## OLYMPIC SAILS WITH THE 26TH

### Away From Southampton On Saturday Evening, 5,600 Aboard

### Several Other Regiments, Including 22nd French Canadians and the 25th Nova Scotians; Scandanavian on the Way to Quebec

The 26th Battalion is on the ocean on board the great liner Olympic. She sailed last Saturday evening and should reach Halifax by Friday

#### WITH 5,600 ABOARD.

London, May 12.—(Canadian Associated Press)—The steamer Olympic sailed from Southampton on Saturday evening with 5,600 Canadian soldiers on board. The circumstances combined to give her quite a dramatic departure for, in addition to the civic farewell led by the lord mayor and a great crowd of cheering people, in the gathering twilight, the huge steamer had to clear without the aid of tugs on account of a strike of their crews, which had led to the expectation that the liner might not sail. The captain declared boldly that no question of tugs was going to prevent his getting the Canadian boys home, and at 8 o'clock the Olympic cleared under her own steam and started on her voyage amid a scene of the greatest enthusiasm.

General Bustall, commander of the departing second division, arrived early and was long busy bidding everyone a cheery "good-bye." Brigadier-General Tremblay was in command of the troops on the ship. Among them were the famous 22nd (French-Canadian), 24th, 25th, 26th, 29th battalions, the 5th Engineers, the 5th Field Ambulance and other drafts.

The Scandinavian sailed on Saturday from Liverpool for Quebec with twenty-nine officers, from London, ten warrant officers, thirty-three sergeants and 281 other ranks from Buxton with their dependents, 418 wives, 153 children and forty-two repatriated officers, from Bramshott.

### RAY HANSEN HOME

#### Leaves London Team Because of Disatisfaction With Manage- ment—Was Going Well

Ray Hansen, who for the last few weeks was one of the leading pitchers of the London Baseball Club, of the Michigan-Ontario League, arrived in the city today having left the team as a result of dissatisfaction with the management. He went to Toronto on last Saturday and interviewed J. J. McCaffery, president of the Toronto Leafs, the team to which he was originally attached and from which he was released to the London Club. As a result of the conference Mr. McCaffery promised to endeavor to secure his release and has recommended him to Bill Carrigan, former manager of the world's champions, the Boston Red Sox, who is now in charge of the Lewiston Club.

Last Friday Ray pitched against the Detroit Stars, colored champions of America who have repeatedly defeated major league clubs, and while he lost his game the London papers highly commended his pitching and attributed the defeat to poor support. The London Free Press on Saturday had the following about the game:

"Hansen makes good showing against Johnson though score is 6 to 1. The Detroit Stars won the third exhibition game of the season yesterday, beating us by a score of 6 to 1 getting the majority of their runs through the wobbly support of the locals infield. The day was dark and cold, making it extremely difficult to play, as a high wind swept across the field.

"The showing of Pitcher Ray Hansen is a redeeming feature from the game. Ray pitched under most trying conditions, the wind at times being almost strong enough to move him on the mound."

"The London Advertiser says:—  
"Ray Hansen pitched for the London Teacups. He struck out six men during the game. Hansen was given poor support and is suffering from a sore arm. It is expected that the New Brunswick hurler will make a fine showing with the London Teacups when the season opens."

### R. ERNEST SMITH COMES TO ROYAL BANK HERE

It was learned at the Royal Bank here this morning that R. Ernest Smith had at one time manager of the North End branch of the Royal Bank and now manager of the bank in St. Stephen, will be here in a few days to take over the management of the central branch, succeeding A. S. Creighton. Mr. Creighton expects to leave on Friday night or Saturday morning for Digby, N. S., and will spend a few weeks in Amherst, sailing on the 30th of the month by the R. M. S. P. Chateau from Halifax.

Although the departure of Mr. Creighton is much regretted, the people of this city are delighted to know that his place will be filled by such a popular official of the bank as Mr. Smith.

### As Hiram Sees It

"I think," said Mr. Hiram Hornbeam to the Times reporter this morning, "we'll have a little talk today on the subject of religion and church union. I was reading that little story about the 'Protestant chaplain' that made a little cross and gave it to the Catholic soldier in France."

"I can beat that," said the reporter. "One night when a padre and a chaplain were walking back from the front line, with a guide, Fritz started shelling the road. They were in the midst of a hot argument on religion when the shelling began. The guide mildly observed that less argument and a bit of speech might be worth while. Just then a shell came very close and the guide threw himself down. When the shell had burst not far away he got up and found himself alone. He called out and an enquiry came in the darkness from a nearby ditch as to whether it was all over. The padre and the chaplain had bolted for cover and when they came out they hadn't enough argument in them to disturb a Quaker's meeting."

"That's a good yarn too," said Hiram. "An' it shows we could do a lot better than arguin' about what don't concern us one way or another."

"Just so," said the reporter. "If everybody would just believe as we do there would be no trouble."

"That ain't it at all," said Hiram. "We can't all believe just alike. We ain't built that way. We must go the other way about it. If what another fellow believes makes him want to steal my hens, that'll be an argument. But if what he believes don't make him a bad man, I'll never get out of the neighborhood. The Lord told him all the way to know an' then she the book, I don't get mad. I'm just sorry for him. But there ain't as many of him as used to be. We'll never miss him when he goes. We're gittin' real friendly with the rest of the world. 'But if Silc repents' queried the reporter.

"He won't," said Hiram. "You kin trust Silc for that. He wouldn't as much as buy a thrift stamp to cover his maternal born meanness—No, sir."

### BROTHERS HOME FROM THE WAR SATURDAY

Battery Sergeant Major H. Preston, M. M., Belgian Croix de Guerre, and his brother, Corporal C. Preston, both came home on the Mauritania, and arrived in this city on Saturday with the glorious 6th Battery.

Battery Sergeant Major Preston went overseas with No. 1 Siege Battery, and has been in many of the biggest battles. He won the military medal for excellent work in November 1914, and the Croix de Guerre just a little before the armistice.

His battery was badly broken up, only twenty original members being left, and was transferred to the 6th, in England, and is now at battery sergeant-major of that unit.

