WORLD'S GREATEST SOLDIER LANDED IN NEW YORK

Field Marshal Kitchener Hears Pleasant Things Said About Himself at Dinner Given by the Pilgrims and Replies in the Same Vein.

New York, April 19.—The greatest living soldier in the world was the tribute paid by Joseph H. Choate to Lord Kitchener, Field Marshal of Great Britain, at the dinner given in his honor by the Pilgrims at the Waldorf Astoria. More than 450 distinguished guests lionized the British visitor. Lord Kitchener in his reply, praised the United States Military Academy at West Point and referred to the recent globe-circling voyage of the Atlantic fleet as a great peace promoting event. Two members of President Taft's cabinet who attended voiced the President's regret at being unable to meet the distinguished visitor. Lord Kitchener said in part: "I have recently been in Aus-

tralia and naturally heard there a great deal about the visit of the American fleet. What seems to have struck everyone in the Commonwealth was not only the great courtesy and frank good-will of the Admiral and his officers, but also the good behaviour and smartness and preparedness for war of the men and ships of the fleet.

A few months ago I recommended that the Australian and New Zealand Governments take West Point as their model for the military college they require and I hope the ideal I have thus placed before them will not appear to them unattainable.

A cable from Lord Roberts, President of the British Pilgrims, was read by Mr. Choate.

SCOTT BILL KILLED IN THE SENATE

Legislation Needed to Make P. E. I.'s Prohibition Effective was Rejected

Ottawa, April 19.—The Senate today extinguished Sir Richard Scott's Bill which was designed to prevent anyone carrying into Prince Edward Island liquor intended for sale and to penalize transportation companies which handled the liquor. The failure of the measure was due chiefly to Hon. G. W. Ross, former Premier of Ontario, and himself a great temperance man, who declared in the Senate today that before the Federal House should enact a law the Province should exhaust its constitutional powers. He held that the province had the right to declare that no liquor should be landed on the Island and could seize any that was brought in until the Province enacted such a law it should not come to Ottawa seeking relief.

Sir Richard Scott made a final plea for the Bill saying that he would have it amended to meet the objections of the transportation companies voiced by Senator Wood. He proposed to excuse transportation companies in cases where they carried liquor into the Island without being aware of what they were handling.

Senator Domville said that he thought the Bill was not a good one. He moved that the committee rise and leave the Bill behind it. This motion carried by 22 to 20 and that was the end of the Bill.

OTTAWA TAG DAY A GREAT SUCCESS

It is Estimated That the Three City Hospitals Will be Over \$11,000 Richer as a Result

Ottawa, April 24.—Ottawa had its first tag day on Saturday for the benefit of the three city hospitals, and it was a surprising success. Everybody wore a tag and nobody complained. While the total amount collected by the matrons and maids, who undertook the work of collection, is not yet officially known, it is estimated that it will at least reach at least \$11,000.

THE SWOPE MURDER TRIAL STARTS AT KANSAS CITY

Kansas City, Mo., April 18.—Scarcely had the State completed its opening statement today in the trial of Dr. B. C. Hyde, for the murder of Col. Thomas Swope, before Dr. Twyman, the prosecution's most important witness, died at a hospital of acute diverticulitis, by which he was stricken last Saturday. Dr. Twyman was for years the Swope family physician. When the nurses struck at the Swope home and accused Dr. Hyde, they carried their complaint to Dr. Twyman. He called Dr. Hyde to his office and told him he was suspected. Dr. Twyman was a confident of the Swope family. While the State depended much on the testimony of Dr. Twyman he gave Dr. Hyde's attorney a deposition in which he refused to criticize Dr. Hyde. With out going into detail, Dr. Twyman said he approved in general of Dr. Hyde's work in connection with the illness of various members of the Swope family. Dr. Hyde sat calmly between his wife and father in the crowded criminal court room today and heard himself described as a man whose greed for gold made him a poisoner and a murderer. After Jas. A. Real, special prosecuting attorney, closed the prosecution's opening statement, Mrs. Hyde turned and touched her husband on the shoulder and said: "You did fine."

Clashes between attorneys kept the spectators alert. The defense made early and active objection to the State giving the jury any incidents in the Swope home not directly connected with the death of Col. Swope. The Court decided to admit all circumstances which the State avers will tend to show that a plot existed to exterminate the entire family. As a result, all the incidents in the Swope residence, from the first illness of Col. Swope, were reviewed.

The charge that Dr. Hyde poisoned Col. Thomas H. and Christian Swope with cyanide of potassium, as well as strychnine was the only feature brought out in Mr. Reed's address.

HUCKLEBERRY FINN IN TEARS AS HE LEARNS OF DEATH OF MARK TWAIN

Original of Noted Character Talks of his Passing Sweetheart Days—Girl of Clear Early Affection Recalls Their Days

Paris, Mo., April 22.—B. C. M. (Barney) Farthing, said to be the original of "Huckleberry Finn," wept when he heard of Mark Twain's death. "The old days are passing," he said, "even the long sweep of the majestic Mississippi seems to have dwindled. The noise of its traffic and the music of its deep throated whistles are practically no more. The man who put into words for the delight of the world, the pictures of the great river is dead."

Hannibal, Mo., April 22.—Mrs. Laura Frazer (Becky Thatcher) known as Twain's first sweetheart said, "I can see him in my mind's eye now, as we started to our first school together more than sixty years ago, he barefooted and fingers stained with berries as he divided the berries with me, a little girl in calico dresses, sun-bonnet and pig tails."

