PUTS BAN ON FOUR FRENCH NEWSPAPERS

Sweeping Action is Taken by Archbishop of St. Boniface

THREE IN MONTREAL

Fourth is Quebec Journal—Two Others are Commended in Their Stead—Proprietors of the Four Likely to Contest the Matter

St. Boniface, Man., Dec. 5.—(Special)—His Grace the Archbishop of St. Boniface has practically placed under the ban most of the leading French newspapers of the Province of Quebec. He has not only condemned four influential dailies, published in the French tongue, but also recommended two others to the faithful of this diocese.

This drastic move came to the ears of only a very small portion of the public last evening as the condemnation was contained in a private letter sent to the parish priests of the archdiocese which embraces the provinces of Manitoba, Saskatchewan and Alberta.

The letter, which is signed "Adelard, Archbishop of St. Boniface," declares that Le Canada, Le Presse and La Patrie of Montreal and La Soleil of Quebec are no longer to be read by the faithful of the archdiocese and in their place His Grace strongly recommends Le Devoir of Montreal and L'Action Sociale of Quebec.

This very grave ecclesiastical move, no doubt will be contested by the proprietors of the four newspapers named as this is the first time that a Canadian prelate has ever made such a sweeping recommendation.

A gentleman in Winnipeg said it would be very interesting to watch the course of such good churches as Hon. T. Bevington of La Presse, Hon. P. LeBeau, president of Le Canada, Messrs. Turle of La Patrie and Stanislas Gauthier, editor of La Soleil of Quebec, when the news reached them.

Drug Clerk and Maid Ran Away When Permission to Marry Was Refused by Parents

Newark, N. J., Dec. 5.—Lorraine Tallman, seventeen years old, and Beatrice Sanders of the same age, were married here last week. For six weeks they lived in a cave in the Owlkill Mountains having left home because their parents would not consent to their marriage.

The young lady is a member of a well-to-do Newark family. Her husband is a drug clerk. They fell in love last summer, and when their plea for permission to marry failed, they fled on Sept. 18, taking with them a small trunk containing what little money they had, and went to the cave, which they furnished with cheap rugs and rustic furniture. Tallman shot rabbit and caught fish. The girl cooked flap-jacks on a griddle, which they found.

Cold weather drove them from their mountain retreat, and they went to Tonawanda, N. Y. The young man took a driver, but lost his place because he did not know the streets. Then their money gave out. They were in the railway station, trying to keep warm when they were arrested on a charge of vagrancy.

The girls' parents withdrew further opposition to the marriage when the girl was located and the pair came here to-night and the knot was tied.

A SALE OF VALUABLE MANUSCRIPTS IN LONDON

London, Dec. 5.—Yesterday's last week sold a remarkable series of autograph manuscripts of the late George Meredith. They represented every book published by Meredith between 1850 and the time of his death in 1909.

The collection realized £1,246. "The Tragic Comedians" brought £225; "One of Our Conquerors," £205; a portion of manuscript of "Diana of the Crossways," £108; and "The Tale of Chloë," £171.

The Sothebys also sold a rare quartet of "Hamlet" for £115, and a second folio of the same for £70. The quarto of "The Anatomy of Melancholy," £24. A Geneva Bible, presented by Isaac Walton to Charles Cotton, brought £46. Byron's "Ode to Napoleon" fetched £22.

Must Use Wireless

Vienna, Dec. 4.—Austria is the first European nation to make compulsory use of wireless telegraphy on passenger ships. The government has ordered that all steamers voyaging beyond Gibraltar or Aden must be equipped with wireless apparatus.

Penny Postage Bill

Melbourne, Dec. 4.—The bill providing for penny postage throughout the Commonwealth has passed a second reading in the House of Representatives by thirty-one votes to four.

WEATHER Maritime—Fresh northwest winds, with light to moderate easterly breeze, Tuesday, decided colder.

Montreal, Dec. 5.—Lower St. Lawrence and Gulf. Northwesterly gale, with rain and decided cold; Tuesday—snow.

CONGRESS OPENS; SESSIONS WILL BE OF INTEREST

Three Months, Then Democrats Take Charge—Delivery of Taft's Message Off Till Tomorrow

Washington, Dec. 5.—Congress reassembled at noon today in a session of more than usual interest and importance because in three months it will expire by constitutional limitation and control of the house of representatives will be surrendered to the democratic party.

An impelling curiosity to see how men long in the public eye as statesmen of commanding influence would bear up under the crumbling of their political fortunes, drew to the Capitol at an early hour a crowd of unusual proportions.

Early work on appropriation bills has opened the way for prompt consideration of those measures on the floor of the two houses. The bills appropriating many millions of dollars for the Indian service, for the judiciary, executive and judicial departments of the government generally and for the District of Columbia, have been introduced jointly by the federal and municipal governments, are well advanced and one or more of them may be reported to the house this week.

The avowed intention is to hurry those bills along to avoid any hitch in providing for the expenditure of the government and strenuous efforts have been made by President Taft and other administration leaders to keep the budget down to the lowest point possible.

It was understood early today that today's session of both the senate and house would be brief. All that was expected was that the two houses would be called to order, invocations delivered by the chaplains, resolutions adopted by each house notifying the other of its convening, appointing the joint committee to report on the budget, and then adjournment.

This very grave ecclesiastical move, no doubt will be contested by the proprietors of the four newspapers named as this is the first time that a Canadian prelate has ever made such a sweeping recommendation.

A gentleman in Winnipeg said it would be very interesting to watch the course of such good churches as Hon. T. Bevington of La Presse, Hon. P. LeBeau, president of Le Canada, Messrs. Turle of La Patrie and Stanislas Gauthier, editor of La Soleil of Quebec, when the news reached them.

HON. JOHN BURNS WELL PLEASED WITH FIRST SKIRMISH OF BALLOTS

Uncontested Seats Today Give Unionists Seven Over All

BIGGER VOTE OUT

Interest Keen Because of Saturday's Close Results—A Item is Congratulated—Floods Interfered With the Campaign in Some Places and Meetings are Abandoned

London, Dec. 5.—Hon. John Burns, of Battersea, last night, said: "What about London, which was going to be swept by the Unionists? London is solid, Ireland has to come yet, and Scotland has to put in an appearance." Scotland had an overwhelming majority in favor of the government. They hoped to make Wales practically solid for the government. For the first round the results have been favorable to the government.

