FARM AND FIRESIDE.

Timely Hints Useful to the Farmer and his Household.

A cow carries her milk from one milking to the next, held firmly in little reservoirs distributed all through the udder.

The valves which open and close the passages from these reservoirs to the teats are under the control of the will, but like the muscles which close the neck of the bladder, they are naturally and constantly kept closed, and are only relaxed by a special effort of the will.

At milking time these valves, by a relaxation of the cords which control them, are opened and the milk let down in a flood into the teats.

This relaxation does not last long. After a little the special effort to hold open the valves ceases, and they instinctively close again, shutting off the flow from the reservoirs and retaining in them any milk which may have passed out.

The habit of "giving down" consists in shortening the time of this relaxation, by stopping the flow of milk into the teats before the milk is all drawn.

The circumstances which tend to make a cow shorten this period of relaxation are rough treatment, fear, grief, solicitude, loud noises - in short, anything which attracts attention and makes the cow uneasy.

The things inducing prolonged relaxation are comfort and quietude, and freedom from disturbance and excitement, together with the relief which the pressure of the teats before the milk is all drawn.

When a cow has from any cause acquired a habit of shortening the time of "letting down" it is very difficult, and sometimes impossible, to overcome it, says Farmer's Record.

The best way is to try to get the cow to relax as she serves well those which promote pleasure and quiet for the cow, and to milk as rapidly as possible, consistent with comfort, with a view to getting the milk out before the "letting down" ceases.

Milking rapidly does not mean jerking sharply, or moving with hasty or irregular motions in the presence of the cow. Such a course would counteract the very thing aimed at.

The motions of the milker should not be such as to attract suspicion. They should be as unobtrusive as possible, and the milker should be allowed to interrupt or retard the work. This will produce continual relief to the udder.

The milker should bear constantly in mind the fact that the letting down is short, and that every moment should be used to the advantage.

When the milk ceases to flow, the milker should stop at once, whether it is all out or not. There is no good in hanging on after the milk stops coming, as it only cultivates the habit of "holding back."

CUTTING AND CURING CLOVER.

Be sure and cut the clover early, before the seed has formed. Clover is a biennial, one of those plants that begin to die when once it has produced seed. Here is the point:

By cutting before the seed forms you are cutting off the plant at a point where it will keep the root alive. At least it will not die because its purpose has been fulfilled. This year we shall need all the hay we can get.

Skilful management of our clover meadows will give us a large addition to our hay crop. When the clover is right for the next season. This year, or the late Hiram Smith, once showed us a field of medium clover nine years old from which he had taken that year fully three tons per acre in three cuttings.

When the clover is cut, it should be cut in a manner that will allow it to dry in the sun, and not in the shade. When it is cut, it should be cut in a manner that will allow it to dry in the sun, and not in the shade.

When the clover is cut, it should be cut in a manner that will allow it to dry in the sun, and not in the shade. When it is cut, it should be cut in a manner that will allow it to dry in the sun, and not in the shade.

When the clover is cut, it should be cut in a manner that will allow it to dry in the sun, and not in the shade. When it is cut, it should be cut in a manner that will allow it to dry in the sun, and not in the shade.

When the clover is cut, it should be cut in a manner that will allow it to dry in the sun, and not in the shade. When it is cut, it should be cut in a manner that will allow it to dry in the sun, and not in the shade.

When the clover is cut, it should be cut in a manner that will allow it to dry in the sun, and not in the shade. When it is cut, it should be cut in a manner that will allow it to dry in the sun, and not in the shade.

When the clover is cut, it should be cut in a manner that will allow it to dry in the sun, and not in the shade. When it is cut, it should be cut in a manner that will allow it to dry in the sun, and not in the shade.

THE HERALD

IS PUBLISHED EVERY SATURDAY, CORNER QUEEN AND ROBERT STREETS, BY THE HERALD PRINTING AND PUBLISHING CO. THE HERALD. FREDERICTON, JULY 9, 1892. THE PROVINCE WINS.

Word has been received during the week that the Maritime Bank case on appeal to the privy council, has been decided in favor of the New Brunswick government. When the Maritime Bank failed the privy council awarded \$25,000 deposit. In circumstances of this nature, what are called crown debts are preferred, that is they are paid in preference to ordinary depositors. The New Brunswick government contended that, as the representative of the crown in the province, its claim should be paid out of the funds of the defunct bank, before a dividend was paid to the other depositors. The liquidators disputed the claim of the government to priority, and the question whether the government represented the crown under such circumstances was put in issue. The matter was first argued before the supreme court of New Brunswick, the government side winning the suit. The liquidators then appealed to the supreme court of Canada, and again judgment was received for the province. The case was then carried by the liquidators to the privy council of England, the final court of appeal, and attorney general Blair, who successfully pleaded the case of the province in the courts below, went across the sea to contend before the privy council before the highest tribunal in the empire. The signal victory he has won will settle a long disputed question of constitutional law, and will add fresh laurels to the reputation of the attorney general as an able lawyer and a vigorous defender of the rights of the province of which he is premier. The case was handled for the liquidators by Dr. Stockton, the leader of the opposition, while the respective court on each side, were Sir Horace Davis and Sir Richard Webster. Dr. Stockton does not seem to have been any more successful in his efforts to down the attorney general when he catches him away from home, than when facing him on the floors of the assembly. He said that every man rejoiced in preventing that \$35,000 from ever getting into the provincial chest. There would have been much jubilation in the tone of the opposition organs, who are now dumb as a oyster, and the good news being wafted from over the sea, that the attorney general had lost the case, and that the province had lost the \$35,000, with the accrued interest and the costs of suit. The matter is now finally settled as there is no appeal from the privy council. Both the province and Mr. Blair are to be congratulated on the result, which as we intimated above settles a constitutional question which far outweighs the amount of money at stake. To Mr. Blair the result must be particularly gratifying, and he can rest assured that it will not lessen the enthusiasm with which he will be welcomed home from the well deserved holiday, which we understand, both himself and Mrs. Blair are enjoying thoroughly.

THE CAP FITTED HIM.

