How and Where Shall Canada Sell Her Wheat?

Notwithstanding some frost, western Canada will reap a bumper crop of wheat, much of it high-class—her record yield. It will start off at say a dollar a bushel for No. 1 delivered at Port Arthur. Roughly this means 90 cents for the farmer at Brandon, 80 cents at Calgary and Edmonton, according to distance from elevator at Port Arthur. But wheat is not likely to keep up to a dollar at Port Arthur. Falling prices may be looked for.

Next in importance is the announcement by way of Montreal that the embargo on Canadian wheat and flour going out by the States to the mother country or allies has been modified. A thrubill of lading will not now be required. Up till yesterday it could not, by a Canadian order-in-council, be stored say in New York. Now it may be sent, but the Canadian Government will require some kind of evidence of destination. The United States custom house will see that it is exported—their tariff of ten cents a bushel will bring that about. But that it does not go to an enemy country will rest on the Canadian authorities.

Ontario's wheat crop is badly damaged; what of it is of high-grade will start off at a dollar a bushel; but most of it will sell for less because of damage by the unusual rains and soakings in the stock in the last three weeks. But where will we sell this immense crop of wheat? And where will we get vessels to carry it across the ocean? And if we can't get it shipped out immediately, the farmer loses money on it in storage?

And what is to be the depreciation by loss of the first market because of this storage in Canadian or American elevators? How much can the banks afford to advance on stored wheat? And how much can the banks afford to advance on stored wheat? And how much can the banks afford to advance on stored wheat?

And how is the immense quantity of damaged wheat in Ontario to be utilized? Can a lot of it that is sold to be smutted and sprouted be really sold into fairly good flour and made into flour? And how is the immense quantity of damaged wheat in Ontario to be utilized?

Who is the watch dog for the farmer? Is it the minister of agriculture at Toronto or his brother at Ottawa? And there are a lot of other interesting questions.

Chief of these is, is the British Government prepared to give Canadian wheat a preference, and, if not, then is it prepared to make special offers to supply ships to carry it across either from a Canadian port or an American port?

And if there is not to be a preference in purchase or special provision for shipping across, will the Canadian Government be prepared to take advantage of the present tariff law of the United States and remove our duty of 12 cents a bushel on wheat, and, by taking it off, get entrance into the United States, free of duty, for our crop?

All these are mighty interesting questions to the Canadian farmer; to the Canadian business man and the workmen in Canadian factories here in the east—have to be ready at the moment of the shape or form; for the revenue of our government and its requirements in the matter of war will depend largely on the prosperity of the farmer and his getting money for the immense wheat crop and the best possible price in any event.

There is hardly any doubt as to the immense crop of the Canadian west and of its high class, and of the demand there will be for our hard wheat, we hope, in Europe, and, perhaps, in the United States, where it is always sought for in order to mix with the softer wheat of the American fields now to the south.

It is almost certain now the Manitoba crop will be reaped by Saturday night and sent from all danger, for it will be stacked in good condition, in a ripened state and can remain in the fields until threshed without any great damage. The next week or ten days at the most ought to see the fields of Saskatchewan and Alberta all cut and stacked in almost as satisfactory a condition. We believe the three provinces will have an immense yield of high-class wheat.

And as for the Canadian mills, and they can now grind over 50,000 barrels a day, they will be kept busy, in turning this bumper wheat into high-class flour and have it reach the market as the product of Canada, thus ensuring the production of the Canadian farmer's output to the consuming markets of the world. If we can sell it in Canada, our mills will get lots of work to do; our

Premier Now Well on Homeward Way, Bears Good Tidings.

MORE WAR CONTRACTS

Britain Anxious to Utilize Canada's Resources to Fullest Extent.

Canadian Associated Press Cable.

LONDON, August 26.—Premier Borden is now well on his homeward way. Military necessity has hitherto precluded reference to his departure. The premier, during his last two days in London, had further interviews with Lord Kitchener, Bonar Law, Lloyd George and Earl Grey who came to London specially for conference with him.

The Premier left Euston Station for Liverpool, traveling in the North Western royal saloon. The night before the ship sailed he employed his last few hours in England in visiting Canadians wounded in the Mersey district.

Sir Robert, it is said to say, returns quite satisfied. He will be able to assure Canadian producers of war material that the imperial government is not only willing, but anxious to utilize the resources of Canada to the full. Sir Robert's visit will result in sending to Canada very shortly, emissaries from the munitions department who will make known further requirements to producers in the Dominion.