The following are the uncontested seats: Tamworth, Newquay (U.); Medway, Warrington (U.); Antrim East, McLaughlin (U.); Harrow, Callaghan (U.); Sandys, (U.); Sudbury, Quiller (U.); North Shields, Illingworth (Lab.); FAMOUS GEMS OF PROSE
WELCOME TO KOSSUTH
By Charles Sumner

From a speech delivered at a reception to Louis Kossuth, the Hungarian patriot, in the U. S. senate, Dec. 19, 1851.
BUT I would join in this welcome, not only because it is essential to complete and crown the work of the last congress, but because our guest deserves it at our hands.

FOUR SEATS NET GAIN OF UNIONISTS

The Result of Saturday's Polling in the British Elections
HOW PARTIES STAND
Government, Nationalists and a Labor Total, 63, Unionists 62—Max Aitken and Sir Gilbert Parker Elected; Bonar Law is Beaten

London, Dec. 3.—Including those unopposed, 125 members had been elected to the new parliament at the close of today's pollings. The standing of the parties is as follows: Government coalition: Liberals 51, Labor 7, Irish Nationalists 3, total 61. Opposition Unionists, 62. The Unionists gained six seats, five from the Liberals (South), Ash-ton-Under-Lyne, Warrington, Darlington, Kings Lynn and Grimsby, and one from the Laborites, Wigan. The Liberals won four seats from the Unionists—Manchester (North), Manchester (East), and the Peckham division of Camberwell. So the net gain of the Unionists is three seats.

THE RESULTS: Bury (Lancashire)—George Tomlin (Lib.), 4,909; E. L. Hartley (Unionist), 4,234. Liberal majority 665. No change. Capt. Baring (U.), 1,719; G. W. Rickett (Lib.), 1,121. Unionist majority in last election 28. Both Sides Disappointed

London, Dec. 4.—If the Liberals are disappointed the Conservatives are not altogether satisfied with yesterday's pollings. The latter did not expect to lose the cathedral cities of Exeter and Rochester, and they narrowly missed losing Gloucester, while the government's losses in Lancashire were not fully compensated for by the defeat of Bonar Law and winning of the west of Manchester. Still the opposition has the satisfaction of showing that proportionate gains daily throughout the election will put them well above the level on the ground that good papers were discarded as spoiled. The loss of Grimsby rankles in the ministerial breasts but their successes in Lancashire and two males. Asked as to the cost of keeping them, he said that it is only nominal, as neighbors take this means of getting clear their rates. W. A. Allen is rushing the repairs on the Green block, so badly damaged by the Oct. 1. It is understood several people are after the building which is one of the best business stands in the town. Haazen & Green have completed their contract for the new sewer, this completes the whole system, except the Highlands. Their club in Charlotte street. Those taking the South Albion street, is among the many improvements the town has made this season. The total vote "against the press" is 548,740, and "for the press" 306,489. The Liberal press attribute the defeat in Lancashire to the announcement that tariff reform would be referendized. The results in the cathedral cities are inducing hopes that the counties will do better, while the fact that Scottish victories are coming in the counties is also inducing hopes in the counties. In London the Tory vote decreased. The total vote "against the press" is 548,740, and "for the press" 306,489. MORNING LOCALS
Mrs. Gray, wife of Dr. Gray, of Fairville, and president of the Provincial W. C. T. U. was the speaker at the temperance meeting in the West End last evening. E. S. Hemmings was in the chair and the attendance was large. The temperance meeting at the St. Martin's Institute Saturday evening was addressed by Rev. A. A. Graham, of St. David's Presbyterian church, and the ladies of the W. C. T. U. provided a musical programme and light refreshments. The usual Sunday evening service was held at the Baptist church, St. Andrew's, St. John's, and St. Peter's. My Yoke is Easy and My Burden is Light, being simply but effectively handled. A solo by J. N. Rogers and hymns made the service bright.

NEWCASTLE FRIENDS SEND CONGRATULATIONS TO W. MAX AITKEN
Rev. W. M. Aitken of Newcastle received a cablegram on Sunday from his son, W. Max Aitken, announcing his victory in the English elections. His friends in Newcastle have sent him a cable conveying congratulations. Rev. Mr. Aitken will spend the winter in Charlotte street. Those taking part in a very enjoyable programme were: Captain Smith, Captain Mackenzie, Mr. C. McNeill, H. Stambury, T. H. Bird, Robert Speely and W. A. Barton of Newcastle. Speeches were made by several of the officers. A pleasant evening was spent by the officers of the 62nd regiment and their guests on Saturday night at a smoker in the hall at Newcastle, about 31 years ago. Mr. Aitken is a New Brunswick boy, who has been in the army for 31 years. He is the son of Rev. William Aitken (retired) becoming somewhat restive under the discipline of the army, he was discharged and made his fortune as he best could, independent of his parents. He died of pneumonia, but he had been able to finance his lines and was especially successful in the insurance business. He was a large man, and for several years he resided in Pictou county and followed the insurance business at New Glasgow. He was noted at this time for his financial acumen in securing some of the toughest insurance propositions in the county. Mr. Aitken soon got tired of the insurance business in Pictou county and proceeded to Halifax, where he entered the employ of the late J. F. Stairs, one of the best known firms in Nova Scotia. It was here that Mr. Aitken laid the foundation of his financial knowledge. Finding the provincial affairs too small for him, he was remarkably successful, bringing some of the most important financial deals of recent years. The last big transaction in which Mr. Aitken was interested was the cement merger in which he was the prime mover. The man who was elected to the imperial crown when the late Lord Curzon was lionaire of himself when not much over 30 years of age. Mr. Aitken some years ago married the daughter of General Drury, of Halifax (N. S.).

TO OPEN NEW SERVICE
The C. P. R. steamer Kumara, Capt. Morton, reached port yesterday on her maiden trip to St. John. This is the first steamer of the Australian-St. John service. Captain A. Morton has for his officers: Chief officer, A. C. Reid; second officer, K. Manners; third officer, J. Palmer; fourth officer, H. S. Nicholas; chief engineer, S. K. Brewer; second engineer, Mr. Norris; chief engineer, Mr. Hunter. The steamer will be here for about a week and will sail for Montreal, taking general cargo. She will be followed by the Wakatane. The Kumara left Cardiff on Nov. 23 and had a good run across. FURNERAL POSTPONED
The funeral of Mrs. Agnes Pinney, which was to have taken place this morning, has been postponed till Tuesday afternoon. One of her sons, Thomas Pinney, is now on his way from Des Moines (Ia.). A sister is also coming from Philadelphia to attend the funeral.

