**WOMEN CURED AT HOME**

Women's disorders always yield from the very beginning of the treatment to the mild but effective action of Orange Lily. Within two or three days after commencement the improvement becomes noticeable, and this improvement continues until the patient is completely cured. Orange Lily is applied locally or systemically, directly on the woman's organs, removing the congestion, lowering the temperature, and strengthening the nerves, and restoring perfect circulation in the diseased parts. In order to convince all suffering women of the value of this remedy, I will send a 32-cent box, enough for ten days' treatment, absolutely FREE to each lady writing me her address: MRS. FRANCES R. CURRIER, WINNEPEG, ONT.

**Beauty-Destroying Habits**

There are many pretty girls and women who, unthinkingly of course, destroy their good looks by inebriate attitudes.

This would not be such a serious matter, if it were not for the fact that the woman who stands or sits incorrectly, cannot breathe deeply. "What of that?" I think I hear a fair voice murmur. Why, I thought most women in this day and age knew that the shallow breather generally has poor health.

Your common sense will tell you that the damsel who sits with her shoulders bowed out and her chest bowed in cannot breathe deeply, and because of this the lungs go without the necessary amount of fresh air. The result? Ill lungs, a sallow, coarse skin, eyes that know not the meaning of the word sparkle and hair that falls and falls until little bits of spots appear. Sit up, my gentle reader! When you find your shoulders beginning to contract, take a deep breath and throw out your chest and draw in your abdomen.

It is because so many of my sisters slant their lungs of fresh air, that our sanitariums are filled with anemic, nervous, exhausted specimens of womanhood.

As you all want to be beautiful, and as you just can't be unless you possess good health, make a resolution this very day to stand and sit with the chest thrown up and out and the backbone straight as straight can be.

Another habit that should be taboo by those of you who wish to look well, is the habit so many women have of resting their chins on their chests. This may be a comfortable position, but it is especially if it has had the bad manners to double up, but is it graceful? I think not. No matter how well you carry yourself, otherwise or how lovely your face, if you lodge your pretty chin on your chest when you walk or sit or stand or sit, the nerves in your neck will be strained and this will show. Incidentally let me add, such a position of the chin gives you a singularly unattractive appearance. Enough has been said, I think.

Says Mrs. Ila Benjamin who calls it "The grandest medicine ever made." It cured her of a cold when her doctor could give her no relief and built up her weak run-down system after years of poor health.

"It is with great pleasure I write to tell you what I think of Duffy's Pure Malt Whiskey. I sincerely believe it is the grandest medicine ever made. It relieved me of a cough that my doctor could not stop. I had been in poor health three years. I took lots of medicine, but none of it seemed to do me any good, till I heard of Duffy's Pure Malt Whiskey and got three bottles and took it. Now I am better and I tell everyone how it helped me."—Mrs. Ila Benjamin, Woodhull, N. Y.

**To Improve Expression as Well as Complexion**

(From Beauty's Mirror).  
No face is really beautiful that lacks expression. Do you realize that continual use of powders and creams tends to spoil pliancy of skin and elasticity of expression? Why not quit cosmetics and use something better, which won't clog the pores or make the skin either dry or puffy. Ordinary mercurochrome wax acts quite differently from any cosmetic. It wonderfully improves the complexion, giving it life and expression. By gradually, but persistently peeling off the thin veil of outer surface skin, it brings to view a pure, soft, spotless complexion, delicately beautiful and youthful. Every drugist has this wax; it is seldom more than one ounce is needed. It is spread on slightly like cold cream and washed off morning. In a week or two the transformation is complete.

Wrinkles do not of course enhance the expression. Neither do the pesty things many use to eradicate them. A treatment free from all objection is made by dissolving 1 oz. powdered azobite in 1/2 pint which haze; use as a wash lotion. This soon removes even the most obstinate wrinkles.

An instance of that valuable quality, presence of mind, comes from South Africa.

A German shoemaker left the gas turned on in his shop one night, and upon arriving in the morning struck a match to light it. There was a terrific explosion and the shoemaker was blown out through the door, almost to the middle of the street.

A passer-by rushed to his assistance, and after helping him to rise, inquired if he was injured. The little German gasped in at his place of business, which was now burning quite brightly, and said—"No, I ain't hurt. But I got out shut in time, eh?"—Belmont News.

DR. PUGSEY AND MR. HAZEN

Any sneering reference to Hon. Wm. Pugsley which is made in the St. John Standard merely has the effect of inviting a comparison between Dr. Pugsley and the Hon. J. D. Hazen as representatives of St. John in parliament.

Every reader of the Standard knows why Dr. Pugsley inquired about the cost of building ships in the United States. It was because he believes Canadians are quite as clever as their neighbors to the south, and quite as able to build ships.

Senator Pearce of Australia has made it clear that his country is building a fleet unit because the Admiralty in 1909 asked for it. Canada agreed to do the same, but Canada under Mr. Borden has broken faith with Australia, and is now proposing an entirely different course from that which was laid down by the Admiralty itself in 1909.

The Standard rejoices to learn that English ship-builders see great difficulty in building ships in Canada. Of course they do. They want that \$35,000,000 spent in English shipyards. It is rather humiliating, however, to Canadians to have the assertion repeated over and over again with great emphasis that they are not able to build ships, and that they are so inferior in this respect to the people of the mother country and the United States.

In its report of the supplementary estimates brought down in the Ontario legislature last week the Toronto News says: "The prisons and asylums are coming in for generous allowance. The new Central Prison at Guelph receives \$151,000; the Breckinridge Hospital for the Insane, \$78,000; that at Kingston, \$31,500; at London, \$31,100; at Mimico, \$23,800; Home for Feeble-Minded at Quills, \$87,000. The recent provincial agitation over the feeble-minded of the province has facilitated the granting of \$80,000 for additional cottages at this latter institution. Under educational institutions the Institute for Deaf and Dumb at Belleville and for the Blind at Brantford will receive \$22,835 and \$74,600 respectively, these sums to proceed mainly towards building extensions."

