

# The Issue of This Campaign is R. B. Bennett, the Alberta Elevator Trust

R. B. Bennett is the issue in this campaign. His presence in this fight, leading on in the battle against the Sifton government has completely altered conditions. R. B. Bennett is the elevator monopoly in this province. He does not deny it. He admits it on the platform. Here we have the elevator monopoly in the form of R. B. Bennett coming from Ottawa to do his utmost to defeat the government which has passed legislation breaking that gigantic elevator combine. It is the fight of Bennett, the elevator monopoly against the government that in the interests of the farmer is breaking the elevator monopoly.

Is there need of breaking that elevator monopoly? The Albertan has been collecting market returns from the different towns throughout the province. Its figures are taken from its weekly exchanges. Here are some of the prices that are given at the elevators for barley and oats. Vulcan Grain Report—Wheat 47c 66c; Oats 15c 20c; Barley 28c 30c. Camrose Markets—Wheat 46c 64c; Oats 15c 20c; Barley 23c 30c; Flax 50c 80c. Ponoka Markets—Wheat 45c 65c; Oats 15c 20c; Barley 27c 30c.

Didsbury Markets—Oats 15 1/2 20 1/2; Wheat 61c 62c; Barley 28c; Rye 40c. This is a very good sample of prices throughout the province. The prices in the city of Seattle, which is not so very far away, according to the excellent reports in The Post-Intelligencer, for oats is 47 cents a bushel. It reports that oats are 53 cents a bushel in eastern Washington. The price of wheat is 84c 96 1/2c a bushel. Barley is 70 cents and Rye 66 cents. Oats are selling on the street markets in Great Falls for 50 cents a bushel. Flax is \$1.23 3/4 in Minneapolis.

When R. B. Bennett, who is getting a strange hold upon the grain business in this province, comes here to grapple with the government which has taken its life in its hands to defeat the elevator monopoly in Alberta, the electors should know pretty well what is in the best interest of the province. It is a fight to a finish between the elevator monopoly, the grain monopoly and other monopolies which are at the throat of this province and the government which, through the Elevator act, the Farm Machinery act and other acts have shown its determination to help the farmers against these corporation attacks.

### IN THIS AGE WE DO BUSINESS ON CREDIT

This is a province of credit. Debt, public or private, does not frighten people. We all do business upon borrowed capital. That is necessary if we are to take advantage of the many golden opportunities presenting themselves. The man who is not in debt is either retired from business or an unprogressive man who is too dull to do business. Every person who is doing his best for himself and for his country is in debt. It is no disgrace. Of course every person is trying to clear himself, but the general view of business is changing. Debt is not the terror that it once was. Every nation is in debt, every province in Canada is in debt. The younger and more vigorous of the provinces are very much in debt.

### SO THE PRINCIPLE OF A PROVINCIAL DEBT IS ONE THAT NEED NOT BE DISCUSSED

If a new province is to expand, it must spend money upon development. There is only one satisfactory method of getting money for large enterprises that need immediate attention and that is by borrowing it. The man who waits to save enough money out of his pay check to launch out in big business is not likely to get very far in building up a big business. So that the mere fact that the province is in debt some millions of dollars is in itself no proof that the government has been reckless or extravagant.

### THE PROVINCE OF ALBERTA HAS A DEBT OF \$14,166,000

The opposition object to its dimensions. They say that it really means \$40 a head, which in four times that of the province of Ontario. But Alberta has a population of 500,000, and it requires but an elementary knowledge of arithmetic to find out that the per capita debt is \$28. Besides, the province of Alberta is quite as large as Ontario, and has less than one-fourth of the population. It takes as much money to build a bridge across a river in a province with a population of 500,000 as in a province with ten times as many people.

### THE DEBT OF THE CITY OF CALGARY IS ABOUT \$12,000,000

Estimating the city with a population of 75,000, the per capita debt is \$172 and yet no person says that we, Calgary, are heavily involved in debt. Edmonton has a debt relatively larger than the city of Calgary, yet the taxpayers have authorized bylaws calling for the expenditure of five or six million dollars just as soon as they can borrow the money.

### MONEY BORROWED TO EXTEND TELEPHONES

The electors should satisfy themselves upon two things. Is the expenditure leading to all this borrowing wisely and economically made, and does the province afford all the borrowing? The opposition has never complained of a single item in the expenditure. The members have not raised a voice against one single item in current account or in the public debt. That is a fairly good indication of the wisdom of it. Let us examine the leading items causing the public debt. The telephone system is responsible for \$5,800,000. I do not believe that there is a person in Alberta who regrets that the system is there. It is a profitable investment. It pays its own way, providing for the interest on the investment. That should not be included in the debt because it is no burden upon the people. It is a profitable investment.

Well-Known Politician to Wed Popular Society Girl

An engagement of unusual interest to social circles in Calgary was that one announced this week by Mr. and Mrs. G. M. Lang, the daughter, Miss Kathleen Lang, to Mr. John W. Mitchell, former mayor of this city, and very well known throughout the province.

Miss Lang was one of the prettiest debutantes of 1911, making her bow to society at the Ross ball that season, and she enjoys unusual social popularity.

Mr. Mitchell, who has been a resident of Calgary for twenty-one years, coming here from Cambridge, Ont., has been prominent in public affairs of this city for the past ten years.

IN OUR ADVERTISING WE HAVE FREQUENTLY TOLD YOU WHOSE HOOD'S SARSAPARILLA IS MADE OF AND THE AILMENTS IT HAS BEEN CURING FOR MORE THAN A THIRD OF A CENTURY. BELOW WE GIVE A LETTER TELLING PARTICULARS OF ONE OF THE MANY CURES IT HAS EFFECTED, AND WE LEAVE IT FOR YOU TO SAY HOW MANY AND HOW STRONG ADJECTIVES WE MIGHT TRUTHFULLY USE IN INTRODUCING A LETTER OF THIS CHARACTER.

228 Upper Front St. "Exeter, N. H., May 21, 1912. "Gentlemen—It is with the sincere purpose of benefiting others I write you. Hood's Sarsaparilla did for me. "On getting up one morning I found what seemed to be a mosquito bite on the calf of my right leg. Soon the eruption grew larger and continued day after day, becoming more and more troublesome. The physician advised poulticing and I soon found it had a running sore. It ate steadily into the flesh, discharged freely, and grew worse. Another physician told me to use a rubber bandage, but the sore grew worse until it was not a spot of healthy skin as large as a foot. Pains between my knee and ankle. My leg was now a dreadful sight. There were places large and deep enough to hold an egg. I was told the leg must be amputated. The specialist said he had seen many bad sores, but none equal to mine. "One day a neighbor, Mrs. Bookley, spoke of the value of Hood's Sarsaparilla for scrofula, and I said 'I don't think such a simple thing as Hood's Sarsaparilla would do me any good.' But my husband joined in urging me to try Hood's, and as he bought a bottle, I thought I might as well take it. Before I finished that first bottle, I suffered less pain and could see the edges of the sore beginning to heal. As I kept on with the medicine, new flesh formed, the raw surface diminished, and after using ten bottles the sore was completely healed and my General Health Perfect. "I am able to work every day, weigh 175 pounds, my leg never gives me any trouble, and I use it the same as the other. I believe it my duty to tell what Hood's Sarsaparilla did for me, and I praise it to all my friends." Mrs. Josephine Sargent.