Corporal Preston went over with the 4th Battery and has been through most of the engagements since that unit went to France, serving for a long while by side with his brother. Both boys have enviable records. They are the sons of Mr. and Mrs. Ralph Preston, 24 Duke street, and are now at the home of their proud and happy parents.

### REDS BREAKING OUT IN GERMANY AGAIN

Berlin, May 11.—(By the Associated Press)—The Spartacists and Independent Socialists are again active in Central Germany. At Eisenach yesterday there was trouble. The Thuringian workmen's council at Erfurt has threatened to bring about a general strike if the troops come into the district and if those now there are not removed.

The government forces at Weimar have been transferred to Leipzig, where the Spartacists are threatening an uprising on behalf of a council government.

### SENDS WORD THAT PORT OF BUENOS AIRES IS NOT CLOSED

Buenos Aires, May 7, 1915. Consul General for the Argentine Republic, Ottawa, Ont., has received the following message from the port of Buenos Aires is closed, for the reason that it has been engaged regularly, for more than one month past, in all its usual operations of loading and unloading. During this time ships have been unloading more than 600,000 tons and vessels have been sailing to destinations with full cargo. There are, at the present time, in the port of Buenos Aires, 170 vessels, unloading daily about 15,000 tons and loading 80,000 tons. On these vessels 8,000 seaport men are employed day and night. All operations are directed by the government's proper officials so that all difficulties caused through the last strike have totally disappeared. The other seaports are operating as usual.

### Board of Trade Under Fire Today at City Hall

### Paving Matter Is Subject HOME BUT TO FIND WIFE DEAD

Several matters of deep interest to the city were taken up in a committee meeting of the common council this morning, among them a resolution introduced upon the recommendation of W. F. Burditt, chairman of the St. John town planning scheme, as prepared and submitted by the St. John Town Planning Commission, he approved and the committee requested to prepare the necessary steps to accompany the scheme and take such other measures as required by the New Brunswick town planning regulations so that application may be made to the lieutenant-governor in council for approval of the scheme as soon as possible.

The motion was moved by Mr. Fisher and seconded by Mr. Jones and was unanimously adopted.

Mr. Burditt, chairman of the commission, said that about \$500 was needed to put through the scheme now, for the purpose of surveys and the securing of maps. This was needed for the coming year's work. The money was voted by the council.

The mayor highly commended Mr. Burditt's work and remarked that the only recompense for his untiring efforts as chairman of the St. John town planning scheme lay in the fact that he knew he had performed a fine public service.

Com. Fisher was given authority for the laying of curb stone in Douglas avenue and City road, and was given permission to call for tenders for the setting of the same.

Tenders for driving piling for the east side of the ferry floats were opened and found as follows:—S. Herbert Mayes, \$8,000; Engineers and Contractors, \$8,500; James R. Kane, \$8,700; and John A. Adams, \$8,250. It was recommended that the contract be awarded the lowest tender, Mr. Mayes.

### THE PROHIBITION BILL

Ottawa, May 12.—The prohibition bill (to be based on the resolution of which Sir Thomas White has given notice) is expected to be before the House this week. It continues existing prohibitory legislation with one change—a change necessitated by the result of recent plebiscite in Quebec favoring the sale of beer and light wines in that province.

There is no provision for a national plebiscite on the continuance or discontinuation of dominion prohibitory legislation. Any plebiscites taken will be provincial and applicable only to the provinces concerned. The aim of the dominion legislation is to implement any provincial enactments. Where, as in Quebec, the sale of beer and light wines is to be permitted, manufacture of such alcoholic liquors will be permitted within the province; but shipment to any territory will be forbidden. Incorporation of French wines, it is understood, will remain forbidden. The only province which continues the sale of light wines is Quebec, and, it is said here, the alcoholic contents of wines which may be sold in Quebec under the provincial law, is lower than that of French wines. Domestic manufacture of wines which may be sold under the provincial statute is, however, permitted.

### STARVED TO DEATH AS INFLUENZA RAGED

Port Arthur, Ont., May 13.—The roads of Indiana upon the Indian reservation in this district are revealed in a statement by Indian Agent Brown, showing a recent decrease of 200 in a former total population of 1,600. While the epidemic was raging members of several families were all taken sick and starved to death as no one was available to summon aid.

### CORN SHOOTS UP.

Chicago, May 12.—Corn took a decided upturn in value today owing to smallness of receipts and to predictions that there would be a renewal of wet weather likely to result in more delays in planting. Reports were also current that chances of a speedy settlement of the New York harbor strike had been much improved. Commission houses and shorts were the principal buyers. Opening prices, which ranged from 1/4 to 3/8 cents higher, with July \$1.63 to \$1.65 and September \$1.55, were followed by material further gains.

Oats opened firm with corn. After opening 1/2 off to 1/2 cent advance, with July 67 1/2 cents to 68, the market scored a moderate general advance. Higher quotations on grain and hogs lifted prospects. Besides exports for the week were large.

### ALLIES PLAN AN ATTACK ON PETROGRAD?

Stockholm, May 11.—Entente forces are preparing military operations, with Helsingfors as a base, for an attack upon Petrograd, according to a Helsingfors despatch received here. Fifty thousand troops are expected to take part in the operations, according to the despatch, which says that French emissaries are now lying in the Gulf of Finland of Helsingfors.

### Get Nine Hour Day.

Fredericton, N. B., May 12.—The York and Sunbury Milling Company inaugurated the nine hour day at their plant in South Devon this morning at the same wages as previously paid for a ten hour day.

### Ebert Once More

Berlin, May 11.—(By the Associated Press)—"Germany has seized and unfurled a new banner on which are inscribed President Wilson's fourteen points, which the president apparently deserted," said Friedrich Ebert, German president, in a statement to the Associated Press.

## WHAT ELSE COULD GERMANS EXPECT?

### Maximilian Harden Says Peace Must be Accepted; Revolution a Disappointment and Government Acts but Bad Copy of Those of Kaiser's Time

Berlin, May 11.—Maximilian Harden, editor of the Berlin Die Zukunft, writing on the peace treaty, says:—  
"The peace conditions are not harder than I expected. They were unpleasant to the greater part of the people, but could one really have expected them otherwise?"