Effective Co-operation. Premier Borden made the following general statement: "During my visit I have had the advantage of discussing with members of the British Government matters of great moment. I am convinced these discussions will lead to more effective co-operation in the common purpose. From information received on the oil and gas resources of the Dominion is just being completed by Dr. Clapp, an American expert, who was engaged for this work by Dr. Eugene Hanna, director of the mines branch.

The importance of knowing the petroleum resources of the country is seen from the fact that Canada imports annually 200,000,000 gallons of petroleum and its products, while the production within the country is only 8,000,000 gallons.

It is understood that Dr. Clapp found the prospects for petroleum in Alberta very promising, as also the possibility of obtaining oil from the shales of New Brunswick. The latter are said to be better than the shales of Scotland, where oil production is successfully carried on. There is a subsidy of 1 1/2 cents per gallon given by the Canadian Government on all petroleum production.

ITALIANS REPORT MORE SUCCESSES Work of Approaching the Enemy Continues Without Interruption. ENTRENCHMENTS TAKEN Advances Are Being Made in Spite of Intense Fire.

ROMEO, AUG. 26.—(Via Paris, 11.55 p.m.)—The statement of the Italian general headquarters, dated Aug. 26, and made public here tonight, says: "In Val Sugana our troops on the Monte Giavon-Torretto Muso line have extended their ground and occupied points above Trento as far as the positions of Mount Armentera and Mount Salvio. The enemy failed to prevent our advance, and in addition, left a few prisoners in our hands. "In the Zeebach Valley our artillery opened fire on an encampment hidden in the bend of the left bank of the Torrente. The enemy was forced to flee in disorder, pursued by a shower of well-directed shrapnel. "In the upper Isongo region our Alpine detachments captured several strong enemy entrenchments along the steep southern slopes of Monte Ronzon. We made thirty prisoners, including one officer, and took also two machine guns, rifles and a quantity of munitions. "On the Carso front the enemy placed a number of batteries in new positions, with which he opened an intense fire all along the front. Nevertheless our work of approaching the enemy continues without interruption. Yesterday toward the left flank of our lines we occupied fresh trenches, capturing sixty rifles, a searchlight, and various war materials."

COASTS OF SYRIA AND ASIA MINOR BLOCKADED

PARIS, Aug. 26, 11.51 p.m.—The official journal publishes the declaration of a blockade of the coasts of Asia Minor and Syria from the island of Samos to the Egyptian frontier, to date from Aug. 25.

EARL OF ABERDEEN TO VISIT TORONTO IN FALL

Will Attend Annual Meeting of Women's Council With Lady Aberdeen.

LONDON, Aug. 26.—The Earl of Aberdeen, formerly lord-lieutenant of Ireland, who recently took the title of Marquis of Farnham, and Lady Aberdeen have arranged to visit Canada and the United States during the coming fall. Besides attending the annual meeting of the National Council of Women in Toronto in October, they have agreed to address meetings in several cities of the United States in relation to social movements in Ireland.

RUSSIANS SUCCEED IN ACTION AGAINST TURKS

Took Mount Kizilargah in Caucasus on Tuesday Last.

PETROGRAD, Aug. 26, via London, Aug. 27, 1.33 a.m.—The following official communication dealing with the Russian operations in the Caucasus was made public today: "The troops on Tuesday took Mount Kizilargah in the Pasnaie Valley. "Near Van there were engagements between Russian patrols and Kurds. "On the remainder of the front there has been no change."

PETROLEUM PROSPECTS PROMISING IN ALBERTA

Report on Oil and Gas Resources Finds New Brunswick Also Favorable.

By a Staff Reporter.

OTTAWA, Aug. 26.—A comprehensive report on the oil and gas resources of the Dominion is just being completed by Dr. Clapp, an American expert, who was engaged for this work by Dr. Eugene Hanna, director of the mines branch.

The importance of knowing the petroleum resources of the country is seen from the fact that Canada imports annually 200,000,000 gallons of petroleum and its products, while the production within the country is only 8,000,000 gallons.

DEBATE IN REICHSTAG ON MILITARY MATTERS

One Member Was Rash Enough to Criticize the Government.

BERLIN, Aug. 26, via London, Aug. 27, 2.59 a.m.—The Reichstag today indulged in a hot debate on military matters during the war. Only one member of the chamber, Daniel Stuecklen, voiced any criticism of the government, and these were of a minor character and carried no complaints and expressed no desire regarding the conduct of the war. On the contrary Herr Stuecklen paid a tribute to the strategic genius of the leaders and the bravery of the troops.