### Hood's Sarsaparilla

Having cured such a tenacious case of scrofulous impurity as that described above—and it has cured many other cases—it is certainly to be relied upon for all troubles caused or promoted by impure or low state of the blood.

### WINICOVER WILL LOOK INTO GRAFT CHARGES IN SCHOOL BOARD

W. S. Sprague, Heating Engineer, Makes Charge of Installation Defective Boiler.

Vanover, B. C., April 4.—Charges of graft in the Vancouver school board are being investigated by a government inquiry. A sworn statement in court of W. S. Sprague, a heating engineer, to the effect that the boiler used for heating the King Edward High school was likely to blow up at any time, wrecked the building and killed several people. J. R. Tracy, the contractor who put in the plant told the inquirer that he knew little of the job, but was willing to make it right. He said that the fact he suppressed, but he decided to come to be given the widest publicity and that a warning would be sent immediately to the school board to warn the students.

### FIRST MOVE IS MADE FOR SOCIAL CENTRE IN CALGARY

(Continued from Page 1.)

If successful, will revolutionize social life throughout the city. A committee appointed by W. D. Lathwell, Public School Inspector, McNaally, Aid. Caracallen, Dr. Stockton, Miss Lathwell, H. Marsh, Rev. Hollingworth, W. White, Rev. Freeman, Principal Richardson, H. Venables, Archdeacon Hogbin, F. Jordan, Canon Montgomery and W. McFarlane, is to wait on the school board immediately and request the co-operation of that body in the program.

A forerunner of the benefits of the new organization, was given at last night's meeting when the wives of the committee had prepared a picnic spread of unusual excellence in the big corridor downstairs. After the meeting in the assembly room, the neighbors from the district gathered here for coffee and cake with music from the school Victrola, and became acquainted with each other under these auspicious conditions. The various departments of the school were inspected, and details of the proposed program discussed informally. Music and songs added to the entertainment feature.

It is a New Idea. Although the idea has developed only recently, a considerable amount of information on social center movements, and the possibilities latent in public schools, had been amassed by the volunteer committee which initiated the movement. Among the most ardent and enthusiastic supporters of the plan were Public School Inspector W. D. Lathwell, Richard Richardson, Hillhurst school, T. B. Kidner, director of the technical school, A. C. Knowlton of the school board, Aid. Caracallen and half a dozen other citizens of the district, of whom W. D. Lathwell appears to be the leading spirit.

Mr. Lathwell acted as chairman of the meeting. The original idea had been to improve the playground, which is in a wretched condition, he said; but since the school board had taken the matter up, they proposed to go into the social center plan more fully and to use the use of schools as a meeting place for fifteen or twenty clubs, organized to meet the special needs of the district in every line of education and innocent amusement.

The idea became popular at once with the audience. When Aid. Caracallen followed with a definite outline of a possible program which he said might be carried out for \$1,000 there was much cheering.

"Let's Have a Little Fun." Inspector McNaally expressed the opinion that the school board should be entertained at the school, which was public property, the night of holding the fund-raising. "I want to have this building chock full of young people who don't care a thing about sport, but who do want an interesting time," he said. "The people who work have a right to something besides the privileges of working and I am glad that Alderman Caracallen has found a response from the various civic bodies."

He thought a trained organizer ought to be secured from New York or Toronto, at very little expense, to put the whole scheme into operation.

Dr. Scott expressed sympathy with the idea, but pointed out the necessity of proper kind of adequate supervision, outside the teaching staffs.

T. B. Kidner specially emphasized the value of the movement to promote a "neighborhood spirit." It is a more difficult task to arouse this in Canadian cities than in the towns and cities of the south of us," he said.

"I think what we could do with only one department—a series of talks by the various heads of departments of the city administration," he urged.

"If this experiment is successful, Calgary will be the first city in western Canada to have accomplished anything along this line," said Inspector McNaally. The movement had developed very slowly in Canada and has been taken up in only a small way recently in Toronto and Vancouver.

With the program thus outlined, the meeting unanimously endorsed the plan and appointed a committee to wait on the school board, as the next step toward its fulfillment.

To incorporate the International Trust company.

To incorporate the Canadian Medical Protective association.

To incorporate the Manitoba Railway company.

### LANGDON FIRE LOSS ABOUT EIGHTY THOUSAND

Third Disastrous Conflagration Within Few Months; Causes Heavy Loss in Business Section, But Protection Is Afforded by Insurance

CALGARY FIRE APPARATUS DOES EFFECTIVE WORK

New Motor Pump Put to Severe Test Over Wretched Roads, and Engines Come Through Ordeal in Excellent Condition; Pump Satisfactory

The estimated loss sustained in the fire which occurred at Langdon on Thursday night is between \$70,000 and \$80,000. Fire Chief Smart, of Calgary, made a thorough investigation yesterday and believes that the loss will more nearly approximate the larger figure. The fire originated in the lot of a livery stable and spread with alarming rapidity.

The fire loss is as follows: Langdon hotel \$30,000; J. D. Baker's livery, \$5,000; T. A. Hicks' bakery, \$4,000; J. MacDougall's business, \$1,000 and a loss to contents of various buildings. The victims of the fire were fully protected by insurance.

This is the third big fire in Langdon within a few months, the last one prior to Thursday being in September, 1912, at which time a considerable portion of the business district was destroyed.

At the fire which occurred at Langdon on Thursday night, the fire apparatus did effective work. The new motor pump put to a severe test over the wretched roads, and the engines came through the ordeal in excellent condition. The pump was satisfactory.

### HOME SECRETARY WILL NOT ALLOW PHYSICIAN TO VISIT PRISONER

Says Miss Emerson Is in a Satisfactory Condition, and Will Be Released April 9

LONDON, April 4.—The British foreign office has refused to grant permission for the home secretary to examine her daughter, Miss Zelle Emerson, in Holloway jail, but informed the American embassy that there was no intention to interfere. Mrs. Emerson today laid siege to the home office. She called there at an early hour and found that Mr. McKenna had left for the house of commons. Later with a letter requesting her release, Mrs. Emerson started for the house of commons, where she sent a similar letter through a member of Mr. McKenna.

Seating herself in the lobby Mrs. Emerson declared she would not leave until she had obtained a definite answer by message or personally from the home secretary.

