HOTELMAN FINED \$200 FOR TREATING POLICEMAN

Charles Smith Fatally Injured and Charles Wilkins Found Dead in a Stable.

HAMILTON, Nov. 22.—(Special.)—Jacob Obermeyer of the Union Hotel, Hunter and Hughson-streets, was fined \$200 at the police court on Saturday for disposing of liquor after hours on Saturday night, Nov. 7. The liquor was given to Constable Thompson by way of a treat. Two other charges of harboring a constable and obstructing an officer were dropped. The obstruction of the officer consisted in delaying Sgt. Finch when he pounced in on the constable.

Fatally Injured. Charles Smith was fatally injured by the bursting of a flywheel at Sharp's mills at Mineral Springs on Saturday morning.

Found Dead in Stable. Charles Wilkins, 214 East Pictou-street, was found dead in his stable on Saturday night. It was at first supposed that death was the result of suicide thru poisoning, but Coroner Balfour, who investigated, has declared death to be due to natural causes.

A whiskey bottle containing polluted water was found in the loft some distance from the body, and it was at first thought this bottle contained poison, but an analysis proved it to be only water. The deceased had a butcher stall in Central Market Hall, and on Saturday afternoon he had to go home on account of illness. He complained of a pain in his stomach. About 8 o'clock at night he went to the stable to feed the horses, and when he did not return his wife thought he had gone back to the market. When the drivers arrived, about 11 o'clock, Mrs. Wilkins was surprised to find that her husband had not been at the market, and inquired of the neighbors of the body. It was quite cold and death had evidently ensued about an hour before. The coroner decided that the request was necessary. Wilkins was 35 years of age and leaves a widow and four children.

License Inspector Busy. License Inspector Farrell claims to have caught two hotels violating the liquor law to-day. They were the Belmont, conducted by W. Condon, and the Bayview Hotel, owned by Stewart-streets, run by W. Dillon.

Pastor Will Stay. Rev. J. C. Sycamore of James-street Baptist Church announced to-night his intention of remaining with his congregation in preference to accepting the call from a wealthy New England church. He also preached on society evils, and launched forth on a general denunciation of present-day conditions.

Killed by Boiler Explosion. On Saturday Mrs. J. E. Lewis, 180 Market-street, received a telegram informing her that her brother, William Tucker, had been killed by a boiler explosion on the Lake Shore road near Buffalo. The body was brought here to-day. The deceased was a son of Edward Tucker, 165 Sophia-street, and was 27 years of age. The funeral will be held at 3.30 on Monday afternoon, from the residence of his brother-in-law, J. E. Lewis.

James Turnbull, 166 West Hunter-street, died on Saturday afternoon. He was 54 years of age and leaves a widow and one son.

James Campbell, one of those on the "Indian" list, was roped in for drunkenness.

Fire did \$1000 damage at the residence of M. Dolan, Dickson-street, between 11 and 12 o'clock on Saturday night. The occupants of the house had to make a hurried exit, and a large amount of furniture was destroyed.

About 6 o'clock this morning the firemen attended a small fire at Bateman's bake shop on East King-street.

James Matthews, who boards at Leonard's lodging house, fell down the basement stairs at the Terminal Hotel to-night and sustained a nasty gash on his head. He was taken to the City Hospital in an ambulance.

Had Heart Trouble and Shortness of Breath For Six Years.

Was Weak and Thin—Only Weighed Seventy-three Pounds. Now Weighs One Hundred and Thirteen.

When you find your heart the least bit out of rhythm, your nerves unbalanced, your breath short, don't wait until you are prostrated on a bed of sickness. Take Milburn's Heart and Nerve Pills. They'll put you in such condition you'll never know you have a heart, make your nerves strong and your whole being thrill with new life.

Milburn's Heart and Nerve Pills cured Mrs. K. E. Bright, Burnley, Ont. She writes: "I was greatly troubled, for six years, with my heart and shortness of breath. I could not walk eighty rods without resting four or five times in that short distance. I got so weak and thin I only weighed seventy-three pounds. I decided at last to take some of Milburn's Heart and Nerve Pills, and after taking eight boxes I gained in strength and weight, and now weigh one hundred and thirteen pounds, the most I ever weighed in my life. I feel well and can work as well as ever. I did and can heartily thank Milburn's Heart and Nerve Pills for it all."

Price 50 cents per box or 3 boxes for \$1.25 at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

A GOOD INVESTMENT BETTER THAN A SAVINGS BANK

We have been fortunate in securing about fifty acres of land, situated south of Danforth Avenue, west of Woodbine Avenue, north of the Golf Grounds and east of Coxwell Avenue. It is a most desirable property, and has been divided up into building lots and is now selling for \$10 per foot on the weekly payment plan. A person buying a lot or more can sell again at any time they choose to do so. You do not have to wait until the property is fully paid for to sell again, as the agreement is transferable.

For illustration, suppose you bought a lot at \$10 per foot and had paid \$10 down... Total investment... \$36.00

If in six months the land advanced \$2 per foot and you sold at \$12 per foot, your profit would be \$40 on an investment of \$36. A great many of our people are investing their savings this way instead of putting them in the bank, as there is no safer investment than land, and advance in price is sure. As this property is now about to be annexed to the city, and is near Yonge Street as Lansdowne and Bloor Streets, where property runs from \$25 per foot up, we think it an excellent proposition. No matter where you live, you may invest, as we will look after your interests.

YOUNG CANADIAN ORATOR WHO RAN FOR CONGRESS

Tells Crowded Meeting at Labor Temple Why There Must Be a Revolution in Toronto.

The assembly hall at the Labor Temple yesterday afternoon was crowded, and equaled in attendance a democratic campaign reception to Keir Hardie, Benjamin F. Wilson, fresh from the fight for Eugene Debs in the presidential election, was the attraction. Mr. Wilson presided. A Socialist choir led the singing of a number of rousing campaign songs.

Benjamin F. Wilson was born at Auburn, Huron County, Ont., in 1875, where his father and grandfather were farmers. After receiving his public school education and passing his entrance examination when 14 years old at Wingham, he moved with his father to Huron County, Mich. There he attended the normal school at Wingham, and received a teacher's certificate. When he was 17 he was licensed as a local preacher, and went to the Northwestern University at Evanston, Ill. During his college term he had a student appointment as pastor of a church at Spring Valley, Ill., a large mining camp. It was his investigation of industrial conditions that caused him to become a Socialist.

He remained a pastor in the Methodist Church for six years. Then he entered actively into the socialist propaganda. For six years his home was at Berkeley, California, but he spent thirty different states, all the important towns west of Chicago, as well as three extended tours in British Columbia.

