THE CAMPAIGN!

Conservative Leaders Busy.—Sir Wilfrid and the Provincial Premiers.

Laurier's Provincial Support.

Crushed by the Revolt of Manitoba, Ontario, British Columbia and New Brunswick; Now his Ontario Tour Will be More Lonesome.

Poor Mr. Pugsley!

Trying to Regain Prestige in N. B.; Much Has Been Found out About Him; "Whipped Spaniel" Grows Fierce When at a Safe Distance; Dredging Contracts and Newspapers.

Mr. Fisher grows Warlike at a Distance.

OTTAWA, Sept. 5th, 1908.
With the prospect of an election at the end of October or the beginning of November, the Conservatives have begun a vigorous and aggressive campaign. Mr. Borden took a short rest, after which he returned to Ottawa and attended to various matters of organization and is now addressing meetings in Nova Scotia. From there he will move westward, speaking in all the provinces east of Manitoba. Mr. Monk and other Quebec leaders have addressed meetings in their own province and throughout the country. Other Conservative leaders and members are at work in their own districts. Mr. Foster has held eleven remarkably successful meetings in the three Eastern provinces, and is to speak during the next two or three weeks in Ontario.

Mr. Ames has gone all through the West with his campaign against the spoils and plunderers of the public domain in that country, thus accepting the challenge to make his charges in the places where the transactions occurred and where the land and timber grafters are known.

PROVINCIAL LEADERS.
Sir Wilfrid Laurier can thank himself for the appearance of provincial premiers and ministers with Mr. Borden at his future meetings. Among these will be Sir James Whitney, when he returns from England, and some of his ministers in the meantime; Mr. Roblin, Premier of Manitoba; Mr. Uzen, Premier of New Brunswick, and Mr. McBride of British Columbia. Sir John McDonald was not disposed to mix federal and provincial politics the same view. But Sir Wilfrid Laurier came into office by an alliance with provincial premiers, three of whom he took into his ministry. He has thrown the whole federal influence into every provincial contest since he became premier, declaring that the late Ontario Government was the right arm, and Premier Parent's administration the left arm of his own ministry. Sir Wilfrid's right arm was nearly amputated three years ago by the people of Ontario. He lost his left by a revolt among his own Quebec friends. But every Conservative provincial victory has been obtained against all the power that the federal administration could exert.

THINGS ARE DIFFERENT.
When Sir Wilfrid took office he had at his back the solid support of all the Provincial Governments from the Atlantic to the prairies. First he lost Manitoba, then Ontario, then New Brunswick. A straight Conservative Government has taken the place of a mixed organization in British Columbia. To-day more than half of the people in Canada are under Conservative Provincial Governments. Those of Ontario, British Columbia and New Brunswick have been established since Sir Wilfrid last appealed to the people. He has made it impossible for these administrations to be neutral in the coming fight. Moreover, the Premier will find that the various machines which in times past manipulated ballots and stole elections will no longer have the protection of the Department of Justice in the

province where they have carried on their most successful operations. Twice since 1904 the people of Ontario have condemned and sentenced this machine and the party to which it belonged. When Sir Wilfrid starts out this month on his Ontario tour he will find some vacant chairs where men high in provincial positions used to sit around him. It is true that he has taken the discredited Premier into the Senate, and one member of the condemned government into his cabinet, that he has made another a provincial commissioner. That does not offset what the people have done. It only shows that Sir Wilfrid is not on the side of the people.

A LOAD TO CARRY.
Sir Wilfrid is further embarrassed by the presence in his cabinet of the chief purveyor of the late New Brunswick Government, which last March went down in disgrace before an indignant population, and has been still further discredited by disclosures made since in the examination of the public accounts. Probably there was never in an organized community outside of South America, Turkey or Egypt, such a record of private dealings with public funds. Ministers used the public treasury as a private bank, drawing money when they needed it, paying part of it back when they were in funds, and then drawing more at election times. These transactions never appeared in the public accounts, and it was not until the Government was overthrown and auditors appointed that the public came to understand what a "suspense account" meant in New Brunswick finance. Mr. Pugsley is busy explaining that he gave value in extra services for all the apparatus which he has returned to the treasury since the change of government. Some of these services were rendered eight or ten years ago and were supposed to be settled for. Most people thought they were exceedingly rewarded at the time, seeing that Mr. Pugsley with a nominal salary of \$2,100, was in the habit of drawing \$6,000 to \$10,000 a year from the treasury for legal services.

