THE BIG CITY'S GRIM SPECTRE.
New York Navy Yard Officers Afraid of the Spanish Flotilla.
PORTUGAL AND CAPE DE VERDE
The Little Kingdom Bounded on the North by the Bay of Biscay Has Her Work Cut Out for Her—A Fight Expected at the Philippines Within Twenty-Four Hours.

New York, April 26.—No time is being lost in pushing forward work on ships in the navy yard for North Patrol Squadron. The officers in the yard believe the Spanish flotilla will threaten New York and operations are rushed as if a descent of the formidable Armada were imminent.

PORTUGAL AND CAPE DE VERDE.
Must Drive the Spaniards From the Islands or Take Sides With Them.

New York, April 26.—A London special says: Our treaty requires Portugal, in order to enter the Spanish fleet lying in wait at Cape Verde Islands for the Oregon, or else seize and hold to the east of the war. The beginning of war, for international purposes, has been construed by Great Britain, which makes it the hour Spain delivered her passports to General Woodford, and this decision is in strictest agreement with the principles applicable to the case, and cannot be successfully appealed from. Should Portugal not make the demand on Spain, she goes to be neutral and becomes a bell to be dealt with accordingly.

notes that the British Consul at Havana had called to the Foreign Office notifying the authorities here that Havana would be bombarded, is incorrect. What he called was that he expected Havana would be bombarded.

AT THE PHILIPPINES.
The First Naval Battle Between Spain and the U. S. May Take Place.

New York, April 26.—A special to the World from Hong-Kong says: Hong-Kong is an English port, 80 miles from Manila, the capital of the Philippine Islands, and was the rendezvous of the present consists of the Olympia, Boston, Concord, Petrel, Raleigh and two new merchant cruisers, but is soon to be joined by the Baltimore. In addition the Chinese fleet of the United States, which are the cruisers Castilla, Reina Christina, Don Juan de Ulra, Don Juan de Austria, Yataco and a number of light gun-boats and torpedo boats, in what condition for service is not known, but which are believed to be on their way to the island instead of the defensive, so that the first naval battle may take place in the Pacific, not the Atlantic.

Appreciates Good Will.
London, April 26.—The Washington correspondent of the Daily Mail writes in an interview yesterday President McKinley said: "Not the Government of the Navy, to take effect at the President's convenience after the commencement of active military operations."

Two Cruisers Have Left.
Hong-Kong, April 26.—(7.55 p.m.) The United States cruisers Olympia and Baltimore have left this port. It is said that Commodore Dewey and the United States Consul, Mr. William E. Hunt, leave, as they had not been notified by the United States Government of the declaration of war.

Although it is not so stated, the United States squadron was apparently ordered to leave by the British authorities, in consequence of the proclamation of neutrality.

WAR NOTES.
The monitor Jason has been sighted off Long Beach. The U. S. ship Columbia has been sighted off Newport, R.I.

CONGRESSIONAL NEWS.
Washington, April 26.—The President yesterday sent to Congress a message, in which he requested that the House and Senate pass a resolution of approval of the declaration of war against Spain.

It took the House one minute and forty-one seconds to pass the declaration of war.

Following is the bill reported by the House Foreign Affairs Committee, which provides that there exist between the United States of America and the kingdom of Spain.

Be it enacted, etc., First, that war be, and the same is hereby declared to exist, and that war has existed since the 21st day of April, A. D. 1898, including said day, between the United States of America and the kingdom of Spain.

Be it enacted, etc., Second, that the United States be, and he is hereby directed and empowered to use the entire land and naval forces of the United States, and to call into the actual service of the United States the militia of the several States to such extent as may be necessary to carry out the intent of this act.

The Senate passed the bill in less than two minutes, and the President signed it at 6.30.

SHERMAN RESIGNS.
U. S. Secretary for War Gives His Resignation to the President.

Washington, April 26.—Mr. John Sherman, the venerable Secretary of State, handed his resignation to the President. This resignation took effect at noon yesterday, and Mr. Sherman retired to his private residence at 1000 Massachusetts street, after a service of over forty years, embracing the House of Representatives, the United States Senate, the Secretaryship of State, the Treasury and the Secretaryship of State. The reason for the resignation is the condition of the Secretary's health.