For the last year and one-half Mr. Wilson's home has been at Girard, Kansas. There he became the Socialist candidate for the United States congress in the recent election. He polled in the neighborhood of 7000 votes, which was an increase of about 100 per cent, compared to the Socialist vote of two years ago.

This week he will make a tour of Ontario, speaking at Berlin, Galt, Hamilton, Guelph, Brantford and West Toronto. He will return to Toronto for next Sunday. He will visit Cobalt, Allendale, Ottawa and Montreal. He then leaves for England to join his brother, J. Stitt Wilson, who for the last 18 months has been speaking before foreign socialist meetings there.

Accompanying him on his tour are Mrs. Wilson, who comes from the district of Wingham, Ont., and his two children.

Aim of Socialism. In addressing the Toronto Socialists yesterday, Mr. Wilson said that the aim of the Socialists was to gain control of the governing power of the country, so that all could be given an equal opportunity to procure work and secure the ownership of the machine of production. It was not a question as to whether you are a Socialist or not, for in the near future you will be forced to be one by the pressure of industrial conditions. The Socialists had a message to fit the morning of the twentieth century. The world was intended to be a huge dynamo for the production of human happiness, but the monopolistic class had tampered with the wires. The Socialist party was a revolutionary party, but would fight with the ballot and prevent a forceful social revolution.

The churches in Toronto were already making a great effort to be in readiness to deal with the suffering among the working classes this winter, which showed the need of a revolution here.

Explosion of Dynamite. ST. CATHARINES, Nov. 22.—(Special.)—William Bombay is at home today nursing a broken arm, as the result of a heavy explosion at Thorold yesterday. Bombay was engineering at the Battle quarry, and was unable to escape from the boiler-house when fifty or sixty pounds of dynamite exploded.

James L. Hughes, chief inspector of public schools, addressed the People's Forum in Zion Congregational Church 4 o'clock Sunday afternoon on "The Old Training and the New." Next Sunday anniversary services will be held in Zion Church.

Q. O. R. Olla Podrida.
A military camp of four round tents, with its fire and its chorus of glee singers, roped off by itself, with its vigilant guard; a compartment where, on a great white sheet the stirring incidents of the Quebec Tercentenary were pictured; a booth where candy was sold; a couple of tents where appropriately attired pretty young sorceresses were ready to unroll the scroll of the fascinating future—for ten cents; a refreshment stand; a military book stall; in the centre a raised platform,

from which the Queen's Own Band discoursed a program of music throughout the evening; and moving in and out, a laughing, gaily dressed throng of fully 3000 people of all ages, mingled with the glittering dress uniforms of the officers. Such was the Olla Podrida of the Q. O. R. at the armories on Saturday night.
The name Olla Podrida being interpreted means "a mixed dish," and was a happy suggestion of Lady Pellatt, wife of Col. Pellatt, who at present is away on a trip to the old land. The show, or let us say bazaar, was conceived of to establish a benefit fund for the regiment, to be administered by the ladies of the regiment in connection with the regimental chapter of the Daughters of the Empire, and Saturday night's efforts netted the tidy sum of \$800. Ladies of fashion, wives and mothers of officers in the popular regiment had taken up the work with enthusiasm and each booth or department, with exception of the camp, was in charge of these. The idea being that outside of the many friends of the boys in the command, and everyone must have been satisfied at the enterprising effort. It is an idea that talented officers might well copy

for the establishment of a like fund. The proceedings opened by a march past, headed by Sir Mortimer Clark, of all the active workers in the scheme. Mrs. Duffield was in charge of the ladies, personating Britannia—England, Ireland and Scotland—while Mrs. Sterling Dean and Mrs. Percy Jarvis looked after Canada. Sir Mortimer delivered a short address from the raised platform, while forming a square around it were grouped the 300 ladies working in the booths and at the refreshment tables. The opening ceremonies concluded, the laughing little army of earnest workers separated, each to take up her allotted task. The whole thing was arranged with military-like precision, and that fact accounted in a great measure for its success.
Mrs. Jack Murray was in charge of "Ye Olde Military Book Stall," where a history of the Queen's Own and military publications, such as The Flag, Ireland and Scotland—while Mrs. Sterling Dean and Mrs. Percy Jarvis looked after Canada. Sir Mortimer delivered a short address from the raised platform, while forming a square around it were grouped the 300 ladies working in the booths and at the refreshment tables. The opening ceremonies concluded, the laughing little army of earnest workers separated, each to take up her allotted task. The whole thing was arranged with military-like precision, and that fact accounted in a great measure for its success.
Mrs. Chadwick and Mrs. Bruce Harman ruled the destinies of the "Candy Shop." Mrs. H. E. Band and Mrs. Alton Garratt held sway over the ice cream garden. Mrs. Parkyn Murray looked after the "Garland Girls."

Tag Day Yields \$1350.
The amount collected by the tag-day of the Y.W.C.G. on Saturday was slightly over \$1350, with a few canvassers still to hear from. All told, the two days' campaign will furnish almost \$16,000. The committee know of one cheque for \$100 and several of \$50 and \$20 that are waiting to be collected. Work on the new building is progressing rapidly, and will be ready for the laying of the corner-stone about Tuesday.

TOWNSHIP TELEPHONES. Editor World: I am a believer in public ownership in everything we can have, and as I live in the Township of Chinguacousy, County of Peel, I have been thinking of trying to have our township council take hold of the telephone system and install a system over the township, making connection at our county town—Brampton.

I would like, if you could tell me, to know of any township that owns and controls the telephone system; also what will the Bell Company charge to connect on their long-distance line? Any information you can give on this matter will be gratefully appreciated. I am a strong supporter of R. Blain, M.P. Cheltenham, Nov. 21.

This letter, received from one of the most substantial citizens of Peel, suggests a subject well worthy of consideration by every municipality in Ontario. Under the recent amendments to the Railway Act, the township would have the right to have its system connected up with the long-distance lines of the Bell Telephone Company. There is no difficulty to be apprehended upon that point.

If this enterprise is undertaken by the Township of Chinguacousy, it should be carried out with the principle always in view, that the public are entitled to good service, and that good service can only be had in the telephone business by making it, as near as may be, universal. A first-class plant and low rates will pay best in the end. Public ownership prefers to serve as many people as possible and as cheaply as possible, rather than to charge extortionate prices to the wealthy few.

In promoting this enterprise, the Township of Chinguacousy should receive invaluable aid, not only from Richard Blain, M.P., but also from Samuel Charters, M.L.A. It is a grand opportunity for these gentlemen to serve their constituents. With every home in Chinguacousy provided with a telephone, this township would become in this respect a model one, and its example would be eagerly followed, not only through the County of Peel, but all Ontario. A few good meetings addressed by the friends of public ownership should push this project to success. The World has already interviewed W. F. Maclean, M.P., and he is ready at any time to assist Messrs. Blain and Charters in this good work. With "Dick and Sam"—to speak in a colloquial way—working together, there should be no delay in presenting this important project to the people of Peel, and there can be no doubt as to the result.