RATHER COWARDLY.
Just before Parliament met last November, Mr. Pugsley, speaking in New Brunswick, made certain charges against Mr. Borden in regard to campaign funds. When the House met he was challenged to make his charges there to Mr. Borden's face. Among others who made this challenge was Mr. A. E. Kemp, of Toronto. It came naturally from him, because Mr. Pugsley's attack on Mr. Borden was in the form of a reply to statements made in Toronto by Mr. Kemp. When Mr. Kemp faced Mr. Pugsley he made statements which I challenge him to make in this House face to face with us.

Now I hope that the Minister of Public Works will deem it his duty to make good what he has stated

outside of the House. . . . If the Hon. Gentleman refuses to go further, if he is satisfied to make insinuations in a way he has done outside of this House without taking steps to make his position good, I cannot but feel that he is condemned before the country for making statements which he knew were not true. Sir, he has talked of these things on the hustings, but he has sat in this House like a whipped spaniel in his daring to open his mouth. He is now at the bar of public opinion and let him choose his course."

Mr. Pugsley continued to sit like a whipped spaniel during the seven months of the session, and though repeatedly challenged made no attempt to substantiate in Mr. Borden's presence what he said about him when Mr. Borden was 3,000 miles miles away. But, strange to say, on the second political meeting which the minister addressed in his own province after the session was over, he returned to the old slander, and only explained his silence in the House by saying that Mr. Kemp was unworthy of his attention, though it was the same Mr. Kemp whose remarks called forth Mr. Pugsley's original statements.

LIBEL SUITS THAT FAILED.
It may be further remembered that when Mr. Pugsley made his first charge, a Toronto newspaper pointed out that Mr. Pugsley himself had been accused of conspiring a few years before for the overthrow of the Laurier Government, which he was then pretending to support. Mr. Pugsley at once gave notice of a libel suit, which the paper welcomed as likely to throw some light on a mysterious chapter of Canadian political history. Mr. Pugsley never proceeded with this suit, nor with any others that he threatened. It was Mr. Pugsley, who as Mr. Emmerson's adviser, instituted proceedings for criminal libel in the "twine, women and graft" affair. That suit also collapsed, together with three civil libel suits instituted in the same matter, Mr. Pugsley suddenly appearing afterwards as Mr. Emmerson's successor in the ministry.

A BAD BLAISE FOR HIM.
In the present state of the Dominion finances, and in view of the grotesque financial methods of the Pugsley administration in New Brunswick, it is unfortunate that Mr. Pugsley should have charge of one of the great speeding departments of the Canadian Government. Through was discovered last session in dredging contracts alone to show that this minister is an easy mark for contractors. That was illustrated in new contracts given on the lakes. It was also found that one dredging company, working in St. John Harbour, in ten months received \$75,000, and it is stated on good authority that \$100,000 of this covered all operating expenses, \$150,000 purchased and repaired the dredge, leaving the company \$125,000 profit and the dredge to the good. The chief member of this company is the son of a member of Parliament and obtained the contract without tender. Just now Mr. Pugsley finds it necessary to acquire for his party a newspaper in St. John, and it is a significant fact that the chief movers in that enterprise are men with dredging contracts. The sad result of Mr. Pugsley's interference with the last provincial election makes him anxious to gather in help from all sources for another sectional appeal.

WON'T USE THE ROSS RIFLE.
The Department of Militia recently announced that at last the whole militia force was to be armed with the Ross rifle. The militia men must take it whether they like it or not. But this week the D. R. A. matches are taking place, and the expert shots in the country are gathered at Rockcliffe. Here the men who shoot straight choose their own weapon. One goes a long way among them to find a Ross rifle in action, and those that are used in this contest are mostly found in the hands of marksmen in the service of the Ross Company. The men who wish to keep up their record will see the English weapon, which did not cost so much money, but seems to satisfy the marksmen.