There is a Girls' Protective League in Detroit which has a remarkably fine record of work for the benefit of girls. It found and maintained a detention home for girls until the institution was taken over by the county. It employed and supported three probation officers in succession until these were officially appointed by the county. It organized and maintained two recreation centres. It established a public dance hall under supervision. It organized a company which is now building a hotel for working girls. It co-operates with the juvenile court and is affiliated with the North American Civic League for Immigrants. That is certainly a very creditable record.

The Toronto Globe says: "Premier Borden's naval policy, whatever its future fate, has given Sir Wilfrid Laurier, the Liberal Chief, an opportunity to reaffirm the great principles of Liberalism as understood in the dominion. Mr. Borden has declared the old Tory principle of taxation without representation. He would give \$25,000,000 to Great Britain as a sort of dowry to the navy, but would not ask a word as to its disposal beyond saying: 'build three ships, man them, maintain them with any hirelings you may, and if the dominion parliament permits, we may throw you a few more dollars later on.' Sir Wilfrid Laurier demands, in the name of the Liberal party, a Canadian-built navy, the vessels manned and maintained by Canada, yet absolutely at the disposal of the British Admiralty, when and where required. For this plan Mr. Borden and his followers once voted. By his alliance with the Nationalists Mr. Borden abandoned this proposition, but it is still Sir Wilfrid's rule to stand by and advocate the sound Liberal principle that taxation and representation must go together."

While the question of co-operation in production and selling is a matter of great importance to the producer, the question of co-operation in buying is equally important to the consumer. The best example of that is the case of water supply. We are apt to overlook the fact that water is purchased for us on a big co-operative plan. This has lately been followed by the supply of light on the co-operative plan. It will not be long before we have heat supplied to our homes on the same plan. Must we stop there? Why not take the next step and have the milk supply controlled co-operatively by city? There are many reasons in its

favor. The city is more and more controlling it. Would it not be in the interest of health and economy to have it entirely controlled by the municipality? If, have a co-operative supply of all necessities of life, bread and potatoes, we would have a co-operative supply of all necessities, and the method of living would have an important bearing on the cost of living. Some people may be frightened at the suggestion or possibility, especially if some one should label it "Socialism." But in my opinion, it is worth more than a mere passing consideration."

The great Liberal meeting held at Shediac on Thursday evening is an index of the feeling of the people of New Brunswick on the naval question.

BIRTHDAYS OF NOTABILITIES

SATURDAY, MARCH EIGHT. The Hon. William Harty, of Kingston, is sixty-six years of age today. He is known to fame principally through his connection with the Kingston locomotive works, of which he was president until last year. He sat for Kingston in the Ontario legislature from 1892 to 1902, during most of which time he was commissioner of public works. From 1902 to 1911 he represented Kingston in the House of Commons. He is one of Kingston's most prominent citizens.

D'Arcy Scott, assistant chief commissioner of the Board of Railway Commissioners of Canada, is forty-one today. He is a son of Sir R. W. Scott and was born near Ottawa on March 8, 1872. A barrister by profession, he has practiced law in Ottawa since 1895. For some years he was an alderman of the city and then in 1907 he became mayor. He received his present appointment in 1908. As a young man he was a noted athlete and was a particularly expert as a canoeist.

Professor James Conroy, dean of the faculty of arts in Queen's University, was born on this date in 1835 in Dundee, Scotland. He came to Queen's as professor of English language and literature in 1888, and is one of the chief members of its faculty. Since its establishment he has been one of the editors of Queen's Quarterly, and he is also the author of several books.

SUNDAY, MARCH NINTH. His Excellency, Sir Ralph Chompey Williams, a former governor of Newfoundland, observes his sixty-fifth birthday today. He is a native of Anglessey and as a young man was a member of several exploring expeditions in Patagonia and Central Africa. In the Bechuanaland expedition he served as head of the civil intelligence department. He then entered the consular service and was first British agent in the South African Republic. Since then he has held numerous important posts in the civil service.

The Hon. J. G. Foster, consul-general for the United States in Ottawa since 1903, is fifty-four years of age today. He comes of Puritan stock, his ancestors having come over on the Mayflower to the Massachusetts Bay colony as a young man became a lawyer. He became consul-general for the United States in Halifax in 1887.

H. C. McLeod, for several years prior to 1910 general manager of the Bank of Nova Scotia, was born on March 9, 1851, in New London, P. E. I. He started his career in Charlottetown as bookkeeper in a wholesale business, and then entered the service of the Merchants Bank of P. E. I. In 1882 he joined the staff of the Bank of Nova Scotia and was manager successively of its branches in Amherst, Winnipeg, Minneapolis and Chicago. He became general manager in 1897. He is an enthusiastic yachtsman and amateur designer.

LIGHTER VEIN FAMILY PRIDE. Mr. Jones—But, my dear, we can't afford an automobile. Mr. Jones—I know that; but I want to show that stack-up Mrs. Brown that we can have things we can't afford just as well as they can.

SHIP-KNEE A LITTLE. Mrs. Gladder—What do you know about these people who have moved in across the way? Mr. Homer—Not a thing, except that their name is Gimpas, the man works in an office down town, the woman gives music lessons, they take their dinner twice a week at a restaurant, have their washing done away from the house, and the plumber has been there twice in the last four days to mend leaks in the water pipes.

INTRODUCING HIM. "Now children," said the mother, rapping the side of the glass with her finger, "if you will make yourselves perfectly comfortable I will begin the feast of reason." "What's coming off now?" said the after-dinner-speaker. "It gives me great pleasure," she continued, "to state that we have with us tonight, one whom you will no doubt be glad to hear from; one who has done a great deal for us; one, in fact, to whom we owe our bread and butter. I take pleasure now in introducing you to your father, Pa, get up and say a few words."