THE HERALD last week, without mentioning any names, or otherwise identifying the person, referred to a certain party as a "culmination of idleness," and as being in the custody of the gaol. Jimmy Crockett at once had a shrewd suspicion that the party referred to must be himself, and after taking until Thursday evening to consider the matter, his suspicions became a certainty. The "culmination of idleness" could be no one else but Jimmy. In order that those who chance to read his little pamphlet may be sure of the matter also, he quotes the article at full length, and after satisfying himself and his readers on the question of identity, he puts on the cap which seems to fit him so perfectly. He then immediately commences to whine and blubber because he is "persecuted" with such a spirit of "vindictiveness" by THE HERALD. Poor fellow! He has conducted such a modest career hitherto, and dealt so fair and generously by his opponents; he has so carefully refrained from displaying a spirit of spite or vindictiveness in referring to others, that it is little wonder that he weeps these bitter tears, and heaves these dismal sighs, as he ponders over the relentless ingratitude of the awful HERALD. As one reads the pathetic plea for leniency, one almost forgets that the so called "editor of the 'Gleaner'" ever published a column after column of the foulest and most malicious calumnies, accusing the attorney general of stealing money from the public chest for personal ends; one almost forgets that he has without rhyme or reason accused the same gentleman of selling contracts, and of cutting part of the money in his own pocket and in the pockets of his friends; one would never dream that he is the same cowardly individual who recently published a personal article accusing one of the members of the government of being drunk when a certain appointment was made; or that he ever descended to the malignant personal attacks on Mr. Wilson which were rehearsed for the hundredth time in his Friday's issue; when he preaches about "journalistic decorum," one is forced to smile; and when he has the nerve to prate about "low-bred inspiration" and "ingratitude to friends," if it were not for the boiler-plate matter and stereotyped abuse of Mr. Wilson, one might almost forget that all this is written by Jimmy Crockett of the Gleaner, the individual who basely deserted his friends as soon as he thought he could stand alone, because they would not satisfy his greed for public pay; who treacherously stabbed another confiding friend in the back, like an Indian, the moment it profited him to do so; who has misrepresented his benefactors and has sold and betrayed, and is still ready to sell and betray, friend after friend and party after party for gold money, as long as they will treat him, until the name of Judas is written all over him, and the hiss of the serpent is heard in his laugh. It is this contemptible potpourri to whom we have given a semblance of decency in referring to him at all, who pathetically begs and pleads for sympathy because THE HERALD did him the greatest honor he has so long coveted, and so readily recognized when it did appear, of referring to him in its columns. The country will, no doubt, go in sack cloth and ashes at once, and mingle its tears of sympathy with poor Jimmy Crockett's weeping and wailing and gnashing of teeth.

DESPERATE BATTLE.

Horrible Scene at Homestead Between Detectives and Mill Men. The Carnegie steel company run an iron foundry at Homestead in the State of Pennsylvania. Most of the workmen have joined recently a lodge of knights of labor. The company locked the men out to break up the union. The men returned and took possession. A body of Pinkerton detectives, some three hundred strong, was sent to east them. A flag of truce was displayed by the Pinkerton men and was shot down. It was hoisted a second time with a like result. The company then the flag was hoisted with bullets and hardly enough of it left to hoist again. The mill workers heard that the militia has been ordered here and they now seem determined to rid the place of every Pinkerton man before the troops get here. At present the workmen have control, having taken the Pinkerton prisoners and manacled them shamefully. The final outcome is awaited with interest. The latest is that committees at Homestead are placing arms and ammunition in the hands of trustworthy men, and any attempts by company or sheriff to come to town are sharply watched by committees of strikers. The mill was quiet this morning, but an unusually large number of armed men have congregated near the works. Many disturbing rumors are afloat.

VICTORIA MILLS.

JULY 8.—Work on Hale & Murchie's mill is being pushed along rapidly. There are sixty men employed at present and Messrs. Hale & Murchie expect to have her ready for running about the first of August. The size of the mill is 147 x 42 feet; boiler and engine, 70 x 40 feet, and when completed will have a gang and rotary capable of cutting 100,000 of long lumber per day, also will have the necessary machinery for manufacturing short lumber. C. H. Shaw, who met with an accident in the mill by which he lost his thumb and finger, is slowly recovering. He is being attended by Dr. McLean during the absence of Dr. Carr. Miss Mamie King, who has been very sick with neuralgia of the heart, is recovering and is able to be around among her friends once more. Hon. J. O. Murchie, of Calais, was here yesterday and returned to Calais by the evening train. Stephen Chambers, who has been assisting in putting up the frame of the new mill, left for Calais last evening. A. F. Hale went to Woodstock yesterday morning and will be absent for a few days. F. H. Hale went to St. John this morning and will go to Woodstock before returning. Miss Laura Buchanan, of St. John, is visiting her friends, Mrs. F. McKendrick.

THE COUNTY COUNCIL.

The county council held their semi-annual meeting on Tuesday last. The session only lasted one day, and the council seems to have devoted most of that time to whitewashing the financial affairs of the county, and passing a vote of censure on THE HERALD for having pointed out numerous mistakes in the public accounts. In the absence of official information on the subject (which is, no doubt, in the hands of the official reporter) the majority of the council seem to have come to the sage conclusion that the fact of the different columns of figures being added up incorrectly does not make any difference, provided the totals at the end of the account correspond with the secretary-treasurer's balance. Councillors Scott, Graham, Goulet, Inch and Kinghorn went through the auditor's accounts, and reported that the mistakes pointed out by THE HERALD did not affect the totals, which came out all right, notwithstanding the mistaken figures which go to make up the totals. The accounts were then declared all right and THE HERALD all wrong. THE HERALD will probably live through the "rebuke" which it received at the hands of councillors Finlay, Lockhart and McNally, and will, no doubt, continue to meet the approval of the ratepayers of the county, when it states that the county pays for, and should receive a correct statement of the county accounts.

The same gentlemen who engineered the above unique price of municipal legislation, succeeded in appointing Mr. Crockett what they call an official reporter. In other words they told the other newspapers in the city that they did not wish them to publish any report of the council's doings. The large number of THE HERALD's readers, throughout the county, will therefore understand why it is that we have not a full report of the council meeting to lay before them this week. The official papers and other material for a proper report are all in the possession of Mr. Crockett, who by the way up to the present time, has failed to publish a single word of what is proceeding at the council board. We think this action of the council will severely meet the approval of the ratepayers. Each ratepayer has his favorite paper, and expects to receive full reports of the council through it, and in case of injuring the papers excluded, the council are only inconveniencing the public in refusing to each paper, irrespective of politics, the privilege of full and free access to the proceedings of the council. We are confident that every sane and conscientious town will agree that the act of the council this session in practically excluding the reporters of the city papers from its meetings was a high handed and unwarranted act.

