Household Necessity

Make Gillett's Lye your household assistant. Use it for making soap, for washing dishes, for cleaning sinks, for washing greasy pots and pans. It cleans and disinfects.

"Flatterers" OR The Shadow of the Future.

CHAPTER XXIX.

If there be truth in the adage, "Coming events cast their shadows before them," the result of Mr. Drayton's well-planned gift to Dr. Dacie may be taken as apt example of the same, for it certainly brought professional luck back to the gate which seemed prophetic of better things that followed.

Whether the cob had anything to do with mending matters, or whether, having had their turn in the trough of the sea, they were now to rise on a crest of the wave again, must remain a moot question, but just now the outer ring of patients began to discover that after all they preferred the old doctor to his younger rival, whose bills were apt to be as long as his learned phrases. Moreover, "Alexander McAndrew, Esq., M.D." as he preferred to be addressed, made a grand blunder in his first visit to Oakleigh Place. Misled by an inaccuracy of message, he had gone spanking off thither on the day Mr. Drayton was at St. Clair's. In delighted anticipation of physicking through some complicated disease, the earl or countess, or a lady daughter at least, building on that base vision of county practice that would turn his dog-cart to a brougham, his "buttons" to a full-blown groom! But woe to his ambition! The patient was the housekeeper. The malady a simple sprain. Alexander McAndrew felt hugely disgusted, and revealed his feelings. When his back was turned, "We won't trouble that young man to come here again!" said the housekeeper, and the fruit of that affront was a summons for Dr. Dacie, and Dr. Dacie only, when a month later an upper housemaid fell ill with sore throat. "The Scotch gentleman don't seem to think us servants worth troubling for, my lady," Mrs. Pounce had reported, and that settled the Scotch gentleman's business. So what was one man's poison was another man's meat. Sir servants obligingly took sore throat one after another. Dr.

Lascelles, P.O. "During the Change of Life I felt so weak and run down I could hardly do my work. The perspiration would pour over my face so that I couldn't see what I was doing. We live on a farm, so there is lots to do, but many who felt as I did would have been in bed. I took Lydia E. Pinkham's Vegetable Compound and it did me a world of good. I tried other remedies but I put Vegetable Compound ahead of them all, and I tell every one I know how much good it has done me."—Mrs. DUNCAN BROWN, Lascelles, Prov. Quebec.

TO WOMEN OF MIDDLE AGE

This Woman's Letter Tells You How To Pass The Crisis Safely.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dizziness, palpitation, fainting, headache, dizziness, and all the ailments which attend the change of life, are caused by the weakness and disordered condition of the system. Lydia E. Pinkham's Vegetable Compound carries them safely through this crisis as it did Mrs. Brown.

Are invited to write for free advice. No other medicine has been so successful in relieving women suffering from all the ailments mentioned above. Women may receive free and helpful advice by writing the Lydia E. Pinkham Medicine Co., Lynn, Mass.

Dacie tended them carefully and kindly. When the epidemic attacked Lady Gertrude. He treated her with precisely the same kindly care, mixed with old-fashioned courtliness, which pleased immensely. Then he put a feather in his cap by discovering a mischievous grain; established himself as Lord and Lady Comyngham's trusted medical adviser, and by consequence soared into popularity again throughout the neighborhood. Other people besides those at Oakleigh paid their bills promptly, and Mary soon picked up lucky-pennies enough to pay hers.

The doctor found prosperity better medicine for himself than any in his dispensary. His wife brightened up like the affectionate old satellite she was; and if his daughter's satisfaction at this new turn of the wheel had any flaw she kept it well and unobtrusively in the domestic back-ground.

It was on one of those last May days when great perplexities were approaching at Wynstone that events not unconnected with them were in progress at St. Clair's. At noon Brownie had just trotted off with Dr. and Mrs. Dacie to lunch with an old acquaintance at a distance. Very cheerfully the elders had started on their modest excursion, ashamed of herself for having to make an effort in refecting their beaming good byes, their daughter turned in-doors with the wise determination not to sit down and give rein to the depressions that overhung her, but rather to disperse it by some vigorous distraction. A neatly labeled phial in the hall gave her the plea for a six-mile trudge. Her mid-day meal the matter for a few minutes only, she released the factotum to Brownie, and the gardener from his errand to Oakleigh Lodge, undertook herself to deliver the medicine there, left word where she was going, and hither set forth in all the freedom of having no one by to see if she were looking glad or sorry.

For a minute she had debated over best or second best hat, deciding for the latter; a suspicious haze was coming up with the wind; and moreover, as she thought rather wearily, out of tune with the mild, promising day, "Nobody cares how I look!" so in some-thing else altogether of the west, her mind obstinately playing variations on that dirge-like theme, all the way along by the broom-girl banks and briar-scented hedge-rows.

But reaching the lodge, she had something else for a time to think of. Her knock unheard, she opened the door, with "Mrs. Rand, I have brought you baby's medicine. May I take word to my father how the little one is?" and not only the keeper's wife replied, but Lady Comyngham came forward too, greeting Mrs. Dacie most graciously.

"How kind it was to walk off for that! Just like her father, so thoughtful. And now Mrs. Rand must keep baby warm, and go exactly what Dr. Dacie told her, and Miss Dacie must positively come up to the house as she was so near, and lunch with her and the girls; no one else was at home; but she would not hear of her going that distance back without refreshment."

Vainly Mary, not at all anxious for the honor, protested she had lunched, but with good-humored impertinence marched her reluctant guest up the long drive, paying her the compliment of making just such conversation en route as set her at her ease.

"They were so fond of Dr. Dacie; so glad they had a man like him at hand. She was talking of him to her son Edward's wife the other day. And, by the way, had Miss Dacie been to see Mrs. Edward Duvesne? No? Oh, then, when would she go?"

Windor Table Salt

you mind telling me why the child went away at all? I am really asking for something beyond curiosity." Mary hesitated. "Sydney hardly gave me a plain reason, Lady Comyngham. There was, I think, some difference between her and Mrs. Alwyn. Mamma went over and spoke of it, and brought away the idea it was about a—marriage."

"But you did not think so?" "No!" Mary had to confess. "She hardly thought it was that exactly." "And you were right!" exclaimed the countess. "And I am right!" nodding to her daughters. "Mrs. Alwyn insinuated a story of an engagement to me."

"There was no engagement," said Mary. "And then some fanfare about its breaking off. But I was convinced something else lay behind that. Now there are two things that upset families. Matrimony and money. This was not matrimony. It was money. Used that pretty Cinderella, as my children called her, because she was always getting left at home, to tell you of her money arrangements, Miss Dacie?"

"Only," said Mary, naively, "that she wished she had more of it! Till—why yes, just before she went. Then she was so delighted at coming of age, for she was to have—six thousand pounds, I think, of her own."

"There!" cried the countess, excitedly. "The secret is out! Avena is told truly. Miss Dacie, be proud of your friend. She is worth her weight in gold!" Then seeing her hearer greatly bewildered by this outburst, Lady Comyngham explained how her daughter's maid had disclosed the grievous loss of her parents' savings, and Mrs. Alwyn's insulting reply to their appeal. Stopping Mary's quick "Sydney knew nothing of this!" with "of course not. Or not up to last summer. Then she must have found it out. Did I not hear of her going into the Midland counties?"

"And there probably some chance enlightened her. How was she when she came back?"

