DISTRICT AND GENERAL

Yesterday was observed as civic holiday in Wardsville.

A freight train, wheat-laden, left Newton, Kan., in two sections of 300 cars each.

A woman at Sarnia has been fined \$1,000 or six months in jail for selling liquor.

During the first four months of this year 600 persons were killed at railroad crossings in the United States.

The village council of Dutton has fixed the tax rate this year at 37.4 mills, which is 5.6 mills less than last year.

A man convicted of picking pockets on a Windsor ferry has been arrested 300 times during the past five years.

A Chatham man was fined \$2 at Wallaceburg for running his car over the fire hose which was being used at a recent fire.

Lightning struck the house of Dugald Reader, of Alvington, damaging one corner of the roof and tearing part of the eave away.

Mail bags are now picked up by aeroplanes in full flight by means of a hook which seizes the rope to which the bags are attached.

A two-year fight at Chicago to save the life of a dog that had bitten several children ended in his owner's defeat and the dog was put to death.

A section of Dunwich was recently visited by a heavy downpour of rain which flooded the fields and did considerable damage, especially to the bean crop.

Alex. McDougall, son of Mrs. Dan McDougall, of Alvington, received a fractured hip in Detroit last week when the car in which he was riding collided with another.

A New York woman who died left a will providing that \$15 per week from her estate should go to the maintenance of three dogs, and \$10 a week to the maintenance of her mother.

The Canadian Forestry Association claims that there were 6,000 forest fires in Canada last year, and that 5,400 of them were due to smokers, campers and others who use the woods for work or play.

The residence of Cecil Scott, east of West Lorne, was destroyed by fire a few nights ago. Mr. Scott, who was alone in the house, made his escape through a window. House and contents are a total loss.

Telephones which speak messages loudly enough to be heard 30 feet away and into which messages may be spoken from the same distance are a new "time-saver" in factories and other large establishments.

The State Legislature of Louisiana has passed a law to the effect that marriage licenses in that State shall not be issued except to those who have physicians' certificates declaring that they are physically fit.

The honey crop of the Province of Manitoba is returned at 3,041,712 lbs. for the year 1923, with an average market value of 15 cents per lb. on the farms, making a total return to the farmers of Manitoba of \$456,256.

The fire insurance stock companies have made an increase in their rates on farm property of thirty-three and a third per cent, also an increase of 15 cents on \$100 on mercantile town rates. The new rates came into effect on August 1st.

A week or two of dry weather is urgently needed throughout the greater part of Ontario if the grain crops are to be harvested in the best of condition. The situation is rather serious in some sections, though on the whole no very general damage is feared.

Traveling with the speed of a rifle bullet, a small stone lodged itself in the wall of the M.C.R. station at Dutton after crashing through the window and grazing the neck of Agent W. H. Paterson. The stone was hurled with terrific impact by an express train as it passed the station.

John A. Auld, who for twelve years represented South Essex in the Provincial Legislature, died at his home in Amherstburg on Sunday. Mr. Auld was born in Watford in 1853 and for fifty years published the Amherstburg Echo, which he founded. He was a Liberal in politics and during his career was warden of Essex county and reeve and mayor of Amherstburg.

Patrick Campbell, farmer and cat, the buyer of Dunwich township, had a narrow escape recently when his automobile was struck and completely wrecked by a fast freight train near Iona Station.

While crossing the M.C.R. and Pere Marquette tracks his attention was taken up with a passing freight train on the M.C.R. After it passed he started up his car and was crossing the Pere Marquette track when he was hit by the fast freight which apparently had escaped his notice.

THE CANADIAN WOOL TRADE

In the sheep-raising districts of Canada shearing has been completed and the clip is said to be more satisfactory than in 1923. The total wool production in Canada in 1923 from 2,755,273 sheep and lambs was 15,539,416 lbs. In this industry the Province of Ontario led with a production of 5,024,339 lbs., followed closely by Quebec with 4,682,602 lbs.; Nova Scotia came third with a production of 1,455,585 lbs. and Alberta next with 1,387,247 lbs. The total value of the 1923 wool clip on the basis of 23 cents per lb. to the grower was \$3,574,000, the highest aggregate recorded since 1919. In 1922 the average price was 17½ cents, and in 1921 it was 13 cents, the lowest during the post-war period. Wool-growers and manufacturers of woollens believe that the price of raw wool will continue to be firm. In Ontario, Quebec and the Maritime Provinces, wools have been coming into the market freely, and from the ranches in the West shipments are also beginning to arrive. It is anticipated that a large proportion of the clip will be absorbed this year in Canada. More Canadian wool is now finding its way into the British market than before, but the United States is limiting its purchases, although in the latter country the production of wool is less than 300,000,000 lbs. per annum, while the normal consumption is 700,000,000 lbs.

APPIN GARDEN PARTY

Appin, Aug. 13. Despite threatening storms and occasional showers Appin's annual community celebration was carried out strictly according to schedule on Wednesday afternoon and evening, August 6th. Afternoon sports included a softball game between Cheerio and Appin, teams in which the latter proved victorious. A baseball game was also played between Dutton and Appin, Dutton winning by 7-3. Heavy rains between afternoon and evening programs did not prevent nearly a thousand people gathering to hear what was considered as one of the best programs yet presented on this occasion. The Maple Leaf Quartette was acceptable in its numbers as on previous occasions. Duncan Cowan, entertainer, and Thelma Oswin, dancer, were also decidedly entertaining. Every number receiving hearty endorsement. The best testimony to the quality of the program was the fact that the people stopped through the showers to listen. Music was furnished before and after the program and during intermission by the Melody Eight Orchestra. Ernest Dennis, of London, performed the duties of chairman very acceptably.

WAYSIDE FRUIT TREES

If a bill introduced in the British House of Commons becomes law, Mr. Gosling, Minister of Transport in the Labor Government, will be empowered to plant trees and shrubs by the roadside. Sir Charles Yates, M.P., suggested that apple trees should be chosen, but other members offered the objection that the boys would never let the fruit ripen. But a contributor to the London Daily Mail wonders if the objection is well taken, since it does not take long to develop a civic sense even in boys once they know and realize that the trees belong to themselves. In support of this view he instances how the scheme works in many parts of the continent, notably in Hanover. There the trees—cherry, plum, peach, green gage, apple, pear—are planted at short intervals and properly pruned and attended to by a local official. When the fruit of each kind of tree is nearly ripe, a local auction is held; every citizen has a chance of bidding for the fruit. He or she may buy a whole tree, or a group of trees, or join with a friend to share the produce of a tree. The price—never very high—goes to the community and more than pays the upkeep. Until ready to pick, the fruit hangs temptingly over the passerby, and there is no objection to his eating a casual cherry or pear. There are so many trees that no one dreams of really raiding them. After the auction, the buyers mark their own tree, gather the fruit, eat or preserve it, or even sell it. Once stripped, the tree reverts to the community till next summer.

A country walk in Hanover must be a wonderful experience in blossom-time.

COAL SHIPMENTS POSTPONED

Coal shipments from Alberta to Ontario on the experimental basis proposed under a vote of Federal Government assistance will not be undertaken this year. For lack of time in which to make the necessary arrangements, the scheme will now have to wait over until another season.

BABY GIRL FATALLY SCALDED

Eileen Pole, aged twenty months, daughter of Mr. and Mrs. Alex. Pole, of Ekfrid, died on Saturday evening as the result of injuries received when she fell into a bucket of scalding water about 11.30 on Saturday morning.

Mrs. Pole was preparing to scrub the kitchen floor at her home, and had left the pail of scalding water sitting on the floor while she went for some cold water to put into it. Little Eileen apparently overbalanced and fell into the water.

Funeral services were held at the home on Monday afternoon, conducted by Revs. Whitehall, of Glencoe, and Motyer, of Appin, Methodist ministers. Interment was made in the Eddie cemetery.

BALL GAME PROTESTED

Appin and Delaware were tied for first position in the West Middlesex baseball league, and what was to have been the final play-off took place at Strathroy on Saturday afternoon. However, a protest has been entered by Appin on the ground that Delaware had non-resident players in their team. The game at Strathroy was one of the snappiest of the season, and the gate proceeds were exceptionally good. Score, 5 to 4, in favor of Delaware.

GLENCOE BRASS BAND

A number of the young men in town are making an effort to re-constitute the Glencoe brass band which has been out of existence for several years. The uniforms and nearly all of the instruments of the defunct band are in the keeping of the municipal council and will no doubt be handed over to the members of the new band as soon as organization is effected. The young men interested are deservingly of credit for their enterprise and no doubt will be given every encouragement by the citizens.

NUMBERING THE HIGHWAYS

Commencement will be made by the Ontario department of highways next month on the work of carrying into effect Hon. Geo. S. Henry's scheme of numbering the provincial highways, also the erection on these highways of municipal, township and county boundary signs, as well as direction and danger signs. These signs will be painted white with black lettering.

The highway number signs are expected to be a big aid to motorists on tour, as it will enable them to know at all times if on the right road. Those approaching dangerous curves and other spots requiring special care in driving will be warned by signs erected at least 300 feet away.

One of the most important steps to be taken in this connection will be the erection of danger signs placed 300 feet away from all railway level crossings.

18,000 MEN WANTED TO HARVEST WESTERN CANADA'S CROPS: TRAVEL BY THE FASTEST ROUTE.

The special harvesters' trains of the Canadian National Railways from all Ontario points as advertised will make the fastest time to Winnipeg, operating via the new Longlac cut-off, the shortest route between Eastern and Western Canada. Harvesters travelling by this route will, as a consequence, be first in the field. The first train leaves Toronto one minute after midnight of August 21st (12.01 a.m. August 22nd). The fare is a flat rate of \$15 to Winnipeg and half a cent a mile beyond. Returning the fare is a half a cent per mile into Winnipeg and \$20 back to starting point.

Through solid trains will be operated to Winnipeg without change, consisting of convertible (berth) Colonist Cars of latest design. Lunch counter cars will be attached to trains, serving food and refreshments at reasonable prices. Purchase your ticket to Winnipeg via Canadian National Railways, no matter whether your final destination is a point on the Canadian National or not. For fares, train service, etc., apply to nearest Canadian National Agent.

Following directly on the heels of a boost in the cost of flour to the bakers, the price of bread has been raised in London to 10 cents a loaf. This is an increase of one cent per loaf. The boost in price has caused general dissatisfaction among the grocers of the city, who believe the movement was somewhat hasty, in view of the fact that local bakeries have contracts for flour at the old prices which will not expire for some months.

Say it in The Transcript.

DEATH OF MRS. HUGH CURRIE

The death occurred at her home in Glencoe early Friday morning of Florence E., wife of Hugh H. Currie, contractor, of Detroit, in her 50th year.

Mrs. Currie had been in ill health for several years, yet her death came quite unexpectedly. She was a daughter of the late Mr. and Mrs. Wm. Deatly, of Brantford and more recently of St. Thomas. Mr. and Mrs. Currie have been married some 32 years and made their first home on a farm in Moss township, afterwards moving to Chicago, thence to Detroit, after which Mr. Currie purchased the home in Glencoe. There is no family, but two sisters survive, Mrs. Joseph Cloonan, of Chicago, and Mrs. Clarke, of Pasadena, California.

Mrs. Currie was well known in the community and had many friends as was indicated in the numerous floral tokens of sympathy sent to the home. Funeral services were conducted on Sunday afternoon at the house by Rev. A. S. Whitehall, pastor of the Methodist church, and interment was made in Oakland cemetery. The pallbearers were J. D. Brown, A. B. McDonald, J. D. Smith, B. F. Clarke, A. B. Gillies and Dugald Gillies.

MAKING THE PUBLIC PAY

A Montreal paper calls attention to an item of \$7,000 in the supplementary estimates to assist in maintaining the parliamentary restaurant at Ottawa. This must mean that the restaurant is not self-sustaining. It could be made self-sustaining by charging enough for the service given. It is more convenient, of course, to make the public pay. Isn't that what the public is for?—Woodstock Sentinel-Review.

METCALFE COUNCIL

Meeting of Metcalfe council held August 4, 1924. Members all present. Minutes read, approved and signed. On motion of Blain and Morrison the usual orders were paid.

Moved by Moyle and Rowe that the clerk write the engineer to make an examination of the Davis drain and that the commissioner have the drain repaired in accordance with his report.

Moved by Rowe and Moyle that Mr. Morrison be appointed to have the Cadman drain completed at an early date, with power to re-let same. Council adjourned to Saturday, August 30th, at 1 p.m.

Harry Thompson, Clerk.

WATFORD OLD HOME WEEK

AUGUST 17, 18, 19, 20

Fiftieth Anniversary of Incorporation to be Fittingly Commemorated by Joyous Home Coming of Old Boys and Girls

"FUN FOR ALL; ALL FOR FUN"

\$5,000 Being Expended to Provide an Abundance of Amusement and Entertainment for the Thousands of Visitors

Old Home Week in Watford, on Sunday, Monday, Tuesday and Wednesday, August 17, 18, 19 and 20, will be red letter days in East Lambton, when hundreds of former residents, not only of Watford but surrounding district, will return to their former homes to live over again the bygone days, visit their old schoolmates and friends of former years, and at the same time assist the present citizens of Watford to appropriately commemorate the Fiftieth Anniversary of the town's incorporation.

Over \$5,000 is being expended by the committee in an endeavor to stage a reunion that will provide amusement and entertainment for every visitor's taste. There will be no cessation of merry-making; although the program announces events only from morning until midnight, 24 hours service for all fun-making will be maintained throughout the week.

Everyone will note the admission prices with agreeable surprise, the reason for the low prices being to encourage daily visits, rather than one day. Therefore children under 12, each day, 15 cents. Adults, afternoon or evening, 35 cents, with the exception of Wednesday afternoon, when adult admission will be 50 cents, which includes the horse races for a purse of \$1,000.

See large posters and programs for complete information. Citizens of Watford extend a cordial invitation to citizens of neighboring towns and countryside to join with them in this joyous occasion. Come yourself; bring your friends. No high prices; good parking spaces; adequate meal facilities, etc., will also tend to make Old Home Week a most enjoyable remembrance.

OFFENSIVE AGAINST DISEASE MUST BE STRATEGY OF MEDICAL SCIENCE IN FUTURE

Sir David Bruce, President of the British Association for the Advancement of Science, Gives Brilliant Address on Prevention of Disease.

A despatch from Toronto says:— change is widely accepted, but already Science plays an important, though, perhaps, secret part, in the life of every citizen, and it was in appreciation of that fact that a large number of Toronto people turned out to Convention Hall to attend a fine send-off to the inaugural meeting of the British Association for the Advancement of Science, and to hear Major-General Sir David Bruce, president, give an outline of the recent advance of medical science.

Sir David's address was so extensive in its scope that it is impossible to indicate its content in a few words, but in addition to challenging modern medicine to take the offensive in the battle with disease, he stressed, among other things, the necessity of spending money to provide the inhabitants of modern cities with hygienic surroundings; the responsibility of the individual citizen to accept vaccination of his children; the importance of the widespread application of the new knowledge about the life-giving vitamins to diet, and the need for still more energetic attacks on tuberculosis, a disease which he thought would be conquered ultimately, given the whole-hearted co-operation of all health-promotion forces.

"Medicine in future must change its strategy; instead of awaiting attack it must assume the offensive," said Sir David. "It must no longer be said that the man was so sick he had to send for a doctor."

"The medical practitioner of the future must frequently examine people while they are apparently well, in order to detect any incipient departure from the normal, and to teach and urge modes of living conformable to the laws of personal health, and the public health authorities must see to it that environment is in accordance with scientific teaching."

"It may be a long time before the

change is widely accepted, but already Science plays an important, though, perhaps, secret part, in the life of every citizen, and it was in appreciation of that fact that a large number of Toronto people turned out to Convention Hall to attend a fine send-off to the inaugural meeting of the British Association for the Advancement of Science, and to hear Major-General Sir David Bruce, president, give an outline of the recent advance of medical science.