Chinguacousy may not be the pioneer township in municipal telephone ownership and operation—as to this we hope to give our correspondent more definite information—but it should be one of the most successful.

AN IMPROVED AMBULANCE SERVICE.

Toronto is a city of about 300,000 people, and of "magnificent distances." The police commissioners, who control the ambulance service, do not seem to have realized this. As a result, a woman had to wait for more than an hour on Saturday, until an ambulance could be sent to her assistance.

A suggestion might be offered where, in improvement could be made. Ambulances for emergency cases should not be stationed down town, necessitating perhaps the traveling of miles to reach the patient. An ambulance in Riverdale and another in Parkdale would save much time in responding to calls, while a little of the hurry-up that marks the ambulance work in United States cities would also often-times be appreciated by sufferers.

CAMPAIGN CONTRIBUTIONS.

Under the recent statute passed by the legislature of New York the treasurer of the Republican national committee has filed an itemized report of all campaign contributions. He received all told \$1,700,000, the candidate's brother, Mr. Charles P. Taft, leading the list with a donation of \$160,000.

TRIBUTE, BUT NO LESS THAN 20,000 PEOPLE

in moderate circumstances sent in small amounts. Is \$1,700,000 a large amount? Of course, these things go by comparison. Buchanan was elected in 1860 with a campaign fund of \$25,000, but at least \$15,000,000 was spent for McKinley in 1896. Mr. C. P. Taft's subscription for \$160,000 has been equaled and exceeded in Canada.

MR. HILL AND FREE TRADE.

If all the Republic's captains of industry were as transparently earnest and sincere as Mr. James J. Hill is, in advocating unrestricted free trade between the United States and the Dominion, it would be time for Canadians to consider what the proposal means and what it would involve. But except as an individual declaration, important from the position of its affirmant, Mr. Hill's powerful plea is only of academic interest. In the meantime, at least, and also the movement for tariff revision undoubtedly commands large and increasing popular support, nothing has yet emerged to confront Canada with the momentous issue raised in the address of the great railroad magnate. The United States has a long way to go in the direction of tariff reduction before even an offer of trade reciprocity can become a matter of practical politics, for the day has long passed when negotiation can be based on anything short of absolute equality of treatment as regards trade exchange.

The World is not of those who view the development of inter-continental commerce as likely in any degree to affect the existing political relationship. Time was when Canada's dependence on the United States, had it been maintained and encouraged, might have led to closer union. But a change, radical and vast, has come to pass in the Canadian outlook. So many and so difficult have been the problems solved in the conquest of the Dominion in its orderly organization and in the ascertainment and development of its resources that its people are no longer dubious over their power to create a great and prosperous, free and separate nation, or less resolved to co-operate in voluntary co-partnership with the other self-governing communities under the British flag.

The sentiment of nationality once aroused is not easily killed and there is much in the internal situation of the United States to make a country, such as Canada has now become, hesitate about losing its identity and entering into a union under a constitution, the dead hands of whose makers control the living citizens of the twentieth century, and the altered circumstances it has brought.

Canada will therefore await without either hope or fear the outcome of the tariff reform agitation in the United States. Free trade is not a practical issue, notwithstanding the intermittent homilies of the newspapers that profess to believe in it as the only true gospel of political economy. As these same newspapers are also supporters of a government that adopted the national policy, with protection as a cardinal feature of it, and are making no appeal for the removal of the present measure of protection, it is not surprising that their efforts to change popular sentiment fall ineffectual on the public ear. If United States opinion was all as liberal and broad-minded as the view of Mr. Hill is, there might be less apprehension that under free trade Canada's interests would receive little consideration from the United States manufacturers, who have been compelled by our protective system to aid the growth of our own industries. But the experience of the Dominion does not invite confidence that equality of advantage would cut much figure in the promotion of reciprocity. Canada has every reason to be content with her industrial and commercial progress, and they are not patriotic that invite any departure from the policy which enables her to negotiate on equal terms even with her mighty neighbor.

EFFECTS OF THE PAPER TRUST

U. S. Tariff Committee Hear Argument for Free Trade in Paper.

WASHINGTON, Nov. 22.—A severe arraignment of the so-called "paper trust" was made at the Saturday afternoon hearing before the house committee on ways and means, which was in session until nearly midnight. After hearing arguments, mainly for a protective tariff, the committee heard the testimony of John Norris, representing the American Newspaper Publishers' Association.

Mr. Norris argued for free trade in pulp and print paper, giving many figures to show that the protection afforded the paper manufacturers by the present tariff resulted in unreasonable prices for paper. Mr. Norris furnished names and dates to confirm his charges "that the paper famine in 1907 was caused by the manipulations of John A. Davis of H. C. Craig & Co., New York, who bought up 20,000 tons of newspaper paper at that time to starve the market."

WANTS TO BE ANNEKED.

Editor World: In regard to a statement that was made before the board of control by Frank Hodgson, K.C., stating that the people in East Toronto north of the G.T.R. track did not want annexation I may state that I am a ratepayer there and want annexation, except Mary Middlewood, who has been a ratepayer close on ten years, and have not got anything for my taxes yet, no sidewalks, water or light, and no right for the golf people. When the county gave permission to run the gas up Coxwell-avenue they were the first to get supplied with it by two lamps, but outside the front of their property, while on Coxwell-avenue there is not a light from Queen-street to Danforth-avenue, where people could be held up for their earnings. I as a property owner never gave anyone authority to say that I did not want annexation.

FINCH v. GREEN-MACDONALD (Johnston)

For plaintiffs, moved for an order restraining defendant Porter from paying and defendant Van Every from receiving any sum of money payable as commission or brokerage or otherwise in respect of the sale or purchase of a mining claim known as the St. Denis claim, until the 25th inst., with liberty to fill and serve further mature terms not later than 24th instant.

TALBOT v. BARKER—A. Boyd (Royce & A.), for defendant, moved for an order dismissing action without costs. Order made.

SMITH v. MIDDLEWOOD—H. D. Gamble, K.C., for plaintiffs, executors of John Smith, J. F. Helmuth, K.C., for all defendants, except Mary Middlewood, Grayson Smith for Mary Middlewood.

Action to have it declared that Mary Middlewood takes no interest in the commission of her father owing to her having obtained a divorce from her former husband, Lumbers, and marrying Middlewood, there being an express provision in the will of her father that children obtained a divorce they thereby disentitled themselves to any share of the estate. The balance of estate to be distributed is about \$10,000. Since the trial at which judgment was reserved a settlement has been arranged between the parties by which Mary Middlewood receives \$2000. The court approved of the settlement.