"Why"—remembering only too accurately—"changed, Lady Comyngham. I recollect it all now. And I only saw her once again—when she bade us good-bye so strangely."

"When depend on it there had been the battle royal in the meantime, and the result was, the poor wretches who lost their all through Mr. Alwyn's misfortune got paid at last with his daughter's money. Miss Dacie, I envy you your friend. I would go a good deal out of my way to shake hands with her again!" and the countess ended with Lewis' story, transmitted through Lady Avena of how the various sums had been distributed through a clerk of Mr. Alwyn's.

"Jacob Green!" cried Mary. "Yes, that was the name. And the giver of this money would not be known, though Lewis and others of the repaid list had put their wits together, and come to the conclusion it must be the only lawyer's child. (To be continued.)

"Mayflower" is Ineligible.

Capt. Angus Walters, of Lunenburg Schooner, Will Refuse to Meet Boston Entry.

Lunenburg, N. S.—Captain Angus Walters, master and part owner of the fishing schooner Bluenose, on his return from the banks reiterates a decision announced in the spring that he will decline to race his boat against the Boston schooner Mayflower, should these two vessels be chosen by the American and Canadian committees in charge of the race to compete for the Halifax Herald trophy, emblematic of the fishing schooner championship of the North Atlantic.

Captain Walters' contention is that the Mayflower is not a bona fide fisherman and for this reason cannot fairly qualify as a contestant. The Bluenose stocked 2,500 quintals of fish on her second trip to the banks. She is sailing better than she did in the spring, according to Captain Walters, who says he is willing to back her against any out and out fisherman operating in the North Atlantic.

We have many testimonials from Wholesalers stating that VICTORY BRAND CLOTHING is the most saleable line they handle. THE WHITE CLOTHING MFG. CO., LTD.—Inst. 47

Fashion Plates.

A COMFORTABLE WORK DRESS.

Pattern 3691 in here illustrated. It is cut in 7 Sizes: 34, 36, 38, 40, 42, 44 and 46 inches bust measure. A 38 inch size will require 4 1/2 yards of 36 inch material.

A PRETTY AND STYLISH DRESS FOR A YOUNG GIRL.

Brick's Tasteless

THE ONE WHO TAKES IT MUST EAT

Stop! You Need a Tonic. A bottle of Brick's Tasteless is a wonderful tonic and will certainly improve your health. Brick's Tasteless is well known as an appetizer and good strengthener. All it costs is \$1.20 bottle. Postage 20c. extra. Cheap enough for such a food medicine.

Stop that Hack. Don't blame him, he can't help it; he's had a headache for a week. But we could fix him right away. Brick's Tasteless has cured thousands of cases. It has never yet failed. Try a bottle.

Health and Happiness. The condition of the mind depends on the condition of the body, and the condition of the latter depends on the kind and quality of the medicine used. Brick's Tasteless is far superior to any other tonic for increasing weight and restoring one back to perfect health. Try a bottle.

Tune Up Your System. When you feel "draggy," "listless," "lazy," not really sick, but far from well—what you need is a new supply of rich-red blood. Brick's Tasteless helps the system and aids nature. It is a safe medicine that makes good blood, sound digestion and builds up the system.

CHEER UP! BRACE UP! Brick's Tasteless will bring relief at once. It is a tonic that runs down systems need. Cost only \$1.20 bottle. Postage 20c. extra.

BRICK'S TASTELESS can be purchased from Stafford's Drug Store, Theatre Hill, for \$1.20 bottle, Postage 20c extra. Over 2000 bottles arrived a few days ago.

Lloyd George Cancells Inverness Conference.

De Valera Insists on Absolute Independence of Ireland--Mayflower Ineligible to Race for Fishing Trophy--Bermuda in Grip of Hurricane--Barbados Vessel Lost With All Hands.

DE VALERA'S REPLY A VIRTUAL REFUSAL

DUBLIN, Sept. 15.—Eamon De Valera, in his reply to Premier Lloyd George, accepts the invitation to the proposed Inverness conference in the terms of the final paragraph of Lloyd George's last letter, but re-asserts the Sinn Fein demand for Ireland's independence as a Sovereign State, and declares that only representatives of such have Sinn Fein negotiations any authority. The text of De Valera's delivery says, "In this final issue we deem it our duty to re-affirm that our position is, and can only be, as we have defined it through this correspondence. The principle of Government by consent of the governed must be the basis of any agreement which will achieve a final reconciliation. We hope that these representatives (Sinn Fein negotiators) will find it possible to be at Inverness on the date you suggest, September 20th. Our Nation has formally declared its independence and recognizes itself as sovereign. It is only as a representative of that State, and as its chosen guardian, that we have authority or power to act on behalf of our people. We are unhesitating in declaring our willingness to enter a Conference to ascertain how the Association of Ireland with the community of Nations, known as the British Empire, can best

be reconciled with Irish National aspirations. Our readiness to contemplate such an Association was indicated in our letter of August 10th. We have accordingly summoned Dail that we may submit to it for ratification the names of the representatives it is our intention to propose. As regards the principle of government by consent of the governed, in the very nature of things it must be the basis of any agreement that will achieve the purpose we have at heart, that is the final reconciliation of our nation with yours. We have suggested no interpretation of that principle save its every day interpretation, in the sense, for example, in which it was understood by plain men and women of the world, when on Jan. 6th, 1918, you said "The settlement of Europe must be based on such grounds of reason and justice as will give some promise of stability. Therefore it is that we feel that government with the consent of the governed must be the basis of any territorial settlement in this war." These words are the true answer to the criticism of our position, which your last letter puts forward. This principle was understood then to mean the right of nations that had been annexed to empires against their will, to free themselves from the grapple of such a policy. It is a sense in which we understand it. In reality it is your gov-

ernment, when it seeks to dismember our ancient nation and to partition its territory, that would give to the principle an interpretation that would undermine the fabric of every democratic state and drive the civilized world back into tribalism. I am, sir, faithfully yours, EAMONN DE VALERA."

MEETING CANCELLED

LONDON, Sept. 15.—Prime Minister Lloyd George tonight cancelled arrangements for the Conference of Sinn Fein delegates with himself and members of his cabinet at Inverness on September 20th.

CIVIL WAR IN BELFAST

BELFAST, Sept. 15.—Rioting was renewed in the North Queen's Street area here this afternoon and two women were wounded. Troops were called out and soon the whole district was swarming with them. The area is about equally divided between Loyalists and Sinn Feiners.

MAYFLOWER RULED OUT

HALIFAX, Sept. 15.—The Boston schooner Mayflower, selected by the American Committee, as a defender of the Halifax Herald International Trophy, won by the Gloucester schooner Esperanto, last year, has been ruled out by the trustees of the Trophy on the ground that the Mayflower is not a bona fide fisherman and is therefore, ineligible as a contestant under the provisions of the deed of gift.

FISHERMEN NOT SURPRISED

BOSTON, Sept. 15.—The action of the trustees of the North Atlantic Fishermen's Trophy in barring the schooner Mayflower of this port from the proposed International Championship Race off Halifax, reported in dispatches to-day, was no surprise to New England fishermen. The question whether the Mayflower with the speed and lines of a yacht, would be accepted, has been discussed up and down the coast for months. Fishermen back from the banks, where she has plied the fisheries through the spring and summer, have come back with word of sailing stunts that made old salts of the fleet withhold entry of their vessels for the championship, conceding that the Mayflower was the queen of the fleet. Whether the action

of the trustees will be accepted as final by the United States Race Committee will be determined at a meeting to-night or to-morrow, chairman Charles D. Brown said, when he was informed of it.