"Mrs. Emerson's steps were brought to an end, when Mr. McKenna's secretary handed her a letter, which, after acknowledging the receipt of her request, stated: 'I regret that I can not grant your request to have your daughter examined by a physician of your own choosing. The condition of your daughter's health is satisfactory and gives no cause for anxiety.'"

"If your daughter continues to be of good behavior she will be released from prison on April 9."

"Serious and perhaps permanent loss of health will be the result, unless your daughter be immediately released," said Dr. Mansell Moulton, whom Mrs. Emerson visited and outlined her daughter's condition to.

She called there at an early hour and found that Mr. McKenna had left for the house of commons. Later with a letter requesting her release, Mrs. Emerson started for the house of commons, where she sent a similar letter through a member of Mr. McKenna.

Seating herself in the lobby Mrs. Emerson declared she would not leave until she had obtained a definite answer by message or personally from the home secretary.

"Mrs. Emerson's steps were brought to an end, when Mr. McKenna's secretary handed her a letter, which, after acknowledging the receipt of her request, stated: 'I regret that I can not grant your request to have your daughter examined by a physician of your own choosing. The condition of your daughter's health is satisfactory and gives no cause for anxiety.'"

"If your daughter continues to be of good behavior she will be released from prison on April 9."

"Serious and perhaps permanent loss of health will be the result, unless your daughter be immediately released," said Dr. Mansell Moulton, whom Mrs. Emerson visited and outlined her daughter's condition to.

### THE WHOLE TRUTH ABOUT THE FINANCES OF THE PROVINCE

(Continued from Page 1.)

which, in the east, is borne by the municipality. That is inevitable in a new province. However, there is no controversy over this matter and I merely mention it in passing.

OPPOSITION HAS NO CRITICISM TO MAKE

The fact that the opposition has offered no objection to the expenditure—and the Alberta opposition is not slow to object—is proof enough to most people that the expenditure is justified.

REVENUE GREATLY EXCEEDS EXPENDITURE

Now let us discuss the current account. The revenue of the province has always more than met the current expenditure. As the expenditure increases the revenue increases even more rapidly. The premier estimates a surplus for the coming year of nearly \$1,000,000, without any increase in the revenue. Last year there was a surplus of \$148,500 despite the fact that the province did not receive \$175,400 of interest from the banks due the province but tied upon account the A. & G. W. entanglement. The money is unquestionably the revenue of the province, as I shall explain when dealing with that subject. I refer to it now in to show that the revenue is abundant and is increasing more rapidly than the expenditure, and the province can take care of all expenditure.

Much criticism has been made of the high rate of interest that Alberta is paying for part of the loan. Of two loans, one maturing in 1925 and the other in 1928, there is no criticism. The third loan is not so fortunately placed. The government expected to get the A. & G. W. money in the Royal bank, but the private council thought not. The province was forced to get a short term loan to tide over. That was not bad financing. The city had to pay 5-8 for the loan. Last year the city of Calgary had to pay 6 per cent for short term loans. But it was better to borrow at a high rate of interest for a short term than get a poor loan for a term of years. It is unnecessary in writing to reasonable men to more than refer to the crisis in the money market, which has caused the money shortage. Some people would like to have us believe that the province of Alberta is partly responsible. But they do not press it seriously. During the last few weeks the loan of the Prussian government, the loan of the Dominion of New Zealand and many other loans have been held up because of the weakness of the money market. These are the facts regarding the financial condition of the province. The debt is very moderate. It has been caused by legitimate expenditure necessary through the expansion of the province, which expenditure has caused no comment from the opposition and economical. The revenues are abundant and are increasing more rapidly than the expenditure. Under the circumstances the government can safely be endorsed upon its financial record.

NINE CLUBS NOW IN THE INTERMEDIATE LEAGUE

At a meeting of the intermediate league held last night two new clubs, the 123 Rifles and Parkhill clubs, were admitted to the league, thus making nine clubs in the organization. J. G. Cow was in the chair. Several important things were done, among which was the selection of P. Scott, secretary for the season, and the selection of a committee for the drawing up of a schedule, this committee consisting of J. McEwan, G. H. Taylor and P. J. Scott.

SOME CLOSE PENNANT CHASES IN A. A.

There have been three exceedingly close races in the A. A. in its 11 years' history. In 1902, the first season, Indianapolis nosed out Louisville by just two games. In 1907 Columbus finished two games ahead of Toledo. In 1909 Louisville finished ahead of Milwaukee by two and one-half games.

Only Three Horses Succeeded in Finishing the Steeplechase Course

Sir Charles Assheton-Smith, Owner of Jerry M., Wins Second Successive Year

Highbridge, American Favorite, Fell Early in the Disastrous Race

Liverpool, April 4.—The Grand National steeplechase, the Darby of steeplechasing, a handicap of 3,500 sovereigns, run over about four miles and a half at Aintree, was won today by Sir Charles Assheton-Smith's seven year old horse, Covertcoat, by Hackler-Cinnamon, 11st 8lb, which started at 100 to 9. The winner was trained by Gore, and is in the same ownership as last year's winner, Jerry M. Mr. Tyrwhitt Drake's Irish Mail, by King's Messenger-Betsy Shannon, 11st 4lb, starting at 25 to 1, was second, and Mr. Wilmshurst's Carsey, by Kersey-Fiction, 12st, starting at 100 to 9, was third. The field numbered twenty-two, but only three finished, the race being a chapter of accidents, the American horse, Highbridge falling early, and most of the field following suit.

Shirts That Reach the "Top Notch" in Quality and Pattern

When we decided to handle "Lion," Cluett, Peabody and Manhattan Shirts, we did so from the point of their super-excellence. In their realm we are persuaded that none others can outclass these brands, and we've had the "counter brand" of experience which enables us to pose as good judges of shirt supremacy. Whether you want a snowy white pleated shirt, a colored negligee or one for evening dress occasions, you have but to mention it, and we can satisfy you in record time. It's our enormous stock of so many styles that makes us headquarters when you're in the market for shirt value.

A Rich Assemblage of New Tinges in Tie-dom

We've unearthed some superb examples of Tie perfection in our search for the novel, the unique, the appropriate, for our men friends of few or many years. Ties, the finishing touch to dress, probably admit of a greater variety of tastes within the bounds of propriety than any other article of men's apparel. Every fresh shipment that arrives reveals tints and tendencies suggested by nature's spring garb, which must please the most exacting. Arrange to call today and select a collection for your new season's wear.