NOVA SCOTIA MAKES MONEY BY RAISING FUR BEARING ANIMALS
Gets \$1,500 for Pair of Silver Foxes and \$700 for a Single One—News of Amherst
Amherst, Dec. 4.—Raising of fur-bearing animals has proved a paying investment to Fred Burke, of Minville. He started the industry some years ago, and has made some sales that rather put in the shade the prices realized for the celebrated best cattle of Cumberland. He recently sold a pair of the year old silver foxes for \$1,500, and some time ago sold a single one for \$700. Nova Scotia now has five foxes, three males and two females. Asked as to the cost of keeping them, he said that it is only nominal, as neighbors take this means of getting clear their rates. W. A. Allen is rushing the repairs on the Green block, so badly damaged by the Oct. 1. It is understood several people are after the building which is one of the best business stands in the town. CHINA TO INCREASE ARMY AND NAVY
Pekin, Dec. 4.—An important step has just been taken by China with the object of expanding and increasing the efficacy of her army and navy. The throne today issued edicts creating a navy department, which up to the present has been merely a tentative board for the conducting of naval affairs. Prince Tsai Sun, uncle of the emperor, who recently paid an extensive visit to the United States, has been appointed president of the new department, and his full recommendation for the reorganization of the navy have been approved. Frederick H. Costello of Bangor has a talking crow. The bird can say "Papa, Mama, 'What' and a number of other words. It barks in imitation of a dog and imitates the children calling out to their mother. Mr. Costello has had the crow since it was a fledgling and it has learned to talk without being taught.

DYSPEPSIA Can Be Cured.
This disease is the all prevailing malady of civilized life, and one of the most difficult to cure. It gives rise to a great variety of distressing symptoms, such as indigestion, flatulence, rising and soaring of food, wind in the stomach, heartburn, etc. Nearly everything that enters a weak dyspeptic stomach acts as an irritant; hence the great difficulty of effecting a cure. The most distressing symptoms, which render life a burden to the victim of dyspepsia, may be promptly cured by the use of Burdock Blood Bitters. B.B.B. stimulates the stomach, liver and bowels, stimulates secretion of the salivary glands, assists in the digestion, purifies the blood, and tones up the nervous system. Mrs. Herman Dickens, Benton, N.B., writes: "I have used Burdock Blood Bitters and find that few medicines can give such relief in dyspepsia and stomach troubles. I was troubled for a number of years with dyspepsia, and could get no relief until I tried Burdock Blood Bitters. I took three bottles and became cured, and I can now eat anything without it hurting me. I will highly recommend it to all who are troubled with stomach troubles." Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

RADWAY'S READY RELIEF CURES ASTHMA
The specific for this disease is the Ready Relief, which is a combination of Radway's Pills, the Bile Beans, rubbed on the chest and throat with a burning sensation in produced, and the Pills must be taken frequently, to keep the bowels thoroughly open. The patient must be given at short intervals, and in small doses, and a teaspoonful of the Resolvent whenever a paroxysm occurs. Extraordinary cures of Asthma have been accomplished by these means. MARINE NEWS.
The Atlas line announces that they have renounced the purchase of the Hella, a new liner, and will support the Montreal-Lagos service. The dimensions of the steamer are: Length, 316 ft.; over all breadth, 69 ft.; depth, 24 ft.; tonnage, 10,490 gross; nominal H. P., 1,120; accommodation, 90 first cabin and 300 second cabin passengers. The steamer was built by Harland & Wolff in Belfast, is expected to be considerably faster than the Hesperian, for while 30 ft. longer, she is neither so deep nor so broad, but has 320 H. P. more than the latter vessel. The Pretorian will take the place of the Pomeranian on the London and Havre service, for all the sailings which have been advertised for the summer season of 1911.

STATUS AND UTILITY (Ottawa Free Press)
Down in Hamilton there is in progress a controversy between the mayor and a warfarer evangelist over a statement of the latter to the effect that Hamilton was a drunken city. In the course of the quarrel, Hamilton's chief magistrate called the evangelist "an itinerant peddler of lies." Nothing is to be gained by a discussion of the merits and demerits of this particular case, but it is interesting to bring up the question of the status and practical utility of the evangelist. It would be idle to deny that infinite good has been accomplished by the refined evangelist, than whom no minister of the Christian church is doing a grander work. The old-time revivalist, with his thunder and his music of uncouth jingles, and empty, emotional appeals and dire threats of brimstone. What of him? He has pretty well disappeared and it is well. His emotional interpretation of Christianity was a menace to the well-being of the Christian church. He failed to see that religion devoid of everything but emotionalism was as a sounding brass and a tinkling cymbal. He failed to see that this emotionalism obscured true Christian ideals. He failed to see that the consciousness of the existence of a Supreme Being and the moral sense, were innate in every human being, and therefore did not require to be driven in with a pole-driver. And so he went about "converting" people and giving everybody a wrong conception of Christianity, and frightening them out of their wits. After his departure the poor huddle of sentimentalists would come into contact with the hard, practical, everyday problems which it was not constructed to cope with, and in a moment it was gone forever. Then the "converted" drunkard would go again on a tremendous debauch, and all the other "converted" vile sinners would return to their vile sins. A month after the evangelist had departed it all remained as it was before. He was a false impression, among the short-lived "converts" of Christian teachings and the Christian life. Yes, it is a good thing that the old-time evangelist is no more. Just a tinge of him is yet to be found here and there, but this tinge is growing smaller and smaller and most ultimately disappear altogether.

