CITY SHOULD SPEND \$100,000 ON MOTORIZING FIRE DEPARTMENT FORTY MORE FIREMEN NEEDED

Chief Thompson Reports That He is Satisfied Fifty Per Cent. of Recent Fires Have Been of Incendiary Origin—Firemen Hampered by Inadequate Water Pressure.

Chief Thompson recommends that \$100,000 be expended on motor equipment for the city fire department, and that forty additional firemen be appointed. This is the substance of his report to the board of control for a report on the efficiency of fire protection in Toronto. His report to the board is as follows:

"In compliance with your instructions I beg to submit the following answers to the questions contained in yours of the 7th inst., relative to fire department matters:

"1. Report showing the causes of the fires at the Exhibition grounds, Balmuto street, Jersey Avenue and other recent ones giving full details. The fire at the Exhibition grounds was caused, in my opinion, either by an incendiary or spark from a locomotive. It was burning in such a manner when our department arrived on the scene that it was utterly impossible to ascertain as to how or where the fire originated in the sheep pens, the poultry buildings from the fire in the pens being in flames when our department got there.

"Balmuto Fire a Mystery.
"So far as the Balmuto street fire is concerned the 2-1/2 storey brick factory on the south side of the brick works was almost destroyed, or burning in such a manner that it was positively useless to make any effort to stop the progress of the flames in this building. The firm of R. C. Cram and Co. can give no reason or assign any cause for the fire; we have

A Longer Driveway.

Now that University avenue has been made an ideal driveway Commissioner Harris will recommend that the roads through Queen's Park be surfaced with asphalt macadam. This extension of an ideal driveway would permit connecting up with Avenue road and provide an attractive route from Queen street to St. Clair avenue district. University avenue improvement is so attractive it naturally invites the similar improvement of the roads through Queen's Park.

Fire Alarm Service.

Report on the fire alarm service, boxes, keys, etc. There are three fire alarm boxes in the Exhibition grounds, one at the west end of the grounds and one at the east end of the grounds and one at the northwest corner of the grand stand. These boxes have no keys as fixtures in each and covered with glass as the boxes in nearly all the other parts of the city, but the Exhibition officials were supplied with an ample number of keys for these boxes for the purpose of giving an alarm at any time a fire should occur. When the boxes were installed in the Exhibition grounds the superintendent of fire alarm telegraph advised me that in his opinion it would be very unwise to fit out the boxes with keys on account of the danger of false alarms.

HAMILTON'S CENTENNIAL CELEBRATION

Lieutenant-Governor Sir John Gibson and Lady Gibson leaving Armories after the formal opening ceremonies yesterday morning.

HAMILTON CITY OF CARNIVAL WITH JOY TRULY UNCONFINED DECORUM CAST TO WINDS

McBride Denies Rumor

VANCOUVER, Aug. 11.—(Can. Press).—In an interview today, Sir Richard McBride denied that he had the slightest intention of taking the position of British Columbia agent general in London in succession to Hon. J. H. Turner.

With Twenty-Five Thousand Visitors in City on Opening Day of Centennial Celebration, Downtown Streets Are Crowded—Formal Ceremonies of Day Usher in Week of Merry-Making.

RUSSIA RECOVERS SPOILS OF WAR

Great Bell, Taken From Sebastopol After Crimean War, Returned by France.

PARIS, Aug. 11.—(Can. Press).—France today gave back to Russia the great bronze bell taken from the cathedral at Sebastopol and brought to France as part of the spoils of the Crimean war. Since then it has been in one of the towers of the Cathedral of Notre Dame in Paris.

The bell, which weighs upwards of three tons, was formally presented by a representative of the French ministry of fine arts to the Russian ambassador this afternoon. It will shortly be sent to St. Petersburg.

(By a Staff Reporter)
HAMILTON, Aug. 11.—(Special).—For the past five hours Hamilton has been trying to remember what things were like before the storms broke on this the first day of Centennial Week. It can't be done. Last night Hamilton was a city; tonight it is just a merry riot. The mountain city, which for a hundred years has been growing up, is showing what it can do when father and mother are not looking. James street at the Gore are, of course, the centres of celebration. They have not seen anything like it since the night in 1868, after Varsity beat the Tigers up at the cricket grounds, and that was only a drop in the bucket. That was just a touch on the safety-valve, but tonight the valves are open wide, and the city is blowing off steam.

The Giddy Whirl.
It is impossible to get away from it. The narrow streets are the most crowded, and after a few hours on the sidewalks you feel lost unless someone else is twining on your heels or blowing a horn in your ears. It is intoxicating to be in the crowd, jostling and jostled in the midst of a medley of discord that drowns out the band. Before darkness fell you could see that the streets were decorated with banners and bunting, but now it is all lights and jousts, thronging along in groups of two and three and five. No one is alone. Conventions are thrown away, for it is carnival, and it only comes once in a century.

Know How to Do It.
The men of Hamilton who planned this centennial knew well what they were getting in for. No city but Hamilton could do it so well. A bigger place lacks the necessary unity, a smaller town could not provide the bulk and grandeur that redeem the scene from lawlessness. So quick has been Hamilton's growth that her people have not yet forgotten how to be villagers when the time comes. Old and young alike, the aboriginal and the charwoman and the boarding school girls, they are a part of the riot and are proud of it. It is the only time on earth when the folks in the big automobile are not excited because there is more fun to be had on foot.

25,000 Visitors.
Twenty-five thousand visitors have arrived already and 1500 are on the way. Hotel accommodations have been scarce, and many are still in the hotels. The board of trade has held out no promise of reconsideration of the British Government's attitude.

BRITAIN DEFENDS MEXICAN POLICY

Recognition of Huerta Was Dictated by Hopes of Restoring Order.

LONDON, Aug. 11.—(Can. Press).—The British Government, nettled by the comment of certain American newspapers concerning Great Britain's recognition of President Huerta, declares that the comment is based on a misconception of facts. It also repudiates the insinuation that the influence of powerful financial interests were used in bringing about recognition. In a statement issued today the government says:

"The recognition of President Huerta was the recognition of a provisional president pending an election. It was done on the advice of the British minister to Mexico, as he is likely to assist in the restoration of order—an important consideration, in view of the large British interests involved.

"The French and German Governments also recognized President Huerta after a reception by him of a congratulatory party, at which a congratulatory party was made in their behalf by the American ambassador."

JAP GOVERNMENT IS EMBARRASSED

Doesn't Know What to Do With Chinese Rebel Leaders Who Seek Asylum in Japan.

TOKYO, Japan, Aug. 11.—(Can. Press).—The Japanese Government is somewhat embarrassed by the presence in Japan of Dr. Sun Yat Sen and Gen. Huang Sing, leaders of the recent Chinese rebellion, both of whom arrived in disguise. The government was at first disposed to refuse them permission to land, but eventually consented to their doing so in view of the fact that if they were deported to China, where a price was set on their heads, it might mean their arrest and death.

It is reported that Dr. Sun Yat Sen does not intend to proceed to the United States as it is first stated, but will try to gather funds to continue the campaign against Provisional President Yuan Shi Kai.

MEXICAN SKIES ARE RAPIDLY CLEARING

Statement of Foreign Minister Gamboa That Difficulties Should Be Readily Adjusted Causes Tension to Relax at Washington—No Unpleasant Sequel to Lind's Arrival at Mexico City.

