Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. HISTORICAL.

THE necessity for a larger Cemetery near the city was forced upon the attention of the citizens early in 1847. The Old Burial Ground within the limits of the city was about to be closed by law, and the ground near the Marsh Bridge, which exclusively belonged to the Church of England, with a small area, was rapidly filling up, while the population of the city was gradually increasing. Under these circumstances a number of public spirited citizens, desiring to interest in the scheme all classes and denominations, prepared and addressed a circular to the office-bearers of the several churches in the city, pointing out the crowded condition of the cemeteries then in use and appealing to them to join in the effort to procure a larger one. All responded to this appeal except the Roman Catholics and Methodists, they having cemeteries of their own. The result was the appointment of a general committee to select a site and place the scheme on a business basis. After a lengthened and labored investigation of all the localities in the vicinity of the city likely to be suitable for the purpose, the committee concluded to purchase seventy acres of land from James Peters, Junior, Esquire, and forty acres from Henry Gilbert, Esquire, forming a part of the present site of the Cemetery. The price paid for this property was ten thousand four hundred dollars, a lot being reserved for each of the proprietors. A subscription list for stock in a proposed company was then prepared. Each share was placed at ten dollars, and in a very short time the stock was all taken up. A meeting of these stockholders was immediately held, when twelve directors were chosen, who prepared a bill for the incorporation of the company, which was finally enacted by the Legislature of the Province on 30th March, 1848.

By the terms of this Act, it will be seen that the capital stock of the company was twelve thousand dollars, which was expended in paying the purchase money of the property, and in laying out and improving the grounds. As lots were sold this stock was paid off and cancelled, and there is none of it now outstanding.

Last year (1897) the Cemetery was enlarged by the purchase of the adjoining property, making the total area now to be one hundred and forty-four and a half acres.

BY-LAWS.

ARTICLE I.

ANNUAL MEETING.

The annual meeting of proprietors of lots in the Cemetery of a size not less than one hundred and fifty square feet shall be held on the first Monday in April in each year, for the election by nomination and ballot of twelve directors for the ensuing year, and for the transaction of other business connected with the Cemetery.

Notice of each annual meeting shall be published by the secretary during at least the six consecutive days, not including Sundays, immediately preceding a meeting, in one newspaper published daily in the city of St. John.

ARTICLE II.

DIRECTORS.

Pursuant to section six of the Act of Incorporation the directors shall, at their first meeting, by nomination and ballot, elect the president of the company for the ensuing year from among their number, and shall also at the same meeting, and by the same method, appoint a treasurer, secretary, and superintendent, to hold office during the pleasure of the directors, or until, but not later than the first meeting of directors following the next annual meeting.

Pursuant to section ten of the Act of Incorporation vacancies among the directors may be filled by the directors. In the event of a vacancy in any of the offices above provided for, such vacancy may be filled at any regular or special meeting of the directors, the person then appointed holding office during the balance only of the period for which his predecessor was appointed.

In the event of the omission or neglect to appoint the treasurer, secretary, or superintendent at the proper time for such appointment as above set forth, it shall be lawful for the directors to make such appointments at a special meeting of directors to be called forthwith upon the discovery of such omission, and at such meeting to confirm and ratify all transactions of the acting officials during such intervening period.

Neither the secretary, treasurer, or superintendent may be members of the board of directors. Their salaries for the ensuing year shall be determined annually by the directors.

The directors shall meet quarterly on the first Monday in July, October, January and April, or at the call of the president; special meetings shall be called by the president at any time when thereto requested in writing by three directors.

BY-LAWS.

