An Interesting Tale for

### Wednesday Afternoon Shoppers

The yellow sand sinks under foot and the water ripples alluringly. To yield to these attractions is doubly delightful when one's suit is a warm snugly fitting wool one in a Vivid becoming shade. For \$2.98 you may have a wool jersey suit in navy and red, gold or green perhaps a water color one. But please remember this price is very special, one for Wednesday afternoon only, as these suits actually cost us four dollars a piece. However we wish to encourage Wednesday afternoon shopping.

## Newcastle-Chatham Curlers Will Battle Here To-morrow Evening

This will be the Greatest Sensation of the Season—Brooms to be Discarded and Baseball Bats to take Their Place. Proceeds for Hospital Drive.

Well, what next? The Miramichi has developed a craze for baseball and the latest in this sport is a friendly match between the Newcastle and Chatham Curling Clubs in the Farrell Field, Newcastle on Wednesday evening at 6:30 o'clock for the benefit of the Miramichi Hospital Extension and Nurses' Home Drive. Every organization including Firemen, Night Hawks and Royal Nine are indulging this year in the greatest game of all sports and the two curling clubs are now going to try their skill at it. It will be a great game and the spectators will have an opportunity of seeing the wielders of curling stones and brooms trying their hand with the baseball bat and sphere.

These two aggregations have often met before and many a hard fought game was played by both teams, but it was always on the ice, indoors and when the weather was at the zero mark. This time it will be something new for them and the surroundings will be quite different. Instead of ice-terra firma, outdoors instead of indoors; a hot sun instead of zero weather; a baseball bat instead of a broom, and a pill instead of a stone. How they will get along with the radical differences between the two games will be well worth seeing and it is anticipated that the largest assembly ever gathered to see a ball game will be on hand to see the members of the "Roarin' Game" take each other's measure on Wednesday evening.

The reason why the game has been called has been for the purpose of assisting the Miramichi Hospital Extension and Nurses' Home Drive which is being conducted throughout the entire county of Northumberland this week. Your attendance will assist this most worthy object, and Wednesday evening has been chosen for the time of the battle. The field should be crowded and the receipts be most satisfactory. Do not forget that you are going to be treated to a real "fast game of ball, played by sports of the very first water. A curler is always recognized as a good, clean sport. If he was not, he would not be a curler, because curling is a game that makes sports. President Nichol of Chatham on behalf of the Chatham Curling Club challenged the Newcastle Curling Club through President John Russell on Saturday and the Newcastle Club lost no time in accepting the challenge. Arrangements were immediately made for the big game and the members are now hard at practise. Of course, as was to be expected, a little difficulty has been experienced by some of the members during practise. When at bat, they complain that the broom is wider, which if they were allowed to use, they feel certain they would have no difficulty in making more hits, especially home runs. The in and out turns are quite similar to the in and out curve, but when it comes to the drop they are baffled. They miss the back at home plate but find the earth easy to dig up and now have several large holes around home. It is more difficult for them to hit sacrifice hits or one, two, three and home baggers than it is to draw, guard or make a tee-length, but when it comes to taking their opponent's stone out and lay, some of the members claim that it is just the same as one, two, three strikes and batter out. They find it rather awkward judging balls from strikes, as the sphere goes at a much faster rate than the curling stone does and which also is assisted by rapid sweeping. They are quite pleased to think that once the ball leaves the pitcher, there is nothing done to assist it, as in the "roarin game" this is where they have to work. However, they are all doing well at practise and are confident they will be able to overcome these small difficulties before the day of the battle. They guarantee the best game of the season to the fans, so don't miss it, whatever you do be on hand early as it will be a fight to the finish.

