We persive that the New York Tribune, in mimor with many other well-informed journals, capitulates the official statistics of the trade of gh, falls into error as to our supposed.
It is undensibly true that the Castoess as: 1849 exhibit an increase over the sed trade. The year 1848 was a period picies, stagnating commerce, and shattere. While in 1849 a new Tariff was in force imposing higher duties than formerly—in instances to the extent of 60 per cent.

in 1847 the gross value of the orts was£3,795,847 5 11 In 1849 it was only 3,002,599 12 7 Showing a decrease of £ 793,247 13 4

We submit these figures for the purpose of proving to our neighbors how materially we are declining in the elements of prosperity, and of urging our own people to shake themselves free from a system of Colonialism, which paralyzes enterprise, and chains us down as agricultura

The freedom of trade which dictive Humbug." This is really delightful; we require, is a measure of Reciprocity with the United States, which would unlock the frontier, and sholish inland Customs; and the protection we need, is a Tariff which would nurse the infant orts of Canadian manufacturers. That cultivated and cherished attention to national interests those measures framed by our Republican with such zealous care and solicitudehave here been hitherto almost unknown. The indolence, partiality, and suspicion, which alternately awayed and impelled the British Ministry, when the pressure of commercial enterprise sought fresh channels for the development of icted freedom of trade, sprung from the complex, and involved relations inseparable from our connexion, and deemed essential for the on of our dependence; and though England has repudiated her past commercial policy, ces of Free Trade, the and accepted the consequences of Free Trade, the language of the Colonial Minister is unmistakeably significant—that we must not aspire to beuncturing country. The Saxon race have always been prominent assertors of the the character of our people, if they long consent to be juggled out of their rights. The history of the Thirteen Colonies, now absorbed in th United States, unfolds every phase of Metropolitan concession and intolerance. The Charter of Charles the Second, to Massachusetts, relinquish-

lute powers ever yet conferred upon a distant peo ple, acknowledging subjection and allegiance. The rapid prosperity, induced by the free and honest men, which exhibited, affords undubitable proof how little management is required to promote peace of secured tranquility under Charles' Charter, sent forth ships to almost every section of the globe—until at length the jealousy of the English merchant was roused into opposition by an apprehension of rivalry—that same jealousy which prompts the Manchester Cotton Lords, of the present day, to frown down our manufacturing presenting, who proceeding straggle, and we predict the ultimate vindication by the Canadians of an inherent right. the hour are permitted to sport, at the common principles must, before long, effect an union of the Clear Grits, the Elective Leagues, and all other parties in favor of elective Leagues, and all other parties in favor of elective institutions. A party thus united by the hond of a common principle, the united by the hond of a common principle, and soon become politically emaipotent. The heterogeneous fragments of the other parties, with nothing to unite them, would soon become powerless, or sink into utter insignificance.

The County Council of the united Counties of Welland and Halton, have adopted a Memorial to the Legislature in favor of an Elective Legislative Council, to which, when proposed, there was not a single dissentient! In politics there is, for the moment, a dead seals. No opposition offers to Mr. Beerritt in Lincoln; even the Inspector General has done has meet a superintensity before the public for some days. Solicitor General blacedonald has gone to Perth to conduct the Crown business. He will then go to Bytown, where the political rioters are to be tried during the present Assists. In a few days the Judges of the Court of Châncery will issue new Bules, by which the proceedings will be very much reduced, some say four-fifths, and the fees about one-half. The evidence will hereafter be taken vive vocs, which will be not merely an improvement upon the present system, but much less expensive to sations. The practice of putting interrogatories will undergo some modification, or be abolished altogether. Mr. Blake and his colleagues have been forced into these changes by the vigorous assaults that have lately been made upon the whole practice of the Court, its intolerable expensiveness, and the dexterous chiselling by which Mr. Blake stepped into the Chancellorship. In fact, the popular cry was mingled with something very like fury, and demands for the utter abolition of the Court and the vesting of the Queen's Bench with equity powers, were made with increasing frequency. They first appeared in the shape of nevrapaper articles, next they were uttered at public meetings, and lastly they began to assume the more threatening shape of Memorials to the Legislature by corporate bodies, amongst which we find the County Council of the United Counties of Halton and Wentworth. The new Rules will do something to appease the popular clamor that has been raised against the Court, and probably secure its continued existence, and to Mr. Blake the dignity and emoluments of the Chancellorship.

It is understood that the Judges of the Court of Onese's Bench have it in contemplation to issue

that has been raised against the Court, and to Mr. Blake the dignity and emoluments of the Chancellorship.