NO STATEMENT ASKED FROM GREEK PREMIER

While Important Negotiations Are Going on, Venizelos Will Not Be Pressed.

LONDON, Aug. 26, 9 p.m.—Today's sitting of the Greek Parliament was devoted to the election of a vice-president and clerks, according to a despatch to Reuters' Telegram Co. from Athens. There were no interpellations, the opposition and independents deciding that it would be inadvisable to press Premier Venizelos to make a statement regarding his foreign policy while negotiations of vital importance were in progress. Parliament adjourned until Aug. 30.

TEN THOUSAND PEOPLE HEARD DUKE'S MESSAGE

Men Who Compose McGill University Battalion Reviewed and Addressed Before Leaving.

MONTREAL, Aug. 26.—Ten thousand people gathered on McGill University campus this evening, when the Duke of Connaught reviewed and addressed the 323 men who compose No. 3 company, McGill University Battalion, going to the front to reinforce the badly depleted members of the Princess Patricia's regiment. Eight hundred members of the McGill auxiliary battalion, training corps, turned out with No. 3 company.

ALLIED AIRMEN SUCCESSFUL IN BIG EXPEDITION

Sixty British, French and Belgian Aeroplanes Formed Squadron.

BOMBS CAUSED FIRES

Enemy's Encampments at Several Points Were Heavily Bombed.

PARIS, Aug. 26, 11 p.m.—Another big air raid in which British, French and Belgian aviators took part is officially announced tonight. The statement says: "A bombing expedition arranged by the French and British naval and air forces, including in all 60 aeroplanes, at Terzier, in the Pasnaie forest, set forth to the month-long forest, where they started several fires. Every aeroplane came back home. On the night of Aug. 25-26, our aviators dropped 127 bombs on the Noyan station."

Another expedition in which French aviators figured is thus described: "On the 25th our aviators bombarded the German encampments at Pennee and at Bussant, in the Woëvre, where they started a fire. The station and the bivouacs of the Germans at Grandpré, Châtel, Geray and Fleix, in the Argonne, the station at Terzier, in the Pasnaie forest, at Vitry, in Artois, and the station at Boisieux have also been bombed by our aviators.

From aerial activities, only artillery exchanges are reported. The French guns directed effective fire against the German trenches in front of Cerisy-le-Bel, where the Germans again shelled the city of Rheims rather violently.

PAPERS WERE REFUSED TO BRITISH STEAMER

Four-inch rifle Mounted on Deck as Protection Against Submarine Attacks.

NEWPORT NEWS, Va., Aug. 26.—Customs officials here today refused to grant clearance papers to the British steamer Waimana, from Marseilles, Buenos Aires, after it was discovered that the steamer carried a four-inch rifle mounted on her main deck. Treasury officials at Washington were asked for ruling as to whether the Waimana was amenable to the agreement between United States and Great Britain forbidding the clearance of armed British merchantmen for American ports.

The Waimana had put into Newport News for fuel, said Captain Holmes, her skipper, explained that the gun had been mounted as a protection against attacks of enemy submarines. The Waimana is a ship of 10,000 gross tons, and carries a crew of 75 men.

GREEK RESERVISTS CALLED TO COLORS

Officers Visiting Ottawa Say Feeling Runs High Against Germany.

OTTAWA, Aug. 26.—Two officers of the Greek regular army, Captain Ropis Costovos and Capt. Christ. Hungis, both of Athens, are here preparing the 300 Greek reservists here for a call to the colors. According to the officers' feeling against Germany runs high throughout their country and isolated skirmishes are even now taking place with the Turkish troops, so hard is it to restrain the Greeks. They say that wherever they have visited they have found the Greeks ready and willing to respond to a call to fight the Teutonic hordes and Turkey.

INTERESTING DISPLAY OF FALL HATS AT DINEEN'S.

Advance shipments of felt hats by leading makers, including Henry Heath, London, Eng., and Stetson of the States, are now shown at Dineen's, 140 Yonge street. All are choice and becoming models, well up to the reputation of the makers' names they bear. You should call and have a look over them today. As a result of the unsettled weather of late this house has been doing an unusually fine business in raincoats, and the arrival of a new shipment will be good news for many who realize the immense service to be had from this, the most useful of all men's outdoor garments.

BRITISH LOST NINETEEN STEAMERS IN ONE WEEK

Last Seven Days Most Successful for Enemy Since Commencement of War.