THE CASSELLS INQUIRY.
Those gifted partisan lawyers who are assisting on behalf of the Government in the Cassels' inquiry have been procuring testimony in Montreal to show that great improvements have been made in the lighting of the St. Lawrence. Some of the witnesses of the lightness board grow so enthusiastic that the Judge had to remind them that it was not the time for stump speeches. The question whether the St. Lawrence should be better lighted was not referred to this Commission, but the question whether there was

Have You Suspected Your Kidneys as the Cause of Your Trouble

If you have backache, swelling of the feet and ankles, frequent or suppressed urine, painful sensation when urinating, specks floating before the eyes, great thirst, brick-dust deposit in the urine, or anything wrong with the urinary organs, then your kidneys are affected.
It is really not difficult to cure kidney trouble in its first stages. All you have to do is give Doan's Kidney Pills a trial. They are the most effective remedy to be had for all kidney and urinary troubles.
Mrs. Alfred LaBrosse, Brockton, Que., writes: "I feel it my duty to say a word about your Doan's Kidney Pills. I suffered dreadful pain across my back so bad I could not sleep or stand. After having used two boxes I feel now as if I had been cured thanks to your pills. I highly recommend Doan's Kidney Pills."

A Bad Record.

In our last issue we showed how wide apart were the promises and performances of the Liberal party, now in power in this Province. To prove their insincerity and absolute failure to fulfill their pre-election promises, by corresponding performances after reaching power, we gave the figures of the public expenditure for the years they have been in office. These figures show how vain, false and misleading were the promises of economy and reduction of expenditure made by Mr. Frederick Peters, before the election of 1893. The annual expenditure has gone on increasing ever since 1891, as we showed in the table of figures for these seventeen years. Not only did our Liberal friends increase the annual outlay, but they failed to meet this ever increasing expenditure by sufficient revenue, although they have been extracting immense amounts by way of taxation from the people's pockets, as we shall presently show. All their promises of economy and retrenchment have been frittered to the winds by their reckless and extravagant performances, and huge annual deficits have been the result of their mismanagement and deception. These deficits, as we showed in our last issue, have reached, in the aggregate, over \$900,000. While the Liberal Government were rolling up this mountain of Provincial debt, they were bleeding the people, by way of taxation, at the following rates:

Table with 2 columns: Year, Amount. 1894 \$45,182.91, 1895 47,662.75, 1896 48,450.96, 1897 46,785.39, 1898 46,269.97, 1899 58,818.68, 1900 57,453.44, 1901 66,429.33, 1902 84,229.27, 1903 79,663.32, 1904 76,941.79, 1905 80,813.98, 1906 (9mos.) 34,189.40, 1907 83,368.72

These taxation figures aggregate almost \$855,000 and represent an average annual taxation of about \$61,000. \$900,000 in deficits and \$855,000 in taxation make a pretty bad showing, for a party that promised to economize the public expenditure and keep the day of taxation far off. That is how the case stands, according to the figures supplied by their official reports. Still, this Government and this party have the temerity to come before the people and ask for a renewal of confidence. It surely requires extraordinary nerve to face the people, with such a record as this.

The tale of the Government's recklessness, extravagance and deception has not all been told, by any means. A debt, public or private, is fairly measured by the interest paid thereon. If you know the amount of interest and the rate per cent, you can easily calculate the principle. In the case of the Provincial debt, the Government are not paying a uniform rate of interest, but a fairly approximate conclusion may be arrived at by a consideration of the total interest. In view of these considerations a perusal of the following table of interest will be found most instructive:

Table with 2 columns: Year, Interest. 1889 \$ 615.38, 1890 2,697.44, 1891 7,075.14, 1892 6,649.71, 1893 10,197.37, 1894 14,813.78

Referring to the nature of political meetings in Nova Scotia, addressed by some of the leaders of the Liberal party, the Patriot is pleased to remark that they were extremely lively and in "striking contrast" with "the lukewarm audiences which greeted Mr. Foster during his tour in the Provinces." These statements of the Patriot about "lukewarm" meetings must be intended by the Patriot for foreign consumption, as it very well knows that Foster's meetings in this Province were among the most magnificent and enthusiastic ever held here. No Liberal had the temerity, during, or immediately after, these meetings to refer to them as "lukewarm" affairs. But it is evidently part of the Patriot's game to keep on lying in the hope that some one may be deceived.