"It is one of the first duties of those in power to see that their people have, in addition to houses with plenty of light and air, a good water supply and a good drainage system," continued Sir David. "Money cannot be spent to better advantage than in the attainment of these three essentials to health."

Dealing with still another subject, money to provide the inhabitants of modern cities with hygienic surroundings; the responsibility of the individual citizen to accept vaccination of his children; the importance of the widespread application of the new knowledge about the life-giving vitamins to diet, and the need for still more energetic attacks on tuberculosis, a disease which he thought would be conquered ultimately, given the whole-hearted co-operation of all health-promotion forces.

The natural fruits of the earth were not deficient in these life-giving substances, but much of civilized man's food was deficient. "It is only when man begins by artificial means to polish his rice, whiten his flour, and tin his beef and vegetables that the trouble begins," said the president.

Sir David brought his address to a close with an eloquent plea for international co-operation in the field of science. "Science, indeed, knows no boundaries of nations, languages or creeds. It is truly international. In spite of interruptions, it is the duty of science to go on steadily forward, illuminating the dark places in the hope of better times."

FAMOUS INVENTOR ATTENDS MEETING OF SCIENTISTS
Left to right: Col. H. Chase, commandant of the Royal 22nd Regt., Quebec, with Sir Charles Parsons, inventor of the steam turbine.

Dominion News in Brief

Charlottetown, P.E.I.—The Potato Growers' Association are taking steps to secure a supply of labor to handle the greatly increased potato crop of the Island, which promise to yield a 300 per cent. crop, as compared with last year, on account of the increased acreage. It is expected that 9,000 acres of certified seed potatoes will be harvested.

Halifax, N.S.—Greater Halifax has today the largest permanent population in its history, according to figures given out following a careful check for directory purposes. The total population of Halifax, Dartmouth and suburbs is 70,000, Halifax city alone having 59,575 and Dartmouth 7,647.

Woodstock, N.B.—One boy is rafted every two seconds throughout a nine-hour day at the Nashwaak Pulp and Paper Co. rafting grounds at the mouth of the Nashwaak river. A new series of rafting records have been established during the present season which are believed to have eclipsed anything which has previously been produced by a crew of similar size anywhere in America. A crew of twenty-five men are engaged in the actual rafting in addition to some sixty-five men employed along the river. About twenty million feet of the company's lumber has already been rafted this season and the total clean-up for the season is expected to be twenty-nine million.

Sherbrooke, Que.—More than 350 immigrants have been located on farms throughout the Eastern Townships since the first of the year by the Eastern Townships Immigration Society. Most of the immigrants are English and Scotch, but many come from Norway, Sweden, Denmark, Holland. Positions have been found readily available for all men secured.

Gowanda, Ont.—There is probably greater activity in silver mining in this district and certainly more real mining development under way, than at any time since the discovery of the camp many years ago. For the time being the Castle Tretneway is the main producer with a small milling plant in operation. Production last month was at the rate of about 115,000 ozs., and ore developments continue good.

Brandon, Man.—Fifty more boys from all parts of the British Isles arrived here under the auspices of the Salvation Army and were placed on farms. This is the third party under the Salvation Army immigration scheme to arrive at Brandon, the first two aggregating some two hundred boys, nearly all of whom are now settled on farms in the neighborhood.

Regina, Sask.—Building construction in Saskatchewan actually started during the month of June was valued at \$674,000, an increase of \$114,178 over the month of June, 1923. Building permits in Moose Jaw for the first half of the year totalled \$399,347, and in Saskatoon to \$936,130.

Edmonton, Alta.—Successful strawberry culture three hundred miles north of the international boundary, has been proven by R. A. Gordon, of this city. One hundred plants brought out from Ontario wintered well, blossomed heavily, and produced prolifically a well formed, colored fruit of fine flavor and firmness. Mr. Gordon has likewise had much success with fruit trees, cherry, wild plums, and crab apples.

Victoria, B.C.—Whaling operations this year, according to report, are very successful. Four stations and six or seven whalers are working. Some of the vessels have an average of thirty head so far for the season, and whale oil is finding a ready market in England, whilst whale meat canned has become an established commodity along the West Coast of Africa, the entire British Columbia whale meat pack of last year being sold there.

To Honor Royal Mounted by Fine Stone Memorial

A despatch from Winnipeg says:—On the site of the first Royal North-west Mounted Police headquarters at Old Fort Livingstone, a memorial will be unveiled on Friday by Sir Frederick Haultain, Chief Justice of Saskatchewan.

The memorial, which will take the form of a pyramidal stone column, with a bronze tablet suitably inscribed, is to be erected six miles north of Pelly Station, in a National Park to embrace 900 acres.

Canada's auditor-general, Georges Gonthier, left recently for a well-earned vacation in Europe. The camera caught him just as he boarded the S.S. France.

BRITISH BOYS ADVISED TO SETTLE ON LAND

Science Committee Finds a Wide Field for Them in Canada.

A despatch from Toronto says:—An interesting report on the opportunities for immigrants in Canada, as viewed through the eyes of a special committee of the Educational Science Section of the British Association for the Advancement of Science, was presented on Thursday, and the general trend of it is advice to immigrants to count upon going on the land instead of into industrial or commercial lines. The report stated in part:

"While a boy is at school the problem of his future career seldom troubles him; he is content to wait on opportunity when school days are over. Few boys up to sixteen have any definite ideas or desires on the subject. Unless their parents or friends have places already marked out for them, they tend to follow some prescribed course of study leading up to such examinations as offer certificates qualifying for entrance into the various professions or into commercial life. Thus the school curriculum very often determines a boy's career. In the case, however, of the many boys who show no power or liking for any special school subject, their future occupation depends often on some chance opening. Banks and other offices are full of such young men, yet many of these would, from their character and physical qualities, be far better suited for the more vigorous and freer life on the land overseas."

Ten Years Added to Life in Last Half-Century

In the midst of the dire predictions of what is going to happen to the world if the Dawes report is not adopted comes the comforting assurance from the British Medical Association that babies born to-day have an expectation of ten years more of life than had their grandparents. The assertion is confirmed by insurance actuaries, one of whom said: "A great improvement in longevity has been noticed even in the last few years, as was shown when the institute actuaries revised their table about two years ago. Accurate statistics show that the improvement of mortality for men since 1890 is 20 per cent. and for women 22 per cent."

The editor of "Whitaker's Almanack," moreover, is recasting the tables relating to the expectation of life, which he calculates now more than ten years longer than was the case a few years ago.

Wheat Cutting Started in Sections of Alberta

A despatch from Lethbridge, Alta., says:—Spring wheat cutting started on a 320-acre field at Coaldale on Thursday. The yield is estimated at 25 bushels an acre. Cutting has also started at other points in South-western Alberta and will begin next Monday, except in districts close to the mountains, where the crop is very heavy.

FAMOUS PROFESSORS IN TORONTO FOR MEETING OF THE BRITISH ASSOCIATION
Left to Right: Prof. A. S. Eve, of McGill University; D'Arcy W. Thompson, professor of natural history, St. Andrew's University; Sir George Greenhill, only survivor of the delegation to Toronto in 1884; Sir William H. Bragg, Quain professor of physics, London University.

FRENCH TROOPS TO EVACUATE THE RUHR WITHIN YEAR'S TIME

Paris, Aug. 10.—Premier Herriot returns to London to-night, carrying the approval of the French Cabinet of his intention to settle the issue of the military evacuation of the Ruhr solely in connection with reparations and without regard for the security issue. At a meeting at the Elysee, which ended in the early hours of this morning, no date was fixed for the withdrawal of the troops from the German industrial basin, but the Premier promised to keep them there until Germany had given a fair assurance of her intention to execute the Dawes plan. It is believed here it will be agreed to bring out the Franco-Belgian troops some time in 1925.

The vote of General Nollet, the War Minister, is taken to mean that the Cabinet did not agree to immediate evacuation, and it is reported that a period of one year was set.

London, Aug. 10.—The news from Paris that the French Cabinet has given its "full approval" to Premier Herriot's conduct of the negotiations in London encourages the hope of an early and successful conclusion of the Allied Conference. What decisions the French Cabinet reached are not officially divulged but it is reported here to have agreed to a military evacuation of the Ruhr in return for commercial compensations, and it is also stated that the French have decided not to insist upon retaining the 4,000 French and Belgian railwaymen after the experts' plan has been put into execution.

In the matter of security Herriot seems to have been helped by the assurance from MacDonald that no final decision has yet been taken or would be taken in the near future as to the withdrawal of the British troops from Cologne next January. That apparently is to be made dependent on Germany's loyalty in carrying out the experts' scheme.

HON. FRANK CARVELL DIES VERY SUDDENLY

Chairman of Board of Ry. Commissioners Stricken While Inspecting N.B. Farm.

St. John, N.B., Aug. 10.—Hon. Frank Carvell, Chairman of the Board of Railway Commissioners of Canada, was suddenly stricken at his house in Woodstock on Saturday evening and was found dead on his farm shortly after 5 o'clock. He had arrived from Ottawa at noon and was apparently in the best of health. He set out to walk through the fields, telling the members of his household that he would return at 5 o'clock. As he did not return they went to look for him and found him lying as he had fallen. They believed him unconscious and a doctor was hastily summoned and said that the position of the body indicated that he had died almost instantly.

Mr. Carvell's death apparently was due to heart failure. He was a man of great physique and endurance, but to intimate friends within the last year or two he had intimated that he suffered a little from heart trouble. When he left Ottawa on Friday last, however, he was apparently in good health.

Frank Broadstreet Carvell, in his Parliamentary day one of the most aggressive and fearless of members in the Commons, was born at Bloomfield, Carleton County, N.B., on Aug. 14, 1882. His father was A. Bishop Carvell, a native and a farmer of New Brunswick, and of United Empire Loyalist descent, and his mother was Margaret Lindsay, a native of Ulster, Ireland.

Mr. Carvell was educated in the public schools of New Brunswick and at Boston University, from which he obtained the degree of Bachelor of Laws, and, after reading law with Lewis P. Fisher, K.C., of Woodstock, N.B., he was called to the Bar of his Province in 1909. He practiced law in Woodstock for many years.

In 1899 he entered the New Brunswick Legislature for Carleton County, representing that riding one year, when he resigned to contest the same seat in the Federal Liberal interest. He was defeated, but in 1904 he was successful in his election effort and remained as representative of the riding until his appointment in 1919 as Chairman of the Board of Railway Commissioners.

British Squadron Seaman Drowned at Halifax

Halifax, N.S., Aug. 10.—Nora Shea, 25, Halifax, and Leonard Hickman, 33, electrical artificer of H.M.S. Repulse, were drowned in the Northwest Arm to-night when their canoe upset near the shore by the Pine Hill College. They had been making their way back to the Jubilee Boat Club in company with Madeleine James, of Halifax, and another officer from the Repulse in another canoe and became separated in the fog. Miss James and her escort reached the boat house finally and after a long wait, decided that the others had landed at another boat house. When Miss James reached home she found her family mourning her as dead, it having been reported that her cloak had been picked up with cushions and paddles from an overturned canoe. It transpired that she had loaned the coat to Miss Shea, Call's for help were heard from the scene of the tragedy, but when other boats reached the spot their was no sign of life and only a few floating parts of the canoe's furnishings and the cloak, to indicate what had happened. Hickman's home was in Gillingham, Kent, England.

Square coins, made of a mixture of copper and nickel, are shortly to be issued in Spain.

SCIENTISTS PLEASED WITH ONTARIO APPLES

At Ontario Government Reception the Visitors Were Presented With Several Specimens.

A despatch from Toronto says:—When the officers of the British Association received official welcome from the Provincial Government at the Parliament Buildings, they were introduced to one of the lesser-known wonders of the modern world—rosy-cheeked Ontario apples, which had been kept in cold storage from last autumn. They were in perfect condition, and the Cabinet Ministers of Canada's banner province, who acted as hosts, received many compliments from the delighted visitors as they carried off a pocketful each.

Hon. George S. Henry, Minister of Public Works, welcomed the officers on behalf of the Province, while other Cabinet Ministers present were At-Generals W. F. Nickle, Hon. John S. Martin and Hon. W. H. Price. Prof. J. C. McLennan introduced each of the officers in turn.

Polygamy in Turkey Forbidden in Principle

A despatch from Constantinople says:—Polygamy has been forbidden in principle in Turkey. A law has just been confirmed by Parliament forbidding marriage to more than one woman, except in unusual cases. These new regulations only place the seal of legality on what has been the drift of public opinion in Turkey for many years. While the Koran permits four wives, most Turks have long been monogamous, partly for economic reasons and partly in principle. The last Caliph has one wife and two children.

U.S. CROPS IMPROVE DURING PAST MONTH

A Wheat Harvest of 814,117,000 Bushels for Year is Indicated.

A despatch from Washington says:—Most of the country's crops improved substantially during July, and production prospects at the beginning of this month were considerably better than a month ago. The Crop Reporting Board of the Department of Agriculture issued forecasts for the principal crops, basing its calculations on the condition of the crops on Aug. 1. Wheat, corn, oats, barley, potatoes and rye all showed increases over last month, but sweet potatoes, tobacco, rice, hay, apples and peanuts registered declines.

A wheat crop of 814,117,000 bushels is indicated for this year. Winter wheat harvests are considerably greater than expected, and 589,350,000 bushels are in the preliminary estimate.

The unusually favorable weather resulted in exceptionally plump, heavy kernels of high quality, and an average of 16 bushels per acre for the country.

July weather resulted in an increase of 46,000,000 bushels of winter wheat over the forecast made a month ago, the major part of the increase being in Kansas and Nebraska.

Spring wheat had almost ideal weather in Minnesota and in part of North Dakota, but farther west it was less favorable, and in Washington the crop is unusually poor. From Aug. 1 conditions a forecast of 224,767,000 bushels was made for the spring wheat crop. That is 28,000,000 bushels more than the forecast last month.

Corn deteriorated much less than usual in July, and while the condition of the crop on Aug. 1 is the lowest on record, with three exceptions, since statistics were begun in 1863, a forecast of 2,576,400,000 bushels is made for this year.

WIDER DISTRIBUTION OF BRITAIN'S PEOPLE

Prince of Wales Advocates the Training of Boys and Girls for Life in the Dominions.

A despatch from Toronto says:—The greetings of the Prince of Wales to the Association of British Scientists were extended at the inaugural meeting at Convocation Hall when the message was read formally. The Prince said:

Dear Mr. President: Will you be good enough to convey to the members of the British Association the greetings of the Prince of Wales to the Association of British Scientists at their inaugural meeting in Toronto my cordial good wishes for a very successful session?

My knowledge of Canada assures me that your visit will be warmly welcomed, and that nothing but good can come of such a gathering, where the representatives of the most advanced thought from the Old Country will meet in discussion the equally keen and active intellects of the Younger Land.

My interest has been particularly arrested by one item that is to come up for discussion, namely, the Educational Training of Boys and Girls in this country for Life Overseas. The call of the Empire for a wider distribution of the home population, for men and women to open up the vast uncultivated areas in the great Overseas Dominions is more imperative today than at any time in its history.

I congratulate the Association on thus showing in its deliberations such a broad interest in these problems, and I trust, and indeed am confident, that the influence thus exercised may result in great and extended benefits to the Empire.

Yours truly,
EDWARD P.

WORLD'S LARGEST RAILWAY MERGER

Over \$1,500,000,000 Involved and Nearly 11,000 Miles of U.S. Line Affected.

A despatch from New York says:—The largest railroad merger in history, involving combined capitalization of more than \$1,500,000,000 and close to 11,000 miles of line, was outlined on Thursday by bankers associated with Morris P. and Mantis J. Van Sweringen of Cleveland, owners of the Nickel Plate System.

The consolidation, outliving anything done in the days of E. H. Harriman and Jay Gould calls for the formation of a new company and the absorption of four railroads by the New York, Chicago and St. Louis. Control is to be exercised through exchange of stock and through lease of physical properties.