The Toronto Globe says: "Premier Borden's naval policy, whatever its future fate, has given Sir Wilfrid Laurier, the Liberal Chief, an opportunity to reaffirm the great principles of Liberalism as understood in the dominion. Mr. Borden has declared the old Tory principle of taxation without representation. He would give \$25,000,000 to Great Britain as a sort of dowry to the navy, but would not ask a word as to its disposal beyond saying: 'build three ships, man them, maintain them with any hirelings you may, and if the dominion parliament permits, we may throw you a few more dollars later on.' Sir Wilfrid Laurier demands, in the name of the Liberal party, a Canadian-built navy, the vessels manned and maintained by Canada, yet absolutely at the disposal of the British Admiralty, when and where required. For this plan Mr. Borden and his followers once voted. By his alliance with the Nationalists Mr. Borden abandoned this proposition, but it is still Sir Wilfrid's rule to stand by and advocate the sound Liberal principle that taxation and representation must go together."

While the question of co-operation in production and selling is a matter of great importance to the producer, the question of co-operation in buying is equally important to the consumer. The best example of that is the case of water supply. We are apt to overlook the fact that water is purchased for us on a big co-operative plan. This has lately been followed by the supply of light on the co-operative plan. It will not be long before we have heat supplied to our homes on the same plan. Must we stop there? Why not take the next step and have the milk supply controlled co-operatively by city? There are many reasons in its

favor. The city is more and more controlling it. Would it not be in the interest of health and economy to have it entirely controlled by the municipality? If, have a co-operative supply of all necessities of life, bread and potatoes, we would have a co-operative supply of all necessities, and the method of living would have an important bearing on the cost of living. Some people may be frightened at the suggestion or possibility, especially if some one should label it "Socialism." But in my opinion, it is worth more than a mere passing consideration."

The great Liberal meeting held at Shediac on Thursday evening is an index of the feeling of the people of New Brunswick on the naval question.

In its report of the supplementary estimates brought down in the Ontario legislature last week the Toronto News says: "The prisons and asylums are coming in for generous allowance. The new Central Prison at Guelph receives \$151,000; the Breckinridge Hospital for the Insane, \$78,000; that at Kingston, \$31,500; at London, \$31,100; at Mimico, \$23,800; Home for Feeble-Minded at Quills, \$87,000. The recent provincial agitation over the feeble-minded of the province has facilitated the granting of \$80,000 for additional cottages at this latter institution. Under educational institutions the Institute for Deaf and Dumb at Belleville and for the Blind at Brantford will receive \$22,835 and \$74,600 respectively, these sums to proceed mainly towards building extensions."

The Status of the Norton Griffith & Co. Financial Application re Large Works

The St. John County Council requires further information and a more definite statement of the proposition before they will consent to a contribution towards the annual guarantee for \$50,000 for the sinking fund in connection with the plans for the enlarged dry dock and steel plant. If the matter is put before them in this manner they would require it to be passed upon by a public body before taking action. This decision was reached at a caucus held last evening at the residence of the representatives of Norton Griffiths & Co., and before the members left for home on the evening train.

The government, it is understood, feels there should be further information. Mr. Palmer submitted the following at Frederickton:

Norton Griffiths & Co., Limited, have entered into a contract with the Dominion government to construct a dry dock 900 feet in length and 100 feet in width, and to install a ship-repairing plant under the public works department as to the possibility of their constructing a larger dock, 1,150 feet in length, by 120 feet in width and 40 feet over the sill, under the subsidies act of 1912, which provides for the payment of a subsidy of 51.5 per cent on \$5,000,000 for thirty-five years for a dock of the following dimensions: 1,150 feet in length, 110 feet in width and thirty-seven feet on the sill.

The company do not feel that they can undertake this obligation without further financial assistance.

In order to finance the construction of the larger dry dock, successfully it will be necessary to create a bond which will be attractive to financiers.

The subsidy available under the act of 1912, amounts to \$102,500 which will be sufficient to pay the interest at 4 p.c. on \$4,800,000 for thirty-five years. In order to make the bond attractive a sinking fund must be provided and the amount required for this would be about 11.3 p.c., say \$800,000 per annum.

It is proposed that the government of the province of New Brunswick and city and municipality of St. John should jointly guarantee the payment of this sinking fund, should the proposed dock and ship-repairing plant not be sufficient to meet the requirements.

It would appear, however, that it might be advisable to arrange that the sinking fund should not be put into operation until five years after the completion of the company. In this case the sinking fund would operate for thirty years and the annual requirements to meet it would be slightly increased.

In exchange for the obligation undertaken by the city and province, Norton Griffiths & Co. would undertake to build the above mentioned dock, which would be the largest in the world, and would reclaim sufficient land adjoining the dock for the requirements of a large ship-repairing plant capable of building large steamers. They would also undertake that the dock would be put under the management of a first class shipbuilding firm who would be satisfactory to the city and to the government of the province.

The city and province have already taken legislative power to give cash subsidies to a dry dock company amounting to \$1,650,000 for twenty years and the city offered a valuable site for the dry dock. Provided the guarantees asked for were given these cash subsidies would not be applied for by the company.

If the above guarantees were agreed to Norton Griffiths & Co. would undertake to issue sufficient preference and common stock to install all the additional capital required and to provide working capital for the company and would undertake to give 50 per cent of all the common stock of the company, or if found to be more advisable some other financial interest in the success of the enterprise.

All profits received by the company after providing for the maintenance of the dock and the shipbuilding plant, would be disposed of as follows:

First—In paying the yearly sinking fund.  
 Second—In reimbursing the guarantors.

