

THIS SHOULD BE NOTICED.—Parties purchasing goods always wish to buy them at the cheapest rate. Now the nearer you can get to the Manufacturer, the cheaper are the goods. Mr. Horsman, the popular Hardware merchant of this town, last summer visited the manufacturing districts of Europe, and purchased very largely from the manufacturers there. He has also made special arrangements with manufacturers in the United States and Canada to have their goods at the lowest Cash prices. In consequence of the extraordinary bargains Mr. Horsman offers, his sales this season are largely increased; in fact, there has been a perfect rush at his mammoth establishment during the last two months. Remember, by purchasing Hardware from John Horsman the profits of the wholesale dealer, or middleman, are saved to the customers. Stoves and Tinware have been added this season, and on account of the very low prices at which these goods are offered by Mr. Horsman this branch of the business has exceeded his most sanguine expectations.

Essex Election—McGregor Re-Elected.

Jeremiah O'Connor's protest against the legality of Mr. McGregor's candidature does not seem to have had much effect in influencing the election for Essex, which came off on Thursday. Although Mr. O'Connor was thrust upon the Conservatives against the will of the substantial and influential members of the party, and at the outset of the contest they displayed a disposition to stand aloof from the struggle, ultimately they were pretty generally whipped into line and worked hard for him. Still there was comparatively little excitement over the event, the Conservatives evidently feeling ashamed of their man and the Reformers deeming Mr. McGregor's return perfectly safe without the customary effort. The vote has been very light from this cause, and also because the ballot is an entirely new idea to a large portion of the electors, who displayed considerable timidity about its use. Notwithstanding, the vote is larger than many anticipated, and the Reform majority of January last is undoubtedly increased. Although the returns are not all in, there is little doubt that the majority for McGregor will be over a thousand.

Dr. Jukes, candidate for the House of Commons in the Conservative interest in Lincoln, is quite ill. The election came off in Digby on Thursday, for the vacant seat in the Commons. The Hon. Minister of Militia was elected by a majority of about three hundred.

A contemporary points out the facts that "New Brunswick excludes Ontario barristers, and Ontario will not permit Maritime lawyers to practice in her courts. In some respects the Provinces are as disunited as before the Confederation. For example, judgment obtained against an Insurance Company in a New Brunswick court, would not be recognized in Ontario, even though that Province might be the headquarters of the Company. This inconvenience should be remedied."

THE LEVINE TRIAL.—Some of the Quebec papers are getting furious over the Levine trial, being no doubt alarmed at the evidence for the prosecution, which threatens to go hard against the accused. The *Nouvel Monde*, one of the most violent and ultra of these journals, "desires to know whether, between a duty of which a sound policy claims a prompt fulfillment, and an act of cowardice unworthy of committal, the latter alternative will be chosen, and calls upon the Hon. Messrs. Fournier, Geoffrion and Letellier, to reply. It predicts that hatred, disunion, and discord will be produced by a conviction, and advises, that if a scaffold is absolutely desired, that it be erected on the boundaries of Ontario and Quebec, as a symbol of mutual affection, when the nature of this act of atrocious and disloyal vengeance, only inspired by hatred of their race and religion, will be better understood."

SOME of the Tory papers which libelled Hon. Geo. Brown, pretend to be very indignant at the delay in the trial of the publishers of the *National*, the original libellers, and insinuate that the plaintiff is afraid to bring the case to trial. Perhaps the following explanation given by Hon. John H. Cameron, at the Brantford trial, will satisfy them.—"The criminal information against the *National* has not yet been decided, but it has been through no fault of the plaintiff. In that case the defendants refuse to appear to the action, and they cannot be compelled to appear until after term in November, so that it cannot be tried till January. If the proprietors of the *National* were so certain of proving their charges, and anxious to shield other papers which had copied their article, they had had the opportunity of grappling with the man they had so seriously slandered. Thus the tend care to keep out of the meshes of the law as long as possible."

PROPORTIONS OF THE HUMAN BODY.—The following proportions are those usually given in works on anatomy and painting, and are generally known, but will bear repetition: The whole human figure should be six times the length of the feet. Whether the form be slender or plump, the rule holds good; and deviation from it is a departure from the highest beauty of proportions. The Greeks made all their statues according to this rule. The face, from the highest point of forehead where the hair begins, to the chin, is one-tenth of the whole structure. The hand, from the wrist to the little finger, is the same. From the top of the chest to the lowest point of the forehead is the seventh. If the face, from the roots of the hair to the chin, be divided into three equal parts, the first division determines the place where the eyebrows meet, and the second the place of the nostrils. The height from the top of the chest to the tip of the nose is the same as the distance from the extremities of the fingers when the arms are extended.

