Dr. W. N. Hutchings baptized eleven candidates at Middleton a week ago.

Mr. J. Lourmer Hilsley B. A., L.L.B., has entered the law partnership of Messrs. Shaffner & Outhit and will take his place in the office here soon. Mr. Hilsley practised law here for a while with the firm of Roscoe & Roscoe.

Lady Bennett was called away and left a week ago for Medford Mass, to visit her sister, Mrs. Lucy Lovett, who has been ill. The former will probably be absent for some time.

Farmer's having young pigs to sell should communicate with Supplies Limited. Highest cash price paid.

Miss Amy Wentzell of Harmony has returned home after spending several months in Sunnerville, Mass.

TO RENT A 6 roomed house on Church St. Apply to Radcliffe & Veraker, Chipman Corner.

Mr. George Whalen intends helping Mr. Clyde MacDonald this summer.

Do you need feed of any kind? All right go to Caldwell. He has a big stock and at rock-bottom prices.

Mr. W. S. Pineo, who has been residing at Middleton is returning to his fine country residence, "The Woodlands" at Wilmot.

NOTICE—On and after May first, Dr. McGrath will be found at his Office and Residence, The Red House Main St., now occupied by Ralph McDonald.

FOR SALE: 2 grade Jersey heifers giving about 9 quarts of milk each. F. W. WICKWIRE, Kentville.

Flour feeds from now on will be sold for cash only. This move is absolutely necessary owing to the small margin made on same and the amount of capital well invested. R. T. CALDWELL.

Pte. Percy Peck, son of Mr. and Mrs. Ephraim Peck, was married in England on Thursday, April 11th. He has been in the hospital suffering from gun wounds, but is expected home on furlough before long. He has been in the trenches nearly three years.

2 cars flour & feed just to hand—Our prices for cash will meet any competition. R. T. CALDWELL.

A meeting of the residents of Ward 3 will be held in Centreville Hall on Thursday evening the 26th instant at 8 o'clock (legal time) to organize the Ward for the Military Y. M. C. A. Campaign. Speakers from outside points will be present and the County Executive expect a big audience from Ward 3.

At a representative meeting of Kentville merchants held in the Town Hall on Thursday evening last, to arrange for summer hours of doing business, it has unanimously agreed to close the stores on Wednesday afternoon beginning May 1st and to continue until Sept. 30th. They also agreed to close at six o'clock P. M. Monday, Thursday, and Friday and remain open the evening on Tuesday and Saturday. While May 1st it two months earlier than Wednesday half day closing has begun other years, it was advisable in response to the many calls from those best in position to know of the needs for increased production throughout all of Canada, and believing that many merchants and clerks by this arrangement could devote at least ten hours a week agricultural pursuits to adopt this plan.

The little that can be grown because of this movement may seem trifling yet this principal applied throughout Canada will feed thousands.

Mrs. Edward H. Landon and her two daughters were killed in Paris, when a shell from a long range German gun struck a church there on Good Friday. Mr. Landon is a retired New York attorney who has been in Paris most of the time since the war started. Mrs. Edward H. Landon was a niece of Levi P. Morton former Vice-President of the United States and once Governor of New York. The Landon family at New York has received a cablegram telling of the deaths of Mrs. Speed and saying Miss Ruth Landon was missing.

THE NEWSPAPER A NECESSITY

The Greensburg, Indiana, Daily News says:—On an appeal, the Conscription Board at Syracuse, N. Y. has ruled that a man employed on a newspaper is connected with "a necessary industrial enterprise," and therefore should be placed in class three.

In this decision the Board took the same view that is at this day and age shared by almost everyone. That the newspaper is an "industrial necessity" is undeniable and the newspaper is also a military necessity. Without it the government would have been forced to spend an immense sum of money, consumed a lot of time and perhaps faced much resistance not now manifested in the making of a great army by the selective draft.

Without the newspapers, the Red Cross, the Y. M. C. A. and the various form of relief would not have been easily or quickly accomplished and the Liberty Loans and the Thrift Stamps might have been sold eventually but not with expediency and perhaps not at all. The public had to be made familiar with the necessities and the demands and without the newspapers this would have been slow—might we not say impossible?

It is not a coincidence that the most enlightened country of the world, the most progressive and the country that has amassed the greatest wealth, in the shortest time, has the most and largest newspapers, with the greatest circulations. It is a plain story of cause and effect.