The railroads to be combined include the New York, Chicago and St. Louis, the Erie, the Pere Marquette, the Chesapeake and Ohio and the Hocking Valley. Close to 90 per cent. of Hocking Valley stock is controlled by the Chesapeake and Ohio.

Wheeling and Lake Erie, while not mentioned in the plan as given out, later may be taken in, together with the Pittsburgh and West Virginia. These last two roads, according to railroad experts, are a logical part of the new Nickel Plate System.

STORIES OF WELL-KNOWN PEOPLE

Our Young Prince.

It comes with something of a shock to realize that the Prince of Wales is now thirty. Probably the fact that he is still a bachelor makes one forget that he is not still in his early twenties, for the average Prince would have been married by now, or at least have some definite union in view.

The Prince of Wales is individual in his tastes, and maybe there is some Peter Pan quality in him which refuses to grow up. Formal ceremonies do not appeal to him, the glamour of a great marriage does not appear to thrill him, and it is said that he prefers small houses to big ones.

"What on earth do I want a place that size for?" he demanded, when it was first mooted that he should presently occupy Marlborough House. "I should get lost in the place, and the evening papers would have placards out: 'Mysterious Disappearance of the Prince of Wales!'"

He holds his bachelor apartments in York House in far more regard, but it seems that he may have to give them up, after all. Even princes can not always be choosers.

The Value of Health in Dollars.

Queen Victoria's dentist, Dr. Edwin Truman, who made his fortune by producing a composition that prevented the sea from eating away the material of the Atlantic cable, was a healthy man—and simply because he was healthy he became increasingly rich. The cable company thought they had made a better contract with him than £10,000 down when he preferred to close with their offer of an annuity of one thousand pounds, but as it has proved, they were wrong.

Long afterwards, writes Mr. Walter T. Spencer in *Forty Years in My Bookshop*, Truman said to me with a chuckle:

"I've lived forty-four years at a thousand a year already."

And as a matter of fact he lived for fifty.

A Circus Crowd for the General.

General Pershing's favorite story of himself is—so we are assured—as follows: In the summer of 1921 while paying a personal visit to friends in West Virginia and being within a couple of hours of Charleston by motor I accepted an invitation from the governor to visit that city. On less than an hour's notice I motored the twenty-five miles and was cordially greeted by the governor in his office. After a few minutes' conversation he led the way through the main corridor to the front of the building, where much to my astonishment a crowd of some five thousand people had assembled. A table had been provided as a rostrum from which I was to make a speech.

Later that afternoon at an informal gathering of some twenty or thirty citizens I mentioned my astonishment at finding such a large number of people assembled on such an exceedingly short notice. But the explanation quickly came from a number of the company who had not previously taken part in the conversation: "Well, maybe you didn't know it, general, but Charleston is one of the best circus towns in the United States."

The Coming of the Birds.

On that far day when time itself was new, And all the world was rainbow-starred with dew, The birds were fashioned with the tenderest care, Then loosed to fly upon the sunlit air, And some wore golden plumage, some snow-white, Others flashed past on pinions silver bright, Brown-lined were some, there sped a ruby crest, And nearer, one with heaven on its breast, High—and more high—the happy minstrels soared, Song beating upon song in true accord, Up to the walls of Paradise they went, Where angels crowded, mute with wonderment, To watch the shining hosts go circling by, Then, sudden, through the music rang a cry— And on the moment every sound was stilled, Save for a little angel's voice, joy-filled: "Look, look, my brothers, oh! what beautiful things Are these dear thought of God that come on wings!" —Inogen Clark.

His Orders.

Murphy, a new cavalry recruit, was given one of the worst horses in the troop. "Remember," said the instructor, "no one is allowed to dismount without orders." Murphy was no sooner in the saddle than the horse bucked and Murphy went over his head. "Murphy," yelled the instructor, "you dismounted!" "I did." "Did you have orders?" "I did." "From headquarters?" "No, from headquarters."

RED ROSE TEA 'is good tea'

Next time try the finest grade—
RED ROSE ORANGE PEKOE

Surnames and Their Origin

BEVERLY
Racial Origin—Anglo-Saxon of Norman French.
Source—A locality.

This family name quite clearly belongs in the classification of those which have been derived from the names of places, for it is traceable through the early documents with the prefix "de," meaning of.

It is paradoxical that the smaller communities in all lands have given more family names than the big centres of population. The reason for this is, in the first place, that people stocked from the small communities, where there was not so great a need for additional names, to the big centres, where there was not only need, but where the mention of a small place served the purpose of differentiation quite accurately. In the second place, the big communities gave rise to comparatively few family names because it constituted little differentiation to speak of "Roger de London," when there were thousands of "Rogers from London" to be found all over the country.

Authorities differ as to the origin of the place name of Beverly, which is in Yorkshire. Some derive it from "bevoir" (beautiful view) and "ley," a meadow or field. It is more probable, however, that the place already had been named by the Anglo-Saxons as "Bevelac" or beaver-lake.

MACCORKILL
Variation—MacCorkle.
Racial Origin—Scottish.
Source—A given name.

Here is a family name which, though purely Scottish Gaelic in its origin as such, traces back ultimately to Norse sources, and if you bear this name there is a good chance that you have a line of ancestry reaching back to the Vikings through Scotland.

The name of MacCorkill or MacCorkle was borne by one of the branches or sept of the Clan Gunn, which was decided one of the fighting clans of the Highlands, its history vying with that of the MacGregors in records of desperate fighting.

But the given name from which MacCorkill is derived is Thorkell, a relic of the old pagan Norse religion, and the meaning of which is "Thor's kettle." The kettle or caldron was a utensil which played a large part, figuratively, in the worship of the Vikings, and is found to-day as an element in a lot of family names, and even still in given names in the Scandinavian countries.

There is a great deal of Norse blood in Scotland, principally along the north and west coasts. At one period a considerable part of the coast was in the hands of Norwegian settlers who retained their allegiance to the Norse kings, and who later took their places among the Celts of the Highlands in full Gaelic clan organization.

Children of Chance.

"How did he ever think of that?" We often hear this, or some similar remark at the Royal Academy or any other picture exhibition. Very often, the true answer would be "chance." It is frequently a purely accidental circumstance that suggests a picture to a knight of the palette.

Everyone who has been to St. Paul's Cathedral has seen Holman Hunt's beautiful picture, "The Light of the World." Concerning this the painter says:

"I had been re-reading the Testament, and had read as far as Revelation when I noticed the twenty-five minutes' conversation he led the way through the main corridor to the front of the building, where much to my astonishment a crowd of some five thousand people had assembled. A table had been provided as a rostrum from which I was to make a speech."

Two of Sir Luke Fildes' pictures were inspired by accidental circumstances. These are "The Return of the Penitent" and "The Widower." The idea for the first-named painting came one day when the artist was passing down a village street and saw a miserable-looking woman walk by him, with downcast eyes, amidst the sneers of the inhabitants. The scene so impressed him that he made inquiries concerning the woman, learnt her history—she had been imprisoned for child-murder—and painted his tragic picture.

"The Widower" owes its conception to an equally pathetic incident. Sir Luke had hired a broken man off the streets to sit, nursing a baby, for his picture, "The Casual Ward." During a rest period Sir Luke caught his model looking at and petting the baby as tenderly as any woman, and so impressed was he with the unbreathed scene that he put it on canvas.

Secular as well as sacred literature has inspired pictures. Marcus Stone was so impressed by Dickens' description of Mr. Dombey's joy at the birth of Paul, and his consequent neglect of Florence, that he painted the scene. Similarly, two tragic stanzas from

Save Fuel in Cooking

Boils in 5 minutes **Boils in 8 minutes**

The illustration shows an interesting test you should try in your own kitchen. It proves the superiority of good enameled ware for cooking purposes. Take an SMP Enameled Ware Sauce Pan, and a sauce pan of equal size made of aluminum, tin or other metal. Into each pour a quart of cold water. Set both sauce pans over the fire. The water in the SMP Enameled Ware Sauce Pan will be boiling merrily in about five minutes, while the water in the all-metal sauce pan will come to the boil in about eight minutes—three minutes longer. Save fuel in cooking. Use

SMP Enameled WARE

"A Face of Porcelain and a Heart of Steel"

Three finishes: Pearl Ware, two coats of pearl-grey enamel inside and out. Diamond Ware, three coats, light blue and white outside, white lining. Crystal Ware, three coats, pure white inside and out, with Royal Blue edging.

"Yeast," by Charles Kingsley, inspired that striking picture, "The Poacher's Widow." The verses run:

A poacher's widow sat sighing
On the side of the white chalk-bank,
Where under the gloomy fir-woods
One spot in the ley throve rank.

"She watched a long tuft of clover,
Where rabbit or hare never ran,
For its black sour hawm covered over
The blood of a murdered man."

The following couplet, from "The Rubaiyat," seen by chance, induced Briton Riviere to paint that wonderful canvas "Persepolis":

"They say the Lion and the Lizard
Keep
The courts where Jamahyd gloried and
drank deep."

The Morning and the Evening.

The wings of the morning are silver and pearl,
With flushes of rose where the plumes are uncurl.

They're barred with blue and azure and
dusted with gold,
And preened till they glisten with
lustrous untold.

They poise at the zenith and send a
soft breath
Of quickening hope to the chamber of
death.

O, winnowing wings, how the fog
wraiths retreat
Before thy wide fanning and rhythmic
beat!

The wings of the evening are sable
and gray,
Though barred by the sunset and
streaked by the day.

Yet they are spread at the bidding of
night,
A veiling of sapphire diffuses the light,
Invests all the twilight with glamour
afresh.

O, sheltering wings, let no trouble in-
trude
As over my valley you hover and
brood!

—Alice M. Shepard.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic diarrhoea, and dysentery, come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to mothers during hot weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Vain Counsel.

She is very foolish if she loves a sailor. In the night a little wind can blow her lids apart.

Or if a quarter rattles like a crazy man at the shutters.

The hours of his anger drive straight upon her heart.

There is no more peace for her—she has given the sea a hostage.

Perhaps she sees a petal on a brook-let in the park.

Tossing in jeopardy: she hears without a reason.

The horror of a ship's bell clattered in the dark.

She is very foolish. Men there are aplenty.

Who carry their umbrellas and like a cozy life.

Why should her heart cry seaward, like a petrel, like a shearwater?

So she never can become a calm, contented wife.

Shepherds, charcoal burners, mountaineers and sailors.

All have watched the sun rise on strange sights alone.

She is very foolish if she loves a sailor.

But she says she never meant to; it happened unknown.

—Marian Storm.

Would Scrap Scrapping Wives.

Friend—"What do you think of scrapping wives?"

Mr. Meekton—"I'm for it! When's it going to begin?"

Certain diseases are shown by marks in the eye, according to a French scientist.

Minard's Liniment Relieves Pain.

Picnic Time.

When father's whistling 'round the yard and noticing the sky,
And Grandma puts her knitting down and says—"It will be dry;"

When mother's packing baskets full and auntie's helping too,
Then I can run some errands for there's lots of things to do.

When brother's working at the car and makes it fairly shine,
And looks the fishing tackle up and tests each rod and line,

It somehow seems the nicest world, and how could one feel sad?
It's picnic time at our house, and oh, but I am glad!

—Alix Thorne.

STOMACH TROUBLE DUE TO THIN BLOOD

It Usually Disappears When the Blood is Made Rich and Red.

Thin blood is one of the most common causes of stomach trouble. It affects the digestion very quickly. The glands that furnish the digestive fluids are diminished in their activity, the stomach muscles are weakened and there is a loss of nerve force. In this state of health nothing will more quickly restore the appetite, digestion and normal nutrition than good, rich, red blood.

Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and this enriched blood strengthens weak nerves, stimulates tired muscles and awakens to normal activity the glands that supply the digestive fluids. This is shown by an improved appetite, and soon the effect of these blood-enriching pills is evident throughout the whole system. You find that what you eat does not distress you, and that you are vigorous instead of irritable and listless. If your appetite is fickle, if you have any of the distressing pains and symptoms of indigestion, you should at once take Dr. Williams' Pink Pills and profit by the better condition in which they will put your blood.

These pills are sold by all dealers in medicine, or you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Advertising Laughs.

Amusing specimens of national humor in advertisements have been collected by the "Canadian Digest," which says of them that "some are conscious, some unconscious, and some merely stunned."

Some of the examples are:—
Irish—"Hay, straw, bran, oats, and dripping sold here, and the fiddle taught after six o'clock."

French—"Inscription (or epitaph) on a tin of imported sardines: 'The oil is guarantee. The fish she is very small.'"

South America.—Alongside a huge restaurant was a little Chinese chop-suey restaurant. The big place put out a gigantic electric sign, "We never close." The Chinaman hung out a card, "Me wakee, too."

Aberdeen—"To let, a good shop in the Jewish quarter."

Boston (Mass).—"Keep off the grass. If you want to roam, join the Navy."

Japan.—"My marvellous paper is as solid as the hide of an elephant. My goods are forwarded with the speed of a bullet."

Asthmador Guaranteed to Relieve Asthma.

"I have arranged with all druggists here, as well as in all other towns of Canada, that every sufferer from Asthma, Hay Fever, Bronchial Asthma or difficult breathing in this locality can try my treatment entirely at my risk," Dr. R. Schiffmann announces. He says: "Buy a package of my Asthmador, try it, and if it does not afford you immediate relief, or if you do not find it the best remedy you have ever used, take it back to your druggist and he will return your money, cheerfully and without any question whatever. After seeing the grateful relief it has afforded in hundreds of cases which had been given up in despair, I know what it will do. I am so sure that it will do the same for others that I am not afraid to guarantee it will relieve instantaneously. Druggists, anywhere, handling Asthmador will return your money if you say so. You are to be the sole judge and under this positive guarantee absolutely no risk is run in buying." Persons preferring to try it before buying will be sent a free sample.

Address: R. Schiffmann Co., Props., 1734 N. Main, Los Angeles, Calif.

Quite True.

A quack doctor was praising his "medicine" to a rural audience.

"Yes, ladies and gentlemen," he said, "I have sold these pills for over twenty years, and never have I heard one word of complaint about them. What does that prove?"

From a voice in the crowd came this reply: "Dead men tell no tales."

Payment for articles advertised in this column should be made with Dominion Express Money Orders—a safe way of sending money by mail.

Women's instinctive dread of rats and mice is said to be due to the fact that they knew that rat fleas were the chief carriers of plague.

Teaching parrots to talk provides a New York woman with a living.

HARRY GRANFIELD GIVES TANLAC FULL CREDIT

"My health has undergone such a wonderful improvement that I must say Tanlac is an unusual medicine and tonic," states Harry Granfield, 153 Haverty St., Toronto, Ont.

"For two years past I have been troubled with indigestion to such an extent that I felt unfit for anything. My nerves became all undone and my sleep was unsteady. My energy had about all left me and I would tire out easily."

"Since taking Tanlac I have a wonderful appetite and my stomach never

troubles me any more. My sleep is sound and restful and I get up mornings with renewed energy and really feel like active work for the first time in two years. I am strong for Tanlac." Tanlac is for sale by all good druggists. Accept no substitute. Over 40 Million Bottles Sold.

Tanlac Vegetable Pills, for constipation, are recommended by the manufacturers and distributors of Tanlac.

On Niagara's Brink.

Only two men, so far as we know, have ever passed a night virtually on the brink of the Horseshoe Fall of Niagara. Those men, says a writer in *Wide World Magazine*, are Gustave F. Lofberg and James H. Harris, who were employed as dredgers. On an afternoon in August, 1923, their scow broke its cable, and they were at the mercy of the swift current above the falls. There seemed to be no hope for them. Down they swept, and then suddenly the heavy scow ran aground almost on the brink!

