Paris, June 17.-Speaking yesterday of the new Franco-Spanish and British-Spanish treaties, the signature of which virtually creates a new triple alliance, M. Pichon, minister of foreign affairs, said:

"Such arrangements are the best guarantees of peace that can be conceived. Our agreement with Spain is purely pacific. It accords with the interests as well as the sympathies of both nations. The negotiations for this safeguarding of the common interests of the two countries have been communicated to the other powers, with explanations as to its scope. Its intent is purely pacific, the object being to assure the status quo of that region, which could not be altered without injury to the two contracting signatories and the security of the communications of the respective outlying territories, which is especially important in the case of our possessions in Africa, and on both the Atlantic and Mediterranean coasts."

BOTHA'S BARGAIN WITH BANNERMAN

Far Fetched Story of Shady Deal.

London, June 15.-Under the title, 'A Gigantic Scandal," the National Review this month contains an amazng explanation of the evident friendship between Gen. Botha, and the members of the Home Government.

The National Review declares that bargain was made between Gen. Botha and the Government, by which he agreed to repatriate the Chinese coolies now in South Africa in return for a promise that the Government would guarantee a Transvaal loan of \$40,000,000. The following are extracts

from the article: "On his arrival from England, Gen. Botha was approached by the colonial office and asked whether he would not, in return for Swaziland and past favors, pledge himself to the repatriation of the Chinese coolles as their in-

FEAR IS BLIGHT OF HUMAN KIND

Lectures on Christian Science to Large Audience.

Mr. Edward A. Kimbail, C. S. D., and a member of the board of lecturers of Rev. J. W. Graham, B. A., was strong- the First Church of Christ (Scientist), of Boston, lectured in the Grand Opera House yesterday afternoon to an audience which completely filled the theater. The lecture was given under the auspices of the First Church of Christ partment of the church in Canada. His sermon last night was not merely a farewell to the congregation, among whom he has labored for the past two whom he has labored for the past two of Toronto, formerly of London, sanguages but it also marked his departure. a couple of hymns in his accomplished

The theme of Mr. Kimball's address was fear and its effects on mind, body and spirit. In a general way it covered the whole field of the Christian Science propaganda. Fear he denominated the chief blight of humanity and the mainspring of disease and death.

It is self-evident that certain things have existence, Mr. Kimball said. It is generally known that they have cause, origin and basis, by reason of which they exist. Some people declare the cause to be a blind force; others that it is some sort of intelligence, and theology affirms that it is a conscious intelligence or entity which may be designated God.

Enlightened Belief Concerning God. A concensus of enlightened belief concerning God is that he is one supreme, infinite, self-existent, all-inclusive, spiritual individual, conscious being-the sole creator of all that has niscient and omnipotent; that he is the only lawmaker and holds in his grasp the destiny of all men.

Christian Scientists subscribe to all these postulates without reserve, and yet our religion is in some respects quite different from that of others. Why different, if we agree on these essentials?

In her effort to enlarge the human conception of the infinite God, Mrs. Eddy been shown to him and his family dur- definition of delty, and affirms, among ing the past two years. In looking back other things, that God is divine mind

> Causes of Disease Little Known. The medical profession have practically united in the admission that "concerning the essence of primary cause of disease little is known: inwhat is the primary cause of disease, can be solved only by entering the mental realm.

God, the Law of Life. God is not only life, but has ordained life, and is the law of life and health for man. The theology of Christian is consistently parallel throughout with this declaration. It also declares that God has created man that he might have being, and not for the purpose of inflicting upon

him inveterate agony and disease. Christian Scientists, he said, repudiate all assumption that his law is the law of sin and death. Sickness is contrary to God, and God is contrary to it. God is the natural healer of the sick and is able, willing and ever ready to save mortals from the evils imposed upon them by an utterly perverted

The supposition that God has induced the pangs and horrors of disease and death engenders a fear of him. Christian Scientists are no longer afraid of God or of his heaven, which we are learning is with us to the extent that we are governed by the mind which

was in Christ. There are two books in the world which entreat humanity to know that fear is illegitimate and can be "cast out." These books are the Bible and "Science and Health." The latter, with much elaboration, explains the fabulous nature of fear and gives the reason and rule for its elimination.

It has no intelligence of its own and an all-wise God needs not to filter himself ing a loan of five millions; they would through non-telligence in order to accomplish for a sick man all that he needs or to which he is entitled.

God the Natural Healer. "We think the Bible is to be credited wherein it indicates that God is the natural healer of all our diseases, and we know that this God is mind and no matter," declared Mr. Kimball. Wilton Carpets ... At \$1.35 Yard. MADE AND LAID.

As an inducement for you to visit our nicely arranged and well stocked Carpet Department, we will for this week only offer you a wide selection of patterns in a special lot of Wilton Carpets at the price of \$1.35 yard, including the making and laying.

