Evening Mercury.

OFFICE.....MACDONNELL STREET.

TUESDAY EV'G, JULY 7, 1868.

A teamster in the employ of the Grand Trunk Railway Company died from sun stroke in London on Saturday last.

The notes of the new bell which was lately hung up in Mitchell are so melodious, that the people of the town insist on its being rung seven times a day.

A little girl in the township of Sarnia has died in consequence of hurts received by a simple fall while running along the road.

The meeting of the Guelph Cricket Club that was to have been held at the Court House Hotel, this evening, will be held at the Castle Garden Saloon, at 7:30 p. m.

A young man, son of an Alderman of Kingston, was shot in a house of evil repute in that city on Saturday night last, and it is doubtful if he will recover.

There is a fearful mortality in Montreal at present. Last week the total number of interments was one hundred and fifty-three, of which number one hundred and thirty-two were children.

There has been trouble about the billings of Volunteers up at Sarnia, some of the hotel keepers refusing to board them for 40c. per day, and the Quartermaster was obliged to make application to private parties to take them in.

BURNED.

An old woman named Mrs. Lewis, residing in Guelph township, a short distance from town, was severely burnt on Sunday last in consequence of the curtain of her "shaker" catching fire from some brands she was carrying from a neighbor's house. The flame communicated to the remainder of her clothing, and before it was extinguished she was so severely burnt that Dr. McGuire, who is attending her, thinks she will not recover.

RAILWAY RECEIPTS.

Grand Trunk receipts are gradually augmenting. For the week ending June 12th they amounted to \$27,340 stg., as against \$25,210 of the corresponding week of the previous year. The Great Western for the same week earned \$12,254, being an increase of \$1,016 over the corresponding week of 1867. The earnings of the Grand Trunk per mile for the period named were at the rate of a fraction under \$20 stg.; that of the Great Western a fraction under \$40 stg. per mile.

MASONIC GRAND LODGE.

The Grand Lodge of Canada will hold its thirteenth annual communication in London on tomorrow (Wednesday). This will be one of the most important sittings the Grand Lodge of Canada has ever held since it became independent of the Grand Lodge of England. An union of all the Lodges in the Dominion is contemplated. The delegates from Guelph are, P.W.M. Bro. J. M. Dunn; W.M. Bro. Charles Sharpe, and Bro. Chase, J.W. Amongst the delegates from other Lodges is Sir John A. Macdonald. The delegates will be entertained at a dinner at the Revere House before leaving.

INDUSTRIAL MUSEUM.

Mr. Buckland, Secretary of the Bureau of Agriculture for this Province, has issued a circular to Agricultural Societies reminding them of the purport of a circular issued early in the year by the Hon. the Commissioner of Agriculture, having among other matters reference to the formation of an industrial museum in the Parliament Buildings at Toronto. He says: "As the season is approaching when grains and other agricultural productions will reach maturity, I trust that the Agricultural Societies of the Province will lend all the practical aid in their power towards the realization of so interesting and important an object. It must be obvious on the least reflection that the successful carrying out of such a project must, in a great degree, depend on the cordial co-operation of our farmers and mechanics, who have been earnestly requested to furnish characteristic specimens of their various productions. I therefore trust that, before the termination of the present year, the department will be put in possession of such specimens of our fields, gardens, and workshops as will indicate in a creditable manner industrial and social progress. I may just remind our agricultural friends that grain in the straw, whenever practicable, is very desirable."

Geo. Sides, of Mono, received a dangerous wound in the thigh a few days ago from the accidental discharge of a gun in the hands of another person.

DEATH FROM SUNSTROKE.—A teamster named John Scott, in the employment of Messrs. Shedd, Grand Trunk Railroad carting agents, London, Ont., on Saturday afternoon last, fell down from sunstroke, and died in about an hour afterwards. He was a heavy built, strong man; but over exertion, under the powerful rays of a meridian sun, completely prostrated him.

Town Council.

The Council met on Monday night. Present, Mr. Mitchell, Deputy Reeve, in the chair; Dr. Herod, Messrs. Heffernan, Masse, Day, McCurrie, Howard, Buckland, Sayers, Chadwick, Mays, Harvey and Melvin. The Clerk read the minutes. The Clerk presented some communications from Mr. Silsby and others regarding the fire engine, which on motion were referred to Fire and Water Committee. Only one of them was read. It had reference to the tube which burst a short time ago, and having been sent to the manufacturers they gave it as their opinion that it had been defective from the first, and escaped their observation.

The Clerk stated that the County rate, \$4,567.50 would require an assessment of 4 1/2 mills on the \$. He had also received notice from the office of the Receiver General that \$523 from the Municipalities Fund was payable to the Town.

An account from A. Thomson & Co. for blankets, amounting to \$52 was presented and referred.