Our Hats, Men, Are "Inner-Ringers" ---Step Under One

Do you favor a Christy or Derby, or is your preference for the soft styles of hats? It matters little what your persuasion is, we can approach your fancy. New hard felts in the latest low round crowns and curled brims, with smart bow at the back are very evident, interspersed among the more conservative shapes. Fedoras and telescopes in handsome new light shades are very popular, while we are showing the noblest in checkered soft outing styles, which promise to be worn considerably this spring and summer. Drop in and get a new hat that just meets your personality to a nicety. Our prices sound pleasing.

SCHOOLBOYS BUSY PLAYING BASEBALL GAME

Schoolboy baseball fans overran the Normal practice school grounds yesterday afternoon when the Central school team took the practice team into camp by the score of 25 to 19. The game was made interesting by the fact that the practice school champions last year and the game was thought by the youngsters to be a sort of criterion of the strength of the two teams this season.

Little Stories About Baseball

(By W. A. Shelton.) The Dreadful Shakes. "I have always tried to keep from splitting other players' legs," says Kitty Stinson, the sturdy old first baseman, and have been lucky in escaping incidents of this variety. "However, I hit many fellows with the steel, and haven't received the gaff to my great regret, although a first baseman has to step lively if he wants to keep his toes out their original locations." Nevertheless, we took them a few more times with the spikes late afternoon, and, believe me, I thought I was the meanest guy on earth while the spikes lasted.

"It was long, long ago, during the days when I was a catcher with the old Worcester club, and we had an exhibition game slated with a college team from the Massachusetts town. The college kids had a high little team, good and fast, and full of pep, with a right-handed pitcher who had us biting at his high, out-breaking pitches. We took them 3 to 2, but that doesn't really have much to do with the story.

"During the practice before the game I noticed that the second baseman of the college team was limping slightly. I seemed to have a case of charleyhorse, or a turned ankle, and I was mentally commending the boy for his gameness in sticking in the fight when he might just as well have been roosting comfortably on the bench. Besides his limping, this kid was covering a lot of ground, and seemed to have no trouble with his bobbly limb. I watched him awhile; then the game began, and I thought no more of him till the third inning.

"In the third, I hit one safe into center, and seeing what looked like a good chance for a steal, I broke for second. The college boy went way over the base and waited for me as I slid. 'Tn heavy, and I slid hard, but that boy had plenty of time to get his shin out of my way. He didn't. The spikes came off, fell into his leg before I could slacken up, and the next instant the leg came off and shot five or six feet away, while the maimed boy fell heavily upon me.

"Can you imagine the horror of the situation? There I lay, with the mangled youngster across my chest! Out in the field lay the poor fellow's leg, torn off by my murderous spikes; up in the stand the college crowd was shouting a regular babel of bores, and down on the field my fellow-players were making round like madmen, their wits completely gone.

FRIEDMANN GIVES OUT STATEMENT; GAVE TO DEMONSTRATE CURE

Is Paying His Own Expenses, and Talk About Reward of \$1,000,000 Is Buncombe

New York, April 4.—Dr. Friedmann tried last night to rise himself of scrofulousness and to avoid further harassment in his tubercular culture clinics by dictating a formal statement. He began:

"I shall stay in this country as long as I deem it necessary to complete the work I have undertaken.

"No man in the world has paid me a cent since I left Berlin a while ago. I am Dr. Friedmann (Chase Frisley), president of the Aetha National Bank since offered \$1,000,000 cure here and prove my cure. I did not know about his offer until I came to this country.

"I have paid all my own expenses and those of gentlemen who accompanied me."

Mr. Friedmann was interrupted by a question as to whether he thought he had been deceived by the man in this country who had urged him to come here by promises that he would be paid \$1,000,000 if he cured here.

"I think I have been deceived, but I shall not be longer. No one in this world has the right to represent me here. As to those reports which I read here, I had no control. The matter of the \$1,000,000 offer was most unfortunate. You can well believe that no one had the right to represent me here. I came here upon the desire of hundreds of American doctors, who wrote and called me at Berlin, asking that I come to teach them cure tuberculosis.

"When I had already decided to come, I received an offer from Mr. Hilly to come here to treat his son-in-law, Mr. Parka. But in that there was no offer of money, I have not treated him because I have not been able to practice privately.

"Now, regarding the supposed statements of my associates accounting for my actions, I have no associations. You might say my culture is my only associate. I stand alone with my culture. And I am not responsible for what any one except myself says about me or my work or my plans."

EIGHTY-SIX BUILDING PERMITS IN THE HAT DURING APRIL

Exceeds Permits of One Year Ago by About \$40,000; Many Residential Permits

Medicine Hat, Alta., April 3.—During the month of March a total of eighty-six building permits were issued in this city, having a value of \$150,000, notwithstanding that the month was backward and not suited specially at the beginning of active operations for the year. This total compares with March a year ago favorably, when permits to the amount of \$113,500 were issued. For the first three months of this year the total was \$265,275, as compared with \$201,285 for the same period last year, or an increase of about 30 per cent.

Most of the permits thus far taken out this year have been for residences, of which the city is in great need at present, owing to the rapid increase of population—so rapid that there is not a vacant building or residence in the city. With the weather settled, it is likely that building permits will grow in number and amount, as it is known that an extensive program of this nature is mapped out by large numbers of builders and contractors. Thus far, for the first two days in April, the number of permits is increasing, as it did in the latter part of March, and when work starts on some of the factories, the volume will be very largely increased.

BABY'S OWN TABLETS ALWAYS DO GOOD

Mothers, whether your baby is suffering from indigestion, colic or worms, or from some other form of childhood ailment, you will find Baby's Own Tablets a sure relief. Thousands of mothers use nothing else for their little ones. The Tablets always do good—they cannot possibly do harm, and are equally good for newborn babe or growing child. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

ANOTHER CHAPTER ON HOW TO MAKE BANK AUDITS PROPERLY

But No Information Has Come Out as to How to Successfully Approach a Bank Manager for a Loan Without Giving Up One's Right Eye

AUDIT MIGHT HAVE SAVED FARMERS' BANK One Financier Objects to Bank Charters Expiring Every Ten Years, and Said It Influenced Investors Abroad Who Did Not Understand Procedure

OTTAWA, April 4.—G. Clarkson, of Toronto, who was liquidator of the Farmers' Bank and of the Sovereign Bank, was the first witness before the banking commission today. His experience has been chiefly in liquidation. "A bank is an undertaking," Mr. Ames judicially termed him.

Mr. Clarkson said he believed that the shareholders should appoint the auditors subject to approval of the committee of directors. "I made little difference who made the appointment so long as it was a reputable firm of accountants."

He was of the opinion that inspection would not have prevented the failure of the Farmers' Bank. But it would have made the condition known in time to save much that was lost.

"Would an independent audit have disclosed at the end of six months or a year the true state of affairs in the Farmers' Bank?" he was asked.

"The audit would have disclosed the state of affairs, but it would not have disclosed the nature of the bad loan that soon," said Mr. Clarkson.