It is evident, therefore, that the Board was right in its decision that the newspaper was an industrial necessity, but it might have gone further and said that it was a military necessity and necessary to the prosecution of the war and more of a factor than any other agency in speeding up the work of preparing for equipping the country for financing of the great war.

NO INJURY TO ROOTS OF CARBOARD FLOWER POTS BE USED.

To insure an earlier harvest of certain vegetables that are sensitive to frost and cold weather, and which can, therefore, not be planted outdoors much before the middle of May indoor cultivation is frequently resorted to. But this method of starting plants has not been altogether satisfactory. In nine cases out of ten the tender roots are injured sufficiently to retard their growth.

Abroad, where intensive cultivation of the highest order is carried on, the yare now using a receptacle that greatly facilitates the work of transplanting. This is in the form of a flower pot and is made of cardboard. When plants grown in these are ready to be transferred, the container, as it stands, is set out in the ground. The roots of the thriving plants come out thru the perforations and are not hurt by the pasteboard, which rots away soon after the flower-pot is buried.

For the cultivation of draft beans, for example, of which two cross may be had in one season, it is advisable to plant four to five in a container from three to four inches in diameter, distributing them well in the soil! On the other hand, a flowerpot from one and a half to two inches in diameter will do for the pumpkins—two seeds to each pot. If both the seeds germinate the weaker plant should be pulled up, so as to give the other plenty of space to develop into a sturdy vine.

A good plan is to place rows of these containers in boxes, filling the intervening spaces with loose earth. This facilitates removal and insures nourishment to the roots that may find their way out through the openings in the flowerpot before transplanting.

TEACH EFFECTIVELY.

It is generally agreed among educators and others who have nation's interests at heart that the schools of the country shall continue during the war with as little interruption as possible. At the same time it is felt that the schools shall do all they can to aid in meeting conditions which have grown out of the war. Inasmuch as some of the greatest problems are concerned with increasing the production of food and with conservation in its use, there is a special interest at this time in the teaching of agriculture and home economics. Now, as never before, the nation is appreciating the value of these subjects in the school curriculum. With most educators it is no longer a question of why these subjects should be taught, but as to how they may be taught most effectively.—H. P. Barrows, Specialist in Agriculture Education, in States Relation Service, Doc. 73, United States Department of Agriculture.

STARVATION IN BOHEMIA REPORTED.

Why Austria is Anxious for Peace.

WASHINGTON, April 18—Thousands of families in Bohemia, especially at Prague and vicinity, are starving, according to an official despatch from France today, which quoted the Leipzig Volks Zeitung. Last week it was estimated that there was a deficit of one hundred thousand loaves of bread in Prague.

Arthur E. Greely applied at the U. S. Marine corps recruiting office, Buffalo, for enlistment. He was rejected because he was so tall. Greely stood six feet nine inches. He is 22 years old and weighs 168 pounds. Sergt. Kohler, when measuring Greely's height, had to stand on a chair to get the tape high enough on the wall to get the full measurement. The limit in height for the marine corps is 73 inches, and Greely stretched the tape to 81 inches.

In the home of the late Lemuel Bigney, Wentworth, the pastor, the Rev. Chas. Johnson, was shown in the grandmother's Family Bible, a list of Methodist ministers who had been entertained there during the 40 years previous to 1872, the year of the old lady's death. There were 63 names on the list together with 7 Presbyterian one Baptist.

PRAYER OF A SOLDIER.

The prayer which follows was found in the pockets of a British Colonel after he was killed in action in France on October, 11th, 1917:

Father of all, Helper of the free, we pray with anxious hearts for all who fight on sea and land and in the air to guard our homes and liberty. Make clear the vision of our leaders and their counsels wise.

Into Thy care our ships and seaman we commend; guard them from chance sown mines and all the dangers of this war at sea; and as of old give them the victory.

To men on watch give vigilance, to those below calm sleep. Make strong our soldiers' hearts and brace their nerves against the bursting shrapnel and unseen fire that lays the next man low.

In pity blind them from the sight of fallen comrades left upon the field.

May Christ Himself in Paradise receive the souls of those who pass through death.

Let not our soldiers ever doubt that they shall overcome the forces of that king who "seeks to wade thru slaughter to a throne and shut the gate of mercy on mankind."

O God of Love and Pity have compassion on the wounded, make bearable their pains or

Synopsis of Canadian North-West Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within five miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take expurchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months out of three years; cultivate 50 acres adjacent a house worth \$300.