FROM AN OIL PIONEER.

The Town of Barkerville is situated at the head waters of the Willow River, Cariboo District, B.C., a fact that will add great weight to the importance of the following letter by James Wendle of Barkerville, B.C., to John W. Gordon, secretary of the Willow Creek Timber Company, which says:

"As requested, I am writing you about the timber, possible streams or floating logs, character of the country, etc., on the Willow River. The timber consists of a dense growth of spruce, with some pine, fir, balsam and cedar scattered. It will range up to three and one-half feet in diameter. That this timber will be in great demand with advent of a railroad into the district goes without saying, and it is well known fact that the timber in this section of the west is appreciating in value at a very fast rate.

AN OPPOSITION OPINION
OF STATE-OWNED CABLE

Manager of Commercial Company
Declares That It Wouldn't Be
a Paying Venture.

(Canadian Associated Press Cable.)

LONDON, Nov. 21.—Fred. Ward,
manager in England of the Commercial
Cable Company, interviewed by a re-
presentative of the Canadian Associat-
ed Press this morning, announced the
proposed construction of a state-owned
cable, said the idea of the English and
Canadian Governments as to laying a
cable between England and Canada
would be a grave mistake, similar
to the mistake made in laying the
British, Canadian and Australian Pa-
cific cable.

"The only people who are getting
the benefit of it are the Americans, be-
cause they get cheap rates over that
cable, and our deficits on the inland
deficit. This is just what would hap-
pen if the government laid a cable
between England and Canada, Ameri-
cans would get the benefit and stand
none of the loss. I am surprised that
any such proposition is being consid-
ered in view of our high rates of taxes
at present, and our deficits on the inland
telegraph service, and the Australian
Pacific Cable.

"That cable has cost the taxpayers
about \$2,000,000 and its operation
brings in no income on this vast sum
of money, but, on the contrary, that
cable loses about \$65,000 a year, which
has to be paid by taxpayers in three
countries. We have had quite enough
of that.

"I understand that ten cents a word
would not pay the cost of operation.
I consider a shilling a word a fair rate
when it is borne in mind that the
sender of a telegram can by the use
of the code convey 20 to 30 words by
his correspondent at the price of a
shilling, or less than halfpenny a word.
I also understand that 95 per cent.
of cablegrams is in code words by peo-
ple using the cables every day. The
other 2 per cent., which is social, is
widely scattered, and probably the per-
son who would send the social mes-
sage to-day would not have occasion to
use the cable again in six months.

"Stock exchange quotations show
that some of the Anglo-American tele-
graph companies shares only pay 1
per cent. dividend per annum, the
New York Telephone Co. only 2 per cent.,
the direct United States Cable Company
only 4 per cent., and the Mackay Com-
panies, which own the Commercial
Cable Company, only 5 per cent. Those
certainly are not exorbitant as things go."

Building, Toronto.

FEDERATION OF LABOR MEET NEXT IN TORONTO

This City Selected for Great Annual Convention—Sam Gompers Re-Elected President.

DENVER, Col., Nov. 22.—The American Federation of Labor on Saturday selected Toronto for next year's convention. The election of officers resulted: President, Samuel Gompers, Washington, D.C.; first vice-president, James Dugan, Quincy, Mass.; second vice-president, John Mitchell, Springfield, Ill.; third vice-president, James O'Connell, Washington, D.C.; fourth vice-president, Max Morris, Denver; fifth vice-president, D. A. Hayes, Philadelphia; sixth vice-president, Wm. L. Huber, Indianapolis; seventh vice-president, Joseph F. Valentine, Cincinnati; eighth vice-president, John R. Alpine, Boston; fraternal delegates to the British congress, John F. Frey, editor of The Moulders' Journal, and B. A. Langer of the United Garment Workers of America; to Canadian leaders, convention, Jerome Jones of the Georgia Federation of Labor, and editor of The Journal of Labor.

The executive council, which is made up of the officers, shows no change with the exception of the substitution of John R. Alpine for Daniel J. Keefe, who withdrew. Mr. Gompers was re-elected to the office he has held since the organization of the federation in 1881 with the exception of one year, amid scenes of the greatest enthusiasm, only one discontented representative of the Socialist party voting against him.

The American Federation of Labor is the most important labor body on the continent. It comprises about 500 delegates, representing 116 international organizations, a larger number of state federations and the central bodies of federated unions.

In addition to the delegates, there will be in Toronto the organizers of the union bodies and a large number of visitors to the convention, making in all probably from 1200 to 1500 people. The A. F. of L. represents 2,250,000 labor men in all parts of the United States and Canada.

The Toronto delegates to the Denver convention were Robert Wood, bookbinder; D. Carey, musician; H. Stephenson, printer; A. C. Sanders, carpenter; and Magnus Sinclair, street railway man. In addition, the Corporation of the City of Toronto was represented by Joseph Thompson, commissioner of industries, whose business was to circulate among the delegates and boost Toronto for the convention. Mr. Thompson was sent by the city at the request of a committee composed of J. H. Sanderson, chairman, and James Simpson, secretary. Other members of the committee appointed by the labor unions to secure the convention were William Glockling, J. H. Kennedy and John Gardner.

Now that Toronto has been selected the Toronto unions will appoint a committee to prepare for the event, and it will be necessary to raise a fund of \$2000 to \$3000 to meet the expenses.

Burglars Get Jewelry. STRATFORD, Nov. 22.—(Special).—A daring robbery was committed at John Swinburne's general store early Saturday, when unknown thieves lifted the grate and by way of the cellar reached the store, getting away with over \$300 worth of jewelry.

For threatening to shoot James Ruston J. S. Marchant was sentenced to three months in jail.

RAPID DEVELOPMENT AT CHAMBERS-FERLAND

A Few Months' Work Has Demonstrated the Riches Contained in This Property.

COBALT, Nov. 21.—(Special).—A visit to the Chambers-Ferland mine is almost a revelation considering the small amount of time—a little over four months—during which the development and other work has been under the charge of Capt. Jeffrey. During this period, over 1000 feet of development has been done, together with 1814 feet of surface trenching; eight new veins have been discovered and the continuity of veins already discovered has been proven.

Yet, despite this not one-quarter of the whole property, 124 acres, has been prospected on the surface to date, and it is impossible to estimate the great possibilities of the future development of this property. In addition to the mining and prospecting done, good substantial buildings are erected, and the mine is fully equipped, and will be further so when the Taylor hydraulic air system is completed.

Nearly 30 per cent. Speaking of the future, Capt. Jeffrey estimates that within three months from date the ore output should reach \$50,000 a month, or nearly 30 per cent. per annum on the outstanding capital. No. 1 shaft at the mine is down 100 feet. At this level a drift has been made 65 feet southerly, towards the O'Brien, and 112 feet northerly, to the LaRose, where connection has been made with the LaRose workings.