THE COMING HURRICANE

HAMILTON, Bermuda, Sept. 15.—The Bermudas have been in the grip of a hurricane since midnight last night, the wind shifting from southeast to due south, to southwest, from which direction it was blowing with unprecedented fury late this morning. Telephone and electric light wires are down everywhere and property damage, it is believed, will be considerable. The hurricane gave no sign of moderating at a late hour to-day.

THE STORM IN BARBADOS

BRIDGETOWN, Barbados, Sept. 15.—The schooner Majestic with 33 passengers and crew from Demerara for Barbados is believed to have been lost in the hurricane which swept over this region on Sept. 8th. The British warship Valerian returned here to-day from an unsuccessful search for the schooner, which was commanded by Captain Barnes. Four boatmen were drowned here during the storm but only slight damage was caused to the sea front.

U.S. UNEMPLOYMENT CONFERENCE

WASHINGTON, Sept. 15.—Inauguration of a permanent policy to combat unemployment throughout the United States in future years was said authoritatively to-day to be one of the purposes of the Administration in assembling in Washington a national conference on unemployment. Primarily the United States Administration is understood to be anxious to meet immediate unemployment needs and avert any hardship from this source during the coming winter, but beyond the remedy of the moment, it was asserted, the administration would look to the conference to develop a constructive programme, which could be followed in successful years.

Published by Authority.

Under the provisions of Chapter 121, Consolidated Statutes, (Third Series) entitled "Of the Solemnization of Marriages," His Excellency the Governor in Council, has been pleased to issue Licenses to the undermentioned persons, representing the Methodist Church at the places named, authorizing them to perform the Marriage Ceremony, viz.—Messrs. Serious Fires.

Yesterday the Deputy Minister of Justice was notified by Magistrate Alcock, of Griquet, that the dwelling and contents attached to J. T. Currie's premises at Quirpon, were destroyed by fire on September 11th, and that the loss was estimated at \$4,000.

The shop of A. G. Hudson, in Island Cove, Conception Bay, was badly gutted by fire on Sunday night. About \$2,000 insurance was carried on the building and stock and the loss will consequently be a heavy one.

A fire occurred recently in the Brick Yard of Aaron Smith & Sons, Smith Sound, Trinity Bay. All the wood used in the making of the brick was destroyed. No insurance was carried on the wood but the Brick Yard itself was insured.

There have been several fires in the various outports during the past week.

SWEET, PURE MILK—always on hand when you want it!

If you have never used Libby's Evaporated Milk, you will be amazed to find how good, how convenient and economical it is. Many women who first tried it in some emergency now use it always—they find it gives such satisfactory results.

There's no waiting for the milkman—you can always keep several cans on the shelf and in summer there's no bothering with ice, and in winter the milk wagon can get stuck in a heavy drift of snow as often as it wants to!

And there's less waste—a can of Libby's Evaporated Milk will keep indefinitely before being opened—and after you have opened a can you can use just what you need; the rest, put in a cool place, will keep several days.

Libby's Milk comes from the finest dairying section of America and is processed in our own sanitary condensaries—it is not the "distributed" product of an unknown and nameless plant.

Order a tin from your grocer to-day.

Evening Telegram

W. J. HERDER, Proprietor
C. T. JAMES, Editor
Friday, September 16, 1921.

They have to find the money, if the amount named goes into loss. All the advice, all the experience of railway men outside Newfoundland should be acquired and sought in order that an economical operation of the Railway, consistent with requirements and conditions, should be obtained.

'The Veteran.'

The September number of the 'veteran', which will be for sale on tomorrow, is a most satisfactory one in every way, in its appearance and in its contents. Its cover is a handsomely designed one with a view of the Memorial to the Sergeants' Mess unveiled near the C. E. Cathedral on Memorial Day, and its printing is of a high order of excellence.

Home Reports

Herring are very plentiful at Henley Harbor and vicinity hook and line catches. The weather, however, is bad for curing the fish.

Caught Redhanded.

Early this morning two constables of the night watch arrested James Appell on Water Street East, on a charge of having stolen goods in his possession.

Shipping Notes.

S.S. Sable 1 leaves North Sydney at 2.30 p.m. to-morrow. S.S. Rosalind leaves New York at 11 a.m. to-morrow.

It took exactly 15 years to develop the flavor, crispness and texture of Post Toasties

—best corn flakes
And after you taste them it won't take you one minute to understand why 'Post Toasties' are superior

Police Court.

STOLE BAG OF PORK.—James Appell, a man well known to the police, was charged with the larceny of a barrel of pork. He pleaded guilty.

Obstructed Road.

A youth was charged with obstructing the Logy Bay Road by placing a piece of timber across it. Mr. W. J. Higgins, K.C., for the accused, entered a plea of guilty and excused it on the grounds that it was merely a foolish and thoughtless trick.

A Comfortable Camp.

Two youths were sentenced to three months' imprisonment for the larceny of a tent, a pair of hip rubbers and a troutling rod. They were arrested last night by Head Constable Byrne in a camp which they had made for themselves on the new water line.

To-Morrow's Cricket.

The Pelidians and Shamrocks will be the contesting teams in to-morrow's cricket match. The Shamrock line-up will be practically the same as that of their previous game, but there will be several changes in the Pelidian team, which will probably be as follows: M. G. Winter, Jr., R. H. Tait, A. Martin, H. O. Hayward, G. Hunt, N. Hunt, W. J. Clouston, F. Bennett, C. E. A. Jeffery, W. A. Reid, H. A. Winter.

Mr. Shano's Telegram.

The following telegram was received from Mr. A. W. Shano, Newfoundland Postmaster at North Sydney, in reply to a message from President Ayre of the A. A. A. informing him that our athletes were leaving by Thursday's express.

A Lengthy Remand.

Mr. G. W. B. Ayre asked in court this morning what had become of three men whom he had been engaged to defend on a charge of forgery. It was now over 30 days since these men had been placed on remand and he had heard nothing about the case.

Fish and Oil Market.

There appears to be very little demand for codfish oil, though a superior parcel is said to have been sold at 80 cents per gallon. The prevailing price earlier in the season was 40 cents per gallon.

C. L. B. C. Parade.

Last night's parade of the C.L.B.C. was very largely attended. The following officers were present: Lt. Col. R. F. Goodridge, Major Williams, Capt. Henry and Outerbridge, and Lieut. P. B. Rendell.

Proposed Reduction.

The engineers of the Reid N. Co., at the meeting held yesterday, were unwilling to accept the proposed wage reduction of 1 1/2 per cent.

Kyle's Passengers.

The following passengers landed at Port aux Basques from S. S. Kyle at 7 a.m. to-day and are now on the incoming express due here to-morrow: Rev. M. Fenwick, P. G. McGovern, W. C. Madgett, J. D. Wright, Mrs. Mercer, Mrs. McGrath, Mrs. Kent, Mrs. O'Brien, Rev. Kerwin, H. P. Proctor, Miss Kent, Miss Carroll, Rev. Blount, Mrs. McEvany, E. St. Clair, H. F. Faris, T. H. Rogerson, Mrs. Rutin, Rev. Fr. Cacciola.