The acre of cultivation is subject to reduction in case of rough, scrubby or any land. Live stock may be substituted for cultivation under certain conditions.

To surgeons and dressers give strength that knows no failing and skill that suffers not from desperate haste.

To tired men give time to rest Pity the poor beasts of service who suffer for man's wrong For us at home, let not that open shame be ours, that we forget to ease the sufferings of the near and dear of brave men in the fighting line.

O Thou, who makest human hearts the channel of Thy answers to our prayers let loose a flood of sympathy and help for children and their mothers who wander desolate and suffering, leaving wrecked homes and fields and gardens trodden under ruthless feet.

With Thee who sufferest more than all, may we with reverence Thy burden share, for all are Thine and in Thine image made; they too are Thine who caused the wrong.

O Father may this war be man kind's last appeal to force. Grant from the stricken earth, sown with Thy dead, an everlasting flower of peace shall spring, and all Thy world become a garden where the flower of Christ shall grow.

And this we beg for our dear Elder Brother's sake, who gave Himself for those He loved, Jesus Christ, our Lord, Amen.

No King ever travelled more simply than did George V, who has just visited the battlefield. He crossed the Channel on a destroyer just like an ordinary "teer." He was whiffed up and down the lines like a hard-working army inspector, shaking hands with the enlisted men and eating ordinary mess food wherever meal-time caught him. Seeing a slightly wounded Australian at the railway station the King walked up to him and said: "I've often heard about you." The Australian, holding out his hand, responded, "Put it there." The King shook his hand warmly and appeared immensely pleased to be taken as an "equal."

"THE WHIP"

"The Whip" the supreme offering of blindom is coming to the Nickel Theatre on Friday and Saturday, April 26th and 27th, to charm, delight and thrill the patrons of this show house with its thrilling story, its splendid characterizations, its truly wonderful photography and its sensationallly magnificent scenic effects. "The Whip" is easily the world's biggest motion picture. One scene alone, that of the great train wreck, was staged at an enormous expense merely for this offering. And it is the biggest and best train wreck yet seen in motion pictures. An automobile race and wreck that is so vivid as to hold the spectators gasping is another big feature. But, of course, the biggest feature of all the tremendous scenes and events in this gigantic production, is the horse race. The scenes for this splendid event were taken at Saratoga, where the biggest racing events of the

world are pulled off, and the screen reproduces the tensely, the excitement and the enjoyment of Saratoga with striking fidelity. "The Whip" has not one star, but six. From start to finish it has been staged on a remarkable elaborate scale. The production has been made by that genius of the screen, Maurice Tourneur, and he has excelled all his previous efforts in this tremendously successful production. By all means, see "The Whip". It is the only motion picture that you cannot afford to miss. There will be a matinee on Saturday afternoon at 3 o'clock. Admission 25 cents to all.

The locked antlers.

In September and October during the rutting season the hunter occasionally hears the sounds of a fight between these giants of the forest, the bull moose. With their formidable horns these huge creatures can tear a young black tree like a piece of matchwood, and although it is only a sapling, but the old moose will attack a man if he gets in the way. It is almost impossible to be quick with a rifle when the moose is in the line of fire. The other day on a farm near the C. P. R. a hunter shot a bull moose. The horns were locked together at a point that the moose could not separate them. The moose died there at starvation.

The Dominion of Canada is playing a more independent part in world affairs than it has ever done in the past. For the first time in our history we are financing all our domestic undertakings instead of floating loans in New York or London. We are doing this at a time when our obligations are greater than ever before. In addition we are financing our share of the war as well as extending aid to Great Britain in her purchases on this side of the ocean. We are meeting our great obligations in two ways—domestic loans subscribed by the Canadian people, and by increased taxation. In 1913 Canada's ports of agricultural produce were valued at \$194,000,000, in

1917 their value had increased to \$655,000,000. From these figures it is evident that the Canadian farmer is playing a leading role in making Canada a credit nation. It is the value of this food that is at the root of our financial strength.

Canada is setting a record in ship construction which may be judged from the fact that during the coming year she will put more tonnage into the water than the German Admiralty had estimated would be the entire annual production of the United States, England and France, says the Emergency Fleet "News." The growth of the Dominion's shipping programme was achieved despite a very severe winter.