**BANISH THOSE UGLY PIMPLES**

Skin Cleared in a Short Time by Stuart's Calcium Wafers, the Greatest Blood Purifier Known.

Pimples, blemishes, skin eruptions of all kinds, are simply the impurities in the blood coming to the surface. All the external treatment in the world would be of no use, unless you purify the blood.

And Stuart's Calcium Wafers are absolutely harmless to any one. Their ingredients are just what a physician prescribes in most cases of skin eruptions and poor blood. These wafers are put up in a concentrated form, which makes them act quickly and thoroughly.

Begin taking Stuart's Calcium Wafers today and then look at yourself in the mirror in a few days, and find all those awful pimples, blackheads, acne, boils, liver spots, rash, eczema and that muddy complexion rapidly disappearing and your face cleared like the petals of a flower.

You can obtain Stuart's Calcium Wafers at any drug store at 30 cents and there is now no reason why anyone should be disfigured by pimples or any other skin eruption.

**MINISTERS WHO DROP OUT OF SIGHT**

Twenty Vanish Every Year in England—Compiler of Records Talks of Cases

(Times' Special Correspondence)  
 London, Feb. 24—All England has been perturbed, of late, over the mystery of a clergyman's disappearance. Probably you already have read something about it. The Rev. Albert Knight, with the convenience of now proved, of his tomb, took elaborate pains to make it appear that he had tumbled into the sea, but it has been revealed since that he merely embarked on that element, accompanied by a young and attractive parish worker of the opposite sex, and that the clergyman's disappearance was a national sensation and a moral service had been done for his church, conducted by the bishop of the diocese.

The "Amazing Visions" as the newspapers christened him, having been definitely tested, his name will not appear, next year, in the list of missing divines, which is published annually in Crookford's Clerical Directory. This remarkable volume, which contains the official records of between 30,000 and 40,000 clergymen, has just made its yearly appearance and records the disappearance, in the year just passed, of no less than thirty British divines. This number is considerably above the average, according to the editor of "Crookford's" who said that it is unusual to have more than twenty divines reported missing in the course of a year. The records which he compiles cover the uttermost corner of the mission field, the loneliest outpost of Christan effort, as well as the smallest and least known of English rural parishes.

"I am glad to say," said the compiler-in-chief, of Crookford's, "that there are few 'amazing visions' among the English clergymen, who disappear each year. Some are victims of nervous breakdown and prove to be beyond our reach—in asylums. In many cases, too, the explanation of a clergyman's disappearance proves to be that he has taken to a business career and thus has preferred to sink his clerical identity altogether. Quite frequently, in fact, clergymen have written, after all our efforts to locate them have failed, stating that they have given up the church for business."

Before a clergyman's name is included in our missing list, he added, "a form is sent to his last known address. If no reply is received, a second form, which, if undelivered, is returned by the postal authorities, is despatched. Then we write to the archdeacon or the bishop in the case of a beneficed clergyman, or if a curate, we communicate with his last vicar or rector. Not until all means of inquiry are exhausted is the name placed definitely among the missing."

KING'S DAUGHTERS. The monthly business meeting of the King's Daughters Guild was held yesterday afternoon. Mrs. Colby Smith and Miss Frances McCall were appointed members of the Girls' Club committee. Resolutions of thanks to James Manchester for his gift of \$200 and to Joseph Allison for his annual contribution of \$60 were passed. The annual meeting was set for Monday, April 7.

JUVENILE COURT. In the juvenile court this morning six boys, reported for throwing snowballs who were given a lecture and let go.

A young cripple aged fourteen years who was given in charge by the manager of F. W. Woolworth & Co. for stealing post cards was let go as the cards had been returned and the company did not wish to press the charge.

THE \$5 HEAD TAX. PROVING A POOR "AD" FOR CITY OF ST. JOHN.

That the five dollar head tax is a very bad advertisement for the city of St. John, is the view expressed by W. Ekins, of Regina, who is in the city today. Mr. Ekins is an Englishman who has made good in the west, and has been home to England. He is now on his way back to Regina, and is speaking of the conditions in New Brunswick before proceeding to the old country. "I do not think it is right," said Mr. Ekins, "to send agents over to come to St. John and not tell them about the head tax. A young fellow lands and secures a license, and if he has not secured a license, he must pay the five dollars or quit work. You see, Brunswick people who go to Montreal or to any place in the west are not asked to pay such a tax. It is a great drawback to the city and it must operate against the growth of St. John."

COMMISSIONERS ALL TOGETHER AGAIN

After various journeys to Ottawa and Fredericton, the mayor and commissioners to their full number, met at city hall today for the first time since Monday. The session was devoted chiefly to a report of the delegations and consideration of the business arising from their trips. Mayor Eriak reported on the interview with the members of the federal government in Ottawa, as given elsewhere in the Times, and reports of the proceedings in Fredericton also were given. All the city and municipal bills at Fredericton were progressing satisfactorily with the exception of that regarding the appointment of the chief of police. The commissioners are not prepared to accept a compromise, and so far the legislature has not seemed willing to accept the bill as presented to them. The suggestion was made that a commission composed of the commissioners of public safety, a county court judge and one other citizen should be appointed to deal with police matters, but this was not acceptable, as the city commissioner would still be in the minority.

BUILD NEW FACTORY; ADD MORE EMPLOYEES

Another evidence of the go-ahead in St. John is found in the announcement that the firm of John White & Sons have secured a piece of land in March road from J. A. Lebel and will erect a factory for the manufacture of electric vacuum cleaners. The new factory will be thoroughly modern in design, construction, and equipment, and when it is in operation, which is expected to be about the middle of May, it is thought that nearly double the hands at present employed in the factory of the firm at Gilbert's Lane, will be required. The lower floor of the factory will be of concrete and the building will be about 40 by 100.