"The Germans have not given very convincing mental guarantees during the six months since the revolution that they have changed their system; on the contrary, the present government and the press have used the same methods of incitement, the same tricks of bluff as under the old rule of the petty nobility."

"The government's proclamations and speeches are only bad copies of the Kaiser's time. The whole press resounds in protests and has started a campaign of incitement against the Allies, couched in violent language. It is agitating for refusal to sign the treaty, and to what use? All must know that the Allies, by keeping up the blockade and occupying the coal districts, can force Germany to sign whatever they want."

"The Allies have been threatened that Germany would join the Bolsheviks. But that would be suicidal. The only way to rescue the country is by openness and honesty. The revolution has been a great disappointment."

"Germany should have sent men who would have laid their cards on the table and got the Allies to understand that some of the conditions were unacceptable. If Germany showed its good will to do what is in its power to comply with the Allies request the Allies would see that conditions were changed in favor of Germany because they know there must be a Germany and that it is impossible to destroy the German people."

### VISCOUNT GREY WELL PLEASED WITH LEAGUE OF NATIONS COVENANT

London, May 12.—Viscount Grey of Fallonden, former secretary of state for foreign affairs, says in an interview that he is delighted with the amended covenant of the League of Nations, having feared that much less might be accomplished at the conference. He considers the key to the whole organization is the annual meeting of the nine premiers or foreign secretaries represented on the council. "So long as that meeting is regularly held, and wisely inspired," he says, "so long may we confidently hope that the peace of the world will be secure."

He believes that armaments will diminish as the league becomes strong and vital and produces a sense of security, and that eventually those who now fear it does not go far enough and those thinking that it goes too far will both be satisfied.

Earl Grey has the greatest confidence in Sir Eric Drummond, the first secretary-general of the league.

It was not possible to have word sent to the bereaved husband and father as it was thought he was en route home at that time. As a matter of fact he did not leave Russia until a week after his wife's death.

And so it was not until a kind neighbor, Mrs. Smith, came to town this forenoon and sought Private Lawrence at the Armories that the sad facts became known to him. It was a trying revelation truly for any man to get after spending years in the service at such a distance from home. Mr. Lawrence hastened to his little farmstead and the reunion with his little ones and bigger ones was most affecting.

It appears that a little while before he left for England Private Lawrence's home in Rothsay was burned down. During his absence the mother, the brave son and daughters have rebuilt it and made a new, cosy abode for the household.

### NEW NOTES FROM GERMANS TO THE ENTENTE ALLIES

Paris, May 12.—The Council of Four of the peace conference met this morning and took up consideration of the replies to be made to the latest German notes—those regarding labor matters and prisoners of war.

Paris, May 12.—(Havas Agency)—The Council of Four decided yesterday upon the terms of the reply to be made to the two notes sent to President Clemenceau of the peace conference on Saturday evening by Count von Brockdorff-Rantzau.

The first of these notes asked that there be a reciprocal policy adopted as to the repatriation of prisoners, and requested that the details of the transfer be placed in the hands of a commission. In his second note the head of the German peace delegation advanced a counter-proposal as to international labor legislation.

According to the newspapers, the basis of the second note is a labor charter inspired by the conferences at Leeds and Bernes, and they argue that the purpose is to create among socialists an opinion favorable to Germany by putting in direct collaboration the working classes and the present government of that country.

BURIED TODAY.  
The funeral of Sister Beatrice took place this morning. Requiem mass was celebrated by Rev. A. F. Allen, assisted by Rev. Wm. Duke, Father Woods, C. S. R., and Father Bailey, C. S. The funeral of Peter A. Gallagher took place this morning from his residence at Quispamis. The body was taken to the Catholic church at Rothsay, where funeral mass was celebrated at 9 o'clock by Rev. W. L. Moore. Interment took place in the Rothsay Catholic cemetery. The funeral was attended by many friends.

ITALIANS ARE  
STIRRING AGAIN  
Growing Discontent and Imitation  
of People  
DO NOT LIKE NEWS FROM PARIS  
Fear Italy is Not Likely to Get  
What She Wants on Eastern  
Shore of Adriatic—Socialist Protests Against Peace Terms  
Rome, May 11.—(By the Associated Press)—The discontent and irritation of the people are growing again because of news from Paris that Italy is not likely to get what she claims on the eastern shore of the Adriatic. The Messaggero says:—  
"President Wilson is obstinately obdurate in his views regarding Fiume, showing that he has not changed his mind."  
Other reasons for dissatisfaction are the Anglo-French-American alliance, from which Italy was excluded; the asserted project that the former Austrian merchant marine will be divided among the Allies, although it is held to belong entirely to Italian firms; the clause in the treaty with Germany saying the three principal powers were sufficient to ratify the treaty, thus, it is alleged, again excluding Italy, and the reported scheme to place Ethiopia under the protection of France. All the newspapers of Rome publish adverse comments on these subjects.  
Paris, May 12.—Beron Conino, Italian foreign minister, held a conference today with Colonel E. M. House, of the American peace delegation. They went over the Italian situation with a view to reaching a basis of adjustment before the Austrians arrive. The Austrians are expected here on Wednesday.  
Socialist Protests.—The general assembly of Socialists of Paris and the department of the Seine today adopted resolutions protesting against the peace treaty in which they say:—"Justice is violated in nearly every phrase."  
One of the speakers demanded that the Socialist deputies refuse to approve the treaty.  
Paris, May 11.—The executive committee for peace appointed by the international Socialist congress has examined the peace terms submitted to Germany by the Allied and associated governments, and has decided to ask an interview with the Council of Four in Paris to express the Socialist viewpoint as to the terms.  
Amsterdam, May 12.—(Havas Agency)—A commission appointed by the executive committee of the International Socialist Congress has examined the peace terms submitted to Germany by the Allied and associated governments, and has decided to ask an interview with the Council of Four in Paris to express the Socialist viewpoint as to the terms.  
Paris, May 12.—The French officials have become embarrassed by a demand made by the American authorities that direct telephone and telegraphic communication be accorded the peace delegation during the negotiations, just as it is now accorded the Germans. The embarrassment arises from the fact that the German peace delegates are using the only wire available, and it is not considered probable that they will agree to give up any of their facilities to their former Austrian allies.  
Paris, May 11.—(By the Associated Press)—The Russian commission in Paris has protested to the Entente Powers against the unconditional recognition of Finland's independence on the ground that the Russians' consent must be obtained before Finland can be legally separated from the Russian empire.  
Paris, May 12.—The peace treaty with Austria is nearing completion and an official summary of it is being prepared. Although it is not so stated in the treaty, the new Austrian frontier is the one designated by the secret treaty of London, giving Italy all the strategic heights and defensive passages.