A sad drowning accident occurred at Sluce Point on Friday when a son of Mr. Thomas Muise lost his life. He was out with two of his brothers after rock weed and sea manure and when returning home the boat became unmanageable in the sluce near the bridge and was capsized. The three young men managed to get on the bottom of the boat but one of them whose strength apparently failed him, lost his hold and he was washed off and drowned.

It is estimated that \$500,000 damage was caused by the fire which swept the heart of Vermillion, Alberta, on Thursday, destroying every business block with the exception of one. It is understood that the insurance will net 60 per cent of the total loss. The fire started about 2 o'clock in the afternoon with a small blaze in the implement warehouse of Joseph McKoon, and in less than two hours twenty-five buildings had been destroyed with most of their contents.

SMALL IRRIGATION PROJECTS ARE SUCCESSFUL

- (1) Irrigation flume near Kelso, B.C.
- (2) Irrigating Small Farms.
- (3) Small Irrigated Farm.

Speaking before the annual convention of the Western Canada Irrigation Association at Kamloops, B.C. A. S. Dawson, chief engineer of the Department of Natural Resources of the Canadian Pacific Railway, expressed the faith that is in him in the irrigation projects for which Western Canada is becoming famous. Although Mr. Dawson has been connected mainly with the big irrigation enterprises of the C. P. R. in Southern Alberta, he does not overlook the advantages of small projects operated by a community of farmers, or even by an individual.

"I have had fifteen years' experience on what are the largest irrigation projects in Canada," said Mr. Dawson, "but I am willing to admit that the small projects such as you have in the immediate vicinity of Kamloops are quite often more interesting and worthy of fuller consideration than are the larger projects. These schemes, though small, should be considered as one of your greatest assets."

The benefits of irrigation show their results in better farms; improved living conditions; improved social conditions and better citizenship. If conducted along proper lines it improves agriculture, saves the soil, increases industry, produces prosperity and should provide for posterity."

Mr. Dawson's reference to the small irrigation schemes is of particular interest to the farmers of Western Canada, where there are hundreds—literally thousands—of creeks and streams which could be used in a small way for irrigation purposes. According to the opinion of an officer of the Western Canada Irrigation Association the day is coming when irrigation in Western Canada will be limited only by the amount of water available. The increasing interest in irrigation is indicated by the fact that the annual meeting of the association in 1917 will be held in Saskatchewan. The first time in the past it has always been held in Alberta or British Columbia, but this year the association will meet at Maple Creek, Saskatchewan.

Fertilizer

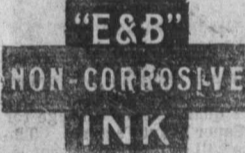

It is hard to make most of the farmers realize that there is a great possibility of them not being able to get what commercial fertilizer they will require this spring. But never the less it is an absolute fact and the wise farmer will take home his fertilizer soon. As if you wait till spring you may not be able to get any. As even now it is a very hard to get what you want as transportation is so bad we have only a few more cars of Basic Slag to sell.

A FISHING PROCLAMATION.

An old Highland fishing proclamation was read by the Rev. Percy Coats at a meeting of the Lunenburg Fishery Board at Lancaster. The proclamation read as follows:—"This shall be a proclamation of Her Grace the Duke of Argyll: If any man be found fishing in the loch, on the loch, around the loch, through the loch afoor the Loch, or hinder the loch, his neck shall be broken in twelve places, and if he shall hereafter offend he shall be persecuted wif far war persecution, for he shall be burned and hanged. By all the laws of the Europes of Scotland and Her Grace the Duke of Argyll."

HISTORY HOME RULE MOVEMENT.

STARTED BY LSAAC BUTT 48 YEARS AGO.

