Mose of the terms were for one month. Exceptions were made in the cases of Mrs. Pethick Lawrence and Miss Lawless, who, having previous convictions against them, were sentenced to two months' imprisonment.

Lady Constance Lytton, sister of Lord Lytton, and daughter of the former viceroy of India, told her friends that if they secured her release by providing security, she would repeat her

Sentences were imposed upon about 30 women, including, in addition to the foregoing, Miss Stratford Dugdale, daughter of Commander Dugdale, and cousin of the Hon. William R. W. Peel, who was elected Tuesday in a by-election for Taunton; Miss Solomon, daughter of the ex-premier of Cape Colony, and Mrs. Catherine Elizabeth, an aristocratic supporter of movement. All these women are of high social standing.

I have forsaken bone-throwers because I am tired of them. When a child is sick they say it is bewitched and that its ancestors have caused its illness because of some duty which its parents have failed to do towards it, and they say you must slaughter a sheep and anoint the child with its bile. I do not believe this any more because I have found a medicine in the newspaper. I can swear that in case of colds and whooping cough, which does so much harm to children, I have never found Chamberlain's Cough Remedy to fail. I advise you to buy it now and you will never have occasion to go to bone-throwers, who are bound to say that the cause of this illness is witch doctors or offended ancestors and you have to slaughter a sheep to cleanse the sick and pay to have your house sick-proof even be fore your child is cured." FINN DIET DISSOLVES

Rescript Issued, Following an Attack on Royalty.

St. Petersburg, Feb. 25. - Emperor Nicholas today issued a rescript dissolving the Finnish Diet and ordering the holding of new elections on May 1 to choose a new dlet, to assemble on June 1.

The step is due to the criticism of the Emperor's policy in President from the throne at the opening on Feb. 16. The Diet has been cautioned beforehand to avoid contentious topics in its reply, this request being based on a provision of the constitution. M. Svinhufud, however, raised the question of the recently established control of Finnish legislation by the Russian cabinet, and declared the action of Emperor Nicholas was unconstitutional and an infringement of the rights of Finland.

The establishment of a joint Finnsh-Russian conference to elaborate a new basis of relations between the grand duchy and the empire has been

decided upon. The Finnish Senate has requested Russia to demand the extradition of a America two years ago, and who today is editing a Finnish newspaper in

Palpitation of the Heart.

One of the first danger signals that announce something wrong with the heart is the irregular beat or violent throb. Often there is only a fluttering sensation, or an "all gone" sinking feeling; or again, there may be a most violent beating, with flushings of the skin and visable pulsations of the arteries. The person may experience a smothering sensation, gasp for breath and feel as though about to die. In such cases the action of Milburn's Heart and Nerve Pills in quieting the heart, restoring its normal beat and imparting tone to the perve centres, is, beyond all question, marvellous. They give such prompt relied that no one need suffer.

Mr. Sylvester Smith, Hampton, N.B., writes:-"I was troubled with palpitation of the heart and tried doctor's medicines, but they only gave me temporary relief. I heard of your Heart and Nerve Pills and bought two boxes and before I had used them I was completely cured and would recommend them to all similarly affected."

Imperial Goodfellowship the Basis of All Fiscal Matters.

London, Feb. 24.-In view of Former Premier Balfour's evident adhesion to the principles of the tariff reform policy as enunciated by the tariff commission, and his possible return to power at an early date, importance is attached to the statement at Hawick by Mr. Hewins, the secretary of the Atlantic Service tariff commission. Mr. Hewins added that tariff reform had two great principles in view. First, to safeguard the self-governing colonies so as to enable them to reach their full development under the British flag; second, that all the states of the empire should minister to each other's development by closer recipro-