It is understood that the Judges of the Court of Queen's Bench have it in contemplation to issue new Rules very shortly, which will simplify and shorten the proceedings at common law. The precise nature of all the changes to be made is not fully known. The issuing of the writ, in the commencement of an action, it is understood, will be done away with. A simple notice will be substituted, and this will be followed by the service of the declaration. In the collection of notes, where there is no issue on facts, but merely an issue as to amounts, the matter will not go before a jury, but be decided by a Judge in chambers. This alteration will make the process much more summary than at present, and do away with a good deal of unnecessary proceedings and costs. Mr. Hagarty, Barristry, of this city, has just published a pamphlet on the subject of law reform, in which he plainly shows that the law expenses, so much complained of, agine from the unnecessary labor the unfortunate lawyers is compelled to go through, and not from excessive charges for what he actually does. It is rumored that some of the Judges are in favor of throwing open the profession, who believe that the adoption of this course would create endless confusion and litigation, are not averse to it; while others, who are of a different opinion, are in a great flutter about the menaced changes.

For some reason, not patent to the public, the Convocation of Toronto University has refused to confer degrees adeusadem on seven Reverend gentlemen, who severally received the degree of M. A. from different Scottish Universities. The names of the gentlemen, whose applications have been rejected, are:—Reverends W. Rintoul, M. Williis, R. Burns—the first of Edinburgh, and the two latter of Glaagow, University—Donald Frazer, A. Gale, H. Esson, Aberdeen University, and Thos. Derry, of St. Andrews. On Monday, the Court of Queen's Beneh delivered judgment in the great Steamboat case.
The Bank of Upper Canada had a mortgage on Mr. Bethune's boats, and when he failed, the Bank attempted to exact payment in full, without regard to the claims of the other creditors, who resisted the Bank's claim. The case was tried at the Fall Assisses of the Home District, and Mr. Justice Sullivan directed the Jury to find a verdict for the Defendants. That verdict is set aside by the present decision, and the property will now be shared equally amongst all the creditors. The mortgage was fee £18,000.

FRANCE.—An effort had been made in the Assembly to introduce a Bill to obtain the vote of the people relative to the establishment of a Republic or a Monarchy. The proposal was negatived. It is said that the President of the Republic is so deeply in debt, that nothing but the possession of the Imperial Crown can extricate him, and that he is engaged in negotiations with Russia for the possession of that—now, to him—and encessary protection.

Emile de Girardin has been rejected as a candidate for Paris at a preparatory Socialist meeting. The belief is entertained that a collision between Austria and Russia is almost unavoidable. A serious rupture has occurred between the Governments of Prussia and Wurtemberg, in reference to the tone assumed by the King of the latter country in opening the Chambers. The Government of Prussia has addressed a note to that of Wurtemberg, couched in very strong terms, expressing astonishment at the Speech—regrets with the most profound indignation the suspicious and accumations it coutains, and declares it beneath its dignity to reply thereto, or to continue diplomatic relations with Wurtemberg. The Prussian Ambassador has been recalled.

GREAT CURE OF LIVER GOMPANY OF TEN YEARS STANDING!

NEW YORK, Jan. 9, 1848.

DR. HALSEY—DEAN STR.:—Having taken you Forest Wine and Pills to remove a disease of the Liver, from which I have suffered severely for upwards of ten years; and, having adhered cl. sely to the directions which accompany the 'M-dicines, I have recovered my health, notwithständing all who knew me thought my case incurable. Previous to taking the Wine and Pills, I had recourse to the best medical treatment; but continued to grow worse to ma larming degree. Some of my friends spoke despairingly of my case, and ried to persuade me from making use of any advertised remedies; and, I doubt note, but what there are hundreds who are dwamaded from taking your excellent Medicines, in crimequence of the deception and intellicency of many advertised remedies put forth by unprincipled men, in flaming advertiseand inefficiency of many advertised remedies put forth by unprincipled men, in flaming advertisements. But, what a pity it is that the desception used by oth re should be the means of disquading many laboring under disease, from making triel and being cured by your excellent remedies. Humanly speaking, they have saved my life; when I commenced making use of them, I was in a wretched conditin, but began to experience their good effects in hes than three days; and, in six weeks from the time I purchased the Middines, to the great surprise of all my friends, I was entirely cured, and had increased litteen pounds in weight, having taken one box of the Pilis and two bottles of the Wine. Would to God that every poor sufferer would avail himself of the same remedies!

PILES. As a remedy for this most distressing and obsticate malady, the VEGTABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this city, that the former proprieter of these valuable Medicines was himself afflicted with this complaint for upwards of whatevery remedy prescribed within the whole company of the Materia Medica. He however at length tried the Medicine which is now affered to the public, and he was coured in a very short time, after his recovery had techn possible, but absolutely impossible, but absolutely impossible, but any human means.