### JEWELRY THEFT ON WEST SIDE

#### James Campbell Charged With Stealing Watches and Fobs and Safety Razors Worth \$403

At the police court this morning James Campbell was charged with stealing twenty-two watches, four safety razors and five fobs from the jewelry store of Robert Adams, 185 Union street, West St. John. Wm. L. Adams, a clerk in his father's Robert Adams' store, said that he locked the store at 9:30 Friday night and that at 7:30 Saturday morning he found a side window broken and the articles mentioned taken out of the show window. He said that the total value of goods stolen was \$403.75. Goods found on Campbell, when he was arrested on Saturday night, were valued at \$233.50. Several watches were identified by the witness as those stolen and he said the other articles were exactly similar to those taken from the store. He said he knew the accused, who lived in Winslow street, not far from the store. He also said that he had received nine watches from Detective Donohue apart from the watches shown in court this morning. The court asked the witness to bring the other watches to court tomorrow morning at 10 o'clock.

The accused was then called and when asked if he had any questions to ask said that he wished time to procure counsel.

Harris Gilbert said that he kept a second-hand store at 4 Mill street, that he locked the store at 9:30 Friday night and that at 11:15 on Saturday morning Campbell called on him and offered to sell him a watch, which he bought for \$8. The witness said that he had brought it to court at the request of the police.

His honor said the case would be resumed at 10 o'clock tomorrow morning. Six drunks were brought up. One was told he was liable to a fine of \$208 or eight months in jail, four liable to fines of \$88 and one, a colored man paid a fine of \$8.

MUCH MIXED CASE IN FREDERICTON

Fredericton, N. B., May 11—A case in which a returned soldier and his wife figure under unusual circumstances had come to light in Fredericton. Divorce proceedings are pending and a bigamy charge against the wife may be laid. The case is being handled by the 23rd Highlanders. He was married here. During his absence his wife married a man belonging to this city, who died last autumn. Some time ago the first husband returned and was warmly welcomed by his wife. He learned of what had happened. Recently a child was born of the second marriage. The returned soldier already has placed divorce proceedings in the hands of a lawyer. He reported the matter to Ottawa, as his wife had been receiving separation and assigned pay. Ottawa urged that prosecution for bigamy be begun. Mrs. Frances Maud Hobbs, wife of James Hobbs, now overseas, died yesterday in Devon, aged twenty-one years. Besides her husband her mother survives.

The R. M. S. P. Chalver is due here tomorrow from Bermuda with passengers and cargo of sugar. The steamer Calcutta arrived yesterday at Halifax with cargo of salt, part of which she will unload here, arriving here in a few days' time. Steamer Carib with a cargo of raw sugar for the Atlantic Sugar Refineries is expected to arrive at this port tomorrow. The fine four masted schooner, Bessie A. White, successfully launched on May 8 from the shipyard of C. T. White & Sons, Ltd., at Alma, arrived in port on Sunday afternoon and tied up at the customs house wharf. The schooner is in command of Captain Leslie T. Merriman and consigned to Nagle & Wigmore. She will load with deals for Great Britain. The schooner is very handsome, with graceful lines, has a 151 foot keel, 85 feet beam, 12 feet 6 inches depth of hold and 600 ton cargo tonnage. In addition to her sails she is furnished with auxiliary power in the shape of a Walsworth gas engine. Another four masted schooner under construction at the Alma shipyard of C. T. White & Co., is framed and sealed and will be ready for launching in August. This vessel will be of the same register as the Bessie A. White. The schooner Marjorie Austin, which was built at Harvey Bank, Albert County, and was wrecked last January on her maiden voyage, was towed into Harvey Bank Saturday by the St. John tug Mildred, and put by the beach for repairs. Go to Experts. Paris, May 12—The Council of Four at its meeting today decided to refer the German notes on labor and war reparations to experts for consideration instead of answering them at once, as it did with the first two communications from the German delegation.

Former Empress Had News of Terms First—Report in London Says Holland Has Decided to Give up Hohenzollern for Trial

Amersongen, Friday, May 9.—(By the Associated Press)—An official abstract of the preliminary peace terms published in the Dutch newspapers, which was translated and read to the former German emperor today has aroused considerable excitement among the members of the Hohenzollern party.

A special messenger motored to Amersongen on Thursday to procure a copy of the local newspapers. Meanwhile the former emperor continued his usual occupation of sawing logs, but apparently he is suffering from ever-growing excitement.

TENDER GUMS - A WARNING

Beware of gum tenderness that warns of Pyloritis. Four out of five people over forty have Pyloritis—many under forty also. Loosening teeth indicate Pyloritis. Bleeding gums, too. Remember—these inflamed, bleeding gums act as so many doorways for disease germs to enter the system—infected the joints or tonsils—causing other ailments.

MAY BE BIGGEST MONTH YET IN THE RETURN OF SOLDIERS

General Currie Says Few of Our Men Will be Overseas by Middle of July

London, May 12.—General Sir Arthur Currie, speaking to the Canadian Associated Press, expressed his confidence that not many Canadian soldiers would remain on this side after the middle of July.

"We hope to break all records this month by at least 10,000," he said. "If we get \$5,000 away in May and \$5,000 in June there will not be many more left here. Of course we have always the bugbear of strikes to contend with, should like to say how generally excellent discipline among Canadians has remained. Since the armistice our men have been a long way from home and I long time from their families. They can't simply do a job. They have done it. They have also accepted themselves the provisions made for demobilization in a very good spirit. I think many people in Canada will take a different view of what has been done in the way of rapid demobilization when the full facts are appreciated."