It shall be the duty of the secretary to attend all meetings of the corporation and of the directors, and to keep the minutes of such meetings; to receive applications for sales of lots and to lay the same before the committee on lots; to draw all conveyances directed by such committee, numbering the lots consecutively as sold, and collecting from each purchaser on behalf of the corporation the sum of one dollar for each conveyance; to keep a register of all such conveyances of lots, and of assignments and transfers of the same; to prepare and execute under the direction of such committee, and on behalf of the corporation, contracts with lot owners for the annual or perpetual care of lots, and to keep a detailed record of the same; to keep a record of all interments in the Cemetery, showing name, age, residence and occupation of the person interred, and the number of the lot where interred; to preserve in a portfolio all plans of lots which may be deposited with him for safe keeping, and generally to do and perform all such other acts and duties as may at any time be ordered by the directors.

It shall be the duty of the treasurer to take charge and custody of all the moneys, securities, and other evidences of property belonging to the corporation, subject to the control of the executive committee; to make, under the direction of such committee, investments of such of the funds of the corporation as may be received under contracts for the perpetual care of lots; to collect all amounts due the corporation for sales, contracts or services of any kind; to purchase all supplies required by the corporation and to pay all bills therefor after their approval by the president or by the chairman of any committee duly authorized by the directors to order an expenditure; to keep proper books of account showing separately the general fund of the corporation and the perpetual care fund, which books shall be balanced annually or oftener at the pleasure of the executive committee; to furnish at the annual meeting a statement of the yearly receipts and expenditures to the 15th of March in each year, and of the financial condition of the corporation, showing separately the general fund and the perpetual care fund; and generally to do and perform all such other acts and duties as may at any time be required of him by the directors. president on motion, carried, authorizing him to do so. Vacancies in the committees may be filled in the same manner as the committees are respectively chosen.

At each meeting of the directors the standing committees and the temporary committees then existing shall make a report showing all important matters that have received their attention since the last meeting, and what has been ordered or performed by them in connection therewith; the directors may thereupon take such action upon the matters reported as may to them seem desirable.

ARTICLE VIII.

EXECUTIVE COMMITTEE.

The executive committee, except as hereinafter specified, shall have general supervision of all the business of the corporation; the control of the funds belonging to the corporation; the making of investments and reinvestments, through the treasurer of the "Perpetual Care Fund," under such limitations as may be prescribed by the by-laws and the Act 61 Vic, Cap. 60; the control of the superintendent and officers and servants of the corporation; the general oversight and charge of the grounds, trees, shrubs, avenues and fences within the Cemetery, with power to order such improvements or alterations as they may think desirable; and generally the supervision, direction and control of all other requirements of the corporation not specified as within the jurisdiction of the committee on lots.

ARTICLE IX.

The committee on lots shall have general supervision and control of all sales, locations, and enlargements of lots, the settlement of values of lots, the fixing of boundaries and settlement of questions relating thereto; the determination of questions of descent or representation under the Act of 3rd May, 1853; the issuing of deeds; the form and making of contracts with proprietors of lots for the annual or perpetual care of such lots, or for the care, repair or preservation of monuments or erections thereon.

The committee on lots shall at least once in each year inspect each lot concerning which a contract for the care thereof shall have been made with the proprietor, to see that the contract has been properly performed.

ARTICLE X.

LOT OWNERS AND LOTS.

All present holders of lots within the premises owned or controlled by the company, and all subsequent grantees of lots therein shall hold the same subject to the limitations following:

1. The said lot shall not be used for any other purpose than as a place of burial.

2. Subject to the approval of the directors of the company or the executive committee, and to the by-laws and regulations of the company, proprietors of lots may erect and place upon such lots any vaults or monuments, with suitable approved inscriptions, and may also, subject to the same limitations, cultivate upon such lots any trees, shrubs, plants or flowers. In the event of such approval to any such erections, monuments, inscriptions, or growth being withheld or being subsequently withdrawn, the same shall be removed by the proprietor or by the directors or executive committee, their servants, agents, or employees.

3. Trees once planted upon any such lot shall not be cut down, removed, or in any way interfered with, except by orders of the directors or the executive committee.

