CALIFORNIA IS AROUSED OVER EASTERN OPPOSITION

Federal Campaign Against Anti-Japanese Legislation Denounced as Selfish—Bills Now Proposed are Necessary for Protection of the Whites on the Coast

SAN FRANCISCO, Feb. 2.—With two nations stirred to a fever pitch over the anti-Japanese measures of two states, the people of California are beginning to wake up and ask what it is all about. The outbreak of the Nevada legislature was unexpected, but it has not caused a great deal of comment in this state and with the exception of the Asiatic exclusion league, no one is engaging in the fight. But these facts are not generally accepted as an indication that the people of the state are not generally interested in the Oriental race problem.

The criticism of the eastern press on the anti-Japanese feeling in this state has aroused a storm of protest from the papers of California. The California papers generally complain that the real attitude of the people of this state is not understood east. Most of these papers regard the exclusion of the Japanese to be both necessary and inevitable, they express the fear that the anti-Japanese feeling will retard rather than advance the solution of the problem.

The San Francisco Chronicle today contains the following editorial against California in the east is entirely based on "Two main motives, both selfish—one is to keep solid with Japan and thereby promote the sale of cotton goods and kerosene, no matter at what cost to the unfortunate people of the Pacific coast, and the other is to force on congress heavier appropriations for the army and navy." The paper predicts the exclusion of the Japanese by domestic law as the only logical solution of the problem, and it maintains that in this desire to keep the Pacific coast "a white man's country" two-thirds of the people of the country are with California. In the meantime Governor Gillett and Speaker Walter Stanton of the Assembly, are sitting on the job, which is expected to be lifted at Sacramento today. Both of these officials says there will be no anti-Japanese measures passed, but the friends of the bills are equally certain that they will succeed in passing them.

BOYS WERE IN COURT FOR GOAL STEALING

Two Lads Let Out on Suspended Sentence—Nain Must Learn to Write.

The arrest book at the police court showed a clean sheet this morning. The fathers of John Nain and George Guthrie, two boys charged with carrying coal from a scow at the York Point slip appeared in court this morning. The father of Nain is a wealthy shoe manufacturer, and the elder Mr. Moffitt is a real estate operator of New York city.

PIATTSBURG, N. Y., Feb. 2.—In the rectory of the Catholic church of this city was celebrated yesterday the marriage of Miss Mabel A. Slater, daughter of Mr. and Mrs. George H. Slater, of Montreal, and Charles W. Moffitt, of New York. Mr. Slater is a wealthy shoe manufacturer, and the elder Mr. Moffitt is a real estate operator of New York city.

The bridegroom is a Protestant and the bride a Catholic. Falling to obtain a dispensation in Canada, they brought the bride party and a hundred guests over the line in a special train and had the ceremony performed here. After the ceremony the train returned to Montreal where a dinner reception and dance for three hundred guests were given by the parents of the bride in the Hotel Windsor.

RAILWAY GRAFTERS WERE GETTING RICH QUICK

MONTRÉAL, Feb. 2.—A thousand dollars a month was what the men arrested in Toronto and here took from the G. T. R. Joseph Woods in Montreal, and Rosenberg, in Toronto, sold tickets on the G. T. R. for \$1, and conductor Corrigan accepted them, getting half the money afterwards. The arrests were made by the Thiel Agency, Chicago, in memoranda of the sales were found in the house of Rosenberg. Corrigan was caught on the train redhanded.

OPPOSITION IN P. E. I. LEGISLATURE ACTIVE

Prevented Any Business Being Done Yesterday Talked All Day—Present Standing of the Parties is 17 to 13—Long Session Predicted—Hotel Burned.

CHARLOTTETOWN, Feb. 2.—The opposition in the provincial legislature, emboldened by the fact that they have this year a baker's dozen in a much smaller representation, as has generally been the case with them for the past sixteen years, began the first session of the new parliament yesterday with a war of words over the appointment of committees which usually went through in a few minutes, moving amendment after amendment by the hour and prospects of a prolonged discussion today. The first division was sixteen to twelve with Speaker Smith in the chair, and one Conservative absent from the province. There are seven elections again Liberals and six against Conservatives but no crisis has as yet been heard. The chief bone of contention yesterday was over the constitution of public accounts committee, the Conservative demanding more representatives thereon and rebalancing can only argue complete abolition. Hon. A. D. Richards, the vice-president, and M. Lodge, Secretary.

CLIPPER ATHLETIC CLUB HAD ENJOYABLE SMOKER

Ald. McGoldrick Contributed an Irish Jig Which Brought Down the House

A most enjoyable smoker was given last evening in the rooms of the Clipper Athletic Club in the Sutherland Hall.

An excellent programme was carried out, a feature being an Irish jig by Ald. John McGoldrick. He received hearty applause from the large number present.

Refreshments and cigars were served throughout the evening by members of the committee. The performers were all well received. The numbers included: Geo. Gillespie, piano solo.

Mr. Dick, guitar solo and song. Alf Cameron, song. Tommy Howe harmonic solo. Nye Bros, step dance. Mr. Hugh Campbell, song. John Tongue—Tambourine solo and song.

Hargreaves and Murphy, step dance. Mr. Dillon, cozier songs. Len Callaghan, song. Mrs. Kelly—Irish jig. Mr. Neve Wilbur, piano solo. Wm. Gorman and Thos Howe, harmonium duet. Geo. Matthews, song and jig. Mike Kelley did the honors at the piano, accompanying singers and dancers.

Those who were called upon to speak were—Ald. Spruel, Mr. Williams, pres. A. O. H., Mr. W. P. Higgins, Ald. McGoldrick, Mr. Edw. Burke, Mr. Jack Barry, Mr. Dan Connolly. The smoker closed by singing God Save the King.

JUDGE HANINGTON MUCH IMPROVED

Passed a Good Night and Hopes are Entertained for His Recovery.

A telephone message from Dorchester at two o'clock this afternoon brought the welcome news that Judge Hanington's condition was very much improved. He had passed a very satisfactory night and now appears to be doing very nicely. Hopes are being entertained for his ultimate recovery. Dr. Hanington, of Montreal, brother of the Judge, and Dr. Todd, of Dorchester are in attendance.

FREDERICTON HAS ANOTHER SCOTT ACT SENSATION

WILL COMPETE WITH ST. JOHN FOR LIVERPOOL TRADE Conference in Calgary to Decide Whether Grain Shall Go Via St. John or Vancouver.

CALGARY, Feb. 2.—Today at Calgary opened the most important conference which has taken place in years and the subject under discussion is whether winter shipments of Alberta wheat shall go in future by St. John or by Vancouver. The rate by St. John is 25 cents a hundred from there to the Atlantic and about five cents to Liverpool, about 35 cents in all. The rate via Vancouver are 25 cents to Vancouver, and the Chargeur Unis of Paris quotes a rate of 2 1/2 from Vancouver to Liverpool, via the Buss Canal and calling at Hong Kong. The conference is called by Premier Rutherford and includes shippers of grain, millers, farmers and all interested in transportation questions. Their only difficulty at present is the lack of terminal facilities at Vancouver and the wheat has all to be sacked and this eats up all saved in rates. It will not affect Montreal as in summer the rates via the St. Lawrence are smaller than they can be by the Pacific. It is the long haul from Calgary and west of that to St. John which causes the great expense.

