with an address from the government employees of the departmental building. The address was read by Deputy Provincial Secretary Tibbitts. It congratulated his honor on his appointment and all felt assured that the high traditions of the office would be worthily maintained and that his honor would prove a capable successor to his predecessors.

Governor Tweedie made a most happy reply. He thanked the officials for their token of respect and spoke of their past relations and extended to all a wish for a happy and prosperous future. For all such troubles

The city council held its last regular session this evening, R. B. Vandine and Frank W. Yanwart were appointed returning officers for the upcoming election for the coming civic elections and Wm. Lockhart and John Hebbington, Jr., for the downtown district. The tender of the Bank of Montreal for the city business was accepted. Under this tender the bank agrees to allow five per cent on debit and on credit balance three and one-half per cent, and agrees to take over \$42,000 bonds of the city at four and one-half per cent. This being the last meeting of the council the usual farewell addresses were made.

Dr. G. U. Hay will give a lecture on "Plants and Plant Life" before the Men's League in Germain street Baptist church this evening at 8 p. m. A cordial invitation is extended by the members to their gentlemen friends to be present.

The Country Which a Canadian Will Rule

Great Possibilities in Protectorate Over Which Sir Percy Girouard Has Been Appointed High Commissioner

A recent issue of The Times contains a long report of conditions in Northern Nigeria, the British protectorate of which Sir Percy Girouard has been recently appointed High Commissioner. Sir Frederick Lugard, the former High Commissioner, retired in September last. Barely six years ago Great Britain entrusted to Sir Frederick Lugard's charge a chaos of contending states, constantly at war with each other, distracted by internal dissensions and paralyzed by misgovernment. Slave-raiding was universal. The ancient civilization introduced by Mahomedan invaders was fast perishing amid the general anarchy. The introduction of the Pax Britannica has been followed by a general revival of prosperity and confidence. From every province the residents report improving trade and increasing population. Towns which had declined, with the abolition of slave trading are becoming populous and prosperous again, and village markets are reported more busy and more crowded than they had ever been known before.

In Sokoto, the movement of population to possess a security, has been from the cities to the land. Forty new villages are reported, and the walls of the towns are left to fall unrepined. In spite of the fact that the old slave farms are deserted, new land is everywhere being taken up. All over the protectorate the scattered members of tribes and clans driven away by decades of slave-raiding and war are gradually returning to their former homes, and the reports of the quiet protectorate are the reports of the quiet and prosperous state of the country are having their effect.

The trade in slaves has entirely ceased, and even private transfers are rare. A slave has an absolute right to redeem himself even against the will of his master, with the result that slaves, instead of running away and becoming vagrants, can appeal to the native court. Moreover, since they have no longer the fear of being sold or transferred, they are more contented and less inclined to desert, while the masters, having no longer the power of sale or fear of confiscation or desertion, treat their slaves more as part of the family. The chiefs are described as eager to introduce "the white man's slaves," i. e., machinery, or rather simple labor-saving appliances.

Sir P. Lugard's object throughout has been to identify the British and native administrations as integral parts of a single system of rule in which each has its duties and functions in mutual co-operation. He has aimed to govern the country through the existing administrative machinery, and with the native chiefs, not by leaving them to their own devices, but by encouraging them to make effective the existing administrative machinery, and by associating white officers with them in the work as helpers and counselors. Direct white administration with so limited a staff would have been out of the question, even if it had been desirable. But there can be no doubt that a system under which the native rulers, deprived of the old privileges of making war or raiding for slaves, still find ample scope for their activities within their dominions and retain a position of power and influence, is the best guarantee of peace and contentment, and in the long run also of material progress. Moreover, the native rulers find that the British Government not only does not deprive them of their authority in their territories, but will lend its support to help the assertion of that au-

**INVOKED UNWRITTEN LAW; NOW A HERMIT**

Man Who Slew Wife's Assailant Has No Human Companionship

CORNING, N. Y., March 5.—While Harry Shaw stands before the bar of justice in New York, and the Strother brothers seek to escape the death sentence in Virginia, all virtually pleading the "unwritten law," Hiram C. Powers is living a hermit on Derby Hill, in the town of Bathbone, in the county of Steuben here, an outcast. And all because he took the law into his own hands forty years ago.