Some stoping has been done on both these veins, and 100 tons of screenings shipped. There is now on hand ten tons of screenings and twenty tons of high-grade ore. The high-grade ore runs from 5100 ounces to 10,000 ounces to the ton throughout the entire vein matter. No. 2 shaft is sunk vertically 100 feet. At the 80 foot level a cross-cut is run 140 feet west, and is being carried to cross-cut Nos. 5, 6, 7, 8 and 9 veins. On No. 5 vein, a drift is being made south towards the Nipissing line. On the surface of this vein eleven tons of ore, which gave smelter returns of 2400 ounces to the ton, were taken from a pit ten feet deep. The vein has been traced 300 feet on the Chambers-Ferland ground.

Veins 6 and 7 have been proven to carry high-grade ore on the surface, and both have been traced 300 feet through the Chambers-Ferland and into the LaRose. Veins 8 and 9 lie farther west, and are exposed on the surface, and below these four new veins have been discovered. It is proposed to cross-cut from the 85 foot level of the Right of Way mine to catch all the veins lying in the flat close to the T. & N. O. Railway.

Produce Dealable of Capital. The famous LaRose vein, No. 1, has been cross-cut by a drift from the Right of Way. This latter company has agreed to make an advance for the Chambers-Ferland Company, at a cost of \$15 a foot, and it is estimated that this vein alone will produce double the capital of the Chambers-Ferland. East of No. 2 shaft seven veins have been discovered, and a shaft is being sunk on a big calcite vein. Lately a vein 5 inches wide was cross-cut at the 175 foot level of the O'Brien. No. 2 shaft, running in a southwesterly direction into the Chambers-Ferland ground.

The showing already made at the Chambers-Ferland mine confirms the opinions held in the camp, that the property should prove, on account of its situation, one of, if not the, richest and biggest ore-producers in the whole district.

MINING CONGRESS INVITE OPINION AND SUGGESTION

Ask for Discussions From Interested Mining Men Upon Matters Needing Consideration.

The eleventh annual session of the American Mining Congress has been called to meet at Pittsburgh, Pa., on Dec. 2, 3, 4 and 5 next. In the announcement it is stated that the main purpose of the convention is to bring out the opinions and suggestions of all men interested in mining upon such matters as need consideration, in order to arrive at a remedy for any improper condition. To this end, every member of the convention is earnestly requested to introduce by resolution such matters as he may deem important.

Safety of Men. The increased demands for timber and water in carrying on mining operations renders more imperative not only the better conservation of the natural resources but calls for such regulations as will insure that timber from the public domain shall first serve the nearest mining camps in which its use is demanded. The treatment of ore of such low grade as to render transportation and the economy of ore reduction and treatment at or near the mine will continually demand an increasing supply of water for milling purposes as well as for the generation of power. Discussion will be welcomed looking to a better conservation of the timber and water resources upon the public domain.

To Kill Wildcats. Mining is a legitimate business and not a gamble. Under proper conditions it brings larger and surer profits than any other business under similar conditions. The large amount of money lost to investors in alleged mining enterprises justifies the efforts of the American Mining Congress to stamp out the wildcat promoter, and to assist the legitimate promoter in his efforts to bring together in honest trade to their mutual benefit. Through such transactions the development of the mining industry is attained, which is so important to the industrial progress of the nation. A discussion of further efforts in this direction will be welcomed.

Re Smelting Charges. The report of the committee on "The Mutual Relations and Grievances of the Smelter Trust and the Ore Producer" made to the tenth annual session indicated that a very unjust burden is being carried by the producers of refractory ores on account of excessive smelting charges. The particular remedy suggested was competitive smelting plants. A belief in the efficacy of this remedy has resulted in the establishment of two independent competitive smelting plants during the present year: one at Ponderay, Idaho, the other at Tropic, Utah. Further efforts along this line are anticipated, and it is hoped that conditions may be created under which the ore producer will always have the advantage of an open competitive market for the product of his mine.

Foot and Mouth Disease. DETROIT, Nov. 21.—It is reported that more than forty cases of foot and mouth disease have been discovered in herds of cattle in Livonia Township, in this (Wayne) County. PHILADELPHIA, Nov. 21.—Discovery of more animals suffering from foot and mouth disease was made in Lancaster and Northumberland counties of this state, to-day, and thus far more than ten counties are under strict quarantine.

MOOSE HORN MINES (MONTREAL RIVER)

We have told you to buy VICTORIA. We now URGE you to buy MOOSE HORN. We purpose to give Victoria management (stick at it until you ship the rich ore), to Moose Horn.

With 160 acres of land (four mining claims), three-quarters of a mile from Elk City, with assays from six distinct veins, running from 250 to 13,000 ounces of silver to the ton, with transportation assured during the winter by the Government Winter Road from Charlton, which crosses the property, WITH THE T. & N. O. RAILWAY SURVEYED TO RUN WITHIN 100 FEET OF THE MAIN SHAFT, which is down 72 feet, with fine ore from 60 feet, the Moose Horn Mine compares favorably with any mine on the Montreal River, and goes far to prove our assertion that in the Montreal River Section Cobalt has no mean rival.

All that Moose Horn needs is active development. It has the rich veins, BUT EVEN A BONANZA IN THE GROUND needs money to take it out and ship.

Enough stock has been underwritten to provide ample working capital for one year. The present offering is made to put in a complete plant, including six-drill compressor, etc. This stock is going fast, both here and in New York, where it is listed on the curb. That Moose Horn will SHIP MACHINERY IN and SHIP ORE OUT before spring is a certainty.

PRICE FIFTY CENTS PER SHARE—SUBJECT TO ADVANCE. M. E. & J. W. de Aguerro Established in New York 1884.

Capt. John Harris says, in his report on the Moose Horn: "At about twenty-five (25) feet down the shaft, the vein widens to one inch of Calcite, in some places SHOWING ALMOST SOLID SILVER. The vein holds good to the bottom of the shaft and the full length of the drift.

"I have been in the Cobalt Camp almost from its beginning, and would say that there are as good showings of silver on the Moose Horn property as in any of the Cobalt Mines at its commencement, and for the same amount of work having been done.

"I BELIEVE THE MOOSE HORN MINE CAN BE MADE A PAYING PROPERTY FROM THE START."

The MOOSE HORN is THE mine on the Montreal River.

The stock will be worth \$1.50 per share when the railroad is finished in the spring. BUY NOW and reap the benefit of the Government-built Railroad.

Send your orders to the regular brokers, who are advertising the stock, or to the undersigned. Full information will be given at ROOM K (ON THE OFFICE FLOOR), KING EDWARD HOTEL, WHERE SAMPLES OF THE VERY RICH ORE MAY BE SEEN.

wheat, but are rather inclined to think there ought to be some further set-back before we advise making long commitments. However, on any good decline from present level, buy Chicago May.