INSURANCE CO'S LOSE IN 'FRISCO DISPUTES

Eighty Eight Claims Decided in Favor of Property Owners, and Verdicts of \$500,000 Granted.

SAN FRANCISCO, Feb. 2.—Judge Van Fleet has assessed judgments aggregating more than \$500,000 against the insurance companies which refused to pay in full the insurance carried by their San Francisco policyholders at the time of the big fire in 1906. In all 104 cases were on the calendar of the United States Circuit Court and 88 of them were decided adversely to the insurance companies. The other suits were allowed more time on the date of the big fire in 1906. The secretary of the final presentation of their cases. The cases remaining undecided involve \$250,000.

NEW COMMISSIONER UNEARTH'S GRAFT GAME

New York's Steel Department Head Nips in the Bud a Fraud Scheme

NEW YORK, Feb. 2.—As the result of an investigation inaugurated by William H. Edwards, the Princeton University graduate, who was recently appointed street cleaning commissioner of New York City, eight employees of that department were arraigned in court early today on charges of grand larceny in the use of Government trucks. These tickets were issued to drivers of snow wagons and attest to their removal of a wagon load of snow from the streets. All the men arrested were held in jail for further hearing today. It is estimated that the frauds would have cost the city \$25,000 if the street cleaning commissioner had not detected them, but as none of the snow removal bills resulting from the last storm have been paid, it is believed the city has suffered no loss in this instance at least.

All the existing contracts for snow removal have been abandoned. Commissioner Edwards said that after his discovery of the frauds he sent an agent to Jacobs, the contractor, for men and purchased \$700 worth of tickets at 50 per cent of their value when redeemed by the city. He said Jacobs offered \$10,000 worth of tickets at the same price. Jacobs when arrested, implicated the others and surrendered a check for \$700 drawn to his order by Deputy Hoag. Hoag said he had been speculating in legitimate snow tickets making ten per cent from the drivers by redeeming their tickets more promptly than the city.

LAKE TUGMEN WANT HIGHER WAGES ALL ROUND

CLEVELAND, O., Feb. 2.—Delegates of the licensed Tugmen's Protective Association and the Pleat Tug Owners at Lake Erie ports who are holding a joint conference here, have reported an agreement on all points except wages. The men at Erie have been receiving \$5.50 per month more than the tug men at the other ports. The men as well as the operators want to make a uniform schedule of wages for all the ports, but they have different plans for handling the matter about the Erie tug owners want the wages at that port reduced \$5.50 per month, while the delegates have made a demand for an increase to make the wages at the other ports the same at Erie. The matter will be referred to a committee.

LAST WEATHER REPORT FAIR and COLD

On Monday and Tuesday evenings of next week, it is the intention to have the Windsor team of the Nova Scotia League play the locals. On Monday, Feb. 15, the St. Josephs will meet the U. N. B. boys. On the following Wednesday, the U. N. B. team will play the All-St. John septette. With such a programme of games, hockey enthusiasts can look forward to some sharp playing.

A dispatch received last night from McAdam states that Temple, the Presbyterian man who is supposed to have been lost in the blizzard of Saturday, has not as yet been found, although the discovery of the bodies of three of the four horses he drove establishes beyond doubt the fact of a serious mishap having occurred, though the exact cause is understood, to cross the Saint Croix river near Vancouver during the height of the blizzard.

An interesting entertainment was given in Brussels street Baptist church last evening. The musical part of the programme consisted of a flute solo by W. Stokes, vocal solos by Miss Louise Colwell and Miss Annie Edwards; several selections by a quartette consisting of Miss Worden, Mrs. C. E. Vall, Miss Lena Worden and Miss Annie Edwards. The feature of the evening was a series of readings from his own writings by Rev. Dr. Phillips. Some of these selections have already appeared in the Star under the signature of Thaddeus and have evoked considerable favorable comment. For over an hour last evening Dr. Phillips held the closest attention of an audience that filled the schoolroom of the church.

Word has been received here from George Wallace, the English runner, that his little sister Ruth, was burned to death in their home in London on Jan. 18. She was carrying a lamp to her room when it exploded and set fire to her clothing. While trying to extinguish the flames, Wm. Wallace had his arms and hands badly scorched. Wallace has been in St. John on more than one occasion and his friends here will be sorry to learn of the sad accident.

SAILOR MEETS TRAGIC DEATH

Harry Saunders met a frightful death late yesterday afternoon by falling through a hatchway on board the steamer Cacouca, lying at the Dominion Coal Company's pier, Smythe street. When discovered by other members of the crew, Saunders had breathed his last. The man was horribly cut about the face and body and presented a ghastly appearance.

Saunders, who was a sailor about 28 years of age, was one of the crew on board the Cacouca. He boarded her last evening shortly after six o'clock. At that time he was reported to be intoxicated.

The work of covering the hatchways being done, when the deceased slipped and fell head foremost down the hole nearly thirty feet deep. Members of the crew were quick to arrive on the scene, but found that nothing could be done to aid the sailor. On learning of the accident, Captain Holmes communicated with Coroner Berryman, who visited the boat and viewed the remains. The coroner informed the Sun last evening that he had given permission to the captain to have the body removed to Chamberlain's undertaking rooms, where it now lies. He has decided that an inquest into the death of Saunders is unnecessary and will not detain the ship or crew in port. He had a talk with Captain Holmes concerning the affair, after which he said that the ship might sail when she was ready.

The deceased is a native of Newfoundland and is about 28 years of age. The Cacouca, which reached this port and docked at the Dominion Coal Company's wharf, had a cargo of between 150 and 180 tons of coal on board for the company. The work of discharging her was carried on yesterday and completed. The boat will probably sail for Lunenburg this morning.

WALLS OF JERICO FOUND NEAR DEAD SEA

Excavations Reveal Site of City That Succumbed to Hosts of Joshua.

BERLIN, Feb. 2.—The Deutsche Orient Gesellschaft publishes interesting details of excavations which it has carried out on the supposed site of the ancient Jericho, a collection of mounds in the vicinity of the village of Ericha, near the Dead Sea. After a preliminary investigation an expedition was dispatched last year consisting of Professor Sellin, Herr Langeneger, a government architect, and Professor Watzinger, an archaeologist, of Rostock. The excavations, which were conducted from January 2 till April 8, gave most interesting results. The site investigated was a plateau 400 yards long by 150 broad, containing seven mounds. After a week's digging the exterior wall of the vanished city was encountered at a depth of eight feet below the surface. The excavators were astonished at the technical excellence of the construction.

The wall consisted of three parts. The natural rock foundation is overlaid with a filling of loam and fine gravel a meter or so deep, upon which a sloping rubble wall, heavily baiting externally, is superimposed to a height of twenty feet, the breadth being from six and one-half feet to eight feet. The wall is built of well-laid rubble, which becomes finer toward the top. Enormous blocks are partially employed for the lower part of the wall. Every interstice is most carefully filled in so as to offer no advantages to the implements of destruction of a hostile force.

Finally, upon this imposing foundation is the fortification wall proper, built of clay bricks. In one place this part of the wall reaches a height of eight feet, but it would seem to have been considerably higher. The whole must have been a most striking structure, which dominated the whole plain without the city, and must have been visible for miles.