Of course this value is most unusually liberal, as any judge of carpet quality will readily confirm.

The designs embody those dainty two-toned reds and greens which make such refined floor coverings for parlors as well as pretty conventional and floral patterns in reds, greens and fawns for dining-rooms. For halls, with stairs to match, there are the attractive, and not too conspicuous, small figured effects.

Axminsters, Special at \$1.50

Soft, refined colorings in the handsome floral treatments, suitable for drawing-rooms, and those on the conventional order are especially arranged for dining-rooms. Made and laid at above prices for this week only.

No Good Flour Can Be Made

EASILY. It takes time, trouble and the closest attention to the minutest detail of every milling process, to say nothing of adding considerably to the cost of production, to make a good flour.

You know you must watch your bread carefully during every process, from the mixing to the baking, but however close the attention you may give it your trouble will be wasted, unless you are which has been made with corresponding care.

No brands on the market today are made more carefully than our "FIVE ROSES" and "HARVEST QUEEN." The grain itself is cleansed by the newest and most perfect machinery before being ground, and the flour is sifted and tested by experts at every stage of the milling in order to insure the nearest approach to perfection it is possible to obtain by modern methods.

If you use these brands and give corresponding attention to the details of your baking, you will have as a result bread which cannot be equalled for quality and nourishing value.

A. E. Appleyard Emulates Hero in Wall Street Novel.

ME SCARES BEFORE ME FALLS

Politicians' Pet Stock Hammered Vain-New Plunger Can Claim That \$5,000.

Philadelphia, Pa., June 16. - Arthur E. Appleyard, stock market plunger and frenzied financier, has earned Tom a fugitive from justice, and incidentally gave Philadelphia stock jobbing politicians the scare of their lives.

Appleyard's career in finance in Boston, Buffalo, and Philadelphia had been thrilling and fairly successful, until he was indicted in Buffalo some time ago for obtaining \$50,000 from a bank on worthless securities. He might have weathered this if he could have dug up the \$50,000 to settle with. He didn't see that \$50,000 until recently he read Tom Lawson's novel about the dotty broker, who, by a scheme that Lawson bets \$5,000 is infallible, fractured the market and cleaned up hundreds of millions.

Then Appleyard made the biggest mistake of his life. He decided to emulate Bob Brownlow, Lawson's dotty hero, smash the Philadelphia exchange, pay off the debts that held him in the shadow of a cell, and retire a millionaire. He made another mistake. He chose United Gas Improvement stock as the stock he'd go after. He forgot that this was the pet stock of Ohio's most powerful politicians and doesn't budge much unless said politicians so

Gives Sleepy Quakers a Scare. One day last week Appleyard went on the floor of the exchange, and relying on Lawson's theory, sold about 20,000 shares of U. G. I., which he did not possess. The sales amounted to about \$1,200,000, and as Appleyard sold lot after lot, thinking of Lawson and his dotty hero all the time, the stock bumped down four points. When the bell rang at the end of the thrilling day Appleyard was \$50,000 ahead and Philadelphia's politicians were in a panic.

Things were looking all right for the emulator of Bob Brownlow until half a dozen brokers who had suffered in the slump swooped down upon him for to produce them before the exchange opened next day.

hunting for Tom L \$5,000 reward he offered to any man Hembree, the murder of Amos Moody, who could show that Bob Brownlow's, the assault on Mrs. Camp, the atgame could not be worked.

Picked Out a Bad Stock.

Brokers figured that Appleyard owes \$45,000 on his sales of \$1,200,000 worth of stock, and against this is only one asset, his exchange seat, worth \$12,-

It was about five weeks ago that Appleyard began to operate in the stock exchange. He had bought a seat in 1902, but rarely used it. He appeared here quietly early in June and took a little cagelike office with one desk on the top floor of the Brown building at Fourth and Chestnut, and seemed to be waiting. He made one sensational raid on Rapid Transit stock and then dropped again. For his raid he could not have picked out a worse stock than U. G. I., for that pet of politicians and financiers is amenable only to influences that are sympathetic.

Still Appleyard tried hard, and the fact that after he had sold his 20,000 mythical shares he had battered the is serving a life sentence. price down four points, and caused a

Loses His Seat in the Crash.

The principal losers will be the small floor traders, as most of the stock exchange houses are protected by the fact that their printed notices to customers in which Appleyard is named as the seller, makes the customer, and not the broker, the principal in the transaction.

End of Frenzied Career.

So Appleyard is out his exchange seat as wel las everything else, and that ends his thrilling career in frenzied finance

Appleyard's troubles seem to have dated from the time he organized the Ohio Urston Traction Company, endeavoring to control 700 trolley roads in Ohio. His Ohio plan was too heavy with stocks and securities and fell to

After this he turned up as the head of what was known as the "Appleyard syndicate," which attempted to secure a chain of banks throughout the country, and did succeed in conrolling banks in Buffalo, Washington and this city. He and his associates bought control of the City Trust Company in Philadelphia in 1904, giving notes for the stock.

