"NORTHWARD HO" WILL BE CRY OF FEW YEARS HENCE

Minister of New Ontario Paints Vivid Word Picture of Great Northern Land of Promise—A Thousand Miles of Splendid Farms.

In Hon. W. H. Hearst the provincial government has got a minister who knows the extent and possibilities of New Ontario as few other men do. Before the members of the North Toronto Liberal-Conservative Association last night the minister of lands, forests and mines gave a graphic account of what was, what is, and what shall be in the development of Ontario's great northland. It was an address brimming over with optimism and Mr. Hearst's remarks were put in a remarkably clear and forceful manner. George Stevenson, president of the North Toronto Liberal-Conservative Association, occupied the chair and introduced Hon. Mr. Hearst, as "the man who will take good care of himself and also of New Ontario." (Applause.)

Hon. J. J. Foy, who was billed to speak, was unfortunately unable to be present on account of another engagement.

The outstanding feature of Mr. Hearst's address was his enthusiasm regarding the possibilities of developing New Ontario, now that the provincial government have got a sympathetic administration at Ottawa.

Simple Justice. "The promise of aid from Mr. Borden's government for developing New Ontario was no election talk," said he. It is simple justice this, that has been denied us in the past. The Dominion should help the province because the Dominion gets the benefits of building up and colonizing New Ontario. Mr. Borden appreciates that.

Mr. Hearst explained that New Ontario must be considered from the standpoint of extent and possibilities. He then showed the view he had of it for the future. Something of the immediacy of that great country is learned by the fact that the field crops produced there last year were \$203,000,000, and there were still 116,000,000 acres held by the crown. West of Port Arthur there were 26,000,000 acres of good land. The speaker contended that the route of the main line of the C. P. R. gave the impression of barrenness all around, and the route of the Soo line also encouraged this idea. The latter railway, for cheapness of construction, was built near the shore line, and all the vast resourceful country round about left untouched and undeveloped. "Northward Ho."

There are actually 30,000,000 acres north of the height of land, and this great area will be fruitful when the western provinces are using fertilizers. The cry in a few years will be "Northward ho," to the great clay belt of New Ontario, instead of to the provinces of the west. Even now, the present government is spending \$482,000 in developing the northland, \$4 to every one of the Liberals spent on developing the province when they were in power.

Hawkes is Busy. Mr. Hearst referred to the great work which Commissioner Hawkes was starting, and outlined the plan to have Britain co-operate with Canada in sending out immigrants from the motherland to people New Ontario. "Millions of acres of good land as the sun shines on," was the way the minister described it. The agricultural wealth, forests and minerals were also dealt with, while a word of praise was given to the Lake Superior Corporation for the work it is doing.

Nine forest reserves, containing nine billion feet of lumber, was something to show in the government's policy of reforestation.

In concluding, Mr. Hearst urged the people of Toronto and all over Ontario, to use their interest, their public spirit, and their money to help the government to roll forward the development of the northland.

Controller Church also made a few remarks, saying that "Cold storage justice" was what Ontario had been getting. "This is Ontario's era," he declared, "and the St. Lawrence must be deepened, the Intercolonial Railway extended to Toronto, the T. and N. O. Railway extended to Toronto and Niagara." Marmaduke Rawlinson and Ald. Sam McBride also spoke.

Off to View Panama Canal

OTTAWA, Dec. 18.—(Special.)—The first real move towards the realization of the Georgian Bay Canal scheme has been made by the public works department. Arthur St. Laurent, deputy minister of public works and engineer in charge of the Georgian Bay Ship Canal, leaves Ottawa to-morrow in company with Mr. Coullie, the assistant engineer of the Georgian Bay Ship Canal, for Panama, via New Orleans.

The object of the two engineers is to examine the works and obtain information that may be useful when the Georgian Bay Ship Canal is placed under construction. The two gentlemen will be absent from Ottawa for six weeks, and during that time will consult with all the eminent engineers who made possible the opening of the great Panama route, as the latest machinery and appliances for work of that kind are at the canal. Mr. St. Laurent and his assistant will make a report on them.

VIADUCT PLAN HELD UP AGAIN

York Street Closing Causes Delay—G.T.R. Wants Through Tracks Only—C.P.R. Has New Scheme.

Another postponement of the viaduct scheme was ordered by the Dominion Railway Commission yesterday morning. The reason was the determined opposition on the part of the city, the waterfront land holders and the C.P.R. to the plans submitted by Vice-President Kelly of the G.T.R., which were drawn up according to the commission's direction, to include four terminal tracks, and to dispense with any communication with the waterfront by means of a subway at York-street.