The only advantage which in point of technical perfection modern construction possesses over the walls of Jericho is, the excavators state, the use of mortar, which was unknown to these early architects. The walls are estimated to have extended 900 yards; 450 yards have already been laid in the rooms of the Imperial mission board by the expedition. To the north the fortifications are breached by a large heap of rubbish, which would seem to indicate that enemies must have penetrated here on some occasion.

A meeting of the laymen's missionary committee of the Baptist church was held last night in the rooms of the Imperial mission board on Germain street. W. C. Cross, who has succeeded the late T. S. Simms as chairman presided. There were present Messrs. Patterson, Rowley, Wilson, Keirstead and Dr. McIntyre. Rev. W. B. Higgins, secretary of the foreign mission board of the Baptist church, who is conducting a campaign in Nova Scotia and New Brunswick in the interests of the laymen's missionary movement, arrived in the city on the Digby boat yesterday to attend the meeting.

It is proposed to organize the Baptist laymen's missionary movement for the whole Dominion, and Rev. W. T. Steinhilber of Winnipeg has been appointed general secretary of the movement. The meeting last night expressed approval of the plan and agreed to cooperate with the other sections of the church. It is intended that the secretary's salary shall be paid by some business man in various parts of the country who are interested in the work and only his other expenses, such as for office, travelling and literature shall be a charge on the boards concerned.

In conversation with The Sun last night Rev. Mr. Higgins said that at present he was touring Nova Scotia in company with R. M. Hobson of Guelph, who is a grandson of Robert Morrison, the first missionary in China; Rev. E. Bruner of the Grand Ligne mission, Montreal, and Rev. A. W. Corey of Strathcona. They are meeting with great success in their work. Next month they expect to visit New Brunswick and speak at various places in this province.

DEATH REMOVES A WELL-KNOWN FIGURE

Major J. MacGregor Grant Passes Away at His Residence Here

The death of Major J. MacGregor Grant, which occurred late afternoon, removes from the midst of a large circle of friends and business associates a figure that has long been prominently identified with all that has made for progress in the history of the city.

Major Grant had been ailing for a year back and since the latter part of December he had been confined to his home, his demise, however, which occurred at 3:45 o'clock yesterday afternoon, was wholly unexpected and came as a shock to his family and immediate circle of friends.

Major Grant was the senior member of the brokerage firm of J. M. & C. W. Hope Grant. He was also a former mayor of this city. Few St. John men were better or more favorably known. He was of a courteous manner and kindly disposition, and his towering and erect form made him a conspicuous figure in city life. Although in his seventy-fourth year, he was very active and until his illness took a keen interest in the affairs of his business.

Few St. John men were better or more favorably known. He was of a courteous manner and kindly disposition, and his towering and erect form made him a conspicuous figure in city life. Although in his seventy-fourth year, he was very active and until his illness took a keen interest in the affairs of his business.

Major Grant represented Duke's ward in the Dominion Council from 1881 until 1884, in which latter year he was elected mayor of the city. He was a member of the London & A. M. and of St. Andrew's societies.

He was born in England and came to Halifax as a young man, after which he removed to St. John. He married Miss Isabella Nicholson, sister of the late Wm. Nicholson and Mrs. Grant, with two sons and two daughters, survives.

The sons are Ronald Cameron Grant, of Montreal, and C. W. Hope Grant, of this city. The daughters are Mrs. Robert Wray Young, of Dublin (Ire.), and Miss Grant, of Montreal. Mr. Grant, with two sons and two daughters, survives.

HALIFAX TAKES McLELLAN CUP

TRURO, N. S., Feb. 2.—The McLeMellan cup will be taken to Halifax tomorrow morning. From the beginning of the metropolitan players made ends of all kinds, no score being made on one of the Truro rinks for the first five ends. The players seemed to enjoy themselves thoroughly, however, and their playing was watched by a much larger concourse of people than the Chatham-Truro game here last Thursday.

There was constant attention throughout the game, Truro sympathizers feeling that the old habit of the Truro players to put up at the finish would give them the victory, but in this instance no such luck followed, although the rink, which for twelve ends stood in an indifferent position, made sufficient gains to give them one point over their opponents. At one time Halifax was nineteen points ahead but finished 10 to 9.

Wastville is next on the list of challengers for this perpetual competition. At the close cheers were given for both visitors and losers and a dinner and a half was served at supper, where speeches and toasts were given.

ROBT. THOMSON IS RE-ELECTED

Reception of reports and election of officers constituted the business at the annual meeting of the Royal Kennebec Yacht Club held last evening.

Robt. Thomson was re-elected commander of the club, which was presided over by the same officers as last year. The report of the secretary of the club, Heber S. Keith, showed the membership to be in a flourishing condition. There are at present over four hundred and fifty enrolled. The finances are also in good condition.

The annual cruise of the club will start on July and will go to Grand Lake, Washademoak and Belleisle. The election of officers and committee resulted as follows: Robt. Thomson, commodore; Horace King, rear commodore; A. H. Merrill, vice-commodore; Henry B. Robinson, treasurer; Heber S. Keith, secretary.

Executive committee—J. R. Armstrong, P. S. Heims, Harold A. Allison, H. R. Dunn, P. A. Goddard. Sailing committee—Howard Holder, E. N. Herrington, Harold B. Robinson, Peter Sinclair, Geo. McA. Blizard, W. C. Rothwell, J. H. Kimball. Sailing messengers—Stephen P. Gerow, E. A. Dykeman, J. A. Pugsley, Walter W. Leonard, C. B. C. Gandy, W. C. Gandy. Motor messengers—S. L. Emerson, J. Fraser Gregory.

Club captain—Dr. T. D. Walker. Fleet captain—Fred W. Munroe. Musical director—D. Arnold Fox.

CHILDISH ACTION OF SHEDAC TAM

Dispute Clean Goal Made by Dorchester—Later Wins Out

SCORE WAS 2 TO 1

DORCHESTER, N. B., Feb. 2.—Before a large and cheering crowd in Dorchester's mammoth rink the return game between Shediac and Dorchester in the Intermediate Hockey League series was played last evening, with the following line-ups:

Dorchester. Goal. Shediac. E. McAllister. Edw. Leblanc. J. Burnett. Albert Arsenault. Bert Robinson. E. Bows. Arthur Chapman. C. Herbert. Alle Tait. J. Melanson. E. Gaudet. Geo. Robideau. H. Lowerison. P. McArthur.

The game was swift and clean in the first half, both teams playing brilliantly. There were no penalties. In the second half the teams responded promptly to referee Hutchinson's whistle, and from the start it became evident that the battle would be a rush-and-go affair. Dorchester's cover play was the first to be penalized, doing three minutes for tripping as the game progressed. The fence found Melanson of Shediac "doing time" twice in three minutes instalments for tripping and P. McArthur, Shediac's right wing, got five minutes on the fence.

McArthur, Shediac's captain, found the net for his team, making the first and only goal for Shediac. This score caused the Dorchester boys to set a much swifter pace, and after some brilliant combination work E. Gaudet found the net for Dorchester. To the amazement of the spectators the goal judge's decision was disputed, and the Shediac captain immediately ordered his men off the ice.