The minds of the watchers on shore, says the writer, worked like lightning. They quickly decided on a line and a breeches buoy as a method of rescue. The Coast Guard station at the mouth of the Niagara River, fifteen miles or so distant, was immediately called on the telephone, and Capt. A. D. Nelson and his crew were asked to come to the rescue.

It was about three o'clock when the scow broke adrift; at a quarter past four Captain Nelson and a squad of men started for Niagara Falls in a big army motor truck. They carried with them the life-line cannon and other necessary apparatus. The question that agitated every mind was whether the fierce current would lick the scow away before the men could be saved? It was a race between the river and the rescuers.

When Captain Nelson and his men arrived they quickly set up the life-line cannon on the shore east of the power house. The captain sighted it and fired. High out over the river the projectile hurtled. It made a remarkable flight and then settled directly over the scow.

Lofberg and Harris grabbed the small line as it fell and as a signal began drawing it in. Attached to the shore end was a heavier rope, but the two men had a hard time hauling it across the swift current. Though those on shore helped all they could, it took two hours to get the rope over. Then those on shore carried the end up on top of the power house and made it secure.

As the work progressed night came on, and big searchlights were brought into play. For a time the rescuers kept at their task, but after a while they reluctantly agreed that their efforts must cease until daylight.

Out on the scow Lofberg and Harris were seen to lie down to rest, if rest were possible for men aboard a stranded scow that at any minute might be picked up on a rising flood and tumbled over the brink of Niagara. It was a night of awful suspense, not only for the poor fellows on the scow and the men engaged in their rescue but for the thousands of men, women and children who had lingered on the scene.

Daylight on the morning of August 7 saw everyone alert. The scow still lay where it had run aground, though it might move at any moment. Quickly all the lines were cleared, and after a little delay the breeches buoy was sent out to the castaways. Lofberg helped his companion into the buoy, and before long he landed safe on the shore.

ECZEMA IN RASH ON HANDS
Itched and Burned.
Cuticura Healed.

"Eczema broke out on my hands in a rash of red pimples. It itched and burned causing me to scratch. I could not put my hands in water, and I could not do my work very well. The trouble lasted about two months. I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. After using it I got relief so purchased more, which completely healed me." (Signed) Miss Sarah Shulman, 255 Manning Ave., Toronto, Ontario.

MRS. DAVIS NERVOUS WRECK

Tells Women How She Was Restored to Perfect Health by Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man.—"I cannot speak too highly of what Lydia E. Pinkham's Vegetable Compound has done for me. I was a nervous wreck and I just had to force myself to do my work. Even the sound of my own children playing made me feel as if I must scream if they did not get away from me. I could not even speak right to my husband. The doctor said he could do nothing for me. My husband's mother advised me to take the Vegetable Compound and I started it at once. I was able to do my work once more and it was a pleasure, not a burden. Now I have a fine bouncing baby and am able to nurse her and enjoy doing my work. I cannot help recommending such a medicine, and any one seeing me before took it, and seeing me now, can see what it does for me. I am only too pleased for you to use my testimonial." —Mrs. Emily Davis, 721 McGee Street, Winnipeg, Man.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Co., Cobourg, Ont. This book contains valuable information.

OIL, WATER AND GAS DRILLING

All kinds of Pumps and Pipe Supplies. Up-to-date Drilling Rig at your service.
GORE CONCESSION, EKFRID

An Oil That is Prized Everywhere. Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

The apple crop throughout Canada will be better than last year, according to the first official figures.

Alberta finds that it can ship butter to Great Britain via Vancouver and Panama Canal and is, therefore, sending 1,200 boxes of butter by that route to the British market. Thus we widen our markets.

Alberta farmers will receive \$1.01 per bushel for the 24,000,000 bushels of 1923 wheat handled by the "pool." It is claimed that "pool" farmers fared much better than those who sold independently.

Western Canada is developing a live cattle trade with the Orient, there being a great demand in Japan for fresh meat. The first shipment of Alberta steers to Japan was a success. Other products, such as hides, wheat, lumber, beef, butter and cheese, will no doubt also find a market there.

Wooden houses built in Canada may be sent to England for erection there, if the House of Lords Committee finds the cost is not prohibitive. It is thought this may be a more rapid solution of the housing problem than brick houses, or even wooden houses constructed in England.

Sir Adam Beck has admitted that for family reasons he may move to England, where it is known he is wanted to assist the Government in big electrical development projects.

Why not put sufficient export duty on Canadian logs to compel Americans to build mills in Canada and thus employ Canadian labor in manufacturing Canadian lumber? Just one instance: The Bella Coola Logging Company, Limited, Victoria, has purchased one billion feet of Canadian timber, 30 miles from the coast and 300 miles north of Vancouver. This will be shipped to the State of Washington for manufacture.

Bank of Montreal crop report issued August 7 says: Conditions in the Prairie Provinces have been improved by cool weather and rains over practically the whole area. With favorable weather harvesting should begin in two or three weeks. In Quebec Province ideal growing weather has greatly improved conditions. In Ontario conditions throughout con-

time favorable and recent rains and warm weather have benefited all growing crops. In the Maritime Provinces rain is needed and condition of crops generally is fair to good. In British Columbia rains throughout the province have benefited roots and pasturage materially.

Senator McCoig speaking at Tilbury advocated the abolition of Hansard, which is the House of Commons daily publication containing verbatim reports of the members' speeches, and the substitution thereof of radio equipment to broadcast what the members say. While some of the members talk a lot of tommyrot that is not worth publishing, it is just possible that knowing their speeches were being broadcasted would cause them to talk still more. In 1923 the cost of printing Hansard was \$51,514, which is modest compared with other expenditures, and seems to be a case of grabbing at a kumby but being willing to swallow a camel with Senator McCoig. What's the matter with applying the pruning hook to the over-manned and over-worked Civil Service, where millions might be saved? Lemington Post.

HARVESTERS' EXCURSIONS VIA CANADIAN NATIONAL RAILWAYS

Solid trains run through to Winnipeg without change. New convertible (berth) Colonist Cars will add to the comfort of the journey and lunch counter cars will be attached to the trains, serving food and refreshments at reasonable prices. Special cars will be provided for farmers. The special harvesters' trains of the Canadian National Railways from all Ontario points as advertised will make the fastest time to Winnipeg, operating via the new Longlac cut-off, the shortest route between Eastern and Western Canada. Harvesters traveling by this route will, as a consequence, be first in the field. The first train leaves Toronto one minute after midnight of August 21st (12.01 a.m. August 22nd). The fare is a flat rate of \$15 to Winnipeg and half a cent a mile beyond. Returning the fare is half a cent per mile into Winnipeg and \$20 back to starting point. Full particulars re fares, train service, etc., from nearest Canadian National Agent.

BY-LAW No. 307

To Authorize Raising the Sum of \$10,000.00 for the Remodeling and Re-equipping of the Public School in the Village of Glencoe, Including the Installing of a New Steam Heating System and a New Toilet System.

WHEREAS the Public School Board of Trustees of Union School Section No. 9 (including the Village of Glencoe and part of the Townships of Mosa and Ekfrid) have requested the sum of \$10,000.00 for the purpose of remodeling and re-equipping the Public School in the Village of Glencoe and installing a new steam heating system and a new toilet system.

And where the cost of remodeling has been estimated at \$10,000.00.

And whereas it will be necessary to issue debentures for the amount of the debt intended to be created by this by-law, and it is desirable that such debentures shall be issued at one time and that the principal of the same shall be made payable in annual instalments during the period of twenty years; such instalments to be of such amounts that the aggregate amount payable in each year for principal and interest shall be as nearly as possible equal to amount payable in each of the other nineteen years of the said period.

And whereas the total amount required to be raised annually by special rate for paying the said debt and interest as hereinafter provided is \$802.43.

And whereas the amount of the whole rateable property of the corporation of the Village of Glencoe according to the last revised assessment roll is \$440,375.00, and the amount of the existing debenture debt of the corporation, exclusive of loan improvement debt secured by special rates or assessment, is \$20,819.24, and no part of either the principal or interest thereof is in arrears.

Therefore the municipal council of the Village of Glencoe enacts as follows:

1. That it shall be lawful for the purpose of remodeling and re-equipping the Public School in the Village of Glencoe, that debentures of the corporation of the Village of Glencoe to the amount of \$10,000.00, in sums not less than \$100.00 each, shall be issued as required within two years after the date on which this by-law is confirmed by a vote of the duly qualified electors of the Village of Glencoe and that part of the Townships of Mosa and Ekfrid included in the said Union School Section, and each of the said debentures shall be dated on the day of the issue thereof and shall be payable within twenty years at the office of the treasurer of the corporation as hereinafter provided, and as to both principal and interest may be made payable in Canadian currency and shall have coupons attached for the payment of interest. Each debenture shall be signed by the reeve and the treasurer of the corporation and by the clerk, who shall also attach the seal of the corporation.

2. Said debentures shall bear interest at the rate of five per cent, per annum, payable yearly and in such amounts that the aggregate sum payable for principal and interest in any year in respect to the debt shall be equal as nearly as may be to what is payable for principal and interest in

each of the other nineteen years of said period.

3. There shall be raised and levied in each year for twenty years by special rate on all the rateable property in the said Union School Section the sum of \$802.43, being a sum sufficient to discharge the several instalments of principal and interest accruing due on the said debt as the same becomes respectively payable according to the following schedule:

Year	Principal	Interest	Annual Payment
1	\$ 329.43	\$ 500.00	\$ 829.43
2	317.55	484.88	802.43
3	303.43	469.00	802.43
4	289.10	452.33	802.43
5	267.61	434.82	802.43
6	245.39	416.44	802.43
7	223.24	397.19	802.43
8	201.20	376.93	802.43
9	179.27	355.66	802.43
10	157.44	333.32	802.43
11	135.70	309.87	802.43
12	114.15	285.24	802.43
13	92.79	259.29	802.43
14	71.61	232.12	802.43
15	50.62	203.61	802.43
16	29.80	173.67	802.43
17	9.15	142.23	802.43
18	0.00	109.22	802.43
19	0.00	74.56	802.43
20	0.00	38.17	802.43

4. This by-law shall take effect and come into operation from and after the final passing thereof.

This by-law received its two readings and was provisionally passed this fifth day of August, 1924.

CHAS. GEORGE, A. McPHERSON, Clerk.

NOTICE

Take notice that the foregoing is a true copy of a by-law which has been taken into consideration and which will be finally passed by the council of the municipality (in the event of the assent of the electors being obtained thereto) after one month from the first publication in The Glencoe Transcript, the date of which first publication being the fourteenth day of August, 1924.

Further take notice that tenants who desire to vote must deliver to the clerk, not later than the tenth day before the date appointed for taking the vote, the declaration provided for by section 265, subsection 3, of the Municipal Act, R.S.O. 1914, chapter 192.

And further take notice that the votes of the ratepayers shall be taken on the said by-law on the fifth day of September, commencing at the hour of nine o'clock in the forenoon and continuing until five o'clock in the afternoon, at the following places and by the following deputy returning officers: Polling division No. 1, Town Hall in the Village of Glencoe; Chas. George, deputy returning officer. Polling division No. 2, in the Public School in the Village of Glencoe; P. J. Morrison, deputy returning officer.

Further take notice that on the third day of September, at the Town Hall, Glencoe, at ten o'clock in the forenoon, the reeve will attend to appoint in writing, signed by himself, two persons to attend at the final summing up of the votes by the clerk of the said corporation, and one person to attend at each of the said polling places on behalf of the persons interested in and desirous of promoting the passing of said by-law, and a like number on behalf of the persons interested and desirous of opposing the passing of said by-law.

And further take notice that the sixth day of September, at the said Town Hall, at ten o'clock in the forenoon, is hereby appointed for the summing up by the clerk of the number of votes given for and against said by-law.

Dated at the Village of Glencoe this seventh day of August, 1924.

CHAS. GEORGE, Clerk.

Arrange beforehand

Before telephoning distant friends, some subscribers write them the day and hour at which they will call them—"I will call you at 9.00 p.m. by Long Distance."

The person to be called is prepared to make the most of a few minutes conversation.

On Station-to-Station Long Distance calls, low evening rates apply from 8.30 to midnight. From midnight to 4.30 a.m. the rate is only about one-quarter the day rate, with a minimum charge of 25 cents.

CANADIAN NATIONAL RAILWAYS

Bears, Baboons, Bees, Bicycles and Bullion.

Above, the chronicle of a regular line, and, (right), bears are also cared for at times. Left, the parcel was in the hands of the Dominion Express Company over a 2,100 mile journey. On the truck behind it is a shipment of bees. Inset is a case getting the cart under the horse for shipment. Below, baby chicks are handled by thousands daily.

There arrived in Toronto recently, after travelling thousands of miles by rail, a stud pony. Jim, or whatever his name was, had a compartment to himself, a crate of the latest description. He arrived in the best of condition, after being fed and watered en route by the messengers of the Dominion Express Company.

Shipments like this, however, are "all in the day's work" for the express companies. They will take a treasured jewel or a pet elephant with equal pleasure. If you want to ship home the money to pay off the mortgage on the old farm, or send father a couple of cows to keep up his milk shipments, the express companies will look after it for you. Strange consignments pass through the Express Company's doors, and sometimes strange sounds issue from inanimate-looking packing cases.

Take the case of the bear cub used at the recent Rotarian Convention in Toronto. The Dominion Express Company was called on to handle this bear for transportation to Auckland, New Zealand. Two or three times daily between Toronto and Vancouver this husky specimen of the "boo hoo" tribe was fed biscuits and milk. At Vancouver he was fed and taken care of until such time as the boat for Australia departed, and arrangements were made to see that the same attention was given until the bear reached its destination. They say that the poor little bear cried when the time came for it to leave the hands of the express company, so well had it been treated.

In case of live animals travelling in the company's cars no excuses are accepted for failure to give them attention. Officials tell a story, in fact, of a messenger some years ago who, in his anxiety to escape a call to the carpet for failure to make correct reports, carefully noted "Fed and watered (O.K.) on a way-bill covering one crated bicycle. Animals somewhat more likable than the subject of the expressman's mistake do often travel, however. For instance, 20,000 pet dogs went travelling in care of the Dominion Express Company last year. There are not many kinds of beast, wild or domesticated, that haven't come in the company's experience.

price of an imported luxury. Canadians know how to grow good apples; but they have much to learn about what should be done with the fruit after it has been grown. If Canadians are judged by the way they handle their apples they would be regarded as a very wasteful people.—Stratford Beacon-Herald.

Churchgoers may expect to hear a good many dry sermons before October 23.

There are not many kinds of beast, wild or domesticated, that haven't come in the company's experience.

—FOR TODAY—
Bible Thoughts memorized, will prove a precious heritage in after years.

RULES FOR RIGHT LIVING:—He hath shewed thee, O man, what is good; and what doth the Lord require of thee, but to do justly, and to love mercy, and to walk humbly with thy God? Micah 6: 8.

Born
HAGGITH—On Friday, August 8, 1924, to Mr. and Mrs. Thos. Haggith, Glencoe, a son—George Chester.

McRAE—On Saturday, August 9, 1924, at the Evangelical Deaconess Hospital, Detroit, to Mr. and Mrs. Richard A. McRae, a daughter.

STEVENSON—On Monday, August 12, 1924, to Mr. and Mrs. Samuel Stevenson, Appin, a daughter.

Announcement

Mr. and Mrs. Robert Plaine, of Euphemia, announce the engagement of their youngest daughter, Jennie Grace (Jean), and Archibald Currie, of Brown City, Mich., younger son of the late Mr. and Mrs. Alex. Currie, the marriage to take place at their home, Willowdale, Euphemia, August 27th.

Card of Thanks
Mr. and Mrs. Alex. F. Pole wish to thank all the friends and neighbors for their kind expressions of sympathy in their recent sad bereavement. "Next to the grace of God, there is nothing like human sympathy."

Card of Thanks
Mr. Hugh H. Currie wishes to express his appreciation of the kindness extended by friends and neighbors during the illness of Mrs. Currie, also the floral offerings and other expressions of sympathy in his bereavement.

