IS THE CHINESE EMPEROR DEAD?

The Shanghai Mercury Has a Report of Scheming to Remove the Empress Dowager. A Scheming Traitor—Alleged Agreement Between Britain and Russia—Cable News.

London, Oct. 4.—According to a despatch from Shanghai, the Chinese Emperor of the Mercury of that city asserts that the Emperor of China intended to remove the Empress Dowager from his path, and entrusted his plans to an adherent. The latter proved a traitor. The Empress Dowager, on learning of the plot, sternly upbraided the Emperor and invited him to drink the contents of a cup to which she pointed. He swallowed the fluid in a gulp.

It is impossible, however, according to this correspondent, to ascertain whether the Emperor is actually alive or dead.

Cossacks and Marines.
London, Oct. 5.—The Pekin correspondent of The Daily Chronicle, telegraphing Monday, says: "Thirty Cossacks and thirty English marines arrived here today."

Alleged Anglo-Russian Saw-Off.
Paris, Oct. 5.—The London correspondent of The Journal des Debats announces that Great Britain and Russia are about to sign an agreement giving the former preponderance in the Yang Tze Valley, and the latter preponderance in Manchuria.

NEW HISTORY OF EUROPE

Will Be Begun When Spanish-American Peace Preliminaries Are Signed, Says Gen. Cervera.

Paris, Oct. 4.—La Patrie this evening prints an interview, said to have been had with General Rafael Cerro y Saez of the Spanish Peace Commission, in which he is represented as saying:

"Peace between Spain and the United States will complicate all the Eastern questions. The day upon which the preliminaries are signed the first chapter in the new history of Europe will be commenced, as the United States will henceforth play a preponderant role in events of which different parts of the world will be the theatre."

"It has been pretended that Spain wanted war, or, at least, allowed herself to be dragged into it. This is a mistake, since the United States have long coveted our colonies. They introduced separatist and autonomist ideas into Cuba, ideas which were not shared by a majority of the inhabitants of the island. Influences of all kinds have been brought into play to excite risings, and hence ensued a war, the consequences of which might be prejudicial to ourselves and may affect all European interests."

"The North Americans, on their side, will be compelled to create at once the naval and military forces which will be necessary to maintain the tax on exports."

ANOTHER FEARFUL STORM

Island Off the Coast of Georgia Swept Out of Existence—Only Three Persons Escaped.

Savannah, Ga., Oct. 4.—Complete details from Brunswick and the surrounding country are impossible because of the destruction of the telegraph and telephone systems. Campbell Island, 12 miles from Darien, on the Altamaha River, is said to be completely swept away, and only three persons succeeded in getting off the island. There is no definite information as to the population of the island, and estimates of the number supposed to have perished range from 20 to 50. The population was made up wholly of colored truck growers. Four deaths are now reported from Brunswick. The damage to property there is estimated at half a million dollars. News from outlying islands is not obtainable.

WHO CUT THAT WIRE?

The G. N. W. Telegraph Company Is After Someone's Scalp.

Montreal, Oct. 4.—There is likely to be serious trouble for somebody in connection with the seizure made this afternoon on the stock broking premises of H. W. Tarr & Co. on St. James-street. The office is in the G. N. W. building, and during the seizure somebody cut the telegraph wire and caused considerable inconvenience. The manager of the G. N. W. Company laid a complaint at the Police Court, and it is likely that an action for damages will result.

H. W. Tarr & Co. have been doing business as the United States Grain and Stock Exchange. The seizure was made under the clause of the Criminal Code referring to bucket shops.

KRUGER SEEKING ALLIES.

Hopes for the Assistance of the Congo Free State.

London, Oct. 4.—The Cape Town correspondent of The Daily Mail says: "Great Britain, it is reported from Johannesburg, will take over the Delagoa customs, railways and telegraph about the middle of this month."

