DIRECTORS, &c.

Hon, ALEXANDER MACFABLANE, Senator, Wallace, Nova Scotia, President. HON, ROBERT BARRY DICKEY, Senator, Amberet, N. S. CHARLES H. M. BLACK, Esq., Merchant, Halifax, N. S.

LT. Col. CHARLES J. STEWART, Amherst, N. S. ALLXANDER ROBB, Esq., Proprietor Amherst Iron Foundry, Amherst, N. S. TREASURER-JAMES S. HICKMAN, Esq., J. S. Hickman & Co., Merchants, Amhers', N. S.

SECRETARY-WM. J. MOFFAT, Esq., Barrister, Amherst, N. S. Bankers-Bank of Nova Scotia, Amherst Branch; and Bank of New Brunswick, St. John, N. B. OFFICE-Mr. W. J. MOFFATS Office, Amherst, N. S.

The Company have acquired, by purchase, three leases from Government of Nova Scotia to Hon Alex. Macfarlane, of one square mile each, of the richest coal deposits in Canada, at Spring Hill, Cumberland County, Nova Scotia, renewable until August, 1896 Royalty 10 cents per ton of 2.240 lbs.

Five seams and upwards, of varying thickness from 2½ to 13 feet, are known to exist within these areas, which comprehend (exclusive of a portion of the General Mining Association reserve) nearly all the coal yet discovered in this well known district. Of these, one, known as the 11 feet seam, has been opened, and several hundred tons raised by a slope sunk only 25 feet from the surface, and has been proved by test pits about 1½ mile at an average of 10 feet from the surface, and preserving a thickness of 10 feet for two thirds of that distance. The slope has lately been carried down to the depth of 95 feet, exhibiting a marked improvement in the quality of the coal, described by Sir Wm. Logan, from specimens near the outcrop, as "an excellent coal, superior to any of this continent yet known." A moderate estimate of the quantity would give as the yield from this seam alone, half a million tons annually during the lease. The larger seam has been exposed by a trial pit within the areas; the smallest of 2½ feet, is believed to contain a valuable gas coal, and it is a fair geological inference that all these beds of coal will be lound in their proper position. Thus several distinct colleries may be leased to individuals or companies.

beds of coal will be found in their proper position. Thus several distinct coalcalled by be leased to individuals or companies.

A branch railway of 3½ miles has been surveyed, and steps are being taken for its construction to connect the property by a down grade with the Intercolonial Railway, at a point 21 miles from the head of the Bay Fundy and contemplated Bay Verte Canal, and 13 miles from a shipping place at the mouth of Maccan River, half a mile from the Intercolonial, where vessels drawing 13 feet of water may load. Until the opening of the Intercolonial, between Truro and Amherst, next autumn, the coal will be hauled 4 miles to Black River Station.

From the nearness of the outcrop to the surface, and the seams lying on high and

descending ground, securing easy drainage, it is considered that these seams may be most economically worked.

The freight of a ton from the head of Bay Fundy to Boston or New York is about 75 cents less than from Pictou or Sydney—of itself a good profit, while the difference to 55 the profit of the 100 cents for the profit of the profi

St. John is fully \$1 00.

The Spring Hill coal is well adapted for house, steam and smelting purposes. Situ ated within 37 miles by rail of the lodes of brown hematite and micaeous iron ore of the richest quality, known as the Acadia iron ore, of Londonderry, it is difficult to assign limits to the quantity of ore likely to be taken to Spring Hill, for smelting by a coal unusually free from sulphur. The large proportion of carbon renders it eminently adapted for manufacturing coke, which, with the coal itself, must be extensively used in the iron and steel works at Londonderry, as well as the Machine shops being erected for the Government railways at Moneton.

The portion of the Intercolonial between Truro and Amherst is now being ballasted with engines driven by Spring Hill coal. It is understood that the line between Truro and Newcastle, if not the whole line to St. John, a distance of 280, miles will shortly be worked in the same way, and the local demand between these points, already large, is steadily increasing.

be worked in the same way, and the food extended to the worked in the same way, and the food to stand the same way. The same way are the same to St. John, Yarmouth, and other lower ports, through the Bay Verte Canal, when completed, may have return cargoes of coal to Quebec, Montreal or Toronto.

From all these sources of traffic, an addition to the Western part of Nova Scotia, the New England ports and New York, it is assumed that an unlimited market will be afforded.