Mr. Kelly, when presenting the plans, spoke at some length on the inadvisability of including terminal tracks in the new Union Station. The commission, he said, had recommended such tracks, and the city had advocated them, but the experience of the G.T.R. and other railways all over America had been that they were a great source of trouble. In many of the large depots, he said, vast sums of money had been spent in eliminating them, the Pennsylvania Railroad having spent \$65,000,000 to do away with tracks such as those proposed.

The G.T.R., he said, was not opposed to a subway at York-street, and was quite ready to pay its share of the \$290,000 required for its construction. If there are no sidetracks in the new station, the York-street subway was quite feasible. But as the plans without a great inconvenience to both the public and the railways when the new depot was in operation.

G. T. R. Wants No Stubs. Mr. Kelly then gave an analysis of the trouble which, he believed, would result. He pointed out that trains in order to get on the right track would be forced to block the entrance of

Is Board's Order Being Ignored?

The Queen-street cars are not as yet running up Roncesvalles-avenue. Is this to mean that the order of the Ontario Railway and Municipal Board is to be ignored by the Toronto Railway Co.? The order also called for Dundas cars to run right thru to Keele-street and passengers on Yonge-street cars to receive transfers to Avenue-road and Dupont cars.

The Ontario Railway Board has not received any notification from the railway company that the order will be agreed to.

WARM ON TRAIL OF DYNAMITERS

Federal Grand Jury Secures Evidence Tracing Movements of Authors of Explosions.

INDIANAPOLIS, Ind., Dec. 18.—(Can. Press.)—Hotel registers showing the movements of those suspected of complicity in the dynamiting conspiracy other than the McNamaras and Ortle McManigal were taken before the federal grand jury to-day.

Thos. J. Rettington of Youngstown, Ohio, the first hotelman to be examined, brought with him his hotel register and some account books said to show by whom certain hotel bills had been paid. A bridge being erected by the Baltimore and Ohio Railroad at Youngstown was damaged by an explosion on the night of Oct. 30, 1907. Non-union ironworkers had been employed on the contract. This explosion was followed by numerous others in Northern Ohio, all alleged to be depredations of the "dynamiting crew."

Tracing Mysterious "Others." McNamagal's and the McNamaras' movements are well-known, and the hotel and the hotel records are being brought from places in Ohio, Indiana, Illinois, from the east and as far west as Salt Lake City, Utah, with a view of tracing others whose names have not yet been mentioned, but upon whom it is said, the government is keeping close watch.

Other persons examined to-day are believed to know circumstances connected with the stores of explosives which the dynamiters kept. The stores were at Tiffin, Ohio, where in April, 1911, 540 pounds of dynamite were taken from a barn in the rear of McNamagal's father's home; at Indianapolis, where more than 100 pounds of explosives were found in the basement of the building occupied by the International Association of Bridge and Structural Iron Workers, and in a barn outside the city; at Rochester, Penna., where nitro-glycerine was found, and at Muncie, Ind.

Burns a Witness. Detective W. J. Burns, who, three evidence, left at these places, traced McNamagal's connection with the McNamaras, probably will be a witness later.

District Attorney C. W. Miller said the government was progressing rapidly with the investigation. He said more than the preliminaries had been gone thru, and it was probable all the evidence would be in within a month.

Probing Bribery Charge. LOS ANGELES, Dec. 18.—Bert H. Franklin, formerly an investigator, employed by the defence in the McNamara dynamiting cases, was brought before Justice Young to-day for preliminary hearing on the second bribery charge against him—that of having bribed Mrs. Robert F. Pein to influence her husband, a juror, in the trial of James B. McNamara.

One witness, Mrs. Maud Clifford Farley, a neighbor, testified that Mrs. Pein came to her home one day and used the telephone, that Mrs. Balu used the name Franklin several times. The case then went over until to-morrow.

Tried to Strike Deputy With Chair

Warm Time at Sitting of Turkey's Parliament—Dissolution to Follow. CONSTANTINOPLE, Dec. 18.—(Canadian Press.)—The parliamentary situation is becoming critical. The members of both parties are at high tension over the proposed modification of Article 35 of the constitution, and this led to-day to a personal encounter between a Unionist deputy and a member of the opposition on the floor of the house. The former attempted to strike the opposition deputy with a chair, but was prevented from doing so by the intervention of several members. A tumultuous scene ensued, and the president was compelled to suspend the sitting.

The Unionist majority then held a meeting and decided to provoke a dissolution of the chamber at all costs.

THE ANNEXATION OF THE HUMBUR DISTRICT.