LONDON, Aug. 26, 10.17 p.m.—During the week ending Aug. 25, 19-British merchant vessels, with a total tonnage of 76,000, and three fishing vessels, were destroyed by submarines or mines. The week was one of the most successful German underwater craft have had since the commencement of the war.

Fourteen steamers, with a total gross tonnage of 47,898, were sunk by German submarines Aug. 19 and 20. The largest of them was the Arabie. Ten of these vessels were British and four sailed under neutral flags.

TRANSPORT SERVICE ON CHANNEL UNMOLESTED

Not One Troopship Has Been Sunk by Enemy Since War Started.

LONDON, Aug. 26.—It is a notable fact that for nearly a year the Franco-British naval transport service across the channel, by means of which hundreds of thousands of troops have been transported, has been maintained without so far as is known, one single troopship having been sunk by a submarine in these waters.

WEST IN THE THROES OF HARVESTING DAYS

Cutting Now is General, Even in the North, Where Rains Were Excessive.

CALGARY, Aug. 26.—With rising temperatures generally thruout Alberta and Saskatchewan, and cooler nights, the hot cool enough for frost, as is indicated by higher thermometer readings than on recent nights, Alberta and Saskatchewan may be said to be in the throes of the harvest days.

The northern Alberta district is slightly behind the Medicine Hat and Lethbridge districts, but cutting is now general, even in the north, where there were excessive rains early in the season. With rising temperatures everyone is rejoicing in the crop prospects. Some reports of damage were spread because of frosts, which were hardly perceptible, but those well informed on crop conditions think there is little damage from this source.

RESTRICTIONS ON SALE OF LIQUOR IN BERLIN

Government Will Introduce Draconic Measures to Prevent Consumption of Whiskey.

BERLIN, Aug. 27.—The police authorities are attempting to curtail the sale of distilled liquors. It is proposed that the government in the Berlin district forbid the sale of these liquors after 7 o'clock in the evening on ordinary days, and entirely on Sundays and holidays, and the days preceding and following them, and to restrict all sales to brands costing a minimum of 1.50 (1.50) per litre, which is slightly over one quarter. It is said that the government is unwilling to introduce such a drastic measure, but that it favors some restrictions.

SEVERITY OF FIGHTING SHOWN BY CASUALTIES

British Forces Bore Brunt of the Losses at Dardanelles in Past Week.

LONDON, Aug. 27, 2 a.m.—The severity of the recent fighting on the Gallipoli Peninsula is shown by the fact that in the past eight days there have been nearly 800 casualties among the officers of the British forces, the Australians and New Zealanders bearing the brunt of the losses. The casualty list yesterday contained the names of 122 officers and 1350 men.

RUSS FORCE DIVIDED?

Austrians Claim That Wedge Has Been Thrust Into Front.

LONDON, Aug. 26.—Brest-Litovsk, the main Russian fortress and concentration centre for the Bug line of defences, was occupied by the Austro-Germans today. While the Russians offered stout resistance to the invaders during their approach to the fortress, it is apparent that they did not attempt to defend Brest-Litovsk itself, but evacuated it as they did Osovetz, in conformity with their intention, indicated in the despatches from Petrograd yesterday, to take up new positions further east.

A report from Austrian army headquarters in Poland, received in London tonight, says that Austrian cavalry has pushed eastward from Kovel and divided the Russian forces into two groups, which are now unable to co-operate with each other according to advice received from the commanders at the front. It continues: "The Austrian armies operating north of the Bug have gained ground in the direction of the railway connecting Brest-Litovsk with Minsk. They now hold positions about three miles west of the River Lesna. "The wedge thrust into the Russian front by the Austrian cavalry occupying Kovel has been carried farther eastward and widened. The Russian forces are severed into two groups, which makes it impossible for them to co-operate with each other."

LONDON, Aug. 26.—Bombs dropped from an aeroplane in charge of Flight Squadron Commander Arthur W. Bigsworth destroyed a German submarine off Ostend, it was officially announced this evening. The statement follows: "The secretary of the admiralty announces that Squadron Commander Arthur W. Bigsworth, R.N., destroyed single-handed a German submarine this morning by bombs dropped from an aeroplane. The submarine was observed to be completely wrecked, and sank off Ostend. "It is not the practice of the admiralty to publish statements regarding the losses of German submarines, important to the have been, in cases where the enemy has not other sources of information as to the time and place at which these losses have occurred. BRITAIN'S PERIL FROM SUBS. IS VIRTUALLY OVER

Statements of Admiralty and Earl of Selborne Significant

METHODS KEPT SECRET

But Belief That Many Submersibles Have Been Caught is Strong.