Corn—The market for this cereal is exceedingly dull, but the farmers are showing no disposition to market new corn in any quantities, and comparing corn with the price of other grains we believe that corn at the present level promises great possibilities. Farmers' stocks of old corn are practically nothing and consumers are dependent on new crop offerings. We unhesitatingly advise purchase of May corn at the present level, believing it will net good profits.

Sec'y-Treas., JOHN W. GORDON Insurance Broker, St. Catharines, Ont.
B. BROUGHTON Mgr. Hamilton Starvo & Stencil Works, Hamilton, Ont.

This Company Holds 22 Timber Berths, Aggregating 52 sq. Miles (33,280 Acres), all Carefully Selected, Containing Over 800,000,000 Ft. of Finest Timber, Bought by This Company at the Exceptionally Low Figure of 26 Cents per Thousand Feet

All of this timber is located in the Willow River District on solid level ground, lies close beside good water for logging, and is mostly White Spruce of a superior quality. It averages 30 inches in diameter and ranges from 90 to 160 feet high. The limbs commence half way up. There is some good tall Pine and Balsam. The Grand Trunk Pacific and the Canadian Northern surveys both cross the Willow River lower down than our limits.

British Columbia White Spruce is infinitely superior to the Ontario variety, and makes the finest finished lumber for interior work. It also makes splendid lumber for general use. Ends of logs and logs too small for lumber can be utilized for pulp, as White Spruce is universally acknowledged to be the finest material in the world for pulp for fine papermaking.

The limits were cruised by James M. Anderson, of Sutton West, an Ex-Crown Timber Agent, and the company has on file at its office a number of letters from some of the most prominent business men in Canada in recommendation of his capability and integrity, and from settlers in the Cariboo District verifying his report of the timber.

The company has also issued in pamphlet form the report (dated Oct. 31, 1908), of Mr. H. P. BELL, M.I.C.E., member Am. Soc. C. E.; at present the Superintendent Engineer on the Government Staff on the Trent Valley Canal at Campbellford, Ont., who was employed by the British Columbia Government in 1874-5-6 to make a survey up the Willow River Valley for the proposed route of the British Pacific Railway, and who cut the Government Pack-trails through the Willow River District in 1895. His report substantiates Mr. Anderson's in every detail, and in view of Mr. Bell's pre-eminence among the Civil Engineers of America, among whom there is no higher authority on the topography of the Cariboo District, his report will be universally accepted as being entirely correct. Mr. Bell was recommended to this company by Mr. Collingwood Schreiber, Consulting Engineer to the Dominion Government and Chief Engineer of the Western Division of the National Transcontinental Railway.

GOOD TIMBER well located, is the safest and best investment in the world to-day.

FIRE DOES NOT DESTROY MATURED TIMBER It kills and stops the growth, but if cut down within two years after the fire, this timber will make first-class lumber. But fire does destroy the young growth of small saplings, thus depriving the coming generations of their timber supply. ANY RELIABLE LUMBER DEALER WILL VERIFY THIS STATEMENT.

The C.P.R. holds several limits in British Columbia, and after reserving the best, is selling the second-class timber at \$2.00 per 1,000 feet on the stump. If we sell our selected timber at the same figure in three years, on a basis of \$224,000 paid-up capital,

Each \$100 Invested To-day at Par Will Bring a Return of \$722.52

This is not exaggerated; \$2.00 per thousand for good timber is a ridiculously low price. In Ontario Spruce is now worth from \$7 to \$9 per thousand feet on the stump and is rapidly increasing in value.

The Company Has Reserved \$36,000 of Treasury Stock to Provide for Future Government License Fees

Each Share of Stock Represents 315,600 Feet of Timber

A Limited Number of Shares is Now Offered at Its Par Value.

\$100 Per Share on Time; Cash, Per Share, \$97.50

TERMS—Cash: 5 per cent. discount on one-half the amount subscribed; Time: 25 per cent. cash, 25 per cent. on December 10, 1908, balance by May 10, 1909. CASSELLS TO GO WEST.
Will Hold Sessions of Marine Enquiry in British Columbia.
VANCOUVER, B. C., Nov. 22.—(Special).—Justice Cassels' marine enquiry commission is coming to the Pacific coast and will hold sessions in Vancouver and Victoria.

New Century Debating Club.
The fifth meeting of the session of this club was held on Saturday evening, at the home of the secretary, No. 903 Elbow-street. The evening was devoted to a discussion on "The Public Duties of Private Citizens," the discussion being opened by a most interesting and well-studied address by Aid. James Hales.

NEW LABOR BODY.
Railway Employees' Department of A.F. of L. Organize.
DENVER, Col., Nov. 22.—It was announced to-day that there was born in Denver yesterday a powerful railway employees' organization to be known as the railway employees' department of the American Federation of Labor, with ten affiliated organizations as members.
The object is to bring about a closer union of all railroad employees and to seek to affiliate all railway organizations with the organization.
The first convention is to be held in Denver and it is expected that the hundred thousand employees, will be represented by the officers of their unions, which are as follows:
Railroad telegraphers, boiler-makers and iron shipbuilders, freight handlers, machinists, car workers, blacksmiths, railway clerks, switchmen, maintenance of way employees and steamfitters.

Day's Doings in WORK COUNTY

ARREST OF YOUNG GIRLS SHOWS ORGANIZED GANG

City Wants a Statement Showing Assets of West Toronto—"Ralph Connor" at Weston—Notes.

WEST TORONTO, Nov. 22.—It has now developed that the two little girls from Symington-avenue, who were arrested in West Toronto on Friday for shop-lifting, are members of a band of juvenile law-breakers who have been developing their thieving propensities in a very systematic manner. Both the local and Toronto police have got the names and addresses of several other girls all under 14 years of age, who have been working hand in hand in collecting articles from stores. The value of the goods stolen now aggregates \$50. Besides having become proficient at light-fingered, the girls had developed in crime so far as to have fictitious names prepared for the police in case they should be detected.

There are twenty-two cars of stock in the Union Stock Yards for to-morrow's market.

The public school board will meet on Tuesday evening.

It is hardly likely that the Toronto City Council will spend much time to-morrow in discussing the proposed West Toronto annexation agreement. City Treasurer Jackson a few days ago received a communication from City Treasurer Coody of Toronto, asking for a statement of the assets and liabilities of the suburban city, in order that it may be produced at the council meeting. This statement will be delayed till their next meeting.

The funeral of the late Mrs. Anna Ward, who died on Saturday morning at the residence of her daughter, Mrs. McCullum, West Dundas-street, will take place to-morrow afternoon at Prospect Cemetery, Rev. T. Beverley Smith of St. John's Episcopal Church will officiate.