"The Transvaal Volksraad is now discussing the law binding the Congo Free State and the Transvaal to mutual military assistance in the event of an attack from the outside. This is attributed to a fear of complications arising out of the Delagoa Bay deal."

London and Canadian Loan.
The London and Canadian Loan Company held its annual meeting yesterday afternoon. Inspector Vernon B. Wadsworth, who has spent the last three months in the West in the interests of the company, presented a valuable report.

Several citizens are seeking a reduction of interest on their loans, which at present are at 6 per cent. No appointment was made to the magistracy, but the inspector looked upon as eligible.

Ambulance Driver Geddes and Constable Woodworth left for New York yesterday on their annual leave.

A DISTURBANCE IN QUEEN'S PARK.

Force Demanded by the Situation Brought about by Events. The Stronger the United States are the more their friendship will be sought after, and the more also their rivalry will be feared by all European nations.

"Look at the extreme Orient, where France, Russia, Germany and England are powerful rivals. If the Americans insul themselves in the Philippines, the situation will be greatly modified, and they will not hesitate to seek the friendship of Japan and England, to the detriment of all other nations. This will be for Americans a truly privileged situation, but the diplomatic role will be rendered proportionately more difficult."

New Trial Must Be Secret.
Paris, Oct. 4.—M. Godofroy Caylaque, who recently resigned the portfolio of the War Ministry because of his opposition to a revision of the Dreyfus case, was questioned today as to whether, in the event of the Court of Cassation ordering a revision, the trial of Dreyfus would be open or secret. He replied that it must be secret for three reasons, the essential one being the material impossibility of communicating the dossier.

Protective Policy in Portugal.
London, Oct. 5.—The Lisbon correspondent of The Daily Mail says: "With a view of adopting a policy of extreme protection in the colonies of Portugal, the Government has issued a circular inviting the opinions of experts on the industries to be protected, and upon collateral questions which it has observed from the outset."

Combine in German Iron Trade.
London, Oct. 5.—The Berlin correspondent of The Daily Mail says there are rumors of a combine of the whole German iron trade to meet the severe American competition.

Will Maintain War Tax.
Madrid, Oct. 4.—The cabinet decided today to maintain the war tax, but to abolish the tax on exports.

EAST LAMTON PROTEST.
Judges Ferguson and Osler at Sarria Ready for Business—North Bruce Venue Changed.

Sarria, Oct. 4.—The trial of the East Lambton election protest case was commenced here this afternoon before Judges Ferguson and Osler. Owing to the late arrival of the judges, no important evidence was taken and the court adjourned until to-morrow morning.

The motion to change the venue for the North Bruce election trial from Southampton to Warton came on before the judges on the opening of the court. Mr. W. D. McPherson appeared for the motion; R. A. Grant, contra. An order was made, changing the venue as indicated, the petitioner abandoning his claim to the seat.

WHO ARE THE MEN
That Ran Down Little Willie Wareham—Cannington Lad Injured—County Councillor Ill.

Willie Wareham, a young lad who lives with his parents at 147 Farley-avenue, narrowly escaped being killed Monday evening on Yonge-street by an express wagon. He was crossing the street near the corner of Queen, and in avoiding an approaching car ran into an express wagon, which was going at a fast rate of speed, and knocked down. The wheels passed over his chest, but luckily did not break any ribs, and after being cared for in Neil Love's drug store he was able to proceed home on a street car. The men who were in the wagon, when they saw what had happened, drove furiously away without giving the injured lad any aid. The many people on the street at the time and who were spectators of the accident were loud in their condemnation of the action of the expressmen.

Samuel Judge, aged 17 years, who lives at Cannington, was brought to the General Hospital yesterday suffering from a badly injured eye. The wound was received by a stone, which was thrown by another boy. It is doubtful if the sight will be saved.

James McLeod is improving steadily at the Emergency Hospital, and notwithstanding the serious injuries he sustained last week he will likely recover.

County Councillor R. J. Gibson of Deer Park who has been laid up at the General Hospital for the last week, is on the mend, and his friends hope to see him out again in a short while.