LONDON, Aug. 26.—Belief that the British admiralty has been able to devise measures to minimize the danger from German submarines was strengthened today by statements from the admiralty and the Earl of Selborne, president of the board of agriculture.

In the admiralty report of the expedition of the British airman, Flight Squadron Commander Bigsforth, in sinking a German submarine off Ostend, it is significantly stated that it has not been the practice of the admiralty to publish accounts regarding the losses of German submarines, "important to them have been" in cases where the Germans had no other source of information as to the time and place at which these losses occurred. It has been reported for months that a large number of German submarines, variously stated at from 20 to 40, have been caught by the British navy, but today's statement is the only official admission that there are others than those previously announced by the admiralty as having been destroyed.

Message No Longer.

The Earl of Selborne, in concluding an address to a deputation of agricultural landowners, declared that the British navy has the submarine menace well in hand.

In the light of the country's experience with submarines, however, the agricultural and economic policy of Great Britain, including the broad questions of food production, would have to be revised, he continued. The committee which he had appointed to deal with increasing the food supply had recommended that farmers should begin to plant wheat, beginning with the harvest of 1916 and continuing until 1920.

Many Subs. Destroyed.

Since the beginning of the war the British official reports have accounted for but one submarine, besides the one which was destroyed, he continued. The destruction of which was announced today, however, is a very vague reference to submarines being sunk by unarmored ships in the English Channel, but it is a strong statement that a reward offered by the admiralty for the sinking of a submarine has been paid to a British merchantman.

There have been no official intimations as to what method, offensive or defensive, has been taken by the British navy against submarines, although the admiralty previously announced its satisfaction with these measures.

Many Rumors.

Returning Americans have described the new British sport of submarine hunting and have said that great numbers of small, high powered and very speedy motor boats, mounting guns of small calibre, have constantly scoured the coastal waters of Great Britain for months. There also have been repeated stories of an extensive system of submarine nets in channel waters and of one submarine net that extends entirely across the English Channel, with guard boats at the opening.

RED CROSS TO GET BUSINESS WOMEN'S AID

Office Girls and Stenographers Are Contributing Toward Fund for Soldiers.

A fund having the sanction of the local Red Cross Society has been opened to enable the office girls of Toronto to contribute from their earnings as large a sum as possible for use in the present war. Some large offices have a fund of their own, but there are many who have no organization thru which to give.

Other business women following the example of the stenographers and office girls are organizing for Red Cross work, but it is intended to keep all funds contributed by the office girls distinct. It is requested that all wishing to contribute to the stenographers and office girls' fund will send in their contributions to 201 Church street. Any office telephoning to Main 2250 will have their contributions called for if desired.

DRIVE DOUBT AWAY FROM MEN'S MINDS

Forceful Addresses Given at Large Recruiting Meeting in Oakwood.

MADE SPECIAL APPEAL

Citizens Called Upon to Respond When Empire Needs Fighters.

If there were any young men present at the recruiting meeting held last night at Dundrum Heights, St. Clair avenue, who are eligible for overseas service, and who wavered in their duty towards the empire, their doubts must have been overcome after hearing the forceful addresses delivered by Mr. Beverley Robinson and A. Wright and the appeal of Miss Jessie McNab.

Fully 1,000 people were gathered on the lawn which were brilliantly illuminated with electric lights.

John Richardson, who died yesterday, had extensive public career—Funeral Saturday.

John Richardson, clerk of the county court of York died yesterday at the residence of his niece, 9 Water street, East Toronto, after an illness lasting several months.

Mr. Richardson, who was the clerk of the county court since 1894, was one of the best known men in York County of which he was warden in 1886. In April, 1845, he was elected W. M. Richardson was educated at the Scarborough Township Council and from 1878 to 1884 represented that township on the county council from which he retired to accept the nomination for the legislative assembly in 1884 for the provincial house.

PREPARE FOR PICNIC

Big preparations are being made for the picnic and games to be held at the East York Federal Conservative Association at Scarborough Heights Park on Saturday afternoon. A large program of sporting events has been arranged and the gathering will be addressed by Provincial Secretary Hon. W. J. Harris, Hon. James Duff, Minister of agriculture and Joseph Russell, M. L. "In the direction of Vilna our troops which held up the enemy, reinforced, gradually falling back along both banks of the River Vilja.