We see by a certain paper that the council severely criticized some of the government's recent legislation. We have no official reports of the council at hand, they are doubtless in the possession of the official reporter but the following are the criticisms of the council, sent by the county auditor, Mr. McCready, to the St. John San, Mr. McCready: "The secretary-treasurer was instructed to say in reply to the request of the taxation commission that there was no demand from the county for any change in the present system of taxing, and to urge the commission to guard against any tendency towards direct taxation in amending the assessment laws." "This is, no doubt, intended for a criticism" on the policy of the government in appointing a commission to inquire into the various modes of assessment throughout the province with a view to making them uniform if possible. According to the above, the council first came to the conclusion that our present system of taxation in the county was perfectly satisfactory, as there was no demand for any change. They then instructed the secretary treasurer to urge the commission to guard against any tendency to direct taxation in amending the assessment laws." Those ratepayers who every year, about this time, receive a notice calling upon them to pay over their spot cash to the collector of taxes, or go to gaol, will think that our "assessment laws" are about as near direct taxation now as they can be got. The council say that this is all perfectly satisfactory, but the commission to guard against any tendency to direct taxation in amending the assessment laws." So says Mr. McCready the auditor. What rot! We would sincerely advise the secretary treasurer to advise Messrs. Finlay, McNally and Kinghorn before stultifying the council by sending such a resolution to the commission.

DESPERATE BATTLE.

The Carnegie steel company run an iron foundry at Homestead in the State of Pennsylvania. Most of the workmen have joined recently a lodge of knights of labor. The company locked the men out to break up the union. The men returned and took possession. A body of Pinkerton detectives, some three hundred strong, was sent to east them. A flag of truce was displayed by the Pinkerton men and was shot down. It was hoisted a second time with a like result. The company then the flag was hoisted with bullets and hardly enough of it left to hoist again. The mill workers heard that the militia has been ordered here and they now seem determined to rid the place of every Pinkerton man before the troops get here. At present the workmen have control, having taken the Pinkerton prisoners and manacled them shamefully. The final outcome is awaited with interest. The latest is that committees at Homestead are placing arms and ammunition in the hands of trustworthy men, and any attempts by company or sheriff to come to town are sharply watched by committees of strikers. The mill was quiet this morning, but an unusually large number of armed men have congregated near the works. Many disturbing rumors are afloat.

NASHWAAK VILLAGE.

July 7.—A young lady and gentleman driving on the road above the village on the 26th ult., collided with another team and went over the steep bank. The horse broke loose from the wagon and swam the river. Fortunately the young couple stopped on the bank without receiving any injuries. Mr. W. D. Richards, of Boiestown, is visiting her mother, Mrs. B. Gunter, of this place. Mrs. W. H. Bradley is visiting her sister, Mrs. E. A. Berry, in Fredericton. Mrs. Smiley is visiting her mother, Mrs. G. Vanborne. Mr. Peters, with dairy apparatus, visited us the 5th inst., and gave a very instructive and interesting lecture on the manufacture of butter and dairying generally. Mr. Gibson's running drive is camped opposite the village on the 26th ult. from recent rains making grand driving.

MILLVILLE.

July 6.—Our town has been very lively for the last few days. The dominion alliance of the reformed Baptists met here on the 24th ult. and the attendance was some sixty delegates and ministers were in attendance, among whom we noticed Revs. Messrs. Wigging, Traffin, McDonald, Kinney, Nobles, Baker, Colpitts and Kinghorn. The meeting house proving too small, they erected a large tent on the lawn of Rufus Jones. The business report was very encouraging. Our school closed for the holidays on the 29th ult. by a public examination, which showed a good solid improvement in all branches of study, reflecting great credit on pupils and teacher alike. The school has been under the direction of B. W. Parker, who has been a conscientious tutor, and the trustees are fortunate in securing his services for the ensuing term. The following are the successful competitors for the prizes and for honorary mention: Pupil traveling greatest distance from Brook street, Geo. Good, 140 1/2 miles; best manual work, Sadie Hawkins, 540 points; deportment, Georgia Russell, 585 points; best progress in English grammar, Liza Lockert, 525; never absent, May Earle, Bessie Urquhart, Mamie Hawkins, Gertrude Hawkins, Harvey Good, Sylvester Easton, highest general standing and honorable mention, May Earle, 524; Georgia Russell, 522; Bertie Urquhart, 496; Edna Dunn, 483; Taylor and Sadie Hawkins, each 480; Lizzie Lockert and Stella Hallert, each 474; Alice Wilson, 466; taking a general average it was the most successful showing any school has ever made here. Mrs. Robert Taylor and master S. Z. Earle are making a visit to the city, the guests of Miss Fry. E. H. Estey and bride have returned from their bridal trip. It is not late to say that we have a young postmaster—a ten pounder. E. F. Cox is having a fine foundation laid for a new dwelling on Brook street. He intends having it ready for occupancy early in the fall. The C. P. R. have repaired the station house here and now the carpenters are through, it is in order for the painters to leave in eight. Mr. and Mrs. Douglas, of Gorham, Mass., are here on a visit to their parents, Mrs. Hiram Palmer. We lost one of our citizens a few days ago when Guilford Palmer moved to Woodstock. Dr. Haines is in town.

BENTON.

July 6.—The river has raised eight feet compelling the mills to quit operation. Work is being pushed rapidly on the new sawmill. Fire broke out in the upper storey of Chas. Murdoch's residence, one day last week, but the prompt action of the bucket brigade extinguished it. A large hole in the roof was burned, causing considerable damage. No insurance. Wm. Murchie is the owner of a valuable cow. In fourteen milkings, fed on grass, she gave 820 lbs. of milk, and which made sixty-eight pounds and two ounces of cream and when churned made twenty pounds of butter. The cow is owned by Bev. Father Mehar, of Van Buren college was in town last week, the guest of Edward Laverty. J. M. McKenna, B. A., of the Grand Falls superior school, formerly of Benton school, gave us a flying visit. Dominion day was celebrated here by an oyster supper and dance. A good time was enjoyed into the wee sma' hours.

AROUND THE WORLD.