Dorchester at once appointed a new judge, and after the usual delay of ten minutes the referee blew his whistle and the Dorchester team responded, but the Shediacs did not leave their dressing room. E. Gaudet at once carried the puck into the Shediac nets and the game ended with the score 2 to 1 in favor of the Dorchester team.

It is incomprehensible why the Shediac team should have shown such childishness in the matter. The Sun's correspondent, who is a clergyman, was standing by two other clergymen, Rev. Parker Cormier and S. S. Poole, who entirely agreed with him that Dorchester's goal was well and truly won and there is absolutely no cause for the foolish attitude of Shediac's team. Len Hutchinson refereed the game impartially.

Mount Allison CAPTURES GAME MORE ROUGH HOCKEY PLAYED IN MONCTON

MONCTON, N. B., Feb. 2.—In a rough game here this evening the Hawks defeated the Sackville hockey team in the Intermediate League by a score of four to one. In the first half Moncton scored three goals and Sackville one, and in the second half the home team added one more. The game was rough, and the few spectators present were disgusted with the play. Both teams roughed it, but in casualties Sackville suffered most. In the second half, just before the end of the game, Norman Foxett, playing rover for Sackville, was cross-checked by Spence, Moncton's point, and knocked out for fifteen or twenty minutes. When he fell his head struck the ice and he was badly stunned.

ON THE VIC'S ALLEYS

On the alleys of the Victoria Athletic Club last evening the Knights of Columbus defeated the St. Peters by a score of 1189 to 1134. The winners secured all four points, defeating the North End boys on each string. Edvard of the Knights bowled in splendid style. He had an average of 90-2-3. Much interest was shown in the match, which was witnessed by a large number.

The score was as follows: KNIGHTS OF COLUMBUS. Murphy ... 79 68 228 76-3. Dooly ... 84 87 63 229 76-1-3. Wilson ... 81 81 80 242 80-2-3. Bolwert ... 88 88 96 292 80-2-3. Mullis ... 76 78 86 232 74. Totals ... 334 299 384 1189.

ST. PETERS. Cronin ... 77 84 77 238 73-1-3. Mahoney ... 67 69 80 216 72. Downing ... 82 74 86 242 80-2-3. Cooney ... 85 71 83 239 73. Black ... 87 76 78 236 78-2-3. Totals ... 387 374 376 1194.

BIG RAILWAY SCHEME FOR SISTER PROVINCE

TORONTO, Feb. 2.—The visit of Premier Murray of Nova Scotia with some colleagues and officials to Wm. MacKenzie of the Canadian Northern railway is the prelude, it is understood, to further railway development in the province, and it is anticipated that when the legislature of Nova Scotia meets again the premier will have added to his railway programme to announce, and the Canadian Northern interests will play a prominent part in that programme. It could not be ascertained whether the Dominion Atlantic Railway Company is to join in an allied railway policy or not, but as the government and company are on friendly terms, there is no doubt that whatever definite schemes are decided on, there will be cordial cooperation among all the railway interests of the province.

JUDGE ORDERS A NEW TRIAL HERE'S NICE JUDGE, SURELY

TORONTO, Feb. 2.—The Ontario government has forwarded to the Minister of Justice a statement of Provincial License Officer J. J. Ayres, making serious charges against his honor E. B. Fraick, junior judge for the county of Hastings, and asking for an investigation of his conduct. The charges arise out of a conviction of William J. King, a John Queen at Madoc, Jan. 28 for selling liquor to minors.

AMUSEMENTS. NEW SHOW, ALSO EARTHQUAKE, AT NICKEL

The Nickel has been successful in holding over the Italian earthquake pictures for this afternoon and to-night before sending them further on the circuit, therefore those who have been destined from seeing them will enjoy the treat after all. There will be a brand new show of pictures as well, including The Duke's Vow, a magnificent chivalric picture of over 1,000 feet length, dealing with a romantic subject most elaborately. Then there are the usual fine Pathé comedies, drama and trick photographs.

TODAY'S CAMERAPHONE CHANGE Commencing with today's matinee, the Cameraphone will present an entire change of programme. The headline will be the cutest of all musical comedies, The Awkwardness of Pops, a very distinct set of selections in the form of a Christmas sdy; The Super Club Stars, Wellington and Gase, in a new, violin trol, viola solo and a dramatic reading. Send the children to the matinee. Laueva will appear at 4 o'clock.

DUEL UNDER RICHIELETT AT THE UNIQUE TODAY. The above will be the headline of a splendid unique programme today and tomorrow. This beautiful and historic picture depicts an incident which took place in Paris when Cardinal Richelieu was in power and when Fraick was considered a capital offense. In the opening scene we see a notice which has just been posted in the public square stating that one Bouteville and his accomplices are guilty of treason in violating the law, and are sentenced to death in execution of their offense. Then follow complications which lead to a six-act drama, the pictorial representation of which is exciting in the extreme.

ITALY'S FAMOUS LAKE AT THE "Star". At the "Star" Theatre in Union Hall, tonight, this evening there is going to be a magnificent travel view—Lake Como in Italy, one of the loveliest mountain lakes in Europe. The other pictures will be "The Black Sheep," "Preparing for Combat," and "The Elmer of Strength." These are a mixture of pure comedy and excellent drama and will make a fine programme.

SOME GREAT AREAS OF THE GLOBE OF WHICH WE KNOW NOTHING

More Pioneer Work to be Done in South America Than Any Other Continent Perhaps--Arctic Research--Same Old Beauty Devices.

LONDON, Feb. 2.—Few people probably realize the great areas on nearly all the continents which still await the explorer. That there still remains plenty of scope for research on the face of this globe is brought vividly to the mind by long and interesting surveys of new and projected exploring expeditions printed in the Times.

Southwestern Arabia is one of the regions which await the explorer. Here, embraced within a line drawn north from Aden to Nald and another eastward to the peninsula called El Kadr, is an area of some 400,000 square miles.

Another problem is "that of the unknown stretch of the Lower Brahmaputra, which flows for 100 miles through the country of the intractable Abores." An adventurous Englishman, taking his life in his hands, is now on his way through Assam bent upon solving this problem.

Several African expeditions are planned, each of considerable magnitude, but as the writer in the Times remarks, one might walk over any part of Africa now without meeting with adventures, unless, indeed one provoked

them." But Mr. Vineser will make another attempt to reach the Tibesti highlands, the practically unexplored mountain range which runs for some 700 miles northwest from Dar Fur in the heart of the Sahara.

More pioneer work perhaps remains to be done in South America than in any other continent, for here "probably some 2,000,000 square miles are still unexplored." But after all "it is around the Polar regions more than elsewhere that popular curiosity still hovers, since these are still surrounded with a veil of mystery."

In the south polar area, Lieut. Shackleton's expedition is still at work. What he has accomplished cannot be known until March or April, when it is hoped that the crew will return to New Zealand either with the expedition on board or with the information that Shackleton has decided to continue his work for another year.