Excellent Prospects For Big Fruit Crop

More Than Two Thousand Girls Expected to Assist in Various Districts

Toronto, May 12.—"Farmers are elated through the Niagara, Burlington and Vineland districts over the prospects of a fine fruit crop. Berry vines, bushes and trees are reported to have never been in finer condition," according to Miss K. F. Harte, director of the Women's Farm Department of the Government Employment Bureau of Ontario.

"All the farmers have made big plans for the coming season, as they are all counting on the girls, who have won a definite place for themselves throughout the various fruit districts. On my recent trip Miss M. C. Strath of the Y. W. C. A. made arrangements to open camps in the different vicinities in which I have had a big demand for help. Ten camps have been arranged for," said Miss Harte.

"In the Vineland and Jordan districts seven camps will be opened, which will accommodate from eight to thirty girls. These camps are all splendidly situated near the lake or within walking distance. At Burlington we expect to place ninety girls in three camps, which are on the lake front. One of these will be opened the latter part of this week, while we are making plans to open the other in the early part of June.

"During last season there were 2,400 girls placed and it is the hope of those in charge of this work that as many girls and women will respond this summer."

RUSSIA AND BOLSHEVISM

One of the most severe arraignments of Bolshevism was that of Mr. Winston Churchill in a recent speech in London. A report of that speech says: "Referring next to the Bolshevism in Russia, Mr. Churchill described it as a record of tyranny in frenzy. The British nation was the foe of tyranny in every form."

THE EARL OF ATHLONE

It was reported last week, and denied, that the Duke of Devonshire was soon to retire as Governor General of Canada. The Earl of Athlone was mentioned as successor. This picture shows the earl and his family.

APOLOGIES TO THE SNAKES

Noted American Deals With Phase of Usefulness of Reptiles

Since the Bolshevists first started the world with their shout, "Self-determination for the fish!" and tore down the dams that were confining their prototypes, we have come across few more curious declarations than those which aim to protect snakes.

serve the snake is that it appears to discriminate against the poisonous varieties. "Why," asks Dr. Ballou, "not protect the poisonous species?" One is rather at a loss for an answer and can only fall back on the old argument that bites from poisonous snakes are always painful and often fatal; but Dr. Ballou retorts that in India, where poisonous snakes abound and a large proportion of the population goes barefooted, only about 20,000 lives a year are lost of fatal snake bites are rare in the United States and Canada, although both have poisonous snakes, the United States especially.

PRINCIPAL FIGURES IN STRIKE OF WORKERS IN BIG PACKING HOUSES IN TORONTO

E. N. COMPTON Dominion government fair wage officer, whose efforts have been uncasing in an endeavor to bring the strikers and employers together.

J. P. QUINN Recording Secretary of the Packing House Workers' Union, one of the central figures in directing the strike activities on behalf of the men.

LOUIS BRAITHWAITE Business agent of the Amalgamated Butcher Workers' and Meat Cutters' Union, one of the leaders of the strikers who met the Minister of Labor to discuss the situation.

SCENE IN RUSSIAN CITY, BAKU

British mounted police and Indian drivers in one of the main streets in Baku. Baku streets are quite cosmopolitan at present with Roumanian officers and soldiers, Armenians, Mussulman women, Indian mule drivers and English and Scottish troops.

To show how very far behind this city is in the matter of caring for its boys and girls let us quote the following news article from the Toronto Star of May 9, telling of the rapid increase of playgrounds and large civic expenditure upon them in that city:—

"A suggestion by Prof. Sandiford that schools be planned so as to provide auditoriums and roof gardens for recreational purposes was endorsed by the executive committee of the Toronto Playgrounds Association, which held a special meeting to confer with the representatives of several other bodies on the subject of establishing additional play centres in Toronto. Rev. Peter Bryce considered, too, that greater use should be made of school properties.

"A representative of the Lawn Bowling Association told of the establishment of bowling greens for the returned soldiers at the different military hospitals.

"Parks Commissioner Chambers stated that an extensive programme had already been mapped out which included thirty additional playgrounds throughout the city. Seven additional playgrounds had been put in operation lately, but lack of funds made further extension impossible for the present.

"We shall see before the present week ends whether the citizens of St. John are really in earnest when they applaud such speakers as Sir Robert Baden-Powell and Mr. Peter Wright. The ball is at their feet. Will they play the game?"

GERMANY MUST YIELD

The assertion made by the head of the German peace delegation that the treaty contains demands which could be borne by no people, and that many of them are incapable of accomplishment, is offset by Maximilian Harden's article in the Berlin Die Zukunft, which appears in today's cables. Herr Harden talks with exceeding frankness. He tells the German people they could not have expected better terms and that they have no choice but to accept them.

A DOUBT REMOVED

There is a general feeling of relief at the announcement from Ottawa that in regard to prohibition "it is clear that the government has accepted as a principle that legislation as to sale of liquor falls within the purview of the provinces themselves."

There was a fear that the government might yield to pressure and relax the law in such a way as to interfere with prohibition in the provinces. There is, however, to be no interference with the provinces, nor any national plebiscite, at least for the present.

Interest will now be centred on the province of Ontario, until it is known what that province will do in regard to light wine and beer. The prohibitionists of the province are confident the decision at the referendum will be the very opposite of what it was in Quebec, where the majority declared for light wines and beers.

The Standard draws a fearsome picture of Hon. P. J. Venot taking the helpless farmers, merchants and struggling owners by the throat and turning out their pockets for the benefit of political leaders, hangers-on, and seekers after government money.

Sir Arthur Currie hopes to have most of the Canadian soldiers home by the middle of July. He hopes to see 85,000 crosses in May and 80,000 in June.

There has been a small riot at the Canadian camp at Seaford. To put thousands of men who are eager to get home into a camp near a small town with many restrictions as to their movements is not the best way to preserve discipline.

The ex-Kaiser is still sawing wood, but Holland has agreed to surrender him to the Allied powers. The mills of the gods grind slowly, but William's turn is coming.

An Allied movement on Petrograd will still further demoralize the Bolsheviki, who are apparently losing ground on all fronts. The madness is burning itself out.