The Terra Nova Yell.

The new Terra Nova yell which has been adopted by the A.A.A. and which it is hoped will, as it should, meet with the support of local sports "fans" is as follows: "Rah! Rah! Yah! Yah! Yah! Ter-ra No-va Rah! Rah! Rah!"

Shipping Notes.

British Government Stands Firm.

Prime Minister Makes Position
Clear—Only One Possible Answer
to De Valera's Claim.

LOYD GEORGE'S REPLY.
LONDON, Sept. 15. (Special Cable.) Mr. Lloyd George cancelled the Independence Conference in his reply to the communication of Eamonn De Valera public today. The Prime Minister said he must now consult with his colleagues the course of action the situation necessitated. Mr. Lloyd George told Sinn Fein leaders that he would communicate the result of such consultation as soon as possible, but that he must make it absolutely clear that the British Government could not reconsider its position as stated by him. The text of Mr. Lloyd George's reply, which was telegraphed to-night says, "I have informed your Commissioners, who came to me here Tuesday, that I asked them to warn you of the serious effect of such a paragraph, and offered to regard letter as delivered to me, in order that you might have time to reconsider it. Despite this intimation, you have now published the letter in its original form. I accordingly cancel arrangements for a Conference next week at Inverness, and must consult my colleagues on the course of action this situation necessitates. I will communicate to you as soon as possible, but as I am for the moment laid up here, a few days delay is inevitable. Meanwhile I must make it absolutely clear that his Majesty's Government cannot reconsider its position, which I have stated to you. If we accepted a Conference with your delegates on the formal statement of the claim, which you have submitted, it would constitute an official recognition by his Majesty's Government of the severance of Ireland from the Empire, and of its existence as an Independent Republic. It would moreover, entitle you to declare as a right acknowledged by us, that in preference to association with the British Empire, you would pursue closer association by treaty with some other Foreign Power. There is only one answer possible to such a claim as that. The great concessions which His Majesty's Government made to the feelings of your people, in order to secure a lasting settlement, deserved, in my opinion, some more generous response, but so far every advance has been made by us. On your part you have done but little. You have merely reiterated in phrases of empty challenge the letter and spirit of your original claim. I am, yours faithfully, **LOYD GEORGE.**"

Is the Sailing Ship Coming Back?

(From the Chicago Tribune.)
A great deal of the beauty and romance of the sea passed with the decline of the sailing ship. There is nothing about to-day, not even an American cup winner, that could give the romantic thrill of a clipper under full sail. For speed, only a relatively few steam driven ships surpass even to-day the fastest of the clippers, which sometimes ran 350 knots in twenty-four hours.

The sailing ship gave way to the steamer because the latter was more reliable as to runs and was not hung up by calms or slowed down so much by head winds and gales, and finally could be operated in larger units. So it has been displaced forever. It survives, through chiefly under fore and aft rig, but most ocean freight is carried by the steam driven vessel.
But now there is talk of the revival of the sailing ship as a carrier. The Suez and the Panama Canals have shortened the world routes materially, coal is becoming a more expensive fuel, and oil is not so cheap. So there are interesting proposals for a return to sails. Of course there would be fore and aft instead of the old square sails, and there would be machinery for handling and an auxiliary in case of calm.

A naval architect of standing has come forward with a design of this kind, making steel use of the Diesel engine, steel wire running gear, and electricity for lighting and heating. American ships have been operating with steam engines, and the use of power would permit the operation of large units with a comparatively small crew.
In long voyages, carrying freight from the Far East to America and Europe, such ships would make good time and would be cheaper to operate than the coal burner. The problem is not a simple one, but it is by no means improbable that commerce can make profitable use once more of the cheap power supplied by nature in the great trade winds. The forward-and-aft will never match the beauty of the square rigged clipper, but with the aid of auxiliary machinery it can be made safer and far more comfortable. In such case men of the white races may be more willing to follow the sea than they have been since modern industry has made it possible to live on terra firma with the aid of good wages. Something at least of the old charm of the sailing ship may yet be recovered for the romantic and without a return of the miseries and dangers of the older sea dog's existence.

DOOR STILL OPEN.

LONDON, Sept. 15. Arrangements for the proposed Irish Home Conference are cancelled, but negotiations still are not ruptured. In brief is the story of to-day's unexpected and surprising developments. Eamonn De Valera, Irish Republican leader, having reaffirmed his desire to enter the Conference as representative of an Independent Sovereign State, Mr. Lloyd George declares that such admission is impossible. He announces the cancellation of arrangements for the Conference, and the necessity of consulting his colleagues on the subject. The Prime Minister is careful not to close the door to a possible resumption of negotiations. On the contrary he gives Mr. De Valera and his supporters ample time and opportunity to reconsider their position. He describes himself even as "laid up" with rheumatism necessitating a few days rest. The whole tone of the letter in fact reveals that the Prime Minister still retains hope of some favorable development. The fact that Mr. Lloyd George is suffering from rheumatism is mentioned at his official residence in Downing Street tonight. It was also announced that it would be necessary for the Prime Minister to remain in bed for a few days.

JUMPING FROM THE SKY.

The real designer of the parachute was Leonardo de Vinci, in 1500, although at the coronation of the Emperor Fu Kiep, as early as 1506, Chinese aerobats were seen to jump from a high scaffolding with huge parachute umbrellas.
Major Orde Lee, who has made more parachute descents from aeroplanes than any other man, considers that all passenger aeroplanes should carry life-saving parachutes, just as ships carry lifeboats and boats. In a recent lecture he referred to a scheme of lowering a whole cabinful of passengers by one great parachute.
The prevailing idea that parachutes frequently fail to open is a fallacy. In 600 parachute descents from observation balloons during the war, only three failures occurred.
Many inventors do not realize that if a parachute is much less than 2 ft. in diameter the speed of descent is fatal. In 1914 an Austrian tailor jumped from the Eiffel Tower in Paris with a combined parachute-overcoat. The apparatus worked perfectly, but as it was only one-sixth the size of a standard life-saving parachute, it descended too quickly and his inventor was killed.
The real danger of parachuting is in landing. You never know where you are going to land. Major Lee described how in July, 1920, a rival parachutist in Sweden challenged him to land on a given spot, and how he dropped from only 400 ft. and scored an "oner." His rival ascended to 5,000 ft. and landed a third of a mile away.

CUTTING THEM OUT.

LONDON, Sept. 15. A Melbourne correspondent writes that pending the trial of a man in California, a remarkable film showing in Australia has been withdrawn.
SINGAPORE, British India, Sept. 15. It is reported that a number of prominent agitators were arrested yesterday.

MELBOURNE, Sept. 15.

The Federal Government will take the decision on the question of Australian representation at the Disarmament Conference at Washington, until after the return of Premier Hughes, Lord

Royal Stores Bargain Days for Great Money-Saving Opportunities

At present, this store is particularly attractive to those who wish to buy moderately priced articles of a quality which they would never expect to find at anything near the prices charged. This standard merchandise is rendered of still greater service to the thrifty customer by the special reductions in force every **FRIDAY** and **SATURDAY**.

Civic Commission.

WEEKLY MEETING.

The weekly meeting of the Municipal Council was held last evening. Mayor Morris presided and Councillors Vintcombe, Feet, Collier, Jackman and Hallett were present.

After reading the Minutes of the previous meetings, the following matters were given consideration.