"An auditor would not want to go to a bank assuming everything was wrong. But when he went in he would want to know that everything was right," said Mr. Clarkson.

Hon. Mr. White: "A man from Missouri, Mr. Joseph Henderson, formerly president, and now a director of the Bank of Toronto, with which he has been connected for 44 years, was the next witness. He did not think it just to call all bank charters 'bad' cases every ten years. He cautioned investors to be careful. He agreed, however, with the decennial revision of the bank act. He would not limit the capitalization of banks because the cause was growing rapidly."

Mr. Henderson did not believe in limiting a bank to the amount of loans to a single individual or corporation, as proposed in an amendment. Mr. Henderson thought it was better to follow the lines of the British bank system rather than the American, where a wide latitude was given to banks in loaning.

LONDON MARKET DULL

London, April 4.—The stock market was dull today. The earlier monetary position prevents any material setback in gilt-edged shares, but uncertainty of the Balkan situation checks business.

Rubber, mining and copper shares hardened in the afternoon, but otherwise prices were reinforced to drop.

American securities opened quiet, and during the forenoon showed small fractional changes. In the late trading Canadian Pacific was the feature with a jump of two points. The rest of the list hardened a fraction and closed steady. Money was in fair demand and discount rates were steady.

Who Killed Alfred Heit?

Berlin, Ont., April 4.—That Alfred Heit came to his death from a bullet wound in the head and that the evidence does not prove that the shot was fired by his own hand or by another person, was the verdict of the coroner's jury today.

Friends said that Heit never gambled and a brother was sore he had considerable money. Provincial Inspector Reymur believed that it was a case of suicide.

The young folks don't know why, but they just love Kellogg's Toasted Corn Flakes—

It owes its rare goodness and appetizing flavor to our secret process of manufacture—

It's good for the children at all times and seasons. Look for Kellogg's signature on the package—sold everywhere at 10c.

Next on the list is oil, and only in one type of engine is this satisfactory, i.e. the internal combustion engine. This must not be confused with the most commonly in use type, the explosive type. As far as I know, there is only one internal combustion engine on the market, and that is the Diesel. Last we come to gas. This is a motive power for large engines is an absolute failure. Again the reason for this is clear. It gives out its energy by means of explosions, and there is yet to be made the engine, or even the metal, which can stand up against the continuous shock of the explosions and the terrific heat necessary to generate even 200 horse-power.

Briefly, then, in large, slow moving units, with the above exception, gas or oil are unsatisfactory, unreliable and costly in maintenance. Units would have to be erected in duplicate, and this one fact alone puts this type of plant out of consideration at all by any practical central station engineer. Let us now consider Calgary's position. Water is apparently monopolized; oil would, at the present time, have to be shipped in, and is entirely out of the question. There remains,

London, April 4.—Postmaster-General Samuel has announced the institution of a system of "night lettergrams."

These are telegrams sent during the night at the rate of six words for a penny. They are delivered by the first mail in the morning with the idea of benefiting people who have missed the last post at night.

THE POWER QUESTION

Editor Albertan:

At the present time, when there seems to be a general feeling of worry and unrest in civic centres regarding the power question for the city, it may not be out of place to give all those at all interested a few facts regarding the question of power generation anywhere, and in Calgary in particular.

The known primary powers in the engineering world are four, i.e., water, steam, gas, oil. For practical purposes these can be reduced to two headings, liquid and vapor or gaseous, water coming under the first heading, and steam, gas and oil under the second.

At the present time and from the general outlook for many years to come, water and steam are, and will be, the absolutely reliable powers. I will place oil next and gas last. A moment's thought will show clearly the reason why water and steam are the most satisfactory. They are in their application for motive power steady and yet pliable. Their contact with moving parts causes no shock, and has no corrosive action, therefore there is freedom from strain and consequent breakdown.

Next on the list is oil, and only in one type of engine is this satisfactory, i.e. the internal combustion engine. This must not be confused with the most commonly in use type, the explosive type. **"Mutt and Jeff" Break All the Records**  
 The curiosity of the small boy who the circus comes around was very much in evidence this week when "Mutt and Jeff" came to town and the curiosity was not confined to the small boy either, as is evidenced by the fact that Gus Hill's musical comedy in the matter of attendance records, broke all previous records at the Sherman Grand and the management had the pleasure of experiencing that enviable position in the theatrical business of turning "em away. This is no new experience for Gus Hill as "the popular entertainers" have been drawing tremendous crowds everywhere and it is stated that Mr. Hill will clean up the modest sum of \$100,000 this season from his five companies, in spite of the fact that the show is playing at cheap prices.

Of course, the crowds went to see Mutt and Jeff and, so far as the rest of the performance was concerned, they were very indifferent to its entertaining qualities. And the famous old pals were there with the goods and their efforts in laugh-making were very much appreciated by the big crowds.

All of which goes to show that the small boy instinct is not dead in us yet. Incidentally, the engagement is a witness to the fact that the people appreciate popular prices and will double their patronage when such prices prevail.

### GOOD ORPHEUM BILL FOR NEXT WEEK

Two headliners of much consequence in the theatrical world are scheduled for the local Orpheum next week—Jessie Busley and Laddie Cliff.

The first, will remember Miss Busley as the star of "In the Bishop's Carriage." She comes to the Orpheum next week as "Miss 318," a delightful character comedy of department store life by Rupert Hughes, author of "Excuse Me." The story originally appeared as a magazine feature, and so attracted Miss Busley that she prevailed upon the author to dramatize it for her own use. Her characterization of the leading figure, "Lissette Mooner," is rapidly becoming one of the classics of the stage.

Laddie Cliff, although still in his teens, has made a shining record for himself, first and foremost as a London music hall favorite. He is naturally a comedian, and has a very good voice; besides these, he is master of the eccentric material, and an equipment of this sort is hard to improve upon, especially if the entertainer has a real personality of his own. Then Laddie Cliff has taken the trouble—it always pays on the stage—to acquire exclusive material. His songs were written for him, and are sung only by him, which is certainly an added element of interest.

The Five Melody Maids and Will J. Ward offer an act, which, when well done, always pleases the local public. There is some jolly comedy throughout the turn, but its chief merit lies in the fact that all the members of the troupe are really enjoyable musicians. They sing and they play instruments, singly and in concert. Mr. Ward is known as one of America's champion ragtime players.

Margaret Ashton, a dainty American comedienne, who has just returned from a triumphal tour of England and South Africa, will exhibit her own charming manner of entertaining an audience.

Modern exhibitors must be somewhat put to it to discover and exploit sensations in animal acts. However, now and then the unexpected happens, as in the case of Meehan's Canines. The dogs go through a really remarkable act, showing the acme of expert training, and there are two of them that have become famous as perhaps the most wonderful leaping hounds in the audience.