COMPLETE RENOVATION OF FREDERICTON HOTEL

The Queen Hotel, this city, which under the management of J. J. McCaffrey has been raised to the elevation of a first class hotel, absolutely second to none in Eastern Canada, has once more emerged from a complete renovation, and as a result is not only cleaner, prettier and more conveniently appointed, but is richer by fifty up-to-date bath equipments in connection with its spacious rooms. It has been the unvarying policy of Mr. McCaffrey to keep the Queen in the forefront of Canadian hotels, and visitors during the touring season, as well as commercial men who are perhaps the best critics, have not hesitated to tell him that he has been eminently successful in his endeavor. The hotel never looked better than it does today; its furnishings and attentive service making it worthy of a city ten times as large as Fredericton. Since December 1st painters, decorators, plumbers, carpenters and masons have worked wonderful changes in the big building, the chief of which of course is the installation of fifteen baths of modern model and of ample size, which adjoin the rooms on every floor of the hotel, are full sized 5 ft. enamelled steel tubs, nickel-finished and draw from an endless supply of hot and cold water. This excellent feature places the Queen Hotel in an enviable position, and there is no question whatever but that the travelling public, particularly the train-worried commercial man, will appreciate the innovation to the fullest measure. Within the next ten days additional fire protection will be installed, as the contract has been let for five fire escapes and has also a stand-pipe with a hose attached on every floor from collar to roof. It is already well known that the Queen Hotel boasts the best barber shop in the Maritime Provinces, employing three expert workmen. Its bowling alleys are of the regulation equipment and liberally patronized. Its pool and billiard rooms are properly equipped, and its stabling with twelve first class well lighted and convenient ample rooms. For a home-like comfort, a house well

SOCIETIES SPEND PLEASANT EVENING

The St. John Baptist Society entertained the other Catholic societies of the city at a most enjoyable reunion in their new rooms, Berryman's Hall, last evening. Over five hundred persons were in attendance and a fine programme was rendered. The affair was the first of its kind conducted by the society. Nevertheless everything passed off smoothly. R. O'Brien, the president, was in the chair and opened the evening with a few at appropriate remarks, welcoming the visitors. The programme was then carried out. Walter Hervey rendered a piano solo most acceptably. Other numbers were: Song, Robert Butler; step-dancing, McIntyre; song, James Costigan; song, Charles Colton; song, Frank Jennings; solo, Joseph Carleton; song, Charles Harrison; solo, David Higgins, accompanied by Mr. Dick of the Ulster Theatre; solo, Mr. Adams of Eric's Theatre; song, Patrick Walsh. A violin solo by Mr. Laune of the Princess, and a musical act by the Cantelero Bros. of the Jere McCullire Co. were heartily applauded. Interesting addresses were delivered by Hon. R. J. Ritchie, president of the I. L. B.; John C. Ferguson, president of the A. O. H.; Joseph Harrington, C. M. B. A.; Charles A. O'Brien, K. O. G.; H. O. McInerney, St. Joseph's; Jos. Gallagher, St. Peter's; Alfred Bardeley, F. M. A. During the evening cigars and refreshments were served. The heated and healthfully ventilated, supplying single and double rooms of ample proportions, clean and pure at all times and possessing a desirable reputation for its cuisine, this large brick building in the capital city of New Brunswick is considered a Queen indeed among the public houses in Canada. The changes recently made indicate a determination on the part of its experienced proprietor to expend funds with lavish hand, and to spare no time or effort in bringing about perfection, or nearly so, in his hotel. A continued large patronage depicts an appreciation of his efforts along this line.—Fredericton Gleaner.

FINE ADDRESS
Declares Canada is Too Much Occupied With Internal Affairs

A large number of the Canadian Club members were present at the annual meeting of the club last evening and listened to a vigorous and original discussion of the external relations of Dominion of Canada by Prof. Stephen Leacock, B.A., Ph.D., of McGill University.

PROF. STEPHEN LEACOCK

After the supper which was served by the ladies of the King's Daughters Guild in their usual excellent style was disposed of the president, Dr. T. D. Walker, presented the speaker of the evening in a few well chosen remarks. Dr. Leacock, after a brief introduction, turned to his subject. He said in part:

"I wish tonight to talk to you of the external relations of Canada. Foreign relations would not quite agree with me. I have chosen this rather odd term. We are liable to think too much of our internal relations in spite of the fact that there is no country likely to have more influence on the world than Canada. Our position has changed from one of isolation to one of centrality. Taking up our relations with the United States we find that we share a boundary line of 3,000 miles with them and therefore have more interest in our relations with them than with any other country."

"If there is over to be any closer relation between Great Britain and the United States that understanding must be brought about through Canada. We have a large French population and the 'entente cordiale' between Britain and France is of great importance to us. Going westward we find we are a Pacific country and must be interested in the relations with the Asiatic nations."

DEFINITE POLICY.
"The time has come when we should form a definite external policy instead of continuing our present policy of ad hoc expediency. We are looked after by the mother country. There is a demand for a change in this because of the feeling that our interests have been mismanaged in the past."

"I like to talk on this subject to the people of this province because I enjoy talking when I have to convince people, so the subject of the Ashburton treaty would be a congenial one to me. Regarding the Pacific coast line, if the original claim of the United States had been conceded their coast line would have extended northward until it met the boundary of Russian America. Mr. Kennedy of Illinois in the American legislature said that nothing but the whole of the Oregon territory would satisfy the American people. Did they get it? They did not, and why? Was it because of any armed strength of Canada? The British government sent out Lord Carthage, who had learned diplomacy on the battlefields of Spain and Waterloo, and who after certain warlike preparations said to the United States: 'Thus far and no further.' When you ask what has British diplomacy done for Canada I point to the Pacific province of our country."

ASHBURTON TREATY.
"Now regarding the Ashburton treaty, it has been spread broadcast that in 1840 our country through Lord Elgin was ceded out of a large section by that wily person Daniel Webster. If you read Prof. Ganong's treatise or give several hours' study to the subject you will find that there is not one iota of truth in that claim. Looking at the map it looks as if we got shamefully little, but in reality it is found that we got more than the terms of the treaty of 1783 really called for."

CLEMENCEAU'S VICTORY IN FRENCH ELECTIONS

Premier Will Now be Called on to Enact Income Tax Legislation.

PARIS, Feb. 2.—There is great joy among supporters of Premier Clemenceau over the success of the government in the recent senatorial elections. Fifteen Progressist seats have been captured, which is an astonishing setback to a party that does not number more than a hundred deputies in the day of Radical-Socialism, the day of the government otherwise, the day of Clemenceau. Labels are being much in political France, where a "false description" is the commonest occurrence. The Progressists, for instance, are not called because they represent progress at any rate of the Clemenceau kind. Clemenceau has now a formidable majority in both chambers. Such power has its inconveniences. It involves the carrying out of a programme upon which the elections were fought whether one wants or not. It is said that M. Clemenceau is at heart opposed to the income tax, but the French temperament—a view which is shared by the most enlightened people in France. But universal suffrage is a hard task-master, rearing where it has not sown. It insists on the income tax for the reason that money must be found somewhere for social reforms, and the bank account of the rich is just the place to find it. Secondly, it is the simplest machine ever invented for putting the screw on. As a staunch Republican remarked M. Clemenceau is faced with the alternative of a social revolution or the income tax. He has preferred the latter. He has dared to stand against the tide he would have been swept away, and probably all Bourgeois government with him. Government has decided to call an international conference to consider the introduction of a code of laws on aerial navigation, said that while such rules were hardly necessary yet, they would be badly wanted in two or three years. "There must be some in the way of international agreement," he proceeded, "as to how these things are to be worked. It is a very difficult and complicated question, and there is a good deal to be discussed as to the rules of the road. Collisions in the air will be always most dangerous, and there are other difficult questions as to what extent airships and balloons may pass over private ground and foreign countries."