Could Not Rest at Night. Back Was So Weak.
Weak, lame and aching backs are the primary cause of kidney trouble. When the back begins to become weak it is a warning from the kidneys that everything is not right with them. Head aches, dizziness, the weak, lame, aching and aching of the back, are the warning signs of kidney disease. If you don't get a serious complication, these are very early signs, and the first thing you know you are troubled with Dropsy, Rheumatism, Gravel, Gout, and the three most deadly forms of Kidney Trouble. On the first sign of anything wrong, Doan's Kidney Pills should be taken. They go to the source of the trouble and strengthen the kidneys, thereby strengthening the back. Mrs. John Pugh, of Redale, Man., writes:—"I have used Doan's Kidney Pills and find nothing to beat them. I could not rest at night, my back was so weak. I tried everything but could not get anything to do me any good until I was told by a friend to use Doan's Kidney Pills. I tried them and I am not the same weak man I was before. I am very thankful to have found so speedy a cure." Doan's Kidney Pills are 50 cents per box or 3 for \$1.25, at all dealers or mailed free on receipt of price by The T. Milburn Co., Limited, Toronto, Ont. If ordering direct specify "Doan's."

SHE WAS SURPRISED
When Dr. Morse's Indian Root Pills Cured her Chronic Liver Complaint
Mrs. R. Smith, of Winnipeg, Man., tells an interesting story of relief from almost intolerable sufferings: "I can hardly tell you how great my sufferings have been. Chronic liver complaint accompanied by biliousness was a daily source of trouble to me. Every day I experienced the most distressing effects of these ailments. I tried many of those medicines that should never be taken, and drive them away. Hearing of Dr. Morse's Indian Root Pills, I bought a box and tried them. From the very first I experienced relief. Continuing with them, my sufferings were slowly but surely leaving me, and before long I once more knew what it was to be free from harassing effects of the ailments that had long sickened me. So great is my faith in Dr. Morse's Indian Root Pills that I shall never on any account be without them." Dr. Morse's Indian Root Pills cure Biliousness and Kidney as well as Liver troubles, and keep you healthy. 25c a box at your dealer's.

CONCERNING RELIGION

This city has had one month of evangelistic meetings, supported heartily by many ministers and church leaders, with the special attraction of good music, and the presentation of the case for dogmatic religion by trained specialists whose services command high salaries.

MRS. MARY BAKER EDDY The death of the founder of Christian Science is an event of universal interest.

NO NEED OF GROG The Emperor of Germany has provoked much comment by the attitude he has taken on the question of total abstinence from the use of liquor.

THEY COUNT That there is some slightly antipathetic feeling between Irish and French residents in Montreal is well known, but it is seldom that it takes such an acute form as was evidenced by the remark of an Irish laborer who was at work on a building in that city.

MULCAHY'S PRIDE Mulcahy used to be a man of mild and modest ways; the talk of him 'most always ran to kindness or to praise.

THE TRUTH IS THAT dogmatic religion has less hold upon the world today than at any former period in the Christian era.

NARROW GOWNS ARE ACCOMPANIED BY MAMMOTH FURS

Wraps and coats are built wide across the shoulders and huge fur collars accentuate this width, which contrasts queerly with the extremely narrow skirts of the moment. This fur set of black fox is most luxurious in size, the collar falling below the shoulders at the back and reaching almost to the knees in front.

While the muff is made of an entire animal skin, with head, paws and brushes intact. In contrast to the big furs the furry little turban seems smaller than it really is. These close-fitting turbans, coming far down over the hair, are ideal for breezy, blustery winter days and below the shoulders at the back and make a very appropriate combination with the wintry furs.

The Evening Chit-Chat

By RUTH CAMERON

An interesting, and I think fairly novel method of collecting money for any charity, came to my attention the other day.

Let me tell you about it, in case you are interested in any charitable enterprise and are weary of the stale old methods of reaching people's pockets.

A committee of the people most vitally interested in chosen. These people are named "years." These "years" must each give one dollar each and find twelve people to act as "months."

The "months" must each give fifty cents and find four people to act as "weeks."

The "weeks" must each give twenty-five cents and must each give ten cents and find twenty-four people to act as "days." The hours are lucky. All they have to do is give five cents.

At this rate, if each fulfills his part, the sum collected from the activities which are started by a single year will be something like four hundred dollars. If you wish to know more exactly than that you will doubtless find it an interesting sum in arithmetic. Myself, I must confess that arithmetic is not my strong point and I only got as far as the weeks.

In the case of which I heard, there were twelve years, which made the sum total almost five thousand, but this was in a large city and for a charity which had a very wide appeal.

If the scheme were tried in a smaller community I should think one year would be quite sufficient, as when that year has found its months, the months their weeks, the weeks their days, and the days their hours, the sum total of people reached will be over seven thousand.

Of course no sectarian or sectarian charity would be apt to be successful in such a scheme, as it reaches so very many people that it must be something of wide appeal.

I know of a church which tried it and failed, and I don't wonder.

The advantage of the scheme is, of course, in the large number of people enlisted in the work; in the fact that many people who, if asked to give an indefinite sum, might refuse for fear they could not give a large enough one, would be perfectly willing to contribute if asked for some small definite sum like five ten, twenty-five cents, and in the fact that the work of collecting the money is so beautifully systematized—each day reporting to its week, each week to its month, each month to its year.

Success to you if you try this scheme.

Daily Hints for the Cook

RHUBARB CURSTARD PIE.
Two eggs well beaten, one cupful of sugar, one and one half cupfuls of sweet milk, one cupful of rhubarb cut rather fine, and a pinch of salt. Stir well together, pour into a deep pie plate lined with rich pastry and bake slowly until the rhubarb is tender. Strips of pie-crust may be placed over the top of the pie if desired, or it can be topped with a meringue.

DATE DELIGHT.
Two cupfuls of light brown sugar, one cupful of granulated sugar, one cupful of milk, one cupful of chopped dates, one tablespoon of butter, vanilla; mix the sugar and the milk together; put on to boil, and as it comes to boiling point add butter. Let this boil until, when tried in cold water, it will form a soft ball. Take from the fire, add the vanilla and beat until creamy. Stir in the chopped dates and pour quickly into a buttered pan. Cut into squares when cold.

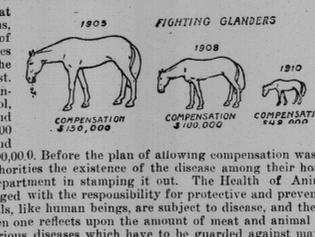

LIGHT FRUIT CAKE.
One-half cup butter, one cup sugar, two eggs, half cup milk, one cup raisins, one cup currants, quarter pound citron, or lemon peel cut fine, half teaspoon soda, one teaspoon cream of tartar, one teaspoon vanilla, half teaspoon salt; flour enough to make a medium stiff batter. Bake in a slow oven.