4. Except as hereinafter in this paragraph specified, no work of any kind shall be performed in the cemetery, whether on public or private lots, by other than the authorized employees of the company, or by persons contracting with the company. Work may be done on private lots by the owners, personally, or by workmen permanently in their employ, for purposes not connected with the cemetery; such workmen to be first approved by the directors or the executive committee, and their names communicated by the secretary to the superintendent. Skilled workmen may be employed by lot owners for the erection, maintenance, and repair of monuments or monumental work. The proprietor shall be responsible for all injury done either by himself, or his employees, or workmen to the grounds or other property of the company, or of any other proprietor, and for the removal of all rubbish that may be made in the performance of the said work. The proposed grade of lots must be submitted to the superintendent, and lots when sodded must not be higher than the adjoining lots. All work permitted by this paragraph shall be subject to the direction, supervision and control of the superintendent.

5. Proprietors may not place upon any lots any iron-work, or wire-work, nor any form of fence, coping, edging, hedge, or other enclosure.

6. The deed hereafter to be issued upon sales of lots shall be in the form set forth in Appendix A to these by-laws.

Proprietors of lots of 150 square feet in size shall be entitled to attend meetings of the company, and to vote thereat on all questions under consideration.

ARTICLE XI.

ANNUAL AND PERPETUAL CARE OF LOTS.

The directors, or the committee on lots, may contract with any proprietor for the perpetual care of any lot within the Cemetery, which contract may be for either of the following three classes of service, namely:

1. For the care of grass only, which is designed to cover the keeping of the grass in good condition and properly cut.

2. The care of the grass as contemplated in the first class, and also the care of such trees, plants, or shrubs as may be furnished for or placed upon the lot mentioned in the contract, the contract not, however, to include the furnishing of such trees, plants, or shrubs or the replacing of the same when dead or destroyed.

3. The care contemplated in the first and second classes, and also the care of such granite, stone, marble, or other work upon such lot as may be designated in such contract, and the care of such additional granite, stone, marble, or other work thereafter placed upon such lot, and which the directors or the committee on lots may by written indorsement upon the contract agree to include in the same.

The contract value of the first class of perpetual service on a full lot of 150 feet square, and also on a half lot, shall be sixty dollars. One lot and a half, one hundred dollars.

For the second and third class of perpetual service on such lots the contract prices shall be of such amount as may be agreed upon by the directors or the committee on lots and the lot owners, due regard being had to the size, nature and value of the monuments, or monumental work, and the extent of the work to be performed.

The contract value for the first class of annual care or service shall be:

For a full lot — 150 square feet.....	\$3 00
For a full lot and a half lot	4 00
For a half lot.....	2 00

The directors, or such committee, may refuse to grant perpetual care upon any lot, the condition of which is detrimental or unsatisfactory to them.

The "Perpetual Care Fund," established under the Act of Assembly 61 Victoria; Cap. 60, Sec. 10, shall be kept invested under the direction of the executive committee in bonds or debentures as therein specified, or on deposit in the Banks named.

ARTICLE XII.

The directors or the executive committee may set apart within the Cemetery a plot, tract, or section (to be known as the Single Care Section), of size and location by them considered suitable and convenient, for the purpose of selling the same in small allotments for single graves or single interments. The whole of such plot, tract, or section shall be maintained by the company under perpetual care of the first class, and for each interment therein there shall be collected the sum of seven dollars, with an increase of two dollars should such interment be made on Sunday. Of such sum of seven dollars, or nine dollars, as the case may be, one dollar and fifty cents shall be collected on account of the Perpetual Care Fund, and shall be added thereto.

The lot committee may adopt a simple form of Perpetual Care Contract securing to the holder thereof the perpetual care of the first class of any grave within the said section, and such contract may be signed by the superintendent on behalf of the company, or may be executed in such other manner as the said committee may designate.

No mounds shall be permitted over or upon any grave or graves within the Single Care Section. The lot committee may make, alter, or vary regulations relating to the size, quality, or design of the head-stones or markers which may be placed within such section.