## DECEASED SUDDENLY AT CHATHAM HEAD

Frank Kennedy, a well known resident of Chatham Head, died suddenly late Saturday night. He had been in perfect health and worked all day Saturday with the Fraser Lumber Co. On Saturday evening when through work, he put his horse in the barn and went into the house complaining of a sore throat and did not eat any supper. Later in the evening he became ill but it was impossible at the time to secure the services of a physician. Mr. Kennedy steadily became worse and died about midnight. Coroner Marven of Chatham was called and after viewing the body on Sunday refused to certify to the cause of death, stating that such could not be ascertained unless an autopsy was held. There were no marks on the body. Deceased was 35 years old and is survived by his wife, mother, three brothers and two sisters. The funeral was held this morning at 7:30 o'clock. Interment in St. Patrick's cemetery, Nelson, N. B.

## CHATHAM AGAIN LEADS IN LEAGUE

Chatham again gained its place of first position in the Miramichi Baseball League when they defeated Newcastle nine to seven at Chatham on Wednesday evening. The game was witnessed by a large crowd including many from Newcastle.

In the second inning Chatham scored five men, Currie opening up the spurt by hitting a home run. In the fourth Newcastle came back strong and secured four tallies. In the fifth they got three more thus gaining the lead, but in Chatham's sixth they managed to put across four runs making a total of nine. The batteries were Briggs and Currie for Chatham; Craik and McKenzie for Newcastle. Umpires Ashford and Mayes.

### TURN TO THE RIGHT

But no matter which way you turn on Wednesday evening at the Farrell Field you can enjoy a good laugh at the Curler's Baseball match.

# THE LAST APPEAL!

## For Miramichi Hospital Extension & Nurses' Home This Week July 15-21 Inclusive

The drive for funds is on for this worthy object. The entire County of Northumberland is being canvassed this week by Collectors.

**\$35,000.00 IS THE OBJECTIVE \$35,000.00**

This should be a small matter for a COUNTY the size of NORTHUMBERLAND, providing each and every one does his or her Share.

RESPONSIBLE CITIZENS of each Parish have complete control over their districts. Let EACH district do its share. The Hospital takes care of patients from every parish.

We have faith enough in our people, to believe that they will see that the drive goes "OVER THE TOP". It is a duty we owe to ourselves and to "OTHERS".

**THE MEN WE CALL LUCKY!**

SOME men go through life spending money faster than they earn it. When Opportunity comes, they are unable to grasp it, and in their blindness call themselves unlucky.

The successful man looks ahead—systematically building up a good bank balance. Then when Opportunity comes, he is in a position to seize it—does so, and reaps his reward.

He is often called "lucky." It was not luck—it was Foresight.

**CAMPBELLTON HAS ELECTION**

In the municipal election held in Campbellton on Tuesday, councillors to represent Ward 2 on the local board of councillors, James H. Moore was re-elected with a total of 112 votes as well as his running mate, Clifford MacDonald who led the pole with 118 votes. The total vote was: Clifford MacDonald 118; James H. Moore, 112; Dr. A. Roy 108; Jamieson 87.

Councillor Moore and Councillor Hugh Marquis resigned when they expressed the view that the present town council had accepted a tender for permanent road work which was not the lowest tender received. Councillor Marquis dropped out of city affairs, but Councillor Moore entered again to see if public opinion was behind him and was re-elected.

Interest in this election ran high the two losing candidates having posters distributed throughout the town denouncing Councillor Moore for putting the rate-payers to the expense of a bye-election by resigning and running again himself to fill one of the vacancies which he had caused.

Two hundred and twenty one votes were cast in the ward and only one ballot was spoiled.

**Train Leaves Track; Goes Over Embankment**

Yarmouth, July 11—Eight freight and two passenger cars of the incoming Halifax and Southwestern train left the rails near here this morning and rolled down an embankment.

The engine remained upright but stood at right angles to the track following the run-off. Slight injuries were received by the fireman who was thrown from the cab. The remainder of the crew and passengers escaped with only a slight shaking up.