Mr. Sayers read a petition from Timothy Sheedy praying for remission of dog-tax which he was unable to pay. Referred to Relief Committee. Mr. Sayers read a petition from Robert Oliver praying for relief, which was referred to the same committee. Mr. Melvin read a petition from David Allan asking leave to make excavations in a certain part of the road at his mill in order to lay down water pipes. Mr. Buckland read a petition from Henry Hatch praying the Council to vote a sum of money equivalent to half the cost of draining a certain spot on the Edinburgh Road, he to pay the other half. Both referred to Road and Bridge Committee. Mr. Buckland read a petition from the butchers and others praying that liberty be granted the former to slaughter cattle within the limits of the Corporation, the slaughter house to be under the inspection of the Board of Health and Town Inspector. Referred to Board of Health.

The subject of a water supply again came up. Mr. Harvey said he thought there was no use building a platform at the Erasmus Bridge, as when the river was very low this would not facilitate very much the procuring of water; but he thought it would be advisable to sink a tank on the hill about Mills & Melvin's foundry.

Dr. Herod objected to these verbal reports of the Fire and Water Committee to which they were so frequently treating the Council, and took the Chairman very severely to task for not bringing in a written report.

Mr. Harvey said that he had intended to bring in a written report on the subject, and had merely mentioned it now in order to ascertain what the Council thought of the project.

Some discussion then took place concerning the delay in the sinking of the tanks, Mr. Melvin saying that he expected they would have been sunk before now; and Mr. Harvey replying that the work was being pushed forward as rapidly as possible. Another discussion ensued on the subject of whose duty it was to see that a drain was opened to allow the waste water to run away from the pump at the Engine House. The honor of attending to so important a matter was accorded in turn to the Board of Health, to the Fire and Water, and to the Road and Bridge Committee, each of which respectively declined; until it was moved by Dr. Herod, seconded by Mr. Chadwick, and carried, that the Road and Bridge Committee be instructed to make a drain to carry the waste water from the pump at the Engine House.

Mr. Melvin called attention to a sand pit at the Grand Trunk Freight Station, which was encroaching on the road. He thought that the Inspector should see that it was dug no further in the direction of the road.

The Council adjourned.

Street Watering.

To the Editor of the MERCURY.

SIR,—I observed in the *Advertiser* yesterday some flippant remarks about the way in which I performed my contract for watering the streets. In answer to these, I would say that if the editor of the *Advertiser* will undertake to do the job as well, and at the figure I do it for, he shall have the use of my team and waggon free, and I will give him liberty to draw the money. I may state that at first until I got things in proper working order, there may have been some slight cause of complaint, but since then the work has been done as well as the pay would allow, especially when we take into consideration the long spell of hot, dry weather.

Yours truly,
JAMES HUMPHREY.

Guelph, July 7th, 1868.

MUNICIPAL TRIBUTE TO GENERAL NAPIER.

At a meeting of the Court of Common Council of the city of London, at which the Lord Mayor presided, Alderman Cotton proposed the following motion:—"That the freedom of this city, with a sword of the value of two hundred guineas, be presented to Major General Sir Robert Napier, G. C. B., G. C. S. I., commander of the forces in Bombay, in admiration of the fortitude, skill, science, energy and promptitude displayed by him in bringing the Abyssinian war to so successful a close." The Alderman, in proposing the motion, adverted to the very satisfactory manner in which Sir Robert Napier had conducted the important military operation that was entrusted to him, and said that when he commenced the campaign he was met with nothing but gloomy forebodings and anticipations of evil, and he was told that his army would suffer more from miasma and sickness than from the attacks of the enemy, but notwithstanding these gloomy forebodings he had brought the campaign to a most satisfactory and glorious conclusion. Mr. J. Symonds, chairman of the City Lands Committee, and who is by courtesy the first commoner in the court, seconded the motion, which was carried unanimously.

REVIEW OF THE BRITISH CORN TRADE.

The weather having continued remarkably fine, hay-making has commenced in many districts, with every prospect that it will be well got in; but the crop thus far has been bad. The heat has also been too forcing on many light and high lands for the wheat, some Talavera being in bloom little more than two feet high, with the straw drying off too fast. Many farmers are, indeed, quite apprehensive of an unusually short gathering. Much of the spring corn also wants rain badly; and this brilliant summer, which has brought so much consternation in its prospective benefits, so that we have to fall back upon the old rule—"Everything is best in its season." Though all the world rejoiced in February and May, both those months were too dry and forcing. We may yet find worse eccentricities in those to come, that may very materially abate our once sanguine expectations; but if the blooming time prove genial, we yet expect a full crop on the best lands; but some of the clays are too much baked in the sun. The symptoms of reaction which were appearing last week have been very marked in some places, while the movement has been slow in others, the different feeling in the various markets being regulated by the appearance of the growing crops and the greater or less exhaustion of stocks. Again, the weekly sales have sunk and reached the lowest point since the late high prices nor the more recent panic have brought forward any increase of home produce. We may very safely conclude there is little or none to come, and although an early harvest dispenses with the more immediate arrival of perhaps over one million quarters, if we only gather it will not be the less needed afterwards. Should the harvest be rainy, foreign stores will be like gold dust to millers, though they have lately kept their hands as free almost as from infection. Many places in France have given us the expectation of more than an ordinary year. There the rye suffered much in the winter, but some will be fit to cut in a fortnight. The barley and oats partially suffer now, and it has been too hot in places for the wheat. The decline in the trade here has generally ceased, and such sweeping rains have fallen in Hungary that markets there have recently hardened.—*Mark Lane Express, June 15th.*

A REMARKABLE CLAIM.

