TREND OF NEWS FROM THE FAR EAST SEEMS LESS ALARMING

Reported Advance of Japanese Is Unconfirmed.

SITUATION IN JAPAN QUIET

Foreign Office in Berlin Views the Situation as Less Grave--Reassuring Telegrams.

London, Oct. 13. - The trend of today's early information regarding the far eastern situation is less alarming. The Frankfurter Zeitung, whose sensational announcement of the occupation of Ma San Pho by Japan yesterday, occasioned disquiet today, publishes a telegram from Shanghai, saying there is no confirmation of the reported occupation of that place, adding that the Russo-Japanese negotiations at Tokio concerning the evacuation of Manchuria give the impression that the political situation in Japan is

The Koelnische Zeitung also prints a reassuring telegram from St. Petersburg, repeating a telegram from Port Arthur, stating that Viceroy Alexieff has issued a contradiction of the reported movements of Japanese troops to Korea. The telegram adds that the reports circulated on the subject are evidently intended to serve the purpose of speculation and provoke dis-

A special dispatch from Rome says that forty-five Japanese officers who have been studying at the military academies of Modena and Racconigi have been called to Japan by telegraph and immediately started for Brindisi

to embark for Japan. The meeting of the British admiral at Singapore has no connection with any special tension at present existing in the far east. The meeting was announced as far back as August 25 for the purpose of enabling the commanders of the East Indian, China and the three squadrons can be fused in the event of necessity, instead of each being confined, as heretofore, to the sphere definitely assigned to its juris-

It has been arranged that a similar conference shall be held annually. LESS GRAVE.

Berlin, Oct. 13 .- The Foreign Office here now looks upon the situation in the far east as being less grave. Both to arrange a "modus vivendi" concerning Korea, which country, and not Manchuria, is the extreme point of difference. Russia, it is asserted, would consider it a "casus belli," were Japan to land troops at Ma San Pho.

The foreign office says the London

morning publishes an interview with cate. M. Kurino, the Japanese minister here, Shanghai to the effect that Japanese have occupied Ma San Pho, and that an official declaration of war is expected. M. "YELLOW" DISPATCHES DENIED. Yokohama, Oct. 13. - All the reports emanating from Shanghai of the opening hostilities between Japan and Russia, etc., may be dismissed as absurd. London's Steady Growth. An increase of 839 in the population of the city during the past year is not abnormal, but it is evidence that Lonsharing in the industrial expansion of the country, though perhars not in as great a degree as some an advance of 1,300 in its population, and Stratford over 700. Both these cities are making a push for new industries, and are getting more of them than London. In this respect we have shown a distinct lack of enterprise. Brantford and Stratford have been successful largely through the initiative of the business men, who have made their boards of trace live working organizations, acting in harmony with the city councils. New factories are springing up throughout the country, and London, with its unrivaled railway facilities, should be one of the favored localities. A more energetic civic policy should bring good results. It is gratifying to know, however, that the natural advantages of the city insure its steady progress. During the past year it made one good catch-the rolling mills-and these, with the Mc-Clary extensions have created a marked industrial activity in the southeastern portion of the city. In addition, nearly all of our established industries have increased their floor No one can fail to be impressed by the amount of building going on in al' the residential districts. The Government was assured that the money would be spent in reducing freight rates on exhibits from other provinces, and in making the extive of the Dominion.

We are not aware that the Toronto Industrial this year differed in any way from its predecessors, excepting for the new buildings, which the ratepayers of the city were enterprising enough to for any favors from Uncle Sam, and provide. Toronto will never be able to make a request for Government as sistance again without being con-fronted with the hardly defensible action of the Exhibition Association in paying its officials bonuses out of Government funds.

The Western Fair Association would offer no objection to a large Government grant to a genuine Dominion exhibition, and Toronto would be the it. The Dowieite Fanatics.