Salt Lake City, Utah, April 22.—"Mark Twain lived only six months and five days of four score years," said Judge G. C. Goslin a veteran editor in commenting on the death of the humorist. "I know he said that he was only 75," continued the judge, "but when we were in Virginia City, Nevada, Mark was older than I was, and I am 78. Here is the record of it." He opened a book of biographies by Amelia J. Carver, published in 1889. There it was, "Samuel L. Clemens, born November 30, 1830."

NERVOUS DISEASES IN THE SPRING

Can Only be Removed by Toning Up the Blood and Strengthening the Nerves.

Nervous diseases become more common and more serious in the spring than at any other time of the year. This is the opinion of the best medical authorities after long observation. Vital changes in the system after long winter months may cause much more than "spring weakness," and the familiar weariness and aching. Official records prove that in April and May neuralgia, St. Vitus dance, epilepsy and various forms of nervous disturbances are at their worst, especially among those who have not reached middle age.

The antiquated custom of taking purgatives in the spring is useless, for the system really needs strengthening—purgatives make you weaker. Dr. Williams' Pink Pills have a special action on the blood and nerves, for they give strength and have cured not only many forms of nervous disorders, but also other spring troubles such as headaches, weakness in the limbs, loss of appetite, trembling of the hands, melancholy and mental and bodily weariness as well as unsightly pimples and skin troubles.

Dr. Williams' Pink Pills cure these nervous disorders and spring ailments because they actually make new, rich, red blood. Sold by all medicine dealers or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

"A Great Sage and Humorist" Says Kipling

New York, April 23.—A cable message from Rudyard Kipling on the death of Mark Twain, printed in The World today says—"In Mr. Clemens' death all our English-speaking world loses a great sage and humorist."

ST. STEPHEN BANK AND ITS LIABILITIES

President Frank Todd Donates \$100,000 to Help Bank out.—But Admits No Legal Obligation Respecting any of the Losses.

St. Stephen, N. B., April 23.—Friday was a day of considerable interest in banking circles here. A meeting of the directors and Curator Kessen and Mr. Taylor, legal representative of the Bankers' Association, and Hon. Guy Murchie, a lawyer from Boston, who is looking after the interests of the stockholders of that city and vicinity, was held yesterday with very satisfactory results.

Curator Kessen stated that he had received from Frank Todd president of the St. Stephen, the sum of \$100,000 for immediate use in liquidation proceedings. Mr. Todd so it is understood, feels that he, perhaps, was to a certain extent responsible for some of the losses made by the bank but he does not admit any legal obligation in regard to any of them. He stipulates that this payment is full satisfaction of any claims that might be made him.

The contribution is indeed a most liberal one and will greatly relieve the shareholders. It is generally conceded that it will not only enable the bank to pay all its debts but that the stockholders will not be called upon for any part of their double liability, and even gives them some small hope of recovering a portion of their investment.

The annual meeting of the bank will be held May 15 and it is hoped that after that date the depositors may receive a part of their money. Of course, the first claim upon any available funds will be to redeem the bank notes in circulation and then the depositors will come in for a share in any future distribution.

Curator Kessen and Mr. Taylor went out on this evening's train. Colonel Chipman, who arrived Wednesday from Boston will return to that city today.

Mr. Kessen and F. R. Taylor returned to St. John Thursday night. In reply to questions about the bank's affairs Mr. Kessen made the following statement, but declined to go into further details:

"The curator of the St. Stephen's Bank has received from the president, Mr. Frank Todd, the sum of one hundred thousand dollars (\$100,000) for immediate use in the liquidation proceedings.

"Mr. Todd feels a certain responsibility in connection with some of the losses made by the bank, but he acknowledges no legal obligation in regard to any of them.

This payment is full satisfaction of any claims that might be made upon him, and is a generous contribution to the relief of the shareholders.

"It is expected that it will enable

BEAUTIFUL YOUNG WOMAN FOUND DEAD ON NAPLES BEACH

Miss Estella Reid, Supposed to be an American, the Victim—Let- ters in her Belongings.

Naples, April 24.—The finding of the body of a beautiful young woman on the beach near here has given rise to the suspicion of murder. Apparently the woman died three days ago. The body was scantily clothed and this has led the authorities to believe that probably she was the victim of crime.

The body was identified by the proprietor of the Hotel Castello as that of Miss Estella Reid, supposed to have been an American, who was a guest at the hotel. She was fair and tall, with grey eyes and quite prominent nose and wore eye-glasses. The supposition that she came from the United States was strengthened today when the police found letters addressed to her from New York and St. Louis as well as from Canada. Several of these were apparently love letters. For the last few months, Miss Reid had spent her time variously at London, Germany, Turin, Milan, Pisa and Siena. She proceeded from the latter place to Naples and went to the Hotel Castello on April 8. She is described as having been eccentric, sometimes spending days in contemplating the view from the terrace. She devoted a portion of the time to painting. It is thought that she was not possessed of any great amount of money.

CANADIAN TRADE COMMISSIONER TO SYDNEY, N.S.W., DEAD

J. S. Larke, Who was appointed in 1894 to the position, Passes Away, Aged 70.

Ottawa, April 24.—F. C. T. O'Hara, deputy minister of trade and commerce, has received a cable message from Sydney, New South Wales, conveying news of the death of J. S. Larke, who since 1891 has been Canadian trade commissioner at Sydney.

Mr. Larke, who was Canada's first permanent trade agent, and one of the most capable men in this branch of the public service, was seventy years of age and a widower. He was for many years a resident of Ottawa, where he owned and edited "The Vindicator." Mr. Larke had something of a reputation as a plat-

FELL ON THE STOVE

Baby Is Badly Burned

The young daughter of Mrs. T. S. Dougall, 523 Flora Avenue, Winnipeg, was arranging some of her doll's washing on a clothes rack, beside the stove, when she fell, and her hand, being thrown out to try and save herself, came in contact with the side of the hot stove. She sustained a serious burn, and her screams brought her mother quickly to the spot.

