The North America Life Stands First in Every Feature of Interest to Insurers.

Its Succes is without Parallel in Canada. The North American's ratio of Surplus and assets at the close of 1894 gave it first rank in financial strength. Insure in The North American.

THE NORTH AMERICAN'S policies are favorites. The North American stands first in every feature of interest to insurers. Its maturing policies have proved excellent investments to insurers. Fourteen years of unprecedented success. The North American's assets to liabilities and surplus to policy-holders at the close of 1894, gave it a first rank in Canada in financial strength.

"Which Way?" THE OLD OR THE NEW.

LIBERAL,
STRONG,
PROGRESSIVE.

These terms are properly used when applied to the . . . . .

OLD AND RELIABLE
LONDON & LANC. LIFE

POLICIES
World Wide and Non-Forfeitable

Opinions differ regarding Life Assurance methods as in everything else, therefore the London and Lancashire Life offers a choice.

1. The Older Method is to pay small premiums and continue them during life, leaving the sum assured as a Legacy to Survivors.

2. The Newer Method is to regard a Policy both as a provision for dependents in case of premature death and as an investment for oneself should a certain period be survived.

3. A combination of the Two Methods with special terms is now offered.