TOWN AND VICINITY
R. E. Laughton has moved to Appin, where he will operate a chopping mill.

Mosa council will meet at Newbury on Saturday, August 16, at one o'clock.

Dominion Chautauqua will put on a big program in Dutton on August 15, 16, 18 and 19.

Harry Vause is moving to Appin, where he will conduct a repair shop for lawn mowers, etc.

The price of bread was advanced one cent a loaf this week, and it is now selling at ten cents.

W. D. Moss, A. J. Wright, Dr. Saxton and J. N. Currie are participating in a bowling tournament at Dresden today (Wednesday).

J. A. McCracken, foreman at the Fletcher works, had the tip of his right middle finger cut off in a machine at which he was working one day last week.

Mr. Burns, of Lambeth, has been appointed manager of the Mt. Brydges Telephone Company to fill the vacancy left when Mr. Wadsworth resigned. Mr. Burns and family are moving to Mt. Brydges.

There are several applicants for the position of caretaker of the post office building which has become vacant through the resignation of Mr. Watterworth. It is expected the ap-

pointment will not be announced for several weeks yet. In the meantime J. Tait is in charge of the building.

Work of laying tile in the outlet drain is progressing, though somewhat hampered owing to wet weather. Guy Pickering, of Dutton, has the contract and has a gasoline ditching machine on the job.

Elijah Watterworth, who some time ago resigned his position as caretaker of the post office building, has purchased the house of Samuel Laughton on Appin road. Mr. Laughton has moved to Appin.

Some magnificent fields of wheat have been harvested in this district this season, yielding as high as fifty bushels to the acre and testing 63 lb. to the bushel. The price paid at the elevator last week was \$1.20 per bushel.

The Fletcher Manufacturing Company completed the first of a new style dough divider at their works here last week and tested it out with complete satisfaction. The new machine is capable of weighing out eighty loaves per minute. It is being shipped to Montreal.

A pretty wedding took place at the home of Mr. and Mrs. John King, Oakdale, on Friday, August 1, when their youngest daughter, Irene, was united in marriage to Stanley Allard, of Mossa. Following the ceremony about sixty guests partook of a wedding dinner served on the lawn.

At the home of the bride's parents on Saturday, July 26, a quiet wedding was solemnized, when Mauretta Grace, only daughter of Mr. and Mrs. George Stricker, was united in marriage to Wm. Albert Patterson, of Bothwell, by Rev. Mr. Hollingbrooke, of Newbury. Only immediate relatives of the bride and groom were present.

After enjoying a splendid picnic at Springbank the Junior Farmers Improvement Association of Middlesex held a business meeting in the evening and elected the following officers for the year: Honorary president, Col. Robert McEwen, Byron; president, Fred Lockwood, Delaware; vice-president, Maurice Shackleton, Belmont; secretary-treasurer, Murray Allen, Appin.

Malcolm McGowan, a native of Ekfrid township and at one time manager of one of the Glencoe banks, was nominated at a Liberal convention to contest the Okotoks constituency for the Alberta Legislature. The constituency is now represented by the Hon. George Hoadley, Minister of Agriculture, U.F.A. Mr. McGowan is a prominent farmer in the Okotoks district.

PERSONAL AND SOCIAL
—Mrs. Marsh, of Perth, is visiting in Glencoe.

—Miss Florence Keith is holidaying in Muskoka.

—James Weir, of Galt, is visiting at Neil Graham's.

—Mrs. McAdam and son Lambert and Mr. and Mrs. Sitter and little daughter Magdalene motored from Arkona and spent Sunday at the home of D. D. Campbell.

—Mr. and Mrs. D. L. Mitchell, of Detroit, are spending a week in Glencoe and vicinity after returning from a motor trip to Kincardine, Warton, Toronto and Niagara Falls.

—Mr. and Mrs. W. J. George, of South Ekfrid, attended the wedding at London of Alfred E. George, of London, and Miss Annie Jackson, recently of Glasgow, Scotland.

—Mr. and Mrs. J. C. Hudson and daughter Margaret, of Detroit, and Miss Edith Hill, of Minneapolis, are visiting at the home of Mrs. T. Mahoney and other relatives.

—During the week of the Old Boys' reunion at Thamesville Mrs. Florence Langford and her daughter Velma motored from Caledonia, visiting friends in London and Glencoe and vicinity. They were accompanied from London by Mrs. Leila Smith.

Together with Mrs. Weaver, of Zeno, they spent a pleasant week-end at the home of another sister, Mrs. Cummings, of Dgwn.

SPECIAL NOTICES
Buy your meat from Jelly's cut-rate store.

24¢ trade and 23¢ cash for eggs, at Mayhew's.

Chopping mill running daily.—R. E. Laughton, Appin.

Prices cut to pieces in meat at Jelly's Saturday.

Call at Scott's Shoe Store before buying elsewhere, and see our prices for cash.

Farmers, save your money by eating meat from Jelly's cut-rate store.

Many lines in general groceries offering less than wholesale prices, at W. A. Currie's. 25¢ for fresh eggs.

Ford cars now on display.—M. J. McAlpine, Ford service and sales, Glencoe; Galbraith Bros., Ford dealers, Appin.

Fruit in season, domestic and imported, received daily and offering at popular low prices, at W. A. Currie's grocery sale.

Upholstering, fine cabinet work, carpenter work, furniture finishing.—J. D. Brown, first door north of Transcript office; phone 63.

A big dollar's worth of sugar offering at W. A. Currie's, and cut price for Redpath's sugar in sack for cash.

The fifty-sixth anniversary of Cameron church, Euphemia, will be observed on Sunday, August 17, when special services will be held at 11 a. m. and 7.30 p.m. On Monday evening, August 18, a garden party and chicken supper will be given.

**FASTEST HARVESTERS' TRAINS
WILL BE BY CANADIAN NATIONAL RAILWAYS**

The special harvesters' trains of the Canadian National Railways from all Ontario points, as advertised, will make the fastest time to Winnipeg, operating via the new Longlac cut-off, the shortest route between Eastern and Western Canada. Harvesters travelling by this route will, as a consequence, be first in the field. The first train leaves Toronto one minute after midnight of August 21st (12.01 a.m. August 22nd). The fare is a flat rate of \$15 to Winnipeg and half a cent a mile beyond. Returning the fare is half a cent per mile into Winnipeg and \$20 back to starting point. Comfortable, roomy, convertible (berth) Colonist Cars of latest design and lunch counter cars serving food and refreshments at reasonable prices will be attached to trains. Special cars will be provided for women. Purchase your ticket to Winnipeg via Canadian National Railways, no matter whether your final destination is a point on the Canadian National or not. Consult with your nearest Agent for train service, etc.

EKFRID STATION

Mr. and Mrs. Malcolm Fletcher and Lizzie, of Strathroy, and M. C. Fletcher, M.D., of the medical school, London, spent Sunday at D. A. Campbell's.

The Ekfrid Sunday School and the Eureka Community Club motored to Springbank on Friday last for their annual picnic. A splendid program of sports and races, including games of soft-ball, were indulged in during the afternoon. One of the most interesting events of the day was a game of horseshoe. Lorne Eaton and Harold Smith were successful in winning 20 games out of 22, played against Dunc. McTavish and Noble McCallum. An enjoyable day was spent by all.

Mr. and Mrs. J. L. Hull and family, of London, motored to Springbank and spent Friday afternoon with their Ekfrid friends.

SOUTH EKFRID

George Martin and sons Fred and Ross, of London, are visiting at Geo. Coad's.

Mr. and Mrs. Alfred George, of London, visited Mr. and Mrs. Wm. George last week.

Mrs. Chalmers and daughter, of Sarnia, are visiting at Dan. K. McRae's.

Mary Coad is spending the holidays with her cousins, Helen and Isaac Abbott, at Pratt's Siding.

Mrs. Shipley and Miss Margaret Grey, of Dutton, are visiting friends in this vicinity.

Sorry to hear of the serious illness of James Lethbridge.

Miss Mattie McRae has returned from visiting friends in Vancouver and in Plenty, Sask.

A splendid meeting was held at the home of Mrs. James McRae on Wednesday, August 6, when the U.F.W.O. entertained the ladies of the Battle Hill club. Excellent papers were given by Mrs. Hyndman, Mrs. Arnold, Mrs. Allan, Mrs. Cyster, Miss Clara Thomas and Mrs. McRae; instrumental duets by Mrs. George and Miss M. B. Duncan and by the Misses Arnold, and vocal duets by Mrs. R. D. Coad and Mrs. J. McRae.

Soft-ball Notes.
Woodgreen at Tait's Corners, Tuesday, August 6—9-7 in favor of Tait's; Gore at Tait's Corners, Thursday, August 7—16-6 in favor of Tait's; Tait's Corners at Pratt's Siding, Tuesday, August 12—11-9 in favor of Tait's.

Tait's Corners play at Woodgreen on Friday evening, August 15.

All roads lead to W. A. Currie's clearing sale of groceries.

For the first time in several years there appears to be a plethora of school teachers. In answer to advertisements school boards are receiving from 100 to 300 applications.

Despite present low prices for potatoes, there is every indication that the crop on the whole will be somewhat lighter than a year ago in both Canada and the United States, according to the latest advice from the Federal Department of Agriculture. The acreage appears to be about the same, but the yields are lower in the western half of the continent, which offsets the good crop anticipated in the east.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

Mortgage Sale
Under and by virtue of the power of sale contained in a mortgage, which will be produced at the time and place of sale, there will be offered for sale by public auction at the MCKELLAR HOTEL, in the Town of GLENCOE, on FRIDAY, AUGUST 22, 1924, at the hour of 11 o'clock in the forenoon, the following lands and premises, being the North Half of Lot Number Two (2), in the First Range South of the Longwoods Road, in the Township of Mossa, in the County of Middlesex, containing one hundred acres, more or less.

Ten per cent, of the purchase money to be paid by the Purchaser to the Vendor or his Solicitor on the day of the sale, and the balance within fifteen days thereafter.

Further particulars and conditions of sale will be made known at the time and place of sale, or upon application to the undersigned.

J. D. SHAW, 384 Talbot Street, St. Thomas, Ont., Solicitor for Vendor.
Dated July 28, 1924.

VOTERS' LISTS, 1924

Municipality of Newbury, County of Middlesex

Notice is hereby given that I have complied with section 10 of the Voters' List Act and that I have posted up at my office in Newbury on the 11th day of August, 1924, the list of all persons entitled to vote in the said municipality for Members of Parliament and at Municipal Elections, and that such list remains there for inspection.

And I hereby call upon all voters to take immediate proceedings to have any errors or omissions corrected according to law.

Dated August 11, 1924.
ANNIE LAURIE TUCKER,
Clerk of Newbury.

"When Hearts Command"—

By ELIZABETH YORK MILLER

"When hearts command,
From minds the sagest counsellings depart."

CHAPTER XXX.

But instantly Philip Ardeyne comprehended what had happened, although of course he could not guess how the thing had come about. Alice had discovered the secret that had caused him so much anguish in dread of being the one to inform her.

She looked such a poor little thing, her beauty for the moment almost obliterated, grotesque in her pathetic plight, with hair disarranged and her hat on wrong side before.

"My dear—my dear!" he exclaimed. He took the heavy dressing-bag from her and folded her in his arms. "Now you'll tell me," he whispered. "Don't try to keep anything back. You see, I think I know what it's about. You had a letter, perhaps? From your mother?"

"No," she sobbed against his coat, clinging to him with cold little hands, so pitiful and helpless. "Mumsey didn't tell me. She ought to have told me. It's so wrong of her not to have said a word. Oh, Philip, what am I to do? I've ruined your life. I want to go away. I want to die."

He gathered her closer. "We're not going to listen to anything of that sort," he said. "We're going to be most wonderfully sensible about it. Come, sit on my knee and let me hold you safe. Then we can talk it over and find out just where we are. You're my own dearest, dear little wife. I've got you, and that's all I care about."

"You're just being kind to me, Philip. You don't want to hurt me." "Hush! Of course I don't want to hurt you, and I'd like to thrash whoever did. Now tell me—how did you find out?"

He took off the absurd hat and lifting her in his arms as though she had been a child carried her to the couch and held her in his lap. She kept her face hidden against his shoulder.

"This has been a terrible shock, my dearest one; but you must try to meet it calmly. Now tell me, Alice—"

"It was Cousin Christopher—Christopher Smarke. He came here purposefully to see me. Mumsey had written to him. She didn't want me to know about my father, and she begged Mr. Smarke not to tell me. But Philip—you know."

"Yes," he said. "But you didn't know when you asked me to marry you." "No—but it would have made no difference."

Feeling as he did now, Ardeyne honestly believed that it would have made no difference. Every moment this dear sweet child, this pitiful little wife of his, became more and more precious.

"Philip, it would have made a difference. We must separate. Our marriage could be annulled. I can never be your wife; I can never be any man's wife."

"Listen to me," she straightened up and met his eyes bravely. The wild fear had gone out of hers. They were

heavy with sorrow, dark, misty pools of sombre sadness, but that trapped animal look had gone. "Philip, remember almost every word you've ever said to me. That day on the hillside—you were different, and I wondered a little what was the matter. You were turning things over in your mind, weren't you? About us—our future. You were wondering what was best for us to do. And perhaps you've thought about giving me up."

"No—never," Ardeyne said huskily. "Never once did I dream of such a thing. I couldn't have given you up. Don't you understand? There are some things a man cannot do."

"Oh, how kind you are—how kind! It's so splendid of you, Philip dear. I wish I could believe—"

"You must believe. Look here, my pet, we must go very steady on this. Don't let's rush at conclusions. That might be fatal. I'll be perfectly frank with you. For some time I thought I'd be obliged to tell you myself what this beastly cousin of yours has so kindly undertaken. I thought it would be necessary; that ours could not be just an ordinary marriage; that we would have to learn to live only for each other and put away any hope or thought of children. Do you understand, Alice?"

"Yes, I understand." "But it was no use. I love you too much. After all, I'm human. I'm a man before I'm a scientist. It's been a terrible lesson to me. You've no idea how light-heartedly I've ordered other people's lives for them, separated husbands and wives, parted lovers—rather scorning them when they kicked or declined outright to obey me. Most of them, poor souls, agreed meekly enough to the lonely hell I consigned them to. People are wonderfully trustful of their doctors. And now I realize that what I tried to make others do is next door to impossible."

"No, Philip—you were right." She disengaged herself gently and walked a little unsteadily to one of the windows, where she stood looking out across the shimmering blue waters of the lake.

"Of course I was right," Ardeyne said. "But—"

"Ours cannot be an ordinary marriage. We dare not face even the possibility of having children—you and I. And that's why, for your sake, I wish it to be annulled. Perhaps I oughtn't to have said so much about such things, but I do. Mumsey would be shocked if she guessed how much I know. But one reads novels—and there are the newspapers. Very little is left to the imagination these days, and perhaps it's just as well. One can avoid pitfalls."

Ardeyne crossed to the window and took her wrist in a firm clasp, turning her so that she had to look at him. Just for a second she was swept a little off her balance by his bigness, the strong beauty of his face—grim as well as tender.

"Understand one thing—I will never consent to what you suggest. It is

WRIGLEYS

Chew it after every meal

It stimulates appetite and aids digestion. It makes your food do you more good. Note how it relieves that stuffy feeling after hearty eating.

Wholesome teeth, sweet breath and it's the goodly food.

unthinkable. I'm not going to give you up. I won't let you go. You belong to me, and I hope I'm man enough to convince you that my love isn't such a flimsy, mean thing as you may thoughtlessly imagine it to be. My dear, I'll be your husband, your friend, your lover to the end of time, on your terms—on the terms that my own cold sober judgment tells me are the only possible ones for us. But I will never let you leave me."

So faintly he heard the glorious bells proclaiming victory over self, but it was Alice who set them a-ringing. With her help—yes, he could be strong to do what he knew to be right.