"I sent to the druggist for the best remedy he had for burns," she says, "and he sent back a box of Zam-Buk. He said that there was nothing to equal it. I applied this, and it soothed the pain so quickly that the child laughed through her tears. I bound up the hand in Zam-Buk, and each day applied Zam-Buk frequently and liberally, until the burn was quite cured."

"The little one was soon able to go on with her play, and we had no trouble with her during the time the burn was being healed. I would recommend all mothers to keep Zam-Buk handy for emergencies of this kind."

All druggists and stores sell Zam-Buk at fifty cents box. Post free from Zam-Buk Co., Toronto, for price, and you are warned a gainst imitations.

form speaker, an accomplishment which contributed to his value as an exponent of Canada's trade interests. Two years ago he visited Canada and addressed the boards of trade of large cities on Australian trade conditions and opportunities for development of our export trade to the island continent. His reports to the department were well written and contained a great deal of information of value to Canadian exporters.

Mr. Larke was Canadian commissioner at the Chicago World's Fair in 1893, the year before he was sent to Australia on the recommendation of Sir MacKenzie Bowell, who during the course of a visit to Australia saw the possibility of a development of trade between that colony and Canada.

\$3,000,000 FIRE IN LOUISIANA TOWN

Lake St. Charles, La., April 23.—Fanned by a high wind a fire which broke out here late today, swept over twenty or more blocks, several hundred buildings were destroyed and a property loss estimated at about \$3,000,000 was sustained. Two thousand people have been rendered homeless.

Ladies, Why Not Preserve Your Youth And Beauty?

Parisian Sage, the quick acting hair restorer, now for sale in Newcastle at the drug store of T. J. Durick and is sold with a rigid guarantee at 50c. a bottle.

Parisian Sage has an immense sale, and here are the reasons: It is safe and harmless. It cures dandruff in town weeks by killing the dandruff germs. It stops falling hair. It promptly stops itching of the scalp.

It makes the hair soft and luxuriant. It gives beauty to the hair. It is not sticky or greasy.

It is the daintiest perfumed hair tonic made.

It is the best, the most pleasant and invigorating hair dressing made.

Fight shy of the druggist who offers you a substitute, he is unworthy of your confidence.

NINE PERISH IN CINCINNATI HOTEL FIRE

Cincinnati, Ohio, April 24.—Three persons lost their lives and half a dozen others are believed to have perished in a fire which rationally destroyed the Hotel Thomas shortly before midnight last night.

Two of the dead have been identified as Walter G. Cameron, lawyer and Harry Lawrence, proof-reader on a morning newspaper. The third body has not been identified.

The hotel was situated at Walnut and Sixth street, in the retail district. The flames are supposed to have been caused by crossed electric wires.

A SPEED CURE

Kentville, N. S., Jan. 1st, 1910
Messrs. C. Gates, Son & Co.

This is to inform you that I have been a sufferer for the last fourteen years from Kidney and Stomach trouble, brought on by severe colds, having been laid up every winter during that time. Last year I was laid up seven months and I could not get out of the house. My stomach swelled so that I was six inches larger than my usual size, had two doctors in attendance but I grew worse and they were going to tap me. My friends despaired of my life. At this time I was recommended to use GATES' LIFE OF MAN BITTERS and INVIGORATING SYRUP and in one week after commencing their use my size was reduced two inches, and in four weeks was reduced to my usual size so that I went to my mills, and have been able to continue it ever since. By continuing the use of your BITTERS and SYRUP I hope to get a cure of the kidney and stomach trouble so far as it is possible as it always helps me when I take it. You may make these truths known for the benefit of sufferers.

Yours very gratefully,
JOHN W. MARGESON.

MIRAMICHI TO BE DREGGED

Necessary for Proper Navigation: Says Newcastle's Mayor.

PEOPLE INTERESTED

Would Help Lumbermen and Benefit County Generally, He Thinks—Question of Ferry Between Newcastle and Nelson—Tug and Scow to be Used for Time Being.

St. John, April 14—Mayor S. W. Miller, of Newcastle, was in the city yesterday. He is at present acting in the interests of the people along the Miramichi in connection with the ferry service between Newcastle and Nelson which they want started again. "In order to accomplish this a new boat is required and as the old one has been condemned they hardly know what to do," said Mr. Miller to The Telegraph last night. Asked as to what steps are being taken, he said that he came here to inquire of I. J. Olive, the inspector of hulls, whether it would be possible for them to have the old ferry which has been condemned fitted up and placed on the route until such time as a new boat can be purchased.

"Mr. Olive did not look upon this very favorably," said Mr. Miller, "but he gave me a few valuable suggestions which I acted upon. One was to wire Ottawa and ask permission to run a tug and scow attached over the route for the time being. This I did and received an answer to the effect that the permission would be granted provided that the scow would not exceed a certain tonnage, which was specified, and a chartered engineer could be secured to take charge of the tug."

Mr. Miller will do his best to further this scheme as he thinks it an excellent one. "Another matter which the people of Newcastle are greatly in need of at the present time," said Mr. Miller, "is the question of having the Miramichi dredged at certain points. In its present state the river is only navigable at certain times and it is proving to be a considerable drawback, the influence of which is being felt all over the county of Northumberland. It is not only impeding the lumber operations, but it is also interfering to some extent with the steps that are being taken to boost mining operations in Newcastle and vicinity." Mr. Miller said that they have the assurance of the minister of public works that the dredging will be done, and they entertain great hopes that it will be commenced within the very near future. Mr. Miller is registered at the Royal.