The Weekly Events in Brief—The Cream of our Exchanges. The Canadian Pacific land department has sold farm lands to actual settlers thus far this year to the value of \$85,000. It is said that Senator Boulton is coming west to seek a nomination in Manitoba, where Boyd is the straight government candidate. There are now in the field four candidates for the United States presidency. The last to be nominated is General Sherman, who is the candidate of the people's party. Mr. Laurier's proposed amendment to the criminal law, to make it a criminal offence for railway contractors to contribute to election funds, was negatived in the House of Commons. St. John, Newfoundland, was destroyed by fire on the afternoon of yesterday. Five hundred buildings have been destroyed, including the R. C. cathedral, which alone cost \$200,000. The catching of bass in the St. John river is prohibited for three years beginning at the first of the next fishing season. This is according to the latest fishing regulations received from Ottawa. Seventy-five delegates representing the American Association for the Instruction of the Blind are in session at Brantford. The visitors are all Americans and the meeting is the first of the kind ever held in the Dominion. Gen. Hest inspected the engineers and 73rd batt. at Sussex on Thursday morning. He took the cavalry in hand Friday morning at eight o'clock. The cavalry officers' examination took place Thursday evening. The originals in a shooting gallery on San Bernardino street, San Jose, spread rapidly and destroyed a brick house, the California theatre, the South Methodist church, loss, \$200,000; insurance about two-thirds. The Canadian Pacific railway company have applied to the judges in equity for an injunction to restrain the Dominion government from crossing their railway at the end of King street, in Woodstock, at the end of the new bridge there. Charges of irregularities in office have been lodged in the Attorney General's office against Sheriff Sutton of Wallerton. Overcharges in connection with the service of criminal process is charged, and an investigation has been ordered. A verdict of accidental death, with no blame attached to anybody was rendered by the coroner's jury empanelled to enquire into the circumstances attending the death of a little girl, Friedmann, by being run over by a street car at St. John. The Imman line steamer "City of Chicago," which went ashore off Kinsale, Ireland, last Saturday, is a total wreck. Thursday morning the vessel broke into two amidships and the after portion went down in two hours of water. Col. Walter M. Jarvis, a retired lawyer, was found drowned at Chatham, N. B., in a huge cistern in the basement of his house, which he had constructed in connection with a new water service and closet system which he was perfecting. John Mair's new tunnel near Campbellton has been offering running water, was burned to the ground Tuesday morning last. No cause for the fire can be given. Loss about \$6,000, no insurance. Mr. Mair has already commenced rebuilding. The governor general Wednesday night telegraphed the British ambassador at Washington offering government, borden in order to secure the release of the seized steamer Coquilham and asking him to at once see the United States government on the subject. A collision on Hochelaga wharf, on the Canadian Pacific railway, caused the death of a man named Herd. The man was injured on the head and killed by the striking of a barouch so badly that he will die. The men were stealing a ride on a flat car. The damage to the railway property will reach \$5,000. The government refuses to give the savings bank depositors more than three and a half per cent for their money, but seeks to charge four per cent, on money to be loaned to the proposed harbor commission. Evidently the principles of equity do not prevail much at Ottawa. Shortly after one o'clock Thursday, Capt. J. W. Taylor in his little canvas boat, started from North Market wharf on his voyage across the Atlantic. A large crowd assembled to give Mr. Taylor a send-off, and as he moved off he was given hearty cheers, the captain replying with a torpedo. A party of prominent men, representative of the agricultural, commercial and professional interests of the maritime provinces have arrived at Winnipeg, and will spend a few weeks viewing the country. They were driven through the province Monday by representatives of the local government. Posters are distributed throughout Quebec county calling a Tory convention to consider the political situation. There is a rumor that Mr. Baird, M. P., who can only find time for intermittent visits to Ottawa, and who is in a hurry to get with the reception accorded him in parliament, is about to sever his connection with the commons. Ship Peter Stuart, capt. Hughes has on for Liverpool, deal laden, struck on the ledges off Chebogue Point, Monday in a dense fog. The ship jumped immediately went to pieces. The captain's wife and child were drowned before leaving the ship. In all fourteen of a total of twenty-seven are missing. The injured men are under medical treatment. At 1 a. m. to-day, Saturday, the total number of members of imperial parliament returned so far is: Conservatives, 168; liberals, 132; liberal unionists, 24; McCarthyites, 15; Panellites, 4; independent laborers, 3. Of 344 known returns or over in the whole house, the unionists would have 90 against a united opposition of 154. The liberals, therefore, would require to capture a number of conservative county districts to obtain a working majority. In committee of the Dominion parliament the Dominion government has also failed to receive the subsidies to the Yukon valley railway, Betscoche and Moncton, Restigouche and Victoria, Woodstock and Centreville, and St. John Valley and River du Loup were duly passed without discussion. At the evening session a long discussion took place on the proposed subsidy to the Temiscouata railway company for twelve miles of road. An amendment that the subsidy to the road be struck out was defeated by a vote of 68 to 43.

5 GALLONS 5 25 CENTS.

HIRS IMPROVED ROOT BEER. In liquid. No boiling or straining. Ready made. C. FRED. CHESTNUT. Apothecary. 2 DOORS ABOVE BARKER HOUSE, Queen St., Fredericton. June 18th, 1892. Manchester Fire Insurance Co., etc.

LOCAL NEWS.

PATRIOTIC.—F. B. Colman, American consul, had the stars and stripes floating on the Barker on Monday, the 4th.

FROM CAMP SUSSEX.—The girls are rejoicing as the soldier laddies return from Camp Sussex on Monday afternoon.

CUT HIS FOOT.—Henry Webb, of Onondaga, cut his foot very badly with a cross-bow at the station on Tuesday last. He was sent home.

UNION HOLINESS.—A very successful meeting, under the auspices of the Reform Baptists, was held in Fisher's building on Tuesday evening.

REBUCKING THE FORCE.—Several men have been discharged at MacAdam. Others are to follow. It is rumored that the force will be reduced one half.

SIGHT FIRE.—There was an alarm for fire on the roof of Scotch barracks on Thursday. The firemen were out but there was no work for them.

AROSTOOK JAM.—The Arostook jam has been broken by the recent high water and most of the logs have reached here. The Keswick drive is also in.