Powers, shortly after his marriage with the belle of the town, went to work for a bachelor farmer by the name of Shaw. He was working in the fields, and one day, when he came home, his young wife told him of an attack Shaw had made upon her.

The girl, for she had not passed her 21st year, begged her husband to keep the secret, as the other had sworn to kill her if she revealed his perfidy. Powers kept his silence for several days, and told Shaw that he would leave the place. The other interposed no objection, but insisted that Mrs. Powers should remain as his housekeeper. A quarrel ensued, and the wronged husband told the other that he knew.

Found out, Shaw assaulted the young man and drove him from the house.

Powers waited. When night fell he got an axe and crept into the house, intending to take his wife away. With his back to the door sat Shaw eating supper. Unable to restrain himself, the husband sprang toward him and brained him.

Powers made no attempt to escape. He was arrested, tried, convicted and sentenced to death. His wife testified against him. Then his sentence was commuted to life imprisonment, but after twenty-one years he was pardoned.

He had earned a small sum of money and bought a little place. There he lives without human friends—a cow, a cat and a dog his only human companions—expiating his crime of forty years ago. And he is 75 years old.

thority over recalcitrant tribes. The country is capable of producing immense quantities of cotton. Besides, there are great possibilities of development in rubber, ground nuts, tobacco, gum, beeswax and skins and tin. In all cases, however, the possibilities of exploration depend mainly on the question of transportation, and it is largely to solve this problem that Sir Percy Girouard has been appointed High Commissioner. His experience in railroad construction in Canada, Egypt and South Africa has been taken as a guarantee that he will be able to supply the necessary facilities for the development of Nigeria.

To realize the nature of the transport problem in Nigeria, it is necessary to remember that it was not till 1904 that the Government made an organized effort to substitute animal draught transport for human carriers. Even now, with the exception of one or two light, narrow railways, all the transportation is done by means of ox carts. The improvement in communications is desirable, not only for the development of commerce, but as essential for military security and for administrative progress.

ALL THE PARENTS ARE NOT ASLEEP.

To Editor of Star: Sir--What a deep, undisturbed sleep the parents in St. John, N. B., must be indulging in.

They must, indeed, be having a regular Rip Van Winkle sleep, when such trumpet blasts as those of the Lord's Day Alliance, and the alliance of church and law, fail to wake them up.

How long have the parents been sleeping, and how long have those people been blowing their horns? If they are not too much exhausted they will kindly answer those few questions of one who is not asleep.

Judge Ritchie suggests that the Cathedral bells be rung one night in the week and other church bells on other nights.

Who would pay the expense of having the bells rung? Would the city or clergy have it done gratuitously. According to 1 Peter, chapter 5, verse 2, persons who profess to be feeders of a flock, must not do so for filthy lucre, but of a ready mind.

there is no money in the state department funds for the proper protection of the taxpayers, their wives or children. If that is the case, in my opinion Mayor Sears and the common council would have had a much wiser object in collecting subscriptions for the proper protection of lives of citizens than for a stone monument to the dead. I quote Luke 11, verse 11: If a son shall ask bread of any of you that is a father, will he give him a stone? And your sons shall be your judges.

Now, I would say a word in defence of the Jew, who Judge Ritchie so freely judges and condemns. Our Lord was a Jew, and God's chosen people were Jews.

A few minutes given to the perusal of Luke XIII, especially verse 23, might convince some people of the insignificance of earthly judgment in comparison to the Lord's words. Thanking you very kindly, Mr. Editor, for your valuable space.

BOTHA WILL UPHOLD BRITISH POLICY

New Premier of Transvaal Says Boer and Briton are United Again

PRETORIA, March 5--General Louis Botha, the new Premier of the Transvaal, in a speech, here, recently, said: "British supremacy will be safer in the hands of the Boers than in those of cosmopolitan capitalists. We have fought and suffered grievously more than anybody else in this country. That is past, and no one is so foolish as to want it over again. The questions of the flag and of supremacy have been settled for all time. They are both now outside politics. We are now concerned with our domestic affairs."