Judge Day Has Accepted the position.
Prof. Moore Succeeds Judge Day.
Washington, April 26.—John B. Moore, Professor of International Law of Columbia University, New York, and formerly Second Assistant Secretary of State, has been chosen to succeed Judge Day as Assistant Secretary of State.

New York Harbor Guarded.
The War Department has issued regulations for the entrance of vessels to New York harbor. No vessel will be allowed to pass Sandy Hook between sunset and sunrise, and rules are established for the guidance of vessels in avoiding submarine mines.

Canadian Boats Not for Sale.
Montreal, April 26.—The Canadian Government has issued orders that the steamers Tartar and Athenian, now ready to run on the route between Vancouver and Alaska points, to be sold to the United States Government for use as auxiliary cruisers on the Pacific coast. These steamers were recently purchased in England specially for the Alaskan trade.

Two More Captives.
Key West, April 26.—The latest captures of the fleet are a schooner, sugar laden, for Havana, and a brig, Capt. C. Porter, and the latter by the Wilmington, almost within range of the Casimiro batteries. Both were towed here by the tug Algonquin.

The Somers Tied Up.
London, April 26.—The officials of the United States Embassy for the United States torpedo boat Somers, now at Falmouth, is destined to remain in England for some time to come, as the neutrality proclamation will be issued to-day, and no convey for the little craft has yet been secured, and it is impossible for her to attempt to cross the Atlantic without an escort. The Embassy was crowded yesterday with ship brokers, negotiations being on foot to purchase, on behalf of the United States, some British ships which are now in American ports.

The report circulated in the United States that the British Consul at Havana had called to the Foreign Office notifying the authorities here that Havana would be bombarded, is incorrect. What he called was that he expected Havana would be bombarded.

dated from Baden-Baden. As to the signature, it was impossible to read it. "I made every attempt, examining the letter by lamplight, searching through papers for the name of the person who could have been guilty of this vile scrawl. It was absolutely impossible to discover any new which would lead me to the right track. At Baden-Baden I had 500 friends at Baden-Baden. But this unlucky name—still, I must find out what it was. For two days I did nothing but think in my mind, seeking the solution, giving every one whom I met this signature to decipher. Absolutely useless. Each person gave a different opinion.

"You can imagine into what a fever this had thrown me. At the time I was full of a great many notions. I imagined that by seducing money by a friend was meant. We are all suspicious when young. having to grope for it, in case he needs to signal to those at the pump above. One pull on the tube means that he wants more air and two pulls mean that he wants that he is getting too much. If the air were supplied in excess the tube would become so buoyant that it would float to the surface. After being passed through the shoulder ring the tube goes around and enters the helmet at the back. From here the air passes through a lead rubber tube to the top of the helmet, where the single tube divides into three branches, one of which goes down to the nostrils and the others to the ears.

After the air has been brought it passes on down inside the suit, insulating this sufficiently to overcome to a certain degree the hydrostatic pressure. Without gas inside the rubber would be pressed against the diver's body and limbs by the weight of the water, and would drive the blood up into the head. There is another opening in the back of the helmet, through which the foul air finds its escape. This may be seen opening up to the top of the water in the form of bubbles. The life rope by which the diver is lowered and raised is attached to a chain, which is in turn attached to a hook on his waist. Three pulls upon this rope will raise him three feet.

A CAREFUL WORKER. Suffering Vanquished. THE NEW DOMINION HORTICULTURIST HAS THAT REPUTATION.

Sketch of Mr. W. T. Macoun, who was recently elected to the vacancy caused by the resignation of Mr. John Craig, Canada's Horticulturalist.

One of the most prosperous and intelligent farmers of the village of Greenfield, N. S., is Mr. Edward Manning.

Had suffered from Acute Rheumatism and Neuritis. Recently Able to Do the Lightest Work.

From the Acadia, Wolfville, N. S. One of the most prosperous and intelligent farmers of the village of Greenfield, N. S., is Mr. Edward Manning.