Lady Amelia Matilda Tudor Radcliffe, is presenting a claim to the Derwentwater estates in the North of England, which are very extensive and at present are for one hundred and fifty years held by the Crown. The lady has satisfied several gentlemen living near her residence in Northumberland, that she is the rightful claimant. At a meeting convened by her at Blaydon, a short time since, she submitted plans, wills, documents, letters, registers of births and marriages, certificates, of deaths &c., relating to the Derwentwater family. Her grandfather's will names 136 heirs, of which all but one are in her possession. She has also a number of curious books, written on vellum, together with the helmet and sword of her father. Although living in obscurity, it is clearly shown that she is entitled to be called Lady Radcliffe. A Bill of Rights is to be introduced into the House of Lords, and no doubt is entertained that there will be a speedy restitution of the immense estates. Petitions are in circulation to be presented to both Houses of Parliament, and it seems that no time will be lost in taking the necessary steps.

THE LIBRARY OF THE ONCE FAMOUS JOHN C. CALHOUN, of South Carolina, was recently sold to pay a debt of a few hundred dollars, which his impoverished widow and daughter had no other means of paying. The proceeds of the sale of one of the choicest private collections of books in the South were pitiful indeed, whole shelves of books being knocked down for from four to six dollars the shelf. Other personal property had then to be sold to satisfy the claims of the

Railway Meeting at Mount Forest.

From our Correspondent.

A public meeting of the inhabitants of this village was called by requisition on Saturday evening, 4th inst., to take into consideration the submitting of a by-law granting \$20,000 to aid of the Toronto, Grey and Bruce Railway. Our worthy Reeve, Thos. Swan, Esq., occupied the chair. The meeting was a full one of the ratepayers, and the several claims of the rival railway schemes were impartially and ably discussed by the several gentlemen who addressed the meeting. Mr. Laidlaw and Mr. Alderman Dickey being in town, were requested to attend the meeting. Mr. Laidlaw went over the whole ground, from first to last, of the railroad agitation for this section, and with good effect, proving his case most fully—showing that his scheme is the only practicable one for this region of the Province. Alderman Dickey then briefly addressed the meeting, when it was moved by Alex. Reddick, seconded by D. Youmans, that this meeting desire the Council to submit a by-law for the sum of \$20,000 to aid in the construction of the Toronto, Grey and Bruce Railway.—Carried unanimously. The deputation in the interests of the Wellington, Grey and Bruce Railway also held a public meeting in Arthur township on the same day, and were again successful in convincing the ratepayers that their scheme is practical, and that they will yet convert this whole region of country to their views on railways. Your correspondent has somewhat got into disgrace, he being suspected of writing those reports of the railway meetings in Durham, Egremont, etc.—Now, for the sake of fair play, I must say that those reports are too highly colored to do good, as intended. I have attended some of those meetings, and must plainly state the whole truth, and that is that the Narrow Gauge Railway is most popular throughout this whole section of country and that your worthy reporter of those meetings is certainly drawing the long bow relative to the meetings in Durham, Egremont and Normanby. But it is fair to state that in the matter of detail there are differences of opinion, but none whatever as bearing on the general and hearty support which the Toronto, Grey and Bruce Railway Company will receive in the above named municipalities.

THE VOLUNTEERS.

Capt. Pearce, with the Mount Forest Rifles, arrived in town on Thursday morning last at 3 o'clock, and the Company paraded in Palmer's Hall previous to dismissal, and we were all much pleased to hear the good report Capt. Pearce made of their conduct whilst on active service. A large number of the inhabitants met them out of town with a file and drum band, and escorted them into the town. About daybreak all separated for their respective homes, giving three cheers for the Queen and three for Capt. Pearce and officers. The Company is ready at a moment's notice for any duty in the Fenian line of business. Hundreds of others are willing to follow in their wake.

Mount Forest, July 6, 1868.

Reciprocity with the Island of the U.

The *Tribune's* special reciprocity Bill affecting the U. P. Gen. Butler in the House signed to relieve our fish from the restrictions which are imposed by the authorities, and to prepare the way for the extension of the U. P. to the Island of the U.

Fall of a Drawbridge.

San Francisco, July 6.—A bridge at Ferry Boat Landing, on the side of the bay gave way today. About sixty persons were thrown into the water. Ten bodies were recovered. It is impossible to say the number drowned.

Cholera at Havana.

Havana, July 6.—The cholera made its appearance here a few days ago, is decreasing in violence, attacks are much milder than

WHEAT CULTURE IN NOVA SCOTIA.

The spring in Nova Scotia has been hard and cold, but notwithstanding more wheat was sown than for many years. The culture distributed at cost hundred and sixty bushels of Fife seed wheat that could not be obtained in the U. P. Upper Canada. A large quantity was distributed the year it turned out so well that it was kept over for seed. In all this large supplies of seed obtained from other sources thought the Province will be sufficient for its consumption, surplus for export.