**Guards Secret Of Grave Of J. W. Booth**

Moline, Ill.—With lips sealed by an oath he said he took more than half a century ago, E.H. Simpson of Moline, Ill. claims to be the only living man who knows what disposition was made of the body of John Wilkes Booth, assassin of Abraham Lincoln.

Mr. Sampson who is now 81 years old, was a member of the United States Secret service detailed to duty at Ford's Theatre the night Lincoln was shot there. He had served as one of Lincoln's bodyguards for several months. He saw Lincoln shot, saw Booth jump to the stage of the theatre, was in the party that pursued him saw Booth shot and helped transfer his body to a United States warship in the Philadelphia navy yard, according to a recital of the events he has just given out.

According to Sampson's story, he and Colonel Lafayette Baker, later General Baker, were the only two men who knew what was done with Booth's body. General Baker has been dead 23 years. He had been ordered to select a man and go to Secretary of War Stanton for orders, and decided on Sampson. They were ordered, Sampson states to remove Booth's body from the warship between the hours of 10 p.m. and 3 a.m. on the night of April 21, 1865. The body disappeared that night.

"I took a pledge that as long as I lived I would not divulge the secret," says Sampson.

**U. S. To Maintain Full Naval Force**

The United States will maintain at full efficiency during the next fiscal year a minimum naval force at sea of 18 first line battleships, 14 cruisers and 84 submarines, under a decision by the General Board, formally approved by Secretary of the Navy Denby.

The decision is viewed as significant in view of the five powers naval treaty resulting from the continued delay of France to ratify. Analysis of the complete program shows the navy will keep at fighting trim and at sea the full strength allotted to the United States under that treaty.

**CANADIAN EGGS NOW GRADED**

The "Regulations Respecting the Grading and Marking of Eggs" effective July 7th are a further evidence of the unique position Canada has taken in poultry work. The new regulations extend the standardization of eggs to those intended for domestic consumption. No other country has as yet attempted to take such a step.

The original regulations covered export, import and interprovincial shipments but it is now provided that every case or container of eggs shipped or delivered either on consignment or bought for resale will have to be marked on both ends with the name and the class of egg contained therein. Provision is made that any producer or other person dealing in eggs may delegate his right to candle and grade to the first wholesaler or retailer to whom the eggs are shipped or delivered, in which case cases or Containers must be marked with the words "Ungraded Eggs for Shipment Only". This regulation will not apply to shipments or deliveries direct from producer to consumer. An allowance is made of six and one-half (6 1/2) per cent below grade stated apart from breakage. In the event of any complaint as to grade this must be made to the vendor within twenty-four hours of the receipt of the eggs after which time the liability as to the eggs being below grade will rest upon the person on whom the eggs are found.

Consumers will be particularly interested in the regulations which read as follows: "Every case or container of eggs that is exposed displayed or offered for sale by any person selling or delivering eggs direct to consumers in a public place or manner shall be marked, labelled, tagged or accompanied in conspicuous letters with the name of the class and grade of eggs contained therein." "No person shall ship eggs or cause eggs to be shipped or delivered or displayed for sale in cases or containers which are marked or labelled or tagged with the name of any class or grade specified in these regulations unless the quality and weight of the eggs contained therein is equal to or better than such class and grade" and no person shall buy for sale or resale or expose, offer for sale or sell eggs which are unfit for human food". In other words eggs must be candled and graded according to the Canadian Standards before being offered for sale.

A regulation which is of special import to producers is that which provides for those receiving eggs on consignment or buying eggs for resale making returns for these eggs on the basis of the Canadian Standard grades. This particular regulation does not apply where producers market their eggs in less than fifteen dozen lots in any one day.

The egg regulations which are made under the provisions of the Live Stock and Live Stock Products Act now form what is perhaps the most complete and comprehensive legislation covering any particular food product. Eggs moving for export, in interprovincial shipment, imports, and eggs for domestic consumption are now covered by these regulations. The standards for eggs upon which all this work is based cover both the weight of the egg and the interior quality. The application of these standards to export shipments has given Canadian eggs an enviable reputation on the British Market and the extension of the regulations to eggs moving into domestic consumption in Canada will be welcomed by all handlers of eggs from producer to consumer.