The Federal Elections.

According to advices from Ottawa, the dissolution of the Federal Parliament is at hand, and the general elections for the House of Commons are likely to be held on either the 28th or 29th of October, six weeks hence. This does not leave any too much time to complete preparations for the contest, and the Opposition should make the best possible use of these weeks, to perfect organization, complete lists of voters and arrange all necessary details for the day of battle. The Government forces, accustomed to exploiting the public resources and raiding the Federal treasury for political advantage and selfish ends, may be depended upon to make free use of the people's money in their endeavor to secure their election. It, therefore, behooves the Opposition candidates and their friends to be on the alert, and to keep a watchful eye on the movements and operations of the Liberal workers. In a fair unbiased appeal to the people, on their record and on their fidelity to their promises, the Government could not hope to win. The people left free to choose, untrammelled by pressure and promises of material gain, and not unfrequently of large cash donations, would not long hesitate to vote out the extravagant, corrupt and hypocritical Laurier Government. But the grafter, the middleman and the rake-off man, in consideration of fortunes already made out their operations with the Government, and with a lively sense of great favors to come in the future, will be much in evidence and will be busy in the employment of human devices on behalf of their masters. These are some of the things the Opposition will have to contend with, and to meet which, the utmost vigilance will be required. We have a good cause, a good record and a good leader. But we have to fight an unscrupulous, hypocritical and corrupt combination, who will stop at nothing to gain their object. Let us, therefore, be up and doing. Let every lover of good government be prepared for vigilance, for labor and for sacrifice, and with a united effort; a long pull, a strong pull and a pull altogether, we shall down the enemy.

New England and the Sea.

This is the caption of a folder issued by the Grand Trunk Railway System and sent free on application to any agent of the company. It is descriptive of the beauties and attractions of the mountain districts of the New England States and the Atlantic Sea Coast. The sea coast resorts are among the finest on the American Atlantic and those who have never enjoyed a few days by the sea have yet an experience worth having to look forward to. The Grand Trunk Railway System runs through Pullman Sleeping Cars from Chicago, Toronto, etc., and solid trains with Parlor-Cafe-Library Cars on night trains between Montreal, Portland, Old Orchard and Kennebunkport.

Pierce Forest Fires.

Brush fires surrounded Port Arthur and Fort William, and all the fire-fighting appliances of the two cities engaged in fighting the flames on Friday last. The fire between the cities "breaked" into the steamer, but was finally extinguished. At the station, the Indians had a hard fight to save their village. The fire got right up to their back yards and the men had to struggle to save their homes. The whole country east and west is ablaze, and the fire is eating away at the timber, being fanned by heavy breezes. At Thunder Bay, the whole section is lighted up with the flames. East of there, along the C. P. R., the worst forest fires in the history of the country are raging, and thousands of dollars worth of timber is being lost. Along the Central several villages are threatened. The fire is only a short distance from the village of Hymers, and the people are very anxious. From the international boundary to Hymers, a distance of thirty miles, the whole country is ablaze. American reports great bush fires between Pigeon River and Grand Marais. The captain said that he had seen twenty distinct fires en route. Grand Marais is surrounded with fire and all the women and children will be taken to Oshawa. The people along the shore are in a frenzied state. At the reservation all the lumber camps have been burned, and the people had to flee to the lake to save themselves from the awful heat.

Railway Accident.

Three persons were injured and thirty-five passengers shaken up when an express car on the Atlantic Shore Line Railway crashed into the rear of an open passenger car bound from New York Beach to Dover, N. H., at Norton's brick yard, late Thursday. John E. Hutchins, of Wells, Maine, motorman of the express car, had his foot crushed and sustained other wounds. E. Stickney, of Eliot, Me., and Mr. Rada, of South Berwick, Maine, who were riding on the rear platform of the passenger car, were bruised and

A WORD BEFORE LEAVING.