Slimee County Wins.
The County of Slimee will likely recover some of the money expended by ex-Treasurer Sanford. A test case against J. L. Burton, one of Sanford's sureties, was tried before Justice Armour, and when he dismissed it was referred to the Court of Appeal, who granted a new trial. Mr. Burton had gone security for \$500, while the total of Sanford's default amounts to about \$62,000.

BOGEST BONANZA OF ALL

Pullman Company, Capitalized in 1897 at \$100,000, Now Earns Over 12 Per Cent. on \$36,000,000.

San Francisco, Oct. 4.—The examination of Col. Polk into the finances of the Pullman Car Company shows that the capital stock of the company is estimated at \$36,000,000. The statement for the fiscal year ending July 31, 1898, is as follows:

Gross earnings, \$5,074,881.21; operating expenses, \$3,511,888.82; net receipts from operating, \$1,562,992.39. Other expenses figure up \$812,160.15, making the net earnings \$4,650,800.44, or nearly 18 per cent. on its present capital stock.

A dividend of 8 per cent. was paid, which in the aggregate amounted to \$2,880,000, leaving a surplus of \$1,770,800.44. The income from the surplus since July 31 amounted to \$25,247,615.54.

When it is considered that the company started with an original capitalization in 1867 of \$100,000, the enormous and unnatural profits of the company will readily be seen.

PLEBISCITE RETURNS.

West Durham Did Not Register Much More Than One-Half the Vote—Majority of 908 For.

Bowmanville, Oct. 4.—The official count of the plebiscite in West Durham gives 908 majority in favor of prohibition. The total vote polled was 1984, the registered voters being 3965, so that 2011 votes were not got out. This is significant, for West Durham is pre-eminently a temperance riding. The prohibitionists are terribly disappointed over the result and strongly condemn the electors for their stolid indifference.

HAS THE LEOPARD FOUNDERED?

Labrador Mail Steamer, With 30 Persons, Caught in a Storm.

St. John's, Nfld., Oct. 4.—It is feared that the Labrador mail steamer, with a crew of 18 and 12 passengers, was lost during a severe storm off the northeast coast of the island last week. She left King's Cove on Tuesday morning, but had not reached Battle Harbor at midnight on Friday, though it is only a 24 hours' run. The storm was the most severe that has raged there in many years, and it is believed that the Leopard foundered.

The Quality—at Dineens.
Any cheap old thing will satisfy some people, but the man who is particular about the style, quality, clean fit and becoming shape of a hat finds the best satisfaction in the store which caters to intelligent trade. A hat really worth \$3 may be imitated with cheap material, cheap finish and cheap mockery of the style, to sell for \$1.50, but the hat reputation of Dineens', 140 Yonge-street, corner Temperance, was never won with these cheap imitation hats at cheap prices. Hats, at Dineens', from \$2.50 up, are not matched at Dineens' prices anywhere.

A Revision Assured.
Paris, Oct. 5.—It is semi-officially asserted that M. Massu, the Procurator-General, has sent a report to the Court of Cassation, which ensures a revision of the Dreyfus case.

THOSE YUKON SCANDALS

Are to Be Probed by the Government After Quebec Conference.

Leading Ottawa Temperance Worker's Idea of the Plebiscite—Calls on Laurier for a Prohibitory Law—Auctioneer Gets a Charge of Buckshot in His Leg—News From the Capital.

Ottawa, Oct. 4.—The Free Press says to-night: "As soon as the several members of the Government now engaged at the Quebec conference are freed from their duties, their attention will be devoted to the stories of official scandals in the Yukon. The matter has come to a point that the Government will probably feel it essential to make some open enquiry. Anyone can then prefer a definite charge or charges, such as have up to the present been wholly wanting."

The government authorities have not been idle since the first reports gained publicity. They have availed themselves of every means to follow up the statements to their origin. But this has only gone to prove how small is the real evidence.