BAINS WALK.—Solomon McFarlane has finished plucking the Kelly creek bridge. About all the bridges on the Fredericton-Woodstock road are now in a good state of repair.

NO ELECTRIC LIGHTING.—After some telling speeches pro and con, the city council at their Tuesday evening meeting decided not to present to light the city by electricity.

HAND CRUSHED.—While working at a job press in the Globe office, Richard Grant jammed one of his hands quite severely. Four of the fingers were badly crushed and mangled.

CRACKED FULL.—Butler's Journal, check full of sonnets to be read to-day. It has reached its third volume. Martin has checked over the C. E. R. and has much to say of his trip. Road it.

REMEMBER.—A popular clerk of one of our most extensive drug establishments and the daughter of a prominent lumberman of the vicinity is rumored are to be married next week.

AT STANLEY.—Rev. Father Kierman's congregation at Stanley are to hold a picnic at that place on Wednesday, July 20, to raise funds to add a steeple to their church. A grand time is promised.

DRENCHING.—The government dredge Dominion is at Oranmore awaiting the falling of the water preparatory to dredging the shoals at that place. The machine will be busy most of the summer.

STEAM PACKET.—Brown & Grant's little steam packet for the conveyance of freight to and from Southampton, will be completed to-day. It is said by experts that the boat will sail fast and be strong enough for any rapid on the river.

FIREMEN.—Our fire laddies returned home from Charlottetown on Monday evening, expressing themselves well pleased with the treatment accorded them in the island province. There was a rally at the central station on Thursday evening.

MARITIME MEDICAL.—Dr. J. Z. Currie of the city attended the maritime medical association meeting at Halifax during the week. Some sixty physicians were in attendance. President Farrell being absent, the chair was taken by Hon. Dr. Parker.

FAST WORK.—The races at the St. Stephen park on the 22nd were very successful. Speculation trotted in 2:30, this being the first New Brunswick bred horse to enter the charmed circle, Sir Garnet, the property of a Marysville gentleman, being a close second.

MAY QUEEN.—A largely signed requisition by the merchants and prominent men of the city and surrounding districts has been forwarded to the managers of the steamer May Queen, asking that that boat be placed on the route between this city and St. John.

BOYS' FIRE.—Word was received by James Crangle that his father, William Crangle, fell down stairs at his home, Everett, Mass., on Sunday, breaking his thigh bone. The old man is in his eighty-seventh year, and feels the result of his fall very much.

RASHNESS.—H. B. Kilburn, who has so successfully carried on the Charlotte street school, has resigned to accept the position of assistant cashier of the Presque Isle bank. Mr. Kilburn has been a very popular teacher and scholar and citizens are sorry to see him go. It is rumored that a late Petitodiac teacher will open the school.

GOLDEN WEDDING.—Mr. A. D. Yexxa, the popular registrar of deeds for York county, and his wife celebrated their golden wedding on the 4th inst. Their children and grandchildren were all present excepting one. Mr. Yexxa is, without doubt, one of the most popular men in the county, being known to all, and Mrs. Yexxa is also very popular. The Herald extends congratulations.

ELECTRIC RACING.—The directors of the Fredericton trotting association under their energetic president, Mr. J. A. White, are making the park a very popular institution. Now they propose to light the track with the electric light, about 15 lamps being used, and will hold a series of races under the artificial glow. Two bicycles and two horse races are talked of, and notice of which will be given.

WANTS A MILL.—The Chatham World says: Mr. Killarher was here last week, inspecting mills and land, with a view of purchasing on behalf of the United States capitalists who are looking for a New Brunswick site for the sawing of small lumber and dimension stuff for the United States market. He visited the Black Brook mill and other properties, and will report to his principals.

AN ASSAULT.—Henry Hopper, caretaker of the railway bridge was assaulted on the bridge, Thursday afternoon by two men, and severely beaten and bitten. His clothing was torn and he was roughly handled. The police arrived in time to stop the row but not to arrest the rowdies. It appears that one of the party is a city man, the other an escaped convict from the penitentiary. Steps are being taken to bring the parties to justice.

BARN BURNED.—The barn of M. Neville, near the College was destroyed by fire on Friday morning. The contents, consisting of grain, hay, pigs, harness and sleigh were also consumed. The fire is thought to have been caused by an incendiary. Several suspicious parties have been lurking in the vicinity lately. It is said that the incendiary and the assaulters of H. Hopper on the bridge is one and the same person. The barn was insured for \$200.

JUNE FURBISH.—The heavy rains soon put the river and streams up to a freshet pitch, and considerable damage has been done. There were several washouts on the Woodstock-Ottawa branch of the C. P. R. On the G. E. R. a small bridge at Durham was washed out. The Nashvack was flooded, about two hundred tons of hay being ruined and around Peter's island and the mouth of Penikese. There is little damage reported from Sunbury. It has been ascertained that the damage done to the river, but the freshet is rapidly subsiding.

WHITENASH.

How the Committee Deal with the Auditor's Report.

The Herald in a former issue stated that the auditor's report for the county of York was unreliable, inasmuch as on almost every page there was an error in the addition or subtraction of accounts. At Tuesday's meeting of the council after a certain amount of bluster and bluncheon from Messrs. Black and McCready a packed committee was appointed to examine the report and investigate the criticisms made by the Herald in the interests of the county.

The Herald believes that it is the duty and the privilege of a newspaper to criticize any accounts or any public man and the report of Messrs. Black and McCready is no exception.

The committee met and in less than one hour concluded that the errors were those of the printer. We made the statement that the report was incorrect as it contained many errors. The committee substantiated the Herald's statement, but found out in the few minutes devoted to it that the printer made the mistakes.

No committee could go over the report in the time taken, therefore they were not in a position to say whether the printer made the mistakes or not.

This typographical error business is a neat way to blind the eyes of the people. The people pay for a correct statement and there is not the least reason for fifty mistakes or more to be printed off on their year after year coupled with the weak excuse that the printer made them. There are errors since 1884. Messrs. Black and McCready say that the written records are correct. We do not know as we have not examined them; but this we do know, that the printed report is misleading and unreliable and we can give the figures.

It is not only possible, but very easy to print a report of the size of the one under consideration without a mistake. We will guarantee that the next one printed does not contain so many mistakes as the present one.