A NEW BOUNDARY LINE.—It is understood that a movement has inaugurated between the Government and the Government of the United States with a view to the arrangement of the north-eastern boundary of the State of Maine, the "red line" traced by Franklin more than a hundred years ago. This line nearly touches the 45 degrees north latitude on the eastern boundary of the State.

According to the San Francisco State of California.

The condition of these people is described: "Some are fools enough to throw up the home, thinking that, because it is a prosperous country, they are in demand. When they get to the streets, born there to prey upon their friends, and by strangers who are wiser than the common interrogatory want a clerk in this estate. Men with trades, on the generally prosperous; and proven that five years of labor in California, at the wages, will give a man a good good farm."

Evening Mercury

OFFICE.....MACDONNELL STREET.

TUESDAY EV'G, JULY 7, 1868.

A teamster in the employ of the Grand Trunk Railway Company died from sun stroke in London on Saturday last.

The notes of the new bell which was lately hung up in Mitchell are so melodious, that the people of the town insist on its being rung seven times a day.

A little girl in the township of Sarnia has died in consequence of hurts received by a simple fall while running along the road.

The meeting of the Guelph Cricket Club that was to have been held at the Court House Hotel, this evening, will be held at the Castle Garden Saloon, at 7:30 p. m.

A young man, son of an Alderman of Kingston, was shot in a house of evil repute in that city on Saturday night last, and it is doubtful if he will recover.

There is a fearful mortality in Montreal at present. Last week the total number of interments was one hundred and fifty-three, of which number one hundred and thirty-two were children.

There has been trouble about the billings of Volunteers up at Sarnia, some of the hotel keepers refusing to board them for 40c. per day, and the Quartermaster was obliged to make application to private parties to take them in.

BURNED.—An old woman named Mrs. Lewis, residing in Guelph township, a short distance from town, was severely burnt on Sunday last in consequence of the curtain of her "shaker" catching fire from some brands she was carrying from a neighbor's house. The flame communicated to the remainder of her clothing, and before it was extinguished she was so severely burnt that Dr. McGuire, who is attending her, thinks she will not recover.

RAILWAY RECEIPTS.—Grand Trunk receipts are gradually augmenting. For the week ending June 19th they amounted to \$27,349 stg., as against \$25,210 of the corresponding week of the previous year. The Great Western for the same week earned \$12,254, being an increase of \$1,016 over the corresponding week of 1867. The earnings of the Grand Trunk per mile for the period named were at the rate of a fraction under \$20 stg.; that of the Great Western a fraction under \$40 stg. per mile.

MASONIC GRAND LODGE.—The Grand Lodge of Canada will hold its thirteenth annual communication in London on tomorrow (Wednesday). This will be one of the most important sittings the Grand Lodge of Canada has ever held since it became independent of the Grand Lodge of England. An union of all the Lodges in the Dominion is contemplated. The delegates from Guelph are, P.W.M. Bro. J. M. Dunn; W.M. Bro. Charles Sharpe, and Bro. Chase, J.W. Amongst the delegates from other Lodges is Sir John A. Macdonald. The delegates will be entertained at a dinner: the Revere House before leaving.

INDUSTRIAL MUSEUM.—Mr. Buckland, Secretary of the Bureau of Agriculture for this Province, has issued a circular to Agricultural Societies reminding them of the purport of a circular issued early in the year by the Hon. the Commissioner of Agriculture, having among other matters reference to the formation of an industrial museum in the Parliament Buildings at Toronto. He says: "As the season is approaching when grains and other agricultural productions will reach maturity, I trust that the Agricultural Societies of the Province will lend all the practical aid in their power towards the realization of so interesting and important an object. It must be obvious on the least reflection that the successful carrying out of such a project must, in a great degree, depend on the cordial co-operation of our farmers and mechanics, who have been earnestly requested to furnish characteristic specimens of their various productions. I therefore trust that, before the termination of the present year, the department will be put in possession of such specimens of our fields, gardens, and workshops as will indicate in a creditable manner industrial and social progress. I may just remind our agricultural friends that grain in the straw, whenever practicable, is very desirable."

Geo. Sides, of Mono, received a dangerous wound in the thigh a few days ago from the accidental discharge of a gun in the hands of another person.

DEATH FROM SUNSTROKE.—A teamster named John Scott, in the employ of Messrs. Shedd, Grand Trunk Railroad carting agents, London, Ont., on Saturday afternoon last, fell down from sunstroke, and died in about an hour afterwards. He was a heavy built, strong man; but over exertion, under the powerful rays of a meridian sun, completely prostrated him.

Town Council.

The Council met on Monday night. Present, Mr. Mitchell, Deputy Reeve, in the chair, Dr. Herod, Messrs. Heffernan, Massie, Day, McCarrie, Howard, Buckland, Sayers, Chadwick, Mays, Harvey and Melvin. The Clerk read the minutes.

The Clerk presented some communications from Mr. Silsby and others regarding the fire engine, which on motion were referred to Fire and Water Committee. Only one of them was read. It had reference to the tube which burst a short time ago, and it having been sent to the manufacturers they gave it as their opinion that it had been defective from the first, and escaped their observation.