"Having got free government, our natural desire is, and our sole endeavor will be, so to govern that this country shall prosper and the two races be drawn together. At Vereeniging I signed the treaty of peace. I then solemnly accepted what is so dear to you--your King and your flag. They are now our King and our flag."

Referring to the mines and to the necessity of restoring confidence on the part of Great Britain and Continental Europe in the Transvaal, General Botha said: "People talk about our hostility to the mines. There is no such hostility. We simply object to the men who run the mines also controlling the running of the country. Had I wished ill to the mining industry, as such, I, more than any man, had the fullest opportunity during the war of harming the industry by wrecking the works along the Witwatersrand Reef. I recognized then, as I recognize now, that my people must look to the mines for help, and, as I protected the mines then, so shall I see that they are not injured now."

The education and language questions rank next in importance to the labor and mining industry. In regard to these, Premier Botha said: "We want to pursue a just and liberal policy. It is an accepted principle that English shall be the compulsory language. The schools and the courts generally, we are prepared to work on the basis of the compromise which was reached 15 months ago by the representatives of the Volks and the official representatives of the Government, including the Colonial Secretary and the Director of Education. The compromise was then effected, and a minute was drafted which was acceptable to both sides."

Premier Botha has given out the following assurance: "The 'Coalitionists' will do nothing that a purely British Ministry would not do."

PRINCE EDWARD ISLAND HAS THE USUAL DEFICIT

But Also Has Hopes of a Surplus Next Year Through the Increased Subsidy

CHARLOTTETOWN, P. E. I., Mar. 6--The public accounts were tabled in the provincial legislature today. Owing to the change in the fiscal year they are for nine months only, ending September 30th. The deficit is \$24,188. The average deficit for a number of years has been \$46,000. With the addition of \$70,000 to the Dominion subsidy to be received as a result of the Ottawa conference last October, a yearly surplus is expected in future. Receipts were \$257,236; expenditure, ordinary, \$264,135; capital, \$22,061; less sinking fund \$4,772. Total liability of the province \$78,771, including debentures \$23,000, loans \$66,000 and balance due banks. Annual expenditure for education shows a total report of public schools shows a total expenditure for education of \$126,000, of which the government paid \$92,000. Schools numbered 471, teachers 673, pupils 19,000.

KNIFE MAKES BOY GOOD BUT CAN'T KEEP HIM SO

Two Operators Fail to Make Youngster Quit Bad Habits

TOLEDO, March 5--After one of the most remarkable experiences that ever befell any boy, Harold Hurley, the pioneer brain surgeon subject in the Lancaster county, has been taken to the Lancaster Reformatory to be reformed in the old way.

Hurley's case was believed by officials and surgeons to have demonstrated that an operation on the brain was a quiet, docile, obedient child, with tastes and ambitions exactly opposite to his former inclinations.

MONTREAL WATER FAMINE IS BECOMING SERIOUS

The Biggest and Best Pump Has Now Broken Down--Extraordinary Precautions Against Fire

MONTREAL, March 5--Montreal's water famine became more serious today when the most modern of the pumps in the pump house, with a capacity of ten million gallons broke down again, leaving the city ten million gallons short in its average demand.

The result was an immediate scarcity of water in the upper levels of the city, and tonight some of the leading uptown hotels are without water, and where they have it it is only on the basement flat.

The Fire Underwriters Association issued a notice this afternoon calling upon the people to take extraordinary precautions against fire, and as a result many warehouses have engaged watchmen. The water department this afternoon promised that the broken pumps would be at work again at six o'clock tomorrow evening but it will require the best part of a week for the city water power to attain its normal volume.

ALLEGED WITCH HELD FOR FALSE PRETENSE

Accused of Beguiling Woman Into Wearing "Charm" to Recover Daughter.

READING, Pa., March 5--Detective Ficht today arrested Madam M. Snyder, who has a local reputation as a witch, on the charge of having obtained money under false pretense from Mrs. Rose C. Gantz.