Report of Directors.

St. JOHN, N. B., April 4, 1898.

ST. JOHN RURAL CEMETERY COMPANY:

Gentlemen:—The directors beg to submit, for your information, their fourth report, under the new regime, of the work accomplished or in progress during the past year.

They have completed the design of filling, and grading the gravel pit, so called, and the lots near it, making the section there very attractive. The lots in it are all drained by a thorough and expensive method, and are now ready for sale.

The improvement of the section at the front, or marsh, entrance of the Cemetery has been commenced, and they hope to have it finished in the course of the present season. Drain pipes eighteen inches in diameter are laid down from end to end of it, which will make all the lots there perfect so far as drainage is concerned.

But the principal and most important achievement of the year has been the purchase of the adjoining property, consisting of $34\frac{1}{2}$ acres of land, with a dwelling house and barns, and making the area of the Cemetery now to be $144\frac{1}{2}$ acres—sufficient to supply the wants of the city for a century.

The proprietors of lots, at a very recent meeting, approved unanimously of this addition to the Cemetery and of the issue of debentures to the extent of \$4,500 for the payment and improvement thereof. They approved at the same time of a Bill, which has since become a law, embracing sundry provisions regulating certain features of their business, and exempting the land from taxation of all kinds.

There was a little uncertainty in the minds of some persons as to the legality of the perpetual care contracts entered into by the company, and as to the perpetual safety of the moneys received by them on this account. These doubts are now set at rest, as the Act provides for them in future, and makes the moneys now absolutely secure.

The directors have repeatedly called the attention of the lotholders to the advantages of placing their lots under perpetual care. They can do so now with the fullest assurance and authority. It relieves them for ever of any anxiety on account of the state of the place where the remains of those they love are laid; it proves to all that they are not forgotten, and at the same time each lot so dealt with adds to the attraction of the whole Cemetery, and thus benefits every one.

It may be useful and proper for them to state that the Act in amendment of their charter legalizes the issue of debentures, including those now outstanding, to \$10,000, and extends the rights and powers of the "Joint Stock Companies' Act" to this company. And while it does not greatly enlarge the powers of the company, it clearly gives to them, without the necessity of inference or argument,

those general powers which are frequently called, though rather indefinitely, the inherent powers of a corporation. For example these are:

The power of the directors to make by-laws for all purposes of the company, subject to confirmation by the stockholders.

The power in the directors in all things to administer the affairs of the company, and to make or cause to be made for the company any description of contract which they may by law enter into.

The right is granted of acquiring, holding, or conveying real estate for the purposes of the company.

The company may, if desired, change its name without appealing to the Legislature by simple petition to the Governor in Council.

A copy of any by-law of the company certified under seal is *prima facie* evidence in all courts.

The right is given to make promissory notes and bills of exchange if so desired.

The company may maintain any form of action against any of its members.

It follows now from this outline of the enlarged powers given to the company, and in order to quiet any doubts as to the legality of their by-laws, they deemed it to be advisable to revise, amend, and consolidate them. This work has been carefully done without altering or changing materially any single by-law. They are put in such a form as any court of law may recognize and enforce them if necessary. The directors recommend that they be now approved and enacted, and together with all Acts of the Local Legislature relating to the company be printed and circulated among the proprietors.

One great object which they had in view in acquiring possession of the Trafton property was to secure a proper drainage of a large section of the Cemetery; another was to make a new entrance into it from the Westmorland road on an easier grade than the present one. The drain is completed, but to construct the new avenue it will be necessary to borrow a sufficient sum for that purpose. This work can be done this year, and in future years, when the land adjacent to it is properly graded, laid out with roads and paths through it, on some artistic design, the whole aspect of this section will be so changed as to form the finest part of their grounds. The proposed new avenue will be 40 feet wide and 1,200 feet in length. It will be a grand approach to the Cemetery. Trees will be planted on either side of it as soon as it is in order and the land prepared for them.