During a very pleasant interview he gave the following statements of his severe suffering and recovery: "Two years ago last September," said Mr. Manning.

He was taken with an acute attack of rheumatism. I had not been feeling well for some time previous to that date, having been troubled with sleeplessness and general debility.

My constitution seemed completely run down. Beginning in the small of my back the pain passed into my hip.

It remained without intermission and I became a terrible sufferer. All winter long I was scarcely able to do any work and it was only with the greatest suffering that I managed to hobble to the barn each day to do my chores.

I appealed to medical men for help but it failed to bring me any relief. At last I decided to try Dr. Williams' Pink Pills and with their use came a complete and lasting cure.

I had used three boxes when I began to feel decidedly better. I continued using them until twelve boxes had been consumed, when my complete recovery warranted me in discontinuing their use.

I have never felt better than since that time. My health seems to have improved in every way. During the past summer I worked very hard but have felt no bad effects. The gratitude I feel to Dr. Williams' Pink Pills, none but those who have suffered as I have and been cured, can appreciate.

An analysis shows that Dr. Williams' Pink Pills contain in a condensed form all the elements necessary to give new life and richness to the blood and restore exhausted nerves.

They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus Dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of a gripe, palpitation of the heart, nervous prostration, all diseases depending upon vitiated humors in the blood, such as scrofula, chronic erysipelas, etc.

They are also specific for troubles peculiar to females, such as spots, eruptions, irregularities and all forms of weakness. They build up the blood and restore the color of the health to pale and sallow cheeks. In men they effect a radical cure in all cases arising from mental worry, overwork, or excess of whatever nature.

SEEDS BY THE WAYSIDE. CHESTY, Feb. 15, 98. Editor Reporter: Monday, Jan'y 10th, the sun came out bright and warm, a beautiful day to begin a journey into the country.

Monday, Jan'y 10th, the sun came out bright and warm, a beautiful day to begin a journey into the country. About three o'clock we started for Mr. Hartwell and the children and started on foot for the North Gate.

Mr. Hartwell and the children and started on foot for the North Gate. Our party consisted of a coolie, carrying books and bedding, and myself.

Eight miles we went, and then we were met by Mr. Hartwell and the children. We would spend the night. Arriving early and finding the place full of people, I took a handful of books and started for an open space.

A crowd assembled and the troops and I, a little later, on my mission sent, means a lot of people glad to see the coin in my pocket.

Just a little dollar, on its mission sent, means a lot of people glad to see the coin in my pocket. I took the coin to the butcher for meat to give you strength, he takes it to the grocer, from whom it stays a dollar and every time it's spent some act of good is done in booming local industries.

BLACKSMITHING WOOD-WORKING REPAIRING AND PAINTING

C. E. Pickrell & Sons have leased from W. M. Stevens his shop, house, etc. on Elgin street, Athens, and beg to notify the community at large that they are prepared to do all kinds of general blacksmithing, including the repairing of Wood and Iron Work on all kinds of vehicles, implements, machinery, etc. Painting done on the premises. Having worked at the trade for many years, we are capable of giving good satisfaction. We use an axle-cutter for shortening arms where they have too much play. Horse-Shoeing will receive special attention. Call and we will endeavor to please you. We manufacture the celebrated Diamond Harrow. Call and see it.

There Are No Others

That Offer the Same Value as

The East Lake Steel Shingles

They are reliable and just as represented and have never failed to give durable protection. Their rust-proof, fire-proof, and storm-proof qualities have been well proved.

If you have a house or barn to shingle, get my prices for steel or galvanized iron. Every job is guaranteed against leaking.

W. F. EARL, Athens

Dr. Campbell's Capsuloids.

Two Ounces of Blood Daily

Are added to your veins by taking with each meal one of the Natural Iron Capsuloids made from the Fresh Blood of Young, Healthy Bullfrogs.

The Days Are Lengthening, The Sun Growing Warmer.

The air is being filled with particles of dirt as the snow melts, because dirt of all kinds has been mixed with the snow during the winter. You breathe these fine particles, and those particles and germs of disease which go with them get through your lungs into your blood, and you become languid and bilious.