There's a game on for annexing both sides of the Humbur to the city, and to open up the Home Smith proposition without submitting it to the people. Why is North Toronto treated differently? Is Home Smith a land speculator in the eyes of Robert Jaffray and The Regina?

MONTREAL PHONE USERS NOW EAGER TO MAKE COMPLAINTS

City Attorney's Tactics of Nudging Citizens' E'bows Result in Deluge of Criticisms of Bell Co.—Case Before Commission Soon.

MONTREAL, Dec. 18.—(Can. Press.)—The city's case against the Bell Telephone Company, alleging poor service and demanding a reduction of rates, which will shortly be heard before the railroad commission, is thought to be considerably strengthened by the rapid response of citizens to a complaint of general indifference made by City Attorney Archambault and recently published in the local newspapers.

TRENT VALLEY POWER BATTLE GOES QUIETLY ON AT OTTAWA

Hon. Adam Beck Will Lead Hydro Forces in Opposition to Private Control Before Government To-day—Right to Purchase Dam at Stake.

OTTAWA, Dec. 18.—(Can. Press.)—Ottawa was a meeting place for the powers that be to-day. To begin with, there were Hon. Adam Beck of London and G. Lynch-Staunton, K.C., of Hamilton, representing the Ontario Hydro-Electric Commission. Then there were also sundry other gentlemen representing the Ontario Power Company. The crux of the whole matter is the desire and intention of the commission to purchase the dam on the Trent canal at present owned by the Ontario Power Company, and with other powers on the same waterway to develop power for Peterboro, Lakefield and surrounding municipalities.

On the occasion of Mr. Beck's last visit here he was accompanied by a number of members of the Peterboro council, and the government was requested to sanction the taking over of the power by the commission. This, it is understood, the power company is opposing, and the matter is coming before the government to-morrow.

There were sundry conferences, but none of the representatives of either side of the case were very communicative.

THE CRIME OF CRIMES.

For a man to be employed in Toronto, anxious to get his own little home in the suburbs, to ask for a single fare car service for his children to work to the same end to make the home and for all of them to try and get to their work at less than a trip of 90 to 100 minutes twice a day! Can they buy the land in the city? Where? And at what price? Does the little fellow on the hill, or in North Toronto, or out on the Danforth go there for any other reason than to be the best he can do? To condemn the poor people to two hours' travel a day, to and from work, to deny them convenience because they buy their lot from "a land speculator?" Where else can they buy? Are there no speculators in down-town property?

TAFT ACTS AS PEACEMAKER FRICTION WITH RUSSIA AT END

Notice He Sent to St. Petersburg and Which He Asks Senate to Ratify Courteously Suggests That Treaty Based on Modern Conditions Replace Old One.

RUSSIA PLEASED WITH TACT SHOWN

WASHINGTON, Dec. 18.—(Can. Press.)—President Taft turned over to the senate to-day the task of completing the abrogation of the treaty of 1832 with Russia, because of alleged discrimination against American citizens of Jewish faith. Ignoring the house of representatives, the president sent a message to the senate announcing that on Friday last he had caused notice to be forwarded to St. Petersburg that the United States desired the treaty to end Jan. 1, 1913. This notification was officially handed to the representatives of the Russian government yesterday.

Mr. Taft asked the senate to ratify and give effect to his action. The foreign affairs committee of the senate voted unanimously to report a resolution of ratification couched in diplomatic language, and Senator Lodge offered it later in the senate. There was every reason to believe that the resolution would be rushed thru, inasmuch as the senate committee, as an act of courtesy to the house, had decided that the lower branch of congress should be asked to concur in the senate's action.

Clear Passage Now. Senator Heyburn of Idaho took the floor, and after protesting vigorously against hasty action, asserted his right under the rules and by formal action, threw further consideration of the matter over until to-morrow.

Also it was evident that politics would enter into the fight to-morrow, the prediction was made freely that all obstacles would be overcome.

Old Treaty Obsolete. In his message to the senate, President Taft transmitted a copy of the letter to the Russian foreign office. In it was expressed the view of the U. S. that the old treaty no longer met the political principles or commercial needs of the two nations and should be terminated.

The American Government with marked courtesy suggested further that it would be most agreeable to this country if a new treaty, along more modern lines, could be negotiated to replace the ancient and out-lived document.

Despite this overture to the Russian Government, state department officials to-night practically admitted that there was little hope for negotiating a new treaty that would avoid the very things that were leading to the denunciation of the old one.

Popular in Russia.

ST. PETERSBURG, Dec. 18.—(Can. Press.)—The Russo-American controversy is arousing great interest here and the newspapers are publishing long despatches from Washington on the subject. The general view held in Austria is that Russia will be worsted in a commercial fight, especially in view of the power of American capital.