"My meetings in Prince Edward Island have been entirely satisfactory. Each of the three places in which I spoke found the largest available hall crowded and the audience most intelligent and attentive. Nothing in the shape of disorder appeared at any place, and the patience of the people notwithstanding the heat and other discomforts was very pleasing.

"I believe the people are thoroughly awakening to the condition of things, and to my mind the outlook for the Liberal-Conservative standard bearers in P. E. Island is very encouraging.

"Messrs. McLean, Martin and Lefwagey, are abundantly deserving of the confidence given them in 1904. I know their work in Parliament, and it has been conscientiously and ably done."

LOCAL & OTHER ITEMS LOCAL AND OTHER ITEMS

Tuesday next (22nd inst.), is the opening day of the Interprovincial exhibition at Charlottetown.

The preliminary examination into the robbery committed by McDonald and Shepherd was so far concluded Thursday as to send the prisoners up for trial at the Supreme Court.

Two persons were burned to death and two others were seriously burned, and two women were injured by falling walls, while four other persons were slightly injured as the result of a gas explosion at Pittsburg Pa. on Saturday last.

Herbert Leard, harvester, from Hope River in this Province, 30 years of age, while working with a threshing crew on the farm of George McKay, near Renton, Manitoba, on Friday last, fell into the separator and was instantly killed.

At Halifax on Saturday last, Henrietta Galloway, aged 26 years, while dressing her hair in her room, carelessly threw a lighted match behind her on the floor. It quickly ignited her muslin dress and in an instant she was enveloped in flames, and before her father reached her she was badly burned that she died in a few minutes.

The East bound Atlantic Express ran on to a burning bridge six miles west of White River Ont., on the 10th. There was no loss of life. The engine went down into a ravine. The engine and fireman escaped although the former was seriously injured. The contents of the baggage and postal cars were saved and no passengers were hurt.

The Provincial Exhibition closed at Halifax Thursday with a total attendance of 76,000 being 13,000 more than last year. Spectators on the grand stand witnessed a thriller, when Calvert Light, the wire professor, slipped and fell thirty-five feet to the ground. At first it was feared that he was killed, but no bones were broken, and beyond a severe shaking up he escaped serious injury.

The York Loan Co. liquidators have at last got the company's accounts on a business basis and are now ready to declare a dividend of 40 per cent or over. It is however necessary that all who desire to participate in this division have their shares in the hands of the liquidators before the 30th of September.

Indians living on the lake near Fort Francis Ont., reported that a gasoline launch was seen to blow up and sink near Jackfish Narrows on Friday afternoon with all hands lost. The launch was revealed that one of the gasoline fish boats from International Falls is missing with the owner, Mr. Lufelt and two fishermen. As no trace of them or the boat can be found it is feared the report is only too true.

A Boston despatch of the 12th says—Over seven hundred watches and other articles of personal jewelry were pawned in Boston the day after Labor Day. The police made an investigation to see whether the pawned articles were stolen during the holiday crowds, but found it was merely the regular amount of a holiday where the poorer classes often spend more than they can spare and are accordingly cramped for cash.

A terrible explosion, the worst in the history of Brantford Ont., occurred Thursday afternoon at two o'clock when south side of Colborne Street, near King Street, was blown up. The cause is believed to have been natural gas. Eight persons have been taken out injured and seven stores were demolished. The buildings collapsed and fell into the street. Two persons were killed—Mrs. Horne and a child rescued from the ruins and her two children were taken out later. They will recover.

Next week will be exhibition week, and we expect to see a great many of our country friends in the city. We shall be pleased to have them call upon us and doubly pleased if our subscribers would think of us. We have not, of late, said very much about paying subscriptions, but a little money is always needed to keep the mill going, and if any of our subscribers, when visiting the exhibition, will find it convenient to send their subscriptions, we shall esteem it a great favor.