STOP AND THINK.

To cure this languid, bilious state you must have plenty of good, rich, red blood—that is, you must fill your blood with Natural Iron, or Hemoglobin; then these germs, already in, die off, and the new ones are killed the moment they enter the blood. To enrich the blood you must take Iron—for rich blood is only another name for blood loaded with Natural Iron. Do not take hard iron pills and strong acid mixtures that ruin your teeth and injure your stomach and bowels. Instead, take the only known, Natural Iron Medicine—Dr. Campbell's Red Blood Forming Capsuloids.

Dr. Campbell's Red Blood Forming Capsuloids are sold at 50¢ a box or six boxes for \$2.50 by J. P. Lamb & Son or sent by mail on receipt of The Capsuloid Company, Brockville, Ont., Canada.

LOMBARDY.

MONDAY, April 25.—The rain that came last week gladdened the hearts of every one, especially the farmers. It will advance the crops at a lively rate.

Prof. Clark Nichols, singing master, recently returned home from Frontenac. He made Elginburg his headquarters, and had five schools. The Professor speaks in very highest terms of that section of the country, and highly appreciates the kindness of his scholars. It would be impossible for those people to break the chains of bachelorism.

A very sad accident happened to May, the 13 year old daughter of James Allen, on Monday morning about 8 a. m. She was standing on the arm had been broken just above the elbow. She is doing nicely, but it will be some time before she will have the use of her arm.

Moonman Spectator: A certain man owed \$1.00. He possessed only seventy-five cents to pay it with. He went to a pawn shop and pawned his seventy-five cents for fifty cents. Meeting a friend he sold him his pawn ticket calling for seventy-five cents for fifty cents. He thus had \$1.00 and immediately paid his creditor. Who was the loser, if any, and how much? Don't send answers to this office; we have enough trouble of our own.

Mr. James Barney, Lyndhurst, was a caller at the Reporter office on Tuesday. He has secured the agency of the Royal, Western, London, Eng., and Economical Insurance Companies, and is visiting Athens in the interests of these companies. He has been in the past few months and has done a successful business. He would locate in Athens permanently if he could dispose of his property in Lyndhurst to a good advantage.

Attention is directed to our special offer, to be found in another column of the Reporter and "Thirde-Week New York World" for the sum of \$2.00 per year. Any paid-up Reporter subscriber can have the benefit of this offer by sending to their address for \$1 per year or 6 months for 50¢. A sample copy of the World will be sent direct from the office of publication to every subscriber of the Reporter next week, so that every one can have a personal view of the great of American newspapers before sending us in their subscriptions. Any Reporter subscriber in arrears can have the benefit of the above offer by paying up to date at the rate of 10¢ per year. The World will have special correspondents with the army and navy of the United States, and this will be the very best means for Canadians to keep thoroughly posted on passing events.

Prohibition Plebiscite. It has been virtually decided by the Dominion Government to submit the question of prohibition to the electors by a direct question without any riders. The plebiscite will contain a clause setting forth the loss to the revenue which would result by the enforcement of prohibition, but the direct question is to be asked without any conditions. It is said this decision was vigorously opposed by the Quebec members in caucus, who maintained that if the question was to be submitted at all the alternative of direct taxation should be clearly stated so that the electors would understand the consequences of voting in favor of a prohibitory liquor law.

San Godfrey's Great English Military Band. This world renowned organization will arrive in America on 16th of May for a brief tour, by special invitation of Canadian, and with the consent of Her Majesty the Queen. The band is composed of forty men from the Royal Grenadiers, Coldstream Guards, Blue (horse) Guards, and the Life Guards bands. Mr. W. E. Jones of Brockville has been instrumental in securing this honour for the afternoon of the 23rd of May next at 2:30 p. m. This will afford our citizens a splendid opportunity to go in and return after the concert. Mr. Mooney will hold the trials till 5 p. m. and grant special rates. Only those subscribing for seats in advance can be assured of admission, as doubtless many hundreds will be unable to gain admission. There has been seating capacity arranged in the drill hall for 1,300 people.