The Neue Freie Presse commenting on the possibilities, says that a conflict would occasion no surprise, as the contrast in culture and political development between the United States and Russia is bound to influence the relations between the two countries. Two Galician deputies of the Austrian parliament have sent cablegrams to the senate at Washington, expressing gratitude at the effort of the U. S. to obtain justice for the Jews.

MADE A BIG HIT. The new play, "A Night Out," in which the inimitable comedienne, May Robson, appeared at the Princess last night, made an instantaneous hit with a large audience. "A Night Out" and "The Rejuvenation of Aunt Mary" are a great pair to draw.

LOW PAY FOR FIREMEN UNDERMANS DEPARTMENT

Increases in Salaries Remedy To Be Applied—Complaint Against Land Speculators.

HAMILTON, Dec. 18.—(Special)—"Is it gold braids, red tape, or short hay, that causes all these men to resign from the fire department?" queried Ald. Forth, when the resignation of another fireman was read to the fire, police and jail committee at its last meeting of the year to-night.

"At every meeting of the committee this year the resignations of one or more firemen have been laid before us," observed the alderman.

The members of the committee agreed that low pay was the cause of so many fire fighters giving up their jobs. At its last previous meeting the committee recommended to next year's council that general increases in fire department salaries be made, and in view of Chief Tonby's difficulty in keeping up the wages of the men, the recommendation will most likely be adopted.

The annual financial statement of the fire department showed that a balance of \$182 was left from the appropriation for firemen's salaries, and the total net balance out of an \$87,500 appropriation was \$272.

The police department has a balance to its credit of \$126 out of its \$93,211 appropriation, while the city jail used up \$116 less than the \$500 set aside for its maintenance.

Land Going to Waste. "They told me that it was labor that was keeping East Hamilton back, but I tell you that it is capital itself that is doing so," declared Controller and ex-Mayor McLaren this morning, in speaking of numerous surveys of building lots which have recently been placed in the market here, and indirectly replying to Mayor Lee's statement of Saturday that there were only enough vacant land in the city at present to accommodate the next three years' growth of the city.

Killed by Wagon. Alexander Polington was instantly killed this morning when he fell from the wagon which he was driving, and the front wheel passed over his head, burying him and breaking his neck.

Controlled Cooper Quits. Controller W. H. Cooper, who was defeated by Allan Studholme, for the provincial legislature, has been appointed to-day that he would not be a candidate for re-election to the board of control for 1918.

TUESDAY MORNING, DEC. 19, 1911 EXPRESS CHARGES AND PARCEL POST

Our esteemed young friend who writes the editorials for The Winnipeg Telegram was an apprentice in The World office to the editorial business.

The rates charged by the express companies are to come before the railway commission and it is high time they did.

The express companies are a sponge upon the railways and robbers of the people.

All we can see in the above article is that our young friend says the express companies are bad, and that the railway commission ought to regulate them.

Mr. James Whitney announced definitely on Oct. 11, that the legislature would shortly be dissolved.

The result of Monday's election is very gratifying to the Liberals.

Having constituted and appointed a harbor commission, the city should think of nothing but placing the harbor property in charge of the commission.

Here are some strong things from Mr. Sifton's paper, The Free Press: The whole matter comes down to this, that the railways have no right to charge higher rates in the West than in the East.

TORONTO TODAY AND TOMORROW. Toronto has suffered all along from the lack of vision characteristic of the official mind.

OVER-CAPITALIZATION. In his testimony before the United States Senate committee, on Inter-

state commerce, Judge Gary, chairman of the steel trust, admitted that the man who formed the syndicate which financed the corporation realized a large profit.

FACT AND FICTION. Mr. James Whitney announced definitely on Oct. 11, that the legislature would shortly be dissolved.

And here is what The Globe published on Saturday, copied evidently with approval from The Brockville Recorder:

LET THE COMMISSIONER HANDLE IT. Having constituted and appointed a harbor commission, the city should think of nothing but placing the harbor property in charge of the commission.

Here are some strong things from Mr. Sifton's paper, The Free Press: The whole matter comes down to this, that the railways have no right to charge higher rates in the West than in the East.

INSURE CASE AGAIN.
Further evidence was taken in police court yesterday on the charge of conspiracy of E. M. Carroll and Charles E. King in obtaining insurance. Counsel for King asked Magistrate Denison to return several policies, which have nothing to do with the case.

FIRE IN MATTRESSES.
Fire, which stubbornly resisted the efforts of the department from 5.54 yesterday afternoon till 10.37 last night, damaged the premises of the Furnis Mattress Factory at 2 Don Esplanade yesterday. It is believed to have started from sparks from a motor used to operate the machinery. The loss is fully covered by insurance.