Mrs. Gantz told the police that under the belief that her 13 year old daughter Bertha, who left home a year ago and is now in Philadelphia, would return to her, she and her husband, at Mrs. Snyder's direction, had worn two charms about their necks for more than six months, and "fed" them with "whisky," only to find that they didn't bring about the desired result. Her faith in witchcraft is somewhat shaken.

"The first time I visited Mrs. Snyder," said Mrs. Gantz, "she said she would do nothing for me until I brought my husband. He accompanied me the second time. It was then I paid the \$5. Mrs. Snyder said she would immediately send the money out of town to the person who was really to perform the hoodoo to restore my daughter."

"She took us upstairs, and showed us a narrow, long piece of clear glass, in which she promised to later show us our enemies. She displayed by locomotive, a waterwheel, threshing machine, etc. all of which were to figure later on. She pointed to a bank of ferns in one corner of the room, said it was a wilderness, and in the centre was a figure of the crucifixion of the Saviour."

"Then she gave me the material for the charms which we were to wear. I made them, placing inside of each stuff looking like soft coal. We dropped whisky on them, as directed, and wore them continuously. When my daughter did not return, after four months, I went again to Mrs. Snyder, and demanded that she make good her promise or return my money. She refused. Then I decided to have her arrested."

Mrs. Snyder has been held in jail by Magistrate Kreider for a hearing next week.

The interior of her house presents a striking appearance. Nearly all the furnishings are covered with gilt paint. There are numerous langages about the house similarly treated.

SWEARS HE SHOT BOY THINKING HIM SQUIRREL

Man Admits Killing, But Says It Was a Mistake

BELLEFOUNTE, Pa., March 4.—The trial of Peter Rider on the charge of murder in the second degree for the killing of Clyde Auman, 13 year old son of Auman, and Mrs. John Auman, of Penn township, last October, is complete, except the judge's charge to the jury.

Young Auman was found lying under a chestnut tree, fairly riddled with shot, and died two hours later without regaining consciousness. After a considerable time Peter Rider was arrested, and confessed that he fired the fatal shot, but declared that he thought the object in the tree was a squirrel. The prosecution showed by the evidence of several witnesses that from where Rider must have stood when the shot was fired the boy was in plain view, as the foliage on the tree was not very thick. This was their most damaging testimony. The defense did not deny the shooting, and in his own defense Rider took the stand and swore that he mistook the boy for a squirrel; that his sight was bad and for this reason he could not distinguish the object clearly.

DEAD WIFE BACK, MAN WOULD EXHUME BODY

Unearthly Visitor Wants Second Spouse's Child—Undertaker's Aid Requested

CONNEAUT, Ohio, March 4.—Steven Basso says he is haunted night and day by the spirit of his first wife, whose body now lies in the cemetery near this city.

"No matter whether I am sleeping or eating," says Basso, "she is always in my presence." His first wife died three years ago and he remarried and now has a child. He declares the spirit always has its arms extended as if reaching to carry away the child, and today went to an undertaker and requested that the body be turned over in its coffin. The undertaker attempted to argue the matter, but Basso outlined the figure of his deceased wife, as he saw her just across the room, and insisted that he was sincere.

MARRIES ON 75 CENTS; CERTIFICATE IS HELD

Wilkes-Barre Bridegroom Nearly Faints Learning Ceremony Costs \$5

WILKES-BARRE, March 5.—When Henry Abitz, of Plymouth, was informed by Alderman Masterson, after he had been married to Miss L. Eddy this afternoon, that the fee was \$5, he nearly fainted.

"I've only got 75 cents in my pocket," he stammered. The alderman, who had been called from his own office to the marriage license office in the court-house by the young man, who said he desired to be wedded at once, was angry.

"What do you mean by getting married?" he demanded. "How are you going to support this woman if you have no better start as a married man than being without money?"

"Well, I'll keep the certificate until you pay me," declared the alderman. "When you pay up you may have it."