CHILD'S BODY FOUND.

Sydney, April 19.—What is supposed to be a case of infanticide was accidentally discovered here today. While a young man was returning from the field near Alexandra Street he discovered partly buried by the side of the road the body of a child, probably about three or four days old. It looked like a case of infanticide, as the body which was in a fair state of preservation was buried almost completely in the earth and some brushwood thrown over. The police are investigating the affair.

ANTI-GAMBLING BILL

Bookmaking Will be Legal Only on Grounds of Incorporated Racing Associations That Hold Seven-Day Meets For Runners.

Ottawa, April 15—The Miller bill, amended, passed the Commons tonight. The amended bill prohibits betting as a business on horse races or other trials of skill, except on the grounds of incorporated associations under limited conditions: it more clearly defines the meaning of the word "place" as applied to book-makers; it prohibits pool rooms, pool selling, the advertising for sale of tips, and advance information covering odds in connection with book-making or betting as a business; it will put an end to the transmission by telegraph or telephone of any advance information or tips and it limits the period of race meets during which book-making will be allowed to two periods of seven days in each year on the tracks of any incorporated association.

It provides that racing, at which book-making is allowed, shall not take place except upon the track of an incorporated association, either now incorporated or hereafter to be incorporated within three miles of any Canadian city or town having a population of not less than 15,000, and it provides that in the case of race meetings at which trotting or pacing is the feature book-making shall not be allowed if the race meet is continued for more than three days in any one week or more than fourteen days in any year.

GUILTY OF MANSLAUGHTER.

Port Arthur, Ont., April 19.—Hugh Harmon, second engineer of the steamer Andrew Carnegie, was convicted of manslaughter in causing the death of Albert Walner, a wheelman, on board of a steamer in Port Arthur harbor on the night of August 16th last. He was sentenced by Justice Latchford to three years in the penitentiary. Both were under the influence of liquor. Harmon said he was sure Walner intended to kill him and decided to shoot first. He called to the others of the crew nearby. "Pray for us boys, one of us must die, and I would rather be a live coward than a dead hero," whereupon he whipped out a revolver and fired, killing Walner instantly.

When it Comes to Pie, Madam, Words Fail Us

Even in the long ago when the preacher said "Dearly Beloved", even then did we tinkle our fancy with the greedy thought that he really meant—PIE.

For pie, in each of its myriad varieties, is the grand wind-up to a joy spready the last act of a play with a happy ending.

Do you make good pie, Madam—pie that is pie? Do YOU?

Sign the emblem editor of the New York Sun:

"The apex of a wedge of pie is the shining overture to a 'succulent' of a delight which 'reaches its climax in the 'crust end', and as this 'crust becomes part of oneself' 'one knows what pie is for.'"

"The 'crust end' is the final 'course of pie itself', its raison 'd'être', the solution of the 'Mistral riddle, why is pie.'"

But the crust is made of flour, you know, and FIVE ROSES is a wonderful flour for pie crust, and puff pastry, and such like.

Because, Madam, FIVE ROSES makes your pastries crisp, golden, and of texture and eating qualities.

With a delicate, inimitable flavor, sweet as a nut, tender and rich in color and appearance.

If you should make good pie again, with the FIVE ROSES flour, you will know what pie is for.

Whether of apple, or lemon, or cherry pie!

Whether of healthy oatmeal, juicy pineapple, glorious mince or dear old pumpkin and squash, for all sappy with the rich red juice of the cherry—

Why, you get the flower of the pie family every time (no black sheep in that family), a truly succulent, tasty article.

With rich filling of your own composition, daintily baked in a crust that leaves no unpleasantness.

Never fear the dire vengeance of an "offended stomach, or any calamity due to 'inside information'—If you use FIVE ROSES, Madam.

Then watch the hungry wedges disappear, showing fine appreciation of YOUR culinary skill.

To say nothing of the surreptitious nibbles between meals, you know.

And pie it is at its very best when wrapped up in a FIVE ROSES crust.

So, Madam, use your own judgment.

ALD. BUTLER'S QUALIFICATION.

We publish in another column
 the answer of Ald. Butler to the
 letter of "Voter" which appeared
 in last week's "Leader".

Apparently Mr. Butler's stand
 is correct as no protest has been
 filed. We hear however, that a
 certain faction of his enemies
 wished to make trouble; but were
 afraid of the job themselves; and
 could not find a "Cat's Paw".

MARK TWAIN

Samuel L. Clemens, better
 known throughout the world
 under his literary pseudonym of
 "Mark Twain," has passed to his
 long rest. He was born in
 Florida, Mo., November 30, 1835.
 Soon after his birth his parents
 moved to Hannibal, Mo., where
 Samuel and his brothers were
 brought up, and received a
 grammar school education. The
 town, situated on the banks of the
 Mississippi river, brought Samuel
 in close and constant touch with
 the great river and the varied and
 fascinating life upon it, and
 developed in him a great love for
 nature and adventure.