DISAGREE ON TRAFFIC RULES

Special Conference Concludes, Tho, That Police Can Ask for Legislation to Control Speed of Motors.

TRAFFIC, speed limits, licensing of chauffeurs, and in fact anything and everything which pertains to street locomotion was discussed at length—great length—at a conference yesterday in the city hall of the legislative committee, the police commissioners and the citizens most vitally interested in the change proposed by the commissioners a fortnight ago.

ASK LEGISLATURE FOR POWER.
They then took up the speed limit question, for which the police commissioners asked permission to request the Ontario Legislature to grant them power to control.

AT THE THEATRES

At the Royal Alexandra.

The Chocolate Soldier. Judging from the splendid audience that welcomed the reappearance of "The Chocolate Soldier" at the Royal Alexandra, it must have left pleasant memories of its first production.

Idea of sugar on her oysters comes as a climax to several kindred horrors, and she flees most comically. The close of the act is an excellent, and clever piece of anti-climax, affording escape from an apparently impossible situation.

At the Grand.

An interesting drama, capably presented is "The Third Degree," the attraction at the Grand this week. Dealing as it does with the question of police investigation as practiced in some cities, and especially in the lead-up to the trial of the "Lion and the Unicorn," it makes an up-to-date play, appealing to those who are studying social and political questions, and at the same time affording an object lesson to the ordinary citizen.

The plot is built around a youth, the son of a man who is a great social and financial power. The father disowns his son on discovering that he has married a girl whose father has gained much unpleasant notoriety in police circles. The young man, realizing his position, has made a gallant struggle to win the respect of the world thru her fine character and natural ability. He has been scorned and buffed on every hand by his friends, who assert he has made a mistake, and that the young man is a megalomaniac.

At the Princess

May Robson in A Night Out. There are many ways of getting laughter out of an audience, but there are no finer, squarer, more direct and honest ways than those employed by May Robson, and she uses them all in "A Night Out," the new comedy-farce which appeared for the first time at the Princess last night.

DO THE POOR FRENCHMAN! LAVERGNE MAKES PLEA

Not Nearly so Well Treated When in Minority as Anglo-Saxons, He Says.

MONTREAL, Dec. 18.—(Can. Press)—That the French in the English-speaking provinces were treated with far less generosity than that accorded the English speaking minority in the Province of Quebec and that the rights of the French-Canadian citizens of the Province of Quebec and of the Dominion generally were grievously trampled upon both officially and semi-officially, was the dual declaration of Mr. Armand Lavergne, M.L.A., speaking before the Canadian Club of Montreal this afternoon on the position of the French language in Canada.

A strong denunciation of the methods of the government in requiring all French candidates for the civil service to be able to speak English when little or no knowledge of the French language was required from English-speaking candidates for government positions was indulged in by Mr. Lavergne, who further charged that French-speaking citizens of the Province of Quebec were even unable to get printed receipts in their own language from the postmasters of districts in the heart of their own province.

WABASH RECEIVERS APPOINTED.

ST. LOUIS, Mo., Dec. 18.—(Can. Press).—On the application of the Westinghouse Air Brake Company, Judge Elmer B. Adams in the United States circuit court this afternoon, appointed Frederick J. Delano, Edward B. Pryor and W. T. Bixby receivers of the Wabash Railroad Company. The receivers' bond was fixed at \$300,000 each, to be given in ten days.

The Parting Shot.

One of the local actors, having been offered a new living, decided to take with him the younger of his two curates. The elder of the two had been offered the rector's old parish, which he had gladly accepted. Now the elder curate was no great favorite with the rector, in fact, in many ways and things they had agreed to differ, and the parting came as a great relief to both. But the curate was greatly surprised when, for his farewell sermon, the rector gave out his text from Genesis xxiii, 5, "Abide ye here with the sepulchre, and the lad will go yonder, and worship."

Not a single patient has ever been refused admission to the Muskoka Free Hospital for Consumptives because unable to pay.

'Tis a great life-saving work. The mortality from tuberculosis in Ontario has decreased nearly 40 per cent. within the decade of the greater development of the work at Muskoka and Weston.

Fighting and Winning A fighting force of 9 skilled physicians and 26 trained nurses are daily at work in Muskoka and Weston helping the sick ones to win out in the fight against consumption and they are winning.

Spoken With Authority "There is a larger number of patients under treatment than ever before. There is every evidence to indicate that this institution is carefully conducted and that the patients are well cared for."