MARRIES DAUGHTER OF HIS OLD-TIME FIANCEE

Quarrels With Sweetheart in Youth, Loves Daughter Years Later

FAIRFIELD, Ill., March 5.—Dr. Jonathan Rigdon, professor at Clark University, yesterday married Miss Alberta Smith, daughter of the woman he was once engaged to wed.

The marriage took place at the residence of the bride's parents, and was attended only by relatives. Dr. Rigdon is about 55 years old, while his bride is 23. He became engaged to her mother when they attended Central Normal School, Danville, Ind. There was a quarrel and the match was declared off. Dr. Rigdon went away, and his old sweetheart became the bride of another. It was eighteen months ago that he met the daughter, and was struck by her likeness to her mother. Miss Smith soon fell in love with the professor, and her mother gave her assent to the engagement.

TORONTO, Mar. 5.—A despatch from Cobalt announces the finding of a four thousand pound nugget in shaft 26 of the Nipissing Mine. The nugget is estimated to contain sixty-five per cent silver, and is the largest and most valuable find in the history of the camp.

JERSEY'S NEW BILL TO CHECK DIVORCE EVIL

Delegates to National Congress Draft Strict Measure Compelling Publicity

TRENTON, N. J., March 5.—United States Judge William M. Lanning, the Rev. Henry Collin Minton, former moderator of the Presbyterian General Assembly, and Vice Chancellor John R. Emery, the New Jersey delegates to the National Divorce Congress, today called on Governor Stokes, and completed the draught of the new divorce measure which will be introduced in the present legislature.

The framers will make infidelity and wilful desertion for two years the sole grounds for absolute divorce. Extreme cruelty is ground for separation. Fraudulent divorce is guarded against by publicity of all proceedings and records. This publicity is also expected to act as a check on suits.

New Jersey has heretofore guarded well her divorce secrets, and because of this fact the divorce mills have been running overtime.

PIUS MICHAUD ELECTED.

GRAND FALLS, March 5.—Nomination proceedings were held here today. Pius Michaud, barrister, was the only candidate nominated, and he was duly declared elected by acclamation, as the member to represent the constituency of Victoria-Medawaka in the House of Commons.

A public meeting was held after the proceedings ended, at which Mr. Michaud spoke. He intends to leave tomorrow for Ottawa. Other speakers were Hon. John Costigan and Mayor L. A. Dugal of Edmunston.

JUSTICE MARRIED 3,337 PAIRS IN EIGHT YEARS

Champion Marrying "Squire," of Indiana, Relates Experiences in Gretna Green.

BOSTON, March 5.—"I could always tell when a woman wanted to get married by the anxious look in her eyes." The champion marrying justice of Indiana looked at a vanishing smoke ring as he divulged the clue. In eight years Justice of the Peace Benjamin T. Nixon has married 3,337 pairs in Jeffersonville, Clark County, the Gretna Green of Indiana. He came here yesterday to rest at his daughter's home, 5,084 Walton Avenue, and grew reminiscent when a reporter asked him about his business in matrimony.

"Yes," he said, "I've run across some queer lovers during the eight years I was in the business. In that time I've married on an average of one and a half pairs a day. As for Somchow or other, the lovers seemed to think that about \$3 was a reasonable price; so finally I held to this figure when any one asked what I usually got.

"But, do you know, I struck some mighty mean fellows in love — mean in love, too. Just think of it! Why, one romantic swain offered me 25 cents one day and then said I could kiss the bride when I looked kind of mad."

"Sometimes I ran across lovers who were more than liberal, and I always found that the prettier the girl the more liberal her sweetheart was. The highest fee I ever got was \$25 from a couple that eloped. You can bet the girl in that case was a stunner.

"Things would have been better in Jeffersonville if it hadn't been for the runners. As the places got known as a Gretna Green, more Justices sprung up; finally there were four of them, and each one had a runner. These runners used to do all sorts of tricks to steer bashful couples to the squires they represented. Sometimes they dragged frightened couples, who had been married for years, all the way to the Justice's office before they discovered their mistake.

"I resigned as Justice out there a few days ago, and I had things cut and dried so that my son-in-law got the place, and I'll just bet they'll have to get up early in the morning if they want to get ahead of him."