The Clerk stated that the County rate, \$4,567.50 would require an assessment of 41 mills on the \$.

He had also received notice from the office of the Receiver General that \$525 from the Municipalities Fund was payable to the Town.

An account from A. Thomson & Co., for blankets, amounting to \$53 was presented and referred.

Mr. Sayers read a petition from Timothy Sheedy praying for remission of dog-tax which he was unable to pay. Referred to Relief Committee. Mr. Sayers read a petition from Robert Oliver praying for relief, which was referred to the same committee. Mr. Melvin read a petition from David Allan asking leave to make excavations in a certain part of the road at his mill in order to lay down water pipes.

Mr. Buckland read a petition from Henry Hatch praying the Council to vote a sum of money equivalent to half the cost of draining a certain spot on the Edinburgh Road, to pay the other half. Both referred to Road and Bridge Committee.

Mr. Buckland read a petition from the butchers and others praying that liberty be granted the former to slaughter cattle within the limits of the Corporation, the slaughter house to be under the inspection of the Board of Health and Town Inspector. Referred to Board of Health.

The subject of a water supply again came up. Mr. Harvey said he thought there was no use building a platform at the Eramosa Bridge, as when the river was very low this would not facilitate very much the procuring of water; but he thought it would be advisable to sink a tank on the hill about Mills & Melvin's foundry.

Dr. Herod objected to these verbal reports of the Fire and Water Committee to which they were so frequently treating the Council, and took the Chairman very severely to task for not bringing in a written report.

Mr. Harvey said that he had intended to bring in a written report on the subject, and had merely mentioned it now in order to ascertain what the Council thought of the project.

Some discussion then took place concerning the delay in the sinking of the tanks, Mr. Melvin saying that he expected they would have been sunk before now; and Mr. Harvey replying that the work was being pushed forward as rapidly as possible. Another discussion ensued on the subject of whose duty it was to see that a drain was opened to allow the waste water to run away from the pump at the Engine House. The honor of attending to so important a matter was accorded in turn to the Board of Health, to the Fire and Water, and to the Road and Bridge Committee, each of which respectively declined; until it was moved by Dr. Herod, seconded by Mr. Chadwick, and carried, that the Road and Bridge Committee is instructed to make a drain to carry the waste water from the pump at the Engine House.

Mr. Melvin called attention to a sand pit at the Grand Trunk Freight Station, which was encroaching on the road. He thought that the Inspector should see that it was dug no further in the direction of the road.

The Council adjourned.

Street Watering.

TO THE EDITOR OF THE MERCURY.

SIR,—I observed in the Advertiser yesterday some flippant remarks about the way in which I performed my contract for watering the streets. In answer to these, I would say that if the editor of the Advertiser will undertake to do the job as well, and at the figure I do it for, he shall have the use of my team and wagon free, and I will give him liberty to draw the money. I may state that at first until I got things in proper working order, there may have been some slight cause of complaint, but since then the work has been done as well as the pay would allow, especially when we take into consideration the long spell of hot, dry weather.

Yours truly,

JAMES HUMPHREY.

Guelph, July 7th, 1868.

MUNICIPAL TRIBUTE TO GENERAL NAPIER.

At a meeting of the Court of Common Council of the city of London, at which the Lord Mayor presided, Alderman Cotton proposed the following motion:—"That the freedom of this city, with a sword of the value of two hundred guineas, be presented to Major General Sir Robert Napier, G. C. B., G. C. S. I., commander of the forces in Bombay, in admiration of the fortitude, skill, science, energy and promptitude displayed by him in bringing the Abyssinian war to so successful a close."

The Alderman, in proposing the motion, adverted to the very satisfactory manner in which Sir Robert Napier had conducted the important military operation that was entrusted to him, and said that when he commenced the campaign he was met with nothing but gloomy forebodings and anticipations of evil, and he was told that his army would suffer more from miasma and sickness than from the attacks of the enemy, but notwithstanding these gloomy forebodings he had brought the campaign to the most satisfactory and glorious conclusion. Mr. J. Symonds, chairman of the City Lands Committee, and who is the courtesy the first commoner in the court, seconded the motion, which was carried unanimously.

The library of the once famous John C. Calhoun, of South Carolina, was recently sold to pay a debt of a few hundred dollars, which his impoverished widow and daughter had no other means of paying.

The proceeds of the sale of one of the choicest private collections of books in the South were pitiful indeed, whole shelves of books being knocked down for from four to six dollars the shelf. Other personal property had then to be sold to satisfy the claim.

Railway Meeting at Mount Forest.

From our Correspondent.