ELBERT HUBBARD

Admits Throw-Down Was Coming to States—Glad That Toronto is Building for Those Unborn.

"I remember Toronto," said Elbert Hubbard last night, "when it was a city of wood. Now it is a city of concrete. Of concrete and steel. You are building for the future, for the people yet unborn. You have failed to lay hold on the life to come."

Elbert Hubbard, the East Aurora printer who makes \$80,000 a year by his writings, made a long speech here last night. He philosophized and prophesied, and moralized until it was a wonder his stenographer would stand for it. And they did not stand, they sat, and under the masterful management of the wit and humor and dynamism of the speaker's personality.

Elbert Hubbard is the guest of the Board of Trade of Graphic Arts at their banquet at McConkey's. President Atwell Fleming and Mayor Geary and Chester B. Ames, who in the two things they said about the chief guest.

After fascinating the attention of the assemblage by telling the pitiful story for half an hour, the long-haired printer proceeded to get in his work with a propaganda of real reciprocity, ideal manhood and citizenship, and the solidarity of humanity.

There was but one drawback to the occasion. It was the absence of the "old hall croakers," whose block-the-way attitude of mind must have been pulverized under the convincing logic of Mr. Hubbard's message to Canada.

2 WEEKS ON U.S. ROADS

SCORE OF LIVES LOST

Twelve Killed in Smash-Up in Minnesota—Tragic Horror in Kansas.

ODESSA, Minn., Dec. 18.—(Canadian Press).—Twelve persons were killed to a wreck on the Chicago, Milwaukee and St. Paul Railroad here to-day, and ten or more were seriously injured when the second section of train No. 18, the Columbian, from Seattle, crashed into the first section which had both stopped on a signal.

MINNEAPOLIS, Dec. 18.—That carelessness on the part of the two operators and a flagman caused the wreck on the Chicago, Milwaukee and St. Paul Railway at Odessa this morning, was the statement of J. H. Foster, assistant general superintendent of the road.

HAND CAUGHT IN KNIVES

Brookville, Dec. 18.—(Special)—While operating a chain mortice at the plant of the Brookville Lumber Company, Thos. Forge had his hand drawn into the rapidly moving knives by his mitten becoming caught and before it could be released, the hand was terribly mangled. Three fingers and a portion of the fourth required amputation.

ONLY 75 PER CENT PURE

Determined Bear Raid on Porcupines--Prices Slump Again

Hollinger Again on Rampage But Reacts Just as Rapidly

Big Porcupiner Sells, But Comes Back to Earth Again--Rea and Swastika Hit the Rumps.

World Office, Monday Evening, Dec. 18. The listed Porcupine stocks moved in a decidedly erratic fashion in the local mining exchanges to-day, the markets giving alternate indications of buoyancy and weakness, with frequent and wide price changes shown throughout the list.

Hollinger was again the big feature and the price action of this issue was so forcible as to keep traders guessing throughout the day. The opening sales were made at \$14.70, a 20 point loss from week's close, but the upward move was quickly under way again, and was carried on with great vigor.

Swastika Under Pressure. The feature of the cheaper Porcupines was Swastika, which was the centre of a determined bear raid, which carried the price down eight points to 18 in short order.

Preston East Dome hit the bumps again, the security selling down to 1 1/2, a loss over the point for the day under selling by apprehensive holders.

Rea Down Forty Points. One of the weaker spots in the whole list was Rea, when rumped 40 points to \$2.80 under a determined bear raid. There was nothing out on the security, consequently the liquidation was set down as one of the customary periodical attacks by the bear interest.

THE RAID ON SWASTIKA. Coincident with the sharp break in Swastika yesterday, in which the shares were carried down a full eight points, the usual grip of rumors descended on the street, the most persistent of these being to the effect that the main shaft was being flooded with water, and that development operations would thereby have to be discontinued, and expensive pumping machinery installed.

MUST LOOK NEARER HOME. The attention of The World was drawn last night to one of the vagaries of the mining markets, which merits attention in view of the slump in the Porcupines yesterday. It was stated by one of the prominent mining brokers of the city that on each evening occasion when the market was depressed and prices thereby depressed, there was a general inclination to attribute the selling to a "New York brokerage house, which is working the short side of the market."

Work Will Continue Unabated During Holidays. PORCUPINE, Dec. 18.—(From Our Man Up North.)—During the next few days there will be a heavy exodus of mine men and others from the district over the holidays. American Goldfields to Install New Plant--Development to Date Shows Up Well.

PORCUPINE, Dec. 14.—(From Our Man Up North.)—On a much larger scale henceforth will the work at the American Goldfields property be carried on, according to a statement issued by Manager Willis, who has held conferences with his principals relative to the installation of machinery.