"The Messenger, the Maid and the Violin" is a bright sketch wherein Charles and Adelaide Wilson have a chance to shine. Charles Wilson is a comedian of the lean, snaky variety, and is a violinist of rare ability. His partner is a tiny scrap of humanity, pretty and dainty enough to make up for his eccentricities of make-up, and the whole act moves brightly and sweetly.

If Delmar and Delmar did nothing but the one trick, in which one brother rides a bicycle that is suspended from the teeth of the other, they would be entitled to serious consideration. As it is they do this and many other things. In short, they are all-round, clever, capable gymnasts.

Arthur Hops, playing the principal role in Daniel Frohman's production, securing new songs, dances and dialogue.

There are three important musical productions about to take up Orpheum routes. They are "The Trained Nuts," with Clarke and Bergman; "The Persian Garden," with Louis Simon and Katherine Osterman; and in the Bur-racks," with Myles McCarty.

Yeomen of the Guard—Scene in Act I; "Were I Thy Bride."  
Wilfred - Geo. Forbes  
Rhoebie - Mrs. Sharples

The admirers of Pat Rooney and Marion Bent will be interested to know that in the near future they will again be seen over the Orpheum circuit, in arrangements to this effect having just been concluded. While their vehicles are announced as the same in which they were previously seen, it will in reality be entirely different, as Mr. Rooney and Miss Bent are continuing

"Detective Keen," at present playing over the Orpheum circuit, is experiencing his first engagement in vaudeville. Mr. Hoops has for many years been prominent in the companies of both Charles and Daniel Frohman, and in the support of James K. Hackett in "Herald Bernstein's" "Samson," scored one of his biggest personal hits recorded in theatricals.

Fred Bond and Fremont Benton, in the clever sketch, "Handkerchief No. 11," are wayfarers over the Orpheum circuit. Both Mr. Bond and Miss Ben-

ton are players of eminence, both in the drama and vaudeville field. They are probably favorably remembered in the West.

VETTES ATTEMPT

Manitoba Member Would Have Violated Agreement Between Party Whips That No Division be Taken to One Amendment to Japanese Treaty Bill

HOUSE SPENDS ENTIRE DAY ON TWO AMENDMENTS

And Discusses the Question of Modification As Affecting the West; House Closes Early; Premier Has Arrived at No Decision re Monday Program

OTTAWA, April 4.—After the third reading had been given to the bill restricting the Japanese treaty, the House adjourned until tomorrow night at ten-thirty, unusually early. It was the first time since the first reading of the bill to restrict the trade agreement with the Japanese that the House adjourned so early. No definite amendment was made as to what business will be taken up on Monday. The speaker left the chair, Mr. Lemieux asked what it would be and Premier Borden said: "I will let the leader of the opposition know tomorrow."

A curious and quite unusual incident occurred before the house rose. Hon. Wm. Pugsley had moved an amendment providing that the act under discussion should apply to future orders of council passed by the government. When it was put and the speaker was about to declare it lost, Hon. Robert Rogers called for a vote and the division bells were soon ringing. When the members came in and noticed that there were very few members present and that there was some excitement among the whip, F. R. Carroll, the acting chief Liberal whip, crossed the floor and spoke to Mr. Borden and Mr. John Stanfield, the chief Conservative whip, who conferred with the speaker. Mr. Stanfield then spoke to Speaker Eggleston who put the question and declared it lost without asking the members to rise. It appears there had been a vote against the amendment and that Mr. Borden had intended to put the amendment to a vote.

Earlier in the day an amendment by Hon. Frank Oliver to make the bill apply to future acts of parliament and to guarantee the rights of local legislatures should not be interfered with was defeated on a vote of 78 to 67. The discussion of the bill was confined largely to the immigration legislation of the matter, with special reference to British Columbia.

Ottawa, April 4.—At the opening of the house, Hon. Frank Oliver moved the bill respecting Japanese treaty be put back to the nomination stage in order that he might have the amendments of which he gave notice in the house last week. The speaker interposed to restrict the legislative power or authority of any of the provincial legislatures. The bill was not taken to the point to say that the treaty was not to be applied to the years ago. It was necessary to meet certain existing treaty. Canada must be mistress of her own destiny and still maintain the principle of the right to control immigration, which was being departed from in the bill. Hon. Guthrie said that the bill, if passed as it stands, would prevent Canada making any change in the immigration act which would have the slightest effect on the Japanese and that would apply to Japan and would be the immigration act as it stands today. He pronounced the bill "a relic of the past" and a "gold brick for the people of British Columbia." He criticized the attitude taken by the British Columbia members on the matter with failure to carry out the promise made in the resolution of 1907, which expressed the regret that the government could not be protected by the forbearance of a foreign government. The restriction of the Japanese immigration into Canada would depend upon the good faith of the Japanese government as expressed by the secretary arrived at in 1907. He wanted to see the clause cut out of the bill. Premier Borden said that he had answered almost all of these questions, but said the members of the opposition did not appear to stand on the main question. Hon. Frank Oliver was asked the Japanese treaty of 1907 without reservation, but now, the bill as amended today had put a restrictive clause, he took quite another view from that which he held in 1907. He was possible to expect any government to the clause out of the bill. He said that the act of a provincial legislature, which could not be nullified by the act of the country of the bill went into effect, and did not think the house was justified in opposing the amendment.

F. R. Carroll said that the Liberal opposition was not in the present form of the bill in its present form. He said that the bill was not in its present form. He said that the bill was not in its present form. He said that the bill was not in its present form.

Mr. Dr. Beland said that as the matter stands the immigration of the Japanese to Canada can be regulated by the immigration act. Once this treaty goes into effect, however, nothing could be done except by the passage of legislation which would mean the practical denunciation of the treaty. The only sane policy to adopt, he said, is one of co-operation. That was a policy of the late government. It had not become the policy of the present government. It had been defeated, however, to put into the bill a clause which is in reality a gold brick in the hands of the Japanese. He said that the bill was not in its present form. He said that the bill was not in its present form.

Mr. Michael Clark said that he was not surprised at the view of the government supporters. As compared with three years ago, they had changed their opinions on practically every question. Even in regard to the tariff they had taken a different view. He said that he himself had to take their case that no one would be required to amend that an exceptional state of affairs in regard to Oriental immigration might arise again on the Pacific coast which would necessitate a modification of the law. The amendment provides that we keep the power to make this change if necessary. There was doubtless a good deal of talk on this question. In 1908 the Conservatives of British Columbia had the general election on the principle of total exclusion of Asiatics. It was a case of applying to total exclusion. The motion was lost on a vote of 78 to 67.

