

SIEGE OF SANTIAGO.

Flag of Truce Still Flying While Terms of Surrender Are Discussed.

General Miles Finds Physical Difficulties Very Great and Commends Progress Made.

Mines Protecting United States Harbors to Be Removed for Safety of Shipping.

Washington, July 12.—The impression prevailed in official circles when public business closed for the day that the flag of truce raised in the Spanish city two o'clock yesterday was still flying, and that negotiations for a surrender were in progress.

St. John's, Nfld., July 12.—The negotiations between the colonial delegates now in London and Mr. Joseph Chamberlain, secretary of state for the colonies, are understood to be progressing favorably.

THE BISHOP MEETING. Canadian Notes on the Opening Day.—The British Columbia Doing Well.

Toronto, July 12.—Following is a special cablegram received from the National Rifle Association opened to-day under the most favorable auspices, and will continue until the 22nd inst.

Gen. Miles to-day indicated that he had found unexpected physical difficulties, but that he was apparently getting pleased with the progress made under the conditions prevailing.

The most important result of the earlier deliberations to-day was the order to remove the mines which guard all the coast ports.

Before the bay was the government accumulated a large quantity of coal at St. Thomas, West Indies, most of it being used for the bay.

Although the statement has been repeated after day that no overtures have been made to the government for peace, it may be repeated once more, in view of the stories emanating from European sources.

SANTIAGO GIVING IN. Combined Attack of Land and Sea Forces Too Strong to Resist.

Santiago, July 11, 7 p.m., via Kingston, Jamaica.—A concerted move has been made by the United States army and navy against the Spanish garrison.

Continuing. Captain-General Blanco says that a negotiation with the United States has had a deplorable effect especially among the troops.

BLANCO WANTS TO FIGHT. An Energetic Protest Against Giving Up Cuba Entirely Taken by Force of Arms.

London, July 12.—A special despatch from Santiago published this afternoon says: "Captain-General Blanco has replied to the Spanish government reiterating his protest against the proposed peace and energetically protesting against the idea."

Toronto, July 12.—The legislature is called to meet in special session on August 3rd.

Another report is that the extraordinary session of the legislature will be called to meet on August 3rd.

London, July 12.—The parliamentary secretary for the foreign office, George I. Curzon, replying in the House of Commons to a question on the subject of the

YELLOW FEVER.

Scourge Attacks American Troops at Santiago and Hastens Descriptive Movement.

Land and Sea Forces Will Join at Once in Fiercest Assault Possible.

Better for Soldiers to Be Slain in Battle Than Die of Disease in Trenches.

Washington, July 13.—It was nearly 2 o'clock when a war conference held at the White House broke up.

Some suspected cases of yellow fever have appeared among our troops, but they have been promptly isolated and it is not thought that there is any great danger of the disease spreading.

General Miles in a telegram stated that the Spanish army has several times sent in flags of truce asking for reconsideration of their terms for capitulation.

It is believed that to-day's conference was fully decided that orders should be issued to the American and Spanish forces to make a general assault upon the enemy's fortifications.

Whether this will involve the return of the army to the United States is not known, but the presumption is that the fall of Santiago the army will be re-embarked on transports and sent to the United States, where they will remain until October or even later before making a general movement upon Porto Rico and Havana.

DOMINION BANK ROBBERY.

Arrests of the Suspected Perpetrators in Montreal and Boston.

Boston, Mass., July 13.—By the arrest of Caroline Saucier in Montreal last evening followed by Edward Paraher brother, in Manchester, N.S., on Saturday, and finally by that of William Henry Helle in this city to-day, it is believed that the parties who were concerned in the robbery of the Dominion bank at Napton, Ont., on August 28, 1897, have at last been apprehended.

HAWAII'S CABLE. Contract Let for One From California to Honolulu and Thence to Japan.

The government of Honolulu according to advices received by the Miowera, which arrived last evening, have entered into a contract with the contractor for the laying of a cable from San Francisco to Honolulu, and thence to Japan, the latter section of the line being exclusive.