The company owns three claims, approximately 120 acres, 80 acres being located to the west and north of the Big Dome holdings. Camp buildings under construction accommodate 50 men a day, being the first new buildings to be erected in the camp following the disastrous July 11 fire.

WHAT'S DOING IN PRESTON? General Feeling is That Payment Due Jan. 1st Will Not Be Made. The local street was flooded with rumors regarding the Preston East Dome Mine, Limited, yesterday, the slump in the stock of the company to a new low record at ten cents a share, comparatively busy in delving for explanations.

FREE GOLD BLOWN OUT Rich Showing in Test Pit at Scottish-Ontario. PORCUPINE, Dec. 15.—(From Our Man Up North.)—Fifteen feet down in a pit on the discovery vein on the Scottish-Ontario workmen yesterday shot out some of the prettiest showings of free gold in the quartz and schist metal that have ever been found on the property.

VALUES GROW STRONGER AT CROWN CHARTERED

Up-Raise From 100 Foot Level Yields Excellent Ore--Development Work to Date.

PORCUPINE, Dec. 15.—(From Our Man Up North.)—As the up-raise proceeds from the 100 foot level towards the surface in the underground work at the Crown Chartered Davidson property, values grow stronger, the quartz yielding slightly better than the schist in the 90 feet of shafting.

Promising indications. At 22 feet in the up-raise the quartz lenses widen to four feet with two more feet of quartz coming in to-day in the west wall of the up-raise. There is every indication that as the surface is approached the quartz will appear more plentiful in the schist zone till the wide lenses on the surface are reached, where 30 feet of quartz show.

Lehigh Valley Scores Sharp Advance in New York Market

Wall Street in Apathetic Mood Allows Stock Market To Drift

Pressure Put on New York Security List, and Prices Close on Decline—Absolute Dulness in Toronto Market

NEW YORK, Dec. 18.—Prices moved in a hesitating, uncertain way today on the stock exchange. The undertone was heavy, and toward the end of the day the drift became more decidedly downward, so that at the close losses of a point or so were frequent. There was evidence through the session of considerable pressure on some of the speculative favorites, which perhaps registered the conclusion of professional traders that the advance had gone far enough to justify expectations of a reaction.

The movement seemed to bear no relation to outside influences, which, on the whole, were favorable. The improvement of the banks' position, as shown by the weekly clearing house report, and the huge gain in foreign exchange revealed in the figures for the week on which bull traders registered some improvement, but no response was made to these influences.

Steel Business Good.

United States Steel displayed more of its recent strength. It moved with the other industrials, and closed a point above. Steel manufacturers reported that there had been no falling off in incoming business, and it was expected that the demand for rails would shortly become more active.

The fortnightly figures of the European supply of copper were more favorable than had been expected. The decrease of nearly 4,500,000 pounds bore recent reports of better trade conditions in England and Germany.

Inflow of cash from the interior continued, and there was a steadier tone in the time money market. Banks are making preparations for foreign disbursements at the close of next week, and it was evident that foreign institutions might make their influence felt in shaping the market here, as Germany is still bidding for money to carry borrowers over the present settlement.

Bonds were irregular. The local traction issues showed a declining tendency. Total sales, par value \$3,808,000. United States bonds were unchanged.

LONDON STOCK MARKET

Amalgamation of Shipping Companies—Americans Quiet and Easy.

LONDON, Dec. 18.—Money and discount rates were easier today. There was \$3,500,000 South African gold offered in the open market, of which Germany and India secured \$500,000 each, and the remainder was taken by the Bank of England.

The stock market was quietly irregular with the chief movement an advance in Union Castle and Royal Mail shipping shares on the amalgamation of the companies. Home Rails and Kafirs were weak, but consolids improved in the afternoon.

American securities were quiet and steady with prices a fraction above parity during the forenoon. Late in the market moved irregularly and finally closed easy. Erie shares were firm.

MONTREAL STOCK MARKET

MONTREAL, Dec. 18.—Richeleu and Power furnished what features there were to the Montreal market today. Richeleu on a turn over of 1623 shares held the net advance it made on Saturday. Opening at 124, it closed at a quarter of a point over Saturday's closing, it sold up to 124 1/4, receding fractionally in the afternoon.

It closed at a quarter of a point over Saturday's closing, it showed strength, closing in fact at a quarter of a point higher than on Saturday. In general, the list was dull today. Opening at 124, it showed a slightly reflecting the approach of the Christmas and New Year holidays.

TORONTO STOCK MARKET

World Office.

Monday Evening, Dec. 18.