WASHINGTON, Aug. 11.—(Can. Press).—Distinct relief was apparent in official circles here today over the course of events in Mexico. The statement of Federico Gamboa, the new Mexican minister of foreign relations, holding the conviction that the difficulties between the two countries "soon would be adjusted," produced a very favorable impression in administrative circles.

President Wilson pointed out during the day to callers what seemed to him the most important part of the statement was that the attitude of the United States in intervention, "He reported that the attitude of the government toward Mexico in the present crisis was one of peace and friendliness."

The safe arrival in Mexico City of John Lind, personal representative and official designated adviser to the American embassy, ended some tension in the situation. Administration officials tonight looked forward hopefully to a favorable reception of their efforts to suggest measures of peace in ending the struggle between the contending factions in Mexico.

"With the air cleared of rumors" and hostility in the Mexican capital to Mr. Lind's presence, there, officials were disposed to believe the program of the American Government would be carried out quietly and in such a manner as seemed most expedient to Mr. Lind and the embassy at Mexico City.

Capt. Caschart of the battleship Michigan, which proceeded last Thursday from Vera Cruz to Ciudad del Carmen, as the result of a complaint to the state department by Mrs. Phoebe Hearst, that reveals were threatening American life and property in the region of her ranch near that place, has reported that American subjects have not been threatened, and American subjects and foreign subjects have received proper protection from the Mexican authorities."

Wednesday Favorite Night For Lovers

(Special to The Toronto World).
MILWAUKEE, Wis., Aug. 11.—The county clerk has found that most engagements of marriage are made Wednesday night, and so he will keep his office open that night to issue licenses.

IMPEACHMENT OF SULZER STARTED

Motion Introduced in New York Legislature by Majority Leader Levy—Governor Charged With Wilful and Corrupt Conduct in Office.

ALBANY, N.Y., Aug. 12.—(Can. Press).—The report of the Erwin legislative committee charging Gov. Sulzer with having diverted campaign contributions to his own private use was adopted by the legislature early today and a resolution to impeach him for "wilful and corrupt conduct in office and for high crimes and misdemeanors," was offered in the assembly by Majority Leader Levy.

The Erwin committee report and the Levy resolution charges the governor with having falsified under oath his campaign contribution account, diverted some of the funds to his own use for the purchase of stocks, traded executive approval of bills for support of his direct primary measure and having done everything in his power to obstruct the committee's efforts to bring proof of his alleged misconduct to light.

The adoption of the report carries

STRUCK BY BAT BOY MAY DIE

Eddie Grant Seriously Injured at Ball Game in Playgrounds on Lovett Street.

Becoming very much interested in the progress of a baseball game at the playground near Lovett street last evening, little Eddie Grant, aged 8, Lovett place, was struck by a bat, and so seriously injured that he may die. The boy now lies in the Hospital for Sick Children, and his chances of recovery are slim.

Young Grant became over curious to see the ball being batted out, and forgetting the danger, stepped up behind the batter who was hitting the ball. The latter did not notice the lad, and swung the heavy bat in the air, preparatory to hitting the ball. Just as he did so the little fellow stepped in closer and received the blow on the side of the head. His skull was fractured and he lapsed into unconsciousness. The police ambulance conveyed Grant to the hospital for Sick Children.

THE CUNARD CO. ABANDON PORT

(Special Cable to The World, Unpublished by The Toronto World and N.Y. World).
LONDON, Aug. 11.—The World correspondent learns tonight that the Cunard Co. has now decided to drop Queenstown altogether as a port of call for the Atlantic mail service.

Three years ago the company limited Queenstown on the eastward voyage, but owing to its contract with the British postoffice, its vessels were obliged to stop there on the westward voyage, in order to pick up mails.

THREE HUNDRED THOUSAND FOR FOURTEEN ACRES ON INDIAN ROAD

Old Bolt Works Site is Purchased by W. A. Goldblatt From Mrs. Mary McDonnell for Record Price—Property Will Be Subdivided Into Building Lots.

The 14 acres of property situated at the foot of Indian road, west of Sunnyside, has just been purchased by W. A. Goldblatt for the Equitable Securities of Canada, Limited, from Mrs. Mary McDonnell of Toronto, for a price said to be in the neighborhood of \$300,000. The property is that on which until recently was situated the old Bolt Works.

Fact that since the year 1884, the value of the property has risen an average of nearly \$10,000 yearly. Twenty-nine years ago the same real estate was sold by Mrs. Phoebe Hearst for \$18,000 to the present vendor.

The property will be graded, subdivided and placed on the market in building lots by the present holders, Queen street will probably be continued through the property.

OPENING CEREMONIES AT ARMORIES

VALUATION OF PLANTS IS THORO REPORT IS NECESSARILY DELAYED

So slowly are the valuations going over the physical assets of the Toronto Railway Co. and Toronto Electric Light Co. companies there is little likelihood of the valuation being completed before the end of this month. There is no blocking the work, such as the conditions in the layout of the city. Very much detail work is obligatory.

A staff of ten men are engaged on the valuation, and are working long hours. Some are necessarily experts in the use of scientific instruments for measuring and calculations. Others are experts on clerical work. The miles of rails, wires, poles, have to be measured. The numerous intersections have to be diagrammed and valued. The intersections are all different and were made by hand. All this takes much time and must be done.

THIRD OF CANADA'S BUILDING IN JULY WAS DONE BY TORONTO STRONG POSITION IS MAINTAINED

For First Seven Months City Is Two Millions Ahead of Last Year's Record and Six Millions Ahead of Any Other City—All Canada's Figures Not Quite So Bright, But Local Real Estate Owners Have Cause For Rejoicing.

During July the decline in building was more accentuated than during any month to date this year, says The Financial Post. The aggregate permits, as shown in the accompanying table, show for the month a decrease of 24 per cent. while for the first seven months the figures show a decrease of 8 per cent. from the totals for the corresponding period of last year.

Table with columns for Month, 1912, and 1913. Rows include Jan, Feb, Mar, Apr, May, June, July, and Dec. Values represent building permits.

From the above it will be seen that the decline has been quite marked during the last three months. Marked Decrease in West. The record by provinces shows that only the Maritime and Ontario cities showed an aggregate increase during July.

Immense Difficulties Encountered in Carrying Out British State Insurance Scheme. LONDON, Aug. 11.—(Can. Press).—The alleged great prevalence of malingering under the Insurance Act, which introduced compulsory insurance by workingmen against sickness, infirmity and old age, created great interest in a paper on that subject read by Sir John Collier at the International Medical Congress today.

STORY JUST HOAX SAYS CONTROLLER. Didn't Have to Walk Nor Ride in Hay Wagon After Motor Accident. Controller Church makes emphatic denial of certain incidents in an automobile trip to Banff from Calgary as reported in The Calgary Alberta and other papers.

AMENDMENTS MADE TO STOCK REGULATIONS. Importers of Animals to Escape Duty Must Be British Subjects, Resident in Empire. OTTAWA, Aug. 11.—(Can. Press).—An amendment to the regulations regarding importation of live stock to Canada states that no animal imported for improvement of the breed shall come in free of duty unless the owner or owners be British subjects, resident in the Empire.