**GOOD MONEY IN GOOD FARMING**

### "Let's Get to Work and Pay Off the Mortgage"

NINE years ago Canada's national debt was about one-third of a billion. It is more than two and one-third billions today.

Our debts have greatly increased—our revenues must also go up. The farmer has to bear his share of the increased burden. That means he must increase his revenue.

Complaint has been heard that farmers under present conditions in Canada cannot make farming pay. And yet many thousands of Canadian farmers do make it pay.

**How Is It Done?**

Patient and industrious "carry on" will do wonders, but something more is needed. Too often "patient industry" is coupled with "dull persistence" in poorly thought out methods.

Farmers today more than ever, must plan ahead, as well as "plug along"; indeed they have no option, if they wish to succeed.

Co-ordination of head and hand will mean real success. Farming in Canada has paid and pays now on many farms. It can be made to pay on almost every farm. Canadian agriculture has passed through low profit-making eras successfully in the past and can do so again.

With the increased cost of production, the higher standards of living now prevailing cannot be maintained by poor farm management, "boarder" milkers, scrub beeves, poor quality hogs or non-profitable hens.

That even under present conditions profits may be made is testified by many skilful, observant and non-plunging farmers, who believe more in the policy of "slow but sure" and "pay as you go" rather than speed, with excessive borrowing and the often consequent disaster.

The results on our Experimental Farms also bear testimony to the value of thorough, skilful work.

**The Farmer Must Manufacture**

But crops alone are not enough. The farmer must change his crops into less bulky and more high-priced products—milk, pork, beef, mutton, poultry, etc.

With fair yielding cows dairying shows good profits in Canada. The average cow has increased her yield 25% in the last ten years. She can quite readily go up another 25% and more, and there's where the profit lies. Better feeding, better selection and better breeding will do the job—feed, weed, breed.

To do better feeding means better pastures and more generous supplies of palatable roughage. Short rotations including clover and ensilage crops (corn, sunflower, pea and oat, etc.) will provide feed in abundance for both summer and winter. The experiments and investigations which the Dominion Department of Agriculture have carried on prove that farming scientifically and systematically undertaken will pay profits. The records and particulars of such work in every province are available to the Canadian farmer.

Are you growing grain, or producing wool or interested in fruit? We can give you information that will help you. Do you breed live stock? Are you keeping dairy cattle? Are you interested in poultry or bees? Ask us for information. We have some that will help you.

We have published and have for free distribution 300 different reports, bulletins and circulars dealing with matters of interest to you. Ask for what you want, or for a list of our publications.

We shall have something more to say later. Meantime write the Department of Agriculture, Ottawa, about your problems.

**Crop Returns Should be Increased**

On the Central Experimental Farm at Ottawa some crop costs and crop profits in 1922 as contrasted with all-Ontario average crop costs and crop profits are given below. The all-Ontario figures are in brackets:

	Cost per acre	Profit per acre
Hay	\$21.13 (\$13.50)	\$11.21 (\$5.09)
Corn for		
Forage	\$47.50 (\$33.75)	\$10.38 (\$2.86)
Oats	\$26.47 (\$19.32)	\$ 7.33 (.04)

Similar results can be shown from the Dominion Experimental Farms in every province.

Experimental Farm crops are sometimes claimed to be produced at too great cost. Thousands of experiments, however, show that increased cropping costs wisely applied up to a reasonable point always increase crop profits. This is true on the Experimental Farm—and on any and every farm.

### Unrefreshing Sleep

If You Are Tired Out When You Arise In The morning Read this.

The woman who is tired out, who aches all over when she arises in the morning, who feels depressed most of the time, needs just the help that Dr. Williams' Pink Pills can give her—new blood and strong nerves.