The soil of America is prolific of religious fads. The most amazing and sensational of these growths at the present day is the Dowleite sect. It is the creation of one man, who landed a lord for the same price. in America fifteen years ago from Tasmania, where he had served a short term in prison. In 1892 he began preaching in Chicago, proclaiming himself as the reincarnated Elijah, and professing to have the gift of miracles. He soon attracted a following and began to develop his schemes for temporal power. The sect multiplied and wealth flowed into Dowle's hands. The press poured ridicule on him; he was several times mobbed in the streets of Chicago, and attempts were made to destroy his property. The newspapers now confess that it is a case have had two wars and a revolution of sheer ability and that Dowie, im- since we left." poster though he is, must be accounted one of the most phenomenal men of the time. Dowie has now undertaken a specacular invasion of New York. Three or four thousand of his followers will iourney thither this week in eight special trains, and will make their headquarters in Madison Square Garden. Dowie will bring his own elaborate carriage and white horses and will lead processions inrough the streets. His mission is to make converts, who will dispose of their property and hand the proceeds over to him for investment in Zion City. His record stamps him as the greatest fakir of this generation. A man of power and magnetism he must be to bring a multitude of people under his spell and hold them together as he has done. The movement is an astounding revelation of human credulity: and this superstition had its growth in Chicago, which is supposed to be the most materialistic place in the world.

MADE MERRY AT MIDDAY

A Colored Trio Arrested On Maitland Street South.

Shortly before 1 o'clock today the patrol was called to the corner of Nelson and Maitland streets, to take on board three obstreperous individuals. The number being an odd number, also a mixed number, there could not be an equal number of males and females. As is sometimes the case in rows, the women were in the majority, but evidently the man considered himself equal to two women, for he started in to make midday merry.

It attracted the at tention of George Hurst, also of Maitland street, who interfered, with a beautiful rendering of "Under the Bamboo Treee" or "Hiawatha." It is said he caused considerable disturbance. The three, all of whom are colored people residing on Maitland street, will appear in tomorrow's police court, the women charged with being drunk, while the man will be charged with New York, Oct. 13.—Richard Con-nolly and his mother Margaret Con-Birrell and P. Trade was rather small and devoid of features. The cash news was mostly bullish. No. 2 red winter was sold in car lots at 1½c over our December in store. Mineapolis receipts were light and indications point to a further falling off. The mills are reported running again at full capacity. The government report indicated a total crop

Oats—The government figures on the oat crop were too much for local holders, and brought about an opening decline of ½c, and this was doubled later in sympathy with the weakness in wheat of ½c, and this was doubled later in sympathy with the weakness in wheat and corn. On the advance one packer who bought pork and lard early was the best seller. It looks as though the Milwaukee and Omaha people were covering short lard at the close. Estimated receipts for to-

Matter Was Reported to Police. Joseph Doxtater, an Indian, employ-

ed at the car shops, got drunk and assaulted a woman and her child in West London, and ten minutes after the matter was reported at police headquarters the Indian was arrested by P. C. Harry Down.

The assault, which was minor in it-

self, but an assault, nevertheless, and something that will not be allowed in this city, took place betwen 6 and 7 o'clock on Mount Pleasant street. Mr. Mary E. Palmer, who resides at No. 58, on that thoroughfare, was coming out of her gateway to the sidewalk, with her 7-year-old girl, Ethel, when an Indian came along with a bicycle, which he was leading. Taking the child by the wrist, he told her to go with him. The mother, of course, interfered, and he then took hold of her by the arm, but she freed herself and ran across the street. The Indian then got

Mrs. Palmer had a good look at him, for they were near an electric light, and she was able to identify him. At 8:20 o'clock Mrs. Palmer reported the assault to the police, and P. C. Down, who happened to be in the station at the time, was ordered out on his wheel, and P. C. McDonald, coming in a few minutes later, was ordered out in another direction. Down wheeled past the house on Mount Pleasant street, and met the Indian apparently coming back from the cemetery, but without a wheel. He answered the description given by Mrs. Palmer, and what strengthened the officer's belief that he assault was reported. At the police ourt he was fined \$15 and costs for assault, or one month in jail at hard la-bor, and \$2 for being drunk.