The Toronto stock market opened the week with dulness of an extreme nature, and outside of a few restricted price movements in some of the specialties showed absolutely no feature throughout the session.

The year-end holiday period is usually a lethargic time in speculative circles, and from the manner in which it has started out this season, it is evident that this year is to be no exception in this regard. Throughout all last week trading moved along pretty much as usual, and this was further exemplified, and to an even greater extent today.

The South American traction issues were among the most apathetic in the list, and in neither Rio nor Sao Paulo was anything new evolved. Rio sold off a fraction in the early dealing, but shares getting back to 112, but the loss was more than regained during the afternoon, when the stock rallied to 113. Sao Paulo was not held in at all, and no more convincing argument of the lethargy now surrounding the shares could be afforded than the statement that at the closing call there were no bids registered.

Moving in a Rut.

The general list moved along in much the same way as the two securities mentioned above. Duluth Superior was in good demand, but did not succeed in making much progress. The high price for the day was 73, but the stock was on offer there at the close, with bids in eighth removed. Locomotive preferred piled another high point gain on top of its recent advance, the shares reaching 62, but closed slightly lower. U. S. maintained Saturday's high price at 174.

Owing to the fact that speculation is being conducted at so low an ebullient attention is being paid to the situation here. Call loans are still quoted at 5 1/2 to 6 per cent, and with the usual year-end tightening-up of funds is observable, this has not caused any difficulty.

European Bourses.

PARIS, Dec. 18.—Prices were generally firm on the bourse today.

BERLIN, Dec. 18.—Prices were firm on the bourse today, but trading was restricted owing to money prospects.

Copper Statistics

LONDON, Dec. 18.—The fortnightly statistics show that the European stocks of copper on Dec. 15 decreased 182 tons, while copper supplies afloat decreased 55 tons, making a total decrease in the visible supply of 237 to 18,765 tons, against 33,849 tons on Nov. 26, and 85 tons on Dec. 15, 1910.

Maple Leaf Dividend.

The board of directors of Maple Leaf Milling Co. Limited, have declared the regular quarterly dividend of 1 3/4 per cent. on the preferred stock for the quarter ending Jan. 4, 1912. Dividend is payable Jan. 18 to shareholders of record Jan. 4.

Our Neighbor's Commerce.

NEW YORK, Dec. 18.—Foreign commerce of United States for 1917 breaks record, reaching \$3,500,000,000. Over \$20,000,000 greater than last year.

THE TORONTO GENERAL TRUSTS CORPORATION

DIVIDEND No. 62.

Notice is hereby given that a dividend of Two Per Cent. upon the Paid-Up Capital Stock of this Corporation has been declared for the current quarter (beginning on the rate of Eight Per Cent. per annum), and that the same will be payable on and after

Tuesday, the 2nd Day of January Next

NEW YORK, Dec. 18.—Bankers are making early preparations for the settlement of dividends, and the end of this month by buying bills of exchange now. Included in this movement are all sorts of payments incident to the end of the year. Besides dividends and interest on American securities held by foreigners there are the usual remittances from foreigners here to relatives and friends in Europe.

Adjustment of bank balances is also an important item. The custom is universal in Europe for banks to make reports as of Dec. 31 and these are naturally desirous of making a good showing in their reserves.

It is said that this movement of credit to Europe toward the end of the year aggregates from \$20,000,000 to \$30,000,000 and some years may reach \$50,000,000 when European banks have large balances on this and there are naturally anxious to get rid of them. The present office alone is in the market for about \$3,000,000 of exchange to meet the foreign money orders sold around Christmas time.

For Christmas

Big Cotton Mill to Close.
BIDDEFORD, Me., Dec. 18.—The 3000 operatives in the cotton mills of the York Corporation of Saco were notified today that the plant will be closed from Dec. 23 until Jan. 2. Uncertainty of the present business outlook has given rise to the decision for the renewed curtailment.

C. P. R. Earnings.
MONTREAL, Dec. 18.—C.P.R. traffic for the week ending Dec. 14, 1911, \$2,522,000; same week last year, \$1,839,000.

Sold Rotten Eggs in Cans.
NEW YORK, Dec. 18.—The firm of E. Roseberg & Co., Inc., which counsel for the city declared to be the largest concern in the city dealing in rotten eggs, and as a "persistent offender," was fined \$500 to-day for selling rotten eggs in liquid form. Inspectors testified that they found 68 30-pound cans of rotten eggs in the place last April. The court said it regretted that the fact that the company was incorporated made a prison sentence impossible. The fine proved the maximum.

Board of health inspectors also appeared against 62 other merchants accused of selling impure food. Fines from \$10 to \$100 was imposed.