What a Prohibitionist Says.
One of Ottawa's leading temperance workers, Mr. A. W. Fraser, came out very strong on prohibition when seen by a reporter. He said: "The returns are now nearly all in, and we can begin to realize how important a victory has been secured for prohibition. Let us consider the vote for a moment."

"First, we have a large majority of the total vote polled throughout the whole Dominion."

"Second, we have carried prohibition by big majorities in every province but one, and in the Territories."

"Third, taking it by constituencies, we have carried the Dominion by a large majority."

"Fourth, leaving out the Province of Quebec, we have carried nearly every constituency in the Dominion, except a few cities and counties where there are large liquor interests."

"In the face of these results we can justly claim a victory as great or greater than any political party who has ruled this country ever had. These facts entitle us to expect Parliament to pass prohibition."

Got a Charge of Buckshot.
Mr. Lou Brophy, auctioneer, is confined to his residence as a result of a painful shooting accident. In company with a party of Ottawa young men he was duck shooting near Mulgrave on Monday, when a report of a gun was heard and the next instant Mr. Brophy got a charge of buck shot in the leg below the knee.

The shooting was wholly accidental, and is supposed to have been done by a man named Coleman, who was near by, and who without seeing the party, fired and missed his mark with the above results.

The Toronto Church of England Sunday School Association met yesterday afternoon at the Synod office, 15 Wellington-street. A number of the city superintendents and delegates were present. A program for the winter meetings was drawn up.

THE CREAM OF SOUTHERN RUSSIA.

Movement on Foot to Bring to Canada a Class of Russians Known as the Dobroushkis.

Montreal, Que., Oct. 4.—(Special.)—Mr. Sidney G. P. Coryn, European travelling passenger agent for the Canadian Pacific Railway, is now in the city and his remarks on immigration matters are of interest. He states that there is a movement on foot to bring to Canada the Dobroushkis of Southern Russia, who, to the number of 10,000 families, reside in the Caucasus Mountains and who, like the Mennonites, have made themselves famous because of their refusal to serve in the army.

Mr. Coryn adds that he has seen these people in their homes and that they are the finest type of men he has ever met on the Continent. They can all read and write, are strictly moral amongst the gross immorality of the Southern Russians, and are a most desirable class of immigrants in the Northwest, the climate there being similar to their own country.

In religion, although less fanatical than the Mennonites, they have a non-resistance creed, their text being "Resist Not Evil." They speak Russian and German, are good farmers, and Mr. Coryn designates these subjects of Nicholas as the cream of Southern Russia.

ROSSLAND MINING NEWS.
Sinking Resumed on Approaches Centre—Star Ledger—Prices Unchanged.

Roseland, B.C., Oct. 4.—(Special.)—Sinking has been resumed in the Virginia vertical shaft, which will be carried from the 300-foot level to the 500-foot level before cross-cutting. The cross-cut at the 300-foot level is approaching the Centre Star ledge. Stocks are not active to-day, the prices being unchanged. A. E. M.

NATIONAL ISSUES ARE PARAMOUNT

Roosevelt Says State Elections Cannot Be Run Independent of the Central Government's Policy—Must Have Honest Money, Protection to Native Industry, a Merchant Marine and a Strong Army and Navy.

New York, Oct. 4.—Col. Roosevelt was officially notified today of his selection as the candidate of the Republican party for Governor of New York State.

In accepting the nomination, Col. Roosevelt said, in part:

"National issues are paramount this year. It is no more possible to conduct a State election now without regard to national issues, than it was possible so to conduct one in 1861 or 1863. As it then was, so it now is, the interests of the nation as a whole are vital and absorbing interest to each citizen."