The numbers of disorders that are caused by thin blood is amazing and most women are careless about the condition of their blood. Quickly the nerves are affected and the patient becomes irritable, worries over trifles, does not sleep as well as formerly and is not refreshed by rest. There may be stomach trouble and headache. This is a condition that calls for Dr. Williams' Pink Pills.

Give Dr. Williams' Pink Pills, a fair trial and the first sign of new life will be noticed in your appetite. You will be hungry by mealtime. As the blood becomes enriched it feeds and soothes the irritated nerves, sleep becomes sounder and more refreshing, your worries become less, your work lighter. These are some of the

ACT AFFAIRS**

When asked concerning possible readjustment in regard to the Workmen's Compensation Act Premier Veniot stated that an efficiency expert had been at work at the St. John office of the Compensation Board making an investigation. He expected a report within a few days and after considering it would reach a decision.

**Lumbermen Not Pleased**  
When asked if there was resistance to the proposal to double its rate upon the class including the lumber industry Premier Veniot said that such was not to be expected. The decision to put such an increase in effect had not yet been reached.

**Payments Will Continue**  
The Premier stated that there would be no interference with the payments under the Compensation Act during the process of readjustment.

**MORRIS WINS  
HENLEY FINAL**

Henley, July 7—M.K. Morris of Great Britain, is this year's winner of the Diamond Sculls, won last year by Walter Hoover of Duluth. Morris defeated D.H.L. Gollan in the final heat for the trophy rowed on the Thames here this afternoon.

Intense excitement prevailed here when the scullers took up positions for the start of the race for the diamond sculls. Morris and Gollan got away to a beautiful start, amidst a tremendous roar of "they're off." At the quarter mile post Gollan was slightly in front but at the half mile the positions were reversed. At the three quarter mile mark Morris was leading by two lengths, but at the mile Gollan had crept up and was close on the heels of his opponent. Morris hung tenaciously to his lead and won the gruelling race by a length in 8 minutes and 23 seconds. Immediately after passing the winning post Morris collapsed and fell into the river, but he was quickly picked up by a motor launch and carried to the bank.

More than eleven thousand new passenger automobiles a day are turned out in the United States but still the demand is not supplied.

**Report of Training School**  
The number of students in the Training School is as follows:

Seniors ..... 3  
Intermediates ..... 3

Juniors ..... 2  
Probation ..... 4

Total 12  
Two of our Senior nurses are taking the affiliated course in the Montreal General Hospital. We trust this arrangement will broaden the training and add to the experience of our Nurses.

During the year seven applicants have been received on probation; of these, two have been accepted, one has leave of absence, four are still on probation, one gave up the work.

Graduation exercises were held in the Assembly Hall of Harkins Academy, August 1st 1922. The address was given by the President, Mr. G.P. Burchill.

Miss Mary Estell Holland and Miss Mary Isabella Calder received their diplomas and pins.

There has been improvement in Lecture and Class Work, but more could be done if individual responsibility were keener.

We are grateful to those who every year give their assistance to the Training School in its efforts toward higher standards of efficiency and service, and we earnestly ask for continued co-operation.

Respectfully submitted,  
ELIZA KEYES,

**CHOLERA INFANTUM**

Cholera infantum is one of the fatal ailments of childhood, especially of childhood. It is a trouble that comes on suddenly especially during the summer months and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent all the dreaded summer complaints. They are an absolutely safe medicine, being guaranteed by a government analyst to contain no opiates or narcotics or other harmful drugs. They cannot possibly do harm—they always do good. The Tablets are sold by medicine dealers or by mail at 25c a box from the Dr. Williams' Medicine Co. Brockville, Ont.