BAKED APPLES.
Put one cup of granulated sugar in pudding dish, two cupfuls of cream, and half of clove stirred in sugar, one cup of cold milk. Put whole apples in, cover and bake slowly.

FIGURES THAT TELL STORIES

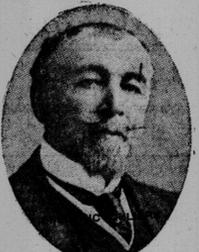

STAMPING OUT GLANDERS.

SOME idea of what it costs Canada to combat glanders is gained from the illustrations, which also show the decrease in payments of compensation to owners of glandered horses which had to be slaughtered. The ravages of the disease have been practically confined to the West. At one time it threatened to become very extensive, but it is now being brought under control, and will shortly be eradicated. It is a fatal and most infectious disease. Altogether over 8,000 horses have been killed in the past six years, and the compensation paid has amounted to over \$200,000. Before the plan of allowing compensation was adopted, many settlers did not report to the authorities the existence of the disease among their horses, but now the settlers are co-operating with the Department in stamping it out. The Health of Animals branch of the Department of Agriculture is charged with the responsibility for protective and preventive measures concerning health of animals. Animals, like human beings, are subject to disease, and the importance of raising healthy cattle is obvious when one reflects upon the amount of meat and animal products consumed in Canada. Among the most serious diseases which have to be guarded against may be mentioned bovine tuberculosis, which is prevalent among both cattle and swine, glanders and mange among horses, sheep, scab, hog cholera, and rabies. A quarter of a million dollars was voted at the last session of Parliament for the purposes of this branch of the Government service.

Year	Compensation
1905	\$150,000
1906	\$100,000
1907	\$75,000
1908	\$50,000
1909	\$25,000
1910	\$10,000

A STARTLING STATEMENT

Case Which Strikingly Illustrates Need of Government Annuities System

It has been said by those who have investigated the matter carefully that, although at the age of 45 fully 80 per cent of men are established in whatever pursuit they follow and are in receipt of incomes in excess of their expenditure, at the age of 60 it has been found that 95 per cent are dependent upon their daily earnings, or upon their children for support.

Many, no doubt, read a despatch from Detroit which recently appeared in the Canadian papers, and which described the condition of a man who but a little more than forty years ago was a "financial power" in that city, who had a "palatial home" on one of the fashionable thoroughfares, entertained lavishly, and to whom every person, high and low, was prepared to pay homage.

But the fates were against him. He suffered serious financial losses, and when he began to go down hill he found it was properly grieved for the occasion. His friends deserted him like rats from a sinking ship, and now at eighty years of age, after his day's labor, he wends his way to the city with the bent, broken down old man who have no income enough to have their names on the city's pay roll.

The moral is that out of your abundance something should be laid aside for declining years, and invested where thieves cannot reach it, and where one cannot be deprived of it in any possible way. This money is afforded you under the Canadian Government Annuities Act which the parliament of Canada passed in the session of 1908, and which received the unanimous support of both sides of that house. You may get all information by applying at the post office, or by addressing the superintendent of annuities, Ottawa.

COOKING OF THE LONG AGO

Many questions have been asked as to what the American people ate in the past and what kind of food was cooked in the big open fireplaces of our forefathers. It has been claimed that the housewives of the early days of the last century for the most part were culinary experts of the present day, and recipes from that period show that the housewives certainly were adept in the preparing of a good meal. It is quite reasonable to believe that the food-stuffs of those days were pure and we know that many kinds of food in those days were very cheap when compared to the prices of today. If materials were both cheap and good one need not be surprised that the cookery was prepared in such large quantities; or that a bag of flour that would last the average family a week in this age was used up in one baking in those days, and all the other ingredients in proportion.

Many of the old-time recipes do not differ greatly from those in use today, though it is interesting to note that some materials considered indispensable in modern cookery are conspicuous by their absence in the old recipe. Flavoring extracts were not used in the old times, and neither were soda, cream of tartar nor baking powders. The housewives of 1810 were able to do without the thousand-and-one already-prepared substances and food ingredients obtainable from any grocery today.

Some of the old-time recipes were rich, too, and they were highly seasoned, but the fat and fancy dishes did not appear. In the old days everything was of a substantial order, as the cooking school was a thing of the future and the French chefs had not yet arrived in this country.

Our forefathers, or to be more correct, our foremothers, used quantities of rose-water, orange-flower water, almonds, coriander, nutmeg and the juice and rind of fresh oranges and lemons in lieu of flavoring extracts. They introduced brandies, wines into all forms of cookery with-out stint, and constant use was made of the kitchen garden herbs. Then there were the pills and fancy dishes usually pure as the housewife usually employed in whipped cream. The recipe for "Whip cream" is as follows: "Take a quart of cream and the whites of eight eggs, beaten with half a pint of wine. Mix it together and sweeten it to the taste with double-refined sugar. Put it with milk on a steam-bath in a rag and steep for a short time in the cream. Whip with a whisk and a bit of lemon peel tied in the middle of the whisk. Take off the froth with a spoon and place in glasses."

OBITUARY

Arthur Patterson
Mrs. Chas. W. Jones, of Moncton, has received word of the death of her brother, Arthur Patterson, who died a few days ago at Gaspé as the result of injuries received some time ago while working on a railway bridge at Gaspé. Another sister, Mrs. J. W. McDonald, lives here. Deceased was 28 years of age.

Mrs. Samuel Ross
Mrs. Samuel Ross died yesterday morning in the General Public Hospital from the result of an operation which she had undergone last Thursday for the removal of a tumor. She had been ill for some time and it was felt that the operation was the only means possible to save her life. She rallied well after it and hopes were entertained for her complete recovery. On Saturday night, however, she began to sink and she died at an early hour yesterday morning. She was the second wife of Mr. Ross, and a daughter of Jeremiah Thompson. Besides her husband five step-daughters survive. Their names are Vera, Ella, Muriel, Gladys and Daphne, all at home. Mrs. Ross also leaves two sisters and one brother—Mrs. W. W. Pitt, of this city; Mrs. George Tracey, of Handford Brook; and Mrs. Thompson, of Providence (R. I.). The funeral will take place tomorrow afternoon at 2:30.