WINTERPORT NOTES

Elder-Dempster liner Ninian will sail on Monday for South Africa with a large general cargo. Allan Line steamer Demerston sailed this morning about one o'clock for Hare and London with a large cargo of grain, deals and general merchandise. Steamer Rhodessa of the Allan line will leave this afternoon for Liverpool with a large general cargo including a large quantity of grain. Donaldson liner Athenia has sailed from Glasgow for St. John with 238 cabin and 350 third class passengers. Donaldson line steamer Letitia is expected to arrive on Monday or Tuesday. She is bringing 225 passengers and has in her cargo 110 horses from Glasgow. The Royal Mail steamer Empress of Ireland sailed yesterday for Liverpool via Halifax with 101 first, 87 second and 300 third class passengers and a large cargo of general goods.

Sailor Who Made Fuss on The Lansdowne - Police Court Cases

In the police court this morning, William Shannon, who was charged with breaking and entering the store of Matthew A. Harding and stealing three bottles of liquor, was further remanded. Kate Harrison, charged with being an inmate of a disorderly house in Sheffield street, was fined \$30 or six months in jail, but was allowed to go on condition that she leave town. She told the court that she was making arrangements to go to live with a brother in Philadelphia. May Johnson, charged with keeping a disorderly house in Brunswick street, was fined \$30 or six months in jail.

Noah Tulk, a native of Newfoundland, who was given in charge by the chief of police of the government steamer Lansdowne for creating a disturbance on the steamer, and who also had to answer the charge of being drunk and resisting the police and assaulting the chief officer, was fined \$20 for the assault, \$20 for resistance, and \$80 or ten months for raising the disturbance but was allowed to go on a pledge of his future good conduct.

Thomas Connel, arrested on charge of being drunk and assaulting a young lad named Ernest Hammond, was fined \$3 or 30 days for drunkenness, and \$20 for the assault. The Hammond boy and a boy named Roger Chesley gave evidence. They said they were walking past the Union Depot, and the defendants was ahead of them, when one of the boys laughed and the prisoner thinking they were laughing at him, turned and struck young Hammond.

Hans Nicklaw, charged with stealing junk from the schooner Mayflower, of which he is mate, pleaded not guilty. The cook told of seeing the defendant selling some rope on the schooner to a junk dealer. He said the prisoner had been drinking and that he had been given his discharge from the vessel. The case will be resumed on Monday morning.

Louis Rodgers, charged with wandering around Union street and not being able to give a satisfactory account of himself, was allowed to go.

O. S. IRVINE MEETS WITH INJURY IN THE WEST

Word Comes to Wife Who is Visiting Relatives Here

The pleasure of the visit of Mrs. Oliver S. Irvine to this city has been marred by news contained in a message which she received last night from Edmonton, Alta., that her husband, who is a contractor on the Canadian Northern Railway there, had been injured in a railway accident. His brother, T. L. Irvine, yardmaster for the I. C. R. here, and it is at the home of the latter and his wife, Miss Gilchrist, that Mrs. Irvine is staying, in company with her little boy and girl. The letter did not say how serious the accident was, but it might result in the loss of one of Conductor Irvine's hands. He also lost most of his clothes in the collision, which occurred a few miles from Edmonton. The injured man is well known in St. John. He was formerly working in the I. C. R. yard here but went west about seven or eight years ago and has met with success in the province of Canadian Northern. His wife came here a few days ago intending to spend some time recovering old acquaintances, and he was to have joined her here and return home with her. Their plans are now rather unsettled owing to the accident, but his friends here will hope that it will not prove serious.

THE NORWEGIAN GIRLS HAVE NEARLY ALL LEFT CHAMCOOK

Experiment Not a Success—Some of Them Have Come to St. John

Esposito, March 8.—The Canadian saddle plant at Chamcook commenced packing saddles this week, and each day small quantities of saddles have been received. It will be several weeks yet before the spring run of fish begins. There are about 300 employed at the present time, 75 of whom are former employees of the factories in this city. Many will return soon as the work starts. The experiment of employing Norwegian girls to pack the fish proved a dismal failure as out of 100 or more girls brought from Norway to work in the new plant, only about a dozen are now employed, the others having been discharged and their places filled by French-Canadians, a large number of whom arrived recently at Chamcook. Some of the Norway girls have returned to their homes, while others have secured employment in the candy factory in St. Stephen. Others have gone to St. John, where they are now at work.

LECTURED ON LIFE AND WORK OF SIR FRANCIS BACON

An able lecture on "Sir Francis Bacon" was delivered last evening in the Equity court chambers by E. T. C. Knowles before the students of the law school, and it was greatly appreciated by all. The speaker brought out the characteristics of the notable statesman, jurist, and author, dwelling upon his early life, education, accomplishments, and his prominence in political and public circles in England in the days of Elizabeth and King James. He referred to his career as a lawyer and judge, his finally becoming lord chancellor, and his being deposed because of certain troubles arising but said that it was really beneficial to all concerned that he had been, for it was during his seclusion that he contributed to the world his famous writings. He lived in a time of great men, the lecturer said, and he was one of the greatest. Mr. Knowles carried his audience with interest through the life of the eminent subject of his discourse, and gave a graphic description of notable events in his career, closing with an interesting account of his passing from the public eye, and his death. The students and the lecturer were the guests of J. Roy Campbell, secretary of the board of directors of the law school, and Mrs. Campbell at their residence, 22 Black street, and a pleasant time was spent.

GUARANTEE  
In presenting Billy Allen's Musical Comedy Company to my many friends in this city, I have the satisfaction of knowing that I am giving them the greatest show of its kind which has ever been brought to St. John. Billy Allen is recognized among the foremost of Irish comedians and he has gathered around him a company of musical comedy people who have already demonstrated their ability as singers, dancers and first class performers. This is the first time that a company of thirty people has played at less than one dollar and a half price.—W. H. Harder.

