WE regret to announce to our subscribers and friends the total destruction of our Printing Office in New York, on Christmas Eve. This event will necessarily cause a postponement in the delivery of our January Reference Book. We have, however, duplicated Manuscripts of the entire work, in our numerous branches, so that although the fire is a very great calamity to us, the delay in issuing the book is the ohief feature involved in it. We shall immediately commence the work again, and respectfully ask the induspence of subscribers under these calamitous circumstances. The preparation of new type, the press-work, composition and binding, will, with every exertion we can make, occupy im, but we think that we may safely promise that the delay will not exceed two months at the utmost, and in the meantime the detailed information on our Office Records (the foundation of all the ratings) is freely at the services of subscribers.