The Deputy Colonial Secretary wrote that the Communication of the Council, recommending that the Government assist the Gas Company, will be considered at the earliest opportunity.

A letter was read from Rev. Dr. W. P. H. Kitchen, asking for lease of ground near the Gas Works. Same was deferred to a Special Meeting.

Minister of Public Works Jennings informed the Board that instructions would be given to have the wooden shed near the Post Office removed.

Bishop Sons and Company wrote in relation to cabstands. This matter has been given consideration by the Council on several occasions, and a meeting is to be arranged between the Council and the Inspector General, with a view to making some improvements in this connection.

The Manager of the Imperial Oil Company referred to the necessity of having immediate repairs made to the Gasoline Road. The Engineer is to inspect and report.

Letters were received from the Secretary of the Newfoundland Motor Association (1) calling attention to the condition of LeMarchant's Road, West (2) that certain Motor Car Owners were using the 1922 Registration Number. If possible, the former matter will be given attention, while the latter will be required into and taken up with the police authorities.

M. H. Butler wrote, congratulating the Council on the improvements made at Malting's Bridge; also calling attention to the need of improving the sidewalk in this locality.

The Secretary reported that, during the past week, complaints had been received from the residents of Pleasant Street, a portion of whose property was recently appropriated for street widening purposes, asking that the grading of the street and sidewalks be attended to. Same was ordered accordingly.

Brazil's Square, Springdale Street and Freshwater Road were also ordered to be attended to.

A Deputation from the Truckmen's Protective Union, consisting of President Barber and Secretary Pover, waited upon the Council, with a view to making some arrangements whereby the cartage on Municipal Works could be more evenly divided amongst the City truckmen, many of whom were unable to obtain employment. The Council informed the Deputation they had not much employment to offer at present, but would instruct the Road Inspectors to do the best possible in this connection.

An application was received from Mr. P. J. Reardon, Theatre Hill, for permission to install an electric motor on his premises. The Engineer is to visit the place and report.

The tender of the Consolidated Foundry Company, to supply manhole top and covers, was accepted.

Mr. T. Pottle, Cornwall Avenue, complained of damage done his property by stray cattle. The Impounder will be directed to look after this matter.

An application was read from Mr. C. Miller for the position of Assistant Collector. At present, there is no vacancy, but the application was ordered filed for future reference.

F. J. Roll, on behalf of W. B. Calver, asked compensation for land taken for town improvements, Newtown Road. The matter will be settled by Arbitration.

The residents of Lime Street and vicinity asked that the Council follow up the improvements recently made at this street by improving lighting conditions.

The residents of Charlton Street petitioned for the removal of the hopper on this street. If the houses are connected with water and sewerage, the Council will accede to their request.

Residents of Angel Place, off Alexander Street, asked that the lights in this locality be attended to.

Applications for permission to make repairs and alterations to buildings were received from the following: S. Ryall, Circular Road; Monroe Export Company, Southside premises. Both were referred to the City Engineer; while the application of the Newfoundland Coal and Trading Company, Ltd. to repair and extend wharf at its premises A, Goodridge and Sons, is to be referred to the Harbor Master.

Plans submitted by Mr. M. Forward, for extension to residents Cook Street, and Messrs. Wiseman and Hawkins (shop) Factory Lane, were passed, subject to the approval of the City Engineer.

Messrs. T. and M. Winter's tender to supply cast required for the Sanitary Department, at \$3.40 per each, was accepted.

The reports of the various Departments were read; and, after disposing of several minor matters, the meeting adjourned.

League Football, St. George's Field, this evening at 8.30 sharp: Star vs. Highlanders. Admission 10c. Ladies free. Grand Stand 10c. extra.—Sept. 14.11

POWER OF THE WILL—(Continued)

Effect of Faith.—The influence of faith in the cure of disease is well illustrated by a fact mentioned in Paris's Life of Sir Humphrey Davy. In the early period of his scientific career, Davy was assisting Dr. Beddoes in his experiment on the inhalation of nitrous oxide. Dr. Beddoes thinking the oxide must be a specific for paralysis a patient was selected for trial and placed under the care of Sir Humphrey. Before administering the gas, wishing to ascertain the temperature of the patient's blood, a small thermometer was inserted under the tongue. The paralytic, wholly ignorant of the process to which he was to be subjected, but deeply impressed by Dr. Beddoes with the certainty of its success, no sooner felt the thermometer between his teeth than he concluded that the tell-tale influence was at work, and in a burst of enthusiasm declared he felt its healing power through his whole body.

Carry-over on the Experiment.—Here was an opportunity to test the influence of the mind in the cure of palsy that was not to be lost. The gas was not used, but on the following day the thermometer was again employed with equally marked effects, and at the end of two weeks the patient was discharged cured, no remedy of any kind having ever been used except the thermometer. His faith made him whole, not by accident, nor by a miracle, but by an invariable law of our being.

The Power of Faith.—Faith is a spiritual force that has accomplished wonders. It is an actual psychological or spiritual force. To believe that we can do a thing, especially if that faith is the result of an understanding of nature's laws, empowers us to do it. To believe that we are well, or that we are becoming so, excites a spiritual force within us, that goes far toward making us so.

Faith in Remedies.—If we firmly believe that a certain remedy will cure us of a diseased condition, though it has no chemical adaptation to the removal of the disorder, we shall be benefited by it. Disease has often been cured by faith alone in the patients.

Requisites in Mind-Cure.—There are two things in a patient necessary to the mind-cure. One is a desire to get well. The other is a faith in the efficiency of the remedial agency.

How Mind-Cure Acts.—Through the grand system of sympathetic nerves each organ in the body is connected with every other, and the whole with the mind. There is no part or function which cannot be affected just as certainly, though perhaps not so sensibly, by the will-force, as the muscles of the arm.

The Nerve Conductor.—The pneumo-gastric nerve, according to Evans, which distributes to all the organs within the cavity of the trunk, is the appointed conductor through which the mental force is communicated to them and influences their action. We have only to concentrate the mind's force upon any of the internal organs, as the stomach, liver or intestinal canal, and through the pneumo-gastric nerve its working will be influenced.

Mind Cure in Indigestion.—If the stomach has become exhausted of its nerve force so that it fails to do its work and the food in it is motionless and fermenting mass, according to the same authority, it can be made to obey the command of the sovereign mind. Concentrating the mind upon it, brings out spiritual force to a focus, and we may calmly and powerfully will it to proceed to business and attend to its proper work, and it will obey us as readily and as promptly as a good servant yields to the orders of his employer. The same effect may be produced upon the action of the intestinal canal.

Mind Cure for Cold Extremities.—Mental curists claim that if the blood and vital heat do not circulate through the extremities, which feel a deadly coldness, it is because the spiritual life does not permeate the tissues. We may send the spiritual principle there, by the will-force, to distribute to the negative parts their share of the vital flame.

Every Man His Own Physician.—A little practise according to Evan, will render the mind cure easy and natural, and we can become our own physician and healer without the use of actual medicine.

In my next I will give a system of Concentration Exercises in order that the reader can develop the Power of the Will.

MERCANTILE FOOTBALL.—In last evening's football match between Bishop & Sons and the Post Office teams, the former won by a score of one to nil. Mr. Chas. Quick acted as referee. These matches, which are being played between the various mercantile firms, have proved very interesting.

The Final Game.