GEOLOGISTS WILL MEET IN BELGIUM

Brussels Selected as Next Centre by International Conference. Many of the Delegates Visit Muskoka and Other Places of Interest.

Many were the bids made yesterday for the next International Geological Congress, which is to be held in 1917. Invitations were extended by Belgium, Argentina, Chile and Spain, and these were all considered by the council yesterday when they met to choose between the countries. The highest bidder turned out to be Belgium.

As the sessions of the congress draw to a close the attendance at the meetings shows signs of falling off. The last day Sunday they toured the Muskoka lakes, and it was early yesterday morning before they returned to the city.

Yesterday morning at 8 o'clock 15 members took the trip to Orillia, in charge of W. A. Johnston of the Geological Survey of Canada. The lecture room was crowded to the doors during the afternoon to hear the economic addresses on the subject of the "Influence on the Character of Metalliferous Deposits."

Yesterday morning at 8 o'clock 15 members took the trip to Orillia, in charge of W. A. Johnston of the Geological Survey of Canada. The lecture room was crowded to the doors during the afternoon to hear the economic addresses on the subject of the "Influence on the Character of Metalliferous Deposits."

SHIPS AND RAILS

G. T. R. IS PLEASSED WITH NEW ENGINES

The Grand Trunk Railway Company who recently received twenty-five engines of the low-pressure Mikado type from the Canadian locomotive company are so well satisfied with the results obtained that they placed an order for the same in the amount of fifty more engines of the same design.

C. P. R. NEW BRIDGE

Officials of the C.P.R. declare that this autumn will see the last spans of the Canadian Pacific bridge at Highways across the St. Lawrence River. One of the huge spans, which are four hundred and eight feet long, is erected and work has already commenced on the erection of the second large span.

C. P. R. HAS BOUGHT NEW STEAMER

The St. George, a newly-built steamer, which was to have been run between Port Hope, Wales, and Rosneath, Ireland, has been purchased from the builders by the Canadian Pacific Railway, and will be placed in service on the route between St. John's and the Dominion Atlantic Railway with their three trains to and from Montreal.

BIG FRUIT CROP

C. E. Graham, who has been acting as assistant general superintendent of the British Columbia division of the R. H. Robinson, has conferred with the British Columbia Government and the United Fruit Growers' Association to discuss the situation. He estimates that the fruit crop this year is more than twenty per cent greater than last.

TODAY'S PROGRAM AT HAMILTON

9.00—First day of Dominion of Canada Dr. Shooting Association thirteenth annual tournament. 10.00—Industrial Exposition at armory. 10.30—Old Boys' parade. 11.00—Automobile floral parade away and Street Fair (parade daily). 1.30—Afternoon. Industrial Exposition at armory. 3.00—Band concert at Gore by 10th Royal Grenadiers' Band. 4.00—Start of house to be built in a day, at Linn Park, 2nd and Barton street. Mayor Allan will start operations and lay cornerstone. 5.05—Aquatic sports at Hamilton Beach. 6.05—Professional baseball game at H.A.A.A. grounds, Detroit v. Canada. 7.00—Evening. Industrial Exposition at armory. Music by Lomas' Orchestra. Midway and Street Fair. 8.00—Concert at Woodlands; concert at Dundurn Park.

REBELS HOPE TO CAPTURE HANKOW

Army of 25,000 From Hunan Sets Out to March Towards Capital.

HANKOW, China, Aug. 11.—(Can. Press.)—An army of 25,000 rebels from the province of Hunan marched yesterday from Yoh-Chow with the professed intention of capturing Hankow and proceeding thence to Peking. A further shipment of northern troops completing a force consisting of probably 4000 men was sent from Hankow on the way to Sini in the province of Hu-Peh, where the Hunan rebels are preparing to make a stand. It is believed here that the northern army will be successful owing to the fact that the Hunanese are largely untrained recruits.

ANOTHER OIL VESSEL

In view of the satisfactory results obtained from their British-built oil-burning steamer Fordonia, it is the intention of the Merchants' Mutual Steamship Line of Toronto, to purchase another oil-burning vessel of the same type. The Fordonia is the biggest vessel capable of going thru the Welland Canal to the Dominion, and has a carrying capacity of 4000 tons. She has an average speed of 11-12 miles per hour.

\$2.35 Cobourg and Return From Toronto August 12 Inclusive. The Grand Trunk Railway will issue round trip tickets to Cobourg, amounting to \$2.35, good going August 12 to 16 inclusive, and return trip only \$2.35. Trains leave Toronto at 7.15 a.m., 9.00 a.m., 1.50 p.m., 3.30 p.m., 5.30 p.m. and 10.45 p.m. All tickets valid for return Monday, August 15, 1913. Ticket office at city ticket office, northwest corner King and Yonge streets, phone Main 4269.

AT THE THEATRES

IMPETUOUS PEGGY

Percy Haswell has chosen wisely in producing Ernest Denney's "All-of-a-Sudden-Peggy." The stock company cast is better than any other. Miss Haswell's "blotch of the brogue" renders this charming actress a better comedienne than ever. Her work in Miss Henrietta Crossman in "The York production of the comedy was charming. Her work was as always, forcible, but to the appreciative house last night.

MISS HASWELL SCORES FRESH TRIUMPH—Toronto Actress Makes Good Impression.

From the acrobatic stunts to the clematograph the bill at Shea's this week is beyond criticism. "Toronto is usually fortunate in the class of vaudeville it is given, and this week's variety is a shade better than anything put on since the big theatre opened for the season. The various acts are well-balanced and not a moment drags during the 100-minute show.

BEN WELCH STARS AT THE GAYETY

Ben Welch and his burlesquers hold the boards at the Gayety this week. Ben Welch is not only the greatest of Yiddish comedians, but during the first part of the one-act farce that he figures in this week he changes from the Hebrew to the Italian character in ten seconds, and springs some delightful comedy in the latter character that proves his versatility and convulses his audience. Ben Welch is supported by an excellent singing and dancing company. New music, catchy songs and snappy dances, make a unique show, and the splendid costuming and staging place it among the first rank of the burlesque outfits visiting Toronto. The comedy is played up to Ben Welch, who with his inimitable brand of humor makes the

ALD. MAY PLAYING MISSIONARY PART

Finds Councillors Ready to Co-operate With City in Metropolitan Area Plan.

Ald. May, who gives an intelligent and public-spirited consideration to the city's business interests, is doing a missionary work in the past few weeks among the councillors of the township surrounding Toronto. He went into the matter of fixing a proper policy for a metropolitan area, and he found the councillors of the township ready to co-operate with the city in any reasonable way in planning a greater Toronto.

YORK COUNTY RATES STRUCK BY SCARBORO COUNCIL

Assessed Value of Property Nearly Three and One-Half Millions.

A deputation from Chester Avenue waited on the Scarborough Township Council at their meeting yesterday with a request that the street be graded and gravelled. They also wanted the assistance of the township towards securing water from the city. The council promised to look into the matter at an early date, and advised that a committee of the residents be appointed to take up the matter of the water supply directly with the city council.

WARD SEVEN

About 7.30 last night an alarm from the Swift, Canadian Co's works, St. Clair street and Keele street, brought three ward seven fire detachments to the building. Upon arrival it was found the mechanical fire alarm system, which was installed in the building, was not in proper condition and a small local overheating caused a false alarm. The fire alarm system is being repaired and the fire alarm system is being repaired and the fire alarm system is being repaired.