Mrs. Allan Estabrooks
Mrs. Allan Estabrooks, an aged resident of Coakville, near Sackville, was found dead in bed yesterday. She had lived with her son Millidge for a number of years. Mrs. Estabrooks was a daughter of the late Caleb Batecock, of Upper Sackville. Surviving are two sons, Millidge and Harvey, and three daughters, Mrs. C. Fred Cook, Mrs. Dwyer, and Mrs. Eaton, of Boston.

Mrs. Harry Cougle
Mrs. Harry Cougle died at her home in West Sackville on Friday, of tuberculosis. She was a daughter of James A. Hicks, of Sackville. She leaves her husband and four small boys.

James Murchie
James Murchie, a native of Old Ridge, Charlotte county, died yesterday at Grand Rapids, Minn. He was sixty-five years of age, and leaves his mother, one brother and two sisters.

THE PATIENT BRAIN

A Tireless Worker So Long As Supplied With Rich, Red Blood.

The brain is one of the most patient and industrious organs of the body. It can be induced, by good treatment, to perform prodigies of work.

But it is sensitive and will not brook abuse. It responds to the lash at first, but if the lash is laid on too hard it balks.

The brain insists on having plenty of good, red blood wherewith to renew its waste and from which to manufacture the nerve force supplied to the whole body.

Nervous trouble is generally brain trouble, and no suffering is to be compared to mental suffering, with the accompanying dread, suspicion, and melancholy.

One-fifth of the blood in the human body is consumed by the brain, so make the blood rich by using Dr. Chase's Nerve Food, and you will overcome nervous diseases.

There is no other stimulant arouse false hope. No other medicine soothe the nerves, and temporary relief is followed by a condition which is worse than the first.

Get the blood right and the nervous system will adjust itself. Headaches will disappear, irritability will go, digestion will improve, and weakness and dependency will give place to new hope and courage, new vigor and energy.

Mrs. Geo. Fuller, Lakeland, Man., writes: "Dr. Chase's Nerve Food cured me of nervous headache, from which I was a great sufferer, and I am no longer troubled with twitches of the nerves in the arms and legs."

Dr. A. W. Chase's Nerve Food will enable you to avoid such extreme nervous trouble as prostration and paralysis. 50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmondson, Bates & Co., Toronto.

MRS. EDDY, FOUNDER OF CHRISTIAN SCIENCE, IS DEAD IN NEWTON. Passed Away on Saturday Night in Her Ninetieth Year—The Career of Remarkable Woman. Boston, Dec. 4.—Mrs. Mary Baker Glover Eddy, the discoverer and founder of Christian Science, is dead. Announcement of the passing of the venerable leader, which occurred late last night, at her home at Chestnut Hill, a suburb, was made at the morning service of the Mother church in this city today. According to Mr. Farlow, Mrs. Eddy passed away 10.45 o'clock last night. She had been indisposed for about nine days, but had been up and dressed, and as late as Thursday transacted some business with one of the officials of the Christian Science church. She took her daily afternoon drive until two days before her going. There having been no physician in attendance, Dr. George L. West, of Newton Centre, medical examiner for the district, was called early Sunday morning. Dr. West, after investigation, pronounced death due to "natural causes," and issued the customary certificate, in which he said pneumonia probably was a contributory cause. "A telegram was sent to her son, George W. Glover, of Lead (S. D.), apprising him of his mother's demise, and requested information as to his attendance and that of his family. Mrs. Eddy was born in Bow (N. H.), July 10, 1821, and was therefore in her ninetieth year."

Her Career. Her life was begun among the lower granite foothills of New Hampshire. Her father, Mark Baker, was a respected farmer of Bow and a descendant of revolutionary and colonial heroes, while her mother was of Scotch ancestry. She had three brothers and two sisters, and one of them, Albert, was nominated for congress in her nineteenth year. She was the youngest daughter and of delicate health from her birth. She is said to have perplexed her father with sage sayings and grave doings. Her education in the little schools and later at Pembroke Academy was enhanced by what she gathered from discussion of religious matters at the family fireside, when several well known clergymen of the district were associated with Samuel Baker, the third son, and as a result, Mary Baker and her sisters were married at Chestnut Hill, N. H. The Glovers shortly after their marriage, Mrs. Glover was left a widow. Returning to New Hampshire two months later she gave birth to her son, George Washington Glover, in September. Mary Baker Science spent the next few years with her sister, Abigail, and other relatives in New Hampshire, and began her literary career through several articles on her observations of slavery in the south. She also taught school, which led her to be more or less a student. About 1850 an era of spiritualism swept over New England which drew her attention to some extent. After nine years of widowhood she entered into a second marriage with Dr. Daniel Patterson, a New Hampshire dentist. This marriage, however, was not a happy one, but the relationship was kept up for twenty years, when it was severed by divorce. One of the events of Mrs. Eddy's life was her meeting in 1862 with Phineas Quimby, a mesmeric healer, at the International Hotel, in Portland (Me.) Quimby, who was the son of a poor blacksmith, was described at the time of his meeting with Mrs. Eddy as a shrewd little man, of argumentative disposition and doggedly determined. From him Mrs. Eddy became imbued with metaphysical ideas, and started on a career in that line which made her one of the most famous of the world's mental healers. Mrs. Eddy, who was then Mary Glover Patterson, dwelt long under the influence of Quimby's mesmeric beliefs, and it came to her a great though not supreme, significance in her later teachings. Later Mrs. Eddy denounced Quimby's methods and said: "I discovered the error of blind reading, and that was enough." After spending two years in study at Portland, Mrs. Patterson rejoined her husband in Lynn, where she lived five years on a rapidly increasing number, until it was in that city that she suffered an accident through a fall on the ice which she recovered, as she said in one night. It was this incident that led directly to the promulgation of her discovery of Christian Science, and nine years later the first edition of "Science and Health" was published. Mrs. Patterson and her husband severed their marital relations and four years later she married William Gilbert Eddy. In the meantime she had been admitted into the Congregational denomination and was a member of the church. Mrs. Eddy continued her writings and in 1881 established the Massachusetts Metaphysical College in Boston. Her teachings were taken up and accepted at first by a few followers and as years went on by a rapidly increasing number, until the denomination today extends to many lands and numbers millions of adherents. Mrs. Eddy began preaching in 1878, and organized the First Church of Christ, Scientist, in Boston in 1879. Subsequently a large edifice was erected in this city, of which she was made pastor emerita. Her writings at this time became very voluminous and she contributed largely to the Christian Science Journal, the Boston Herald, and the Boston Herald. Her residence in Concord in 1889 and it was from her home in Pleasant View that she looked down on the great growth of her denomination, and at which she received many enthusiastic followers, until the number became so large that she was forced to ask them to cease their visits. Nevertheless, large delegations continued to go up the Merrimack River, and in June, 1903, 10,000 Christian Scientists visited Concord and heard a few words from the leader.