At the meeting of the Board of Trade held yesterday afternoon the representation bill, the sewerage maintenance bill were all considered. A resolution was also passed urging the Department of Trade and Commerce to secure a daily service between St. John and Digby, increasing the subsidy to \$15,000 if necessary. A resolution supporting a district system of representation instead of a return to the old ward system was carried. After considerable discussion on the pavement bill it was resolved to memorialize the provincial government, pointing out the reason why the bill should not become law. The sewerage maintenance bill after receiving some consideration was dropped.

WINNIPEG MINISTER ASKS FLOCK TO VOTE LIBERAL TICKET; CONGREGATION LEAVES CHURCH; REV. MR. GORDON ASSAILED

WINNIPEG, March 5.—Two or more members of the congregation arose in Fort Rouge Methodist Church Sunday morning, interrupted Rev. J. H. Morgan, president of the Manitoba conference, in the middle of his sermon on the political situation and protested strongly against his appeal to his flock for votes for the Liberal party. They decided, Morgan had presented only one side of the question and vigorously resented his interference in the contest. The interruption brought the service to a close. The congregation slowly left the church, too amazed at first to realize the significance of the protest, which is indicative of the bitterness with which the campaign is being waged. Nearly all the pulpits oppose the Roblin government on moral grounds.

Meetings at different points throughout the province flamed with repic and counter-charges last night. Probably the most sensational statement was that of Hon. Robert Rogers, Minister of Public Works, at Swan Lake, Man., in the presence of a large audience, when he arraigned the following prominent ministers as falsifiers: Rev. C. W. Gordon (Ralph Corner), and Revs. J. W. McMillan, J. A. McClung and Prof. Brand.

"Of course it is easy for any healer, such as Rev. C. W. Gordon, who is willing to prostitute his position, to make cowardly and dishonest statements in the pulpit such as he did last night, for when Gordon makes a statement that the government broke faith with any person in connection with the district of Elmwood, he states what is absolutely untrue. And yet this is the sort of campaign of contemptible misrepresentation and slander which Rev. Mr. Gordon is willing to join in, not because he knows it is right, and that he thinks he is telling the truth, but I believe he has a double meaning for making this statement. First, his willingness to prostitute his position and his cloth, in the interests of the Liberal party; and second, to take advantage of making use of everything that turns up for the purpose of advertising his name, in the hope of helping the sale of silly novels which he has published from time to time. Again, I am surprised at Rev. Mr. Gordon making statements he has, that hotel men have made an alliance with the government. He should ascertain the truth of any such statements before making them, and no man in Winnipeg is in a better position to get at the truth than Rev. Mr. Gordon. He is a daily companion of all the sporting hotel men in the city, in connection with, daily, and almost hourly, horse racing sports that go on there."

MORE ABOUT BRAVE ACTION OF MONTREAL TEACHER WHO WAS BURNED

MONTREAL, March 5.—The inquest on the Hochelaga school tragedy was continued today. The witnesses heard were the three teachers who were saved, a number of children and some of the men who assisted in the rescue. It was fairly well established that when the fire was noticed Miss Maxwell, the principal, who lost her life, sent word to the teachers of the classes on the second floor to get the clothes on the children and send them home. Then she and Miss Carley, the other teacher on the ground floor, got their children out. This "some Miss Maxwell noticed that the smaller children from upstairs were not all out.

She immediately ran up stairs despite the warning of the janitress, who was with her in the lower hall at the time, that the risk was too great. She found that Miss Campbell had got her children out into the room and was handing them down the ladder to the men from the ice house across the street.

In Miss Keyes' room she found that teacher on the window sill with a couple of children. By this time the firemen had got a ladder erected and took down Miss Keyes and two children. Miss Maxwell, who had been in the centre of the room after more children, when there came a rush of flame and smoke, which drove the rescuers back and ended the lives of

Mrs. E. C. Levy, of St. Martins, is in the city attending the military opening.

Four drunks were dealt with in the usual manner in the police court this morning.