Farmers in Wetaskiwin Area Supporting the Farmers' Legislation of Government, and Are Standing Firmly by Olin

FRANK WALKER REPLIES TO VICARIOUS UNTRUTHS

Two Thousand of the Rogers Brigade Are Now in Different Parts of the Province; Liberal Candidates Warned to Be On Guard Against Crooks

EDMONTON, April 4.—The campaign is now on in full swing throughout this part of the province and members of the local parties are discussing meetings every night. Excellent reports of the progress of Liberal candidates are coming in. Everywhere members of the government have had most enthusiastic receptions and their statements of the Liberal policy have met with general endorsement.

Chas. Olin, the Liberal candidate in Wetaskiwin, was in Edmonton today and he reports that in his constituency the Liberal campaign is going well. Mr. Olin has held seven meetings in various parts of the constituency and at each one he has received enthusiastic support. The farmers of the Wetaskiwin riding, he states, are more than pleased with the farmers' legislation passed by the government.

Compliments For McKay  
"Today, A. G. McKay, Mr. Cross' running mate, received a telegram of best wishes from the Liberal press and members of the House of Commons, passed at their annual banquet. The campaign of Mr. McKay is being watched with keen interest by his many friends and political followers in Eastern Canada. McKay was five times a member of the Ontario legislature, each time by larger majorities than his predecessor. He is a native of Ontario, who, however, has spent most of his life in Alberta. He is a successful farmer here as he was in the old constituency back east.

Frank Walker was nominated today by the Liberals of Victoria. In accepting the nomination he took up the attack which had been made on him through the Conservative press in the province. He said that he was a brother, acting in his behalf, had approached the Conservative executive committee and had been refused. He would accept Conservative nomination and run as Conservative candidate. He said that he was a native of Manchester, England, in which city his family are of considerable prominence. Leach was 46 years of age, and married. He has a family in Manchester, which is not known, but Westminster, Leach is said to have known Leach intimately, and Mr. Leach has been communicated with.

In later years, largely by reason of poor health, Leach became somewhat of a recluse. He was an expert journeyman, and was at one time an employee of the government printing bureau at Ottawa. Leach also worked in Saskatoon, Edmonton and other cities. Some weeks ago employment was obtained for Leach at Lacombe, and it was believed that he was still in northern town. Evidently, however, Leach went on to Edmonton, in which city he has not been seen since. It is believed that Leach left Edmonton quite recently, as none of his Calgary associates know he had returned here until the news of his suicide was made public.

An inquest will not be held, Coroner Costello deciding that the evidence at hand clearly points to a case of suicide. Leach was buried tomorrow afternoon under the auspices of the Calgary Typographical union, the funeral at which are requested to meet at the Herald office at 130, Centre Street. Services will be held in Graham's and Thompson's chapel, Centre street.

People who are being "stung" in the purchase of frozen oranges, may legally demand a refund of their money; and vendors of this frozen fruit are liable to prosecution. A big consignment of the frozen crop from the south has recently been dumped in Calgary, and are being sold by a second-hand dealer at 25 per cent. The fruit has a beautiful appearance, but is woody and bitter inside. Several crates were being offered for sale yesterday by a second-hand dealer at 25 per cent. POLITELY DECLINES TO LOWER THE PRESENT RATE FOR GAS

promising \$40 power only on condition that the Calgary Power Co. contract be signed.

Gas Might Do  
That the construction of a gas engine plant of 2,000 h.p. in the ultimate extension of the Milling Co. project is the conviction of Acting Mayor William Ross. With gas at five cents the city could make a profit sufficient to make worth while. But in any event gas seems to be the solution in this particular case; and Acting Mayor Ross is convinced that this gas must come. There is a strong indication of gas at Okotoks.

Some Prospects For Cheap Gas  
Ald. Frost has announced that a flow of 1,000,000 feet per day has been discovered in the area. There is every reason to hope that cheap gas will be available within a year.

HOW MONEY WAS SPENT FOR ALBERTA CITIZENS

Asks for Mr. Michener's Policy in the Alberta and Great Waterways Railway; Refers to the Financial Standing of the Province

HIGH RIVER, April 4.—The people and not the interests have been the sole object of consideration on the part of the Sifton government. Says the premier at a great gathering of the local Liberal candidates, R. L. McMillan. There was a large and interested gathering in the town hall and every word was followed with the closest interest and at the close three hearty cheers were given for the Liberal leader and his representative in this district.

The premier said in the course of a speech, which was one of the most eloquent of his tour, despite the fact that he was suffering from a bad cold, that the government had not been able to secure in the interests of the people of the province, had sought to break the railway monopoly and were doing so with success. This meant much for the better treatment of the farmers and everyone else in the province at the hands of the big railway corporations.

The railway competition which the Sifton government had advanced, was a great boon to the people and now the government was breaking the elevator combine and establishing a co-operative system of elevators which were owned and operated by and in the interests of the farmers. These acts of the government had brought down on them the wrath of the financiers and capitalists and the recent Farm Machinery bill, also in the interests of the farmer, had done the same thing. Yet, for all the threats of the corporations the government would not desist and appealed to the people to support the government and asked for popular support.

High River, Alta., April 4.—Premier Sifton had a rousing reception from a large audience here tonight. He opened with a reference to the general advance in the West and in Alberta, particularly during the last three years. Side by side with material advance there had been an advance in legislation. The government had not only passed the law but had put it into effect. He said that the government had not only passed the law but had put it into effect.

THESE ARE SAD DAYS FOR THE CALGARY WILKENS

Rigid Inspection Is On and Some Revolting Conditions Are Brought to Light

DAIRIES supplying milk to the city of Calgary are undergoing a rigid inspection by the city medical health and sanitary inspector.

Water from a well surrounded by pools of manure was used for watering the cattle, as well as for washing all utensils; and the stables were in a vile condition. The proprietors were given 48 hours to clean up.

Willie Waggletail's Ghost Story

An Adventure With a Tiger

It was a very hot day in the summer time, and Willie Waggletail was just taking his afternoon nap in the shade of a big tree. He was feeling very comfortable and happy, and he was dreaming of a tiger. He had heard that tigers were very fierce and dangerous, and he was very curious to see one. He decided to go out and look for one.

Willie Waggletail was a very small, fat, and round little fellow. He had a very large head and a very small body. He was very curious and very brave. He had a very long tail and a very short neck. He was very friendly and very kind. He was very popular with all the other animals in the forest.

**CALGARY IN BRIEF**  
 Dr. Weston Upton has removed his  
 office to Suite 25 Edge Block, First St.  
 W., corner of Third Street Ave.

C. B. Foster, general passenger agent  
 of the C.P.R., with headquarters at Win-  
 nipeg, is in the city on official business.

D. W. E. Sparks, office morning,  
 performs an operation on C. Mc-  
 Allister, the realty broker, for appendi-  
 citis.

Lucy Chney, Chinese, was yesterday  
 fined \$10 and costs in police court on  
 conviction of having served tainted meat  
 in his cafe.