Valuable Ivory Mines. Valuable ivory mines have been discovered in the Arctic ice in the north of Siberia, but they have been worked only slightly on account of the extreme weather in the locality. It is claimed that the discovery was made toward the end of the eighteenth century by subjects of Russia, and small portions of fossil ivory have been taken from them ever since. The ivory is the remains of prehistoric forests and animals, according to scientists who have made a study of the mines. The valuable find is buried in most instances, deep in the ice, and as a result is very hard to mine. Silk tailor-mades are to be the "thing" for late winter and early spring. Wool embroidery is the latest trimming for afternoon gowns.

REV. DR. RAYMOND IN PRACTICAL ADDRESS AT EVERY DAY CLUB. "Temperance reform is a people's question," said Rev. Dr. Raymond in his Every Day Club last evening, "and it is certain that the reform will not begin until the people are aroused. Dr. Raymond talked very plainly to his hearers concerning the temptation of the saloon, and the danger of the den that exist, and of the need of having something else to attract the attention and enlist the interest of young men, and to be a refuge for older men when they are trying to break the drink habit. 'I wish,' he said, 'that there were many more Every Day Clubs, seeking to help men to be men.' The speaker referred to recent revelations in the courts, and in plain language protested against the temptations put in the way of young men by young women who are apparently known to the police, but are not dealt with by the law. He spoke also of some of his personal experiences with men who were in the grip of the liquor habit, and endorsed a remark made by chairman that there should be an institution where men who have reached a certain stage of inebriety could be sent and kept away from drink, under healthful conditions, for a period of time. Dr. Raymond especially warned young men to beware of the parting of the ways, to choose a sober Christian life, rather than that which leads downward to ruin. He knew personally men of brilliant mind and bright prospects, who became human wrecks through yielding to the temptation of drink and dissipation. In plain and impressive words he contrasted the two courses and the end of each, and counseled his hearers to exert their influence for good upon their fellows.

LOCAL NEWS

HOLY NAME MEETING. At the monthly meeting of the Holy Name Society held last evening, the spiritual advisor, Rev. A. W. Mahan, addressed a very large gathering on Church History, dwelling particularly with the period of Martin Luther and touching on his teachings and those of his followers, and their relations to the Catholic Church.

NAVYMEN RETURN HOME. A squad of English bluejackets sailed on the Empress of Ireland for England on Friday. There were about seventy officers and men in the company and they were from the Esquimaux station at Esquimaux, having been relieved of their duties there by a party which was sent out from England a little more than a month ago.

THIS EVENING'S CONCERT. Among those who will take part in the grand concert and orchestral recital in the Every Day Club hall, Union street, this evening are: G. S. Maves, Jas. Garrett, Pythian Male Quartette, Stephen Mathews, Edwin Bonnell, Matthew Morris, and D. J. Gallagher, solo cornetist of the City Cornet Band. The D. D. Orchestra (fourteen instruments) will play three special concert numbers. Miss Warden will be accompanist, and Prof. W. C. Bowden, conductor.

MARRIED MEN ADMITTED. For the last twelve years the St. Peter's Y. M. C. A. has been conducted for single men only, but the constitution has been altered recently, so that married men will be admitted as associate members. This change has taken place on several occasions, many requests from "old boys" who have joined the Benedict ranks, but who still cherish a hearty interest in the welfare of the Y. M. C. A. and under the new change it is expected that many will return to membership.

F.M.A. DEBATE TONIGHT

In the rooms of the Father Mathew Association this evening the following question will be discussed: "Resolved that the east affords better opportunities for the young man, born and living in the east, than does the west." The affirmative side will be upheld by Alfred Berdley, W. J. P. Gallagher and Jas. B. Dever, while the negative party will be composed of Messrs. Wm. F. Higgins, J. J. Simmonds, and H. McHugh. It is expected that a large number of members will be present.

WHOEVER GAVE HIM THE LIQUOR IS REAL OFFENDER

Case in Police Court Calls for Comment from Judge Ritchie

Three prisoners faced Judge Ritchie this morning in the police court charged with drunkenness, and all of them—Joseph Smith, Ernest Hardy, and Francis Cavanaugh—were remanded. The latter is an eighteen year old boy, who has been before the court on previous occasions on the same charge.

No one should give a young fellow like that liquor, as it can plainly be seen that he is only a minor," said His Honor. "No matter whether he secured the liquor in a barroom or from a friend from a bottle, the offense is committed by the giver, as well as the receiver, and it can be classed as nothing short of shameful and disgraceful."

John O'Brien, charged with stealing a horse and carriage from Samuel Seely, was allowed to go on suspended sentence. E. S. Ritchie appeared for him, and said that there had been no intention of theft, as the young fellow, who was working for Seely, had merely taken the rig from one barn, and after driving it for a couple of hours, had placed it in another owned by his employer.

JACK FROST SEALS RIVER

The St. John Closed and Ice Bridge is Expected to be Fit for Travelling by Tonight

Navigation of the river, which ceased some days ago, has been officially closed Jack Frost having sealed up the big stream with a thickness of ice which is expected to permit of travelling on the glassy surface by tonight.

In the vicinity of Gagetown the ice is already quite solid and is even firm down to Oak Point. At the head of the Reach it was believed the ice was from half an inch to an inch thick and it was anticipated that there would be crossing at Wickham and Hamptons by tomorrow. The closing is some days in advance of last year. On December 9 last year the tug Maggie M. went up to Public Landing returning that evening with an excursion party. On the same date the tug Joseph came down from Fredericton. It became colder on the following day and ice commenced to make at Fredericton. On the 11th the ferry steamer Maggie Miller came in from her route on the Kennebecasis.