OAKVILLE ENDORSES FACTORY BY-LAW

James Langmuir Company Can Proceed With Factory Erection.

As the electors of Oakville endorsed the point factory by-law by a majority of 291, at the polls yesterday the James Langmuir Company of Toronto will at once proceed with the erection of their factory there. The by-law authorizes the council to elect a committee to select the site for the factory, and the company will have to pay a public school and local improvement tax on the site.

THORNHILL

A demonstration of the advantages of the underdrainage was given to the farmers in the neighborhood last evening by P. Common of the Ontario Agricultural Department on lots 27 and 28, concession 1, Markham, owned by Ivan Wright, Dr. Zimmo and E. H. 3941.00. The demonstration was well attended by the farmers in the district, who were much interested with Mr. Common's lecture. This was the first demonstration of its kind given in the neighborhood by the department, and will be followed by others throughout the county.

SEVEN HUNDRED MINERS WALK OUT

A concert under the auspices of the Fire Company will be held in the Masonic Hall tonight. An extensive program of singing and instrumental music has been arranged, and no effort has been spared by the promoters of the concert to make the evening an enjoyable one.

GARDEN PARTY FOR GEOLOGISTS

A garden party in honor of the International Geological Congress will be given by the bursar of the University of Toronto on Thursday afternoon, commencing at 4.30 o'clock.

YORK COUNTY AND SUBURBS

EAST YORK ASTIR SCENTING BATTLE

Work Has Now Been in Progress for Twelve Months and Good Showing Has Been Made Despite Stubborn Obstacles—Modern Methods Used in Colossal Undertaking.

Altho only a year has elapsed since the first gang of men commenced work on the three and a quarter mile tunnel the Canadian Northern Railway is driving thru Mount Royal to the eastern terminal property in the centre of the City of Montreal, sufficient progress has been made to enable the engineers to predict a probable date of completion of the work and the date of its being opened, to handle its transcontinental traffic. Of the total length of 16,666 feet 12,488 have been drilled. The heading—the primary core—is 9 by 12 feet. The drill runners are expected to meet in the depths of the mountain before the end of the present year, and there seems to be no doubt that the heading will be finished in time to advance the heading thru the tunnel by the middle of next year. The two tunnels should be finished. It will be an auspicious day for Montreal and for the Canadian Northern Railway when the bore is turned over for operation.

Modern Boring Methods. In a technical but highly interesting article to one of the engineering journals, Mr. S. P. Brown, the chief engineer, who is supervising the work, explains how European and American tunneling methods—sometimes one, sometimes the other, and sometimes a part of both—have been used to advance the heading thru the mountain. He drew comparison with a tunnel three and a half miles long driven thru the region of Claudius in the Abruzzi. This was called the "Laba Fucinus Tunnel." It was six feet ten inches wide, took 11 years to construct and 50,000 men were employed upon the work. To show how methods have changed, it was pointed out that the Laba Fucinus project employed picks, shovels and possibly drills and saws with cutting edges of corundum, were used. But most of the progress was effected by hand labor. Heat was supplied to the face of the heading until the rock became extremely hot, then cold water, or acid, such as vinegar, were dashed against it to break the way on.

The Mount Royal Tunnel is practically the same length, but in the heading in this case is about 9 by 12 feet. It would be more than 50 per cent. greater than the Laba Fucinus bore. The work commenced on July 1912. Since that time two shafts have been sunk and over two miles of heading driven on the tunnel line, besides more than a quarter of a mile at the shafts and the terminal site. During the progress were effected by hand labor. W. J. Armstrong, at his home on Western avenue last evening and presented him with a mahogany office chair as a birthday present and Mrs. Armstrong with a bouquet of roses. An enjoyable social evening followed, with music and games. Mr. Armstrong thanked the members for their kindness and wished the council all success.

J. S. Kirkwood, station master at postal station D, and family of 130 Mount Royal, left yesterday for their summer home at Point St. Baril. West Toronto is to have another church. The Ruthenian Greek Catholic church of the western section of the city has taken out a permit for a church on Franklin avenue, which will cost in the neighborhood of \$25,000.

CLARENDON

A concert under the auspices of the Fire Company will be held in the Masonic Hall tonight. An extensive program of singing and instrumental music has been arranged, and no effort has been spared by the promoters of the concert to make the evening an enjoyable one.

TUESDAY MORNING, AUG. 12, 1913

AUTHORITY OR EVIDENCE.

While Rev. Robert W. Dickie is to be commended for his prudent warning to all and sundry concerning the risks of the seance chamber, it is not to be denied that his pronouncement must have more weight had it been backed by experience, consistency, or investigation.

FINDING THE SCREECH OWL IN HOWL.

The Telegram accuses other newspapers of howling, but it cannot point (with or without pride) to any two double-column howl over the street railway purchase in any newspaper except The Evening Telegram.

HEREDITARY ABILITY.

Among other subjects of endless, and therefore scientific discussion, is that regarding hereditary talent. As a matter of common acceptance, talent does not descend, indeed, to be the son of an unusually gifted father, as a rule infers a handicap on the unfortunate offspring.

HEREDITARY ABILITY.

Exceptions are said to prove the rule, but if there are a sufficient number of exceptions, they become the rule. And looking back over the pages of history, a very good case might be made in support of the theory that ability is to a large extent inherited.

son has triplicated the honor. The premier has either disapproved a theory or is more than usually fortunate.

A PROFESSOR IN POLITICS.

As governor of New Jersey President Wilson revealed himself as an executive of strong individuality and quiet strength. Without any spectacular methods he set himself determinedly to fulfill his campaign pledges, and by persistence and insistence the state legislature no less steadily to the same obligation.

THE ALL RED CABLE.

No one who has followed the course of the movement for a reduction in the cable rates among the imperial dominions can doubt that the only obstacle is created by the companies that control the Atlantic service.

INAUGURATION OF NEW STEAMSHIP SERVICE BETWEEN ST. JOHN, N.B., AND DIGBY, N.S.

Passengers from Ontario points via Canadian Pacific route are now afforded an unexcelled thru service to Montreal, St. John, and the "Land of Evangeline" in connection with new steamship "St. George" which is now in operation between St. John, N.B., and Digby, N.S., daily except Sunday.

WOMAN AND TWO MEN CLING TO BOTTOM OF BOAT IN HEAVY SQUALL.

BROCKVILLE, Aug. 11.—(Special.)—Caught in a squall, a sailboat owned by J. L. Upham, containing Mrs. Upham and her two guests, Douglas J. Thompson and Wilfrid Leonard of Toronto, capsized on the river near the American shore.

MRS. MCCORMICK DEAD AGED EIGHTY-TWO

KINGSTON, Aug. 11.—(Special.)—Mrs. McCormick, aged 82, in death Tomorrow, the day of her funeral, will mark the fifty-fifth anniversary of the day she and her husband moved into their home on Centre street, which they occupied continuously. Sixty-four years ago she was married to her husband, who survives.

THE TELEGRAM IS MISLEADING ITS READERS.