"When, as now, the Republican party was forced to find new issues, to confront new problems. Then, as now, it was forced not to follow, but to make precedents. In 1861, we had to preserve the republic for its great destiny; in 1868, we have to take a long stride towards the accomplishment of that destiny. The Republican party, therefore, in its State platform, does well to reiterate the promises under which it was possible to elect a Republican president, pledges which made it possible to restore prosperity to our country, and to put the nation where it is possible to work out the glorious future,

which is now before a reunited nation. "The issues for honest money, for protection to American industry, for the upbuilding of a merchant marine, adequate to carry the commerce of the world, and to form a naval militia in times of war, are as vital this year as they were in the great contest which was so successfully fought in 1868."

"We must further strengthen our navy and build up our army, so that they may be equal to any demand made upon them, as we work out our destiny. Hawaii and Porto Rico are ours, and in the East and West Indies the interests of the nation shall be safeguarded."

Van Wyck Stuck to State Issues.
New York, Oct. 4.—Judge Augustus Van Wyck to-night received the official notification of his nomination for Governor by the recent Democratic State convention. He made a brief address to the committee that waited upon him at his home in Brooklyn, and accepted the nomination. The ceremony was very formal and did not consume more than a half hour. Judge Van Wyck confined his remarks entirely to State issues.

CHICAGO GETS M'CAUGHAN

This Appears to Be the Turn Affairs Have Taken.

Discontent is Rife Among St. Andrew's Adherents—The Real Cause of Annoyance—A Series of Interviews by The World's Young Man.

The burning words of Rev. Mr. McCaughan on Sunday last to his congregation at St. Andrew's Church came as a thunderbolt to most of them, and has raised an intense feeling against the pastor, who has been so universally popular with all. In the circle of the orthodox church nothing else is talked of, and it is said that he interfered, in his remark, with the business of the Board of Management.

A Member's Views.
One of the oldest and most influential members of the church, who has thus far entertained nothing but the warmest feelings towards the pastor, calls the stand taken nothing less than an act of base ingratitude. The remarks were entirely uncalculated, and established a most unworthy and unnecessary precedent. It may be that the known fact that Mr. McCaughan has received a call from Chicago has put the matter on a personal basis that would otherwise not be introduced and a prejudicial feeling thus generated.

Finances in Good Shape.
Col. John L. Davidson states that the finances of the church were never in a better condition. St. Mark's was off their hands and in less than ten years the whole debt would be wiped out. The only trouble with the people of St. Andrew's was that they were too generous, and he believed that if the necessity arose \$25,000 could be raised in one week. The funds were always low at this time of the year, because most of the pew-holders and members had been holidaying and were behind in their dues, but within a month there would be a running surplus in the bank.

Hopes He Won't.
"As regards Mr. McCaughan's leaving, I will say that if he decides to go, and I hope he does not, that it will be a great regret will be felt in St. Andrew's. I think that the whole fuss is over the fact that the members are annoyed that he is looking with favor upon a call to Chicago. If he is, they are certainly adopting a poor policy, as all this talk only tends to hasten his leaving."

The Pastor Seen.
Mr. McCaughan was also seen in reference to the difficulty, and said: "I said nothing out of place on Sunday. It has been my custom to make a financial statement on the first Sunday of every quarter, and that was all I did on the Sabbath. I said harsher things last July, yet nothing was said about them. It is only because I have received a call to Chicago that the trouble has arisen. The affairs of the church are in a healthy condition, in fact I might say never better, but if all the members had paid their dues in advance last April, as I requested, there would have been no overdraft now."

"As far as the church's finances being none of my business, if the pastor takes no interest in them, I would like to know who will? They are my business, for I make them mine."

"In regard to my going to Chicago Third Presbyterian Church, I am not pledged to accept the call, nor am I pledged to stay here, and it will be plenty of time to speculate upon my going when I have resigned. The public will know what I intend doing inside of a fortnight. As yet I am undecided. I like Toronto, and I know Toronto likes me."

"The World has it, however, on good authority, that Mr. McCaughan has accepted

the call to Chicago, where he gets an assistant and a salary to start with of \$6000 per year.