**Shampoo This Way with Olive Oil**  
and you will have hair with gleam and softness of silk

Olive oil for the shampoo, say leading hair specialists. Olive oil for the shampoo, agree women who have learned the secret—who are admired for their lovely hair. And this, specialists tell you, is why: Olive oil cleanses thoroughly but gently. It never leaves hair dry and brittle—robbed of the delicate gloss and sheen that means beauty. It washes away all dirt and oil. Dissolves and removes clogging dandruff. It leaves hair fluffy and soft. But never dry, never dull. Pliant and shimmering as new silk, instead.

And this means beautiful, attractive hair—without which no beauty of face or dress is quite sufficient. Olive oil treatment in its finest, most convenient form, is PALMOLIVE SHAMPOO. Thousands and thousands of women use it today. They find it most economical—for a treatment that costs a great deal when given by specialists. You may have a 15c trial bottle free, by sending the coupon. Or you can get full-sized bottles at your dealer's. A single shampoo will amaze you.

**Changes In Stamp Taxes Law**

Ottawa, July 8.—On and after Aug. 1, \$1.00 is the maximum amount of tax payable on checks, bills of exchange receipts for money paid to a person by a bank, chargeable against a deposit of money in the bank to his credit, express money orders, traveller's checks or post office money orders.

On and after October 1, postage stamps may not be used in payment of stamp taxes for revenue purposes. Excise tax stamps only may be used and they may be bought from any collector of customs or any bank.

The tax on receipts makes taxable receipts for \$10 or upward on post cards, form letters and letters and this will be in force on and after August 1. The amendment to the act also provides that a receipt liable to the tax shall not except in criminal proceedings, be given in evidence or be available for any purposes unless it is stamped in accordance with the law.

The new sales tax is effective on January 1, 1924.

**Troubles Of A Country Editor**

The troubles of the editor of a country newspaper are many. He must endeavor to please all his subscribers, and he certainly finds it a very difficult task.

One busy day in the office of such a paper the entire writing force was kept on the jump by two political conventions, an important case in circuit court, a farmer's institute and other matters, but eventually forgot that a certain enterprising dealer had made an improvement. He called up to let the editors know.

"You fellows running a newspaper yet?"

"We're trying to," replied the man in the news room.

"Well you've failed to get that item yesterday?"

"I repainted my delivery truck and there wasn't a word in your old paper about it."

A lady called and demanded to know the name of the party who had turned in the story about a function of some sort in the country. Of course it was withheld, pending the reason for the question.

"Well, I'll find out," she snapped back.

"What was wrong with the story?"

"Everything!"

"We're sorry—can't you tell us what the trouble was?"

"The person who wrote it mentioned every man that took part but my husband," she screamed "and left his name out for spite."

Studebaker Special-Six Touring Car \$1795

**A car that has proved its merit in every corner of the world!**  
 Wherever motor cars of exceptional reliability and staunch construction are required—there you will find the Special-Six in favor. Across the sparsely settled interior of Australia, it carries His Majesty's mail with clock-like regularity. Over the mountain trails of British Columbia, Special-Sixes serve as allies to the railroads by penetrating sections where the locomotive whistle is never heard. Even in spectacular tasks, the Special-Six takes a position of prominence, having to its credit the victory of the Gran Premio of Argentine—the most important race in South America—for the past two years.

You may never require such gruelling service from the motor car that you drive. But whether you do or not, you benefit from the quality of construction that makes the unusual type of performance possible with the Special-Six. To every Special-Six owner, it is an assurance of absolute satisfaction, low operating cost and longer car life.

Complete manufacture in Studebaker factories, large scale production and great financial and manufacturing resources—make it possible for Studebaker to offer the Studebaker Special-Six Touring Car to you at \$1795, f. o. b. Walkerville, Ont.

Let us show you the Special-Six today, take you for a ride in it—or better still—allow you to drive it yourself. You will then appreciate why we say that this car represents the crowning achievement of Studebaker's seventy-one years of manufacturing experience.