The final game of the 1921 League football fixtures will be played tonight, when the Star and Highlanders will clash in a game, the result of which will affect the Championship. A win or draw for the kitties will give the B.I.S. first place in this year's series, whilst a win for the Star will necessitate a play off between this team and the Irish. A large gathering of spectators will probably be present to witness the game.

Great value in following goods: Pound Sheetting, Pound Shirting, Pound Flettes, Pound Peralces, Pound Chintz, Pound Tweeds. Our prices are lower than elsewhere.

China's Great Canal.

It is interesting to know that China's Great Canal at one time one of the world's great engineering wonders, is to be put in order and used again, as a route between the north and south.

The parts now blocked with mud are to be excavated, and a million and a quarter pounds are to be spent immediately. The work will be carried out under the direction of American engineers, and it is hoped that in a comparatively short period a section of one hundred miles will be made ready for navigation.

This canal, the most famous in the world, was completed in 1315, and took six hundred years to construct. It stretches of various rivers in the north, and, including these, is over two thousand miles long. The canal proper, however, is only about one hundred miles in length, but, as an English writer has said: "In magnitude our most extensive inland navigation in England can be compared to the grand work that intersects China then a garden fishpond to the great work of Windermere."

In the days of its glory the canal was a wide and deep channel, and a great river, on which large vessels could ply. The water was raised by means of sluices, and was raised and lowered by mechanical devices.

From navigation the Grand Canal has always done, it flows, and its work by draining an enormous stretch of swampy territory.

To Householders--Eggs!

Ask your Grocer for "Bull" Brand Eggs, specially selected, therefore the most reliable on the market. Every egg in the case guaranteed. Insist on seeing the registered brand, a bull's head stencilled on either end of the case. A shipment due on the "Manor", September 11th.

MUTT AND JEFF

JINRIKSHA DOES SOUND LIKE A SHOT OF HOOTCH AT THAT.

—By Bud Fisher

Visitation of Fortune Bay

BY HIS LORDSHIP THE RIGHT REV. H. T. RENOUF, D.D., BISHOP OF ST. GEORGE'S.

On Wednesday, August 24, His Lordship Bishop Renouf, accompanied by Very Rev. Dean Hawkins, Fathers St. Croix and Brosnan, arrived at St. Jacques by S.S. Daisy and were given a glad reception.

The weather being propitious it was deemed advisable to begin at once the visitation of the missions throughout the Parish. In the afternoon of the same day the Episcopal party set out for St. Bernard's where a most joyful welcome was given. Nothing was left undone by the good people to make His Lordship's stay a pleasant one. The next morning after the Holy Sacrifice was offered up, the sacrament of confirmation was administered, and at the end an instructive discourse given the children by His Lordship, and the Episcopal Blessing bestowed upon all. After partaking of breakfast at the residence of Mr. John Farrott the party left for Terrenceville by motor boat, and arrived there three hours later. As at St. Bernard's so also at Terrenceville, a very enthusiastic reception was given. Having administered the sacrament of confirmation to the children, some salutary advice was given them by His Lordship, and after thanking the people for having made his visit so pleasant, the Episcopal Blessing was imparted to all.

The next visitation was English Hr. East, which was reached in due time. The people of English Hr. not to be outdone, had prepared before hand for His Lordship's coming, and had erected on the beach a beautiful floral arch which was much admired. Having confirmed the children he instructed them as to their duties, and thanked all for their wholehearted welcome, finally bestowed the Episcopal Blessing. Amidst cheering and rejoicing the Bishop and Priests left for Recontre where they were obliged to remain, "as it was toward evening and the day was far spent."

The boat which conveyed the Episcopal party was sighted by the people of Recontre when only a speck on the horizon, and as it loomed up, volley after volley resounded from the hills.

On landing at Point Pleasant the imaginations of all were enlivened by the beauty and picturesques of the place. After a tempting repast had been partaken of at Mrs. N. Hartigan's all repaired to the Church, on the way admiring the emblems and beautiful decorations on the arches. The Holy Sacrifice was offered up next morning and the sacrament of Confirmation administered, after which His Lordship in a few well chosen remarks expressed his thanks not only to the good people of Point Pleasant but to all the people of Recontre without distinction for their very warm-hearted reception.

The next visitation was Bay du Nord. Here also an enthusiastic reception awaited His Lordship, and as the Episcopal party approached the pier volleys of musketry rent the air. Having confirmed the children, His Lordship addressed the people reminding them of their duties, and imparted the Episcopal Blessing.

After partaking of a sumptuous repast at the home of Mr. B. Farrell, the Bishop and Priests left for St. Jacques where they arrived at 9.30 p.m. to find illuminations everywhere in evidence which by the sheen they cast upon the water facilitated the approach of the welcome visitors to the shore.

At St. Jacques His Lordship was the guest of Rev. Fr. Nolan. On Sunday His Lordship offered up the Holy Sacrifice of the Mass in the Church of the Sacred Heart, and administered the Sacrament of Confirmation, after which he addressed the congregation, and thanked all for their very kind welcome.

The following address from the people of St. Jacques was presented later: To the Right Rev. H. T. Renouf, D.D., Bishop of St. George's.

We the Parishioners of St. Jacques unite in tendering to your Lordship our warmest congratulations on your elevation to the Bishopric of the Diocese of St. George's.

We feel that in you, my Lord we have one in every way fitted to watch over and guide us in the path leading to our Heavenly Father.

There is no need to reiterate the great good you have accomplished in the past for God and the Church.

That you may be blessed with good health to continue your zealous labours amongst us is our earnest prayer. We assure you, My Lord, with the help of Divine Grace, we will do our utmost to co-operate with you in all your endeavours pertaining to our spiritual advancement.

Signed on behalf of the Parishioners of St. Jacques:

A. F. Nolan, D. J. Burke, John Fewer, P. J. McEvoy, Harry Lynch, Albert St. Croix, Thos. J. McCarthy.

On Saturday evening a very enjoyable entertainment beginning with an address of welcome, was given in honor of his Lordship by the Convent pupils.

The chain of visitation ended at English Hr. West, where there was a replica of the receptions given elsewhere. After landing the Episcopal party repaired to the school where His Lordship thanked one and all for the glad welcome extended to him. Before leaving all were hospitably entertained at the home of Mr. James Pina. A little later His Lordship left for

The Japanese

in the West

The American population of the Pacific States are suffering from a real famine with regard to Japanese immigration. This country is distressed by two petitions recently drawn by them to Congress asking that the matter be discussed at the coming disarmament conference at which, at the invitation of President Harding, there will be present delegates from almost all the countries in the world.

The first of the two petitions, signed by the officials of the City of Seattle, who demanded that the conference shall not end until a definite and satisfactory settlement has been reached on the question of Japanese immigration into the States, the opinion, in their opinion, having reached such proportions as to make it one of international concern.

That Seattle has cause for alarm is evidenced by the fact that more than one out of every nine births registered in that city in 1920 were Japanese. The city lies contiguous to a rich farming district, where from one-third to three-quarters of the American population have within the past few years been displaced by Japanese. Within the limits of the city more than 1,500 Japanese commercial and industrial enterprises are in competition with American business men, and in many lines of work the Japanese have replaced or are competing with American labor.

