NO. 45

VOL. XXVII

SAINT ANDREWS, NEW BRUNSWICK, SATURDAY, MAY 6, 1916

Never a house and never a hedge In No Man's Land from edge to edge, And never a living soul walks there To taste the fresh of the morning air. Only some lumps of rotting clay,

What are the bounds of No Man's Land? You can see them clearly on either hand, A mound of rag-bags grey in the sun, Or a furrow of brown where the earthworks run From the Eastern hills to the Western sea, Through field or forest o'er river and lea; No man may pass them, but aim you well And Death rides across on the bullet or shell. But No Man's Land is a goblin sight

When the "rapid," like fire-flies in the dark, Flits down the parapet spark by spark, And you drop for cover to keep your head

The man who ranges in No Man's Land Is dogged by the shadows on either hand When the star shell's flare, as it bursts o'erhead, Scares the great grey rats that feed on the dead, And the bursting bomb or the bayonet-snatch May answer the click of your safety-catch. For the lone patrol, with his life in his hand. Is hunting for blood in No Man's Land.

The contrast in the lives and fortunes of the two great dramatists and poets, at last obliged to surrender unconditionally to the Turks after having withstood a siege at Kut-el-Amara for 134 days. The exhaustion of supplies and the delay in the arrival of the relieving forces made surrender imperative. The forces under his command, and which surrendered, are said to have numbered 3000 Home troops and 6000 Indian troops. The surrender had been anticipated as inevitable, and will have no appreciable effect on the subsequent prosecution of the war.

The French were reported to have made a landing at Makry, on the coast of Asia Minor north-east of the Island of Rhodes.

Regulate Kidneys AND Relieve Constipation

Gin Pilis are acknowledged to have the largest sale of any proprietary medicine in Canada—an achievement solely due to their remarkable virtue as a Kidney and Bladder remedy. remarkable virtue as a kinney and shader remedy.

But users of Gin Pilis have discovered that this invaluable remedy also acts as a mild cathartic. The evidence of hundreds of letters we have received establishes the very logical fact that in compounding a medicine to head and tune up the Kidneys and Bladder certain of the ingredients have a stimulating effect upon the other organs, especially the bowels. It is important to know, in the case of con-stipated patients, that Gin Pilis do not act bassaliy on the bowels; there is no griping, but a gradual and gentle sestoration of the function. Try Gin Pilis for constipation. In likins reliering the bowels, you safeguard your-self against possible Kidney trouble.

WORKS LIKE A VACUUM CLEANER

Why not give your body a Spring House Cleaning? It is reasonable.

You stay indoors too much all winter—you breathe foul air—you sleep in close rooms—you eat too much. In fact your winter life is pretty much artificial and unnatural.

Then why not renovate your whole system this Spring?

Take a short-cut to youth and energy. Nyal's Spring Tonic is the thing. Sulphur and molasses was grand-mother's way. She also scrubbed her fingernails off every Spring. But Nyal's Spring Tonic is a regu-lar up-to-date vacuum cleaner by comparison. Gives new snap and vim—puts life and spring into your muscles—makes you feel fit and ready,

WOMEN'S CANADIAN CLUB The executive of the Women's Canadian Club met on Tuesday afternoon at the residence of Mrs. G. H. Stickney. The chief business transacted consisted of the arrangements for the May meeting which will take place on the lith, in the Memorial Hall, at 8 p.m. The meeting will be a social one with a short programme, some games and retreehments. Gentlemen are allowed to accompany members at the Club meetings as their guests, and in addition, members may bring their lady friends who are non-members, on payment of 25c. for each town. Visitors in town are always cordially invited. The repetition of the "Old Maids' Convention," in June, was discussed; and it announced that a play organized by Miss Graham would be given later this month.

At noon on Friday last a neighbour, woman discovered that the house of Mr. John Cunningham was on fire, she ran to the telephone and alarmed the neighbours. In a very short time the place was alive with willing workers of both sexes. When hclp arrived the ell and wood-shed were beyond hope, and all efforts were turned on the main house. But not till after a desperate fight for about an hour could any gain be seen, however, with the reinforcement of a rafting crew from Digdegush, and renewed efforts on the part of all, the fire was got under control. The wind was in favor of the fighters and there was an abundance of water nearby.

Much credit is due to the ladies who formed a Bucket Brigade and carried thousands of gallons of water on the grounds. The main house was badly damaged both by fire and water. Mr. Cunningham lost a lot of clothing and bedding, which was stored in the shed, while house-cleaning was going on. Loss amounting to about seven hundred dollars, partly covered by insurance.

Produce More and Save More

The Empire needs food. If you are not in the fighting line you may be in the producing line. Labour is limited—all the more reason to do more than ever you can produce. Every little helps. You are responsible for your own work. If you cannot produce as much as you would like, produce all you can. Work with the right spirit. Put fighting energy into your effort and produce now when it counts. The more you produce the more you can save. Producing and saving are war-service.

There should be no waste in war-time. Canada could Do Not Waste Materials pay the annual interest on her war expenditure out of what we waste on our farms, in our factories, in

our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain are not only "doing" but are learning to "do without."

Make Your Labour Efficient

In war-time do not waste time and energy on unimportant and unprofitable work. Economize labour. Put off unproductive work till after the war, and, if possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.