The funeral of the late J. H. Leach  
 will take place Sunday at 1:30 p.m., from  
 Graham & Thompson undertaking par-  
 lors, under the auspices of the Calgary  
 Typographical Union. All members of  
 the union are requested to attend.

Norman S. Rankin, head of the pub-  
 licity bureau of the C.P.R. department of  
 natural resources, is in Calgary in con-  
 nection with the convention of the  
 Western Canada Irrigation association in  
 that city during August.

John Smith and William Spears, ac-  
 cused of riding on C.P.R. freight trains  
 without leave or restriction, were yester-  
 day sentenced by Inspector Duffus to serve  
 14 days with hard labor.

Twenty thousand dollars was awarded  
 Henry W. Lees as compensation from the  
 city of Calgary for injuries sustained in  
 the street on the incident on the water  
 line on September 4, 1912. Lees entered  
 suit for \$25,000.

Harry Noon, manager of the Langston  
 hotel, which was destroyed by fire yester-  
 day, arrived in the city this evening.  
 The hotel was owned by H. Sturges and  
 Charles Garrett. Mr. Noon says the  
 hotel will be rebuilt at once.

A. J. McNeil, former Indian agent, and  
 a Calgary old-timer, was yesterday re-  
 ported to be progressing favorably at  
 the Holy Cross hospital, where he has  
 been taken Thursday afternoon after  
 suffering a fatal attack on Ninth Ave.  
 in this city. The structure will be built  
 on the site where the Royal hotel now  
 stands.

Young & Kennedy now have on dis-  
 play in their windows some of the special  
 trophies being offered at the horse show.  
 The trophies are donations from Count  
 de Charman, Count de Edmond, Thomas  
 and Henry Dubern. Reserved seats for  
 the show are also on sale there.

The International Students' association  
 met in the new Garbutt Business  
 College, corner of Fourth street west and  
 Eighth avenue, Sunday afternoon at  
 8 o'clock. G. S. Kendall, of Brooklyn,  
 N. Y., will speak tomorrow. Subject:  
 "Must We Abandon Hope of a Golden  
 Age?"

The Fortnightly Educational Club of  
 the Y.M.C.A. Boys' Department had an  
 other successful supper last night when  
 Mr. John A. Irvine gave an interesting  
 talk on Nova Scotia and the surrounding  
 country. The talk was illustrated by  
 some splendid pictures taken by Mr.  
 Irvine. John Watson, president of the  
 club, gave an exhibition of playing the  
 blindfold.

"Written" examinations for pupils of  
 the Royal Academy and Royal College  
 of Music in the public library on  
 Wednesday evening next at 8:30 p.m.  
 The dates for the "Practicals" will be  
 held as per time table sent last night  
 in the Mason & Risch building. Teach-  
 ers with 10 or more pupils wishing the  
 examiner to come to their study restau-  
 rant it by notifying the hon. representa-  
 tive on duty.

"The greatest use of public school  
 property for the good of the public" will  
 be the subject for discussion at tomorrow's  
 meeting of the Forum at 8 p.m. in the  
 Unity Hall at 3 p.m. W. T. D. Lathwell,  
 who has written the subject, has attracted  
 attention of late, will deliver the open-  
 ing address, and will be followed by  
 those interested in the subject. Reports  
 of what has been done in other cities  
 will be given and a general discussion  
 will be participated in.

An item published about a month ago  
 to the effect that E. W. Beckett, crown  
 timber agent at New Westminster, had  
 received applications for husbands from  
 20 Ottawa girls, has caused such a deluge  
 of corresponding male applicants that  
 there will necessarily be a few winners  
 disappointed as there are not enough girls  
 to go round. Mr. Beckett has hinted  
 that he may send some of the applicants  
 to Calgary and give the girls a  
 chance.

Final arrangements have been made  
 whereby the classes in physics and chem-  
 istry will be held as follows: Tuesday at 4:30  
 p.m., Thursday at 10 a.m., Friday at 10  
 p.m. Teachers in the public schools  
 have been notified of the arrangement.  
 The first lesson of the series was given  
 Thursday in the assembly hall of the  
 Connaught school where the lessons will  
 continue to be given and Cole Stewart  
 Smith, the instructor, wishes all the  
 teachers of the city to know that visitors  
 are welcome.

A restaurant, run and equipped along  
 similar lines to the famous Childs  
 restaurants of New York, is to be opened  
 in Calgary by E. W. Kolk, former Supt.  
 of the C.P.R. dining car service on the  
 Alberta division. Mr. Kolk has just re-  
 turned from New York where he has  
 been familiarizing himself with the  
 methods of the Childs' restaurants there  
 and has secured a location in the Mc-  
 Naughton block for his Calgary restau-  
 rant, which he expects to have open to  
 the public in about five weeks.

Some very caustic remarks were made  
 by "Cappy" Smart concerning ignorant  
 foreigners, upon his arrival at box 13  
 from which a false alarm had been turned  
 in. A native of Sunny Italy mistook the  
 note being a letter receptacle but  
 not being able to find the customary  
 aperture in which to slip his mislaid, he  
 opened the door and laid the letter  
 carefully inside. However he had  
 some difficulty in making it stay there  
 and in his efforts to accomplish this  
 feat released the key which sends in the  
 alarm.

At the meeting of the Forum at Unity  
 Hall, Sunday afternoon at 8 o'clock,  
 the subject for discussion will be "The  
 Use of Public Property for the Good  
 of the Public." W. T. D. Lathwell,  
 who has written the subject, has attracted  
 attention and hopes to start the move-  
 ment in Hillhurst, where a social centre  
 is being established, will give the opening  
 address, to be followed by others who  
 are interested in the subject. Reports  
 of what has been done in other cities  
 will be given and a general discussion  
 will be participated in.

The case of Thomas vs. Ward occupied  
 the morning session of the supreme court  
 yesterday. The action is being brought  
 by Tom. Thomas to recover the sum of  
 \$1,000 from Peter Ward. The plaintiff  
 claims that on December 11, 1912, while  
 driving into Prospect avenue, he was  
 closely following his car which  
 was struck by Thomas' car which  
 caused the amount sued for to be inflicted.  
 In his honor, Justice Stuart, presiding  
 at the trial, reserved judgment to allow  
 himself time to inspect the scene of the  
 accident.

The management of The Calgaria  
 Cafeteria has appointed the well-known  
 chef, Albert Houty, to the head  
 of its culinary department. "Chief"  
 Houty was recently connected with  
 the Hotel Waldorf Astoria, New York,  
 the Wellington, of Chicago, the  
 New Oregon, Portland, and the  
 Carlton, to be co-operating in securing  
 the services of so eminent a chef.  
 Houty is to be co-operating in securing  
 as well as the best appointed Cafeteria  
 in the city. 599-85