There are a round number of 2,000 cheese factories in Canada.

Salmon fishing at Charleston Lake is being enjoyed by a large number of sportsmen in the city, and far this week, Mr. J. B. Saunders opened the big-fish competition by landing a salmon weighing a fraction over 9 lbs. A Charlestonian who had an occasion to go to the Outlet successively, he is doing well, so it is safe to say that the season is fairly open.

Messrs. Ross & East are erecting a large building over their brick machine, which will enable them to work in rainy weather. They have over-thing in readiness to commence brick and tile making, and are sending to many of the best workmen in the city during the season. They have a fine lot of brick and tile in the yard ready for sale.

It is probable that the Citizens' Band will go to Prescott on the 12th of July. A new slide-trombone has recently been added to their stock of instruments, and is being manipulated by Mr. H. Barber. The band has in training several very promising players and the prospects are that they will be able to make a very creditable showing this coming season.

Very little work has been done on the streets and sidewalks of the village so far this spring. As there was a little frost in the ground when spring opened the roadbed and sidewalks have settled down evenly and will not need the usual amount of repairing. It is hoped however that the road commissioners will commence the repairing of Main street, as far as Taplin's Corner at least, this season.

Attention is directed to our special offer, to be found in another column of the Reporter and "Thirde-Week New York World" for the sum of \$2.00 per year. Any paid-up Reporter subscriber can have the benefit of this offer by sending to their address for \$1 per year or 6 months for 50¢. A sample copy of the World will be sent direct from the office of publication to every subscriber of the Reporter next week, so that every one can have a personal view of the great of American newspapers before sending us in their subscriptions. Any Reporter subscriber in arrears can have the benefit of the above offer by paying up to date at the rate of 10¢ per year. The World will have special correspondents with the army and navy of the United States, and this will be the very best means for Canadians to keep thoroughly posted on passing events.

Reasonable Repair. The words "reasonable repair" in the municipal statutes were interpreted recently by Justices Rose and Armour as follows: "If the highway be in such a state of repair that those requiring to use it, by exercising ordinary care can pass over and from it without a stamp with fatal results." This decision was the outcome of a trial brought by the heirs of a man who was killed by his horse getting beyond his control, running off the road, and throwing the driver against a stump with fatal results. The municipality where the accident occurred was sued, and judgment was given in favor of the plaintiff by the Assize Court. The case was appealed by the municipality, and the justice named reversing the decision of the Assize Court. The justices named agreed that after the team got beyond control and got off the side of the road no municipality could be held blameable for what might happen.

John Sturges, Lloyd, the infant son of Messrs. Tappin, died after an illness of several weeks.

"Well, Pat, have you learned to ride your bicycle yet?" "Sure, a bit sor. Sure, Oi can't even balance myself standing still, let alone riding."

Abel Yates will leave the Gamble House on Saturday morning at 8 o'clock with his express for Brockville and return. Fare 50 cents each.

The residence of W. D. Taggart, a farmer near Westport, was totally destroyed by fire last week. The loss is about \$1,200, partially covered by insurance.

Hockey is played in the old country on turf instead of on ice. They have eleven players on a side, and a rubber ball instead of a "puck." It is the Irish national game.

Hon. G. W. Ross, Minister of Education, has authorized the flying of flags on all public schools on May 15th to commemorate the landing of the original United Empire Loyalists in this country.

A bicycle dealer from Brockville succeeded in doing a little transient trading in Athens last week, but, acting on the advice of our Chief of Police, he recalled the sales made and returned home with his stock.

The Baptist congregation is listening to a course of sermons on Representative Women. The theme proves to be very interesting and practical. Next Sunday the subject is to be "Miriam, the Grand Old Maid."

Messrs. Howard Blanchard and Byron Haskins of New York returned to their homes at Greenbush last week. They positively declare that the year 1926 has nothing to do with this spring visit to Canadian friends.

We are pleased to notice the appearance on the streets of Mr. S. H. Wiltz, who has been confined to the house for the past six months from a fracture of his hip. He is able to get around with the aid of a crutch and cane and is rapidly gaining strength.