**PARISH PRIEST**  
**IS HONORED**

At Bartibogue Sunday Rev. Father Hawkes, who has been parish priest there for over 15 years, was presented with an address and a substantial purse. The presentation was made by James Gordon, following high mass. The address which was read by Robert Innis was as follows:

"Dear Rev. Father— It is with feelings of deep sorrow than we have assembled here today to offer you the expression of our sincere regret at your departure from us. It has pleased His Lordship our beloved Bishop to call you to assume the duties of rector of St. Thomas College. As a loyal son you have bowed in humble submission and made the sacrifice of giving up your pastoral charge, and accepted the responsibility of moulding the hearts and minds of our coming manhood. During the years you have labored for our spiritual welfare dear Rev. Father, a bond of affection and gratitude has been welded which no time can weaken and we shall ever cherish a grateful remembrance of the zeal and devotedness with which you have striven to draw us ever nearer to our eucharistic lord. We are fully conscious that at times our shortcomings have grieved your priestly heart but we feel you have been able to attribute them to the weakness of faltering human nature and not to lack of good will. For this wealth of devotedness and fatherly indulgence which you have lavished upon us accept the assurance of our grateful appreciation in token of which, we beg your acceptance of the accompanying gift together with our earnest prayer that you may long be spared to labor in God's vineyard. Please pray that time may perfect the work you have begun in the souls of your grateful parishioners. Bartibogue, N. B.

Father Hawkes made a reply in which he expressed deep regret upon his leaving the parish. He hoped for them a bright future in both temporal and spiritual. This pastor is assuming the presidency of St. Thomas College, Chatham. Father Hawkes is making ready for the reopening of the college in September. Rev. Edward A. Barr, now curate at Bellidune, is the new parish priest at Bartibogue. He is taking up his new duties this week. Father Barry is a native of Chatham and friends here note with pleasure his appointment to the parish.

Osteopath Would Help Fat Men to Reduce.

New York July 5.— All men ought to wear corsets, according to Dr. F.F. Millard, of Toronto who spoke to-day at the twenty-seventh annual convention of the American Osteopathic Association in the Waldorf-Astoria. The fat man's only hope of reducing, he said, lies in lacing discreetly, while the osteopathic physician corrects his posture, spinal curvature, diet and nervous and circulatory system. In support of his theory, he asserted, men lift heavier loads than women and so need the support. Most women, he declared, can get along very well without corsets.

"If golf interferes with business, give up your business". I notice with pleasure that a good many of the doctors who came to this conference are absent this morning, having left for the links. Golf is applied osteopathy. The swing of the club limbers the spine and the wrists. Dropping business for golf now and then is a good way to make business grow."

Tells How Lydia E. Pinkham's Vegetable Compound Relieved Her of Inflammation and Great Weakness

West St. John, N. B.—"I was in a general run-down condition following the birth of my twin boys. I had a great deal of inflammation, with pains and weakness. Finally my doctor recommended Lydia E. Pinkham's Vegetable Compound. He said that your medicine would be the only thing to build me up. I am sure he is right, for I am feeling much better and am gaining in weight, having gone down to ninety-three pounds. I was in bed for over a month, but am up again now. I have recommended the Vegetable Compound to my friends and give you permission to use my letter."—Mrs. ELMER A. RITCHIE, 82 Rodney St., West St. John, N. B.

There are many women who find their household duties almost unbearable owing to some weakness or derangement. The trouble may be slight, yet cause such annoying symptoms as dragging pains, weakness and a run-down feeling.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved those symptoms by removing the cause of them. Mrs. Ritchie's experience is but one of many.

**ATTENDED DIVINE SERVICE**  
L.O.L. No. 47 accompanied by members of the Chatham fraternity attended divine service in St. James. Presbyterian Church Sunday morning. Rev. Mr. Brown of the Methodist Church conducted service and delivered an impressive and inspiring address to the order. The Douglastown Band escorted the parade to and from church.