The pastor's indefinite words to The World's young man last night seem to carry out the idea that Chicago will get McCaughan.

REV. DR. HALL'S FUNERAL.
Impressive Services in the Fifth-Avenue Presbyterian Church in New York City.

New York, Oct. 4.—The funeral services of Rev. Dr. John Hall, late pastor of the Fifth-avenue Presbyterian Church, were held at the church this afternoon. The church was crowded, there being present large delegations from a score or more of church societies.

The services were conducted by Rev. Wallace Radcliffe, Moderator of the General Assembly of the Presbyterian Church; Rev. William M. Patton of Princeton Theological Seminary, Rev. Hugh Pritchard and Rev. L. H. Polhemus of this city.

Among the honorary pall bearers were Rev. Timothy Dwight, President of Yale; Rev. Francis L. Patton, President of Princeton; Rev. Henry H. MacCracken, Chancellor of New York University, and Jacob Gould Schurman, President of Cornell.

The body will be interred to-morrow in Woodland Cemetery.

THEIR DUTIES NOT DEFERRED.

Hamilton Board of Works Transacted Little Business Yesterday.

Ferguson-Avenue Residents Kick Against Noises Caused by Shunting - Plebiscite Returns - P. W. Dayfoot Laid to Rest - Stares-Cook Case Comes Up To-Day - Notes From the Ambitious City.

Hamilton, Ont., Oct. 4.—(Special.)—The Board of Works was in session for an hour this evening. Very little business was transacted. Ald. Neilligan did not bring up his bicycle bylaw, as was expected, but will be introduced at the next meeting.

The bylaws prepared by Ald. Stewart to define the duties of the City Engineer and Street Commissioner were not referred to during the meeting. The Board's members are not enthusiastically endorsing his proposals.

The City Solicitor was instructed to write to the Grand Trunk Railway Company, respecting complaints made by Ferguson-avenue residents, of noises caused by shunting.

It was decided to expend \$50 to fix up Bluff-street.

The claim made by Miss Agnes Crawford, electrocutor, for \$300 damages for injuries received from a fall on a sidewalk, was laid over for further consideration.

Amalgamation Abandoned.

The directors of the Hamilton Art School have dropped the idea of amalgamation with the Public Library Board. It was at first thought this would be feasible, but further consideration of the subject showed it to be unworkable. The Art School Board has decided to hold monthly instead of quarterly meetings, and to have a Finance Committee and an Internal Management Committee.

Went Prohibition.

All the returns for the Westworth electoral district in the plebiscite vote, except one, sub-division 2 West Flamboro, were received to-day by Returning Officer Down. They show a majority of 307 for prohibition, totals being 2177 for, 1270 against. It is expected the West Flamboro division will give a majority against prohibition, but it will be small.

Germania Club Officers.

The Germania Club elected the following directors last evening: H. H. Mansberger, A. Hackbusch, H. Geiss, W. T. Kraft, Moritz Mueller, A. Martin, C. Wagner, F. Boehmer, Leo Blatz, Max Muller and F. Schwarz. A Mansberger was elected president. A Hackbusch vice-president, H. Geiss treasurer, W. B. Kraft corresponding secretary, Moritz Mueller recording secretary and H. G. Bookler, the club is in a satisfactory condition.

P. W. Dayfoot's Funeral.

The remains of P. W. Dayfoot were brought to the city this morning from Woodstock, and this afternoon a public service was held in James-street Baptist Church. Rev. J. J. Gilmore, W. McKay, Woodstock, and Dr. Lyle held the religious officiating. The funeral left the church at 3 o'clock, the pall-bearers being W. G. Bookler, Lutes, H. H. Lloyd, J. Lewis, H. New and W. J. Copp.

Police Points.

At the Police Court to-day James Tanfer, for operating a sweet-bread at Stoney Creek Park, was fined \$10 and \$0.75 costs, or one month.

John Walker, a youth found guilty of theft and vagrancy, will be sentenced to-morrow.