THEY NEVER DIE.—J. H. B., who is afflicted with an extreme lightness of pocket in a financial point of view, pays his bills by writing the following lines—
And other things I call them so,
They hang on pretty well—
Your bootmaker, your tailor too,
Your butcher with his bill—
The lady who does up your shirts;
Your landlord, old but sorry;
Your creditors of every sort—
They never, never die!

YOU KNOW YOU DO!

When "some one's" step comes up the walk,
Your cheeks take on a rosy hue,
And though no other hears his knock,
You hear it well—you know you do!

When "some one" talks about the grain
And bows at pa, yet looks at you,
You see his glance—ah! 'tis plain—
And give them back—you know you do!

And when he talks of other girls,
Of hateful Kate and Jennie, too,
You frown at him your auburn curls,
You jealous thing—you know you do!

You keep your eyes upon the clock,
And wish 'twould jump an hour or two,
So that your pa would cease his talk
And go to bed—you know you do!

And when the folks to bed have gone,
And left "some one" alone with you,
You wish the clock would hold its tongue,
Or you stop it—you know you do!

He blushes deep, and looks afraid
To be thus left alone with you!
But your eyes tell there never was maid
But could be wooed—you know you do!

You peep at "some one" neath your curls,
Until with love you burn him through,
And make him hate all other girls—
In love for you—you know you do!

And when his arm steals round your chair,
You give a smothering scream or two,
As if you didn't want it there,
But oh! you do—you know you do!

You nestle closer up to him,
Your head drops on his shoulder, too;
You tempt him silly thing to speak,
You wicked thing—you know you do!

And when he timidly doth press,
His wish to make a wife of you,
With happy heart you answer "Yes,"
You darling girl—you know you do!

A Remarkable Masonic Incident.

The first Masonic funeral that ever occurred in California took place in 1849, and was performed over a brother found drowned in the Bay of San Francisco. An account of the ceremonies states, that on the body of deceased was found a silver mark of a Mason, upon which were engraved the initials of his name. A further investigation revealed to the beholder the most singular exhibition of Masonic emblems that ever was drawn by the ingenuity of man upon the human skin. There is nothing in the history of the traditions of Freemasonry equal to it. Beautifully dotted on the left arm, in red and blue ink, which time could not efface, appeared all the emblems of the entire apprenticeship. There were the Holy Bible, square and compass, the twenty-four inch gauge and common gavel. There was also the Masonic Pavement, representing the ground floor of King Solomon's Temple, the identical vessel which surrounds it, and the blazing star in the centre. On his right arm, and artistically executed in the same indelible liquid, were the emblems pertaining to the fellowcraft's degree, viz: the square, the level and the plumb. There were also the five columns representing the five orders of architecture—the Tuscan, Doric, Ionic, Corinthian and Composite.

On removing his garments from his body the trowel presented itself, with all the other tools of operative Masonry. Over his heart was the pot of incense. On the other parts of his body were the bee-hive, the book of constitutions guarded by the Tyler's sword, pointing to a naked heart; the All-Seeing Eye, the anchor and ark, the hour-glass, the scythe, the forty-seventh problem of Euclid, the sun, moon, stars and comets; the three steps which are emblematical of youth, manhood and age. Admirably executed was the weeping virgin, reclining on a broken column, upon which lay the book of constitutions. In her right hand she held the pot of incense, the Masonic emblem of a pure heart, and in her left hand a sprig of acacia, the emblem of the immortality of the soul. Immediately beneath her stood a winged Time, with his scythe by his side, which cuts the brittle thread of life, and the hour-glass at his feet, which is ever reminding us that our lives are withering away. The withered and attenuated figure of the Destroyer was placed amid the long and flowing ringlets of the disconsolate mourner. Thus were striking emblems of mortality and immortality blended in one pictorial representation. It was a spectacle such as Masons never saw before, and in all probability such as the fraternity will never witness again. The brother's name was never known.—*Phila. Age.*

Wonders of a Hen's Egg.

The following interesting observations on the changes that occur from hour to hour during the incubation of the hen's egg are from Sturm's "Reflections":