"This journal is honestly convinced that the squandering of \$8,000,000 in the purchase of the Mackenzie electric system is a procedure destructive of Toronto's hopes of cheap light and power, that Toronto's proposed departure from the obligations of the hydro-electric partnership is in error that it is unwise to purchase a hydro-electric movement. Such a journal is not assailing the personality of W. K. McNaught, M.P.P., when it assails the proposals of W. K. McNaught, M.P.P.—Toronto Telegram.

HEREDITARY ABILITY.

Among other subjects of endless, and therefore scientific discussion, is that regarding hereditary talent. As a matter of common acceptance, talent does not descend, indeed, to be the son of an unusually gifted father, as a rule infers a handicap on the unfortunate offspring.

HEREDITARY ABILITY.

Exceptions are said to prove the rule, but if there are a sufficient number of exceptions, they become the rule. And looking back over the pages of history, a very good case might be made in support of the theory that ability is to a large extent inherited.

THE PHILOSOPHER OF FOLLY

BLIND JUSTICE.

I sat and read in the sunset's glow of the time they're having in Mexico, where from 5 a.m. to the curfew bells, the rifle cracks and the bullet sings, and the natives humor their simple souls by cutting lines on the wireless poles or heaving rocks on the railroad tracks; then I said, "The cops in that land are lax. Its climate has points that are mighty fine, but Canada is the place for mine, where the laws are just and the folks are white, and the babies know what is wrong and right. I'd hate to dwell in the midst of strife, where there's nought so cheap as a human life."

THE ALL RED CABLE.

No one who has followed the course of the movement for a reduction in the cable rates among the imperial dominions can doubt that the only obstacle is created by the companies that control the Atlantic service.

INAUGURATION OF NEW STEAMSHIP SERVICE BETWEEN ST. JOHN, N.B., AND DIGBY, N.S.

Passengers from Ontario points via Canadian Pacific route are now afforded an unexcelled thru service to Montreal, St. John, and the "Land of Evangeline" in connection with new steamship "St. George" which is now in operation between St. John, N.B., and Digby, N.S., daily except Sunday.

WOMAN AND TWO MEN CLING TO BOTTOM OF BOAT IN HEAVY SQUALL.

BROCKVILLE, Aug. 11.—(Special.)—Caught in a squall, a sailboat owned by J. L. Upham, containing Mrs. Upham and her two guests, Douglas J. Thompson and Wilfrid Leonard of Toronto, capsized on the river near the American shore.

MRS. MCCORMICK DEAD AGED EIGHTY-TWO

KINGSTON, Aug. 11.—(Special.)—Mrs. McCormick, aged 82, in death Tomorrow, the day of her funeral, will mark the fifty-fifth anniversary of the day she and her husband moved into their home on Centre street, which they occupied continuously. Sixty-four years ago she was married to her husband, who survives.

His Latest Affinity Throws Him Over

Ferdinand Earle Sued for Divorce by Latest in Long Procession.

DORA HIS THIRD WIFE

Complains of Cruelty and of His Attention to Still Other Affinities.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World.

LONDON, Aug. 11.—Dora of the Laughing Blue Eyes, third wife and unnumbered affinity of Ferdinand Pinney Earle, New York post, artist and record producer, described by him at the time of their marriage in June, 1911, as "the dearest, sweetest and loveliest of them all"—inferred to Toronto and correspond today that she is about to seek her freedom.

She said she actually, has begun suit in New York for an absolute divorce, basing her action on evidence she says she has obtained of Earle's behavior on the continent since she parted from him in March.

She is now only twenty-five, twelve years younger than Earle. Her maiden name is Helen Thordora Sidoroff. From her father, an artist, and she is an artist of pronounced talent. She is a very attractive young woman, of tall, slight, graceful figure, with expressive brown eyes, a fine complexion and straight nose.

"How did you come to give yourself to a man of Earle's matrimonial record?" she was asked.

"I knew nothing of his past until after our marriage," she replied. "Whatever his reputation in America, I had lived in a quiet English town, and had never heard of his antecedents. After our marriage his life story was cabled from America to the London newspapers. Clippings were sent to me on our honeymoon by my mother."

"I met Earle before my daughter did," said Mrs. Sidoroff, who was present at the interview. "He was accompanied by his mother when I was introduced to him, and his mother visited me, and I returned to call at their hotel. Before he met my daughter he heard she was an artist, and suggested getting up a sketching party. I thought his instruction would be valuable to my daughter in her work, and brought them together. I supposed that he had come to Toronto, as many Americans do, to follow a course of study."

"Our marriage took place months after I met him," Mrs. Earle resumed. "His mother seemed particularly desirous that we should marry. Perhaps she thought it might reclaim him, but she gave neither my mother nor myself the slightest inkling of his past. I was utterly deceived as to his character."

Earle's love affairs were first brought to public notice in 1908, when he took to his home Miss Julia Kuttner and informed his wife that the newcomer was his affinity and soul mate. The right-tal Mrs. Earle at that time was formerly Miss Emile Marie Fischbacher, daughter of a bookseller on the banks of the Seine in Paris, whom Earle had married in 1902, and by whom he had a son, Harold Erwin.

Mrs. Earle departed for France with a reported money settlement, and obtained a divorce there. Miss Kuttner and Miss Kuttner's mother went to Europe and domiciled themselves in Venice. Their departure was hastened by threats of neighbors to punish Earle without process of law.

Within a few months Mrs. Kuttner divorced a marriage was necessary and a ceremony was performed at the British consulate. Soon afterward a son was born and named Edmund Erwin Earle. In 1910 the second wife sued here for the annulment of the marriage on the ground that Earle was free, under French law, to marry again.

She also charged cruelty, especially following the birth of the child. Her petition of annulment and declared the child legitimate.

Earle had not defended either suit, but while the case was being tried in the case of the second he sailed for Europe. Miss Gertrude Buell Dunn, a bright and young woman, who had been introduced to Earle, was announced as his "advanced" idea. It was announced that together they would work out a new philosophy on the ideal relations of the sexes. Their zeal subsided and they parted without scandal or other public notice.

THE WEATHER

OBSERVATORY, TORONTO, Aug. 11. (9 p.m.)—Pressure is low in Newfoundland and over the western provinces, and a pronounced area of high pressure covers the great lakes. The weather has been fair and comparatively cool from Ontario eastward. In the western provinces showers occurred during last night but today it has been mostly fair and warm.

Minimum and maximum temperatures: Victoria, 64-88; Vancouver, 55-79; Kamloops, 70-84; Calgary, 48-64; Edmonton, 48-78; Battleford, 50-74; Prince Albert, 50-70; Moose Jaw, 47-63; Regina, 53-62; Winnipeg, 52-76; Port Arthur, 42-54; London, 49-73; Toronto, 50-68; Kingston, 46-64; Ottawa, 48-73; Montreal, 52-70; Quebec, 50-70; St. John, 54-64; Halifax, 55-64.

Probabilities—Lower Lakes and Georgian Bay—Easterly winds; generally fair; not much change in temperature; a few local showers in the southwestern portion. Ontario eastward—Fair; not much change in temperature. Lower St. Lawrence—Fine; not much change in temperature.

Maritime—Moderate northerly winds; fair to fine; not much change in temperature. Gulf—Moderate northerly to northwesterly winds; fine; stationary or a little higher temperature.