AN ARTILLERY EVENT. When Fighting Was Renewed at Santiago It Was Only at Long Range.

Spanish Preparing to Leave Bay. Precautions Taken to Block Their Way.

Before Santiago de Cuba, July 11 (via Antonio and Kingston).—When the fire opened from the American lines after the conclusion of the armistice the Americans were in a much better position.

It is believed that to-day's conference was fully decided that orders should be issued to the American and Spanish forces to make a general assault upon the enemy's fortifications.

Whether this will involve the return of the army to the United States is not known, but the presumption is that the fall of Santiago the army will be re-embarked on transports and sent to the United States, where they will remain until October or even later before making a general movement upon Porto Rico and Havana.

THE SANTIAGO SIEGE.

Spain Profits by Delay Attending the Fruitless Bargaining for Peace.

American Soldiers Fever Stricken and Poor Cubans Dying From Famine.

Washington, July 13.—The war department this afternoon made public the following statement concerning the state of things in the hospitals near Santiago.

On the 11th of July a telegram was received from Lt. Col. Pope, chief surgeon of Shafter's army, informing Surgeon-General that there were four cases of yellow fever in the field hospitals which had been established for the care of such cases.

It is stated that since that time information has been received that a number of additional cases have occurred. Every effort will be made to arrest the progress of the disease by the establishment of isolation hospitals in which the sick will be treated by immune nurses.

On the 13th of July the war department received despatches to-day from Generals Miles and Shafter. At the same time the military department received despatches from the fleet, of which the contents of the several despatches were not made public up to noon.

They had the effect, however, of arousing officials, both military and naval to unusual activity, and coupled with the fact of an undecurrent of apparent anxiety throughout official quarters.

The despatches led to a war council at the White House, at which Secretaries Logan and Alger, Admiral Sigsbee, Captain Mahan and Captain Crowder were also at the White House.

Before Secretary Alger went to the White House, he had received a despatch from the surgical corps near Santiago. Although no mention of the despatches were given out, those in a position to speak intelligently of them say that they are not of a material character in the situation, but rather of the severe conditions surrounding our soldiers in the hospitals.

Surgeon-General Van Rensselaer, of the White House, is reported to have said that the despatches were of a nature to draw out some of their forces to the mountains north of Santiago, have not been received. The despatches were not of a material character in the situation, but rather of the severe conditions surrounding our soldiers in the hospitals.

ed man remains in the hospital headquarters here, all the sufferers having been cured. It is reported that the hospital ship Relief, which lies off shore, it is most fortunate that the transfer was made before the rains set in, as it is difficult to provide proper shelter from storms.

A number of men are still here. Malaria fever continues to give physicians trouble, but so far our month has passed without incident. The men in General Lawton's division yesterday cut a large water main, which relieved to have been the source of the water supply for the city of Santiago.

hard work and diligent study in compiling and constructing the globe, and so far as can be learned, is a correct one in every particular. The whole is original except the geographical information, and this is credited to the various authors.

The expense for maps and illustrations was \$800 and the globe contains more than double the amount of information and detail shown in any map of the world of equal scale. Asia and Africa are especially ahead of any special map, in exactness.

The foundation for the globe is an iron frame upon which the wire which was correct half an inch thick with cotton batting soaked in glue. Above this a paste consisting of sifted sand and water was added, the depth of another half inch and all was painted over many times.

The portions representing the land were then built up in relief from blotting paper, which was also painted over many times and then rubbed down smooth, to receive the drawings.

This process has produced a shell as smooth as wood and in which all details of cracking or chipping is removed, and the whole is varnished and can be used as wood or in any other way.

Every part of the globe is covered with a thin layer of gold leaf, which is so fine that it can be rubbed off with the finger nail. The globe is painted in a light tan and the water is light blue, and every part, no matter how small, is clear and distinct.

As a result of his study upon this matter, Mr. Schrieber is convinced that the portion of the globe upon which the life is the under instead of the upper portion, and that the water and the air are in reality the South and vice versa.