**Uncle Tom's Cabin to Grace Local Boards Soon—H. Price Webber Starts His 39th Annual Tour Over Maritime Provinces and Maine**

Harry Beresford, well known in St. John, is now manager of his own company, playing in the Southern States. In this connection it is interesting to note that last week he brought before the public of Waukegan, Kansas, Hooper Toller, to play an important part, and Mr. Beresford said it was the best rendering of the role he had seen. The interesting part comes in the announcement that young Toller, a nephew of Sidney Toler who so favorably impressed local play-goers at the holiday season as leading man with his amusing "Half Star Stock Co."

Leon Bramhall, great-niece of Lillian Russell, is a bright child who is getting her first experience as an actress in Kinematograph pictures. Already she has played many parts, her most successful being the child in "The Scandal Letter." Directors declare that she has a remarkable memory and a keen imagination.

The old time-honored drama of slavery days on southern plantations, which has appealed to generations of playgoers, namely "Uncle Tom's Cabin," is to be put in rehearsal by the City Opera House, probably next week, for presentation in the Opera House in the near future. It is to be noted that the cast will be made up of the same as when last produced here, although about six years ago, when they were a local troupe, although it had just been produced a week before by a stock company here. It was interesting at the time to note that it was again presented in the following week by a traveling company, and they also had large houses.

Armed Lucy, who is playing one of the leading roles in "Paddy's First Play," at William Collier's Comedy Theatre, New York, gave his 78th performance of the role of "Mr. Knox" this week. Mr. Lloyd originated this part in London and played the part there for 576 consecutive performances before going to New York.

The special performance at the Harris Theatre, New York of "The Master Mind" in which Edmund Broome is starring, scheduled for last Sunday evening, was not given until 12:00 o'clock Monday morning. The performance was intended for players appearing in various metropolitan attractions. Invitations and tickets were sent to the actors, but when they arrived at the Harris they were informed that the Waldorf interpretation of the Sunday laws prevented the performance until after midnight. Uniformed policemen were on hand. No apparent effort was made by the police to stop any of the Sunday matinee shows or concerts. In fact, a variety show is in full swing next night at the Harris.

Janet Beecher, stunneress leading lady of "The Concert," is going into vaudeville. Mr. Frohman announces that John Mason will appear next season in a new play now being written by Augustus Thomas. Miss Wynne, who is a niece of Miss Edith Mathison, is playing an important role in the Shubert production of "Edmond Rostand's new play, "Romance," which is now being presented at Maxine Elliott's Theatre, New York, and in which William Courtenay and Doris Keane are playing the two leading roles.

The director of the company is Tom Whyte who was in the provinces about fifteen years ago in opera. Miss Madal Day is the prima Donna. Miss Blanche Ring will appear in a new comedy, "When Claudia Smiles," by Leo Ditrichstein, who wrote "The Concert," early in the springtime preparatory to a season in New York or Chicago. It is based upon Mr. Ditrichstein's "Vivian's Paper," in which Miss Ring first appeared as a star. Impresarios have lately been hunting around for suitable plays that would incorporate to some extent the spirit of the times, but without a great deal of success. The Women's Political Union, however, produced in New York a work which demonstrated that militant suffragism is as old as Mark Twain found his "Jumping Frog" tale to be. Moreover, the play deals more exclusively with the feminist movement and with far greater frankness than anything which the modern stage has produced. Aristophanes in 410 B.C., wrote the play, and it is called "Lysistrata."

Dorothy Parker, daughter of the author of "Joseph and His Brethren," at the Century Theatre, New York, has an important part in her father's pageant play, "Joseph and His Brethren," and had the publisher around to see the play from the stage. At the time, Miss Dorothy was amusing herself sketching various members of the company. The publisher saw the notes and, as a result, when the book comes out it will be illustrated by the author's daughter.

**LONDON AUDIENCE SEES DELPHINE AND CALLS LOUDLY FOR CENSOR**

Series of Failures Seems to be Now Running in London Stagedom—Hard to Realize it is a Fact, But the Gaiety Now is Dark

(Times' Special Correspondence)  
London, Feb. 2.—Evidently a good proportion of the audience at the first performance of "Oh, Oh, Delphine at the Shattbury on Tuesday last, felt that Delphine was not quite a nice or proper young person, and that her behavior called for severe condemnation. Anyhow, when the curtain finally fell there were loud gallery cries of "Censor! Censor!" could have been heard from every part of the theatre. "The Girl in the Taxi" has acquired the English rights of "Within the Law" from Woods. He has no intention of producing the piece at the Lyric, where the next novelty is to be a new musical play by Ches. Street. But obviously, if one has the money there are always other theatres to be had. The trouble bill of success of "The Younger Generation" "The Twelve Pound Look" and "The Adventure of Artille Point" has not been translated from the Haymarket to the Duke of York's, and has received notice to quit. Its place will be taken by "The Yellow Jacket."

England have been placed to his credit in a Vancouver bank. Meanwhile he is still showing theatre patrons to their seats. The day after Hatfield heard of his good fortune, a fellow traveler, Charles Fryatt, was called to Alameda, Kansas, to claim an estate estimated at \$20,000, left to his wife by her grandfather. This estate consists of 400 acres of farm land and between \$10,000 and \$12,000 in cash.

Price Webber's Thirty-ninth Tour  
The New York Mirror says:—For thirty-eight years H. Price Webber and the Boston Comedy Company have toured over the same territory, and when the organization starts its season this month a tour through New England, New Brunswick, Quebec, Nova Scotia and Cape Breton, playing throughout the summer, the roster will include Edwin Gray, Charles Palmer, Kenneth Fleming, Harry Brown, Claire Ward, Guy Senechal, Eddie Lewis, Eddie Bishop, and Mr. Webber. However, the presence of Delphine, one of the popular leading women of the Selig's Pacific coast studio, is the holder of several records for her ability as a swimmer. A day rarely passes when Miss Byron does not take a practice swim at one of the beaches near Los Angeles. She is famous along the Pacific coast for the swimming championships which she has won.