Whether the typographical errors of Pinder, Black & Co. affect the balance due by or to the county we cannot say; let those who have the accounts examine them for themselves. It is a farce and an injustice to the people of York an investigation such as the one conducted by Coun. Kinghorn, Scott, & Co. The report could not be examined in less than half a day; but this statement has been made by financial experts and is not less than an hour. We make the statement again that the report is unreliable, and that the committee did not take time to examine it.

All reforms have met with more or less opposition, we must expect it in this case. We will reach our aim when a report is given to the people that is a correct showing of the auditor's books (as the present has been shown not to be) and till then no cries of malice will have any effect.

AMONG THE LODGES.

Victoria installs its Officers.—Elm City Organized.

Victoria lodge, of Odd Fellows held its installation meeting on Monday night last, when the following took the oath of office for the ensuing term:

J. W. Reed, N. G. S. Mackay, V. G. F. Richardson, P. G. R. S. C. A. Sampson, P. G. P. S. H. B. Clark, P. G. T. W. M. Torres, P. G. W. R. H. Toland, Con.

After installation the officers and members had a collation at J. H. Faber's. A lodge of the ancient order of United Workmen, to be known as Elm City, was organized in the Edgecombe building on Tuesday night with the following list of office holders:

Rev. Mr. Weddall, P. M. W. J. D. Fowler, M. W. W. Edgewood, Foreman. R. C. McCready, Overseer. J. C. Miller, Recorder.

J. D. Perkins, Treasurer. H. G. Winters, Receiver. W. S. Carvill, Guide. A. G. Edgewood, Inside W. Alex. Sismet, Outside W. M. Tennant, J. D. Fowler, and A. G. Edgewood, Trustees.

The first regular meeting was held on Friday evening.

No Bears About It.

A few weeks ago the community in the vicinity of Gordonsville, a few miles from Bristol, Carleton county, was startled by the disappearance of Mrs. Samuel Jones. She left home Monday, June 13th, about noon. Mr. Jones supposed she had gone to her father's, some five or six miles distant. Their only child, a boy a year and half old was also gone. As Mrs. Jones did not return search was made for her Tuesday. She was not at her father's. Some of her clothes, and also child's clothes were found on a by road between Gordonsville and Lansdowne. Samuel Jones was an adopted son of Beckwith Jones, but soon as old enough left his adopted home. Beckwith Jones interested himself in the search for the lost woman and on last Wednesday heard from persons in Grafton that a woman and child passed through there on Tuesday, June 16th, and they thought they were then with Allan Bull's family. Mr. Jones proceeded to Mr. Bull's and there found the woman and child. She left home on account of domestic unpleasantness and does not seem disposed to return.

Take This In!

What! The Grand Excursion to Moncton, which leaves the Canada Eastern station, on Tuesday morning July 12th, at five o'clock (local time). It will only cost you two dollars for your ticket, good to return, and is the cheapest excursion that ever left Fredericton, 350 miles for two dollars, just think of it. The route is a new one, and the scenery along the line very fine. You will reach Moncton at eleven o'clock, and have eight hours to see all places of interest, attend the sports, see the Grand Parade and be home the same night. There will be amusements to suit everybody. A strong committee has the excursion in hand and the very best of order will be kept on the train going and returning; you can depend on this. The Marysville Band will be in attendance and everything done to make the excursion an enjoyable one. It will only cost you the small sum of two dollars for your ticket, so take it in. Tickets sold by all the committee and at the Canada Eastern Station on Tuesday morning, the 12th.

Fredericton District.

The Methodist district sheet locates ministers in this district as follows: Fredericton: W. W. Wall, G. B. Payson. Kingsclere: A. E. LeFurge. Marysville: W. W. Lodge.

Nashvack: T. L. Williams. Stanley: E. H. Gough. Bonnetville: Edward Bell. Keswick: W. E. Johnston. Shelburne: D. D. McCully. Gagetown: A. C. Dennis. Canterbury: C. H. Manaton.

Run Away.

On Wednesday afternoon a fine young team of colts belonging to Eden Waugh took flight when standing at St. Marys and ran away. Their stampede scared Elias Whites horse and off he went also. R. Staples stopped Whites horse but was almost run over by the Waugh team. He managed to clear it by a pretty close shave and the Waugh team went on till Deane loomed up before it and brought it to a standstill. Little damage was done but for a time there was every appearance that some one would be killed.

Cuttings Fast.—No. 3 gang in Mr. Gibson's mill, on Thursday afternoon, cut 3,245 feet of deals in 20 minutes, at the rate of upwards of 10,000 per hour. It was not a rough either, but the ordinary sawing, with a high head of water.

PROVINCIAL BAPTIST ALLIANCE.

Their Meeting at Millville a Successful One.

The Reformed Baptist Alliance met this year at Millville, N. B., June 29th. There were present fifteen ministers, five licentiates and sixty delegates.

Each week day's work was arranged as follows: Prayer meeting at 5 a. m.; social service at 8; business at 9; social service again at 1:30 p. m.; preaching at 2; business at 3; praise services at 6:30; preaching at 7, ending with testimony and altar service.

On Sabbath, besides the usual services, there was preaching at 10:30 by Rev. W. B. Wiggins of Moncton, at 2:30 by Rev. S. A. Baker of Grand Manan, and at 7:30 by Rev. G. W. McDonald of St. John. A large tent had been procured, capable of holding eight hundred people, and notwithstanding the rain it was filled from 10 o'clock Sunday morning till 11 o'clock at night. At the love feast at 9 a. m. fully two hundred testimonies were given, and at the altar service in the evening over fifty persons went forward to obtain spiritual help.

This is a young and growing denomination. They have been organized only four years and they report twenty-nine churches with membership of one thousand. There has been an addition this year of one hundred and thirty-three, and three new churches organized. They have twenty-two Sunday schools with about a thousand scholars and over one hundred teachers.

Their church property is valued at \$22,150. Have raised for building this year \$5,501. They have nine churches in course of erection in the following places: St. John, Seal Cove, G. M. Green Bush, Maple Ridge, Lower Hainesville, Royalton, Hartland and Brazil Lake, N. S.

The officers of the alliance for the current year are: Rev. J. H. Coy, president; Rev. G. B. Triffin, vice-president; J. L. Buller, recording secretary; Rev. S. A. Baker, assistant secretary; F. N. MacMillan, secretary; Eliska Costman, treasurer; Jas. Drysdale, auditor;

Meetings begin next year at North Head, Grand Manan.