At the age of 13 Samuel learned
 typesetting, and for three years
 he followed that occupation,
 wandering about from place to
 place, as was the custom then
 among the printers. St. Louis,
 Cincinnati, Philadelphia and New
 York were among the cities he
 visited in his wanderings. In
 1851 his love of home and the
 river drew him westward again
 and he became a pilot on the
 Mississippi, although only sixteen
 years old at that time. He fol-
 lowed that vocation for ten years,
 during that time accumulating
 material which he was eventually
 to turn to literary account. The
 pen name which he selected at the
 beginning of his literary career is
 a reminder of his pilot days.
 Many a time, under the glaring
 sun and under the starry sky
 "mark twain" called by the man
 making the soundings, came to
 Samuel's ear, while he stood at
 his post in the little house. That
 call, often repeated in the course
 of his countless trips, meant that
 the sounding had shown a depth
 of twelve feet, a safe depth for the
 shallow river steamers.

The outbreak of the war in
 1861 destroyed the river business,
 and Samuel Clemens found him-
 self practically without occupa-
 tion. In the spring of that year
 the young pilot joined a Confed-
 erate volunteer squad, but he was
 not destined to win laurels upon
 the battlefield. In fact he never
 saw active service. As his occupa-
 tion was gone, he decided to go to
 Nevada, then a territory, of which
 his brother Orion was secretary,
 under appointment by President
 Lincoln. Samuel became a clerk
 of his brother, but he soon drifted
 into newspaper work. For a short
 time he was city editor of the

Virginia City Enterprise, in which
 paper his first sketches appeared.
 Afterward he went to San
 Francisco, where he worked as a
 reporter on the "Morning Call."
 After a short time he tried placer
 mining for gold in Calaveras
 County, picking up a great deal
 of valuable experience, but little
 gold. Clemens returned to news-
 paper work and in the spring of
 1865 became interested with Bret
 Harle in the conduct of the Alta
 Californian. It was about that
 time that he wrote his first
 humorous sketches and became
 locally known as a humorist.
 Since that time he has been in the
 public mind almost continually.—

LABOR GAINING.

After the big strike of the Aus-
 tralian ship workers' union failed
 in 1890, the Labor leaders conclud-
 ed that such strikes were futile and
 wrong. They, more wisely, decid-
 ed to go into politics, with the re-
 sult that at the first election they
 elected several members, who gradu-
 ally increased to about one-third
 of the federal House of Representa-
 tives.

A few years ago the Labor party
 even obtained power, for a few
 months, being, although in the
 minority, the largest single party
 in the House. In 1908 they again
 assumed power, although they had
 only 26 in a house of 75. They
 were enabled to do so by an
 alliance with a section of the Lib-
 eral members. But when in May,
 1909, at the opening of Parliament,
 the Labor Party (which is recog-
 nized as a Socialist organization)
 began to unfold its real program,
 which included: A graduated land
 tax, Restriction of public borrow-
 ing, The regulation of wages by
 the State, The insurance of work-
 men against unemployment, and
 the nationalization of monopolies,
 the Liberal allies became alarmed
 and left it, and ex-premier Deakin
 became leader of a Liberal-Cons-
 ervative Fusion. The Labor minis-
 try was defeated, 39 to 30. The
 Governor General refused to dis-
 solve the House, and the Laborites
 had to wait until the House had
 lived out its full term. At disol-
 ution this spring the Labor Party
 had 26 members in the House of
 Representatives and 6 out of 36
 Senators. In the general election
 this month Labor won 44 seats out
 of 75 in the House and 15 more
 seats giving it now 21 out of 36 in
 the Senate, thus securing full con-
 trol of both houses. This is the
 first time a Socialist party has ever
 been elected to supreme power in
 any country, and Australia's ex-
 periment will be watched with in-
 terest. So will Milwaukee's, where
 in a city of over 300,000 people, a
 Socialist mayor and Council were
 elected this month, the first time,
 we believe, that Socialists have
 ever won out in a North American
 city. It is evident that the new
 party has come to stay and will
 have to be reckoned with in future
 political contests.

**Farmers should eat
 more oatmeal.**

Although the farmer of today is able
 to buy almost anything he wants to
 wear or to eat he isn't paying enough
 attention to food values when it comes
 to his own table.

He feeds his stock carefully, avoids
 over-feeding and selects the stock food
 that he believes will give the best re-
 turn in strength and general efficiency.

If he has been watching the exten-
 sive researches and experiments on
 the question of the best human food
 for muscle and brain he will heed the
 advice from all sides to "eat more
 Quaker Oats."

Quaker Oats is mentioned because
 it is recognized in this country and
 Europe as the best of all oatmeals.
 Feeding farm hands on Quaker Oats
 means getting more work out of them
 than if you feed them on anything
 else.

STABLES—McKEEN

The marriage of Miss May McKeen, niece of Mrs. Charles Call, to William Stables, second son of Mr. Geo. Stables of Newcastle, took place at 9 o'clock Wednesday evening. The ceremony was performed by Rev. S. J. MacArthur, pastor of St. James' church, in the presence of the immediate relatives of the contracting parties. It was a house wedding and the parlor was decorated with ferns and palms, and presented a pretty appearance. The bride, who was unattended, was very becomingly attired in a travelling suit of old rose broad-cloth with hat to match. She was given away by her uncle, Mr. Chas. Call. After the ceremony supper was served and later the happy couple left by No. 33 for a trip to Quebec, where they will visit the bride's father, Mr. John McKeen, a well known manufacturer.

The bride and groom, who are one of Newcastle's most popular young people, were the recipient of a large number of useful and beautiful gifts. Their many friends join in congratulations for future happiness. On their return from the wedding trip Mr. and Mrs. Stables will reside at the corner of Pleasant and Prince William streets.

AN IMPORTATION OF LIVE STOCK FOR NEW BRUNSWICK

Mr. A. H. Thomson Bringing Out Pure Bred Cattle and Horses.