In the township of Front of Leeds and Lennoxville, the water has just purchased a car-load of sewer pipe to be used for culverts across the roads. The pipe is laid at least two feet below the surface, or more if necessary, and simply covered with earth. The sewerage system is composed of the job in permanent, and is much cheaper in the end than common culverts.

A public meeting of the Women's Missionary Society will be held in the Methodist church on Saturday the 29th inst. at 8 o'clock p. m. Mrs. Biglow will be the speaker.

First Vice-President of the Eastern Branch, will address the meeting on Missionary work. Come one, come all and hear Mr. Biglow on this important subject. A collection at the close. Mrs. Biglow will also lecture in the Elgin school house on Monday evening.

The Reporter job room are busy these days getting out horse route bills. Four lots having been finished in the past three or four days. As we have the best lot of horse cuts in the country, everyone wanting a good job with an appropriate cut should get their names on the list of the Unionville fair is now being set up in this office and will be mailed to members shortly. The principal changes were noted in the Reporter a few weeks ago.

The members of the Epw's League devoted Tuesday to a consideration of the Temperance question, and there was a large attendance present. Addresses were delivered by Miss M. E. Stone, county president of the W. C. T. U., Rev. H. Saunders, Messrs. B. Brown and R. Lincoln. The discussion was not altogether uninteresting on that account. A very pleasing vocal duet was given by Miss Elma Wilton and Miss Ray B. Jones, accompanied by Miss Ethel Blanchard. Treasures bearing on the subject of questions were distributed at the close of the meeting. The proposition to be further considered at the meeting of the League on the 17th of May.

The many boys and girls who have charge of bees had better lift their light colonies and be sure they have supplies, not less than four or five pounds on hand all the time, to feed them during the winter. If you have no honey in comb to set in, pour syrup of A 1 sugar into empty comb; put in the hive near the bees. Take the combs of candied honey, uncap and pour tepid water over the top, and let it stand a few days. The water will carry this water and apply it to the granulated honey and then out with comfort. The north and east winds and cold of spring has made this month a hard time for the bees.—S. H.

Messrs. Chas. J. Stagg, president of the Reporter Hunt Club, and L. R. Viller, were callers at the Reporter office on Tuesday evening. They had heard marvelous stories of the big catch of salmon at Charleston lake and the latest fire of adventure which had taken place since last fall was aroused, and they left wife, children, and friends, and sallied forth with a determination to placid the natives who congregate on the placid waters of the lake and dangle a line and tell their tales to the reporter in the evening, that they, too, know something about fishing. A telephone message from Cedar Park as we go to press announces that they were last seen under the pilotage of "Bill Curry" in the vicinity of "Bill's Hole," a noted rendezvous of the lucid sun bull-put, and big fish stories will be in order on the street corners of Brockville for the next few days.

The Reporter received a letter on Tuesday last from Prince Leo, the dethroned emperor of New York City, dated on the 13th of April at Houston, Texas. Prince Leo was on his way to fill an engagement of six assemblies at the city of Mexico, commencing on the 18th inst. Despite the war excitement, the people of Houston on hearing that Leo was to call there on his way to Mexico, arranged before he landed in the steamer to have him give them an accession from one of the public parks. On his return from Mexico, Prince Leo has arranged to make a trip to the city of New York, and the United States government, as it proved a success of which he feels confident, he will in no wise for use in the Cuban war. These arrangements will not deter him from making his promised accession from the fair grounds at Gannaque on July 1st.

Fisher's carriage works is a hive of industry these days, getting carriages ready for customers. Between twenty and thirty carriages have been sold lately this spring, and he has orders for a number more this week. Ever, part of Fisher's carriages is put together under his own supervision, and the greatest care is exercised in seeing that the best of everything is used, and that it is put together in a workmanlike manner. The excellent reputation of the carriages put out of this establishment extends to all parts of the country, and very justly so, as they are built with a view to durability and in the latest and most modern styles. With E. Laraway as tool worker, D. Fisher, ironer, G. C. Sack, painter, and E. T. Tennant, trimmer, first-class work in every department is assured.