- 1870—Isaac Butt became leader of the movement for Irish Home Rule.
- 1878—Leadership of the movement passed to Charles Stuart Parnell.
- 1882—Negotiations between Parnell and Gladstone halted by the murder of Lord Frederick Cavendish and Under Secretary Burke, in Phoenix, Dublin.
- 1886—Gladstone introduced his first Home Rule bill, and it was rejected by thirty votes.
- 1893—Gladstone succeeded in having his second Home Rule bill passed by the House of Commons, only to have it killed in the House of Lords.
- 1893—Several succeeding attempts to bring about the enactment of bills to establish self-government in Ireland met with failure, but with each attempt the movement became stronger.
- 1905—Redmond's motion for consideration of Home Rule defeated in the House of Commons by fifty votes.
- 1907—Government presented a Home Rule bill. Convention of Irishmen at Dublin rejected it unanimously and the ministry dropped it.
- 1908—Redmond's motion for a consideration of Home Rule was carried by 156. No further action taken.
- 1911—Parliament passed an act abolishing the absolute veto power of the Lords.
- 1912—New Home Rule bill introduced in the House of Commons.
- 1913—Bill passed the third reading in January by 110 votes. Rejected by the House of Lords.
- 1913—Introduced a second time in April and passed in July by the Commons by 109 votes. Lords again rejected it.
- 1914—Passed the House of Commons for the third time on May 25.
- 1914—Signed by King George V. on Sept 18, and went on statute books.
- 1915—Application of Home Rule held up pending agreement of the Irish parties.
- 1916—Rising in Dublin and martial law declared throughout the Island. Arrest and execution of Sir Roger Casement and other revolutionists.
- 1917—Irish Nationalists in House of Commons presented a resolution calling for the immediate application of the Home Rule law. The Government replied that Home Rule would not be forced upon Ulster.
- 1918—Premier Lloyd George announced the intention of the Government to apply conscription to Ireland and to grant the immediate application of the Home Rule law.

HANTS CO. PRIZE COW GIVES BIRTH TO THREE CALVES

A most unusual incident occurred on the farm of Wm. O'Brien & Sons, Windsor Forks, Friday last when a prize Hereford gave birth to three fine calves.

It is said that Wm. O'Brien & Sons of this County are the owners of the finest herd of Hereford Cattle in Eastern Canada, at least the exhibition awards would give us that impression.

This cow with her offspring won the sweepstakes at the Prov. Exhibition last year. She is seven years of age. Her three calves are in perfect health, of uniform size and carry similar markings.

Hundreds of people have visited the O'Brien farm within the past few days for the purpose of gazing upon this proud mother who is doing her share in the matter of increased beef production.

We think this incident gives Hants Co., the right to state that a new Canadian Record in Beef Production has been established.—Hants Journal.

CHARLIE CHAPLIN IS DRAFTED.

Famous Film Comedian to Be Called in U. S. in June.

NEW YORK, April 15—News despatches received here from Los Angeles, Cal., this afternoon, state that Charlie Chaplin film comedian, has been drafted and will be called to the colors some time in June. The news following so closely upon his appearance in this city, with Douglas Fairbanks, with whom he is touring the country in behalf of the Liberty Loan, caused a stir in theatrical and moving picture circles.

Although Chaplin is a British subject, it is understood he will waive his rights as a citizen of

Great Britain and don the uniform of the United States army for service in Europe. Owing to the comedian's absence from the city on a speaking tour, verification of the report was not obtained.

In a speech from the steps of the sub-Treasury soon after the Third Liberty Loan campaign opened, Chaplin was quoted as saying that owing to an incurable physical disability he was ineligible for army service, but that his heart and soul were with the cause of the Allies.

CANADA FOOD BOARD EDUCATIONAL DIVISION.

Weekly Editorial.

April 12th, 1915.

Willful waste of any food or food products or waste resulting from carelessness or from imperfect storage facilities, has been made illegal and subject to penalties by Order of the Canada Food Board. By the terms of this Order, responsibility is laid upon private citizens to see that no food is lost by being kept too long or kept in improper conditions. If a private citizen has reason to believe that a cold storage warehouse, store, restaurant or hotel is wasting food in any way, he has now the opportunity of making a complaint to the municipal authorities with the knowledge that the law is behind him. At a time like this, when food is so scarce in the world and so high in price even in Canada where comparative abundance still prevails, it is the positive duty of the private citizen to uphold the law against waste and to carry out the full spirit of the law in his own household and in his own daily routine.

In the past it has been the habit of many people to complain bitterly about lack of regulations in regard to waste and to lay responsibility upon Dominion Government. The constant remark was "Why does not the Government do something?" The cold storage in some far off city like Winnipeg would develop some imperfection and some thousands of pounds of food would be spoiled, then immediately would arise the question "Why does not the Government do something?" The fact that local initiative might "do something" was slow to occur to many good people. The new order against waste makes it abundantly clear that the Government has "done something." It has, in fact, done all it could without creating special and expensive machinery to do more. It has followed the principle of local enforcement and the decentralization of authority. It has provided stiff fines for those who break the law against waste of food and it has provided that prosecutions be undertaken by local officers. Thus, if the municipal health inspector or any municipal officer discovers waste in a local cold storage warehouse, he lays the charge before a police magistrate or two justices of the peace and, securing a conviction, secures one-half the fine for his municipality. Similarly in the case of a provincial officer: se-

curing a conviction. The penalties are fairly stiff ones. The fines being limited to a 1000 with the alternative of imprisonment up to the months. If circumstances warrant it and wastefulness by neglect be flagrant, both fine and imprisonment may be imposed.