The Secretary for Agriculture, Mr. W. W. Hubbard, has been notified that Mr. A. H. Thomson, the well-known importer of live stock, will arrive in Quebec on the S. S. Athenia on the 22nd inst. with an importation of both cattle and horses for New Brunswick.

The animals are all pure bred and the importation includes Clydesdale stallions and three-year old mares, and a number of choice Ayreshires from Scotland and twelve dairy Shorthorn bulls from English breeders.

The Clydesdales will be forwarded to Fredericton immediately upon their arrival, and offered for sale here.

The cattle will have to remain in quarantine at Quebec until the 16th of June, when they will be brought to this province and offered at auction.

Further details will be given later, probably soon after Mr. Thomson's arrival here.

During the past winter Mr. Thomson brought out an importation of stock which included some very fine specimens of Percheron horses.

Agricultural societies will find this a splendid chance to get good stock for their districts. All enquiries may be addressed to the Department of Agriculture, Fredericton.

Vancouver, B. C., April 19—Answering a summons for aid by Railway Officials, Constable Lane was killed last evening by a band of hoboes numbering at least seven who had boarded the Seattle Express as it pulled out on the Canadian side of the Sumas. The hoboes were seated at their ease and defying the Conductor in the smoking car when the Constable arrived. He at once ordered them off, but his orders were met with a volley of oaths. The Constable seeing that further parley was useless resorted to force, and, with the help of the train crew grabbed two of the men and rushed them toward the door. The Constable was thrown to the floor, and the brakeman, conductor and fireman finally succeed in getting rid of the men. A hasty examination of Lane revealed the injuries inflicted by many feet. He died later. Three men have been arrested charged with the murder.

GENERAL ELECTION IN THE FALL

Tory Rumor to This Effect Circulated in Ottawa

Ottawa, April 22—It is rumored in Tory circles that the Government intends to appeal to the country in the fall.

SAW HER BABY BURNED TO DEATH

Mother was Powerless to Render Aid.

New York, April 23—Rigid with horror and powerless to speak or move while the tragic occurrence was in progress, Mrs. Adolph Kober saw her year-old son burned to death within her reach in his baby carriage Thursday.

Mrs. Kober was unable to speak to her brother-in-law, when he rushed in and saw the blazing carriage. Ignorant of the baby's presence, Kober dashed water on the carriage and wrapped carpet about it until the flames were smothered. Five minutes later, when he removed the carpet and saw the charred body of his nephew he uttered a cry of amazement and grief and turned to his sister-in-law. She was still there, transfixed.

It was 20 minutes before the horror-stricken mother could speak and then she immediately became hysterical and collapsed.

Roosevelt Active In The Rain

Budapest, April 18—A heavy rainstorm this afternoon did not prevent Mr. Roosevelt from disposing of an exceedingly strenuous programme. This included a luncheon at the Parliament House and a sight-seeing tour, which comprised his visit to the unique agricultural museum, where Mr. Roosevelt was especially interested in the conversation and reforestation work of Hungary.

A portion of the day was taken up with a call on Francis Kossuth, leader of the United Opposition, who is ill, a visit to Washington monument erected by the Hungarian-American federation, an inspection of the studio of Zala, the Hungarian sculptor, a reception to the members of the American colony at the Consulate, and a reception to the Hungarian journalists at the hotel.

LABORITES WIN IN AUSTRALIA

Defeat Government by Large Majority in General Elections.

Sydney, Australia, April 21—The following are complete results in the general elections of the 13th. Labor 44, Fusionists; 28, Independent; 1, Independent Liberals 2.

At dissolution the fusionists numbered 44, Labor and Independent Liberals, 5.

The Laborites captured nine seats in Victoria, five in New South Wales, two in Tasmania and one each in Queensland and South Australia.

The Fusionists captured a seat in West Australia.

In the senatorial elections the Labor candidates are leading in all states except Victoria.

Women polled largely everywhere. The unpopularity of the Fusionists in the industrial centres was demonstrated. The Laborites also polled well for the senate.

The Labor party's programme includes protection and state-regulated wages; compulsory military service; Australian navy built out of revenue; nationalization of monopolies; graduated land tax; restriction of public borrowing; government insurance against unemployment.

The Fusionists in their program announced their intention to uphold federal union; maintain a policy of protection; amend the electoral roll; establish a white Australia; develop Australian naval and military forces; assumption by the commonwealth of the states' debts; promotion of economy in public expenditure and assertion of the principle the members should be directly responsible to the people for their votes and actions.

The great question between that two parties is the government's proposal, which is bitterly condemned by the Laborites, to embody in the constitution a provision for annual payment by the commonwealth to the states of 25 shillings per head of the latter's population.

BABY'S OWN TABLETS KEEP CHILDREN WELL

In thousands of homes throughout Canada there are bright thriving children who have been made well and are kept well by the use of Baby's Own Tablets. This medicine cures all stomach and bowel troubles, makes teething easy, and destroys worms. It is guaranteed absolutely safe and free from poisonous opiates. Mrs. John L. Plante, Bon-Counsel, Que., says:—I consider Baby's Own Tablets worth their weight in gold and advise all mothers of young children to keep them always on hand. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

NEW CONFESSION OF FAITH

New Haven Conn., April 20—A new confession of faith, which drops the Apostle's creed and requires no formal expression as to the divinity of Christ, has been adopted by the deacons and will be presented for adoption by the Centre Church (Congregational) of this city. The church had strictly held to Puritan orthodoxy for more than two and a half centuries, having been founded in 1638.

New members will only have to pledge themselves to belief in a higher life and to moral purposes. The old confession of faith will be spread upon the records of the church as a historical relic.