"On the middle of the front between the Bobr and the Pripet our armies, in conformity with instructions, are retreating to the east. The enemy is pressing our troops only in certain directions, having on the 25th concentrated his principal efforts against Bialystok. During his roads running eastward from Bleik to Kleshish.

"On other sectors of our front, in general, there has been no important change."

Hold Railway Line.
The Germans now are in possession of the whole line of railway from Cholm to Bialystok. The Russians having already evacuated the latter city, the lesser fortresses of Grodno and Oita are now the only strongly defended positions remaining in the hands of the Russians. South of it are the Pripet marshes, which protect the Russian left, and with plenty of roads and three or four railroad lines, it is expected here that Grand Duke Nicholas will make good his retirement if Grodno and Vilna can hold out long enough. Even tho they should fall, military observers say the grand duke would be well on his way to his new positions before the Germans could reach his flank. There is again talk of Russian preparations for a stand, but no indication as yet where this attempt is to be made.

GERMANS TOOK CITADEL

VIENNA, Aug. 26, via London, Aug. 27, 12.40 a.m.—The following official statement was issued tonight at the Austrian war office:

"The fortress of Brest-Litovsk has fallen. Hungarian landwehr under Field Marshal Von Arz captured yesterday the village of Kobovany, south-west of the fortress, and thereby broke the exterior of the fort line. West Galician, Silesian and North Moravian infantry stormed at the same time the forts south of the Villars of Koroscavn. German troops captured the citadel.

"Meanwhile the allies repelled the enemy across the Lesna and in the forest and marshy district southeast of Brest-Litovsk, while our cavalry, burning the Russians from Kovel northwest, threw their rear-guards back near Buchin and Wyzwa.

WOMEN'S SECTION ALWAYS INTERESTS

This Year's Display at Exhibition Should Eclipse All Others.

SERVE AS INSPIRATION

Localities That Have Not Taken Up Soldiers' Comforts Will Do So.

The women's section at the exhibition is always a quarter that draws the crowds. The feminine world naturally gravitates to the spot where evidence of the skill and deftness of their sex are displayed, and for some reason or other, especially, the men are also attracted to the same spot.

Always attractive, this year's display ought to eclipse all its predecessors. The war has influenced every industry and department of life. Unfortunately, effects generally have been depressing and disastrous, but in the case of women's arts, crafts and industries, there has been a wonderful development for the better. The almost lost art of hand sewing has been revived and has become general thru the making of kits and Red Cross equipment, and the work with which our grandmothers loved to beguile the long winter evenings, has been resurrected in the slick, modern and women-appealing styles of the knit-ting needles and the serpentine roll of the yarn.

THE GRAND OPENS WITH "THE ROSARY"

Famous Drama to Be the Offering During the Fair Week.

THE LAST TIME HERE

Important Changes Made in the House for the Convenience of Theatregoers.

Thursday evening, Sept. 2, is the date set for the opening of the Grand Opera House, when Toronto theatre-goers will be offered their last opportunity of witnessing one of the most popular dramas that the stage has seen in years.

"The Rosary," is Edward E. Rose's greatest success, a religious, heart-touching story that has received the voluntary commendation of representative clergy of all denominations. While the central figure that is a Catholic priest, the character is so drawn that the question of sectarianism is not in any way involved. Rev. Brian Kelly is presented as a man of God, whose greatest thought is the good he can do for his fellowman of whatever creed or of no creed, and the actor who portrays the character has caught the author's inspiration in his conception of the role. "The Rosary" tells a modest and unassuming story of how the watchful and protective influence of the good priest ultimately has been wrecked by the evil plotting of one who coveted his neighbor's wife, and sought revenge because his rival had won the love of the woman to whom he paid suit in the days when she was free to choose between them.

Several important changes have been made in the Grand since the close of last season and all have been made for the convenience of the many patrons of the famous playhouse. "The Rosary" will also be presented during the second week of the fair with a special Monday (Labor Day) Wednesday and Saturday.

Time Flies

Whether it be measured by the great city clock or by the sun-dial without which no garden of 68 years ago was complete, it flies fast. We only realize its speed when it has gone by—Twenty years ahead is a long way off, while twenty years ago is but a little while back.

Looking backward will not be without its keen regret if the matter of insurance has been neglected. The yearly premiums on a 20 year endowment may now seem scarcely worth while, but when the policy matures and you hold a cheque for its face value plus several hundred dollars in profits you will feel differently about it.

The policy will fall due when you are in the prime of life, probably when you can use it to the very best advantage. If you are not already wealthy it may start you in business or form the basis of an investment that will ensure ease and comfort for the rest of your life.