PRINCE FERDINAND OF BULGARIA HAD FOOLED AUSTRIA

Writer Declares Dual Monarchy Was Hoodwinked Into Being a Scapegoat.

LONDON, Feb. 2.—The secret history of the crisis in the near east will be disclosed in the *Fortnightly Review* for February. The author is a member of the London diplomatic corps. The article will be unsigned, but his veracity should be vouched for. The writer declares that Turkey is preparing for war with Bulgaria, and that the settlement of the questions between Turkey and Austria merely forces Turkey's hands for dealing more thoroughly with Bulgaria. The author also declares that Serbia and Montenegro intend to make war on Austria. He doubts very much whether this struggle can be localized and foresees an inevitable lowering of the Hapsburg prestige, "and of the dual monarchy held together only by an arrangement with Turkey and hoped to make the proclamation of December 27 the date of the jubilee of the aged emperor of Austria. Bosnia and Herzegovina would thus have made a magnificent jubilee gift. The sovereign, Francis Joseph, probably knew nothing of the earlier steps taken in the furtherance of this scheme. Acherenthal proposes to secure the relinquishment by the Sultan of his sovereign rights in the two provinces and in way of return Turkey was to have the sanjak of No. vilassar and sundry other concessions. Turkey was quite willing, but there was one great difficulty. Acherenthal said that Serbia would be furious and consequently he decided to paralyze that kingdom by satisfying Prince Ferdinand's ambition to become a dual monarch in return for the

FINE PICTURES FOR INSTITUTE

Art Union Will Send Four NELSON PICTURES

Will be Presented to Seamen's Institute Through Col. Sturdee

When the Seamen's Institute was opened a few months ago, R. L. Gorbell the manager wrote the Art Union of London, asking if they could present a picture for the Nelson room, and the Art Union, with their usual generosity and realizing the good work to be done in a seaport town by such a body, at once acquiesced. In Mr. Gorbell's proposal, and wrote the following letter, which was read at the monthly meeting last evening when the four pictures referred to were formally presented:
Art Union of London,
London, 17th Dec. 1908.
Dear Sir:—
Your letter of 28th November has been duly laid before my council who instruct me to say that in recognition of the handsome support which this society receives from St. John, and as an expression of their sympathy with the objects of the Seamen's Institute, they are willing to present for the Nelson reading room the following four pictures:
The Death of Nelson,
The Return of the Lifeboat,
Escape of H. M. S. Calliope,
The council hope that your committee will be good enough to inscribe on the frames of the pictures the words, "Presented by the Council of the Art Union of London."
The pictures together with this letter will be handed to you by Lt. Colonel E. T. Sturdee, this society's honorary agent at St. John.
I am, yours faithfully,
F. L. MARRIOTT,
Secretary,
Samuel L. Gorbell, Esq.,
Seamen's Institute, St. John.
F. E. Holman & Co. have generously framed the four pictures free of charge as their contribution, the frames being of old English oak exactly suited to the subjects, while David Willet very kindly engrossed the inscriptions; the engravings are all most suitable to a room frequented by seamen, especially to a room in memory of the immortal Nelson. "The Death of Nelson" is the well known scene on the deck of the "Victory" at the moment he was shot, from the painting by D. MacLise, R.A., and shows the hero surrounded by his officers and the doctors, while the fighting is still going on. "Trafalgar" is from the painting by W. L. Wyllie, A.R., and is in celebration of the centenary of Trafalgar in 1905; it shows the British ships attacking the French, by giving the names of each vessel. "The Return of the Life Boat" is essentially a sea picture, from painting by D. MacLise, showing the boat landing the survivors from a wreck which can be seen in the distance, while the fourth picture, "The Escape of H. M. S. Calliope," appeals to the patriotism of every British subject, depicting the splendid seamanship and indomitable pluck of the British Navy, when this vessel was the only one saved on the 14th March, 1853, at the hurricane at Sanroco. The ship is seen slowly steaming out of the harbor of Apia in the teeth of the gale, while the men on the U.S.S. "Trenton" are cheering the efforts of their English brothers. This picture is also by W. L. Wyllie, A.R. A. The noted painter of sea subjects, all four engravings will be a valuable addition to the Nelson Room.

REVIVAL OF "SALOME" ANGERS THE STAGE CRITICS OF NEW YORK CITY

Described as "Positive Nastiness, Perverted and Morbid Degeneracy, Pastiferous, Unnatural, Unhuman and Vicious Uncleanness" by One—Another Calls It "This Odoriferous Masterpiece."

NEW YORK, Feb. 2.—"Salome," which after two or three performances was banished from the Metropolitan Opera House two years ago by the interference of the board of directors, French instead of German, and with Mary Garden no longer singing the role but dancing the dance which at the Metropolitan was done by another person than the singer. The contents of the press is almost unanimously denunciatory. The Sun says:
"Mr. Hammerstein, seeking for more modestly unusual women to add to the repertoire of his Franco-Scottish prima donna, seized upon this notorious masterpiece of psychological art and prepared a spectacular production of it."
"It is not at all likely that the eruption of 1907 will be repeated. Mr. Hammerstein has no board of prudish directors and he does not come it must follow himself. Was Troubled With Weak Back For Years.

Could Not Perform Household Duties. Doctors Attended Without Avail.

Mrs. Arch. Schmale, Black Point, N.B., writes: "For years I was troubled with weak back. Oftentimes I have lain in bed for days, being scarcely able to turn myself, and I have also been a great sufferer while trying to perform my household duties. I had doctors attending me without avail and tried liniments and plasters, but nothing seemed to do me any good. I was about to give up in despair when my husband induced me to try Doan's Kidney Pills, and after using two boxes I am now well and able to do my work. I am positive Doan's Kidney Pills are all that you claim for them, and I would advise all kidney sufferers to give them a fair trial."

THE KRUGER TELEGRAM.

Secret History of the Kaiser's Famous Message.

BERLIN, Feb. 2.—A book entitled "William II," which will appear on Wednesday contains a sensational chapter purporting to give the first account of the genesis of the famous Kruger telegram sent from Berlin in the Emperor's name on January 3, 1896. The private book, the author of which is Adolf Stein, declares that this "impulsive" telegram didn't originate with the Kaiser at all. It was really the well-considered answer of the German Foreign Office to an inquiry from the Transvaal. A month before the Jameson raid the Pretoria government required of Berlin whether German friendship couldn't be depended on in case of war between Britain and the Boer states.

PROPOSE TO RAISE THE REPUBLIC BY USE OF MAGNETS

The Vessel Lies in Too Deep Water for the Old Methods.

NEW YORK, Feb. 2.—Raising a 17,000-ton vessel from the bottom of the sea, with not a yank or rick to create the sweep of the Atlantic over the spot where she lies, is the problem that confronts those who dare to think of solving the Republic. Nevertheless, wreckers would be willing to "make the try."