Florence Barker, for some years one of the most popular and gifted actresses in the motion picture field, died of pneumonia in a hospital in Los Angeles, Cal., last week. She was taken ill early in the week. Her husband, who plays a part in her father's pageant play, "Joseph and His Brethren," and had the publisher around to see the play from the stage.

GOOD WEEK-END GEM PROGRAMME  
A strong programme for the last two days of the week was offered last evening at the Gem Theatre and gave much pleasure to those who witnessed it. The picture were well up to the standard of this house and were featured by a story of the Canadian wilderness, dealing with the simple life of those who dwell in the great stretch of barren lying towards the Yukon. It was entitled "Pierce of the North" and as presented by the Selig Company was a vivid picture of adventure, love and pathos in the thinly settled country to the north.

Old Porfirio Diaz is reinaugurated as president of Mexico. He takes oath while martial law is in force. Insurgents, however, soon force an insurrection and their leader, Francisco Madero, proclaims himself "provisional president."

Diaz finally resigns presidency, leaving session in charge to Madero. In his place, Diaz is made president "pro tem." Madero, to make his power more secure, next deposes Gen. Felix Diaz, nephew of the ex-president, Porfirio Diaz. He accomplishes this by a battle at Vera Cruz.

Diaz, court martialled, is sentenced to death, but Madero dramatically spares his enemy at the last moment. Army now has revolted in Mexico and has released Gen. Diaz from jail. Diaz is engaged in trying to recapture the power of government.

There is not space here to describe the many duties of Mr. Speaker or to give such a description as would be interesting reading. More than any other member of the house, except perhaps the chief government whip, the present presiding officer has reason to be thankful for the new "seven o'clock rule," which practically puts an end to all night sittings, the bane of life in the House of Commons.

Despite his long hours and heavy responsibilities, however, the Right Hon. W. V. Lowther, who is fifty-eight, wears a neatly trimmed beard, and is noted as a careful dresser—always looks in the morning as if he had just stepped out of a bath.

While at Cambridge, too, he carried out his duties as a fine amateur actor (appearing under the pseudonym of "Lord R. Cole," the name of a historic title of the peer of the Strand which has now disappeared).

A cold, however slight, should never be neglected, for if it is not treated in time it will, in all probability, lead to bronchitis, pneumonia, asthma, or some other serious throat or lung trouble.

Mr. G. G. Rhynard, Mill Village, N.S., writes: "I have had occasion to use Dr. Wood's Norway Pine Syrup, and say that it is certainly a good medicine. About a year ago I contracted a severe cold, which settled on my lungs, and left them in a very weak state. The cough racked me terribly, and I was in despair, until a friend advised Dr. Wood's Norway Pine Syrup. I took five bottles in all, and it cured me of my cough, and left my lungs strong and well."

CHRISTY MATHEWSON'S HEADLINE SERIES CROCK OF 1913

BASEBALL MANAGERS AND THEIR METHODS

By CHRISTY MATHEWSON, of the New York Giants

It has been frequently said by baseball authorities that the New York club, which won the last two pennants in the National League, would have been likely to finish in the first division under any other manager besides McGraw.

Jack Coombs, The Famous Nerve Pitcher of the Philadelphia Athletics, Formerly of the St. John Alerts

That was McGraw's busy spell. Winning a championship after a big and what looked like a safe lead has been cut down to the barest thing in the world because the players become discouraged to see the team slipping little by little, day after day, and the pressure gradually paining.

The chief responsibility probably no subject in modern baseball has been more fully or more comprehensively treated than that of Big League managers. The field boss of the club is held responsible for the poor showing of the team, and when a pennant is won, the players generally get credit for it.

What the Chief Gunner Says: "There are two occasions when a manager feels perfectly happy, one is when his shot hits the target and the other is when he can enjoy a chew of Empire Navy Plug Chewing Tobacco."

chase the big Dutchman. Dreyfus would not take \$50,000 for him. He is just not for sale at any price. Stars cannot be bought nowadays, but the managers must develop them. To illustrate the hopelessness of trying to purchase stars, I shall relate a story about how High Jennings attempted to buy Walter Johnson and "Charlie" Street, the old Washington battery.

McGraw never let up on his men. From that time on, the team settled down and played good ball. McGraw's methods had triumphed because they had made a cohesive team out of one which was slowly disintegrating. Without him, I do not believe the club would have won the pennant last year.

Griffith's style is peculiar to himself. He makes changes for which even ball players can figure out the reason. I doubt if "Griff" has any reason in mind, himself, sometimes, but he always wants to know how he is authority. He is the absolute boss of his players, and in this respect McGraw somewhat resembles him.

UNSIGHTLY PIMPLES CAME ON FACE

Sores Spread Until Face Was Covered. So Itchy Could Not Resist Scratching. Cured Entirely in About Two Weeks by Cuticura Soap and Ointment.

Chatham, Ontario.—"My trouble started with sores breaking out on the face. They came as pimples and were unsightly. These sores seemed to keep spreading until my face was covered. They were so itchy that at times I could not resist scratching."

LEGS BURNED AND ITCHED

Scotts West, P. E. Island.—"My little girl, aged four years, was troubled with a painful rash on her legs. It began in a dry rash very hot and itchy and after a few days it looked like little pimples with a white top on them."

opposing pitcher, especially if he is a youngster. They tell a story of how he looked at the bat. It was a right one, and Alexander, the sensational twirler of the Philadelphia club, the first year he was in the club, was a right one, and Alexander the first time he started against the Reds, expecting to scare the youngster.