In any case you will have the money and the satisfaction of knowing that for twenty years you have done your duty in having your life protected in favor of those dependent upon you.

That protection will be absolutely safe and the returns from your insurance will prove it a first class investment if it is issued by the

Darkness Would Have Aided Them to Sever Turkish Communication.

LONDON, Aug. 26.—Stories of wounded men who have arrived at Alexandria tell of how nearly the allies came to gaining a great success in one of their attacks. An Australian officer declared that if the allied forces had had two more hours of darkness they could have covered 400 yards of ground which separated them from the Sari Bair Hill, generally known as Hill 971.

Once this hill was in the allies' hands, the officer declares, the Turkish communications would have been cut, and it was for the possession of this hill that the Dominion troops fought so bravely but fruitlessly.

SIXTY-TWO FRENCH AEROPLANES IN RAID

Many Bombs Dropped on Famous Dellinger Iron Works.

BIGGEST AERIAL RAID

Berlin Report Claims Four Machines Were Brought to Earth.

LONDON, Aug. 26.—Announcement of an air raid on the largest scale attempted since the war began is made in an official French communication today.

They flew a distance of more than 150 miles and returned from a French aviation camp in the Vosges region to their destination, northwest of Metz.

The statement reads: "The raid consisted of four groups and including a total of 62 aeroplanes, flew over the heights of Dellinger, where there is a factory where shells and armor-plate are made.

"On Aug. 26, at 11 o'clock, a French aviator threw down bombs on the railroad station of Offenbourg, in Baden, 17 miles from Karlsruhe. At this point there is an important railroad junction in the grand duchy.

"The statement reads: "The raid consisted of four groups and including a total of 62 aeroplanes, flew over the heights of Dellinger, where there is a factory where shells and armor-plate are made.

Official Report. "During the day of Aug. 24, a French aviator threw down bombs on the railroad station of Offenbourg, in Baden, 17 miles from Karlsruhe. At this point there is an important railroad junction in the grand duchy.

"On Aug. 26, at 11 o'clock, a French aviator threw down bombs on the railroad station of Offenbourg, in Baden, 17 miles from Karlsruhe. At this point there is an important railroad junction in the grand duchy.

The German report says that four of the French machines in the attack near Saarlsruhe were brought down, one of them, however, falling behind the French lines.

KILLED ON WAY HOME FROM SAN FRANCISCO

Mina McGrath, Port Dalhousie, Met Instant Death When Struck by Wagon.

ST. CATHARINES, Ont., Aug. 26.—One hour after a telegram arrived last night at Port Dalhousie, announcing the departure for home from San Francisco of Miss Mina McGrath of this village, a second message came stating that she had been instantly killed by the pole of a hay wagon in the outskirts of the western city when the driver was endeavoring to successfully meet another party at her uncle's daughter of Captain and Mrs. Daniel McGrath of Port Dalhousie, and was not accompanied by her uncle, who she had been on a visit to her uncle, Governor O'Neill of Indiana, and had been attending the San Francisco Exposition.

BROADVIEW BOYS HOLD FALL FAIR AS USUAL

Have Made Arrangements for Finest in Record in Every Class of Exhibit.

PAY ENVELOPE IN MAIL

Miss Dorroff May Claim Money Lost at Postoffice.

While posting several letters at the general postoffice two weeks ago, Miss Dorroff dropped her pay envelope in the box with the letters. The envelope was found by one of the sorters and handed over to the postmaster, W. B. Rogers, and if Miss Dorroff will call at Mr. Rogers' office in the postoffice the envelope will be handed back to her.

SUIT AGAINST CITY

In a writ issued at Osgoode Hall, Thobee Warner, Martha Rowe and Henry Rowe claim \$3000 damages against the city for trespass on Lamb avenue. A drain or sewer is the cause of the litigation.

EXPECTS ENROLMENT WILL BE STATIONARY

Provision Being Made at University to Accommodate Usual Number of Students

Altho a slight decrease in the enrolment figures at Toronto University is looked for, it is not expected that the falling off will be very large. About the same number of students have written the students' book department for textbooks for next year, and this should form a basis from which to judge the total number which will be enrolled.

In placing the orders for the ensuing college year, R. J. Hamilton, the manager of The University Press, stated that he had made a reduction of only ten per cent. on the supply of books secured from England compared with previous years, and a 20 per cent. reduction on Canadian and American textbooks. According to indications, he expects the second, third and fourth years in arts would be nearly as large as ever, but that the attendance in science and medical faculties would be materially lessened because of the number who have left on account of military service.