AMERICAN INTERESTS IN THE ST. LAWRENCE CANALS. The people of the United States seem to be much more interested in the improved St. Lawrence system than Canadians themselves. LATEST RUN OF KAMADORE

Prospecting the Engledeu Concessions.

Boston Man Alleged to Have Found "Pay-Dirt" in Shoal Lake Sandstone.

According to the last issue of the Canadian Mining Gazette of London, Eng. the Mikado Gold Mining Co., limited, have announced the receipt of a cablegram from their Lake of the Woods manager, stating that during the 21 days ended Sept. 3 last the mill crushed 687 tons of ore, yielding 265 ounces of gold, exclusive of tailings. This is about \$7 per ton, free milling. The ore, however, is largely a concentrating ore, as the assay values indicate much larger values to the ton. A cyanide plant is now being erected at the mine, and when this is in operation the capitalists in England may find out by looking at it just what the fortune is on any particular acre. So says The Rat Portage News. The several ore outcroppings discovered have been tested at the surface, and pits have been sunk to show the nature of the charge. Manager Sullivan was employed on the concession since early in May till the tenth of last month. The prospectors were sent out in parallel lines, and when a vein was discovered the gang cleared off all surface obstructions, leaving it ready to be examined by Mr. Sullivan, who decided whether the mining gang should sink a test pit. The prospectors would then continue their explorations until they found another lead, when the same program would be gone through.

Mr. Sullivan, who has forwarded his report to headquarters in England, refuses to divulge the results of his search for the precious metal.

Rainy River Placers.

In The Duluth Sunday News-Tribune appears the following: G. W. Pelton and Dr. I. Brown of Boston, who were sent out by Francis, Rice & Co. of that city, bankers, to make a report of the outlook for placer and quartz gold in the Seine and Rainy River districts, passed through Duluth recently on their way home. Mr. Pelton says they found numerous diggings of a profitable nature, but there was nothing substantial about the discoveries, but they have sent to Boston 21 samples of pay dirt that pays 25c to the pan, or \$50 a ton. At the Shoal Lake the prospectors found an amount of sand that passed from \$3 to \$8 a ton. Mr. Pelton says he is much impressed with the possibilities for profitable quartz mining in these districts, and is quite enthusiastic over the matter.

The McGowan Gold, Silver and Copper Mine, Parry Sound.

Mr. George Montford, of Rossport, Mus., has secured an option of the McGowan Gold, Silver and Copper Mine, Parry Sound, and intends placing before English capitalists and placing the necessary preliminaries are arranged. A recent sample of ore taken from a newly discovered vein assayed \$3,351.68 per ton. The assay on copy has been received, but it is said that it will go fully 25 per cent.

Torontonians in Rossland.

From Rossland Miner, Sept. 24. Captain J. Currie of the Forty-eighth Highlanders, Toronto, is the Allan. Captain Currie, who is the senior member of the firm of Currie & Kitley, broker, and is also the president of the Toronto Mining and Industrial Exchange. He is credited with having done more than any other man in the country for perfecting the exchange, which has for its object the handling of Rossland stocks particularly. Captain Currie is delighted with the look of the country and he is more than ever satisfied with the future of the mines here.

J. Hugo Ross of Fox & Ross, one of the best known brokers in the city and is stopping at the Allan. Mr. Ross is no stranger here, as he has been coming here for three years past. In all that time, however, the camp never looked anywhere like so well as at present, he says. Mr. Ross, who is one of the most active of the brokers on the Toronto Mining Exchange, says that all the money needed to develop the properties here will be forthcoming. He predicts a steady, upward tendency in the stock market from now on.

G. I. R.'S HEALTHY CONDITION.

English Journals Predict a Future of Prosperity for Canada's Great Railway Trade With China.