THOUGHT IT WAS A BOIL

Doctor Said Abscess

Mr. Gleason R. Young, Kingscroft, N. B., under date of Feb. 9th, 1918, writes us as follows: "About five months ago a lump came on my jaw-bone. I thought it was a boil, and after had been there quite a while it began to get larger. I went to a doctor and he said it was an abscess, and lanced it. He gave me a snake for it, so I went of my directions until it healed up, but it commenced coming again, and in about three weeks it broke itself. I thought it would get better, but it didn't. A neighbor advised me to get a bottle of Burdock Blood Bitters, so I sent and got a bottle, and by the time it was all gone, the abscess had disappeared, and now it is all better."

Burdock Blood Bitters will head and dry up sores, ulcers, and abscesses, no matter how large or of how long standing. If you have never applied it to a cut, wound, sore or ulcer, just try it and see what soothing, healing, cleansing power it possesses. It takes out itching, stinging and burning, and promotes the growth of healthy flesh. So, too, when taken internally, by its power of eliminating all impurities from the blood and making that vital fluid rich, red and pure, it cuts off the origin and source of the foul matter that goes to make boils, pimples, sores, ulcers, abscesses and the like, and at the same time the healthy tissue where there was formerly, perhaps, a sore full of pus.

DEAN OF COLLEGE OF PHYSICIANS AND SURGEONS OF COLUMBIA UNIVERSITY

Colonel William Darrach, M. D., has been appointed Dean of the College of Physicians and Surgeons of Columbia University, to succeed Dr. Samuel W. Lambert, whose resignation was accepted by the trustees of the university a month ago to take effect on July 1. Colonel Darrach, who served as a surgeon with the British and the American Expeditionary Forces at the western front for more than two years, received his discharge from the American Army less than a month ago.

Colonel last March for distinguished service.

In his new position here, Colonel Darrach will face many problems of great importance to medical science in the present reconstruction period after war. The College of Physicians and Surgeons reports an increasing number of applicants for admission, both to first year classes and to advanced standing, and the demand has become so pressing that new measures must be devised to accommodate them and to regulate the influx of students from other cities who seek the facilities for laboratory work now afforded in New York.

Colonel Darrach, who was born in Germantown, Penn., on March 12, 1876, and was graduated from Yale in 1897, took his degree in medicine at the College of Physicians and Surgeons in 1901. He is holder of the Master of Arts degree from Columbia. After serving two years as interne at the Presbyterian Hospital, he entered the Department of Anatomy of the College of Physicians and Surgeons. In 1906 he became associated with Roosevelt Hospital and in 1916 with Bellevue.

The appointment of William B. Standford, M. D., as Professor of Obstetrics and Gynecology in the College of Physicians and Surgeons, to succeed the late Edwin B. Craig, M. D., was also announced yesterday. Dr. Standford will take a leading part in the enlargement of the work of Sloan Hospital and the Vanderbilt Clinic, it was said. Several promotions in the medical staff were also announced at Columbia University, the list including Drs. Allen O. Whipple, Alwyn W. Papenheimer, Benjamin F. Parrell, Louis Cassanajor, and Oliver S. Strong.

Japan's Film Stars Must Oscillate. The police of Japan do not like to see kissing in public, and therefore film stars are not permitted to osculate on the screen. In six months up to March 1 the police censors removed 2,350 kisses from films. Only one kiss was allowed to remain. It was a kiss granted to Columbus by Queen Isabella, and was shown in Tokyo only, as the censors deleted it before permitting the photoplay "Columbus" to discover the provinces.

Three hundred and fifty-three embryos were omitted from films. The traces of 2,144 photoplays were altered by the censors and 127 murder scenes were killed. Reels entirely prohibited numbered 37. Most films shown in Japan to remain. Apply 178 Duke street, between 7 and 8, daylight time. TV-5-6

ALLOW NO DISCUSSION  
OF RIGHT TO INSIST ON  
THE TERMS OF PEACE

Two letters have been sent to the Allies, on which replies have been made. The first letter reads as follows:

"The German peace delegation has finished the first personal of the peace conditions which have been given over to them. They have had to realize that on essential points the basis of the peace of right agreed upon between the belligerents has been abandoned.

"They were not prepared to find that the promise, explicitly given to the German people and the whole of mankind, is in this way to be rendered illusory.

"The draft of the treaty contains demands which no nation could endure. Moreover, our experts hold, that many of them could not possibly be carried out.

"The German peace delegation will substantiate these statements in detail and transmit to the Allied and Associated governments their observations and their material continuously.

(Signed) "BROCKDORFF-RANTZAU."

To this letter the following reply was made today by the Allied and Associated Powers:

"The representatives of the Allied and Associated Powers have received the statement and objections of the German plenipotentiaries to the draft conditions of peace.

"In reply they wish to remind the German delegation that they have formulated the terms of the treaty with constant thought of the principles on which the armistice and the negotiations for peace were proposed. They can admit no discussion of their right to insist on the terms of the peace substantially as drafted. They consider only such practical suggestions as the German plenipotentiaries may have to submit."

The second letter from the German representatives reads:

"The German peace delegation has the honor to pronounce its attitude on the question of the league of nations by herewith transmitting a German programme which, in the opinion of the delegation, contains important suggestions on the league of nations problem.

"The German peace delegation reserves for itself the liberty of stating its opinions on the draft of the Allied and Associated governments in detail. In the meantime it begs to call attention to the discrepancy lying in the fact that Germany is called on to sign the statute of the league of nations as an inherent part of the treaty draft handed to us, and on the other hand is not mentioned among the states which are invited to join the league of nations.

"The German peace delegation begs to enquire whether, and if so, under what circumstances, such invitation is intended.

(Signed) "BROCKDORFF-RANTZAU."

The reply of the Allies to this is as follows:

"The receipt of the German programme of the league of nations is acknowledged. The programme would be referred to the appropriate committee of the Allied and Associated Powers.

"The German delegation will find on re-examination of the covenant of the league of nations that the matter of admission of additional member states has not been overlooked, but is explicitly provided for in the second paragraph of Article 1."

IT'S WONDERFUL,  
SAYS PROMINENT  
TEXAS PHYSICIAN

Declares Tanlac is Best  
Reconstructive Tonic for  
Building Up Patients Re-  
cuperating from Spanish  
Influenza.