Forty fathoms of water separate the prize from rival companies who, ordinarily, would be clamoring for a chance to raise her. Forty fathoms is 280 feet further down than a diver can work and without divers, wreckers up to the present, have not been able to accomplish much. But the trade has received a new impetus in the last year. Old-time methods have been turned upside down. Compressed air which has accomplished so many miracles in engineering, has been brought to bear in raising and floating craft, with wonderful results, and the John Arlark Company has now taken another step by adding powerful electric magnets to the air compressors. This company is prepared to raise the Republic.

These magnets are expected to do work that divers cannot perform. Wreckers look to them to take hold of the steel sides of a ship like the Republic. Just as the magnets grab flat cars and gondolas in the yards of the Pennsylvania Railroad and drop them wherever the freight handlers wish them. These new devices for the raising of iron and steel are the only ones that are not a part of a carload of steel is naturally hundreds of times more powerful than that which picks a pen from a desk.

Immense dynamo, and engines are necessary to generate a current to make these magnets effective, and a small fleet of ocean tugs and barges must be on hand to float a wrecking plant. No one has attempted a similar feat since the first attempt to come up with the liquor question.

WASHINGTON, D. C., Feb. 1.—Tomorrow week is the tentative date for the house to act on the proposal to regulate the interstate shipments of intoxicating liquors. Consideration of the revision of the penal code then will be resumed, and the first question to come up will be the liquor question.

POLICE SUSPECT WIFE OF PLOTTING MURDER

Husband Had Threatened to Divorce Her on Account of Her Intimacy With Another Man. NEWARK, N. J., Feb. 2.—For over five hours today the police subjected Mrs. Mary Wilhelm to a searching examination in an effort to obtain evidence that would lead to the arrest of the slayer of her husband, Frank Wilhelm, a contractor and justice of the peace, who was found dead in his cell hole in his head.

BRANDENBURG NEEDS MONEY FOR EXPERTS. NEW YORK, N. Y., Feb. 2.—A statement justifying his failure to respond to the calling of his name in court, in answer to the charge of grand larceny, was given out today by Broughton Brandenburg, the writer, through his wife.

A NOVEL PLEA FOR MURDERER PATRICK. NEW YORK, N. Y., Feb. 2.—Justice William J. Gaynor, of the Appellate Division of the Supreme Court in Brooklyn, today granted a writ of habeas corpus, setting for the appearing of lawyer Albert T. Patrick, now serving a committal sentence of life imprisonment in Sing Sing for the murder of William Marsh Rice, on the day before the full appellate division.

GANNERS DO NOT LIKE THE PURE FOOD LAW. LOUISVILLE, Ky., Feb. 2.—More than 2,000 members of the National Canning Trades listed today to addresses by officers of various associations denouncing the pure food legislative enactments by various states and protesting against the tariff on tinsplaters.

A CLEAN SWEEP IN THE NEGRO QUARTER. PITTSBURG, Pa., Feb. 2.—More than two hundred negroes have been arrested tonight in an effort by the police department to render the Herron Hill residence section of the city safe. In the last few weeks, numerous attacks have been made by negroes upon young women and girls.

ARMY OFFICERS HAVE SOME RIGHTS, SAYS JUDGE

In Granting Writ of Habeas Corpus for Inmate of Insane Asylum. WASHINGTON, D. C., Feb. 2.—A novel decision today was rendered by Judge Anderson in criminal court, in overruling a motion of District Attorney Baker to quash a petition for habeas corpus filed by Major Frank B. Andrews, U. S. A., retired, to secure his release from the government hospital for the insane in this city. Judge Anderson declared that a man did not relinquish all rights to his body and soul when he entered a hospital for the insane in this city.

ACTOR VISITED MRS. GOULD IN HER ROOM. Hotel Employees Give Evidence of Her Relations With Dustin Farnum. NEW YORK, Feb. 2.—Two more depositions taken on behalf of Howard Gould in the suit brought against him by his wife, Katherine Clammon Gould, for a separation, were filed tonight. They were those of James D. Clark, a bell-boy, and Clarence Fulton, a waiter, employed at the hotel Carroll, in Lynchburg, Va. They were taken before William C. Arnold, the referee appointed by the supreme court.

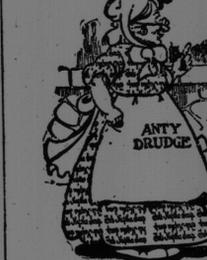

GREAT DISTRESS IN CALABRIAN MOUNTAINS. Special Relief Being Sent at Once—Village Buried 250 Feet Deep—Shocks Cause. ROME, Feb. 2.—Such distressing reports have been received from Calabria, which have been inadequately reached by the work of the large relief committee, that the Ambassador Griscorn has decided to send a special relief party to those regions. This party will include Nelson Gay, of Boston and Earl Dodge, Mr. Griscorn's secretary and it has been given \$5,000 for distribution together with an abundance of supplies. Other supplies will be forwarded from Rome according to the state of affairs.

CHILD KILLED BY THE DOG HE WAS PETTING. Boston Terrier Grabbed Two Year Old Youngster by the Neck and Worried Him to Death. NEWBURYPORT, Mass., Feb. 2.—Two year old Bert Leadbetter's fondness for dogs resulted in his death today, the child dying within a few minutes after being shaken by a Boston terrier owned by the child's uncle. His spine was broken and the nape of his neck badly lacerated by the dog's teeth, before the uncle, John P. Colby, best the terrier away from the child. It is understood that the police authorities will take no action in the matter, the medical examiner having stated that he will not proceed. Mr. Colby has not yet determined whether the dog will be killed.

TWO HURT AT MAGGAN. AMHERST, N. S., Feb. 2.—A very serious accident occurred today at Jubilee coal mines about three miles from Maggan station, when Peter Murphy, underground manager, and his oil cutter, Charles Ackles, were seriously crushed. The two men were working at the foot of a new slope which has just recently been opened, when a car loaded with coal broke away from its chain and ran back crushing them beneath its weight.

REPROACHES A CORPSE. Man Says Dead Brother Brought Disgrace Upon the Family. PARIS, Feb. 2.—A painful scene was witnessed in the operating theatre of the Faculty of Medicine in Lille last night. A man made his way through a group of medical students and entered the amphitheatre, where the bodies of the four bandits executed at Bethune, were lying, with the severed heads.

SO DOES ANTY DRUDGE.

Mrs. Nuoman—"I tell you, Anty Drudge, I believe in the emancipation of women from the drudgery of housework." Anty Drudge—"So do I, but joining clubs and making speeches will never do it. The way to get rid of drudgery is to find better and easier ways of doing the work. That's why I'm telling women how to wash clothes with Fels-Naptha in lukewarm water. It takes all the drudgery out of washday."

Many a bad cold has started over the wash tub. Use of hot water does that. Steam opens the pores of the skin; then the change to a cooler temperature causes the cold. If you want to avoid this danger, do your washing with Fels-Naptha soap in lukewarm water.

No boiling! No nauseous odors! No steaming sud! Fels-Naptha loosens the dirt while the clothes soak in lukewarm water and does it far more thoroughly than boiling. Then you rub the clothes lightly, rinse in lukewarm water and your washing is done.