She stood looking at him, her lips quivering a little, her eyes doubtful, as though seeking to measure his sincerity; he doubt not so much as to whether he could endure the sort of life under discussion, as fearful if he were not being over-kind in order to spare her pain.

"Why, you foolish child!" He laid hands on her shoulders and shook her gently. There was a tender smile on his lips. "Don't you believe that I love you?"

"I don't know. It seems terrible to doubt—after this."

"Well, I wish I were as sure of you as I am of myself in that respect. Look here, it's getting late, and I know you want to put on one of those pretty new frocks for dinner. We haven't even unpacked. Shall we begin?"

If you're not too tired we can stroll across to the Kursal after dinner and you shall try your luck on the 'little horses.' It's only a step. Now for the trunk. Where are the keys?"

She handed over the keys and smiled at him shyly. "But first a kiss—dear little wife."

She let him kiss her, then quickly she threw her arms around his neck, drew him down and kissed him tenderly several times, in an access of quick passion.

"Oh, Philip, my dearest love, you are kind to me—I can scarcely bear it!" she cried.

Nor could he bear it—her saying that. If only she would not keep on protesting that he was kind to her. They had dinner, but afterwards Alice did not care to go to the Kursal. She was very tired, poor child, and went to bed almost directly.

Assuring himself that she was comfortably settled and would soon go to sleep, Ardeyne took his cigar out on to the lake front.

It was a night made for lovers and honeymooners. The long promenade under the chestnut arched fairly swarmed with them, sentimental German couples linked arm in arm, the frankly affectionate French—even the prosaic English and Americans seemed caught by the romantic atmosphere and were occasionally to be observed clasping hands.

There was a high white moon and a prodigious display of electricity strung along the old wooden bridges and outlining the tower opposite the station. The hotels on the mountain-tops were all lit up, and the little railway lines leading to them were marked with bright yellow beads.

From the top of Pilatus a searchlight played upon the lake and surrounding mountains. And everywhere there was music.

Ardeyne walked out on to one of the long covered bridges and surveyed the Venetian scene of the flower-hung hotels on the river front.

Leaning on the parapet, busy with his thoughts and cigar, he presently became aware that a man similarly occupied and standing quite near was covertly observing him. A second glance told him that the man was Christopher Smarke.

The doctor stiffened and threw his cigar into the river with an angry gesture. Christopher approached him solemnly.

"Oh—Dr. Ardeyne, is it not? My name is Smarke. We have met before, I believe."

Ardeyne regarded him with a violent and open sense of distaste, and his pent-up feelings suddenly overflowed.

"Yes, you interfering busybody," he said. This abrupt rudeness had a curious effect on Christopher. He grinned broadly—he who had never been seen to smile, or so it was rumored among his friends.

"Perhaps some day you'll thank me," he said suavely. "Although, mind you, I don't believe in heredity. It's all nonsense. My objection was merely to Mrs. Carnay's tricking you and that poor sweet child of hers."

"Thank you. I don't care to discuss the matter. You are an older man than I, else I might be tempted to give you a thrashing. And if I ever catch you coming near my wife again or attempting to communicate with her, I will thrash you. Do you understand?"

Christopher's long mouth drew down at the corners and he effected a true Continental shrug.

"Try it," he suggested, "and I'll

have you in the courts. So much as lay a finger on me, and see what happens."

Ardeyne turned and walked away. His hands were itching, and he could not have borne another word from that cold, malignant lawyer. It was true enough, he did not doubt, that Christopher Smarke would not hesitate to demand legal aid for any wounds which might be inflicted upon him. Yet Ardeyne would have felt so much more comfortable and happy could he have landed one good solid punch in the middle of that smug physiognomy.

He went back to the hotel and upstairs.

Alice, he hoped, was asleep, but he was a little anxious about her. The door leading to her bedroom stood slightly ajar, and he listened a moment. There was no sound of regular breathing.

He pushed the door open and looked in.

She was in bed, but not asleep. The shaded light on the bedside table was switched on and she lay propped high on pillows, her face half in shadow. A little white silk dressing-jacket edged with lace fell away from her bare throat and arms, and her dark hair hung in thick, long plaits on the coverlet.

Her eyes started him. They were dilated, horror-stricken.

"My darling," he cried. He sat beside her and took her hands. "Why are you awake?"

"I'm so frightened," she whispered. "But what of—dear?"

Woman's Interests

PICNIC AT HOME.

A good rest tonic for the busy mother is the out-of-door picnic, if she doesn't go to any more bother in preparing the lunch than she would at home. It will be found a real rest and relaxation to pack a simple lunch, about four o'clock in the afternoon, and with the family stroll out to a secluded corner of the orchard or farm woodlot. Be sure, though, that you leave the cares of the hot kitchen and the worries of the home behind you and enjoy a few hours "next to nature."

Many of us are not aware of the splendid places of picnicking that we have right on our own farms. One woman writes of the discovery she made. On their farm was a small creek that meandered its way through the pasture field. On the banks of this creek a half mile from the house was a clump of trees. The farm wife wrote: "I have been to the picnic place for several years, and I consider the spot as available for this purpose. Since that awakening the family has spent many restful hours there."

In arranging a picnic, be sure the lunch is not elaborate. Food is enjoyed so much more in the open air that the family will never miss the fixin's. Simple sandwiches of egg, cheese, lettuce with mayonnaise or fruit butters are delicious. Do not make sandwiches too thin and dainty for the out-of-door appetite is quite different from the indoor one. The pickle plays the accompaniment for the picnic sandwich.

A baked dish may be carried in a basket and will keep warm if wrapped in waxed paper and then in several thicknesses of newspaper. Escaloped potatoes are enjoyed and when baked in layers with ham are extra fine.

Fresh vegetables are the least bother and the most enjoyed. Tomatoes may be eaten like apples with salt, or sliced and served with dressing. Celery, lettuce and radishes are also easily carried.

Plan some dessert, and, with a cold drink of milk or iced tea, refreshments are complete. Last, but not least, don't forget paper plates, cups, napkins and table cloth, and remember that the picnic should be arranged to save work and not make extra work.

WHEN YOU'RE THIRSTY. Nothing adds more to the enjoyment of a hot summer day than a cool, refreshing drink. These recipes will be found very enticing to suit the individual tastes. If the syrup is prepared a few hours ahead, it will be more convenient and not a waste of ice.

Elderberry Flip—1 cup elderberry juice, 1 cup medium white syrup, 1 lemon, 1 quart water. Mix thoroughly, chill and serve with shaved ice.

Grape Juice (extra fine)—1 pint of grape juice, ½ cup white syrup, 1 orange, 1 lemon. Mix well all ingredients and serve with cracked ice.

Current Cool—Mash three quarts of ripe, red currants and cook in the double boiler without water. When thoroughly cooked, strain through cheesecloth and to each pint of juice add one-half cup of syrup. Boil ten minutes, skim and bottle. Keep in a sunny place. This can be diluted to suit the taste.

Cherryade—To two cups of grapefruit pulp and juice, add one cup of stewed cherries, two cups of water, three-fourths cup of medium syrup. Serve with cracked ice and whole cherries.

MY SAFETY CLOSET. I call it my safety closet because it is a true safety affair—something which keeps me safe from worry in emergencies.

In this closet I have a shelf for the

"SALADA"

GREEN TEA H401
is used more than any other brand is because the delicious flavor never varies. — Try it.
FREE SAMPLE OF GREEN TEA UPON REQUEST. "SALADA," TORONTO

"Oh—can't you guess? What does it feel like to—lose one's reason. When does it begin? How?"

This was what he had so feared might happen; that directly she knew about Hugo Smarke the question of heredity would begin to plague her.

He soothed and talked to her, and after a long time she fell asleep, but even then he did not leave her. He sat very quietly, holding one of the cold little hands, warming it to life; meditating on her youthful sweetness, his own heart heavy with the dreadful burden which had fallen on hers.

(To be continued.)

Music Plays a Great Part in Life of French-Canadian.

Here is a synopsis of the musical proclivities of the great French-Canadian race, as told by one who spent several years studying the customs down in Quebec and the Maritime Provinces.

"In French-Canadian homes," this authority states, "children are rocked with a song from their birth; when they are old enough to attend school, they receive singing or instrumental music from either their school teachers or private teachers. At home, music has its place of honor; and during the day piano, violin, mandolin or accordion is not left idle; but above all, singing is the favorite pastime of the French-Canadian, and above all songs, the ones he prefers are the old-time melodies which last, old French centuries, which he inherited from his forefathers, are also his favorites. And oft you will hear the farmer, while plowing his field or the shepherd boy guarding his flock, sing one of those old songs which they love. During the evening, after their meal, and while taking a well earned rest in the garden, on the veranda or within their homes, the French-Canadian family, where children are many and happiness abides, sing together some of those old songs or undying sentimentality and tenderness, with absolute sincerity. If you are a passer-by you will stop and listen. You will be stirred in your heart by the unusual effects of the melody you hear, you will remember home and mother, and you will thank Heaven for giving music to the world."

Cecil Rhodes and the Bill Collector.

In the course of Sir Harry Johnston's work in extending the dominion and power of Great Britain in Africa, he more than once met Cecil Rhodes of South African fame. On one occasion in London a long conference between them ended in an agreement by which Sir Harry was to engage in an enterprise that Cecil Rhodes had at heart. As the negotiations were concluded, and Sir Harry in his Story of My Life, I became aware of occasional rappings at the door, but Rhodes gave them no attention; he opened a dispatch box, got out a cheque book and wrote me a cheque on the Bank of England for two thousand pounds. Then he shut the door and passed through folding doors into his bedroom.

The knocking outside irritated me. I went to the door and opened it. There I saw an angry-looking man who interjected inquiringly, "Mr. Rhodes?"

"These are Mr. Rhodes's rooms. Have you an appointment?"

"No, and not likely to have! I've come to see him to get my bill settled."

"Your bill?"

"Yes. Ow!n!n!n! these three years—his clothes—forty-seven pounds."

I went in and knocked at the double doors. Rhodes, who was sitting on a collar and tie, came forward. "Here's a very angry man, a tailor, who wants a bill settled—forty-seven pounds."

Rhodes looked at the bill, which I had brought with me. "Why, it's my old tailor! Come in, man. If you will be such a fool as to misdirect your letters—"

He broke off, went with a collar buttoned to the dispatch box, got out the check book and wrote a check. "There!" he said, handing it to the tailor, who, trying to smooth his face into an amiable aspect, suddenly remarked with an altered voice:

"But you've made a mistake, sir. You've written fifty, and the bill's only for forty-seven."

"It's all right. I've added three pounds for keeping you waiting three years. But another time try to think where your customers are, and, if a man in Africa, don't address his letters to Oxford or to London."

One Less for Wembley.

All the world seems to be going to Wembley nowadays, but occasionally one hears of disappointed people who would like to go, but can't.

Most remarkable of all such cases is that of Santjie, the last of the Bushmen. Though over one hundred and thirty years old, Santjie had set his heart on seeing the wonders of the great Empire Exhibition, but the South African authorities have declined to allow him to go. The voyage and excitement, they consider, would be too dangerous for him.

When Santjie dies one of the most interesting races in the world will have become extinct. For it linked up our own age with the world of twenty thousand years ago, when Europe was inhabited by just such little people as the Bushmen, as is proved by the cave pictures and statuettes which they left behind.

American Robins in England.

The London Spectator says that in various places in England American robins are living in a wild state. About fifteen years ago a Boston business man sent fifty pairs to Lord Northcliffe, who liberated them on his estate in the south of England. All except one pair disappeared, but that pair was observed to nest and to bring off young. Doubtless many other pairs also raised broods. At any rate, the birds appear to have established themselves, and the red-waistcoated squire of old England will probably see something likeable in the cheery, red-breasted bird that frequents his lawns and hedges.

For every wash-day method

RINSO is ideal for any wash-day method you use. You do not have to change any of your usual steps—just use Rinso where you used to use ordinary soap.

If you like to boil your white cottons, Rinso will give you just the safe cleansing suds you need in the boiler. If you use a washing machine, follow the advice of the big washing machine manufacturers—use Rinso.

Just soaking with this new kind of soap loosens all the dirt until a single rinsing leaves the clothes clean and spotless.

However you do your wash, make it easy by using Rinso.

Rinso is sold by all grocers and department stores

STRAWBERRY ROOT ROT.

During the last two years numerous samples of strawberry root rot have been sent in to the St. Catharines Dominion Laboratory of Plant Pathology for examination. While some of these were without doubt directly due to winter killing, many were brought about by some other agency. This same trouble has been reported this year not only from most strawberry sections of Ontario but also from the States of New York, Illinois, Michigan and Idaho. The cause is given as undetermined, although certain soil organisms are suggested.

The leaves of root-rotted plants remain small, are brown in color and often become yellow, but eventually the plant, roots and crown dies. Generally the diseased plant dies before picking time although it is not unusual to see patches of diseased plants remain alive till sometime after. Such plants produce small, green, immature and worthless fruit. In nearly all cases this trouble appears in isolated spots throughout the field. Some rows may be affected in their entirety but this is not the general rule. Much more often it is only a part of the row that is diseased. When such

diseased plants are pulled up and the roots cut transversely it is noticed that the entire root and crown is brown or black. Healthy strawberry plants show a white central core.

On one farm this trouble has been present on the same piece of land for the last four years. Various fertilizers were tried but without success. However, this last year this grower set out his strawberry patch on another part of his farm and so far no evidence of root-rot has been apparent. While as yet we are not able to state the cause, we believe that conditions of the soil have a great deal to do with it. We should advise any grower who is troubled with root rot to set out any new plantation on a piece of land that has not previously been planted to strawberries.

This laboratory would be very glad to receive material of any such trouble from any grower no matter where situated. Any material thus sent in will be carefully examined and reported upon. In sending specimens kindly see that they are packed so as to arrive in good condition, and address the Dominion Laboratory of Plant Pathology, 204 St. Paul St., St. Catharines, Ontario.—G. H. Berkeley, Plant Pathologist.

GOOD-LOOKING FLOORS FOR FARMHOUSE ROOMS

BY ETHEL CARPENTER.

Floors are regular buggaboes to the woman who is striving to make her home pretty. Like most necessities, conventional floor coverings are apt to make appalling inroads on the income, and even then there is the danger that they may be unsatisfactory from the standpoint of choice. Nine times out of ten a woman is uncertain how any floor treatment will look until it is tried; moreover she sometimes cannot afford what she would like, and must content herself with some second or third choice.

But if she gets the trick of knowing what will look particularly well on the floors of farmhouse rooms, she will find a certain economy no hardship, since the somewhat unconventional floor treatments that guarantee the most promising results for farmhouse living are usually quite within her means.

Floor treatments are just as important in creating a beautiful home as are wall treatments, window curtains and the actual furniture to be used in furnishing it. And an effective floor, which includes its paint and stain, as well as its covering, does not require a great deal of money to be spent on it to make it so.

What it does need, first, last and always, is intelligent thought.

The first thing that we must demand of a floor that is to be beautiful is that it be quiet in effect.

TRANSFORMING SOFT-WOOD FLOORS.

The second is that it has the proper value, which means that the lower part of the room should be heavier in tone than the upper part. This makes the room keep its proper balance.

The third is that the floor should act as an effective part of the room scheme.

The fourth is that the right floor covering should be selected with relation to beauty, cost, wear and personal preference.

I want to tell you what floor treatments I consider particularly beautiful and especially suited to the farmhouse.

These treatments may be divided into two classes: The bare floor relieved by small rugs, and the room-size floor covering.

In discussing the use of small rugs, the treatment of the bare floor must be solved first, and there are several good treatments that may be suggested for the floor of soft wood, which is the usual flooring to be found in the farmhouse.

If the boards have been carefully selected and laid, and the floor is in good condition, there is a special treatment that will repay for the trouble of applying. When finished it will resemble a hardwood floor.