A public meeting of the inhabitants of this village was called by requisition on Saturday evening, 4th inst., to take into consideration the submitting of a by-law granting \$20,000 to aid of the Toronto, Grey and Bruce Railway. Our worthy Reeve, Thos. Swan, Esq., occupied the chair. The meeting was a full one of the ratepayers, and the several claims of the rival railway schemes were impartially and ably discussed by the several gentlemen who addressed the meeting. Mr. Laidlaw and Mr. Alderman Dickey being in town, were requested to attend the meeting. Mr. Laidlaw went over the whole ground, from first to last, of the railroad agitation for this section, and with good effect, proving his case most fully—showing that his scheme is the only practicable one for this region of the Province. Alderman Dickey then briefly addressed the meeting, which was moved by Alex. Reddick, seconded by D. Youmans, that this meeting desire the Council to submit a by-law for the sum of \$20,000 to aid in the construction of the Toronto, Grey and Bruce Railway—Carried unanimously.

The deputation in the interests of the Wellington, Grey and Bruce Railway also held a public meeting in Arthur township on the same day, and were again successful in convincing the ratepayers that their scheme is practical, and that they will yet convert this whole region of country to their views on railroads. Your correspondent has somewhat got into disgrace, he being suspected of writing those reports of the railway meetings in Durham, Egremont, etc.—Now, for the sake of fair play, I must say that those reports are too highly colored to do good, as intended. I have attended some of those meetings, and must plainly state the whole truth, and that is that the Narrow Gauge Railway is most popular throughout this whole section of country and that your worthy reporter of those meetings is certainly drawing the long bow relative to the meetings in Durham, Egremont and Normanby. But it is fair to state that in the matter of detail there are differences of opinion, but none hearty ever as bearing on the general and hearty support which the Toronto, Grey and Bruce Railway Company will receive in the above named municipalities.

THE VOLUNTEERS.

Capt. Pearce, with the Mount Forest Rifles, arrived in town on Thursday morning last at 3 o'clock, and the Company paraded in Palmer's Hall previous to dismissal, and we were all much pleased to hear the good report Capt. Pearce made of their conduct whilst on active service.

A large number of the inhabitants met them out of town with a fife and drum band, and escorted them into the town. About daylight all separated for their respective homes, giving three cheers for the Queen and three for Capt. Pearce and officers. The Company is ready at a moment's notice for any duty in the Fenian line of business. Hundreds of others are willing to follow in their wake.

Mount Forest, July 6, 1868.

REVIEW OF THE BRITISH CORN TRADE.

—The weather having continued remarkably fine, hay-making has commenced in many districts, with every prospect that it will be well got in; but the crop thus far has been bad. The heat has also been too forcing on many light and high lands for the wheat, some Talavera being in bloom little more than two feet high, with the straw dying off too fast. Many farmers are, indeed, quite apprehensive of an unusually short gathering. Much of the spring corn also wants rain badly; and this brilliant summer, which has brought so much consternation in the trade, has been exaggerated in its prospective benefits, so that we have to fall back upon the old rule—"Everything is best in its season." Though all the world rejoiced in February and May, both those months were too dry and forcing. We may yet find more eccentricities in those to come, that may very materially abate our once sanguine expectations; but if the blooming time prove genial, we yet expect a full crop on the best lands; but some of the clays are too much baked in the sun. The symptoms of reaction which were appearing last week have been very marked in some places, while the movement has been slow in others, the different feeling in the various markets being regulated by the appearance of the growing crops and the greater or less exhaustion of stocks. Again, the weekly sales have sunk and reached the lowest point, showing that neither the late high prices nor the more recent panic have brought forward any increase of home produce. We may very safely conclude there is little or none to come, and although an early harvest dispenses with the more immediate arrival of perhaps over one million quarters, if we only gather it will not be the less needed afterwards. Should the harvest be rainy, foreign stores will be like gold dust to millers, though they have lately kept their hands as free almost as from infection. Many places in France have given up the expectation of more than an ordinary year. There the rye suffered much in the winter, but some will be fit to cut in a fortnight. The barley and oats partially suffer now, and it has been too hot in places for the wheat. The decline in the trade here has generally ceased, and such sweeping rains have fallen in Hungary that markets there have recently hardened.—Mark Lane Express, June 15th.

A REMARKABLE CLAIM.—Lady Amelia Matilda Tador Radcliffe, is prosecuting a claim to the Derwentwater estates in the North of England, which are very extensive and sit present and for one hundred and fifty years held by the Crown. The lady has satisfied several gentlemen living near her residence in Northumberland, that she is the rightful claimant. At a meeting convened by her at Blaydon, a short time since, she submitted plans, wills, documents, letters, registers of births and marriages, certificates, of deaths &c., relating to the Derwentwater family. Her grandfather's will names 126 heirs, of which all but one are in her possession. She has also a number of curious books, written on vellum, together with the helmet and sword of her father. Although living in obscurity, it is clearly shown that she is entitled to be called Lady Radcliffe. A Bill of Rights is to be introduced into the House of Lords, and no doubt is entertained that there will be a speedy restitution of the immense estates. Petitions are in circulation to be presented to both Houses of Parliament, and it seems that no time will be lost in taking the matter up.

MACDONNELL STREET
WEDNESDAY, JULY 7, 1868.