Especially successful with flannels, woollens and colored things. Clothes are cleaner and whiter, too. And they last longer. No boiling to weaken them. No hard rubbing to wear them out. Be sure to get the genuine Fels-Naptha and follow directions on the red and green wrapper.

A. tonight.

Propose That Strikers and Workers Divide Time. SOUTH NORWALK, Conn., Feb. 2.—A new and unique plan for the assistance for the haters who are employed in the closed-down plants of the Associated Hat Manufacturers, which are to resume next Tuesday on the "open shop" plan, was brought forth here today. The proposition is for the strikers and the employees of the factories outside the association to divide up work. To do this, it is proposed that the employees of the independent shops work during the morning and allow the strikers to fill their places in the afternoon. Some of the members of the trade express the belief that the independent shop-owners would not object, as they are rushed to the limit with orders. If the strikers are enabled to work part of the time, it will not be so easy for them to call on the treasury for financial assistance.

LOCAL NEWS

During the absence of Mayor Bullock at Ottawa, Deputy Mayor Holder is doing the honors at city hall.

The regular quarterly meeting of Saint Andrew's Society will be held on Thursday evening, February 4th, at 8 o'clock, in the Old Fellow's Hall.

You can go to extremes in style at a limited price if you order a suit or overcoat at C. B. Pidgeon's store. Young men may please make a note of this suggestion.

About twenty five young people of the North End enjoyed a delightful drive to Newcomb's last evening. After returning to the city they went to the residence of B. W. Wilson, 74 Kennedy street, where supper was served. Games and other amusements were indulged in.

A good programme is being prepared by the Exmouth street quartet for the concert to be held in the Seaman's Institute on Thursday evening at 8 o'clock. The four pictures presented by the London Art Union will be on exhibition in the rooms on that evening.

One of the course lectures of the Ladies' Association of the Natural History Society will be given in their rooms on Union street, on Thursday afternoon, at 4 o'clock. The subject will be "Schools of Fishes" by Mrs. R. Chipman Skidmore.

The members of the common council will attend the funeral of the late Major Grant in a body. A special meeting will be called half an hour before the funeral when a suitable resolution will be passed.

Rev. Thomas Marshall, secretary of Home Missions for the Methodist church, passed through the city today on return to his home in Backville, having completed a tour through Woodstock, Edmundston and other places in that vicinity.

IN THE COURTS

In county court chambers this morning the defendant in the case of Frost and Wood Co. vs. Frank Gorham was examined. A judgment was recovered against him by the plaintiffs in the city courts sometime ago, and this morning proceedings were devoted to the examination as to what property he has. Before his honor gave his decision the matter was compromised. John B. M. Baxter appeared for the plaintiffs and H. W. Robertson for Graham. Mr. Robertson took a preliminary objection as to the service of the order, but was overruled.

PROBATE COURT.

The passing of accounts in the estate of the late James Murphy, victualler, was resumed this morning in the probate court from last Wednesday. Admittance was made at 1 o'clock this afternoon at 1.30.

POULTRY SHOW WAS OPENED THIS MORNING

Four Hundred Birds on Exhibition

All Classes Well Filled and the Event Promises to be Very Successful—Speeches Tonight.

One of the finest collections of poultry exhibited in St. John in many years is shown at the poultry show under the auspices of the N. B. Poultry Association, which opened this morning in the Essex building. Over four hundred birds are on exhibition and the lot is indeed a splendid one.

A Star reporter paid a visit to the show this morning and was surprised to see so large a number of exhibits.

The regular premiums at the show are \$1.00 for each prize winner, cock with also blue, red and white diploma. The special prizes include cash, silver cups and merchandise to the value of \$150.

All the classes were well filled at ten o'clock, when the doors were thrown open. Many poultry fanciers were on hand and all expressed themselves as greatly pleased with the stock shown.

In the Minorca class a large number of birds are entered. These include exhibits from J. W. Lettney of this city, and Mr. Hatfield, of St. Martins.

In another class, which is slated to be the strongest shown here, entries are on hand from Messrs. H. C. Lemmon, W. P. Kierlin, Alfred Burley, Frank V. Haman and Wm. Hatfield.

About twelve birds are shown in the Barred Plymouth Rock class. The exhibitors include Messrs. Haman, Bain, Cosman and Kierlin.

The White Rock hens are especially good, some thirty fowl being on exhibition.

Entries are shown from Messrs. Finlay, Hatfield, Warren, Jackson and Haman.

In the White Wyandotte class Messrs. Vincent and Jackson are the exhibitors.

There are about eleven entries in the Golden Wyandotte class. J. W. Lettney and H. C. Lemmon are the main exhibitors.

Mr. Lemmon is also showing ten birds in the Silver Wyandotte class.

In the Rhode Island Red the entry list is especially large, about fifty being shown. These include exhibits from Messrs. Kellom, Lemmon, Burley and Holman.

In the Buff Orpington class twenty birds are on exhibition. Entries are shown from Messrs. Barton, Haman, Hector, Hatfield and Burley.

In the S. Hamburg class the exhibitors are Messrs. Hector, Newcombe, O'Leary and Barton.

Eight entries are shown in the Honington class. Messrs. Clarke and Doyle are the largest exhibitors.

In the Dorking class H. M. Jackson has the largest exhibit. Wm. Jackson and John Bain show large exhibits in the Cornish Indian Game class.

Entries in the other classes include: Buff Wyandotte, Jackson; Langsham, D. Doyle; White Indian, James and Bain; Light Brahma, John Bain and Z. Clark; White Face, Lemmon and Craig; Columbian Wyandotte, Burley and O'Leary; Partridge Cook, James Brown; Briff Cock, Hatfield; Rosecomb Shik, Minorca, Bain and Burley; Blue Andalusian, Doyle, Clarke and Lemmon; young S. C. Brown Leghorns, Warner, Scott, Campbell; young Leghorns, Lemmon and Black; black old game, bantams, Scott and Vincent; golden duck wing, Scott and Vincent; old Fife, O'Leary; black red Zylke, Jackson; Pidgeon, Lemmon and Lettney.

The show will be formally opened this evening when speeches will be delivered by prominent citizens. Judging from the interest shown this show will be a great success.

John A. Scott, of Broad street, is the superintendent of the show, and states that he has never seen a finer gathering of poultry.

TAG DAY RALLY IN KEITH'S ASSEMBLY TOMORROW

Volunteers Are Needed to Tie the Tags—How the Campaign on the 13th is to be Carried On.

There appears to be some uncertainty as to the methods to be adopted by Free Kindergarten workers on Tag Day, and the idea that the proceedings may demand a certain boldness is liable to influence some ladies who might otherwise gladly volunteer their services. A few have the impression that it is the duty of workers to tag everyone whether they wish it or not, to surprise them as it were, and then demand money. There is no foundation for this belief. Nobody need be tagged unless they desire it. The workers first request permission to tag whoever they may meet, and, this being granted, the tag is looped over the button and the bank held out to receive whatever contribution may be offered. There is no occasion for boldness.

Tomorrow will be the first tag rally day for preparing the tags. Early in the afternoon all friends of the free kindergartens are asked to meet without special invitation, at the Keith Assembly rooms. There are fifteen thousand tags to which cards must be attached, and for this work all the helpers who can possibly arrange to attend will be required.

Other preparations are coming along well and the tagging process promises to be productive of much success financially.