McGraw's quick method "What was the matter with you?" boomed McGraw. "Guess that guy thought he was putting something on me because I am a youngster," replied the new pitcher.

SPORT NEWS OF A DAY, HOME AND ABROAD

BOWLING

On Black's Alley. In the City League on Black's Alley last night the Hamburgs defeated the Wanderers, three points to one. The total pinfall was 1288 and 1252 respectively. Wilson was high for the winners with 97.3 average, while Smith led the losers with 89.23. Brock & Paterson defeated the O. H. Warwick team in a special match game last night by twenty-one pins. The winners had 1233 to 1222 made by the losers. Ryan of the R. & P. team had an average of 92.13, and Edmondson of the Warwick quintette rolled 89.23. Tonight P. McAvity & Sons, Ltd., and the S. Hayward Co., Ltd. will meet in the Commercial league.

HOCKEY

Campbellton Beats Laval. Campbellton, N. B., March 7.—(Special.)—In a clean fast game here tonight the Campbellton Victorias defeated Laval University hockey team of Quebec city by a score of four to one. It Gets Serious. There is a rumor to the effect that the Campbellton and Chatham hockey teams will play next week for a side bet of \$1000. The people on the North Shore have gone wild over their respective teams. Think Sydney Will Lose. Quebec, March 8.—After watching the Sydney hockey team work at practice yesterday afternoon, supporters of the Stanley Cup holders expressed no fears that the trophy might be won by the champions of the Maritime Province League. While most of the men on the ice were good shots and stick handlers, they did not appear to possess the speed necessary.

Open Eyes of Toronto Fans

Toronto, March 8.—The fans who saw the Winnipeg all-stars in their initial appearance in Toronto last night, went home convinced that the reports of the westerners' prowess were only facts. The score of 11 to 2 is enough to convince even the rabid fan, that St. Michaels, their opponent, were badly outclassed, but their playing was even more proof than the overwhelming score. Speed is the strong point of their play. The defence of the visitors is a stronghold. They seldom use their body in stopping a man, but go after the puck.

THE TURF

Kremont Reported Sold. McKay Brothers, New Glasgow, have purchased the island horse Kremont, 2244, at a reported price of \$500. P. E. I. Races. A Charlottetown paper says—It is said that a letter has recently been received from the National Trotting Association complaining of the suppression of time on our local tracks and threatening retaliatory measures if it continues. It looks like half mile heats or money worth going after.

BASEBALL

Lo, the Poor Jim Thorp. Lo there dwelt in Pennsylvania, In the tribe of Wabachaclem, Big Chief Jim Thorpe, long much lujan. Mightiest of all the red men, Sound he was in wind and snow, Broad of shoulder, long of hip, Loaded up with lumps of muscle—Hercules had nothing on him— From his accomplished torso, To his corrugated tum-tum. First he was in all the jousting And the way in all the races, On the flat and over hurdles; Broad and high jump, discus, pole vault, Were a slice of custard for him. While the shot-put and the hammer—Hush your business, nothing to it. On the football grid he sizzled, In his lardboard ear it whizzled; As an all-round lallypooer He was some parrot, believe us, Son his totten pole was laden With the scalps of palace foemen. In the form of badge, medals, Bangles, charms and other gewgaws, Junk enough to sink a steamboat, Then there rose a voice within him, "Big Chief Jim Thorpe, what's it giteah! Amateur sport heap much hood-wah, Badges, medals, no can eat um; Get 'il' wampum! Get 'il' wampum!" Then he hearkened to the whisper And he started on the warpath, On the trail of the muzzma In the wide of Carolina, And he toted home the bacon, Then the A. A. U. skegisters Relaxed a mighty cockorum, Tore his string of scalplocks from him,

TENNIS

Australian Team Chosen. Sydney, N. S. W., March 8.—The lawn tennis association has selected Anthony F. Wilding, S. N. Doust, and Mr. Jones as the Australian players to compete in the preliminary matches for the selection of a challenging team for the Dwight F. Davis trophy now held by England. Norman E. Brookes, a veteran player will not be able to make the trip this year with the Australian team.

ATHLETIC

Change Olympic Events. Berlin, March 7.—The German olympic authorities in charge of the arrangements for the next Olympic games in 1916 have decided, subject to the confirmation of the international committee, to eliminate from the Berlin programme the shot putting and discus and javelin throwing with both hands and to return to the old method by which the competitor was allowed to use his best hand.

Heavyweights Will Hold Full Sway Again in New York

By TOM ANDREWS

STARTING with March 14, the date set for Billy Gibson's heavy weight scrap at Madison Square Garden in New York, the Gotham fans will probably be in for another series of heavy weight matches. It was intended to open with Bombardier Wells, the British champion, and Luther McCarthy, the American champion, but so far the matchmaker has been unable to get them together, McCarthy end of the deal holding out for more percentage. According to report they want 40 per cent of the gross, which with 25 or 30 for Wells, would leave the management with little for their end. It is probable that Gunboat Smith, who has been doing well of late on the Pacific coast, will be sent against Wells and then if the Britisher wins he will be in still better demand for a McCarthy match. It is also possible that the ban will be lifted from the head of Jess Willard, another white boy, who has been chasing Luther for a match, and in that event a good match would be assured, for Willard has had all kinds of press advertising and would prove a big card.

MUCH BUILDING IN THE NORTH END

(Continued from page 9). tion will become effective on May 1. Rev. Mr. Nichols has labored in St. Stephen for about three years and a half, and just as was the case in North End, he was greatly liked by his parishioners. Wm. Wood, conductor in the service of the St. John Railway Co. running on the Douglas avenue line, was cut about the face last evening by a drunken man who got aboard his car and refused to pay his fare. The man was asked a second time, whereat he became angry and took the young man unawares, striking him a severe blow in the face. Before he could be prevented he jumped from the car and escaped.