**STEAMER LEFT PORT ON ACCOUNT OF STRIKE**  
The S.S. Edward Munch arrived port on the 9th inst several days behind her due date and her charter was cancelled by her charterers, Messrs. MacKay of St. John. They, however, offered to recharter her at reduced rate of freight. Her owners, in view of the strike, decided not to charter her to load here, and accepted a charter for another port where there is no hold up and the steamer sailed out on Thursday evening. She would have carried three million feet of lumber.

**THE GLORIOUS TWELFTH**  
The 233rd anniversary of the Battle of the Boyne was quietly observed here. There was no parade here as in other years but at other places throughout the province picnics and similar gatherings were held. The local Lodge L.O. L. No. 47 held an evening's entertainment in their rooms in the Opera House, to which many of their friends were invited. A pleasing program of music and addresses was carried out, after which refreshments were served the gathering dispersing for their homes at 11 o'clock p.m.

**BASEBALL**  
Nelson blanked Douglastown by a score of 8-0 at Nelson Friday evening. The Firemen defeated the Night Hawks on the Farrell Field Diamond Newcastle on Friday evening, the game creating considerable interest and drew a large crowd. It was a most amusing game of baseball, the spectators being kept in a continuous round of laughter. Mr. J.R. Lawlor, at one time an ardent baseball player referred to the satisfaction of all and was not too severe in his judgment of balls and strikes. The players and the Hospital Board wish to thank The Stohart Mercantile Co. and Mr. Joseph Napke for baseballs kindly donated for the game.

Be sure to be present and enjoy the sport. The Night Hawks are out for revenge and the game will be an interesting one.

**Mildred Leo Clemens, F.R.G.S.**  
**Mark Twain's Cousin to Lecture Here**

All of the talent in the Clemens family seems not to have been centered in Mark Twain, the famous author and humorist, for his cousin, Mildred Leo Clemens, the well-known lecturer, is rapidly gaining an enviable reputation with her lecture-entertainment, "Happy Hawaii."

To the freedom of childhood days spent on a western farm Miss Clemens attributes her delight in nature. Training in the keen observation of human nature and life in its varying phases was early acquired through newspaper and journalistic work, a work, too, that even before high school days were over, had led her into the scenic places of the Great Northwest.

Through extensive travels, Miss Clemens has become intimately acquainted with the American West, its scenic wonderlands, the Canadian Rockies, the Hawaiian Islands, Australia, New Zealand, and other parts of the western world. Armed with her faithful camera and notebook, the young lecturer, writer and traveler has penetrated to regions where it takes real courage to go, seeing things that most travelers have not, and her lectures never fail to present, both by picture and story, her vivid impressions of the scenic places or vitally interesting scenes of life, customs and activities in the lands where she has traveled.

Of her lectures it has been said that they compress into an hour and a quarter a story which artists have endeavored to tell with a brush, and writers with pen, but most of these efforts do not measure up to the effectiveness of the motion pictures and colored photographs and the story as told by Miss Clemens. She carries her audience with her and makes them feel as though they are in the midst of the scenes she pictures and describes, bringing a priceless recollection to those who have traveled, while to those who have not she stimulates fresh ideas and broadens the mental horizon. To her pictures and story, Miss Clemens adds a charming personality, a clear, penetrating voice, the attractiveness of youth, the culture of a college woman, a wealth of Clemens' humor, a fresh and original style, and a sympathetic understanding of her audience. All of which combine to make what critics have been pleased to term a rather unusual equipment for the lecture platform and travelogue which do not in any way correspond to the stereotyped travel talks.

**FIRE IN MILL YARD**  
A slight fire in the Fraser Company's mill at Chatham Head caused some excitement about 6:30 Tuesday evening. When first discovered the flames were mounting from a deal pile just a short distance behind the company's office building. Fortunately a good force of water was available and the flames were extinguished with the loss of only one pile of lumber.