Almost immediately the syndicate secured a loan of \$31,000 from the City Trust Company on stock of a Buffalo bank, and also made other loans. These transactions, it was charged, caused the collapse of the trust company s few months thereafter and the institution is still in the hands of a re-

WEARS FINE DISGUISES

Has "Made Up" as Peddler, Butcher Bootblack, Valet and Woman Successfully.

London, June 15.-It is usually as the roes of sensational novels that detectives display that remarkable facility for assuming disguises with which they are all credited in popular imagination. As a matter of fact many of the most famous detectives never resort to disguises and are far from being adepts in the mimic art. But there are exceptions. And without doubt the most notable of them in England is Detective Sergeant Thomas Gregory who has just retired from Scotland Yard on a pension after a quarter of a century's service as

Gregory might have won fame as an actor if he had not preferred the more exciting profession of a hunter of criminals. In the art of "making up" no one on the stage can beat him. And the multitudinous disguises he has successfully assumed have had to withstand a far severer test than those to which actors are subjected when they appear before the footlights. Take an actor off the boards and expose him to the full glare of sunlight and his "make up" becomes at once apparent.

Roles of Peddler and Butcher. Gregory's disguises have all had to stand the outdoor test. Among the many roles he has assumed are those of a peddler, butcher, baker, navvy, plumber, beggar, bootblack, valet, pavement artist and a woman. He not only looked like the characters he depicted, but in voice, manner, actions and gestures he played the parts to perfection. He was thoroughly at ome it all phases of low life. And yet his natural self was so marked by urbanity and politeness that his associates on the police force nicknamed him "Gentleman Tom."

It was as a bootblack that he caught the notorious American burglar Gearing. Trying to escape when cornered he slid down a drain pipe into the arms of the man who for more than Atlanta, Ga., June 16.—Confessing a week past had been shining his As a valet he entered the service of the leader of a band of coiners who was making so much money out of nefarious business that he was able to maintain an expensive establishment. Gloom Hangs Over Rocket-Perrin Camps | WINDSOR MEETING | FEAST OF BALL Both Teams Go Down In City League

Rockets Played Without an Error But Could Not Bat-Score Same in Each Game.

The Sippi-Dame Fortune engagement has been broken at last, and all is a deep, mournful tint in the camp of the valiant Rockets.

Likewise are the "Biscuitmakers" of "Perrintown" plunged in the depths of despair and gloominess. Both teams had their rooting bands out in full force on Saturday at old Tecumseh, but it was no use. They had it coming and they got it. And what is more they both got it in the same measure-

However, the knights of Sippi still air-sized grip on stellar de the Perrinites have the on cinched, temporarily at least, beyond dispute.

Had several little things not hapgened in both games it may have been different, but as heretofore stated they had it coming, and it came.

Rockets' Errorless Game.

The Rockets played an errorless game, and had Mr. Davis been just trifle less liberal with passes and bingles in sessions two and three, Doc Sippi's band might now be holding a feast of jubilee-making instead of a

Right at the sound of the gong Doc's aggressive crew started in to make a runaway race of it, but third station was their limit, and they had to pass. Not to be outdone, the rival outfit also attempted to make matters warm in their half of session one, but despite the fact that two bingles and two bases on balls were chalked up against Davis' delivery, and that at one time there were three men on bases, there was no action, and the trouble-making died in its infancy.

Spelled Disaster.

Round two spelled disaster for the Rockets, for the Tinware brigade bumped Mr. Davis for a single, a double, and a pass, all of which resulted in two runs. In justice to the aforesaid dispenser of bends and twists, however, it must be said that his team mates missed an excellent chance of a double play previous to Jimmy Bell's two-sacker, which scored two runs. Ball drew a pass, and went up two notches on Pook's single. Then "Jeems" approached the pan armed with his famous "Long Betsey" willow, and it was all day for Davis' hope of a shut-

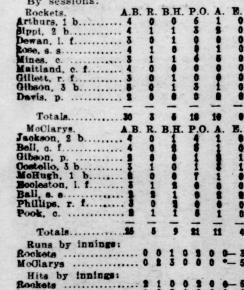

The old reliable Sippi himself started icket to first away. Dewan slashed a hot one down to Gibson and beat the throw. Mines nailed one to Costello, who got all tangled up, and all were safe, Costello had plenty of time to nail either one of the three runners, but inaction, or rather a surplus of useless, semiaction, lost him the opportunity of an assist. When he eventually located the pellet he made a break to throw to first, then home to catch the flying doctor. Next he tried to tag Dewan as he went by to third, but in doing so he fell flat on the ground, much to his own discomfiture, and to the amusement of the crowd. Rose struck out, and Maitland and Gillet were out at

More Runs for McClarys.