Messrs. W. H. Sherwood, St. John; S. Richardson, Grand Manan, and H. Saunders of Nova Scotia, have been ordained ministers of the Reformed Baptist church.

STILL THEY RING.

Wedding Chimes still Echo in Town and Country.

Rev. Wm. Downey performed the marriage ceremony on the 29th ult., that united for life Bliss Allen of Douglas, York county, and Miss Alberta Allen of Aroostook, Maine.

At Woodstock on the 29th ult., George MacLaughlin of Burton, Sunbury county, and Miss Lucy Cummins of Northampton, Carleton county, were married by the Rev. C. T. Phillips.

On Wednesday morning last, the 29th ult., at the residence of William Harrison, Sunbury, Mr. Taylor and Miss Annie Harrison were married by the Rev. Wm. Downey of Woodstock. The bride, Miss Taylor, left for St. John on a wedding trip.

At the Mans, Harvey Station, on the 29th ult., Matthew Swan and Mary Alberta Mowat, eldest daughter of coun. John Mowat, were married by the Rev. J. C. McLean. The bride has always been a favorite in the parish and has the best wishes of all.

A very pleasant wedding ceremony took place at the residence of Geo. Gunter, Bear Island, on the 29th ult., when Miss Carrie Gunter and Manzer A. Hagerman became man and wife. The Rev. A. G. Downey, assisted by Rev. S. W. S. Hickey, officiated. There was a large gathering of guests and a handsome showing of bridal presents.

The happy couple left on a tour of Boston and other large cities of the union. The Herald extends both hands.

Miss Minnie T. Dunphy and Burns W. Akeley of Southampton, were married at the residence of Edward Duffin, St. Marys, on Wednesday, the 29th ult. by the Rev. Mr. Crowley. After the wedding they returned to Southampton. Miss Edith Dunphy and W. L. McFarlane assisted as supporters in the ceremony. There were many costly and handsome wedding gifts attesting the esteem of their many friends, presented to the young couple.

On The Go.

R. A. Payne of the Sun was here visiting. Louis McKenzie is here from Fredericton and Mrs. A. Mitchell of Scotch Settlement have been at Mr. Ass. Vanvarts. Mr. and Mrs. Bayard Fisher have returned from Toronto. Mrs. A. F. Street is visiting her father, Sir Leonard Tilley at St. Andrews.

Miss Jessie Hooper has returned from India on account of broken health. Dr. Inch, Chief Supt., has gone to Montreal. Dr. James C. Parise is a guest of Dr. G. C. Van-ner. Mr. and Mrs. S. W. Swin are visiting friends here. Major Loggie is killing salmon at Duncannon. Dr. Lunn is at the Tenacious. Mrs. T. G. Loggie has gone to Pictou. Mrs. E. T. Allen and family are rusticating at the Bay Shore. St. John. Miss O'Malley of New York is visiting at Mr. John McDonalds. Mrs. Forester is home from Quebec. Mrs. W. T. Whitehead and family have gone to Bay Shore. T. H. Colter, M. P., goes to Summerside, P. E. I., as a Forrester delegate, next week. Couns. Gould, Jamieson and London visited The Herald during the week. Mr. John Anderson, M. P., was in town Tuesday.

Gibson and St. Marys.

William Rideout is home on a brief sojourn. Miss Edith Colwell has returned from her vacation.

Mrs. Frank Still of St. Stephen, is visiting friends in this vicinity. Alfred Cliff and P. Yerxa, wife and child are visiting at A. D. Yerxa's.

Mr. Dayton is painting the inside of the Episcopal church, St. Marys. Mrs. T. N. Burpee of MacAdam is visiting her daughter, Mrs. R. Staples.

Dr. P. M. Brown received a cancer from Mrs. Helen Pond's face on Monday afternoon.

From the list of winners of honors at St. Marys schools in last issue, the names of Mattie Boone and Bessie Sewell were omitted.

Marysville Notes.

Masons are at work on the new Baptist church. Miss Belle Lively has returned from a vacation trip to St. John.

Mrs. J. Dowling of St. John is a guest of Mr. E. A. Tapley.

Mr. Frank Merritt is receiving a visit from his mother Mrs. Miles Merritt of St. John.

Arthur Gibson and James Robinson drove to St. John during the week with a handsome pair of matched horses, which they drove through. One is owned by Mr. Giles and is a dark bay mare by Kenagoe, he by Volunteer, sire of St. Julian, 2:11; first dam Clara, by American Star, dam of Dexter, 2:17. Mr. Robinson's mare is a handsome silver grey, got by Morgan Messenger mare, and by Sir Charles. They make an fine a matched pair as have been seen here for a long time.

S. S. CONVENTION.—Sunbury S. S. Convention met at Blissville on the 30th ult. Rev. W. H. Perry presided in the absence of Major Alexander. Miss Marrie Smith acted as secretary. The convention was successful one. Officers were elected as follows: Rev. W. H. Perry, county president, parish president; D. Dupuis, Gladstone; John Patterson, Blissville; James Kennedy, Burton; D. Burpee, Shelburne; Jas. Randee, Margareville; Geo. Hayward, Lincoln; Jas. Kennedy, Northfield; Major Alexander, sec-treasurer; F. C. Taylor, Major Alexander and Mr. Dr. Second executive committee.

Boys 'rough and tumble' suits for the holidays at Lucy & Co's, \$1 per suit.—2.

RICHES IN STORE.

F. B. Edgecombe's Unlimited Enterprise.

HIS TWO STORES IN ONE—FULL FROM CELLAR TO CEILING.

Latest Novelties from Paris, London and New York.

Citizens of Fredericton are always pleased to see a new store opened or an established one enlarged, they are therefore well pleased with the entrance of Mr. F. B. Edgecombe into the city's many choice establishments. Another of which all may well be proud.

Although Mr. Edgecombe has carried on in the past a large business in dress goods of all kinds and although from time to time enlarging his store yet he was always cramped for room. Ladies goods, especially, occupy so many stores and need so much space for a display that a choice may be had with little delay that Mr. Edgecombe was compelled to walk over the store vacated by Thos. W. Smith. Combining this large building with his own he has now one of the largest establishments of the kind in the Maritime provinces and by far the largest in this city. The entrance to the Thos. W. Smith store will be changed, a plate glass front of 27 ft. in width taking the place of the door now used.