NEBRASKAN TOWN GETS AFTER BARBERS

Waterloo, Nebraska, April 23—An order has been passed by the city council and signed by the mayor which among other things provides: "It shall be unlawful for any barber while shaving a customer to insert his thumb or finger in the said customer's mouth. He shall not discuss the gossip of the town, and shall not use tobacco while working over a chair; shall not insist upon a customer having his neck shaved or his hair singed." A violation shall subject the barber to a fine of \$5.

UNION BLEND TEA
the Tea that satisfies

YOU are the best judge of how much Union Blend Tea is worth—but you can't pass an opinion until you have tried it. You are in no position to say—as I say—that it's worth 40c. a pound because it goes easily half as far again as any 80c. tea. You don't know the truth of that until you use it for yourself.

But that's a fact. Sixteen ounces of Union Blend will make as much tea as twenty-four ounces of any ordinary kind. And not only as much tea, but better tea—tea that is more fragrant than has more aroma, more smack to it.

There is only one way for you to prove this—buy a pound and try it. Or if you are in doubt, let a half pound packet tell the story. Your own teacup will convince you if you will give it the opportunity. Look for my picture on the end of the packet.

Union Blend one pound packets—the pound packets only—contain coupons that are worth money to you. But this is only an advertisement—the tea itself is worth the price, full.

40c

I Take all the Risk

THERE would be no sense in my spending thousands of dollars in advertising if I couldn't back up what I say. If you try Union Blend and don't like it, I am worse off than before, for I can never get you to try again. To make money, I've got to make satisfied customers—and I do. Of all who once buy Union Blend ninety-five per cent. continue to use it. You know what that means, don't you? What will your decision be?

WINNIPEG ALARMED OVER CONMEE'S CANAL PROJECT

Western People Say That American Capitalists are Trying to Secure the Great Water Powers along the Lakes and Rivers of Proposed Route.

Winnipeg, Man., April 13.—There is intense opposition through that portion of the west from Winnipeg to the head of navigation on Lake Superior to the proposed incorporation of the company desirous of constructing a large canal from Lake Winnipeg to Fort William.

In Winnipeg it is said that Jas. Conmee, M.P., who is sponsor for the measure at Ottawa, really represents American capitalists, who merely are seeking by this devious way to secure valuable rights to develop water power on the Winnipeg river and on other streams, to be utilized on the route.

Winnipeg has a couple of officials at Ottawa fighting the project, as it seriously menaces the great power plant of the city on the Winnipeg river.

Chicago, St. Paul and Duluth capital is said to be behind the enterprise. It is openly asserted in industrial circles that the company has no idea of completing such canal, and opponents point to the clause in the bill before Parliament giving the company full control of any part of the work completed within twelve years, at which time the incomplete portion of the contract lapses to the government. This, it is charged, enables the company to take possession of points where water power can be developed, permitting the canal project to be abandoned.

BANK OF MONTREAL WINS APPEAL IN ONTARIO BANK CASE.

Toronto, April 18.—(Special)—The appeal of W. J. McFarland, representing the contributing shareholders of the Ontario Bank, from the judgement of Justice Britton was dismissed by the court of appeal today. \$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Cheney & Co., Toronto, O.

Sold by all druggists, 75c.

CRUSADE AGAINST CONSUMPTION

The year 1909 will be marked in the calendar as a red letter year in the history of the crusade against consumption. The movement received a great impulse from the congress of distinguished physicians which was held in Washington, U. S. in the autumn of 1908 to consider the further measures to be taken to stamp out this dreadful enemy to the life and happiness of mankind.

Canada in common with the rest of North America, perhaps we should say the whole civilized world, has participated in the renewed and increased activity which resulted from the deliberations of the congress.

Never since the organization of the Canadian Association for the Prevention of Tuberculosis has there been such activity displayed in Canada in this fight for life. Older branch associations have been reinvigorated, new associations have been formed which are showing in many cases a vigorous activity. Several new institutions for the relief and treatment of consumptives have been opened and the demand for our literature has been larger than ever. Take it all in all 1909 was a year of great progress in the work of the Association.

The Tenth Annual Meeting will be held in Montreal on the 7th of June next and preparations are being made to make this one of the best, if not the best meeting in the history of the Association.

Royal Household Flour
The best for Bread and the best for Pastry

"The Little Brother of The Rich"

NOW, this is not a talk about money. It isn't a contrast between the rich and the poor, for in some things we are all equally rich and there are no poor brothers.

The poorest woman in the land can have just as good bread as the richest. The children who walk can have just as delicious pies and cakes and "goodies" as the children who ride in carriages.

All the money in the world cannot buy better flour than "ROYAL HOUSEHOLD", for there isn't any better.

And the woman who does her own baking can have just as good bread as is served to the Royal Household of England, and that is made from ROYAL HOUSEHOLD FLOUR sent to England from Canada.

And then, a barrel of "ROYAL HOUSEHOLD" produces many more loaves than a barrel of ordinary flour. The bread is better—sweeter, nicer to eat—and more wholesome—has more health and strength in it—makes more delicious pies, cakes, biscuits and doughnuts. Children, whose mothers use "ROYAL HOUSEHOLD" at home, can have just as good baked things as the Princes and Princesses of England.

Although "ROYAL HOUSEHOLD" costs a little more per barrel than ordinary flour it contains so much more nourishment and makes so much more bread of superior quality it is in reality the most economical of all flours.

"Ogilvie's Book for a Cook" comprises 125 pages of splendid Recipes which have been tested and tried. Every woman who is interested in good things to eat should send and get it.