The following letter from Dr. J. W. Sandlin, one of the most prominent physicians in Southern Texas, was recently received at the Tanlac offices in Atlanta, Ga., and gives indisputable evidence of the value of Tanlac as a reconstructive tonic for people who are recuperating from the after-effects of Spanish Influenza. His letter follows:

"Humble, Texas, Nov. 3, 1918.  
"Dear Sir:—Just a few lines in reference to Tanlac. I have found your preparation to be a wonderful reconstructive tonic, and in my opinion, it has no equal in its line. I have found it the best tonic to be had to build up my patients who have had Spanish Influenza. I have treated with the past month about 1,400 cases and have never been able to get sufficient Tanlac to supply our people.

"Yours very truly,  
(Sgd.) "DR. J. W. SANDLIN."  
Dr. Sandlin not only enjoys a very large practice as a physician, but he is also a man of wide influence, and ranks as a leading citizen of the enterprising little city of Humble, Texas.

As a practicing physician of sixteen years' experience, Dr. Sandlin was quick to recognize the superior tonic properties of Tanlac over other remedies and unhesitatingly and voluntarily gave Tanlac his unqualified endorsement.

Although the influenza epidemic has greatly subsided, it is still prevalent and is breaking out anew in many sections of the country, and continues to claim its victims by the thousands.

Persons who have had influenza are often left in a very weakened, run-down condition and unless the greatest care is taken both as to habits and diet, serious complications are apt to follow. Persons who have had it are more apt than ever to have it a second time. If you are in this condition, nothing on earth will build you up and strengthen you like Tanlac, which contains the most powerful tonic properties known to science.

"As a reconstructive tonic and body-builder it is without an equal and contains the very elements needed by the system to restore you to your normal strength and weight."

"First of all Tanlac begins its action by creating a good healthy appetite for wholesome, nourishing food, and assists the vital organs which have been weakened by disease to perform their natural functions, thus helping to build up health and strength in the natural way.

"In connection with the Tanlac treatment it is necessary to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included with every bottle of Tanlac."  
Tanlac is sold in St. John by Ross Drug Co. and F. W. Munro, under the personal direction of a special Tanlac representative.

QUEBEC SHOWS BIG  
INCREASE IN SALE OF  
WAR SAVINGS STAMPS

Ottawa, Ont., May 10.—March returns of sale of war savings stamps in the Province of Quebec show a gratifying increase over those for previous months. Indeed the increase is equal to 29 per cent. Nor does this include sales for thrift stamps. Montreal is doing particularly well, this especially true of the banks. One of the leading reasons for increased sales is the heavy purchase of war savings stamps by the Metropolitan Life. It is to be noted that returns were not placed on sale until after April 1st. This, it is believed will again boost the returns.

The Ontario carried 17 officers and 900 men from Kilmel and nine officers and 26 nurses from London.

LEAVE IT TO PROVINCES

Dominion Government's Intention as to Prohibition Legislation

(Special to The Telegraph.)  
Ottawa, May 11.—Now that the preliminary resolution embodying the intentions of the government as to prohibition legislation has at last appeared in the order paper, it is clear that the government has accepted as a principle that legislation as to sale of liquor falls within the purview of the provinces themselves. In this legislation the government has already intimated last week by The Telegraph, the government will enforce regulations to permit only the manufacture and transportation of liquor of the strength as is permitted to be sold in each individual province.

Before any proposed legislation affecting trade and commerce can be introduced into parliament it is necessary first to secure the approval of parliament in a preliminary resolution embodying the principles of the bill. That is why a resolution is now on the order paper. This resolution simply asks that the order-in-council against the manufacture, importation and transportation of intoxicating liquors shall be validated, with modifications sufficient to recognize the provincial jurisdiction over the sale of liquor and to make effective all provincial enactments concerning the sale, but to go no further.

For example, the manufacture of native wine will be permitted in Ontario, and its sale will be permitted in the provisions of the Ontario temperance act, but the wine cannot be exported from Ontario to other provinces. In like manner, the manufacture of beer and wine of the strength prescribed by the Quebec law will be permitted in that province, but it cannot be exported to other provinces. Just as in the order-in-council, the importation of intoxicating liquors from foreign countries into Canada is absolutely forbidden until one year after the proclamation of peace. Thus, the liquor industry becomes a purely native industry—more than that, a provincial industry, and one subject to all the changes of the law provinces may enact.

The Dominion law will be an elastic law providing for accommodating itself to future legislation provinces may enact. The vital cogwheel in the machinery, at the coming referendum, then the Dominion law will permit the manufacture and transportation in the province of beer and wine up to any strength permitted by the Ontario law.

As already indicated by The Telegraph, no provision is made for the sale of one-way plebiscite. The following in natural consequence of the decision to leave the initiative in prohibitive legislation to the provinces. The present proposed legislation is only temporary, but it may be taken as outlining the permanent Dominion law which will be expressed in legislation when the year after the declaration of peace has expired. The proposed legislation entails a definite voyage that it will be difficult to retrace later.

Means to Power  
Transmission

If you should measure the slippage of the ordinary transmission belting in your plant, you would find that the yearly power wastage is costing you a considerable sum of money in decreased production and increased cost. Measure the slippage of Dominion Friction Surface Belting by the same method and you will find on comparing the results, that it has paid for itself in the saving of time and power. Dominion Friction Surfacing is more than rubber waterproofing, it is a special friction compound that prevents practically all power wastage on the pulleys even under quick load changes. Dominion Friction Surface Belting removes the cause of most transmission troubles, increases production—cuts upkeep costs and keeps employees contented. **JUST A GENTLE HINT.**  
Many citizens have commented on the lack of decoration of government buildings when the Siege Batteries came home, and are wondering if the same condition is to exist when the 90th Battalion arrives. It is held that the railway station, the old and new post offices and customs houses might be dressed up a little without bankrupting the country.

**FISH ENQUIRIES.**  
The board of trade has received enquiries from firms in Italy, New Zealand, the West Indies and Morocco, respecting fish. The commission write that these enquiries are becoming more numerous and they urge upon producers the necessity of giving each serious consideration, leaving nothing undone to secure new customers and to make each a permanent buyer of Canadian products.