The entrance to the mammoth double store will be by the door used before the late addition. As the visitor enters, before him is a large circular counter of walnut neatly made, dividing the numerous departments on this floor. This flat has a length of 116 feet and a width of forty feet, allowing the space for a gigantic display of goods and a magnificent floor space so that many patrons can be waited on at once without confusion. At the rear is the bookkeeper's department where the whole store is under supervision. This is tastefully furnished and attractively placed. To the left of this and in the rear is a neat office for the use of business customers wishing interviews with proprietor or manager. This great room has its countless shelves stocked with all sorts and styles of dress goods, at prices to suit the pockets of the laborer or the millionaire.

Dress Department. The dress goods will be found at the up town end of the lower flat. Here every thing in dress goods from the finest silks to the best cottons will be found on the many seventy feet shelves which await the purchase. Opposite the dress goods department and occupying the upper side of the circular counter and shelving are kept all the various trimmings required for the dress of the fashion. The haberdashery department where all kinds of small wares, such as gloves, hose, etc., are kept is near at hand so that a pair of gloves suited to the dress purchased may be got without walking far.

The Prints. Here is a counter that is at present much vaunted, all kinds of prints, all of beautiful patterns and purchases, and all visiting patrons will say that Mr. Edgecombe carries a large stock of superior prints. There is the corset department with its many lines of novelties. The gents department is further down where all kinds of furnishing goods in shirts, hats, caps, collars, etc., may be got. A very large assortment in each line is kept, of the latest styles and at the lowest prices.

Then comes the staple department where may be got table linen of all kinds, towels, etc., in great variety, best quality and latest designs. We have now got over the lower flat, examining a vast amount of goods and seen a large store.

Up Stairs.

But our guide asks us to come up stairs and here is another store so large as the one we have just left and just as fully and as tastefully fitted. At the foot on the down town side is the wholesale department for all sorts of small wares, the up town side being devoted exclusively to carpets of which there is a grand assortment of the latest patterns. At the rear is the department for boys suits, hats, caps and furnishings containing almost enough suits to fit out all the youths of our county with a few sent to Sunbury and Carleton Place. When you come to town, boys, ask your parents to take you to see this room. Near this department and occupying a neat room in the jacket and mantle department. This is one of the best fitted rooms of the establishment. It will have special care and attention and will always be found replete with the choicest novelties. On the opposite side is a room fitted for laster and sewer especially, this is carefully maintained and contains only the choicest goods.

Rubber Goods.

Here is a room fitted especially for ladies and gents rubber coats and gossamers containing a large stock from which to make their choice. Near the carpet department opposite the rubber goods counter is a section devoted exclusively to the display of window poles, curtains, porcelains, etc. All the rooms reach this flat where they are placed on the lowest possible price. If not what was ordered or besides being suited to the wants of the people containing the latest fashions of the day. But these are invited to walk up stairs and here is

Another Room.

as large as the one we have just left also well stocked with goods. Here we find the warehouse department where all the establishment, the lumber and camp supplies. A room is set apart here for the making up of carpets by a competent person. All goods coming to this mammoth establishment first reach this flat where they are placed on the many tables ready for them, are inspected and priced. If not what was ordered or besides being suited to the wants of the people containing the latest fashions of the day. But these are invited to walk up stairs and here is

The establishment is to be fitted with electric bells and a new and unique cash system. This establishment has for years had the reputation of being well managed and it will be better in this respect in the future than in the past. The markets of Paris, Berlin, London, New York and all great emporiums of the richest and best in the dress world will be laid under tribute to pour their wealth of choice goods into this store for the benefit of its patrons, and we are safe in saying that in our large assortments the best value for the money may always be found.

Remember F. B. Edgecombe sells tickets via the C. P. R. and other lines for all points west.

Miss Rachel Kelly, sister of the late hon. Wm. Kelly and of Mrs. R. O'F., died in this city Sunday at four o'clock. Her death was not unexpected. Deceased was a lady who by her loving disposition had made a multitude of friends, and her loss is deplored by all. The funeral, which was largely attended, took place on Tuesday at half-past two, the interment at the Methodist cemetery.

A PLAIN STATEMENT.

Mr. Wilson's Dealings with the County and University.

To THE EDITOR OF THE HERALD: Sir,—In an editorial of Thursday's issue of a local paper references are again made to the public as a secretary treasurer, also as registrar of the University and my private dealings which are by no means new in their character, but are applied to new subjects of investigation. If I mistake not, this is about the sixth time that paper has referred to my dealings as secretary treasurer, so that the public are pretty well aware by this time of the nature of the charges and I think it will be remembered that I answered to the college on the last of May 1891, but were made. I will not therefore refer again to them except to remark that when this paper first referred to them I stated that my embezzlements were upwards of \$800,00, now, it says they reach \$1000,00. Both editorial says shows that I have been using the university funds for my own use, the facts are: prof. Hyde's actual work ended at the college on the last of May 1891, but his quarter's salary, as well as that of the other professors, was not due until the first of July, when the provincial grant of endorsement would be paid. He, therefore, as he was anxious to sail at once for England, drew up me as registrar at thirty days for the whole amount of his quarter's salary, on the first of July 1891, and was presented to the college on the last of July. I received the money and gave it to Prof. Hyde, who I should not complain. These boys cannot help slandering me. They come honestly by it. Their father, the ex-chief superintendent of education, sent me an open card through the mail from Quebec, in which he had collected funds belonging to the Brydon-Jack Memorial scholarship in my hands for three years, which card I now have in my possession, and reads as follows:

Feb. 16, 1892.—Mr. Wilson will please pay over with interest to Mr. Macredie, secretary of the alumni association, the balance of the Brydon-Jack Memorial scholarship fund which has held in his hands for the last three years. Wm. Crocker.

Mr. Crocker was chairman of the committee of the Board of Education, and I was one of the members to collect funds to establish the school. It is to be noted that the last report that was made to the alumni society and gave a statement of the standing of the fund, was by Mr. Crocker, and he paid in and he made no such statement in the presence of the members of the alumni society, but from Quebec he could send an open card through the mail charging me with dishonesty.

When such a feeling as is indicated by the editorial referred to and the above card, exists in the minds of the general public, the Crocker family it is hardly possible that my credit in any capacity would meet with their favor. W. WILSON.