Superior—Moderate to fresh winds; mostly clear; mostly fair, but few local showers; a little higher temperature. Manitoba—Some local showers, but mostly fair.

Saskatchewan and Alberta—Fairly clear; some showers and local thunders; a little cooler in northern districts.

HAMILTON CITY OF GAY CARNIVAL

(Continued From Page 1)

crowd since dark. It is the entrance ways to the animal shows and pleasure devices which are packed, these and the city hall steps, where hundreds pause each moment to rest for awhile, away from the swirl of the curb. In a moment they are back again, tho, for it is as fascinating as a snake's rise. There is no lawlessness. The town is wide open for pleasure, but not for misdeemeanor.

Mardi Gras Effects. False mustaches, wigs and masks are frequent. One man wears a big sun bonnet, another some a bright colored parasol, at foot in diameter still a third has a feather in his button hole, and when he tickles the neck of each pretty girl that passes and there are thousands of them. The girls are not mere spectators either, they take the offensive in hundreds of cases, tipping off stiff straw hats and showering the crowd with confetti. On the first night of Carnival, no will be still. Now as it draws to midnight the packed area contracts, but there is no thinning out of the crowd.

"Grand Old Man" There. Adam Brown, postmaster of the city, and on many scores worthy of the sobriquet, "Hamilton's Grand Old Man," was the most striking figure at the luncheon tendered at noon by the reception committee to a number of the more distinguished guests of the city. He has passed his eighty-sixth year, and by his vitality typifies the spirit of the week. Like Sam Blake, at the Anglican synod, like Sir William Meredith in the courts of the dam Brown, the very personification of solidity.

He stood up in the banquet hall of the Royal Hotel to propose the toast to "The City."

"When I came to the city 65 years ago," he said, with no quiver of age in his voice, "the only solid-looking building in the place was a stove factory. And it was situated on the spot where we are now hunching. It was a factory. I will never cease, so long as I have a voice to speak, to give my thanks to the men of Hamilton who, in the early days, gave our city the start which has put us where we are today."

Sir John Gibson Speaks. Sir John Gibson responded to the toast, "Our Country," which was proposed by John Gorman, president of the Centennial Association. The lieutenant-

secretary of 1903 Carnival and Old Boys' Reunion.

space of a few hours. Mayor Allan will lay the cornerstone, and the house will be given as a prize to the winner of a guessing competition. Aviation flights will be of daily occurrence. On Thursday evening 20 bands will entertain a military tattoo at the cricket grounds, for which every seat has been sold already. Games and races will figure largely in Friday's program, and the centennial will wrap itself up in a climax Saturday evening when King Carnival will hold away in the centre of the city.

C. A. MURTON, Secretary of 1903 Carnival and Old Boys' Reunion.

MONTREALER IS BITTEN TWICE Falls Into Hands of Two Men Who Work Smooth Bunco Game.

It is not so bad to be bitten once, but few men care to be bitten twice in the same place, under the same circumstances, and by the same persons. So it happened that Paul Vogt, a Frenchman from Montreal, who was bitten by a lion when he was in the city, was bitten again when he was in the city.

Paul Vogt does not understand much English. Yesterday he drew about \$150 from the bank and decided to go back to Montreal. A breezy young man met him as he neared the Union Station and asked him for directions to a good hotel. Vogt did not know and the man came along and asked to be directed to a good hotel. As they were all straggling in the crowd, which was suggested.

How it was worked. Then the latter of the two men drew Paul aside and whispered to him confidentially that he would give him a lesson which cost him \$150 yesterday, and as a result of his expensive tuition James H. Smith, Montreal, and Richard Murphy, Boston, are the only men who were able to direct him to a good hotel.

Men Disappeared. Those blundering Paul hit \$150. He placed his hands in his pockets and pulled out the roll of paper. Then he saw the trick and in great rage rushed to the train to see that the two men did not get away. But they were nowhere to be seen.

The disheartened Paul walked thru the station to Front street and then a friendly hand fell on his shoulder. Another young man, who proved to be Jas. Smith, asked for directions to a hotel. Then he proposed that they have a few drinks. Another drowsy man came along, turned out to be Richard Murphy, so Smith drew the Frenchman to one side and proposed that they would skin the man with coin and they would skin the third man, Murphy.

Smith insisted that they walk along the street so they would not be seen. They walked when Vogt saw Mounted Constable Tuft (325) on King near Spadina he had Murphy and Smith arrested.

It is not believed that the men gave the money to Smith, and some, it is said, belonged to Vogt. The other two crooks will be in the cells shortly, according to the police.

Use Gibbons' Toothache Gum. Sold by all druggists. Price 10 Cents. 246

est city in Canada, and the third greatest industrial centre." Growth of Population.

Mr. Gourlay quoted statistics showing that Hamilton's population has increased 62 per cent. since 1903, the capital investment in her industries 86 per cent, and the wages paid her workmen 256 per cent, and her products 222 per cent.

"And your prosperity is not only manufacturing, but agricultural. You have the best farmers' market in Canada and as a result there is no unworked land in the neighborhood of your city."

President J. A. Hunt of the London Board of Trade said that Hamilton's quick growth was largely due to her early development of electrical energy.

Bishop Clark of Niagara, and Chairman H. J. Waddie of the reception committee were present, but did not speak.

Formal Opening. Centennial week was formally opened at 11 this morning, when Sir John Gibson, with a knife of gold, cut the barrier of ribbon which guarded the gate to the armories. Simultaneously all over the city whistles and bells crowded their jargon of sound and the crowds pressing along every street felt an added thrill as each resident and old boy felt that the big week, long expected, was at last fairly under way.

Nearly all the business houses closed down shortly after 11, and very soon Main street and James street, near the Gore, were almost blocked. Instead of lorries and drays, automobiles held the right of way, and it was a strenuous session for the police traffic squad.

It is hard to realize that such tumult and abandon is to continue for six days, but so much of a program committee can do has been done, and energetically.

House While You Wait. Tomorrow afternoon, at Britannia Park, a two-story brick house is to be built and decorated within the

IMPEACHMENT OF SULZER STARTED

(Continued From Page 1)

with it a recommendation that Louis A. Sarecky and Frederick L. Colwell, and C. B. Borden be members of the committee, held in contempt of the legislature and punished. Sarecky and Colwell are characterized in the report as Governor Sulzer's dummies.

Never in the history of the state has her chief executive been impeached.

After introducing his resolution to impeach, Assemblyman Levy asked that its consideration be postponed until today. This motion was opposed by Minority Leader Hinman, who had championed the governor's cause, and by Assemblyman Sharp, leader of the progressives.

MARVELOUS RIDING AT WINNIPEG MEET

WINNIPEG, Aug. 11.—(Can. Press.)—Forty thousand people filled the monster bleachers at today's stampee, making the largest crowd ever gathered in the west of Canada. The most interesting and exciting event of the day, the wild horse race, was won by Dick Macey of Woodmountains, Sask., and second place went to Red Parker of High River, Alb. Both men gave fine exhibitions.

Stanley Whitney of Letbridge, Alberta, came third, thus giving all the honors of the star event to Western Canada. W. C. Bickle was the only man to keep his seat in the bareback bucking contest, all the others being unseated early in the game.

Blanche McLaughney had a miraculous escape while riding snags. Her mount tumbled completely over on top of her, retaining its feet with Miss McLaughney still in the saddle. She had not even lost her stirrups.