Scotian Petition.
In reply to the petition of the Nova Scotia House of Assembly received by the Governor from the Colonial Secretary, which repeats some facts of which we were previously made aware by the Cable. The Duke of Devon had an interview with the Scotian delegates; he laid before the Queen, who received with much satisfaction the assurances contained in the memorial of the Nova Scotians to the Queen and Government, at the same time regretted that the Imperial Parliament in its consideration of the petition should be prevented by the cause of disaffection from the faithful subjects. The Duke engaged the warmest confidence of Her Majesty's confidants, who are most anxious to see the contentment of a people entitled to consideration as British subjects, and they hope that, if the grounds should prove to be in part removable, they may take a different subject. The causes of disaffection are reducible to two: first, the want of proper consultation, and second, that the judicial to some of its complaints the Imperial Government is satisfied, that the attention of the Government to the points relative to taxation, fisheries, the regulation of the coast, and the modification that in this portion of the Memorial receive rather a heavy emphasis, by being put in of the occasions on which the subject was first spoken in the Legislature in 1854, and up in 1857, in 1861, and in her efforts to obtain the attention of the Imperial Government. The objection to the appeal was made to the Governor by saying that the appeal had not been considered in the same manner as the other cases. Nothing occurred when the two united in 1839, a pro-Canadian Assembly to the country having a large majority. The debates on the subject in Canada, New Brunswick, and Nova Scotia were also voted in the petition of the Nova Scotia House of Assembly was, that the petition was not made subject to legislation by the several Governments. But the Colonial Secretary has issued a proclamation granting "unconditionally, and without reservation, to all and to every person who directly or indirectly participated in the late insurrection or rebellion, excepting such person or persons as may be under presentment or indictment in any Court of the United States having competent jurisdiction upon a charge of treason or other felony, a full pardon and amnesty for the offence of treason against the United States, or of adhering to their enemies during the late civil war, with restoration of all rights of property, except as to slaves, and except, also, as to any property of which any person may have been legally divested under the laws of the United States."

AMNESTY PROCLAMATION.—On the 4th of July President Johnson issued a proclamation granting "unconditionally, and without reservation, to all and to every person who directly or indirectly participated in the late insurrection or rebellion, excepting such person or persons as may be under presentment or indictment in any Court of the United States having competent jurisdiction upon a charge of treason or other felony, a full pardon and amnesty for the offence of treason against the United States, or of adhering to their enemies during the late civil war, with restoration of all rights of property, except as to slaves, and except, also, as to any property of which any person may have been legally divested under the laws of the United States."

BANK OF COMMERCE.—The first annual meeting of this bank took place in Toronto on Monday, and we are glad to see from the financial statement that it is in a most flourishing condition. The net available profits for the period ending 30th June, embracing 13½ months—the bank having commenced business on the 15th May 1867—are \$97,783. From this has been taken dividend No. 1 paid Jan'y 1st 1868, reckoned at the rate of 8 per cent. per annum from 15th May 1867, \$25,129, and dividend No. 2 of 4 per cent. paid July, \$32,291. Transferred to "rest" account \$40,000, leaving a balance at credit of profit and loss of \$362. It will thus be observed that a dividend at the rate of 8 per cent per annum has been paid from the date on which the bank opened. The preliminary expenses have been liquidated; and after making all the usual deductions the surplus profits amount to \$40,362. This certainly shows that the bank has been doing a profitable business, and that the management has been all that could be desired. The Branches have been recently inspected, and the entire business was found to be in a safe and most healthy condition. The following were appointed Directors for the year:—Hon. Wm. McMaster, Messrs. H. S. Howland, Wm. Alexander, Wm. Elliot, T. Sutherland Stayer, Jas. Austin and John Taylor. At a meeting of the Board of Directors, the Hon. Wm. McMaster was elected President and Mr.

The news from Ottawa is not of a very important character. Sir John A. Macdonald leaves to-day for the west. It is said the object of his western tour is to attend the meeting of the Grand Lodge of Free Masons at London, but probably he will give due attention to the arrangement of the Lieutenant-Governorship, so as to make matters once more pleasant between his handsman, John Sandfield MacDonald, and the unfortunate Howland, who, we fear, will after all be victimized and utterly lose the prospective and promised Governorship. Hon. Mr. McDougall is also to visit Toronto during the week, his object being, of course, to assist in smoothing matters over.

Mr. Robert Deniston, barrister, it is said to be appointed County Judge for the County of Peterboro', to fill the vacancy caused by the death of Judge Bonalder.

Every report that has come from Ottawa lately, no matter from what source, is a reiteration, that though the Northern Route of the Intercolonial has not yet been finally and formally adopted, yet it is no longer a matter of doubt that that is the destined route to be recommended by the Canadian Cabinet to the Imperial authorities. The decision is to be made in time for Mr. Rose to make all necessary arrangements with reference thereto before his return from England.