To the McClarys came a trio of good ones, and for a moment it looked as though one or more tallies would be registered to the credit of J. Bell & Co. Costello was passed, and stole second by a nose. Ecclestone swung for two stops and Costello sailed over the pan. Ball poked a hot one to Sippi, who fell all over himself, and turned a couple of somersaults in trying to land the ball, and get it down to first. The throw went wild, and Ecclestone scored, while Ball rested on second. Phillips batted out a nice one for a sack, but was caught going over to second on a bad throw, while Ball scored. McHugh flew out, and Pook, who walked was caught between first and second.

Number four was a blank both ways, but in the fifth the Sippl crew succeeded in corraling a brace of the money-getters on two hits, a couple of bases on halls and two errors.

After that there was nothing doing for either side. By sessions:

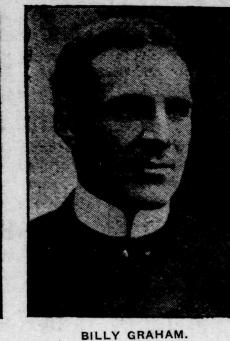

Summary: Stolen bases—Sippi 5, Dewan, Gillett, C. Gibson, Jackson, W. Gibson 2, Eccleston, Sacrifice hit—Dewan, First base Eccleston. Sacrifice hit—Dewan. A number of London quoiters have received an invitation to compete in the matches to be held at Ottawa during the latter part of July. The matches are in connection with the old boys' reunion at the Capital, and good prizes are being offered. Champion Jim Bell is seriously accepting the invitation, and should he do so it is a good safe bet that he will carry away first money. Especially must we take this view when we consider that Willie Pet, Buxom, Excitement and Kiamesha York, in a most exciting match, 5-7, belted safely twice and scored a tally.

Fitzmaurice and O'Rourke also landed safely twice, and both played the game right up to the handle, as, in fact, did the entire team.

THE CANDY DEPARTMENT LAID OFF.

It must certainly have been hard on Brother Clark though to drop the bout, when he was working so smoothly. Then, again, the candy department of the Perrins works had knocked off work especially to witness "Our Boys" drive in winners. But there was nothing doing, and a hundred odd girl Two Matches in the Springbank, The Iveys scored one run in the fifth rooters mournfully wended their way home in silence. It is Captain Stevenson's intention, also, to enter a four-man team in the relay race, and his runners are training daily for the events.

DOUBLE PLAYS WERE NUMEROUS.

The games in the East End League on Saturday were marked by an unusual number of double plays. Those in the first game between the Ramblers and Oriens were for the most part accomplished only by clever fielding, but the same cannot be said of the doubles in the Somerville-Star match. The Stars were exceedingly stupid on the bases, and that was largely the cause of their proving easy prey for the champs. But then it was a decidedly off-day for the Stars.

Birrell came to the conclusion that the strange and weird "ki-yis" and shouts of delight which were rising from the cellar of the place were most suggestive of "fan tan." and decided to make a break for the underground rendezvous, where the noisy conclave was in progress. Constables Drop In.

P. C. Down was detailed to "drop in" suddenly, and watching his chance, slid in at the door along with a couple of ingoing "Chinks." Before he realized what had happened, he stumbled at the top of the cellar, and half fell to the floor below. Great was the surprise with which the inmates of this underground apartment greeted the big constable, who saw before him a sight the like of which no London constable has ever had the pleasure of witnessing. There clustered in the basement, amid cloud of smoke, were the leading Chinamen of the city, some lounging in chairs, others standing around smoking, while about two large tables were thronged dozens of Celestials, so eagerly watching or participating in some game that they did not notice the presence of and the large responsibility which it

A PILL FOR GENEROUS EATERS.—
There are many persons of healthy appetite and poor digestion who, after a hearty meal, are subject to much suffering. The food of which they have partaken lies like lead in their stomachs. Headache, depression, a smothering feeling follow. One so afflicted is unfit for business or work of any kind. In this condition Parmelee's Veretable Pills will bring relief They will assist the assimilation of the aliment, and used according to directions will restore healthy digestion.

KIDNEY DISEASE COMES ON QUIETLY

Perhaps no other organs work harder than the kidneys to preserve the general health of the body and most people are troubled with some form of Kidney Complaint, but do not suspect it. It may have been in the system for some time. There may have been backaches, swelling of the feet and ankles, disturbances of the urinary organs, such as, brick dust deposit in the urine, highly colored scanty or cloudy urine, highly colored scanty or cloudy urine, bladder pains, frequent or supressed urination, burning sensation when urinating, etc.