At two o'clock this afternoon the body of James McGeehan was brought to the surface at the L. C. Pier. Some days ago the young man was drowned from a lighter alongside a Head Line steamer.

The funeral of the late Mrs. Mary A. McKinney took place at 1:30 o'clock this afternoon from her late home at Black River. Rev. Father O'Neill read the burial service in St. Joachim's church and interment was in the new Catholic cemetery.

Fred, one of the fire department horses, was today at public auction to John McGoldrick of Lower Cove for \$75. This horse has for five years been doing service in the department, first on No. 3 hose, then on No. 2 hose, and latterly with Chief Kerr's wagon. Recently his work has not been up to the mark, and although the animal is still in many respects a valuable one, it was thought best to sell him.

The members of the Canadian Pacific Passenger Dept., will play the Canadian Pacific Ry. Co.'s operators a game of hockey, so called, in the Marine Rink tonight, 6th inst. Special trains will leave Union depot every half hour from 6 p. m. until 11 p. m., going via Ballast wharf and round trip tickets, with stop-over privileges at Marsh Bridge and foot of Duke St., will be sold on a strictly cash basis. **LOVELY ART STITCHING AT THE FREE CLASSES**

New Ideas for St. John Ladies.

Belding, Paul & Co's. Demonstrator and Teacher Shows [The Star Some Handsome Needlework—Free Classes for Ladies of St. John

That the intricacies of art needle work have no terrors for the ladies of St. John is clearly evidenced by the large numbers attending the demonstrations and lessons of Mrs. Smith, in the Church of England Institute, 6th inst. Mrs. Smith is representing that large silk house, Belding, Paul & Co., and has travelled in all sections of the Continent demonstrating the excellence of the products of that concern.

When the reporter called upon Mrs. Smith this morning, he found her busily engaged in explaining to a large number of very interested ladies the various stitches and the coloring employed in making the art collection of cushions, centrepieces, waist sets, etc., on view. This display embraces a number of the new styles in yellow, pink and red, shaded in a most life-like manner by various tints and tones of Belding, Paul & Co.'s silks. Another was a poppy pillow, richer and more to life, if possible. Two of the pillows were done in chrysanthemums. No handsomer items of art stitching have been seen in St. John in many years.

The centrepieces on view demonstrated English and French cyclist embroidery in combination, a particularly happy blending of patterns and stitching, all in white. Another showed chrysanthemums, daintily shaded and tinted in green, while still another was tinted in green and pink, with white background. A waist set in Oriental blue and red was a striking feature of the exhibit, as were several centrepieces in brilliant yellow.

All these clearly prove the adaptability of the Belding, Paul & Co. silks to all kinds of high class stitches, a very full line of pattern tints and deep tones in the complete color card being found among the products of this house. Canvas and other accessories are also made by Messrs. Belding, Paul & Co.

Mrs. Smith assured the Star reporter that she was delighted with the intelligent manner in which every St. John lady who has, so far, attended her class enters into a discussion of art needle work in its many phases, and in some other cities it has been her ill-fortune, one might say, to have to give very explicit and continued instructions to her lady callers. The classes meet every afternoon from 3 o'clock until 5:30 and on Monday, Tuesday and Thursday evenings from 7:30 to 10. The morning classes are held Wednesday, Friday and Saturday, from 10 to noon. All tuition and exhibition is free.

Upon her opening day Mrs. Smith had a class of over seventy-five, which is steadily growing in numbers.

**MORRIS WOOD HERE TO RACE TOMORROW**

Says the Victoria Rink is Quite Satisfactory

He Thinks Logan a Good Sport and a Very Fast Skater—No Plans for the Future.

Morris Wood, the world's champion amateur speed skater, has arrived in St. John. Mr. Wood was a passenger on the Boston train, due to arrive here last night, but on account of a mishap on the line this train did not reach the city until six o'clock this morning.

A young man of sturdy build, dark, and smooth shaven, Mr. Wood looks an able athlete. The last races in which he competed were held in the Saratoga rink. Fred Logan, of this city, was a contestant. In this tournament Wood broke the world's half mile record, covering the distance in 1:16 4-5. Besides making the new record, he captured first place in the 440 yards, quarter, half, and one mile events.