Messrs Brothers of Killaloe, proprietors, have made one of the richest strikes in the Cobalt District. At Cowdang, on the east bank of the Montreal River they found a veritable bonanza showing up eight four sacks of silver nuggets from the ground which they brought out. A vein of solid silver 25 feet long has been uncovered and they were offered \$300,000 for the claim as soon as they left the recorder's office. Fifty thousand dollars worth of ore is in sight and the find has made a big sensation.

A package entrusted to the care of the Wells-Fargo Express Company at Salem, Oregon, by J. R. Albert, President of the Capital National Bank of that city, and addressed to Jos. M. Myers at the Portland Hotel in Portland Oregon, containing jewellery, notes and other valuable papers, representing over \$50,000, is strangely missing. That the package reached Portland from Salem on the Southern Pacific train arriving there at 11.30 o'clock on the night of August 31st, has been established, but what became of it after that hour is not known. It is thought that the package was taken from the Union Depot office.

A collision occurred at Crane Island, thirty miles below Quebec, on Sunday, between the Corinthian of the American Line, outward bound from Montreal, and the Mail Head, of the Head Line, inward from Cardiff. The river was covered with a dense smoke from forest fires. The Mail Head was struck amidships and had to be beached at St. Laurent. Her engine-room is flooded and she was struck for amidships by the Corinthian's bow. After the accident the Corinthian lost her bearings and had to put back to Quebec. Most of the one hundred passengers on board were in their berths at the time the crash came, but no accidents are reported.

Hon. R. W. Scott, Secretary of State, has retired from the Laurier Cabinet, and is replaced by Mr. Charles Murphy K. C.

Orville Wright has broken the world's record for time and distance for heavier than air flying machines. In a flight requiring great skill, on account of the ten mile wind that was blowing, he circled around the drill grounds at Fort Meyer Washington fifty-eight times in sixty-five minutes and fifty-two seconds.

As will be seen by advertisement in this issue, Messrs. Martin and McLean have, in addition to the meetings called by the Liberal candidates, arranged for meetings at Kelly's Cross, Hope River and Wheatley River, for Monday, Friday and Saturday of next week respectively, to which the Liberal candidates are invited.

R. G. McPherson, lately member of Parliament for Vancouver, has been appointed Postmaster of that city. He is numbered seven-six of members and former members of Parliament who have taken office, most of them having sat in the House supporting the Government with a promise of office in their pocket. It may be observed that number 77 and 78 are lingering about Ottawa awaiting their turn.

Joseph Galvin, one of the best known sportsmen in Boston was almost instantly killed in a runaway accident in Dorchester late on the 10th. Galvin was driving in the Dorchester district when his horse became frightened and ran away on the top of Mount Bowdoin Hill. The carriage struck an iron post, hurling Mr. Galvin out of the carriage. He struck on his head and was dead before any one could reach him. He was 55 years old and single.

Before the physiological section of the British Association London Sir James Grant of Ottawa delivered a full account of his operations, which, acting on inactive nerve centres which become poisoned by noxious gases in age, cleanses them by electricity. Sir James said he would be enabled to abandon spectacles and also increase general activity in consequence of the use of the instrument. The discovery is the first successful application of electricity to humor digestion.

A large number of Government supporters of the last Parliament have failed to obtain a nomination from their party. Among these are Mr. Kennedy from New Westminster, Mr. H. G. McTavish, Mr. Wright of South Renfrew, Mr. Stewart of Ottawa, Mr. Ross of North Cape Breton, and Mr. Wilson Russell. These changes have made trouble in nearly every case. In other constituencies as North Renfrew, the man who was counted on to make some show of fight against the incumbent of public opinion has refused the sacrifice. The grafters are on the run.

The City School Board of Edmonton Alberta recently ordered that no child be allowed to go to school unvaccinated. Vivian, the 8-year-old daughter of Provincial Police Superintendent Foley, was vaccinated by Sydney C. Main, assistant health inspector. The child died on Saturday, and Mr. Foley has written to Dr. Whitelaw, the health officer, charging that death was due to vaccination in his office, the man who was vaccinated was ill at the time. He threatened action for damages against the corporation. Dr. Whitelaw denies that the vaccination was responsible for the death and asked for an inquest.