Further, if local authorities learn that food is being held when it should be sold for fear of spoiling, they have only to notify the Canada Food Board. The Board is in its turn, authorized to notify the offender that the goods must be immediately sold and in default of obedience, the Board itself may step in and seize the goods and sell them.

Most people in this country realize that there is a great war raging and that people on whom the world depends are in danger of starvation. Some few apparently do not. This new law will do much to teach them.

TYPICAL SERENITY.

Most residents of London have come to take air raids very coolly. During the latest German visit, a British 3-inch gun, mounted on an automobile truck, took up its position in a fashionable residential district, directly in front of the house of a wealthy banker. The banker stood the racket of the barrage-fire for some time and then walked out in the street and said to an officer in charge of the gun:—

"I say, would you mind taking that thing a little farther down the street. We don't like the row and it is fairly shaking our walls."

The young lieutenant was nonplussed for a moment, but recovered in time to flash back a reply: "Look here, do you take this for a blooming burdy-gurdy?"

SAYS GERMANY IS HARD PRESSED FOR MEN.

NEW YORK, April 16—Germany is so hard pressed for manpower that permanently disabled soldiers are retained in the army and cripples are called to the colors. This statement was made in the Reichstag by Deputy Ryssel, an Independent Socialist on February 23 according to the Berlin Vorwaerts, received here. Other deputies also laid bare sensational conditions prevailing in the German Army.

WEDDING.

Logan-Tucker

A quiet but pretty wedding was celebrated on the 19th Mar. at St. Cuthberts Church, Philbeach Gardens, London, when Miss Olive Stockdale Tucker, 2nd daughter of the late Charles Stockdale Tucker Esq. and Mrs. Tucker of Sea View, Somerset, Bermuda and Captain H. Meredith Logan, R. C. R. only son of Rev. and Mrs. A. P. Logan of New Brunswick, Canada, were married.

The bride left in a very smart blue serge coat, frock and seal skin coat. On the way to the waiting car, they were once more freely pelted with rose leaves, and confetti by the assembled guests.

The weather was up to the Bermudian standard, and the large and beautiful church, decorated with white Easter lilies reminded one of the rapidly approaching season of the year.

The bride who was given away by Mr. L. H. Lemon was beautiful in a frock of white pleated Georgette embroidered in beads and girdled with a sash weighted with beads. A large tulle veil held in place by a crown of pearls and a lovely shower bouquet of white carnations with floating bows of snowy tulle completed the bridal toilette.

Miss Monica Leonie Lemon, niece of Mrs. W. Cardy Bluck of Rosebank Bermuda who was the only bridesmaid, wore a dress of pale yellow chiffon velvet and a Russian hat of gold lace, she carried a bouquet of purple lilies and looked very lovely.

The bridegroom who was on short leave from hospital walked on crutches, and was attended by Captain Clorne M. C. R. G. A.

The service, which was performed by the R. W. Nestall, was fully choral and blended with the voices of the choir, were the deep tones of many wounded soldiers, who attended in their hospital blues accompanied by many nurses.

They were former patients of the bride, from the Hospital at which she had been nursing. After the ceremony they formed an arch of sticks and crutches from the church door to the carriage and gave the happy couple a rousing send off, and pelted them with confetti.

Later the bride sent her bouquet and a large portion of the wedding cake to her old patients in whom she felt so deep an interest and who had been the object of her devoted care for so long.

Mr. Harold Pemiston of Smiths Parish, Bermuda, and L. L. Hilyard of the Norfolk Reg. acted as ushers. After the wedding Mrs. Lemon gave owned in a charming frock of grey chiffon velvet, and toque to match held a small reception at her home 86 Mauch gdns., Kensington.

After the customary toasts had been drunk, Captain and Mrs. Logan left for the Berkeley Hotel, Piccadilly en route for Matlock, Bath, Derbyshire where Capt. Logan is undergoing further treatment at the Canadian Hospital.

CANAAN.