There is another improvement which they have long desired to effect, and that is the construction of a shelter house in a central part of the Cemetery. It is necessary for several good reasons, and it can be made both useful and ornamental. It will at the same time clear and dress up a part of the Cemetery now very unsightly, unfit for internment, and difficult to improve in any way.

To secure both of these improvements they recommend that \$1,500 be borrowed at four per cent. interest per annum, payable in fifteen years from the first of May next.

They have considered for some time that the location of single graves was quite unfit and unsuitable. It was out of the way, on the side of a hill, and

otherwise very objectionable. To remedy this state of things they have set apart a section of their grounds which is both bright and pleasant, and easy of access from several directions. The price of a grave is reduced, and, in future, it will be cared for by the company in perpetuity without any additional charge to the owner. Thus due respect and honor will be paid to the remains of those interred there. A by-law to govern this section will be submitted for your approval.

The financial position of the company is clearly presented in the accounts of Mr. F. O. Allison, secretary-treasurer. These have been carefully audited and pronounced to be correct by Mr. R. Murray Boyd, whose report is submitted therewith:

	\$6,012 08

It thus appears from this statement that their receipts have fallen short of their expenditure to the extent of \$1,001.91. The reason for this can be readily explained. They retired a bond of \$200, paid for the washout in 1897; for new drain tiles, \$169; for new carriage house, \$185; trees, \$118 — charges some of which will not be repeated. On the other hand they have hay for sale valued at \$250; slate vaults, \$100, and \$246 still uncollected on annual care account.

They also expended \$60 in obtaining full and complete indices of the names of all the interments in the Cemetery. This work was necessary owing to the difficulty and delay in completing a search through the Cemetery records, and has already been found to be extremely useful. The total number of interments recorded is 12,933.

The Perpetual Care Fund continues to grow rapidly, and will do so still more rapidly when it becomes generally known that moneys on this account are now

placed under the guardianship of the law. The number of contracts entered into last year was twenty-five—making the total to be ninety-three. The moneys received was \$3,149.50, making the total now to be \$9,244.79.

They have referred to the purchase of the Trafton property and the reasons for it.

They paid for it.....	\$3,155 00
And the erection of fences, a new roof on the house, painting it and putting it in order, repairing barns, etc., etc., and a new drain through the property.....	1,351 96

Bonds on debentures at 4 % were issued to pay these charges to the extent of	4,500 00
Leaving a balance to debit of.....	<u>\$6 96</u>

The funded debt of the company amounts to \$6,700—\$2,200 at 5 % and \$4,500 at 4 % interest.

A report is submitted from Mr. J. P. Clayton, superintendent, giving in detail an account of work done during the year. He has discharged the duties of his office to their entire satisfaction.

They addressed a memorial to the Marine Department of the Federal Government calling attention to the neglected state of the Seamen's Lot, and urging, for several reasons, that an appropriation be made towards it. They offered to accept \$1,000 to put and keep it in perpetual order. Correspondence is still proceeding on the subject, and they hope to receive a favorable reply in a short time. The matter has been brought before Parliament by Mr. Ellis, to whom they are much indebted for the interest he has taken in it.

Complaints have been made to them of the defective drainage of certain lots in some old and long settled sections. They hope to apply a remedy as far as possible this year, but it must not be forgotten that this work ought to have been done when the lots were purchased many years ago. It is scarcely reasonable, to say the least, that the present directors should be held responsible for the neglect of their predecessors. In the new sections drainage is provided for, and considered to be absolutely essential before disposing of a lot.

It must also not be forgotten that any work which they now undertake is done to the best of their ability, and with the utmost desire to secure the best results and please every one interested. But, nevertheless, they sometimes fail in their efforts, and while submitting to fair criticism, ask that due consideration be extended to them for good intentions, and to their successors in office.

Respectfully submitted,