Three steers were killed in the roping contests. Lucille Muphal broke the leg of the steers she roped, threw and tied in 22 4-5 seconds, setting a record for this year so far. The steer was afterwards killed. Another crashed into a post and killed itself, while a third burst thru the heavy wire fence and fell dead near the corral.

MONTREALER IS BITTEN TWICE Falls Into Hands of Two Men Who Work Smooth Bunco Game.

It is not so bad to be bitten once, but few men care to be bitten twice in the same place, under the same circumstances, and by the same persons. So it happened that Paul Vogt, a Frenchman from Montreal, who was bitten by a lion when he was in the city, was bitten again when he was in the city.

Paul Vogt does not understand much English. Yesterday he drew about \$150 from the bank and decided to go back to Montreal. A breezy young man met him as he neared the Union Station and asked him for directions to a good hotel. Vogt did not know and the man came along and asked to be directed to a good hotel. As they were all straggling in the crowd, which was suggested.

How it was worked. Then the latter of the two men drew Paul aside and whispered to him confidentially that he would give him a lesson which cost him \$150 yesterday, and as a result of his expensive tuition James H. Smith, Montreal, and Richard Murphy, Boston, are the only men who were able to direct him to a good hotel.

Men Disappeared. Those blundering Paul hit \$150. He placed his hands in his pockets and pulled out the roll of paper. Then he saw the trick and in great rage rushed to the train to see that the two men did not get away. But they were nowhere to be seen.

The disheartened Paul walked thru the station to Front street and then a friendly hand fell on his shoulder. Another young man, who proved to be Jas. Smith, asked for directions to a hotel. Then he proposed that they have a few drinks. KING FERDINAND LOOKS TO FUTURE

Tells Soldiers to Prepare Their Children to Complete Glorious Work Stopped by Treaty of Bucharest.

SOFIA, Aug. 11.—(Can. Press.)—King Ferdinand today issued a pathetic address to his army. In it he thanked his soldiers for the bravery and devotion they displayed in the war against the "treacherous allies," and declared that their efforts would have been crowned with success had not a series of unforeseen political circumstances paralyzed our strength.

"Pressed on all sides," the address continued, "we were obliged to sign the Treaty of Bucharest, our country not being in a condition to struggle against five neighbors. Exhausted and tired, but not conquered, we had to fulfil our glorious standards until better days. Tell your children and your grandchildren about the gallantry of the Bulgarian soldiers and prepare them to complete one day the glorious work you began."

OTTAWA, Aug. 11.—(Special.)—Sir Wilfrid Laurier opens his autumn campaign by a mass meeting at St. Hyacinthe, Que., on next Saturday. This will be the first of a series of meetings in Quebec and Eastern Ontario. Sir Wilfrid has spent the summer here and has kept closely in touch with political events and leaders all over the country. At St. Hyacinthe all the speeches will be in French. The Hon. Rodolphe Lemieux, Hon. Byrdney Fisher and Hon. Jacques Bureau will be the other speakers.

Sir Wilfrid now represents two seats, Quebec East, and Soulanges, and Sir Adolphe Forges represents two, Montmorency and Charlevoix. It is quite probable that both leaders will decide this month what constituency they will represent in the next house, which will involve three bye-elections in Quebec, three in Ontario, South Bruce, South Lanark and West Lothian, and most probably MacKenzie in Saskatchewan, where Dr. E. L. Cash, M.P., is expected to retire on account of serious and prolonged illness.

Bourassa Holds Aloof. An effort was made to bring Henri Bourassa to the St. Hyacinthe meeting to define his position, but the famous nationalist leader refused to either recognize Sir Wilfrid's status as Canadian-built navy and more than Premier Borden's well defined policy. It is understood that in his St. Hyacinthe speech Sir Wilfrid will deal with the recent events which have been pretty generally accepted as strong indications of Mr. Borden's policy, including the jubilant attitude of the German press at the rejection of the naval bill by the senate, the statement in the British house of commons and house of lords by Right Hon. Mr. Churchill and Lord St. Legers and the recent renunciation by the government of New Zealand the doctrine of colonial neutrality in time of war.

Farm Laborers' Excursions—\$10 to Winnipeg. The Grand Trunk Railway, plus half cent per mile from Winnipeg to Toronto, but not beyond MacLeod, Calgary or Edmonton. Returning \$13.00 from Winnipeg, plus half cent per mile from point east of MacLeod, Calgary or Edmonton to Winnipeg.

Going dates: Sir Wilfrid's campaign will be from all stations east of Kingston in Ontario. August 22—From all stations Toronto to Sarnia, Inclusive, via Stratford, and south thereof in Ontario.

August 25—From all stations north of, but not including main line, Toronto to Sarnia, Tunnel, via Stratford, all stations Toronto, and north and east of Toronto to Kingston.

September 3—From all stations Toronto and east, and east of Orillia, and west thereof in Ontario.

September 5—From all stations Toronto and east, and east of Orillia, and west thereof in Ontario.

This is an exceptional chance to take the "Golden Opportunities," and many prosperous farmers and business men now residing in Western Canada can trace the origin of their good fortune to the "Farm Laborers' Excursion." The route via Chicago is an attractive one, many large cities and towns being passed en route, which breaks the monotony of the journey, there being something new to see all the time. The Grand Trunk Pacific Railway is the shortest and quickest route between Winnipeg, Saskatoon-Edmonton, with smooth roadbed, thru the newest most picturesque and most rapidly developing section of Western Canada.

Full particulars at any Grand Trunk ticket office or write C. F. Horning, district passenger agent, G. T. Railway, Toronto.

PERHAPS HE SANG OH, TOMMY ATKINS

Thomas Atkins Serenaded Humber Bay Residents and Was Arrested.

Thomas Atkins, aged about 30, a man whose real name has been forgotten in the last five years, and who has since then been called by the military pseudonym, disturbed the peace at Humber Bay about 2:30 yesterday morning and was arrested. Atkins insisted on being a whole brass band by himself, and with the assistance of a bottle of whiskey and the adage that "music hath charms," he repaired to a row of houses on Godson road. Despite the downpour of rain and crashes of thunder, Thomas insisted on serenading the ladies and cursing the men, and it was only with the coming of dawn that courage was restored to the peaceful hamlet. Atkins is the man who lost his way in the woods off Party Sound, and when found it took four days to thaw him out. As a result of this little adventure he lost half a foot and several other ounces of flesh.

\$1.40 Post Hope and Return From Toronto, August 12. In connection with A.O.F. demonstration to Post Hope, a special train will leave Toronto via Grand Trunk Railway, at 8 a.m. Wednesday, Aug. 13. Fare for round trip only \$1.40, and tickets are valid for return until Thursday, August 14, 1913. Secure your tickets at city ticket office, northwest corner King and Yonge streets, phone Main 4209.

MILITARY HONORS FOR F. S. CODY

Splendid Tribute to Dead Aviator Who is Buried in Soldiers' Cemetery at Aldershot.

ALDERSHOT, Aug. 11.—(Can. Press.)—The body of F. S. Cody, the Anglo-American aviator who was killed here in a hydro-aeroplane accident on Aug. 7, was buried with military honors in the soldiers' cemetery here this afternoon. Enormous crowds lined the route of the funeral procession, paying a splendid tribute to the popularity of the dead aviator.