Obituary. The funeral of the late Donald McLellan, St. Andrew's, whose demise at St. Andrew's we recorded last week, took place on the 9th, and was attended by a large concourse of people, lay and clerical. A solemn Mass of Requiem was celebrated in St. Andrew's church by Rev. A. P. McLellan P. P. son of the deceased, assisted by Revs. J. B. McIntyre and A. J. McIntyre as deacon and sub-deacon, and Rev. I. R. A. McDonald, as Master of ceremonies. His Lordship Bishop McDonald, and the pastors of St. Donatien's college occupied the seats in the sanctuary, and the pastors of Fort Augustus, St. Peter's, Summer side and Kinkora assisted the choir. After the services in the church, the remains were borne to the train and conveyed to Bear River, thence they were taken to St. Margaret's, where they were interred in the cemetery, beside his wife who predeceased him by about fourteen years. His Lordship the Bishop officiated at the Libera and absolution and at the grave, assisted by Rev. B. B. McDonald, and Rev. Dr. Walker. Deceased was 23 years of age and leaves to mourn, three sons, Rev. A. P. McLellan, Dr. A. A. McLellan and Mr. John McLellan an engineer at New Richmond, P. Q., and one daughter, Mrs. John McDonald, Mount Stewart. May his soul rest in peace.

will probably run a bit over.

Thus the saving of distance achieved by this expensive new line, as compared with the Intercolonial, is only 20 miles, with the additional disadvantages that the grades are not as good as those of the Intercolonial.

When giving information to the house as to the cost of the new line from Moncton to Quebec Mr. Fielding said it would average \$25,000 per mile and he took the distance as 400 miles, as already explained, for purposes of calculation, making the total cost \$1,000,000.

In the meantime the claims of the widows, orphans, and other dependents of the seventy-seven men who lost their lives in the collapse of the Quebec bridge a year ago remain unpaid.

dishonesty, extravagance and graft and lack of conscience in the department. It might be possible to make a good light service without paying a couple of contractors some \$2,000,000, and allowing them 1,000 per cent profit.

MR. FISHER AND MR. FOSTER.

The Minister of Agriculture is evidently distressed over the success of Mr. Foster's meetings as compared with his own. Consequently Mr. Fisher took occasion at Lechate to accuse Mr. Foster of misusing the funds of the Foresters.

And, in the end, what would the government gain by securing a verdict for a million dollars or more against a company that is not worth more than one-tenth that sum?

It would be a happy thing for Mr. Fisher if he had been able to handle his department as well as Mr. Foster managed the affairs of the Union Trust Company.

WORSE AND WORSE.

August returns show that the revenue continues to fall off. The shortage in customs revenue as compared with the previous year is over a million.

The Quebec Bridge.

By act of parliament passed last session the government was given authority to construct the Quebec bridge as a public work.

Now that the Federal elections are approaching it will not be out of place to refresh the public mind regarding some of the acts of the present government, and the careless manner in which it has committed the country to huge expenditures without the most ordinary precaution or proper previous investigation.

To Refresh the Public Memory.

Now that the Federal elections are approaching it will not be out of place to refresh the public mind regarding some of the acts of the present government, and the careless manner in which it has committed the country to huge expenditures without the most ordinary precaution or proper previous investigation.

At the inception of the enterprise the statement was made by Sir Wilfrid Laurier that, whereas the Intercolonial was a round-about route because it followed two sides of a triangle it would be necessary to parallel this state-owned railway by a line from Moncton to Quebec.

It was stated that the new short line would only be about 360 or 380 miles, instead of 478 miles by the Intercolonial.

It is characteristic of the easy-going methods of the administration in entering upon the colossal expenditure in connection with the Transcontinental that for purposes of easy computation the finance minister took the distance as 400 miles, so as to be well within the mark, and also to save brain fog by dealing in decimals.

It now turns out since the route has been placed under contract that the distance from Moncton to the Quebec bridge terminal is 466 1/2 miles at least, and