The second petition to the President was framed by the Washington State Convention of the American Legion, which urges upon the Government the discussion at the conference of the Japanese question, which, in the opinion of the members of the Legion, is one of the most pressing international questions, and which is becoming more acute with every Japanese who enters the country. The petition points out that there is in the Western States so large an element of Japanese population as already to constitute a serious economic and social problem. Even if no more immigrants come from Japan, the black rate among those already in the Western States is so high as to assure a very large population of Japanese descent. The rate at which they may be expected to increase by birth is indicated by the fact that during the year 1920 out of 6,208 births registered in King County, in Washington State, 730 (or more than one in nine) were Japanese.

To such a height has popular indignation arisen already that there is a possibility and a danger of serious friction between the two races in the Western States. The recent expulsion at Turlock, California, of several hundred Japanese field hands by the Americans whom they had replaced was a warning of what may be expected unless the Government deals with the matter at an early date. Already, aroused by the seeming lack of interest on the part of Congress, the States of California, Arizona, Washington, Texas, Colorado, and Nebraska have, within the past few months, enacted laws aimed expressly at preventing the holding of land by Japanese. The land laws are inflexible, in the opinion of the members of the Legion, of what will surely follow, if the Federal Government fails to act. The people of the Western States are determined to take measures to protect themselves from what they regard as a serious menace.

The Government of Canada would do well to consider the same question with regard to our Western Provinces, into which they are brought hundreds of Chinese and Japanese every month. In the Western Canadian provinces these Asiatics are replacing Canadian labor, and are competing with Canadian business men in every line. They are impossible of assimilation into the Canadian race, as no self-respecting Canadian girl could for a moment consider the possibility of marrying a member of the yellow race. The problem, no doubt, has not reached the extent to which it has attained in the Western States, but it is there, nevertheless, and the Canadian Government will do well to turn its attention toward what is rapidly becoming our Western Asiatic problem. —The Sentinel.

St. George's bringing away with him impressions that will last of the kindness and loyalty to the people of Fortune Bay.—Western Star.

Can Monkeys Think?

Do monkeys think things out? In the popular mind, at least, they are credited with remarkable reasoning powers, but Professor J. Arthur Thomson, the distinguished scientist, in a fascinating study of the problem in 'Country Life,' concludes that while monkeys are often intelligent, they seldom, if ever, show even hints of reason, i.e., of working or playing with general ideas. That remains man's prerogative.

Monkeys have keen senses, a great power of manipulation, and are 'pent up reservoirs of energy.' This applies to mental activity as well as bodily activity, and the quality is one

of extraordinary interest, for it shows the experimenting mood at a higher turn of the spiral than in any other creature, save man. It points forward to the scientific spirit. Monkeys have been taught to find

their way out of the Hampton Court Maze, and to open puzzle-boxes. Professor Thomson adds: "We watched the other day two chimpanzees busily engaged in washing the two shelves of their cupboard and wringing the wet cloth in the approved fashion. It was like a caricature of a washwoman, and someone said, 'What mimics they are.'"

Now we do not know whether that was or was not the case with the chimpanzees, but the majority of the experiments that have been made do not lead us to attach to imitation so much importance as is usually given to it by the popular interpreter.

There are instances where a monkey that had given up a puzzle in despair returned to it when it had seen its neighbour succeed, but most of the experiments suggest that the creature has to find out for itself.

COAL!

We regret to have to advance our price on best Anthracite Coal to \$23.50 per ton of 2240 lbs. We expect a further advance soon.

B.L.S. Outings Concluded

The last of the weekly outings by the B.L.S. Entertainment Club was held at Donovan's last evening. A large number of people went out at 7.45 p.m. by special train. On arrival at the hostelry dancing was indulged in until early this morning when return to the city was made. These outings proved a decided success and the organizers deserve congratulations for providing such wholesome enjoyment.

STARTING DANCING CLASS.—Miss Phyllis Gibb is starting a dancing class in the Holloway Studio on Tuesday next. Miss Gibb has recently returned from New York where she took a special course in modern dancing.

Mr. F. J. King, Organist, etc.

C. of E. Cathedral, will resume teaching on Sept. 16th. Terms for Organ, Piano, Vocal and Theoretical lessons on application to Studio, 235 Theatre Hill, sep13, 21.

THE BEST SOAP FOR MEN

The daily use of GERMICIDAL SOAP keeps the skin soft and pliable and preserves its integrity and cleanliness. It is a germ destroyer. It is an odor killer. It is a disinfectant. Used habitually in hospitals and by doctors and nurses. 35c. cake.

Shipping Notes.

S.S. Sable I. arrived at North Sydney yesterday, after a good run from this port.
S.S. Europa is loading at Blanc Sablon for Job's, and the R. L. Gordon at Bonny Bay for A. E. Hickman, both cargoes going to the Mediterranean.
Schr. Mary II. has sailed for Oporto with 3,272 qts. of codfish shipped by Messrs. Harvey & Co., and for Schr. Dazile, which loaded at Planters for Messrs. Harvey & Co., has sailed for Oporto, taking 3,464 qts. of fish.
Schr. Mark H. Gray has cleared from Burin for Oporto, taking 2,454 qts. of codfish shipped by the Burin Import and Export Co.
Schr. Earl Grey, 6 days from Oporto via Grand Bank, arrived last night with coal cargo to the Nfld. Coal and Trading Co.
Schr. Omega (French) arrived from St. Pierre yesterday and will complete her fish cargo at this port.
Schr. Ellen Lake, which was loading at Halifax at the time of the fire at the Imperial Plant, had a narrow escape from destruction. The vessel's hawsers were let go just in time to save her from the conflagration.
S.S. Thetis and s.s. Sagona are now on dock where they are having extensive repairs made to their hulls.
S.S. Digby, which will leave here on Tuesday next, will take a large outward cargo.
S.S. Canadian Scaler arrived in port this morning with a general cargo from Montreal.
Est. Mrs. Stewart's Home-made Bread—extra fine.

A NEW NOVEL
by the author of "The Shepherd of the Hills,"

"Helen of the Old House,"

by Harold Bell Wright.
A stirring romance of American life today. The scene of the story is not localised but brings to mind almost any manufacturing town or community.
The chief character, "Helen of the Old House," represents the finest type of American womanhood. A beautiful love story in a colorful setting. "Helen of the Old House," sweeps to a climax that leaves one impressed anew with the vitality and force of Harold Bell Wright.
\$2.00.

The Horseless Carriage.

(A Weekly Column Devoted to the Interests of the Motoring Public.)

We are going to devote the principal part of this column this week to a report of road work done this season through the efforts of the Newfoundland Motor Association and Newfoundland Road Commission. The following is a report furnished by the Motor Association by Mr. Thos. Soper, recently, and we think it will be of unusual interest to every user of the road. When the Road Commission was formed the Motor Association, who up to that time had expended about five thousand dollars of their own money on road work, were invited to nominate three members to represent them on the Commission. In nominating Mr. Thos. Soper the Association made a wise choice, as his efforts to get the roads put in decent shape since his appointment on the Commission, (without remuneration of any kind) have been second to none, and every motor owner owes him a debt of gratitude. Following is his report for work done up to July 30th last. Unfortunately shortly after this report was made, all road work had to cease for this season, owing to shortage of funds on the part of the Road Commission:

"I have been asked to report on the work undertaken, completed and in progress on our main line of roads and I will make reference to the principal parts of the work undertaken by the Road Commission, being placed on the Commission by the Government the original plan of the Commission had to be altered to conform with the request of the Government and, in this connection, the Commission undertook to make considerable repairs to the Old Portugal Cove Road. Beginning at Stott's Bridge and extending west, this work has been in progress for about two months and a considerable portion of this road has been rebuilt by the Commission. We are quite satisfied that had this work been undertaken by our regular road foreman, considerably more progress would have been made. However, the work that has been done will be of great benefit and assistance to the Commission when we get to work on this road next season.