Curriers Elect Officers.

A well-attended meeting of the Curriers Club of West Toronto was held on Friday evening at their hall, Ravina Park. Refreshments were served. Preparations were made for the coming season's sport, and these officers were elected: Honorary president, Senator Campbell and W. F. Maclean, M.P.; president, R. L. McCormack; vice-president, John McEachern; secretary, J. G. Musson; assistant secretary, C. L. Earnes, B.A.; treasurer, Herman Hechtman.

Before a large crowd of spectators, two games were played on Friday night at the Ontario Bowling Alley, in the Ontario League, the Nationals won from the Knights of Pythias by three straight games, thereby putting them in second place. The Wanderers being first. The second game was between the local Westerns and the Aquatics in Class C League, Toronto, the West Toronto team winning all three games.

Sunday School Rally.

All parents and teachers in West Toronto interested in Sunday school work had a splendid opportunity to learn something in Amette-street Baptist Church to-night, when an interesting address was given by Prof. Gilmour of McMaster University. "The work of the Sunday school," said the speaker, "is one that has no superior in the whole range of Christian activity. Teach the little people the stories, histories and doctrines of the Bible, and get its precepts into their minds, their hearts, their characters. Sunday school work has bearings as large as eternity, and the teachings of the Bible should be inculcated during childhood days, when the mind is most impressionable."

NORTH TORONTO.

Newsp Notes of Recent Happenings Around Town.

NORTH TORONTO, Nov. 22.—The public meeting under the auspices of the Ratepayers' Association, held on Saturday evening, although not largely attended, was a lively one.

The resolution that the Ratepayers' Association stands neutral and will not identify itself with annexation to Toronto, an association, and granting to each individual member the liberty to identify himself with any annexation or anti-annexation movement he sees fit to join, brought forth considerable argument pro

WEST TORONTO

and con, but was finally carried by a large majority.

It was found advisable to introduce the above resolution as the idea has gained foothold that the Ratepayers' Association was organized for the avowed purpose of promoting annexation.

Another resolution passed by the association, which will be forwarded to the town council, in brief, is as follows: "That this meeting of ratepayers regrets that the council of the town has not yet obtained an expression of opinion from the city council in regard to annexation, and that a vote of the town's ratepayers on an annexation is probable at an early date, be it therefore resolved that the town council be respectfully requested to endeavor to obtain such an expression of opinion, if possible, before the 15th of December next."

School Matters Again.

Touching briefly on the school question, President Ellis urged that the council or school board should purchase a block of land adjoining the Davisville School, 300 feet square and which can be bought for \$8000. He has been in communication with the new owner of the old Lawrence farm, and stated that he has the assurance that a block of land for a school would be obtained at a reasonable price on the southeast corner of Yonge-street and Lawrence-avenue. This matter, however, will be more fully discussed at next Saturday evening's meeting.

Railway Board Meets.

To-morrow (Monday) afternoon, at 2:30 o'clock, the Ontario Railway and Municipal Board will give the town a hearing in regard to the grievances against the Metropolitan Railway. All those who are interested in the town's welfare, and especially those who can give evidence, are requested to attend this meeting.

An excellent program has been arranged for the annual concert, to be held in the town hall next Thursday evening.

Thos. Forsyth has leased the Daville Hotel for a number of years, and has all ready taken possession. He will run the hotel on strictly temperance principles and as a boarding house. He also has removed his livery stable from the Oulcott Hotel to the Daville Hotel at Weston. Mrs. C. H. Kerwell is spending the winter with her daughter at Bay City, Mich.

The Girls' Circle, a missionary organization in connection with the Methodist Church, will hold a bazaar at the town hall next Friday afternoon and evening.

St. Clement's Literary and Musical Society will give their fortnightly entertainment at Clement's School room on Tuesday evening.

RICHMOND HILL.

Provincial and Local Officers Keep Close Watch.

RICHMOND HILL, Nov. 22.—(Special.)—Before Magistrate Henderson and Sanderson on Saturday afternoon, a couple of liquor cases were taken for consideration. For keeping for sale one bottle of whiskey, a Bulantree-hotelkeeper was fined \$50 and costs, while a charge against the proprietor of the Mansion House, in Stouffville, accused of selling two glasses of whiskey, was remanded for a week, after considerable evidence had been taken. A court dealing with the Mansion House case will be held in the city.

AGINCOURT.

Knox Church Will Have Induction Service in Near Future.

AGINCOURT, Nov. 20.—(Special.)—After being without a regular pastor for greater part of a year, the Presbyterians of Knox Church of this village, have extended a call to Rev. James Anthony of Waterbury, to succeed to the vacant position. The formal induction will take place on Monday, Nov. 23, at 10 a.m. Rev. Dr. Taylor of Cooke's Church, Toronto, will preach the induction sermon in the "blue room" of the Knox Church, in the afternoon, on Wednesday, Nov. 25, at 7 p.m. The president will occupy the chair. In the evening a banquet will be held.

EAST TORONTO.

Big Meeting Wants Intervening Part of York Township in Sure.

EAST TORONTO, Nov. 22.—(Special.)—Mayor McMullan presided over a mass meeting of citizens held in the Y.M.C.A. Hall last night, at which about 1500 persons were present. The meeting was in response to a largely signed petition to discontinue the activity of the railway and municipal board in refusing to allow that portion of York Township between Greenwood-avenue and East Toronto, to intervene in the "blue room" of the Temple Building, in Toronto, on Wednesday, Nov. 25, at 7 p.m. The president will occupy the chair. In the evening a banquet will be held.

BALLOTING FOR BISHOP.

Synod of Montreal to Elect Head on Tuesday of Next Week.

MONTREAL, Nov. 22.—(Special.)—On Tuesday of next week the synod of the Anglican Diocese of Montreal will again grapple with the problem of securing a successor to the late Bishop Carmichael.

On the morning of that day the lay and clerical delegates will attend a communion in Christ Church Cathedral, at the close of which service they will at once repair to the synod hall, where the balloting for a fifth bishop of Montreal will take place.

Following precedent, no names will be submitted to the synod, and each delegate, therefore, will be free to vote for the clergyman who, in his opinion, should be elected to the see. Should another deadlock occur between the clergy and the laity, however, it is quite possible that the synod will resolve itself into a committee of the whole, and sit behind closed doors in order to find a man for the high office.

TORONTO PARENTS LAX CHILDREN RUN STREETS

Rev. W. B. Findlay Deplores Prevalence of Profane and Improper Language Among Corner Groups

That Toronto parents are much too prone to allow their children the free run of the streets at night, was a statement made by Rev. W. B. Findlay, speaking at St. Enoch's Presbyterian Church last night. He sounded a distinctly warning note.