**BAND CONCERTS.**  
The band concert on King Square on Saturday afternoon and evening by the Depot Battalion and the Temple bands formed the closing features of the reception to the siege batteries. The water and sewerage men were therefore given a very early call and by five o'clock the public got out of bed the repairs were completed. **IN HONOR OF MISS McAFEE.**

Little Miss Gladys Dykeman, only eleven, but a clever pianist, and Miss Myrtle Ross in the Highland Fling were great attractions and were very much appreciated. Refreshments were served and the happy gathering left for their homes at an early hour in the morning, after seeing Miss Hazel open a large number of useful and very pretty gifts presented to her at the so-called variety shower.

"So I went to the States and joined the smiling French leg." Private Legaty was with the American army of occupation in Germany and after the demobilization of the 2nd Regiment of Indians he returned by the transport Nevada via Hoboken, N. J. He was all keyed up to seeing his folks and was loaded down with souvenirs and equipment.

**ARRIVE HERE FROM SIBERIA**

**First of Home-Comers From Russian Steppes**

**Twelve Reach St. John—Don't Think Much of the Land of the Bolsheviki**

The arrival on today's Montreal Express of a squad of Canadian soldiers dressed in heavy muskinnaw refters and otherwise clad for the most rigorous kind of weather piqued the curiosity of those standing about in the train shed and drew attention, generally as the men were motored to the armories for discharge. The new arrivals had the distinction of being the first men of the Siberian expedition to reach this far east. There were only twelve of them and were under the command of conducting officer Lieut. Keene. They landed at Vancouver on May 6 after a journey across the Pacific coast which commenced at Vladivostok on April 21st. The men say the trip was an enjoyable one so far as the weather was concerned, but said the steamer Mont Eagle had first class passengers aboard which segregated the soldiers to special deck locations, restraining their liberty of movement during the long spell on the sea. The Siberian forces of all the allied representatives are being rapidly demobilized and shipped hither and thither. About 2,000 are on the water at present. Those who arrive today are: Corporal A. S. Bowring, Boston. Pte. F. A. LeBlanc, Acadiaville, N. B. Pte. F. Collier, West Lynn, Mass. Pte. C. Lawrence, Robesay, N. B. Pte. J. J. Nadeau, Brockton, Mass. Corp. F. L. Sharpe, Fredericton. The following men are known as walking hospital cases: Pte. F. Dickerson, Moore's Mills, N. B. Pte. J. H. Hachey, Newcastle, N. B. Pte. J. A. Melanson, Richibucto, N. B. Pte. A. J. Mankiel, St. John, N. B. (Sewell street). Pte. D. E. Wilkie, Boston, Mass. Pte. F. White, Bathurst. Upon arrival the men were met by Secretary Charles Robinson of the Returned Soldiers Aid Commission, Mrs. Stewart Skinner, Mrs. H. A. Powell, Mrs. J. Roy Campbell, Miss Edith Skinner and R. R. Armstrong. Fruit and confectionery were distributed and the men gave their lusty cheers as the committee departed. One of the large covered motor trucks of the military department conveyed the contingent to the armories where the men were discharged and given service buttons. It was the intention of the soldiers to leave for their homes as soon as possible, the Americans expect to depart on the evening express. While today's instalment of returned men do not have any gripping tales of strife to tell, their experiences in Siberia are certainly worth relating and the record is distinctly picturesque. There seemed to be a unanimity of opinion as to what class of country Russia belonged to and nothing even approaching the complimentary was said by any of the men. "Why they left their civil dead lie unburied for days," said a Boston fellow, "is a disgrace. We were there when they allowed a dead Chinese to lay in the street for nearly a week!" "They have no sewerage," chimed in another soldier, "no gutters, no drainage of any kind. We couldn't and wouldn't drink the water. Though we were located in one of the best barracks the Russians had in their war with the Japanese, it had no running water conveniences at all."

Another soldier said that things in and about Vladivostok were in a most chaotic state. "If a man gets hold of a bundle of money, somebody comes along conks him on the head and takes it from him. They looked upon us fellows as copy cats to regulate the country back to normal conditions. 'The people there, unfortunately as they certainly are; will have to work out their own salvation.'" Mr. Lawrence, being a farmer, spoke with some authority upon the topography of the country and its adaptability to agricultural pursuits. His comment was brief and decidedly negative. He is no booster for Russia.

While the Canadians seemed to stand the steady cold temperature all right, it was the biting winds of high velocity that made them mostly uncomfortable. However the Canadian and Allied governments grappled with the unusual conditions very well. The Boston and other New England soldiers who formed part of the Siberian contingent today said it certainly felt great to be back in God's country again. They had enlisted with the Canadian forces through the British recruiting mission in Boston and felt that the long journey and rubbing of elbows with soldiers of other nationalities had been at least of educational benefit. They say that Vladivostok, in the environs of which they were billeted as a guard for military stores—is not so much a Russian city as it is a mixture of Orientals and people of the western world; a pretty place in some respects but most unsanitary and behind hand in modern things.

**BOY HURT.**

**"What's New?"**  
The Eternal Question—Just Now it is Timely Asked Regarding Summer Furniture  
A question as old as life itself, yet ever new—For therein lies "the spice of life," the fascination of getting "something new." The merchant goes to market and asks "what's new?" The consumer asks the merchant "what's new?"  
Thus the whole world is ever striving to produce something new. Which means progress—Which means new things of today are old tomorrow. The pace is rapid and fast growing swifter.  
Soon airplanes will cross the ocean, undoubtedly later on to cross with the safety and regularity of ocean liners. Wireless telephone messages have already crossed the ocean. A new Liberty Calendar with thirteen months of twenty-eight days—New Year's day thrown in—is fast gaining headway. And the possibilities are still unlimited.  
Progress is one of the watchwords of Everett's twenty-five year old institution. It built our first small beginnings into what we are today. But progress never stops.  
Still seeking "what's new," Everett's store is ever-changing. New stock added—keeping abreast and ahead of the times. Just now the know fully "what's new" for one's summer home is—to visit our store and see the showing of furniture and other comforts and luxuries for that greatest of all institutions—the home.