Additional means of shipment will be afforded by the contemplated railway to Parrsboro—a port open at least ten to eleven months in the year—for which the Nova Scotia Legislature have provided large subventions. The estimated cost per ton for raising, handling, and putting on board ship, say at mouth of Maccan river, is about as follows:

Railwa	y transportation, loading and royalty	
	Cost on board	
	Cost	
	totou and Sydney coal can be shipped to Boston and New York at paying price fall to be highly remunerative to send a better article from Spring Hill, with stage of 75 cents in freight. The local traffic would yield a high rate of	л.

Taking the low average of only 80 cents per ton, inclusive of repairs of machinery Taking the low average of only 80 cents per ton, inclusive of repairs of machinery, &c., and assuming only 100 000 tons as the annual production at first, we have a gain al 20 per cent. on the capital, which might be much augmented by the rent of other leams, as suggested. From the thought high character of this coal, and the facilities for raising it cheaply, this quality, it is confidently believed, might ere long be doubled or trebled, and a large rate of profit secured even with considerable increase of capital.

TESTIMONIALS.

Extracts from Reports of Messrs. Woodhouse and Jeffcock, Mining Engineers, London and Derby, G. B., (January 2, 1866)

The Coal Field which we have carefully examined, and which is the subject of this Report, is situate in the county of Camberland, in the province of Nova Scotia. It is generally described as the "springhill' Coal Field, but in reslity it is a part of the great Camberland Coal Field, The first or upper seam we found to be a bed of remarkably good coal, presenting a very may 29

Address--THE TRIBUNE OFFICE, Prince Wm. Street

when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation. Dougald McLachlan & Sons

without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these Pills rapidly cure:—

For Dyspepsia or Indigestion, Listlessness, Languor, and Loss of Appetite, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Billious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhoea, but one mild dose is generally required. diseased action of remove the obstactions which cause it.

For Dysentery or Diarrhea, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back, and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression, a large dose should be taken, as it produces the desired effect by sympathy.

pathy a Dismer Pill, take one or two Pills to Promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. Dr. J. C. AYER & CO., Practical Chemist LOWELL, MASS., U. S. A. SALE BY ALL DRUGGISTS EVERYWHERE MEDICAL HALL

H. L. SPENCER, Medical Warehouse 20 NELSON STREET, ST. JOHN, N. B., General Agent for Muriti no 2 ov ace **市 資産網** HALL'S

VEGETABLE SICILIAN HAIR RENEWER. ITS EFFECT IS

MIRACULOUS It is a perfect and wonderful article. Cures baidness. M. kee hair grow. A better dressing han any "cil" or "pomatum" Softens brash, thy and wiry hair into Beautiful Silken Tresses. Above all, the great wonder is the rapidity with which it restores GRAY HAIR TO IT: "RIGINAL COLOR.

The whitest and worst looking hair resumes its youthful beauty by its use. It does not dye he hair, but strikes at the root and fills it with uew life and coloring matter.

The first application will do good: you will see the NATUAL COLOR returning every day, and day, and BEFORE YOU KNOW IT,

the old, gray, discolored appearance of the hair will be gone, siving place to lustrous, shining and beautiful locks.

Ask for Hall's Sicilian Hair Renewer; no other article is at all like it in effect.

See that each bottle has our private Government Sramp over the top of the bottle. All others are imitations. R. P. HALL & CO , Nashua, N. H., Propriete For sale by all druggists. H. L. SPENCER,

MEDICAL WARHOUSE, 20 NELSON STEERT, St. John, N. B., General Agent for Maritime Province, june 1 Nursery Rhymes, No. 9.

A very lean pig, on a windy day, Stood alone by a garden gate; He couldn't get in, for the gare was locked. And sadly he moaned o'er his fate. Then he wiped his eyes with a curl of his tail,
And gracefully stood on his ear.
And a trembling tear coursed down his spine.
Till his face turned the color of cuir. His snoot grew flat, and gray were his looks, When a knot-hole round he esp ed: And he sat on the silken folds of his paw. And peered through that loop hole wide. He saw the sun in a golden beam, Glint its rays on a bucket of mash, And his percine feelings weiled upin his breast And he went through that bole with a dash

Then his optic fell on some CATTLE SPICE,
As he glanced o'er the garden green;
And he smacked his lips and distended his
jaws.
With a relish uncommonly keen. He loaded his skin till it cou'dn't hold more And his sides began to expand His fore got cheeky; stort grew his limbs, And he left for his native land. He reached the hole at the side of the gate And jumped for that circular crack
When his febrile pulse felt a normal shock
And he fell on the broad of his back. And the Coroner sat on the fat remains
Of hat porker in his pride:
And this was the verdict the Jury gave:
"Died from a swelled inside."
—Hogg's Tales, SIMPSON'S CATTLE PICE will produce all this. For sale in any quantity at the Phar macology.