"Portugal Cove Hill. When the money was allocated for the Portugal Cove Road, I secured a grant of six hundred dollars to be expended in blasting out boulders, cutting off corners and widening narrow sections of this hill, and from reports that have come in, it is quite evident that the work has been satisfactory.

"Bell's Corner. This section was visited by a deputation of the Association, and having discussed the situation, it was decided to ask for tenders, or employ a suitable foreman to take charge of the work under supervision of the Commission. Not being satisfied with the tenders, the Commission undertook to do this work and asked me to supervise same. The work that has been accomplished speaks for itself and for the most part is highly satisfactory, and our only regret is that funds did not permit our continuing the same class of work on other sections that are in such poor shape.

"Sandy Harbor Road. Considerable work has also been accomplished on this road and the Commission is satisfied that when we can concentrate our efforts on any one of these roads that they can be put in very fine shape in comparatively short time.

"Torbay Road. This road has been temporarily repaired from St. John's to Cape St. Francis, and is in very fair order at present. The work accomplished this year will be of great assistance when we take up permanent repairs to this road next season. There are some very bad corners and boulder sections, but we trust to have these attended to at the beginning of next season.

It has fallen to my lot to be able to secure sufficient funds to rebuild and permanently repair this section and as far as Power's Court gate, and rebuild and widen the road covering this entire section.

"It was the intention of the Commission to start operations at the junction of the old and new roads near Wain's and to proceed east to link up with the section repaired last year near Donovan's, but, owing to the wretched condition of the road from Cowan's to the Sanatorium, it was decided to repair that section before working where at first decided. This work has progressed favorably, and in about another two weeks we trust to have a very fine section of road opening what was, possibly the worst on our main line anywhere. The Commission has also undertaken some small repairs on the cross roads leading from Thorburn Turnpike to the Broad Cove Road, but, as available funds are now expended, we are unable to undertake any more of this class of work.

"Blasting Teams. Considerable work has been accomplished by the various teams of blasting moving through Chamberlain's, Upper Gullies, Manuel's and Topsall Hill and the Commission is of the opinion that by the end of next season most of the boulder sections will have been fixed.

"Bridges. It has come to the notice of the Commission that the work of rebuilding and repairing many of our main line bridges is a very serious one, and in this connection, reports have been sent in repeatedly to the Department of Public Works, particularly has this been done in regard to Manuel's Bridge and Fowler's Bridge. We have not yet succeeded in securing an allocation from that department for this purpose.

"In conclusion I trust that members of the Association will continue to bear with us in our endeavors to make smooth roads as far as possible. When it is dusty and wet for the day, when there are stones on the road ask to have them raked off. When you come to a new section drive slowly and give all possible consideration to the road teams that are trying to make your path better.—THOS. SOPER."

"The relatives of the late _____ thank the following for sympathetically extended in connection with the sad accident when _____ his wife and three children lost their lives, through the horse they were driving, taking fright and dashing over the side of Manuel's Bridge. That item is extremely likely to be seen in the papers any day, unless the Government Department responsible for the upkeep of public bridges immediately give attention to the broken railing along the greater part of one side of Manuel's Bridge. There is a drop of about twenty feet on to clear rock on the side where the railing is torn down. We have harped on this subject in this column; we notice it is referred to in Mr. Soper's report (dated July 30th); we know the Motor Association has written letters to the authorities about it, but still nothing has been done. Is the "notice" quoted above going to be necessary before those in charge get legs under them to attend to this important and necessary repair?

"We have been accused of everything from advertising to immorality in this column, but thank the Lord we have not yet descended to "doggerel." We therefore decline absolutely to "take credit" (or responsibility) for the following anonymous contribution which was sent us through the mail this week. We would also like to say definitely that we, personally, know of no one whose name begins with "F." that we are particularly anxious to become "the rage" with. Possibly it was intended for someone else. However, here it is:

"MY CAR.
An Overland they say is safe for trips around the Bay.
But I'd trust myself to "Liz" any any day.
Unless she proved too much a shaker
When I'd pick out a Studebaker.
If I really had my choice
I'd choose to pick a Belle-Reyes,
But not a _____ at any price
Though others may.
For persons weighing half a ton
An interstational takes the fun
You cannot beat the Cadillac,
But if with F— you'd be the rage,
I find that she enjoys the Fudge.

Might we add:
"And, if you'd write her a poem sweet
Have some regard to rhythm and meter."
We notes in a recent account of the Municipal Commission meetings, that Mr. H. D. Reid in response to a request from the Commission, undertook to remove the wooden fence around his grounds in order to obviate a dangerous "blind" corner at the junction of King's Bridge and Forest Road. Mr. Reid is to be very highly commended for this action, as he has shown his willingness to relinquish the privacy of his grounds in what is certainly the public interest. We wish that another gentleman who was written to in a similar matter, and whose high road fence is responsible for a much more dangerous

Russia and Newfoundland Fish

OFFICIAL CORRESPONDENCE. Editor Evening Telegram. Dear Sir.--I beg to enclose you for publication copy of correspondence between the Council of the Board of Trade and Sir Edgar R. Bowring, High Commissioner for Newfoundland...

Yours truly, ERNEST A. PAYN, Secretary-Treasurer, Nfld. Board of Trade.

Dear Sir,--I have acknowledged receipt of your containing message sent re supplying of codfish to Russia, and the reply from your London Headquarters...

We should be grateful for any information you may receive as to the Russian markets, and the possibilities for Newfoundland Produce. We are, Sincerely Yours, (Sgd.) ERNEST A. PAYN, Secretary-Treasurer, Newfoundland Board of Trade.

Dear Sir.--The following message has reached me this morning from the High Commission Office in London, and I will be glad if you will place it before the Board of Trade for their consideration...

"Referring Board of Trade letter August 31st regarding codfish for Russia further particulars required are as follows: (1) Norwegian legislation inform me that Norway Government recently made free gift to Russia of salted codfish, salted herring and cod-liver oil, value seven hundred thousand kroner...

Friends of Mr. Wilson Vardy of Port aux Basques, will be pleased to learn that he is doing as well as can be at the General Hospital.

A. Harvey & Co.,

LIMITED.

Fashions in Furniture.

Furniture fashions vary almost every season, there is always some newly-designed chair or lounge coming into vogue.

The present trend is toward upholstered Furniture, a splendid selection of which we are now showing. Here—huge Cosy Chairs, Chesterfields and Lounges, overstuffed and beautifully upholstered in Silk, Tapestry, Damask, etc.—gladden the eye, and there is no lack of smaller upholstered articles.

U. S. Picture & Portrait Co., General Furnishers.

A Suit or Overcoat at Maunder's, selected from a splendid variety of British Woollens, cut by an up-to-date system from the latest fashions, moulded and made to your shape by expert workers, costs you no more than the ordinary hand-me-down. We always keep our stocks complete and you are assured a good selection. Samples and style sheets sent to any address.

John Maunder,

Tailor and Clothier, 281-283 Duckworth Street