Dissolve a sufficient quantity of burnt umber in linseed oil, thinning it with turpentine to impart a pleasant pale brown color to the floor. Rub this mixed coloring into the natural unfinished wood with a soft woolen cloth, taking great care that it goes on very evenly in tone.

When this is dry, melt about a pound of shaved beeswax in a kettle on the stove, remove from the fire and thin with turpentine. It is necessary to remove the kettle as the turpentine is combustible, but after this is poured in, the kettle may be replaced on the stove, so that the mixture may gradually heat and come to the right consistency to be applied easily to the floor.

This is applied evenly with another soft woolen cloth; it must be kept hot during the operation.

After allowing a day to elapse, polish the floor with a brick wrapped in woolen cloth or soft carpet, or else

with a long-handled polisher, until the floor shows a soft glow.

This makes an ideal background for the laying of small rugs, and would have to be renewed only every six months or so. It may be cared for with a dry mop, with the addition of an occasional polishing when needed.

Varnish is another finish that is in high favor, and this is usually applied to a bare floor in the form of a varnish stain of the color desired. Walnut or dark oak are the colors to be advised for this.

The best varnish stain that money can buy is an economy in the end, and a new coat of it applied when needed is a economy also, and is usually applied to a bare floor in the form of a varnish stain of the color desired. Walnut or dark oak are the colors to be advised for this.

Varnish finish should not be applied on top of paint, or vice versa, but always the finish of a different nature should be first entirely removed.

If the old finish is cracking, flaking or peeling, it must always be removed by means of sandpaper or paint-and-varnish-remover before the new coat is applied.

But of all the finishes that may be used on the floors of the farmhouse, there is none so satisfactory, so suitable and so beautiful as paint.

A colored floor, is not too garish, imparts just that note of style and character a room sometimes needs for good looks. Paint may be applied to bare boards that have never had any other finish, in which case it may be flat paint or gloss paint which contains an admixture of varnish. Varnish mixed with paint makes it wear better, but paint containing varnish had better not be used on a flat-painted floor, or vice versa, as the new coat is apt to flake off.

Painted floors may be richly colored, the choice of decorative hues being wide. Old blue; peacock blue, which is old blue with a nearly equal quantity of green added to it; leaf green, which is grayish in tone; dark apple green; taupe, which is a grayish brown; mulberry, which is a cross between shades of roses and wisteria; and a gray which is not at all bluish in tone—a gray more the color of smoke.

The paint used on a floor should be darker in tone than the same color paint that is used for the standing woodwork.

On dull brown varnished floors, on pale brown waxed floors, and on floors that are painted, very delightful small rugs may be used. These may be of braided, crocheted or woven rugs, or they may be hooked rugs, which in their revived popularity are more than the equal of real-Oriental rugs, and much more suitable for use in the average farmhouse.

All of these small rugs may be made by the farm wife, as they have been since the beginning of time, and she is as capable as she always was in making rugs of beauty that the whole world copies with delight.

Therefore I want you to be sure to consider favorably the beauty and suitability of such small quaint rugs laid on the properly treated bare floor.

TREASURES FROM THE RAG BAG.

Woven rag rugs come in all sizes and attractive colors at very reasonable prices. Rugs braided by machine are very inexpensive; but rugs braided by hand are mostly so high priced that this furnishes an added incentive for doing the work at home.

Among room-size rugs there are also some that may be made at home; and these are the braided or crocheted oval rugs. They may be made absolutely without expense if the rag bag is made to hold up its treasures, and

if these rags are sorted, torn into strips and dyed.

But it is possible to buy ready-prepared and dyed rags by the hank, which are made out of new material, and these are admirable for crocheting.

The woven rag rugs that come in room size are very inexpensive, and they have the added desirability of coming from the wash tub like new. Rag carpeting strips may be sewed together to form a room rug.

These two types look especially well on a painted floor, painted the hue of the predominant rug color. Quite a bit more expensive, but as durable as iron, are the plain-color linen rugs which are suitable for use in the dressiest farm room. These have no pile, but are woven thickly and evenly and lie flat on the floor.

Something like the linen rugs, but just so much more desirable as their increased price would indicate, are the woven wool rugs which have no pile. In plain colors these rugs are delightful and may be had with straight plain borders of contrasting or harmonizing colors.

These rugs may be had in small or room size.

Among the more conventional rugs that are suited for farmhouse rooms are the Axminsters and the Wiltons. The best quality Axminster rug costs about the same as a low-grade Wilton, and in choosing between the highest-grade Axminsters and the lowest-grade Wiltons there is not the slightest question in my mind that the Axminster would be the wiser purchase.

In purchasing a rug like an Axminster or a Wilton it pays to put as much money into it as possible. If you haven't enough to get a fine Wilton, spend it for a good-quality Axminster.

Plain rugs are very fashionable the world over for every sort of house. They are decorative in the highest degree and no room can fail of beauty if it has one on the floor.

Some housewives object to them, however, because they show footmarks, though I myself do not object to this in the least, for a plain rug is expected to show them, and the handsomer the rug the more it is apt to show them. But run the sweeper over the rug, draw the fluff of the broom over it quickly, seeing that the strokes all run the same way, and the rug is as sleek as a pussycat. As the pile of any rug flattens, the footmarks are less likely to appear.

When great wear is required in a room such as a dining-room, a piled rug had better show a small figure. This is also a convenience in the dining-room, where spots are apt to develop on any rug. But the figure need not be large, more of a self tone or two, and the rug should not have a central medallion. Medallion rugs are in very poor taste, and even if we are still having to wear out some of

them, we know enough not to buy a new one of this style.

In selecting a new figured rug, I feel that the Oriental motifs are less suited to the farmhouse than to any house. The farmhouse idea is quaintness, and there is nothing quaint about Oriental patterns. In figured rugs, therefore, select the small all-over patterns that are not inspired by these sources.

Straw rugs, grass rugs and matting are suitable for the farmhouse. But these should show no pattern other than a stripe, a block, or an all-over tiny figure; and there should be no stenciled decorations. Linoleum is suitable for farmhouse use, and many people welcome this expedient for the covering of rough and unsightly floors.

Tapeworm in Sheep.

Some eight different species of tapeworm are harbored by the sheep, but the most common type found in the Province of Ontario is known as *Toenia expansa*. This species of tapeworm may run from eight to ten feet in length up to eighteen feet, and from about 1-25 of an inch wide at the head to nearly 1-2 inch at the tail. The entire worm is yellowish white in color, and is composed of segments about one-quarter of an inch long.

The experience of the Animal Husbandry Department has been that lambs suffer more from this trouble than do sheep. In 1918 and in 1922 the lambs in the O.A.C. flock were badly infested, but the ewes were practically free from the trouble. Infested sheep or lambs do not thrive, the skin becomes pale and weakness follows, accompanied by a dry condition of the wool and very often by digestive troubles. The surest symptom is the finding of segments of the worm in droppings. If this trouble is suspected close observation should be given the droppings of the sheep and lambs.

Fast the sheeps or lambs twenty-four hours before treatment. Then give one dram oil of male shield fern in three ounces of castor oil to a mature sheep or half the dose for a lamb. Give as a drench by means of a long-necked bottle. Kamala in 1½ dram doses to mature sheep given in thick gruel or treacle and followed by three ounces of castor oil in a few hours will expel the worms. Keep sheep in after treatment until all worms are expelled. This will take from 24 to 30 hours. Put out on new pasture, as if any segments of tapeworm are picked up by the sheep or lambs they will develop. The trouble is most common in wet years and on wet pastures.

A deep sense of economy is almost as effective as the "still small voice."

Growing alfalfa brings profits beyond the hay, many grow it alone for the land's sake.

Can You Beat This One?

Here's a fish story that makes the average rod-wielder look like the youthful George Washington. The gigantic musky whose portrait is seen above was landed by an Indian with his bare hand! This is the gospel truth. Some few weeks ago, setting out from Devil's Gap Bungalow Camp, on Lake of the Woods, Konora, an ardent sportsman hooked this tremendous fellow, a 35-pounder, on a fifteen-pound test black Japanese silk line and an eight-ounce split bamboo fishing rod with a No. 3 Starr double-spinner as a lure.

The captive, offering the type of little angler's thrill to, struggled for forty-five minutes, then, at the critical moment, made a supreme effort, snapped the line and disappeared. The sportsman groaned, believing all was over. But the wily Indian guide, padding round quietly, spotted the fish lying exhausted in four feet of water. "Don't move!" he yelled. "She come up!" And, sure enough, the "huge prehistoric rose to within a few inches of the surface, through the back of the gill, he flung his triumphant into the canoe.

Next time you wrap yarns with your pals and want to cap their best efforts with something that is no less remarkable than it is correct in every particular, ask them "Can you beat this one?"

PACKING BUTTER FOR WINTER USE

BY BELLE MILLAR, DAIRY DEPT., O.A.C.

I attended an Institute meeting one day and heard one of the speakers close his address with this little verse:

"Good, better, best,
Never let it rest,
Till your good is better,
And your better, best."

It is the very best butter that we can make that must be packed for winter use.

Butter undergoes changes in the keeping and two things necessary for good results when keeping butter for winter use are best quality of butter and low temperature for holding.

Use cream that has a clean, sweet flavor. Churn it at a temperature low enough to bring the butter in nice, firm granules in from 20 to 30 minutes.

If by any chance the butter comes soft, be very careful to get rid of the buttermilk. It will be necessary in a case of this kind to use an extra wash water.

Salt the butter in the usual way and work it thoroughly. Should the butter soften during the process of working, put it away in a cool place to become firmer before continuing the working.

As butter keeps best in a solid,

POULTRY.

It is sometimes difficult to say just where poor management stops and disease begins, but there is one ailment of partly grown chickens that is most always traceable to mismanagement. Poultrymen often speak of it as "fall colds."

As the growing birds increase in size they require more and more air while on the roost at night. If they are kept in close, stuffy houses where the air circulation is poor they are very likely to develop colds.

It is well to be on the lookout for this trouble and to guard against it by being sure that the roosting quarters are well ventilated at all times. There is very little danger of draft harming a healthy, well-feathered chicken in warm weather, so it is a good plan to provide a ventilator of generous size in the rear wall of every colony brooder house. With windows in the front left open and the rear ventilator also open, there will usually be sufficient circulation of air to keep the chickens in a healthy condition so that they will not be subject to fall colds.

Taking a Milk Sample.

Several years of experience as a cow tester have indicated some points to me, some points in taking milk samples that are worth passing along. The sample for a milk test for the butterfat content does not need to be large. A half pint is plenty.

In taking a sample, when the cow is milked, stir or pour the milk from one pail to another two or three times. Then dip out what is needed.

If the first milking taken is evening and the cow gives twelve pounds, then keep that separate, and in the morning take another sample carefully mixed. If the cow gives eighteen pounds in the morning then save a proportionately larger sample of the morning milking. Mix the two and that gives you a pretty fair sample.

Taking the sample from two days' milkings is better, but one is more practical.

The reason for the two milkings is that most cows will produce a richer milk in the evening than in the morning and one sample would indicate little. Some cows, however, are freakish and produce just the opposite kind of milk.

Now that the half pint is saved, care again must be used in mixing the sample. It ought to be somewhat warm as cold cream and milk will not mix any too well. Pouring from one milk bottle to another is about the best way to mix. But too much pouring is apt to incorporate air in the milk and make a "shy" sample, because bubbles take up space in the pipette.

I like to make two tests of each sample. That is required in official work. The two samples usually are exactly the same. If there is more than two-tenths of one per cent. difference the official testers are required to make the test over again.

In reading the fat column I've found a black pencil makes the readings easy to read by filling them with lead. Cows that are just turned on pasture or have had their feed changed recently or have been or are coming in heat do not give a fair sample of milk. Wait until they are quiet.

—E. R.

Starting At It.

Her friend—"When you and Ferdin were married he promised you the cream of everything. Is he making good?"

Mrs. Youngbride—"He's making a good start. He's earned enough to keep me supplied with cold cream and himself with shaving cream."

crocks or boxes are used for winter use.

The boxes have a coating of paraffine on the inside and it is necessary to line them with heavy parchment paper.

While many people have a 56-lb. box filled for winter, in some cases it would be much better to have it put in two 28-lb. boxes.

The crocks should be in good condition, free from cracks or breaks in the glazing.

When packing butter, be sure to pack solidly. See that there are no openings in the sides and that the corners are well filled.

If there is 8 or 10 lbs. of butter in a churning, do not put the whole lump into the crock and then try to pack it down. Rather put it in in pieces, making sure that each piece is solidly packed.

Finish the top off evenly and cover with parchment paper. A thin layer of salt paste may be put over this before fastening down the lid.

With crocks it will be necessary to tie clean wrapping paper over the top after the lid has been put on.

All butter should be stored in a clean, dark place where the air is pure and the temperature low and even.

THE CHILDREN'S HOUR

JACKIE RABBIT AND WILLIE WOODCHUCK GO FISHING.

It was an excited little rabbit that went running over to Willie Woodchuck's house one bright morning soon after school was out.

"Oh, Willie," shouted Jackie Rabbit, "mother says I may go fishing this afternoon if I get the garden hoe. Can you go?"

Willie didn't wait a minute to answer. He just winked his eye at Jackie and waddled into the house as fast as he could. In a minute he was back again and the broad smile that stretched from ear to ear told how tickled he was.

"Mother says I may go just as soon as I get the berries picked," he said. "Hurray," shouted Jackie. "I know where I can get some nice big fat wiggly worms that will be just fine for bait." And off he skipped toward home to finish the hoeing.

So it was that early that afternoon Jackie Rabbit and Willie Woodchuck found themselves down by the Fishing Hole at the bend of the big creek.

Carefully they climbed out on the old log, that they always used to fish from. With their hooks baited with big ugly worms, the fish began to bite fast, but once when Jackie threw out too far, his fishhook caught on a log nearby. He pulled it and pulled it and wiggled it east and wiggled it west. Willie did his best to help him and finally off it came.

But what a frightened "Oh! Oh! Oh-h-h" it was that they both cried when they saw what had happened. In attempting to loosen Jackie's fishhook, the big log they were on had drifted away from shore and they were out in the middle of the big river, drifting drifting toward the Big Sea.

"Whate'er shall we do?" asked Willie with a splashy tear forming in each of his little black eyes. We can't swim that far."

"Oh, no, no," said Jackie, "we can't swim hardly at all. But sailors don't cry, Willie, and we'll have to play we're sailors. Just sit awfully still so you don't fall off. Perhaps a merry little breeze will come up and blow us toward shore."

But Jackie was just as scared as Willie as they went drifting, drifting on toward the Big Sea.

Horse Barns.

Many horse barns, good in most every other particular, have poor floors in the stalls or, in case of a dirt floor, deep holes tramped out where the horse must stand or lie. After a horse works all day he is entitled to a good bed. Board floors should be kept in good repair and dirt ones well filled to provide proper drainage and an even surface.

Horses compelled to stand with their front feet in deep depressions in the stall will develop weak backs. And another bad practice is to leave hay in front of a horse slightly out of reach when, in his effort to get to it, he must press against a manger or other like obstruction. This constant pressure will bruise his breast and start a growth that is practically incurable and means the loss of the animal.

Wash Day.

The next time the wife complains of wet feet on wash day make a slat platform for her to stand on.

The platform is four feet long and two feet wide. The long slats are one inch thick and two inches wide, and the cleats underneath—there are four—are of the same material.

It is so light that it can be set up on end when the wash is on the line and quickly dried out.

The management of the farm has a two-fold aspect that of a business and that of a home.

THE LAST HALF

It never pays to do things by half. Sometimes on the farm in recent years it hasn't paid to do them at all. That fact has a tendency to make us hesitate more than usual perhaps. It takes courage to plan one's work and drive it through to completion when that work may mean a financial loss. Courage is a moral quality that is ever in demand, and one of the prime requisites for success in any undertaking. "Faint heart ne'er won fair lady." Neither have half-hearted efforts ever won anything worth while. If your work is worth doing at all it is worth doing well. The proverb says, "Well begun is half done," but let us remember that half done is not finished. When we have made a good beginning we have only fired one barrel. We must see the thing through with the best that is in us.