London, Oct. 4.—The business journals as a rule comment most favorably on the half-yearly report of the Grand Trunk Railway Company, issued yesterday. The Financial Times says it exhibits a healthier condition than for years past, and affords justification for regarding the future with cheerfulness. The Financial News says the report undoubtedly is a very satisfactory showing, and that the shareholders must admit that they own a heavy debt of gratitude to the new management.

The Financial Post and The Bullionist both predict a future of prosperity for the Grand Trunk.

Unsatisfactory State of Trade.

There is general complaint among British merchants of the unsatisfactory state of the trade with China, because of disturbances there, and recent cable despatches from commercial centres as from other districts in China are far from encouraging.

Billiard Tables and Accessories.

To mention billiard tables suggests the name of Samuel May & Co. of Toronto, who have been associated with the game for the last forty years. And why pray? Simply because they have supplied billiard tables and accessories from the Dan to Beersheba of the country in such numbers that they have become synonymous terms.

ANOTHER SOURCE OF REVENUE.

Everybody in Santiago to Be Taxed and Every Business to Be Licensed.

Santiago de Cuba, Oct. 4.—General Wood proposes to inaugurate a system of municipal taxation, making the taxes retroactive to Sept. 1. The funds of the customs house cannot legally be taken for municipal improvements because 25 cents per barancae of the present surplus is \$100,000. Consequently another source of revenue has to be obtained. There has been a law to tax and license every business enterprise by the American troops these taxes have not been collected. Now, however, the minister has suggested a system which will bring in a revenue of \$150,000 per month, which is badly needed for local improvements. It is the policy of General Wood to spread all the expenses of the system adopted by the Spaniards. Water in the dry season costs 25 cents per barancae and the Spaniards plan to bore artesian wells and obtain a plentiful supply of water.

The Largest Medical Practice in Canada.

they couldn't help telling their friends, and in three months Dr. Sproule's practice was the largest in Canada, as the doctor himself, he remained six months in Toronto, and then went back to his headquarters at Newport, Vermont, where he is now directing the largest medical practice in the world in Cataract and Chronic Diseases, assisted by a trained staff of assistants.

If you are ailing don't mind if you cannot visit the doctor personally; his system of treatment by correspondence affords a matchless skill right at your service in your own home.

BEHEIVED CATARRH COULD NOT BE CURED.

For many years I was like thousands of others, of the fixed conviction that Catarrh was incurable.

I had read all the advertised "cures," been treated by many reputable specialists and had numerous remedies prepared by druggists, all of which proved useless as far as curing my Catarrh was concerned. In April, 1896, I wrote to Dr. Sproule, on the recommendation of a business friend whom he had cured, asking if he could cure Catarrh.

He replied in the affirmative, and requested me to write him a full history of my case, I did so, and upon receipt of a letter offering me treatment, I placed my case with him, feeling, I must confess, that I was simply throwing away money to a "quack," but I had spent so much I thought, better try again, as I was very anxious to be cured.

The rest of my story is simple. I used his remedies four months and he cured me. I positively affirm that for two years I have not had a trace of Catarrh, after suffering several years with running at the nose, drooping in my throat, hawking and spitting up slimy matter, aching along my forehead, scabs in the nose, enlarged tonsils, bad breath and dry hacking cough.

Dr. Sproule cured me completely.

OLD NEW YORK BANK IN TROUBLE.

Its Capital Impaired and an Early Liquidation Advised—Troubles of Wool Exchange Responsible.

New York, Oct. 4.—The Tradesmen's National Bank of 290 Broadway did not open for business today, owing to a liquidation of the clearing house, of which it is a member, today. This fact led to investigation and it developed that the bank is in serious trouble. The clearing bank committee visited the bank yesterday and after a careful examination of its securities, found its capital impaired and advised an early liquidation.

The Tradesmen's National Bank is one of the oldest and one of the best known institutions of its kind in the United States, and is \$750,000.

In the banking district the opinion is expressed, among members of the wool exchange, which suspended business a few days ago, are indirectly responsible for the Tradesmen's National's troubles.