STANDARD CAUGHT AGAIN

A few days ago the Standard published a paragraph, the object of which was apparent, stating that a portrait of Sir Wilfrid Laurier had been exposed for sale in a King street window for some time and finally, no one wanting it, had been relegated to the back shelf. The fact is, as might easily have been learned, that the portrait was purchased by a member of the Liberal party and has a permanent place in his home.

SUDDEN DEATH OF THOS. HOBEN IN CHICAGO SUNDAY

Former Superintendent of Canada Eastern Railway—Mrs. H. M. Hopper of St. John a Daughter

A telegram was received last night announcing the sudden death, in Chicago, of Thomas A. Hoben, of Gibson, York county, late assistant superintendent of the Canada Eastern branch of the I. C. R. The message came to his daughter, Mrs. H. M. Hopper, King street east, and was a great shock, as Mr. Hoben had apparently been in good health. Heart trouble is given as the cause.

Mr. Hoben was superannuated by the government road only a few weeks ago and left with his wife to spend the winter in Chicago with his son, Rev. Allan Hoben of the faculty of the University of Chicago. They were accompanied by their daughter, Mrs. W. R. Robinson, of West St. John and her son, Thomas, Mrs. Robinson is now in St. Luke's hospital, Chicago, where she recently underwent a successful operation, but she will not be discharged from the hospital for several weeks.

Mr. Hoben leaves, besides his wife, who has been an invalid for several years, one son, Dr. Allan Hoben, and three daughters, Mrs. G. H. Coburn, of Chicago, Mrs. Robinson and Mrs. Hopper. Mrs. James Curry, of Gagetown, is a sister. Previous to the taking over of the Canadian Eastern road by the I. C. R. Mr. Hoben was superintendent for a long period, and continued to hold office under the government as assistant until he was superannuated. On the occasion of his retirement, he was made the recipient of a purse of gold and an address by the employees, with whom he was very popular.

The body will be brought here on Thursday, accompanied by his son, and will be taken to Gagetown for interment.

MONEY STOLEN AND RETURNED

Theft in Brussels Street Store is Followed by Restitution

On Saturday afternoon, about 4.30 o'clock, a colored man entered the grocery store here by Miss Jessie McLean, at 28 Brussels street, and while she was in the rear of the store, helped himself to the contents of the glass bowl, which was used for a cash receptacle. There was not a very large amount of money in it, mostly silver coins in smaller denominations, but it was all taken by the negro, who immediately departed.

His conscience evidently smote him later in the evening for it was not long before he returned the money. The matter had, however, been reported to the police, and it is possible that an arrest may be made.

THOUGHT THAT HE WAS BEING OVER CHARGED

He Wanted Blue Stamp to "Send Letter on Chatham"

The following little incident happened on Sunday afternoon in a store where postage stamps are sold. In the store, a man who wanted stamps. One of them asked for a blue stamp, and placed on the counter a cent. Having advised the stamp to his letter, he walked to the door and placed it in the letter box. The other man, a Frenchman, asked for a "stamp," and as he did not name the price, or color, the vendor asked him where he wanted to send his letter to. The answer he got to his inquiry was: "I want to send letter on Chatham."

"You want a two cent stamp," said the clerk, and, as he spoke, he handed the purchaser one and again said, "this is two cents." Evidently the Frenchman was mixed. He said to the clerk: "What for you ax me two cents for that, I want 'bis stamp. You think be goah I got some munny, eh, and pay you two cents for dat thing?" He stepped back from the counter, and walked to the door. Just at this part of the play a gentleman in the store, who had been amused by the transaction, told the Frenchman that the kind of "bis" stamps he was after could be had at the corner store. The Frenchman turned round to him and said, "I want the stamp for letter on Chatham. I know what I want, dis fellow won't give me the blu stamp. I ax him for and plenty more store sell them too," and he took his departure to purchase a blue stamp to carry his letter to Chatham.

WILL OF SERGT. ROSS

This and Two Other Matters Before The Probate Court Today

In the probate court today the will of Police Sergeant Jacob Ross was proved. He gives all his estate to his wife, Emma, and nominates her as executrix. She was accordingly sworn in as such. There is no real estate; personally, \$2,000 and \$1,000 life insurance. J. B. M. Baxter, K. C. is proctor.

In the matter of the estate of Mary Shea, spinster, there was a return of a decision to pass the accounts of Charles D. Treeman, the administrator. The accounts were passed as presented, but there being a claim of Julia Lane which is in part disputed and which is now before the supreme court, the matter was adjourned until Monday next pending an agreement which may be arrived at, no decree being in the meantime made. E. T. C. Knowles is proctor for the administration. John A. Barry, proctor for the creditor.

The will of Julia Elvira Spiller, spinster, was proved. She gives her real estate, subject to a mortgage held by her brother, Frederick M. Spiller for \$1,000 to her brothers Samuel, Charles, Sanford Broad and Frederick M. Spiller, also in like manner her household goods and effects, and she appoints her brother Frederick M. Spiller to be executor. He and Samuel Charles having predeceased her, the next of kin petitioned in favor of the appointment of G. Earle Logan as administrator with the will annexed. He was duly sworn in. Real estate is \$2,000 subject to such mortgage; personal estate, \$200. J. B. M. Baxter, K. C. is proctor.

Hon. W. W. Vivian, and his sister, Hon. Violet Vivian, were passengers on the Empress of Ireland, sailing Friday from this port.

You Will Now Be Able To Know Whether Your House or Store Will Be Warm Enough This Winter

Now that the cold weather has arrived you know if you will have enough heat this winter or not. If your house is cold you can make it warm by putting a GLENWOOD OAK HEATER in it. It will send the heat to the floor and you can burn coal or wood, they will keep in all night and when you want them to give a quick heat you can throw a few sticks of wood on the coal which you can't do with a silver moon. Glenwood Oaks are made in two sizes 14 and 16 and sell at \$13.00 and \$15.00 cash. All made in St. John by

THE CHRISTMAS MONTH IS HERE The Oak Hall Christmas Store IS FULL and OVERFLOWING

The best buying time is today. Procrastination only means letting the choicest things go to others more prompt. It means crowding everything into the hurry days, when everybody is flurried and nervous—when you must buy in a rush, and we must serve you too hastily for our liking or yours. We'll both be the better for before handing buying. SO LET IT BEGIN.