Final accomplishment does not come from reserving your strength for a sure thing. It comes from putting the best you have into your task, from firing both barrels every day. The hunter that does not shoot comes home with an empty game bag. The farmer who does not farm has nothing much to sell.

You have only to look about you on every hand to see what fine farms and fine homes young men of the passing generation have built up by hard work and well directed effort. They should be an inspiration to us. Times may have changed since father was a boy, but the essentials of success are much the same. The same effort, the same faith, the same patience and perseverance, the same hard work every day will get results to-day as then. They took good aim and fired both barrels.

Porch Floors.

Laying concrete porch floors successfully, especially after the rest of the house has been built, is a painstaking job. Usually the cost of the floor is materially decreased by filling a large space at the centre with rocks or even tamped earth. But the fill settles and cracks the floor and considerable time and materials have been consumed in form making.

Here is a method that has proved to be a distinct improvement in several cases. No forms are required and the floor is re-enforced so that subsequent settling of the fill does no damage. Moreover, the plan does not require excessive time.

A concrete footing is set well under the ground surface for the front edge of the porch floor. Upon this concrete blocks—or a solid wall, if desired—are built up to the height of the house foundation, lacking about two inches which is required for proper drainage slope. Siding is torn away from the building where necessary, and the interior filled with earth which is packed by soaking with water and leaving for several days.

This done, the top of the fill is crowned carefully and the edges brought on a level with both porch and house foundation. When everything is ready, this is covered with an inch layer of concrete and covered with laid upon it. Then the floor is laid up to the desired level, flat on top.

Should the fill later settle, the re-enforcing embedded in the concrete will keep the floor from cracking, or the fill can even be removed without danger of damage if for any reason this should be necessary.

A Useful Fruit Ladder.

A useful ladder for use in fruit picking and other purposes, one that can be rested in the crook of the tree and remain firm, can be made out of a single pole. Select a pole or timber with straight grain and free from large knots. With a saw split one end for a distance of about three feet. At the end of the saw cut, bind the pole with a piece of sheet iron to prevent further splitting. Spread the two pieces out as shown and fasten in that position with a strip of board nailed across about one foot from the bottom. Nail another strip one foot above this, then at intervals of one foot nail short pieces of board to the pole. To give strength to the ladder it is best to cut notches in the pole to receive these steps, to the depth of one inch.

First Attempts at Music.

The beginnings of music-making, as it is practiced by uncivilized people, offer curious reading. Among savage tribes, it is said, the earliest acquired musical phrase is derived quite distinctly from a simple howl, the notes gliding down or up a scale by semitones. And savages repeat over and over again one phrase, their satisfaction in having mastered which is childlike. As the people rise in the scale of intelligence their favorite musical phrases grow larger and become more elaborate, until a systematized making of music can be clearly discerned.

When you have many broilers to market it pays to line up your market a few weeks in advance, especially if you depend on a local dealer with a limited demand for such stock. It is a great waste of time and money to finish broilers for market and then find that your dealer is fully supplied.

Music is free from the jealousies which often spoil the best efforts of human will and capacity.—Dr. McCormick.

E. A. MAYHEW & CO.

Who did Christ say "was His brother, and sister, and mother?"—Matt. 12: 46-50.

WARDSVILLE

A. C. Graham, superintendent of the anti-saloon league of Kentucky, and an old Canadian boy, will conduct the regular 11 a.m. service in the Wardsville Presbyterian church on Sunday, August 17, speaking on behalf of the Ontario Prohibition Union. All members and adherents should make a special effort to hear him.

There will be no service in the Presbyterian church on Sunday, August 24th.

Mrs. Seaman and Mrs. L. Johns, of Chicago, are visiting their brothers, Charles and Wm. Minna.

Kirkland and Charles Paunter, of Dutton, spent a few days at the Anglican rectory last week.

Mrs. Tilson, of Port Stanley, visited her sister, Miss B. McVicar, last week.

Rev. R. J. Murphy and daughters spent Friday in London.

Mr. and Mrs. T. Brennan and son Harry, of London, called on Mr. and Mrs. Chas. Minna Sunday.

Mrs. J. Sloan and son Victor and Mrs. R. Archer have returned home after a week's visit in London.

Thos. H. Weer and Ava spent Sunday with relatives at Knapdale.

Miss M. Althoff returned home Monday night after a five weeks' visit in Beaverton.

Leo English, of New York, called on his aunt, Mrs. T. English, on Monday.

A union mass meeting will be held in the Wardsville town hall at 8 p.m. Sunday, August 17, when A. C. Graham, superintendent of the anti-saloon league of Kentucky, will speak on prohibition, with special reference to the coming vote on the Ontario Temperance Act. Mr. Graham is an old Canadian boy, well worth listening to, and should be heard by everyone in the district, regardless of their views on prohibition.

Notice.—Monuments, in Scotch and Canadian granites; inscriptions engraved at your cemetery a specialty.—Wardsville Granite & Marble Works; Chas. Minna, proprietor.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Remover is within reach of all.

NEWBURY

Newbury is now on the baseball map. A game on Friday afternoon with Mt. Brydges put us there. The score, 4-3 in favor of Newbury, gives us the championship in this Western League. A large crowd was out to see this game, which was fast and interesting. An unfortunate incident occurred when a lady visitor from Mount Brydges got hit by a batted ball, receiving a cut over the eye. These accidents might be avoided if spectators would sit in the grandstand instead of standing out in the field.

"Fluffy," a valuable Pomeranian dog and a great pet, owned by Mrs. D. J. Betner, was instantly killed on Tuesday last. The dog left the porch and walked onto the road just as Ed. Leitch came along with his car. Mr. Leitch stopped quickly, but the dog had been struck and was dead when picked up. Fluffy was a familiar figure on the street and much admired.

Will Woods and family returned on Saturday from a visit in Welland. Stewart Weir, of Ridgeway, is assisting at the Helms picking station again this summer. Cucumbers are coming in fairly well. If the weather is favorable this will be a busy place.

this season as there is a large acreage in.

Dr. J. P. McVicar and wife spent last week at Petrolia and Bridgen. Dr. H. C. Hayne, of Sarnia, and Miss Sadie Stewart, of Toronto, were week-end visitors at John G. Bayne's.

Mrs. Lawrence Stevenson and son, of Long Beach, Cal., visited in town last week.

Miss Gertrude Burr spent the week-end in Detroit.

Mrs. J. J. Stephenson and children, of Walkerville, visited Miss Laura Gay this week.

Miss Galbraith, of Drumbo, is visiting her uncle, P. T. Galbraith. The Presbyterian and Anglican Sunday School's held their annual picnic at Springbank on Tuesday of last week. All had a good time.

Roy Pryne, of Toronto, visited his sister, Mrs. Frank Robinson, last week. His son Rolfe returned home with him after spending his vacation here.

Mrs. W. Durley and son Kenneth, of Detroit, have been visiting relatives here.

Mrs. S. J. Kerr and daughter Evelyn and son Douglas, of Los Angeles, Cal., and Alfred Jackson and family, of St. Thomas, visited their cousin, Mrs. Matt. Armstrong, last week.

The W.M.S. of Knox church met in the Sunday School room on Thursday, August 7th. In the absence of the president the chair was taken by Mrs. A. G. Munroe, vice-president.

Mrs. Sherwood assisting with the devotional exercises. Miss Carrie Wilson read a splendid paper on "The Future of Formosa," urging the need for more workers and for renewed effort. Miss Jessie Fletcher followed with a few interesting articles from the Messenger.

WOODGREEN

Miss Florence Mitchell, of Windsor, has returned after spending a few days with her sister, Mrs. Geo. Harvey.

Mr. and Mrs. Fred Underhill, of Bothwell, spent Sunday with her parents, Mr. and Mrs. G. Scrimshaw.

Mrs. Ward and son and daughter, of Cairo, Mich., spent a few days with Mr. and Mrs. E. Lamley.

Dr. and Mrs. Nelson Coyne and family, of Toronto, spent a few days with Mr. and Mrs. H. Coyne.

George Smith, of Ekfrid, spent the week-end with Alex. Cameron.

Mrs. L. McKibbin, of Cherry Valley, is visiting her mother, Mrs. Henry Moore.

Helen and Viola Eddie, of Windsor, are visiting Mary Waterworth and other friends.

Two interesting games of ball were played on Monday evening at Woodgreen. No. 5 girls played a return game of soft-ball with the home team, the score ending in favor of Woodgreen. No. 5 boys played a game of baseball with the River Rats, with the score in favor of the latter team.

Miller's Worm Powders do not need the after-help of castor oil or any purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, will end the worm trouble by making the stomach and bowels untenable to the parasites. And not only this, but the powders will be certain to exert most beneficial influences in the digestive organs.

MELBOURNE

Anniversary services of the Methodist church will be held October 12. Looking over records it is learned that a Methodist church was established in this village 65 years ago, although services were held here by the Methodist people many years before that. The Ladies' Aid has been organized here for 40 years.

Mr. and Mrs. C. G. Cornille and daughter, of Camrose, who have been the guests of the former's mother here, are visiting friends in Chatham.

Rev. Dr. Knowles and Mrs. Knowles, of St. Marys, and Rev. Mr. McVittie and Mrs. McVittie, of Mt. Elgin, were guests at the Methodist parsonage recently.

Rev. Dr. McCrae, of London, conducted services in the Presbyterian church here and at Riverside in the absence of the pastor, Rev. G. W. Oliver, who is having his vacation. Mr. Oliver will be here for next Sunday.

Mrs. (Rev.) J. M. Colling is spending a few days with her mother, Mrs. Clarke, of St. Thomas.

Mrs. M. R. Brown is the guest of her son in Windsor.

Miss Dorothy Williamson is holidaying with her grandparents, Mr. and Mrs. Preece.

Miss Annie McDougald is the guest of her sister, Mrs. J. Drinkwater, of Toronto.

Mrs. Wilson Richards, of Strathroy, is the guest of her son, Stanley Richards, here.

Mrs. (Dr.) Woods, of Michigan, is the guest of her father, Gilbert McLean.

Mrs. Whitfield, of Detroit, has returned home after a few weeks' visit with her mother, Mrs. J. D. Campbell, who is ill.

The executive of the Epworth League have arranged to give a special entertainment each month and show their appreciation of the home talent by inviting them to take part in the program. The first entertainment was given on Thursday evening when the program consisted of vocal solos by Mrs. Harry Brodie, Mrs. Bees and Mrs. Little; piano solo by Miss Phyllis Bees; lantern slides, shown by the pastor, Rev. J. M. Colling, A. story, "The Golden Fleece," was given by Mrs. Colling. The Scripture lesson was read by Ronald Lewis, and E. Richards and Wm. Lewis led in prayer. A number of bright hymns were sung and a most profitable evening spent.

Misses Jennie and Annie Black are on a two weeks' vacation at "Bonnie Doon."

Melbourne, Aug. 11.—Rev. G. W. Oliver and family have returned from a four weeks' vacation and Mr. Oliver took charge of the services here on Sunday.

Rev. J. M. Colling will leave for his vacation on the 13th inst. Mr. Dodson, teacher of Mt. Elgin Institute, will preach here on the 17th inst. in the morning, and Arthur Wright, of Strathroy, will preach here on the morning of August 17. Rev. G. W. Oliver will have charge of the evening services. Wm. Lewis and Arthur Wright will have charge of the services at the Sutherland appointment.

On the 8th inst. the members of the Sutherland church held a most successful entertainment. Although the farmers are very busy in the harvest it did not prevent them from attending this gathering. A good program was given, including lantern slides shown by the pastor, Rev. J. M. Colling. The story, "The Golden Fleece," was given by Mrs. Frank Hutton. At the close of the program a church club was organized and the following officers appointed: President, Mrs. Herb. Sutherland; vice-president, Mrs. Thomas Sutherland; secretary-treasurer, Miss Edna Hardy; organists, Miss Marie Gough and Mrs. Harrison. Arrangements were made to meet every third Tuesday. The next meeting, however, will be held on Tuesday, September 2, when a good program is being arranged, including lantern slides shown by the pastor.

NORTH EKFRID

Mr. and Mrs. Orvil Hathaway and son Samuel and wife and children, Murray, Elmer and Reggie, motored to Sarnia and spent the week-end with Mrs. Caven and Mrs. Harris.

Burton Campbell has been engaged as mail carrier on No. 1 route from Walkers.

John A. Walker met with a serious accident on Monday. While drawing in wheat he fell backwards off the lead, seriously hurting his shoulders and head. He is under the care of Dr. Owens.

The annual picnic of Burns' church will be held on Labor Day, September 1st, at McAlpine's grove. On Sunday, August 31st, Rev. Dr. Macdonald, of Kintyre, will conduct a Gaelic service at 11 o'clock.

The Appin soft-ball team played the locals a friendly game on the home diamond on Thursday evening, which resulted in a victory for the locals, 9-6.

Mr. and Mrs. John McNaughton and daughters, Mary and Jean, spent a few days at Port Stanley.

Word has been received that Dr. Fraser Smith, of Blenheim, former pastor of Burns' church, has resigned his charge and will sail in October for India and China, where he spent several years in the mission fields.

Mrs. Sam Pierson and family, of Detroit, are spending a few weeks at Alex. Dewar's.

No Rest With Asthma. Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh, and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merits through years of service. A trial will surely convince you.

CASHMERE

Lyman Hoxie, of Detroit, is visiting his aunt, Mrs. Calvin Stitler.

Mrs. James Hanton is visiting relatives in Cleveland.

Mr. and Mrs. Calvin Stitler and sons and Lyman Hoxie, and Mr. and Mrs. B. F. Jeffery, of Newbury, motored to Southwell and visited the latter's sister, Mrs. John McLeay.

Miss Lillian Collier, of Melbourne, spent a few days with her cousin, Mrs. Calvin Stitler.

Mr. and Mrs. J. S. Thompson and son George were in Southwell attending the funeral of a friend recently.

Harley Reade, of Detroit, spent the week-end with friends here.

Angus Taylor was a London visitor recently.

James Hanton and friend, Mr. Zak, of Cleveland, have returned home after spending a week at the former's home here.

Wed. Darke was a Port Stanley visitor on Saturday.

A number from here attended the ball game between Newbury and Mt. Brydges on Friday evening.

Elmer Knowler, of Bothwell, is visiting his uncle, Wed. Darke.

Mr. and Mrs. Allan Stitler and son Norval, of Bothwell, spent Sunday with Mrs. Earle Tunks.

A number from here attended the Aldboro Old Boys' picnic at Port Glasgow on Wednesday last.

Mr. and Mrs. D. Stanley Allan have arrived home after spending their honeymoon in Detroit.

Mr. and Mrs. Basil Stitler, Mrs. Milton McCallum, Mrs. Mar'in McCallum and Miss Roberta Chapman, all of Detroit, spent a few days with friends and relatives here.

Mr. and Mrs. Clifford Tunks spent Sunday with relatives in Aldboro.

A quiet wedding was solemnized at the church of Christ, West Lorne, on Wednesday, July 30, when Viola Carson, daughter of S. Carson, of Yarmouth Heights, was united in marriage to D. L. Hill, of the firm of Hill & Atkinson, garagemen, of St. Thomas. Miss Carson was well known here.

CAMERON

There will be anniversary services at Cameron church on Sunday at 11 a.m. and 7.30 p.m. Rev. Mr. McKay, of Dresden, formerly of Cameron, will take charge.

The young people of Cameron church have recently papered and painted the interior of the church.

A number from here attended the anniversary services at Kintyre on Sunday.

Gentlemen who are attacking the Bible should reflect that the Bible is the only thing we have left in which there is any chance to believe.—Columbia Record.