The coffin was mounted on a gun carriage and covered with the Union Jack. It was followed to the grave by contingents of all arms and the full strength of the royal flying corps. As it passed the various barracks in the camp the troops turned out and stood with bared heads.

The pipers of the famous Black Watch (the 42nd Highlanders) headed the procession, playing a Scottish "lament," while the bands of the other regiments played funeral marches.

The only military feature omitted from the funeral was the firing of a volley over the grave.

First Shot to Be Fired at St. Hyacinthe on Saturday Next.

OTTAWA, Aug. 11.—(Special.)—Sir Wilfrid Laurier opens his autumn campaign by a mass meeting at St. Hyacinthe, Que., on next Saturday. This will be the first of a series of meetings in Quebec and Eastern Ontario. Sir Wilfrid has spent the summer here and has kept closely in touch with political events and leaders all over the country. At St. Hyacinthe all the speeches will be in French. The Hon. Rodolphe Lemieux, Hon. Byrdney Fisher and Hon. Jacques Bureau will be the other speakers.

Sir Wilfrid now represents two seats, Quebec East, and Soulanges, and Sir Adolphe Forges represents two, Montmorency and Charlevoix. It is quite probable that both leaders will decide this month what constituency they will represent in the next house, which will involve three bye-elections in Quebec, three in Ontario, South Bruce, South Lanark and West Lothian, and most probably MacKenzie in Saskatchewan, where Dr. E. L. Cash, M.P., is expected to retire on account of serious and prolonged illness.

Bourassa Holds Aloof. An effort was made to bring Henri Bourassa to the St. Hyacinthe meeting to define his position, but the famous nationalist leader refused to either recognize Sir Wilfrid's status as Canadian-built navy and more than Premier Borden's well defined policy. It is understood that in his St. Hyacinthe speech Sir Wilfrid will deal with the recent events which have been pretty generally accepted as strong indications of Mr. Borden's policy, including the jubilant attitude of the German press at the rejection of the naval bill by the senate, the statement in the British house of commons and house of lords by Right Hon. Mr. Churchill and Lord St. Legers and the recent renunciation by the government of New Zealand the doctrine of colonial neutrality in time of war.

Farm Laborers' Excursions—\$10 to Winnipeg. The Grand Trunk Railway, plus half cent per mile from Winnipeg to Toronto, but not beyond MacLeod, Calgary or Edmonton. Returning \$13.00 from Winnipeg, plus half cent per mile from point east of MacLeod, Calgary or Edmonton to Winnipeg.

Going dates: Sir Wilfrid's campaign will be from all stations east of Kingston in Ontario. August 22—From all stations Toronto to Sarnia, Inclusive, via Stratford, and south thereof in Ontario.

August 25—From all stations north of, but not including main line, Toronto to Sarnia, Tunnel, via Stratford, all stations Toronto, and north and east of Toronto to Kingston.

September 3—From all stations Toronto and east, and east of Orillia, and west thereof in Ontario.

September 5—From all stations Toronto and east, and east of Orillia, and west thereof in Ontario.

This is an exceptional chance to take the "Golden Opportunities," and many prosperous farmers and business men now residing in Western Canada can trace the origin of their good fortune to the "Farm Laborers' Excursion." The route via Chicago is an attractive one, many large cities and towns being passed en route, which breaks the monotony of the journey, there being something new to see all the time. The Grand Trunk Pacific Railway is the shortest and quickest route between Winnipeg, Saskatoon-Edmonton, with smooth roadbed, thru the newest most picturesque and most rapidly developing section of Western Canada.

CORN BELT GETS TOUCH OF RAIN

Consequently Prices Recede Somewhat. But Wheat Showed Some Firmness.

CHICAGO, Aug. 11.—Rain relief, which however, missed Kansas and most of Missouri, brought about a setback today in price of corn. The finish trading was nervous at a net decline of 3-5c to 5-8c. Wheat closed unchanged to 1-8c higher, about the same as Saturday night to 1-4c up and provisions varying from a shade off to 25c advance.

Heavy selling took place in the corn pit, especially at the opening. Many related hogs were sacrificed and some shorts became aggressive, taking the ground that the current prices more than discounted all of the damage in sight. A noticeable increase in rural offerings of old corn added a good deal to the bearish sentiment that prevailed.

Bullish power on the part of the bulls made itself felt most in the latter half of the day. Southwestern reports were still very serious, heat and drought continuing and the crop being represented as past help in a large number of sections. Besides, the stock on hand in Chicago had fallen off during the week, nearly a round million of bushels.

Wheat is firmer. What developed firmness as a result of opinions that cool temperatures in the Dakotas and Minnesota and the persistent rains there might exert a dampening influence, as a large proportion of the crop in that region is ready to cut. Weakness early was due to sympathy with corn and to lower cables and good sized world shipments.

Thrashing delays and possible impairment of quality, because of wet weather, gave strength to oats. Beans, too, had control at first owing to the break in the corn market.

Provisions ranged lower after a brief uptick, caused by higher prices for hogs. Corn less expensive and selling credited to packers was responsible for the decline.

HOLIDAY IN WINNIPEG. The Winnipeg Grain Exchange was closed yesterday over their Civic Holiday.

NORTHWEST RECEIPTS. Monday. Week Year. Minneapolis 118 82 178. Chicago 144 103 163. Duluth 33 84 3.

EUROPEAN MARKETS. The Liverpool market closed 1/4 higher on wheat, and 1/4 higher on corn.

ST. LAWRENCE MARKET. Receipts of farm produce were 26 loads of hay and one load of straw.

Wheat, fall, bushel, \$0.59 to \$1.00. Barley, bushel, \$0.40 to \$0.50. Oats, bushel, \$0.40 to \$0.50. Corn, bushel, \$0.40 to \$0.50.

CHICAGO LIVE STOCK. Receipts of live stock at the Union Stock Yards were 128 carloads, 2644 cattle, 281 hogs, 144 sheep and lambs, 277 calves, and 30 horses.

CITY CATTLE MARKET. There were 8 carloads of live stock at the city cattle market, comprising 113 cattle, 56 sheep and 30 calves.

CHICAGO LIVE STOCK. Receipts of live stock at the Union Stock Yards were 128 carloads, 2644 cattle, 281 hogs, 144 sheep and lambs, 277 calves, and 30 horses.

MONTEAL LIVE STOCK. Receipts of live stock at the Union Stock Yards were 128 carloads, 2644 cattle, 281 hogs, 144 sheep and lambs, 277 calves, and 30 horses.

Professor Day Brings Back Valuable Shortorns From Great Britain.

Department to Encourage Breeding of Animals for Milk and for Beef.

QUELPH, Aug. 11.—(Special)—Professor George E. Day, of the Ontario Agricultural College, arrived from England today. He was five weeks away and spent all his time visiting the breeders of the famous English milking strain of shortorns.

He purchased twelve head, eleven for the college and one for the experimental farm at Month's in Northern Ontario. This is the first time the government is making to introduce in the province, a good milking cow, which will produce also a carcass which can be fed for beef purposes, or if the cow is kept in her milking abilities, she can be easily fattened for beef. Should the experiment succeed, it will prove a great boon to the province.