At the world's champion indoor meet at Pittsburg Wood won three out of five events. He holds world's records for 50 yards, 220 yards, 440 yards, half mile and one mile.

The speedy American has come all the way to St. John to compete in the championship events to be held in Victoria Rink tomorrow night.

"Do you think you can skate easily in Victoria Rink?" he was asked. He stated in reply that he has raced in the Victoria rink which are smaller than the Victoria, and expects to be able to go his full speed in the local rink. He is on still in the 100 yard, quarter mile, half mile, and mile. Mr. Wood will not have a "walk-over" in tomorrow night's sports, however, as St. John's fastest men on the blades will start. Bart Duffy has not entered up to this morning, but he has announced that he will be a competitor. Since Duffy's statement, that he was the fastest half mile man in the world, made a few weeks ago, all followers of sport are anxious to see the veteran start.

Fred Logan who defeated Wood in several events this winter will compete. Hilton Helyar, the speedy West Ender, has also entered besides those who are looked upon as good material. Mr. Wood had a try-out on the Victoria rink this morning and he finds the rink is all right. He has made no further plans after tomorrow night's event, as most of the big meets of the season are over.

The American champion was asked his opinion of Fred Logan as a skater. "He is a swift man and a good little sport," Mr. Wood replied.

**STEAMER CHERONEA IS NOT BADLY DAMAGED**

Has Arrived at Placentia for Repairs—Ran into a Lot of Ice.

ST. JOHN'S, Nfld., March 6.—The freight steamer Cheronea, bound from Calais, France, which was reported as passing Cape Race in a damaged condition, March 4, has arrived at Placentia, Nfld. Captain Liswell stated that the steamer came into contact with huge floes off the Grand Banks, having some of her plates indented and sustaining a slight leak in her forward compartment.

**OPERATION PERFORMED ON FRED ROBSON TODAY**

The coasting accident which occurred on Miller's Hill on Monday night, in which Fred Robson was seriously injured, may not end fatally. This morning at 10:30 o'clock Dr. Murray McLaren performed an operation on the young man. He removed the piece of bone which was pressing against the brain and some hope is held out for Robson's recovery. At noon young Robson was resting easily, and no ill-effects from the operation could be noticed.

NEWCASTLE, N. B., March 6.—At Harcourt last night Engineer George Mills of the Maritime Express, when about to start the train, saw a bundle on the track a few hundred yards ahead. He sent Fireman Douglas Wood to investigate and found a man, unconscious, lying on the track with his head on the rail. They failed to rouse him, so they handed him over to a neighboring housewife.

**THE McAULIFFE COMPANY**

HAD PLENTY EXCITEMENT

Walked From the Ice Bound Steamer Stanley to Pictou Island, and Were There Seven Days.

Jere McAuliffe and his stock company have had enough excitement since in the last of St. John to do them for some time. A letter received from a member of the company today states that on February 22th they passed on board the steamer Stanley and when about the middle of Northumberland Strait the ice-breaker came to a standstill. The ice was to match for her and she was frozen in. Those on board besides the McAuliffe Company were a Charlottetown hockey team. The passengers made themselves comfortable on board until Friday, March 1st, when the great pack ice threatened to send all on board to their doom. The steamer started to list, and the ice piled up about twenty-five feet high. The boat continued to list and Col. William Stanton, the business manager of the McAuliffe Company, the writer of the letter, says that the captain of the steamer ordered the passengers to board the ice boats. So far over did the steamer list that her rails were broken. The ladies of the theatrical company assisted by the hockey team for a rough four mile walk over the ice to Pictou Island. Once the boat slid into a space of clear water and Fred and White, Fred Martel and Col. Stanton were rescued by the members of the hockey team. It was sundown when the boat was rescued. Stanton writes a message to the Star on a piece of birch bark, which says: "We were rescued by the hockey team on Monday, March 4th—Shipwrecked on Pictou Island, saved from the steamer Stanley. "Oh for the sight of a sail to let us off this island, this makes seven days."

COL. W. G. STANTON.