Seven-eighths of the children seen on the streets had homes (the only one he said, so that the chief problem was not to find homes for children, but how to keep in their homes children that were to be seen on the streets corners at unseasonable hours of the night. Any one who moved about thru Toronto's streets after 6 p.m. must be struck with the tender age of a large number of the children who were allowed to roam about the streets after dark and to gather in mixed groups at the end of lanes, corners of streets and shaded places.

Cause for Alarm.

"Let me point out an exceedingly dangerous fact that ought to fill us with grave anxiety," said the speaker. "If you approach those groups unseen and unheard you will often hear profane and improper language. These things ought never to fall from the lips of children."

Street-wandering was subversion of parental authority and the child who grew up without such authority had a gloomy outlook. The street was the school of childish anarchy, where, in the dimly lit hours of darkness, the children learned that it was a smart thing to defy all rules of home.

Parents to Blame.

One great reason for the will that parents did not take sufficient trouble to instruct and amuse the children. The healthy child could not be expected to be so docile. Parents let their children go out at night that there might be quietness in the home. Such quietness was bought at a fearful price.

Children of the tender age were passionately fond of company, and rightly so, but many parents failed to recognize the fact. Parents often showed lazy carelessness as summed up in statements: "Oh, the children will be all right," or "They'll turn up some time," or "I don't know who they're with, but they won't come to any harm." Such parents were the first to object to the control of children in the public schools. This was the kind of parent to be found in the children's court seeking to straighten out some difficulty into which their children had drifted.

"DEAD" OFFICIALS PARADED IN DENIAL OF RUMORS

Odd Feature of Picturesque Ceremony in Connection With Chinese Imperial Funeral Rites.

PEKIN, Nov. 22.—The ceremony at the imperial palace Saturday morning, when the members of the diplomatic corps presented the condolences of their respective governments on the death of the Emperor and the Dowager Empress of China, was one of the most impressive ever witnessed in Peking.

A noticeable feature of the proceedings was the presence of every member of the imperial staff, as well as every official, who lately has been reported dead or eliminated from the conduct of affairs of state. This was the answer of the government to the rumors of suicides and deaths current in Peking for the past week.

Prince Ching, for the first time since the pacific era of the late Emperor, appeared officially as the head of the foreign board. The heads of the various governments in attendance were present with their members of the imperial staff, and in addition, several thousand minor officials, all in white, had assembled at the imperial compound in the afternoon of the day, the functions in honor of the dead, the diplomats paid homage to Prince Chun, the regent.

Each foreign legation was represented by three of its members, and the spectacle, as the foreigners approached the palace, was unprecedented. The regent, in a throng of mandarins distributed over the three marble terraces leading to the chien-ching-kung hall.

White satin screens set at oblique angles to the palace, shut out from the view of the foreign representatives a numerous gathering of mourning palace attendants and servants. Prince Chun, the regent, stood at a table beside the catafalque of the emperor.

The dowager empress lay in state in her own private palace, called Huang-chi-tien.

The diplomats passed from the hall where lay the body of the emperor to the palace of the dowager, and they were preceded by Prince Chun, who covered the distance with unmistakable evidence of haste.

The catafalque of her majesty also was shrouded by white screens. Behind them, on the left, were grouped all the women of the imperial clan, attended by their serving women, and they all were plainly visible to the foreigners. The mourning dress of the court is exactly the same as that worn by the people.

The appearance of Prince Chun was a disappointment. He bears a strong resemblance to the late Kuangshu. His face, as he wore a black cap, and wore an expression of fright.

TWO SIDES TO THE OUTLOOK

American and European Ideas, as to Financial Future.

NEW YORK, Nov. 22.—The Saturday Evening Post has the following financial letter from London:

"Continental markets, which purchased American securities before and immediately after your election, have realized that the old days of London itself have been doing nothing. Our view of the present Wall-street position is that if your policy is to be a policy of buying and selling stocks out of the market, no very serious 'slump' is to be immediately expected.

But while your people are busy calculating on the extent of the trade revival which you take for granted, and on the transactions that they show a tendency to give a lead to the speculative markets, London itself awaits the government's financial and finance proposals of next Monday. They will probably involve the issue of thirty millions sterling in new stock direct to landlords; but this means reselling on the stock exchange.

Practically the only favorable features are indications of some accumulations of capital and the increased Rand output, which is expected before very long to reach \$400,000,000 annually, as against the total of \$27,000,000 in 1907, and \$20,000,000 even in 1906.

The Economist again draws the striking contrast between the Bank of France,

Political Intelligence

The World met an observant French Canadian Liberal on Saturday. He said: "Wine, women and graft. The first two did not interest the voters in the late election; the last very much did. The voters succeeded to get his examples. They were highly significant, especially the success of those men who had their little votes in the hands of the voters. The people do not like grafters, especially the small ones." He named a dozen names of grafters, who were either beaten or saved by small majorities.

Hon. Mr. Lemieux is being feted in London, and people in Montreal say that Sir Wilfrid has picked him as his successor. Mr. Lemieux has followed in Sir Wilfrid's steps in making himself a master of English and English manners. He reads all the newspapers, and the illustrious Englishman he lives in the English aristocratic quarter of Montreal. But leaders are not always selected in this way.

Dec. 5 is the last day for filing election petitions. Just now both parties are working quietly gathering information, and neither will say what it proposes to do. The new law allows forty days from election day. The member whose seat is attacked has fifteen days from the serving of notice upon him in which to file a cross-petition.

The result of the recount in Harbor Grace, Newfoundland, confirms Hon. Mr. Dawe's government in his seat by three votes. At the election he was declared elected by one majority over Judge Seymour (Opposition). This leaves the parties still even—15 to 15.

Hang by Foot for Hours.

YOUNGSTOWN, Ohio, Nov. 22.—Hanging by one foot for several hours, Peter Smith, aged 75 years, and wealthy, nearly lost his life at his farm near Columbiana yesterday. He was in a tree picking apples when he lost his balance and fell. It was only by sheer luck that a daughter came along and found him. With other members of the family she succeeded in getting him from the prong in the tree, where he was caught. He is in a serious condition.

Barge Tangled in Chain.

ST. CATHARINES, Nov. 22.—(Special.)—As the steamer barge Iona was passing down the old Welland Canal above lock No. 2 Saturday afternoon, her wheel became entangled in a chain which is used in connection with a floating bridge across the canal for the use of Ridley College students.

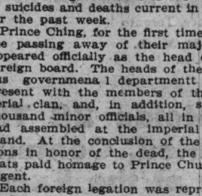

The services of a diver were procured, but was unable to cut the chain until about noon on Sunday, when the steamer was backed into the level above and the water drawn off.