"The hen has scarcely sat on her eggs twelve hours before some of the lineaments of the head and body of the chicken appear. The heart may be seen to beat at the end of the second day; it has at that time somewhat the form of a horseshoe, but no blood yet appears. At the end of two days two vessels of blood are to be distinguished, the pulsation of which is visible; one of these is the left ventricle, and the other the root of the great artery. At the fiftieth hour one auricle of the heart appears, resembling a nose folded down upon itself. The beating of the heart is first observed in the auricle, and afterwards in the ventricle. At the end of seventy hours the wings are distinguishable, and on the head two bubbles are seen for the brain, one for the bill, and two for the hind and fore part of the head. Toward the end of the fourth day the two auricles already visible draw nearer to the heart than before. The liver appears towards the fifth day. At the end of seven hours more the lungs and stomach become visible; and four hours afterwards the intestines and kidneys, and the upper jaw. At the one hundred and forty-fourth hour two ventricles are visible, and two drops of blood, instead of a single one which was seen before. The seventh day, the brain begins to have some consistency. At the one hundred and sixtieth hour of incubation the bill opens; and the flesh appears in the breast. In four hours more the breast bone is seen. In six hours after this the ribs appear, forming from the back, and the bill is quite visible, as well as the gall-bladder. The bill becomes green at the end of two hundred and thirty-six hours, and if the chicken be taken out of its covering, it evidently moves itself. At the two hundred and sixty-fourth hour the eyes appear. At the two hundred and eighty-eighth the ribs are perfect. At the three hundred and thirty-first the spleen draws near the stomach, and the lungs to the chest. At the end of three hundred and fifty-five hours the bill frequently opens and shuts, and at the end of the eighteenth day the first cry of the chicken is heard. It afterward gets more strength and grows continually, till at length it is enabled to set itself free from its confinement."

It is said that at three years old we love our mothers; at six our fathers; at ten holidays; at sixteen dress; at twenty our sweethearts; at twenty-five our wives; at forty our children, and at sixty ourselves.

Remember the Store—THE GOLDEN LION—where the once wonderful John Hogg was, and where the now wonderful J. D. WILLIAMSON is. Although unprincipled men have been trying to impose on the people that the Lion has been moved up street, the Lion is still in the old spot, next door to Mr. John Horsman's, Lower Wyndham street. Where the Lion is, there the Bargains are.

Guelph, Oct 10 1874.

Longevity in Canada.
 Ontario, Quebec, Nova Scotia and New Brunswick had a population in 1871 of 8,486,900. There were 141 upwards of 100 years of age; 1389 under 100 and above 90; 13,000 above 80; 51,422 under 80 and above 70; 112,788 under 70 and above 60; 181,818 under 60 and above 50. In the same year there had only been 47,314 deaths, while the births amounted to 117,561. These facts testify to the healthiness of the climate, although for three or four months there are considerable extremes; yet this is only a small matter compared with the foggy atmosphere and rainy seasons of the British Islands.

MARKING PENS.—A novelty has been introduced in this line in the shape of a glass pen which will not corrode or wear or spatter, and the ink flows freely of the point. This pen and a bottle of Payson's Indelible Ink should be in the possession of every house-keeper.

It is reported that Mr. F. J. Dickens, the son of the great novelist, Charles Dickens, will take up his permanent residence in Ottawa.

BRANFORD.—Epps's Cocoa.—GRATEFUL AND COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills.—*Civil Service Gazette.* Made simply with boiling water or milk. Each packet is labelled—“James Epps & Co., Homeopathic Chemists, London.” 1/6-9m

Special Notices.

THE GREAT SUPERIORITY OF DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATE AND GELATIN. consists in its being purely physiological in its action in restoring all forms of debility by supplying the waste of tissues resulting from mental and muscular exertion, and thus preventing nervous prostration and general debility. For building up constitutions of low vitality from serofulous, or consumptive diseases, or impaired by dissipation and bad habits, it is unequalled, as it immediately imparts energy to the digestive apparatus, and creates healthy blood, toning and vitalizing all the organs of the body in the same manner as our daily food. Phosphates are the only compounds of Phosphorus assimilated by the system, and are Nature's agents for maintaining the vital powers.

THE GREAT ENGLISH REMEDY.

DR. WILLIAM'S PINK PILLS FOR PALE PEOPLE.

Before Taking After Taking

Specific Medicine

Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcoholic spirits; but the Specific Medicine is more especially recommended as an unfailing cure for seminal weakness, spermatorrhoea, Impotency, and all diseases that follow as a consequence of Self Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other Diseases that lead to insanity or consumption, and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over indulgence.

The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.

The Specific Medicine sold by all Druggists at 21 per package, or six packages for \$1, or will be sent by mail on receipt of the money, by addressing

PROTECT OUR BUILDINGS

Which may be done at one-fourth the usual Expense, by Using
Glines' Patent
SLATE ROOFING PAINT!

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slate may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slate, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof

against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and never cracks nor scales. For Farms it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheeting Felt can be made water-tight at a small expense. The Slate Paint is

EXTREMELY CHEAP!

Two gallons will cover over 100 square feet of shingle roof, or over 400 of tin or iron. No Tar is Used in this Composition, therefore, it does not effect the water from the roof, if turned off from the eaves before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and STOPS THE LEAKS. The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate colour, and is, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least one hour after applying.

ROOFS EXAMINED. ESTIMATES GIVEN.

And when required will be Thoroughly Repaired.
 Orders Respectfully Solicited.