The Handel Festival in London.
The triennial Handel Festival occurred in London on the 15th, 17th, and 18th June in the Crystal Palace. It is estimated that the number of people present at the different performances was 88,500. There were 500 instrumentalists, and 3000 singers. The railroads to the Crystal Palace ran special trains every ten minutes on the festival days and all the trains were filled. Special trains were also run from all parts of England, and thousands of people availed themselves of the opportunity to visit the metropolis. A correspondence speaking of the festival says:—If you can picture in your mind the airy space of the Palace, with the vast audience in summer costume crowding every inch of room, and the four thousand players and singers seated in the choir, will admit that even as a spectacle the Handel Festival was well worth attending. Indeed, anything more beautiful than the masses of ladies in their bright dresses and gay bonnets I have seldom witnessed. But when music added its magic to the scene the effect was absolutely overwhelming. Those gigantic choruses in which the genius of Handel was best displayed shook the audience like whirlwinds. Think of the tremendous volume of sound from a grand organ, five hundred other instruments and three thousand five hundred voices! It was musical thunder—there is no other phrase for it. Yet, under the guidance of Mr. Costa, who led throughout the festival, the mammoth chorus was as tractable as a single voice and obeyed as readily every wave of the baton.

On Monday the great Christian oratorio, "The Messiah," was performed; on Friday, the great Jewish oratorio, "Israel in Egypt," and on Wednesday an intervening melange selected from seven other works of Handel. Excellent as were the solo singers, it was impossible for any of them to compete with the choruses in interest and popularity. Now thundering like the voice of many waters; now murmuring like soft zephyrs; now full of the clash and clang of battle; now imitating the song of nightingales; now realizing a storm of hailstone; now rising to sublimity in the almost divine hymns of praise, the choruses were so grand, so precisely rendered and so thrilling in their effects as to overawe the multitudinous audience and make applause seem an insult. From first to last there is not a word of fault to find with orchestra or singers. Indeed it is impossible to imagine anything more sublime this side of paradise, where, according to the popular belief, all the angels are harpists and choristers, and are perpetually singing the glories of the Creator.

AMNESTY PROCLAMATION.—On the 4th of July President Johnson issued a proclamation granting "unconditionally, and without reservation, to all and to every person who directly or indirectly participated in the late insurrection or rebellion, excepting such person or persons as may be under presentment or indictment in any Court of the United States having competent jurisdiction upon a charge of treason or other felony, a full pardon and amnesty for the offence of treason against the United States, or of adhering to their enemies during the late civil war, with restoration of all rights of property, except as to slaves, and except, also, as to any property of which any person may have been legally divested under the laws of the United States."

Cow Strayed or Stolen.
STRAYED on Friday 20th June a red cow with white spots, four years old, was at the point of calving when she left. She has a part of the hair of her tail cut off square. Was in good condition. Any one returning her to the owner, or giving such information as will lead to her recovery will be rewarded.
ALLAN SIMPSON,
231 W. Blacksmith.
Guelph, July 2nd 1868. d 1 w.

TENDERS WANTED.

STATIONERY
—AND—
FANCY GOODS.
At W. J. McCURRY'S,
Office Law Stationery, and Fancy Goods Store, opposite the English Hotel, Guelph, Wyndham Street, GUELPH,
Will be found a good assortment of Standard Theological Works, Biographies, Travels, Works on Arts and Sciences, Architecture, Engraving and Agriculture, Works on the Horse, Cattle, Sheep and Dog. A large stock of the SCHOOL BOOKS in general use always on hand, and sold cheap.—The Trade supplied at Publishers' Prices.

In Classical Works, the stock will be found equal to any in Ontario. A large stock of Italian and other Violin Strings, Bow, Accordeons and Concertinas.

English and American ballpaper, bordering and decorations, which for variety, low prices and beauty of pattern cannot be excelled in Canada. As the above stock is imported direct from the manufacturing houses of Great Britain, France and the United States, it is guaranteed to be of the best quality.

Bookbinding and Paper Ruling done on the premises at very moderate rates.

RIFLE ASSOCIATION
RESIDENTS of this County, Volunteers or Civilian, desirous to join the **GUELPH Rifle Association**, for the purpose of becoming members of the Dominion and Provincial Association, are requested to send in their names to the undersigned, within two weeks, enclosing for the Dominion and 50c. for the Provincial Association.

JAS. MASSIE & CO.
Guelph, July 7th, 1868. daw-1f

CO-OPERATION
Number of Co-Operative Stores in England 599
Number of Members 148,596
SHARE CAPITAL \$4,370,230
Paid for Goods in one year 15,316,440
Received for Goods in one year 16,969,185
Profit realized in one year 1,311,130
On a capital of about four millions of dollars they do a business of about sixteen millions of dollars, and are thus enabled to sell at a profit of 8 per cent. instead of the usual profit of 25 per cent., and their customers save \$2,786,150 annually, besides receiving a share of the profits.
The subscribers have conducted their business on the same principles, with nearly the same results. Their business has rapidly increased, which has enabled them to turn over their capital four times a year, and sell at one-fourth of the profits of merchants, who only turn over their capital once a year.
Besides Paying a DIVIDEND to their Customers.
In proportion as the business increases, prices will either be reduced or larger dividends paid.

Women's & Children's Boots
Just arrived 7 Cases Women's and Children's Boots, bought at Auction at a little over half-price. We are selling Children's Leather Boots, with copper-toes at 50c., Ladies' Pruncella from 50c., Ladies' Leather Gaiters and Balmorals at 90c.