FRENCH ACADEMY HEARS ROOSEVELT

Good Citizenship His Theme Expounds His Theories on Race Suicide and Other Ills.—Declares Where Human Rights and Property Rights Clash the Latter Must Give Way.

Paris, April 25.—To use Col. Roosevelt's own words, today marked the crowning of his career as a man of letters. From noon until midnight he was the guest of intellectual Paris, participating as a member of a session of the French Academy delivering a speech at Sorbonne, which he said was the greatest seat of learning.

After listening to the words of M. Boutroux, the president of the Academy of Moral and Political Sciences, who spoke eloquently of American ideals and character, of which he said, Theodore Roosevelt was the best exponent, the former president replied in French, his utterances rousing his venerable colleagues to unwonted applause.

The facade bristled with American and French flags and fully 25,000 persons packed the streets and acclaimed Col. Roosevelt on his arrival. Within the building enthusiasm was unbounded, the vast crowd in the amphitheatre interrupting again and again with storms of applause as the speaker defined the duties of citizenship in a republic, scolding the sluggards, cynics and the idle rich, and preaching the gospel of work, character and the strenuous life.

Several times he interjected observations in French, and after he had defined his attitude on the subject of human rights and property rights he repeated this in French, saying that it constituted the crux of what he had to say, and he desired everyone to understand him.

OTTAWA HOUSE TO ADOPT NEW RULES

No Time Limit Will Be Set on Speeches—Rambling Talk in Committee Will be Abolished—Present Form of Putting and Answering Questions Will be Done Away With and English Practise Used.

Ottawa, April 24.—The special committee upon the rules of the house of commons had another meeting on Saturday and decided to report to the house tomorrow. It is understood that no decision has been reached upon the proposal to place a time limit upon speeches. The premier is not enamored of any attempt to limit discussion and R. L. Borden is reported to have asked that the proposition be allowed to stand over for the present, in order to give time for its consideration during the recess.

The chief reform to be recommended will be the abolition of the present form of putting and asking questions. Instead of the questions

having to be put by word of mouth and answered similarly, the English system will be adopted. Only those questions marked with an asterisk will be answered orally, all other will be published in Hansard and by him transmitted to the clerk of the Hansard staff to be printed in the reports of the debates.

The speaker and the clerk will presumably have the power to decide what questions shall fall in the category of those to be answered orally.

The present procedure as to petitions will also be radically changed. Petitions will in future be handed

into the clerk and will appear on the votes and proceedings. Each of these reforms will save considerable time, but the most important proposal in the report of the committee is understood to be one which will lay it down that in committee of the whole, or in committee of supply, all speeches must be relative to the subject under debate; and it is believed that drastic powers will be given to the chairman of committees to enforce the proposed rule, the penalty being power to compel a member to cease his speech after he has once been called to order by the chairman.

The new rules will probably be formally adopted before prorogation, but will naturally not go into effect until the opening of next session.

BRITISH BUDGET BILL PASSES ITS SECOND READING

London, April 25.—The house of commons tonight passed the second reading of the finance bill by a vote of 328 to 242.

DISASTROUS STORM IN AMERICAN WEST

Michigan Fruit Belt Reported Wiped Out for This Year—Damage Estimated at \$30,000,000.

Chicago, April 25.—In the most disastrous and far-reaching storm experienced in a generation, damage amounting to more than \$30,000,000 has been wrought in the middle west to budding crops, fruits and vegetables.

The Michigan fruit belt—the backbone of the fruit district—is described as almost wiped out for the season. Freezing temperatures in Illinois and Iowa not only has killed buds, flowers and fruits, but threatens to ruin oats.

South Water street commission men agreed last night that the middle west will suffer the greatest loss it has ever experienced because of the storm. They also say that high prices automatically will begin at once.

The forecast of snow flurries, continued cold and northwest winds, indicates further extensive damage.

\$10,861 VERDICT FOR LOSS OF AN EYE.

Boston, April 23.—Emil Cormo was awarded \$10,861 against the Boston Bridge Works for the loss of his left eye by a third session court jury before Judge Harris. He was working on a riveting gun on a bridge at Towners, N. Y., on June 8, 1906, when a piece of steel from the machine, which was defective, flew into his eye. His suit was for \$10,000.

NOTHING TO BE GAINED BY DISPUTE WITH ARMS

War Minister of Ecuador Believes There Will be no War With Peru

Callao, Peru, April 23.—The Peruvian transport, Iquitos, will sail northward Sunday laden with war material. The War Minister of Ecuador who sailed for Buenos Ayres said he did not believe there would be war between his country and Peru. Neither country had anything to gain by disputing with arms a boundary question, and as far as the civilized countries are concerned he saw no cause for a rupture.

WANTS 200 MORE POLICE FOR MONTREAL

Montreal, April 23.—Two hundred new policemen were asked by Chief of Police Campeau yesterday. These he stated, are necessary that sufficient protection may be given in the newly annexed districts and along the harbor. The addition of these men would mean an annual increase in the expenses of the Police Department of \$145,700.

Race Agitation in Cuba Are Subsiding

Havana April 23.—The agitation over the race question apparently is subsiding. It is now believed to have been largely due to exaggerated reports of speeches of General Evaristo Estenoz, and other colored orators during the recent campaign in the eastern provinces in the interest of the organization of the Independent party of Cologne.

ROOSEVELT GUEST OF CITY OF PARIS

Paris, April 25.—As the guest of the city of Paris today, Theodore Roosevelt was received by the city fathers in the Hotel de Ville, and was the subject of glowing tributes pronounced by M. Caron, president of the municipal council; M. Esclaves, prefect of the Seine; M. Lampou, president of the general council of the Seine, and M. Lepine, prefect of police.