LITTLE TRADING FOR LIVE STOCK

Market Quite Large Enough to Supply All Local Demands.

MORE SHEEP AND LAMBS

Twelve Hundred Came in, But Slow Opening Sale Found.

The receipts of live stock at the Union Stock Yards on Thursday numbered 34 cars comprising 184 calves, 85 calves, 940 hogs and 1200 sheep and lambs.

The local market of the week with only 200 head of cattle was quite large compared with the demand. There was little trading done, some cattle being held over for the demand.

Another large shipment of twelve hundred sheep and lambs found a very slow opening trade and much easier. A good many eastern buyers slipped in and the total made was above the average.

Choice butchers' cattle, \$7.75 to \$8.25; good at \$7.25 to \$7.75; medium, \$6.50 to \$7.25; common at \$6.25 to \$6.75; inferior choice cows at \$6.50 to \$7.15; good cows at \$5.75 to \$6.50; medium cows, \$5.25 to \$6.00; common cows, \$4.75 to \$5.25; calves, \$3.50 to \$4.75.

Choice veal calves, \$10 to \$11; good, \$8.50 to \$9.75; medium, \$6.50 to \$8.50; common, \$5.75 to \$6.75; grass, \$4.50 to \$5.75.

Choice milkers and springers at \$85 to \$100; common at \$70 to \$85; common cows at \$45 to \$55.

Light shewy sheep at \$3 to \$5; yearlings at \$7 to \$8; lambs, \$3.50 to \$5.

Hogs. Selects, weighed off cars, \$9.15 to \$9.40; \$9.00 fed and fatted, \$8.65 to \$8.90; \$9.00 being deducted for feed, \$8.65 to \$8.90; and thin, light hogs, \$8 off for sows, and \$7 off for pigs for prices paid for selects.

Representative Sales. Cars of stock on Tuesday, Wednesday and Thursday. Good butchers, \$7.75 to \$8; fair to good, \$7.25 to \$7.75; medium butchers, \$6.85 to \$7.15; inferior choice cows at \$6.50 to \$7.15; good cows, \$5.50 to \$7; medium cows, \$5.25 to \$6; cutters and canners, \$4 to \$4.75; best bulls, \$3.90 to \$5.85; medium milkers, \$5 to \$5.50; stockers, \$3 to \$3.50; calves, \$3 to \$3.50; milkers and springers, \$30 to \$37 each.

Slackers Must Fight Says Earl Selborne

Burden of Britain Made Heavier by Reverses of Russians.

LONDON, Aug. 26.—Something in the nature of conscription, the term was not employed, was fore- shadowed by the Earl of Selborne, president of the board of agriculture.

In an address this afternoon to a deputation of agricultural land owners which visited him in London, the Earl said: "Many more men have got to join the army, whether voluntarily or compulsorily," said the Earl. "The agricultural laborer has done his part nobly in this war, but the response has been very unequal over the country, and I am afraid that during the next year men will be taken from districts and farms whence hitherto they have not gone.

"What I shall aim at and Earl Kitchener has been very sympathetic is to leave the farmer his foreman, stockman, carters and shepherds, but the rest of the work will have to be done by women or men not hitherto engaged in agricultural work," Earl Selborne said.

"We have a greater burden on our shoulders at the present time than at six months ago," he said. "The financial strain is going to be very great and the Government is going to demand from every class greater and greater sacrifices."

Ontario Hospital Helps Recruiting

Action of Legislature Has Provided Stimulus and Completion of Scheme is Urged.

In further support of proper measures for the care and protection of soldiers who return from the front, the Ontario Hospital, a resolution was passed at the general meeting of the Citizens' Recruiting League of Toronto. It follows:

"The establishment of an Ontario hospital, as decided by our local legislature, has proved a splendid stimulus to recruiting. Statements of our returned wounded and invalided soldiers, of the work now being done by our Canadian hospitals, urged that with the ever-increasing army overseas, now amounting to almost 100,000, our committee desire to urge upon the Ontario Government the completion of their hospital at the present time, and a possible early drive against the enemy, which will find the present establishment inadequate to the demand upon them.

"The league desire to express their satisfaction that a minister of the crown, in the person of the Hon. Mr. D. C. Bennett, has personally visited the work. We suggest that the Citizens' Recruiting League confer with the minister and urge upon him, as the government of Ontario and offer their co-operation in arranging for the care of returned and invalided soldiers."
